# MANAGEMENT DISCUSSION AND ANALYSIS

#### **Business and financial review**

The Group recorded total revenue of approximately HK\$105,220,000 for the six months ended 30 June 2022, representing an increase of approximately HK\$33,545,000 or approximately 46.8% as compared to the revenue of approximately HK\$71,675,000 for the six months ended 30 June 2021. The profit for the six months ended 30 June 2022 amounted to approximately HK\$16,685,000 as compared to the loss of approximately HK\$5,106,000 for the six months ended 30 June 2021. The profit attributable to owners of the Company for the six months ended 30 June 2022 amounted to approximately HK\$7,569,000 as compared to the loss attributable to owners of the Company of approximately HK\$4,003,000 for the corresponding period in 2021.

Starting from the second half of 2021, China promotes the structural reform on the supply side of coal industry, leading to tight domestic coal supply in some regions including Inner Mongolia region. The tightened coal industry policies on the supply side had leaded to the significant surge of the coal price in the Inner Mongolia region since fourth quarter of 2021. The turnaround of the Group's results for the six months ended 30 June 2022 was primarily due to the increase in the selling price of coals and the coal production output as compared to the corresponding period in 2021.

As a result, the Coal Mining Business segment reported a profit after tax of approximately HK\$21,135,000 for the six months ended 30 June 2022 as compared to a loss after tax of approximately HK\$2,127,000 for the corresponding period in 2021. During the six months ended 30 June 2022, the Coal Mining Business is reported as the only business segment of the Group.

# The Coal Mining Business

Inner Mongolia Yuan Yuan Energy Group Jinyuanli Underground Mining Company Limited ("Inner Mongolia Jinyuanli"), an indirect non-wholly owned subsidiary of the Company, operates the Group's Inner Mongolia Coal Mine 958 (the "Inner Mongolia Coal Mine 958") in the Inner Mongolia region with an allowed annual production capacity of 1.2 million tonnes. During the six months ended 30 June 2022, approximately 499,000 tonnes of coals were produced (six months ended 30 June 2021: 451,000 tonnes) and approximately 495,000 tonnes of coals were sold (six months ended 30 June 2021: 446,000 tonnes).

## The Coal Mining Business (Continued)

In 2020, local government authorities of Inner Mongolia region (the "Review Authorities") were commissioned by the State Government of the PRC to conduct an extensive compliance review (the "Compliance Review") on all the coal mines located in the Inner Mongolia region, covering inspections on all aspects of corporate matters such as production safety, sales activities, taxation, mining resources and annual reporting etc. during the past 20 years. In September 2020, the Review Authorities completed their first Compliance Review (the "First Compliance Review") on the Group's Inner Mongolia Coal Mine 958. Subsequently in the fourth quarter of 2020, Inner Mongolia Jinyuanli followed the directives of the Review Authorities to: (i) pay an administrative fine in an amount of RMB960,000 (approximately HK\$1.1 million) in relation to the sale and production of approximately 0.28 million tonnes of accumulated waste gangue in 2018; (ii) pay administrative fines in the amounts of RMB5 million (approximately HK\$5.6 million) and RMB2.6 million (approximately HK\$2.9 million) respectively for the use of land and the construction of buildings in the past years; and (iii) enter into the Contract for State-Owned Construction Land Use Right Assignment (國有建設用地使用權出讓合 同) with the Huolinguole Natural Resources Bureau (霍林郭勒市自然資源局) whereas a land premium of RMB11.6 million (approximately HK\$13.0 million) was paid in November 2020. As at the date of this report, Inner Mongolia Jinyuanli had submitted the application for the grant of the real estate ownership certificates (不動產所有權證) and it is pending for the approval.

Subsequent to the completion of the First Compliance Review, Inner Mongolia Jinyuanli had successfully renewed its: (i) safety production permit (安全生產許可證) approved by the State Administration of Coal Mine Safety of Inner Mongolia (內蒙古煤礦安全監察局); and (ii) coal mining license (採礦許可證) approved by the Tongliao Natural Resources Bureau (通遼市自然資源局), both of which were extended for a term of three years until 24 September 2023 and 26 October 2023 respectively. In 2021, the Review Authorities revisited Inner Mongolia Jinyuanli to commence a more in-depth Compliance Review (the "Second Compliance Review") in connection with workplace safety and coal resources issues.

During the year ended 31 December 2021 and six months ended 30 June 2022, administrative fines of RMB910,000 (approximately HK\$1,098,000) and RMB170,000 (approximately HK\$205,000) were paid for certain workplace safety matters respectively.

In view of the uncertainties brought by the COVID-19 outbreak and current conditions of our production facilities, the annual coal production output of our Inner Mongolia Coal Mine 958 is expected to remain at around 900,000 tonnes.

Impairment assessment review on property, plant and equipment, intangible asset and right-of-use asset of the Coal Mining Business segment

The management of the Company has performed an impairment assessment review on the carrying amounts of the property, plant and equipment, intangible asset and right-of-use assets under the non-current assets of the Coal Mining Business cash generating unit (the "Coal CGU") at each of the reporting period. The recoverable amounts of the Coal CGU were estimated based on the value in use calculation, determined by discounting the future cash flows to be generated from the continuing use of these assets. The key assumptions of the cash flow projections were made based on the current business and financial conditions of Inner Mongolia Jinyuanli. An independent professional valuer has been engaged by the Company to review the appropriateness and reasonableness of the assumptions applied in the cash flow projections, and conduct a valuation on the Coal CGU.

The key assumptions and parameters adopted in the cash flow projections of the Coal CGU as at 30 June 2021, 31 December 2021 and 30 June 2022 are set out below:

Impairment assessment review on property, plant and equipment, intangible asset and right-of-use asset of the Coal Mining Business segment (Continued)

#### Notes:

- (2) The estimated unit selling price of coal was determined by referencing to: (i) the current unit selling price of coals of approximately RMB180 per tonne (including value-added tax); (ii) the prevailing market price of coals in the Inner Mongolia Region; (iii) the historical average unit selling price of coals produced by Inner Mongolia Jinyuanli over past few years; and (iv) the increase in the selling price of the coals produced since fourth guarter of 2021.

#### **Prospects**

Benefit from the rebound of China's economy, certain policies on restriction of imported coal to China and the increased demand in the domestic coal market, the overall market prices of coal among the coal industry have been increased significantly since the second half of 2021.

Given the current favorable coal market conditions, our Coal Mining Business recorded a satisfactory financial performance during the first half of 2022. Nevertheless, under the guidance of China's energy supply and price stabilisation policy, the selling price of our coal has recently dropped slightly as compared to the fourth quarter of 2021. In view of current market trend, we expect the market selling price of coal will remain at current level in the second half of 2022.

On the other hand, the management of the Company will closely monitor the market conditions in order to seize strategic opportunities arising from the energy and mining sectors as the Group's new growth drivers, leveraging the competitive edge of our management expertise in the mining and exploration industry.

Furthermore, the Group will further strengthen work safety awareness among all employees to ensure production safety and closely monitor the development of the pandemic, economic development and policy changes to timely adjust our business strategy.

Moving forward, the Group will continue to implement further cost saving measures and funding management with an aim to strengthen its capital base and enhance its financial position for future business opportunities. The Company aims to broaden its business scope and benefit from the diversified return in the future to create greater return to our shareholders.
