MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Development Trends of the Industry

According to data from the State Administration for Market Regulation, in the first half of 2022, 14.540 million new market entities were established nationwide, representing a year-on-year increase of 4.3%. As of the end of June 2022, there were 161 million registered market entities nationwide, representing an increase of 4.4% over the end of 2021, of which 50.389 million were corporate entities, representing an increase of 4.1% over the end of 2021. The number of market entities across the country remained basically stable and still achieved a net growth. During the Reporting Period, although the development of various market entities encountered some new situations and new difficulties, with the continuous increase of national policy support, the resilience for development of the market entities have also been continuously enhanced.

During the Reporting Period, the Pandemic spread rapidly and sporadically in China. The Chinese government effectively coordinated Pandemic prevention and control with economic and social development, increased the intensity of macro-policy adjustment, and effectively implemented a package of policy and measures to stabilize the economy. The rebound of the Pandemic was effectively controlled, and the national economy stabilized and rebounded. The National Development and Reform Commission, the Ministry of Industry and Information Technology, the Ministry of Finance and other relevant departments jointly issued the "Certain Policies on Promoting Steady Growth in the Industrial Sector" and "Certain Policies on Supporting the Development of Hard-hit Service Sectors", while the Ministry of Finance and the State Administration of Taxation announced the "Announcement on Further Implementation of the Policy of Reducing and Waiving 'Six Local Taxes and Two Fees' for Small and Micro Businesses". Favorable policies and measures played an important role in the healthy development of MSEs. In addition, under the strategic opportunity of the rapid development of the digital economy, MSEs actively sought business transformation, and the demand for digital and intelligent operation and management continued to increase.

During the Reporting Period, the Ministry of Finance implemented the "Accounting Informatization Development Plan (2021-2025)", actively promoted the digital transformation of accounting management, and promoted accounting informatization to a higher level. The "Golden Tax Phase IV" comprehensive digital electronic invoice ("all-electronic invoice") had been piloted in many places across the country. The digitalization and electronic level of invoices will be greatly improved, providing effective support for the development of the integration of invoice, finance and taxation.

The above development trends of the industry have played a positive role in promoting the rapid development of the Group in the fields of digital intelligent finance and taxation, and digital intelligent business for MSEs, and have provided a broad market space for the Group to grow.

Principal Business and Operating Conditions

During the Reporting Period, the Group focused on the two major fields of digital intelligent finance and taxation and digital intelligent business for MSEs, and continued to carry out product application innovations in the fields of "new finance and taxation, new commerce, new retail, new manufacturing and new service" ("Five-New"). Product application scenarios were further expanded, and product competitiveness was continuously enhanced. The Group adhered to the development of ecological co-prosperity, effectively expanded sales channels, implemented categorized and classified operation of partners, improved terminal market coverage, strengthened customer success operations, maintained high growth in SaaS subscription revenue, and achieved rapid growth in the total revenue. The successful transformation of cloud service business had achieved remarkable results.

During the Reporting Period, the Group achieved revenue of RMB335.10 million, representing an increase of 56% over the same period of last year, of which revenue from SaaS subscription was RMB177.64 million, representing an increase of 78% over the same period of last year, the proportion of revenue from SaaS subscription to total revenue reached 53%; contract liabilities from SaaS subscription was RMB467.62 million, representing an increase of 32% over the end of last year. The loss attributable to owners of the parent was RMB78.47 million. Due to the significant increase of income, loss decreased by 42% as compared to the last corresponding period, loss attributable to owners of the parent was RMB134.49 million in the last corresponding period; the basic loss per share of the Group was RMB0.262, as compared to basic loss per share of RMB0.453 for the same period of last year.

During the Reporting Period, the number of new paying enterprise users of the Group's cloud service business reached 62,000; as of the end of the Reporting Period, the number of paying enterprise users of cloud service business reached 459,000 in aggregate.

1. Development of Products

(1) Digital intelligent finance and taxation, strengthening the core advantage of cloud finance and taxation

During the Reporting Period, under the guidance of the "Golden Tax Phase IV", the product continued to optimize the stable operation of invoice management and the connection between invoices to finance and invoices to taxation. Chanjet Good Accountant continued to expand the scope of cooperative banks for bank-enterprise interconnection, synchronizing bank transaction data in real time, and further enhancing the comprehensive capability of invoice, finance, tax, fee, bank and filing. Chanjet Easy Accounting Agent focused on strengthening the integration with WeCom to improve the customer service capabilities of account agencies; vigorously developed one-click tax declaration, and directly connected through RPA and tax declaration interfaces to improve the tax declaration efficiency of account agencies.

During the Reporting Period, digital intelligent finance and taxation continued to strengthen its ecological cooperation capabilities. Good Accountant had built five open platforms, flexibly adjusting embedded product methods in combination with ecological scenarios, facilitating rapid integration with partners, achieving cooperation and drainage, and expanding market coverage.

(2) Digital intelligent business, strengthening the advantage of business-finance integration

During the Reporting Period, the Group focused on creating digital and intelligent application products in new commerce, new retail, new manufacturing and new service areas. In response to the digital transformation of retail enterprises, especially the business needs of retail enterprises during the Pandemic, new retail had strengthened the relevant characteristics of intra-city e-commerce and community group purchases, released the applications of multionline stores in connection with offline stores, and improved the franchise model to further meet the needs of MSEs for online transformation. Along the front-edge, new commerce achieved connection and coordination with brand owners through BC integration, further improving the efficiency of the industrial chain; in the back-edge, it strengthened WMS warehousing management and TMS logistics and distribution management to help commercial enterprises reduce operating costs. New manufacturing further strengthened the support for machinery, electronics, food, chemical industry and other industries, optimized the functional modules of smart workshops, and provided efficiency optimization solutions for the digital and intelligent transformation of manufacturing MSEs. New service continued to enhance the project management functions of construction and installation, engineering installation, information technology, business services and other industries, and realized the integrated project management of project progress, contract management, material management, cost control, finance and taxation management, etc. to provide effective assistance for the development of productive service enterprises. In addition, Chanjet "Intelligent+" had changed its name to "Good Business and Finance (好業財)", while carrying out product upgrades to help MSEs achieve comprehensive integration of business and finance with socialization, automation, Al, and scenario-based features.

(3) Open platform, accelerating the development of ecological open integration capabilities

As of the end of the Reporting Period, more than 1,100 ISV partners had settled in the Chanjet's Open Platform and released more than 400 applications in total, which integrated with the Group's core SaaS products T+Cloud, Good Business and Finance, Good Business, Good Accountant, etc., connected a total of 26 vertical sub-industry application scenarios, further enriched product functions, and effectively enhanced the competitiveness of the Group's SaaS products and expanded revenue sources.

2. Development of business operation

During the Reporting Period, the Group continued to promote channel coverage and diversified layout and channel layout continued to penetrate into markets in lower-tier cities, while actively expanding diversified cooperation with ecological partners. The number of partners increased by 10% as compared to the last corresponding period. In order to help MSEs to quickly realize the transformation and upgrading of digital and intelligent operation, the Group launched the "Five-New" fields of industrialized in-depth business strategy, focusing on the "Five-New" fields, emphasizing the ten sub-sectors to lead the country's channel partners to conduct in-depth operations and attract customers. Actively responding to the Ministry of Industry and Information Technology's "Certain Measures to Assist Small, Medium and Micro Enterprises to Mitigate Difficulties", we fully realized the Company's advantage as a national public service demonstration platform for small and medium-sized enterprises, and led channel partners across the country to carry out over a thousand "520 Together benefiting enterprises and caring for small and micro enterprises" hundredcities speech campaigns, providing digital and intelligent applications public welfare trainings and free consulting services about digital marketing, new fiscal and taxation policy, all-electronic invoice application, settlement and payment, enterprise tax risk prevention and control etc., for MSEs to help them expand the market, reduce costs, and promote transformation, and to help them use digital means to improve their business quality and control business risks. The Group continued to strengthen the community operation of its software business customers, promoted the transformation of software users to digital intelligence, continued to implement the favorable strategy of software migration to the cloud, and promoted the integration and migration of software users to the cloud.

During the Reporting Period, in the direct sales channel, the Group established a marketing system centered on user growth and user operation, forming a full-life-cycle marketing link of "online customer acquisition, business opportunity exploration, sales conversion, and customer success". We expanded online customer acquisition channels, implemented precise delivery and refined operation systems; actively carried out social marketing, expanded traffic cooperation channels, and sought potential customers; regularly published short videos about finance and taxation to seize short video channel traffic, and used group operation, community operation, in-product operation and other means to establish a marketing system of "consultant matrix of customer acquisition + online marketing transformation" for the improvement of large-scale customer acquisition capabilities and sales conversion efficiency.

During the Reporting Period, in the ecological cooperation channel, the sales volume of the Group's SaaS products in the Alibaba Cloud market and Huawei Cloud market continued to lead the industry. The sales on office collaboration platforms such as DingTalk, WeCom, and Feishu achieved rapid growth, and we co-created and promoted products with Tencent Cloud and China Telecom Tianyi Cloud to further expand sales channels.

3. Development of brand and market

During the Reporting Period, the National Industrial Information Security Development Research Center officially announced the "Typical Cases of Digital Transformation of Small and Medium Enterprises", and Chanjet T+Cloud was selected as a solution case for application scenarios to provide a reference for more small and micro enterprises to realize specified and innovative development through digital transformation. As an excellent partner in the Huawei Cloud market, Chanjet won the "Best Sales Black Diamond Award" and the "Millions Club Award" from Huawei Cloud. As one of the first certified partners of Alibaba Cloud Compute Nest, Chanjet won the "Best Practice Award" of Alibaba Cloud for its long-term focus in the fields of finance, taxation and business cloud services of MSEs, as well as the outstanding cooperation results between the two parties.

4. Development of employees and organizations

As of the end of the Reporting Period, the total number of employees of the Group was 1,189. In order to support the rapid development of cloud service business, the Group optimized its organizational structure, fully enhanced its organizational capabilities, and strengthened the building of cultural values. The Group strengthened the training and development of key positions and core talents, matched the corresponding training programs, created an empowerment system that combines combat and training, and comprehensively improved the capabilities of employees. We set up expert teams of various sequences and continue to strengthen the construction of senior talent teams. In terms of talent retention and employee incentives, we implemented long-term incentive measures to mobilize the enthusiasm and creativity of management team members and core backbone employees, and continuously improved organizational competitiveness.

PROSPECT

The Group will continue to focus on the two major fields, namely digital intelligent finance and taxation, and digital intelligent business for MSEs, adhere to the principle of customer success, continue to enhance product competitiveness, expand sales channels, adhere to ecological co-prosperity development, further enhance market coverage, maintain rapid SaaS subscription revenue growth, achieve breakthrough growth in total revenue, and seize the leading position in the cloud service market for MSEs.

 The absolute lead of the core advantage of digital intelligent finance and taxation products, enhancing the competitive advantage of digital intelligent business products, and strengthening the comprehensive competitiveness of business and finance integration products

STAFF REMUNERATION POLICY AND TRAINING PLAN

The Group has established a market-based, competitive and performance-oriented remuneration plan with reference to market standards, employee performance and contributions. Remuneration of the staff of the Group is determined by taking into consideration their respective rank of positions, segment, business line, region, etc. Remuneration of the staff includes basic salary, performance-based bonus and allowance. The Group has paid housing fund and social insurance for its employees on a monthly basis in compliance with relevant national and local laws and regulations regarding labor and social insurance which includes pension insurance, medical insurance, unemployment insurance, maternity insurance and occupational injury insurance, etc. During the Reporting Period, details of the remuneration of the staff charged to the Group were set out in the note 5 to the financial statements. In order to attract, retain and motivate key talents needed for the achievement of the Company's strategic objectives, the Company has adopted the Employee Trust Benefit Scheme, the Point Scheme, the Employee Share Ownership Scheme and the Long-term Incentive Bonus Scheme. For details, please refer to the paragraphs headed "EMPLOYEE TRUST BENEFIT SCHEME", "LONG-TERM EMPLOYEE INCENTIVE POINT SCHEME", "EMPLOYEE SHARE OWNERSHIP SCHEME" and "LONG-TERM INCENTIVE BONUS SCHEME" set out below.

In accordance with Chanjet Employees Training Management System (暢捷通員工培訓管理制度) and Chanjet Lecturers and Courses Management Measures (暢捷通講師與課程管理辦法), the Group has established and implemented an annual training plan. During the Reporting Period, the Group focused on improving the leadership of cadres, the general capabilities of employees and the professional competence of experts. According to the established hierarchical training plan, the Group carried out online live streaming courses of "Workplace Exploration (職場探能)" for employees of different job sequences, departments and levels to improve general capabilities. The Group launched the basic leadership training program of "Spark Project (星火計劃)" for new cadres, and introduced external lecturers to provide professional trainings to core experts.

EMPLOYEE TRUST BENEFIT SCHEME

The Company adopted the Employee Trust Benefit Scheme at the annual general meeting convened on 8 June 2015. The Employee Trust Benefit Scheme is a long-term incentive scheme designed for the scheme participants of the Company and its subsidiaries, with the Company's Domestic Shares and/or H Shares as target shares, trust beneficial right subject to effective conditions as incentive tool and trust benefit units determined by the trustees as unit of measurement. The Employee Trust Benefit Scheme has been amended at the annual general meeting convened by the Company on 18 May 2016. For details about the specific terms of and amendments to the Employee Trust Benefit Scheme, please refer to the announcements of the Company dated 13 April 2015, 8 June 2015, 31 March 2016 and 18 May 2016, respectively, and the circulars of the Company dated 23 April 2015 and 29 April 2016.

The Company has completed the grant of all of the trust benefit units under the Employee Trust Benefit Scheme. Save and except for certain scheme participants who haven't fulfilled the unlocking conditions, and certain scheme participants who agreed to abandon his/her trust benefit units which are subject to lock-up since they have joined the Point Scheme of the Company, the other trust scheme units have been unlocked pursuant to the scheme and can be exercised accordingly.

As at the end of the Reporting Period, the actual amount of proceeds used by the Company for the Employee Trust Benefit Scheme was approximately HK\$74.93 million.

LONG-TERM EMPLOYEE INCENTIVE POINT SCHEME

In order to motivate the enthusiasm and creativity of the management team members and the core and key employees of the Company, promote the strategic transformation of the Company, and build a global leading financial and management service platform for MSEs, the Board has approved the adoption of the Point Scheme on 29 March 2019. In order to give full play to realise the purpose of continuing incentivity of the Point Scheme, on 25 May 2020, the Board has, pursuant to the Point Scheme, considered and approved the resolution to amend a term of the Point Scheme in relation to the limit on the number of points to be granted. According to the amended Point Scheme, a certain number of points will be granted by the Company to the participants annually over a three-year period during the validity period of the Point Scheme. After the conditions precedent for the points have been satisfied, the number of effective points shall be determined in accordance with annual performance, and the point proceeds shall be calculated accordingly. The point proceeds shall be redeemed in cash and distributed to the participants in installments. The total number of effective points after being granted during the validity period of the Point Scheme shall not exceed 150,000 points. For details on the specific terms of and amendments to the Point Scheme, please refer to the announcements of the Company dated 29 March 2019 and 25 May 2020, respectively.

In light of the adoption of the Employee Share Ownership Scheme and the Long-term Incentive Bonus Scheme by the Company on 28 December 2020, the Board considered and approved the cancellation of the granting of points to the participants in 2021 (the "Cancellation of 2021 Point Grant"). For details, please refer to the announcement of the Company dated 28 December 2020. The Cancellation of 2021 Point Grant will not affect the validity of the points granted pursuant to the Point Scheme. For the 60,655 effective points granted under the 2019 initial point grant and the 2019 supplemental point grant, and the 49,174.28 effective points granted under the 2020 initial point grant and the 2020 supplemental point grant, the corresponding point proceeds that are not yet distributed shall continue to be paid to the participants in installments in accordance with the provisions of the Point Scheme.

EMPLOYEE SHARE OWNERSHIP SCHEME

In order to improve the incentive constraint mechanism of the Company to attract, retain and inspire the mid-level and senior management and key personnel, who are essential for the Company in realizing its strategic goal, to motivate the initiative, enthusiasm and creativity of the existing employees of the Company, and to facilitate the alignment of the understanding of the employees and the Company in relation to the medium and long-term strategic goals and the capital plan of the Company and jointly promote sustainable, healthy, rapid growth of the business of the Company, the Company approved and adopted the Employee Share Ownership Scheme at the extraordinary general meeting held on 28 December 2020. For details of the Employee Share Ownership Scheme, please refer to the announcements of the Company dated 23 November 2020, 28 December 2020 and the circular of the Company dated 10 December 2020.

On 28 December 2020, the Board has considered and approved the grant of the incentive shares under the Employee Share Ownership Scheme, being 15,412,716 Domestic Shares, representing approximately 7.10% of the Company's total issued share capital as at 28 December 2020, to 158 Employee Share Ownership Scheme participants. The incentive shares shall be unlocked in three tranches on the respective unlocking date. The unlocking dates are the first trading day after the expiry of the second anniversary, third anniversary and fourth anniversary of the grant date, upon which and subject to the satisfaction of the unlocking conditions, 40%, 30% and 30% of the incentive shares shall be unlocked. Further details of the grant of the incentive shares under the Employee Share Ownership Scheme are set out as follows:

Note: The Company issued five (5) capitalization shares to all shareholders of the Company for every ten (10) shares being held by way of the transfer from capital reserve to share capital in October 2021, therefore the number of the incentive shares granted above will increase correspondingly.

The abovementioned incentive shares have been transferred by Yonyou, the controlling shareholder, to the Shareholding Platforms at the price of RMB9.16 per share on 23 November 2020, and will be subject to the lock-up provisions under the Employee Share Ownership Scheme. The funds involved in the holding of the incentive shares shall be contributed in cash and paid in one lump sum by the Employee Share Ownership Scheme participants in accordance with the terms of the Employee Share Ownership Scheme, and the source of which shall be their lawful salaries, self-raised funds and other methods as permitted under the laws and regulations.

LONG-TERM INCENTIVE BONUS SCHEME

In order to improve the incentive constraint mechanism of the Company to attract, retain and inspire the mid-level and senior management and key personnel, who are essential for the Company in realizing its strategic goal, to motivate the initiative, enthusiasm and creativity of the existing employees of the Company, and to facilitate the alignment of the understanding of the employees and the Company in relation to the medium and long-term strategic goals and the capital plan of the Company and jointly promote sustainable, healthy, rapid growth of the business of the Company and realize the comprehensive transformation of cloud business, to achieve the planned strategic goal, the Company approved and adopted a Long-term Incentive Bonus Scheme at the extraordinary general meeting held on 28 December 2020. For details of the Long-term Incentive Bonus Scheme, please refer to the announcements of the Company dated 23 November 2020, 28 December 2020 and the circular of the Company dated 10 December 2020.

On 28 December 2020, the Board has considered and approved the list of the participants under the Long-term Incentive Bonus Scheme, which comprises Mr. Yang Yuchun, the executive Director and the President of the Company, and 157 other mid to senior level management personnel, experts and key personnel of the Group. Subject to the satisfaction of the relevant appraisal conditions, the bonus shall be paid in three tranches within three months after the respective appraisal date. The appraisal dates are the first working day after the expiry of the second anniversary, third anniversary and fourth anniversary of the date of determination of the Long-term Incentive Bonus Scheme participants. The amount of the bonus payable for the corresponding tranche shall be calculated based on the corresponding bonus appropriation ratio to be determined by the Board.

BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING **POLICIES**

2.1 **Basis of preparation**

The interim condensed consolidated financial statements for the six months ended 30 June 2022 have been prepared in accordance with IAS 34 Interim Financial Reporting issued by the International Accounting Standards Board, and the disclosure requirements of the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange. The Group has prepared the financial statements on the basis that it will continue to operate as a going concern. The Directors consider that there are no material uncertainties that may cast significant doubt over this assumption. They have formed a judgement that there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future, and not less than 12 months from the end of the reporting period.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2021.

The interim condensed consolidated financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

2.2 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2021, except for the adoption of the following revised International Financial Reporting Standards ("IFRSs") for the first time for the current period's financial information.

Amendments to IAS 37	Onerous Contracts – Cost of Fulfilling a Contract
Amendments to IFRS 3	Reference to the Conceptual Framework
Amendments to IAS 16	Property, Plant and Equipment: Proceeds before
	Intended Use
Amendments to IFRS 1	First-time Adoption of International Financial Reporting
	Standards – Subsidiary as a first-time adopter
Amendments to IFRS 9	Financial Instruments - Fees in the '10 per cent' test for
	derecognition of financial liabilities
Amendments to IAS 41	Agriculture – Taxation in fair value measurements

2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (CONTINUED)

2.2 New standards, interpretations and amendments adopted by the Group (continued)

The nature and impact of the revised IFRSs are described below:

Onerous Contracts - Costs of Fulfilling a Contract - Amendments to IAS 37

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Group cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

The amendments specify that when assessing whether a contract is onerous or loss-making, an entity needs to include costs that relate directly to a contract to provide goods or services include both incremental costs (e.g., the costs of direct labour and materials) and an allocation of costs directly related to contract activities (e.g., depreciation of equipment used to fulfil the contract as well as costs of contract management and supervision). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

These amendments had no impact on the interim condensed consolidated financial statements of the Group.

- BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (CONTINUED)
 - New standards, interpretations and amendments adopted by the Group (continued)

Reference to the Conceptual Framework - Amendments to IFRS 3

The amendments replace a reference to a previous version of the IASB's Conceptual Framework with a reference to the current version issued in March 2018 without significantly changing its requirements.

The amendments add an exception to the recognition principle of IFRS 3 Business Combinations to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets or IFRIC 21 Levies, if incurred separately. The exception requires entities to apply the criteria in IAS 37 or IFRIC 21, respectively, instead of the Conceptual Framework, to determine whether a present obligation exists at the acquisition date.

The amendments also add a new paragraph to IFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

These amendments had no impact on the interim condensed consolidated financial statements of the Group as there were no contingent assets, liabilities and contingent liabilities within the scope of these amendments arisen during the period.

2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (CONTINUED)

2.2 New standards, interpretations and amendments adopted by the Group (continued)

Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16

The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment, any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

These amendments had no impact on the interim condensed consolidated financial statements of the Group as there were no sales of such items produced by property, plant and equipment made available for use on or after the beginning of the earliest period presented.

IFRS 1 First-time Adoption of International Financial Reporting Standards – Subsidiary as a first-time adopter

The amendment permits a subsidiary that elects to apply paragraph D16(a) of IFRS 1 to measure cumulative translation differences using the amounts reported in the parent's consolidated financial statements, based on the parent's date of transition to IFRS, if no adjustments were made for consolidation procedures and for the effects of the business combination in which the parent acquired the subsidiary. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of IFRS 1.

These amendments had no impact on the interim condensed consolidated financial statements of the Group as it is not a first-time adopter.

- 2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (CONTINUED)
 - 2.2 New standards, interpretations and amendments adopted by the Group (continued)

IFRS 9 Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. There is no similar amendment proposed for IAS 39 *Financial Instruments: Recognition and Measurement.*

These amendments had no impact on the interim condensed consolidated financial statements of the Group as there were no modifications of the Group's financial instruments during the period.

IAS 41 Agriculture - Taxation in fair value measurements

The amendment removes the requirement in paragraph 22 of IAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of IAS 41.

These amendments had no impact on the interim condensed consolidated financial statements of the Group as it did not have assets in scope of IAS 41 as at the reporting date.

2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (CONTINUED)

2.3 Issued but not yet effective International Financial Reporting Standards

The Group has not applied the following new and revised IFRSs, which have been issued but are not yet effective, in these interim condensed consolidated financial statements.

Amendments to IFRS 10 and Sale or Contribution of Assets between an Investor and

IAS 28 its Associate or Joint Venture²

IFRS 17 Insurance Contracts¹
Amendments to IFRS 17 Insurance Contracts^{1, 3}

Amendments to IAS 1 Classification of Liabilities as Current or Non-current¹

Amendments to IAS 1 and Disclosure of Accounting Policies¹

IFRS Practice Statement 2

Amendments to IAS 8 Definition of Accounting Estimates¹

Amendments to IAS 12 Deferred Tax related to Assets and Liabilities arising

from a Single Transaction1

Amendments to IFRS 17 Initial Application of IFRS 17 and IFRS 9 – Comparative

Information1

- 1 Effective for annual periods beginning on or after 1 January 2023
- 2 No mandatory effective date yet determined but available for adoption
- As a consequence of the amendments to IFRS 17 issued in June 2020, IFRS 4 was amended to extend the temporary exemption that permits insurers to apply IAS 39 rather than IFRS 9 for annual periods beginning before 1 January 2023

The Group is in the process of making an assessment of the impact of these new and revised IFRSs upon initial application.

OPERATING SEGMENT INFORMATION

During the six months ended 30 June 2021, for management purposes, the Group was organised into business units based on their products and services and had two reportable operating segments as follows:

- Software business segment engages in the sales of software, and the provision of postcontract support services; and
- Cloud service business segment engages in the rendering of cloud services.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax.

During the six months ended 30 June 2022, the cloud service business constituted a significant part of the Group's operation. Resource allocation and performance assessment are managed on a group basis.

Therefore, for management purposes, the Group's operating activities are attributable to a single reportable segment, and no analysis by operating segment is presented.

Geographical information

Since all of the Group's revenue was in Mainland China and 99% of the Group's identifiable noncurrent assets were located in Mainland China, no geographical information in accordance with IFRS 8 Operating Segments is presented.

Information about a major customer

Since no revenue amounting to 10% or more of the Group's revenue was derived from sales to a single customer during the period, including sales to a group of entities that are known to be under common control with any customer, no major customer information in accordance with IFRS 8 Operating Segments is presented.

7. DIVIDENDS

The Board did not recommend the distribution of final dividends for the year ended 31 December 2021.

The Board did not recommend the distribution of any interim dividend for the six months ended 30 June 2022 (six months ended 30 June 2021: Nil).

8. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic loss per share amounts is based on the loss for the period attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 299,637,075 (six months ended 30 June 2021: 299,637,075) in issue during the six months ended 30 June 2022, as adjusted to reflect the target shares purchased and target shares vested under the Employee Trust Benefit Scheme and the Employee Share Ownership Scheme.

No adjustment has been made to the basic loss per share amount presented for the six months ended 30 June 2022 in respect of a dilution because the impact of the shares under the Employee Share Ownership Scheme had an anti-dilutive effect on the basic loss per share amount presented.

LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT (CONTINUED)

The calculations of basic and diluted loss per share are based on:

The above equity investments as at 30 June 2022 were classified as financial assets at fair value through profit or loss as the Group has not elected to recognise the fair value gain or loss through other comprehensive income.

14. TRADE RECEIVABLES

	30 June 2022 (Unaudited) <i>RMB'000</i>	31 December 2021 (Audited) <i>RMB'000</i>
Trade receivables Impairment allowance	69,835 (740)	45,671 (483)
	69,095	45,188

Except for a few of the clients who are granted an average trade credit term around 90 days by the Group, main customers are required to make payments in advance. For Strategic and key customers, the Group's trading credit terms could be extended appropriately. The Group seeks to maintain strict control over its outstanding receivables. In view of the aforementioned and the fact that the Group's trade receivables relate to diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing. Amounts included in trade receivables were denominated in RMB.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	30 June	31 December
	2022	2021
	(Unaudited)	(Audited)
	RMB'000	RMB'000
Within 90 days	48,725	32,860
90 days to 180 days	16,914	8,786
Over 180 days	3,456	3,542
	69,095	45,188

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than three years and are not subject to enforcement activity.

15. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS

Notes:

- The share purchase fund held by the trustee for share-based payments was paid to Hwabao Trust Co., (1) Ltd. in order to purchase the target shares under the Employee Trust Benefit Scheme. As at 30 June 2022, the share purchase fund has been deposited with an agreed deposit rate and will be collected when the Employee Trust Benefit Scheme expires and the trust is liquidated.
- (2)The dividend paid for the forfeited shares held by the trustees under the Employee Trust Benefit Scheme will be collected by the Group when the Employee Trust Benefit Scheme expires, and the trust is liquidated.

15. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS (CONTINUED)

Deposits and other receivables mainly represent rental deposits and deposits with suppliers. Where applicable, an impairment analysis is performed at each reporting date by considering the probability of default of comparable companies with published credit ratings. In the situation where no comparable companies with credit ratings can be identified, expected credit losses are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. The credit risk exposure and expected credit loss for amount due from share purchase fund held by the trustee for share-based payment and deposits and other receivables were immaterial as at 30 June 2022 and 31 December 2021.

The financial assets included in the above balances relate to receivables for which there was no recent history of default and past due amounts. As at 30 June 2022 and 31 December 2021, the loss allowance was assessed to be minimal.

16. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	(Unaudited)	(Audited)
	RMB'000	RMB'000
Accrued Bonus	29,014	38,681

On 28 December 2020, the shareholder's meeting of the Company approved the adoption of the long-term incentive bonus scheme (the "Bonus Scheme") to motivate the enthusiasm and creativity of the management team members and the core and key employees of the Company.

21. LONG-TERM LIABILITIES (CONTINUED)

The appraisal dates are the first working day after the expiry of the second anniversary, third anniversary and fourth anniversary of the date of determination of the Bonus Scheme participants. Subject to the satisfaction of the appraisal conditions, the Bonus Scheme participants shall receive the bonus. The bonus shall be paid in three tranches within three months after the respective appraisal dates.

On 28 December 2020, the Board has considered and approved the list of the Bonus Scheme participants under the Bonus Scheme, which comprises Mr. Yang Yuchun, the executive director and the president of the Company, and 157 members of other mid to senior level management personnel, experts and key personnel of the Group.

During the six months ended 30 June 2022, the total amount of the long-term incentive bonus expenses recognised in profit or loss under the Bonus Scheme was RMB19,343,000 (six months ended 30 June 2021: RMB18,919,000).

22. SHARE-BASED PAYMENT

The Company operates the Employee Share Ownership Scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Employee Share Ownership Scheme include the Company's directors and other employees of the Group. The Employee Share Ownership Scheme became effective on 28 December 2020.

The total number of incentive shares to be granted under the Employee Share Ownership Scheme shall not exceed 15,412,716 domestic shares, representing approximately 7.10% of the Company's total issued share capital as at the date of the proposed adoption by the board of directors of the Employee Share Ownership Scheme. The entitlement of the number of the incentive shares of participants of the Employee Share Ownership Scheme (the "Employee Share Ownership Scheme Participants") shall be determined in accordance with the position, ranking, performance appraisal result and other relevant factors. The specific allocation criteria and proposal shall be proposed by the president committee of the Company (the "President Committee") and approved by the board of directors.

22. SHARE-BASED PAYMENT (CONTINUED)

The offer of a grant of incentive shares may be accepted upon payment of RMB9.16 for each incentive share by the grantee. The price is equivalent to 90% of the closing price of the H shares on the trading day immediately prior to the date of the proposed adoption by the board of the Employee Share Ownership Scheme (calculated based on the central parity rate of RMB against HK\$ announced by the People's Bank of China on the trading day immediately prior to the date of the proposed adoption by the board directors of the Employee Share Ownership Scheme).

The unlocking dates of the incentive shares are the first trading day after the expiry of the second anniversary, third anniversary and fourth anniversary of the grant date, upon which and subject to the satisfaction of the unlocking conditions for the corresponding assessment year, being (a) the business performance target of the Company determined and assessed by the board of directors; and (b) the performance appraisal result of the Employee Share Ownership Scheme participant determined by the President Committee, and 40%, 30% and 30% of the incentive shares shall be unlocked respectively.

Financial assets at fair value through profit				
or loss		100,618		100,618
	37,443	142,840	37,443	142,840

The Group did not have any financial liabilities measured at fair value as at 30 June 2022 and 31 December 2021.

Management has assessed that the fair values of cash and cash equivalents, trade receivables, trade payables, financial assets included in prepayments, other receivables and other assets, and financial liabilities included in other payables and accruals approximate to their carrying amounts largely due to the short-term maturities of these instruments.

24. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (CONTINUED)

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer and the audit committee. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of unlisted equity investments classified as financial assets at fair value through profit or loss have been estimated using a market-based valuation technique based on assumptions that are not supported by observable market prices or rates. The valuation requires the directors to determine comparable public companies (peers) based on industry, size, leverage and strategy, and to calculate an appropriate price multiple, such as price to sales ("P/S") and price to earnings ("P/E") multiple, for each comparable company identified. These multiple is calculated by dividing the market capitalisation of the comparable company by its total sales and net assets over a designated period. The trading multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on company-specific facts and circumstances. The discounted multiple is applied to the corresponding earnings measure of the unlisted equity investments to measure the fair value. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in profit or loss, are reasonable, and that they were the most appropriate values at the end of the reporting period.

The Group also invests in wealth management products issued by banks in Mainland China. The Group has estimated the fair value of these wealth management products by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

24. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (CONTINUED)

Below is a summary of significant unobservable inputs to the valuation of financial instruments together with a qualitative sensitivity analysis as at 30 June 2022 and 31 December 2021:

	Valuation technique	Significant unobservable input	Range	Correlation of fair value to the input
Unlisted equity investments	Market approach- valuation multiples	Average P/S multiple of peers	30 June 2022: 3.4x to 5.1x (31 December 2021: 4.7x to 6.3x)	Positive correlation
		Average P/E multiple of peers	30 June 2022: 71.2x (31 December 2021: 89.2x)	Positive correlation
		Discount for lack of marketability	30 June 2022: 17.0% to 26.8% (31 December 2021: 16.0% to 28.1%)	Negative correlation

The discount for lack of marketability represents the amounts of premiums and discounts determined by the Group that market participants would take into account when pricing the investments.
