Proposed Restructuring of the Group

On 19 June 2022, the Company, the Liquidators and iSpring International Holdings Limited (伊泉國際控股有限公司) (a limited liability company incorporated in Hong Kong owned by Mr. Wang Xiaogang who is one of the Company’s early-stage investors and a seasoned investor in the area of equity investment) (the “Investor”) entered into a non-legally binding term sheet in relation to the proposed restructuring of the Group. For details, please refer to the announcement made by the Company dated 19 June 2022.

On 18 August 2022, the Company, the Liquidators and the Investor entered into the restructuring agreement (the “Restructuring Agreement”) in relation to the restructuring of the Group (the “Proposed Restructuring”) which shall include:

Details of the Restructuring Agreement shall be referred to the announcement made by the Company dated 18 August 2022.

Subject to the terms and conditions of the Restructuring Agreement, it is expected that the completion of the Proposed Restructuring shall be conditional upon, among other things, the fulfilment of the conditions precedent to be set out in the Restructuring Agreement, including but not limited to the following:

- a. the Stock Exchange unconditionally, or under the condition(s) that are agreed by both the Company and the Investor, granting the listing of, and permission to deal in, the subscription shares and the creditors’ shares under the Debt Restructuring (if applicable), and such approval not subsequently being revoked or withdrawn;
- b. the passing of the necessary resolutions by the shareholders (who are permitted to vote under the Listing Rules and the Code on Takeovers and Mergers (“Takeovers Code”)) at the Company’s extraordinary general meeting to approve, among others, the following:

The conditions precedent (b)(iii) and (c) above are intended to be non-waivable.

Going concern basis

During the six months ended 30 June 2022, the Group incurred a net loss of approximately RMB169,610,000. As at 30 June 2022, the Group's current liabilities exceeded its current assets by approximately RMB2,740,726,000 and the Group's total liabilities exceeded its total assets by approximately RMB415,072,000. As at the date of the approval of the consolidated financial statements, the Company receives certain winding up petitions and the Proposed Restructuring as mentioned in above are subject to, among others, the approval of independent shareholders of the Company as mentioned in above.

These conditions indicate the existence of uncertainties which may cast significant doubt on the Group's ability to continue as a going concern and its ability to realise its assets and discharge its liabilities in the normal course of business. Notwithstanding the above, in view of the progress made in respect of the Proposed Restructuring of the Group (which shall compromise and discharge the indebtedness of the Company and as a result improve the liquidity and solvency position of the Group as a whole), the consolidated financial statements have been prepared on a going concern basis, on the assumption that the Proposed Restructuring of the Company will be completed and the Group will be able to improve its financial position and business upon completion of the Proposed Restructuring. The validity of the going concern assumption is dependent on the successful and favorable outcomes of the measures taken by the Group including the completion of the Proposed Restructuring as well as the successful operation and satisfactory performance of the operating companies.

The consolidated financial statements do not incorporate any adjustments for possible failure of the Proposed Restructuring and the continuance of the Group as a going concern. Should the Group be unable to continue as a going concern, adjustments would have to be made to restate the value of assets to their recoverable amounts and to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in the consolidated financial statements.

2. BASIS OF PREPARATION

The consolidated financial statements for the six months ended 30 June 2022 comprise the Company and its subsidiaries (collectively referred to as the “Group”) and have been prepared based on limited books of account and records available to the directors of the Company and the Liquidators to fulfil the Company’s responsibilities for the preparation of the consolidated financial statements in accordance with International Financial Reporting Standards (“IFRSs”), which collective term includes all applicable individual IFRSs, International Accounting Standards (“IASs”) and Interpretations issued by the International Accounting Standards Board (the “IASB”).

The Group’s businesses were severely and immediately impacted by the outbreaks of novel coronavirus since late 2019 and following to the overdue repayment of certain bank and other borrowings and convertible bonds, it accelerated the repayment obligations owned to certain creditors of the Group. Enforcement actions had been taken by creditors in the PRC against the Company’s onshore subsidiaries which carried out the business operation of the Group.

In light of the disruptions and uncertainty surrounding the Group’s operations, some of the employees of the Group, including key personnel of the management team and key personnel responsible for finance and accounting matters, had left the Group and the Group only retained a reduced number of employees to assist with the Group’s operations given the financial predicaments faced by the Group. Notwithstanding the above, the local management team indicated that the operating activities of the Group were continued to be conducted and maintained through the Group’s distributors.

In the balance of maintaining the business operations and the use of limited funds/resources available to the Group, the directors of the Company and the local management team had taken all reasonable steps to preserve and maintain the books and records of the Group that were left behind by certain former management team and key personnel responsible for finance and accounting matters, including but not limited to the management accounts, ledgers and sub-ledgers account, vouchers, bank statements, agreements and other documentations.

Despite the best endeavour of the directors of the Company and the local management team to (i) locate certain supporting documents, such as invoices, receipts and purchase orders, regarding certain business transactions; (ii) assemble the explanations on the journal entries; and (iii) retrieve the operating information from the Group’s distributors (collectively referred to as the “Specific Records”), they were unable to fully access/recover the Specific Records as a result of certain directors of the Company not being contactable despite multiple attempts as well as the resignation of certain senior management and the majority of the accounting staff. They were also unable to determine whether the Specific Records were absent in the first place or updated.

In the opinion of the directors of the Company, the historical information in respect of the Group that is available to them may not be complete and sufficient to establish an accurate and reliable view of the historical transactions and financial position of the Group and may contain significant errors. Due to limited books of account and records available to the Group and that all the former key personnel in local main operating subsidiaries responsible for sales, procurement, financing and accounting matters of the Group had left, the directors of the Company and the Liquidators believe that it is almost impossible, and not practicable, to verify the financial information as reported in the Group’s consolidated financial statements in respect of the previous years. Accordingly, the comparative financial information shown in the consolidated financial statements only represents such information as reported in the published consolidated financial statements of the Group for the year ended 31 December 2021 and therefore may not be comparable with the figures for the current six months ended 30 June 2022. The directors of the Company and the Liquidators also believe that it is almost impossible, and not practical, to ascertain the transactions and balances in respect of the six months ended 30 June 2022 included in the consolidated financial statements.

In this regard, no representation is made by the directors of the Company and the Liquidators as to the completeness, occurrence/existence, accuracy, classification, presentation and disclosures of the transactions and balances in respect of the six months ended 30 June 2022 included in the consolidated financial statements and whether the consolidated financial statements have been properly prepared in accordance with IFRSs and in compliance with the disclosure requirements of the Hong Kong Companies Ordinance and the Listing Rules.

Due to insufficient financial information, the consolidated financial statements do not contain certain disclosures under IFRSs, the Hong Kong Companies Ordinance and the Listing Rules.

The consolidated financial statements are presented in RMB, and all values are rounded to the nearest thousand except when otherwise indicated.

The consolidated financial statements have been prepared under the historical cost convention, except for equity investments designated at fair value through other comprehensive income (“FVOCI”) and derivative component of convertible bonds measured at fair value through profit or loss (“FVPL”).

The consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the 2021 consolidated financial statements except for the adoption of the new/ revised IFRSs that are relevant to the Group and effective from the current year as set out below.

Adoption of new/revised IFRSs

The Group has applied, for the first time, the following new/revised IFRSs that are relevant to the Group:

Amendments to IFRS 16	Covid-19-Related Rent Concessions Beyond 30 June 2021
Amendments to IAS 16	Proceeds before Intended Use
Amendments to IAS 37	Cost of Fulfilling a Contract
Amendments to IFRS 3	Reference to the Conceptual Framework
Annual Improvements to IFRSs	2018–2020 Cycle

The adoption of the new/revised IFRSs that are relevant to the Group and effective from the current year had no significant effects on the results and financial position of the Group for the current and prior periods.

3. FUTURE CHANGES IN IFRSs

The Group has not early adopted any new/revised IFRSs that have been issued but are not yet effective for the financial year beginning 1 January 2022. The directors are in the process of assessing the possible impact of the future adoption of these new/revised IFRSs, but are not yet in a position to reasonably estimate their impact on the Group’s results and financial position.

5. LOSS PER SHARE

The calculation of the basic loss per share amounts is based on the loss for the period attributable to ordinary equity holders of the Company, and the weighted average number of ordinary shares of 2,104,612,096 (six months ended 30 June 2021: 2,104,612,096) in issue during the six months ended 30 June 2022.

The calculation of the diluted loss per share amounts is based on the loss for the period attributable to ordinary equity holders of the Company, adjusted to reflect the interest on the convertible bonds, where applicable (see below). The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the period, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

The following reflect the loss and share data used in the basic and diluted loss per share computations:

	Six months ended 30 June

	RMB'000	RMB'000
	(Unaudited)	(Unaudited)

Weighted average number of ordinary shares for basic loss per share	2,104,612,096	2,104,612,096
Effect of dilution — weighted average number of ordinary shares:		
Convertible bonds	—	116,847,826
	<u>2,104,612,096</u>	<u>2,221,459,922</u>
Basic loss per share (RMB cents)	(7.63)	(10.01)
Diluted loss per share (RMB cents)*	(7.63)	(10.01)

* No adjustment has been made to the basic loss per share amount presented for the six months ended 30 June 2022 and 2021 in respect of a dilution as the impact of the convertible bonds outstanding, share options and restricted share units had an anti-dilutive effect on the basic loss per share amount presented.

On the basis as set out in note 2 to the consolidated financial statements, the loss attributable to ordinary equity holders of the Company may not be accurate, and no representation is made by the directors of the Company and the Liquidators as to the accuracy of the loss per share of the Company.

Trade and bills receivables mainly represent rental service receivables from distributors, receivables for air sanitisation services and receivables for sales of micro motor products. The Group usually requires a payment in advance before the installation of water purification machines or offering rental service from most of the distributors. The Group only grants a credit period to some distributors with long-term relationship and good credit history. The credit period is generally 6 months for the rental service. For sales of goods of water purification machines, the Group grants a credit term less than 90 days to the customers. For air sanitisation service receivables, the credit terms are stipulated in the relevant contracts. The credit period is generally three months with a retention period of one year. For sales of micro motor products, the Group grants a credit term of generally 3 to 4 months to the customers. The Group seeks to maintain strict control over its outstanding receivables and closely monitors them to minimise credit risk. Overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancements over its trade and bills receivable balances. Trade and bills receivables are unsecured and non-interest-bearing.

On 16 April 2021, the High Court ordered that Mr. Lai Kar Yan (Derek) of Deloitte Touche Tohmatsu and Mr. Chan Man Hoi of Deloitte & Touche Financial Advisory Services Limited (the “Liquidators”) were appointed as the joint and several liquidators of the Company.

Since their appointment, the Liquidators have been investigating into the affairs of the Company and taking all necessary actions to preserve the assets. The Liquidators only managed to obtain limited books and records from the Official Receiver and certain local management and former finance personnel of the Group, through a director of the Company. Due to limited books of account and records available, the Liquidators are not in a position to confirm the completeness, existence and accuracy of the historical results of the Group. Furthermore, the Liquidators do not accept or assume responsibility for the consolidated financial statements for any purpose or to any person to whom the consolidated financial statements are shown or into whose hands they may come. The information contained in this announcement has been presented to the best knowledge of the Company and the Liquidators based on limited information made available to them up to the date of this announcement.
