Its principal place of business in Hong Kong is located at Suite 2106A, 21/F, Exchange Tower, 33 Wang Chiu Road, Kowloon Bay, Hong Kong.

The Company is an investment holding company and its principal subsidiaries are engaged in (i) food supply; (ii) catering; and (iii) environmental protection and technology.

These unaudited condensed consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”), which is also the functional currency of the Company, and all values are rounded to the nearest thousand (HK\$’000), unless otherwise stated.

2 BASIS OF PREPARATION

The unaudited condensed consolidated financial statements of the Group for the six months ended 30 September 2022 have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“**HKFRSs**”) and the disclosure requirements of the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) and the Hong Kong Companies Ordinance (Cap.622). The unaudited condensed consolidated financial statements have been prepared on the historical cost basis.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies.

The unaudited condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s audited consolidated financial statements for the year ended 31 March 2022.

The accounting policies used in preparing the interim financial statements are consistent with those of the previous financial year, except for the amended HKFRSs issued by the Hong Kong Institute of Certified Public Accountants which have become effective in this period as per below:

Standard	Subject of amendment
Amendments to HKAS 16	Property, Plant and Equipment – Proceeds before Intended Use
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a Contract
Amendments to HKFRS 3	Reference to the Conceptual Framework
Annual Improvements to HKFRSs 2018–2020	Annual improvements

The adoption of the above amended standards does not have significant financial effect to the condensed consolidated financial statements.

3 ESTIMATES

The preparation of the unaudited condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing the unaudited condensed consolidated financial statements, the significant judgments made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited consolidated financial statements for the year ended 31 March 2022.

4 FINANCIAL RISK MANAGEMENT

4.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and interest rate risk. There have been no changes in the risk management policies since the year ended 31 March 2022.

4.2 Fair value estimation

As at 30 September 2022 and 31 March 2022, the Group did not have any financial assets or financial liabilities that are measured at fair value.

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded in amortised costs in the unaudited condensed consolidated financial statements approximate their fair values.

5 SEGMENT INFORMATION

The operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive Directors that make strategic decisions.

In the previous period, the Group operated in a single operating segment and was principally engaged in the sourcing, processing and supplying of food ingredients in Hong Kong. During the period, this operating segment was grouped in "food supply". In addition, the Group commenced engaging in businesses in catering and environmental protection and technology in the People's Republic of China ("PRC"), and these businesses are considered to be new operating and reportable segments by the chief operating decision-maker.

Specifically, the Group has 3 reportable segments, namely (i) food supply; (ii) catering; and (iii) environmental protection and technology.

(a) Segment revenue and results

The following is an analysis of the Group's revenue and results by reportable segments for the six months ended 30 September 2022 and 2021, respectively:

Loss for the period							(8,092)	(1,378)

Segment revenue reported above represents revenue generated from external customers. There were no inter-segment sales during these periods.

The accounting policies of the reportable segments are the same as the Group's accounting policies. Revenue and expenses are allocated to the reportable segments with reference to the revenue generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments. Segment results represented the profit earned or loss incurred by each segment without allocation of central administration expenses and income, including directors' emoluments, other income and finance costs. This is the measure reported to the chief operating decision-maker for the purpose of resource allocation and assessment of segment performance.

(b) Segment assets and liabilities

The following is an analysis of the Group's assets and liabilities by reportable segments as at 30 September 2022 and 31 March 2022, respectively:

10 LOSS PER SHARE ATTRIBUTABLE TO EQUITY HOLDERS OF THE COMPANY FOR THE PERIOD – BASIC AND DILUTED

Basic loss per share is calculated by dividing the loss attributable to the equity holders of the Company by the weighted average number of ordinary shares in issue during the respective periods.

	Unaudited	
	Six months ended 30 September	
	2022	2021
Loss for the period attributable to equity holders of the Company (in thousand HK\$)	(8,092)	(1,375)

20 SHARE OPTION SCHEME

The Company's share option scheme (the "**Share Option Scheme**") was adopted pursuant to the resolutions passed on 26 September 2016 so as to attract and retain the best available personnel, to provide additional incentive to employees (full-time and part-time), Directors, consultants, advisers, distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group and to promote the success of the business of the Group.

Under the Share Option Scheme, the Board may, at its absolute discretion and subject to the terms of the Share Option Scheme, grant any employee (full-time or part-time), Director, consultant or adviser of the Group, or any substantial shareholder of the Group, or any distributor, contractor, supplier, agent, customer, business partner or service provider of the Group, options to subscribe for the shares. The basis of eligibility of any participant to the grant of any option shall be determined by the Board from time to time on the basis of his/her contribution or potential contribution to the development and growth of the Group.

The maximum number of shares issuable upon exercise of all options to be granted under the Share Option Scheme is 128,000,000 shares, representing 10% of all the shares in issue upon the date on which the shares are listed and permitted to be dealt in the Stock Exchange. The 10% limit may be refreshed at any time by obtaining approval of the Company's shareholders in general meeting provided that the total number of shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Company must not exceed 10% of the shares in issue as at the date of approval of the refreshed limit. The aggregate number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option schemes of the Company must not exceed 30% of the shares in issue from time to time. No options may be granted under the Share Option Scheme or any other share option schemes of the Company if this will result in the limit being exceeded.

The total number of shares issued and to be issued upon exercise of the options granted to each participant (including both exercised and outstanding options) under the Share Option Scheme or any other share option schemes of the Company in any 12-month period up to date of grant shall not exceed 1% of the shares in issue. Where any further grant of options in excess of such limit, such further grant must be separately approved by shareholders of the Company in general meeting with such grantee and his/her close associates abstaining from voting.

Options granted to a Director, chief executive or substantial shareholder of the Company, or any of their respective associates must be approved by the independent non-executive Directors (excluding any independent non-executive Director who is the grantee). Where any options granted to a substantial shareholder or an independent non-executive Director of the Company, or any of their respective close associates would result in the total number of shares issued and to be issued upon exercise of all options already granted and to be granted to such person under the Share Option Scheme and any other share option schemes of the Company (including options exercised, cancelled and outstanding) in any 12-month period up to and including the date of such grant representing in aggregate over 0.1% of the shares in issue and having an aggregate value in excess of HK\$5 million must be approved by the Company's shareholders at a general meeting of the Company, with voting to be taken by way of poll.

An offer for the grant of options must be accepted in writing within 7 days inclusive of the day on which such offer was made. The amount payable by the grantee of an option to the Company on acceptance of the offer for the grant of an option is HK\$1. An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as the Board may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof.

The subscription price shall be a price solely determined by the Board and notified to a participant and shall be at least the highest of: (i) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the date of grant of the option, which must be a business day; (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant of the option; and (iii) the nominal value of the share on the date of grant of the option.

The Share Option Scheme does not set out any performance targets that must be achieved before an option may be exercised. However, the Board may at its absolute discretion determine to include conditions of the exercise of the options such as fixing a minimum period for holding the options and setting specific performance targets. The Share Option Scheme will remain in force for a period of ten years commencing on 26 September 2016 and shall expire at the close of business on the business day immediately preceding the tenth anniversary thereof unless terminated earlier by the shareholders at a general meeting of the Company.

On 13 April 2022, there were 79,100,000 share options granted to eligible participants under the Share Option Scheme. A summary of the movements in the share options granted under the Share Option Scheme during the six months ended 30 September 2022 is as follows:

The estimated fair values of the share options granted are approximately HK\$8,233,000, which were calculated using the Binominal model. The inputs into the model were as follows:

	Directors	Other employees
Number of share options	68,000,000	11,100,000
Exercise price (HK\$)	0.320	0.320
Option life (Year)	3.1	3.0
Expected volatility (%)	53.87	53.79
Dividend yield (%)	–	–
Risk-free interest rate (%)	2.06	1.92

Expected volatility used in the valuation of options was determined by using the annualised historical daily volatility of the Company's share price as at the measurement date. Expected dividend yield was based on the annualised historical dividend yield of the Company. Risk-free rate was determined with reference to the interpolated Hong Kong Government Bond yield.

The Binomial option pricing model has been used to estimate the fair value of the options. The variables and assumptions used in computing the fair value of the share options are based on the directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

During the period ended 30 September 2022, the Group recognised total expenses of approximately HK\$ 3,829,000 (six months ended 30 September 2021: HK\$ Nil) in relation to the share options granted by the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is principally engaged in the sourcing, processing and supplying of food ingredients, with a focus on the provision of vegetables and fruit to food service operators in Hong Kong. It supplies food ingredients to over 480 customer outlets and offers more than 1,300 types of food ingredients to its customers. After completion of the general offer in August 2021, the Group has officially stepped towards a new milestone by setting up its business operation points in Shenzhen and Zhongshan, and later opening two restaurants in Zhongshan as an extension of its downstream business to enhance the overall profit margin through a one-stop industry chain. At the same time, the Group has also been actively supporting national policies to realise the vision of net-zero carbon emission by establishing a department dedicated to promoting modern agriculture and green education in primary and secondary schools and enterprises in the Greater Bay Area, with an aim of promoting a green and environmentally-friendly lifestyle and making the world a greener place.

The Group recorded a net loss of approximately HK\$8.1 million for the six months ended 30 September 2022 (the "**Reporting Period**") as compared to a net loss of approximately HK\$1.4 million for the six months ended 30 September 2021. Such increase in the net loss was mainly attributable to (i) the increase in operating expenses incurred following the establishment of the Group's headquarters in the Greater Bay Area and as part of its business expansion in the Greater Bay Area; and (ii) the recognition of the share-based payment expenses of approximately HK\$3.8 million arising from the share options granted during the Reporting Period. Despite the recorded net loss, the revenue from the Group's existing business remained stable during the Reporting Period and the business expansion in the Greater Bay Area will help the Group to further strengthen its existing business. In addition, the share option expenses, which were recognised purely due to the accounting standards, did not involve any cash outlay. As such, there would be no adverse effect on the Group's operating cash flows and operation.

OUTLOOK

The year 2022 marks a new chapter for the Group. With the establishment of the headquarters in the Greater Bay Area and the fifth wave of the COVID-19 outbreak gradually under control in the middle of the year, the Group has officially expanded its businesses into catering and environmental protection and technology in the Greater Bay Area. Looking ahead, leveraging on the extensive business experience of management and their well-established business network in the PRC, the Group will continue to identify potential business opportunities. By adhering to the business philosophy of "People-Oriented, Pragmatism, Creativity and Honest and Responsible", the Group will set up a one-stop food industry chain system covering from the source of cultivation to the food supply chain and the catering businesses, with a view to becoming a leading service provider for good life in the PRC and a premier green brand in the Greater Bay Area.

FINANCIAL REVIEW

During the Reporting Period, the Group has expanded its food supply business to related upstream and downstream businesses in the PRC and introduced two additional segments, namely (i) catering; and (ii) environmental protection and technology.

Revenue

The Group's revenue for the Reporting Period was approximately HK\$68.7 million, which slightly increased by 0.7% from approximately HK\$68.2 million for the six months ended 30 September 2021.

Revenue attributable to the food supply business for the Reporting Period remained quite stable at approximately HK\$67.9 million, which accounted for 98.8% of the Group's revenue, representing a slight decrease of approximately 0.5% from approximately HK\$68.2 million for the six months ended 30 September 2021.

Revenue generated from the businesses of catering and environmental protection and technology were approximately HK\$0.7 million and HK\$0.1 million, respectively, which accounted for 1.2% of the Group's revenue. The contributions from these two new businesses are expected to gradually increase, which will further strengthen the Group's performance.

Gross profit and gross profit margin

The Group's gross profit for the Reporting Period was approximately HK\$14.9 million, which grew by approximately 33.4% from approximately HK\$11.2 million for the six months ended 30 September 2021. The Group's gross profit margin for the Reporting Period was approximately 21.7% as compared to approximately 16.4% for the six months ended 30 September 2021. The improvement in both the gross profit and the gross profit margin was mainly driven by the food supply business, which contributed approximately HK\$14.6 million or approximately 98.0%, to the Group's gross profit. Gross profit margin of food supply business also increased by approximately 5.1 percentage points to approximately 21.5%, reflecting an improvement in the product mix.

Other income

The Group's other income for the Reporting Period was approximately HK\$1.6 million as compared to approximately HK\$54,000 for the six months ended 30 September 2021. Such increase was primarily attributable to the receipt of non-recurring government grants of approximately HK\$1.3 million from the Employment Support Scheme and other programmes under the Anti-Epidemic Fund during the Reporting Period, which were absent for the six months ended 30 September 2021.

Selling and administrative expenses

The Group's selling and administrative expenses for the Reporting Period were approximately HK\$19.1 million, representing an increase of approximately 71.8% from approximately HK\$11.1 million for the six months ended 30 September 2021, which was primarily due to the increase in administrative and payroll expenses incurred following the establishment of the Group's Greater Bay Area headquarters and as part of its business expansion in the Greater Bay Area.

Share-based payment expenses

The share-based payment expenses for the Reporting Period were approximately HK\$3.8 million (six months ended 30 September 2021: Nil), which represented the fair value of the share options granted on 13 April 2022 over the vesting periods.

Loss for the Reporting Period

On account of the above-mentioned factors, the Group's loss for the Reporting Period increased to approximately HK\$8.1 million as compared to a net loss of approximately HK\$1.4 million for the six months ended 30 September 2021.

USE OF NET PROCEEDS FROM SHARE SUBSCRIPTION

On 16 August 2021, the Company completed the share subscription to allot and issue 252,000,000 new shares to Ace Source Holdings Limited ("**Ace Source**") and raised net proceeds of approximately HK\$37.7 million. Details of the share subscription were set out in the joint announcements of the Company and Ace Source dated 6 July 2021 and 16 August 2021, and the circular of the Company dated 28 July 2021 (the "**Circular**").

As at 30 September 2022, approximately HK\$15.7 million out of the net proceeds from the share subscription had not been utilised. The remaining net proceeds are expected to be utilised on or before 31 December 2023. The utilisation of the net proceeds from the share subscription is summarised as follows:

	Planned use of net proceeds as shown in the Circular HK\$ million	Actual use of net proceeds up to 30 September 2022 HK\$ million	Unutilised net proceeds up to 30 September 2022 HK\$ million
Repayment of bank loans	22.0	22.0	–
Establishment of two retail outlets	10.0	–	10.0
General working capital	5.7	–	5.7
Total	37.7	22.0	15.7
