#### Notes

- Items to be reported in the “no maturity” bucket include, but are not limited to, capital with perpetual maturity, non-maturity (demand) deposits, short positions, open maturity positions, non-high-quality liquid assets equities, and physical traded commodities.
- The unweighted value of item 30 “Net stable funding ratio derivative liabilities with additional requirements” is the net stable funding ratio derivative liabilities before the deduction of the variation margin, without differentiation of maturity, and not included in the unweighted value of item 26 “Other assets”.

# REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

## To the Board of Directors of Bank of Communications Co., Ltd

*(Incorporated in the People's Republic of China with limited liability)*

## INTRODUCTION

We have reviewed the interim financial information set out on pages 75 to 176, which comprises the interim condensed consolidated statement of financial position of Bank of Communications Co., Ltd (the "Bank") and its subsidiaries (together, the "Group") as at 30 June 2021 and the interim condensed consolidated statement of profit or loss and other comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting". The directors of the Bank are responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

## SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

# NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 1 GENERAL

Bank of Communications Co., Ltd. (the “Bank”) is a joint-stock national state-owned commercial bank, reorganised on 1 April 1987 at the approval of notice Guo Fa (1986) No. 81 issued by the State Council of the PRC and notice Yin Fa (1987) No. 40 issued by the People’s Bank of China (the “PBOC”). Headquartered in Shanghai, the Bank operates 246 branches in Mainland China and 23 branches (sub-branches), subsidiary banks and representative offices overseas. The Bank’s A shares are listed on Shanghai Stock Exchange and H shares on Hong Kong Stock Exchange.

The Bank obtained its finance permit No. B0005H131000001 from the CBIRC of the PRC. The Bank obtained its business license with unified social credit code 9131000010000595XD from the State Administration for Industry and Commerce of the PRC. The registered capital is RMB74,263 million. The legal representative is Ren Deqi.

The Bank’s stock codes of A Shares and H Shares listed on the Shanghai Stock Exchange and the Stock Exchange of Hong Kong Limited are 601328 and 03328, respectively. The Bank’s domestic preference shares are listed on the Shanghai Stock Exchange and the stock codes are 360021.

The principal activities of the Bank and its subsidiaries (collectively referred to as the “Group”) include corporate and personal banking services, interbank and financial market business, fund management, trustees, financial leasing, insurance, overseas securities, debt-to-equity swap, asset management and other financial services.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Basis of preparation

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting” issued by the International Accounting Standard Board, as well as with all applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

The Group adopted the going concern basis in preparing its unaudited interim condensed consolidated financial statements.

These unaudited interim condensed consolidated financial statements of the Group should be read in conjunction with the 2020 annual consolidated financial statements.

Taxes on income in interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

The unaudited interim condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments and investment property which are measured at fair value. Except as described below, the Group’s accounting policies applied in preparing these unaudited interim condensed consolidated financial statements are consistent with those policies applied in preparing the 2020 annual consolidated financial statements.

#### 2.1.1 New and amended standards adopted by the Group

The Group has adopted the following new and amendments to the International Financial Reporting Standards (“IFRSs”):

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16  
Amendments to IFRS 16

Interest Rate Benchmark Reform—Phase 2  
COVID-19-related Rent Concessions

#### *Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16*

The IASB has issued amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (“Interest Rate Benchmark Reform—Phase 2”). The amendments are effective for annual periods beginning on or after 1 January 2021, with early application permitted.

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### 2.1 Basis of preparation *(Continued)*

#### **2.1.1 New and amended standards adopted by the Group** *(Continued)*

##### *Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (Continued)*

The amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount when accounting for changes in the basis for determining the contractual cash flows of financial instruments (that is, financial instruments classified as amortised cost and debt instruments at FVOCI), lease receivables and lease liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of IFRS 9 to measure and recognise hedge ineffectiveness.

The amendment provides a provisional exemption. When a company expects reasonably that the alternative benchmark interest rate will meet the separately identifiable requirements within 24 months from the date when it is designated as a non-contractually clear risk component, it shall be deemed to meet the separately identifiable requirements. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy.

##### *Amendments to IFRS 16*

The International Accounting Standards Board (IASB) has published 'Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16)' that extends, by one year, the May 2020 amendment that provides lessees with an exemption from assessing whether a COVID-19-related rent concession is a lease modification, and the changes in Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16) amend IFRS 16 to:

- permit a lessee to apply the practical expedient regarding COVID-19-related rent concessions to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022 (rather than only payments originally due on or before 30 June 2021);
- require a lessee applying the amendment to do so for annual reporting periods beginning on or after 1 April 2021;
- require a lessee applying the amendment to do so retrospectively, recognising the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of the annual reporting period in which the lessee first applies the amendment; and
- specify that, in the reporting period in which a lessee first applies the amendment, a lessee is not required to disclose the information required by paragraph 28(f) of IAS 8.

The adoption of these standards and amendments does not have a material effect on the Group's consolidated financial information.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 2.1 Basis of preparation (Continued)

##### 2.1.2 Standards and amendments issued but not yet effective

|   |   | Effective for annual period<br>commencing on or after  |
|---|---|--|
| Amendments to IFRS 10 and IAS 28                    | Sale or Contribution of Assets<br>between an Investor and its<br>Associate or Joint Venture | The amendments were originally<br>intended to be effective for annual<br>periods beginning on or after 1<br>January 2016. The effective date<br>has now been deferred/removed. |
| Amendments to IAS 16                                | Property, Plant and Equipment:<br>Proceeds before Intended Use                              | 1 January 2022   |
| Amendments to IFRS 3                                | Reference to the Conceptual<br>Framework  | 1 January 2022   |
| Amendments to IAS 37                                | Onerous Contracts – Cost of Fulfilling<br>a Contract  | 1 January 2022   |
| Amendments to IFRS 1, IFRS 9,<br>IFRS 16 and IAS 41 | Annual Improvements to IFRS<br>Standards 2018 – 2020  | 1 January 2022   |
| IFRS 17 and its amendments                          | Insurance Contracts   | 1 January 2023   |
| Amendments to IAS 8                                 | Accounting Estimates  | 1 January 2023   |
| Amendments to IAS 1 and IFRS Practice Statement 2   | Disclosure of Accounting Policies   | 1 January 2023   |
| Amendments to IAS 12                                | Deferred Tax related to Assets and<br>Liabilities arising from a Single<br>Transaction      | 1 January 2023   |

##### *Amendments to IFRS 10 and IAS 28*

The amendments address an inconsistency between IFRS 10 and IAS 28 in the sale or contribution of assets between an investor and its associate or joint venture.

A full gain or loss is recognised when a transaction involves a business. A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if those assets are in a subsidiary.

##### *Amendments to IAS 16*

The amendment to IAS 16 Property, Plant and Equipment (PP&E) prohibits an entity from deducting from the cost of an item of PP&E any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment.

Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity's ordinary activities.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### 2.1 Basis of preparation *(Continued)*

#### **2.1.2 Standards and amendments issued but not yet effective** *(Continued)*

##### *Amendments to IFRS 3*

The amendments to IFRS 3, 'Business combinations', referred to the 2018 Conceptual Framework for Financial Reporting, are in order to determine what constitutes an asset or a liability in a business combination. In addition, the amendments add a new exception in IFRS 3 for liabilities and contingent liabilities. The exception specifies that, for some types of liabilities and contingent liabilities, an entity applying IFRS 3 should instead refer to IAS 37, 'Provisions, Contingent Liabilities and Contingent Assets', or IFRIC 21, 'Levies', rather than the 2018 Conceptual Framework. The amendments also clarify that the acquirer should not recognise contingent assets, as defined in IAS 37, at the acquisition date.

##### *Amendments to IAS 37*

The amendment clarifies the meaning of 'costs to fulfil a contract' and explains that the direct cost of fulfilling a contract comprises:

- The incremental costs of fulfilling that contract (for example, direct labour and materials); and
- An allocation of other costs that relate directly to fulfilling contracts (for example, an allocation of the depreciation charge for an item of PP&E used to fulfil the contract).

The amendment also clarifies that, before a separate provision for an onerous contract is established, an entity recognises any impairment loss that has occurred on assets used in fulfilling the contract, rather than on assets dedicated to that contract.

##### *Annual Improvements to IFRS Standards 2018 – 2020 Cycle*

The Annual Improvements to IFRSs 2018 – 2020 Cycle include a number of amendments to various IFRSs:

- IFRS 9 Financial Instruments – clarifies which fees should be included in the 10% test for derecognition of financial liabilities.
- IFRS 16 Leases – amendment of its illustrative example to remove the illustration of payments from the lessor relating to leasehold improvements, to remove any confusion about the treatment of lease incentives.
- IFRS 1 First – time Adoption of International Financial Reporting Standards – allows entities that have measured their assets and liabilities at carrying amounts recorded in their parent's books to also measure any cumulative translation differences using the amounts reported by the parent. This amendment will also apply to associates and joint ventures that have taken the same IFRS 1 exemption.
- IAS 41 Agriculture – removal of the requirement for entities to exclude cash flows for taxation when measuring fair value under IAS 41. This amendment is intended to align with the requirement in the standard to discount cash flows on a post-tax basis.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.1 Basis of preparation (Continued)

#### 2.1.2 Standards and amendments issued but not yet effective (Continued)

##### *IFRS 17 and its amendments*

IFRS 17 Insurance Contracts was issued in May 2017 as replacement for IFRS 4. It requires a current measurement model where estimates are re-measured in each reporting period. Contracts are measured using the building blocks of discounted probability weighted cash flows, an explicit risk adjustment, and a contractual service margin (“CSM”) representing the unearned profit of the contract which is recognised as revenue over the coverage period.

The standard allows a choice between recognising changes in discount rates either in the statement of profit or loss or directly in other comprehensive income. The choice is likely to reflect how insurers account for their financial assets under IFRS 9.

An optional, simplified premium allocation approach is permitted for the liability for the remaining coverage for short duration contracts, which are often written by non-life insurers.

There is a modification of the general measurement model called the “variable fee approach” for certain contracts written by life insurers where policyholders share in the returns from underlying items. When applying the variable fee approach, the entity’s share of the fair value changes of the underlying items is included in the CSM. The results of insurers using this model are therefore likely to be less volatile than under the general model.

The IASB issued the amendments to IFRS 17 Insurance contracts, on 25 June 2020, together with an amendment to IFRS 4, so that eligible insurers can still apply IFRS 9 alongside IFRS 17. This concluded the IASB’s targeted amendments to IFRS 17 which aimed to ease implementation of the standard by reducing implementation costs and making it easier for entities to explain, to investors and others, the results from applying IFRS 17. The amendments to IFRS 17 include:

- Effective date

The effective date of IFRS 17 (incorporating the amendments) has been deferred by two years to annual reporting periods beginning on or after 1 January 2023; and the fixed expiry date of the temporary exemption from applying IFRS 9 in IFRS 4 has also been deferred to annual reporting periods beginning on or after 1 January 2023.

- Expected recovery of insurance acquisition cash flows

An entity is required to allocate part of the acquisition costs to related expected contract renewals, and to recognise those costs as an asset until the entity recognises the contract renewals. Entities are required to assess the recoverability of the asset at each reporting date, and to provide specific information about the asset in the notes to the financial statements.

- Contractual service margin attributable to investment services

Coverage units should be identified, considering the quantity of benefits and expected period of both insurance coverage and investment services, for contracts under the variable fee approach and for other contracts with an ‘investment-return service’ under the general model. Costs related to investment activities should be included as cash flows within the boundary of an insurance contract, to the extent that the entity performs such activities to enhance benefits from insurance coverage for the policyholder.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### 2.1 Basis of preparation *(Continued)*

#### 2.1.2 Standards and amendments issued but not yet effective *(Continued)*

*IFRS 17 and its amendments (continued)*

- Reinsurance contracts held – recovery of losses

When an entity recognises a loss on initial recognition of an onerous group of underlying insurance contracts, or on addition of onerous underlying contracts to a group, an entity should adjust the contractual service margin of a related group of reinsurance contracts held and recognise a gain on the reinsurance contracts held. The amount of the loss recovered from a reinsurance contract held is determined by multiplying the loss recognised on underlying insurance contracts and the percentage of claims on underlying insurance contracts that the entity expects to recover from the reinsurance contract held. This requirement would apply only when the reinsurance contract held is recognised before or at the same time as the loss is recognised on the underlying insurance contracts.

- Other amendments to IFRS 17 include:
  - Scope exclusions for some credit card (or similar) contracts, and some loan contracts;
  - Presentation of insurance contract assets and liabilities in the statement of financial position in portfolios instead of groups;
  - Applicability of the risk mitigation option when mitigating financial risks using reinsurance contracts held and non-derivative financial instruments at fair value through profit or loss;
  - An accounting policy choice to change the estimates made in previous interim financial statements when applying IFRS 17;
  - Inclusion of income tax payments and receipts that are specifically chargeable to the policyholder under the terms of an insurance contract in the fulfilment cash flows;
  - Selected transition reliefs and other minor amendments.

The Group is assessing the impact on the Group's operating results and financial position of adopting IFRS 17.

#### *Amendments to IAS 8*

The changes to IAS 8 focus entirely on accounting estimates and clarify the following:

- The definition of a change in accounting estimates is replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty".
- Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.
- The Board clarifies that a change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.
- A change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognised as income or expense in the current period. The effect, if any, on future periods is recognised as income or expense in those future periods.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.1 Basis of preparation (Continued)

#### 2.1.2 Standards and amendments issued but not yet effective (Continued)

##### *Amendments to IAS 1 and IFRS Practice Statement 2*

Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) amends IAS 1 in the following ways:

- An entity is now required to disclose its material accounting policy information instead of its significant accounting policies;
- Several paragraphs are added to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material;
- The amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial;
- The amendments clarify that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements; and
- The amendments clarify that if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information.

##### *Amendments to IAS 12*

The main change in Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12) is an exemption from the initial recognition exemption provided in IAS 12.15(b) and IAS 12.24. Accordingly, the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition. This is also explained in the newly inserted paragraph IAS 12.22A.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023. Early adoption is permitted.

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented. It also, at the beginning of the earliest comparative period presented, recognises deferred tax for all temporary differences related to leases and decommissioning obligations and recognises the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at that date.

Except for the above-mentioned impact of IFRS 17 and its amendments, the adoption of the above new standards and amendments issued but not yet effective is not expected to have a material effect on the Group's consolidated financial information.

### 2.2 Critical accounting estimates and judgments in applying accounting policies

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense.

In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2020.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT

#### Overview

The Group's activities expose it to a variety of financial risks and those activities involve analysis, evaluation, acceptance and management of a certain degree of risks or a portfolio of risks. The Group's aim is to achieve an appropriate balance between risks and returns and minimise potential adverse effects on the Group's financial performance. The main types of financial risks are credit risk, liquidity risk, market risk, operational risk, etc.

The Group's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, monitor the risks and to control the risk limits through reliable and up-to-date information systems. The Group regularly reviews its risk management policies and systems to reflect changes in markets and products and the latest best practice.

#### Risk management framework

The Board of Directors sets out risk management strategies, overall risk preference and risk tolerance level. The senior management establishes risk management policies and procedures according to the strategies set by the Board of Directors. The Risk Management Department/Internal Control and Crime Prevention Office at Head Office serves as the chief department for the Group's risk management and leads the overall risk management duties, of which the crucial ones would be further designated to specific leading departments. The risk management division in each operation department at Head Office, in each domestic and overseas branch and in each subsidiary undertakes specific risk management function. Internal Audit Department is responsible for independent review of risk management and control environment.

#### 3.1 Credit risk

Credit risk is the risk of loss that a borrower or counterparty fails to or is unwilling to meet its obligations. Credit risk arises principally from loans and advances to customers, financial investments, derivative instruments and due from and placements with banks and other financial institutions. There is also credit risk in off-balance sheet items such as credit related commitments and financial guarantees, acceptances and letters of credit. Credit risk is a major risk to which the Bank is exposed. Therefore, the Group manages and controls the overall credit risk, integrated into the comprehensive risk management, in a prudent manner, and reports regularly to the Senior Management and the Board of Directors of the Group.

##### 3.1.1 Credit risk management

The Group's credit risk management is assumed by major functions such as Corporate Business Department, Inclusive Finance Department, Personal Finance Business Department, Pacific Credit Card Centre, Credit Authorisation Department, Credit Approval Department, Risk Management Department/Internal Control and Crime Prevention Office and Asset Preservation Department. They are responsible for the standardised management of corporate and retail credit businesses in terms of guidance on credit investment, credit investigation and report, credit approval, loan granting, post-loan management and non-performing loan management.

##### (a) *Loans and advances to customers and off-balance sheet commitments*

As for corporate loans, the Group's relationship managers are responsible for receiving application files submitted by the applicants, conducting pre-loan investigation, assessing the credit risk, and raising the proposed rating. The Group adopts the hierarchical approval system at the branch and Head Office level based on the credit approval authority. Credit line is determined by taking into account the credit record, financial position, collaterals and guarantees of the applicant, overall credit risk of the credit portfolio, macroeconomic regulation and control policies and relevant laws and regulations. The Group keeps a close eye on the economic and financial trend and credit risk profile in the industry, provides more guidance on credit investment, formulate guidance for different industries, strengthens daily risk pre-warning, monitoring and specific risk investigation, identify customers under major risks and material potential risk points, enhances the refinement of post-loan management and centers on customer credit risk management to carry out post-loan management. The independent loan granting centre shall review the compliance, completeness and effectiveness of relevant credit files before loan granting according to the applications for drawdown of credit line. The Group's relationship managers are primarily responsible for post-loan management. The Group adopts a series of tools and approaches, such as risk filtering, list management, risk warning and risk investigation, in daily risk monitoring of corporate loans. The Group manages non-performing loans mainly through (1) collection; (2) restructuring; (3) disposal of collaterals or recourse to the guarantors; (4) litigation or arbitration; (5) disposal.

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.1 Credit risk *(Continued)*

##### 3.1.1 Credit risk management *(Continued)*

###### (a) Loans and advances to customers and off-balance sheet commitments *(Continued)*

For retail credit assets, the Group manages the overall risk profile of retail credit business through on-site review and adoption of reporting system on material matters, strengthens daily risk monitoring and pre-warning through optimising management system, standardises operation process of retail credit business through formulating manuals for personal loans and small-enterprise loans, identifies and reveals material potential risks on a timely manner through strengthening risk monitoring and early-warning, and understands and forecasts the quality trends so as to adopt targeted risk control measures in advance by using stress testing and quality migration analysis. In addition, the Group continues to carry out fast response mechanism to address emergencies properly and maintains a list to manage those key risk projects through risk monitoring, guidance, collection and mitigation.

The Group adopts categorised management for retail credit assets on the basis of overdue ageing and guarantee type. With regard to retail credit customers with overdue loans, different approaches are adopted to collect such loans based on their overdue days.

Credit Card Centre of the Group is in charge of the operation and management of credit card business. Credit Card Centre of the Group adopts various supervisory and preventive measures. It reinforces data cross-validation to enhance risk prevention in the approval process, reduces risk exposure to high risk customers through subsequent credit investigation and enters into the intervention process earlier than scheduled, effectively improves collection result through reasonable allocation of available resources, and optimises data analytic system to further enhance the management of credit card business.

###### (b) Treasury business

For treasury business (including debt investments), the Group chooses banks and other financial institutions prudently and balances the credit risk and return rate of investments. By making reference to internal and external credit rating information, the Group approves credits of different levels and uses an appropriate credit limit management system to review and adjust credit lines, aiming to manage the credit risk exposed to the treasury business.

For debt securities, internal and external ratings (such as Standard and Poor's) are used by the Group when available for managing the credit risk exposed to debt securities and bills. The investment in those debts and bills is to have better credit quality assets while maintaining readily available liquidity resource. The bond issuers involved with the Group are subject to the credit granting review and approval of the Head Office and credit limits are placed on such issuers.

Debt investments other than debt securities include investments in fund trust schemes, asset management plans and wealth management products set up by banking financial institutions. Fund trust schemes and asset management plans, the funds of which ultimately go to trust loans, are mainly managed and operated by third-party trustees and asset managers. The Group implements a rating system for accepting trust companies, securities companies and fund companies, sets credit limits for repurchase parties of trust beneficiary right, ultimate borrowers of targeted asset management plans, and issuers of inter-bank wealth management products, and carries out follow-up risk management on a regular basis.

As for derivative instruments, the Group maintains strict limits on net open derivative investment positions (i.e., the difference between long and short contracts), by both amount and maturity. At any time, the amount subject to credit risk is limited to the current fair value of instruments that are favourable to the Group (i.e., assets where their fair value is positive), which, in relation to derivative instruments, is only a fraction of the contract's notional amount used to express the amount outstanding. This credit risk exposure is managed as part of the overall lending limits with customers, together with potential exposures from market fluctuations. Collateral or other security is not usually obtained for credit risk exposures on these instruments, except when the Group requires margin deposits from counterparties. The management has set limits of these contracts according to counterparty, and regularly monitor and control the actual credit risk when the Group concludes foreign exchange and interest rate contracts with other financial institutions and clients.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.1 Credit risk *(Continued)*

##### 3.1.1 Credit risk management *(Continued)*

###### (b) Treasury business *(Continued)*

The Group manages the credit quality of due from and placements with banks and other financial institutions, and balances arising from transactions for precious metals, by considering the size, financial position, the internal and external credit rating of the banks and other financial institutions. The Head Office monitors and reviews the credit risk of due from and placements with banks and other financial institutions by counterparties regularly. Limits are placed on different counterparties.

###### (c) Credit-related commitments

Credit risk exposures to financial guarantees are the same as that of loans. However, commercial letters of credit are usually pledged by the relevant shipped goods, and therefore are subject to lower risk compared with direct loans. Credit-related commitments are included in the management of overall credit line granted to the applicant. For customers with transactions beyond the credit limit or infrequent transactions, the applicant shall be requested to provide relevant margin deposits in order to reduce credit risk exposures.

###### (d) Credit risk quality

In accordance with the Guideline for Loan Credit Risk Classification issued by the CBIRC, the Group measures and manages the quality of corporate and personal loans and advances by classifying loans into the following five categories: normal, special-mention, substandard, doubtful and loss, of which substandard, doubtful and loss loans are regarded as non-performing loans.

The five categories of loan classification into which the Group classifies its loans and advances to customers are set out below:

|                  |  |
|------------------|--|
| Normal:          | Borrowers can honour the terms of their loans. There is no reason to doubt their ability to repay principal and interest in full on a timely basis.  |
| Special-mention: | Borrowers are able to service their loans currently, although repayment may be adversely affected by specific factors.   |
| Substandard:     | Borrowers' ability to service their loans is in question and they cannot rely entirely on normal operating revenues to repay principal and interest. Losses may ensue even when collaterals or guarantees are invoked. |
| Doubtful:        | Borrowers cannot repay principal and interest in full and significant losses will need to be recognised even when collaterals or guarantees are invoked.   |
| Loss:            | Only a small portion or none of the principal and interest can be recovered after taking all possible measures and exhausting all legal remedies.  |

##### 3.1.2 Expected credit loss ("ECL")

The Group measures the ECL of financial instruments at amortised cost or debt investments at fair value through other comprehensive income ("FVOCI"). The Group divides them into 3 stages by assessing whether there has been a significant increase in credit risk since initial recognition to recognise ECL.

The Group measures the ECL of a financial instrument in a way that reflects:

- (1) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (2) the time value of money;
- (3) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

## 3 FINANCIAL RISK MANAGEMENT *(Continued)*

### 3.1 Credit risk *(Continued)*

#### 3.1.2 Expected credit loss (“ECL”) *(Continued)*

##### Stage classification

The Group divides them into 3 stages. Stage 1 is “financial assets without significant increase in credit risk since initial recognition”, at which the Group only needs to measure ECL in the next 12 months. Stage 2 is “financial assets with significant increase in credit risk” and stage 3 is “credit-impaired financial assets”, at both of which the Group needs to measure lifetime ECL.

##### Definition of credit-impaired and default

The criteria adopted by the Group to determine whether a credit impairment occurs under IFRS 9 is consistent with the internal credit risk management objectives for relevant financial instrument, in addition to consideration of quantitative and qualitative indicators.

The Group considers a financial instrument to be credit-impaired when one or more of the following criteria have been met:

- (1) Principal (including advances, applies to below) or interest of the asset is more than 90 days past due;
- (2) The issuer or obligor is in significant financial difficulty, or has already become insolvent
- (3) It is becoming probable that the obligor will enter bankruptcy;
- (4) An active market for that financial asset has disappeared because of financial difficulties of issuers;
- (5) Other objective evidence indicating impairment of the financial asset.

In general, the Group considers a financial instrument is in default, when it is credit-impaired.

##### A significant increase in credit risk

The Group assesses quarterly whether the credit risk on a financial instrument has increased significantly since initial recognition. In determining the stage classification of a financial asset, the Group considers all reasonable and supportable information which reflects whether there have been significant changes in credit risk, including that which is forward-looking. Based on an individual financial instrument or a portfolio of financial instruments with similar credit risk characteristics, the Group compares risk of default occurring at reporting date as with initial recognition, in order to determine possible changes in risk of default occurring during the expected life of the financial instrument. The Group considers a financial instrument to have experienced a significant increase in credit risk when one or more of the following criteria have been met:

- (1) Principal or interest of the instrument is more than 30 days past due;
- (2) Credit rating of obligor changes significantly. Credit rating is based on both internal and external rating results, and the criteria are as follow: (a) a significant increase in credit risk is determined when internal and external rating during the reporting period is below the Group’s credit acceptance standards; (b) the non-retail assets’ internal ratings are downgraded by 3 ranks or above upon initial recognition;
- (3) Significant adverse issues have negative impacts on obligator’s repayment ability;
- (4) Other circumstances of significant increase in credit risk. For example, appearance of other risk alarm indicators which imply growing potential risk, and could cause losses of financial assets to the Group.

The financial assets are moveable between stages. For instance, financial instruments originally classified at stage 1 should be downgraded to stage 2 if events occur such as a significant increase in credit risk. Financial instruments at stage 2 could be upgraded to stage 1 if credit risk decreases and the criteria for the determination of “a significant increase in credit risk” are no longer met.

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.1 Credit risk *(Continued)*

##### 3.1.2 Expected credit loss (“ECL”) *(Continued)*

*Stage classification (Continued)*

*A significant increase in credit risk (Continued)*

After the outbreak of the pandemic of COVID-19, the Group strictly followed the regulatory policies and requirements and prudently evaluates the repayment ability of the clients who apply for payment holiday. On the premise that the subsequent risks will not be enlarged and subsequent settlement will not be affected, the Group provided relief measures to those clients meeting specific criteria by extending the maturity and so on. The Group has assessed whether the relief measures would cause a significant increase in credit risks and has adjusted the stage classification as appropriate.

*Description of parameters, assumptions and estimation techniques*

The Group recognises a loss allowance to different financial instruments at an amount equal to 12-month or lifetime expected credit loss based on whether there has been a significant increase in credit risk and whether the financial instrument is credit-impaired. ECL is the result of discounted product of the weighted average of “probability of default (PD)”, “loss given default (LGD)”, “exposure at default (EAD)” under the three scenarios, which are defined as follows:

Probability of default (PD) is the probability of default occurring of a client and its assets in a given period of time in the future.

Exposure at default (EAD) represents the total amount of on-balance sheet and off-balance sheet exposure at the time of default by debtor, reflecting the total amount of possible losses likely to be incurred. In general, this includes the utilised credit limit, interest receivable, the anticipated usage of unused credit facilities as well as the related expenses to be incurred.

Loss given default (LGD) represents the percentage of amount of loss to be incurred in the event of default to the total risk exposure. It typically varies by nature of debtor, type and seniority of claim and the availability of collaterals or other credit risk mitigation.

Definition of default has been consistently applied to model establishment of probability of default (PD), exposure at default (EAD), loss given default (LGD) in ECL calculation throughout the Group.

Estimation of ECL: the impairment models

The impairment models adopt a top down approach. Through grouping, the models cover the risk exposures of financial institutions, corporates and retailers. The Group has established a macro-economic forecast model driven by the year-on-year Gross Domestic Product (GDP) growth rate to forecast values of macro-economic indicators in multiple categories, including national accounts, price index, foreign trades, fixed asset investments, currency and interest rates, under three scenarios, namely “Basic Scenario”, “Optimistic Scenario” and “Pessimistic Scenario”. The forecasts, after evaluation and confirmation by economic experts and senior management of the Bank, are used in asset impairment model. The macro scenario settings and the rationality of the weightings are reviewed and adjusted quarterly, based on changes in the internal and external economic environment. As at June 30 2021, the macro scenario settings and the weightings of the Group are similar to those at the end of 2020.

Where impairment models could not be established due to lack of data support, the Group endeavoured to select appropriate methods in order to make prospective estimation. The Group made prospective adjustments to impairment calculation of overseas branches and subsidiaries regularly based on macro-forecast data from authoritative institutions (such as IMF and the World Bank). For asset portfolios not covered by impairment models, expected loss rate was set by referring to that of similar asset portfolios with impairment models available. When the management believed that the forecast model could not fully reflect recent credit or economic events, management overlay adjustments could be used to supplement ECL allowances.

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.1 Credit risk (Continued)

##### 3.1.2 Expected credit loss ("ECL") (Continued)

Description of parameters, assumptions and estimation techniques (Continued)

##### Grouping of instruments with similar credit risk characteristics

To calculate the relevance between ECL allowance and macro-economic indicators, a grouping of exposure is performed for assets with similar credit risk characteristics. In performing this grouping, the Group has obtained sufficient information to ensure the data reliability for statistical purposes. Where sufficient information is not available internally, the Group has leveraged supplementary data from both internal and external environments to help establish impairment model. Non-retail assets of the Group are mainly grouped according to industries, while retail assets are mainly grouped based on product types, repayment methods and so on.

##### Sensitivity analysis

As at the balance sheet date, the basic scenario weighting is higher than the non-basic scenario weighting. The probability-weighted impairment allowance under three scenarios is higher than the basic scenario impairment allowance by the following amounts:

|   | As at<br>30 June 2021 | As at<br>31 December 2020 |
|---|-----------------------|---------------------------|
| Corporate loans   | 454                   | 337                       |
| Personal loans  | 98                    | 96                        |
| Debt investments at amortise cost and fair value through other comprehensive income | 4                     | 10                        |

If the optimistic scenario weighting increases by 10%, and the basic scenario weighting decreases by 10%, the impairment allowance of loans and advances will decrease by RMB611 million (31 December 2020: RMB484 million), and the impairment allowance of debt investments at amortise cost and fair value through other comprehensive income will decrease by RMB3 million (31 December 2020: RMB6 million). If the Pessimistic scenario weighting increases by 10%, and the Basic scenario weighting decreases by 10%, the impairment allowance of loans and advances will increase by RMB1,774 million (31 December 2020: RMB1,402 million), and the impairment allowance of debt investments at amortise cost and fair value through other comprehensive income will increase by RMB10 million (31 December 2020: RMB23 million).

##### 3.1.3 Maximum exposure to credit risk

###### 3.1.3.1 Maximum exposure to credit risk – financial instruments included in impairment assessment

The Group categorises asset risk characteristics based on the quality of the assets, differentiating financial instruments that are likely to incur expected credit losses as "Low risk", "Medium risk", "High risk" and "Impaired". "Low risk" refers to counterparty with strong repayment ability, low probability of impairment in the future, and minor effect of adverse external factors. "Medium risk" refers to counterparty with certain repayment ability, but business, finance, and economic conditions that are continuously unstable and worsening will potentially cause its repayment ability to descend. "High risk" refers to counterparty with adverse factors that are likely to impact its repayment ability significantly or with high probability of impairment in the future. And "Impaired" refers to the assets met the Group's definition of credit-impaired.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.1 Credit risk (Continued)

##### 3.1.3 Maximum exposure to credit risk (Continued)

##### 3.1.3.2 Maximum exposure to credit risk – financial instruments not included in impairment assessment

The analysis of credit risk exposure of those financial assets which are not included in the impairment assessment are as follows:

|   | Maximum exposure to credit risk |                  |
|---|---------------------------------|------------------|
|   | 30 June 2021                    | 31 December 2020 |
| Financial assets at fair value through profit or loss |                                 |                  |
| Derivative financial instruments                      | 35,584                          | 54,212           |
| Debt securities                                       | 156,028                         | 153,034          |
| Fund investments and other asset management products  | 344,655                         | 252,098          |
| Precious metal contracts                              | 20,071                          | 19,975           |
| Total   | 556,338                         | 479,319          |

##### 3.1.3.3 Collaterals and other credit enhancements

The Group manages, limits and controls concentrations of credit risk wherever they are identified, in particular, to individual counterparty, groups, industry segments and geographical regions.

The Group optimises its credit risk structure by placing limits in relation to one borrower, or group of borrowers. Such risks are monitored by the Group on a regular basis and subject to annual or more frequent review, whenever necessary.

The exposure to any single borrower including banks and brokers is further restricted by sub-limits covering on- and off-balance sheet exposures, and daily delivery risk limits in relation to trading items such as forward foreign exchange contracts. The Group monitors the actual credit risk exposure and credit limits on a daily basis.

Exposure to credit risk is also managed through regular analysis of the ability of borrowers and potential borrowers to meet principal and interest repayment obligations. The Group will change their lending limits when appropriate based on the analysis.

Some other specific control and risk mitigation measures are outlined below.

#### (a) Collaterals

The Group employs a range of policies and practices to mitigate credit risk. The most common practice is to accept collaterals or pledges. The Group implements guidelines on the acceptability of specific classes of collaterals and pledges. The principal types of collaterals and pledges for loans and advances to customers are:

- Residential properties;
- Business assets such as premises, inventory and receivables;
- Financial instruments such as debt securities and stocks.

The value of collaterals at the time of loan origination is subject to loan-to-value ratio limits based on collateral types. The principal types of collaterals for corporate loans and personal loans are as follows:

| Collaterals                                   | Maximum loan-to-value ratio |
|---|-----------------------------|
| Cash deposits with the Group                  | 90%                         |
| PRC treasury bonds                            | 90%                         |
| Financial institution bonds                   | 90%                         |
| Publicly traded stocks                        | 60%                         |
| Rights to collect fees or right of management | 65%                         |
| Properties                                    | 70%                         |
| Land use rights                               | 70%                         |
| Vehicles                                      | 50%                         |

# NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.1 Credit risk (Continued)

#### 3.1.3 Maximum exposure to credit risk (Continued)

##### 3.1.3.3 Collaterals and other credit enhancements (Continued)

##### (a) Collaterals (Continued)

Long-term loans and advances to corporate and personal customers are generally secured, while revolving individual credit facilities are generally unsecured. In addition, in order to minimise the credit loss the Group will seek additional collaterals and pledges from the counterparties as soon as impairment indicators are noted for the personal loans and advances.

For loans guaranteed by a third-party guarantor, the Group will assess the financial condition, credit history and ability to meet obligations of the guarantor.

Collaterals and pledges held as security for financial assets other than loans and advances to customers are determined by the nature of the instrument. Debt securities, PRC treasury bonds and the PBOC bills are generally unsecured, with the exception of asset-backed securities, which are secured by portfolios of financial instruments.

The Group closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Group will take possession of collateral to mitigate potential credit losses. Financial assets that are credit-impaired and related collateral held in order to mitigate potential losses are shown below:

|  | Gross exposure | Impairment allowance | Carrying amount | Fair value of collateral held |
|--|----------------|----------------------|-----------------|-------------------------------|
| As at 30 June 2021   |                |                      |                 |                               |
| Credit-impaired assets   |                |                      |                 |                               |
| Loans and advances to customers  |                |                      |                 |                               |
| Loans and advances to customers at amortised cost                                | 101,413        | (64,227)             | 37,186          | 48,067                        |
| Loans and advances to customers at fair value through other comprehensive income | 19             | –                    | 19              | 19                            |
| Financial investments  |                |                      |                 |                               |
| Financial investments at amortised cost  | 2,805          | (840)                | 1,965           | 3,589                         |
| Debt investments at fair value through other comprehensive income                | 51             | –                    | 51              | –                             |
|  |                |                      |                 |                               |
|  | Gross exposure | Impairment allowance | Carrying amount | Fair value of collateral held |
| As at 31 December 2020   |                |                      |                 |                               |
| Credit-impaired assets   |                |                      |                 |                               |
| Loans and advances to customers  |                |                      |                 |                               |
| Loans and advances to customers at amortised cost                                | 97,603         | (62,978)             | 34,625          | 46,264                        |
| Loans and advances to customers at fair value through other comprehensive income | 95             | –                    | 95              | 95                            |
| Financial investments  |                |                      |                 |                               |
| Financial investments at amortised cost  | 794            | (524)                | 270             | 2                             |
| Debt investments at fair value through other comprehensive income                | 72             | –                    | 72              | –                             |

##### (b) Master netting arrangements

The Group further restricts its exposure to credit losses by entering into master netting arrangements with counterparties with which it undertakes a significant volume of transactions. Master netting arrangements do not generally result in an offset of assets and liabilities in the statement of financial position, as transactions are usually settled on a gross basis. However, the credit risk associated with favourable contracts is reduced by a master netting arrangement to the extent that if a default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Group's overall exposure to credit risk on derivative instruments subject to master netting arrangements can change substantially within a short period, as each transaction subject to the arrangement affects credit risk.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.1 Credit risk *(Continued)*

##### 3.1.4 Derivative instruments

The Group undertakes its transactions in foreign exchange, commodity, interest rate and other derivative contracts with other financial institutions and customers. The management has established limits for these contracts based on counterparties, industry sectors and countries. Actual credit risk exposures are regularly monitored and controlled by the management.

##### *Credit risk-weighted amounts*

|  | As at<br>30 June 2021 | As at<br>31 December 2020 |
|--|-----------------------|---------------------------|
| Counterparty credit risk-weighted amount | 49,942                | 50,052                    |

The credit risk-weighted amounts are the amounts calculated with reference to the guidelines issued by the CBIRC and are dependent on, amongst other factors, the creditworthiness of the counterparty and the maturity of each type of contract.

The credit risk-weighted amounts stated above have not taken the effects of netting arrangements into account.

##### 3.1.5 Foreclosed assets

|                             | As at<br>30 June 2021 | As at<br>31 December 2020 |
|-----------------------------|-----------------------|---------------------------|
| Buildings                   | 1,246                 | 1,085                     |
| Land use rights             | 10                    | 10                        |
| Others                      | 14                    | 14                        |
| Gross                       | 1,270                 | 1,109                     |
| Less: Impairment allowances | (310)                 | (142)                     |
| Net                         | 960                   | 967                       |

Foreclosed assets are sold as soon as practicable with the proceeds used to reduce the outstanding indebtedness. The Group does not generally occupy foreclosed assets for its own business use. Foreclosed assets are classified as other assets in the statement of financial position.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.1 Credit risk (Continued)

##### 3.1.6 Concentration risk analysis for financial assets with credit risk exposure

The Group mainly manages concentration risk for loans and advances to customers by industry sectors and also manages concentration risk for financial assets by geographical sectors.

##### Concentration risk for geographical sectors

|   | Mainland China | Hong Kong | Others  | Total      |
|---|----------------|-----------|---------|------------|
| As at 30 June 2021  |                |           |         |            |
| Financial assets  |                |           |         |            |

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.2 Market risk

##### 3.2.1 Overview

Market risk is risk of loss on the Group's on balance sheet and off balance sheet businesses, which is originated from the unfavourable changes and fluctuations in interest rates, foreign exchange rates, commodity price and equity product price. Market risk consists of interest rate risk, foreign exchange rate risk, equity product price risk and commodity price risk. The market risk of the Group mainly comprises interest rate risk and foreign exchange rate risk.

The Group established an integrated market risk management system, formed a market risk management structure with the separation of front and middle-end platforms and specified the responsibilities, the division of labor and the reporting route of the Board of Directors, Board of Supervisors, Senior Management, Special Committees and other relevant departments to ensure the compliance and effectiveness of market risk management.

In accordance with the requirements of the CBIRC, the Group's financial instrument positions are divided into trading book and banking book. The trading book consists of financial instruments held either for trading intent or economic hedging against risks of the trading book. The banking book consists of all financial instruments other than those included in trading book. The Group recognises, measures, monitors and controls the market risks in trading book and banking book according to their nature and characteristics.

With regard to the exchange rate risk and the interest rate risk of trading book, the Group established an effective limit management system by implementing Net Position, Risk Sensitivity, Value at Risk ("VaR") and other indicators. Meanwhile, with regard to the interest risk of banking book, net interest income simulation and gap analysis are the major tools used by the Group to monitor the interest risk of its overall businesses. In addition, through adequate repricing management and structure adjustment of assets and liabilities, the Group strives to maximise its rate of return while keeping its risks under control.

The Group has continuously improved the management system of market risk. The Group conducted stress tests on historical scenarios and hypothetical scenarios in the consideration of the Group's major market risk factors. The Group has realised daily automatic collection of trading data and market data in the system. The Group conducted the management of risk capital and VaR quota, and formulated the quota allocation plans.

The Group also applies sensitivity analysis to assess and measure the market risk of trading book and banking book. Sensitivity analysis indicates the impact on the relevant market risk assuming that only a single variable changes. As any risk variable rarely changes isolatedly, and the correlation between variables will have a significant effect on the final impact amount of the change of a risk variable, the results of sensitivity analysis can only provide limited market risk information.

The major measurement techniques used to measure and control market risk are outlined below:

##### 3.2.2 VaR

VaR refers to the maximum loss that an investment portfolio may incur at a given confidence level and holding period caused by the changes in market price factors such as interest rates and exchange rates etc. The Group adopted the historical simulation method to calculate daily VaR (99% confidence interval, the holding period of one day).

A summary of VaR by risk type including foreign exchange rate risk and interest rate risk of the trading book of the Group's portfolios is as follows:

| Items                         | Six months ended 30 June 2021 |         |         |         |
|-------------------------------|-------------------------------|---------|---------|---------|
|                               | 30 June 2021                  | Average | Maximum | Minimum |
| VaR                           | 336                           | 454     | 746     | 336     |
| Including: Interest rate risk | 290                           | 362     | 453     | 263     |
| Foreign exchange risk         | 255                           | 226     | 743     | 100     |

**3.2.3 Sensitivity analysis***Interest rate sensitivity analysis*

The table below illustrates the impact on net profit of the Group for the following year based on the structure of financial assets and liabilities as at the date of statement of financial position, resulting from a parallel upward or downward shift of 100 basis points in related yield curves.

|  | Changes in net profit |                           |
|--|-----------------------|---------------------------|
|  | As at<br>30 June 2021 | As at<br>31 December 2020 |
| +100 basis points parallel shift in yield curves | 9,743                 | 13,551                    |
| -100 basis points parallel shift in yield curves | (9,743)               | (13,551)                  |

The table below illustrates the impact on other comprehensive income of the Group for the following year based on the structure of financial assets and liabilities as at the date of statement of financial position, resulting from a parallel upward or downward shift of 100 basis points in related yield curves.

|  | Changes in other comprehensive income |                           |
|--|---------------------------------------|---------------------------|
|  | As at<br>30 June 2021                 | As at<br>31 December 2020 |
| +100 basis points parallel shift in yield curves | (12,980)                              | (11,882)                  |
| -100 basis points parallel shift in yield curves | 13,141                                | 12,363                    |

The above-mentioned impact on other comprehensive income arises from the changes in the fair value of fixed-interest-rate bonds at fair value through other comprehensive income, and loans and advances to customers at fair value through other comprehensive income.

The results of the interest rate sensitivity analysis set out in the table above are illustrative only and are based on simplified scenarios. The figures represent the projected impact to the net profit and other comprehensive income caused by the projected movement of current interest risk structure yield curves. This effect, however, does not take into account actions that would be taken by the Group to mitigate the impact of interest rate changes. The projections above also assume that interest rates of all maturities excluding demand deposits move by the same amount and, therefore, do not reflect the potential impact on net profit due to changes in certain rates while others remain unchanged. The projections are based on other simplified assumptions as well, including that all positions are to be held to maturity. There will be changes to the projection if positions are not held to maturity but it is not expected that the changes would be material.

The Group believes the assumption does not represent the Group's policy on use of funds and interest rate risk management. As a result, the above impact may differ from the actual situation.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.2 Market risk (Continued)

##### 3.2.3 Sensitivity analysis (Continued)

###### Foreign exchange sensitivity analysis

The table below illustrates the impact of a concurrent appreciation or depreciation of RMB spot and forward rates against HKD and USD by 5% on the Group's net profit:

|                        | Changes in net profit |                           |
|------------------------|-----------------------|---------------------------|
|                        | As at<br>30 June 2021 | As at<br>31 December 2020 |
| 5% appreciation of RMB | (1,858)               | (1,662)                   |
| 5% depreciation of RMB | 1,858                 | 1,662                     |

The table below illustrates the impact of a concurrent appreciation or depreciation of RMB spot and forward rates against HKD and USD by 5% on the Group's other comprehensive income:

|                        | Changes in other comprehensive income |                           |
|------------------------|---------------------------------------|---------------------------|
|                        | As at<br>30 June 2021                 | As at<br>31 December 2020 |
| 5% appreciation of RMB | (1,382)                               | (1,397)                   |
| 5% depreciation of RMB | 1,382                                 | 1,397                     |

The impact on net profit arises from the influences of RMB exchange rate fluctuation on the net position of monetary assets (excluding other book value other than amortised cost of monetary assets at fair value through other comprehensive income) and liabilities denominated in foreign currencies, the net position of non-monetary financial assets (excluding non-monetary items denominated in foreign currencies measured at fair value through other comprehensive income) and liabilities denominated in foreign currencies measured at fair value, and the fair value of currency derivatives denominated in RMB.

The impact on other comprehensive income arises from the influences of RMB exchange rate fluctuation on the differences on translation of foreign currency financial statements of foreign operators, the overseas investment portion of monetary assets denominated in foreign currencies, other book value other than amortised cost of the non-monetary items denominated in foreign currencies measured at fair value through other comprehensive income (such as stock) and monetary items at fair value through other comprehensive income.

The above impact on net profit is based on the assumption that the sensitive position of the Group's year-end exchange rate and currency derivatives denominated in RMB remain unchanged around the year. While in practice, the Group will, based on its judgement on the trend of exchange rate, actively adjust the foreign currency position and use appropriate derivative instruments to mitigate the impact of the foreign currency risk. Therefore, the above impact might differ from the actual situation.

##### 3.2.4 Interest rate risk

The Group's interest rate risk mainly arises from interest rate repricing and maturity mismatching of assets and liabilities, and the fluctuation of market interest rates, as well as from the adjustments in the interest rate policies made by the People's Bank of China (the "PBOC"). On 20 July 2013, the PBOC cancelled the lower limit of benchmark interest rates of loans dominated in RMB, allowing financial institutions to determine the loan interest rates independently based on commercial principles. The PBOC cancelled the upper limit of the benchmark interest rates for deposits on 24 October 2015 and established RMB Loan Prime Rate (LPR) as a new pricing benchmark of new loans in 2019. The Group conducts most of its domestic deposit businesses at benchmark interest rates for deposits and conducts most of its domestic loan businesses at LPR published by the PBOC.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

## 3.2 Market risk (Continued)

## 3.2.4 Interest rate risk (Continued)

The Group pays high attention to the transition of interest rate benchmark and has established a task force to speed up the launch and implementation of this LIBOR reform project. At the current stage, the progress of this reform is basically on schedule. According to the overall timetable of the LIBOR reform, libors in sterling, euro, Swiss franc and Japanese yen, as well as one week and 2-month libors in US dollars, will be the first ones to cease or lose representativeness on 31 December 2021. The business scale of the Group's contracts in reference to LIBOR with the above currencies and maturities is relatively small, and the impact of the methods of benchmark transition on interest rate risk is generally under control, which has a relatively limited substantial impact on the operations.

The Group has initially established a relatively complete interest rate risk monitoring system. By using the gap analysis system, the Group regularly monitors the repricing maturity gap of interest rate-sensitive assets and liabilities throughout the Group, takes the initiative to adjust the proportion of interest-bearing assets at floating interest rates and fixed interest rates, and adjusts the repricing term structure of interest rate and manages interest rate risk by applying appropriate derivatives such as interest rate swaps based on allocation strategy of assets and liabilities. Consequently, the Group is less vulnerable to interest rate risk.

During the reporting period, the Group closely monitored the interest rate trend for RMB and foreign currencies, conducted specific management of risk limits, and strengthened comprehensive operations and limit monitoring. In addition, the Group, by rationally adjusting the loan repricing strategies, reinforced the specific management of price negotiation to maximise its rate of return while keeping its risks under control.

At the date of statement of financial position, the Group's assets and liabilities categorised by the repricing date or maturity date (whichever is earlier) are as follows:

|   | Up to 1<br>month   | 1 – 3<br>months    | 3 – 12<br>months   | 1 – 5<br>years     | Over 5<br>years  | Non-<br>interest<br>bearing | Total               |
|---|--------------------|--------------------|--------------------|--------------------|------------------|-----------------------------|---------------------|
| <b>As at 30 June 2021</b>   |                    |                    |                    |                    |                  |                             |                     |

#### 3.2.5 Foreign exchange risk

The Group conducts the majority of its businesses in RMB, and the recording currency is RMB. Certain foreign transactions are conducted in USD, HKD and other currencies. The exchange rate of RMB to USD, HKD or other currencies is subject to the trading rules of China Foreign Exchange Trade System. Exchange rate risk mainly results from currency mismatch between foreign currency assets and liabilities and between off balance sheet currency exposure. The Group has formulated management measures for exchange rate risks, defining the functional division and scope of work of the exchange rate risk management department, risk identification, measurement, monitoring and control methods, and specific measures. Moreover, the Group controls exchange rate risk by setting relevant limits, taking the initiative to adjust the structure of foreign currency assets for a proper matching of currency structure of assets and liabilities, and applying appropriate exchange rate financial derivatives for transfers and hedging based on its own risk tolerance and operating level.

As at 30 June 2021, the exchange rates for US dollar and HK dollar are 1 US dollar to RMB6.4601 (31 December 2020: RMB6.5249) and 1 HK dollar to RMB0.8321 (31 December 2020: RMB0.8416), respectively.

##### 3.2.6 Other price risk

The Group is exposed to other price risk arising from financial assets such as equity investments and derivatives linked to commodity price. The equity investments arise from the proprietary trading of the Group's subsidiaries which hold the qualification of securities dealing and brokerage as well. As for the proprietary trading exposure, the Group enforces strict management of the risk exposure limit and the balance is insignificant to the Group's financial assets. The Group considers the exposure to the other price risk to be insignificant.

#### 3.3 Liquidity risk

##### 3.3.1 Overview

Liquidity risk is the risk that occurs when the Group cannot obtain sufficient funds in time and at a reasonable cost to repay debts when they are due, fulfill other payment obligations, or meet other funding needs in the normal course of business. The Group's liquidity risk mainly comes from depositors' early or centralised withdrawals, borrowers' deferred repayment of loans, the amount of assets and liabilities and maturity mismatches.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

**3 FINANCIAL RISK MANAGEMENT** (Continued)**3.3 Liquidity risk** (Continued)**3.3.2 Liquidity risk management process**

The Group implements centralised management of liquidity risk and, on the basis of forecasting liquidity requirements, formulates corresponding liquidity management plans and actively manages the liquidity of the Bank. The specific measures mainly include:

- Pay close attention to changes in the macroeconomic situation, central bank monetary policy, capital market dynamics, etc.
- Enhance weighting of core deposits as a percentage of liabilities, so as to improve the stability of liabilities;
- Monitor and manage liquidity position bank-wide by implementing a series of indicators and restrictions;
- Liquidity position management and cash utilisation functions are centralised by the Head offices;
- Maintain an appropriate level of central bank reserves, overnight inter-bank transactions, highly liquid debt investment, actively involve in capital management through open market, monetary market and bond market in order to ensure optimal financing capability at market places;
- Minimise liquidity risk by proper management of asset maturity structures and multi-level liquidity portfolios.

**3.3.3 Non-derivative financial instruments cash flows**

The table below presents the structural analysis by contracted maturities on non-derivative financial assets and liabilities of the Group at the balance sheet date. The amount of financial assets and liabilities for each period is the amount of undiscounted cash flows. The Group's expected cash flows on these financial instruments may vary significantly from the following analysis. For example, demand deposits from customers are expected to maintain a stable or increasing balance although they have been classified as repayable on demand in the following tables.

|   | Overdue | Undated   | On Demand   | Up to 1 month | 1 – 3 months | 3 – 12 months | 1 – 5 years | Over 5 years | Total        |

Assets available to repay all of the liabilities and fulfill loan commitments include cash, balances with central banks, due from and placements with banks and other financial institutions, financial investment at fair value through profit or loss, etc. In the normal course of business, a majority of matured deposits will not be withdrawn immediately on the maturity date but will continue to be kept by the Group. In addition, financial investments at fair value through other comprehensive income can also be disposed of when necessary to obtain funds for repayment of matured debts.

#### 3.3.4 Derivative financial instruments cash flows

The Group's derivative financial instruments are either settled on a net basis or a gross basis.

##### (a) Derivative settled on a net basis

The Group's derivative financial instruments that will be settled on a net basis include foreign exchange contracts, commodity contracts, interest rate contracts and others.

The table below analyses the undiscounted cash flows of the Group's derivative financial instruments which will be settled on a net basis and are classified based on the remaining contractual period from the balance sheet date to maturity date.

|  | Up to 1 month | 1 – 3 months | 3 – 12 months  | 1 – 5 years    | Over 5 years | Total           |

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.4 Fair value of financial assets and liabilities

##### **(a) Determination of fair value and valuation techniques**

Certain financial assets and liabilities of the Group are measured at fair value or with fair value disclosed for financial reporting purposes. The fair value has been determined using appropriate valuation techniques and inputs for fair value measurements. The appropriateness of the valuation techniques and the inputs to the fair value measurements are reviewed by the Board of Directors periodically.

Fair value measurements are categorised into level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- (1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- (2) Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- (3) Level 3 inputs are unobservable inputs for the asset or liability.

The fair value of financial instruments with unadjusted quoted prices for identical instruments in active markets is determined by the open market quotations. These instruments are classified as level 1.

The Group uses valuation techniques to determine the fair value of financial instruments when an open market quotation in active markets is not obtainable.

If the key parameters used in valuation techniques for financial instruments are substantially observable and obtainable from active open market, the instruments are classified as level 2. The second hierarchy of financial instruments held by the Group mainly includes derivatives, debt securities, certificates of deposit without quotations from active market, loans and advances to customers carried at FVOCI, precious metals, debt securities issued and restricted shares. The fair value of RMB denominated bonds is mainly valued based on the yield curves of the bonds from China Central Depository & Clearing Co., Ltd., while the fair value of the foreign currency denominated bonds is determined based on the valuation results published by Bloomberg. The fair value of foreign currency forwards, swaps, interest rate swaps, foreign currency options is estimated by the discounted cash flow method and Black-Scholes model; the fair value of precious metal contract is mainly determined in accordance with the closing prices of the Shanghai Gold Exchange or the settlement prices of the Shanghai Futures Exchange. The main parameters used in discounted cash flow model include recent market prices, the relevant yield curve, exchange rates and counterparty's credit spread. Main parameters used in Black-Scholes model include the relevant yield curve, exchange rate, level of volatilities and counterparty's credit spread, etc. All parameters used in valuation techniques are substantially observable and obtainable from active open market.

For loans and advances to customers at fair value through other comprehensive income, trust and asset management plan at fair value through profit or loss, the fair value is determined based on discounted cash flow model using unobservable discount rates that reflect credit risk. These financial instruments are classified as level 3.

For convertible bonds, unlisted equities, unlisted funds and equity derivatives held by the Group, the fair value of these financial instruments are determined with reference to certain unobservable inputs, and therefore the instruments have been classified by the Group as level 3. The management determines the fair value of these financial instruments using a variety of techniques, including using valuation models that incorporate and take into account unobservable inputs such as Discount for Lack of Marketability (DLOM). The Group has established internal control procedures to monitor the Group's exposure to such financial instruments.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

**3 FINANCIAL RISK MANAGEMENT** *(Continued)***3.4 Fair value of financial assets and liabilities** *(Continued)***(b) Financial instruments not measured at fair value**

The table below summarises the carrying amount and fair value of those financial assets and liabilities that are not presented at fair value as at the date of statement of financial position. Financial assets and liabilities with carrying amount approximate to fair value, such as cash and balances with central banks, due from and placements with banks and other financial institutions, loans and advances to customers at amortised cost, due to and placements from banks and other financial institutions, and due to customers, are not included in the table below.

|   | As at 30 June 2021 |            | As at 31 December 2020 |            |
|---|--------------------|------------|------------------------|------------|
|   | Carrying amount    | Fair value | Carrying amount        | Fair value |
| <b>Financial assets</b>                 |                    |            |                        |            |
| Financial investments at amortised cost | 2,050,282          | 2,068,928  | 2,019,529              | 2,031,222  |
| <b>Financial liabilities</b>            |                    |            |                        |            |
| Debt securities issued                  | (531,275)          | (544,607)  | (484,382)              | (485,175)  |

*Fair value hierarchy of financial instruments not measured at fair value*

| As at 30 June 2021                      | Level 1        | Level 2        | Level 3        | Total        |
|---|----------------|----------------|----------------|--------------|
| <b>Financial assets</b>                 |                |                |                |              |
| Financial investments at amortised cost | 3,163          | 1,976,813      | 88,952         | 2,068,928    |
| <b>Financial liabilities</b>            |                |                |                |              |
| Debt securities issued                  | –              | (544,607)      | –              | (544,607)    |
| <b>As at 31 December 2020</b>           | <b>Level 1</b> | <b>Level 2</b> | <b>Level 3</b> | <b>Total</b> |
| <b>Financial assets</b>                 |                |                |                |              |
| Financial investments at amortised cost | 2,530          | 1,920,866      | 107,826        | 2,031,222    |
| <b>Financial liabilities</b>            |                |                |                |              |
| Debt securities issued                  | –              | (485,175)      | –              | (485,175)    |

The carrying amounts and fair values of other financial assets and liabilities (including loans and advances to customers at amortised cost, due from and placements with banks and other financial institutions, due to and placements from banks and other financial institutions) are approximately the same, because the interest rates of most of these assets and liabilities are adjusted following the changes in interest rates determined by the PBOC, other regulatory bodies or market.

| Total gains/(losses) generated by financial assets and liabilities held by the Group as at 31 December 2020 |                             |                              |
| – Realised gains  | 2,218                       | 2                            |
| – Unrealised losses   | (975)                       | (1,738)                      |

These financial instruments with fair values determined based on unobservable inputs are primarily convertible bonds, unlisted equities, unlisted funds, part of the trust and asset management plan, equity derivatives and part of loans and advances to customers. The fair value of these financial instruments is determined primarily using discounted cash flow method and market comparison method. These valuation methods involve inputs from various unobservable assumptions such as cash flow, risk-adjusted discount rate, price to book value ratio, price to earnings ratio and liquidity discounts.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.5 Offsetting financial assets and financial liabilities

Certain financial assets and financial liabilities of the Group are subject to enforceable master netting arrangements or similar agreements. The agreement between the Group and the counterparty generally allows for net settlement of the relevant financial assets and financial liabilities when both elect to settle on a net basis. In the absence of such a mutual consent, financial assets and financial liabilities will be settled on a gross basis. However, each party to the master netting arrangements or similar agreements will have the option to settle all such amounts on a net basis in the event of default of the other party. These financial assets and financial liabilities of the Group are not offset in accordance with IFRSs.

As at 30 June 2021, the amount of the financial assets and financial liabilities subject to enforceable master netting arrangements or similar agreements is not material to the Group.

#### 3.6 Capital management

The “capital” in capital management is a broader concept than “shareholders’ equity” on the statement of financial position. The Group’s objectives in capital management are:

- To comply with the capital requirements set by the regulators of the markets where the Group operates;
- To ensure the Group’s ability to maintain a stable operation so as to continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

The Group management adopts administrative measures issued by the CBIRC, which was developed based on guideline issued by the Basel Committee, in monitoring its capital adequacy ratio and the usage of regulatory capital on a quarterly basis. The quarterly monitored information is then submitted to the CBIRC.

The Administrative Measures for the Capital of Commercial Banks (Provisional) specified the regulatory requirements for minimum capital, capital conservation buffer, additional capital surcharge for systemically important banks, countercyclical buffer and Pillar II capital as follows:

- Minimum regulatory requirements for core tier-1 capital adequacy ratio, tier-1 capital adequacy ratio and capital adequacy ratio are 5%, 6% and 8%, respectively;
- Capital conservation buffer requires additional 2.5% on core tier-1 capital adequacy ratio;
- Additional capital surcharge for systemically important banks requires additional 1% on core tier-1 capital adequacy ratio;
- Should the regulators require countercyclical buffer under particular circumstances or regulators impose additional Pillar II capital requirements for specific banks, these requirements shall be met within the specified time limits.

The Group’s capital as monitored by its Planning and Finance Department consists of the following:

- Core tier-1 capital, including ordinary shares, eligible portion of capital surplus, statutory reserve, statutory general reserve, retained earnings, eligible portion of non-controlling interests and translation reserve on foreign operations;
- Additional tier-1 capital, including Additional tier-1 capital instruments issued and related premium and eligible portion of non-controlling interests;
- Tier-2 capital, including tier-2 capital instruments issued and related premium, excess loan loss provisions and eligible portion of non-controlling interests.

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.6 Capital management (Continued)

The Group's deductible items from core tier-1 capital include: Goodwill, other intangible assets (except land use rights), investments in core tier-1 capital of financial institutions with controlling interests but outside the scope of regulatory consolidation.

In April 2014, the CBIRC officially approved the implementation of the advanced approach of capital management adopted by the Group. In this approach, the Group elected to use elementary internal rating based ("IRB") approach for corporate risk exposure, IRB approach for retail risk exposure, internal model approach for market risk and standardised approach for operational risk exposure which is compliant with regulatory requirements. For risk exposures not covered by the advanced approaches, the corresponding portion shall be calculated by adopting non-advanced approaches. The capital ratios calculated based on Administrative Measures for the Capital of Commercial Banks (Provisional) are as follows:

| Items                                  | As at<br>30 June 2021 | As at<br>31 December 2020 |
|--|-----------------------|---------------------------|
| Core tier-1 capital adequacy ratio (%) | 10.59                 | 10.87                     |
| Tier-1 capital adequacy ratio (%)      | 13.11                 | 12.88                     |
| Capital adequacy ratio (%)             | 15.29                 | 15.25                     |
| Core tier-1 capital                    | 748,648               | 732,863                   |
| Core tier-1 capital deductions         | (5,569)               | (5,252)                   |

|   | 14,160                   | 12,676 |

## (a) Post-employment benefit

**Defined contribution plans**

The Group participates in various defined contribution retirement benefit plans organised by municipal and provincial governments in Mainland China, under which it is required to make monthly contributions to these plans at rates ranging from 10% to 27% of the employees' basic salary for the year. The Group's contributions to these pension plans are charged to profit or loss and other comprehensive income in the year to which they relate.

Employees who retire at or after 1 January 2009 can voluntarily participate in an Annuity Plan. The Bank contributes to the Annuity Plan based on certain percentage of the employees' gross salary which is recognised in profit or loss as incurred.

The amount recognised in profit or loss is as follows:

|   | Six months ended 30 June |       |
|---|--------------------------|-------|
|   | 2021                     | 2020  |
| Expenses incurred for retirement benefit plans and unemployment insurance | 1,140                    | 601   |
| Expenses incurred for annuity plan  | 718                      | 459   |
| Total   | 1,858                    | 1,060 |

The amount payable at the end of the period or year is as follows:

|   | As at<br>30 June 2021 | As at<br>31 December 2020 |
|---|-----------------------|---------------------------|
|   |                       |                           |
| Expenses incurred for retirement benefit plans and unemployment insurance | 64                    | 69                        |
| Expenses incurred for annuity plan  | 42                    | 73                        |
| Total   | 106                   | 142                       |

#### Defined benefit plans

The Group pays supplementary retirement benefits to employees in Mainland China, who retired at or before 31 December 2008. The Group's obligations in respect of supplementary retirement benefits are calculated by estimating the amount of future benefits that the Group is committed to pay to the employees after their retirement using actuarial techniques. Such benefits, which are estimated by using key parameters such as inflation rate and mortality ratio, are discounted to their present values. The discount rate is the yield on government bonds at the end of reporting date, the maturity dates of which approximate to the terms of the Group's obligations. Actuarial gains or losses and changes in actuarial assumptions are recognised in other comprehensive income, and amendments to pension plan are recognised in profit or loss in the period of a plan amendment. The amounts recognised in the statement of financial position represent the present value of unfunded obligations.

The Group's retirement benefit obligations in locations other than Mainland China are immaterial and are made in accordance with the relevant local policies and regulations.

|                                    | As at<br>30 June 2021 | As at<br>31 December 2020 |
|------------------------------------|-----------------------|---------------------------|
|                                    |                       |                           |
| Statement of financial position    |                       |                           |
| – Obligations for pension benefits | 393                   | 467                       |

Amounts recognised in comprehensive income in respect of the supplementary retirement benefits are as follows:

|  | Six months ended 30 June |      |
|--|--------------------------|------|
|  | 2021                     | 2020 |
| Components of defined benefit costs recognised in profit or loss             | 9                        | 9    |
| Components of defined benefit costs recognised in other comprehensive income | (58)                     | 34   |
| Total  | (49)                     | 43   |

Past service cost and interest expense are recognised in other operating expenses in the income statement. The average duration of the supplementary retirement benefits plan at 30 June 2021 is 12.76 years (31 December 2020: 13.20 years).

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 14 STAFF COSTS AND BENEFITS (Continued)

## (a) Post-employment benefit (Continued)

**Defined benefit plans** (Continued)

The Group expects to make a contribution of RMB40 million (2020: RMB40 million) to the defined benefit plan during the next financial year.

The supplementary retirement benefits plan exposes the Group to actuarial risks such as interest risk, longevity risk and inflation risk. A decrease in the government bond yield will increase the present value of unfunded obligations. The present value of unfunded obligations is calculated by reference to the best estimate of the mortality of plan participants. An increase in the life expectancy of the plan participants will increase the plan's liability. The present value of unfunded obligations is also measured by future payment standards, which are determined by inflation rate. Hence, an increase in inflation rate will increase the present value of the unfunded obligations.

The principal actuarial assumptions regarding interest risk and inflation risk used by the Group are discount rate and inflation rate, which were 3.39% (31 December 2020: 3.51%) and 0.97% (31 December 2020: 2.87%) respectively as at 30 June 2021. In the meantime, assumptions regarding future mortality rate are set based on published statistics by CBRIC. As at 30 June 2021, an average longevity of a pensioner after retirement at age 60 for male is 23.13 years (31 December 2020: 23.13 years) while a pensioner after retirement at age 55 for female is 33.13 years (31 December 2020: 33.13 years).

## 15 EMOLUMENTS OF DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

|              | Six months ended 30 June |      |
|--------------|--------------------------|------|
|              | 2021                     | 2020 |
| Remuneration | 6                        | 7    |

No director or supervisor waived or agreed to waive any emoluments during the above periods.

For the six months ended 30 June 2021, RMB0.32 million was accrued for independent non-executive directors' emolument (six months ended 30 June 2020, RMB0.40 million).

## 16 INCOME TAX

|  | Six months ended 30 June |         |
|--|--------------------------|---------|
|  | 2021                     | 2020    |
| Current income tax   |                          |         |
| – Mainland China enterprise income tax                               | 4,067                    | 3,968   |
| – Hong Kong profits tax  | 340                      | 475     |
| – Income tax arising in Macao, Taiwan and other countries or regions | 259                      | 193     |
| Subtotal   | 4,666                    | 4,636   |
| Deferred income tax (Note 26)  | (951)                    | (1,675) |
| Total  | 3,715                    | 2,961   |

The provision for enterprise income tax in Mainland China is calculated based on the statutory rate of 25% (2020: 25%) of the assessable income of the Bank and each of the subsidiary established in Mainland China. Taxation arising in other jurisdictions (including Hong Kong) is calculated at the rates prevailing in the relevant jurisdictions, the shortfall arising from the differential in tax rates of overseas branches as compared with the Mainland China tax rate shall be reported and paid by head office.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 16 INCOME TAX (Continued)

The actual taxation on the Group differs from the theoretical amount calculated using the Group's profit before tax at the tax rate of 25% (2020: 25%). The major reconciliation items are as follows:

|  | Six months ended 30 June |         |
|--|--------------------------|---------|
|  | 2021                     | 2020    |
| Profit before tax  | 46,588                   | 39,958  |
| Tax calculated at statutory rate of 25%  | 11,647                   | 9,990   |
| Effects of different tax rates prevailing in Hong Kong, Macao, Taiwan and other countries or regions | (127)                    | (94)    |
| Effects of non-deductible expenses (1)   | 1,795                    | 1,944   |
| Effects of non-taxable income (2)  | (9,489)                  | (8,449) |
| Adjustments for income tax of prior years  | (111)                    | (430)   |
| Income tax   | 3,715                    | 2,961   |

(1) Non-deductible expenses primarily represent non-deductible write-offs.

(2) Non-taxable income primarily represents interest income from PRC treasury bonds and municipal government bonds and fund investment income gained in Mainland China.

### 17 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit attributable to shareholders of the Bank by the weighted average number of ordinary shares in issue during the period.

|  | Six months ended 30 June |         |
|--|--------------------------|---------|
|  | 2021                     | 2020    |
| Net profit attributable to shareholders of the Bank  | 42,019                   | 36,505  |
| Less: Dividends paid to preference shareholders  | (1,755)                  | (2,714) |
| Net profit attributable to ordinary shareholders of the Bank   | 40,264                   | 33,791  |
| Weighted average number of ordinary shares in issue (expressed in millions) at the end of the period | 74,263                   | 74,263  |
| Basic and diluted earnings per share (expressed in RMB per share)                                    | 0.54                     | 0.46    |

For the purpose of calculating basic earnings per share, cash dividend on non-cumulative preference shares declared for the period was deducted from the amounts attributable to shareholders of the Bank. The Bank has RMB1,755 million cash dividend on preference shares during the six months ended 30 June 2021. The conversion feature of preference shares may lead to the possible existence of contingently issuable ordinary shares. The triggering events of conversion did not occur for the six months ended 30 June 2021, therefore the conversion feature of preference shares has no effect on the basic and diluted earnings per share calculation.

### 18 CASH AND BALANCES WITH CENTRAL BANKS

|                            | As at<br>30 June 2021 | As at<br>31 December 2020 |
|----------------------------|-----------------------|---------------------------|
| Cash                       | 13,602                | 15,353                    |
| Mandatory reserve deposits | 670,058               | 634,239                   |
| Excess reserve deposits    | 120,346               | 160,863                   |
| Fiscal deposits and others | 6,013                 | 6,786                     |
| Accrued interest           | 301                   | 320                       |
|                            | 810,320               | 817,561                   |

The Group places mandatory reserves with the PBOC and several other central banks of overseas countries and regions. Such mandatory reserves are not available for use by the Group in its day-to-day operations.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 18 CASH AND BALANCES WITH CENTRAL BANKS (Continued)

The Bank's domestic mandatory deposit reserve rates as at the balance sheet date are as follows:

|  | As at<br>30 June 2021<br>% | As at<br>31 December 2020<br>% |
|--|----------------------------|--------------------------------|
| Domestic mandatory reserve rate for deposits denominated in RMB                | 11.00                      | 11.00                          |
| Domestic mandatory reserve rate for deposits denominated in foreign currencies | 7.00                       | 5.00                           |

Reserve rate for deposits denominated in RMB of the Group's subsidiaries in Mainland China is subject to relevant regulations of the PBOC.

Mandatory reserve rate for deposits with central banks of overseas countries and regions is subject to regulations of local regulatory bodies.

Excess reserve deposits with central banks are mainly used for capital settlement, financial institution transfer, etc.

## 19 DUE FROM AND PLACEMENTS WITH BANKS AND OTHER FINANCIAL INSTITUTIONS

|  | As at<br>30 June 2021 | As at<br>31 December 2020 |
|--|-----------------------|---------------------------|
| Due from banks and other financial institutions                                    |                       |                           |

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 21 DERIVATIVE FINANCIAL INSTRUMENTS

The following derivative financial instruments are utilised by the Group for trading or hedging purposes:

Currency and commodity forwards are contracts between two parties to buy or sell certain currencies or commodities at a specified future date at a predetermined price. The party agreeing to buy the underlying currency or commodities in the future assumes a long position, and the party agreeing to sell the currency or commodities in the future assumes a short position. The price agreed upon is called the delivery price, which is equal to the forward price at the time the contract is entered into.

Currency, commodity and interest rate swaps are commitments to exchange one set of cash flows for another. Swaps result in an economic exchange of currencies, commodities or interest rates (i.e. fixed-for-floating swaps) or a combination of these (i.e. cross-currency interest rate swaps). The Group's credit risk represents the potential cost to replace the swap contracts if counterparties fail to perform their obligation. This risk is monitored on an ongoing basis with reference to the current fair value, the notional amount of the contracts and the liquidity of the market. To control the level of credit risk taken, the Group assesses counterparties using the same techniques as for its lending activities.

Currency, commodity and interest rate options are contractual agreements under which the seller (writer) grants the buyer (holder) the right, but not the obligation, either to buy (a call option) or sell (a put option) on or before a set date or during a set period, a specific amount of a currency or commodity at a predetermined price or to receive an interest payment based on a variable interest rate and pay at a fixed interest rate or vice versa. The seller receives a premium from the buyer in consideration for assuming foreign exchange, interest rate risk or commodity price fluctuations. Options may be either exchange-traded or negotiated between the Group and a customer (over the counter market).

The notional amounts of certain types of financial instruments provide a reference of the amounts recognised in the statement of financial position but do not necessarily indicate the amounts of future cash flows involved or the current fair value of the instruments and, therefore, do not indicate the Group's exposure to credit or price risks. The derivative financial instruments may become favourable (assets) or unfavourable (liabilities) as a result of fluctuations in market interest rates, foreign exchange rates or commodity price relative to their terms. The aggregate fair values of derivative financial assets and liabilities can fluctuate significantly from time to time. The fair values of derivative financial instruments held are set out in the following tables.

| As at 30 June 2021  | Contractual/Notional | Fair values |             |
|---|----------------------|-------------|-------------|
|   | Amount               | Assets      | Liabilities |
| Foreign exchange and commodity contracts                    | 2,714,863            | 26,678      | (22,974)    |
| Interest rate contracts and others                          | 3,381,739            | 8,906       | (10,728)    |
| Total amount of derivative financial instruments recognised | 6,096,602            | 35,584      | (33,702)    |

| As at 31 December 2020                                      | Contractual/Notional | Fair values |             |
|---|----------------------|-------------|-------------|
|   | Amount               | Assets      | Liabilities |
| Foreign exchange and commodity contracts                    | 2,435,423            | 44,435      | (40,914)    |
| Interest rate contracts and others                          | 3,101,818            | 9,777       | (15,028)    |
| Total amount of derivative financial instruments recognised | 5,537,241            | 54,212      | (55,942)    |

The tables above provide a breakdown of the contractual or notional amounts and the fair values of the Group's derivative financial instruments outstanding at year end. These instruments, comprising foreign exchange, interest rate and commodity derivatives allow the Group and its customers to transfer, mitigate or reduce their foreign exchange, interest rate and commodity price fluctuation risks.

The Group undertakes its transactions in foreign exchange, interest rates and commodity contracts with other financial institutions and customers. Management has established limits for these contracts based on counterpart types, industry sectors and countries. Related risks are regularly monitored and controlled by management.

(All amounts expressed in millions of RMB unless otherwise stated)

## 21 DERIVATIVE FINANCIAL INSTRUMENTS (Continued)

## Hedge accounting (Continued)

**(a) Fair value hedge**

The Group uses interest rate swaps to hedge against changes in fair value arising from changes in interest rates. Some purchased interest rate swap contracts are designated as hedging instruments, whose terms are identical with those of the corresponding hedged items regarding interest rate, maturity and currency. The Group uses regression analysis to evaluate the effectiveness of hedging. With the support of testing results, the Group's management considers the hedging relationship to be highly effective. The hedged items include due from and placements with banks and other financial institutions, debt investments at FVOCI, due to and placements from banks and other financial institutions, loans and advances to customers and certificates of deposits issued.

The following table shows the profit or loss effects of the fair value hedges:

|  | Six months ended 30 June |         |
|--|--------------------------|---------|
|  | 2021                     | 2020    |
| Net gains/(losses) from fair value hedges:   |                          |         |
| Hedging instruments                          | 2,320                    | (5,913) |
| Hedged items attributable to the hedged risk | (2,408)                  | 5,799   |
| Total  | (88)                     | (114)   |

**(b) Cash flow hedge**

The Group uses foreign exchange contracts to hedge against exposures to cash flow variability primarily resulting from foreign exchange risks, and uses interest rate swaps to hedge against exposures to cash flow variability primarily resulting from interest rate risks. The hedged items include debt investments at FVOCI, due from and placements with banks and other financial institutions, debt securities issued, loans and advances to customers, due to and placements from banks and other financial institutions and certificates of deposits issued. The Group mainly uses regression analysis to evaluate the effectiveness of hedging. With the supporting of testing results, the Group's management considers the hedging relationship to be highly effective.

For the six months ended 30 June 2021, the Group recognised a profit of RMB1,271million (for the six months ended 30 June 2020:a loss of RMB829 million) from effective portion of cash flow hedge in other comprehensive income. The Group reclassifies a loss of RMB986 million from other comprehensive income to profit or loss(for the six months ended 30 June 2020: a profit of 5 million). Gains or losses arising from ineffective portion of cash flow hedge were immaterial. There were no transactions for which cash flow hedge accounting had to be ceased as a result of the highly probable cash flows no longer being expected to occur.

| Investment properties | 7,894                      | (577)                    | 180                                 | (144)                   | 7,353                        |

The Group's investment properties are located in active real estate markets. The external appraisers make reasonable estimation of fair value using market prices of the similar properties.

As at 30 June 2021, fair value hierarchies of the investment properties of the Group are as follows:

|   | Level 1 | Level 2 | Level 3 | As at<br>30 June 2021 |
|---|---------|---------|---------|-----------------------|
| Commercial property units located in Hong Kong      | –       | –       | 779     | 779                   |
| Commercial property units located outside Hong Kong | –       | –       | 6,100   | 6,100                 |

The valuation of investment properties was performed by independent qualified professional valuers not connected to the Group. Valuation methodologies include "Rental Income Approach" and "Direct Comparison Approach". The inputs to these models mainly include growth rate of rental, capitalisation rate and unit price.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 29 FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

|   | As at<br>30 June 2021 | As at<br>31 December 2020 |
|---|-----------------------|---------------------------|
| Short position of securities held for trading             | 131                   | –                         |
| Certificates of deposit issued                            | 1,644                 | 7,868                     |
| Financial liabilities related to precious metal contracts | 11,282                | 16,104                    |
| Notes issued  | 700                   | 417                       |
| Others  | 6,775                 | 4,890                     |
| Total   | 20,532                | 29,279                    |

Except for certificates of deposit issued by branch in Hong Kong, notes issued by BoCom International Holdings Company Limited, and shares of consolidated structured entities held by other parties rather than the Group which are designated at fair value through profit or loss, financial liabilities at fair value through profit or loss are financial liabilities held for trading.

*Financial liabilities designated at fair value through profit or loss*

|  | As at<br>30 June 2021 | As at<br>31 December 2020 |
|--|-----------------------|---------------------------|
| Difference between carrying amount and maturity amount |                       |                           |
| Fair values  | 9,119                 | 13,175                    |
| Amount payable at maturity                             | 9,033                 | 12,962                    |
|  | 86                    | 213                       |

For the six months ended 30 June 2021 and the year ended 31 December 2020, there were no significant changes in the fair value of the Group's financial liabilities designated at fair value through profit or loss that were attributable to the changes in credit risk.

## 30 DUE TO CUSTOMERS

| Bonds                      |      |                       |                           |
| The Bank                   | 32.3 | 10,322                | 13,373                    |
| Total                      |      | 541,597               | 497,755                   |

Note: Debt securities issued are designated as fair value through profit or loss upon initiation as the Hong Kong branch of the Bank considers such designation could eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise result from measuring the corresponding derivative assets or recognising the gains or losses on them on different basis. Accordingly, the debts are designated as fair value through profit or loss with changes in fair values charged to profit and loss account. For the six months ended 30 June 2021 and the year ended 31 December 2020, there were no significant changes that were attributable to the Group's changes in credit risks.

#### 32.1 Subordinated bonds

Detailed information of subordinated bonds is disclosed as follows:

|                 | Currency | Issue place    | Coupon<br>rate % | Par value<br>(CCY) | Issue date | Maturity | Note | Ending<br>balance | Opening<br>balance |

- (a) The Group has an option to redeem 14 BoComm 01-Euro as a whole on 3 October 2021. If the issuer does not exercise the redemption right by 3 October 2021, the interest rate will be readjusted based on the median of 5-year Euro swap rate plus 300 basis points initial rate differential.
- (b) The Group has an option to redeem 17 BoComm at the par value partially or as a whole on 13 April 2022, the first day upon the end of the fifth interest-bearing year, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (c) The Group has an option to redeem 19 BoComm 01 at the par value partially or as a whole on 16 August 2024, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (d) The Group has an option to redeem 19 BoComm 02 at the par value partially or as a whole on 16 August 2029, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (e) The Group has an option to redeem 20 BoComm at the par value partially or as a whole on 21 May 2025, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (f) Bank of Communications Financial Leasing Co., Ltd. has an option to redeem 18 Leasing 02 at the par value partially or as a whole on 20 September 2023, the first day upon the end of the fifth interest-bearing year, provided that the CBIRC's permission is acquired in advance and Bank of Communications Financial Leasing Co., Ltd.'s capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.

These tier-2 capital bonds have the write-down feature, which allows the Group or Bank of Communications Financial Leasing Co., Ltd to write down the entire principals of the bonds when regulatory triggering events as stipulated in the offering documents occur and any accumulated unpaid interest would become not payable. These bonds are regarded as tier-2 capital without any guarantees provided and the proceeds of the debts cannot be used for compensating daily operating loss of the Group or Bank of Communications Financial Leasing Co., Ltd.

# NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

## 35 OTHER EQUITY INSTRUMENTS *(Continued)*

### 35.1 Preference shares *(Continued)*

#### **35.1.3 Main clauses**

##### *Domestic preference shares*

##### (a) Dividend

The domestic preference shares will accrue dividends on their issue price at the relevant dividend rate below:

- (1) From and including the issue date to but excluding the first reset date, at the rate of 3.90% per annum; and
- (2) The dividend rate will be re-priced every five years thereafter with reference to the arithmetic average value (rounding off to 0.01%) of five-year Chinese treasury bonds yield at the date which is 20 transaction days before the reset date (excluding the date) plus a fixed premium of 1.37%. As authorised by the shareholders' annual general meeting, the Board of Directors has the sole discretion to declare and distribute dividends on domestic preference shares.

The dividend for domestic preference shares is non-cumulative. Where the Bank determines to cancel the dividend for domestic preference shares in whole or in part, the omitted dividend will not be carried forward and claimed in the future period. After receiving dividends at the agreed dividend rate, domestic preference shareholders of the Bank will not participate in the distribution of residual profits with ordinary shareholders. Domestic preference shares issued by the Bank have the same dividend distribution order as the offshore preference shares.

##### (b) Conditions to distribution of dividends

The Bank could pay dividends while the Bank still has distributable after-tax profit after making up previous years' losses, contributing to the statutory reserve and making general provisions, and the Bank's capital adequacy ratio meets regulatory requirements. Domestic preference shareholders of the Bank are senior to the ordinary shareholders on the right to dividends.

Subject to a resolution to be passed at a shareholders' general meeting of the Bank on each such occasion, the Bank may elect to cancel (in whole or in part) any preference share dividend. The Bank shall not distribute any dividends to its ordinary shareholders before it declares such dividends to preference shareholders for the relevant periods.

##### (c) Mandatory conversion trigger events

Upon occurrence of the triggering events as stipulated by the offering documents and subject to regulatory approval, domestic preference shares shall be mandatorily converted into ordinary A Shares of the Bank, partially or entirely. The initial mandatory conversion price is RMB6.25 per share. To balance the interest between preference shareholders and ordinary shareholders, the mandatory conversion price of the preference shares will be cumulatively adjusted in sequence where certain events occur including issuances of bonus shares, capitalisation of reserves, new issuances of ordinary shares at a price lower than the market price (excluding equity increased due to exercise of convertible financing instruments that can be converted into ordinary shares) and rights issues, subject to terms and formulas provided for in the offering documents. Appropriation of dividends to ordinary shareholders is not trigger event for price adjustment.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 35 OTHER EQUITY INSTRUMENTS (Continued)

## 35.1 Preference shares (Continued)

## 35.1.3 Main clauses (Continued)

## Domestic preference shares (Continued)

## (d) Order of distribution and liquidation method

On winding-up of the Bank, distribution to domestic preference shareholders is made after all debts of the Bank (including subordinated debts) and obligations that are issued or guaranteed by the Bank and specifically stated to be distributed prior to the domestic preference shares; all domestic preference shareholders are ranked at the same in the distribution sequence without priority among them and have the same repayment sequence rights as holders of obligations with equivalent rights. In addition, distribution is made to domestic preference shareholders prior to ordinary shareholders.

On winding-up of the Bank, any remaining assets of the Bank shall, after the distributions in accordance with the terms and conditions of the domestic preference shares have been made, be applied to the claims of the domestic preference shareholders equally in all respects with the claims of holders of any parity obligations (which term, for the avoidance of doubt, includes the domestic preference shares and any other preference shares of the Bank issued from time to time to investors outside the PRC) and in priority to the claims of the holders of ordinary shares.

The distribution amount obtained by the domestic preference shareholders shall be the total par value of the issued and outstanding preference shares plus dividends declared but not paid in the current period; if the distribution amount is insufficient, domestic and offshore preference shareholders will share the distribution amount on a proportional basis.

## (e) Redemption

The domestic preference shares are perpetual and have no maturity date. The Bank may, subject to obtaining the CBIRC approval and in compliance with the redemption preconditions, redeem all or some of the domestic preference shares on 2 September 2021 and on any preference share dividend payment date thereafter. The redemption period ends at the date when shares are fully converted or redeemed.

## 35 OTHER EQUITY INSTRUMENTS *(Continued)*

### 35.2 Perpetual bonds *(Continued)*

#### 35.2.2 Main clauses

- (1) With the approvals by relevant regulatory authorities, the Bank issued RMB40.0 billion undated capital bonds in China's National Inter-Bank Bond Market on 18 September 2019, and the issuance was completed on 20 September 2019. The denomination of the bonds is RMB100 each and coupon rate of 4.20%. The bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

The perpetual bonds will continue to be outstanding so long as the Bank's business continues to operate. The bonds have set forth terms regarding the Bank's redemption with pre-conditions, by which the Bank is entitled to redeem the bonds after five years since the issue date in whole or in part on the annual interest payment date (including the interest payment date of the fifth year after the issue date). If, after the issuance, the perpetual bonds no longer qualify as additional tier-1 capital as a result of an unforeseeable change or amendment to relevant provisions of supervisory regulations, the Bank may redeem the whole but not part of the perpetual bonds.

The claims in respect of the perpetual bonds are subordinated to the claims of depositors, general creditors, and subordinated indebtedness that rank senior to the perpetual bonds; and will rank in priority to all classes of equity shares held by the Bank's shareholders and rank *pari passu* with the claims in respect of any other additional tier-1 capital instruments of the Bank that rank *pari passu* with the perpetual bonds.

Upon the occurrence of Additional tier-1 capital trigger event, namely, the Bank's core tier-1 capital adequacy ratio having fallen to 5.125% (or below), the Bank has the right, subject to the approval of the CBIRC but without the need for the consent of the bondholders, to write down whole or part of the aggregate amount of the perpetual bonds then issued and outstanding, in order to restore the core tier-1 capital adequacy ratio to above 5.125%. Upon the occurrence of a Non-Viability Triggering Event, the Bank has the right to write down all the above perpetual bond issued and existing at that time in accordance with the total par value without the consent of the bondholders.

The distributions on the perpetual bonds are non-cumulative, and the Bank shall have the right to cancel, in whole or in part, distributions on the bonds and any such cancellation shall not constitute an event of default. The Bank may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the bonds, no matter in whole or in part, will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shares.

Investors have no right to redeem their subscription from the Bank. The net proceeds from the Bank's issuance of the above bonds, after deducting offering related expenses, will be used to replenish the Additional tier-1 capital of the Bank.

### 35 OTHER EQUITY INSTRUMENTS (Continued)

#### 35.2 Perpetual bonds (Continued)

##### 35.2.2 Main clauses (Continued)

- (3) With the approvals by relevant regulatory authorities, the Bank has completed the issuance of the USD2.8 billion undated capital bonds in the offshore market on 18 November 2020. The coupon rate of the bonds is 3.80%. The bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

The perpetual bonds will continue to be outstanding so long as the Bank's business continues to operate. The bonds have set forth terms regarding the Bank's redemption with pre-conditions. Subject to the satisfaction of the redemption conditions and having obtained the prior approval of the CBIRC, the bank is entitled to redeem the bonds after five years since the issue date in whole or in part on the annual interest payment date (including the interest payment date of the fifth year after the issue date). If, after the issuance, the perpetual bonds no longer qualify as additional tier-1 capital as a result of an unforeseeable change or amendment to relevant provisions of supervisory regulations, the Bank may redeem the whole but not part of the perpetual bonds.

The claims in respect of the perpetual bonds are subordinated to the claims of depositors, general creditors, and subordinated indebtedness that rank senior to the perpetual bonds; and will rank in priority to all classes of equity shares held by the Bank's shareholders and rank pari passu with the claims in respect of any other additional tier-1 capital instruments of the Bank that rank pari passu with the perpetual bonds.

Upon the occurrence of a Non-Viability Triggering Event, the Bank has the right to write down/write off in whole or in part, without the need for the consent of the holders of the bonds. Once the principal amount of the Bonds (in whole or in part) has been written-off, such relevant written-off portion of the bonds will not be restored or become payable again in any circumstances (including where the relevant Non-Viability Triggering Event ceases to continue), and any accrued but unpaid distribution in respect of such relevant written-off portion of the bonds shall cease to be payable. In addition, there will be no compensation in any form to remedy the loss of the bondholders.

The distributions on the perpetual bonds are non-cumulative, and the Bank shall have the right to cancel, in whole or in part, distributions on the bonds and any such cancellation shall not constitute an event of default. The Bank may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the bonds, no matter in whole or in part, will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shares.

Investors have no right to redeem their subscription from the Bank. The net proceeds from the Bank's issuance of the above bonds, after deducting offering related expenses, will be used to replenish the additional tier-1 capital of the Bank.

#### 35.3 Interests attributable to holders of other equity instruments

|   | As at<br>30 June 2021 | As at<br>31 December 2020 |
|---|-----------------------|---------------------------|
| Total equity attributable to equity holders of the parent company   | 923,608               | 866,607                   |

(All amounts expressed in millions of RMB unless otherwise stated)

## 36 OTHER RESERVES AND RETAINED EARNINGS

Pursuant to the relevant PRC regulations, the appropriation of profits to the statutory general reserve, the discretionary reserve and the distribution of dividends in each year are based on the recommendations of the directors and are subject to the resolutions to be passed at the General Meeting of Shareholders.

Pursuant to relevant PRC regulations, the Bank appropriated 10% of its net profit for the year under CAS to the statutory surplus reserve until the reserve balance reaches 50% of the Bank's registered capital. The statutory surplus reserve can be used to compensate losses or to increase share capital upon approval. The Bank appropriate RMB6,897 million to the statutory surplus upon approval from the 2020 Annual General Meeting of Shareholders held on 29 June 2021.

|                       | As at<br>1 January 2021 | Appropriate | Decrease | As at<br>30 June 2021 |
|-----------------------|-------------------------|-------------|----------|-----------------------|
| Statutory reserve     | 72,431                  | 7,100       | –        | 79,531                |
| Discretionary reserve | 139,930                 | –           | –        | 139,930               |
| Total                 | 212,361                 | 7,100       | –        | 219,461               |

Pursuant to relevant PRC banking regulations, since 1 July 2012, the Bank made statutory general reserve from net profit through profit appropriation according to Administrative Measures for the Provisioning of Financial Enterprises (Cai Jin [2012] No. 20). The proportion is determined based on several factors including the Bank's overall exposure to risk, normally no lower than 1.5% of the ending balance of risk assets. The statutory general reserve is an integral part of shareholders' equity but not subject to dividend distribution. The Bank's subsidiaries and overseas branches, if required by local regulation requirements, also need to make such general reserve. The 2020 Annual General Meeting of Shareholders, held on 29 June 2021, considered and adopted the 2020 profit distribution scheme, which stipulates as follows:

|                           | As at<br>1 January 2021 | Appropriate | Decrease | As at<br>30 June 2021 |
|---------------------------|-------------------------|-------------|----------|-----------------------|
| Statutory general reserve | 123,163                 | 6,715       | –        | 129,878               |

The Bank appropriated RMB6,432 million to the statutory general reserve upon approval from the 2020 Annual General Meeting of Shareholders held on 29 June 2021, of which the overseas branches of the Bank have appropriated RMB11 million to statutory general reserve according to the requirement of local regulatory authorities in the year ended 31 December 2020.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 37 DIVIDENDS

|  | Six months ended 30 June |        |
|--|--------------------------|--------|
|  | 2021                     | 2020   |
| Dividends to ordinary shareholders of the Bank   | 23,541                   | 23,393 |
| Dividends to preference shareholders of the Bank | 1,755                    | 2,714  |

Under PRC Company Law and the Bank's Articles of Association, the net profit after tax as reported in the PRC statutory financial statements can only be distributed as dividends after allowances for the following:

- (1) Making up cumulative losses from prior years, if any;
- (2) Allocations to the non-distributable statutory reserve of 10% of the net profit of the Bank as determined under the relevant PRC accounting standards;
- (3) Allocations to statutory general reserve;
- (4) Allocations to the discretionary reserve upon approval by the Annual General Meeting of Shareholders. These funds form part of the shareholders' equity.

The cash dividends are recognised in the consolidated statement of financial position upon approval by the shareholders at Annual General Meeting.

Pursuant to the approval by the Board meeting on 29 April 2021, the Bank will appropriate domestic preference dividends on 7 September 2021 with a dividend yield of 3.9% (the actual dividend yield obtained by the preference shareholders), with total amount of RMB1,755 million.

Pursuant to the approval by the Annual General Meeting of Shareholders on 29 June 2021, the Bank appropriated RMB6,432 million to the statutory general reserve. It was also resolved that a cash dividend of RMB0.317 (before tax) for each ordinary share, with total amount of RMB23,541 million, calculated based on 74,263 million shares outstanding (the par value per share is RMB1) as at 31 December 2020, will be distributed to ordinary shareholders.

### 38 NON-CONTROLLING INTERESTS

Non-controlling interests of the Group include equity attributable to non-controlling interests of ordinary shares and equity attributable to non-controlling interests of other equity instruments. As at 30 June 2021, equity attributable to other equity instruments holders was RMB3,221 million. Other equity instruments were non-cumulative subordinated additional tier-1 capital securities issued by Bank of Communications (Hong Kong) Limited on 3 March 2020.

|                                    |  |
|------------------------------------|--|
| Issue Date                         | 3 March 2020   |
| Face Value                         | USD500 million   |
| First Call Date                    | 3 March 2025   |
| Distribution Rate                  | (i) from the issue date to the first call date, 3.725% per annum<br>(ii) for every five calendar years after the first call date, the then-prevailing five-year US Treasury Rate plus 2.525% per annum |
| Frequency of distribution payments | Semi-annually  |

Bank of Communications (Hong Kong) Limited may determine the policies of distribution payments and whether to redeem the bonds. Therefore, the Group recognised the bonds as equity instruments.

Pursuant to the terms and conditions of the Non-Cumulative Subordinated Additional Tier-1 Capital Securities, Bank of Communications (Hong Kong) Limited has paid a total distribution of RMB61 million during the six months ended 30 June 2021.

## 39 CREDIT RELATED COMMITMENTS AND FINANCIAL GUARANTEES, OTHER COMMITMENTS AND CONTINGENT LIABILITIES

## Credit related commitments and financial guarantees

The following tables provide the contractual amounts of the Group's credit related commitments and financial guarantees which the Group has committed to its customers:

|                               | As at<br>30 June 2021 | As at<br>31 December 2020 |
|-------------------------------|-----------------------|---------------------------|
| Letters of guarantee          | 353,592               | 333,610                   |
| Letters of credit commitments | 193,956               | 163,151                   |
| Acceptance bills              | 340,022               | 319,076                   |
| Credit card commitments       | 902,668               | 800,441                   |
| Loan commitments              |                       |                           |
| – Under 1 year                | 5,737                 | 5,111                     |
| – 1 year and above            | 54,805                | 55,323                    |
|                               | 1,850,780             | 1,676,712                 |

## Capital expenditure commitments

|                                 | As at<br>30 June 2021 | As at<br>31 December 2020 |
|---------------------------------|-----------------------|---------------------------|
| Contracted but not provided for | 52,214                | 62,224                    |

## Operating lease commitments

The Group acts as lessor in operating leases principally through aircraft and vessels leasing undertaken by its subsidiaries. The future minimum lease receivables on certain aircraft and vessel under irrevocable operating leases are as follows:

|   | As at<br>30 June 2021 | As at<br>31 December 2020 |
|---|-----------------------|---------------------------|
| Within 1 year (inclusive)                           | 12,941                | 13,074                    |
| Beyond 1 year but no more than 2 years (inclusive)  | 12,454                | 12,622                    |
| Beyond 2 years but no more than 3 years (inclusive) | 12,081                | 12,220                    |
| Beyond 3 years but no more than 5 years (inclusive) | 21,316                | 22,062                    |
| More than 5 years                                   | 33,877                | 36,562                    |
|   | 92,669                | 96,540                    |

## Commitments on security underwriting and bond acceptance

The Group is entrusted by Ministry of Finance to underwrite certain Certificated Bonds and Savings Bonds. The investors of Certificated Bonds and Savings Bonds have early redemption right while the Group has the obligation to buy back those Certificated Bonds and Savings Bonds. The redemption price is the principal value of the Certificated Bonds or Savings Bonds plus unpaid interest till redemption date. As at 30 June 2021, the principal value of the certain Certificated Bonds and Savings Bonds that the Group had the obligation to buy back amounted to RMB80,433 million (31 December 2020: RMB81,548 million). The Ministry of Finance will not provide funding for the early redemption of these Certificated Bonds and Savings Bonds on a back-to-back basis but will pay interest and principal at maturity. The Group expects the amount of redemption before the maturity dates of these bonds through the Group will not be material.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 39 CREDIT RELATED COMMITMENTS AND FINANCIAL GUARANTEES, OTHER COMMITMENTS AND CONTINGENT LIABILITIES (Continued)

#### Commitments on security underwriting and bond acceptance (Continued)

The original maturities of these bonds vary from 1 to 5 years.

As at 30 June 2021, the Group had no announced but unfulfilled irrevocable commitment on security underwriting (31 December 2020: Nil).

#### Legal proceedings

The Group has been involved as defendants in certain lawsuits arising from its normal business operations. Management of the Group believes, based on legal advice, the final result of these lawsuits will not have a material impact on the financial position or operations of the Group. Provision for litigation losses as advised by in-house or external legal professionals is disclosed in Note 33. The total outstanding claims against the Group (as defendant) by a number of third parties at the end of the year are summarised as follows:

|  | As at<br>30 June 2021 | As at<br>31 December 2020 |
|--|-----------------------|---------------------------|
| Outstanding litigations                        | 3,075                 | 3,876                     |
| Provision for outstanding litigation (Note 33) | 620                   | 1,032                     |

### 40 COLLATERALS

#### (1) Assets pledged

The Group uses part of its assets as collaterals for interbank repurchase arrangements and other liabilities-related business. All of these arrangements mature within 12 months from the date they take effect. The carrying amount of these collaterals and the balance of operations related are listed below:

|                       | Pledged assets        |                           | Associated liabilities |                           |
|-----------------------|-----------------------|---------------------------|------------------------|---------------------------|
|                       | As at<br>30 June 2021 | As at<br>31 December 2020 | As at<br>30 June 2021  | As at<br>31 December 2020 |
| Investment securities | 507,720               | 520,254                   | 440,442                | 456,210                   |
| Bills                 | 6,434                 | 28,854                    | 6,434                  | 28,854                    |
| Total                 | 514,154               | 549,108                   | 446,876                | 485,064                   |

Financial assets sold under repurchase agreements included certain transactions under which the title of the pledged securities has been transferred to counterparties. These transactions have been disclosed in Note 45 transfers of financial assets.

In addition, loans and advances to customers pledged as collateral for placements from banks by the Group as at 30 June 2021 amounted to RMB7,572 million in total (31 December 2020: RMB6,401 million).

#### (2) Collateral accepted

As part of the resale agreements, the Group has received securities that is allowed to sell or repledge in the absence of default by their owners. As at 30 June 2021, the Group had received securities with a fair value of RMB3,604 million on such terms (31 December 2020: Nil). As at 30 June 2021 and 31 December 2020, the Group did not sell or re-pledge any collaterals received.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 42 NOTES TO CONSOLIDATED STATEMENT OF CASH FLOWS

#### Analysis of the balance of cash and cash equivalents

For the purposes of the consolidated statement of cash flows, cash and cash equivalents comprise the following balances with maturities of less than or equal to 90 days from date of purchase and used for the purpose of meeting short-term cash commitments:

|   | As at<br>30 June 2021 | As at<br>30 June 2020 |
|---|-----------------------|-----------------------|
| Cash and balances with central banks                                | 131,543               | 162,440               |
| Due from and placements with banks and other financial institutions | 147,086               | 85,873                |
|   | 278,629               | 248,313               |

### 43 CONSOLIDATED STRUCTURED ENTITIES

Structured entities consolidated by the Group include certain trust investment plans, funds, and securitisation products issued, managed and invested by the Group. The Group controls these entities because the Group has power over, is exposed to, or has right to variable returns from its involvement with these entities and has the ability to use its power over these entities to affect the amount of the Group's returns. As at 30 June 2021, the consolidated structured entities amounted to RMB145,051 million (As at 31 December 2020, the consolidated structured entities amounted to RMB36,716 million).

### 44 UNCONSOLIDATED STRUCTURED ENTITIES

The Group has been involved in other structured entities through investments in structured entities or acting as sponsors of structured entities that provide specialised investment opportunities to investors. These structured entities generally finance the purchase of assets by issuing units of the products. The Group does not control these structured entities and therefore, these structured entities are not consolidated.

As at 30 June 2021, those structured entities sponsored by the Group consist primarily of funds, trusts, asset management products, limited partnerships, wealth management products with principals not guaranteed by the Group and securitisation products. The Group earns commission income by providing management services to the investors of these structured entities. In addition, the Group is also involved in certain structured entities sponsored by the Group or third parties through direct investments. These investments are recognised as financial investments at fair value through profit or loss, financial investments at fair value through other comprehensive income, and financial investments at amortised cost.

As at 30 June 2021, the balance of the non-principal guaranteed wealth management products set up by the Group amounted to RMB1,221,762 million (As at 31 December 2020: RMB1,211,959 million), the balance of funds issued by the Group amounted to RMB423,852 million and the balance of trusts and asset management plans and others sponsored by the Group amounted to RMB778,442 million (As at 31 December 2020: the balance of funds issued by the Group amounted to RMB339,871 million and the balance of trusts and asset management plans and others sponsored by the Group amounted to RMB843,540 million).

For the six months ended 30 June 2021, the Group's commission income from providing services to the investors of the structured entities managed by the Group was RMB4,318 million (For the six months ended 30 June 2020: RMB3,107 million), and no interest income from placements and repurchase transactions with those unconsolidated wealth management products (For the six months ended 30 June 2020: RMB1 million).

## 45 TRANSFERS OF FINANCIAL ASSETS

## 45.1 Financial assets sold under repurchase agreements

Sales and repurchase agreements are transactions in which the Group sells a security and simultaneously agrees to repurchase it (or an asset that is substantially the same) at a fixed price on a future date. Since the repurchase prices are fixed, the Group is still exposed to substantially all the credit risks and market risks and rewards of those securities sold. These securities, which the Group does not have the ability to use during the term of the arrangements, are not derecognised from the financial statements but regarded as “collateral” for the secured lending. In addition, the Group recognises a financial liability for cash received.

As at 30 June 2021 and 31 December 2020, the Group entered into repurchase agreements with certain counterparties. The proceeds from selling such securities are presented as “financial assets sold under repurchase agreements” (Note 28).

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 45 TRANSFERS OF FINANCIAL ASSETS (Continued)

#### 45.1 Financial assets sold under repurchase agreements (Continued)

The following table provides a summary of carrying amounts related to the transferred financial assets that are not derecognised and the associated liabilities:

|                       | Collaterals           |                           | Associated liabilities |                           |
|-----------------------|-----------------------|---------------------------|------------------------|---------------------------|
|                       | As at<br>30 June 2021 | As at<br>31 December 2020 | As at<br>30 June 2021  | As at<br>31 December 2020 |
| Investment securities | 3,327                 | 2,020                     | 3,256                  | 1,806                     |

#### 45.2 Securities lending transactions

Transferred financial assets that do not qualify for de-recognition mainly include debt securities lent to counterparties under securities lending agreements. The counterparties are allowed to sell or repledge those securities lent under agreements to repurchase in the absence of default by the Group, but has an obligation to return the securities at the maturity of the contract. The Group has determined that it retains substantially all the risks and rewards of these securities and therefore has not derecognised them. As at 30 June 2021, the carrying value of debt securities lent to counterparties was RMB12,890 million (31 December 2020: RMB12,640 million).

#### 45.3 Asset securitisation

The Group enters into securitisation transactions in the normal course of business by which it transfers credit assets to special purpose trusts which issue asset-backed securities to investors.

The Group may retain interests in the form of subordinated tranches which may give rise to the Group's continuing involvement in the transferred assets. Those financial assets are recognised on the consolidated statement of financial position to the extent of the Group's continuing involvement, while the rest are derecognised. The extent of the Group's continuing involvement is the extent of risk the Group faces due to changes in the value of the transferred assets.

As at 30 June 2021, loans with an original value of RMB57,364 million and carrying amount of RMB46,030 million (31 December 2020: RMB53,492 million and carrying amount of RMB41,600 million) have been securitised by the Group. For the six months ended 30 June 2021, the Group transferred financial assets amounted to RMB14,144 million through assets backed securitization transactions, and all have met the requirement of derecognition (For the year ended 31 December 2020, the Group transferred financial assets amounted to RMB15,272 million through assets backed securitization transactions, all have met the requirement of derecognition).

As at 30 June 2021, the Group retained their continued involvement in securitised credit assets by holding subordinated securities. The value of the assets that the Group continued to recognise was RMB4,455 million (31 December 2020: RMB4,275 million).

#### 45.4 Package disposal of non-performing loans and advances to customers

The Group disposes non-performing loans and advances to customers through transferring to third parties in the normal course of business. For the six months ended 30 June 2021, the Group had transferred non-performing loans and advances to customers with a gross carrying amount of RMB8,718 million (For the six months ended 30 June 2020: RMB5,770 million) and collected cash totalling RMB5,543 million (For the six months ended 30 June 2020: RMB2,792 million) from the transfer. The difference between the gross carrying amount and the cash collected had been written off. The Group derecognised the non-performing loans and advances to customers from the Group's financial statements at the time of disposal.

### 46 RELATED PARTY TRANSACTIONS

#### (a) Transactions with Ministry of Finance

As at 30 June 2021, Ministry of Finance held 17,732 million (31 December 2020: 17,732 million) ordinary shares of Bank of Communications Co., Ltd. which represented 23.88% (31 December 2020: 23.88%) of the total share capital.

(All amounts expressed in millions of RMB unless otherwise stated)

## 46 RELATED PARTY TRANSACTIONS (Continued)

## (d) Transactions with state-owned entities in PRC

The Group operates in an economic environment predominated by enterprises directly or indirectly owned and/or controlled by the government through its authorities, affiliates or other organisations (collectively the “state-owned entities”). During the period, the Group entered into extensive banking transactions with these state-owned entities including, but not limited to, the provision of credit and guarantees, deposits, foreign exchange, derivatives transactions, agency business, underwriting and distribution of bonds issued by the government as well as trading and redemption of securities issued by the government.

Management considers that transactions with state-owned entities are activities conducted in the ordinary course of business, and that the dealings of the Group have not been significantly or unduly affected by the fact that the Group and these state-owned entities are ultimately controlled or owned by the government. The Group has also established pricing policies for products and services and such pricing policies do not depend on whether or not the customers are state-owned entities.

## (e) Transactions with subsidiaries

Transactions between the Bank and its subsidiaries are carried out under normal commercial terms and paid at market rates. These transactions are eliminated on consolidation.

Details of transaction volumes and outstanding balances are summarised below:

|   | As at<br>30 June 2021 | As at<br>31 December 2020 |
|---|-----------------------|---------------------------|
| <b>The Bank</b>   |                       |                           |

| Due to customers  | 0.30~4.18                | 0.30~4.18 |

### 47 SEGMENTAL ANALYSIS

The Group's Board of Directors and senior management reviews the Group's operation by the particular economic areas in which the Group's branches and subsidiaries provide products or services. The Group's geographical operating segments are decided based upon location of the assets, as the Group's branches and subsidiaries mainly serve local customers.

The reportable geographical operating segments derive their revenue primarily from commercial banking services and investing activities, including deposits, loans, bills, trade financing, money market placements and takings, and securities investments, etc.

The Group's geographical operating segments include provincial and directly managed branches and subsidiaries (if any) in relevant regions, as follows:

- (1) Yangtze River Delta: including Shanghai (excluding Head Office), Jiangsu Province, Zhejiang Province, and Anhui Province;
- (2) Pearl River Delta: including Fujian Province and Guangdong Province;
- (3) Bohai Rim Economic Zone: including Beijing, Tianjin, Hebei Province, and Shandong Province;
- (4) Central China: including Shanxi Province, Jiangxi Province, Henan Province, Hubei Province, Hunan Province, Hainan Province, and Guangxi Zhuang Autonomous Region;
- (5) Western China: including Chongqing, Sichuan Province, Guizhou Province, Yunnan Province, Shanxi Province, Gansu Province, Qinghai Province, Inner Mongolia Autonomous Region, Ningxia Autonomous Region, and Xinjiang Uyghur Autonomous Region;
- (6) Northeastern China: including Liaoning Province, Jilin Province and Heilongjiang Province;
- (7) Overseas: including Hong Kong, New York, Tokyo, Singapore, Seoul, Frankfurt, Macau, Ho Chi Minh City, San Francisco, Sydney, Taipei, London, Luxembourg, Brisbane, Paris, Rome, Brazil, Melbourne, Toronto, Prague, Johannesburg;
- (8) Head Office, including the Pacific Credit Card Centre.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(All amounts expressed in millions of RMB unless otherwise stated)

## 47 SEGMENTAL ANALYSIS (Continued)

The revenue from external parties is reported to the Board of Directors and the senior management in a manner consistent with that in the consolidated statement of profit or loss and other comprehensive income.

As the Group's major revenue is derived from interest, and the Board of Directors and the senior management relies primarily on net interest income to assess the performance of segments, the interest income and expenses for all reportable segments are presented on a net basis.

The Group's Board of Directors and senior management reviews the segment performance on the basis of profit before tax. Funds are ordinarily allocated between segments. Costs of these funds are charged at the Group's cost of capital and disclosed in inter-segment net interest income. There are no other material items of income or expenses between the segments.

The net options position is calculated using the approach set out by the CBIRC in the regulatory report. The net structural position of the Group includes the structural positions of the Group's overseas branches, banking subsidiaries and other subsidiaries substantially involved in foreign exchange. Structural assets and liabilities include:

- Investments in fixed assets and properties, net of depreciation charges;
- Capital and statutory reserve of overseas branches;
- Investments in overseas subsidiaries and related companies; and
- Loan capital

### 2 INTERNATIONAL CLAIMS

International claims are the sum of cross-border claims in all currencies and local claims in foreign currencies. The Group is principally engaged in business operations within Mainland China.

In respect of this unaudited supplementary financial information, Mainland China excludes Hong Kong Special Administrative Region of the PRC ("Hong Kong"), Macau Special Administrative Region of the PRC ("Macau") and Taiwan.

International claims include loans and advances to customers, due from and placements with banks and other financial institutions, holdings of trade bills and certificates of deposits and investment securities.

International claims have been disclosed by country or region. A country or region is reported where it constitutes 10% or more of the aggregate amount of international claims, after taking into account any risk transfers. Risk transfers are only made if risk exposure is transferred to other counterparty by risk resolving methods. Exposure to credit risk is also mitigated through methods of guarantees, collaterals and credit derivatives.

# SUPPLEMENTARY INFORMATION ON CAPITAL ADEQUACY RATIO, LEVERAGE RATIO, LIQUIDITY COVERAGE RATIO AND NET STABLE FUNDING RATIO (CONTINUED)

## APPENDIX 4: MAIN FEATURES OF QUALIFIED REGULATORY CAPITAL INSTRUMENTS (CONTINUED)

|    |  |     |     |  |  |       |       |       |  |       |   |  |  |
|----|--|-----|-----|--|--|-------|-------|-------|--|-------|---|--|--|
| 18 | Including: Coupon rate and any related index       | N/A | N/A | 3.625% for the first 7 years; if issuer does not exercise the right of redemption at the end of the seventh year (3 October 2021), the coupon rate will be reset based on the 7-year EUR swaps median value, plus 300 basis points | 3.9% for the first 5 years. The dividend rate will be reset every 5 years based on the benchmark interest rate at reset dates plus 137 basis points. Note: the benchmark interest rate at reset dates refers to the arithmetic mean value (rounding off to 0.01%) of five-year Chinese treasury bonds yield, in the yield curve of interbank Chinese treasury bonds at fixed interest rate published 20 transaction days (excluding that day) prior to the reset dates (the days when each five years are expired as from the first day of issuance, 2 September). | 4.50% | 4.10% | 4.49% | 4.2% for the first 5 years. The coupon rate will be reset every 5 years based on the benchmark interest rate at the reset dates (the days when each five years are expired as from the first day of issuance and payment, 20 September) plus 124 basis points. If the benchmark interest rate is not available on the adjustment date, the issuer and investors will determine the subsequent benchmark interest rate or its determination principle according to the requirements of the regulatory authorities | 3.24% | 4.59% for the first 5 years. The coupon rate will be reset every 5 years based on the benchmark interest rate at the reset dates (the days when each five years are expired as from the first day of issuance and payment, 25 September) plus 161 basis points. If the benchmark interest rate is not available on the adjustment date, the issuer and investors will determine the subsequent benchmark interest rate or its determination principle according to the requirements of the regulatory authorities | 3.8% for the first 5 years. The coupon rate will be reset every 5 years based on the benchmark interest rate at reset dates (Reset dates: The first reset date will be 18 November 2025 and the same day in the following 5 years or multiple years of 5 years. Benchmark interest rate at reset dates refers to the arithmetic mean of five-year American treasury bond yield one week before the second fixed interest date before the reset date) plus 334.5 basis points. If the benchmark interest rate is not available on the adjustment date, the issuer and investors will determine the subsequent benchmark interest rate or its determination principle according to the requirements of the regulatory authorities. | 4.06% for the first 5 years. The coupon rate will be reset every 5 years based on the benchmark interest rate at the reset dates (the days when each five years are expired as from the first day of issuance and payment, 10 June) plus 112 basis points. If the benchmark interest rate is not available on the adjustment date, the issuer and investors will determine the subsequent benchmark interest rate or its determination principle according to the requirements of the regulatory authorities |
| 19 | Including: Existence of a dividend brake mechanism | N/A | N/A | No   | Yes  | No    | No    | No    | Yes  | No    | Yes   | Yes  | Yes  |

# SUPPLEMENTARY INFORMATION ON CAPITAL ADEQUACY RATIO, LEVERAGE RATIO, LIQUIDITY COVERAGE RATIO AND NET STABLE FUNDING RATIO (CONTINUED)

## APPENDIX 5: INFORMATION RELATED TO LEVERAGE RATIO

Leverage ratio disclosure is disclosed according to Note 3 *Leverage Ratio Disclosure Format* of the *Measures for the Administration of the Leverage Ratio of Commercial Banks (Revised)*.

### Reconciliation of Regulatory Consolidation and Accounting Consolidation

(in millions of RMB)

| SN | Item   | 30 June 2021 | 31 December 2020 |
|----|--|--------------|------------------|
| 1  | Total consolidated assets                            | 11,413,960   | 10,697,615       |
| 2  | Adjustments of consolidation                         | (85,067)     | (70,282)         |
| 3  | Adjustments item of customer's assets                | 0            | 0                |
| 4  | Adjustments of derivatives                           | 37,940       | 33,616           |
| 5  | Adjustments of securities financing transactions     | 6,926        | 2,022            |
| 6  | Adjustments of off-balance sheet item                | 915,378      | 844,885          |
| 7  | Other Adjustments                                    | (5,569)      | (5,252)          |
| 8  | Balance of adjusted on- and off-balance sheet assets | 12,283,568   | 11,502,604       |

### Leverage Ratio Information

(in millions of RMB unless otherwise stated)

| SN | Item  | 30 June 2021      | 31 December 2020  |
|----|---|-------------------|-------------------|
| 1  | On-balance-sheet assets (excluding derivatives and securities financing transactions)   | 11,110,672        | 10,495,090        |
| 2  | Less: Deduction of tier-1 capital   | (5,569)           | (5,252)           |
| 3  | <b>Balance of adjusted on-balance sheet assets (excluding derivatives and securities financing transactions)</b>                            | <b>11,105,103</b> | <b>10,489,838</b> |
| 4  | Replacement costs of derivatives (less eligible margin)   | 35,619            | 54,236            |
| 5  | Potential risk exposure of derivatives  | 37,940            | 33,616            |
| 6  | Sum of collaterals deducted from the balance sheet  | 0                 | 0                 |
| 7  | Less: Assets receivable from providing eligible margin  | 0                 | 0                 |
| 8  | Less: Derivative assets resulting from the transactions with central counterparties in providing clearing settlement services for customers | 0                 | 0                 |
| 9  | Notional principal of sold credit derivatives   | 0                 | 0                 |
| 10 | Less: Deductible balance of sold credit derivatives   | 0                 | 0                 |
| 11 | <b>Derivative asset balance</b>   | <b>73,559</b>     | <b>87,852</b>     |
| 12 | Accounting asset balance of securities financing transactions   | 182,602           | 78,007            |
| 13 | Less: Balance of deductible securities financing transaction assets   | 0                 | 0                 |
| 14 | Counterparty credit risk exposure of securities financing transactions  | 6,926             | 2,022             |
| 15 | Balance of securities financing transaction assets from acting for securities financing transactions  | 0                 | 0                 |
| 16 | <b>Securities financing assets balance</b>  | <b>189,528</b>    | <b>80,029</b>     |
| 17 | Balance of off-balance-sheet items  | 2,231,597         | 2,007,150         |
| 18 | Less: Balance of off-balance-sheet items arising from the reduction of credit transfer  | (1,316,219)       | (1,162,265)       |
| 19 | <b>Adjusted off-balance sheet items balance</b>   | <b>915,378</b>    | <b>844,885</b>    |
| 20 | Net tier- 1 capital   | 919,374           | 862,221           |
| 21 | Adjusted balance of on- and off-balance sheet assets  | 12,283,568        | 11,502,604        |
| 22 | <b>Leverage ratio (%)</b>   | <b>7.48</b>       | <b>7.50</b>       |

# SUPPLEMENTARY INFORMATION ON CAPITAL ADEQUACY RATIO, LEVERAGE RATIO, LIQUIDITY COVERAGE RATIO AND NET STABLE FUNDING RATIO (CONTINUED)

## APPENDIX 6: THE DAILY AVERAGE LIQUIDITY COVERAGE RATIO AND ITS DETAILS OF THE GROUP IN THE SECOND QUARTER OF 2021

(in millions of RMB unless otherwise stated)

| Serial Number  | Amount<br>before conversion | Amount<br>after conversion |
|--|-----------------------------|----------------------------|
| <b>The qualified high-quality liquid assets</b>                            |                             |                            |
| 1 The qualified high-quality liquid assets                                 |                             | 1,907,569                  |
| <b>Cash Outflow</b>  |                             |                            |
| 2 Retail deposits, small business deposits, including:                     | 2,186,722                   | 209,128                    |
| 3 Stable deposit   | 188,696                     | 9,325                      |
| 4 Less stable deposit  | 1,998,026                   | 199,803                    |
| 5 Unsecured wholesale funding, including:                                  | 4,582,681                   | 1,899,643                  |
| 6 Business relationship deposit (excluding agency business)                | 2,633,945                   | 657,152                    |
| 7 Non-business relationship deposit (including all counterparties)         | 1,945,050                   | 1,238,805                  |
| 8 Unsecured debt   | 3,686                       | 3,686                      |
| 9 Secured funding  |                             | 10,131                     |
| 10 Other items, including:   | 1,757,867                   | 883,287                    |
| 11 Cash outflow relates to derivatives and other collateral/pledged assets | 850,444                     | 832,817                    |
| 12 Cash outflow relates to loss of funding on asset-blocked securities     | 131                         | 131                        |
| 13 Committed credit and liquidity facilities                               | 907,292                     | 50,339                     |
| 14 Other contractual obligation to extend funds                            | 57,410                      | 57,410                     |
| 15 Contingent funding obligations  | 1,526,827                   | 53,527                     |
| 16 Total expected cash outflow   |                             | 3,113,126                  |
| <b>Cash Inflow</b>   |                             |                            |
| 17 Secured lending (including reverse repos and securities borrowing)      | 129,788                     | 127,639                    |
| 18 Inflows from fully performing exposure                                  | 927,932                     | 621,852                    |
| 19 Other cash inflow   | 867,202                     | 847,938                    |
| 20 Total expected cash inflow  | 1,924,922                   | 1,597,429                  |
|  |                             | Amount<br>after adjustment |
| 21 The qualified high-quality liquid assets                                |                             | 1,907,569                  |
| 22 Net cash outflow  |                             | 1,515,697                  |
| 23 Liquidity Coverage Ratio (%)  |                             | 125.63                     |

**Supplemental Offering Circular dated 22 November 2022**

## IMPORTANT NOTICE

### NOT FOR DISTRIBUTION TO ANY PERSON OR ADDRESS IN THE UNITED STATES

**IMPORTANT: You must read the following before continuing.** The following applies to the supplemental offering circular following this page (the “**Supplemental Offering Circular**”), and you are therefore advised to read this carefully before reading, accessing or making any other use of the Supplemental Offering Circular. In accessing the Supplemental Offering Circular, you agree to be bound by the following terms and conditions, including any modifications to them any time you receive any information from us as a result of such access.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN THE UNITED STATES OR ANY OTHER JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. THE SECURITIES HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE “**SECURITIES ACT**”), OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR OTHER JURISDICTION AND THE SECURITIES MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES, EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND APPLICABLE STATE OR LOCAL SECURITIES LAWS.

THE SUPPLEMENTAL OFFERING CIRCULAR MAY NOT BE DOWNLOADED, FORWARDED OR DISTRIBUTED, IN WHOLE OR IN PART, TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER, AND IN PARTICULAR, MAY NOT BE FORWARDED TO ANY ADDRESS IN THE UNITED STATES. ANY DOWNLOADING, FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS SUPPLEMENTAL OFFERING CIRCULAR IN WHOLE OR IN PART IS UNAUTHORISED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS. IF YOU HAVE GAINED ACCESS TO THIS TRANSMISSION CONTRARY TO ANY OF THE FOREGOING RESTRICTIONS, YOU ARE NOT AUTHORISED AND WILL NOT BE ABLE TO PURCHASE ANY OF THE SECURITIES DESCRIBED THEREIN.

**Confirmation of your Representation:** In order to be eligible to view the Supplemental Offering Circular or make an investment decision with respect to the securities, investors must not be located in the United States. The Supplemental Offering Circular is being sent at your request and by accepting the e-mail and accessing the Supplemental Offering Circular, you shall be deemed to have represented to Bank of Communications Co., Ltd. Hong Kong Branch (the “**Issuer**”), Bank of Communications Co., Ltd. Hong Kong Branch, Agricultural Bank of China Limited Hong Kong Branch, ABCI Capital Limited, Bank of China Limited, Bank of China (Hong Kong) Limited, BOCOM International Securities Limited, China CITIC Bank International Limited, China Construction Bank (Asia) Corporation Limited, China Construction Bank Corporation, Singapore Branch, China Everbright Bank Co., Ltd., Hong Kong Branch, China International Capital Corporation Hong Kong Securities Limited, CLSA Limited, CMBC Securities Company Limited, CMB International Capital Limited, CNCB (Hong Kong) Capital Limited, Crédit Agricole Corporate and Investment Bank, Guotai Junan Securities (Hong Kong) Limited, The Hongkong and Shanghai Banking Corporation Limited, ICBC International Securities Limited, Industrial and Commercial Bank of China Limited, Dubai (DIFC) Branch, Industrial and Commercial Bank of China Limited, Singapore Branch, Industrial Bank Co., Ltd. Hong Kong Branch, Shanghai Pudong Development Bank Co., Ltd., Hong Kong Branch and Standard Chartered Bank (together, the “**Joint Lead Managers for the USD Notes**”) and Bank of Communications Co., Ltd. Hong Kong Branch, Agricultural Bank of China Limited Hong Kong Branch, Agricultural Bank of China Limited, Singapore Branch, Bank of China (Hong Kong) Limited, China CITIC Bank International Limited, China

Minsheng Banking Corp., Ltd., Hong Kong Branch, Crédit Agricole Corporate and Investment Bank, The Hongkong and Shanghai Banking Corporation Limited, Industrial Bank Co., Ltd. Hong Kong Branch and Standard Chartered Bank (together, the “**Joint Lead Managers for the CNY Notes**” and together with the Joint Lead Managers for the USD Notes, the “**Joint Lead Managers**”) that you and any customers you represent are persons outside the United States and the electronic mail address that you gave us and to which this e-mail has been delivered is not located in the United States and that you consent to delivery of the attached Supplemental Offering Circular and any amendments or supplements thereto by electronic transmission.

**Notice to capital market intermediaries and prospective investors pursuant to paragraph 21 of the Hong Kong SFC Code of Conduct – Important Notice to Prospective Investors:** Prospective investors should be aware that certain intermediaries in the context of the offering of each of the Series (as defined in the Supplemental Offering Circular) of Notes (as defined in the Supplemental Offering Circular), including certain Joint Lead Managers are “capital market intermediaries” (together, the “**CMI**s”) subject to Paragraph 21 of the Code of Conduct for Persons Licensed by or Registered with the Securities and Futures Commission (the “**Code**”). This notice to prospective investors is a summary of certain obligations the Code imposes on such CMI, which require the attention and cooperation of prospective investors. Certain CMI may also be acting as “overall coordinators” (together, the “**OC**s”) for the offering and are subject to additional requirements under the Code.

Prospective investors who are the directors, employees or major shareholders of the Issuer, Bank of Communications Co., Ltd. (the “**Bank**”), a CMI or its group companies would be considered under the Code as having an association (“**Association**”) with the Issuer, the Bank, the CMI or the relevant group company. Prospective investors associated with the Issuer, the Bank or any CMI (including its group companies) should specifically disclose this when placing an order for the relevant Series of Notes and should disclose, at the same time, if such orders may negatively impact the price discovery process in relation to the relevant offering. Prospective investors who do not disclose their Associations are hereby deemed not to be so associated. Where prospective investors disclose their Associations but do not disclose that such order may negatively impact the price discovery process in relation to the relevant offering, such order is hereby deemed not to negatively impact the price discovery process in relation to such offering.

Prospective investors should ensure, and by placing an order prospective investors are deemed to confirm, that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMI). If a prospective investor is an asset management arm affiliated with any Joint Lead Manager, such prospective investor should indicate when placing an order if it is for a fund or portfolio where the Joint Lead Manager or its group company has more than 50 per cent. interest, in which case it will be classified as a “proprietary order” and subject to appropriate handling by CMI in accordance with the Code and should disclose, at the same time, if such “proprietary order” may negatively impact the price discovery process in relation to the offering of the relevant Series of Notes. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not such a “proprietary order”. If a prospective investor is otherwise affiliated with any Joint Lead Manager, such that its order may be considered to be a “proprietary order” (pursuant to the Code), such prospective investor should indicate to the relevant Joint Lead Manager when placing such order. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not such a “proprietary order”. Where prospective investors disclose such information but do not disclose that such “proprietary order” may negatively impact the price discovery process in relation to the relevant offering, such “proprietary order” is hereby deemed not to negatively impact the price discovery process in relation to such offering.

Prospective investors should be aware that certain information may be disclosed by CMI (including private banks) which is personal and/or confidential in nature to the prospective investor. By placing an order,

prospective investors are deemed to have understood and consented to the collection, disclosure, use and transfer of such information by the Joint Lead Managers and/or any other third parties as may be required by the Code, including to the Issuer, the Bank, any OCs, relevant regulators and/or any other third parties as may be required by the Code, it being understood and agreed that such information shall only be used for the purpose of complying with the Code, during the bookbuilding process for the offering of each Series of Notes. Failure to provide such information may result in that order being rejected.

You are reminded that the Supplemental Offering Circular has been delivered to you on the basis that you are a person into whose possession the Supplemental Offering Circular may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not, nor are you authorised to, deliver the Supplemental Offering Circular to any other person. You should not reply by e-mail to this notice, and you may not purchase any securities by doing so. Any reply e-mail communications, including those you generate by using the “Reply” function on your e-mail software, will be ignored or rejected.

The materials relating to the offering of securities to which the Supplemental Offering Circular relates do not constitute, and may not be used in connection with, an offer or solicitation in any place where offers or solicitations are not permitted by law. If a jurisdiction requires that the offering be made by a licensed broker or dealer and the underwriters or any affiliate of the underwriters is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the underwriters or such affiliate on behalf of the Issuer (as defined in the Supplemental Offering Circular) in such jurisdiction. For a description of certain restrictions on offers, sales and transfer of securities and on the distribution of the Supplemental Offering Circular, see “*Subscription and Sale*” in the Original Offering Circular (as defined in the Supplemental Offering Circular).

The Supplemental Offering Circular has been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of electronic transmission and consequently none of the Issuer, the Bank, the Joint Lead Managers, any person who controls any of the Joint Lead Managers, any director, officer, employee nor agent of the Issuer, the Bank, the Joint Lead Managers, or affiliate of any such person accepts any liability or responsibility whatsoever in respect of any difference between the Supplemental Offering Circular distributed to you in electronic format and the hard copy version available to you on request from the Joint Lead Managers. You are responsible for protecting against viruses and other destructive items. Your use of this e-mail is at your own risk and it is your responsibility to take precautions to ensure that it is free from viruses and other items of a destructive nature.

## Bank of Communications Co., Ltd. Hong Kong Branch

(a joint stock company incorporated in the People's Republic of China with limited liability)

**Issue of U.S.\$200,000,000 4.75 per cent. Notes due 2025**

**Issue of CNY1,420,000,000 3.05 per cent. Notes due 2024**

**each issued under the U.S.\$12,000,000,000**

### **Medium Term Note Programme**

This supplemental offering circular (this “**Supplemental Offering Circular**”) is supplemental to, forms part of and must be read and construed in conjunction with, to the offering circular dated 7 March 2022 (the “**Original Offering Circular**”, together with this Supplemental Offering Circular, the “**Offering Circular**”) prepared by Bank of Communications Co., Ltd. Hong Kong Branch (the “**Issuer**”), in connection with the U.S.\$12,000,000,000 Medium Term Note Programme described in the Original Offering Circular (the “**Programme**”). This Supplemental Offering Circular is prepared in connection with the U.S.\$200,000,000 4.75 per cent. Notes due 2025 (the “**USD Notes**”) and the CNY1,420,000,000 3.05 per cent. Notes due 2024 (the “**CNY Notes**”) each to be issued by the Issuer under the Programme only and does not otherwise modify the Programme. Terms given a defined meaning in the Original Offering Circular shall, unless the context otherwise requires, have the same meaning when used in this Supplemental Offering Circular. In this Supplemental Offering Circular, references to “**Notes**” are to any of the USD Notes and the CNY Notes; and references to a “**Series of Notes**” or to a “**Series**” are to the USD Notes or the CNY Notes, separately. To the extent there is any inconsistency between any statement in this Supplemental Offering Circular and any statement in the Original Offering Circular, the statement in this Supplemental Offering Circular shall prevail. Capitalised terms used but not defined in this Supplemental Offering Circular have the meanings given to them in the Original Offering Circular.

Application will be made to The Stock Exchange of Hong Kong Limited (the “**Hong Kong Stock Exchange**”) for the listing of, and permission to deal in, the Notes by way of debt issues to professional investors (as defined in Chapter 37 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited) (“**Professional Investors**”) only. This document is for distribution to Professional Investors only.

**Notice to Hong Kong investors:** The Issuer confirms that the Notes are intended for purchase by Professional Investors only and will be listed on the Hong Kong Stock Exchange on that basis. Accordingly, the Issuer confirms that the Notes are not appropriate as an investment for retail investors in Hong Kong. Investors should carefully consider the risks involved.

**The Hong Kong Stock Exchange has not reviewed the contents of this document, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this document to Professional Investors only have been reproduced in this document. Listing of the Programme and the Notes on the Hong Kong Stock Exchange is not to be taken as an indication of the commercial merits or credit quality of the Programme and the Notes or the Bank or the Group (as defined below) or the Issuer or quality of disclosure in this document.** Hong Kong Exchanges and Clearing Limited and the Hong Kong Stock Exchange take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

The USD Notes will be issued in registered form and initially represented by a Global Certificate which will be registered in the name of a nominee of, and shall be deposited on or about the Issue Date (as defined in the applicable Pricing Supplement in respect of the USD Notes) with, a common depository for Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream**”).

The CNY Notes will be issued in registered form and initially represented by a Global Certificate which will be registered in the name of, and lodged with the Hong Kong Monetary Authority and deposited on or about the Issue Date (as defined in the applicable Pricing Supplement in respect of the CNY Notes) with a sub-custodian for the Central Moneymarkets Unit Service (the “**CMU**”), operated by the Hong Kong Monetary Authority (the “**HKMA**”).

**The Notes have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States. The Notes may not be offered or sold within the United States except in accordance with Regulation S under the United States Securities Act of 1933, as amended (the “**Securities Act**”) or pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. For a description of these and certain restrictions on offers and sales of the Notes and the distribution of the Original Offering Circular, see “**Subscription and Sale**” in the Original Offering Circular. The Notes may be subject to additional selling restrictions as set out in the relevant Pricing Supplement.**

Each Series of Notes is expected to be assigned a rating of “A-” by S&P Global Ratings. The Programme has been rated “BBB” by Fitch Ratings Ltd.. These ratings are only correct as at the date of this Supplemental Offering Circular. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction, revision or withdrawal at any time by the assigning rating agency.

Investing in the Notes involves certain risks and may not be suitable for all investors. See “**Risk Factors**” herein and in the Original Offering Circular for a discussion of certain factors to be considered in connection with an investment in the Notes. Investors should have sufficient knowledge and experience in financial and business matters to evaluate the information contained in this Supplemental Offering Circular and the Original Offering Circular and the merits and risks of investing in the Notes in the context of their financial position and particular circumstances. Investors also should have the financial capacity to bear the risks associated with an investment in the Notes. Investors should not purchase the Notes unless they understand and are able to bear risks associated with the Notes.

The sections of the Original Offering Circular entitled “**Summary Financial Information**”, “**Risk Factors**”, “**Capitalisation and Indebtedness**”, “**Use of Proceeds**”, “**Description of the Bank**”, “**Risk Management and Internal Control**”, “**Description of the Bank’s Assets and Liabilities**”, “**Substantial Shareholders**”, “**Management of the Bank**”, “**Subscription and Sale**” and “**General Information**” have been supplemented and/or amended with the information in this Supplemental Offering Circular.

With effect from the date of this Supplemental Offering Circular the information appearing in the Original Offering Circular with respect to the Notes shall be amended and/or supplemented by the inclusion of the information set out below.

*Joint Global Coordinators, Joint Bookrunners and Joint Lead Managers for the USD Notes*

Supplemental Offering Circular dated 22 November 2022

## IMPORTANT NOTICE

This Supplemental Offering Circular (read together with the Original Offering Circular) includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) for the purpose of giving information with regard to the Issuer, the Bank and the Group. The Issuer accepts full responsibility for the accuracy of the information contained in this Supplemental Offering Circular (read together with the Original Offering Circular) and confirms, having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement herein misleading.

The Notes will be issued on the terms set out under “*Terms and Conditions of the Notes*” in the Original Offering Circular, as amended and/or supplemented by the Pricing Supplement in respect of the USD Notes (the “**USD Notes Pricing Supplement**”) and the Pricing Supplement in respect of the CNY Notes (the “**CNY Notes Pricing Supplement**”, together with the USD Notes Pricing Supplement, the “**Pricing Supplements**”), each set out in this Supplemental Offering Circular. This Supplemental Offering Circular and the Original Offering Circular must be read and construed together with any amendments or supplements hereto and with any information incorporated by reference herein and, in relation to the Notes, must be read and construed together with the relevant Pricing Supplement. This Supplemental Offering Circular shall be read and construed on the basis that such documents are incorporated and form part of the Original Offering Circular.

The distribution of this Supplemental Offering Circular (together with the Original Offering Circular) and the Pricing Supplements and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Supplemental Offering Circular (together with the Original Offering Circular) comes are required by the Issuer, the Bank and its subsidiaries (the “**Group**”), Bank of Communications Co., Ltd. Hong Kong Branch, Agricultural Bank of China Limited Hong Kong Branch, ABCI Capital Limited, Bank of China Limited, Bank of China (Hong Kong) Limited, BOCOM International Securities Limited, China CITIC Bank International Limited, China Construction Bank (Asia) Corporation Limited, China Construction Bank Corporation, Singapore Branch, China Everbright Bank Co., Ltd., Hong Kong Branch, China International Capital Corporation Hong Kong Securities Limited, CLSA Limited, CMBC Securities Company Limited, CMB International Capital Limited, CNCB (Hong Kong) Capital Limited, Crédit Agricole Corporate and Investment Bank, Guotai Junan Securities (Hong Kong) Limited, The Hongkong and Shanghai Banking Corporation Limited, ICBC International Securities Limited, Industrial and Commercial Bank of China Limited, Dubai (DIFC) Branch, Industrial and Commercial Bank of China Limited, Singapore Branch, Industrial Bank Co., Ltd. Hong Kong Branch, Shanghai Pudong Development Bank Co., Ltd., Hong Kong Branch and Standard Chartered Bank (together, the “**Joint Lead Managers for the USD Notes**”) and Bank of Communications Co., Ltd. Hong Kong Branch, Agricultural Bank of China Limited Hong Kong Branch, Agricultural Bank of China Limited, Singapore Branch, Bank of China (Hong Kong) Limited, China CITIC Bank International Limited, China Minsheng Banking Corp., Ltd., Hong Kong Branch, Crédit Agricole Corporate and Investment Bank, The Hongkong and Shanghai Banking Corporation Limited, Industrial Bank Co., Ltd. Hong Kong Branch and Standard Chartered Bank (together, the “**Joint Lead Managers for the CNY Notes**”) and together with the Joint Lead Managers for the USD Notes, the “**Joint Lead Managers**”) to inform themselves about and to observe any such restrictions. None of the Issuer, the Group or the Joint Lead Managers represents that this Supplemental Offering Circular (together with the Original Offering Circular) or the Pricing Supplements may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Group or the Joint Lead Managers which would permit a public offering of the Notes or distribution of this Supplemental Offering Circular (together with the Original Offering Circular) or the Pricing Supplements in any jurisdiction where action for such purposes is required. Accordingly, no

Notes may be offered or sold, directly or indirectly, and none of the Supplemental Offering Circular (together with the Original Offering Circular), the Pricing Supplements or any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations.

There are restrictions on the offer and sale of the Notes and the circulation of documents relating thereto, in certain jurisdictions including, but not limited to, the United States of America, the European Economic Area, the United Kingdom, Japan, Hong Kong, the PRC, Singapore and Taiwan, and to persons connected therewith. The Notes have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States. Subject to certain exceptions, the Notes may not be offered or sold within the United States. The Notes are being offered and sold outside the United States in reliance on Regulation S under the Securities Act. For a description of certain restrictions on offers, sales and transfers of Notes and on the distribution of the Original Offering Circular, see “*Subscription and Sale*” in the Original Offering Circular. The Notes may be subject to additional selling restrictions as set out in each of the Pricing Supplements.

**Singapore SFA Product Classification:** In connection with Section 309B of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the “SFA”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “CMP Regulations 2018”), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309(A)(1) of the SFA), that the USD Notes and the CNY Notes are ‘prescribed capital markets products’ (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Listing of the Programme and the Notes on the Hong Kong Stock Exchange is not to be taken as an indication of the merits of the Notes, the Issuer or the Group. In making an investment decision, investors must rely on their own examination of the Issuer, the Group and the terms of the offering, including the merits and risks involved. See “*Risk Factors*” herein and in the Original Offering Circular for a discussion of certain factors to be considered in connection with an investment in the Notes.

No person has been authorised by the Issuer or the Group to give any information or to make any representation not contained in or not consistent with this Supplemental Offering Circular (read together with the Original Offering Circular) or any other document entered into in relation to the Programme and the sale of Notes and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer, the Group or any of the Joint Lead Managers.

No representation or warranty, express or implied, is made by the Joint Lead Managers, any fiscal agent, paying agents or any of their respective officers, employees, affiliates, advisors or agents as to the accuracy, completeness or sufficiency of the information contained in this Supplemental Offering Circular, and nothing contained in this Supplemental Offering Circular is, or should be, relied upon as a promise or representation by the Joint Lead Managers, fiscal agent, paying agent or their officers, employees, affiliates, advisors or agents. The Joint Lead Managers, the fiscal agent, the paying agents and their respective officers, employees, affiliates, advisors and agents have not independently verified the information contained herein (financial, legal or otherwise) and, to the fullest extent permitted by law, none of the Joint Lead Managers, the fiscal agent, the paying agents or their respective officers, employees, affiliates, advisors or agents accepts any responsibility for the contents of this Supplemental Offering Circular or for any other statement, made or purported to be made by the Joint Lead Managers or on their behalf in connection with the Issuer, the Bank, the Group or the issue and offering of the Notes. The Joint Lead Managers, the fiscal agent, the paying agents and their respective officers, employees, affiliates, advisors or agents accordingly disclaim all and any liability whether arising in tort or contract or otherwise (save as referred to above) which might otherwise have in respect of this Supplemental Offering Circular or any such statement.

Neither the delivery of this Supplemental Offering Circular (read together with the Original Offering Circular) nor the Pricing Supplements nor the offering, sale or delivery of any Notes shall in any circumstances create any implication that the information contained in this Supplemental Offering Circular (read together with the Original Offering Circular) is true subsequent to the date hereof or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the prospects or financial or trading position of the Issuer of the Group since the date hereof or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same. The Joint Lead Managers expressly do not undertake to review the financial condition or affairs of the Issuer or the Group during the term of the Notes or to advise any investor in the Notes of any information coming to their attention.

None of the Joint Lead Managers or any Agents (as defined under “*Terms and Conditions of the Notes*” in the Original Offering Circular) has separately verified the information contained in this Supplemental Offering Circular or the Original Offering Circular. To the fullest extent permitted by law, none of the Joint Lead Managers or any Agents or any director, officer, employee, agent or affiliate of any such person makes any representation, warranty or undertaking, express or implied, or accepts any responsibility, with respect to the accuracy or completeness of any of the information in this Supplemental Offering Circular or the Original Offering Circular. To the fullest extent permitted by law, none of the Joint Lead Managers or any Agents or any director, officer, employee, agent or affiliate of any such person accepts any responsibility for the contents of this Supplemental Offering Circular or the Original Offering Circular or for any other statement made or purported to be made by any Joint Lead Manager, any Agent, or any director, officer, employee, agent or affiliate of any such person or on its behalf in connection with the Issuer, the Bank, the Group, the Notes or the issue and offering of the Notes. Each Joint Lead Manager and each Agent accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this Supplemental Offering Circular or the Original Offering Circular or any such statement.

Neither this Supplemental Offering Circular nor the Original Offering Circular describes all of the risks and investment considerations (including those relating to each investor’s particular circumstances) of an investment in the Notes. Each potential purchaser of the Notes should refer to and consider carefully the Pricing Supplements for the Notes, which may describe additional risks and investment considerations associated with such Notes. The risks and investment considerations identified in this Supplemental Offering Circular (read together with the Original Offering Circular) and the Pricing Supplements are provided as general information only. Investors should consult their own financial and legal advisers as to the risks and investment considerations arising from an investment in the Notes and should possess the appropriate resources to analyse such investment and the suitability of such investment in their particular circumstances.

Neither this Supplemental Offering Circular, the Original Offering Circular nor any other information provided or incorporated by reference in connection with the Programme and the Notes are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuer, the Group or the Joint Lead Managers, or any director, officer, employee, agent or affiliate of any such person that any recipient, of this Supplemental Offering Circular or of any such information, should purchase the Notes. Each potential purchaser of the Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer and the Group. Each potential purchaser of the Notes should determine for itself the relevance of the information contained in this Supplemental Offering Circular (read together with the Original Offering Circular) and its purchase of the Notes should be based upon such investigation as it deems necessary. None of the Joint Lead Managers or the Agents or any agent or affiliate of any such person undertakes to review the financial condition or affairs of the Issuer or the Group during the life of the arrangements contemplated by this Supplemental Offering Circular nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Joint Lead Managers, the Agents or any of them.

The Notes are being offered and sold outside the United States in reliance on Regulation S. For a description of these and certain further restrictions on offers, sales and transfers of Notes and distribution of this Supplemental Offering Circular, see “*Subscription and Sale*” in the Original Offering Circular, as supplemented by “*Subscription and Sale*” in this Supplemental Offering Circular.

## PRESENTATION OF FINANCIAL INFORMATION

Certain financial information in this Supplemental Offering Circular has been derived from the audited consolidated financial statements of the Bank as at and for the year ended 31 December 2020 (the “**2020 Historical Financial Statements**”), which were published on 22 April 2021, on the website of the Hong Kong Stock Exchange and the audited consolidated financial statements of the Bank as at and for the year ended 31 December 2021 (the “**2021 Historical Financial Statements**”), which were published on 21 April 2022, on the website of the Hong Kong Stock Exchange. The 2020 Historical Financial Statements and the 2021 Historical Financial Statements are incorporated by reference in the Supplemental Offering Circular. The 2020 Historical Financial Statements and the 2021 Historical Financial Statements were prepared and presented in accordance with the International Financial Reporting Standards (the “**IFRS**”) and have been audited by PricewaterhouseCoopers, Certified Public Accountant, Hong Kong, in accordance with International Standards on Auditing (“**ISA**”).

Certain financial information in this Supplemental Offering Circular has been derived from the unaudited condensed consolidated interim financial statements as at and for the six months ended 30 June 2022 (the “**2022 Interim Financial Information**”) of the Group, which were published on 22 September 2022, on the website of the Hong Kong Stock Exchange. Furthermore, certain financial information in this Supplemental Offering Circular has been derived from the unaudited condensed consolidated third quarter financial statements as at and for the nine months ended 30 September 2022 (the “**2022 Third Quarter Financial Information**”) of the Group, which were published on 28 October 2022, on the website of the Hong Kong Stock Exchange. The 2022 Interim Financial Information and the 2022 Third Quarter Financial Information are incorporated by reference in the Supplemental Offering Circular. The 2022 Interim Financial Information and the 2022 Third Quarter Financial Information have not been audited by KPMG. The 2022 Interim Financial Information has been reviewed by KPMG in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”. Consequently, the 2022 Interim Financial Information and the 2022 Third Quarter Financial Information should not be relied upon by you to provide the same quality of information associated with information that has been subject to an audit, as appropriate. Investors must exercise caution when using such data to evaluate the Bank’s financial condition and results of operations. The 2022 Interim Financial Information and the 2022 Third Quarter Financial Information should not be taken as an indication of the expected financial condition and results of operations of the Bank as at and for the full financial year ending 31 December 2022.

Unless otherwise stated, all financial data contained herein which is stated as relating to the Bank are referring to the consolidated data of the Group.

In this Supplemental Offering Circular, because certain amounts have been rounded, totals of columns or rows of numbers in tables may not be equal to the apparent total of the individual items, and actual numbers may differ from those contained herein due to rounding.

Solely for the sake of convenience, this Supplemental Offering Circular contains translations of certain Renminbi amounts into US dollar amounts. Unless indicated otherwise, the translation of Renminbi amounts into US dollar amounts has been made at the rate of RMB6.6981 to U.S.\$1.00, the noon buying rate as set forth in the H.10 statistical release of the Federal Reserve Bank of New York on 30 June 2022. These translations should not be construed as representations that the Renminbi amounts could actually be converted into any US dollar amounts at the rates indicated or at all.

## FORWARD-LOOKING STATEMENTS

Certain statements under “Risk Factors”, “Business” and elsewhere in this Supplemental Offering Circular constitute “forward-looking statements”. The words including “believe”, “expect”, “plan”, “anticipate”,

“schedule”, “estimate”, “may”, “will”, “would”, “could”, “aim”, “intend”, “project”, “potential”, “future”, “seek”, “should” and similar words or the negative thereof, or expressions identify forward-looking statements. In addition, all statements other than statements of historical facts included in this Supplemental Offering Circular, including, but without limitation, those regarding the financial position, business strategy, prospects, capital expenditure and investment plans of the Group and the plans and objectives of the Group’s management for its future operations (including development plans and objectives relating to the Group’s operations), are forward-looking statements.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results or performance of the Group to differ materially from those expressed or implied by such forward-looking statements. Reliance should not be placed on these forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Group’s present and future business strategies and the environment in which the Group will operate in the future. The Issuer expressly disclaims any obligation or undertaking to release any updates or revisions to any forward-looking statements contained herein to reflect any change in the Issuer’s or the Group’s expectations with regard thereto or any change of events, conditions or circumstances, on which any such statements were based. This Supplemental Offering Circular discloses, under “*Risk Factors*” and elsewhere, important factors that could cause actual results to differ materially from the Issuer’s expectations. All subsequent written and forward-looking statements attributable to the Issuer or persons acting on behalf of the Issuer are expressly qualified in their entirety by such cautionary statements.

## **STABILISATION**

In connection with the issue of any Series of the Notes, one or more of the Joint Lead Managers as Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the relevant Pricing Supplement may over allot that relevant Series of Notes or effect transactions with a view to supporting the market price of that Series of Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of that Series of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of that Series of Notes and 60 days after the date of the allotment of the Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or person(s) acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

## **DOCUMENTS INCORPORATED BY REFERENCE**

This Supplemental Offering Circular should be read and construed in conjunction with the Original Offering Circular (and the documents incorporated by reference therein) and all amendments and supplements from time to time to this Supplemental Offering Circular, which shall be deemed to be incorporated in, and to form part of, this Supplemental Offering Circular and which shall be deemed to modify or supersede the contents of this Supplemental Offering Circular to the extent that a statement contained in any such document is inconsistent with such contents.

Copies of all such documents which are so deemed to be incorporated by reference in, and to form part of, this Supplemental Offering Circular and the Original Offering Circular will be available free of charge during usual business hours on any weekday (Saturdays and public holidays excepted) from the specified offices of the Issuer and of the Fiscal Agent.

## SUMMARY FINANCIAL INFORMATION

The following tables set forth the summary consolidated financial information of the Bank as at and for the periods indicated.

The summary consolidated financial information as at and for the years ended 31 December 2019, 2020 and 2021 set forth below is derived from the Bank's published audited consolidated financial statements as at and for the years ended 31 December 2020 and 2021, which are prepared and presented in accordance with IFRS. The summary consolidated financial information as at and for the six months ended 30 June 2021 and 2022 and the summary consolidated financial information as at and for the nine months ended 30 September 2021 and 2022 set forth below are derived from the Bank's unaudited condensed consolidated interim financial statements as at and for the six months ended 30 June 2022 and the Bank's unaudited consolidated third quarter financial statements as at and for the nine months ended 30 September 2022, respectively, which are prepared and presented in accordance with IFRS. The Bank's unaudited consolidated interim financial statements as at and for the six months ended 30 June 2022 has been reviewed by KPMG in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". The Bank's unaudited condensed consolidated interim financial statements as at and for the six months ended 30 June 2022 and the Bank's unaudited condensed consolidated third quarter financial statements as at and for the nine months ended 30 September 2022 have not been audited by KPMG. Investors must exercise caution when using such data to evaluate the Bank's financial condition and results of operations. Such summary consolidated financial information should be read in conjunction with such published audited consolidated financial statements, the unaudited consolidated interim financial statements and the unaudited consolidated third quarter financial statements and the notes thereto. The Bank's published audited consolidated financial statements as at and for the years ended 31 December 2020 and 2021 have been audited by PricewaterhouseCoopers in accordance with IAS.

The 2022 Interim Financial Information and the 2022 Third Quarter Financial Information should not be taken as an indication of the expected financial condition and results of operations of the Bank as at and for the full financial year ended 31 December 2022.

## Consolidated Statement of Comprehensive Income for the Years Ended 31 December 2019, 2020 and 2021

The consolidated statements of comprehensive income of the Group for the years ended 31 December 2019, 2020 and 2021 as set forth below is extracted from the 2020 and 2021 Audited Financial Statements prepared in accordance with IFRS and have been audited by PricewaterhouseCoopers in accordance with IAS.

|  | Year ended 31 December                   |           |           |
|--|--|-----------|-----------|
|  | 2019                                     | 2020      | 2021      |
|  | (RMB in million unless otherwise stated) |           |           |
|  | (audited)                                |           |           |
| Interest income .....  | 367,453                                  | 369,101   | 377,646   |
| Interest expense .....   | (223,370)                                | (215,765) | (215,953) |
| Net interest income .....  | 144,083                                  | 153,336   | 161,693   |
| Fee and commission income .....  | 47,669                                   | 49,298    | 52,285    |
| Fee and commission expense .....   | (4,044)                                  | (4,212)   | (4,712)   |
| Net fee and commission income .....  | 43,625                                   | 45,086    | 47,573    |
| Net gains arising from trading activities .....  | 15,936                                   | 13,844    | 23,344    |
| Net gains arising from financial investments .....   | 313                                      | 1,177     | 1,311     |
| Including: Net gains/(losses) on derecognition of financial assets<br>measured at amortised cost ..... | (281)                                    | 27        | 46        |
| Share of profits of associates and joint venture .....   | 414                                      | 222       | 277       |
| Insurance business income .....  | 11,687                                   | 15,170    | 16,515    |
| Other operating income .....   | 16,799                                   | 17,889    | 19,035    |
| Net operating income .....   | 232,857                                  | 246,724   | 269,748   |
| Credit impairment losses .....   | (51,954)                                 | (62,059)  | (66,371)  |

### Notes:

- (1) Calculated by dividing annualised net profit of the reporting period by the average of total assets at the beginning and the end of the reporting period.
- (2) Calculated as business and management fees divided by net operating income after the deduction of other operating expenses, consistent with the financial report in accordance with China Accounting Standards.
- (3) Calculated pursuant to the Administrative Measures for the Capital Management of Commercial Banks (Trial Implementation) by the China Banking and Insurance Regulatory Commission.

## RISK FACTORS

*The risk factors relevant to the Issuer, the Bank and the Notes shall consist of the risk factors set out herein and in the section entitled “Risk Factors” of the Original Offering Circular. Prior to making any investment decision, prospective investors should consider carefully all of the information in this Supplemental Offering Circular and the Original Offering Circular, including but not limited to the risks and uncertainties described below. The Bank believes that the factors described below represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to repay principal, pay interest or other amounts or fulfil other obligations on or in connection with the Notes may occur for other reasons and the Bank does not represent that the statements below regarding the risks of holding the Notes are exhaustive. The following factors are contingencies which may or may not occur and each of the Bank and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. Any of the risks or uncertainties described below, as well as additional risks or uncertainties, including those which are not currently known to the Bank or which the Bank currently deems to be immaterial, may affect the Group’s business, financial condition or results of operations or the Issuer’s ability to fulfil its obligations under the Notes.*

*The sub-section entitled “Risks Relating to the Bank’s Business” of “Risk Factors” on pages 19 to 34 in the Original Offering Circular shall be deemed to be deleted in its entirety and replaced with the following:*

### **Risks Relating to the Bank’s Business**

***Uncertainties and instability in global market conditions could adversely affect the Group’s business, financial condition and results of operations.***

The Group has been, and in the future will continue to be, materially affected by geo-political, economic and market conditions, including factors such as the liquidity of the global financial markets, any Sino-U.S. trade friction, recent conflicts between Russian and Ukraine, the level and volatility of debt and equity prices, interest rates, currency and commodities prices, investor sentiment, inflation, and the availability and cost of capital and credit. A number of governments revised GDP growth forecasts downward for 2022 in response to the economic slowdown caused by the spread of COVID-19, and it is possible that the outbreak of COVID-19 may cause a prolonged global economic crisis or recession.

Since 2017, there has been a more inward-looking policy agenda in the U.S. aimed at encouraging U.S. companies to bring back jobs, renegotiating trade pacts and stimulating the domestic economy via infrastructure spending and tax reforms. In Europe, the exit of the United Kingdom from the European Union, and any prolonged period of uncertainty which results, could have a significant negative impact on international markets. These could include further falls in stock exchange indices, a fall in the value of the Pound, an increase in exchange rates between the Pound and the Euro and/or greater volatility of markets in general due to the increased uncertainty.

The implications of these developments for the world and the Group are significant. First, a rise in global trade protectionism may negatively impact the trade-dependent economies in Asia. Second, the interplay of U.S. fiscal and monetary policies, and ongoing quantitative easing programmes in Japan and Europe may lead to more volatile global capital flows, which could in turn impact global growth. Third, financial market volatility and increased uncertainty may have a broader global economic impact that may in turn have a material adverse effect on the Group’s business, financial condition and results of operations.

Inflationary pressures have also started to increase as the rebound in global commodity prices and weak domestic currencies have led businesses to pass on their increased input costs to consumers through higher selling prices. This adds to the uncertain global economic outlook.

To the extent uncertainty regarding the economic outlook negatively impacts consumer confidence and consumer credit factors globally, the Group's business, financial condition and results of operations could be significantly and adversely affected.

Investors should be aware that there are recent historical financial crises and boom-bust cycles in multiple markets in both emerging and developed economies which leads to risks for all financial institutions, including the Group. In addition, the Group remains subject to the risks posed by the indirect economic effect of the global credit crisis, some of which cannot be anticipated and the vast majority of which are not under its control. The Group also remains subject to counterparty risk arising from financial institutions that can fail or are otherwise unable to meet their obligations under their contractual commitment to the Group. If there is another global or regional financial crisis or a downturn in the economic condition of the Group's primary markets, this would likely have a material adverse effect on the Group's business, financial condition and results of operations.

***If the Bank is unable to effectively maintain the quality of its loan portfolio or to manage its off balance sheet statement exposures, its financial condition and results of operations will be materially and adversely affected.***

Results of the Bank's operations may be negatively impacted by its impaired loans. Under IFRS, the accounting standards that are applicable to the Bank, loans are impaired if there is objective evidence that the Bank will not be able to collect all amounts due according to the original contractual terms of loans. In this regard, the Bank seeks to continue to improve its credit risk management policies, procedures and systems, and has been able to effectively control the level of its impaired loans in recent years, despite the ongoing weak macroeconomic environment. As at 31 December 2019, 2020 and 2021 and 30 June 2022, the Bank's individually identified impaired loans were RMB78,043 million, RMB97,698 million, RMB96,796 million and RMB103,232 million, respectively, and its impaired loan ratios were 1.47 per cent., 1.67 per cent., 1.48 per cent. and 1.46 per cent., respectively. However, there can be no assurance that the Bank's credit risk management policies, procedures and systems are free from any deficiency. The occurrence of any deficiencies in the Bank's credit risk management policies, procedures and systems may result in an increase in the level of its impaired loans and adversely affect the quality of its loan portfolio. As a result, there can be no assurance that the Bank will be able to continue to effectively control the level of impaired loans in its loan portfolio. In particular, the amount of the Bank's reported impaired loans and the ratio of its impaired loans to its loans and advances to customers may increase in the future as a result of deterioration in the quality of its loan portfolio. Such deterioration may occur for a variety of reasons, including factors which are beyond the Bank's control, such as a recent slowdown in economic growth and other adverse macroeconomic trends in China, the significant decline in market liquidity of China's interbank market or a deterioration in the financial condition or results of operations of the Bank's borrowers, which could impair the ability of the Bank's borrowers to service their debt. These include the Bank's corporate and individual loan borrowers, as well as the domestic and overseas commercial banks and non-bank financial institutions with whom the Bank engages in interbank lending activities. If such a deterioration occurs, it could materially and adversely affect the Bank's financial condition and results of operations.

In addition, the Bank has issued credit related commitments, guarantees and letters of credit. The primary purpose of these instruments is to ensure that funds are available to customers as required. These instruments represent irrevocable assurances that the Bank will make payments in the event that a customer cannot meet its obligations to third parties. As a result, these instruments carry similar credit risk as loans and in the event of default by the relevant customers, the Bank's financial condition and results of operations will be materially and adversely affected.

***The Bank has a concentration of loans to certain industries and borrowers, and any significant or extended downturn in any of these industries or deterioration in the financial condition of the Bank's major borrowers may adversely affect its financial condition and results of operations.***

As at 30 June 2022, approximately 11.05 per cent., 3.71 per cent., 11.13 per cent., 9.86 per cent., 5.93 per cent. and 6.97 per cent. of the Bank's loans were concentrated in the manufacturing sector, the wholesale and retail trade sector, the transportation, storage and postal services sector, the leasing and commercial services sector, the water conservancy, environmental and other public utilities sector and the real estate sector, respectively. Although the Bank follows credit risk management policies with respect to extensions of credit to different industry sectors, including credit extension guidelines for different industry sectors, closely monitors its credit risks in different industries and has recently enhanced its guidelines in extending credit, any significant or extended downturn in any of these sectors may reduce the borrowing activities in these sectors, increase the level of the Bank's impaired loans and related provision for impaired loans, reduce the Bank's net profit and adversely affect its financial condition and results of operations.

In accordance with PRC national policies aimed at restricting the over-development of certain industries with excess capacity, including wind power equipment, steel, cement, coal, chemical and flat glass, among other industries, the Bank adopts a strict policy towards making loans to these industries. In order to reduce its loan exposure and strictly control risks associated with loans to these high-risk industries, the Bank carefully manages the size of its loans to these industries. If the PRC government introduces policies which further restrict these industries and/or these industries otherwise experience deterioration in their operations, such changes may adversely affect the quality of the Bank's loans to these industries.

Governmental financing platforms primarily comprise state-owned or state-run investment or financing institutions whose financing activities are primarily applied to infrastructure construction or governmental investment projects of a quasi-social welfare nature and whose financing activities are fully or partially indemnified or guaranteed by local financial authorities. In recent years, the Bank made continuous improvement in the monitoring and management of its loans, by ways of raising standards and introducing stricter requirements for guarantees. Similar measures in disbursement control and with respect to new projects were implemented on loans made to local government financing platforms. The default of any portion of such loans for any reason, including macroeconomic volatility or policy changes, may adversely affect the quality of the Bank's loans to these entities.

As at 30 June 2022, 21.56 per cent. of the Bank's loans were mortgage loans and 6.97 per cent. of its loans were lent to real estate development companies, which together accounted for 28.53 per cent. of the Bank's total outstanding loans before impairment allowance. The PRC government has in recent years, from time to time, imposed macroeconomic control measures that are aimed at preventing the real estate market and certain other industries from over-heating. Such measures may adversely affect the growth and quality of the Bank's loans related to real estate and such other industries. In accordance with the PRC government's macroeconomic policy and the guidance and compliance requirements of the CBIRC, the Bank aims to maintain a cautious approach to real estate development loans, and has further adopted industry-specific risk management procedures with respect to the real estate sector. The Bank has also adopted a rigorous mortgage evaluation system to ensure the quality of its mortgage customers. In addition, the Bank regularly subjects its assets to multi-factor stress tests, including movements in housing prices, which the Bank's loans have been able to withstand without significant deterioration.

Under prevailing PRC banking regulations, the total outstanding credit exposure to a single group customer may not exceed 15 per cent. of the net capital base of a bank and the total outstanding loans to the same borrower shall not exceed 10 per cent. of the net capital base of a bank. The Bank is currently in compliance with these regulatory requirements.

If any of the sectors in which the Bank's loans are highly concentrated significantly deteriorates, the Bank's asset quality, financial condition and results of operations may be materially and adversely affected. Moreover, any inaccurate assessment of the credit risks regarding the borrowers in any of these sectors may adversely affect the Bank's asset quality, financial condition and results of operations.

***The Bank is subject to risks associated with real estate related loans.***

The Bank's loans and advances to the real estate sector primarily comprise loans issued to real estate companies and individual housing loans. The Bank's loans issued to real estate companies include, among others, loans for real estate development, land reservation loans and asset-backed loans.

With respect to its real estate loans, the Bank follows strictly its credit risk management procedures, including ongoing credit monitoring of borrowers' financial information, and strict enforcement of repayment schedules. In addition, the Bank has established a regional risk alert system and loan policy adjustment mechanism applicable to the real estate sector. The Bank has instructed its branches to strengthen research of regional and local real estate market conditions, adjust credit guidelines applicable to real estate loans and implement different credit limits to reflect different levels of risk for these loans. However, the real estate market may be affected by factors beyond the Bank's control, including cyclical economic volatility and downturns. In addition, the PRC government has in recent years, from time to time, imposed macroeconomic control measures that are aimed at preventing the real estate market from over-heating. Such factors may adversely affect the growth and quality of the Bank's loans to the real estate industry and its financial condition and results of operations.

***Deterioration in the debt repayment abilities of local government financing vehicles to which the Bank extends loans may adversely affect its asset quality, financial condition and results of operations.***

The Bank's loans to local government financing platforms are mainly made to the investment and financing platforms of various development zones, state-owned asset management companies, land reserve companies and urban construction investment companies, covering a number of industries including water, environment and public utility management, transportation, storage, postal services and leasing and commercial services.

Recently, with the aim of reinforcing the risk management of loans to local government financing platforms, the PRC State Council, the CBIRC and the PBOC, along with several other PRC regulatory authorities promulgated a series of notices, guidelines and other regulatory documents to direct PRC banks and other financial institutions to optimise and strengthen their risk management measures regarding their loans to local government financing platforms. The Bank has consistently focused on the risks associated with loans to the local government financing platforms through a series of measures such as imposing stringent regional controls on disbursing loans to local government financing platforms, establishing a list of approved cities and lending limits and establishing credit and credit product related policies. Through such measures, the risks associated with loans to local government financing platforms, the aggregate volume of loans and their investment direction are subject to control with the goal of ensuring that the Bank's loans are primarily disbursed to key construction and development areas of the state and projects of high quality. While the Bank has taken various measures to reduce the risks of default, unfavourable developments in macroeconomic conditions, adverse changes to state policies, adverse changes to the financial condition of local governments or other factors may adversely affect the debt repayments of these financing platforms, which may in turn materially and adversely affect the Bank's asset quality, financial condition and results of operations.

***The Bank's outstanding loans are heavily concentrated in certain regions, and any significant downturn in any of these regions may adversely affect the Bank's financial condition and results of operations.***

As at 30 June 2022, approximately 27.48 per cent., 15.35 per cent. and 15.23 per cent. of the Bank's loans and advances were concentrated in the Yangtze River Delta, the Pearl River Delta and the Bohai Rim Economic Zone, respectively. In addition, a substantial portion of the Bank's corporate customers and the majority of its branches, sub-branches and self-service centres are located in the Yangtze River Delta, the Bohai Rim Economic Zone and the Pearl River Delta. The Bank currently expects that the future growth of its corporate and personal finance businesses, especially its corporate and individual loan businesses, will continue to be concentrated in these areas. Any significant economic downturn in any of these regions may adversely affect the Bank's financial condition and results of operations. Moreover, any inaccurate assessment of the credit risks regarding the borrowers in any of these regions may adversely affect the Bank's asset quality, financial condition and results of operations.

***A substantial portion of the Bank's loans are secured by collateral or pledge (the "security") or guarantees. Any significant decline in the value of the collateral or deterioration of the financial condition of the guarantors or any failure by the Bank to enforce its rights as a creditor may adversely affect its financial condition and results of operations.***

A substantial portion of the Bank's loans is secured by collateral or pledge or guarantees. The loans secured by collateral and pledge are collectively referred to as the loans secured by security. The Bank's loan security primarily includes real estate and other assets that are located in the PRC, the value of which may significantly fluctuate or decline due to factors beyond the Bank's control, including macroeconomic factors affecting the PRC economy. An economic slowdown in the PRC may lead to a downturn in the PRC real estate markets, which may in turn result in declines in the value of the security securing many of the Bank's loans to levels below the outstanding principal balance of such loans. Any decline in the value of the security securing the Bank's loans may result in a reduction in the amount the Bank can recover from security realisation and an increase in its impairment losses.

The Bank conducts internal re-evaluations of security regularly, and it hires independent appraisers to re-evaluate certain security from time to time. However, the Bank may not have current information on the value of such security, which may adversely affect the accurate assessment of its loans secured by such security. Losses might also result from the Bank's failure to conduct property preservation in a timely or proper manner while the borrowers' financial and credit conditions deteriorate. In addition, in certain circumstances, the Bank's rights to the security securing its loans may have lower priority than certain other rights.

In China, the procedures for liquidating or otherwise realising the value of security in the form of tangible assets may be protracted and it may be difficult to enforce claims in respect of such security. As a result, it may be difficult and time-consuming for the Bank to take control of and liquidate the security securing the impaired loans.

With respect to guarantees of the Bank's loans provided by third parties, the Bank is subject to the risk that the financial condition of the guarantors of these loans may deteriorate significantly, or that a court or other judicial or government authorities may declare such guarantees to be invalid. The Bank is therefore exposed to the risk that it may not be able to recover all or any part of the amount of these guarantees in respect of its loans.

As a result, any significant decline in the value of the security or deterioration of the financial condition of the guarantors or any failure by the Bank to enforce its rights as a secured creditor may adversely affect the Bank's financial condition and results of operations.

***The high proportion of the Bank's loans due within one year may adversely affect the reliability and stability of the Bank's interest income, or result in a higher default rate on its loans.***

Interest income from loans represents a substantial portion of the Bank's total interest income. A substantial portion of the Bank's loans consists of loans that are due within one year. From the Bank's historical experience, a substantial portion of these loans is rolled over upon maturity and, as a result, these loans have been a stable source of interest income. There can be no assurance, however, that this will continue to be the case, particularly if competition increases or alternative sources of funding at lower interest rates become available to the Bank's customers. In addition, the concentration of short-term loans means that the repayment of such loans may be more vulnerable to, and could result in, a rise in default rates in case of any downturns in the PRC economy or in the specific sectors of the PRC economy to which the Bank primarily lends. Either of these factors could have an adverse effect on the Bank's financial condition and results of operations.

***The Bank may not be able to manage the various risks it will face as the Bank expands the range of its products and services, which also include non-commercial banking financial products and services.***

Part of the Bank's strategy is to expand the range of products and services that the Bank offers to its customers in the PRC and overseas, including non-commercial banking financial products and services. For example, the Bank has recently introduced and sought to strengthen new products and services in the areas of wealth management (such as its "Win to Fortune" accounts), mobile banking (such as its e-Mobile BOCOM product), insurance, finance leasing, asset management, trust services, offshore financial services, custodian and investment banking services. The Bank operates its non-commercial banking financial products and services through separate subsidiaries. In 2000, the Bank established China BoCom Insurance Co., Ltd. ("**BoCom Insurance**", formerly China Communications Insurance Co., Ltd. prior to the change in its name in 2007) to provide different types of general insurance products and services to its customers. Bank of Communications Schroder Fund Management Co., Ltd. ("**BoCom Schroder Fund**"), which was established in 2005 as a joint venture with Schroder Investment Management Limited and the China International Marine Containers (Group) Co., Ltd., offers wealth management products and services. In 2007, the Bank established BoCom International Holdings Company Limited. ("**BoCom International Holdings**") through the restructuring and integration of its wholly owned subsidiary BOCOM International Securities Limited (registered and established in June 1998) to provide investment banking, securities trading and asset management services. In January 2010, the Bank acquired a controlling interest in China Life CMG Life Assurance Co., Ltd. from China Life Insurance Company Limited. The company, which the Bank renamed BoComm Life Insurance Company Limited following the acquisition, offers life insurance products and services. With the acquisition, the Bank became the first of the domestic banks in the PRC to acquire a controlling interest in a domestic insurance company and receive an insurance license. In 2019, the Bank established BOCOM Wealth Management Co., Ltd. ("**BOCOM Wealth**") to continuously enrich and optimise the wealth management product service system. In August 2020, the Bank incorporated BOCOM Financial Technology Company Limited (交银金融科技有限公司) ("**BOCOM Financial Technology**") to explore innovations of FinTech talent management technology introduction, and research and development mechanism of application system and promote the digital and intelligent transformation of the Bank. The Bank has also entered into a cooperation arrangement with HSBC with respect to credit card and other financial products and services. As the Bank expands the range of its products and services, it will be exposed to new and potentially increasingly complex risks, including, but not limited to, the following:

- the Bank may not have sufficient experience or expertise in certain new products and services and may not compete effectively in these areas;
- the Bank's new products and services may not be accepted by its customers or meet its expectations for profitability;

- the Bank may need to hire additional qualified personnel who may not be available on commercially viable terms;
- the Bank may not have sufficient financial, operational, management and other human resources to support the expanded range of its products and services;
- the Bank may have disagreements with the joint venture partners and other entities with which the Bank offers certain of its new financial products and services, and they may be unable or unwilling to continue their arrangements with the Bank due to financial difficulties or other reasons;
- the Bank may be faced with risks in integrating the acquired businesses with which the Bank offers certain of these new products and services;
- the Bank may fail to obtain regulatory approval for its new products or services;
- a slowdown in China's economic development could adversely affect the ability of personal borrowers and credit card holders to make payments, thereby increasing the probability of defaults and reducing the demand for personal loans and credit cards; and
- the Bank may not be successful in enhancing its risk management and internal control capabilities and information technology systems to support a broader range of products and services.

Any or all of these types of risks could have an adverse effect on the Bank's financial condition and results of operations.

***The Bank may not be able to detect money laundering and other illegal or improper activities fully or on a timely basis, which could expose it to additional liability and harm its business or reputation.***

The Bank is required to comply with applicable anti-money-laundering, anti-terrorism laws and other regulations in the PRC, Hong Kong and other jurisdictions where the Bank has operations. These laws and regulations require the Bank, among other things, to adopt and enforce "know your customer" policies and procedures and to report suspicious and large transactions to the applicable regulatory authorities in different jurisdictions. While the Bank has adopted policies and procedures aimed at detecting and preventing the use of its banking network for money laundering activities or by terrorists and terrorist-related organisations and individuals generally, such policies and procedures may not completely eliminate instances where the Bank may be used by other parties to engage in money laundering or other illegal or improper activities. To the extent the Bank may fail to fully comply with applicable laws and regulations, the relevant government agencies to whom the Bank reports have the power and authority to impose fines and other penalties on the Bank, which could harm its business and reputation, which in turn may negatively affect the Bank's ability to service the Notes and to satisfy its other obligations under the Notes.

***Any failure or ineffectiveness in implementing its centralised management may adversely affect the Bank's business operations, financial condition and reputation.***

The Bank's efforts to centralise its management and initiatives it has undertaken and continues to undertake to improve management of its branches may not be sufficient to prevent all irregular transactions or incidents. Furthermore, in the event that any irregular transactions or incidents occur, the Bank may not be able to timely detect and take appropriate measures to resolve them. If incidents or other irregular transactions do occur, relevant PRC regulatory authorities may take disciplinary actions or impose fines or other types of penalties against the Bank, and the Bank's business and reputation as a result may be materially and adversely affected.

***The Bank is subject to a number of risks inherent in the Bank's business, including credit risk, market risk, liquidity risk and operational risk, and there can be no assurance that the Bank's risk management and internal control policies and procedures can protect the Bank against all such risks.***

In its operations as a commercial bank, the Bank is subject to a number of risks inherent in the Bank's business, including credit risk, liquidity risk and operational risk. One of the principal risks inherent in the Bank's business is credit risk. The Bank may not be able to effectively implement its credit risk management system or continue to improve it so that it can function effectively. The Bank's credit rating system process involves detailed analysis of the borrower's credit risk, taking into account both quantitative and qualitative factors. The qualitative factors are, by their nature, subject to the individual judgment of the Bank's employees. In exercising their judgment, if the Bank's employees are not able to assign an accurate credit rating to a borrower, the Bank may be exposed to risks associated with the inaccurate assessment. In addition, the Bank may not be able to timely detect potential risks associated with particular industries or types of customers, such as affiliated entities or groups of customers, or, due to limited resources or tools available to the Bank, its employees may not be able to effectively implement them. With respect to market risk, the Bank's methods to manage market risks, including observing historical market behaviour, may not be able to timely or precisely predict future market risk exposures, which could be significantly greater than those indicated by historical measures. Liquidity risk is inherent in banking operations and can be heightened by a number of factors, including changes in credit ratings or market-wide phenomena such as financial market instability. While it is the Bank's policy to manage its liquidity prudently, exceptional market events may materially and adversely affect its financial condition and results of operations. The Bank may also be exposed to the risk of unexpected increases in the cost of funding its asset portfolio at appropriate maturities and the risk of being unable to liquidate a position in a timely manner and/or at a reasonable price. With respect to operational risk, the Bank's internal control system is the essential means to maintain the integrity of its business, financial condition and results of operation. Although the Bank has significantly enhanced its risk management and internal control policies and procedures in recent years in an effort to improve its risk management capabilities and enhances its internal control, including its internal audit function, there can be no assurance that the Bank's staff will be able to consistently follow these policies and guidelines at all times.

There can be no assurance that the Bank's risk management and internal control policies and procedures will adequately control, or protect the Bank against, all credit, market, liquidity and other risks. Further, the Bank's risk management capabilities are limited by the information, tools or technologies available to it. Information, including information provided by third parties, may not be accurate, complete, up-to-date or properly evaluated in all cases. There can be no assurance that the Bank will be able to continue to upgrade its risk management tools and information technology systems, or operate such tools and systems and monitor and analyse the effectiveness of such tools and systems. To the extent that the Bank cannot effectively enhance its risk management and internal controls or its risk management and internal control system are not effectively implemented or consistently applied, the Bank's business operations, financial results and reputation may be materially and adversely affected.

***The Bank's business, reputation and prospects may be adversely affected if the Bank is not able to timely detect and prevent fraud or other misconduct committed by its employees, customers or other third parties.***

The Bank is subject to fraud and other misconduct committed by its employees, customers or other third parties, which could adversely affect the Bank's business, reputation or prospects. Such misconduct could take a variety of forms including, among other things:

- hiding unauthorised or illegal activities that may result in unknown and unmanaged risks or losses;

- engaging in unauthorised transactions to the Bank's detriment, breaching applicable laws or its internal control procedures or violating financial accounting rules;
- improper extensions of credit;
- misapplying or failing to apply the loan classification standards thereby resulting in misclassifications within the Bank's loan portfolio;
- engaging in misrepresentation or fraudulent, deceptive or otherwise improper activities when marketing or selling products to the Bank's customers;
- improperly using or disclosing confidential information;
- falsifying or concealing information, including illegal or unlawful activities or credit information, during the credit application or loan classification process;
- binding the Bank to transactions that exceed authorised limits; and
- accepting bribes, soliciting illegal commission payments and embezzling the Bank's money.

The Bank has in the past experienced incidents of fraud and other misconduct committed by employees, customers and other third parties. Although these incidents have not materially adversely affected the Bank's financial condition or results of operations, the Bank has enhanced its risk management and internal controls to avoid future occurrences of similar incidents. Specifically, the Bank has strengthened its auditing efforts over key business processes and key personnel as well as strengthened its efforts in identifying illegal dealings between its employees and customers. While the Bank seeks to continue improving its risk management and internal control systems, including internal audit, management information systems, reporting procedures and staff awareness, to help prevent and detect such fraud or misconduct, the Bank cannot predict whether or when such fraud or misconduct will happen and in what form, and there can be no assurance that the Bank will be able to timely detect or prevent such fraud or misconduct. As a result, the Bank's business, reputation and prospects may be adversely affected if the Bank is not able to timely detect and prevent fraud or other misconduct committed by its employees, customers or other third parties.

***The effect of inflation on the Bank's banking business.***

China has continued to experience high inflationary pressure in recent years due to, among other things, improvement of liquidity in the global financial system, rises in asset prices and cost. The Bank believes that under the PRC government's macroeconomic control, inflation is for the moment kept under control. Meanwhile, the spread between bank deposit and bank loans is effectively under government control and protection, and so the Bank believes that so long as such control continues, the Bank's business will be sheltered from inflation to some extent. Nonetheless, if the inflationary pressure intensifies and if the Bank's interest margin narrows as a result of government action, the Bank's business and operation results may be materially and adversely affected.

***The growth rate of the Bank's loan portfolio may slow down, and the Bank may not be successful in implementing its strategies to grow its business.***

The Bank's total loans and advances to customers have grown significantly in recent years, increasing from RMB5,304,275 million as at 31 December 2019 to RMB5,848,424 million as at 31 December 2020, representing an increase of 10.26 per cent. and increased further to RMB6,560,400 million as at 31 December 2021, representing an increase of 12.17 per cent. The Bank's total loans and advances to customers has further increased to RMB7,087,730 million as at 30 June 2022, representing an increase of 8.04 per cent over the end of the previous year. The growth of the Bank's loan portfolio may be affected by various factors, such as China's macroeconomic policies and capital constraints. In the future, the growth rate of the Bank's loan portfolio may

slow down, or the Bank's loan portfolio may not grow or may even decline. In addition, due to the constraints from the amount of its regulatory capital, the Bank may adopt strategies to reduce its reliance on its loan portfolio or expand its activities in other lower risk businesses that have relatively lower capital requirements. Any of the foregoing factors could impact the growth of the Bank's loan portfolio and thereby adversely affect the Bank's business and future prospects.

In addition, the Bank has implemented a variety of strategies to grow its business, including continuing to expand its domestic and overseas branch network and introducing new products and services, such as mobile banking services, additional fee based services, such as wealth management services, additional credit card products and services and insurance products and services. The Bank may not be successful in implementing its strategies to grow its business, and the Bank's efforts to provide new products and services may strain its resources and divert management attention from its core lending business.

***The Bank may need additional capital in the future, and it may not be able to obtain such capital on acceptable terms, or at all, which may result in a lower capital adequacy ratio.***

The Basel Committee on Banking Supervision formally promulgated Basel III in December 2010. The CBRC promulgated the CBIRC Capital Regulations on 7 June 2012 based on the reform of the banking industry and the existing regulatory framework of the PRC, taking into account the effect of and requirements set out in Basel II and Basel III. The CBIRC Capital Regulations came into effect as of 1 January 2013; and on the same date the Measures on the Administration of the Capital Adequacy Ratio of Commercial Banks, which was promulgated by the CBRC on 23 February 2004 and amended on 3 July 2007, was revoked. The CBIRC Capital Regulations establish a unified regulatory system in respect of the capital adequacy ratio, clarify the definition of capital, expand the range of capital risk coverage, raise the bottom line for the capital adequacy ratio and set a six-year transition period (from 2013 to 2018) for banks to comply with capital adequacy ratio requirements. On 30 November 2012, the CBRC issued the Notice on Matters in relation to the Implementation of Transition Period Arrangements in the (Trial) Measures on the Administration of the Capital of Commercial Banks, which provides the regulatory standards and implementation course for the transition period. As a result, the Bank is required to maintain a minimum core tier one capital adequacy of 5 per cent., a minimum tier one capital adequacy of 6 per cent. and a minimum capital adequacy of 8 per cent. The capital conservation buffer requirement for the Bank is 2.5 per cent., which should be satisfied through core tier one capital. In addition, pursuant to the Provisions on Additional Regulation of Systemically Important Banks (for Trial Implementation) and the list of systemically important banks jointly announced by the PBOC and the CBIRC, the Bank is designated as a domestic systemically important bank and is required to maintain additional capital. The relevant regulatory authorities are also able to impose countercyclical capital buffer requirements on an individual bank from time to time. As at 30 June 2022, the Group's core tier 1 capital adequacy ratio, tier 1 capital adequacy ratio and capital adequacy ratio were 9.99 per cent., 12.20 per cent. and 14.49 per cent., respectively, which satisfy the regulation requirements. Although the Bank was in compliance with the regulatory requirements as at 30 June 2022, future developments could affect the Bank's ability to continue to satisfy applicable capital adequacy requirements, including:

- changes in PRC accounting rules or in the guidelines regarding the calculation of the capital adequacy ratios of commercial banks;
- increases in the minimum capital adequacy requirements by the banking regulators;
- increases in the Bank's risk-weighted assets as a result of the rapid expansion of its business;
- decreases in the value of the Bank's investment assets;
- losses resulting from deterioration in the Bank's asset quality; and

- decreases in the Bank's net profits and thus decreases in its retained earnings.

In order for the Bank to grow, remain competitive, enter into new businesses, expand its base of operations or meet regulatory capital adequacy requirements, the Bank may require new funding in the future. Moreover, the Bank may need to raise additional capital in the event of any increase in the minimum regulatory capital adequacy requirements by the CBIRC or large losses in its loan portfolio that result in a reduction of its shareholders' equity. The Bank's ability to obtain additional capital in the future is subject to a variety of factors, including:

- its future financial condition, results of operations and cash flows;
- any necessary government regulatory approvals;
- its credit rating;
- general market conditions, especially conditions for capital-raising activities by commercial banks and other financial institutions; and
- economic, political and other conditions both within and outside the PRC.
- If the Bank is unable to obtain sufficient additional capital in a timely and cost effective manner, its business, financial condition and results of operations may be adversely affected.

If the Bank fails to meet the capital adequacy requirements, the CBIRC may require it to take corrective actions, including, for example, restricting the growth of its loans and other assets or restricting its declaration or distribution of dividends. These measures could adversely affect the Bank's reputation, financial condition and results of operations.

***The Bank's liabilities mainly comprise short-term funding, principally in the form of deposits, and the Bank's liquidity may be materially and adversely affected if a substantial portion of its short-term deposits fails to roll over upon maturity or if the Bank's banking business is not able to attract sufficient deposits to fund its loan activities.***

The Bank regularly monitors the maturity gap between assets and liabilities and assesses liquidity risk of different periods. Most of the funding requirements of the Bank's banking business are met through short-term funding, principally in the form of deposits, including customer deposits and interbank deposits. In the past, the Bank's customer deposits have been a stable source of funding for its banking business since the short-term deposits are normally not withdrawn until the maturities of them. There can be no assurance, however, that this practice will continue. If a substantial portion of the Bank's depositors take out their demand deposits or do not roll over deposited funds upon maturity, the Bank's liquidity could be materially and adversely affected, and the Bank may be required to seek more expensive sources of short-term or long-term funding to finance its operations. There can be no assurance that the Bank will be able to obtain finance on normal commercial terms when necessary. Besides, the Bank's ability to obtain additional funding is subject to other factors of which may not be under the Bank's control such as the deterioration in overall market conditions, severe disruptions in financial markets or the poor prospects of Bank's industries with significant credit exposure. These factors could adversely affect the liquidity, business, financial conditions and operation performance of the Bank and have further adverse effect on the market value of the Notes and the Bank's ability of performing obligations under the Notes.

***The Bank's loan classification may be different in certain respects from those applicable to banks in certain other countries or regions.***

The Bank classifies its loans as "pass", "special-mention", "sub-standard", "doubtful" and "loss" by using the five-category classification system according to PRC regulations. The Bank's five-category classification

system may be different in certain respects from those of banks incorporated in other countries or regions. As a result, it may reflect a different degree of risk than would be reported if the Bank were incorporated in those countries or regions.

***The Bank may be exposed to risks relating to labour and employment.***

The Bank faces intense competition in recruiting and retaining employees as other banks are competing for the same pool of talent. Given that PRC labour laws and regulations allow employees to freely choose their jobs, the Bank's employees may choose to resign at any time to pursue other opportunities and may seek to take with them customer relationships that they have developed while working for the Bank. Consequently, the Bank has entered into confidentiality agreements with all of its employees and non-compete agreements with its senior management and other staff members owing a special duty of confidentiality which specify the scope, territory and duration of non-competition. There can be no assurance that such confidentiality agreements and non-compete agreements will enable the Bank to retain its employees effectively or at all.

***The Bank may not be able to hire, train or retain a sufficient number of qualified staff.***

Most aspects of the Bank's business are dependent on the quality of its staff. The Bank devotes considerable resources to recruiting, training and compensating these personnel. However, the Bank faces increased competition in recruiting and retaining these individuals as other banks are competing for the same pool of potential employees. In addition, the Bank's employees may choose to resign at any time to pursue other opportunities and may seek to divert customer relationships that they have developed while working for the Bank. The majority of the Bank's employees are not subject to non-compete agreements.

The Bank's corporate finance operations depend to a significant extent on qualified relationship managers to distribute the Bank's products, and the Bank plans to increase the number and efficiency of these relationship managers. In addition, the Bank intends to increase the number of financial advisers employed by its personal finance operations and enhance their training. However, these plans may not be implemented successfully, if at all.

***The Bank's largest shareholders may individually or collectively take actions that are not in, and may conflict with, the best interests of the Bank or the Noteholders.***

As at 30 June 2022, the Bank's top three shareholders, MOF, HKSCC Nominees Limited (ultimately held by all institutional and individual investors who maintained an account with it) and The Hongkong and Shanghai Banking Corporation Limited, collectively own, directly and indirectly, 62.75 per cent. of the Bank's outstanding shares. Accordingly, the Bank's largest shareholders may have the ability to individually or collectively exercise significant influence over the Bank's business, including matters relating to:

- the issuance of new securities;
- the election of the Bank's directors and supervisors;
- the Bank's management, especially the composition of its senior management, due to their significant influence over the Bank's Board;
- the Bank's business strategies and policies;
- the timing and amount of the distribution of dividends;
- any plans relating to mergers, acquisitions, joint ventures, investments or divestitures; and
- amendments to the Bank's articles of association (the "**Articles of Association**").

The Bank's largest shareholders may individually or collectively take actions that investors may not agree with or that are not in the best interests of the Bank or the Noteholders.

***The Bank's operations management is dependent on the proper functioning and improvement of its information technology systems. Inability to maintain an effective technology system may have a material adverse effect on the Bank's business, financial condition and results of operations.***

The Bank's business is highly dependent on the ability of its information technology systems to timely and accurately collect and process a large amount of financial and other information across numerous and diverse markets and products at its various branches and subsidiaries, at a time when transaction processes and volumes have become increasingly complex and large. The proper functioning of the Bank's financial control, risk management, accounting or other data collection and processing systems, together with the communication networks connecting the Bank's various branches and its main data processing centre, is critical to the Bank's businesses and to its ability to compete effectively. Although the Bank has backup systems that could be used in the event of catastrophe or failure of the primary systems, a partial or complete failure of any of these primary systems or communication networks could adversely affect the decision-making process, the risk management and internal controls of the Bank as well as its timely response to changing market conditions. If the Bank cannot maintain an effective data collection and management system, the Bank's business operations, financial condition and results of operations could be materially and adversely affected.

In addition, the Bank must continually make significant investments, upgrades and improvements in its information technology infrastructure in order to remain competitive. The quality and timing of information available to and received by the Bank's management through its existing information systems may not be sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in the Bank's operations. The Bank may experience difficulties in upgrading, developing and expanding its information technology systems quickly enough to accommodate its growing customer base.

***The Bank may be affected by the Financial Institutions (Resolution) Ordinance.***

On 7 July 2017, the Financial Institutions (Resolution) Ordinance (Cap. 628) of Hong Kong (the "FIRO") came into operation. The FIRO provides for, among other things, the establishment of a resolution regime for authorised institutions and other within scope financial institutions in Hong Kong which may be designated by the relevant resolution authorities, which may include the Bank to the extent it conducts licensed activities in Hong Kong. The resolution regime seeks to provide the relevant resolution authorities with administrative powers to bring about timely and orderly resolution in order to stabilise and secure continuity for a failing authorised institution or within scope financial institution in Hong Kong. In particular, the relevant resolution authority is provided with powers to affect contractual and property rights as well as payments (including in respect of any priority of payment) that creditors would receive in resolution. These may include, but are not limited to, powers to cancel, write off, modify, convert or replace all or a part of the Notes or the principal amount of, or interest on, the Notes, and powers to amend or alter the contractual provisions of the Notes, all of which may adversely affect the value of the Notes, and the holders thereof may suffer a loss of some or all of their investment as a result. Holders of Notes (whether senior or subordinated) may become subject to and bound by the FIRO. The implementation of FIRO remains untested and certain detail relating to FIRO will be set out through secondary legislation and supporting rules. Therefore, the Bank is unable to assess the full impact of FIRO on the financial system generally, the Bank's counterparties, the Bank, any of its consolidated subsidiaries, its operations and/or its financial position.

***Certain PRC regulations limit the Bank's ability to diversify its investments, and as a result, a decrease in the value of a particular type of investment may have a material adverse effect on the Bank's financial condition and results of operations.***

As a result of current PRC regulatory restrictions, substantially all of the Bank's Renminbi-denominated investment assets are concentrated in a limited number of investments permitted for PRC commercial banks, such as debt securities issued by central governments and central banks, public sector entities, banks and other financial institutions. The Bank is only permitted to a limited degree to invest in debt and equity securities of

eligible corporate entities. These restrictions on the Bank's ability to diversify its investment portfolio limit the Bank's ability to seek an optimal return. In addition, the Bank is exposed to a certain level of risk as a result of the concentration of its Renminbi-denominated investment securities. For example, any deterioration of the financial condition of commercial banks in China would increase the risks associated with holding their debt securities. Consequently, a decrease in the value of any of these types of investments could have a material adverse effect on the Bank's financial condition and results of operations.

***The Bank may be subject to administrative sanctions, fines and other penalties for violations, particularly for using its funds in a manner that is inconsistent with, or impermissible under, the applicable limitations set forth in the PRC Commercial Banking Law.***

The PRC Commercial Banking Law, which became effective in July 1995 and last amended in 2015, prohibits any investment by a PRC financial institution in a non-financial institution. The Bank's holdings or investments were completed prior to the enactment of the 1995 PRC Commercial Banking Law. The Bank has been unable to completely dispose of these investments primarily because: (1) certain of these institutions are undergoing bankruptcy or liquidation; (2) the Bank's investments in certain institutions is small, making it difficult to find a buyer for these investments; and (3) the Bank is unable to find buyers for some of the investments due to their poor market liquidity and low rates of return. The Bank has been active in its efforts to terminate these investments, including making provisions for impairment; writing off or disposing of these investments in accordance with relevant rules and policy changes; actively seeking purchasers for its shareholdings in these institutions; and otherwise disposing of these investments in accordance with reasonable market terms. While the Bank has not been subject to any material administrative sanctions, fines or other penalties for such investments, there can be no assurance that the relevant regulatory authorities would not take additional actions against the Bank in the future. Any future administrative sanctions, fines or other penalties, including those discussed above, may have a material adverse effect on the Bank's business, financial condition and results of operations.

***The Bank is subject to various PRC and overseas regulatory requirements, and the Bank's failure to fully comply with such requirements, if any, could materially and adversely affect its business, financial condition, results of operations and reputation.***

The Bank is subject to various PRC and overseas regulatory requirements, and the PRC and overseas regulatory authorities conduct periodic inspections, examinations and inquiries in respect of its compliance with such requirements. On occasion the Bank fails to comply with certain requirements and guidelines set by the relevant regulatory authorities. If sanctions, fines and other penalties are imposed on the Bank for failing to comply with applicable requirements, guidelines or regulations, the Bank's business, financial condition, results of operations and its reputation may be materially and adversely affected.

Notwithstanding that such business activities may not themselves be subject to sanctions, the Group may face secondary sanctions if it is determined to be providing material support to countries or entities that are the subject of sanctions. If the Group engages in any prohibited transactions by any means, or if it is otherwise determined that any of its transactions violated sanctions regulations administered by the U.S. State Department, any other agency of the U.S. government, the United Kingdom, the European Union or any other relevant governmental entity, the Group could be subject to penalties, and the Group's reputation and ability to conduct future business in the United States or with U.S. entities, or in other relevant jurisdictions, could be affected, which may materially and adversely affect the Group's business, financial condition and results of operations and the Issuer's ability to make payments, and satisfy the Group's other obligations, under the Notes may also be adversely affected.

***The Bank is subject to counterparty risks in its derivative transactions.***

The Bank acts primarily as an intermediary in domestic and international foreign exchange and derivative markets, and the Bank currently has foreign currency forward and swap arrangements with a number of domestic and international banks, financial institutions and other entities. The Bank also has interest rate swap arrangements. The Bank does not typically enter into foreign currency or interest rate derivative arrangements for its own account but are subject to credit risk from its various counterparties. As at 30 June 2022, the fair values of the Bank's outstanding derivative assets and liabilities amounted to RMB56,150 million and RMB39,488 million, respectively. Although the Bank believes that the overall credit quality of its counterparties is adequate, there can be no assurances that parties which the Bank has significant exposures to will not face difficulty in paying amounts on derivative contracts when due.

***The Bank has expanded its business in jurisdictions other than China, which has increased the complexity of the risks that the Bank faces.***

In recent years, the Bank has continued to expand its international operations. As at 30 June 2022, the Bank had overseas subsidiaries branches and representative offices in Hong Kong, New York, Tokyo, Singapore, Seoul, Frankfurt, Macau, Ho Chi Minh City, San Francisco, Sydney, Taipei, London, Luxembourg, Brisbane, Paris, Rome, Brazil, Melbourne, Toronto, Prague and Johannesburg (excluding the representative office). As at 30 June 2022, the Bank had established 23 overseas branches (sub-branches) and representative offices with 69 operating outlets in 18 countries and regions. The Bank's international expansion into multiple jurisdictions exposes it to a variety of regulatory and business challenges and risks and has increased the complexity of the Bank's risks in a number of areas, including currency risk, interest rate risk, credit risk, regulatory and compliance risk, reputational risk and operational risk. The loan portfolio of the Bank's international branches includes foreign currency-denominated loans to PRC companies engaged in international trade. This exposes the Bank to additional risks including default risk resulting from the failure in the performance of the import or export agreements by any party, trade protectionist measures or other factors, and the Bank's inexperience in various aspects of the economic and legal framework in overseas markets. Adverse market conditions in these international jurisdictions may result in mark-to-market and realised losses on the investment assets held by the Bank's overseas branches and subsidiaries and increase their cost of funding. Furthermore, despite the Bank's best efforts to comply with all applicable regulations in all the jurisdictions in which the Bank operates, there may be incidents of its failure to comply with the regulations in certain jurisdictions. Regulators have the power to bring administrative or judicial proceedings against the Bank or its employees, representatives, agents and third party service providers, which could result, among other things, in suspension or revocation of one or more of the Bank's licenses, cease and desist orders, fines, civil penalties, criminal penalties or other disciplinary actions. In addition, the recent global financial crisis is expected to lead to significant regulatory changes in various jurisdictions, including those in which the Bank has operations. These changes may include changes with respect to capital and liquidity ratios, cross-border capital flows and consumer protection.

The extent and impact of such changes is difficult to anticipate and estimate and such changes could have an adverse impact on the Bank's growth, capital adequacy and profitability. If the Bank is unable to manage the risks resulting from its international expansion, its business, reputation, results of operations and financial condition may be adversely affected.

***The Bank does not possess the relevant land use right certificates or building ownership certificates in respect of some of the properties held by it, and the Bank may be required to seek alternative premises for some of its offices due to its landlords' lack of relevant land use right certificates or building ownership certificates.***

The Bank does not hold the land use right certificates or building ownership certificates of some land or buildings it occupies. The Bank will apply for relevant land use right certificates and building ownership certificates that it does not yet hold. Upon obtaining the relevant certificates for these properties, the Bank will

have the legal right to occupy, let, transfer and mortgage such property. The Bank may not be able to obtain all of the title deeds for the defective properties and the Bank is uncertain how the Bank's rights as owner/occupier of these defective properties would be adversely affected as a result of the absence of the title deeds as described above.

The Bank leases multiple properties as its operating offices for its branches in China. There can be no assurance that the lessors of all these properties possess the relevant land use right certificates or building ownership certificates and third parties may therefore challenge the validity of the Bank's lease. If any of the Bank's leases were terminated as a result of being challenged by third parties, the Bank may be forced to seek alternative premises for these offices. If the Bank fails to find alternatives of these offices with acceptable terms, the Bank's business, financial conditions and operation performance may be adversely affected.

***The Bank has increased its allowance for impairment losses to cover future actual losses and estimated losses to its loan portfolio in accordance with the implementation of IFRS 9.***

The Bank determines a level of allowance for impairment losses and recognises any related provisions made in a year using the concept of impairment under IFRS 9. The Bank's provisioning policies may be different in certain respects from those of banks incorporated in certain other countries or regions which do not assess loans under IFRS 9. As a result, the Bank's allowance for impairment losses, as determined under the provisioning policies, may differ from those that would be reported if it was incorporated in those countries or regions.

As at 31 December 2019, 2020 and 2021 and 30 June 2022, the Bank's impairment allowances for loans and advances were RMB132,719 million (expected credit loss allowance, "ECL Allowance", under IFRS 9), RMB139,274 million (ECL Allowance), RMB160,089 million (ECL Allowance) and RMB177,434 million (ECL Allowance), respectively. As at 31 December 2019, 2020 and 2021 and 30 June 2022, the Bank's provision coverage ratio, calculated by dividing the outstanding balance of its impairment allowances by the outstanding balance of impaired loans, was 171.77 per cent., 143.87 per cent., 166.50 per cent. and 173.10 per cent., respectively. The Bank's business, financial position and results of operations may be affected by its policies regarding provisioning. If the Bank's approach to provisioning policies proves not to be adequate, the Bank's business, financial position and results of operations may be negatively affected, which in turn may negatively affect the Bank's ability to service the Notes and to satisfy its other obligations under the Notes.

## **PRICING SUPPLEMENT IN RESPECT OF THE USD NOTES**

**Singapore SFA Product Classification** – In connection with Section 309B of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the “SFA”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “CMP Regulations 2018”), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the CMP Regulations 2018) and are Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendation on Investment Products).

**Pricing Supplement dated 22 November 2022**

**Bank of Communications Co., Ltd. Hong Kong Branch**

*(A joint stock company incorporated in the People’s Republic of China with limited liability)*

**Legal Entity Identifier of Bank of Communications Co., Ltd.: 549300AX1UM10U30HK09**

**Issue of U.S.\$200,000,000 4.75 per cent. Notes due 2025 (the “Notes”)  
under the U.S.\$12,000,000,000 Medium Term Note Programme (the “Programme”)**

This document constitutes the Pricing Supplement relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the offering circular dated 7 March 2022 (the “**Original Offering Circular**”) and the supplemental offering circular dated 22 November 2022 (the “**Supplemental Offering Circular**”, together with the Original Offering Circular, the “**Offering Circular**”).

This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of the Offering Circular and this Pricing Supplement.

This Pricing Supplement is for distribution to professional investors (as defined in Chapter 37 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited) (“**Professional Investors**”) only.

**Notice to Hong Kong investors:** The Issuer confirms that the Notes are intended for purchase by Professional Investors only and will be listed on The Stock Exchange of Hong Kong Limited on that basis. Accordingly, the Issuer confirms that the Notes are not appropriate as an investment for retail investors in Hong Kong. Investors should carefully consider the risks involved.

**The Stock Exchange of Hong Kong Limited has not reviewed the contents of this Pricing Supplement, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this Pricing Supplement to Professional Investors only have been reproduced in this Pricing Supplement. Listing of the Programme and the Notes on The Stock Exchange of Hong Kong Limited is not to be taken as an indication of the commercial merits or credit quality of the Programme, the Notes, the Issuer, or quality of disclosure in this Pricing Supplement.** Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this Pricing Supplement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this Pricing Supplement.

The Managers and their respective officers, employees, affiliates, advisors and agents have not independently verified the information contained herein (financial, legal or otherwise) and, to the fullest extent permitted by law, none of the Managers or their respective officers, employees, affiliates, advisors or agents accepts any responsibility for the contents of this Pricing Supplement or for any other statement, made or purported to be made by the Managers or on their behalf in connection with the Issuer, the Bank, the Group, the Programme or the issue and offering of the Notes under the

Programme. The Managers and their respective officers, employees, affiliates, advisors or agents accordingly disclaim all and any liability whether arising in tort or contract or otherwise (save as referred to above) which might otherwise have in respect of this Pricing Supplement or any such statement.

This Pricing Supplement, together with the Offering Circular, includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to the Issuer. The Issuer accepts full responsibility for the accuracy of the information contained in this Pricing Supplement and confirms, having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement herein misleading.

#### **LISTING APPLICATION**

This Pricing Supplement comprises the final terms required to list the issue of Notes described herein pursuant to the U.S.\$12,000,000,000 Medium Term Note Programme of Bank of Communications Co., Ltd. Hong Kong Branch.

#### **STABILISATION**

In connection with the issue of the Notes, any of the Managers named as Stabilisation Manager (or persons acting on behalf of any Stabilisation Manager(s)) in this Pricing Supplement may, to the extent permitted by applicable laws and directives, over-allot and effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the Notes and 60 days after the date of the allotment of the Notes. Any stabilisation action or over-allotment must be

conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and regulations.

#### **MATERIAL ADVERSE CHANGE STATEMENT**

Except as disclosed in the Offering Circular, there has been no significant change in the financial or trading position of the Issuer or of the Group since 30 June 2022 and no material adverse change in the financial position or prospects of the Issuer or of the Group since 31 December 2021.

#### **RESPONSIBILITY**

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

## **PRICING SUPPLEMENT IN RESPECT OF THE CNY NOTES**

**Singapore SFA Product Classification** – In connection with Section 309B of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the “SFA”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “CMP Regulations 2018”), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the CMP Regulations 2018) and are Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendation on Investment Products).

**Pricing Supplement dated 22 November 2022**

**Bank of Communications Co., Ltd. Hong Kong Branch**

*(A joint stock company incorporated in the People’s Republic of China with limited liability)*

**Legal Entity Identifier of Bank of Communications Co., Ltd.: 549300AX1UM10U30HK09**

**Issue of CNY1,420,000,000 3.05 per cent. Notes due 2024 (the “Notes”)  
under the U.S.\$12,000,000,000 Medium Term Note Programme (the “Programme”)**

This document constitutes the Pricing Supplement relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the offering circular dated 7 March 2022 (the “**Original Offering Circular**”) and the supplemental offering circular dated 22 November 2022 (the “**Supplemental Offering Circular**”, together with the Original Offering Circular, the “**Offering Circular**”).

The parties have agreed to enter into a fourth supplemental fiscal agency agreement dated on or about 30 November 2022 in respect of the Notes, which makes certain modifications to the existing fiscal agency agreements between Bank of Communications Co., Ltd. Hong Kong Branch, Bank of Communications Co., Ltd. Hong Kong Branch as initial Fiscal Agent, CMU Lodging and Paying Agent, Registrar and the other agents named in it relating to the Programme.

This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of the Offering Circular and this Pricing Supplement.

This Pricing Supplement is for distribution to professional investors (as defined in Chapter 37 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited) (“**Professional Investors**”) only.

**Notice to Hong Kong investors:** The Issuer confirms that the Notes are intended for purchase by Professional Investors only and will be listed on The Stock Exchange of Hong Kong Limited on that basis. Accordingly, the Issuer confirms that the Notes are not appropriate as an investment for retail investors in Hong Kong. Investors should carefully consider the risks involved.

**The Stock Exchange of Hong Kong Limited has not reviewed the contents of this Pricing Supplement, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this Pricing Supplement to Professional Investors only have been reproduced in this Pricing Supplement. Listing of the Programme and the Notes on The Stock Exchange of Hong Kong Limited is not to be taken as an indication of the commercial merits or credit quality of the Programme, the Notes, the Issuer, or quality of disclosure in this Pricing Supplement.** Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this Pricing Supplement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this Pricing Supplement.

The Managers and their respective officers, employees, affiliates, advisors and agents have not independently verified the information contained herein (financial, legal or otherwise) and, to the fullest extent permitted by law, none of the Managers or their respective officers, employees, affiliates, advisors or agents accepts any responsibility for the contents of this Pricing Supplement or for any other statement, made or purported to be made by the Managers or on their behalf in connection with the Issuer, the Bank, the Group, the Programme or the issue and offering of the Notes under the Programme. The Managers and their respective officers, employees, affiliates, advisors or agents accordingly disclaim all and any liability whether arising in tort or contract or otherwise (save as referred to above) which might otherwise have in respect of this Pricing Supplement or any such statement.

This Pricing Supplement, together with the Offering Circular, includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to the Issuer. The Issuer accepts full responsibility for the accuracy of the information contained in this Pricing Supplement and confirms, having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement herein misleading.

## LISTING APPLICATION

This Pricing Supplement comprises the final terms required to list the issue of Notes described herein pursuant to the U.S.\$12,000,000,000 Medium Term Note Programme of Bank of Communications Co., Ltd. Hong Kong Branch.

## STABILISATION

In connection with the issue of the Notes, any of the Managers named as Stabilisation Manager (or persons acting on behalf of any Stabilisation Manager(s)) in this Pricing Supplement may, to the extent permitted by applicable laws and directives, over-allot and effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the Notes and 60 days after the date of the allotment of the Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and regulations.

## MATERIAL ADVERSE CHANGE STATEMENT

Except as disclosed in the Offering Circular, there has been no significant change in the financial or trading position of the Issuer or of the Group since 30 June 2022 and no material adverse change in the financial position or prospects of the Issuer or of the Group since 31 December 2021.

## RESPONSIBILITY

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

Signed on behalf of the Issuer:

**BANK OF COMMUNICATIONS CO., LTD. HONG KONG BRANCH**

*(A joint stock company incorporated in the People's Republic of China with limited liability)*

By: \_\_\_\_\_  
Duly authorised

## SCHEDULE 1

This Appendix sets out the special conditions referred to in Item 34 (*Other terms or special conditions*):

### 1. Payments and Talons

Condition 7(a) and 7(b) shall be amended and restated as follows with respect to the Notes:

“(a) **Bearer Notes:** Payments of principal and interest in respect of Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and provided that the Receipt is presented for payment together with its relative Note), Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(f)(vi)) or Coupons (in the case of interest, save as specified in Condition 7(f)(vi)), as the case may be:

- (i) in the case of Notes denominated in a currency other than Renminbi, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the holder, by transfer to an account denominated in such currency with, a Bank;
- (ii) in the case of Notes denominated in Renminbi, by transfer to a Renminbi account maintained by or on behalf of the Noteholder with a bank in Hong Kong; and
- (iii) In this Condition 7(a), “Bank” means a bank in the principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the TARGET System.

*Payments of principal and interest in respect of Bearer Notes held in the CMU will be made to the CMU for their distribution to the person(s) for whose account(s) interests in the relevant Bearer Note are credited as being held with the CMU in accordance with the CMU Rules (as defined in the Agency Agreement) at the relevant time and payment made in accordance thereof shall discharge the obligations of the Issuer in respect of that payment.*

(a) **Registered Notes:**

- (i) Payments of principal (which for the purposes of this Condition 7(b) shall include final Instalment Amounts but not other Instalment Amounts) in respect of Registered Notes shall be made against presentation and surrender of the relevant Certificates at the specified office of any of the Transfer Agents or of the Registrar and in the manner provided in paragraph (ii) below.
- (ii) Interest (which for the purpose of this Condition 7(b) shall include all Instalment Amounts other than final Instalment Amounts) on Registered Notes shall be paid to the person shown on the Register at the close of business on the fifth (in the case of Notes denominated in Renminbi) and fifteenth (in the case of Notes denominated in a currency other than Renminbi) day before the due date for payment thereof (the “Record Date”). Payments of interest on each Registered Note shall be made:
  - (A) in the case of Notes denominated in a currency other than Renminbi, in the relevant currency by cheque drawn on a Bank and mailed to the holder (or to the first-named of joint holders) of such Note at its address appearing in the Register. Upon application by the holder to the specified office of the Registrar or any Transfer Agent before the Record Date, such payment of interest may be made by transfer to an account in the relevant currency maintained by the payee with a Bank; and

(B) in the case of Notes denominated in Renminbi, by transfer to the registered account of the Noteholder.

In Condition 7(b)(ii), “registered account” means the Renminbi account maintained by or on behalf of the Noteholder with a bank in Hong Kong, details of which appear on the Register at the close of business on the fifth business day before the due date for payment.

*Payments of principal and interest in respect of Registered Notes held in the CMU will be made to the person(s) for whose account(s) interests in the relevant Registered Note are credited as being held with the CMU in accordance with the CMU Rules at the relevant time and payment made in accordance thereof shall discharge the obligations of the Issuer in respect of that payment.”*

## CAPITALISATION AND INDEBTEDNESS

*The section “Capitalisation and Indebtedness” on pages 94 to 95 of the Original Offering Circular shall be deleted in its entirety and replaced with the following:*

### Capitalisation and Indebtedness of the Bank

The following table sets forth the actual consolidated debt and capitalisation of the Bank as at 30 June 2022. Investors should read this table in conjunction with the Bank’s unaudited condensed consolidated interim financial statements as at and for the six months ended 30 June 2022 and the notes thereto included in this Offering Circular.

Except for the translation amount shown in U.S.\$, the Bank’s unaudited condensed consolidated interim financial statements as at 30 June 2022 set forth below are derived from the published unaudited consolidated interim financial statements as at and for the six months ended 30 June 2022.

|                                       | As at 30 June 2022 |                     |
|---------------------------------------|--------------------|---------------------|
|                                       | (RMB in million)   | (U.S.\$ in million) |
|                                       | (unaudited)        | (unaudited)         |
| <b>Debt</b>                           |                    |                     |
| Debt securities issued <sup>(1)</sup> | 518,676            | 77,436              |
| Other borrowings <sup>(2)</sup>       | 9,139,694          | 1,364,520           |
| Total debt                            | 9,658,370          | 1,441,957           |
| <b>Equity</b>                         |                    |                     |
| Share capital                         | 74,263             | 11,087              |
| Other equity instruments              | 174,790            | 26,095              |
| Capital surplus                       | 111,428            | 16,636              |
| Other reserves                        | 364,948            | 54,485              |
| Retained earnings                     | 251,114            | 37,490              |
| Non-controlling interests             | 12,393             | 1,850               |
| Total equity                          | 988,936            | 147,644             |
| Total capitalisation <sup>(3)</sup>   | 10,647,306         | 1,589,601           |

Notes:

- (1) On 9 August 2022, the Bank issued RMB20 billion 2.42 per cent. green bonds due 2025. On 11 November 2022, the Bank issued RMB37 billion 3.03 per cent. tier-2 capital bonds due 2032 and RMB13 billion 3.36 per cent. tier-2 capital bonds due 2037.
- (2) Other borrowings include amounts due to and placements from banks and other financial institutions and deposits from customers.
- (3) Total capitalisation equals the sum of total debt and total equity.

Unless otherwise disclosed in this Offering Circular, there has not been any material change in the capitalisation of the Bank since 30 June 2022.

## **USE OF PROCEEDS**

The net proceeds of the USD Notes and the CNY Notes shall each be used for the Issuer's working capital and general corporate purposes.

## DESCRIPTION OF THE BANK

*The section “Description of the Bank” on pages 99 to 119 of the Original Offering Circular shall be deleted in its entirety and replaced with the following:*

### OVERVIEW

Founded in 1908, the Bank is one of the note-issuing banks with the longest history in modern China. In 1986, the State Council of the PRC decided to reorganise the Bank. The Bank reopened after reorganisation on 1 April 1987. It is the first nationwide state-owned joint-stock commercial bank in China, with the head office located in Shanghai. The Bank made its first public offering of its H shares and listing on the Hong Kong Stock Exchange in June 2005, and its first public offering of its A shares and listing on the Shanghai Stock Exchange in May 2007. The Bank was the sixth largest commercial bank in the PRC based on total assets as at 31 December 2021. The Group was ranked in Fortune 500 for thirteen consecutive years, and ranked No. 137 in 2021. The Group ranked No.11 among the Global Top 1000 World Banks rated by *The Banker*.

Substantially all of the Bank’s operations are located in the PRC and the Bank is headquartered in Shanghai. As at 31 December 2021, the Group had 248 domestic branches, including 37 provincial branches and directly-managed branches and 211 branches managed by provincial branches, most of which are concentrated in the Yangtze River Delta, Pearl River Delta and Bohai Rim Economic Zone, as well as large cities in other areas. Through this network and other distribution channels, the Group provides a broad range of financial products and services to its corporate and personal finance customers. As at 30 June 2022, in addition to its PRC operations, the Bank had branches or subsidiaries which are located in Hong Kong, New York, San Francisco, Tokyo, Singapore, Seoul, Frankfurt, Macau, Ho Chi Minh City, Sydney, Brisbane, Melbourne, Taipei, London, Luxembourg, Paris, Rome, Brazil, Prague and Johannesburg, and its representative office in Toronto commenced operations in November 2014.

The Group is engaged predominantly in banking and related financial activities. It comprises corporate banking, personal banking, treasury and other business. Corporate banking mainly comprises corporate loans, bills, trade financing, corporate deposits and remittance. Personal banking mainly comprises personal loans, personal deposits, credit cards and remittance. Treasury mainly comprises money market placements and takings, financial investment, and securities sold under repurchase agreements. The “Others Business” segment mainly comprises items which cannot be categorised in the above business segments.

For the years ended 31 December 2019, 2020 and 2021 and for the six months ended 30 June 2022, the Group’s profit before tax were RMB88,200 million, RMB86,425 million, RMB93,959 million and RMB45,617 million, respectively. As at 31 December 2019, 2020 and 2021 and 30 June 2022, the Group had total assets of RMB9,905,600 million, RMB10,697,616 million, RMB11,665,757 million and RMB12,580,576 million, respectively, gross amount of loans and advances to customers before allowance for impairment of RMB5,304,275 million, RMB5,848,424 million, RMB6,560,400 million and RMB7,087,730 million, respectively, total amounts due to customers of RMB6,072,908 million, RMB6,607,330 million, RMB7,039,777 million and RMB7,811,363 million, respectively, and total equity attributable to equity holders of the parent company of RMB793,247 million, RMB866,607 million, RMB964,647 million and RMB976,543 million, respectively. ## THE BANK’S COMPETITIVE ADVANTAGES

### **A fast growing state-owned bank in China with sustainable improvement in value creation**

Known as a “centuries-old bank”, the Bank established its time-honoured financial brand with a long-standing history and accumulative competitive advantages. As at 30 June 2022, the total assets of the Group amounted to approximately RMB12,580,576 million. As at 30 June 2022, the deposit balances of the Group reached RMB7,811,363 million and the loans and advances balances of the Group amounted to RMB7,087,730 million. The Bank enjoys high recognition and reputation nationwide. The Bank was ranked in Fortune 500 for thirteen consecutive years, and ranked No. 137 in 2021. The Bank ranked No. 11 among the Top 1000 World Banks 2021 by *The Banker*.

The Bank has always been a pioneer of reformation in banking sector since reorganisation. The Bank is the first national joint-stock commercial bank in China, the first integrated commercial bank to carry out banking, insurance and securities businesses and the first domestic large scale commercial bank to successfully bring in foreign capital and to list overseas. In 2015, the Bank took the initiative to be responsible for the financial pilot reform in China after its reformation plan, BoCom’s Plan to Strengthen Reformation, approved by the State Council. In taking “creating shared value and providing the best service” as its core value, the Bank will continue to implement reformation as appropriate and place emphasis on the continuous strategic landscape for stronger wealth management characteristics, with an aim to become a bank with top wealth management businesses and global competitive capabilities in the world.

The Bank is one of the first banks to initiate the concept of wealth management services in the industry. The brand and characteristics of wealth management became more and more prominent with the continuous development of the Bank’s wealth management service system. The Bank has also obtained various licenses relating to trust, leasing, fund, insurance, securities and financial investment, to develop its wealth management business. In 2019, the Bank set up and continuously expanded its asset management subsidiary and fund management subsidiary. The Bank has built up a product and service system categorised by wealth preservation and incrementation, financial planning and risk hedging in order to provide online and offline financial services in relation to on-and-off balance sheet and debt and equity investment. Targeting retail customers, the Bank also integrated certain retail services into the system with respect to wealth management, family trust, insurance broker and asset management. As at 30 June 2022, the personal financial assets under management (“AUM”) managed by domestic branches was nearly RMB4.5 trillion, representing an increase of 5.20 per cent. over the end of the previous year. The mobile banking month active users (“MAU”) increased by 6.4 per cent. over the end of the previous year. During the six months ended 30 June 2022, the Group reported fees and commission income from wealth management of RMB8.543 billion through the consignment of wealth management products, funds and wealth management business.

The Group maintains constant and steady growth in terms of its business scale. The Group’s corporate banking businesses routinely increased. As at 30 June 2022, the Group’s corporate loan balance increased by RMB415,266 million or 10.03 per cent. as compared with 31 December 2021, in which related loans to the manufacturing industry, loans to strategic emerging industries, green credit, loans for “specialisation, delicacy, characterisation and novelty” small and medium-sized enterprises loans and the agriculture-related loans increased by 20.48 per cent., 71.85 per cent., 20.42 per cent., 28.40 per cent. and 15.80 per cent. respectively. During the six months ended 30 June 2022, the volume of industrial value chain financial business increased by 35.66 per cent. on a year-on-year basis, and the sci-tech finance credit customers increased by 21.72 per cent. over the end of the previous year. As at 30 June 2022, the balance of loans of inclusive loans for small and

micro enterprises amounted to RMB403,893 million, representing an increase of 19.21 per cent. over the end of the previous year. The number of customers with loan balance was 245,800, representing an increase of 15.84 per cent. over the end of the previous year. During the six months ended 30 June 2022, the industrial chain finance business increased by 35.66 per cent. on a year-on-year basis. As at 30 June 2022, the balance of industrial chain finance reached RMB174,449 million, representing an increase of 11.83 per cent. over the end of the previous year.

The Group's personal banking business also showed an upward trend. As at 30 June 2022, the Group's balance of personal deposits increased by 13.54 per cent. over the end of the previous year to RMB2,728,060 million, and its balance of personal loans increased by 2.79 per cent. over the end of the previous year to RMB2,348,890 million, of which personal mortgage loans increased by 2.61 per cent. over the end of the previous year. As at 30 June 2022, the number of credit cards registered with domestic branches was 75,286,300, increasing by 1,017,500 over the end of the previous year. As at 30 June 2022, the credit card overdraft balance in domestic branches was RMB480,771 million. As at 30 June 2022, the accumulated consumption of debit cards amounted to RMB1,166,026 million. The accumulated number of debit cards issued amounted to 169.0228 million, representing a net increase of 3.2714 million over the end of the previous year. The Group also focused on developing consumer finance, optimising its online application named "Benefit Loan" (namely online credit consumption loans launched by the Bank for qualified customers), leveraging its FinTech services and improving its intelligent risk management capabilities during the same period. The Bank accelerated the innovation and iteration of consumption loan products, on the basis of meeting customers' demands concerning clothing, food, housing, travel and medical care to improve the whole-process customer experience. The Bank also provided supporting territorial differentiated credit policies and service solutions to enhance consumer loan services for new citizens. It actively provided relief measures to the retail credit customers affected by the pandemic. As at 30 June 2022, the balance of personal non-housing consumption loans increased by 27.45 per cent. over the end of the previous year to RMB68,285 million, and the incremental amount increased by RMB11,020 million on a year-on-year basis.

### **Committed to building the international and comprehensive financial service platform**

The Bank is committed to becoming a first-class international bank with advantages in international businesses and delivering global financial services. The Bank is one of the most internationalised domestic banks in China and its international layouts are at the forefront with respect to its domestic counterparts. Its overseas banking institutions have initially sprouted up within the Asia-Pacific area. Taking it as a base camp, the Bank also expanded its global landscape by tapping into Europe and the United States. As at 30 June 2022, the Bank established 23 overseas branches (sub-branches) and representative offices with 69 operating outlets in 18 countries and regions, providing customers with comprehensive financial services including deposits, loans and advances, international settlement, trade financing and foreign currency exchange. In the first half of 2022, the Bank's overseas banking institutions closely monitored changes in the global market, improved their emergency plans, strengthened risk prevention, and carried out operational management work in a stable and orderly manner. As at 30 June 2022, the Bank had established overseas banking service network with 1,005 banks in 126 countries and regions, set up 238 cross-border Renminbi interbank accounts for 100 overseas Renminbi participating banks in 31 countries and regions, and opened 82 foreign currency settlement accounts in 27 major currencies with 63 banks in 31 countries and regions. In addition, for the six months ended 30 June 2022, the net profit of the Group's overseas banking institutions was RMB3,054 million, whose contribution to the Group's total net profit was 6.93 per cent. As at 30 June 2022, the total assets of the Group's overseas banking institutions were RMB1,318.503 billion, whose contribution to the Group's total assets was 10.48 per cent.

To facilitate the globalisation of domestic enterprises, the Bank and HSBC has also jointly launched a program named "1+1 Global Financial Cooperation" to provide related services and advices. The Bank also connected to the "Single Window" of the customs to provide one-stop trading, settlement and financing services to foreign

trade companies. In addition, the Bank developed a new format of trade services, actively connected the Bank with cross-border e-Commerce enterprises and integrated foreign trade service platforms to improve the foreign exchange settlement autonomy and capital turnover efficiency of medium, small and micro enterprises. In 2021, international payment reached U.S.\$230.455 billion, an increase of 52.72 per cent. on a year-on-year basis. The volume of financing for cross-border trade increased by 27.20 per cent. on a year-on-year basis to U.S.\$17.225 billion. In addition to enhancing its global influence, the Bank is also devoted to promoting the integration of its businesses. To be facilitated by its various wholly-owned and controlling subsidiaries, the Group provides comprehensive financial services and products to its customers, comprising fund, trust, financial leasing, onshore insurance, investment banking, offshore insurance, debt-to-equity swap and wealth management.

BoCom Schroder Fund, whose primary businesses are fund raising, fund sales and asset management, was awarded “Top 10 Star Fund Company” and “Star Fund Companies with Positive Return for Five Consecutive Years”, “Star Fund Company in Active Equity investment” by *Securities Times* and “Golden Bull Fund Management Company” by *China Securities Journal* in 2020. As at 30 June 2022, the yield of equity investment under active management ranked 2/73 in the industry in recent seven years, 4/91 in recent five years, and 25/117 in recent three years.

Staying committed to fulfilling the original mission as a trust company to serve the real economy, Bank of Communications International Trust Co., Ltd. (“**BoCom International Trust**”) focuses on trust loans, investment fund trusts, accounts receivable financing, real estate trusts, family trusts, charitable trusts, credit asset securitisation, corporate asset securitisation, qualified domestic institutional investor, and private equity investment trusts. During 2021, the value of securitised credit assets publicly issued by BoCom International Trust ranked seventh in the sector. As at 30 June 2022, its total assets, net assets and the AUM were RMB17.884 billion, RMB14.981 billion and RMB554.169 billion, respectively.

Adhering to the development strategies as “Professional, Internalisation, Differentiation and Characteristics”, Bank of Communications Financial Leasing Co., Ltd. (“**BoCom Leasing**”) continues to promote aviation and shipping leasing businesses, covering more than 30 countries and regions on five continents, which further highlighted the professional advantages. As at 30 June 2022, its total assets, net assets and balance of leasing assets amounted to RMB349.486 billion, RMB38.699 billion and RMB304.195 billion, respectively, representing a year-on-year increase of 9.6 per cent., 7.97 per cent. and 6.22 per cent., respectively. During the six months ended 30 June 2022, BoCom Leasing’s net profit reached RMB1.887 billion, representing a year-on-year increase of 8.08 per cent. In addition, Total leasing assets of aircraft and ship amounted to RMB188.614 billion, with fleets of 432 ships and 269 planes.

In relation to onshore insurance, BoComm MSIG Life Insurance Company Limited (“**BoCommLife**”) remains committed to providing insurance guarantee and maintains a stable performance. As at 30 June 2022, BoCommLife’s total assets and net assets were RMB109.431 billion and RMB8.007 billion respectively. BoCommLife’s original premium income for the six months ended 30 June 2022 was RMB13.550 billion, representing an increase of 19.03 per cent. on a year-on-year basis, whereas its net profit was RMB0.185 billion, representing a decrease of 69.37 per cent. on a year-on-year basis.

With respect to offshore insurance, BoCom Insurance expands its banking-related insurance business domestically and overseas and officially obtains the full-coverage aviation insurance license issued by the Hong Kong Insurance Authority (namely, No. 5 Aviation Insurance License and No.11 Aviation Liability Insurance License).

As one of the first pilot banks to implement debt-to equity conversion as determined by the State Council, BOCOM Financial Asset Investment Co., Ltd. (“**BOCOM Financial Asset Investment**”) is mainly engaged in debt-to-equity conversion and supporting services. As at 30 June 2022, BOCOM Financial Asset Investment’s total assets and net assets were RMB67.265 billion and RMB20.035 billion, respectively. Its net

profit during the six months ended 30 June 2022 was RMB0.709 billion, representing an increase of 0.84 per cent. on a year-on-year basis. BOCOM Financial Assets Investment's investment amount per person, net profit per person and other indicators were at the top level in the industry, and its capital adequacy ratio was in compliance with regulatory requirements.

For the six months ended 30 June 2022, net profit attributable to shareholders of the Bank from the subsidiaries<sup>1</sup> amounted to RMB3.381 billion, the proportion of which to the Group's net profit was 7.68 per cent.. As at 30 June 2022, the total assets of the Group's subsidiaries were RMB600.223 billion, the proportion of which to the total assets of the Group was 4.77 per cent.

### **Prominent wealth management services**

The Group grasped market opportunities and cooperated with sophisticated fund managers to manage its funds and investments, aiming to create conventional, popular and featured wealth management products and build up the name of BOCOM Wealth. In addition, the Group designed affordable insurance products in response to the outbreak of the COVID-19 pandemic, the trend of resumption of work and the wave of purchase of medical insurance. As at 30 June 2022, individual financial AUM of domestic branches of the Group increased by 5.20 per cent. over the end of the previous year, whereas the mobile banking MAU increased by 6.4 per cent. over the end of the previous year. As at 30 June 2022, there were 73,700 private banking customers of the Group, representing an increase of 4.77 per cent. over the end of the previous year; the assets of private banking customers under management of the Group were RMB1,029.8 billion, representing increase of 3.69 per cent. over the end of the previous year. In addition, the Group has established comprehensive service brands for its customers in relation to wealth preservation. The Group provided retail and individual customers, corporations and financial institutions with comprehensive financial services, building up a complete series structure comprising "Win to Fortune", a corporate wealth management brand of the Bank providing comprehensive one-stop wealth management solutions for corporate and government institutions through intelligent financial service and digital transformation; "OTO Fortune", a main brand of retail business of the Bank with core value of "Creating and Sharing Abundant Wealth with Noble Virtue" devoted to realising value maintenance and appreciation of wealth for customers; and "BoCom Tong Ye Fortune", an interbank wealth management brand of the Bank with core value of "Corporation for Everlasting Enterprises" devoted to providing comprehensive product support and service solution for interbank financial customers. As at 30 June 2022, the number of qualified customers of OTO Fortune increased by 5.79 per cent. over the end of the previous year to RMB2.1189 million.

### **Comprehensive and robust risk management**

The Board of Directors of the Bank assumed the ultimate responsibility, served the highest function of decision making and monitored the Bank's risk management through its Risk Management and Related Party Transaction Control Committee. The Bank's Senior Management established a Risk Management Committee, namely the Comprehensive Risk Management and Internal Control Committee, and two business review committees, namely the Credit and Investment Review Committee and the High-risk Asset Review Committee. The business review committees were guided by and reported to the Comprehensive Risk Management and Internal Control Committee. Each provincial and directly managed branch, overseas branch, subsidiary and directly operating institution correspondingly established the Risk Management Committee accordingly referring to the aforementioned framework, which served as the main platform to study the prevention and control of systematic and regional risks and decision-making risks on major issues, ensured that the comprehensive risk management system had been implemented throughout the Group.

---

<sup>1</sup> Net profit was calculated in accordance with the new accounting standard for financial instruments (IFRS 9), which was somewhat different from that calculated under IAS 39 currently adopted in the insurance sector.

During the six months ended 30 June 2022, the Group strengthened risk identification, accelerated risk disposal, and tightened asset quality classification standards. The foundation of asset quality has been continuously consolidated, and the level of asset quality has been steadily improved. As at 30 June 2022, the balance of non-performing loans was RMB103.232 billion and the non-performing loan ratio was 1.46 per cent., representing an increase of RMB6.436 billion and a decrease of 0.02 per cent., respectively, over the end of the previous year.

### **Experienced and professional management team and talent pool**

The Group's senior management has an average of more than 20 years' experience in banking practice and is well experienced in management. Among the Group's senior management, Mr. Ren Deqi, the Chairman of the Board of Directors and Executive Director, has over 30 years' experience in banking sector, holding important positions. The Group also launched three major projects, namely, "10,000 Fintech Talent Plan", "Fintech Management Trainees" and "Empowerment Transformation of Existing Talents" to enrich its Fintech talents pool in a timely fashion. In 2020, the Bank formulated the Plan for the Cultivation of FinTech Talents (2020-2024). The Bank strived to build a technology team consisting of over 10,000 talents with "forward-looking vision, agile mind, efficient work style, and value creating ability" via external talent introduction, internal talent transformation and incentive scheme.

The Group also adheres to pursuing operational improvements and actively reforms its corporate governance structure in a professional manner. Currently, the Bank has established its modern corporate governance mechanism comprising the Shareholders' General Meeting, the Board of Directors, the Board of Supervisors and Senior Management with clearly defined roles, authorities and responsibilities. Based on their mutual coordination and individual operation, the Group protects the legitimate rights and interests of shareholders and other stakeholders and functions fairly and efficiently.

### **Strategic cooperation with HSBC**

In 2020, under the new market positioning of "Deepen Strategic Cooperation and Create Shared Value", the Bank and HSBC overcame the adverse effects of the pandemic and continued to deepen all-round strategic cooperation, which in return achieved positive results. In 2020, under the framework of "1+1 Global Financial Services", business cooperation kept a stable growth between both parties. The Bank and HSBC collaborated to assist Chinese enterprises to "go global", concluding 4 cooperative syndicated loan projects. Both parties consolidated cooperative advantages in Hong Kong, concluding 16 cooperative syndicated loan projects and 35 bond underwriting projects. Cooperation in offshore financing and treasury business was promoted in an orderly manner, further deepening the cooperation in foreign currency settlement and cross-border Renminbi settlement. In addition, cooperation in trust business was steadily promoted. In 2020, the scale of cooperation in terms of trust business reached RMB51.57 billion. Meanwhile, both parties worked together to promote the development of businesses empowered by FinTech, enhance the efficiency of trade finance to serve the real economy, and successfully implemented the first domestic securities transaction between Chinese and foreign banks on the interbank trading platform of the CBA.

Both parties, under the framework of "Resources and Experience Sharing", continued to exchange experiences on business services and operating management with the focus on subjects such as business development and risk compliance.

Over the past 16 years, cooperation between these two banks was praised as a classic case and a successful example of the cooperation between Chinese and foreign banks. The Bank will continue to work closely with HSBC while focusing on the Yangtze River Delta integration, FinTech and other fields. Both parties will vigorously explore opportunities, explore the potentials in depth, and collaborate to create more value under the concept of mutual benefit and win-win cooperation.

## THE GROUP'S PRINCIPAL BUSINESS ACTIVITIES

The Bank provides the customers with corporate banking, personal banking and interbank and financial market businesses. The Group's corporate loan balance increased by 10.03 per cent. over the end of the previous year to RMB4,553.848 billion, among which short term loans increased by RMB138.820 billion, and medium and long-term loans increased by RMB276.446 billion.

### ***Customer development***

The Bank accelerated the construction of customer projects, and further established a stratified operation and service system. As at 30 June 2022, the total number of corporate customers of domestic branches increased by 5.76 per cent. over the end of the previous year. For group customers, the Bank enhanced its services and support for the strategies of reinvigorating China and Green Development, promoted the integrated expansion programme among the upstream and downstream, the ecosystem and the investment chain, continuously optimised the credit management policies and processes, and strengthened the synergistic collaborative services within the Group. As at 30 June 2022, the number of the Bank's group customers reached 88,400, representing an increase of 5,498 over the end of the previous year. For government institutions customers, the Bank actively participated in the construction of digital government and the process of urban digital transformation, assisted in the provision of convenient government affair services, and expanded the dominant position in the cooperation between banks and governments. As at 30 June 2022, the number of government institutions customers reached 72,900, representing an increase of 2,079 over the end of the previous year. For small and micro basic customers, the Bank enhanced the support for digital marketing, established the "Four-in-One" service system with the electronic channels, online products, outbound call services and outlet supports, and continuously improved services for the basic customer segments. As at 30 June 2022, the number of small and micro basic customers reached 2.1504 million, representing an increase of 0.118 million over the end of the previous year.

### ***Scenario construction***

The Bank intensively explored scenario construction through digital thinking and integrated financial services into subdivided scenarios such as medical care, schools, parks and central corporate treasury. Benefit Medical Payment has been launched in 35 cities including Shanghai, Nanjing, Dalian, Guangzhou and Yichang. The Intelligent Financial Services Platform had reached 0.1 million registered customers in total, representing an increase of 21,000 over the end of the previous year, and received RMB230.529 billion in settlement volume, representing a year-on-year increase of 131.80 per cent. The Bank maintained its leading position in the innovative services of the "Smart Bookkeeping" in Beijing, with the amount of cumulative transactions exceeding RMB60 billion in the first half of the year. Following the reform trend of the central corporate treasury system, the Bank provided business and technical support for the construction of central corporate treasury system in the fields of wealth management and global cash management.

### ***Services to inclusive small and micro enterprises***

With the support of FinTech and big data, the Bank promoted the “Online products+Scenario customisation” mode, enhanced the batched, scenario-based, intelligent and online operating capabilities, and launched a batch of scenario-customised products. For small and micro enterprises in the industrial chain, the Bank built projects such as “Ouyeel Chain2”, “Dairy Chain”, “Liquor Chain”, “Fodder Chain”, etc.; for small and micro enterprises in the field of science and technology innovation, the Bank launched the “Inclusive e-Loan” on the scenario-customised scientific and technological projects in Suzhou, Shenzhen, Anhui, Hunan, Xiamen, Shanghai, Shannxi and other places; for small and micro enterprises in specific industries, the Bank launched special projects such as “Cigarette Loan”, “Government Purchase Loan”, “Medical Insurance Loan” and “Household Loan”. The Bank focused on small and micro key areas, key customer segments and key products, continuously increased the credit issuance to support small and micro enterprises in the recovery, resumption of production and manufacturing as well as the high-quality development. As at 30 June 2022, the balance of inclusive loans to small and micro enterprises was RMB403.893 billion, which was an increase of 19.21 per cent. over the end of the previous year. The number of customers with loan balances was 0.2458 million, representing an increase of 15.84 per cent. over the end of the previous year. The accumulated average interest rate of inclusive loans to small and micro enterprises was 3.84 per cent., representing a decrease of 0.16 percentage point. Non-performing loan ratio of inclusive small and micro enterprises was 0.94 per cent., representing a decrease of 0.22 percentage point over the end of the previous year. Also, 2,763 business outlets of the Bank provided financial services such as financing services to small and micro enterprises.

### ***Industrial chain finance***

The Bank implemented the requirements of stabilising and strengthening the chain, and stimulated special authorisation, system innovation and process optimisation, to meet the personalised financing needs of enterprises in the principle of “one policy for one chain”. Concentrating on technological empowerment, the Bank developed an industrial chain rapid financing product line. The volume incurred of rapid discounted bills amounted to RMB44.350 billion, and the volume incurred of Express Pay reached RMB3.934 billion. The Bank also launched BoCom’s self-built smart transaction chain platform. Moreover, the Bank connected with 16 mainstream platforms, such as TravelSky and CSCC, to realise convenient and cross-scenario financial cooperation, and automate the whole process of rapid payment, which greatly improved user experience. By making use of innovative products, the Bank was able to cooperate deeply with leading enterprises in key industries such as electricity, construction, automobiles and pharmaceuticals to meet the financing demands of both upstream and downstream enterprises. During the six months ended 30 June 2022, the industrial chain finance business increased by 35.66 per cent. on a year-on-year basis. As at 30 June 2022, the balance of industrial chain finance reached RMB174.449 billion, representing an increase of 11.83 per cent. over the end of the previous year.

### ***Investment bank***

The Bank intensified its efforts in scaling up full financing to build an innovative investment bank. During the six months ended 30 June 2022, the bond underwriting according to National Association of Financial Market Institutional Investors (“NAFMII”) (debt financing instructions of non-financial enterprises) reached RMB223.573 billion, representing an increase of 18.54 per cent. on a year-on-year basis. The Bank practiced green finance and mainly underwrote green bonds (including carbon neutrality bonds) amounting to RMB4.165 billion, representing an increase of 47.23 per cent. on a year-on-year basis. The Bank developed nine Credit Risk Mitigation Warrants amounting to RMB3.65 billion. By virtue of scenario innovation, the Bank delved into mergers and acquisitions. In the first half of the year, the newly increased scale of domestic and overseas mergers and acquisitions finance was RMB51.2 billion, representing an increase of 26 per cent. on a year-on-year basis. Focusing on the characteristic of “sci-tech finance”, seven private equity investment funds were set up to invest in strategic emerging industries and sci-tech innovation enterprises. “Win to Fortune e-Smart”, an

information consultancy service, was upgraded and an investment banking full financing platform was launched to further integrate “financing” and “intelligence” collaborative service. The ability to innovate products and services was lifted in all respects and so highly recognised by the market that the Bank was awarded “Excellent ABS Originating Institution” by China Central Depository & Clearing Co., Ltd. and other awards.

### **Personal Banking Business**

As at 30 June 2022, the balance of personal deposits of the Group increased by 13.54 per cent. over the end of the previous year to RMB2,728,060 million. The balance of personal loans was RMB2,348.890 billion, representing an increase of 2.79 per cent. over the end of the previous year, and the market share of personal consumption loans (including credit cards) was over 4.99 per cent.

#### ***Retail customers***

Focusing on people’s diversified financial demands, the Bank enhanced the capacities of asset allocation and customer service with “financial assets + data assets”. The Bank implemented digital transformation, increased collaboration on customer acquisition and scenario-based service provision, consolidated the customer base, and optimised customer structure, thereby keeping scaling up AUM steadily. As at 30 June 2022, the number of retail customers of domestic branches (including debit card and credit card customers) increased by 1.82 per cent. over the end of the previous year to 189 million. The number of qualified customers of OTO Fortune increased by 5.79 per cent. over the end of the previous year to 2.1189 million.

#### ***Wealth management***

Adhering to the concept of “customer orientation and continuous value creation for customers”, the Bank developed the feature of wealth finance by leveraging its advantages of wealth management products, services, and brands. The Bank horizontally leveraged the integrated advantage of the Group to build a full-chain wealth management operating system and vertically developed a sound pension financial service system to enhance customer stickiness. During the six months ended 30 June 2022, the Bank focused on wealth finance digital operations, extended the depth and breadth of customer management systems with data-driven technology, and provided omnichannel and full-link marketing services through the retail digital marketing middle office. As at 30 June 2022, the number of cooperative institutions on the online open platform for wealth increased to 48. The platform provided customers with more professional investment information, product promotion, investor education, investment companion and other services.

In addition, the Bank enhanced product creation and supply capabilities. By adhering to open integration, the Bank introduced quality products and established partnerships with nine external institutions on wealth management products consignment to enrich customers’ investment choices. Quantitative indicators were considered together with experts’ experience to build the “OTO Best Choice” product system covering wealth management, funds and insurance to provide customers with more professional wealth allocation choices. In the first half of 2022, the average yield of the “OTO Best Choice” fund overperformed the market average. Besides, the Bank introduced more low-fluctuating fixed income funds and fixed income+ funds with low starting points and stepped up efforts to drive the growth of the holding scale of personal non-monetary public funds. According to the data published by the Asset Management Association of China, as at 30 June 2022, the Bank ranked the fifth in the banking industry in terms of the holding scale of non-monetary public funds.

During the six months ended 30 June 2022, revenue from consignment of personal wealth management products by domestic branches was RMB5.373 billion. The balance of personal public fund products on consignment was RMB296.622 billion, and the net income of funds on consignment (including securities dealers and exclusive accounts) was RMB1.623 billion; the balance of wealth management products on consignment was RMB871.923 billion, and the net income of wealth management was RMB1.584 billion; the balance of insurance products on consignment was RMB236.559 billion, and the net income of agency insurance business

was RMB1.855 billion, making the Bank one of the market leaders in terms of the growth rate of insurance income.

### ***Scenario and payment***

With a focus on inclusive livelihood scenarios, the Bank practised customer management through digital means. Through government affairs apps used by citizens, the Bank provided solutions of “Payment + Wallet” to citizens covering services such as payment and inquiries. In order to meet the demands of travel scenarios such as urban traffic, new energy vehicle charging, tourism and car owner services, the Bank established a membership system and introduced more payment discounts to provide citizens with safe and compliant account and payment services. The Bank provided medical payment functions on scenarios such as medical service and online sales of medicines. The Bank deepened the construction of smart schools and provided education industry solutions to schools through open banking. To serve the national rural revitalisation strategy, the Bank launched debit cards themed on rural revitalisation and provided customers with exclusive rights and interests such as guidance on agricultural technology and preferential settlement service charges. As at 30 June 2022, the accumulated number of debit cards issued amounted to RMB169.0228 million, representing a net increase of RMB3.2714 million over the end of the previous year. During the six months ended 30 June 2022, the number of debit card customers acquired online increased by 2.44 percentage points compared with the end of the previous year. Under the support of cooperative institutions, the Bank upgraded payment products to improve card holders’ payment experience on mainstream platforms. The Bank launched marketing activities in retail stores, supermarkets, entities for transportation, culture and travel through cooperation with China Unionpay and other leading platforms to enrich consumption payment scenarios. During the six months ended 30 June 2022, the accumulated consumption paid by debit cards amounted to RMB1,166.026 billion.

### ***Customer finance***

The Bank firmly implemented the decisions and arrangements of the CPC Central Committee and the State Council on real estate regulation, continued to optimise the credit policies, and improved the online service level of housing loans. As at 30 June 2022, the personal housing mortgage loan balance increased by 2.61 per cent. to RMB1,528.420 billion over the end of the previous year, and the balance of the domestic market accounted for 4.86 per cent., representing an increase of 0.05 percentage point from the beginning of the year.

The Bank accelerated the innovation and iteration of consumption loan products, on the basis of meeting customers’ demands concerning clothing, food, housing, travel and medical care to improve the whole-process customer experience. The Bank also provided supporting territorial differentiated credit policies and service solutions to enhance consumer loan services for new citizens. It actively provided relief measures to the retail credit customers affected by the pandemic. As at 30 June 2022, the balance of personal non-housing consumption loans increased by 27.45 per cent. over the end of the previous year to RMB68.285 billion, and the incremental amount increased by RMB11.020 billion on a year-on-year basis.

### ***Private banking***

The Bank satisfied customers’ long-term demands for security and wealth inheritance via insurance trust services, which resulted in synergy development with large-value insurance policies and facilitated the accelerated growth of family wealth management business. As at 30 June 2022, the scale of family trusts increased by 37.66 per cent. over the end of the previous year. The Bank also launched equity family trust services to enhance its wealth management characteristics. It enhanced service companion for customers and developed asset allocation model system to improve its capability of providing professional asset allocation services. As at 30 June 2022, the number of private banking customers of the Group was 73,700, increasing by 4.77 per cent. over the end of the previous year. The value of assets managed by the Group for private banking customers was RMB1,029.8 billion, increasing by 3.69 per cent. over the end of the previous year.

### ***Credit card***

The Bank expanded its customer basis by enhancing the off-line customer acquisition and improving the conversion rate of the on-line scenario traffics. It launched out innovative products such as credit cards themed with national cultures to attract quality young customers. As at 30 June 2022, the number of credit cards registered with domestic branches was 75,286,300, increasing by 1,017,500 over the end of the previous year. During the six months ended 30 June 2022, the proportion of customers acquired online was 55.98 per cent., representing an increase of 3.63 percentage points on a year-on-year basis; new active accounts saw a growth of 19.10 per cent. on a year-on-year basis. The Bank continued the marketing campaigns such as “Super Red Friday”, “Weekly Swipe” and launched special activities against the COVID-19, and therefore achieved steady improvement in its share of the consumption market and the amount of mobile payment transactions. During the six months ended 30 June 2022, the cumulative amount of consumption through credit cards was RMB1,507.142 billion, representing a year-on-year increase of 3.83 per cent. In detail, the average consumption of active accounts increased by 3.59 per cent. on a year-on-year basis and the amount of mobile payment transactions increased by 24.55 per cent. on a year-on-year basis. The balance in instalments increased by 3.66 per cent. on a year-on-year basis. As at 30 June 2022, the credit card overdraft balance (including both the balance of personal credit card loans and the balance of corporate business card loans) in domestic branches was RMB480.771 billion.

### ***Pension finance***

The Bank actively served the national strategy of coping with the ageing population and boosted the development of pension finance and elderly care industry finance to facilitate the overall layout of pension financial services. It continuously strengthened the account management and custody services for China’s National Social Security Fund, Basic Pension Insurance Funds and Enterprise Annuity Funds. It also actively participated in the pilot program of personal pension reform and was approved as a qualified pilot bank for pension wealth management products, ranking first in the industry in terms of the scale of pension targeted securities investment funds. The Bank enhanced its efforts in the research and development of unique credit products to strengthen its credit support for elderly care service institutions. As at 30 June 2022, the number of customers in the elderly care service industry receiving credit granting services from the Bank increased by 42.42 per cent. over the end of the previous year. The age-appropriate function modification work has been finished for mobile banking and Go Pay APP, which served more than 530,000 elderly customers in total in the first half of the year.

### **Inter-bank and Financial Market Businesses**

As at 30 June 2022, the balance of due to and placements from banks and other financial institutions of the Group increased by RMB49.395 billion or 4.50 per cent. over the end of the previous year, which accounted for 9.03 per cent. of total liabilities and represented a decrease of 1.23 per cent. over the end of the previous year; the financial investment of the Group reached RMB3,692.614 billion, representing an increase of 4.81 per cent. over the end of the previous year.

### ***Inter-Bank Businesses***

The Bank enhanced the clearing business and settlement service provided in the financial factor market, improved emergency safeguard mechanism for the settlement in the financial factor market to address COVID-19 and other emergencies, so as to support the smooth development of the financial market. The Bank also participated in facilitating the interconnection between financial markets and financial infrastructure and became a qualified settlement bank for interconnection transactions between the interbank and exchange bond markets. It served the development of futures market and became one of the qualified depository banks initially designated by Shanghai International Energy Exchange for commodity swaps. During the six months ended 30

June 2022, the volume of the Bank's agent clearing business in Shanghai Clearing House topped in the market, and the volume of securities and futures settlement of the Bank was also leading the market.

The Bank served the development of the Cross-border Interbank Payment System ("CIPS") to effectively promote the security of core cross-border Renminbi payment technologies. It actively promoted the CIPS standard transmit product and other cross-border Renminbi business handling and information exchange products, making it a market leader in terms of the number of customers using its CIPS standard transmit product.

### ***Financial Market Businesses***

The Bank gave full play to its role of "financial stabiliser" as a large state-owned bank, and actively performed the duties of a market maker in interbank business, maintaining a market leading position in terms of the volume of various interbank financial services.

During the six months ended 30 June 2022, the trading volume in Renminbi money market of domestic branches amounted to RMB36.56 trillion; the trading volume in foreign currency market amounted to US\$944.2 billion; the trading volume of Renminbi bonds amounted to RMB2.69 trillion; the trading volume in interbank foreign exchange market amounted to US\$1.73 trillion; the trading volume of self-operated gold amounted to 2,570.5 tons, maintaining its market position as an active trading bank.

The Bank proactively supported the construction of Shanghai as an international financial centre and became one of the members of China Foreign Exchange Trading System initially qualified for bank transaction settlement and completed the first day trading of X-LENDING bond lending and borrowing businesses. The Bank seized the new opportunity of market-oriented reforms of insurance fund utilisation and conducted the first bond lending business with insurance peers.

### ***Asset Custody***

The Bank focused on the original business of custody, enhanced the improvement of its capability for securities custody business, vigorously developed public fund custody businesses and provided innovative asset management and project custody services to serve the real economy and improve its value contribution. It supported the national pension Security system reform by seizing the opportunities for personal pension business and actively expanding pension custody businesses. It also deepened cooperation with financial institutions including insurance, securities and trust companies to facilitate the promotion of all product lines and enhance market competitiveness. As at 30 June 2022, the assets under custody reached RMB12.12 trillion.

### ***Wealth Management Business***

The Bank continued to optimise the structure of its wealth management products, accelerated the expansion and increase of distribution channels to further increase the net worth of its wealth management products. As at 30 June 2022, the balance of off-balance sheet wealth management products of the Group reached RMB1,276.964 billion, among which the balance of net-worth wealth management products was RMB1,148.520 billion, accounting for 89.94 per cent. of the Group's asset management products and representing a year-on-year increase of 18.62 percentage point.

## **INTEGRATED OPERATION**

For the six months ended 30 June 2022, net profit attributable to shareholders of the Bank from the subsidiaries amounted to RMB3.381 billion, the proportion of which to the Group's net profit was 7.68 per cent. The total assets of the subsidiaries were RMB600.223 billion, the proportion of which to the total assets of the Group was 4.77 per cent.

The Group established a coordinative development pattern to provide comprehensive financial services for customers by using commercial banking businesses as the body, with other businesses including financial leasing, fund, wealth management, trust, insurance, foreign security and debt-to-equity swap developing alongside.

## **Major Subsidiaries**

### ***BoCom Leasing***

As the Bank's wholly-owned subsidiary, BoCom Leasing was set up in December 2007 with a registered capital of RMB14.0 billion. The main business scope includes financing leases and operating leases in sectors such as aviation, shipping and energy power, transportation infrastructure, equipment manufacturing and livelihood services. The company was elected as the Fifth Chief Administration Unit of the Financial Leasing Committee of the CBA. During the six months ended 30 June 2022, the company adhered to the development strategies of "Professionalism, Internationalisation, Differentiation and Characteristics", and deeply engaged in aviation, shipping, traditional financing leasing and other businesses, with its main indicators continuing to rank among the highest in the industry. As at 30 June 2022, BoCom Leasing's total assets, net assets and balance of leasing assets were RMB349.486 billion, RMB38.699 billion and RMB304.195 billion, respectively, representing a year-on-year increase of 9.6 per cent., 7.97 per cent., and 6.22 per cent., respectively. Total leasing assets of aircraft and ship amounted to RMB188.614 billion, with fleets of 432 ships and 269 planes. During the six months ended 30 June 2022, BoCom Leasing's net profit reached RMB1.887 billion, representing a year-on-year increase of 8.08 per cent.

During the six months ended 30 June 2022, BoCom Leasing overcame the adverse effects of the pandemic, expedited transformation and innovation, and fully supported the nation's industrial structure policy and the development of key regions. BoCom Leasing made new investments mainly in manufacturing, livelihood services, energy power and transportation, among which incremental investments in the area of "developing the nation into a manufacturing powerhouse" increased by 116.76 per cent. on a year-on-year basis. As at 30 June 2022, the balance of leasing assets of the company in the Yangtze River Delta increased by 17.39 per cent. over the end of the previous year to RMB36.975 billion, among which the balance of leasing assets in Shanghai increased by 19.7 per cent. over the end of the previous year to RMB22.942 billion. BoCom Leasing adhered to the concept of leading industry through innovation, actively explored the "sell-buy" method of aircraft assets, and won Asia-Pacific Editor's Deal of the Year awarded by Airline Economics in 2022. BoCom Leasing also successfully completed the registration of external claims under an innovative leasing project. Specifically, it launched the first special purpose vehicle cross-border container leasing project among Chinese free trade zones, the first of such kind in domestic finance leasing industry. With this innovative project, the company ensured the supply of containers to enterprises and helped maintain a smooth and stable global logistics supply chain.

### ***BoCom International Trust***

BoCom International Trust was set up in October 2007 with a registered capital of RMB5.765 billion, of which the Bank and Hubei Provincial Communications Investment Group Co., Ltd. contributed 85 per cent. and 15 per cent. stock rights respectively. The main business scope includes non-standard investment and financing trusts, securities investment trusts, asset securitisation trusts, family trusts, and charitable trusts. During the six months ended 30 June 2022, the company actively promoted business transformation and achieved positive results. It issued the first Commercial Mortgage-Backed Medium-termed Notes for underground property in the nation, and implemented the Group's first equity family trust. BoCom International Trust deepened the synergy effect of the Group, and increased investments in key regions such as Shanghai, the Yangtze River Delta, the Yangtze River Economic Belt, and the Guangdong-Hong Kong-Macao Greater Bay Area, with incremental investments increased by 56.56 per cent. BoCom International Trust has been rated as Level A (the

highest level) for seven consecutive years since the China Trustee Association launched the industry rating, and has won approval from Hubei Office of the CBIRC to engage in the equity investment business with inherent assets. During 2021, the value of securitised credit assets publicly issued by BoCom International Trust ranked seventh in the sector. As at 30 June 2022, the total assets, net assets and AUM of BoCom International Trust were RMB17.884 billion, RMB14.981 billion and RMB554.169 billion, respectively. Affected by the decrease in existing business and the restructuring of its trust business, BoCom International Trust's net profit during the six months ended 30 June 2022 decreased by 13.87 per cent. on a year-on-year basis to RMB0.505 billion.

### ***BoCom Schroder Fund***

BoCom Schroder Fund was set up in August 2005 with a registered capital of RMB0.2 billion. BoCom Schroder Fund was jointly contributed by the Bank, Schroder Investment Management Limited and China International Marine Containers (Group) Co., Ltd., with the stock rights accounting for 65 per cent., 30 per cent. and 5 per cent. respectively. The primary businesses include fund raising, fund sales and asset management. The yield of equity investment under active management ranked second (2/73) in the industry in recent seven years, fourth (4/91) in recent five years, and twenty-fifth (25/117) in recent three years. The rate of return of one fund product in recent seven years was more than 300 per cent., the rate of return of three fund products in recent five years was more than 200 per cent., and the rate of return of 14 fund products in recent three years was more than 100 per cent. During the six months ended 30 June 2022, BoCom Schroder Fund and the Group jointly focused on the layout and sales of pension financial products, and thus BoCom One Year Stable Pension FOF became the largest FOF product under management in the market, with a scale of nearly RMB20.0 billion as at 30 June 2022. As at 30 June 2022, BoCom Schroder Fund's total assets and net assets were RMB7.461 billion and RMB5.556 billion, respectively, and the public fund under management reached RMB596.1 billion, representing an increase of 9 per cent. over the end of the previous year. Due to the impact of market fluctuations, BoCom Schroder Fund's net profit during the six months ended 30 June 2022 suffered a year-on-year decrease of 14.81 per cent. to RMB0.832 billion.

### ***BOCOM Wealth***

As a wholly-owned subsidiary of the Bank, BOCOM Wealth was set up in June 2019 with a registered capital of RMB8.0 billion. It primarily issues to customers wealth management products of fixed income, equity, commodities, financial derivatives and hybrid categories. During the six months ended 30 June 2022, BOCOM Wealth contributed to establishing Schroder BOCOM Wealth Management Co., Ltd., and Guomin Pension Insurance Co., Ltd. to align with the nation's development strategy. It was also qualified to participate in the second round of pilot scheme of pension wealth management products. In addition, BOCOM Wealth practiced the ESG investment concept, and successfully raised funds for and launched its first Yangtze River Delta ESG-themed wealth management product. BOCOM Wealth also actively expanded consignment agencies outside the Bank, and ranked top among wealth management subsidiaries, with the balance of wealth management products reaching RMB1,148.520 billion as at 30 June 2022. BOCOM Wealth was awarded the Gold Financial Product of the Year in terms of Market Influence, and the Outstanding Innovative Wealth Management Product, among others, from media and rating agencies. As at 30 June 2022, BOCOM Wealth's total assets and net assets were RMB10.871 billion and RMB10.540 billion, respectively. Its net profit during the six months ended 30 June 2022 was RMB0.634 billion, representing an increase of 4.51 per cent. on a year-on-year basis.

### ***BoCommLife***

BoCommLife was set up in January 2010 with a registered capital of RMB5.1 billion, of which the Bank and the MS&AD Insurance Group contributed 62.50 per cent. and 37.50 per cent. stock rights respectively. The business scope includes life insurance, health insurance, accident insurance and reinsurance businesses of the aforementioned insurances in Shanghai as well as regions where its branches were established. For the six months ended 30 June 2022, BoCommLife enriched its products and further adapted its services in areas such as pension finance and financial services for new urban residents, so as to meet customers' protection needs

throughout their lifetime. BoCommLife also strengthened business innovation, participated in the pilot programme of individual tax-deferred commercial pension insurance, and established a team consisting of nearly 100 wealth planners to satisfy the high net-worth customers through allocation of premium and premium trusts. As at 30 June 2022, BoCommLife's total assets and net assets were RMB109.431 billion and RMB8.007 billion, respectively. During the six months ended 30 June 2022, the original premium income was RMB13.550 billion, representing an increase of 19.03 per cent. on a year-on-year basis. Affected by the fluctuations in the capital market and decrease in investment income, the net profit was RMB0.185 billion, representing a decrease of 69.37 per cent. on a year-on-year basis.

#### ***BOCOM Financial Asset Investment***

As a wholly-owned subsidiary of the Bank, BOCOM Financial Asset Investment was set up in December 2017 with a registered capital of RMB10.0 billion. As one of the first pilot banks to implement debt-to-equity conversion as determined by the State Council, BOCOM Financial Asset Investment is mainly engaged in debt-to-equity conversion and supporting services. As at the date of this Supplemental Offering Circular, the Bank injected additional capital of RMB5.0 billion to BOCOM Financial Asset Investment. During the six months ended 30 June 2022, BOCOM Financial Asset Investment made efforts to develop the main business of market-oriented debt-to-equity swap, and actively reduced leverage ratio and controlled risks to serve the real economy. Its gross incremental investment was RMB4.739 billion, the amount of withdrawal from projects was RMB2.09 billion and the net incremental investment of the year was RMB2.649 billion. As at 30 June 2022, BOCOM Financial Asset Investment's total assets and net assets were RMB67.265 billion and RMB20.035 billion, respectively. BOCOM Financial Asset Investment's net profit during the six months ended 30 June 2022 was RMB0.709 billion, representing an increase of 0.84 per cent. on a year-on-year basis. Pursuant to the Administrative Measures for the Capital of Commercial Banks (Trial Implementation) issued by the CBIRC and the relevant requirements, as at 30 June 2022, the total net value of BOCOM Financial Asset Investment's core tier 1 capital, tier 1 capital and net capital amounted to RMB20.030 billion, with core tier 1 capital adequacy ratio, tier 1 capital adequacy ratio, and capital adequacy ratio all at 14.60 per cent. The leverage ratio was 29.95 per cent., which met the regulatory requirements.

#### ***BoCom International Holdings***

BoCom International Holdings was set up on June 1998 (formerly known as Communications Securities Co., Ltd. and changed its name to BOCOM International Holdings Company Limited in May 2007). It was listed on the main board of Hong Kong Stock Exchange on 19 May 2017. As at the end of 30 June 2022, the Bank's shareholding in BoCom International Holdings was 73.14 per cent. The main business of BoCom International Holdings includes securities brokerage and margin financing, corporate financing and underwriting, asset management and consulting, investment and loan. For the six months ended 30 June 2022, BoCom International Holdings adopted the business strategy of "highlighting the businesses in Yangtze River Delta and Pearl River Delta, focusing on two fields of the industry and achieving transformation with intelligent and digital technologies" with a view to providing customers with comprehensive financial services of the integrated industrial chain. As at 30 June 2022, BoCom International Holdings' total assets and net assets were HK\$29.542 billion and HK\$4.609 billion, respectively. During the six months ended 30 June 2022, BoCom International Holdings' investment business suffered net losses of HK\$1.678 billion due to the adverse impact of poor market performance.

#### ***BoCom Insurance***

As a wholly-owned subsidiary of the Bank, BoCom Insurance was set up in November 2000 with a registered capital of HKD0.4 billion. The main business was the operation of 17 types of general insurances approved by the Insurance Authority of Hong Kong. For the six months ended 30 June 2022, BoCom Insurance took advantage of the Group's only property and casualty insurance platform and a full business license for general insurances to overcome the impact of the pandemic in Hong Kong, and coordinated with the Group to

continuously enhance insurance customer experience. BoCom Insurance's gross premiums increased by 23.30 per cent. on a year-on-year basis, which is higher than the growth rate in Hong Kong's general insurance market. The premium profits before expenditure reached HK\$15.26 million and remained flat on a year-on-year basis, with the net compensation rate at 18.55 per cent. Affected by multiple factors such as the fifth wave of the pandemic in Hong Kong, capital market fluctuations, and a year-on-year increase in claims paid, the net profit suffered a year-on-year decrease of 26.21 per cent. to HK\$4.87 million and revenue from business collaboration amounted to HK\$7.01 million, representing a year-on-year increase of 15.19 per cent.

## **GLOBAL SERVICE CAPABILITIES**

The Group formed an overseas operating network covering major international financial centres across five continents, and had 23 overseas branches (sub-branches) and representative offices in 18 countries and regions, with 69 overseas operating outlets as at 30 June 2022. For the six months ended 30 June 2022, net profit of overseas banking institutions of the Group was RMB3.054 billion, whose contribution to the Group's total net profit was 6.93 per cent. As at 30 June 2022, the total assets of overseas banking institutions were RMB1,318.503 billion, whose contribution to the Group's total assets was 10.48 per cent.

### ***Hong Kong Branch***

Established in 1934, Bank of Communications Co., Ltd. Hong Kong Branch (the “**Hong Kong Branch**”) is the Bank's largest overseas branch. In addition to foreign exchange deposits, foreign exchange loans and international settlement services, the Hong Kong Branch also provides non-banking services through its subsidiaries.

The Hong Kong Branch has placed an increasing emphasis on serving personal finance customers. For corporate finance operations, the Hong Kong Branch targets, among others, listed companies and large PRC state-owned enterprises. In addition, the Hong Kong Branch also actively participates in the syndicated loan market. In addition to generating interest income, the Hong Kong Branch continues to focus on generating fee income. The Hong Kong Branch provides a variety of fee-based products and services.

On 29 January 2018, the Bank established Bank of Communications (Hong Kong) Limited in order to expand and intensify the Bank's retail and private banking business. The activities, assets and liabilities which constitute the retail and private banking businesses of the Hong Kong Branch were transferred to the Bank of Communications (Hong Kong) Limited.

### ***Other overseas branches***

Other overseas branches and subsidiaries as at 31 December 2021 were:

- The Bank's New York branch commenced operation in November 1991.
- The Bank's Tokyo branch commenced operation in December 1995.
- The Bank's Singapore branch commenced operation in September 1996.
- The Bank's Seoul branch commenced operation in August 2005.
- The Bank's Frankfurt branch commenced operation in October 2007.
- The Bank's Macau branch commenced operation in November 2007.
- The Bank's Ho Chi Minh City branch commenced operation in February 2011.

### ***Internationalisation development***

The Group leveraged its solid domestic and overseas service network and operating capabilities to actively provide financial services for Chinese enterprises going global that are in line with the nation's strategies. In doing so, the Group aimed to proactively respond to China's pursuit of high-level opening-up and a new development pattern of "dual circulation," in which domestic and foreign markets reinforce each other. During the six months ended 30 June 2022, overseas banking institutions closely monitored changes in the global market, improved their emergency plans, strengthened risk prevention, and carried out operational management work in a stable and orderly manner.

### ***International settlement and trade financing***

The Bank actively served trade-oriented enterprises, continuously optimised the functions of online trade finance products, and promoted product iteration and upgrade. The balance of EASY-Remittance, EASY-Certificate and EASY-Loan increased by 173 per cent., 113 per cent. and 123 per cent. from a year earlier, respectively. The Bank also actively implemented the nation's relevant requirements to support the development of new forms of foreign trade, and hence expedited the implementation of newly business and projects such as cross-border e-Commerce, integrated foreign trade services and market procurement trade, which increased by 413 per cent., 114 per cent. and 70 per cent. in business volume on a year-on-year basis, respectively. In addition, the Bank launched a series of international business stewardship services and other scenario-based innovative products to inject a new momentum of FinTech into cross-border trade and facilitate investment and financing. During the six months ended 30 June 2022, the amount of international settlement processed by the Bank reached US\$262.904 billion, representing a year-on-year increase of 14.15 per cent. The volume of financing for cross-border trade reached US\$17.594 billion.

### ***Overseas service network***

As at 30 June 2022, the Group had 23 overseas branches (sub-branches) and representative offices in places including Hong Kong, New York, London, Singapore, Tokyo, Frankfurt, Luxembourg and Sydney, providing customers with financial services including deposits, loans, international settlement, trade financing and foreign currency exchange. As at 30 June 2022, the Bank established an overseas banking service network with 1,005 banks in 126 countries and regions, set up 238 cross-border Renminbi interbank accounts for 100 overseas Renminbi participating banks in 31 countries and regions. In addition, 82 foreign currency settlement accounts in 27 major currencies were opened in 63 banks in 31 countries and regions.

### ***Cross-border Renminbi transactions***

The Bank actively promoted the deployment and application of the CIPS standard transmit product (enterprise version) to complete the “last mile” of cross-border Renminbi payment and clearing services, so as to help construct an independent, secure and controllable cross-border Renminbi payment network. As at 30 June 2022, a total of 507 enterprises adopted the standard transmit product through the Bank, making the Bank ranked first in the market in this regard. The Bank also strived to further align its cross-border Renminbi transactions with its business strategy and strengthened collaboration between domestic and overseas banks. During the six months ended 30 June 2022, the volume of cross-border Renminbi settlement of domestic and overseas banking institutions reached RMB668.237 billion, representing an increase of 10.60 per cent. on a year-on-year basis.

### ***Offshore services***

The Bank strengthened the integrated development of offshore and onshore businesses as well as the integrated operation of non-resident accounts, and fully explored the business potentials of the integration of Yangtze River Delta and Lin-Gang Special Area of Shanghai Pilot Free Trade Zone. As at 30 June 2022, the asset balance of offshore business increased by 9.42 per cent. over the end of the previous year to US\$17.437 billion.

## **MARKETING**

The Bank develops specific marketing strategies for both corporate and personal banking clients. The Bank’s head office organises bank-wide marketing and provides supporting resources for local marketing efforts formulated and coordinated by the Bank’s branches. The Bank’s sub-branches are responsible for the implementation of local marketing plans.

The Bank has created marketing strategies based on region, customer size and product type. The Bank focuses its advertising spending on television advertising, outdoor billboards, and to a lesser extent, internet, print and radio advertising. Regionally, in addition to continuing to focus on the Yangtze River Delta, Pearl River Delta, and Bohai Rim Economic Zone regions, the Bank pays specific attention to other economic zones and projects, such as Shanghai’s “Two Centres” plan to develop into an international financial and shipping centre. The Bank also develops marketing strategies based on customer segmentation. The Bank intends to continue to strengthen branding efforts for the specific products it offers. For example, the Bank will continue to promote its personal banking business service brand of “OTO Fortune” (沃德财富), “OTO Financial Advisor” (沃德理財顧問) and “My Account Manager” (我的管家), and corporate business service brand of “Win to Fortune” (蕴通财富), as well as promote more customised and comprehensive wealth management solutions and product combinations under those brands and gradually position its brand as the “wealth management bank”.

## **INFORMATION TECHNOLOGY**

The Bank’s information technology systems are integral to the Bank’s business operations, including its customer services, transaction processing, risk management and financial management. The Bank believes that the establishment of advanced information technology systems complement its overall business strategies and will greatly improve its operational efficiency and the quality of its customer services as well enhance its risk and financial management capabilities. The Bank has invested and will continue to make profound investments in promoting its information technology systems.

The Bank expects to increasingly leverage information technology to drive its business in the future. In addition to the upgrades and improvements the Bank has made in recent years to its information technology systems, the Bank will continue to upgrade and integrate its information technology systems to facilitate operational efficiency, risk management and business development.

## **EMPLOYEES**

As at 30 June 2022, the Group had a total of 90,654 employees, of whom 84,350 employees were based in domestic banking institutions and 2,519 were local employees in overseas branches. There were 3,785 employees in total working for the Bank's subsidiaries.

## **INTELLECTUAL PROPERTY**

The Bank conducts business under the brand names and logos of “交通銀行”, “太平洋卡”, “Bank of Communications” “蘊通財富 WINTOFORTUNE”, “沃德 OTO”, “交銀沃德”, “BOCOM FORTUNE”, “交銀理財” and “得利寶”. The Bank has registered, or is in the process of applying for registration or renewal of, these brand names and logos and other related logos in the PRC and Hong Kong. The Bank is also the registered owner of the domain name “www.bankcomm.com”.

## **LEGAL AND REGULATORY PROCEEDINGS**

The Group has been involved as defendants in certain lawsuits arising from its normal business operations. Management of the Group believes, based on legal advice, the final result of these lawsuits will not have a material impact on the financial position or operations of the Group. In the six months ended 30 June 2022, the Group was not involved in any material litigation and arbitration. As at 30 June 2022, the Group was involved in certain outstanding litigations/arbitrations as defendant or third party with an amount of approximately RMB2.602 billion. The Bank believes that there is sufficient provision for current and pending litigations and arbitrations against the Bank or its branches. Even if any judgment or award of the said current and pending litigations or arbitrations against the Bank or its branches is adverse to the Bank, the Bank does not anticipate that any such cases (individually or jointly) would have a material adverse impact on the Bank's financial condition or results of operations.

## **PROPERTIES**

The address of the headquarter of the Bank is No.188 Yincheng Zhong Road, Pudong New District, Shanghai, China. As at 31 December 2021, the Group had 248 domestic branches, including 37 branches at provinces, autonomous regions or municipalities level or directly-managed level and 211 branches managed by branches at provinces, autonomous regions or municipalities level, most of which are concentrated in the Yangtze River Delta, Pearl River Delta and Bohai Rim Economic Zone, as well as large cities in other areas. As at 30 June 2022, in addition to its PRC operations, the Bank had branches or subsidiaries which are located in Hong Kong, New York, San Francisco, Tokyo, Singapore, Seoul, Frankfurt, Macau, Ho Chi Minh City, Sydney, Brisbane, Melbourne, Taipei, London, Luxembourg, Paris, Rome, Brazil, Prague and Johannesburg, and its representative office in Toronto commenced operations in November 2014.

## RISK MANAGEMENT AND INTERNAL CONTROL

*The section “Risk Management and Internal Control” on pages 120 to 125 of the Original Offering Circular shall be deleted in its entirety and replaced with the following:*

The Board of Directors of the Group established the overall risk appetite of “Stability, Balance, Compliance and Innovation” for the Group and further set specific indicators of risk limits against various risk types including credit, market, operation, liquidity, interest rate of banking book, information technology and country to control strictly over various risk types. During the six months ended 30 June 2022, the Bank formulated the “Methods of strengthening unified risk management” to further clarify the unified risk management requirements for each institution in the Group, implement the risk management responsibilities of operating units, to improve the comprehensive risk management system covering all types of risks and businesses, and thus ensured the bottom line of preventing the occurrence of systematic and regional risks. The Group has focused on enhancing its risk management capabilities in the following respects:

- **Strengthened risk management framework**

The Board of Directors of the Bank assumed the ultimate responsibility and the highest decision-making function of risk management, and controlled the Bank’s risk condition through the subordinate Risk Management and Related Party Transaction Control Committee. The Bank’s senior management established the Comprehensive Risk Management and Internal Control Committee, as well as two business review committees, namely the Credit and Investment Review Committee and the Risk Asset Review Committee. The business review committees were guided by and reported regularly to the Comprehensive Risk Management and Internal Control Committee. Each provincial and directly managed branch, overseas branch and subsidiary established its own Comprehensive Risk Management and Internal Control Committee accordingly based on the aforementioned framework, which served as the main platform to study the prevention and control of systematic and regional risks of the Group and decision-making risk management on major issues, ensuring that the comprehensive risk management system had been implemented throughout the Group.

- **Promotion of advanced risk management technical tools**

The Bank actively practiced digital transformation in risk management and built a strong foundation for risk data across the Bank and an enterprise-level risk management application under the guideline of being market-driven, customer-based, grass roots-oriented and urgency-prioritised to enhance intelligent risk management. It improved the integrated risk monitoring system covering the Group and optimised the unified view of risks. Its risk monitoring system project was awarded the 2021 Top Ten Intelligent Risk Control and Management Innovation Award under the Financial Innovation of China Award by The Banker. The Group pushed forward the construction of risk measurement system, strengthened the unified management of risk measurement throughout the Group and optimised the measurement system covering all types of major risks. The Bank built a unified model management platform, launched the project of implementing new capital management measures and completed the major work of the construction and upgrading of systems.

## BOARD OF DIRECTORS AND ITS RISK MANAGEMENT AND RELATED PARTY TRANSACTION CONTROL COMMITTEE

The Board of the Bank assumed the ultimate responsibility and served the highest function of decision-making and monitored the Group’s risk management through its risk management and related party transaction control committee (the “**Risk Management and Related Party Transaction Control Committee**”). The Bank’s Senior Management established a Risk Management Committee, namely Comprehensive Risk Management

Committee and its risk management subcommittees with various professionals and two business review committees namely Credit and Investment Review Committee and High-risk Asset Review Committee.

The Risk Management and Related Party Transactions Control Committee of the Board of the Bank is primarily responsible for supervising the risk management of the Bank, assessing risks of the Bank and the effectiveness of the Bank's risk management policies, and making recommendations to the Board regarding the Bank's risk management and internal control strategies and policies. The audit committee of the Bank is responsible for proposing the appointment, change or removal of the Bank's auditors, overseeing the Bank's internal auditing system and its implementation, acting as the communication channel between the Bank's internal and external auditors, reviewing the Bank's financial information and related disclosures, overseeing the Bank's accounting policies, financial condition and financial reporting procedures, and evaluating the Bank's compliance with, and adequacy of, the Bank's internal controls. As at 30 June 2022, the audit committee of the Bank consisted of seven members, Mr. Li Longcheng, Mr. Chang Baosheng, Mr. Chen Junkui, Mr. Yeung Chi Wai, Jason, Mr. Woo Chin Wan, Raymond, Mr. Zhang Xiangdong and Ms. Li Xiaohui, with Ms. Li Xiaohui as the Chairwoman of the audit committee.

### **Board of Supervisors**

The board of supervisors of the Bank is responsible for supervising the Board of the Bank and senior management with regard to risk management and internal controls and providing suggestions and proposals for improvement of risk management and internal controls. See "*Management of the Bank*".

### **Senior Management, Comprehensive Risk Management Committee and the Chief Risk Officer**

The Comprehensive Risk Management Committee of the Bank primarily formulates the Bank's risk management goals, policies and implementation procedures within the framework of the risk management strategies approved by the Board of the Bank, assesses the Bank's bank-wide risk management condition, and reviews and decides on any material violations of the Bank's risk management policies. The Bank's senior management established the Comprehensive Risk Management and Internal Control Committee, as well as two business review committees, namely Credit and Investment Review Committee and Risk Asset Review Committee. The business review committees are guided by and reports regularly to the Comprehensive Risk Management and Internal Control Committee. Each provincial and directly managed branch, overseas branch and subsidiary established the Comprehensive Risk Management and Internal Control Committee accordingly based on the aforementioned framework, which served as the main platform to study the prevention and control of systematic and regional risks of the Group and decision-making risk management on major issues, ensuring that the comprehensive risk management system had been implemented throughout the Group.

### **Credit Risk Management**

The Group's credit risk management is assumed by major functions such as Corporate Business Department, Inclusive Finance Department, Personal Finance Business Department, Pacific Credit Card Centre, Credit Authorisation Department, Credit Approval Department, Risk Management Department/Internal Control and Crime Prevention Office and Asset Preservation Department. They are responsible for the standardised management of corporate and retail credit businesses in terms of guidance on credit investment, credit investigation and report, credit approval, loan granting, post-loan management and non-performing loan management.

During the six months ended 30 June 2022, the Bank had continued to enhance its unified credit risk management. The Bank has promoted the development of credit business in an orderly manner and supported the stabilisation and improvement of the real economy, and has vigorously developed green finance. The Bank has actively provided support to key sectors including inclusive small and micro businesses, advanced manufacturing, infrastructure construction, strategic emerging industries, and trade and logistics. The Bank has also strengthened control over real estate, government's implicit debt, large business group customers,

overcapacity, credit cards, etc. The Bank has continuously improved its management infrastructure, improved its credit policy framework, the outline of its credit and risk policy, its industry investment guideline, its “one industry one policy”, and has been able to adopt special policies swiftly. The Bank has connected to the Unified Registration and Publication System for Chattel Financing of the Credit Reference Centre of the People’s Bank of China, and has been promoting online mortgage registration nationwide, and “cross-province” mortgage registration has been enabled for many cities in the Yangtze River Delta. The Bank’s system tools are constantly being upgraded, and post-loan/investment management and risk monitoring methods have been further enhanced; the Bank’s risk classification has become more accurate and stricter, and its asset quality has been stable and improving.

The Group increased the disposal of non-performing assets and related debt recovery. During the six months ended 30 June 2022, the disposal of non-performing loans was RMB38.247 billion, and the relevant substantial recovery accounted for nearly 47.00 per cent., an increase of nearly six percentage points on a year-on-year basis, and the quality and efficiency of disposal improved steadily. This is due to, firstly, the head office of the Group has brought professional disposal capability and helped with the disposal of major risk projects, and improved the effectiveness of the disposal of nonperforming assets. Secondly, the Group has actively promoted the securitisation and issuance of non-performing assets, with its issuance volume being the second largest in the market during the first half of 2022.

For the real estate sector, the Bank has followed the national macro-control policies, and has promoted the steady and healthy development of the real estate market. Firstly, the Bank has strengthened access control, followed the general principle of “implementing policies on a city-by-city basis and a client-by-client basis, differentiating management in level and in category”, adhered to the five-factor client acceptance criteria of “client, region, business status, cost and return”, and strengthened differentiated management. Secondly, the Bank has handled and resolved risks diligently, and has followed the guiding of “three stabilisation” (the stabilisation of land cost, property cost and market expectation) and “three assurance” (the assurance of property delivery, public livelihood and social stability). In accordance with the principles of legal compliance and marketisation, the Bank has cooperated with local governments to carry out “two protections” (protect the real estate market’s stable and healthy development; and protect the rights and interests of home buyers). In accordance with the principles of legal compliance, risk controllability, and business sustainability, steady and orderly, the Bank has supported mergers and acquisitions of high-quality real estate enterprises out of risk and high-quality projects of real estate enterprises in difficulty. Thirdly, the Bank has strengthened risk prevention and control, and has used various internal and external tools to strengthen risk monitoring, investigated risks diligently. The Bank improved the initiative of risk management, and has achieved early identification, early warning, early detection and early disposal of risks. The Bank has continued to promote the adjustment of industry structure and has strictly adhered to the bottom line of no systemic risks. In the first half of 2022, the operations and financial condition of some real estate companies continued to be under pressure, liquidity risks were highlighted, and debt defaults or negative public opinion occurred in the open market. The Bank relocated the relevant several real estate project loans to non-performing loans in accordance with the principle of substantive risk judgment, and has further strengthened the risk management and recovery and disposal of related loans. At the end of the first half of 2022, the non-performing amount and non-performing ratio of the real estate industry increased compared with the beginning of the year, whereas the overall risk is controllable.

For the credit card business, the Bank has continued to optimise the customer base structure and has expanded the scale of high-quality assets. By optimising data management, model application, and risk control system, the Bank has improved customer profiling and precise policy implementation capabilities. The Bank has overcome the adverse impact of the epidemic and has focused on the recovery of substantial non-performing assets. The non-performing ratio has fallen after a shorter surge, and the asset quality was stable and controllable. At the end of the first half of 2022, the non-performing rate of credit card business was 2.66 per cent., a decrease of 0.05 percentage point from the end of the first quarter of 2022.

During the six months ended 30 June 2022, the Group has strengthened risk identification, accelerated risk disposal, and tightened asset quality classification standards. The foundation of asset quality has been continuously consolidated, and the level of asset quality has been steadily improved. As at 30 June 2022, the balance of nonperforming loans of the Group was RMB103.232 billion and the non-performing loan ratio was 1.46 per cent., representing an increase of RMB6.436 billion and a decrease of 0.02 percentage point respectively as compared with 31 December 2021. The balance of overdue loans is basically stable, and the proportion decreased compared with the beginning of the year. The Group adopted prudent classification standards for overdue loans. All the corporate loans overdue for more than 60 days were included in non-performing loans. Loans overdue for over 90 days were included in non-performing loans and accounted for 56 per cent. of non-performing loans.

***Distribution of loans by five categories of loan classification***

Note:

- (1) Data calculated pursuant to the Notice on the Distribution of the Regulatory Indicator and Calculation Formula for off Field Investigation issued by the CBIRC.

As at 30 June 2022, with the impact of economic downturn, the Bank is still under pressure of the risk management and control environment.

## **Market Risk Management**

Market risk refers to the risk of losses of on- and off-balance sheet businesses of the Group arising from unfavourable changes in interest rate, exchange rate, commodity price and share price. Interest rate risk and exchange rate risk are the major market risks encountered by the Group.

The aim of the market risk management of the Group was to proactively identify, measure, monitor, control and report its market risks based on the risk appetite determined by the Board of Directors. By using methods and means of quota management, risk hedging and risk transfer, the Group was able to manage its market risk exposure to an acceptable level and pursued a maximisation of its risk-adjusted profits based on its controlled risks.

The exchange rate risk and general interest rate risk of trading book were assessed with the use of the internal model-based approach by the Group, while the market risk not covered by the internal model-based approach was assessed under the standardised approach. In terms of the internal model-based approach, historical simulation method was adopted to calculate value at risk (“**VaR**”) and stressed value at risk (“**SVaR**”), which had a historical observation period of one year, a holding period of 10 working days and a 99 per cent. confidence interval. Daily capital transaction positions of the Group and the most updated market data were obtained to perform position valuation and sensitivity analysis in a timely manner. In addition, using the historical simulation method, the Group measured VaR of market risks on a daily basis from different perspectives, including risk factors and investment portfolios and products and performed reverse testing to verify the accuracy of the VaR model. The results obtained using the internal model-based approach were also applied to capital measurement, quota monitoring and management, performance assessment and risk monitoring and analysis.

During the six months ended 30 June 2022, the Group kept improving the market risk management system and process, optimising the risk management system, enhancing the product management, optimising limit settings and improving the risk management of derivatives business. The Group closely observed market fluctuations, strengthened market research and judgment on the market, enhanced exposure monitoring and risk warning, improved the risk assessment and inspection, and strictly controlled various market risk exposure limits to improve the level of market risk management.

## **Liquidity Risk Management**

The governance structure of liquidity risk management of the Group consisted of a decision-making body comprised the board of directors and its special committees and senior management, a supervisory body comprised the board of supervisors and the audit supervision committee and an executive body comprised Financial Management Department, Financial Markets Department, Risk Management Department, Operations and Channel Management Department, all the branches and subsidiaries, and the Head Office’s departments in charge of each business unit.

The Group’s liquidity risk management goal was to establish and improve the liquidity risk management system, and effectively identify, measure, monitor and manage the liquidity risk at various levels and hierarchies including the legal entity and group level, subsidiaries, branches and business lines to ensure that the liquidity demands can be timely satisfied at a reasonable cost.

The Group made decisions on its liquidity risk appetite on an annual basis based on factors such as operation strategies, business characteristics, financial strength, financing abilities, overall risk appetite and market influence. According to the liquidity risk appetite, the Group formulated written liquidity risk management strategies, policies and procedures. The strategies and policies of liquidity risk management covered all on- and off-balance sheet businesses, as well as all domestic and overseas business departments, branches and subsidiaries that might have significant impacts on liquidity risks and included liquidity risk management under normal and stressful conditions.

During the six months ended 30 June 2022, the Group conscientiously implemented the regulatory requirements, continuously strengthened the on- and off-balance sheet liquidity risk management. The Group actively supported the real economy and ensured the liquidity security of the Bank at the same time, with all the liquidity monitoring indicators meeting the regulatory requirements. The Group optimised and improved the liquidity risk management indicator system to promote the coordinated development of the Bank's asset and liability business, realised the chronological and effective balance between the source of funds and the use of funds, actively promoted the stable growth of total deposits and issued long-term bonds to supplement stable funding. The Group strengthened the overall dispatch of domestic and foreign currency funds, dynamically regulated the scale, maturity, structure and the pace of operation of interbank liabilities, and flexibly adjusted the investment of noncredit business.

The Group also performed cash flow calculation and analysis to ensure the funding position security during the pandemic. The Group launched regular stress testing for liquidity risk, taking various factors that may affect the liquidity into full consideration, and setting reasonable stress scenarios. The results of stress tests showed that the liquidity risk of the Bank was in a controllable range under various stress scenarios.

### **Operational Risk Management**

The Group developed a comprehensive operational risk management system compatible to the nature, scale and product complexity of the Bank's businesses. The Group also standardised the procedures of self-assessment on operational risk controls, operational risk incident management and key risk indicator monitoring. During the six months ended 30 June 2022, the Group enhanced the management on operational risks in categories and matrix risk assessment mechanism, strengthened operational risk continuity management to the whole group, and strengthened risk monitoring assessment on key areas.

### **Legal Compliance and Anti-Money Laundering**

During the six months ended 30 June 2022, the Bank continuously promoted legal knowledge education and the construction of compliance culture to improve the legal compliance management system, strictly reviewed the legal compliance of new business, new products and rules and regulations, and strengthened the response to litigation cases and legal risk management. During the six months ended 30 June 2022, the Bank improved the anti-money laundering management system, promoted institutional money laundering risk assessment, improved the quality and efficiency of large and suspicious transaction reporting, and strengthened the construction of anti-money laundering system.

### **Reputation Risk Management**

The Group implemented the Measures on Reputation Risk Management of Banking and Insurance Institutions (Trial Implementation), continuously improved the reputation risk governance structure, established and improved the whole process management mechanism of reputation risk, including pre-assessment, risk monitoring, incident classification, early warning and reporting, corresponding strategies and measures, assessment and accountability, and review and summary, etc., consolidated the normalisation construction and properly handled various reputation incidents. During the six months ended 30 June 2022, reputation risk was well managed, reputation risk was under control and there was no occurrence of significant reputational incidents.

### **Cross-industry, Cross-Border and By-Country Risk Management**

The Group set up the risk management system across industries and borders, characterised by "centralised management, clear allocation, adequate tools, IT support, risk quantification, and consolidation of substantially controlled entities". The risk management of each subsidiary and foreign bank takes into account the unified

requirements of the Group and the special requirements of the respective regulatory authorities. During the six months ended 30 June 2022, considering the uncertainties caused by the global COVID-19 pandemic and

changes in the external environment, the Group strengthened the unified risk management of overseas institutions, revised the risk management system of overseas institutions, improved the follow-up mechanism for the rectification of risk assessment issues, and developed and rehearsed various emergency plans to ensure stable operation of business. The Group also strengthened management of key areas such as employees' awareness of pandemic prevention, liquidity, business continuity and asset quality in overseas institutions. The Group enhanced the consolidation management, refined the full lifecycle management of subsidiaries, and provided better guidance and assessment on the consolidation management of subsidiaries. The Group implemented by-country risk management, improved internal management system, regularly monitored and implemented limit management requirement, carried out by-country risk analysis and risk rating, and continuously monitored and timely responded to by-country risk incidents.

### **Management of Large Exposure Risk**

The Group thoroughly implemented the requirements of the *Administrative Measures for the Large Exposures of Commercial Banks* issued by the CBIRC, boosted the construction of management system, and optimised internal management system. The Group continuously monitored situations of large exposure risk, and strictly implement each limit management, so as to improve the Group's ability to prevent systematic and regional risk. During the six months ended 30 June 2022, the Group's large exposure risk indicators all met the regulatory requirements.

### **Climate and Environmental Risk Management**

The Group actively served the "carbon peak and carbon neutrality" national strategy, integrated climate and environmental risks into its comprehensive risk management system, included climate and environmental risk management as an important part in its medium and long-term plan, actively took measures to improve the governance structure, optimised the management and control means, and prepared to identify and respond to physical risks and transformation risks. During the six months ended 30 June 2022, the Bank integrated climate risks into its risk appetite management system, consolidated carbon data infrastructure construction, and advanced research on climate risk stress test approaches.

## DESCRIPTION OF THE BANK'S ASSETS AND LIABILITIES

*The section “Description of the Bank’s Assets and Liabilities” on pages 126 to 135 of the Original Offering Circular shall be deleted in its entirety and replaced with the following:*

### ASSETS

The Bank’s total assets as at 30 June 2022 were RMB12,580,576 million, which represents an increase of 7.84 per cent. from RMB11,665,757 million as at 31 December 2021. The four principal components of the Bank’s assets consist of loans and advances to customers (after provision), financial investments, cash and balances with central banks and due from and placements with banks and other financial institutions. As at 30 June 2022, the balance of the Bank’s loans and advances to customers (after provision), financial investments, cash and balances with central banks, due from and placements with banks and other financial institutions and others constituted 55.03 per cent., 29.35 per cent., 5.94 per cent., 6.36 per cent. and 3.32 per cent., respectively, of its total assets. The following table sets forth the balances of significant components of the Bank’s total assets as at the dates indicated:

|  | As at 31 December |                   |                   | As at 30 June     |
|--|-------------------|-------------------|-------------------|-------------------|
|  | 2019              | 2020              | 2021              | 2022              |
|  | (RMB in million)  |                   |                   |                   |
| Cash and balances with central banks .....                                   | 760,185           | 817,561           | 734,728           | 746,660           |
| Due from banks and other financial institutions .....                        | 648,488           | 571,130           | 632,708           | 799,743           |
| Derivative financial assets .....  | 20,937            | 54,212            | 39,220            | 56,150            |
| Loans and advances to customers .....  | 5,183,653         | 5,720,568         | 6,412,201         | 6,923,521         |
| Financial investments at fair value through profit or loss                   | 406,498           | 482,588           | 638,483           | 666,260           |
| Financial investments at amortised cost.....                                 | 1,929,689         | 2,019,529         | 2,203,037         | 2,375,762         |
| Financial investments at fair value through other comprehensive income ..... | 669,656           | 735,220           | 681,729           | 650,592           |
| Investments in associates and joint venture ....                             | 4,600             | 4,681             | 5,779             | 7,389             |

| Deferred income tax assets .....   | 24,065            | 27,991            | 32,061            | 38,856            |
| Other assets <sup>(1)</sup> .....  | 86,650            | 94,665            | 114,617           | 136,405           |
| <b>Total assets</b> .....  | <b>9,905,600</b>  | <b>10,697,616</b> | <b>11,665,757</b> | <b>12,580,576</b> |

Note:

- (1) Other assets consist of interest receivable, settlement accounts, other receivables and prepayments, investment properties, land use rights and others, intangible assets, long-term deferred expenses, precious metal, foreclosed assets, goodwill, refundable deposits, unsettled assets etc.

As at 30 June 2022, the Bank’s capital position is among the best in the industry, its Core Tier 1 Capital Adequacy Ratio, Tier 1 capital adequacy ratio and capital adequacy ratio being 9.99 per cent., 12.20 per cent. and 14.49 per cent., respectively.

## Loans and Advances to Customers

As at 30 June 2022, the Bank's corporate loans and personal loans represented approximately 64.25 per cent. and 33.14 per cent., respectively, of its total gross loans and advances to customers. While the Bank's corporate banking business remains its core banking business, the Bank believes that the PRC personal banking sector continues to offer significant growth opportunities. As part of the Bank's growth strategy, the Bank has taken, and will continue to take, various initiatives to enhance its personal banking business. As at 30 June 2022, the Bank's personal loans reached RMB2,348,890 million, representing an increase of RMB63,794 million or 2.79 per cent. compared to 31 December 2021.

Unless otherwise stated, all amounts of corporate loans, personal loans and discounted bills set forth in this section represent amounts before impairment allowance.

The Bank's loans and advances to customers (after impairment allowances) represent a significant portion of its assets and accounted for 55.03 per cent. of its total assets as at 30 June 2022. The balance of the Bank's loans and advances to customers net of allowance for impairment losses increased by 7.97 per cent. to RMB6,923,521 million as at 30 June 2022 from RMB6,412,201 million as at 31 December 2021.

## Corporate Loan Concentration by Industry

The Bank's corporate loan portfolio represents a broad range of industries, but is concentrated in particular in the transportation, storage and postal services, manufacturing, leasing and commercial services, water conservancy, environmental and other public services and real estate sectors. The following table sets forth the Bank's corporate loan portfolio by industry and as a percentage of its loan portfolio as at the dates indicated:

|  | 31 December 2019 |            | 31 December 2020 |            | 31 December 2021 |            | 30 June 2022 |            |
|--|------------------|------------|------------------|------------|------------------|------------|--------------|------------|
|  | Amount           | % of total | Amount           | % of total | Amount           | % of total | Amount       | % of total |
| <i>(RMB in million, except percentages)</i>                        |                  |            |                  |            |                  |            |              |            |

Note:

- (1) "Others" include, among others, medium-term and long-term working capital loans, short-term working capital loans, car loans, education loans, durable consumer goods loans, refurbishing loans, pledge of certificates of deposit to small-sized loans and small-sized secured loans to the unemployed.

The total amount of the Bank's outstanding personal loans increased by RMB63,794 million or 2.79 per cent. per cent. from RMB2,285,096 million as at 31 December 2021 to RMB2,348,890 million as at 30 June 2022.

The Bank's personal loans represented 34.83 per cent. and 33.14 per cent. of its gross loans and advances as at 31 December 2021 and 30 June 2022, respectively.

Mortgage loans represented 65.18 per cent. of the Bank's personal loans as at 31 December 2021. The Bank's mortgage loans increased 2.61 per cent. to RMB1,528,420 million as at 30 June 2022 from RMB1,489,517 million as at 31 December 2021. The Bank has expanded its mortgage loan business while controlling risks by focusing on economically developed regions and well-regulated markets.

As at 31 December 2019, 2020 and 2021 and 30 June 2022, the Bank's credit card advances were RMB467,387 million, RMB464,110 million, RMB492,580 million and RMB480,853 million, respectively, which represented 26.64 per cent., 23.43 per cent., 21.56 per cent and 20.47 per cent., respectively, of its total personal loans. As at 31 December 2021, there were 74.27 million registered domestic credit cards.

### Maturity of Loans

When a short-term loan is renewed following repayment within the credit term of the loan, no re-application for a credit line is required, provided such loan is drawn in accordance with relevant rules and within the effective credit line. Upon expiration of the credit term of a loan, a borrower must re-apply for a new loan, subject to the Bank's standard credit approval procedures. The interest rates for the Bank's Renminbi-denominated loans and advances are regulated by the PBOC, and banks have discretion to determine the interest rates for Renminbi-denominated loans and advances within a permitted range. The interest rate for discounted bills is determined with reference to the PBOC market re-discount interest rate.

### Borrower Concentration

Under the current PRC banking regulations, the aggregate amount of the Bank's loan exposure to any single borrower may not exceed 10 per cent. of its net capital. The Bank is currently in compliance with this regulatory requirement.

### Loan Concentration by Geographical Location

The following table sets forth the geographic distribution of the Bank's gross loans and advances as at the dates indicated:

|                                  | As at 31 December       |           | As at 30 June |
|----------------------------------|-------------------------|-----------|---------------|
|                                  | 2020                    | 2021      | 2022          |
|                                  | <i>(RMB in million)</i> |           |               |
| Yangtze River Delta .....        | 1,576,465               | 1,780,637 | 1,947,910     |
| Pearl River Delta .....          | 701,865                 | 857,521   | 945,967       |
| Bohai Rim Economic Zone.....     | 831,454                 | 965,957   | 1,079,193     |
| Central China.....               | 958,527                 | 1,092,985 | 1,172,880     |
| Western China .....              | 680,088                 | 774,445   | 841,414       |
| North Eastern China .....        | 232,864                 | 247,023   | 254,452       |
| Overseas .....                   | 359,368                 | 348,948   | 365,089       |
| Head office <sup>(1)</sup> ..... | 507,793                 | 492,884   | 480,825       |
| Total .....                      | 5,848,424               | 6,560,400 | 7,087,730     |

Note:

(1) Head Office included the Pacific Credit Card Centre.

The Bank's business is concentrated on the economically developed areas of China. As at 30 June 2022, the Bank's loans and advances to customers from Yangtze River Delta, Pearl River Delta, Bohai Rim Economic Zone and Central China accounted for 27.48 per cent., 13.35 per cent., 15.23 per cent. and 16.55 per cent., respectively, of its total loans and advances to customers.

## **LOAN QUALITY**

The Bank measures and monitors the asset quality of the Bank's loan portfolio through its loan classification system. The Bank classifies its loans using a five-category loan classification system, which complies with the applicable regulatory guidelines.

The Bank intends to continue to improve its loan quality and to generate stable profits while maintaining its credit risk exposure within acceptable parameters through a diversified loan portfolio. The Bank has established an integrated credit risk management system with comprehensive policies and procedures to identify, measure, monitor and control credit risk across its organisation. See the section headed "Risk Management and Internal Control".

Impaired loans are a concept under IFRS, which has been adopted by the Bank in the preparation of its financial statements set forth in the Original Offering Circular. A loan is impaired if there is objective evidence that the Bank will not be able to collect all amounts due according to the original contractual terms of such loan. Non-performing loan is used to refer to a loan that is classified as "substandard", "doubtful" or "loss" under the five-category loan classification system established by the CBIRC.

Overdue loans are (1) for loans with a specific expiry date – these loans should be treated as overdue where the principal or interest is overdue and remains unpaid as at the reporting date; (2) for loans with regular instalments – these loans should be treated as overdue when an instalment payment is overdue and remains unpaid as at the reporting date.

### **Provision for Impairment Losses on Loans and Advances to Customers**

For the year ended 31 December 2017, for a financial asset that is individually significant, the Group assesses the asset individually for impairment. For a financial asset that is not individually significant, the Group assesses the asset individually for impairment or includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset (whether significant or not), it includes the asset in a group of financial assets with similar credit risk characteristics and collectively reassesses them for impairment. Assets for which an impairment loss is individually recognised are not included in a collective assessment of impairment.

If financial assets carried at amortised cost are impaired, the carrying amounts of the financial assets are reduced to the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The amount of reduction is recognised as an impairment loss in profit or loss and is recorded through the use of an allowance account. When a financial asset is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss. If, subsequent to the recognition of an impairment loss on financial assets carried at amortised cost, there is objective evidence of a recovery in value of the financial assets which can be related objectively to an event occurring after the impairment is recognised, the previously recognised impairment loss is reversed. However, the reversal is made to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Effective from 1 January 2018, IFRS 9 introduces a new model for the recognition of impairment losses – the expected credit losses (“ECL”) model, which constitutes a change from the incurred loss model in IAS 39.

Under IFRS 9, ECL is a probability-weighted estimate of credit losses. A credit loss is the difference between the total cash flows that are due to the Group in accordance with the contract and the total cash flows that the Group expects to receive discounted at the original effective interest rate, i.e. the present value of the total cash flows shortage. Purchased or originated credit-impaired financial assets shall be discounted at the credit-adjusted effective interest rate. The Group measures the ECL of financial instruments at amortised cost or debt investments at fair value through other comprehensive income. The Group divides them into 3 stages by assessing whether there has been a significant increase in credit risk since initial recognition. The Group measures the ECL of a financial instrument in a way that reflects (1) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes; (2) the time value of money; and (3) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The following table sets forth certain information regarding the Bank’s individually identified impaired loans and its loans overdue by more than 90 days as at the dates indicated:

|  | 31 December<br>2019                         | 31 December<br>2020 | 31 December<br>2021 | 30 June 2022 |
|--|---|---------------------|---------------------|--------------|
|  | <i>(RMB in million, except percentages)</i> |                     |                     |              |
| Non-performing loans .....               | 78,043                                      | 97,698              | 96,796              | 103,232      |
| Loans overdue by more than 90 days ..... | 61,597                                      | 64,723              | 63,998              | 57,723       |
| Non-performing loan ratio .....          | 1.47%                                       | 1.67%               | 1.48%               | 1.46%        |

### Impaired Loans by Industry

A significant portion of the Bank’s impaired corporate loans is concentrated in the manufacturing, wholesale and retail and real estate sectors. The impaired loan concentration in the manufacturing sector is due primarily to the high proportion of corporate loans to the manufacturing sector, and to the intense competition and overcapacity exhibited by this sector. The impaired loan concentration in the wholesale and retail sector is due primarily to the intense competition and cyclicalities exhibited by this sector during the global financial crisis. The Bank has recently adopted several measures as part of its on-going efforts to manage its credit risk across its industries by, among other things, adopting an industry risk rating system and an internal risk rating system to monitor those industries which are most affected by governmental policies or overcapacity, or those which are low-growth industries, so that the Bank can adjust timely its credit standards and select customers with a lower risk profile. The impaired loan concentration in the real estate sector is due primarily to the growth of the Bank’s lending to the real estate sector. The Bank have tried to manage its credit risk in the real estate sector by paying close attention to the market environment and changes in governmental policies, by focusing its lending more heavily on large national and regional property development companies and limiting its lending to small-sized and medium-sized property development companies.

### Distribution of non-performing loans by region

The following table sets forth the geographic distribution of the Bank’s non-performing loans as at the dates indicated:

|                                  | As at 31 December 2020               |                  |                           | As at 31 December 2021 |                  |                           | 30 June 2022   |                  |                           |

## TRADING ASSETS

The Bank invests in and trades Renminbi-denominated and foreign currency-denominated listed and unlisted debt and equity securities for its own account to (1) maintain the stability and diversification of the Bank's assets, (2) maintain adequate sources of back-up liquidity to match the Bank's funding requirements, and (3) supplement income from the Bank's core lending activities.

The Bank's investment securities include primarily securities issued by central governments and central banks, securities issued by banks and other financial institutions, securities issued by corporate entities, as well as a small portion of investment securities issued by public sector entities.

The Bank's trading assets include primarily listed and unlisted debt and equity securities, as well as derivative financial instruments, issued by banks and financial institutions, corporate entities, governments and central banks and public sector entities. The majority of the unlisted bonds in this category are traded in the interbank market in the PRC.

The Bank recorded its investment securities and trading assets on its statement of financial position as financial assets held for trading, loans and receivables investment securities, held-to-maturity investment securities and available-for-sale investment securities as at and for the year ended 31 December 2017. Debt securities with fixed or determinable payments that are not quoted in an active market, without the intent to sell immediately or in the short term are classified as loans and receivables. Investment securities with fixed maturity where the Bank's management has the intent and the ability to hold to maturity are classified as held-to-maturity investment securities. Investment securities intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices are classified as available-for-sale investment securities. A trading asset is classified as financial assets held for trading if it is acquired principally for the purpose of selling in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. From 1 January 2018, the Bank applied IFRS 9 and records and reclassifies its investment securities and trading assets on its statement of financial position as financial assets by measurement of fair value through profit or loss ("FVPL"), fair value through other comprehensive income ("FVOCI") or amortised cost. Assets that are held for collection of contractual cash flows where those cash flows represent

solely payments of principal and interest, and that are not designated at FVPL, are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised and measured from these financial assets. Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVPL, are measured at FVOCI.

The following table sets forth a distribution of the Bank's investment securities by classification and type of issuer as at the dates indicated:

|   | 31 December 2019 |            | 31 December 2020 |            | 31 December 2021 |            | 30 June 2022 |            |
|---|------------------|------------|------------------|------------|------------------|------------|--------------|------------|
|   | Amount           | % of total | Amount           | % of total | Amount           | % of total | Amount       | % of total |

## LIABILITIES AND SOURCES OF FUNDS

The Group's total liabilities as at 30 June 2022 were RMB11,591,640 million, which represents an increase of 8.45 per cent. from RMB10,688,521 million as at 31 December 2021. The Group's deposits from customers accounted for 67.39 per cent. of its total liabilities as at 30 June 2022. The Bank obtains funding for its lending and investment activities from a variety of sources, both domestic and international. The Bank's principal sources of funding are corporate and individual deposits. The Bank's funding operations are designed to ensure both a stable source of funds and effective liquidity management. The Bank continuously adjusts its funding operations to minimise funding costs and also endeavours to match currencies and maturities with those of its loan portfolio.

The table below illustrates the balance and breakdown of the Group's due to customers as at the dates indicated:

|   | 31 December 2019 |            | 31 December 2020 |            | 31 December 2021 |            | 30 June 2022 |            |

## SUBSTANTIAL SHAREHOLDERS

*The section “Substantial Shareholders” on page 136 of the Original Offering Circular shall be deleted in its entirety and replaced with the following:*

The table below sets forth certain information regarding ownership of outstanding shares of the Bank as at 30 June 2022 by those persons who hold or are beneficially interested in any substantial part of the share capital of the Bank.

### Particulars of shareholdings disclosed pursuant to H shares regulatory requirements

As at 30 June 2022, to the knowledge of the directors, supervisors and chief executive of the Bank, the substantial shareholders and other persons (other than directors, supervisors and chief executive of the Bank) who had interests or short positions in the shares or underlying shares of the Bank as recorded in the register required to be kept pursuant to Section 336 of the SFO were as follows:

| Name of substantial shareholders                            | Capacity         | Number of A shares            | Nature of interest <sup>(1)</sup> | Approximate percentage of total issued A shares | Approximate percentage of total issued shares |
|---|------------------|-------------------------------|-----------------------------------|---|---|
|   |                  |                               |                                   | (%)   |   |
| Ministry of Finance of the People's Republic of China ..... | Beneficial owner | 13,178,424,446 <sup>(2)</sup> | Long position                     | 33.57   | 17.75   |
| National Council for Social Security Fund.....              | Beneficial owner | 3,105,155,568 <sup>(3)</sup>  | Long position                     | 7.91  | 4.18  |

| Name of substantial shareholders                            | Capacity                            | Number of H shares            | Nature of interest <sup>(1)</sup> | Approximate percentage of total issued H shares <sup>(8)</sup> | Approximate percentage of total issued shares <sup>(8)</sup> |
|---|-------------------------------------|-------------------------------|-----------------------------------|--|--|
|   |                                     |                               |                                   | (%)  |  |
| National Council for Social Security Fund.....              | Beneficial owner                    | 9,050,433,332 <sup>(3)</sup>  | Long position                     | 25.85  | 12.19  |
| Ministry of Finance of the People's Republic of China ..... | Beneficial owner                    | 4,553,999,999 <sup>(2)</sup>  | Long position                     | 13.01  | 6.13   |
| HSBC Holding plc .....                                      | Interest of controlled corporations | 14,135,636,613 <sup>(4)</sup> | Long position                     | 40.37  | 19.03  |

Notes:

- (1) Long positions held other than through equity derivatives.
- (2) To the knowledge of the Bank, as at 30 June 2022, the Ministry of Finance of the People's Republic of China held 4,553,999,999 H shares and 13,178,424,446 A shares of the Bank, representing 6.13 per cent. and 17.75 per cent. of the total ordinary shares issued by the Bank, respectively.
- (3) To the knowledge of the Bank, as at 30 June 2022, the National Council for Social Security Fund held 9,050,433,332 H shares and 3,105,155,568 A shares of the Bank, representing 12.19 per cent. and 4.18 per cent. of the total ordinary shares issued by the Bank, respectively.
- (4) HSBC Holding plc wholly owns HSBC Asia Holdings Limited, which wholly owns HSBC. HSBC beneficially held 14,135,636,613 H shares of the Bank. Pursuant to the SFO, HSBC Holding plc was deemed to own the interests associated with the 14,135,636,613 H shares held by HSBC.

Save as disclosed above, as at 30 June 2022, no other person (excluding the Directors, Supervisors and Chief Executive of the Bank) or corporation was recorded in the register required to be kept under Section 336 of the SFO as holding any interests or short positions in the shares or underlying shares of the Bank that would fall to be disclosed to the Bank and the Hong Kong Stock Exchange pursuant to Divisions 2 and 3 of Part XV of the SFO.

## MANAGEMENT OF THE BANK

*The section “Management of the Bank” on pages 137 to 149 of the Original Offering Circular shall be deleted in its entirety and replaced with the following:*

### GENERAL

The Board of the Bank currently comprises 16 members being two executive directors, eight non-executive directors and six independent non-executive directors. Ms. Po has been serving the Bank for 25 years. She obtained a master's degree in economics from Southwestern University of Finance and Economics in 1996.

## **BOARD COMMITTEES**

The Board of Directors set up Strategy Committee (Inclusive Finance Development Committee), Audit Committee, Risk Management and Related Party Transaction Control Committee, Personnel & Remuneration Committee and Social Responsibility (Environmental, Social and Governance) and Consumer Protection Committee. Thereinto, the Strategy Committee and Inclusive Finance Development Committee implemented "one institution, two titles"; the Risk Management and Related Party Transaction Control Committee assumed the responsibilities of the US Risk Management Committee; and the Personnel & Remuneration Committee performed the functions of both nomination and remuneration.

### **The Strategy Committee (Inclusive Finance Development Commission)**

The Strategy Committee is primarily responsible for formulating the operations and management objectives as well as long-term development plans, regularly analysing and evaluating the results of capital management, conducting research and making recommendations on major equity investment plans. The committee supervises and inspects the implementation of the annual business plans, examines and assesses the implementation of corporate governance system. Furthermore, it formulates and reviews the strategic plans for the development of inclusive financial business and business operating plan, and also evaluates the achievements of inclusive finance business development. For the year ended 31 December 2021, the Committee held six meetings, reviewed and approved 22 proposals, and presented professional recommendations to the Board of Directors.

### **The Audit Committee**

The Audit Committee is mainly responsible for proposing the appointments, changes or removals of the Bank's auditors, monitoring the Bank's internal audit system and its implementation, acting as the communication channel between the Bank's internal and external auditors, reviewing the Bank's financial information and disclosure, examining the Bank's accounting policies, financial position and financial reporting procedures, and monitoring the implementation of the Bank's internal controls. As at 30 June 2022, the Audit Committee comprised seven members, including Mr. Li Longcheng, Mr. Chang Baosheng, Mr. Chen Junkui, Mr. Woo Chin Wan, Raymond, Mr. Shi Lei, Mr. Zhang Xiangdong and Ms. Li Xiaohui. Ms. Li Xiaohui, Independent Non-executive Director, served as the Chairman. The Audit Committee and the senior management have reviewed the Bank's accounting policies and practices and discussed issues relating to internal controls and financial reporting including reviewing interim financial reports.

### **The Risk Management and Related Party Transaction Control Committee**

The Committee is primarily responsible for monitoring and evaluating the risk management and controls of the Bank in areas of credit, market, operations, compliance, case prevention, money laundering and terrorism financing; periodically assessing the risks, management status and risk tolerance level; supervising and evaluating the risk management of America-related operations, reviewing significant related party transactions, asset disposals, asset pledges or external guarantees; approving policies and procedures of money laundering risk management; reviewing anti-money laundering reports regularly, keeping abreast of major money laundering risk events and their resolutions, and evaluating the status of anti-money laundering risk management. For the year ended 31 December 2021, the Committee held four meetings, reviewed and approved 25 proposals, and presented professional recommendations to the Board of Directors.

### **The Personnel and Remuneration Committee**

The Personnel & Remuneration Committee is primarily responsible for making recommendations to the Board of Directors on its scale and structure according to the operating results, the scale of assets and the structure of shareholding; approving and amending the policies on diversification of members of the Board of Directors; making recommendations to the Board of Directors on formulating the selection procedures and assessment criteria for the Bank's directors and senior management personnel and reviewing the basic systems and policies of remuneration management; proposing suggestions on the remuneration distribution plan of directors and senior management and submitting them to the Board of Directors for approval. The Personnel & Remuneration Committee performed the functions both as a Nomination Committee and a Remuneration Committee.

The Personnel & Remuneration Committee's nomination procedures for the directors and senior management of the Bank are as follows: Firstly, understand the Bank's demands for directors and senior management in time. Secondly, extensively search for candidates of directors and senior management. Thirdly, determine the initial candidates and obtain their agreements. Fourthly, convene the meetings of the Personnel & Remuneration Committee to conduct examinations for the qualification of the initial candidates. Fifthly, propose to the Board of Directors about the election of new directors and the appointment of new senior management. Sixthly, implement other following duties based on decisions and feedbacks of the Board of Directors.

For the year ended 31 December 2021, the Committee held five meetings and reviewed and approved 17 proposals, and presented professional recommendations to the Board of Directors.

### **The Social Responsibility (Environmental, Social and Governance) and Consumer Protection Committee**

The Committee is primarily responsible for formulating the Bank's social responsibility strategies and policies, reviewing the achievements of the social responsibility targets and submitting the Annual Social Responsibility Report to the Board of Directors; researching and assessing the measures of the ESG performance and

promoting ESG information disclosure; reviewing the strategies, policies and goals on protecting the consumers' rights, studying key issues and significant policies on consumer's rights protection, approving external donations; reviewing credit policies concerning environmental and sustainable development. For the year ended 31 December 2021, the Committee held four meetings and reviewed and approved 14 proposals and reports, and presented professional recommendations to the Board of Directors.

## SUBSCRIPTION AND SALE

*The section entitled “Subscription and Sale” of the Original Offering Circular shall be supplemented with the following:*

**Notice to capital market intermediaries and prospective investors pursuant to paragraph 21 of the Hong Kong SFC Code of Conduct – Important Notice to CMIs (including private banks):** This notice to CMIs (including private banks) is a summary of certain obligations the Code imposes on CMIs, which require the attention and cooperation of other CMIs (including private banks). Certain CMIs may also be acting as OCs for the offering of each Series of Notes and are subject to additional requirements under the Code.

Prospective investors who are the directors, employees or major shareholders of the Issuer, the Bank, a CMI or its group companies would be considered under the Code as having an Association with the Issuer, the Bank, the CMI or the relevant group company. CMIs should specifically disclose whether their investor clients have any Association when submitting orders for the relevant Series of Notes. In addition, private banks should take all reasonable steps to identify whether their investor clients may have any Associations with the Issuer, the Bank or any CMI (including its group companies) and inform the Joint Lead Managers accordingly.

CMIs are informed that, the marketing and investor targeting strategy for the offering of each Series of Notes includes institutional investors, sovereign wealth funds, pension funds, hedge funds, family offices and high net worth individuals, in each case, subject to the selling restrictions and any MiFID II product governance language set out in the Original Offering Circular.

CMIs should ensure that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). CMIs should enquire with their investor clients regarding any orders which appear unusual or irregular. CMIs should disclose the identities of all investors when submitting orders for the relevant Series of Notes (except for omnibus orders where underlying investor information should be provided to the OCs when submitting orders). Failure to provide underlying investor information for omnibus orders, where required to do so, may result in that order being rejected. CMIs should not place “X-orders” into the order book.

CMIs should segregate and clearly identify their own proprietary orders (and those of their group companies, including private banks as the case may be) in the order book and book messages.

CMIs (including private banks) should not offer any rebates to prospective investors or pass on any rebates provided by the Issuer or the Bank. In addition, CMIs (including private banks) should not enter into arrangements which may result in prospective investors paying different prices for the any Series of Notes.

The Code requires that a CMI disclose complete and accurate information in a timely manner on the status of the order book and other relevant information it receives to targeted investors for them to make an informed decision. In order to do this, those Joint Lead Managers in control of the order book should consider disclosing order book updates to all CMIs.

When placing an order for any Series of Notes, private banks should disclose, at the same time, if such order is placed other than on a “principal” basis (whereby it is deploying its own balance sheet for onward selling to investors). Private banks who do not provide such disclosure are hereby deemed to be placing their order on such a “principal” basis. Otherwise, such order may be considered to be an omnibus order pursuant to the Code. Private banks should be aware that placing an order on a “principal” basis may require the Joint Lead Managers to apply the “proprietary orders” requirements of the Code to such order and will require the Joint Lead Managers to apply the “rebates” requirements of the Code (if applicable) to such order.

In relation to omnibus orders, when submitting such orders, CMIs (including private banks) are requested to provide the following underlying investor information, preferably in Excel Workbook format, in respect of each

order constituting the relevant omnibus order (failure to provide such information may result in that order being rejected).

Underlying investor information in relation to omnibus orders should consist of:

- The name of each underlying investor;
- A unique identification number for each investor;
- Whether an underlying investor has any “Associations” (as used in the Code);
- Whether any underlying investor order is a “Proprietary Order” (as used in the Code); and
- Whether any underlying investor order is a duplicate order.

To the extent information being disclosed by CMIs and investors is personal and/or confidential in nature, CMIs (including private banks) agree and warrant: (A) to take appropriate steps to safeguard the transmission of such information to the OCs; and (B) that they have obtained the necessary consents from the underlying investors to disclose such information to the OCs. By submitting an order and providing such information to the OCs, each CMI (including private banks) further warrants that each of them and the underlying investors have understood and consented to the collection, disclosure, use and transfer of such information by the OCs and/or any other third parties as may be required by the Code, including to the Issuer, the Bank, relevant regulators and/or any other third parties as may be required by the Code, for the purpose of complying with the Code, during the bookbuilding process for the offering of each Series of Notes. CMIs that receive such underlying investor information are reminded that such information should be used only for submitting orders in the relevant offering. The Joint Lead Managers may be asked to demonstrate compliance with their obligations under the Code, and may request other CMIs (including private banks) to provide evidence showing compliance with the obligations above (in particular, that the necessary consents have been obtained). In such event, other CMIs (including private banks) are required to provide the relevant Joint Lead Manager with such evidence within the timeline requested.

## GENERAL INFORMATION

*The sub-sections entitled “Listing”, “Authorisations”, “No Material Adverse Change” and “Auditor” in “General Information” on pages 174 to 175 of the Original Offering Circular shall be deemed to be deleted in its entirety and replaced with the following:*

1. **Listing:** Application has been made to the HKSE for listing of the Programme by way of debt issues to Professional Investors only during the 12-month period after the date of the Original Offering Circular on the Hong Kong Stock Exchange. Application will be made to the Hong Kong Stock Exchange for listing of, and permission to deal in, the Notes by way of debt issues to Professional Investors only. The issue price of each Series of Notes listed on the Hong Kong Stock Exchange will be expressed as a percentage of the nominal amount of such Series of Notes. It is expected that dealings will, if permission is granted to deal in and for the listing of the Notes, commence on or about the date of listing of the Notes.
2. **Authorisations:** The Issuer has obtained all necessary consents, approvals and authorisations as may be required in connection with the establishment of the Programme and the issue of this Offering Circular. The establishment of the Programme have been duly authorised by a resolution of the Board of the Bank dated 27 October 2017. The issue of each Series of Notes described in this Offering Circular have been duly authorised the Bank’s internal resolution. The Issuer has obtained and has agreed to obtain from time to time all necessary internal consents, approvals and authorisations for the issues of each Series of Notes.
3. **No Material Adverse Change:** Except as disclosed in this Offering Circular, there has been no significant change in the financial or trading position of the Issuer or of the Group since 30 June 2022 and no material adverse change in the financial position or prospects of the Issuer or of the Group since 31 December 2021.
4. **Auditors:** PricewaterhouseCoopers, the Bank’s independent auditor for the years ended 31 December 2020 and 2021, has audited, and rendered unqualified audit reports on, the consolidated financial statements of the Bank for the years ended 31 December 2020 and 2021.

KPMG, the Bank’s independent auditor for the year ending 31 December 2022, has reviewed, and rendered unqualified review report on, the interim condensed consolidated financial statements of the Bank for the six months ended 30 June 2022 in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”.

## INDEX TO FINANCIAL STATEMENTS

*For the consolidated financial statements of the Bank as at and for the years ended 31 December 2019 and 2020, which have been audited by PricewaterhouseCoopers in accordance with IFRS, please refer to the Original Offering Circular.*

# INDEPENDENT AUDITOR'S REPORT

## To the Shareholders of Bank of Communications Co., Ltd.

*(Incorporated in the People's Republic of China with limited liability)*

## OPINION

### What we have audited

The consolidated financial statements of Bank of Communications Co., Ltd. (the "Bank") and its subsidiaries (the "Group") set out on pages 170 to 311, which comprise:

- the consolidated statement of financial position as at 31 December 2021;
- the consolidated statement of profit or loss and other comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

### Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

## KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### KEY AUDIT MATTERS *(Continued)*

Key audit matters identified in our audit are summarised as follows:

1. Expected credit impairment allowance of loans and advances to customers, financial investments at amortised cost, credit related commitments and financial guarantees
2. Consolidation assessment of structured entities
3. Valuation of financial assets measured at fair value classified as level 3

#### Key Audit Matter

#### How our audit addressed the Key Audit Matter

##### ***Expected credit impairment allowance of loans and advances to customers, financial investments at amortised cost, credit related commitments and financial guarantees***

Refer to Notes 2.3, 2.29(a), 3.1.1(a), 3.1.1(b), 3.1.1(c), 3.1.1(d), 3.1.2, 3.1.3.1, 22.3, 23, 34 and 40 to the Group's consolidated financial statements.

As at 31 December 2021, the Group's gross loans and advances to customers amounted to RMB6,574,385 million, and an expected credit loss ("ECL") allowance of RMB162,184 million was recognised in the Group's consolidated statement of financial position; the gross amount of financial investments at amortised cost was RMB2,205,995 million and an ECL allowance of RMB2,958 million was recognised; the exposure of credit related commitments and financial guarantees was RMB1,906,425 million, for which a provision of RMB9,242 million was recognised.

The ECL on loans and advances to customers, financial investments at amortised cost and credit related commitments and financial guarantees recognised in the Group's consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2021 amounted to RMB65,371 million.

We understood, evaluated and tested the internal controls relating to ECL for loans and advances to customers, financial investments at amortised cost and credit related commitments and financial guarantees, primarily comprising:

- (1) Governance over ECL models, including the selection, approval and application of the accounting policies and ECL modelling methodology; and the internal controls relating to the ongoing monitoring and optimization of the models;
- (2) Internal controls relating to significant management judgments and assumptions, including the assessment and approval of portfolio segmentation, model selections, parameters estimation, the judgement of significant increase in credit risk, or of defaults or credit-impaired, forward-looking and management overlay adjustments;
- (3) Internal controls over the accuracy and completeness of key inputs used by the models;
- (4) Internal controls relating to estimation of future cash flows and calculations of present values of such cash flows for loans and advances to customers and financial investments at amortised cost using DCF to calculate loss allowances;
- (5) Internal controls over the information systems for ECL measurement.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

KEY AUDIT MATTERS *(Continued)*

## Key Audit Matter

## How our audit addressed the Key Audit Matter

***Expected credit impairment allowance of loans and advances to customers, financial investments at amortised cost, credit related commitments and financial guarantees (Continued)***

The Group assesses whether or not loans and advances to customers, financial investments at amortised cost and credit related commitments and financial guarantees have a significant increase in credit risk, or a default was incurred, and applies a three-stage impairment model and discounted cash flow model ("DCF") to calculate their ECL. For loans and advances to customers, financial investments at amortised cost and credit related commitments and financial guarantees using the three-stage impairment model, the management assesses loss allowance using the risk parameter modelling approach that incorporates key parameters, including probability of default, loss given default and exposure at default. For loans and advances to customers and financial investments at amortised cost using DCF to calculate ECL, the management assesses loss allowance by estimating the cash flows from the business.

The models of ECL involves significant management judgments and assumptions, primarily including:

- (1) Segmentation of business operations sharing similar credit risk characteristics, selection of appropriate models and determination of relevant key measurement parameters;

The substantive procedures we performed primarily comprised:

Based on the risk profile of the asset portfolio, we evaluated the reasonableness of the portfolio segmentation. By comparing with regulatory guidance and industry practice, we assessed the reasonableness of modelling methodologies for ECL measurement of different portfolios. We examined the calculation for the model measurement on selected samples, to test whether or not the models reflect the modelling methodologies documented by management. We also performed back-testing of the actual defaults against expected defaults generated from the model as at the end of previous year on sample basis to assess the reasonableness of the model.

We examined key data inputs to the ECL models on selected samples, including historical data and data at the measurement date, to assess their accuracy and completeness.

|---|---|
| <b><i>Expected credit impairment allowance of loans and advances to customers, financial investments at amortised cost, credit related commitments and financial guarantees (Continued)</i></b>   |   |
| (2) Criteria for determining whether or not there was a significant increase in credit risk, or a default or impairment loss was incurred;  | We selected samples, in consideration of the financial information and non-financial information of the borrowers, relevant external evidence and other factors, to assess the appropriateness of the management's criteria of significant increase in credit risk, defaults and credit-impaired loans.   |
| (3) Economic indicators for forward-looking measurement, and the application of economic scenarios and weightings;  | For forward-looking measurements, we applied statistical methods to assess management's selection of economic indicators and their analysis of co-relations with credit risk portfolios. We further tested the reasonableness of the prediction of economic indicators by comparing with available external expert estimates. In addition, we performed sensitivity test of economic indicators and weightings of economic scenarios. |
| (4) Management overlay adjustments due to significant uncertain factors not covered in the models; and  |   |
| (5) The estimated future cash flows for loans and advances to customers and financial investments at amortised cost for which DCF model was used to calculate ECL.  |   |
| The Group established governance processes and controls for the measurement of ECL.   | For loans and advances to customers and financial investments at amortised cost that DCF model used to calculate ECL, we examined, on a sample basis, forecasted future cash flows prepared by the Group based on financial information of borrowers and guarantors, latest collateral valuations and other available information together with discount rates in supporting the computation of ECL.                                  |
| For measuring ECL, the Group adopted complex models, employed numerous parameters and data inputs, and applied significant management judgments and assumptions. In addition, the loans and advances to customers, financial investments at amortised cost, exposures of credit related commitments and financial guarantees and the related ECL allowance and provision involve significant amounts. In view of these reasons, we identified this as a key audit matter. | Based on our procedures performed, we considered that the models, key parameters, significant judgements and assumptions adopted in the ECL measurement together with the measurement results were considered acceptable.   |

KEY AUDIT MATTERS *(Continued)*

## Key Audit Matter

## How our audit addressed the Key Audit Matter

**Consolidation assessment of structured entities**

Refer to Notes 2.2, 2.29(d), 44 and 45 to the Group's consolidated financial statements.

The Group has managed or invested in a number of structured entities. As at 31 December 2021, the carrying amount of unconsolidated structured entities invested by the Group amounted to RMB245,245 million. In addition, as at 31 December 2021, the balances of the non-principal guaranteed wealth management products, funds, trust and asset management plans and others originated and managed by the Group amounted to RMB1,426,253 million, RMB547,188 million, and RMB721,946 million respectively.

The management performed assessment on each of the three elements of control (power to direct relevant activities of structured entities, exposure to variable returns and the Group's ability to use its power to affect its variable returns from the structured entities) in determining whether structured entities managed or invested in by the Group should be consolidated or not. In performing the assessment, significant judgment was involved to determine the role of the Group in the arrangement as either a principal or an agent. If the Group acts as a principal, the structured entities should be consolidated.

We focused on this area because the amount of the Group's structured entities was significant and the consolidation assessment of these structured entities involved significant judgments.

We understood, evaluated and validated the design and operating effectiveness of relevant controls over management's assessment of consolidation of structured entities.

In addition, we selected samples of the structured entities that the Group invested in or managed, and performed the following procedures on the management's assessment of consolidation of structured entities:

- (1) Analysed the transaction structures, inspected related contract terms, and evaluated whether the Group had the power to direct the relevant activities of these structured entities;
- (2) Inspected contract terms related to the Group's variable returns from these selected structured entities, including management fee, expected investment returns and returns from liquidity support, and agreed these information to the corresponding inputs used in the management's assessment;
- (3) Recalculated the magnitude and variability of the variable returns to the Group from these structured entities based on contract terms;
- (4) Assessed the Group's role in these structured entities as a principal or an agent through analysis of the scope of its decision-making authority over the structured entities, the remuneration to which the Group was entitled for its management services provided to the structured entities, its exposure to variability of returns from other interests that it held in them, and the rights held by other parties, and compared our assessment results with the management's assessment outcomes.

Based on the work undertaken above, we found the overall consolidation assessment of structured entities performed by the management acceptable.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### KEY AUDIT MATTERS *(Continued)*

#### Key Audit Matter

#### How our audit addressed the Key Audit Matter

##### **Valuation of financial assets measured at fair value classified as level 3**

Refer to Notes 2.3, 2.29(b) and 3.4 to the Group's consolidated financial statements.

Convertible bonds, unlisted equities, unlisted funds, certain trusts and asset management plans, equity derivatives and certain loans and advances to customers held by the Group, whose fair value are determined based on certain unobservable inputs, were classified by the Group as level 3 in fair value measurement. The management determines the fair value of these financial assets using a variety of techniques. The valuation methods mainly include discounted cash flow and comparable values, involving various unobservable inputs such as cash flow, risk-adjusted discount rate, price to book value ratio, price to earning ratio and liquidity discounts, etc.

As at 31 December 2021, financial assets measured at fair value classified as level 3 amounted to RMB78,951 million.

Financial assets measured at fair value classified as level 3 involve significant amounts, and unobservable inputs adopted by the Group involve significant judgement. In view of these, valuation of these financial assets is identified as a key audit matter.

We understood, evaluated and validated the internal controls established by management over valuation on financial assets measured at fair valued classified as level 3, mainly comprising:

- (1) Internal controls relating to selection, approval and application of valuation methods;
- (2) Internal controls relating to the determination of the valuation inputs.

The substantive procedures we performed, primarily included:

- (1) Assessed on sample basis the appropriateness of valuation methods adopted in the valuation of level 3 financial assets based on industry practice;
- (2) Leveraging our internal valuation specialists, evaluated the appropriateness and accuracy of various unobservable inputs involved in measuring financial assets measured at fair value classified as level 3, such as cash flow, risk-adjusted discount rate, price to book value ratio, price to earning ratio and liquidity discounts on sample basis;
- (3) Tested the mathematical accuracy of the calculation of fair value of financial assets measured at fair value classified as level 3 on sample basis.

Based on the work undertaken above, we found that the overall valuation of financial assets measured at fair value classified as level 3 performed by the management was acceptable.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### OTHER INFORMATION

The directors of the Bank are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Bank are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ling Tung Man, Tom.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 1 GENERAL

Bank of Communications Co., Ltd. (the “Bank”) is a national state-owned joint-stock commercial bank headquartered in Shanghai, which was reorganised on 1 April 1987 upon the approval of Notice Guo Fa (1986) No. 81 issued by the State Council of the PRC and Notice Yin Fa (1987) No. 40 issued by the People’s Bank of China (the “PBOC”).

The Bank possesses the *Finance Permit* No. B0005H131000001 issued by the China Banking and Insurance Regulatory Commission (the “CBIRC”) of the PRC and a Business License for Enterprise Legal Person with the registration number of 9131000010000595XD. The Bank has a registered capital of RMB74.263 billion, whose legal representative is Ren Deqi.

The Bank’s A Shares are listed on the SSE and H Shares are listed on the Hong Kong Stock Exchange, with the stock codes of 601328 and 03328 respectively. The stock code of domestic preference shares listed on the SSE is 360021.

As at 31 December 2021, the Bank operates 248 branches in Mainland China and 23 branches, subsidiary banks and representative offices overseas. The Bank manages domestic branches and sub-branches by province upon the 3-level general structure of Head Office—provincial (directly managed) branches—provincially managed branches (sub-branches).

The main business scope of the Bank includes: absorbing public deposits; issuing short-term, medium-term and long-term loans; handling domestic and foreign settlements; handling bill acceptance and discounting; issuing financial bonds; agency issuance, agency redemption, and underwriting government bonds; buying and selling government bonds and financial bonds; engaging in interbank lending; buying and selling foreign exchange; engaging in bank card business; providing letter of credit services and guarantees; agent collection and payment services; providing safe deposit box services; other businesses approved by various regulatory agencies or institutions (as stated on the approval documents); operating foreign exchange settlement, foreign exchange sales and business approved by the relevant regulatory agencies where overseas institutions are located.

The principal activities of the Bank and its subsidiaries (hereinafter referred to as the “Group”) include corporate and personal banking services, interbank and financial market business, financial leasing, fund management, wealth management, trustees, insurance, overseas securities, debt-to-equity swap and other related financial services.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to the periods presented unless otherwise stated.

### 2.1 Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with all the applicable International Financial Reporting Standards (“IFRSs”) and disclosure requirements of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited and the Hong Kong Companies Ordinance (Cap.622). The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments and investment property which are measured at fair value.

The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 2.29.

#### 2.1.1 New and amended standards adopted by the Group

The Group has adopted the following new and amendments to the International Financial Reporting Standards (“IFRSs”):

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16  
Amendments to IFRS 16

Interest Rate Benchmark Reform —Phase 2  
COVID-19-related Rent Concessions

*Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16*

The IASB has issued amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (“Interest Rate Benchmark Reform—Phase 2”). The amendments are effective for annual periods beginning on or after 1 January 2021, with early application permitted.

F-17

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## 2.1 Basis of preparation (Continued)

## 2.1.1 New and amended standards adopted by the Group (Continued)

## Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (Continued)

The amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount when accounting for changes in the basis for determining the contractual cash flows of financial instruments (that is, financial instruments classified as amortised cost and debt instruments at FVOCI), lease receivables and lease liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of IFRS 9 to measure and recognise hedge ineffectiveness.

The amendment provides a provisional exemption. When a company expects reasonably that the alternative benchmark interest rate will meet the separately identifiable requirements within 24 months from the date when it is designated as a non-contractually clear risk component, it shall be deemed to meet the separately identifiable requirements. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy.

## Amendments to IFRS 16

The International Accounting Standards Board (IASB) has published 'Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16)' that extends, by one year, the May 2020 amendment that provides lessees with an exemption from assessing whether a COVID-19-related rent concession is a lease modification, and the changes in Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16) amend IFRS 16 to:

- permit a lessee to apply the practical expedient regarding COVID-19-related rent concessions to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022 (rather than only payments originally due on or before 30 June 2021);
- require a lessee applying the amendment to do so for annual reporting periods beginning on or after 1 April 2021;
- require a lessee applying the amendment to do so retrospectively, recognising the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of the annual reporting period in which the lessee first applies the amendment; and
- specify that, in the reporting period in which a lessee first applies the amendment, a lessee is not required to disclose the information required by paragraph 28(f) of IAS 8.

The adoption of these standards and amendments does not have a material effect on the Group's consolidated financial information.

## 2.1.2 Standards and amendments issued but not yet effective

## Effective for annual period commencing on or after

|   |   |  |
|---|---|--|
| Amendments to IFRS 10 and IAS 28                  | Sale or Contribution of Assets between an Investor and its Associate or Joint Venture | The amendments were originally intended to be effective for annual periods beginning on or after 1 January 2016. The effective date has now been deferred/removed. |
| Amendments to IAS 16                              | Property, Plant and Equipment: Proceeds before Intended Use                           | 1 January 2022   |
| Amendments to IFRS 3                              | Reference to the Conceptual Framework   | 1 January 2022   |
| Amendments to IAS 37                              | Onerous Contracts – Cost of Fulfilling a Contract                                     | 1 January 2022   |
| Amendments to IFRS 1, IFRS 9, IFRS 16 and IAS 41  | Annual Improvements to IFRS Standards 2018– 2020                                      | 1 January 2022   |
| IFRS 17 and its amendments                        | Insurance Contracts   | 1 January 2023   |
| Amendments to IAS 8                               | Accounting Estimates  | 1 January 2023   |
| Amendments to IAS 1 and IFRS Practice Statement 2 | Disclosure of Accounting Policies   | 1 January 2023   |
| Amendments to IAS 12                              | Deferred Tax related to Assets and Liabilities arising from a Single Transaction      | 1 January 2023   |

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.1 Basis of preparation (Continued)

#### 2.1.2 Standards and amendments issued but not yet effective (Continued)

##### *Amendments to IFRS 10 and IAS 28*

The amendments address an inconsistency between IFRS 10 and IAS 28 in the sale or contribution of assets between an investor and its associate or joint venture.

A full gain or loss is recognised when a transaction involves a business. A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if those assets are in a subsidiary.

##### *Amendments to IAS 16*

The amendment to IAS 16 Property, Plant and Equipment (PP&E) prohibits an entity from deducting from the cost of an item of PP&E any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment.

Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity's ordinary activities.

##### *Amendments to IFRS 3*

The amendments to IFRS 3, 'Business combinations', referred to the 2018 Conceptual Framework for Financial Reporting, are in order to determine what constitutes an asset or a liability in a business combination. In addition, the amendments add a new exception in IFRS 3 for liabilities and contingent liabilities. The exception specifies that, for some types of liabilities and contingent liabilities, an entity applying IFRS 3 should instead refer to IAS 37, 'Provisions, Contingent Liabilities and Contingent Assets', or IFRIC 21, 'Levies', rather than the 2018 Conceptual Framework. The amendments also clarify that the acquirer should not recognise contingent assets, as defined in IAS 37, at the acquisition date.

##### *Amendments to IAS 37*

The amendment clarifies the meaning of 'costs to fulfil a contract' and explains that the direct cost of fulfilling a contract comprises:

- The incremental costs of fulfilling that contract (for example, direct labour and materials); and
- An allocation of other costs that relate directly to fulfilling contracts (for example, an allocation of the depreciation charge for an item of PP&E used to fulfil the contract).

The amendment also clarifies that, before a separate provision for an onerous contract is established, an entity recognises any impairment loss that has occurred on assets used in fulfilling the contract, rather than on assets dedicated to that contract.

##### *Annual Improvements to IFRS Standards 2018 – 2020 Cycle*

The Annual Improvements to IFRSs 2018 – 2020 Cycle include a number of amendments to various IFRSs:

- IFRS 9 Financial Instruments – clarifies which fees should be included in the 10% test for derecognition of financial liabilities.
- IFRS 16 Leases – amendment of its illustrative example to remove the illustration of payments from the lessor relating to leasehold improvements, to remove any confusion about the treatment of lease incentives.
- IFRS 1 First – time Adoption of International Financial Reporting Standards – allows entities that have measured their assets and liabilities at carrying amounts recorded in their parent's books to also measure any cumulative translation differences using the amounts reported by the parent. This amendment will also apply to associates and joint ventures that have taken the same IFRS 1 exemption.
- IAS 41 Agriculture – removal of the requirement for entities to exclude cash flows for taxation when measuring fair value under IAS 41. This amendment is intended to align with the requirement in the standard to discount cash flows on a post-tax basis.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.1 Basis of preparation *(Continued)*

##### **2.1.2 Standards and amendments issued but not yet effective** *(Continued)*

###### *IFRS 17 and its amendments*

IFRS 17 Insurance Contracts was issued in May 2017 as replacement for IFRS 4. It requires a current measurement model where estimates are re-measured in each reporting period. Contracts are measured using the building blocks of discounted probability weighted cash flows, an explicit risk adjustment, and a contractual service margin ("CSM") representing the unearned profit of the contract which is recognised as revenue over the coverage period.

The standard allows a choice between recognising changes in discount rates either in the statement of profit or loss or directly in other comprehensive income. The choice is likely to reflect how insurers account for their financial assets under IFRS 9.

An optional, simplified premium allocation approach is permitted for the liability for the remaining coverage for short duration contracts, which are often written by non-life insurers.

There is a modification of the general measurement model called the "variable fee approach" for certain contracts written by life insurers where policyholders share in the returns from underlying items. When applying the variable fee approach, the entity's share of the fair value changes of the underlying items is included in the CSM. The results of insurers using this model are therefore likely to be less volatile than under the general model.

The IASB issued the amendments to IFRS 17 Insurance contracts, on 25 June 2020, together with an amendment to IFRS 4, so that eligible insurers can still apply IFRS 9 alongside IFRS 17. This concluded the IASB's targeted amendments to IFRS 17 which aimed to ease implementation of the standard by reducing implementation costs and making it easier for entities to explain, to investors and others, the results from applying IFRS 17. The amendments to IFRS 17 include:

- Effective date

The effective date of IFRS 17 (incorporating the amendments) has been deferred by two years to annual reporting periods beginning on or after 1 January 2023; and the fixed expiry date of the temporary exemption from applying IFRS 9 in IFRS 4 has also been deferred to annual reporting periods beginning on or after 1 January 2023.

- Expected recovery of insurance acquisition cash flows

An entity is required to allocate part of the acquisition costs to related expected contract renewals, and to recognise those costs as an asset until the entity recognises the contract renewals. Entities are required to assess the recoverability of the asset at each reporting date, and to provide specific information about the asset in the notes to the financial statements.

- Contractual service margin attributable to investment services

Coverage units should be identified, considering the quantity of benefits and expected period of both insurance coverage and investment services, for contracts under the variable fee approach and for other contracts with an 'investment-return service' under the general model. Costs related to investment activities should be included as cash flows within the boundary of an insurance contract, to the extent that the entity performs such activities to enhance benefits from insurance coverage for the policyholder.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.1 Basis of preparation (Continued)

#### 2.1.2 Standards and amendments issued but not yet effective (Continued)

IFRS 17 and its amendments (Continued)

- Reinsurance contracts held – recovery of losses

When an entity recognises a loss on initial recognition of an onerous group of underlying insurance contracts, or on addition of onerous underlying contracts to a group, an entity should adjust the contractual service margin of a related group of reinsurance contracts held and recognise a gain on the reinsurance contracts held. The amount of the loss recovered from a reinsurance contract held is determined by multiplying the loss recognised on underlying insurance contracts and the percentage of claims on underlying insurance contracts that the entity expects to recover from the reinsurance contract held. This requirement would apply only when the reinsurance contract held is recognised before or at the same time as the loss is recognised on the underlying insurance contracts.

- Other amendments to IFRS 17 include:
  - Scope exclusions for some credit card (or similar) contracts, and some loan contracts;
  - Presentation of insurance contract assets and liabilities in the statement of financial position in portfolios instead of groups;
  - Applicability of the risk mitigation option when mitigating financial risks using reinsurance contracts held and non-derivative financial instruments at fair value through profit or loss;
  - An accounting policy choice to change the estimates made in previous interim financial statements when applying IFRS 17;
  - Inclusion of income tax payments and receipts that are specifically chargeable to the policyholder under the terms of an insurance contract in the fulfilment cash flows;
  - Selected transition reliefs and other minor amendments.

The Group is assessing the impact on the Group's operating results and financial position of adopting IFRS 17.

#### Amendments to IAS 8

The changes to IAS 8 focus entirely on accounting estimates and clarify the following:

- The definition of a change in accounting estimates is replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty".
- Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.
- The Board clarifies that a change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.
- A change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognised as income or expense in the current period. The effect, if any, on future periods is recognised as income or expense in those future periods.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.1 Basis of preparation *(Continued)*

##### **2.1.2 Standards and amendments issued but not yet effective** *(Continued)*

*Amendments to IAS 1 and IFRS Practice Statement 2*

Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) amends IAS 1 in the following ways:

- An entity is now required to disclose its material accounting policy information instead of its significant accounting policies;
- Several paragraphs are added to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material;
- The amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial;
- The amendments clarify that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements; and
- The amendments clarify that if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information.

*Amendments to IAS 12*

The main change in Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12) is an exemption from the initial recognition exemption provided in IAS 12.15(b) and IAS 12.24. Accordingly, the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition. This is also explained in the newly inserted paragraph IAS 12.22A.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023. Early adoption is permitted.

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented. It also, at the beginning of the earliest comparative period presented, recognises deferred tax for all temporary differences related to leases and decommissioning obligations and recognises the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at that date.

Except for the above-mentioned impact of IFRS 17 and its amendments, the adoption of the above new standards and amendments issued but not yet effective is not expected to have a material effect on the Group's consolidated financial information.

#### 2.2 Consolidation

##### **2.2.1 Subsidiary undertakings**

The consolidated financial statements incorporate the financial statements of the Bank and entities (including structured entities) controlled by the Bank and its subsidiaries. Control is achieved when the Bank:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.2 Consolidation (Continued)

#### 2.2.1 Subsidiary undertakings (Continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are not consolidated from the date that control ceases.

The Group uses the acquisition method of accounting to account for business combinations. The consideration transferred in a business combinations is measured at fair value, which is calculated as the sum of the acquisition date fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition related costs are recognised in the consolidated income statement as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interests in the acquiree at the non-controlling interests' proportionate share of the acquiree's net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the identifiable net assets of the acquiree in the case of a bargain purchase, the difference is recognised in profit or loss.

All intra-Group transactions, balances, income and expenses are eliminated in full on consolidation. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

#### 2.2.2 Transactions with non-controlling interests

For acquisition of additional interests in subsidiaries from non-controlling interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiaries is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

loses control of a subsidiary due to the disposal of a portion of an equity investment, any retained interest in the entity is remeasured to its fair value, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive are reclassified to profit or loss and retained earning.

#### 2.2.3 Structured entities

Structured entities are entities that have been designed so that voting or similar rights are not the dominant factor in deciding who controls the entities, for example when any voting rights relate to administrative tasks only, and key activities are directed by contractual agreement. Structured entities often have restricted activities and a narrow and well-defined objective. Examples of structured entities include investment funds, trusts, securitisation vehicles and asset backed financings. Involvement with consolidated and unconsolidated structured entities is disclosed in Note 44 and 45.

#### 2.2.4 Investment in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is an arrangement whereby the Group and other parties contractually agree to share control of the arrangement through a separate entity, and have rights to the net assets of the arrangement based on legal form, contract terms, and other facts and circumstances. Joint control is the contractually agreed sharing of control over an activity, and exists only when the decisions relating to the activity require the unanimous consent of the Group and other parties sharing the control.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.2 Consolidation *(Continued)*

##### **2.2.4 Investment in associates and joint ventures** *(Continued)*

The results of an associate or a joint venture are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture equals or exceeds its interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate or joint venture.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of an associate or a joint venture recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment.

Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, is recognised immediately in profit or loss.

At the end of reporting period, the Group assesses whether there is an indication of possible impairment with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested as a single asset for impairment in accordance with IAS 36 "Impairment of assets" by comparing its recoverable amount (the higher of value in use and fair value less costs of sale) with its carrying amount, any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with its associate or joint venture, profits and losses resulting from the transactions with the associate or joint venture are recognised only to the extent of interests in the associate or joint venture that are not related to the Group.

##### **2.2.5 Goodwill**

Goodwill represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets. Goodwill is not amortised. Goodwill arising from a business combination is allocated to each cash-generating unit ("CGU") or group of CGUs, that is expected to benefit from the synergies of the combination. The Group performs an impairment test on goodwill at least once a year.

On disposal of the related CGU or group of CGUs, any attributable amount of goodwill net of allowances for impairment losses, if any, is included in the calculation of the profit or loss on disposal.

#### 2.3 Financial instruments

##### **Initial recognition and measurement**

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset.

At initial recognition, the Group measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss for the period. Immediately after initial recognition, an expected credit loss allowance is recognised for financial assets measured at amortised cost and debt investments measured at fair value through other comprehensive income, which results in an accounting loss being recognised in profit or loss for the period when an asset is newly originated.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.3 Financial instruments (Continued)

#### **Initial recognition and measurement** (Continued)

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the entity recognises the difference as follows:

- (a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognised as a gain or loss.
- (b) In all other cases, the difference is deferred, and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortised over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realised through settlement.

#### **The method of determining fair value**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction at the measurement date. For financial instruments with active markets, the Group uses quotations from active markets to determine their fair value, and for financial instruments where there is no active market, the Group uses valuation techniques to determine its fair value. Valuation techniques include references to prices used in recent market transactions by parties familiar with the situation and voluntary transactions, the current fair value of other financial instruments with reference to the same substantially, the discounted cash flow method and the option pricing model.

#### **Measurement methods**

##### *Amortised cost and effective interest rate*

The amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset (i.e. its amortised cost before any impairment allowance) or to the amortised cost of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees and points paid or received that are integral to the effective interest rate, such as origination fees. For purchased or originated credit-impaired ('POCI') financial assets – assets that are credit-impaired at initial recognition – the Group calculates the credit-adjusted effective interest rate, which is calculated based on the amortised cost of the financial asset instead of its gross carrying amount and incorporates the impact of expected credit losses in estimated future cash flows.

When the Group revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognised in profit or loss.

#### **2.3.1 Financial assets**

##### *Classification and subsequent measurement*

The Group has classified its financial assets in the following measurement categories:

- Fair value through profit or loss (FVPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.3 Financial instruments *(Continued)*

##### 2.3.1 Financial assets *(Continued)*

*Classification and subsequent measurement (Continued)*

The classification requirements for debt and equity instruments are described below:

##### Debt instruments

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective, such as loans, government and corporate bonds and trade receivables purchased from clients in factoring arrangements without recourse.

Classification and subsequent measurement of debt instruments depend on:

- (i) The Group's business model for managing the asset; and
- (ii) The cash flow characteristics of the asset.

Based on these factors, the Group classifies its debt instruments into one of the following three measurement categories:

**Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ('SPPI'), and that are not designated at FVPL, are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised and measured from these financial assets. According to the business category, these financial assets are presented as 'Cash and balances with central banks', 'Due from banks and other financial institutions', 'Loans and advances to customers' and 'Financial investments at amortised cost' respectively. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

**Fair value through other comprehensive income (FVOCI):** Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVPL, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortised cost which are recognised in profit or loss. According to the business category, respectively, these financial assets are presented as 'Loans to customers' and 'Debt investments at fair value through other comprehensive income'. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and recognised in 'Net gains arising from financial investments'. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

**Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on the debt investment, which is measured at fair value through profit or loss and is not part of a hedging relationship, is recognised in profit or loss and presented as 'Net gains arising from trading activities'.

**Business model:** the business model reflects how the Group manages the assets in order to generate cash flows. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVPL. Factors considered by the Group in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.3 Financial instruments (Continued)

#### 2.3.1 Financial assets (Continued)

*Classification and subsequent measurement (Continued)*

Debt instruments (Continued)

SPPI: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

When, and only when, the Group changes the business model for managing its financial assets, shall it reclassify all affected financial assets, and apply the reclassification prospectively from the reclassification date. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest. Reclassification date is the first day of the first reporting period following the change in business model that results in the Group reclassifying financial assets.

Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets. Examples of equity instruments include basic ordinary shares.

The Group subsequently measures all equity investments at fair value through profit or loss, except where the Group's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income, listed as 'Financial investments at FVPL'. The Group's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to sell. When this election is used, fair value gains or losses are recognised in OCI and are not subsequently reclassified to profit or loss, including on disposal. Dividends, when representing a return on such investments, continue to be recognised in profit or loss as 'Net gains arising from financial investments' when the Group's right to receive payments is established.

Gains or losses on equity investments at FVPL are recognised as 'Net gains arising from trading activities'.

Impairment

On a forward-looking basis, the Group assesses the expected credit losses ('ECL') of debt instrument assets at amortised cost and FVOCI, exposures arising from credit related commitments and financial guarantees. The Group recognises a loss allowance accordingly at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Regarding these judgment and estimates, please refer to note 3.1.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.3 Financial instruments *(Continued)*

##### 2.3.1 Financial assets *(Continued)*

*Classification and subsequent measurement (Continued)*

##### Write-off

The book value of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. A write-off constitutes a derecognition event. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

##### *Modification of loans*

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Group assesses whether or not the new terms are substantially different to the original terms. The Group does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms are introduced, such as a profit share/equity-based return that substantially affects the risk profile of the loan.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Group derecognises the original financial asset and recognises a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognised is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in profit or loss as a gain or loss on derecognition.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognises a modification gain or loss in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.3 Financial instruments (Continued)

#### 2.3.1 Financial assets (Continued)

##### *Derecognition other than on a modification*

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the Group transfers substantially all the risks and rewards of ownership, or (ii) the Group neither transfers nor retains substantially all the risks and rewards of ownership and the Group has not retained control.

The Group enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Group:

- (i) Has no obligation to make payments unless it collects equivalent amounts from the assets;
- (ii) Is prohibited from selling or pledging the assets; and
- (iii) Has an obligation to remit any cash it collects from the assets without material delay.

Collateral (shares and bonds) furnished by the Group under standard repurchase agreements and securities lending and borrowing transactions are not derecognised because the Group retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met. This also applies to certain securitisation transactions in which the Group retains a subordinated residual interest.

When the contractual rights to receive the cash flows from the assets have been transferred, and the Group neither transfers nor retains substantially all the risks and rewards of ownership, and the Group has retained control of the transferred assets, the Group applies continuing involvement approach. Under this approach, the Group continues to recognise the transferred asset to the extent of its continuing involvement and recognise the associated liability, to reflect the rights and obligations retained by the Group. The net carrying amount of the transferred asset and associated liability is: (a) the amortised cost of the rights and obligations retained by the Group, if the transferred asset is measured at amortised cost; or (b) equal to the fair value of the rights and obligations retained by the Group when measured on a stand-alone basis, if the transferred asset is measured at fair value.

##### *Asset securitisation*

As part of its operational activities, the Group securitises financial assets, generally through the sale of these assets to structured entities which then issue securities to investors. The Group holds part or all of the subordinated tranche notes, which are not transferrable before both the principals and interests of the senior tranche notes are repaid. The Group serves as the asset management supplier, providing services including loan collection for the investment pool, keeping accounting records related to the investment pool and issuing reports as the service agency. The assets under securitisation are used to repay the principals and interests of the senior tranche notes first after deducting related taxation and expenses, and the remaining assets under securitisation are repaid to the Group and subordinated tranche notes investors. The Group derecognises the transferred assets in full or in part based on the extent of the risks and rewards retained over.

The Group evaluates the extent to which it transfers the risks and rewards of ownership of the financial assets to the other party and determines whether it retains control while applying the accounting policy in respect of asset securitisation.

- (1) The financial asset is derecognised when the Group transfers substantially all the risks and rewards of ownership of the financial asset.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.3 Financial instruments *(Continued)*

##### 2.3.1 Financial assets *(Continued)*

###### *Asset securitisation (Continued)*

- (2) The financial asset continues to be recognised when the Group retains substantially all the risks and rewards of ownership of the financial asset.
- (3) When the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset and does not retain control it derecognises the financial asset and recognises separately as assets or liabilities any rights and obligations created or retained in the transfer.
- (4) When the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset and retains control, it continues to recognise the financial asset to the extent of its continuing involvement in the financial asset. The Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

##### 2.3.2 Financial liabilities

###### *Classification and subsequent measurement*

In both the current and prior period, financial liabilities are classified as liabilities measured at amortised cost, except for:

- Financial liabilities at fair value through profit or loss: this classification is applied to derivatives, financial liabilities held for trading (e.g. short positions in the trading booking) and other financial liabilities designated as such at initial recognition. Gains or losses on financial liabilities designated at fair value through profit or loss are presented partially in other comprehensive income (the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability, which is determined as the amount that is not attributable to changes in market conditions that give rise to market risk) and partially profit or loss (the remaining amount of change in the fair value of the liability). This is unless such a presentation would create, or enlarge, an accounting mismatch, in which case the gains or losses attributable to changes in the credit risk of the liability are also presented in profit or loss;
- Financial liabilities arising from the transfer of financial assets which did not qualify for derecognition or when the continuing involvement approach applies. When the transfer of financial asset did not qualify for derecognition, a financial liability is recognised for the consideration received for the transfer. In subsequent periods, the Group recognises any expense incurred on the financial liability; when continuing involvement approach applies, see note 2.3.1; and
- Credit related commitments and financial guarantees (refer to Note 2.26)

###### *Derecognition*

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.3 Financial instruments (Continued)

#### 2.3.2 Financial liabilities (Continued)

##### *Derecognition (Continued)*

The exchange between the Group and its original lenders of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is more than 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of interest rate, new conversion features attached to the instrument and change in covenants are also taken into consideration. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

##### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

A financial instrument is an equity instrument if, and only if, both conditions (i) and (ii) below are met:

- (i) The financial instrument includes no contractual obligation to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group; and
- (ii) If the financial instrument will or may be settled in the Group's own equity instruments, it is a non-derivative instrument that includes no contractual obligations for the Group to deliver a variable number of its own equity instruments; or a derivative that will be settled only by the Group exchanging a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

Equity instruments issued by the Group are recorded at the fair value of proceeds received, net of direct issuance expenses.

#### 2.3.3 Derivative financial instruments and hedge accounting

Derivatives are initially recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at fair value. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the hybrid (combined) instrument vary in a way similar to a stand-alone derivative. If the hybrid contract contains a host that is a financial asset, then the Group assesses the entire contract as described in the financial assets section above for classification and measurement purposes. Otherwise, the embedded derivatives are treated as separate derivatives when:

- (i) The economic characteristics and risks are not closely related to those of the host contract;
- (ii) A separate instrument with the same terms would meet the definition of a derivative; and
- (iii) The hybrid contract is not measured at fair value through profit or loss.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.3 Financial instruments *(Continued)*

##### **2.3.3 Derivative financial instruments and hedge accounting** *(Continued)*

These embedded derivatives are separately accounted for at fair value, with changes in fair value recognised in the statement of profit or loss unless the Group chooses to designate the hybrid contracts at fair value through profit or loss.

The method of recognising the resulting fair value gain or loss depends on whether the derivative is designated and qualifies as a hedging instrument, and if so, the nature of the item being hedged. For derivatives not designated or qualified as hedging instruments, including those intended to provide effective economic hedges of specific interest rate and foreign exchange risks, but do not qualify for hedge accounting, changes in the fair value of these derivatives are recognised in “Net trading gains” in the income statement.

The Group documents, at the inception of the hedge, the relationship between hedged items and hedging instruments, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment of hedging effectiveness both at hedge inception and on an ongoing basis, that is, the extent to which changes in the fair value or cash flow of the hedge instrument can offset the changes in fair values or cash flows of hedged items resulting from the hedge risk.

The hedging relationship should meet all of the following hedge effectiveness requirements:

- (i) There is an economic relationship between the hedged item and the hedging instrument. That means the hedging instrument and hedged item have values that generally move in the opposite direction because of the same risk, which is the hedged risk.
- (ii) The effect of credit risk does not dominate the value changes that result from that economic relationship; and
- (iii) The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of the hedged item. However, that designation shall not reflect an imbalance between the weightings of the hedged item and the hedging instrument that would create hedge ineffectiveness that could result in an accounting outcome that would be inconsistent with the purpose of hedge accounting.

Possible sources of ineffectiveness are as follows:

- (i) Increase or decrease in the amounts of hedged items or hedging instruments;
- (ii) Significant changes in counterparties' credit risk.

The Group discontinues hedge accounting prospectively when the hedging instrument expires or is sold, terminated or exercised (the replacement or rollover of a hedging instrument into another hedging instrument does not constitute an expiration or termination), or the hedging relationship ceases to meet the risk management objective, or to meet other qualifying criteria for hedging accounting.

If a hedging relationship ceases to meet the hedge effectiveness requirement relating to the hedge ratio but the risk management objective for that designated hedging relationship remains the same, the Group adjusts the hedge ratio of the hedging relationship so that it meets the qualifying criteria again.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.3 Financial instruments (Continued)

#### 2.3.3 Derivative financial instruments and hedge accounting (Continued)

##### (a) Fair value hedge

Fair value hedge is a hedge of the exposure to changes in fair value of a recognised asset or liability or an unrecognised firm commitment, or a component of any such item, that is attributable to a particular risk and could affect profit or loss.

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the statement of profit or loss, together with changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to profit or loss no later than when the hedged item ceases to be adjusted for hedging gains and losses over the period to maturity and recorded as net interest income.

##### (b) Cash flow hedge

Cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with all, or a component of, a recognised asset or liability or a highly probable forecast transaction, and could affect profit or loss.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in the statement of profit or loss.

Amounts accumulated in equity are recycled to the statement of profit or loss in the periods when the hedged item affects profit or loss. They are recorded in the income or expense lines in which the revenue or expense associated with the related hedged item is reported.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised in the periods when the hedged item affects profit or loss. When a forecast transaction is no longer expected to occur (for example, the recognised hedged asset is disposed of), the cumulative gain or loss previously recognised in other comprehensive income is immediately reclassified to the statement of profit or loss.

##### (c) Impact of the Interbank Offered Rate Reform (hereinafter referred to as the "IBOR reform") on hedge accounting

In view of the potential impact of IBOR reform on financial reporting, targeted exemptions are provided for financial instruments eligible for hedge accounting until the IBOR reform is completed. The major changes are as follows:

- The specific requirements for hedge accounting have been modified so that the Group, when applying such hedge accounting requirements, can assume that the benchmark rate used in the measurement of the hedged cash flows and the cash flows from the hedging instruments will not be affected by the changes due to the IBOR reform;
- When performing forward-looking tests, the Group assumes that the benchmark applicable to the cash flows of the hedged item, hedging instrument or the hedged risk will not change along with the IBOR reform;
- Provided that the Group reasonably expects ibor to be separately identifiable within 24 months since the first designation, even if it is not separately identifiable at the date when it is designated, the Group shall designate it as a non-contractually clear risk component of hedged items or of the hedged risk.
- The nominal amount of the hedging instruments to which the above provisions apply and any significant assumptions or judgments made pursuant to the above provisions shall be disclosed. The Group's impact by the IBOR reform and its management during the transition period shall also be disclosed qualitatively.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.3 Financial instruments *(Continued)*

##### **2.3.4 Offsetting financial assets and financial liabilities**

When the Group has a currently enforceable legal right to offset recognised financial assets and financial liabilities, and intends either to settle on a net basis or to realise the financial asset and settle the financial liability at the same time, the financial assets and liabilities are offset with the net amount presented in the consolidated statement of financial position. Otherwise, financial assets and financial liabilities are presented separately. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

#### 2.4 Interest income and expense

The “Interest income” and “Interest expense” in the Group’s income statement are the interest income and expense calculated by using the effective interest method on debt investment at amortised cost, debt investment at fair value through other comprehensive income and financial liabilities at amortised cost, etc.

For those purchased or originated credit-impaired financial assets, the Group calculates the interest income by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. For those financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets, the Group calculates the interest income by applying the effective interest rate to the amortised cost of the financial asset in subsequent reporting periods.

#### 2.5 Fee and commission income

Fee and commission income is recognised when the Group fulfills its performance obligation, either over time or at a point in time when a customer obtains control of the service.

For the performance obligations satisfied at a point in time, the Group recognises revenue when control is passed to the customer at a certain point in time. For the performance obligations satisfied over time, the Group recognises revenue according to the progress toward satisfaction of the obligation over the time.

#### 2.6 Dividend income

Dividends are recognised when the right to receive the dividends is established.

#### 2.7 Assets transferred under repurchase agreements

##### *(a) Financial assets sold under repurchase agreements*

Financial assets sold subject to agreements with a commitment to repurchase at a specific future date at a fixed or determinable price are not derecognised in the statement of financial position. The proceeds from selling such assets are presented under “due to banks and other financial institutions” in the statement of financial position. The difference between the selling price and repurchasing price is recognised as interest expense during the term of the agreement using the effective interest method.

##### *(b) Financial assets purchased under repurchase agreements*

Financial assets that have been purchased under agreements with a commitment to resell at a specific future date are not recognised in the statement of financial position. The cost of purchasing such assets is presented under “due from banks and other financial institutions” in the statement of financial position. The difference between the purchasing price and reselling price is recognised as interest income during the term of the agreement using the effective interest method.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 2.8 Precious metals

Precious metals that are not related to the Group's trading activities are initially measured at acquisition cost and subsequently measured at the lower of cost and net realisable value. Precious metals that are related to the Group's trading activities are initially and subsequently recognised at fair value, with changes in fair value arising from re-measurement recognised directly in profit or loss in the period in which they arise.

#### 2.9 Property and equipment

The Group's property and equipment mainly comprise buildings, construction in progress, equipment, transportation equipment and property improvement.

The assets purchased or constructed are initially measured at acquisition cost.

Subsequent expenditures incurred for the property and equipment are included in the cost of the property and equipment if it is probable that economic benefits associated with the asset will flow to the Group and the subsequent expenditures can be measured reliably. Meanwhile the carrying amount of the replaced part is derecognised. Other subsequent expenditures are recognised in profit or loss in the period in which they are incurred.

Depreciation is calculated on a straight-line basis to write down the cost of such assets to their residual values over their estimated useful lives. The residual values and useful lives of assets are reviewed, and adjusted if appropriate, at each financial reporting date.

Buildings comprise primarily office premises. The estimated useful lives, depreciation rate and estimated residual value rate of buildings, equipment, transportation equipment and property improvement are as follows:

| Type of assets  | Estimated useful lives         | Estimated residual value rate | Depreciation rate |
|---|--------------------------------|-------------------------------|-------------------|
| Buildings   | 25 years – 50 years            | 3%                            | 1.94% – 3.88%     |
| Equipment   | 3 years – 11 years             | 3%                            | 8.82% – 32.33%    |
| Transportation equipment (excluding equipment under operating leases) | 4 years – 8 years              | 3%                            | 12.13% – 24.25%   |
| Property improvement  | Over the economic useful lives |                               |                   |

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Construction in progress is measured at its actual costs. The actual costs include various construction expenditures during the construction period and other relevant costs. Construction in progress is not depreciated. Construction in progress is transferred to a property and equipment when it is ready for intended use.

Equipment under operating leases where the Group is the lessor is aircraft or vessel. The estimated useful lives and depreciation rate of the aircraft or vessel are determined considering their conditions and the estimated residual values are determined by external appraiser using historical data on an item-by-item basis. The estimated useful lives range from 5 to 25 years.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.10 Foreclosed assets

Foreclosed financial assets are initially recognised at fair value, and foreclosed non-financial assets are initially recognised at cost. At the end of each reporting period, foreclosed non-financial assets are measured at the lower of the carrying amount and the net realisable value. When the net realisable value is lower than the carrying amount, an impairment allowance is recognised.

When a foreclosed asset is disposed, the difference between the disposal proceeds and the carrying amount is recognised in profit or loss.

The Group disposes of foreclosed assets through various means. In principle, foreclosed assets should not be transferred for own use, but, in the event that they are needed for the Group's own business or management purposes, they are transferred at their net carrying amounts and managed as newly acquired property and equipment.

When a foreclosed asset needs to be transferred for own use, it is transferred at its carrying amount including the impairment allowance at the transition day.

Foreclosed assets of the Group mainly include buildings and land use rights.

#### 2.11 Land use rights

Land use rights are classified as other assets and amortised using the straight-line method over the lease term.

#### 2.12 Intangible assets

An intangible asset is measured initially at cost. When an intangible asset with a finite useful life is available for use, its original cost is amortised over its estimated useful life using the straight-line method. An intangible asset with an indefinite useful life is not amortised.

For an intangible asset with a finite useful life, the Group reviews the useful life and amortisation method at the end of each reporting period, and makes adjustments when necessary.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

#### 2.13 Investment property

Investment property is a property held to earn rentals or for capital appreciation or both and initially measured at cost.

As there is an active property market in the location in which the Group's investment property is situated, and the Group can obtain the market price and other relevant information regarding the same or similar type of property from the property market so as to reasonably estimate the fair value of the investment property; therefore, the Group uses the fair value model for subsequent measurement of the investment property, with changes in the fair value included in profit or loss for the period in which they arise.

When an investment property is sold, transferred, retired or damaged, the Group recognises the amount of any proceeds on disposal net of the carrying amount and related taxes in profit or loss for the period.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.14 Impairment of assets

The Group determines the impairment of assets, other than the impairment of deferred tax assets and financial assets, with the following methods:

The Group assesses at the balance sheet date whether there is any indication that assets may be impaired. If any indication that an asset may be impaired exists, the Group estimates the recoverable amount of the asset.

If there is any indication that an asset may be impaired and it is not possible to estimate the recoverable amount of an individual asset, the Group determines the recoverable amount based on the CGU to which the asset belongs.

CGU is the smallest identifiable group of assets, and the cash inflows generated by a CGU are largely independent from other assets or groups of assets.

The recoverable amount of an asset (or CGU, group of CGUs) is the higher of its fair value less costs to sell and the present value of the expected future cash flows. The Group considers all relevant factors in estimating the present value of future cash flows, such as the expected future cash flows, the useful life and the discount rate.

##### *(a) Testing CGU with goodwill for impairment*

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the CGU or group of CGUs that is expected to benefit from the synergies of the combination.

A CGU or group of CGUs to which goodwill has been allocated is tested for impairment by the Group at least annually, or whenever there is an indication that the CGU or group of CGUs are impaired, by comparing the carrying amount of the CGU or group of CGUs, including the goodwill, with the recoverable amount of the CGU or group of CGUs. The recoverable amount of the CGU or group of CGUs are the estimated future cash flows, which are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU or group of CGUs with allocated goodwill.

At the time of impairment testing of a CGU or group of CGUs to which goodwill has been allocated, there may be an indication of an impairment of an asset within the CGU containing the goodwill. Under such circumstances, the Group tests the asset for impairment first, and recognises any impairment loss for that asset before testing for impairment on the CGU or group of CGUs containing the goodwill. Similarly, there may be an indication of an impairment of a CGU within a group of CGUs containing the goodwill. Under such circumstances, the Group tests the CGU for impairment first, and recognises any impairment loss for that CGU, before testing for impairment the group of CGUs to which the goodwill is allocated.

##### *(b) Impairment loss*

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is recognised as an impairment loss and charged to the profit or loss.

For a CGU or a group of CGUs, the amount of impairment loss firstly reduces the carrying amount of any goodwill allocated to the CGU or group of CGUs, and then reduces the carrying amount of other assets (other than goodwill) within the CGU or group of CGUs, pro rata on the basis of the carrying amount of each asset.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.14 Impairment of assets *(Continued)*

##### *(c) Reversing an impairment loss*

If, in a subsequent period, the amount of impairment loss of the non-financial asset except for goodwill decreases and the decrease can be linked objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the profit or loss. A reversal of impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior periods.

An impairment loss in respect of goodwill is not reversed.

#### 2.15 Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, the customer has both of the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset.

##### *(a) The Group as Lessee*

The Group recognises the right-of-use asset on the start date of the lease term and recognises the lease liability at the present value of the remaining lease payments. The lease payments include fixed payments and payments to be made when it is reasonably determined to exercise purchase option or terminate lease option. Variable rent determined based on a certain proportion of sales is not included in the lease payments and is recognised in profit or loss when incurred.

The Group's right-of-use assets include leased properties, venues, parking lots, advertising spaces, vehicles and equipment etc. The right-of-use asset is initially measured at cost, which includes the initial measurement of the lease liability, the lease payments already paid on or before the lease start date, the initial direct costs etc., and deducts any lease incentives received. The leased asset is depreciated on a straight-line basis over its remaining useful life if the Group could reasonably determine to obtain the ownership at the expiration of the lease term; if it is unsure whether the ownership of the leased asset can be obtained at the expiration of the lease term, the right-of-use asset is depreciated over the shorter of its remaining useful life and the lease term on a straight-line basis. When the recoverable value is lower than the book value of the right-of-use asset, the Group reduces the book value to the recoverable value.

For short-term leases with a lease term shorter than 12 months and leases of asset with low value when it is new, the Group recognises relevant rental expenses on a straight-line basis in profit or loss or in the related asset costs in each lease period rather than recognising the right-of-use assets or lease liabilities.

The Group accounts for a modification to a finance lease as a separate lease if both: (a) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and (b) the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, in the case where the COVID-19 directly caused contract changes, a simplified method is adopted; otherwise, at the effective date of the lease modification, the Group remeasures the lease term and the lease liability by discounting the revised lease payments using a revised discount rate. The Group decreases the carrying amount of the right-of-use asset for lease modifications that decrease the scope or term of the lease, and recognised the gain or loss relating to the partial or full termination of the lease in profit or loss. The Group makes a corresponding adjustment to the right-of-use asset for all other lease modifications.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.15 Leases (Continued)

#### (a) The Group as Lessee (Continued)

For rent concessions that are directly related to COVID-19 and applicable only before 30 June 2022, the Group uses a expedient, with the undiscounted concessions recognised in profit or loss and lease liabilities adjusted accordingly when original payments are exempted upon agreement.

#### (b) The Group as Lessor

##### Operating Lease

When the Group leases out its own buildings and properties, equipment and transportation vehicles, the rental income arising from operating leases is recognised on a straight-line basis over the lease term. Variable rent gained by the Group is recognised in rental income when incurred.

##### Finance Lease

As lessor of the finance lease, the Group recognises the finance lease receivables for the finance lease on the commencement date of the lease period and derecognises the related assets. Finance lease receivables are recognised at the net lease investment to “Loans and advances to customers” for the initial measurement. The net lease investment is the sum of the unsecured residual value and the present value of the lease payments unreceived at the commencement date of the lease period discounted at the interest rate implicit in lease.

Finance lease receivables are derecognised when the contractual rights of receiving cash from the finance lease receivables have expired or have been transferred and all substantial risks and rewards regarding the lease have been transferred.

During the lease period, the lessor applies the fixed periodic interest rate to calculate the interest income for each period. Contingent rentals are recognised in profit or loss when incurred.

### 2.16 Cash and cash equivalents

Cash and cash equivalents are short-term and highly liquid assets, which are readily convertible into known amounts of cash and subject to an insignificant risk of changes in value. Cash and cash equivalents include cash and assets with maturities of three months or less from the date of purchase under balances with central banks, due from banks and other financial institutions.

### 2.17 Provisions

Provisions are recognised when the Group has a present obligation related to a contingency, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account factors pertaining to a contingency such as the risks, uncertainties and time value of money. Where the effect of the time value of money is material, the amount of the provision is determined by discounting the related future cash outflows.

Where all or some of the expenditure required to settle a provision is expected to be reimbursed by a third party, the reimbursement is recognised as a separate asset only when it is virtually certain that reimbursement will be received, and the amount of reimbursement recognised does not exceed the carrying amount of the provision.

### 2.18 Income taxes

Income tax represents the sum of the tax currently payable and deferred tax.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.18 Income taxes *(Continued)*

##### **(a) Current income tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

##### **(b) Deferred income tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Current and deferred tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income, in which case the current and deferred tax are also recognised in other comprehensive income.

For the purposes of measuring deferred tax liabilities or deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### 2.19 Share capital

#### **(a) Share capital**

Share capital comprises ordinary shares issued.

#### **(b) Share issue costs**

External costs directly attributable to the issuance of new shares are shown in equity as a deduction from the proceeds.

### 2.20 Dividend distribution

#### **(a) Dividends on ordinary shares**

Dividends on ordinary shares are recognised in the period in which they are declared and approved by the Bank's shareholders.

#### **(b) Dividends on preference shares**

Preference share dividend distribution is recognised as a liability in the Group's and the Bank's financial statements in the period in which the dividends are approved by the Board of Directors of the Bank.

#### **(c) Distribution on perpetual bonds**

Perpetual bond interest distribution is recognised as a liability in the Group's and the Bank's financial statements in the period in which the interest distribution approved by the Board of Directors of the Bank.

### 2.21 Acceptances

Acceptances comprise the Group's commitments on payment for bills that are issued to customers. Acceptances are accounted for as credit related commitments and financial guarantees and are disclosed as contingent liabilities and commitments.

### 2.22 Staff costs and benefits

#### **(a) Staff costs**

Staff costs include salaries, bonuses, allowance and subsidies, staff welfare, medical insurance, employment injury insurance, maternity insurance, housing funds, labor union fees as well as staff education expenses and housing allowance. During the reporting period in which employees have rendered services, the Group recognises the staff costs payable as a liability with a corresponding charge to profit or loss or the cost of assets where appropriate.

The Group participates in the employee social security systems established by the government, including medical insurance, housing funds and other social securities, in accordance with relevant requirements. Related expenses are recognised in profit or loss when incurred.

#### **(b) Post-employment benefits**

The Group divides post-employment benefit plans into defined contribution plans and defined benefit plans. Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into a separate fund and will have no obligation to pay further contributions. Defined benefit plans are post-employment benefit plans other than defined contribution plans. During the reporting period, post-employment benefits for the employees of the Group mainly include payment to basic retirement insurance, unemployment insurance, annuity plan and supplementary retirement benefits.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.22 Staff costs and benefits *(Continued)*

##### **(b) Post-employment benefits *(Continued)***

###### *Basic retirement insurance*

Employees of the Group have joined basic retirement insurance arranged by local ministry of labour and social security. The Group makes monthly contributions to the retirement insurance according to the base and proportion set by local government. When employees retire, local ministry of labour and social security is responsible for the payment of the basic pension to the retired employees. Such basic retirement insurance is a defined contribution plan. During the reporting period in which employees have rendered services, the Group recognises the amounts payable as a liability with a corresponding charge to profit or loss or the cost of assets where appropriate.

###### *Annuity plan*

Employees of domestic branches who retire at or after 1 January 2009 participate in the annuity plan established by the Group. The Group contributes a certain portion of employees' gross salaries to the annuity plan. Such annuity plan is a defined benefit plan. Related expenses are recognised in profit or loss when incurred.

###### *Supplementary retirement benefits*

The Group pays supplementary retirement benefits to employees of domestic branches who retired at or before 31 December 2008. Such supplementary retirement benefits are defined benefit plans. The Group accrues a liability based on actuarial techniques and recognises all actuarial gains or losses in other comprehensive income. Such actuarial gains or losses will not be reversed to profit or loss subsequently. Past service costs are recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability and recognised in profit or loss when incurred.

##### **(c) Early retirement expenses**

The Group pays the welfare benefits for employees, who have not yet reached the statutory retirement age limit and are approved by the Group to voluntarily retire from their employment, from the early retirement date to the statutory retirement age limit. These welfare benefits are recognised in profit or loss based on the discounted cash flow calculation over the implementation period. The Group reviews present value of the welfare benefits on each reporting date, with any changes recognised in profit or loss.

#### 2.23 Foreign currency translation

Renminbi ("RMB") is the currency of the primary economic environment in which the Bank and the Group's domestic subsidiaries operate. Therefore, the Bank and the Group's domestic subsidiaries choose RMB as their functional currency. The Bank and the Group's foreign subsidiaries choose their respective functional currencies on the basis of the primary economic environment in which they operate. The Group adopts RMB to prepare its consolidated financial statements.

In preparing the financial statements of each individual Group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured at historical cost in a foreign currency are not retranslated.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### 2.23 Foreign currency translation *(Continued)*

At the reporting date, foreign currency monetary items are translated into functional currency using the spot exchange rates at the reporting date. Exchange differences arising from the differences between the spot exchange rates prevailing at the reporting date and those on initial recognition or at the previous reporting date are recognised in profit or loss for the period, except that (1) exchange differences related to hedging instruments for the purpose of hedging against foreign exchange risks are accounted for using hedge accounting; (2) exchange differences arising from non-monetary items at fair value through other comprehensive income (such as shares) denominated in foreign currencies and changes in the carrying amounts (other than the amortised cost) of monetary items at fair value through other comprehensive income are recognised as other comprehensive income; and (3) exchange differences arising on a foreign currency monetary item that forms part of the Bank's net investment in a foreign operation.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the spot exchange rates at the date of the transactions or a rate that approximates the spot exchange rates of the date of the transaction. Exchange differences arising, if any, are recognised in other comprehensive income.

On disposal of the Group's entire interest in a foreign operation, or upon a loss of control over a foreign operation due to disposal of certain interest in it or other reasons, the Group transfers the accumulated exchange differences arising on translation of financial statements of this foreign operation and foreign currency monetary items that form part of the net investment in such foreign operation attributable to the owners' equity of the Group and presented under shareholder's equity in the statement of financial position, to profit or loss in the period in which the disposal occurs.

In case of a disposal or other reason that does not result in the Group losing control over a foreign operation, the proportionate share of accumulated exchange differences arising on translation of financial statements are re-attributed to non-controlling interests and are not recognised in profit and loss. For partial disposals of equity interests in foreign operations which are associates and joint ventures, the proportionate share of the accumulated exchange differences arising on translation of financial statements of foreign operations is reclassified to profit or loss.

### 2.24 Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that an outflow of economic resources will be required or the amount of obligation cannot be measured reliably. Contingent liabilities are disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that outflow is probable and can be reliably estimated, it will then be recognised as a provision.

### 2.25 Insurance contracts

#### **(a) Insurance contracts classification and division**

Insurance contracts are those contracts under which the Group has undertaken significant insurance risk, relative to an insured event or occurrence. The Group issues primarily life insurance contracts, which insure events associated with mortality over a long duration. The Group also issues non-life insurance contracts, which cover short-term casualty and health insurance risk. When necessary, the Group enters into reinsurance contracts to transfer insurance risks to a reinsurer. A significant insurance risk test is performed at inception of the insurance contracts.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.25 Insurance contracts *(Continued)*

##### **(a) Insurance contracts classification and division** *(Continued)*

Under the contract the insurer signed with the policyholder, the insurer may undertake insurance risk or other risks, or both insurance risk and other risks.

Where the Group undertakes both the insurance risk and other risks, and the insurance risk and other risks can be distinguished and separately measured, the insurance risk shall be separately accounted for as insurance contracts while the other risks shall be accounted for as either investment contracts or service contracts. Where the insurance risk and other risks cannot be distinguished from each other, or can be distinguished but cannot be separately measured, significant insurance risk test shall be performed at the contract's initial recognition date. If the insurance risk is significant, the contract is classified as an insurance contract; otherwise, it is classified as an investment contract or service contract.

##### **(b) Insurance income recognition**

Insurance premium income is recognised when all of the following criteria are met:

- (i) The insurance contract is issued, and related insurance risk is undertaken by the Group;
- (ii) The related economic benefits are likely to flow to the Group; and
- (iii) Related income can be reliably measured.

Premiums from long-term life insurance contracts are recognised as revenue when due from policyholders. Premiums related to short-term non-life insurance contracts are recognised when received at the inception of the policy, as unearned insurance premiums in the consolidated statement of financial position, and are amortised on a straight-line basis into the consolidated income statement over the term of the policy. When the Group has transferred insurance risk through reinsurance contracts, the Group calculates the amount of premium ceded and the reinsurers' share of expenses and recognises them through the consolidated income statement in accordance with the terms of the reinsurance contracts.

##### **(c) Insurance contract reserves**

Insurance contract liabilities are measured based on a reasonable estimate of the amount of payments that the Group will be required to make to fulfil its obligations under the insurance contracts, which represents the difference between expected future cash outflows and inflows related to such contracts. A reasonable estimate of expected future net cash flows is determined based on information currently available as at the end of the reporting period. The Group has considered the impact of time value in the liability calculation for long-term life insurance.

The Group performs liability adequacy tests based on information currently available, as at the reporting date. Additional insurance contract liabilities should be recorded if any deficiency exists.

#### 2.26 Credit related commitments and financial guarantees

Financial guarantees are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument.

Financial guarantees are initially recognised at fair value on the date the guarantee was given. Subsequent to initial recognition, the Group's liabilities under such guarantees are measured at the higher of the initial amount, less amortisation of guarantee fees, and the best estimate of the expected credit loss provision required to settle the guarantee. Any increase in the liability relating to guarantees is taken to the consolidated statement of profit and loss.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.26 Credit related commitments and financial guarantees (Continued)

The impairment allowance of loan commitments provided by the Group is measured by ECL. The Group has not provided any commitment to provide loans at a below-market interest rate, or that can be settled net in cash or by delivering or issuing another financial instrument.

For credit related commitments and financial guarantees, the loss allowance is recognised as an provision. However, for contracts that include both a loan and an undrawn commitment and the Group can not separately identify the ECL on the undrawn commitment component from those on the loan component, the ECL on the undrawn commitment are recognised together with the loss allowance for the loan. To the extent that the combined ECL exceed the gross carrying amount of the loan, the ECL are recognised as a provision.

### 2.27 Fiduciary activities

In activities where the Group acts in a fiduciary capacity such as trustee, custodian or agent, the assets and income arising from the transaction together with the related undertakings to return the assets to customers are excluded from the Group's consolidated financial statements.

The Group conducts entrusted lending for the third-party lenders. The Group grants loans to borrowers, as trustee, according to the instruction of the third-party lenders who fund these loans. The Group is responsible for the arrangement and collection of the entrusted loans and receives a commission for the services rendered. As the Group does not assume the risks and rewards of the entrusted loans and does not provide funding for the corresponding entrusted funds, the entrusted loans are not recognised as assets and liabilities of the Group.

### 2.28 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the person or Group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined the Board of Directors and the senior management team represented by the governor as its chief operating decision maker.

An operating segment is a component of the Group with all of the following conditions are satisfied: (1) that component can earn revenues and incur expenses from ordinary activities; (2) the component's operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and (3) discrete financial information for the component is available to the Group. If two or more operating segments have similar economic characteristics, and certain conditions are satisfied, they may be aggregated into a single operating segment. Intra-segment income and expenses are eliminated. Income and expenses directly associated with each segment are considered in determining segment performance.

The Group has the following segments: Yangtze River Delta, Pearl River Delta, Bohai Rim Economic Zone, Central China, Western China, Northeastern China, Overseas and Head Office.

### 2.29 Critical accounting estimates and judgments in applying accounting policies

The preparation of financial statements in conformity with IFRSs and the disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and of the Hong Kong Companies Ordinance require the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### 2.29 Critical accounting estimates and judgments in applying accounting policies *(Continued)*

##### **(a) Measurement of the expected credit loss allowance**

The measurement of the expected credit loss allowance for financial assets measured at amortised cost, debt investment measured at fair value through other comprehensive income and credit related commitments and financial guarantees, is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses). Note 3.1 specifies the parameters, assumptions and estimation techniques used in the measurement of expected credit loss and also discloses the sensitivity of expected credit losses to changes in these factors.

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Segmentation of business operations sharing similar credit risk characteristics, selection of appropriate models and determination of relevant key measurement parameters;
- Criteria for determining whether or not there was a significant increase in credit risk, or a default or impairment loss was incurred;
- Economic indicators for forward-looking measurement, and the application of economic scenarios and weightings;
- Management overlay adjustments due to significant uncertain factors not covered in the models; and
- The estimated future cash flows for loans and advances to customers and financial investments at amortised cost for which DCF model was used to calculate ECL.

Detailed information about the judgements and estimates made by the Group in the above areas is set out in Note 3.1.

##### **(b) Fair value of financial instruments**

The fair values of financial instruments that are not quoted in active markets are determined by using valuation techniques. These valuation techniques include the use of recent arm's length transactions, observable prices for similar instruments, discounted cash flow analysis using risk-adjusted interest rates, and commonly used market pricing models. To the extent practical, models use observable data such as interest rate yield curves, foreign currency rates and implied option volatilities, however areas such as credit risk (both own and counterparty's), volatilities and correlations require management to make estimates. Where market observable inputs are not available, they are estimated using assumptions that are calibrated as closely as possible to market observable data. Changes in assumptions about these factors could affect reported fair value of financial instruments.

The Group assesses assumptions and estimates used in valuation techniques including review of valuation model assumptions and characteristics, changes to model assumptions, the quality of market data, whether markets are active or inactive, other fair value adjustments not specifically captured by models and consistency of application of techniques between reporting periods as part of its normal review and approval processes. Valuation techniques are validated and periodically reviewed and, where appropriate, have been updated to reflect market conditions at the financial reporting date.

Detailed information about the judgements and estimates made by the Group in the above areas is set out in Note 3.4.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### 2.29 Critical accounting estimates and judgments in applying accounting policies *(Continued)*

#### **(c) Income taxes**

The Group is subject to income tax various jurisdictions; principally, in Mainland China and Hong Kong Special Administrative Region of the PRC. There are certain transactions and activities for which the ultimate tax determination is uncertain during the ordinary course of business. The Group has made estimates for application of tax legislation and items of uncertainty taking into account existing tax legislation and past practice. Where the final tax outcome of these matters is different from the amounts that were initially estimated, such differences will impact the current income tax and deferred income tax in the period during which such a determination is made.

#### **(d) Consolidation of structured entities**

Where the Group acts as asset manager of or investor in structured entities, the Group makes significant judgement on whether the Group controls and should consolidate these structured entities. When performing this assessment, the Group assesses the Group's contractual rights and obligations in light of the transaction structures, and evaluates the Group's power over the structured entities, performs analysis and tests on the variable returns from the structured entities, including but not limited to commission income and asset management fees earned as the asset manager, the retention of residual income, and, if any, the liquidity and other support provided to the structured entities. The Group also assesses whether it acts as a principal or an agent through analysis of the scope of its decision-making authority over the structured entities, the remuneration to which it is entitled for asset management services, the Group's exposure to variability of returns from its other interests in the structured entities, and the rights held by other parties in the structured entities.

#### **(e) Derecognition of financial assets**

In judging whether the transaction in which a loan transfer through packaging and asset securitisation is consistent with the termination confirmation of a financial asset, the Group needs to assess whether the Group meets the criteria for the transfer of financial assets and whether almost all risks and rewards in the ownership of the loan are transferred. If there is neither a transfer nor a retention of almost all the risks and rewards on the ownership of the transferred loan, the Group will further assess whether control over the transferred loan has been retained. In assessing and judging, the Group has taken into account a wide range of factors, such as whether trading arrangements are accompanied by repurchase clauses. The Group sets situational assumptions and uses the future cash flow discount model for risk and compensation transfer testing. The Group derecognised the loan only if the loan has been transferred and almost all risks and benefits in ownership have been transferred to another subject. If the Group retains almost all the risks and rewards associated with the ownership of the transferred loan, it shall continue to confirm the loan and at the same time recognise the proceeds received as a financial liability. If the Group has neither transferred nor retained almost all of the risks and rewards in the ownership of the loan and has not waived its control over the loan, the financial assets concerned are recognised to the extent that the loan continues to be involved and the relevant liability is recognised accordingly.

#### **(f) Impairment of non-financial assets**

Non-financial assets are periodically reviewed for impairment and where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. The recoverable amount is the higher of the asset's fair value less costs to sell and the present value of the asset's expected future cash flow.

Fair value is usually based on market prices, and the management obtains it from professional appraisal agencies. Disposal costs include legal fees and taxes related to the asset disposal. When estimating the present value of the expected future cash flow of fixed assets leased out by the subsidiary, the management takes the rents agreed in the leasing contracts and the asset value at the end of the lease term as the basis of estimation and uses appropriate discount rates to determine the present value of future cash flows. Since the outbreak of the pandemic influenced the liquidity of some lessees, the Group considers various scenarios of these lessees under the circumstances of the pandemic and makes estimations of future cash flows under different scenarios. The asset value at the end of the lease term is obtained from professional appraisal agencies. Due to the uncertainty over the development and prevention of the pandemic, there remains uncertainty over the future cash flows and pre-tax discount rates of the rents in the calculation of the present value of future cash flow.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT

#### Overview

The Group's activities expose it to a variety of financial risks and those activities involve analysis, evaluation, acceptance and management of a certain degree of risks or a portfolio of risks. The Group's aim is to achieve an appropriate balance between risks and returns and minimise potential adverse effects on the Group's financial performance. The main types of financial risks are credit risk, liquidity risk, market risk, operational risk, etc.

The Group's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, monitor the risks and to control the risk limits through reliable and up-to-date information systems. The Group regularly reviews its risk management policies and systems to reflect changes in markets and products and the latest best practice.

#### Risk management framework

The Board of Directors sets out risk management strategies, overall risk preference and risk tolerance level. The senior management establishes risk management policies and procedures according to the strategies set by the Board of Directors. The Risk Management Department/Internal Control and Crime Prevention Office at Head Office serves as the chief department for the Group's risk management and leads the overall risk management duties, of which the crucial ones would be further designated to specific leading departments. The risk management division in each operation department at Head Office, in each domestic and overseas branch and in each subsidiary undertakes specific risk management function. Internal Audit Department is responsible for independent review of risk management and control environment.

#### 3.1 Credit risk

Credit risk is the risk of loss that a borrower or counterparty fails to or is unwilling to meet its obligations. Credit risk arises principally from loans and advances to customers, financial investments, derivative instruments and due from and placements with banks and other financial institutions. There is also credit risk in off-balance sheet items such as loan commitments, financial guarantees, acceptances and letters of credit. Credit risk is a major risk to which the Bank is exposed. Therefore, the Group manages and controls the overall credit risk, integrated into the comprehensive risk management, in a prudent manner, and reports regularly to the Senior Management and the Board of Directors of the Group.

##### 3.1.1 Credit risk management

The Group's credit risk management is assumed by major functions such as Retail Credit Department, Corporate Business Department, Inclusive Finance Department, Personal Finance Business Department, Pacific Credit Card Centre, Credit Management Department, Credit Authorisation Department, Risk Management Department/Internal Control and Crime Prevention Office, Asset Preservation Department, Financial institution Department and Financial Market Department. They are responsible for the standardised management of corporate and retail credit businesses in terms of guidance on credit investment, credit investigation and report, credit approval, loan granting, post-loan management and non-performing loan management.

##### (a) Loans and advances to customers and off-balance sheet commitments

As for corporate loans, the Group's relationship managers are responsible for receiving application files submitted by the applicants, conducting pre-loan investigation, assessing the credit risk, and raising the proposed rating. The Group adopts the hierarchical approval system at the branch and Head Office level based on the credit approval authority. Credit line is determined by taking into account the credit record, financial position, collaterals and guarantees of the applicant, overall credit risk of the credit portfolio, macroeconomic regulation and control policies and relevant laws and regulations. The Group keeps a close eye on the economic and financial trend and credit risk profile in the industry, provides more guidance on credit investment, formulate guidance for different industries, strengthens daily risk pre-warning, monitoring and specific risk investigation, identify customers under major risks and material potential risk points, enhances the refinement of post-loan management and centers on customer credit risk management to carry out post-loan management. The independent loan granting centre shall review the compliance, completeness and effectiveness of relevant credit files before loan granting according to the applications for drawdown of credit line. The Group's relationship managers are primarily responsible for post-loan management. The Group adopts a series of tools and approaches, such as risk filtering, list management, risk warning and risk investigation, in daily risk monitoring of corporate loans. The Group manages non-performing loans mainly through (1) collection; (2) restructuring; (3) disposal of collaterals or recourse to the guarantors; (4) litigation or arbitration; (5) disposal.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.1 Credit risk (Continued)

#### 3.1.1 Credit risk management (Continued)

##### (a) Loans and advances to customers and off-balance sheet commitments (Continued)

For retail credit assets, the Group manages the overall risk profile of retail credit business through on-site review and adoption of reporting system on material matters, strengthens daily risk monitoring and pre-warning through optimising management system, standardises operation process of retail credit business through formulating manuals for personal loans and small-enterprise loans, identifies and reveals material potential risks on a timely manner through strengthening risk monitoring and early-warning, and understands and forecasts the quality trends so as to adopt targeted risk control measures in advance by using stress testing and quality migration analysis. In addition, the Group continues to carry out fast response mechanism to address emergencies properly and maintains a list to manage those key risk projects through risk monitoring, guidance, collection and mitigation.

The Group adopts categorised management for retail credit assets on the basis of overdue ageing and guarantee type. With regard to retail credit customers with overdue loans, different approaches are adopted to collect such loans based on their overdue days.

Credit Card Centre of the Group is in charge of the operation and management of credit card business. Credit Card Centre of the Group adopts various supervisory and preventive measures. It reinforces data cross-validation to enhance risk prevention in the approval process, reduces risk exposure to high risk customers through subsequent credit investigation and enters into the intervention process earlier than scheduled, effectively improves collection result through reasonable allocation of available resources, and optimises data analytic system to further enhance the management of credit card business.

##### (b) Treasury business

For treasury business (including debt investments), the Group chooses banks and other financial institutions prudently and balances the credit risk and return rate of investments. By making reference to internal and external credit rating information, the Group approves credits of different levels and uses an appropriate credit limit management system to review and adjust credit lines, aiming to manage the credit risk exposed to the treasury business.

For debt securities, internal and external ratings (such as Standard and Poor's) are used by the Group when available for managing the credit risk exposed to debt securities and bills. The investment in those debts and bills is to have better credit quality assets while maintaining readily available liquidity resource. The bond issuers involved with the Group are subject to the credit granting review and approval of the Head Office and credit limits are placed on such issuers.

Debt investments other than debt securities include investments in fund trust schemes, asset management plans and wealth management products set up by banking financial institutions. Fund trust schemes and asset management plans, the funds of which ultimately go to trust loans, are mainly managed and operated by third-party trustees and asset managers. The Group implements a rating system for accepting trust companies, securities companies and fund companies, sets credit limits for repurchase parties of trust beneficiary right, ultimate borrowers of targeted asset management plans, and issuers of inter-bank wealth management products, and carries out follow-up risk management on a regular basis.

As for derivative instruments, the Group maintains strict limits on net open derivative investment positions (i.e., the difference between long and short contracts), by both amount and maturity. At any time, the amount subject to credit risk is limited to the current fair value of instruments that are favourable to the Group (i.e., assets where their fair value is positive), which, in relation to derivative instruments, is only a fraction of the contract's notional amount used to express the amount outstanding. This credit risk exposure is managed as part of the overall lending limits with customers, together with potential exposures from market fluctuations. Collateral or other security is not usually obtained for credit risk exposures on these instruments, except when the Group requires margin deposits from counterparties. The management has set limits of these contracts according to counterparty, and regularly monitor and control the actual credit risk when the Group concludes foreign exchange and interest rate contracts with other financial institutions and clients.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.1 Credit risk *(Continued)*

##### 3.1.1 Credit risk management *(Continued)*

###### (b) Treasury business *(Continued)*

The Group manages the credit quality of due from and placements with banks and other financial institutions, and balances arising from transactions for precious metals, by considering the size, financial position, the internal and external credit rating of the banks and other financial institutions. The Head Office monitors and reviews the credit risk of due from and placements with banks and other financial institutions by counterparties regularly. Limits are placed on different counterparties.

###### (c) Credit-related commitments

Credit risk exposures to financial guarantees are the same as that of loans. However, commercial letters of credit are usually pledged by the relevant shipped goods, and therefore are subject to lower risk compared with direct loans. Credit-related commitments are included in the management of overall credit line granted to the applicant. For customers with transactions beyond the credit limit or infrequent transactions, the applicant shall be requested to provide relevant margin deposits in order to reduce credit risk exposures.

###### (d) Credit risk quality

In accordance with the *Guideline for Loan Credit Risk Classification* issued by the CBIRC, the Group measures and manages the quality of corporate and personal loans and advances by classifying loans into the following five categories: normal, special-mention, substandard, doubtful and loss, of which substandard, doubtful and loss loans are regarded as non-performing loans.

The five categories of loan classification into which the Group classifies its loans and advances to customers are set out below:

|                  |  |
|------------------|--|
| Normal:          | Borrowers can honour the terms of their loans. There is no reason to doubt their ability to repay principal and interest in full on a timely basis.  |
| Special-mention: | Borrowers are able to service their loans currently, although repayment may be adversely affected by specific factors.   |
| Substandard:     | Borrowers' ability to service their loans is in question and they cannot rely entirely on normal operating revenues to repay principal and interest. Losses may ensue even when collaterals or guarantees are invoked. |
| Doubtful:        | Borrowers cannot repay principal and interest in full and significant losses will need to be recognised even when collaterals or guarantees are invoked.   |
| Loss:            | Only a small portion or none of the principal and interest can be recovered after taking all possible measures and exhausting all legal remedies.  |

##### 3.1.2 Expected credit loss ("ECL")

The Group measures the ECL of financial instruments at amortised cost or debt investments at fair value through other comprehensive income ("FVOCI"). The Group divides them into 3 stages by assessing whether there has been a significant increase in credit risk since initial recognition to recognise ECL.

The Group measures the ECL of a financial instrument in a way that reflects:

- (1) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (2) the time value of money;
- (3) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.1 Credit risk (Continued)

#### 3.1.2 Expected credit loss ("ECL") (Continued)

##### *Stage classification*

The Group divides them into 3 stages. Stage 1 is "financial assets without significant increase in credit risk since initial recognition", at which the Group only needs to measure ECL in the next 12 months. Stage 2 is "financial assets with significant increase in credit risk" and stage 3 is "credit-impaired financial assets", at both of which the Group needs to measure lifetime ECL.

##### *Definition of credit-impaired and default*

The criteria adopted by the Group to determine whether a credit impairment occurs under IFRS 9 is consistent with the internal credit risk management objectives for relevant financial instrument, in addition to consideration of quantitative and qualitative indicators.

In general, the Group considers a financial instrument to be credit-impaired or otherwise in default when one or more of the following criteria have been met:

- (1) Principal (including advances, applies to below) or interest of the asset is more than 90 days past due;
- (2) The issuer or obligor is in significant financial difficulty, or has already become insolvent;
- (3) It is becoming probable that the obligor will enter bankruptcy;
- (4) An active market for that financial asset has disappeared because of financial difficulties of issuers;
- (5) Other objective evidence indicating impairment of the financial asset.

##### A significant increase in credit risk

The Group assesses quarterly whether the credit risk on a financial instrument has increased significantly since initial recognition. In determining the stage classification of a financial asset, the Group considers all reasonable and supportable information which reflects whether there have been significant changes in credit risk, including that which is forward-looking. Based on an individual financial instrument or a portfolio of financial instruments with similar credit risk characteristics, the Group compares risk of default occurring at reporting date as with initial recognition, in order to determine possible changes in risk of default occurring during the expected life of the financial instrument. The Group considers a financial instrument to have experienced a significant increase in credit risk when one or more of the following criteria have been met:

- (1) Principal or interest of the instrument is more than 30 days past due;
- (2) Credit rating of obligor changes significantly. Credit rating is based on both internal and external rating results, and the criteria are as follow: (a) a significant increase in credit risk is determined when internal and external rating during the reporting period is below the Group's credit acceptance standards; (b) The non-retail assets' internal ratings are downgraded by 3 ranks or above upon initial recognition;
- (3) Significant adverse issues have negative impacts on obligator's repayment ability;
- (4) Other circumstances of significant increase in credit risk. For example, appearance of other risk alarm indicators which imply growing potential risk and could cause losses of financial assets to the Group.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.1 Credit risk *(Continued)*

##### **3.1.2 Expected credit loss (“ECL”) *(Continued)***

*Definition of credit-impaired and default (Continued)*

A significant increase in credit risk *(Continued)*

The financial assets are moveable between stages. For instance, financial instruments originally classified at stage 1 should be downgraded to stage 2 if events occur such as a significant increase in credit risk. Financial instruments at stage 2 could be upgraded to stage 1 if credit risk decreases and the criteria for the determination of “a significant increase in credit risk” are no longer met.

After the outbreak of the pandemic of COVID-19, the Group strictly followed the regulatory policies and requirements and prudently evaluates the repayment ability of the clients who apply for payment holiday. On the premise that the subsequent risks will not be enlarged and subsequent settlement will not be affected, the Group provided relief measures to those clients meeting specific criteria by extending the maturity and so on. The Group has assessed whether the relief measures would cause a significant increase in credit risks and has adjusted the stage classification as appropriate.

*Description of parameters, assumptions and estimation techniques*

The Group recognises a loss allowance to different financial instruments at an amount equal to 12-month or lifetime expected credit loss based on whether there has been a significant increase in credit risk and whether the financial instrument is credit-impaired. ECL is the result of discounted product of the weighted average of “probability of default (PD)”, “loss given default (LGD)”, “exposure at default (EAD)” under the three scenarios, which are defined as follows:

Probability of default (PD) is the probability of default occurring of a client and its assets in a given period of time in the future.

Exposure at default (EAD) represents the total amount of on-balance sheet and off-balance sheet exposure at the time of default by debtor, reflecting the total amount of possible losses likely to be incurred. In general, this includes the utilised credit limit, interest receivable, the anticipated usage of unused credit facilities as well as the related expenses to be incurred.

Loss given default (LGD) represents the percentage of amount of loss to be incurred in the event of default to the total risk exposure. It typically varies by nature of debtor, type and seniority of claim and the availability of collaterals or other credit risk mitigation.

Definition of default has been consistently applied to model establishment of probability of default (PD), exposure at default (EAD), loss given default (LGD) in ECL calculation throughout the Group.

Estimation of ECL: the impairment models

The impairment models adopt a top down approach. Through grouping, the models cover the risk exposures of financial institutions, corporates and retailers. The Group has established a macro-economic forecast model driven by the year-on-year Gross Domestic Product (GDP) growth rate to forecast values of macro-economic indicators in multiple categories, including national accounts, price index, foreign trades, fixed asset investments, currency and interest rates, under three scenarios, namely “Basic Scenario”, “Optimistic Scenario” and “Pessimistic Scenario”. The forecasts, after evaluation and confirmation by economic experts and senior management of the Bank, are used in asset impairment model. The macro scenario settings and the rationality of the weightings are reviewed and adjusted quarterly, based on changes in the internal and external economic environment.

In 2021, The Group forecasts the 2022 year-on-year growth rate of GDP to be 5.0% in the Basic Scenario, 7.0% in the Optimistic Scenario and 4.3% in the Pessimistic Scenario. The Group fully considered the macroeconomic forecast for 2022 when evaluating the forecast information used in the impairment models, and made prudential adjustments to the macro scenario settings.

Where impairment models could not be established due to lack of data support, the Group endeavoured to select appropriate methods in order to make prospective estimation. The Group made prospective adjustments to impairment calculation of overseas branches and subsidiaries regularly based on macro-forecast data from authoritative institutions (such as IMF and the World Bank). For asset portfolios not covered by impairment models, expected loss rate was set by referring to that of similar asset portfolios with impairment models available. **F-52**

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.1 Credit risk (Continued)

#### 3.1.2 Expected credit loss ("ECL") (Continued)

Description of parameters, assumptions and estimation techniques (Continued)

##### Grouping of instruments with similar credit risk characteristics

To calculate the relevance between ECL allowance and macro-economic indicators, a grouping of exposure is performed for assets with similar credit risk characteristics. In performing this grouping, the Group has obtained sufficient information to ensure the data reliability for statistical purposes. Where sufficient information is not available internally, the Group has leveraged supplementary data from both internal and external environments to help establish impairment model. Non-retail assets of the Group are mainly grouped according to industries, while retail assets are mainly grouped based on product types, repayment methods and so on.

##### Sensitivity analysis

As at the balance sheet date, the basic scenario weighting is higher than the non-basic scenario weighting. The probability-weighted impairment allowance under three scenarios is higher than the basic scenario impairment allowance by the following amounts:

|  | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--|---------------------------|---------------------------|
| Corporate loans  | (167)                     | 337                       |
| Personal loans   | 203                       | 96                        |
| Debt investments at amortised cost and fair value through other comprehensive income | 1                         | 10                        |

If the optimistic scenario weighting increases by 10%, and the basic scenario weighting decreases by 10%, the impairment allowance of loans and advances will decrease by RMB813 million (31 December 2020: RMB484 million), and the impairment allowance of debt investments at amortised cost and fair value through other comprehensive income will decrease by RMB6 million (31 December 2020: RMB6 million). If the Pessimistic scenario weighting increases by 10%, and the Basic scenario weighting decreases by 10%, the impairment allowance of loans and advances will increase by RMB849 million (31 December 2020: RMB1,402 million), and the impairment allowance of debt investments at amortised cost and fair value through other comprehensive income will increase by RMB7 million (31 December 2020: RMB23 million).

#### 3.1.3 Maximum exposure to credit risk

##### 3.1.3.1 Maximum exposure to credit risk – financial instruments included in impairment assessment

The Group categorises asset risk characteristics based on the quality of the assets, differentiating financial instruments that are likely to incur expected credit losses as "Low risk", "Medium risk", "High risk" and "Impaired". "Low risk" refers to counterparty with strong repayment ability, low probability of impairment in the future, and minor effect of adverse external factors. "Medium risk" refers to counterparty with certain repayment ability, but business, finance, and economic conditions that are continuously unstable and worsening will potentially cause its repayment ability to descend. "High risk" refers to counterparty with adverse factors that are likely to impact its repayment ability significantly or with high probability of impairment in the future. And "Impaired" refers to the assets met the Group's definition of credit-impaired.

The table below analyses exposure to credit risk of financial instruments included in expected credit losses assessment. The balance of financial instruments below is the maximum exposure to credit risk of these instruments in the Group.

| Total   | 614,281                         | 479,319          |

##### 3.1.3.3 Collaterals and other credit enhancements

The Group manages, limits and controls concentrations of credit risk wherever they are identified, in particular, to individual counterparty, groups, industry segments and geographical regions.

The Group optimises its credit risk structure by placing limits in relation to one borrower, or group of borrowers. Such risks are monitored by the Group on a regular basis and subject to annual or more frequent review, whenever necessary.

The exposure to any single borrower including banks and brokers is further restricted by sub-limits covering on- and off-balance sheet exposures, and daily delivery risk limits in relation to trading items such as forward foreign exchange contracts. The Group monitors the actual credit risk exposure and credit limits on a daily basis.

Exposure to credit risk is also managed through regular analysis of the ability of borrowers and potential borrowers to meet principal and interest repayment obligations. The Group will change their lending limits when appropriate based on the analysis.

Some other specific control and risk mitigation measures are outlined below.

#### (a) Collaterals

The Group employs a range of policies and practices to mitigate credit risk. The most common practice is to accept collaterals or pledges. The Group implements guidelines on the acceptability of specific classes of collaterals and pledges. The principal types of collaterals and pledges for loans and advances to customers are:

- Residential properties;
- Business assets such as premises, inventory and receivables;
- Financial instruments such as debt securities and stocks.

(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.1 Credit risk (Continued)

#### 3.1.3 Maximum exposure to credit risk (Continued)

##### (a) Collaterals (Continued)

The value of collaterals at the time of loan origination is subject to loan-to-value ratio limits based on collateral types. The principal types of collaterals for corporate loans and personal loans are as follows:

| Collaterals                                   | Maximum loan-to-value ratio |
|---|-----------------------------|
| Cash deposits with the Group                  | 90%                         |
| PRC treasury bonds                            | 90%                         |
| Financial institution bonds                   | 90%                         |
| Publicly traded stocks                        | 60%                         |
| Rights to collect fees or right of management | 65%                         |
| Properties                                    | 70%                         |
| Land use rights                               | 70%                         |
| Vehicles                                      | 50%                         |

Long-term loans and advances to corporate and personal customers are generally secured, while revolving individual credit facilities are generally unsecured. In addition, in order to minimise the credit loss the Group will seek additional collaterals and pledges from the counterparties as soon as impairment indicators are noted for the personal loans and advances.

For loans guaranteed by a third-party guarantor, the Group will assess the financial condition, credit history and ability to meet obligations of the guarantor.

Collaterals and pledges held as security for financial assets other than loans and advances to customers are determined by the nature of the instrument. Debt securities, PRC treasury bonds and the PBOC bills are generally unsecured, with the exception of asset-backed securities, which are secured by portfolios of financial instruments.

The Group closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Group will take possession of collateral to mitigate potential credit losses. Financial assets that are credit-impaired and related collateral held in order to mitigate potential losses are shown below:

|  | Gross exposure | Impairment allowance | Carrying amount | Fair value of collateral held |
|--|----------------|----------------------|-----------------|-------------------------------|
| <b>As at 31 December 2021</b>  |                |                      |                 |                               |

| Financial investments  |                |                      |                 |                               |
| Financial investments at amortised cost  | 794            | (524)                | 270             | 2                             |
| Debt investments at fair value through other comprehensive income                | 72             | –                    | 72              | –                             |

**(b) Master netting arrangements**

The Group further restricts its exposure to credit losses by entering into master netting arrangements with counterparties with which it undertakes a significant volume of transactions. Master netting arrangements do not generally result in an offset of assets and liabilities in the statement of financial position, as transactions are usually settled on a gross basis. However, the credit risk associated with favourable contracts is reduced by a master netting arrangement to the extent that if a default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Group's overall exposure to credit risk on derivative instruments subject to master netting arrangements can change substantially within a short period, as each transaction subject to the arrangement affects credit risk.

**3.1.4 Derivative instruments**

The Group undertakes its transactions in foreign exchange, commodity, interest rate and other derivative contracts with other financial institutions and customers. The management has established limits for these contracts based on counterparties, industry sectors and countries. Actual credit risk exposures are regularly monitored and controlled by the management.

*Credit risk-weighted amounts*

|  | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--|---------------------------|---------------------------|
| Counterparty credit risk-weighted amount | 53,789                    | 50,052                    |

The credit risk-weighted amounts are the amounts calculated with reference to the guidelines issued by the CBIRC and are dependent on, amongst other factors, the creditworthiness of the counterparty and the maturity of each type of contract.

The credit risk-weighted amounts stated above have not taken the effects of netting arrangements into account.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.1 Credit risk (Continued)

##### 3.1.5 Foreclosed assets

|                             | As at<br>31 December 2021 | As at<br>31 December 2020 |
|-----------------------------|---------------------------|---------------------------|
| Buildings                   | 1,424                     | 1,085                     |
| Land use rights             | 8                         | 10                        |
| Others                      | 5                         | 14                        |
| Gross                       | 1,437                     | 1,109                     |
| Less: Impairment allowances | (407)                     | (142)                     |
| Net                         | 1,030                     | 967                       |

Foreclosed assets are sold as soon as practicable with the proceeds used to reduce the outstanding indebtedness. The Group does not generally occupy foreclosed assets for its own business use. Foreclosed assets are classified as other assets in the statement of financial position.

##### 3.1.6 Concentration risk analysis for financial assets with credit risk exposure

The Group mainly manages concentration risk for loans and advances to customers by industry sectors and also manages concentration risk for financial assets by geographical sectors.

##### Concentration risk for geographical sectors

|   | Mainland China | Hong Kong | Others  | Total      |

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.2 Market risk

##### 3.2.1 Overview

Market risk is risk of loss on the Group's on balance sheet and off balance sheet businesses, which is originated from the unfavourable changes and fluctuations in interest rates, foreign exchange rates, commodity price and equity product price. Market risk consists of interest rate risk, foreign exchange rate risk, equity product price risk and commodity price risk. The market risk of the Group mainly comprises interest rate risk and foreign exchange rate risk.

The Group established an integrated market risk management system, formed a market risk management structure with the separation of front and middle-end platforms and specified the responsibilities, the division of labor and the reporting route of the Board of Directors, Board of Supervisors, Senior Management, Special Committees and other relevant departments to ensure the compliance and effectiveness of market risk management.

In accordance with the requirements of the CBIRC, the Group's financial instrument positions are divided into trading book and banking book. The trading book consists of financial instruments held either for trading intent or economic hedging against risks of the trading book. The banking book consists of all financial instruments other than those included in trading book. The Group recognises, measures, monitors and controls the market risks in trading book and banking book according to their nature and characteristics.

With regard to the exchange rate risk and the interest rate risk of trading book, the Group established an effective limit management system by implementing Net Position, Risk Sensitivity, Value at Risk ("VaR") and other indicators. Meanwhile, with regard to the interest risk of banking book, net interest income simulation and gap analysis are the major tools used by the Group to monitor the interest risk of its overall businesses. In addition, through adequate repricing management and structure adjustment of assets and liabilities, the Group strives to maximise its rate of return while keeping its risks under control.

The Group has continuously improved the management system of market risk. The Group conducted stress tests on historical scenarios and hypothetical scenarios in the consideration of the Group's major market risk factors. The Group has realised daily automatic collection of trading data and market data in the system. The Group conducted the management of risk capital and VaR quota, and formulated the quota allocation plans.

The Group also applies sensitivity analysis to assess and measure the market risk of trading book and banking book. Sensitivity analysis indicates the impact on the relevant market risk assuming that only a single variable changes. As any risk variable rarely changes isolatedly, and the correlation between variables will have a significant effect on the final impact amount of the change of a risk variable, the results of sensitivity analysis can only provide limited market risk information.

The major measurement techniques used to measure and control market risk are outlined below:

##### 3.2.2 VaR

VaR refers to the maximum loss that an investment portfolio may incur at a given confidence level and holding period caused by the changes in market price factors such as interest rates and exchange rates etc. The Group adopted the historical simulation method to calculate daily VaR (99% confidence interval, the holding period of one day).

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.2 Market risk (Continued)

##### 3.2.2 VaR (Continued)

A summary of VaR by risk type including foreign exchange rate risk and interest rate risk of the trading book of the Group's portfolios is as follows:

| Items                         | Year ended 31 December 2021 |         |         |         |
|-------------------------------|-----------------------------|---------|---------|---------|
|                               | 31 December<br>2021         | Average | Maximum | Minimum |
| VaR                           | 261                         | 381     | 746     | 256     |
| Including: Interest rate risk | 269                         | 306     | 453     | 197     |
| Foreign exchange risk         | 133                         | 209     | 743     | 100     |

| Items                         | Year ended 31 December 2020 |         |         |         |
|-------------------------------|-----------------------------|---------|---------|---------|
|                               | 31 December<br>2020         | Average | Maximum | Minimum |
| VaR                           | 594                         | 501     | 617     | 423     |
| Including: Interest rate risk | 268                         | 296     | 472     | 127     |
| Foreign exchange risk         | 464                         | 485     | 555     | 417     |

##### 3.2.3 Sensitivity analysis

###### Interest rate sensitivity analysis

The table below illustrates the impact on net profit of the Group for the following year based on the structure of financial assets and liabilities as at the date of statement of financial position, resulting from a parallel upward or downward shift of 100 basis points in related yield curves.

|   | Changes in net profit     |                           |
|---|---------------------------|---------------------------|
|   | As at<br>31 December 2021 | As at<br>31 December 2020 |
| +100 basis points parallel shift in yield curves  | 10,562                    | 13,551                    |
| - 100 basis points parallel shift in yield curves | (10,562)                  | (13,551)                  |

The table below illustrates the impact on other comprehensive income of the Group for the following year based on the structure of financial assets and liabilities as at the date of statement of financial position, resulting from a parallel upward or downward shift of 100 basis points in related yield curves.

|   | Changes in other comprehensive income |                           |
|---|---------------------------------------|---------------------------|
|   | As at<br>31 December 2021             | As at<br>31 December 2020 |
| +100 basis points parallel shift in yield curves  | (12,995)                              | (11,882)                  |
| - 100 basis points parallel shift in yield curves | 14,012                                | 12,363                    |

The above-mentioned impact on other comprehensive income arises from the changes in the fair value of fixed-interest-rate bonds at fair value through other comprehensive income, and loans and advances to customers at fair value through other comprehensive income.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

## 3.2 Market risk (Continued)

## 3.2.3 Sensitivity analysis (Continued)

## Interest rate sensitivity analysis (Continued)

The results of the interest rate sensitivity analysis set out in the table above are illustrative only and are based on simplified scenarios. The figures represent the projected impact to the net profit and other comprehensive income caused by the projected movement of current interest risk structure yield curves. This effect, however, does not take into account actions that would be taken by the Group to mitigate the impact of interest rate changes. The projections above also assume that interest rates of all maturities excluding demand deposits move by the same amount and, therefore, do not reflect the potential impact on net profit due to changes in certain rates while others remain unchanged. The projections are based on other simplified assumptions as well, including that all positions are to be held to maturity. There will be changes to the projection if positions are not held to maturity but it is not expected that the changes would be material.

The Group believes the assumption does not represent the Group's policy on use of funds and interest rate risk management. As a result, the above impact may differ from the actual situation.

## Foreign exchange sensitivity analysis

The table below illustrates the impact of a concurrent appreciation or depreciation of RMB spot and forward rates against HKD and USD by 5% on the Group's net profit:

|                        | Changes in net profit     |                           |
|------------------------|---------------------------|---------------------------|
|                        | As at<br>31 December 2021 | As at<br>31 December 2020 |
| 5% appreciation of RMB | (1,803)                   | (1,662)                   |
| 5% depreciation of RMB | 1,803                     | 1,662                     |

The table below illustrates the impact of a concurrent appreciation or depreciation of RMB spot and forward rates against HKD and USD by 5% on the Group's other comprehensive income:

|                        | Changes in other comprehensive income |                           |
|------------------------|---------------------------------------|---------------------------|
|                        | As at<br>31 December 2021             | As at<br>31 December 2020 |
| 5% appreciation of RMB | (1,403)                               | (1,397)                   |
| 5% depreciation of RMB | 1,403                                 | 1,397                     |

The impact on net profit arises from the influences of RMB exchange rate fluctuation on the net position of monetary assets (excluding other book value other than amortised cost of monetary assets at fair value through other comprehensive income) and liabilities denominated in foreign currencies, the net position of non-monetary financial assets (excluding non-monetary items denominated in foreign currencies measured at fair value through other comprehensive income) and liabilities denominated in foreign currencies measured at fair value, and the fair value of currency derivatives denominated in RMB.

The impact on other comprehensive income arises from the influences of RMB exchange rate fluctuation on the differences on translation of foreign currency financial statements of foreign operators, the overseas investment portion of monetary assets denominated in foreign currencies, other book value other than amortised cost of the non-monetary items denominated in foreign currencies measured at fair value through other comprehensive income (such as stock) and monetary items at fair value through other comprehensive income.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.2 Market risk (Continued)

#### 3.2.3 Sensitivity analysis (Continued)

##### *Foreign exchange sensitivity analysis (Continued)*

The above impact on net profit is based on the assumption that the sensitive position of the Group's year-end exchange rate and currency derivatives denominated in RMB remain unchanged around the year. While in practice, the Group will, based on its judgement on the trend of exchange rate, actively adjust the foreign currency position and use appropriate derivative instruments to mitigate the impact of the foreign currency risk. Therefore, the above impact might differ from the actual situation.

#### 3.2.4 Interest rate risk

The Group's interest rate risk mainly arises from interest rate repricing and maturity mismatching of assets and liabilities, and the fluctuation of market interest rates, as well as from the adjustments in the interest rate policies made by the People's Bank of China (the "PBOC"). On 20 July 2013, the PBOC cancelled the lower limit of benchmark interest rates of loans dominated in RMB, allowing financial institutions to determine the loan interest rates independently based on commercial principles. The PBOC cancelled the upper limit of the benchmark interest rates for deposits on 24 October 2015 and established RMB Loan Prime Rate (LPR) as a new pricing benchmark of new loans in 2019. The Group conducts most of its domestic deposit businesses at benchmark interest rates for deposits and conducts most of its domestic loan businesses at LPR published by the PBOC.

The Group pays high attention to the transition of interest rate benchmark and has established a task force to speed up the launch and implementation of this LIBOR reform project. At the current stage, the progress of this reform is basically on schedule. According to the overall timetable of the LIBOR reform, libors in sterling, euro, Swiss franc and Japanese yen, as well as one week and 2-month libors in US dollars, have exited the market on 1 January 2022. The business scale of the Group's contracts in reference to LIBOR with the above currencies and maturities is relatively small, ready for orderly transition according to repricing periods of each business, and the impact of the methods of benchmark transition on interest rate risk is generally under control, which has a relatively limited substantial impact on the operations.

The Group has initially established a relatively complete interest rate risk monitoring system. By using the gap analysis system, the Group regularly monitors the repricing maturity gap of interest rate-sensitive assets and liabilities throughout the Group, takes the initiative to adjust the proportion of interest-bearing assets at floating interest rates and fixed interest rates, and adjusts the repricing term structure of interest rate and manages interest rate risk by applying appropriate derivatives such as interest rate swaps based on allocation strategy of assets and liabilities. Consequently, the Group is less vulnerable to interest rate risk.

During the reporting period, the Group closely monitored the interest rate trend for RMB and foreign currencies, conducted specific management of risk limits, and strengthened comprehensive operations and limit monitoring. In addition, the Group, by rationally adjusting the loan repricing strategies, reinforced the specific management of price negotiation to maximise its rate of return while keeping its risks under control.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.2 Market risk (Continued)

#### 3.2.5 Foreign exchange risk

The Group conducts the majority of its businesses in RMB, and the recording currency is RMB. Certain foreign transactions are conducted in USD, HKD and other currencies. The exchange rate of RMB to USD, HKD or other currencies is subject to the trading rules of China Foreign Exchange Trade System. Exchange rate risk mainly results from currency mismatch between foreign currency assets and liabilities and between off balance sheet currency exposure. The Group has formulated management measures for exchange rate risks, defining the functional division and scope of work of the exchange rate risk management department, risk identification, measurement, monitoring and control methods, and specific measures. Moreover, the Group controls exchange rate risk by setting relevant limits, taking the initiative to adjust the structure of foreign currency assets for a proper matching of currency structure of assets and liabilities, and applying appropriate exchange rate financial derivatives for transfers and hedging based on its own risk tolerance and operating level.

As at 31 December 2021, the exchange rates for US dollar and HK dollar are 1 US dollar to RMB6.3757 (31 December 2020: RMB6.5249) and 1 HK dollar to RMB0.8176 (31 December 2020: RMB0.8416), respectively.

Carrying amounts of the Group's total assets and liabilities categorised by the original currency as at the date of statement of financial position are as follows:

|  | RMB                | USD (RMB<br>Equivalent) | HKD (RMB<br>Equivalent) | Others (RMB<br>Equivalent) | Total               |

## 3.2.6 Other price risk

The Group is exposed to other price risk arising from financial assets such as equity investments and derivatives linked to commodity price. The equity investments arise from the proprietary trading of the Group's subsidiaries which hold the qualification of securities dealing and brokerage as well. As for the proprietary trading exposure, the Group enforces strict management of the risk exposure limit and the balance is insignificant to the Group's financial assets. The Group considers the exposure to the other price risk to be insignificant.

## 3.3 Liquidity risk

## 3.3.1 Overview

Liquidity risk is the risk that occurs when the Group cannot obtain sufficient funds in time and at a reasonable cost to repay debts when they are due, fulfill other payment obligations, or meet other funding needs in the normal course of business. The Group's liquidity risk mainly comes from depositors' early or centralised withdrawals, borrowers' deferred repayment of loans, the amount of assets and liabilities and maturity mismatches.

(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.3 Liquidity risk (Continued)

#### 3.3.2 Liquidity risk management process

The Group implements centralised management of liquidity risk and, on the basis of forecasting liquidity requirements, formulates corresponding liquidity management plans and actively manages the liquidity of the Bank. The specific measures mainly include:

- Pay close attention to changes in the macroeconomic situation, central bank monetary policy, capital market dynamics, etc.
- Enhance weighting of core deposits as a percentage of liabilities, so as to improve the stability of liabilities;
- Monitor and manage liquidity position bank-wide by implementing a series of indicators and restrictions;
- Liquidity position management and cash utilisation functions are centralised by the Head offices;
- Maintain an appropriate level of central bank reserves, overnight inter-bank transactions, highly liquid debt investment, actively involve in capital management through open market, monetary market and bond market in order to ensure optimal financing capability at market places;
- Minimise liquidity risk by proper management of asset maturity structures and multi-level liquidity portfolios.

#### 3.3.3 Non-derivative financial instruments cash flows

The table below presents the structural analysis by contracted maturities on non-derivative financial assets and liabilities of the Group at the balance sheet date. The amount of financial assets and liabilities for each period is the amount of undiscounted cash flows. The Group's expected cash flows on these financial instruments may vary significantly from the following analysis. For example, demand deposits from customers are expected to maintain a stable or increasing balance although they have been classified as repayable on demand in the following tables.

|   | Overdue | Undated   | On Demand   | Up to 1 month | 1 - 3 months | 3 - 12 months | 1 - 5 years | Over 5 years | Total        |

Assets available to repay all of the liabilities and fulfill loan commitments include cash, balances with central banks, due from and placements with banks and other financial institutions, financial investment at fair value through profit or loss, etc. In the normal course of business, a majority of matured deposits will not be withdrew immediately on the maturity date but will continue to be kept by the Group. In addition, financial investments at fair value through other comprehensive income can also be disposed of when necessary to obtain funds for repayment of matured debts.

## 3.3.4 Derivative financial instruments cash flows

The Group's derivative financial instruments are either settled on a net basis or a gross basis.

## (a) Derivative settled on a net basis

The Group's derivative financial instruments that will be settled on a net basis include foreign exchange contracts, commodity contracts, interest rate contracts and others.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### 3.4 Fair value of financial assets and liabilities

##### *(a) Determination of fair value and valuation techniques*

Certain financial assets and liabilities of the Group are measured at fair value or with fair value disclosed for financial reporting purposes. The fair value has been determined using appropriate valuation techniques and inputs for fair value measurements. The appropriateness of the valuation techniques and the inputs to the fair value measurements are reviewed by the Board of Directors periodically.

Fair value measurements are categorised into level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- (1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- (2) Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- (3) Level 3 inputs are unobservable inputs for the asset or liability.

The fair value of financial instruments with unadjusted quoted prices for identical instruments in active markets is determined by the open market quotations. These instruments are classified as level 1.

The Group uses valuation techniques to determine the fair value of financial instruments when an open market quotation in active markets is not obtainable.

If the key parameters used in valuation techniques for financial instruments are substantially observable and obtainable from active open market, the instruments are classified as level 2. The second hierarchy of financial instruments held by the Group mainly includes derivatives, debt securities, certificates of deposit without quotations from active market, loans and advances to customers carried at FVOCI, precious metals, debt securities issued and restricted shares. The fair value of RMB denominated bonds is mainly valued based on the yield curves of the bonds from China Central Depository & Clearing Co., Ltd., while the fair value of the foreign currency denominated bonds is determined based on the valuation results published by Bloomberg. The fair value of foreign currency forwards, swaps, interest rate swaps, foreign currency options is estimated by the discounted cash flow method and Black-Scholes model; the fair value of precious metal contract is mainly determined in accordance with the closing prices of the Shanghai Gold Exchange or the settlement prices of the Shanghai Futures Exchange. The main parameters used in discounted cash flow model include recent market prices, the relevant yield curve, exchange rates and counterparty's credit spread. Main parameters used in Black-Scholes model include the relevant yield curve, exchange rate, level of volatilities and counterparty's credit spread, etc. All parameters used in valuation techniques are substantially observable and obtainable from active open market.

For loans and advances to customers at fair value through other comprehensive income, trust and asset management plan at fair value through profit or loss, the fair value is determined based on discounted cash flow model using unobservable discount rates that reflect credit risk. These financial instruments are classified as level 3.

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### 3.4 Fair value of financial assets and liabilities (Continued)

#### (a) Determination of fair value and valuation techniques (Continued)

For convertible bonds, unlisted equities, unlisted funds and equity derivatives held by the Group, the fair value of these financial instruments are determined with reference to certain unobservable inputs, and therefore the instruments have been classified by the Group as level 3. The management determines the fair value of these financial instruments using a variety of techniques, including using valuation models that incorporate and take into account unobservable inputs such as Discount for Lack of Marketability (DLOM). The Group has established internal control procedures to monitor the Group's exposure to such financial instruments.

#### (b) Financial instruments not measured at fair value

The table below summarises the carrying amount and fair value of those financial assets and liabilities that are not presented at fair value as at the date of statement of financial position. Financial assets and liabilities with carrying amount approximate to fair value, such as cash and balances with central banks, due from and placements with banks and other financial institutions, loans and advances to customers at amortised cost, due to and placements from banks and other financial institutions, and due to customers, are not included in the table below.

|   | As at 31 December 2021 |            | As at 31 December 2020 |            |
|---|------------------------|------------|------------------------|------------|
|   | Carrying amount        | Fair value | Carrying amount        | Fair value |
| <b>Financial assets</b>                 |                        |            |                        |            |
| Financial investments at amortised cost | 2,203,037              | 2,234,814  | 2,019,529              | 2,031,222  |
| <b>Financial liabilities</b>            |                        |            |                        |            |
| Debt securities issued                  | (491,372)              | (496,082)  | (484,382)              | (485,175)  |

#### Fair value hierarchy of financial instruments not measured at fair value

| As at 31 December 2021                  | Level 1        | Level 2        | Level 3        | Total        |
|---|----------------|----------------|----------------|--------------|
| <b>Financial assets</b>                 |                |                |                |              |
| Financial investments at amortised cost | 7,757          | 2,138,742      | 88,315         | 2,234,814    |
| <b>Financial liabilities</b>            |                |                |                |              |
| Debt securities issued                  | –              | (496,082)      | –              | (496,082)    |
| <b>As at 31 December 2020</b>           | <b>Level 1</b> | <b>Level 2</b> | <b>Level 3</b> | <b>Total</b> |
| <b>Financial assets</b>                 |                |                |                |              |
| Financial investments at amortised cost | 2,530          | 1,920,866      | 107,826        | 2,031,222    |
| <b>Financial liabilities</b>            |                |                |                |              |
| Debt securities issued                  | –              | (485,175)      | –              | (485,175)    |

The carrying amounts and fair values of other financial assets and liabilities (including loans and advances to customers at amortised cost, due from and placements with banks and other financial institutions, due to and placements from banks and other financial institutions) are approximately the same, because the interest rates of most of these assets and liabilities are adjusted following the changes in interest rates determined by the PBOC, other regulatory bodies or market.

These financial instruments with fair values determined based on unobservable inputs are primarily convertible bonds, unlisted equities, unlisted funds, part of the trust and asset management plan, equity derivatives and part of loans and advances to customers. The fair value of these financial instruments is determined primarily using discounted cash flow method and market comparison method. These valuation methods involve inputs from various unobservable assumptions such as cash flow, risk-adjusted discount rate, price to book value ratio, price to earnings ratio and liquidity discounts.

## 3.5 Offsetting financial assets and financial liabilities

Certain financial assets and financial liabilities of the Group are subject to enforceable master netting arrangements or similar agreements. The agreement between the Group and the counterparty generally allows for net settlement of the relevant financial assets and financial liabilities when both elect to settle on a net basis. In the absence of such a mutual consent, financial assets and financial liabilities will be settled on a gross basis. However, each party to the master netting arrangements or similar agreements will have the option to settle all such amounts on a net basis in the event of default of the other party. These financial assets and financial liabilities of the Group are not offset in accordance with IFRSs.

As at 31 December 2021, the amount of the financial assets and financial liabilities subject to enforceable master netting arrangements or similar agreements is not material to the Group.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.6 Capital management

The “capital” in capital management is a broader concept than “shareholders’ equity” on the statement of financial position. The Group’s objectives in capital management are:

- To comply with the capital requirements set by the regulators of the markets where the Group operates;
- To ensure the Group’s ability to maintain a stable operation so as to continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

The Group management adopts administrative measures issued by the CBIRC, which was developed based on guideline issued by the Basel Committee, in monitoring its capital adequacy ratio and the usage of regulatory capital on a quarterly basis. The quarterly monitored information is then submitted to CBIRC.

The *Administrative Measures for the Capital of Commercial Banks (Provisional)* specified the regulatory requirements for minimum capital, capital conservation buffer, additional capital surcharge for systemically important banks, countercyclical buffer and Pillar II capital as follows:

- Minimum regulatory requirements for core tier-1 capital adequacy ratio, tier-1 capital adequacy ratio and capital adequacy ratio are 5%, 6% and 8%, respectively;
- Capital conservation buffer requires additional 2.5% on core tier-1 capital adequacy ratio;
- Additional capital surcharge for systemically important banks requires additional 0.75% on core tier-1 capital adequacy ratio;
- Should the regulators require countercyclical buffer under particular circumstances or regulators impose additional Pillar II capital requirements for specific banks, these requirements shall be met within the specified time limits.

The Group’s capital as monitored by its Planning and Finance Department consists of the following:

- Core tier-1 capital, including ordinary shares, eligible portion of capital surplus, statutory reserve, statutory general reserve, retained earnings, eligible portion of non-controlling interests and translation reserve on foreign operations;
- Additional tier-1 capital, including Additional tier-1 capital instruments issued and related premium and eligible portion of non-controlling interests;
- Tier-2 capital, including tier-2 capital instruments issued and related premium, excess loan loss provisions and eligible portion of non-controlling interests.

The Group’s deductible items from core tier-1 capital include: Goodwill, other intangible assets (except land use rights), investments in core tier-1 capital of financial institutions with controlling interests but outside the scope of regulatory consolidation.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

## 3.6 Capital management (Continued)

In April 2014, the CBIRC officially approved the implementation of the advanced approach of capital management adopted by the Group. In this approach, the Group elected to use elementary internal rating based (“IRB”) approach for corporate risk exposure, IRB approach for retail risk exposure, internal model approach for market risk and standardised approach for operational risk exposure which is compliant with regulatory requirements. For risk exposures not covered by the advanced approaches, the corresponding portion shall be calculated by adopting non-advanced approaches. The capital ratios calculated based on *Administrative Measures for the Capital of Commercial Banks (Provisional)* are as follows:

| Item                                   | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--|---------------------------|---------------------------|
| Core tier-1 capital adequacy ratio (%) | 10.62                     | 10.87                     |
| Tier-1 capital adequacy ratio (%)      | 13.01                     | 12.88                     |
| Capital adequacy ratio (%)             | 15.45                     | 15.25                     |
| Core tier-1 capital                    | 789,887                   | 732,863                   |
| Core tier-1 capital deductions         | (6,010)                   | (5,252)                   |

### 14 STAFF COSTS AND BENEFITS

|   | Year ended 31 December |        |
|---|------------------------|--------|
|   | 2021                   | 2020   |
| Salaries, bonuses, allowances and subsidies | 25,383                 | 22,920 |
| Post-employment benefit (a)                 | 4,093                  | 3,062  |
| Other social security and benefit costs     | 7,349                  | 6,767  |
|   | 36,825                 | 32,749 |

#### (a) Post-employment benefit

##### **Defined contribution plans**

The Group participates in various defined contribution retirement benefit plans organised by municipal and provincial governments in Mainland China, under which it is required to make monthly contributions to these plans at rates ranging from 10% to 27% of the employees' basic salary for the year. The Group's contributions to these pension plans are charged to profit or loss and other comprehensive income in the year to which they relate.

Employees who retire at or after 1 January 2009 can voluntarily participate in an Annuity Plan. The Bank contributes to the Annuity Plan based on certain percentage of the employees' gross salary which is recognised in profit or loss as incurred.

As at 31 December 2021, there are no forfeited contributions under the Group's retirement benefit plans which can be used to deduct contributions payable for future years.

The amount recognised in profit or loss is as follows:

|   | Year ended 31 December |       |
|---|------------------------|-------|
|   | 2021                   | 2020  |
| Expenses incurred for retirement benefit plans and unemployment insurance | 2,494                  | 1,577 |
| Expenses incurred for annuity plan  | 1,575                  | 1,468 |
| Total   | 4,069                  | 3,045 |

The amount payable at the end of the year is as follows:

|   | As at<br>31 December 2021 | As at<br>31 December 2020 |
|---|---------------------------|---------------------------|
|   |                           |                           |
| Expenses incurred for retirement benefit plans and unemployment insurance | 105                       | 69                        |
| Expenses incurred for annuity plan  | 50                        | 73                        |
| Total   | 155                       | 142                       |

**Defined benefit plans**

The Group pays supplementary retirement benefits to employees in Mainland China, who retired at or before 31 December 2008. The Group's obligations in respect of supplementary retirement benefits are calculated by estimating the amount of future benefits that the Group is committed to pay to the employees after their retirement using actuarial techniques. Such benefits, which are estimated by using key parameters such as inflation rate and mortality ratio, are discounted to their present values. The discount rate is the yield on government bonds at the end of reporting date, the maturity dates of which approximate to the terms of the Group's obligations. Actuarial gains or losses and changes in actuarial assumptions are recognised in other comprehensive income, and amendments to pension plan are recognised in profit or loss in the period of a plan amendment. The amounts recognised in the statement of financial position represent the present value of unfunded obligations.

The Group's retirement benefit obligations in locations other than Mainland China are immaterial and are made in accordance with the relevant local policies and regulations.

|                                    | As at<br>31 December 2021 | As at<br>31 December 2020 |
|------------------------------------|---------------------------|---------------------------|
|                                    |                           |                           |
| Statement of financial position    |                           |                           |
| – Obligations for pension benefits | 385                       | 467                       |

Amounts recognised in comprehensive income in respect of the supplementary retirement benefits are as follows:

|  | Year ended 31 December |      |
|--|------------------------|------|
|  | 2021                   | 2020 |
| Components of defined benefit costs recognised in profit or loss             | 24                     | 17   |
| Components of defined benefit costs recognised in other comprehensive income | (55)                   | 132  |
| Total  | (31)                   | 149  |

Past service cost and interest expense are recognised in other operating expenses in the income statement.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 14 STAFF COSTS AND BENEFITS (Continued)

### (a) Post-employment benefit (Continued)

#### Defined benefit plans (Continued)

Movements in the unfunded obligations over the year are as follows:

|  | Year ended 31 December |      |
|--|------------------------|------|
|  | 2021                   | 2020 |
| Present value of unfunded obligations at the beginning of the year | 467                    | 399  |
| Retirement benefits paid during the year                           | (51)                   | (81) |
| Interest expense   | 21                     | 14   |
| Past service cost  | 3                      | 3    |
| Net actuarial losses recognised in the current year                | (55)                   | 132  |
| Present value of unfunded obligations at the end of the year       | 385                    | 467  |

The average duration of the supplementary retirement benefits plan at 31 December 2021 is 12.31 years (31 December 2020: 13.20 years).

The Group expects to make a contribution of RMB39 million (2020: RMB40 million) to the defined benefit plan during the next financial year.

The supplementary retirement benefits plan exposes the Group to actuarial risks such as interest risk, longevity risk and inflation risk. A decrease in the government bond yield will increase the present value of unfunded obligations. The present value of unfunded obligations is calculated by reference to the best estimate of the mortality of plan participants. An increase in the life expectancy of the plan participants will increase the plan's liability. The present value of unfunded obligations is also measured by future payment standards, which are determined by inflation rate. Hence, an increase in inflation rate will increase the present value of the unfunded obligations.

The principal actuarial assumptions regarding interest risk and inflation risk used by the Group are discount rate and inflation rate, which were 3.07% (31 December 2020: 3.51%) and 0.81% (31 December 2020: 2.87%) respectively as at 31 December 2021. In the meantime, assumptions regarding future mortality rate are set based on published statistics by the CBIRC. As at 31 December 2021, an average longevity of a pensioner after retirement at age 60 for male is 23.13 years (31 December 2020: 23.13 years) while a pensioner after retirement at age 55 for female is 33.13 years (31 December 2020: 33.13 years).

Significant actuarial assumptions for the determination of the unfunded obligation are discount rate, inflation rate and mortality. The sensitivity analysis below is based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

- (1) If the discount rate is 100 basis points higher (lower), the defined benefit obligation would decrease by RMB35 million (increase by RMB40 million).
- (2) If the expected inflation rate increases (decreases) by 1%, the defined benefit obligation would increase by RMB39 million (decrease by RMB35 million).
- (3) If the life expectancy increases (decreases) by one year for men and women, the defined benefit obligation would increase by RMB29 million (decrease by RMB30 million).

The sensitivity analysis above may not be representative of the actual change in the unfunded obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value at the end of the reporting period of the unfunded obligation has been calculated in the same method as that applied in calculating the unfunded obligation liability recognised in the statement of financial position.

There was no change in the methods and assumptions used in preparing the sensitivity analysis in prior years.

During 2021 and 2020, no emolument was paid by the Group to any of the directors, supervisors and the five highest paid individuals as an inducement to join or upon joining the Group or as compensation for loss of office.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 16 INCOME TAX

|  | Year ended 31 December |         |
|--|------------------------|---------|
|  | 2021                   | 2020    |
| Current income tax   |                        |         |
| – Mainland China enterprise income tax                               | 7,522                  | 8,247   |
| – Hong Kong profits tax  | 608                    | 630     |
| – Income tax arising in Macao, Taiwan and other countries or regions | 753                    | 577     |
| Subtotal   | 8,883                  | 9,454   |
| Deferred income tax (Note 27)  | (3,863)                | (2,599) |
| Total  | 5,020                  | 6,855   |

The provision for enterprise income tax in Mainland China is calculated based on the statutory rate of 25% (2020: 25%) of the assessable income of the Bank and each of the subsidiary established in Mainland China. Taxation arising in other jurisdictions (including Hong Kong) is calculated at the rates prevailing in the relevant jurisdictions, the shortfall arising from the difference between tax paid by overseas branches and the accrued tax under the regulation of Mainland China shall be compensated by the head office.

The actual taxation on the Group differs from the theoretical amount calculated using the Group's profit before tax at the tax rate of 25% (2020: 25%). The major reconciliation items are as follows:

|  | Year ended 31 December |          |
|--|------------------------|----------|
|  | 2021                   | 2020     |
| Profit before tax  | 93,959                 | 86,425   |
| Tax calculated at statutory rate of 25%  | 23,490                 | 21,606   |
| Effects of different tax rates prevailing in Hong Kong, Macao, Taiwan and other countries or regions | (207)                  | (152)    |
| Effects of non-deductible expenses (1)   | 2,445                  | 3,644    |
| Effects of non-taxable income (2)  | (19,663)               | (17,393) |
| Others   | (934)                  | (420)    |
| Adjustments for income tax filing of prior years   | (111)                  | (430)    |
| Income tax   | 5,020                  | 6,855    |

- (1) Non-deductible expenses primarily represent non-deductible write-offs.
- (2) Non-taxable income primarily represents interest income from PRC treasury bonds and municipal government bonds and fund investment income gained in Mainland China.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 17 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit attributable to shareholders of the Bank by the weighted average number of ordinary shares in issue during the period.

|  | Year ended 31 December |         |
|--|------------------------|---------|
|  | 2021                   | 2020    |
| Net profit attributable to shareholders of the Bank  | 87,581                 | 78,274  |
| Less: Dividends paid to preference shareholders  | (1,755)                | (2,714) |
| Interest paid to perpetual bond holders  | (3,858)                | (1,680) |
| Net profit attributable to ordinary shareholders of the Bank                                       | 81,968                 | 73,880  |
| Weighted average number of ordinary shares in issue (expressed in millions) at the end of the year | 74,263                 | 74,263  |
| Basic and diluted earnings per share (expressed in RMB per share)                                  | 1.10                   | 0.99    |

For the purpose of calculating basic earnings per share, a cash dividend of RMB1,755 million on non-cumulative preference shares declared for the period was deducted from the amounts attributable to shareholders of the Bank. The conversion feature of preference shares may lead to the possible existence of contingently issuable ordinary shares. The triggering events of conversion did not occur for the year ended 31 December 2021, and therefore the conversion feature of preference shares has no effect on the calculation of the basic and diluted earnings per share.

For the calculation of basic earnings per share, distributions on non-cumulative perpetual bonds declared for the period was deducted from the amounts attributable to shareholders of the Bank. The Bank has declared an interest of RMB3,858 million on perpetual bonds during the year ended 31 December 2021.

## 18 CASH AND BALANCES WITH CENTRAL BANKS

|                            | As at<br>31 December 2021 | As at<br>31 December 2020 |
|----------------------------|---------------------------|---------------------------|
| Cash                       | 13,298                    | 15,353                    |
| Mandatory reserve deposits | 624,340                   | 634,239                   |
| Excess reserve deposits    | 90,350                    | 160,863                   |
| Fiscal deposits and others | 6,436                     | 6,786                     |
| Accrued interest           | 304                       | 320                       |
|                            | 734,728                   | 817,561                   |

The Group places mandatory reserves with the PBOC and several other central banks of overseas countries and regions. Such mandatory reserves are not available for use by the Group in its day-to-day operations.

The Bank's domestic mandatory deposit reserve rates as at the balance sheet date are as follows:

|  | As at<br>31 December 2021<br>% | As at<br>31 December 2020<br>% |
|--|--------------------------------|--------------------------------|
| Domestic mandatory reserve rate for deposits denominated in RMB                | 10.00                          | 11.00                          |
| Domestic mandatory reserve rate for deposits denominated in foreign currencies | 9.00                           | 5.00                           |

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 18 CASH AND BALANCES WITH CENTRAL BANKS *(Continued)*

Reserve rate for deposits denominated in RMB of the Group's subsidiaries in Mainland China is subject to relevant regulations of the PBOC.

Mandatory reserve rate for deposits with central banks of overseas countries and regions is subject to regulations of local regulatory bodies.

Excess reserve deposits with central banks are mainly used for capital settlement, financial institution transfer, etc.

### 19 DUE FROM AND PLACEMENTS WITH BANKS AND OTHER FINANCIAL INSTITUTIONS

|  | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--|---------------------------|---------------------------|
| Due from banks and other financial institutions                                    |                           |                           |
| – Banks and other financial institutions operating in Mainland China               | 83,372                    | 90,965                    |
| – Banks and other financial institutions operating outside Mainland China          | 36,422                    | 68,274                    |

| Total  | 638,483                   | 482,588                   |

(a) Debt securities traded in the China domestic inter-bank bond market are included in “Listed outside Hong Kong”.

Debt securities at fair value through profit or loss are analysed by issuer as follows:

|  | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--|---------------------------|---------------------------|
| – Banks and other financial institutions | 100,898                   | 99,671                    |
| – Corporate entities                     | 46,655                    | 45,244                    |
| – Governments and central banks          | 99,079                    | 6,534                     |
| – Public sector entities                 | 1,302                     | 1,585                     |
|  | 247,934                   | 153,034                   |

The financial investments at fair value through profit or loss include financial assets held for trading and financial assets that cannot pass the Solely Payments of Principal and Interest Test (“SPPI test”).

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 21 DERIVATIVE FINANCIAL INSTRUMENTS

The following derivative financial instruments are utilised by the Group for trading or hedging purposes:

Currency and commodity forwards are contracts between two parties to buy or sell certain currencies or commodities at a specified future date at a predetermined price. The party agreeing to buy the underlying currency or commodities in the future assumes a long position, and the party agreeing to sell the currency or commodities in the future assumes a short position. The price agreed upon is called the delivery price, which is equal to the forward price at the time the contract is entered into.

Currency, commodity and interest rate swaps are commitments to exchange one set of cash flows for another. Swaps result in an economic exchange of currencies, commodities or interest rates (i.e. fixed-for-floating swaps) or a combination of these (i.e. cross-currency interest rate swaps). The Group's credit risk represents the potential cost to replace the swap contracts if counterparties fail to perform their obligation. This risk is monitored on an ongoing basis with reference to the current fair value, the notional amount of the contracts and the liquidity of the market. To control the level of credit risk taken, the Group assesses counterparties using the same techniques as for its lending activities.

Currency, commodity and interest rate options are contractual agreements under which the seller (writer) grants the buyer (holder) the right, but not the obligation, either to buy (a call option) or sell (a put option) on or before a set date or during a set period, a specific amount of a currency or commodity at a predetermined price or to receive an interest payment based on a variable interest rate and pay at a fixed interest rate or vice versa. The seller receives a premium from the buyer in consideration for assuming foreign exchange, interest rate risk or commodity price fluctuations. Options may be either exchange-traded or negotiated between the Group and a customer (over the counter market).

The notional amounts of certain types of financial instruments provide a reference of the amounts recognised in the statement of financial position but do not necessarily indicate the amounts of future cash flows involved or the current fair value of the instruments and, therefore, do not indicate the Group's exposure to credit or price risks. The derivative financial instruments may become favourable (assets) or unfavourable (liabilities) as a result of fluctuations in market interest rates, foreign exchange rates or commodity price relative to their terms. The aggregate fair values of derivative financial assets and liabilities can fluctuate significantly from time to time. The fair values of derivative financial instruments held are set out in the following tables.

| As at 31 December 2021                                      | Contractual/<br>Notional<br>Amount | Fair values |             |
|---|------------------------------------|-------------|-------------|
|   |                                    | Assets      | Liabilities |
| Foreign exchange and commodity contracts                    | 3,501,041                          | 27,195      | (24,899)    |
| Interest rate contracts and others                          | 3,626,588                          | 12,025      | (11,175)    |
| Total amount of derivative financial instruments recognised | 7,127,629                          | 39,220      | (36,074)    |

| As at 31 December 2020                                      | Contractual/<br>Notional<br>Amount | Fair values |             |
|---|------------------------------------|-------------|-------------|
|   |                                    | Assets      | Liabilities |
| Foreign exchange and commodity contracts                    | 2,435,423                          | 44,435      | (40,914)    |

| Total amount of derivative financial instruments recognised | 5,537,241                          | 54,212      | (55,942)    |

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

21 DERIVATIVE FINANCIAL INSTRUMENTS *(Continued)*

The tables above provide a breakdown of the contractual or notional amounts and the fair values of the Group's derivative financial instruments outstanding at year end. These instruments, comprising foreign exchange, interest rate and commodity derivatives allow the Group and its customers to transfer, mitigate or reduce their foreign exchange, interest rate and commodity price fluctuation risks.

The Group undertakes its transactions in foreign exchange, interest rates and commodity contracts with other financial institutions and customers. Management has established limits for these contracts based on counterparty types, industry sectors and countries. Related risks are regularly monitored and controlled by management.

Notional amounts of derivative financial instruments by original currency:

|        | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--------|---------------------------|---------------------------|
| RMB    | 4,686,806                 | 3,772,066                 |
| USD    | 1,981,299                 | 1,387,805                 |
| HKD    | 231,035                   | 247,659                   |
| Others | 228,489                   | 129,711                   |
| Total  | 7,127,629                 | 5,537,241                 |

## Hedge accounting

The above derivative financial instruments including those designated as hedging instruments by the Group are as follows:

| As at 31 December 2021  | Contractual/<br>Notional<br>Amount | Fair values<br>Assets | Liabilities |
|---|------------------------------------|-----------------------|-------------|
| Derivative financial instruments designated as hedging instruments in fair value hedges | 141,731                            | 1,871                 | (1,274)     |
| Derivative financial instruments designated as hedging instruments in cash flow hedges  | 71,805                             | 519                   | (973)       |
| Total   | 213,536                            | 2,390                 | (2,247)     |

| As at 31 December 2020  | Contractual/<br>Notional<br>Amount | Fair values<br>Assets | Liabilities |
|---|------------------------------------|-----------------------|-------------|
| Derivative financial instruments designated as hedging instruments in fair value hedges | 139,555                            | 184                   | (4,689)     |
| Derivative financial instruments designated as hedging instruments in cash flow hedges  | 58,382                             | 268                   | (1,901)     |
| Total   | 197,937                            | 452                   | (6,590)     |

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 21 DERIVATIVE FINANCIAL INSTRUMENTS (Continued)

### Hedge accounting (Continued)

#### (a) Fair value hedge

The Group uses interest rate swaps to hedge against changes in fair value arising from changes in interest rates. Some purchased interest rate swap contracts are designated as hedging instruments, whose terms are identical with those of the corresponding hedged items regarding interest rate, maturity and currency. The Group uses regression analysis to evaluate the effectiveness of hedging. With the support of testing results, the Group's management considers the hedging relationship to be highly effective. The hedged items include due from and placements with banks and other financial institutions, debt investments at FVOCI, due to and placements from banks and other financial institutions, loans and advances to customers and certificates of deposits issued.

The following table shows the profit or loss effects of the fair value hedges:

|  | Year ended 31 December |         |
|--|------------------------|---------|
|  | 2021                   | 2020    |
| Net gains/(losses) from fair value hedges:   |                        |         |
| Hedging instruments                          | 4,405                  | (4,314) |
| Hedged items attributable to the hedged risk | (4,386)                | 4,462   |
| Total  | 19                     | 148     |

#### (b) Cash flow hedge

The Group uses foreign exchange contracts to hedge against exposures to cash flow variability primarily resulting from foreign exchange risks, and uses interest rate swaps to hedge against exposures to cash flow variability primarily resulting from interest rate risks. The hedged items include debt investments at FVOCI, due from and placements with banks and other financial institutions, debt securities issued, loans and advances to customers, due to and placements from banks and other financial institutions and certificates of deposits issued. The Group mainly uses regression analysis to evaluate the effectiveness of hedging. With the supporting of testing results, the Group's management considers the hedging relationship to be highly effective.

For the year ended 31 December 2021, the Group recognised a profit of RMB1,133 million (31 December 2020: a loss of RMB1,761 million) from effective portion of cash flow hedge in other comprehensive income. The Group reclassifies a loss of RMB617 million from other comprehensive income to profit or loss (31 December 2020: a profit of RMB1,085 million). Gains or losses arising from ineffective portion of cash flow hedge were immaterial. There were no transactions for which cash flow hedge accounting had to be ceased as a result of the highly probable cash flows no longer being expected to occur.

## 22 LOANS AND ADVANCES TO CUSTOMERS

### 22.1 Loans and advances to customers

|   | As at<br>31 December 2021 | As at<br>31 December 2020 |
|---|---------------------------|---------------------------|
| Loans and advances to customers                           |                           |                           |
| – Carried at amortised cost                               | 6,375,667                 | 5,637,932                 |
| – Carried at FVOCI  | 184,706                   | 210,492                   |
| – Carried at FVPL   | 27                        | –                         |
| Less: Allowance for impairment losses                     | (160,089)                 | (139,274)                 |
|   | –                         | –                         |
| Accrued interest  | 13,985                    | 12,980                    |
| Less: Allowance for impairment losses of accrued interest | (2,095)                   | (1,562)                   |
|   | 6,412,201                 | 5,720,568                 |

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 28 OTHER ASSETS (Continued)

#### (b) Investment properties (Continued)

The Group's investment properties are located in active real estate markets. The external appraisers make reasonable estimation of fair value using market prices of the similar properties.

As at 31 December 2021, fair value hierarchies of the investment properties of the Group are as follows:

|   | Level 1 | Level 2 | Level 3 | As at<br>31 December<br>2021 |
|---|---------|---------|---------|------------------------------|
| Commercial property units located in Hong Kong      | –       | –       | 770     | 770                          |
| Commercial property units located outside Hong Kong | –       | –       | 5,570   | 5,570                        |

The valuation of investment properties was performed by independent qualified professional valuers not connected to the Group. Valuation methodologies include "Rental Income Approach" and "Direct Comparison Approach". The inputs to these models mainly include growth rate of rental, capitalisation rate and unit price.

#### (c) Right-of-use assets

At each end of year, the Group performed impairment tests on goodwill. In the test, the Group compares the book value of cash-generating unit (CGU) or CGUs (including goodwill) with the recoverable amount. If the recoverable amount is less than the book value, the related difference is recognised in profit or loss.

The Group calculates the recoverable amount of CGU and CGUs using cash flow models based on the management's approved financial forecasts and fixed growth rates afterwards.

As indicated by the impairment tests, goodwill arising from business combinations is not impaired and therefore, no impairment loss is recognised.

### 29 DUE TO AND PLACEMENTS FROM BANKS AND OTHER FINANCIAL INSTITUTIONS

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 30 FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

|   | As at<br>31 December 2021 | As at<br>31 December 2020 |
|---|---------------------------|---------------------------|
| Short position of securities held for trading             | 134                       | –                         |
| Certificates of deposit issued                            | 1,400                     | 7,868                     |
| Financial liabilities related to precious metal contracts | 15,247                    | 16,104                    |
| Notes issued  | 1,385                     | 417                       |
| Others(a)   | 31,882                    | 4,890                     |
| Total   | 50,048                    | 29,279                    |

(a) As at 31 December 2021, others mainly are liabilities of consolidated structured entities and shares held by other parties rather than the Group.

Except for certificates of deposit issued by branch in Hong Kong, notes issued by BoCom International Holdings Company Limited, and shares of consolidated structured entities held by other parties rather than the Group which are designated at fair value through profit or loss, financial liabilities at fair value through profit or loss are financial liabilities held for trading.

## Financial liabilities designated at fair value through profit or loss

|  | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--|---------------------------|---------------------------|
| Difference between carrying amount and maturity amount |                           |                           |
| Fair values  | 34,667                    | 13,175                    |
| Amount payable at maturity                             | 34,709                    | 12,962                    |
|  | (42)                      | 213                       |

For the year ended 31 December 2021 and the year ended 31 December 2020, there were no significant changes in the fair value of the Group's financial liabilities designated at fair value through profit or loss that were attributable to the changes in credit risk.

## 31 DUE TO CUSTOMERS

Note: Debt securities issued are designated as fair value through profit or loss upon initiation as the Hong Kong branch of the Bank considers such designation could eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise result from measuring the corresponding derivative assets or recognising the gains or losses on them on different basis. Accordingly, the debts are designated as fair value through profit or loss with changes in fair values charged to profit and loss account. For the year ended 31 December 2021 and the year ended 31 December 2020, there were no significant changes that were attributable to the Group's changes in credit risks.

#### 33.1 Subordinated bonds

- (a) The Group has redeemed full face value of 14 BoComm 01-Euro by exercising redemption option on 3 October 2021.
- (b) The Group has an option to redeem 17 BoComm at the par value partially or as a whole on 13 April 2022, the first day upon the end of the fifth interest-bearing year, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (c) The Group has an option to redeem 19 BoComm 01 at the par value partially or as a whole on 16 August 2024, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (d) The Group has an option to redeem 19 BoComm 02 at the par value partially or as a whole on 16 August 2029, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 33 DEBT SECURITIES ISSUED (Continued)

#### 33.2 Tier 2 capital bonds (Continued)

- (e) The Group has an option to redeem 20 BoComm at the par value partially or as a whole on 21 May 2025, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (f) The Group has an option to redeem 20 BoComm at the par value partially or as a whole on 27 September 2026, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (g) The Group has an option to redeem 18 Leasing 02 at the par value partially or as a whole on 20 September 2023, the first day upon the end of the fifth interest-bearing year, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (h) The Group has an option to redeem 21 BoComm Hong Kong as a whole on 8 July 2026. If the issuer does not exercise the redemption right by 8 July 2026, the interest rate will be readjusted based on the 5-year U.S. Treasury rate plus 140 basis points initial rate differential.

These tier-2 capital bonds have the write-down feature, which allows the Group to write down the entire principals of the bonds when regulatory triggering events as stipulated in the offering documents occur and any accumulated unpaid interest would become not payable. These bonds are regarded as tier-2 capital without any guarantees provided and the proceeds of the debts cannot be used for compensating daily operating loss of the Group.

#### 33.3 Bonds

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 36 OTHER EQUITY INSTRUMENTS *(Continued)*

#### 36.1 Preference shares *(Continued)*

##### **36.1.3 Main clauses**

##### *Domestic preference shares*

##### (a) Dividend

The domestic preference shares will accrue dividends on their issue price at the relevant dividend rate below:

- (1) From and including the issue date to but excluding the first reset date, at the rate of 3.90% per annum; and
- (2) The dividend rate will be re-priced every five years thereafter with reference to the arithmetic average value (rounding off to 0.01%) of five-year Chinese treasury bonds yield at the date which is 20 transaction days before the reset date (excluding the date) plus a fixed premium of 1.37%. As authorised by the shareholders' annual general meeting, the Board of Directors has the sole discretion to declare and distribute dividends on domestic preference shares.

With effect from 7 September 2021, the Bank has adjusted the dividend rate for the second dividend rate adjustment period to 4.07%.

The dividend for domestic preference shares is non-cumulative. Where the Bank determines to cancel the dividend for domestic preference shares in whole or in part, the omitted dividend will not be carried forward and claimed in the future period. After receiving dividends at the agreed dividend rate, domestic preference shareholders of the Bank will not participate in the distribution of residual profits with ordinary shareholders. Domestic preference shares issued by the Bank have the same dividend distribution order as the offshore preference shares.

##### (b) Conditions to distribution of dividends

The Bank could pay dividends while the Bank still has distributable after-tax profit after making up previous years' losses, contributing to the statutory reserve and making general provisions, and the Bank's capital adequacy ratio meets regulatory requirements. Domestic preference shareholders of the Bank are senior to the ordinary shareholders on the right to dividends.

Subject to a resolution to be passed at a shareholders' general meeting of the Bank on each such occasion, the Bank may elect to cancel (in whole or in part) any preference share dividend. The Bank shall not distribute any dividends to its ordinary shareholders before it declares such dividends to preference shareholders for the relevant periods.

##### (c) Mandatory conversion trigger events

Upon occurrence of the triggering events as stipulated by the offering documents and subject to regulatory approval, domestic preference shares shall be mandatorily converted into ordinary A Shares of the Bank, partially or entirely. The initial mandatory conversion price is RMB6.25 per share. To balance the interest between preference shareholders and ordinary shareholders, the mandatory conversion price of the preference shares will be cumulatively adjusted in sequence where certain events occur including issuances of bonus shares, capitalisation of reserves, new issuances of ordinary shares at a price lower than the market price (excluding equity increased due to exercise of convertible financing instruments that can be converted into ordinary shares) and rights issues, subject to terms and formulas provided for in the offering documents. Appropriation of dividends to ordinary shareholders is not trigger event for price adjustment.

##### (d) Order of distribution and liquidation method

On winding-up of the Bank, distribution to domestic preference shareholders is made after all debts of the Bank (including subordinated debts) and obligations that are issued or guaranteed by the Bank and specifically stated to be distributed prior to the domestic preference shares; all domestic preference shareholders are ranked at the same in the distribution sequence without priority among them and have the same repayment sequence rights as holders of obligations with equivalent rights. In addition, distribution is made to domestic preference shareholders prior to ordinary shareholders.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

## 36 OTHER EQUITY INSTRUMENTS (Continued)

### 36.1 Preference shares (Continued)

#### 36.1.3 Main clauses (Continued)

##### Domestic preference shares (Continued)

##### (d) Order of distribution and liquidation method (Continued)

On winding-up of the Bank, any remaining assets of the Bank shall, after the distributions in accordance with the terms and conditions of the domestic preference shares have been made, be applied to the claims of the domestic preference shareholders equally in all respects with the claims of holders of any parity obligations (which term, for the avoidance of doubt, includes the domestic preference shares and any other preference shares of the Bank issued from time to time to investors outside the PRC) and in priority to the claims of the holders of ordinary shares.

The distribution amount obtained by the domestic preference shareholders shall be the total par value of the issued and outstanding preference shares plus dividends declared but not paid in the current period; if the distribution amount is insufficient, domestic and offshore preference shareholders will share the distribution amount on a proportional basis.

##### (e) Redemption

The domestic preference shares are perpetual and have no maturity date. The Bank may, subject to obtaining the CBIRC approval and in compliance with the redemption preconditions, redeem all or some of the domestic preference shares on 2 September 2021 and on any preference share dividend payment date thereafter. The redemption period ends at the date when shares are fully converted or redeemed.

### 36.2 Perpetual bonds

#### 36.2.2 Main clauses

- With the approvals by relevant regulatory authorities, the Bank issued RMB40.0 billion undated capital bonds in China's National Inter-Bank Bond Market on 18 September 2019, and the issuance was completed on 20 September 2019. The denomination of the bonds is RMB100 each and coupon rate of 4.20%. The bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

The perpetual bonds will continue to be outstanding so long as the Bank's business continues to operate. The bonds have set forth terms regarding the Bank's redemption with pre-conditions, by which the Bank is entitled to redeem the bonds after five years since the issue date in whole or in part on the annual interest payment date (including the interest payment date of the fifth year after the issue date). If, after the issuance, the perpetual bonds no longer qualify as additional tier-1 capital as a result of an unforeseeable change or amendment to relevant provisions of supervisory regulations, the Bank may redeem the whole but not part of the perpetual bonds.

The claims in respect of the perpetual bonds are subordinated to the claims of depositors, general creditors, and subordinated indebtedness that rank senior to the perpetual bonds; and will rank in priority to all classes of equity shares held by the Bank's shareholders and rank pari passu with the claims in respect of any other additional tier-1 capital instruments of the Bank that rank pari passu with the perpetual bonds.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 36 OTHER EQUITY INSTRUMENTS *(Continued)*

#### 36.2 Perpetual bonds *(Continued)*

##### 36.2.2 Main clauses *(Continued)*

Upon the occurrence of Additional tier-1 capital trigger event, namely, the Bank's core tier-1 capital adequacy ratio having fallen to 5.125% (or below), the Bank has the right, subject to the approval of the CBIRC but without the need for the consent of the bondholders, to write down whole or part of the aggregate amount of the perpetual bonds then issued and outstanding, in order to restore the core tier-1 capital adequacy ratio to above 5.125%. Upon the occurrence of a Non-Viability Triggering Event, the Bank has the right to write down all the above perpetual bond issued and existing at that time in accordance with the total par value without the consent of the bondholders.

The distributions on the perpetual bonds are non-cumulative, and the Bank shall have the right to cancel, in whole or in part, distributions on the bonds and any such cancellation shall not constitute an event of default. The Bank may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the bonds, no matter in whole or in part, will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shares.

Investors have no right to redeem their subscription from the Bank. The net proceeds from the Bank's issuance of the above bonds, after deducting offering related expenses, will be used to replenish the Additional tier-1 capital of the Bank.

- (2) With the approvals by relevant regulatory authorities, the Bank issued RMB30.0 billion undated capital bonds in China's National Inter-Bank Bond Market on 23 September 2020, and the issuance was completed on 25 September 2020. The denomination of the Bonds is RMB100 each and coupon rate of 4.59%. The Bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

With the approvals by relevant regulatory authorities, the Bank issued RMB41.5 billion undated capital bonds in China's National Inter-Bank Bond Market on 8 June 2021, and the issuance was completed on 10 June 2021. The denomination of the Bonds is RMB100 each and coupon rate of 4.06%. The Bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

The perpetual bonds will continue to be outstanding so long as the Bank's business continues to operate. The bonds have set forth terms regarding the Bank's redemption with pre-conditions, by which the Bank is entitled to redeem the bonds after five years since the issue date in whole or in part on the annual interest payment date (including the interest payment date of the fifth year after the issue date). If, after the issuance, the perpetual bonds no longer qualify as additional tier-1 capital as a result of an unforeseeable change or amendment to relevant provisions of supervisory regulations, the Bank may redeem the whole but not part of the perpetual bonds.

The claims in respect of the perpetual bonds are subordinated to the claims of depositors, general creditors, and subordinated indebtedness that rank senior to the perpetual bonds; and will rank in priority to all classes of equity shares held by the Bank's shareholders and rank pari passu with the claims in respect of any other additional tier-1 capital instruments of the Bank that rank pari passu with the perpetual bonds.

Upon the occurrence of a Non-Viability Triggering Event, the Bank has the right to write down/write off in whole or in part, without the need for the consent of the holders of the bonds, the principal amount of the bonds.

#### 36.2 Perpetual bonds *(Continued)*

##### **36.2.2 Main clauses** *(Continued)*

The distributions on the perpetual bonds are non-cumulative, and the Bank shall have the right to cancel, in whole or in part, distributions on the bonds and any such cancellation shall not constitute an event of default. The Bank may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the bonds, no matter in whole or in part, will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shares.

Investors have no right to redeem their subscription from the Bank. The net proceeds from the Bank's issuance of the above bonds, after deducting offering related expenses, will be used to replenish the additional tier-1 capital of the Bank.

- (3) With the approvals by relevant regulatory authorities, the Bank has completed the issuance of the USD2.8 billion undated capital bonds in the offshore market on 18 November 2020. The coupon rate of the bonds is 3.80%. The bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

The perpetual bonds will continue to be outstanding so long as the Bank's business continues to operate. The bonds have set forth terms regarding the Bank's redemption with pre-conditions. Subject to the satisfaction of the redemption conditions and having obtained the prior approval of the CBIRC, the bank is entitled to redeem the bonds after five years since the issue date in whole or in part on the annual interest payment date (including the interest payment date of the fifth year after the issue date). If, after the issuance, the perpetual bonds no longer qualify as additional tier-1 capital as a result of an unforeseeable change or amendment to relevant provisions of supervisory regulations, the Bank may redeem the whole but not part of the perpetual bonds.

The claims in respect of the perpetual bonds are subordinated to the claims of depositors, general creditors, and subordinated indebtedness that rank senior to the perpetual bonds; and will rank in priority to all classes of equity shares held by the Bank's shareholders and rank pari passu with the claims in respect of any other additional tier-1 capital instruments of the Bank that rank pari passu with the perpetual bonds.

Upon the occurrence of a Non-Viability Triggering Event, the Bank has the right to write down/write off in whole or in part, without the need for the consent of the holders of the bonds. Once the principal amount of the Bonds (in whole or in part) has been written-off, such relevant written-off portion of the bonds will not be restored or become payable again in any circumstances (including where the relevant Non-Viability Triggering Event ceases to continue), and any accrued but unpaid distribution in respect of such relevant written-off portion of the bonds shall cease to be payable. In addition, there will be no compensation in any form to remedy the loss of the bondholders.

The distributions on the perpetual bonds are non-cumulative, and the Bank shall have the right to cancel, in whole or in part, distributions on the bonds and any such cancellation shall not constitute an event of default. The Bank may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the bonds, no matter in whole or in part, will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shares.

Investors have no right to redeem their subscription from the Bank. The net proceeds from the Bank's issuance of the above bonds, after deducting offering related expenses, will be used to replenish the additional tier-1 capital of the Bank.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 36 OTHER EQUITY INSTRUMENTS (Continued)

## 36.3 Interests attributable to holders of other equity instruments

|  | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--|---------------------------|---------------------------|
| Total equity attributable to equity holders of the parent company  | 964,647                   | 866,607                   |
| Equity attributable to ordinary shareholders of the parent company   | 789,857                   | 733,315                   |
| Equity attributable to preference shareholders of the parent company   | 44,952                    | 44,952                    |
| Equity attributable to perpetual bond holders of the parent company  | 129,838                   | 88,340                    |
| Total equity attributable to non-controlling interests   | 12,589                    | 12,021                    |
| Equity attributable to non-controlling interests of ordinary shares  | 9,424                     | 8,763                     |
| Equity attributable to non-controlling interests of Non-cumulative Subordinated Additional Tier-1 Capital Securities (Note 39) | 3,165                     | 3,258                     |

Dividends paid to preference shareholders and interest paid to perpetual bond holders for the year ended 31 December 2021 are disclosed in Note 38.

## 37 OTHER RESERVES AND RETAINED EARNINGS

Pursuant to the relevant PRC regulations, the appropriation of profits to the statutory general reserve, the discretionary reserve and the distribution of dividends in each year are based on the recommendations of the directors and are subject to the resolutions to be passed at the General Meeting of Shareholders.

Pursuant to relevant PRC regulations, the Bank appropriated 10% of its net profit for the year under CAS to the statutory surplus reserve until the reserve balance reaches 50% of the Bank's registered capital. The statutory surplus reserve can be used to compensate losses or to increase share capital upon approval. The Bank appropriate RMB6,897 million to the statutory surplus upon approval from the 2020 Annual General Meeting of Shareholders held on 29 June 2021.

| The Group             | As at<br>1 January 2021 | Appropriate | Decrease | As at<br>31 December<br>2021 |
|-----------------------|-------------------------|-------------|----------|------------------------------|
| Statutory reserve     | 72,431                  | 7,536       | –        | 79,967                       |
| Discretionary reserve | 139,930                 | 92          | –        | 140,022                      |
| Total                 | 212,361                 | 7,628       | –        | 219,989                      |

Pursuant to relevant PRC banking regulations, since 1 July 2012, the Bank made statutory general reserve from net profit through profit appropriation according to *Administrative Measures for the Provisioning of Financial Enterprises* (Cai Jin [2012] No. 20). The proportion is determined based on several factors including the Bank's overall exposure to risk, normally no lower than 1.5% of the ending balance of risk assets. The statutory general reserve is an integral part of shareholders' equity but not subject to dividend distribution. The Bank's subsidiaries and overseas branches, if required by local regulation requirements, also need to make such general reserve. The 2020 Annual General Meeting of Shareholders, held on 29 June 2021, considered and adopted the 2020 profit distribution scheme, which stipulates as follows:

| The Group                 | As at<br>1 January 2021 | Appropriate | Decrease | As at<br>31 December<br>2021 |
|---------------------------|-------------------------|-------------|----------|------------------------------|
| Statutory general reserve | 123,163                 | 7,117       | –        | 130,280                      |

The Bank appropriated RMB6,432 million to the statutory general reserve upon approval from the 2020 Annual General Meeting of Shareholders held on 29 June 2021, of which the overseas branches of the Bank have appropriated RMB11 million to statutory general reserve according to the requirement of local regulatory authorities in the year ended 31 December 2020.

| Interest to perpetual bond holders of the Bank | (1,680)  |
| Others   | 27       |
| As at 31 December 2020                         | 214,448  |

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 38 DIVIDENDS

|  | Year ended 31 December |        |
|--|------------------------|--------|
|  | 2021                   | 2020   |
| Dividends to ordinary shareholders of the Bank   | 23,541                 | 23,393 |
| Dividends to preference shareholders of the Bank | 1,755                  | 2,714  |
| Interest to perpetual bond holders of the Bank   | 3,858                  | 1,680  |

Under PRC Company Law and the Bank's Articles of Association, the net profit after tax as reported in the PRC statutory financial statements can only be distributed as dividends after allowances for the following:

- (1) Making up cumulative losses from prior years, if any;
- (2) Allocations to the non-distributable statutory reserve of 10% of the net profit of the Bank as determined under the relevant PRC accounting standards;
- (3) Allocations to statutory general reserve;
- (4) Allocations to the discretionary reserve upon approval by the Annual General Meeting of Shareholders. These funds form part of the shareholders' equity.

The cash dividends are recognised in the consolidated statement of financial position upon approval by the shareholders at Annual General Meeting.

Pursuant to the approval by the Board meeting on 29 April 2021, the Bank will appropriate domestic preference dividends on 7 September 2021 with a dividend yield of 3.9% (the actual dividend yield obtained by the preference shareholders), with total amount of RMB1,755 million.

Pursuant to the approval by the Annual General Meeting of Shareholders on 29 June 2021, the Bank appropriated RMB6,432 million to the statutory general reserve. It was also resolved that a cash dividend of RMB0.317 (before tax) for each ordinary share, with total amount of RMB23,541 million, calculated based on 74,263 million shares outstanding (the par value per share is RMB1) as at 31 December 2020, will be distributed to ordinary shareholders.

The Bank distributed the interest on the 2020 undated capital bonds amounting to RMB801 million on 18 November 2021.

The Bank distributed the interest on the 2019 undated capital bonds amounting to RMB1,680 million on 20 September 2021.

The Bank distributed the interest on the 2020 undated capital bonds amounting to RMB1,377 million on 25 September 2021.

On 25 March 2022, the Board of Directors of the Bank proposed to appropriate RMB7,522 million to the statutory reserve and RMB11,422 million to the statutory general reserve. A cash dividend of RMB0.355 (before tax) for each share, totalling RMB26,363 million, calculated based on the total number of shares outstanding of 74,263 million shares (RMB1 per share) as at 31 December 2021 was also proposed. The proposal will be subject to the approval by the General Meeting of Shareholders.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 39 NON-CONTROLLING INTERESTS

Non-controlling interests of the Group include equity attributable to non-controlling interests of ordinary shares and equity attributable to non-controlling interests of other equity instruments. As at 31 December 2021, equity attributable to other equity instruments holders was RMB3,165 million. Other equity instruments were non-cumulative subordinated additional tier-1 capital securities issued by Bank of Communications (Hong Kong) Limited on 3 March 2020.

|                                    |  |
|------------------------------------|--|
| Issue Date                         | 3 March 2020   |
| Face Value                         | USD500 million   |
| First Call Date                    | 3 March 2025   |
| Distribution Rate                  | (i) from the issue date to the first call date, 3.725% per annum<br>(ii) for every five calendar years after the first call date, the then-prevailing US Treasury Rate plus 2.525% per annum |
| Frequency of distribution payments | Semi-annually  |

Bank of Communications (Hong Kong) Limited may determine the policies of distribution payments and whether to redeem the bonds. Therefore, the Group recognised the bonds as equity instruments.

Pursuant to the terms and conditions of the Non-Cumulative Subordinated Additional Tier-1 Capital Securities, Bank of Communications (Hong Kong) Limited has paid a total distribution of RMB122 million during the year ended 31 December 2021.

### 40 CREDIT RELATED COMMITMENTS AND FINANCIAL GUARANTEES, OTHER COMMITMENTS AND CONTINGENT LIABILITIES

#### Credit related commitments and financial guarantees

The following tables provide the contractual amounts of the Group's credit related commitments and financial guarantees which the Group has committed to its customers:

|                               | As at<br>31 December 2021 | As at<br>31 December 2020 |
|-------------------------------|---------------------------|---------------------------|
| Letters of guarantee          | 373,630                   | 333,610                   |
| Letters of credit commitments | 194,724                   | 163,151                   |
| Acceptance bills              | 368,120                   | 319,076                   |
| Credit card commitments       | 908,358                   | 800,441                   |
| Loan commitments              |                           |                           |
| – Under 1 year                | 3,936                     | 5,111                     |
| – 1 year and above            | 57,657                    | 55,323                    |
|                               | 1,906,425                 | 1,676,712                 |

#### Capital expenditure commitments

|                                 | As at<br>31 December 2021 | As at<br>31 December 2020 |

(All amounts expressed in millions of RMB unless otherwise stated)

## 40 CREDIT RELATED COMMITMENTS AND FINANCIAL GUARANTEES, OTHER COMMITMENTS AND CONTINGENT LIABILITIES (Continued)

## Operating lease commitments

The Group acts as lessor in operating leases principally through aircraft and vessels leasing undertaken by its subsidiaries. The future minimum lease receivables on certain aircraft and vessel under irrevocable operating leases are as follows:

|   | As at<br>31 December 2021 | As at<br>31 December 2020 |
|---|---------------------------|---------------------------|
| Within 1 year (inclusive)                           | 13,186                    | 13,074                    |
| Beyond 1 year but no more than 2 years (inclusive)  | 12,864                    | 12,622                    |
| Beyond 2 years but no more than 3 years (inclusive) | 12,269                    | 12,220                    |
| Beyond 3 years but no more than 5 years (inclusive) | 21,388                    | 22,062                    |
| More than 5 years                                   | 38,879                    | 36,562                    |
|   | <b>98,586</b>             | <b>96,540</b>             |

## Commitments on security underwriting and bond acceptance

The Group is entrusted by the Ministry of Finance ('MOF') to underwrite certain Certificated Bonds and Savings Bonds. The investors of Certificated Bonds and Savings Bonds have early redemption right while the Group has the obligation to buy back those Certificated Bonds and Savings Bonds. The redemption price is the principal value of the Certificated Bonds or Savings Bonds plus unpaid interest till redemption date. As at 31 December 2021, the principal value of the certain Certificated Bonds and Savings Bonds that the Group had the obligation to buy back amounted to RMB78,594 million (31 December 2020: RMB81,548 million). The MOF will not provide funding for the early redemption of these Certificated Bonds and Savings Bonds on a back-to-back basis but will pay interest and principal at maturity. The Group expects the amount of redemption before the maturity dates of these bonds through the Group will not be material.

The original maturities of these bonds vary from 1 to 5 years.

As at 31 December 2021, the Group had no announced but unfulfilled irrevocable commitment on security underwriting (31 December 2020: Nil).

## Legal proceedings

The Group has been involved as defendants in certain lawsuits arising from its normal business operations. Management of the Group believes, based on legal advice, the final result of these lawsuits will not have a material impact on the financial position or operations of the Group. Provision for litigation losses as advised by in-house or external legal professionals is disclosed in Note 34. The total outstanding claims against the Group (as defendant) by a number of third parties at the end of the year are summarised as follows:

|  | As at<br>31 December 2021 | As at<br>31 December 2020 |
|--|---------------------------|---------------------------|
| Outstanding litigations                        | 4,096                     | 3,876                     |
| Provision for outstanding litigation (Note 34) | 472                       | 1,032                     |

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 41 COLLATERALS

#### (1) Assets pledged

The Group uses part of its assets as collaterals for interbank repurchase arrangements and other liabilities-related business. All of these arrangements mature within 12 months from the date they take effect. The carrying amount of these collaterals and the balance of operations related are listed below:

|                       | Pledged assets            |                           | Associated liabilities    |                           |
|-----------------------|---------------------------|---------------------------|---------------------------|---------------------------|
|                       | As at<br>31 December 2021 | As at<br>31 December 2020 | As at<br>31 December 2021 | As at<br>31 December 2020 |
| Investment securities | 382,640                   | 520,254                   | 326,776                   | 456,210                   |
| Bills                 | 3,531                     | 28,854                    | 3,531                     | 28,854                    |
| Total                 | 386,171                   | 549,108                   | 330,307                   | 485,064                   |

Financial assets sold under repurchase agreements included certain transactions under which the title of the pledged securities has been transferred to counterparties. These transactions have been disclosed in Note 46 transfers of financial assets.

In addition, loans and advances to customers pledged as collateral for placements from banks by the Group as at 31 December 2021 amounted to RMB5,090 million in total (31 December 2020: RMB6,401 million).

#### (2) Collateral accepted

As part of the repurchase agreements, the Group has received securities that is allowed to sell or repledge in the absence of default by their owners. As at 31 December 2021, the Group had received securities with a fair value of RMB731 million on such terms (31 December 2020: Nil). As at 31 December 2021 and 31 December 2020, the Group did not sell or repledge any collaterals received.

### 42 OTHER COMPREHENSIVE INCOME

|  | Year ended 31 December 2021 |            |                   |

## 43 NOTES TO CONSOLIDATED STATEMENT OF CASH FLOWS

## Analysis of the balance of cash and cash equivalents

For the purposes of the consolidated statement of cash flows, cash and cash equivalents comprise the following balances with maturities of less than or equal to 90 days from date of purchase and used for the purpose of meeting short-term cash commitments:

|   | As at<br>31 December 2021 | As at<br>31 December 2020 |
|---|---------------------------|---------------------------|
| Cash and balances with central banks                                | 103,648                   | 171,950                   |
| Due from and placements with banks and other financial institutions | 90,660                    | 135,170                   |
|   | 194,308                   | 307,120                   |

## 44 CONSOLIDATED STRUCTURED ENTITIES

Structured entities consolidated by the Group include certain trust investment plans, funds, and securitisation products issued, managed and invested by the Group. The Group controls these entities because the Group has power over, is exposed to, or has right to variable returns from its involvement with these entities and has the ability to use its power over these entities to affect the amount of the Group's returns. As at 31 December 2021, the consolidated structured entities amounted to RMB182,733 million (As at 31 December 2020, the consolidated structured entities amounted to RMB36,716 million).

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 45 UNCONSOLIDATED STRUCTURED ENTITIES

The Group has been involved in other structured entities through investments in structured entities or acting as sponsors of structured entities that provide specialised investment opportunities to investors. These structured entities generally finance the purchase of assets by issuing units of the products. The Group does not control these structured entities and therefore, these structured entities are not consolidated.

As at 31 December 2021, those structured entities sponsored by the Group consist primarily of funds, trusts, asset management products, limited partnerships, wealth management products with principals not guaranteed by the Group and securitisation products. The Group earns commission income by providing management services to the investors of these structured entities. In addition, the Group is also involved in certain structured entities sponsored by the Group or third parties through direct investments. These investments are recognised as financial investments at fair value through profit or loss, financial investments at fair value through other comprehensive income, and financial investments at amortised cost.

As at 31 December 2021, the balance of the non-principal guaranteed wealth management products set up by the Group amounted to RMB1,426,253 million (As at 31 December 2020: RMB1,211,959 million), the balance of funds issued by the Group amounted to RMB547,188 million, the balance of trusts and asset management plans and others sponsored by the Group amounted to RMB721,946 million (As at 31 December 2020: the balance of funds issued by the Group amounted to RMB339,871 million, the balance of trusts and asset management plans and others sponsored by the Group amounted to RMB843,540 million).

For the year ended 31 December 2021, the Group's commission income from providing services to the structured entities managed by the Group was RMB11,775 million (For the year ended 31 December 2020: RMB9,856 million), and no interest income from placements and repurchase transactions with those unconsolidated wealth management products (For the year ended 31 December 2020: RMB1 million).

To achieve a smooth transition and steady development of the wealth management business, in 2021, in accordance with the requirements of the Guidance on Regulating the Asset Management Business of Financial Institutions, the Group has consistently promoted net worth transformation of its wealth management products and the disposal of existing portfolios, included part of the wealth management assets into the balance sheet from the wealth management products off the balance sheet, and measured them as debt investment at amortised cost.

As at 31 December 2021 and 31 December 2020, the carrying amount of interests in unconsolidated structured entities held by the Group through investment was set out as follows:

#### As at 31 December 2021

|                                      | Carrying amount               |                                |   |                          | Type of income  |
|--------------------------------------|-------------------------------|--------------------------------|---|--------------------------|---|
|                                      | Financial investments at FVPL | Financial investments at FVOCI | Financial investments at amortised cost | Maximum exposure to loss |   |
| Funds                                | 144,421                       | –                              | –                                       | 144,421                  | Net gains arising from trading activities   |
| Trusts and asset management products | 13,445                        | –                              | 83,245                                  | 96,690                   | Net interest income, net gains arising from trading activities                          |
| Limited partnerships                 | 3,317                         | 620                            | –                                       | 3,937                    | Net gains arising from trading activities, net gains arising from financial investments |
| Securitisation products              | 63                            | –                              | 134                                     | 197                      | Net interest income, Net gains arising from trading activities                          |
| Total                                | 161,246                       | 620                            | 83,379                                  | 245,245                  |   |

The information of total size of the unconsolidated structured entities listed above is not readily available from the public domain.

## 46 TRANSFERS OF FINANCIAL ASSETS

## 46.1 Financial assets sold under repurchase agreements

Sales and repurchase agreements are transactions in which the Group sells a security and simultaneously agrees to repurchase it (or an asset that is substantially the same) at a fixed price on a future date. Since the repurchase prices are fixed, the Group is still exposed to substantially all the credit risks and market risks and rewards of those securities sold. These securities, which the Group does not have the ability to use during the term of the arrangements, are not derecognised from the financial statements but regarded as “collateral” for the secured lending. In addition, the Group recognises a financial liability for cash received.

As at 31 December 2021 and 31 December 2020, the Group entered into repurchase agreements with certain counterparties. The proceeds from selling such securities are presented as “financial assets sold under repurchase agreements” (Note 29).

The following table provides a summary of carrying amounts related to the transferred financial assets that are not derecognised and the associated liabilities:

|                       | Collaterals               |                           | Associated liabilities    |                           |
|-----------------------|---------------------------|---------------------------|---------------------------|---------------------------|
|                       | As at<br>31 December 2021 | As at<br>31 December 2020 | As at<br>31 December 2021 | As at<br>31 December 2020 |
| Investment securities | –                         | 2,020                     | –                         | 1,806                     |

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021  
(All amounts expressed in millions of RMB unless otherwise stated)

### 46 TRANSFERS OF FINANCIAL ASSETS (Continued)

#### 46.2 Securities lending transactions

Transferred financial assets that do not qualify for de-recognition mainly include debt securities lent to counterparties under securities lending agreements. The counterparties are allowed to sell or repledge those securities lent under agreements to repurchase in the absence of default by the Group, but has an obligation to return the securities at the maturity of the contract. The Group has determined that it retains substantially all the risks and rewards of these securities and therefore has not derecognised them. As at 31 December 2021, the carrying value of debt securities lent to counterparties was RMB13,900 million (31 December 2020: RMB12,640 million).

#### 46.3 Asset securitisation

The Group enters into securitisation transactions in the normal course of business by which it transfers credit assets to special purpose trusts which issue asset-backed securities to investors.

The Group retains interests in the form of subordinated tranches which may give rise to the Group's continuing involvement in the transferred assets. Those financial assets are recognised on the consolidated statement of financial position to the extent of the Group's continuing involvement, while the rest are derecognised. The extent of the Group's continuing involvement is the extent of risk the Group faces due to changes in the value of the transferred assets.

As at 31 December 2021, loans with an original value of RMB66,061 million and carrying amount of RMB56,834 million (31 December 2020: RMB53,492 million and RMB41,600 million) have been securitised by the Group. For the year ended 31 December 2021, the Group transferred financial assets amounted to RMB13,927 million through assets backed securitization transactions, and all have met the requirement of derecognition (For the year ended 31 December 2020, the Group transferred financial assets amounted to RMB15,272 million through assets backed securitization transactions, and all have met the requirement of derecognition).

As at 31 December 2021, the Group retained their continued involvement in securitised credit assets by holding subordinated securities. The value of the assets that the Group continued to recognise was RMB5,529 million (31 December 2020: RMB4,275 million).

#### 46.4 Disposal of non-performing loans and advances to customers

The Group disposes non-performing loans and advances to customers through transferring to third parties in the normal course of business. For the year ended 31 December 2021, the Group had transferred non-performing loans and advances to customers with a gross carrying amount of RMB12,853 million (31 December 2020: RMB18,806 million) and collected cash totalling RMB8,403 million (31 December 2020: RMB8,790 million) from the transfer. The difference between the gross carrying amount and the cash collected had been written off. The Group derecognised the non-performing loans and advances to customers from the Group's financial statements at the time of disposal.

### 47 RELATED PARTY TRANSACTIONS

#### (a) Transactions with the MOF

As at 31 December 2021, the MOF held 17,732 million (31 December 2020: 17,732 million) ordinary shares of Bank of Communications Co., Ltd. which represented 23.88% (31 December 2020: 23.88%) of the total share capital.

The MOF is a Chinese government ministry, primarily responsible for managing state fiscal revenue and expenditures, and establishing and enforcing taxation policies. The Group enters into banking transactions with the MOF under normal commercial terms and at market rates. These transactions mainly include the purchase and redemption of financial investments issued by the MOF.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

## 47 RELATED PARTY TRANSACTIONS (Continued)

## (d) Transactions with state-owned entities in PRC

The Group operates in an economic environment predominated by enterprises directly or indirectly owned and/or controlled by the government through its authorities, affiliates or other organisations (collectively the “state-owned entities”). During the period, the Group entered into extensive banking transactions with these state-owned entities including, but not limited to, the provision of credit and guarantees, deposits, foreign exchange, derivatives transactions, agency business, underwriting and distribution of bonds issued by the government as well as trading and redemption of securities issued by the government.

Management considers that transactions with state-owned entities are activities conducted in the ordinary course of business, and that the dealings of the Group have not been significantly or unduly affected by the fact that the Group and these state-owned entities are ultimately controlled or owned by the government. The Group has also established pricing policies for products and services and such pricing policies do not depend on whether or not the customers are state-owned entities.

## (e) Transactions with subsidiaries

Transactions between the Bank and its subsidiaries are carried out under normal commercial terms and paid at market rates. These transactions are eliminated on consolidation. Basic information and relevant details of subsidiaries are set out in note 24.

Details of transaction volumes and outstanding balances are summarised below:

### 48 SEGMENTAL ANALYSIS

The Group's Board of Directors and senior management reviews the Group's operation by the particular economic areas in which the Group's branches and subsidiaries provide products or services. The Group's geographical operating segments are decided based upon location of the assets, as the Group's branches and subsidiaries mainly serve local customers.

The reportable geographical operating segments derive their revenue primarily from commercial banking services and investing activities, including deposits, loans, bills, trade financing, money market placements and takings, and securities investments, etc.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

(All amounts expressed in millions of RMB unless otherwise stated)

### 48 SEGMENTAL ANALYSIS *(Continued)*

The Group's geographical operating segments include provincial and directly managed branches and subsidiaries (if any) in relevant regions, as follows:

- (1) Yangtze River Delta: including Shanghai (excluding Head Office), Jiangsu Province, Zhejiang Province, and Anhui Province;
- (2) Pearl River Delta: including Fujian Province and Guangdong Province;
- (3) Bohai Rim Economic Zone: including Beijing, Tianjin, Hebei Province, and Shandong Province;
- (4) Central China: including Shanxi Province, Jiangxi Province, Henan Province, Hubei Province, Hunan Province, Hainan Province, and Guangxi Zhuang Autonomous Region;
- (5) Western China: including Chongqing, Sichuan Province, Guizhou Province, Yunnan Province, Shanxi Province, Gansu Province, Qinghai Province, Inner Mongolia Autonomous Region, Ningxia Autonomous Region, and Xinjiang Uyghur Autonomous Region;
- (6) Northeastern China: including Liaoning Province, Jilin Province and Heilongjiang Province;
- (7) Overseas: including Hong Kong, New York, Tokyo, Singapore, Seoul, Frankfurt, Macau, Ho Chi Minh City, San Francisco, Sydney, Taipei, London, Luxembourg, Brisbane, Paris, Rome, Brazil, Melbourne, Toronto, Prague, Johannesburg;
- (8) Head Office, including the Pacific Credit Card Centre.

The revenue from external parties is reported to the Board of Directors and the senior management in a manner consistent with that in the consolidated statement of profit or loss and other comprehensive income.

As the Group's major revenue is derived from interest, and the Board of Directors and the senior management relies primarily on net interest income to assess the performance of segments, the interest income and expenses for all reportable segments are presented on a net basis.

The Group's Board of Directors and senior management reviews the segment performance on the basis of profit before tax. Funds are ordinarily allocated between segments. Costs of these funds are charged at the Group's cost of capital and disclosed in inter-segment net interest income. There are no other material items of income or expenses between the segments.

The net options position is calculated using the approach set out by the CBIRC in the regulatory report. The net structural position of the Group includes the structural positions of the Group's overseas branches, banking subsidiaries and other subsidiaries substantially involved in foreign exchange. Structural assets and liabilities include:

- Investments in fixed assets and properties, net of depreciation charges;
- Capital and statutory reserve of overseas branches;
- Investments in overseas subsidiaries and related companies; and
- Loan capital

(All amounts expressed in millions of RMB unless otherwise stated)

### 2 INTERNATIONAL CLAIMS

International claims are the sum of cross-border claims in all currencies and local claims in foreign currencies. The Group is principally engaged in business operations within Mainland China.

In respect of this unaudited supplementary financial information, Mainland China excludes Hong Kong Special Administrative Region of the PRC ("Hong Kong"), Macau Special Administrative Region of the PRC ("Macau") and Taiwan.

International claims include loans and advances to customers, due from and placements with banks and other financial institutions, holdings of trade bills and certificates of deposits and investment securities.

International claims have been disclosed by country or region. A country or region is reported where it constitutes 10% or more of the aggregate amount of international claims, after taking into account any risk transfers. Risk transfers are only made if risk exposure is transferred to other counterparty by risk resolving methods. Exposure to credit risk is also mitigated through methods of guarantees, collaterals and credit derivatives.

| Gross amount of loans and advances to customers before impairment allowance | 208,363                | 100.00 | 81,791                           | 194,573                | 100.00 | 75,037                           |
| Outside Hong Kong   | 6,352,037              |        |                                  | 5,653,851              |        |                                  |

Note: The classification of industries is consistent with the latest national standards for industry classification (*Industrial Classification for National Economic Activities* (GB/T 4754-2017) issued by SAC and AQSIQ in 2017).

The risk concentration analysis for loans and advances to customers by industry sectors is based on the Group's internal classification system.

The ratio of collateral and pledge loans to the total loans of the Group was 52% as at 31 December 2021 (31 December 2020: 52%).

## UNAUDITED SUPPLEMENTARY FINANCIAL INFORMATION (CONTINUED)

(All amounts expressed in millions of RMB unless otherwise stated)

5 LOANS AND ADVANCES TO CUSTOMERS *(Continued)*

## 5.2 Allowance on loans and advances to customers by type of loan

|                           | As at 31 December 2021 |                                 | As at 31 December 2020 |                                 |
|---------------------------|------------------------|---------------------------------|------------------------|---------------------------------|
|                           | Impaired loans         | Allowance for impairment losses | Impaired loans         | Allowance for impairment losses |
| Corporates                | 77,628                 | (49,172)                        | 78,925                 | (48,335)                        |
| Individuals               | 19,168                 | (14,710)                        | 18,773                 | (15,005)                        |
|                           | 96,796                 | (63,882)                        | 97,698                 | (63,340)                        |
| Fair value of collaterals | 46,194                 | Not applicable                  | 46,359                 | Not applicable                  |

Collaterals held against such loans mainly include cash deposits and mortgages over properties.

The amount of new provisions charged to statement of profit or loss, and the amount of loans and advances written off during the years are disclosed below:

|             | Year ended 31 December 2021 |   |  | Year ended 31 December 2020 |   |  |
|-------------|-----------------------------|---|--|-----------------------------|---|--|
|             | New provisions              | Loans and advances written off as uncollectible | Recoveries of loans and advances written off in previous years | New provisions              | Loans and advances written off as uncollectible | Recoveries of loans and advances written off in previous years |
| Corporates  | 45,986                      | (32,886)  | 4,443  | 29,855                      | (33,248)  | 3,340  |
| Individuals | 16,959                      | (14,633)  | 1,881  | 26,414                      | (20,580)  | 1,712  |
|             | 62,945                      | (47,519)  | 6,324  | 56,269                      | (53,828)  | 5,052  |

# SUPPLEMENTARY INFORMATION ON LEVERAGE RATIO, LIQUIDITY COVERAGE RATIO AND NET STABLE FUNDING RATIO

## APPENDIX 1: INFORMATION RELATED TO LEVERAGE RATIO

Leverage ratio disclosure is disclosed according to Note 3 *Leverage Ratio Disclosure Format of the Measures for the Administration of the Leverage Ratio of Commercial Banks (Revised)*.

### Reconciliation of Regulatory Consolidation and Accounting Consolidation

(in millions of RMB)

| Serial Number | Item   | 31 December 2021 | 31 December 2020 |
|---------------|--|------------------|------------------|
| 1             | Total consolidated assets                            | 11,665,757       | 10,697,615       |
| 2             | Adjustments of consolidation                         | (91,385)         | (70,282)         |
| 3             | Adjustments item of customer's assets                | 0                | 0                |
| 4             | Adjustments of derivatives                           | 41,498           | 33,616           |
| 5             | Adjustments of securities financing transactions     | 725              | 2,022            |
| 6             | Adjustments of off-balance sheet item                | 1,021,988        | 844,885          |
| 7             | Other Adjustments                                    | (6,010)          | (5,252)          |
| 8             | Balance of adjusted on- and off-balance sheet assets | 12,632,573       | 11,502,604       |

### Leverage Ratio Information

(in millions of RMB unless otherwise stated)

| Serial Number | Item  | 31 December 2021 | 31 December 2020 |
|---------------|---|------------------|------------------|
| 1             | On-balance-sheet assets (excluding derivatives and securities financing transactions)   | 11,426,283       | 10,495,090       |
| 2             | Less: Deduction of tier-1 capital   | (6,010)          | (5,252)          |
| 3             | Balance of adjusted on-balance sheet assets (excluding derivatives and securities financing transactions)                                   | 11,420,273       | 10,489,838       |
| 4             | Replacement costs of derivatives (less eligible margin)   | 39,220           | 54,236           |
| 5             | Potential risk exposure of derivatives  | 41,498           | 33,616           |
| 6             | Sum of collaterals deducted from the balance sheet  | 0                | 0                |
| 7             | Less: Assets receivable from providing eligible margin  | 0                | 0                |
| 8             | Less: Derivative assets resulting from the transactions with central counterparties in providing clearing settlement services for customers | 0                | 0                |
| 9             | Notional principal of sold credit derivatives   | 0                | 0                |
| 10            | Less: Deductible balance of sold credit derivatives   | 0                | 0                |
| 11            | Derivative asset balance  | 80,718           | 87,852           |
| 12            | Accounting asset balance of securities financing transactions   | 108,869          | 78,007           |
| 13            | Less: Balance of deductible securities financing transaction assets   | 0                | 0                |
| 14            | Counterparty credit risk exposure of securities financing transactions  | 725              | 2,022            |
| 15            | Balance of securities financing transaction assets from acting for securities financing transactions  | 0                | 0                |
| 16            | Securities financing assets balance   | 109,594          | 80,029           |
| 17            | Balance of off-balance-sheet items  | 2,373,602        | 2,007,150        |
| 18            | Less: Balance of off-balance-sheet items arising from the reduction of credit transfer  | (1,351,614)      | (1,162,265)      |
| 19            | Adjusted off-balance sheet items balance  | 1,021,988        | 844,885          |
| 20            | Net tier-1 capital  | 960,225          | 862,221          |
| 21            | Adjusted balance of on- and off-balance sheet assets  | 12,632,573       | 11,502,604       |
| 22            | Leverage ratio (%)  | 7.60             | 7.50             |

## SUPPLEMENTARY INFORMATION ON LEVERAGE RATIO, LIQUIDITY COVERAGE RATIO AND NET STABLE FUNDING RATIO (CONTINUED)

### APPENDIX 2: THE DAILY AVERAGE LIQUIDITY COVERAGE RATIO AND ITS DETAILS OF THE GROUP IN THE FOURTH QUARTER OF 2021

(in millions of RMB unless otherwise stated)

| Serial Number  | Amount before<br>conversion | Amount after<br>conversion         |
|--|-----------------------------|------------------------------------|
| <b>The qualified high-quality liquid assets</b>                            |                             |                                    |
| 1 The qualified high-quality liquid assets                                 |                             | 2,143,415                          |
| <b>Cash Outflow</b>  |                             |                                    |
| 2 Retail deposits, small business deposits, including:                     | 2,283,598                   | 218,861                            |
| 3 Stable deposit   | 187,863                     | 9,287                              |
| 4 Less stable deposit  | 2,095,735                   | 209,574                            |
| 5 Unsecured wholesale funding, including:                                  | 4,773,737                   | 2,005,883                          |
| 6 Business relationship deposit (excluding agency business)                | 2,658,589                   | 663,356                            |
| 7 Non-business relationship deposit (including all counterparties)         | 2,099,114                   | 1,326,493                          |
| 8 Unsecured debt   | 16,034                      | 16,034                             |
| 9 Secured funding  |                             | 12,989                             |
| 10 Other items, including:   | 2,201,657                   | 1,262,724                          |
| 11 Cash outflow relates to derivatives and other collateral/pledged assets | 1,227,188                   | 1,209,533                          |
| 12 Cash outflow relates to loss of funding on asset-blocked securities     | 162                         | 162                                |
| 13 Committed credit and liquidity facilities                               | 974,307                     | 53,029                             |
| 14 Other contractual obligation to extend funds                            | 58,341                      | 58,341                             |
| 15 Contingent funding obligations  | 1,825,657                   | 67,107                             |
| 16 Total expected cash outflow   |                             | 3,625,905                          |
| <b>Cash Inflow</b>   |                             |                                    |
| 17 Secured lending (including reverse repos and securities borrowing)      | 103,994                     | 102,556                            |
| 18 Inflows from fully performing exposure                                  | 837,116                     | 545,173                            |
| 19 Other cash inflow   | 1,241,241                   | 1,222,887                          |
| 20 Total expected cash inflow  | 2,182,351                   | 1,870,616                          |
|  |                             | <b>Amount after<br/>adjustment</b> |
| 21 The qualified high-quality liquid assets                                |                             | 2,031,441                          |
| 22 Net cash outflow  |                             | 1,755,289                          |
| 23 Liquidity Coverage Ratio (%)  |                             | 115.70                             |

## SUPPLEMENTARY INFORMATION ON LEVERAGE RATIO, LIQUIDITY COVERAGE RATIO AND NET STABLE FUNDING RATIO (CONTINUED)

### APPENDIX 3: NET STABLE FUNDING RATIO AND ITEMS FOR THE THIRD QUARTER OF 2021 *(CONTINUED)*

(in millions of RMB unless otherwise stated)

| Serial Number |   | Unweighted value |                    |             |             | Weighted value |
|---------------|---|------------------|--------------------|-------------|-------------|----------------|
|               |   | No Maturity      | Less than 6 months | 6-12 months | Over 1 year |                |
| 28            | Assets posted as initial margin for derivative contracts and contributions to default funds of central counterparties |                  |                    |             | 9,757       | 8,294          |
| 29            | Net stable funding ratio derivative assets  |                  |                    |             | 30,101      | 2,376          |
| 30            | Derivative with additional requirements   |                  |                    |             | 27,725      | 5,545          |
| 31            | All other assets not included in the above  | 162,872          | 70,451             | 9,146       | 18,598      | 258,306        |
| 32            | Off-balance-sheet items   |                  |                    |             | 3,189,068   | 135,138        |
| 33            | Total required stable funding   |                  |                    |             |             | 6,132,965      |
| 34            | Net stable funding ratio (%)  |                  |                    |             |             | 109.93         |

#### Notes:

1. The “no maturity” bucket mentioned in the table above include, but are not limited to, capital with perpetual maturity, non-maturity (demand) deposits, short positions, open maturity positions, non-high-quality liquid assets equities, and physical traded commodities.
2. The unweighted value of item 30 “Net stable funding ratio derivative liabilities with additional requirements” is the net stable funding ratio derivative liabilities before the deduction of the variation margin, without differentiation of maturity, and not included in the unweighted value of item 26 “Other assets”.

## SUPPLEMENTARY INFORMATION ON LEVERAGE RATIO, LIQUIDITY COVERAGE RATIO AND NET STABLE FUNDING RATIO (CONTINUED)

### APPENDIX 4: NET STABLE FUNDING RATIO AND ITEMS FOR THE FOURTH QUARTER OF 2021 *(CONTINUED)*

(in millions of RMB unless otherwise stated)

| Serial Number |   | Unweighted value |                    |             |             | Weighted value |
|---------------|---|------------------|--------------------|-------------|-------------|----------------|
|               |   | No Maturity      | Less than 6 months | 6-12 months | Over 1 year |                |
| 28            | Assets posted as initial margin for derivative contracts and contributions to default funds of central counterparties |                  |                    |             | 10,288      | 8,745          |
| 29            | Net stable funding ratio derivative assets  |                  |                    |             | 39,220      | 3,119          |
| 30            | Derivative with additional requirements   |                  |                    |             | 36,101      | 7,220          |
| 31            | All other assets not included in the above  | 164,938          | 68,009             | 9,493       | 28,003      | 268,703        |
| 32            | Off-balance-sheet items   |                  |                    |             | 3,228,439   | 137,793        |
| 33            | Total required stable funding   |                  |                    |             |             | 6,254,099      |
| 34            | Net stable funding ratio (%)  |                  |                    |             |             | 108.64         |

#### Notes:

1. The “no maturity” bucket mentioned in the table above include, but are not limited to, capital with perpetual maturity, non-maturity (demand) deposits, short positions, open maturity positions, non-high-quality liquid assets equities, and physical traded commodities.
2. The unweighted value of item 30 “Net stable funding ratio derivative liabilities with additional requirements” is the net stable funding ratio derivative liabilities before the deduction of the variation margin, without differentiation of maturity, and not included in the unweighted value of item 26 “Other assets”.

# REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

**To the Board of Directors of Bank of Communications Co., Ltd.**

*(Incorporated in the People's Republic of China with limited liability)*

## INTRODUCTION

We have reviewed the accompanying interim financial information, which comprises the interim condensed consolidated statement of financial position of Bank of Communications Co., Ltd. as at 30 June 2022, and the interim condensed consolidated statement of profit or loss and other comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six-month period then ended, and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34, Interim Financial Reporting, issued by the International Accounting Standards Board. The directors are responsible for the preparation and presentation of the interim financial information in accordance with International Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial information and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

## SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the International Auditing and Assurance Standards Board. A review of the interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

## CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information as at 30 June 2022 is not prepared, in all material respects, in accordance with International Accounting Standard 34, Interim Financial Reporting.

# NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

## 1 GENERAL

Bank of Communications Co., Ltd. (the “Bank”) is a national state-owned joint-stock commercial bank, headquartered in Shanghai, which was reorganised upon the approval of Notice Guo Fa (1986) No. 81 issued by the State Council of the PRC and Notice Yin Fa (1987) No. 40 issued by the People’s Bank of China (the “PBOC”).

The Bank possesses the Finance Permit No. B0005H131000001 issued by the China Banking and Insurance Regulatory Commission (the “CBIRC”) of the PRC with the registration number of 9131000010000595XD.

The Bank’s A Shares are listed on the Shanghai Stock Exchange (the “SSE”) and H Shares are listed on the Hong Kong Stock Exchange, with the stock codes of 601328 and 03328 respectively.

The principal activities of the Bank and its subsidiaries (the “Group”) include corporate and personal banking services, interbank and financial market business, financial leasing, fund management, wealth management, trustees, insurance, overseas securities, debt-to-equity swap and other related financial services.

## 2 SIGNIFICANT ACCOUNTING POLICIES

### (1) Basis of preparation

The unaudited interim financial information for the six months ended 30 June 2022 have been prepared in accordance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”, as well as with all applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

The unaudited interim condensed consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair value. The principal accounting policies and methods of computation used in preparing the interim financial information are the same as those followed in the preparation of the Group’s consolidated financial statements for the year ended 31 December 2021.

The unaudited interim condensed consolidated financial statements should be read in conjunction with the Group’s consolidated financial statements for the year ended 31 December 2021, which have been audited.

### (2) Changes in accounting policies

#### (a) Standards and amendments effective in 2022 relevant to and adopted by the Group

In the current reporting period, the Group has adopted the following International Financial Reporting Standards (“IFRSs”) and amendments issued by the International Accounting Standards Board (“IASB”), that are mandatorily effective for the current reporting period.

|     |   |  | Effective for<br>annual periods<br>beginning on or after | Notes |
|-----|---|--|--|-------|
| (1) | Amendments to IFRS 3  | Reference to the Conceptual Framework                        | 1 January 2022   | (i)   |
| (2) | Amendments to IAS 37  | Onerous Contracts – Cost of Fulfilling a Contract            | 1 January 2022   | (i)   |
| (3) | Amendments to IAS 16  | Property, Plant and Equipment – Proceeds before Intended Use | 1 January 2022   | (i)   |
| (4) | Amendments to IFRS 1, IFRS 9, IFRS 16 and IAS 41  | IASB Annual Improvements 2018 – 2020 cycle                   | 1 January 2022   | (i)   |
| (i) | Description of this standard and amendment was disclosed in the Group’s consolidated financial statements for the year ended 31 December 2021. The adoption of this standard and amendment does not have a significant impact on the operating results, comprehensive income, or financial position of the Group. |  |  |       |

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022  
(All amounts presented in millions of RMB except when otherwise indicated)

### 2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (2) Changes in accounting policies (Continued)

##### **(b) Standards and amendments relevant to the Group that are not yet effective in the current reporting period and have not been adopted before their effective dates by the Group**

The Group has not adopted the following new or amended standards and interpretations issued by the IASB and the International Financial Reporting Interpretations Committee ("IFRIC"), that have been issued but are not yet effective.

|      |  |   | Effective for<br>annual periods<br>beginning on or after | Notes |
|------|--|---|--|-------|
| (1)  | Amendments to IAS 1  | Classification of Liabilities as Current or Non-current                               | 1 January 2023   | (i)   |
| (2)  | IFRS 17  | Insurance Contracts   | 1 January 2023   | (ii)  |
| (3)  | Amendments to IAS 1 and IFRS Practice Statement 2  | Disclosure of Accounting Policies   | 1 January 2023   | (i)   |
| (4)  | Amendments to IAS 8  | Definition of Accounting Estimates  | 1 January 2023   | (i)   |
| (5)  | Amendments to IAS 12   | Deferred Tax related to Assets and Liabilities arising from a Single Transaction      | 1 January 2023   | (i)   |
| (6)  | Amendments to IFRS 10 and IAS 28   | Sale or Contribution of Assets between An Investor and Its Associate or Joint Venture | The effective date has now been deferred.                | (i)   |
| (i)  | Descriptions of these standards and amendments were disclosed in the Group's consolidated financial statements for the year ended 31 December 2021. The Group anticipates that the adoption of these standards and amendments will not have a significant impact on the Group's financial information. |   |  |       |
| (ii) | Amendments to IFRS 17: Insurance Contracts   |   |  |       |

Descriptions of this amendments was disclosed in the Group's consolidated financial statements for the year ended 31 December 2021. The Group has not completed its assessment of the impact on the Group's operating results and financial position of adopting IFRS 17.

#### (3) Significant accounting estimates and judgements in applying accounting policies

The preparation of this interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, and income and expense. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Group's consolidated financial statements for the year ended 31 December 2021.

## 3 FINANCIAL RISK MANAGEMENT

### Overview

The Group's operating activities expose it to a variety of financial risks and those activities involve analysis, evaluation, acceptance and management of a certain degree of risks or a portfolio of risks. The Group's aim is to achieve an appropriate balance between risks and returns and minimise potential adverse effects on the Group's financial performance. The main types of financial risks are credit risk, liquidity risk, market risk, operational risk, etc.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### Overview *(Continued)*

The Group's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, monitor the risks and to control the risk limits through reliable and up-to-date information systems. The Group regularly reviews its risk management policies and systems to reflect changes in markets and products and the latest best practice.

#### Risk management framework

The Board of Directors sets out risk management strategies, overall risk preference and risk tolerance level. The senior management establishes risk management policies and procedures according to the strategies set by the Board of Directors. The Risk Management Department/Internal Control and Crime Prevention Office at Head Office serves as the chief department for the Group's risk management and leads the overall risk management duties, of which the crucial ones would be further designated to specific leading departments. The risk management division in each operation department at Head Office, in each domestic and overseas branch and in each subsidiary undertakes specific risk management function. Internal Audit Department is responsible for independent review of risk management and control environment.

#### (1) Credit risk

Credit risk is the risk of loss that a borrower or counterparty fails to or is unwilling to meet its obligations. Credit risk arises principally from loans and advances to customers, financial investments, derivative instruments and due from and placements with banks and other financial institutions. There is also credit risk in off-balance sheet items such as loan commitments, financial guarantees, acceptances and letters of credit. Credit risk is a major risk to which the Group is exposed. Therefore, the Group manages and controls the overall credit risk, integrated into the comprehensive risk management, in a prudent manner, and reports regularly to the Senior Management and the Board of Directors of the Group.

#### (a) **Credit risk management**

The Group's credit risk management is assumed by major functions such as Corporate Business Department, Inclusive Finance Department, Retail Credit Business Department, Pacific Credit Card Centre, International Banking Department, Credit Management Department, Credit Authorisation Department, Risk Management Department/Internal Control and Crime Prevention Office, Asset Preservation Department, Financial institution Department and Financial Market Department. They are responsible for the standardised management of corporate and retail credit businesses in terms of guidance on credit investment, credit investigation and report, credit approval, loan granting, post-loan management and non-performing loan management.

#### (i) *Loans and advances to customers*

As for corporate loans, the Group's relationship managers are responsible for receiving application files submitted by the applicants, conducting pre-loan investigation, assessing the credit risk, and raising the proposed rating. The Group adopts the hierarchical approval system at the branch and Head Office level based on the credit approval authority. Credit line is determined by taking into account the credit record, financial position, collaterals and guarantees of the applicant, overall credit risk of the credit portfolio, macroeconomic regulation and control policies and relevant laws and regulations. The Group keeps a close eye on the economic and financial trend and credit risk profile in the industry, provides more guidance on credit investment, formulate guidance for different industries, strengthens daily risk pre-warning, monitoring and specific risk investigation, identify customers under major risks and material potential risk points, enhances the refinement of post-loan management and centers on customer credit risk management to carry out post-loan management. The independent loan granting centre shall review the compliance, completeness and effectiveness of relevant credit files before loan granting according to the applications for drawdown of credit line. The Group's relationship managers are primarily responsible for post-loan management. The Group adopts a series of tools and approaches, such as risk filtering, list management, risk warning and risk investigation, in daily risk monitoring of corporate loans. The Group manages non-performing loans mainly through (1) collection; (2) restructuring; (3) disposal of collaterals or recourse to the guarantors; (4) litigation or arbitration; (5) disposal.

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### (1) Credit risk (Continued)

#### (a) Credit risk management (Continued)

##### (i) Loans and advances to customers (Continued)

For retail credit assets, the Group manages the overall risk profile of retail credit business through on-site review and adoption of reporting system on material matters, strengthens daily risk monitoring and pre-warning through optimising management system, standardises operation process of retail credit business through formulating business management system and combining relevant system function control, identifies and reveals material potential risks on a timely manner through strengthening risk monitoring and early-warning, and understands and forecasts the quality trends so as to adopt targeted risk control measures in advance by using stress testing and quality migration analysis. In addition, the Group continues to carry out fast response mechanism to address emergencies properly and maintains a list to manage those key risk projects through risk monitoring, guidance, collection and mitigation.

The Group adopts categorised management for retail credit assets on the basis of overdue ageing and guarantee type. With regard to retail credit customers with overdue loans, different approaches are adopted to collect such loans based on their overdue days.

Credit Card Centre of the Group is in charge of the operation and management of credit card business. Credit Card Centre of the Group adopts various supervisory and preventive measures. It reinforces data cross-validation to enhance risk prevention in the approval process, reduces risk exposure to high risk customers through subsequent credit investigation and enters into the intervention process earlier than scheduled, effectively improves collection result through reasonable allocation of available resources, and optimises data analytic system to further enhance the management of credit card business.

##### (ii) Treasury business

For treasury business (including debt investments), the Group chooses banks and other financial institutions prudently and balances the credit risk and return rate of investments. By making reference to internal and external credit rating information, the Group approves credits of different levels and uses an appropriate credit limit management system to review and adjust credit lines, aiming to manage the credit risk exposed to the treasury business.

For debt securities, internal and external ratings (such as Standard and Poor's) are used by the Group when available for managing the credit risk exposed to debt securities and bills. The investment in those debts and bills is to have better credit quality assets while maintaining readily available liquidity resource. The bond issuers involved with the Group are subject to the credit granting review and approval of the Head Office and credit limits are placed on such issuers.

Debt investments other than debt securities include investments in fund trust schemes, asset management plans and wealth management products set up by banking financial institutions. The Group implements a rating system for accepting trust companies, securities companies and fund companies, sets credit limits for repurchase parties of trust beneficiary right, ultimate borrowers of targeted asset management plans, and issuers of inter-bank wealth management products, and carries out follow-up risk management on a regular basis.

As for derivative instruments, the Group maintains strict limits on net open derivative investment positions (i.e., the difference between long and short contracts), by both amount and maturity. At any time, the amount subject to credit risk is limited to the current fair value of instruments that are favourable to the Group (i.e., assets where their fair value is positive), which, in relation to derivative instruments, is only a fraction of the contract's notional amount used to express the amount outstanding. This credit risk exposure is managed as part of the overall lending limits with customers, together with potential exposures from market fluctuations. Collateral or other security is not usually obtained for credit risk exposures on these instruments, except when the Group requires margin deposits from counterparties. The management has set limits of these contracts according to counterparty, and regularly monitor and control the actual credit risk when the Group concludes foreign exchange and interest rate contracts with other financial institutions and clients.

The Group manages the credit quality of due from and placements with banks and other financial institutions, and balances arising from transactions for precious metals, by considering the size, financial position, the internal and external credit rating of the banks and other financial institutions. The Head Office monitors and reviews the credit risk of due from and placements with banks and other financial institutions by counterparties regularly. Limits are placed on different counterparties.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### (1) Credit risk *(Continued)*

##### (a) **Credit risk management** *(Continued)*

##### (iii) *Credit-related commitments*

Credit risk exposures to financial guarantees are the same as that of loans. However, commercial letters of credit are usually pledged by the relevant shipped goods, and therefore are subject to lower risk compared with direct loans. Credit-related commitments are included in the management of overall credit line granted to the applicant. For customers with transactions beyond the credit limit or infrequent transactions, the applicant shall be requested to provide relevant margin deposits in order to reduce credit risk exposures.

##### (iv) *Credit risk quality*

In accordance with the Guideline for Loan Credit Risk Classification issued by the CBIRC, the Group measures and manages the quality of corporate and personal loans and advances by classifying loans into the following five categories: normal, special-mention, substandard, doubtful and loss, of which substandard, doubtful and loss loans are regarded as non-performing loans.

The five categories of loan classification into which the Group classifies its loans and advances to customers are set out below:

|                  |  |
|------------------|--|
| Normal:          | Borrowers can honour the terms of their loans. There is no reason to doubt their ability to repay principal and interest in full on a timely basis.  |
| Special-mention: | Borrowers are able to service their loans currently, although repayment may be adversely affected by specific factors.   |
| Substandard:     | Borrowers' ability to service their loans is in question and they cannot rely entirely on normal operating revenues to repay principal and interest. Losses may ensue even when collaterals or guarantees are invoked. |
| Doubtful:        | Borrowers cannot repay principal and interest in full and significant losses will need to be recognised even when collaterals or guarantees are invoked.   |
| Loss:            | Only a small portion or none of the principal and interest can be recovered after taking all possible measures and exhausting all legal remedies.  |

##### (b) **Expected credit loss ("ECL")**

The Group measures the ECL of financial instruments at amortised cost or debt investments at fair value through other comprehensive income ("FVOCI"). The Group divides them into 3 stages by assessing whether there has been a significant increase in credit risk since initial recognition to recognise ECL.

The Group measures the ECL of a financial instrument in a way that reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money;
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

##### *Stage classification*

The Group divides them into 3 stages. Stage 1 is "financial assets without significant increase in credit risk since initial recognition", at which the Group only needs to measure ECL in the next 12 months. Stage 2 is "financial assets with significant increase in credit risk" and stage 3 is "credit-impaired financial assets", at both of which the Group needs to measure lifetime ECL.

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### (1) Credit risk (Continued)

#### (b) Expected credit loss ("ECL") (Continued)

##### *Significant increases in credit risk*

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the balance sheet date with that assessed at the date of initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information, including forward-looking information. In particular, the following information is taken into account:

- Principal or interest of the instrument is more than 30 days past due;
- Credit rating of obligor changes significantly. Credit rating is based on both internal and external rating results, and the criteria are as follow:
  - (i) The changed internal and external ratings are worse than the Group's credit access standards;
  - (ii) The non-retail assets' internal ratings are downgraded by 3 ranks or above upon initial recognition;
  - (iii) Significant adverse issues have negative impacts on obligator's repayment ability;
  - (iv) Other circumstances of significant increase in credit risk. For example, appearance of other risk alarm indicators which imply growing potential risk, and could cause losses of financial assets to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

##### *Definition of credit-impaired and default*

The criteria adopted by the Group to determine whether a credit impairment occurs under IFRS 9 is consistent with the internal credit risk management objectives for relevant financial instrument, in addition to consideration of quantitative and qualitative indicators. In general, the Group considers a financial instrument to be credit-impaired or otherwise in default when one or more of the following criteria have been met:

- Principal or interest of the asset is more than 90 days past due;
- The issuer or obligor is in significant financial difficulty, or has already become insolvent;
- It is becoming probable that the obligor will enter bankruptcy;
- An active market for that financial asset has disappeared because of financial difficulties of issuers;
- Other objective evidence indicating impairment of the financial asset.

The financial assets are moveable between stages. For instance, financial instruments originally classified at stage 1 should be downgraded to stage 2 if events occur such as a significant increase in credit risk. Financial instruments at stage 2 could be upgraded to stage 1 if credit risk decreases and the criteria for the determination of "a significant increase in credit risk" are no longer met.

After the outbreak of the pandemic of COVID-19, the Group strictly followed the regulatory policies and requirements and prudently evaluates the repayment ability of the clients who apply for payment holiday. On the premise that the subsequent risks will not be enlarged and subsequent settlement will not be affected, the Group provided relief measures to those clients meeting specific criteria by extending the maturity and so on. The Group has assessed whether the relief measures would cause a significant increase in credit risks and has adjusted the stage classification as appropriate.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### (1) Credit risk *(Continued)*

##### **(b) Expected credit loss (“ECL”) *(Continued)***

###### *Description of parameters, assumptions and estimation techniques*

The Group recognises a loss allowance to different financial instruments at an amount equal to 12-month or lifetime expected credit loss based on whether there has been a significant increase in credit risk and whether the financial instrument is credit-impaired. ECL is the result of discounted product of the weighted average of “probability of default (PD)”, “loss given default (LGD)”, “exposure at default (EAD)” under the three scenarios, which are defined as follows:

Probability of default (PD) is the probability of default occurring of a client and its assets in a given period of time in the future.

Exposure at default (EAD) represents the total amount of on-balance sheet and off-balance sheet exposure at the time of default by debtor, reflecting the total amount of possible losses likely to be incurred. In general, this includes the utilised credit limit, interest receivable, the anticipated usage of unused credit facilities as well as the related expenses to be incurred.

Loss given default (LGD) represents the percentage of amount of loss to be incurred in the event of default to the total risk exposure. It typically varies by nature of debtor, type and seniority of claim and the availability of collaterals or other credit risk mitigation.

Definition of default has been consistently applied to model establishment of probability of default (PD), exposure at default (EAD), loss given default (LGD) in ECL calculation throughout the Group.

###### *Estimation of ECL: the impairment models*

The impairment models adopt a top down approach. Through grouping, the models cover the risk exposures of financial institutions, corporates and retailers. The Group has established a macro-economic forecast model driven by the year-on-year Gross Domestic Product (GDP) growth rate to forecast values of macro-economic indicators in multiple categories, including national accounts, price index, foreign trades, fixed asset investments, currency and interest rates, under three scenarios, namely “Basic Scenario”, “Optimistic Scenario” and “Pessimistic Scenario”. The forecasts, after evaluation and confirmation by economic experts and senior management of the Bank, are used in asset impairment model. The macro scenario settings and the rationality of the weightings are reviewed and adjusted semiannually, based on changes in the internal and external economic environment.

As at June 30 2022, The Group forecasts the 2022 year-on-year growth rate of GDP to be around 5.0% in the Basic Scenario. The Group fully considered the macroeconomic forecast for 2022 when evaluating the forecast information used in the impairment models, and made prudential adjustments to the macro scenario settings.

The Group determined the weightings of “Basic Scenario”, “Optimistic Scenario” and “Pessimistic Scenario” with macro data analysis and expert’s judgement and maintain relative stability.

Where impairment models could not be established due to lack of data support, the Group endeavoured to select appropriate methods in order to make prospective estimation. The Group made prospective adjustments to impairment calculation of overseas branches regularly based on macro-forecast data from authoritative institutions (such as IMF and the World Bank). For asset portfolios not covered by impairment models, expected loss rate was set by referring to that of similar asset portfolios with impairment models available. When the management believed that the forecast model could not fully reflect recent credit or economic events, management overlay adjustments could be used to supplement ECL allowances.

###### *Grouping of instruments with similar credit risk characteristics*

To calculate the relevance between ECL allowance and macro-economic indicators, a grouping of exposure is performed for assets with similar credit risk characteristics. In performing this grouping, the Group has obtained sufficient information to ensure the data reliability for statistical purposes. Where sufficient information is not available internally, the Group has leveraged supplementary data from both internal and external environments to help establish impairment model. Non-retail assets of the Group are mainly grouped according to industries, while retail assets are mainly grouped based on product types and so on.

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### (1) Credit risk (Continued)

#### (b) Expected credit loss (“ECL”) (Continued)

##### Sensitivity analysis

The Group measures sensitivity analysis on the macro-economic indicators used in prospective estimation. As at 30 June 2022, if the optimistic/pessimistic scenario weighting increases or decreases by 10%, and the prediction of economic indicators changed correspondingly, the change of the impairment allowance does not exceed 5%.

#### (c) Maximum exposure to credit risk

##### (i) financial instruments included in impairment assessment

The Group classified the credit risk levels of financial assets measured by ECL into “Low” (credit risk in good condition), “Medium” (increased credit risk), and “High” (credit risk in severe condition), based on the quality of assets. The credit risk level is used for the purpose of the group’s internal credit risk management. “Low” refers to assets with good credit quality. There is no sufficient reason to doubt that the assets are not expected to fulfill its contractual obligation to repay or if there is any other behaviors breaching the debt contracts that would significantly impact the repayment of debt according to contract terms. “Medium” refers to assets facing obvious negative factors impacting its repayment capacity, but not yet have non-repayment behaviors. “High” refers to non-repayment according to the debt contract terms, or other behaviors breaching the debt contracts or having significant impact on the repayment of debt according to contract terms.

The table below analyses exposure to credit risk of major financial instruments included in expected credit losses assessment. The balance of financial instruments below is the maximum exposure to credit risk of these instruments in the Group.

| As at 30 June 2022  | Low risk  | Medium risk | High risk | Domestic branches | Overseas and subsidiaries | Group total | Allowance for Impairment losses | Group Carrying amount |

For the six months ended 30 June 2022  
(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### (1) Credit risk *(Continued)*

##### (c) **Maximum exposure to credit risk** *(Continued)*

##### (ii) *financial instruments not included in impairment assessment*

The analysis of credit risk exposure of those financial assets which are not included in the impairment assessment are as follows:

|   | As at<br>30 June 2022 | As at<br>31 December 2021 |
|---|-----------------------|---------------------------|
| Financial assets at fair value through profit or loss |                       |                           |
| Derivative financial instruments                      | 56,150                | 39,220                    |
| Loans and advances to customers                       | 27                    | 27                        |
| Debt securities                                       | 265,848               | 247,934                   |
| Funds, trusts and debt investments                    | 173,150               | 166,710                   |
| Precious metal contracts                              | 19,381                | 21,924                    |
| Other investments                                     | 145,214               | 138,466                   |
| Total   | 659,770               | 614,281                   |

##### (iii) *Collaterals and other credit enhancements*

The Group manages, limits and controls concentrations of credit risk wherever they are identified, in particular, to individual counterparty, groups, industry segments and geographical regions.

The Group optimises its credit risk structure by placing limits in relation to one borrower, or group of borrowers. Such risks are monitored by the Group on a regular basis and subject to annual or more frequent review, whenever necessary.

The exposure to any single borrower including banks and brokers is further restricted by sub-limits covering on- and off-balance sheet exposures, and daily delivery risk limits in relation to trading items such as forward foreign exchange contracts. The Group monitors the actual credit risk exposure and credit limits on a daily basis.

Exposure to credit risk is also managed through regular analysis of the ability of borrowers and potential borrowers to meet principal and interest repayment obligations. The Group will change their lending limits when appropriate based on the analysis.

Some other specific control and risk mitigation measures are outlined below.

#### Collaterals

The Group employs a range of policies and practices to mitigate credit risk. The most common practice is to accept collaterals or pledges. The Group implements guidelines on the acceptability of specific classes of collaterals and pledges. The principal types of collaterals and pledges for loans and advances to customers are:

- Residential properties;
- Business assets such as premises, inventory and receivables;
- Financial instruments such as debt securities and stocks.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### (1) Credit risk *(Continued)*

##### (c) **Maximum exposure to credit risk** *(Continued)*

##### (iii) **Collaterals and other credit enhancements** *(Continued)*

##### **Collaterals** *(Continued)*

The value of collaterals at the time of loan origination is subject to loan-to-value ratio limits based on collateral types. The principal types of collaterals for corporate loans and personal loans are as follows:

| <b>Collaterals</b>                            | <b>Maximum<br/>loan-to-value ratio</b> |
|---|--|
| Cash deposits with the Group                  | 90%                                    |
| PRC treasury bonds                            | 90%                                    |
| Financial institution bonds                   | 90%                                    |
| Publicly traded stocks                        | 60%                                    |
| Rights to collect fees or right of management | 65%                                    |
| Properties                                    | 70%                                    |
| Land use rights                               | 70%                                    |
| Vehicles                                      | 50%                                    |

Long-term loans and advances to corporate and personal customers are generally secured. In addition, in order to minimise the credit loss the Group will strengthen collection through short message reminders, telephone calls, letters, judicial proceedings and other means as soon as impairment indicators are noted for the personal loans and advances.

For loans guaranteed by a third-party guarantor, the Group will assess the financial condition, credit history and ability to meet obligations of the guarantor.

Collaterals and pledges held as security for financial assets other than loans and advances to customers are determined by the nature of the instrument. Debt securities, PRC treasury bonds and the PBOC bills are generally unsecured, with the exception of asset-backed securities, which are secured by portfolios of financial instruments.

The Group closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Group will take possession of collateral to mitigate potential credit losses. Financial assets that are credit-impaired and related collateral held in order to mitigate potential losses are shown below:

|  | <b>Gross<br/>exposure</b> | <b>Impairment<br/>allowance</b> | <b>Carrying<br/>amount</b> | <b>Exposure<br/>covered by<br/>collateral</b> |
|--|---------------------------|---------------------------------|----------------------------|---|

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022  
(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### (1) Credit risk (Continued)

##### (c) Maximum exposure to credit risk (Continued)

##### (iii) Collaterals and other credit enhancements (Continued)

##### Collaterals (Continued)

| 31 December 2021   | Gross exposure | Impairment allowance | Carrying amount | Fair value of collateral held |
|--|----------------|----------------------|-----------------|-------------------------------|
| Credit impaired assets   |                |                      |                 |                               |
| Loans and advances to customers  |                |                      |                 |                               |
| Loans and advances to customers at amortised cost                                | 96,786         | (63,794)             | 32,992          | 46,184                        |
| Loans and advances to customers at fair value through other comprehensive income | 10             | –                    | 10              | 10                            |
| Financial investments  |                |                      |                 |                               |
| Financial investments at amortised cost  | 3,289          | (892)                | 2,397           | 4,876                         |
| Financial investments at fair value through other comprehensive income           | 29             | –                    | 29              | –                             |

##### Master netting arrangements

The Group may enter into master netting arrangements or similar agreements with the counterparties to reduce credit risk furtherly. The related credit risk of contracts will reduce when settled on a net basis. Each party to the master netting arrangements or similar agreements will settle all such amounts on a net basis in the event of default of the other party.

##### (d) Derivative instruments

The Group undertakes its transactions in foreign exchange, commodity, interest rate and other derivative contracts with other financial institutions and customers. The management has established limits for these contracts based on counterparties, industry sectors and countries. Actual credit risk exposures are regularly monitored and controlled by the management.

##### Credit risk-weighted amounts

|  | As at<br>30 June 2022 | As at<br>31 December 2021 |
|--|-----------------------|---------------------------|
| Counterparty credit risk-weighted amount | 50,572                | 53,789                    |

The credit risk-weighted amounts are the amounts calculated with reference to the guidelines issued by the CBIRC and are dependent on the creditworthiness of the counterparty and the maturity of each type of contract. The credit risk-weighted amounts stated above have not taken the effects of netting arrangements into account.

##### (e) Foreclosed assets

|                             | As at<br>30 June 2022 | As at<br>31 December 2021 |
|-----------------------------|-----------------------|---------------------------|
| Buildings                   | 1,408                 | 1,424                     |
| Land use rights             | 8                     | 8                         |
| Others                      | 5                     | 5                         |
| Gross                       | 1,421                 | 1,437                     |
| Less: Impairment allowances | (411)                 | (407)                     |
| Net                         | 1,010                 | 1,030                     |

Foreclosed assets are sold as soon as practicable with the proceeds used to reduce the outstanding indebtedness. The Group does not generally occupy foreclosed assets for its own business use. Foreclosed assets are classified as other assets in the statement of financial position.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

## 3 FINANCIAL RISK MANAGEMENT (Continued)

## (1) Credit risk (Continued)

## (f) Concentration risk analysis for financial assets with credit risk exposure

The Group mainly manages concentration risk for loans and advances to customers by industry sectors and also manages concentration risk for financial assets by geographical sectors.

## Concentration risk for geographical sectors

| As at 30 June 2022  | Mainland China | Hong Kong | Others  | Total      |
|---|----------------|-----------|---------|------------|

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### (2) Market risk

##### Overview

Market risk is risk of loss on the Group's on balance sheet and off balance sheet businesses, which is originated from the unfavourable changes and fluctuations in interest rates, foreign exchange rates, commodity price and equity product price. Market risk consists of interest rate risk, foreign exchange rate risk, equity product price risk and commodity price risk. The market risk of the Group mainly comprises interest rate risk and foreign exchange rate risk.

The Group established an integrated market risk management system, formed a market risk management structure with the separation of front and middle-end platforms and specified the responsibilities, the division of labor and the reporting route of the Board of Directors, Board of Supervisors, Senior Management, Special Committees and other relevant departments to ensure the compliance and effectiveness of market risk management.

In accordance with the requirements of the CBIRC, the Group's financial instrument positions are divided into trading book and banking book. The trading book consists of financial instruments held either for trading intent or economic hedging against risks of the trading book. The banking book consists of all financial instruments other than those included in trading book. The Group recognises, measures, monitors and controls the market risks in trading book and banking book according to their nature and characteristics.

With regard to the exchange rate risk and the interest rate risk of trading book, the Group established an effective limit management system by implementing Net Position, Risk Sensitivity, Value at Risk ("VaR") and other indicators. Meanwhile, with regard to the interest risk of banking book, net interest income simulation and gap analysis are the major tools used by the Group to monitor the interest risk of its overall businesses. In addition, through adequate repricing management and structure adjustment of assets and liabilities, the Group strives to maximise its rate of return while keeping its risks under control.

The Group has continuously improved the management system of market risk. The Group conducted stress tests on historical scenarios and hypothetical scenarios in the consideration of the Group's major market risk factors. The Group has realised daily automatic collection of trading data and market data in the system. The Group conducted the management of risk capital and VaR quota, and formulated the quota allocation plans.

The Group also applies sensitivity analysis to assess and measure the market risk of trading book and banking book. Sensitivity analysis indicates the impact on the relevant market risk assuming that only a single variable changes. As any risk variable rarely changes isolatedly, and the correlation between variables will have a significant effect on the final impact amount of the change of a risk variable, the results of sensitivity analysis can only provide limited market risk information.

The major measurement techniques used to measure and control market risk are outlined below:

##### (a) VaR

VaR refers to the maximum loss that an investment portfolio may incur at a given confidence level and holding period caused by the changes in market price factors such as interest rates and exchange rates etc. The Group adopted the historical simulation method to calculate daily VaR (99% confidence interval, the holding period of one day).

A summary of VaR by risk type including foreign exchange rate risk and interest rate risk of the trading book of the Group's portfolios is as follows:

| Items                         | Six months ended 30 June 2022 |         |         |         |
|-------------------------------|-------------------------------|---------|---------|---------|
|                               | 30 June 2022                  | Average | Maximum | Minimum |
| VaR                           | 529                           | 498     | 671     | 298     |
| Including: Interest rate risk | 552                           | 496     | 676     | 282     |
| Foreign exchange risk         | 82                            | 79      | 130     | 51      |

| Foreign exchange risk         | 255                           | 226     | 743     | 100     |

##### (b) Sensitivity analysis

###### Interest rate sensitivity analysis

The table below illustrates the impact on net profit of the Group for the following year based on the structure of financial assets and liabilities as at the date of statement of financial position, resulting from a parallel upward or downward shift of 100 basis points in related yield curves.

|   | Changes in net profit |                           |
|---|-----------------------|---------------------------|
|   | As at<br>30 June 2022 | As at<br>31 December 2021 |
| +100 basis points parallel shift in yield curves  | 5,718                 | 10,562                    |
| – 100 basis points parallel shift in yield curves | (5,718)               | (10,562)                  |

The table below illustrates the impact on other comprehensive income of the Group for the following year based on the structure of financial assets and liabilities as at the date of statement of financial position, resulting from a parallel upward or downward shift of 100 basis points in related yield curves.

|   | Changes in other comprehensive income |                           |
|---|---------------------------------------|---------------------------|
|   | As at<br>30 June 2022                 | As at<br>31 December 2021 |
| +100 basis points parallel shift in yield curves  | (13,836)                              | (12,995)                  |
| – 100 basis points parallel shift in yield curves | 15,013                                | 14,012                    |

The above-mentioned impact on other comprehensive income arises from the changes in the fair value of fixed-interest-rate bonds at fair value through other comprehensive income, and loans and advances to customers at fair value through other comprehensive income.

The results of the interest rate sensitivity analysis set out in the table above are illustrative only and are based on simplified scenarios. The figures represent the projected impact to the net profit and other comprehensive income caused by the projected movement of current interest risk structure yield curves. This effect, however, does not take into account actions that would be taken by the Group to mitigate the impact of interest rate changes.

The projections above also assume that interest rates of all maturities excluding demand deposits move by the same amount and, therefore, do not reflect the potential impact on net profit due to changes in certain rates while others remain unchanged. The projections are based on other simplified assumptions as well, including that all positions are to be held to maturity. There will be changes to the projection if positions are not held to maturity but it is not expected that the changes would be material.

The Group believes the assumption does not represent the Group's policy on use of funds and interest rate risk management. As a result, the above impact may differ from the actual situation.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### (2) Market risk *(Continued)*

##### (b) Sensitivity analysis *(Continued)*

##### Foreign exchange sensitivity analysis

The table below illustrates the impact of a concurrent appreciation or depreciation of RMB spot and forward rates against USD and HKD by 5% on the Group's net profit:

|                        | Changes in net profit |                           |
|------------------------|-----------------------|---------------------------|
|                        | As at<br>30 June 2022 | As at<br>31 December 2021 |
| 5% appreciation of RMB | (607)                 | (1,803)                   |
| 5% depreciation of RMB | 607                   | 1,803                     |

The table below illustrates the impact of a concurrent appreciation or depreciation of RMB spot and forward rates against USD and HKD by 5% on the Group's other comprehensive income:

|                        | Changes in other comprehensive income |                           |
|------------------------|---------------------------------------|---------------------------|
|                        | As at<br>30 June 2022                 | As at<br>31 December 2021 |
| 5% appreciation of RMB | (1,226)                               | (1,403)                   |
| 5% depreciation of RMB | 1,226                                 | 1,403                     |

The impact on net profit arises from the influences of RMB exchange rate fluctuation on the net position of monetary assets (excluding other book value other than amortised cost of monetary assets at fair value through other comprehensive income) and liabilities denominated in foreign currencies, the net position of non-monetary financial assets (excluding non-monetary items denominated in foreign currencies measured at fair value through other comprehensive income) and liabilities denominated in foreign currencies measured at fair value, and the fair value of currency derivatives denominated in RMB.

The impact on other comprehensive income arises from the influences of RMB exchange rate fluctuation on the differences on translation of foreign currency financial statements of foreign operators, the overseas investment portion of monetary assets denominated in foreign currencies, other book value other than amortised cost of the non-monetary items denominated in foreign currencies measured at fair value through other comprehensive income (such as stock) and monetary items at fair value through other comprehensive income.

The above impact on net profit is based on the assumption that the sensitive position of the Group's year-end exchange rate and currency derivatives denominated in RMB remain unchanged around the year. While in practice, the Group will, based on its judgement on the trend of exchange rate, actively adjust the foreign currency position and use appropriate derivative instruments to mitigate the impact of the foreign currency risk. Therefore, the above impact might differ from the actual situation.

##### (c) Interest rate risk

The Group's interest rate risk mainly arises from interest rate repricing and maturity mismatching of assets and liabilities, and the fluctuation of market interest rates, as well as from the adjustments in the interest rate policies made by the PBOC. On 20 July 2013, the PBOC cancelled the lower limit of benchmark interest rates of loans dominated in RMB, allowing financial institutions to determine the loan interest rates independently based on commercial principles. The PBOC cancelled the upper limit of the benchmark interest rates for deposits on 24 October 2015 and established RMB Loan Prime Rate (LPR) as a new pricing benchmark of new loans in 2019. The Group conducts most of its domestic deposit businesses at benchmark interest rates for deposits and conducts most of its domestic loan businesses at LPR published by the PBOC.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022  
(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### (2) Market risk (Continued)

##### (c) Interest rate risk (Continued)

The Group pays high attention to the transition of interest rate benchmark and has established a task force to speed up the launch and implementation of interest rate benchmark reform project. At the current stage, the progress of this reform is basically on schedule. The first batch exited the market on 1 January 2022 have already complete transition successfully, and the remaining transition of USD libor is ready on schedule, and the impact of the methods of benchmark transition on interest rate risk is generally under control, which has a relatively limited substantial impact on the operations.

The Group has initially established a relatively complete interest rate risk monitoring system. By using the gap analysis system, the Group regularly monitors the repricing maturity gap of interest rate-sensitive assets and liabilities throughout the Group, takes the initiative to adjust the proportion of interest-bearing assets at floating interest rates and fixed interest rates, and adjusts the repricing term structure of interest rate and manages interest rate risk by applying appropriate derivatives such as interest rate swaps based on allocation strategy of assets and liabilities. Consequently, the Group is less vulnerable to interest rate risk.

During the reporting period, the Group closely monitored the interest rate trend for RMB and foreign currencies, conducted specific management of risk limits, and strengthened comprehensive operations and limit monitoring. In addition, the Group, by rationally adjusting the loan repricing strategies, reinforced the specific management of price negotiation to maximise its rate of return while keeping its risks under control.

At the date of statement of financial position, the Group's assets and liabilities categorised by the repricing date or maturity date (whichever is earlier) are as follows:

|   | Up to 1<br>month   | 1-3<br>months      | 3-12<br>months     | 1-5<br>years       | Over 5<br>years  | Non-<br>interest<br>bearing | Total               |
|---|--------------------|--------------------|--------------------|--------------------|------------------|-----------------------------|---------------------|
| <b>As at 30 June 2022</b>   |                    |                    |                    |                    |                  |                             |                     |
| <b>Assets</b>   |                    |                    |                    |                    |                  |                             |                     |
| Cash and balances with central banks                                | 731,562            | –                  | –                  | –                  | –                | 15,098                      | 746,660             |
| Due from and placements with banks and other financial institutions | 409,157            | 138,181            | 201,391            | 42,127             | 3,863            | 5,024                       | 799,743             |

**(d) Foreign exchange risk**

The Group conducts the majority of its businesses in RMB, and the recording currency is RMB. Certain foreign transactions are conducted in USD, HKD and other currencies. The exchange rate of RMB to USD, HKD or other currencies is subject to the trading rules of China Foreign Exchange Trade System. Exchange rate risk mainly results from currency mismatch between foreign currency assets and liabilities and between off balance sheet currency exposure. The Group has formulated management measures for exchange rate risks, defining the functional division and scope of work of the exchange rate risk management department, risk identification, measurement, monitoring and control methods, and specific measures. Moreover, the Group controls exchange rate risk by setting relevant limits, taking the initiative to adjust the structure of foreign currency assets for a proper matching of currency structure of assets and liabilities, and applying appropriate exchange rate financial derivatives for transfers and hedging based on its own risk tolerance and operating level.

As at 30 June 2022, the exchange rates for US dollar and HK dollar are 1 US dollar to RMB6.7114 (31 December 2021: RMB6.3757) and 1 HK dollar to RMB0.8552 (31 December 2021: RMB0.8176), respectively.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

**(e) Other price risk**

The Group is exposed to other price risk arising from financial assets such as equity investments and derivatives linked to commodity price. The equity investments arise from the proprietary trading of the Group's subsidiaries which hold the qualification of securities dealing and brokerage as well. As for the proprietary trading exposure, the Group enforces strict management of the risk exposure limit and the balance is insignificant to the Group's financial assets. The Group considers the exposure to the other price risk to be insignificant.

**(3) Liquidity risk****Overview**

Liquidity risk is the risk that occurs when the Group cannot obtain sufficient funds in time and at a reasonable cost to repay debts when they are due, fulfill other payment obligations, or meet other funding needs in the normal course of business. The Group's liquidity risk mainly comes from depositors' early or centralised withdrawals, borrowers' deferred repayment of loans, the amount of assets and liabilities and maturity mismatches.

## 3 FINANCIAL RISK MANAGEMENT (Continued)

### (3) Liquidity risk (Continued)

#### (a) Liquidity risk management

The Group implements centralised management of liquidity risk and, on the basis of forecasting liquidity requirements, formulates corresponding liquidity management plans and actively manages the liquidity of the Bank. The specific measures mainly include:

- Pay close attention to changes in the macroeconomic situation, central bank monetary policy, capital market dynamics, etc.
- Enhance weighting of core deposits as a percentage of liabilities, so as to improve the stability of liabilities;
- Monitor and manage liquidity position bank-wide by implementing a series of indicators and restrictions;
- Liquidity position management and cash utilisation functions are centralised by the Head offices;
- Maintain an appropriate level of central bank reserves, overnight inter-bank transactions, highly liquid debt investment, actively involve in capital management through open market, monetary market and bond market in order to ensure optimal financing capability at market places;
- Minimise liquidity risk by proper management of asset maturity structures and multi-level liquidity portfolios.

#### (b) Non-derivative financial instruments cash flows

The table below presents the structural analysis by contracted maturities on non-derivative financial assets and liabilities of the Group at the balance sheet date. The amount of financial assets and liabilities for each period is the amount of undiscounted cash flows. The Group's expected cash flows on these financial instruments may vary significantly from the following analysis. For example, demand deposits from customers are expected to maintain a stable or increasing balance although they have been classified as repayable on demand in the following tables.

|   | Overdue       | Undated        | On Demand          | Up to 1 month      | 1 – 3 months       | 3 – 12 months      | 1 – 5 years        | Over 5 years     | Total               |

Assets available to repay all of the liabilities and fulfill loan commitments include cash, balances with central banks, due from and placements with banks and other financial institutions, financial investment at fair value through profit or loss, etc. In the normal course of business, a majority of matured deposits will not be withdrew immediately on the maturity date but will continue to be kept by the Group. In addition, financial investments at fair value through other comprehensive income can also be disposed of when necessary to obtain funds for repayment of matured debts.

**(c) Derivative financial instruments cash flows**

The Group's derivative financial instruments are either settled on a net basis or a gross basis.

**(i) Derivative settled on a net basis**

The Group's derivative financial instruments that will be settled on a net basis include foreign exchange contracts, commodity contracts, interest rate contracts and others.

The table below analyses the undiscounted cash flows of the Group's derivative financial instruments which will be settled on a net basis and are classified based on the remaining contractual period from the balance sheet date to maturity date.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### (4) Fair value of financial assets and liabilities

##### **(a) Determination of fair value and valuation techniques**

Certain financial assets and liabilities of the Group are measured at fair value or with fair value disclosed for financial reporting purposes. The fair value has been determined using appropriate valuation techniques and inputs for fair value measurements. The appropriateness of the valuation techniques and the inputs to the fair value measurements are reviewed by the Board of Directors periodically.

Fair value measurements are categorised into level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- (1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- (2) Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- (3) Level 3 inputs are unobservable inputs for the asset or liability.

The fair value of financial instruments with unadjusted quoted prices for identical instruments in active markets is determined by the open market quotations. These instruments are classified as level 1.

The Group uses valuation techniques to determine the fair value of financial instruments when an open market quotation in active markets is not obtainable.

If the key parameters used in valuation techniques for financial instruments are substantially observable and obtainable from active open market, the instruments are classified as level 2. The second hierarchy of financial instruments held by the Group mainly includes derivatives, debt securities, certificates of deposit without quotations from active market, loans and advances to customers carried at FVOCI, precious metals and debt securities issued. The fair value of RMB denominated bonds is mainly valued based on the yield curves of the bonds from China Central Depository & Clearing Co., Ltd., while the fair value of the foreign currency denominated bonds is determined based on the valuation results published by Bloomberg. The fair value of foreign currency forwards, swaps, interest rate swaps, foreign currency options is estimated by the discounted cash flow method and Black-Scholes model; the fair value of precious metal contract is mainly determined in accordance with the closing prices of the Shanghai Gold Exchange or the settlement prices of the Shanghai Futures Exchange. The main parameters used in discounted cash flow model include recent market prices, the relevant yield curve, exchange rates and counterparty's credit spread. Main parameters used in Black-Scholes model include the relevant yield curve, exchange rate, level of volatilities and counterparty's credit spread, etc. All parameters used in valuation techniques are substantially observable and obtainable from active open market.

For trust and asset management plan at fair value through profit or loss, loans and advances to customers at fair value through other comprehensive income, the fair value is determined based on discounted cash flow model using unobservable discount rates that reflect credit risk. These financial instruments are classified as level 3.

For convertible bonds, unlisted funds, unlisted equities and equity derivatives held by the Group, the fair value of these financial instruments are determined with reference to certain unobservable inputs, and therefore the instruments have been classified by the Group as level 3. The management determines the fair value of these financial instruments using a variety of techniques, including using valuation models that incorporate and take into account unobservable inputs such as Discount for Lack of Marketability (DLOM). The Group has established internal control procedures to monitor the Group's exposure to such financial instruments.

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### (4) Fair value of financial assets and liabilities (Continued)

##### (b) Financial instruments not measured at fair value

The table below summarises the carrying amount and fair value of those financial assets and liabilities that are not presented at fair value as at the date of statement of financial position. Financial assets and liabilities with carrying amount approximate to fair value, such as cash and balances with central banks, due from and placements with banks and other financial institutions, loans and advances to customers at amortised cost, due to and placements from banks and other financial institutions, and deposits from customers, are not included in the table below.

|   | As at 30 June 2022 |            | As at 31 December 2021 |            |
|---|--------------------|------------|------------------------|------------|
|   | Carrying amount    | Fair value | Carrying amount        | Fair value |
| <b>Financial assets</b>                 |                    |            |                        |            |
| Financial investments at amortised cost | 2,375,762          | 2,386,385  | 2,203,037              | 2,234,814  |
| <b>Financial liabilities</b>            |                    |            |                        |            |
| Debt securities issued                  | (507,221)          | (515,572)  | (491,372)              | (496,082)  |

#### Fair value hierarchy of financial instruments not measured at fair value

| As at 30 June 2022                      | Level 1        | Level 2        | Level 3        | Total        |
|---|----------------|----------------|----------------|--------------|
| <b>Financial assets</b>                 |                |                |                |              |
| Financial investments at amortised cost | 26,947         | 2,273,486      | 85,952         | 2,386,385    |
| <b>Financial liabilities</b>            |                |                |                |              |
| Debt securities issued                  | –              | (515,572)      | –              | (515,572)    |
| <b>As at 31 December 2021</b>           | <b>Level 1</b> | <b>Level 2</b> | <b>Level 3</b> | <b>Total</b> |
| <b>Financial assets</b>                 |                |                |                |              |
| Financial investments at amortised cost | 7,757          | 2,138,742      | 88,315         | 2,234,814    |
| <b>Financial liabilities</b>            |                |                |                |              |
| Debt securities issued                  | –              | (496,082)      | –              | (496,082)    |

The carrying amounts and fair values of other financial assets and liabilities (including loans and advances to customers at amortised cost, due from and placements with banks and other financial institutions, due to and placements from banks and other financial institutions) are approximately the same, because the interest rates of most of these assets and liabilities are adjusted following the changes in interest rates determined by the PBOC, other regulatory bodies or market.

| – Unrealised losses  | 2,000                        | (1,231)                      |

These financial instruments with fair values determined based on unobservable inputs are primarily convertible bonds, unlisted equities, unlisted funds, part of the trust and asset management plan, equity derivatives and part of loans and advances to customers. The fair value of these financial instruments is determined primarily using discounted cash flow method and market comparison method. These valuation methods involve inputs from various unobservable assumptions such as cash flow, risk-adjusted discount rate, price to book value ratio, price to earnings ratio and liquidity discounts.

#### (5) Offsetting financial assets and liabilities

Certain financial assets and financial liabilities of the Group are subject to enforceable master netting arrangements or similar agreements. The agreement between the Group and the counterparty generally allows for net settlement of the relevant financial assets and financial liabilities when both elect to settle on a net basis. In the absence of such a mutual consent, financial assets and financial liabilities will be settled on a gross basis. However, each party to the master netting arrangements or similar agreements will have the option to settle all such amounts on a net basis in the event of default of the other party. These financial assets and financial liabilities of the Group are not offset in accordance with IFRSs.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT *(Continued)*

#### (6) Capital management

The “capital” in capital management is a broader concept than “shareholders’ equity” on the statement of financial position. The Group’s objectives in capital management are:

- To comply with the capital requirements set by the regulators of the markets where the Group operates;
- To ensure the Group’s ability to maintain a stable operation so as to continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

The Group management adopts administrative measures issued by the CBIRC, which was developed based on guideline issued by the Basel Committee, in monitoring its capital adequacy ratio and the usage of regulatory capital on a quarterly basis. The quarterly monitored information is then submitted to CBIRC.

The Administrative Measures for the Capital of Commercial Banks (Provisional) specified the regulatory requirements for minimum capital, capital conservation buffer, additional capital surcharge for systemically important banks, countercyclical buffer and Pillar II capital as follows:

- Minimum regulatory requirements for core tier-1 capital adequacy ratio, tier-1 capital adequacy ratio and capital adequacy ratio are 5%, 6% and 8%, respectively;
- Capital conservation buffer requires additional 2.5% on core tier-1 capital adequacy ratio;
- Additional capital surcharge for systemically important banks requires additional 0.75% on core tier-1 capital adequacy ratio;
- Should the regulators require countercyclical buffer under particular circumstances or regulators impose additional Pillar II capital requirements for specific banks, these requirements shall be met within the specified time limits.

The Group’s capital as monitored by its Planning and Finance Department consists of the following:

- Core tier-1 capital, including ordinary shares, eligible portion of capital surplus, statutory reserve, statutory general reserve, retained earnings, eligible portion of non-controlling interests and others;
- Additional tier-1 capital, including Additional tier-1 capital instruments issued and related premium and eligible portion of non-controlling interests;
- Tier-2 capital, including tier-2 capital instruments issued and related premium, excess loan loss provisions and eligible portion of non-controlling interests.

The Group’s deductible items from core tier-1 capital include: Goodwill, other intangible assets (except land use rights), investments in core tier-1 capital of financial institutions with controlling interests but outside the scope of regulatory consolidation.

(All amounts presented in millions of RMB except when otherwise indicated)

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### (6) Capital management (Continued)

In April 2014, the CBIRC officially approved the implementation of the advanced approach of capital management, and the Group has steadily promoted the implementation and deepened application of advanced methods in accordance with regulatory requirements. The Group expanded the implementation scope of advanced methods and ended the transition period with the approval of CBRC in 2018. According to the implementation scope of the advanced methods of capital management approved by the CBRC, the Group elected to use elementary internal rating based ("IRB") approach for credit risk exposures, internal model approach for market risk exposures and standardised approach for operational risk exposures which is compliant with regulatory requirements. For credit risk exposures not covered by IRB, the corresponding portion shall be calculated by the weight method. For market risk exposures not covered by internal model approach, the corresponding portion shall be calculated by the standardised method. For operational risk exposures not covered by standardised approach, the corresponding portion shall be calculated by basic index method.

The capital ratios calculated based on Administrative Measures for the Capital of Commercial Banks (Provisional) are as follows:

| Item                                   | As at<br>30 June 2022 | As at<br>31 December 2021 |
|--|-----------------------|---------------------------|
| Core tier-1 capital adequacy ratio (%) | 9.99                  | 10.62                     |
| Tier-1 capital adequacy ratio (%)      | 12.20                 | 13.01                     |
| Capital adequacy ratio (%)             | 14.49                 | 15.45                     |
| Core tier-1 capital                    | 801,102               | 789,887                   |
| Core tier-1 capital deductions         | (6,615)               | (6,010)                   |

| Post-employment benefit                     | (1)  | 1,971                    | 1,867  |
| Other social security and benefit costs     |      | 3,050                    | 2,972  |
| Total                                       |      | 14,797                   | 14,160 |

## (1) Post-employment benefit

**Defined contribution plans**

The Group participates in various defined contribution retirement benefit plans organised by municipal and provincial governments in Mainland China, under which it is required to make monthly contributions to these plans at rates ranging from 10% to 27% of the employees' basic salary for the year. The Group's contributions to these pension plans are charged to profit or loss and other comprehensive income in the year to which they relate.

Employees who retire at or after 1 January 2009 can voluntarily participate in an Annuity Plan. The Group contributes to the Annuity Plan based on certain percentage of the employees' gross salary which is recognised in profit or loss as incurred.

As at 30 June 2022, there are no forfeited contributions under the Group's retirement benefit plans which can be used to deduct contributions payable for future years.

The amount recognised in profit or loss is as follows:

|   | Six months ended 30 June |       |
|---|--------------------------|-------|
|   | 2022                     | 2021  |
| Expenses incurred for retirement benefit plans and unemployment insurance | 1,198                    | 1,140 |
| Expenses incurred for annuity plan  | 762                      | 718   |
| Total   | 1,960                    | 1,858 |

The amount payable at the end of the period or year is as follows:

|   | As at<br>30 June 2022 | As at<br>31 December 2021 |
|---|-----------------------|---------------------------|
| Payable for retirement benefit plans and unemployment insurance | 66                    | 105                       |
| Payable for annuity plan  | 32                    | 50                        |
| Total   | 98                    | 155                       |

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022  
(All amounts presented in millions of RMB except when otherwise indicated)

### 14 STAFF COSTS AND BENEFITS (Continued)

#### (1) Post-employment benefit (Continued)

##### Defined benefit plans

The Group pays supplementary retirement benefits to employees in Mainland China, who retired at or before 31 December 2008. The Group's obligations in respect of supplementary retirement benefits are calculated by estimating the amount of future benefits that the Group is committed to pay to the employees after their retirement using actuarial techniques. Such benefits, which are estimated by using key parameters such as inflation rate and mortality ratio, are discounted to their present values. The discount rate is the yield on government bonds at the end of reporting date, the maturity dates of which approximate to the terms of the Group's obligations. Actuarial gains or losses and changes in actuarial assumptions are recognised in other comprehensive income, and amendments to pension plan are recognised in profit or loss in the period of a plan amendment. The amounts recognised in the statement of financial position represent the present value of unfunded obligations.

The Group's retirement benefit obligations in locations other than Mainland China are immaterial and are made in accordance with the relevant local policies and regulations.

|  | As at<br>30 June 2022 | As at<br>31 December 2021 |
|--|-----------------------|---------------------------|
| Statement of financial position        |                       |                           |
| – Net obligations for pension benefits | 391                   | 385                       |

Amounts recognised in comprehensive income in respect of the supplementary retirement benefits are as follows:

|  | Six months ended 30 June |      |
|--|--------------------------|------|
|  | 2022                     | 2021 |
| Components of defined benefit costs recognised in profit or loss             | 11                       | 9    |
| Components of defined benefit costs recognised in other comprehensive income | 20                       | (58) |
| Total  | 31                       | (49) |

Past service cost and interest expense are recognised in other operating expenses in the income statement. The average duration of the supplementary retirement benefits plan at 30 June 2022 is 11.88 years (31 December 2021: 12.31 years).

The Group expects to make a contribution of RMB39 million (2021: RMB39 million) to the defined benefit plan during the next financial year.

The supplementary retirement benefits plan exposes the Group to actuarial risks such as interest risk, longevity risk and inflation risk. A decrease in the government bond yield will increase the present value of unfunded obligations. The present value of unfunded obligations is calculated by reference to the best estimate of the mortality of plan participants. An increase in the life expectancy of the plan participants will increase the plan's liability. The present value of unfunded obligations is also measured by future payment standards, which are determined by inflation rate. Hence, an increase in inflation rate will increase the present value of the unfunded obligations.

The principal actuarial assumptions used by the Group are government bond yield, inflation rate and future mortality rate. The government bond yield and inflation rate were 2.91% (31 December 2021: 3.07%) and 1.37% (31 December 2021: 0.81%) respectively as at 30 June 2022. In the meantime, assumptions regarding future mortality rate are set based on published statistics by the CBIRC. As at 30 June 2022, an average longevity of a pensioner after retirement at age 60 for male is 23.13 years (31 December 2021: 23.13 years) while a pensioner after retirement at age 55 for female is 33.13 years (31 December 2021: 33.13 years).

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(All amounts presented in millions of RMB except when otherwise indicated)

## 15 EMOLUMENTS OF DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

|              | Six months ended 30 June |      |
|--------------|--------------------------|------|
|              | 2022                     | 2021 |
| Remuneration | 7                        | 6    |

No director or supervisor waived or agreed to waive any emoluments during the above periods.

For the six months ended 30 June 2022, RMB0.63 million was accrued for independent non-executive directors' emolument (For the six months ended 30 June 2021, RMB0.32 million).

## 16 INCOME TAX

|                               | Six months ended 30 June |       |
|-------------------------------|--------------------------|-------|
|                               | 2022                     | 2021  |
| Current income tax            |                          |       |
| – Enterprise income tax       | 5,618                    | 4,067 |
| – Hong Kong profits tax       | 1,055                    | 340   |
| – Other countries or regions  | 246                      | 259   |
| Subtotal                      | 6,919                    | 4,666 |
| Deferred income tax (Note 26) | (5,434)                  | (951) |
| Total                         | 1,485                    | 3,715 |

The provision for enterprise income tax in Mainland China is calculated based on the statutory rate of 25% of the assessable income of the Bank and each of the subsidiary established in Mainland China. Taxation arising in other jurisdictions (including Hong Kong) is calculated at the rates prevailing in the relevant jurisdictions, the shortfall arising from the difference between tax paid by overseas branches and the accrued tax under the regulation of Mainland China shall be compensated by the head office.

The actual taxation on the Group differs from the theoretical amount calculated using the Group's profit before tax at the tax rate of 25%. The major reconciliation items are as follows:

|   | Note | Six months ended 30 June |         |
|---|------|--------------------------|---------|
|   |      | 2022                     | 2021    |
| Profit before tax   |      | 45,617                   | 46,588  |
| Tax calculated at statutory rate of 25%                                 |      | 11,404                   | 11,647  |
| Effects of different tax rates prevailing in other countries or regions |      | 48                       | (127)   |
| Effects of non-deductible expenses                                      | (1)  | 1,812                    | 1,795   |
| Effects of non-taxable income   | (2)  | (10,871)                 | (9,489) |
| Adjustments for income tax filing of prior years                        |      | (487)                    | (111)   |
| Others  |      | (421)                    | –       |
| Income tax  |      | 1,485                    | 3,715   |

(1) Non-deductible expenses primarily represent non-deductible write-offs.

(2) Non-taxable income primarily represents interest income from PRC treasury bonds and municipal government bonds and fund investment income.

(All amounts presented in millions of RMB except when otherwise indicated)

### 17 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit attributable to shareholders of the parent company by the weighted average number of ordinary shares in issue during the period.

|  | Six months ended 30 June |         |
|--|--------------------------|---------|
|  | 2022                     | 2021    |
| Net profit attributable to shareholders of the parent company  | 44,040                   | 42,019  |
| Less: Dividends paid to preference shareholders  | (1,832)                  | (1,755) |
| Interest paid to perpetual bond holders  | (1,685)                  | –       |
| Net profit attributable to holders of ordinary shares of the parent company                          | 40,523                   | 40,264  |
| Weighted average number of ordinary shares in issue (expressed in millions) at the end of the period | 74,263                   | 74,263  |
| Basic and diluted earnings per share (expressed in RMB per share)                                    | 0.55                     | 0.54    |

For the calculation of basic earnings per share, a cash dividend of RMB1,832 million on preference shares declared for the period was deducted from the amounts attributable to shareholders of the parent company. The conversion feature of preference shares may lead to the possible existence of contingently issuable ordinary shares. The triggering events of conversion did not occur for the six months ended 30 June 2022, and therefore the conversion feature of preference shares has no effect on the calculation of the basic and diluted earnings per share.

### 18 CASH AND BALANCES WITH CENTRAL BANKS

|                            | As at<br>30 June 2022 | As at<br>31 December 2021 |
|----------------------------|-----------------------|---------------------------|
| Cash                       | 11,984                | 13,298                    |
| Mandatory reserve deposits | 675,121               | 624,340                   |
| Excess reserve deposits    | 56,441                | 90,350                    |
| Fiscal deposits and others | 2,810                 | 6,436                     |
| Accrued interest           | 304                   | 304                       |
| Total                      | 746,660               | 734,728                   |

The Group places mandatory reserves with the PBOC and several other central banks of overseas countries and regions. Such mandatory reserves are not available for use by the Group in its day-to-day operations.

The Bank's domestic mandatory deposit reserve rates as at the balance sheet date are as follows:

|  | As at<br>30 June 2022 | As at<br>31 December 2021 |
|--|-----------------------|---------------------------|
| Domestic mandatory reserve rate for deposits denominated in RMB                | 9.75                  | 10.00                     |
| Domestic mandatory reserve rate for deposits denominated in foreign currencies | 8.00                  | 9.00                      |

Reserve rate for deposits denominated in RMB of the Group's subsidiaries in Mainland China is subject to relevant regulations of the PBOC.

Mandatory reserve rate for deposits with central banks of overseas countries and regions is subject to regulations of local regulatory bodies.

Excess reserve deposits with central banks are mainly used for capital settlement, financial institution transfer, etc.

| Less: Allowance for impairment losses  | (1,780)               | (1,963)                   |
| Total  | 799,743               | 632,708                   |

As at 30 June 2022 and 31 December 2021, due from banks and other financial institutions of the Group included pledged deposits, risk reserves and other deposits. The use of these deposits is restricted.

## 20 DERIVATIVE FINANCIAL INSTRUMENTS

The Group utilize derivative financial instruments for trading or hedging purposes, including forwards, swaps and options.

The notional amounts of derivative financial instruments provide a reference of the business scale for those financial instruments recognised in the statement of financial position but do not necessarily indicate the amounts of future cash flows involved or the current fair value of the instruments and, therefore, do not indicate the Group's exposure to credit or price risks. The derivative financial instruments may become favourable (assets) or unfavourable (liabilities) as a result of fluctuations in market foreign exchange rates, interest rates or commodity price relative to their terms. The aggregate fair values of derivative financial assets and liabilities can fluctuate significantly from time to time. The fair values of derivative financial instruments held are set out in the following tables.

| As at 30 June 2022  | Contractual/Notional<br>Amount | Fair values<br>Assets | Liabilities |
|---|--------------------------------|-----------------------|-------------|
| Foreign exchange and commodity contracts                    | 3,529,290                      | 28,527                | (28,531)    |
| Interest rate contracts and others                          | 3,104,230                      | 27,623                | (10,957)    |
| Total amount of derivative financial instruments recognised | 6,633,520                      | 56,150                | (39,488)    |

| As at 31 December 2021                                      | Contractual/Notional<br>Amount | Fair values<br>Assets | Amount   |
|---|--------------------------------|-----------------------|----------|
| Foreign exchange and commodity contracts                    | 3,501,041                      | 27,195                | (24,899) |
| Interest rate contracts and others                          | 3,626,588                      | 12,025                | (11,175) |
| Total amount of derivative financial instruments recognised | 7,127,629                      | 39,220                | (36,074) |

### 20 DERIVATIVE FINANCIAL INSTRUMENTS (Continued)

#### Hedge accounting

Notional amount and fair value of hedging instruments included in the above derivative financial instruments are as follows:

| As at 30 June 2022  | Contractual/Notional<br>Amount | Fair values<br>Assets | Amount |
|---|--------------------------------|-----------------------|--------|
| Derivative financial instruments designated as hedging instruments in fair value hedges | 169,677                        | 11,534                | (29)   |
| Derivative financial instruments designated as hedging instruments in cash flow hedges  | 59,978                         | 1,174                 | (720)  |
| Total   | 229,655                        | 12,708                | (749)  |

| As at 31 December 2021  | Contractual/Notional<br>Amount | Fair values<br>Assets | Amount  |
|---|--------------------------------|-----------------------|---------|
| Derivative financial instruments designated as hedging instruments in fair value hedges | 141,731                        | 1,871                 | (1,274) |
| Derivative financial instruments designated as hedging instruments in cash flow hedges  | 71,805                         | 519                   | (973)   |
| Total   | 213,536                        | 2,390                 | (2,247) |

#### (1) Fair value hedge

The Group uses interest rate swaps to hedge against changes in fair value arising from changes in interest rates. Some purchased interest rate swap contracts are designated as hedging instruments, whose terms are identical with those of the corresponding hedged items regarding interest rate, maturity and currency. The Group uses regression analysis to evaluate the effectiveness of hedging. With the support of testing results, the Group's management considers the hedging relationship to be highly effective. The hedged items include debt investments at FVOCI, loans and advances to customers, deposits from customers and financial investments at amortised cost.

The following table shows the hedge effectiveness of the fair value hedges:

|  | Six months ended 30 June |         |
|--|--------------------------|---------|
|  | 2022                     | 2021    |
| Net gains/(losses) from fair value hedges:   |                          |         |
| Hedging instruments                          | 10,554                   | 2,320   |
| Hedged items attributable to the hedged risk | (10,764)                 | (2,408) |
| Total  | (210)                    | (88)    |

#### (2) Cash flow hedge

The Group uses foreign exchange contracts to hedge against exposures to cash flow variability primarily resulting from foreign exchange risks, and uses interest rate swaps to hedge against exposures to cash flow variability primarily resulting from interest rate risks. The hedged items include debt investments at FVOCI, due from and placements with banks and other financial institutions, debt securities issued, loans and advances to customers, due to and placements from banks and other financial institutions and certificates of deposits issued. The Group mainly uses regression analysis to evaluate the effectiveness of hedging. With the supporting of testing results, the Group's management considers the hedging relationship to be highly effective.

For the six months ended 30 June 2022, the Group recognised a profit of RMB875 million (For the six months ended 30 June 2021: a profit of RMB1,271 million) from effective portion of cash flow hedge in other comprehensive income. The Group reclassifies a loss of RMB130 million from other comprehensive income to profit or loss (For the six months ended 30 June 2021: a loss of RMB986 million). Gains or losses arising from ineffective portion of cash flow hedge were immaterial. There were no transactions for which cash flow hedge accounting had to be ceased as a result of the highly probable cash flows no longer being expected to occur.

| Investment properties | 6,340                      | 133                        | –                                   | 35                      | 6,508                    |

|                       | As at<br>1 January<br>2021 | Decreases of<br>the year | Gains on<br>property<br>revaluation | Exchange<br>differences | As at<br>31 December<br>2021 |
|-----------------------|----------------------------|--------------------------|-------------------------------------|-------------------------|------------------------------|
| Investment properties | 7,353                      | (899)                    | 183                                 | (297)                   | 6,340                        |

The Group's investment properties are located in active real estate markets. The external appraisers make reasonable estimation of fair value using market prices of the similar properties.

As at 30 June 2022, fair value hierarchies of the investment properties of the Group are as follows:

|  | Level 1 | Level 2 | Level 3 | As at<br>30 June 2022 |
|--|---------|---------|---------|-----------------------|
| Commercial property units located in<br>Hong Kong      | –       | –       | 938     | 938                   |
| Commercial property units located<br>outside Hong Kong | –       | –       | 5,570   | 5,570                 |

The valuation of investment properties was performed by independent qualified professional valuers not connected to the Group. Valuation methodologies include "Rental Income Approach" and "Market Approach". The inputs to these models mainly include growth rate of rental, vacancy rate, future rent income years, capitalisation rate and unit price.

(4) The interest receivable account only reflects the interest for relevant financial instruments which is due but not received on balance sheet date.

At each end of year, the Group performed impairment tests on goodwill. In the test, the Group compares the book value of cash-generating unit (CGU) or CGUs (including goodwill) with the recoverable amount. If the recoverable amount is less than the book value, the related difference is recognised in profit or loss.

The Group calculates the recoverable amount of CGU and CGUs using cash flow models based on the management's approved financial forecasts and fixed growth rates afterwards.

As indicated by the impairment tests, goodwill arising from business combinations is not impaired and therefore, no impairment loss is recognised.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

### 29 FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

|   | As at<br>30 June 2022 | As at<br>31 December 2021 |
|---|-----------------------|---------------------------|
| Short position of securities held for trading             | 8                     | 134                       |
| Certificates of deposit issued                            | 7,618                 | 1,400                     |
| Financial liabilities related to precious metal contracts | 17,800                | 15,247                    |
| Notes issued  | 2,367                 | 1,385                     |
| Others (1)  | 32,094                | 31,882                    |
| Total   | 59,887                | 50,048                    |

(1) As at 30 June 2022, others mainly are liabilities of consolidated structured entities and shares held by other parties rather than the Group.

Except for certificates of deposit issued by branch in Hong Kong, notes issued by BoCom International Holdings Company Limited, and shares of consolidated structured entities held by other parties rather than the Group which are designated at fair value through profit or loss, financial liabilities at fair value through profit or loss are financial liabilities held for trading.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

## 29 FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS (Continued)

Financial liabilities designated at fair value through profit or loss

|  | As at<br>30 June 2022 | As at<br>31 December 2021 |
|--|-----------------------|---------------------------|
| Difference between carrying amount and maturity amount |                       |                           |
| Fair values  | 42,079                | 34,667                    |
| Amount payable at maturity                             | (42,239)              | (34,709)                  |
| Total  | (160)                 | (42)                      |

For the six months ended 30 June 2022 and the year ended 31 December 2021, there were no significant changes in the fair value of the Group's financial liabilities designated at fair value through profit or loss that were attributable to the changes in credit risk.

## 30 DEPOSITS FROM CUSTOMERS

- (a) The Group has redeemed full face value of 17 BoComm by exercising redemption option on 13 April 2022.
- (b) The Group has an option to redeem 19 BoComm 01 at the par value partially or as a whole on 16 August 2024, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (c) The Group has an option to redeem 19 BoComm 02 at the par value partially or as a whole on 16 August 2029, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (d) The Group has an option to redeem 20 BoComm at the par value partially or as a whole on 21 May 2025, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (e) The Group has an option to redeem 21 BoComm at the par value partially or as a whole on 27 September 2026, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022  
(All amounts presented in millions of RMB except when otherwise indicated)

### 32 DEBT SECURITIES ISSUED (Continued)

#### (2) Tier 2 capital bonds (Continued)

- (f) The Group has an option to redeem 22 BoComm 01 at the par value partially or as a whole on 25 February 2027, the last day of the interest-bearing year with early redemption option embedded, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (g) The Group has an option to redeem 18 Leasing 02 at the par value partially or as a whole on 20 September 2023, the first day upon the end of the fifth interest-bearing year, provided that the CBIRC's permission is acquired in advance and the Group's capital structure fulfills the CBIRC requirements on capital if the redemption is exercised.
- (h) The Group has an option to redeem 21 BoComm Hong Kong as a whole on 8 July 2026. If the issuer does not exercise the redemption right by 8 July 2026, the interest rate will be readjusted based on the 5-year U.S. Treasury rate plus 140 basis points initial rate differential.

These tier-2 capital bonds have the write-down feature, which allows the Group to write down the entire principals of the bonds when regulatory triggering events as stipulated in the offering documents occur and any accumulated unpaid interest would become not payable. These bonds are regarded as tier-2 capital without any guarantees provided and the proceeds of the debts cannot be used for compensating daily operating loss of the Group.

#### (3) Subordinated bonds

Detailed information of subordinated bonds is disclosed as follows:

|                   | Currency | Issue place    | Coupon rate % | Par value (CCY) | Issue date | Maturity | Note | Ending balance | Opening balance |

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

35 OTHER EQUITY INSTRUMENTS *(Continued)*(1) Preference shares *(Continued)***(c) Main clauses***Domestic preference shares*(i) Dividend

The domestic preference shares will accrue dividends on their issue price at the relevant dividend rate below:

- From and including the issue date to but excluding the first reset date, at the rate of 3.90% per annum; and
- The dividend rate will be re-priced every five years thereafter with reference to the arithmetic average value (rounding off to 0.01%) of five-year Chinese treasury bonds yield at the date which is 20 transaction days before the reset date (excluding the date) plus a fixed premium of 1.37%. As authorised by the shareholders' annual general meeting, the Board of Directors has the sole discretion to declare and distribute dividends on domestic preference shares.

With effect from 7 September 2021, the Bank has adjusted the dividend rate for the second dividend rate adjustment period to 4.07%.

The dividend for domestic preference shares is non-cumulative. Where the Bank determines to cancel the dividend for domestic preference shares in whole or in part, the omitted dividend will not be carried forward and claimed in the future period. After receiving dividends at the agreed dividend rate, domestic preference shareholders of the Bank will not participate in the distribution of residual profits with ordinary shareholders. Domestic preference shares issued by the Bank have the same dividend distribution order as the offshore preference shares.

(ii) Conditions to distribution of dividends

The Bank could pay dividends while the Bank still has distributable after-tax profit after making up previous years' losses, contributing to the statutory reserve and making general provisions, and the Bank's capital adequacy ratio meets regulatory requirements. Domestic preference shareholders of the Bank are senior to the ordinary shareholders on the right to dividends.

Subject to a resolution to be passed at a shareholders' general meeting of the Bank on each such occasion, the Bank may elect to cancel (in whole or in part) any preference share dividend. The Bank shall not distribute any dividends to its ordinary shareholders before it declares such dividends to preference shareholders for the relevant periods.

(iii) Mandatory conversion trigger events

Upon occurrence of the triggering events as stipulated by the offering documents and subject to regulatory approval, domestic preference shares shall be mandatorily converted into ordinary A Shares of the Bank, partially or entirely. The initial mandatory conversion price is RMB6.25 per share. To balance the interest between preference shareholders and ordinary shareholders, the mandatory conversion price of the preference shares will be cumulatively adjusted in sequence where certain events occur including issuances of bonus shares, capitalisation of reserves, new issuances of ordinary shares at a price lower than the market price (excluding equity increased due to exercise of convertible financing instruments that can be converted into ordinary shares) and rights issues, subject to terms and formulas provided for in the offering documents. Appropriation of dividends to ordinary shareholders is not trigger event for price adjustment.

(iv) Order of distribution and liquidation method

On winding-up of the Bank, distribution to domestic preference shareholders is made after all debts of the Bank (including subordinated debts) and obligations that are issued or guaranteed by the Bank and specifically stated to be distributed prior to the domestic preference shares; all domestic preference shareholders are ranked at the same in the distribution sequence without priority among them and have the same repayment sequence rights as holders of obligations with equivalent rights. In addition, distribution is made to domestic preference shareholders prior to ordinary shareholders.

On winding-up of the Bank, any remaining assets of the Bank shall, after the distributions in accordance with the terms and conditions of the domestic preference shares have been made, be applied to the claims of the domestic preference shareholders equally in all respects with the claims of holders of any parity obligations (which term, for the avoidance of doubt, includes the domestic preference shares and any other preference shares of the Bank issued from time to time to investors outside the PRC) and in priority to the claims of the holders of ordinary shares.

### 35 OTHER EQUITY INSTRUMENTS (Continued)

#### (1) Preference shares (Continued)

##### (c) Main clauses (Continued)

##### Domestic preference shares (Continued)

##### (iv) Order of distribution and liquidation method (Continued)

The distribution amount obtained by the domestic preference shareholders shall be the total par value of the issued and outstanding preference shares plus dividends declared but not paid in the current period; if the distribution amount is insufficient, domestic and offshore preference shareholders will share the distribution amount on a proportional basis.

##### (v) Redemption

The domestic preference shares are perpetual and have no maturity date. The Bank may, subject to obtaining the CBIRC approval and in compliance with the redemption preconditions, redeem all or some of the domestic preference shares on 7 September 2021 and on any preference share dividend payment date thereafter. The redemption period ends at the date when shares are fully converted or redeemed.

#### (2) Perpetual bonds

##### (a) Perpetual bonds outstanding at the end of the period

##### (b) Main clauses

- (i) With the approvals by relevant regulatory authorities, the Bank issued RMB40 billion undated capital bonds in China's National Inter-Bank Bond Market on 18 September 2019, and the raising fund was received on 20 September 2019. The denomination of the bonds is RMB100 each and coupon rate of 4.20%. The bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

The perpetual bonds will continue to be outstanding so long as the Bank's business continues to operate. The bonds have set forth terms regarding the Bank's redemption with pre-conditions, by which the Bank is entitled to redeem the bonds after five years since the issue date in whole or in part on the annual interest payment date (including the interest payment date of the fifth year after the issue date). If, after the issuance, the perpetual bonds no longer qualify as additional tier-1 capital as a result of an unforeseeable change or amendment to relevant provisions of supervisory regulations, the Bank may redeem the whole but not part of the perpetual bonds.

The claims in respect of the perpetual bonds are subordinated to the claims of depositors, general creditors, and subordinated indebtedness that rank senior to the perpetual bonds; and will rank in priority to all classes of equity shares held by the Bank's shareholders and rank pari passu with the claims in respect of any other additional tier-1 capital instruments of the Bank that rank pari passu with the perpetual bonds.

(All amounts presented in millions of RMB except when otherwise indicated)

## 35 OTHER EQUITY INSTRUMENTS (Continued)

## (2) Perpetual bonds (Continued)

## (b) Main clauses (Continued)

## (i) (Continued)

Upon the occurrence of Additional tier-1 capital trigger event, namely, the Bank's core tier-1 capital adequacy ratio having fallen to 5.125% (or below), the Bank has the right, subject to the approval of the CBIRC but without the need for the consent of the bondholders, to write down whole or part of the aggregate amount of the perpetual bonds then issued and outstanding, in order to restore the core tier-1 capital adequacy ratio to above 5.125%. Upon the occurrence of a Non-Viability Triggering Event, the Bank has the right to write down all the above perpetual bond issued and existing at that time in accordance with the total par value without the consent of the bondholders.

The distributions on the perpetual bonds are non-cumulative, and the Bank shall have the right to cancel, in whole or in part, distributions on the bonds and any such cancellation shall not constitute an event of default. The Bank may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the bonds, no matter in whole or in part, will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shares.

Investors have no right to redeem their subscription from the Bank. The net proceeds from the Bank's issuance of the above bonds, after deducting offering related expenses, will be used to replenish the Additional tier-1 capital of the Bank.

- (ii) With the approvals by relevant regulatory authorities, the Bank issued RMB30 billion undated capital bonds in China's National Inter-Bank Bond Market on 23 September 2020, and the raising fund was received on 25 September 2020. The denomination of the Bonds is RMB100 each and coupon rate of 4.59%. The Bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

With the approvals by relevant regulatory authorities, the Bank issued RMB41.5 billion undated capital bonds in China's National Inter-Bank Bond Market on 8 June 2021, and the raising fund was received on 10 June 2021. The denomination of the Bonds is RMB100 each and coupon rate of 4.06%. The Bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

The perpetual bonds will continue to be outstanding so long as the Bank's business continues to operate. The bonds have set forth terms regarding the Bank's redemption with pre-conditions, by which the Bank is entitled to redeem the bonds after five years since the issue date in whole or in part on the annual interest payment date (including the interest payment date of the fifth year after the issue date). If, after the issuance, the perpetual bonds no longer qualify as additional tier-1 capital as a result of an unforeseeable change or amendment to relevant provisions of supervisory regulations, the Bank may redeem the whole but not part of the perpetual bonds.

The claims in respect of the perpetual bonds are subordinated to the claims of depositors, general creditors, and subordinated indebtedness that rank senior to the perpetual bonds; and will rank in priority to all classes of equity shares held by the Bank's shareholders and rank pari passu with the claims in respect of any other additional tier-1 capital instruments of the Bank that rank pari passu with the perpetual bonds.

Upon the occurrence of a Non-Viability Triggering Event, the Bank has the right to write down/write off in whole or in part, without the need for the consent of the holders of the bonds, the principal amount of the bonds.

The distributions on the perpetual bonds are non-cumulative, and the Bank shall have the right to cancel, in whole or in part, distributions on the bonds and any such cancellation shall not constitute an event of default. The Bank may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the bonds, no matter in whole or in part, will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shares.

Investors have no right to redeem their subscription from the Bank. The net proceeds from the Bank's issuance of the above bonds, after deducting offering related expenses, will be used to replenish the additional tier-1 capital of the Bank.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022  
(All amounts presented in millions of RMB except when otherwise indicated)

### 35 OTHER EQUITY INSTRUMENTS (Continued)

#### (2) Perpetual bonds (Continued)

##### (b) Main clauses (Continued)

- (iii) With the approvals by relevant regulatory authorities, the Bank issued USD2.8 billion undated capital bonds in the offshore market on 11 November 2020, and the raising fund was received on 18 November 2020. The coupon rate of the bonds is 3.80%. The bonds adopt a coupon rate adjusted on a stage-by-stage basis and a coupon rate adjustment period for every five years during which interests will be paid at the agreed coupon rate.

The perpetual bonds will continue to be outstanding so long as the Bank's business continues to operate. The bonds have set forth terms regarding the Bank's redemption with pre-conditions. Subject to the satisfaction of the redemption conditions and having obtained the prior approval of the CBIRC, the bank is entitled to redeem the bonds after five years since the issue date in whole or in part on the annual interest payment date (including the interest payment date of the fifth year after the issue date). If, after the issuance, the perpetual bonds no longer qualify as additional tier-1 capital as a result of an unforeseeable change or amendment to relevant provisions of supervisory regulations, the Bank may redeem the whole but not part of the perpetual bonds.

The claims in respect of the perpetual bonds are subordinated to the claims of depositors, general creditors, and subordinated indebtedness that rank senior to the perpetual bonds; and will rank in priority to all classes of equity shares held by the Bank's shareholders and rank pari passu with the claims in respect of any other additional tier-1 capital instruments of the Bank that rank pari passu with the perpetual bonds.

Upon the occurrence of a Non-Viability Triggering Event, the Bank has the right to write down/write off in whole or in part, without the need for the consent of the holders of the bonds. Once the principal amount of the Bonds (in whole or in part) has been written-off, such relevant written-off portion of the bonds will not be restored or become payable again in any circumstances (including where the relevant Non-Viability Triggering Event ceases to continue), and any accrued but unpaid distribution in respect of such relevant written-off portion of the bonds shall cease to be payable. In addition, there will be no compensation in any form to remedy the loss of the bondholders.

The distributions on the perpetual bonds are non-cumulative, and the Bank shall have the right to cancel, in whole or in part, distributions on the bonds and any such cancellation shall not constitute an event of default. The Bank may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the bonds, no matter in whole or in part, will not impose any other restriction on the Bank, except in relation to dividend distributions to ordinary shares.

Investors have no right to redeem their subscription from the Bank. The net proceeds from the Bank's issuance of the above bonds, after deducting offering related expenses, will be used to replenish the additional tier-1 capital of the Bank.

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

## 36 OTHER RESERVES AND RETAINED EARNINGS

Pursuant to the relevant PRC regulations, the appropriation of profits to the statutory general reserve, the discretionary reserve and the distribution of dividends in each year are based on the recommendations of the directors and are subject to the resolutions to be passed at the General Meeting of Shareholders.

Pursuant to relevant PRC regulations, the Bank appropriated 10% of its net profit for the year under CAS to the statutory surplus reserve until the reserve balance reaches 50% of the Bank's registered capital. The statutory surplus reserve can be used to compensate losses or to increase share capital upon approval. The Bank appropriate RMB7,522 million to the statutory surplus upon approval from the 2021 Annual General Meeting of Shareholders held on 28 June 2022.

| For the six months ended 30 June 2022 |                         |             |          |                       |
|---------------------------------------|-------------------------|-------------|----------|-----------------------|
| The Group                             | As at<br>1 January 2022 | Appropriate | Decrease | As at<br>30 June 2022 |
| Statutory reserve                     | 79,967                  | 7,784       | –        | 87,751                |
| Discretionary reserve                 | 140,022                 | –           | –        | 140,022               |
| Total                                 | 219,989                 | 7,784       | –        | 227,773               |

Pursuant to relevant PRC banking regulations, since 1 July 2012, the Bank made statutory general reserve from net profit through profit appropriation according to Administrative Measures for the Provisioning of Financial Enterprises (Cai Jin [2012] No. 20). The proportion is determined based on several factors including the Bank's overall exposure to risk, normally no lower than 1.5% of the ending balance of risk assets. The statutory general reserve is an integral part of shareholders' equity but not subject to dividend distribution. The Bank's subsidiaries and overseas branches, if required by local regulation requirements, also need to make such general reserve. The 2021 Annual General Meeting of Shareholders, held on 28 June 2022, considered and adopted the 2021 profit distribution scheme, which stipulates as follows:

| For the six months ended 30 June 2022 |                         |             |          |                       |
|---------------------------------------|-------------------------|-------------|----------|-----------------------|
| The Group                             | As at<br>1 January 2022 | Appropriate | Decrease | As at<br>30 June 2022 |
| Statutory general reserve             | 130,280                 | 13,328      | –        | 143,608               |

The Bank appropriated RMB11,422 million to the statutory general reserve upon approval from the 2021 Annual General Meeting of Shareholders held on 28 June 2022.

## Retained earnings

### 37 DIVIDENDS

|  | Six months ended 30 June |        |
|--|--------------------------|--------|
|  | 2022                     | 2021   |
| Dividends to ordinary shareholders of the Bank   | 26,363                   | 23,541 |
| Dividends to preference shareholders of the Bank | 1,832                    | 1,755  |
| Interest to perpetual bond holders of the Bank   | 1,685                    | –      |

Under PRC Company Law and the Bank's Articles of Association, the net profit after tax as reported in the PRC statutory financial statements can only be distributed as dividends after allowances for the following:

- (1) Making up cumulative losses from prior years, if any;
- (2) Allocations to the non-distributable statutory reserve of 10% of the net profit of the Bank as determined under the relevant PRC accounting standards;
- (3) Allocations to statutory general reserve;
- (4) Allocations to the discretionary reserve upon approval by the Annual General Meeting of Shareholders. These funds form part of the shareholders' equity. The cash dividends are recognised in the consolidated statement of financial position upon approval by the shareholders at Annual General Meeting.

Pursuant to the approval by the Annual General Meeting of Shareholders on 28 June 2022, the Bank appropriated a cash dividend of RMB0.355 (before tax) for each ordinary share, with total amount of RMB26,363 million, calculated based on 74,263 million shares outstanding as at 31 December 2021, will be distributed to ordinary shareholders.

Pursuant to the approval by the Board meeting on 29 April 2022, the Bank will appropriate domestic preference dividends of RMB1,832 million with a dividend yield of 4.07%.

The Bank distributed the interest on the 2021 undated capital bonds amounting to RMB1,685 million on 10 June 2022.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

## 38 NON-CONTROLLING INTERESTS

Non-controlling interests of the Group include equity attributable to non-controlling interests of ordinary shares and equity attributable to non-controlling interests of other equity instruments. As at 30 June 2022, equity attributable to other equity instruments holders was RMB3,311 million. Other equity instruments were non-cumulative subordinated additional tier-1 capital securities issued by Bank of Communications (Hong Kong) Limited on 3 March 2020.

|                                    |   |
|------------------------------------|---|
| Issue Date                         | 3 March 2020  |
| Face Value                         | USB500 million  |
| First Call Date                    | 3 March 2025  |
| Distribution Rate                  | (i) from the issue date to the first call date, 3.725% per annum<br>(ii) for every five calendar years after the first call date, the then-prevailing US Treasury Rate plus 2.525% per annum if the redemption right is not exercised |
| Frequency of distribution payments | Semi-annually   |

Bank of Communications (Hong Kong) Limited may determine the policies of distribution payments and whether to redeem the bonds. Therefore, the Group recognised the bonds as equity instruments.

Pursuant to the terms and conditions of the Non-Cumulative Subordinated Additional Tier-1 Capital Securities, Bank of Communications (Hong Kong) Limited has paid a total distribution of RMB59 million during the six months ended 30 June 2022.

## 39 CONTINGENCIES

## Legal proceedings

The Group has been involved as defendants in certain lawsuits arising from its normal business operations. Management of the Group believes, based on legal advice, the final result of these lawsuits will not have a material impact on the financial position or operations of the Group. Provision for litigation losses as advised by in-house or external legal professionals is disclosed in Note 33. The total outstanding claims against the Group (as defendant) by a number of third parties at the end of the year are summarised as follows:

|  | As at<br>30 June 2022 | As at<br>31 December 2021 |
|--|-----------------------|---------------------------|
| Outstanding litigations                        | 2,602                 | 4,096                     |
| Provision for outstanding litigation (Note 33) | 572                   | 472                       |

## Future receivables from operating leases

The Group acts as lessor in operating leases principally through aircraft and vessels leasing undertaken by its subsidiaries. The future minimum lease receivables on certain aircraft and vessel under irrevocable operating leases are as follows:

|                                  | As at<br>30 June 2022 | As at<br>31 December 2021 |
|----------------------------------|-----------------------|---------------------------|
| Within 1 year                    | 14,671                | 13,186                    |
| After 1 year and within 2 years  | 14,110                | 12,864                    |
| After 2 years and within 3 years | 13,029                | 12,269                    |
| After 3 years and within 4 years | 11,821                | 11,184                    |
| After 4 years and within 5 years | 10,631                | 10,204                    |
| After 5 years                    | 40,360                | 38,879                    |
| Total                            | 104,622               | 98,586                    |

### 40 COMMITMENTS

#### Credit related commitments and financial guarantees

The following tables provide the contractual amounts of the Group's credit related commitments and financial guarantees which the Group has committed to its customers:

|                               | As at<br>30 June 2022 | As at<br>31 December 2021 |
|-------------------------------|-----------------------|---------------------------|
| Loan commitments              |                       |                           |
| – Under 1 year                | 6,581                 | 3,936                     |
| – 1 year and above            | 68,279                | 57,657                    |
| Credit card commitments       | 950,913               | 908,358                   |
| Acceptance bills              | 455,435               | 368,120                   |
| Letters of guarantee          | 393,047               | 373,630                   |
| Letters of credit commitments | 183,080               | 156,194                   |
| Total                         | 2,057,335             | 1,867,895                 |

#### Capital expenditure commitments

|                                 | As at<br>30 June 2022 | As at<br>31 December 2021 |
|---------------------------------|-----------------------|---------------------------|
| Contracted but not provided for | 65,663                | 71,053                    |

#### Commitments on security underwriting and bond acceptance

The Group is entrusted by the Ministry of Finance ('MOF') to underwrite certain Certificated Bonds and Savings Bonds. The investors of Certificated Bonds and Savings Bonds have early redemption right while the Group has the obligation to buy back those Certificated Bonds and Savings Bonds. The redemption price is the principal value of the Certificated Bonds or Savings Bonds plus unpaid interest till redemption date. As at 30 June 2022, the principal value of the certain Certificated Bonds and Savings Bonds that the Group had the obligation to buy back amounted to RMB72,020 million (31 December 2021: RMB78,594 million). The MOF will not provide funding for the early redemption of these Certificated Bonds and Savings Bonds on a back-to-back basis but will pay interest and principal at maturity. As at 30 June 2022, The Group expects the amount of redemption before the maturity dates of these bonds through the Group will not be material.

The original maturities of these bonds vary from 1 to 5 years.

As at 30 June 2022, the Group had no announced but unfulfilled irrevocable commitment on security underwriting (31 December 2020: Nil).

## 41 COLLATERALS

## (1) Assets pledged

The Group uses part of its assets as collaterals for interbank repurchase arrangements and other liabilities-related business. The carrying amount of these collaterals and the balance of operations related are listed below:

|   | Pledged assets        |                           | Associated liabilities |                           |
|---|-----------------------|---------------------------|------------------------|---------------------------|
|   | As at<br>30 June 2022 | As at<br>31 December 2021 | As at<br>30 June 2022  | As at<br>31 December 2021 |
| Investment securities                           | 548,932               | 382,640                   | 493,027                | 326,776                   |
| Bills   | 3,750                 | 3,531                     | 3,750                  | 3,531                     |
| Due from banks and other financial institutions | 2,000                 | –                         | 1,793                  | –                         |
| Total   | 554,682               | 386,171                   | 498,570                | 330,307                   |

Financial assets sold under repurchase agreements included certain transactions under which the title of the pledged securities has been transferred to counterparties. These transactions have been disclosed in Note 46 transfers of financial assets.

In addition, loans and advances to customers pledged as collateral for borrowing from central banks or placements from banks by the Group as at 30 June 2022 amounted to RMB3,424 million in total (31 December 2021: RMB5,090 million).

## (2) Collateral accepted

The Group received debt securities and bills as collateral in connection with the securities lending transactions and the purchase of assets under resale agreements. The Group did not hold any collateral that can be resold or re-pledged on balance sheet date when non-defaulting.

### 43 NOTES TO CONSOLIDATED STATEMENT OF CASH FLOWS

#### Analysis of the balance of cash and cash equivalents

For the purposes of the consolidated statement of cash flows, cash and cash equivalents comprise the following balances with maturities of less than or equal to 90 days from date of purchase and used for the purpose of meeting short-term cash commitments:

|   | As at<br>30 June 2022 | As at<br>30 June 2021 |
|---|-----------------------|-----------------------|
| Cash and balances with central banks                                | 68,425                | 131,543               |
| Due from and placements with banks and other financial institutions | 110,718               | 147,086               |
| Total   | 179,143               | 278,629               |

### 44 CONSOLIDATED STRUCTURED ENTITIES

Structured entities consolidated by the Group include certain trust investment plans, funds, and securitisation products issued, managed and invested by the Group. The Group controls these entities because the Group has power over, is exposed to, or has right to variable returns from its involvement with these entities and has the ability to use its power over these entities to affect the amount of the Group's returns. As at 30 June 2022, the consolidated structured entities amounted to RMB186,569 million (31 December 2021: RMB182,733 million).

### 45 UNCONSOLIDATED STRUCTURED ENTITIES

The Group has been involved in other structured entities through acting as sponsors of structured entities or investments in structured entities that provide specialised investment opportunities to investors. These structured entities generally finance the purchase of assets by issuing units of the products. The Group does not control these structured entities and therefore, these structured entities are not consolidated.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

## 45 UNCONSOLIDATED STRUCTURED ENTITIES (Continued)

As at 30 June 2022, those unconsolidated structured entities sponsored by the Group consist primarily of funds, trusts, asset management products, limited partnerships, wealth management products with principals not guaranteed by the Group and securitisation products. The Group earns commission income by providing management services to the investors of these structured entities, such income is not significant to the Group. In addition, the Group is also involved in certain structured entities sponsored by the Group or third parties through direct investments. These investments are recognised as financial investments at fair value through profit or loss, financial investments at fair value through other comprehensive income, and financial investments at amortised cost.

As at 30 June 2022, the balance of the non-principal guaranteed wealth management products set up by the Group amounted to RMB1,276,964 million (As at 31 December 2021: RMB1,426,253 million), the balance of funds issued by the Group amounted to RMB599,312 million, the balance of trusts and asset management plans and others sponsored by the Group amounted to RMB644,250 million (As at 31 December 2021: the balance of funds issued by the Group amounted to RMB547,188 million, the balance of trusts and asset management plans and others sponsored by the Group amounted to RMB721,946 million).

For the six months ended 30 June 2022, the Group's commission income from providing services to the structured entities managed by the Group was RMB5,232 million (For the six months ended 30 June 2021: RMB4,318 million), and no interest income from placements and repurchase transactions with those unconsolidated wealth management products (For the six months ended 30 June 2021: Nil).

As at 30 June 2022 and 31 December 2021, the carrying amount of interests in unconsolidated structured entities held by the Group through investment was set out as follows:

| As at 30 June 2022                     | Carrying amount                |   |                                |                          | Type of income  |
|--|--------------------------------|---|--------------------------------|--------------------------|---|
|  | Financial investments at FVTPL | Financial investments at amortised cost | Financial investments at FVOCI | Maximum exposure to loss |   |
| Funds (including limited partnerships) | 146,909                        | –                                       | 370                            | 147,279                  | Net gains arising from trading activities, other comprehensive income |
| Trusts and asset management products   | 25,534                         | 75,115                                  | –                              | 100,649                  | Net interest income, net gains arising from trading activities        |
| Securitisation products                | 619                            | 210                                     | –                              | 829                      | Net interest income, net gains arising from trading activities        |
| Total                                  | 173,062                        | 75,325                                  | 370                            | 248,757                  |   |

The information of total size of the unconsolidated structured entities listed above is not readily available from the public domain.

| As at 31 December 2021                 | Carrying amount                |   |                                |                          | Type of income  |

| Trusts and asset management products   | 13,445                         | 83,245                                  | –                              | 96,690                   | Net interest income, net gains arising from trading activities        |
| Securitisation products                | 63                             | 134                                     | –                              | 197                      | Net interest income, net gains arising from trading activities        |
| Total                                  | 161,246                        | 83,379                                  | 620                            | 245,245                  |   |

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022  
(All amounts presented in millions of RMB except when otherwise indicated)

### 46 TRANSFERS OF FINANCIAL ASSETS

#### (1) Financial assets sold under repurchase agreements

Sales and repurchase agreements are transactions in which the Group sells a security and simultaneously agrees to repurchase it (or an asset that is substantially the same) at a fixed price on a future date. Since the repurchase prices are fixed, the Group is still exposed to substantially all the credit risks and market risks and rewards of those securities sold. These securities, which the Group does not have the ability to use during the term of the arrangements, are not derecognised from the financial statements but regarded as “collateral” for the secured lending. In addition, the Group recognises a financial liability for cash received.

As at 30 June 2022 and 31 December 2021, the Group entered into repurchase agreements with certain counterparties. The proceeds from selling such securities are presented as “financial assets sold under repurchase agreements” (Note 28).

The following table provides a summary of carrying amounts related to the transferred financial assets that are not derecognised and the associated liabilities:

|                                 | Collaterals           |                           | Associated liabilities |                           |
|---------------------------------|-----------------------|---------------------------|------------------------|---------------------------|
|                                 | As at<br>30 June 2022 | As at<br>31 December 2021 | As at<br>30 June 2022  | As at<br>31 December 2021 |

#### (2) Securities lending transactions

Transferred financial assets that do not qualify for de-recognition mainly include debt securities lent to counterparties under securities lending agreements. The counterparties are allowed to sell or repledge those securities lent under agreements to repurchase in the absence of default by the Group, but has an obligation to return the securities at the maturity of the contract. The Group has determined that it retains substantially all the risks and rewards of these securities and therefore has not derecognised them. As at 30 June 2022, the carrying value of debt securities lent to counterparties was RMB7,293 million (31 December 2021: RMB13,900 million).

#### (3) Asset securitization

As part of its operational activities, the Group securitises financial assets, generally through the sale of these assets to structured entities which then issue securities to investors.

The Group retains interests in the form of subordinated tranches which may give rise to the Group’s continuing involvement in the transferred assets. Those financial assets are recognised on the consolidated statement of financial position to the extent of the Group’s continuing involvement, while the rest are derecognised. The extent of the Group’s continuing involvement is the extent of risk the Group faces due to changes in the value of the transferred assets.

As at 30 June 2022, loans with an original value of RMB71,204 million and carrying amount of RMB59,024 million (31 December 2021: RMB66,061 million and RMB56,834 million) have been securitised by the Group, among which the Group transferred financial assets amounted to RMB19,070 million through assets backed securitization transactions, and all have met the requirement of derecognition (31 December 2021: RMB13,927 million, all have met the requirement of derecognition).

As at 30 June 2022, the Group retained their continued involvement in securitised credit assets by holding subordinated securities. The value of the assets that the Group continued to recognise was RMB5,529 million (31 December 2021: RMB5,529 million).

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the six months ended 30 June 2022

(All amounts presented in millions of RMB except when otherwise indicated)

## 46 TRANSFERS OF FINANCIAL ASSETS (Continued)

## (4) Disposal of non-performing loans and advances to customers

The Group disposes non-performing loans and advances to customers through transferring to third parties in the normal course of business. For the six months ended 30 June 2022, the Group had batch transferred non-performing loans and advances to customers with a gross carrying amount of RMB1,104 million (For the six months ended 30 June 2021: RMB8,718 million) and collected cash totalling RMB818 million (For the six months ended 30 June 2021: RMB5,543 million) from the transfer. The difference between the gross carrying amount and the cash collected had been written off. The Group derecognised the non-performing loans and advances to customers from the Group's financial statements at the time of disposal.

## 47 RELATED PARTY TRANSACTIONS

## (1) Transactions with the MOF

As at 30 June 2022, the MOF held 17,732 million (31 December 2021: 17,732 million) ordinary shares of Bank of Communications Co., Ltd. which represented 23.88% (31 December 2021: 23.88%) of the total share capital.

The MOF is a Chinese government ministry, primarily responsible for managing state fiscal revenue and expenditures, and establishing and enforcing taxation policies. The Group enters into banking transactions with the MOF under normal commercial terms and at market rates. These transactions mainly include the purchase and redemption of financial investments issued by the MOF.

#### (4) Transactions with state-owned entities in PRC

The Group operates in an economic environment predominated by enterprises directly or indirectly owned and/or controlled by the government through its authorities, affiliates or other organisations (collectively the “state-owned entities”). During the period, the Group entered into extensive banking transactions with these state-owned entities including, but not limited to, the provision of credit and guarantees, deposits, foreign exchange, derivatives transactions, agency business, underwriting and distribution of bonds issued by the government as well as trading and redemption of securities issued by the government.

Management considers that transactions with state-owned entities are activities conducted in the ordinary course of business, and that the dealings of the Group have not been significantly or unduly affected by the fact that the Group and these state-owned entities are ultimately controlled or owned by the government. The Group has also established pricing policies for products and services and such pricing policies do not depend on whether or not the customers are state-owned entities.

## 48 SEGMENTAL ANALYSIS

Operating segments are identified based on the structure of the Group's internal organization and management requirements. Management monitors the operating results of the Group's business units separately for the purpose of making decisions about resources allocation and performance assessment. Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Group.

Segment revenues, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The basis for allocation is mainly based on occupation of or contribution to resources. Income taxes are managed on a group basis and are not allocated to operating segments.

Funds are ordinarily allocated between segments. Costs of these funds are charged at the Group's cost of capital and disclosed in inter-segment net interest income. There are no other material items of income or expenses between the segments. Net interest income and expense relating to third parties are disclosed in external net interest income. There are no other material items of income or expenses between the segments.

### Geographical operating segment information

The Group's Board of Directors and senior management reviews the Group's operation by the particular economic areas in which the Group's branches and subsidiaries provide products or services. The Group's geographical operating segments are decided based upon location of the assets, as the Group's branches and subsidiaries mainly serve local customers.

The Group's geographical operating segments include provincial and directly managed branches and subsidiaries (if any) in relevant regions, as follows:

- Yangtze River Delta: including Shanghai (excluding Head Office), Jiangsu Province, Zhejiang Province, and Anhui Province;
- Pearl River Delta: including Fujian Province and Guangdong Province;
- Bohai Rim Economic Zone: including Beijing, Tianjin, Hebei Province, and Shandong Province;
- Central China: including Shanxi Province, Jiangxi Province, Henan Province, Hubei Province, Hunan Province, Hainan Province, and Guangxi Zhuang Autonomous Region;
- Western China: including Chongqing, Sichuan Province, Guizhou Province, Yunnan Province, Shanxi Province, Gansu Province, Qinghai Province, Inner Mongolia Autonomous Region, Ningxia Autonomous Region, and Xinjiang Uyghur Autonomous Region;
- Northeastern China: including Liaoning Province, Jilin Province and Heilongjiang Province;
- Overseas: including Hong Kong, New York, Tokyo, Singapore, Seoul, Frankfurt, Macau, Ho Chi Minh City, San Francisco, Sydney, Taipei, London, Luxembourg, Brisbane, Paris, Rome, Brazil, Melbourne, Toronto, Prague, Johannesburg;
- Head Office, including the Pacific Credit Card Centre.

| Net structural position       | 121,168     | 31,246    | 7,799     | 160,213     |

The net options position is calculated using the approach set out by the CBIRC in the regulatory report. The net structural position of the Group includes the structural positions of the Group's overseas branches, banking subsidiaries and other subsidiaries substantially involved in foreign exchange. Structural assets and liabilities include:

- Investments in fixed assets and properties, net of depreciation charges;
- Capital and statutory reserve of overseas branches;
- Investments in overseas subsidiaries and related companies; and
- Loan capital

## 2 INTERNATIONAL CLAIMS

International claims are the sum of cross-border claims in all currencies and local claims in foreign currencies. The Group is principally engaged in business operations within Mainland China.

In respect of this unaudited supplementary financial information, Mainland China excludes Hong Kong Special Administrative Region of the PRC ("Hong Kong"), Macau Special Administrative Region of the PRC ("Macau") and Taiwan.

International claims include loans and advances to customers, due from and placements with banks and other financial institutions, holdings of trade bills and certificates of deposits and investment securities.

International claims have been disclosed by country or region. A country or region is reported where it constitutes 10% or more of the aggregate amount of international claims, after taking into account any risk transfers. Risk transfers are only made if risk exposure is transferred to other counterparty by risk resolving methods. Exposure to credit risk is also mitigated through methods of guarantees, collaterals and credit derivatives.

Note: The classification of industries is consistent with the latest national standards for industry classification (Industrial Classification for National Economic Activities (GB/T 4754-2017) issued by SAC and AQSIQ in 2017).

The risk concentration analysis for loans and advances to customers by industry sectors is based on the Group's internal classification system.

The ratio of collateral and pledge loans to the total loans of the Group was 51% as at 30 June 2022 (31 December 2021: 52%).

# SUPPLEMENTARY INFORMATION ON CAPITAL ADEQUACY RATIO, LEVERAGE RATIO, LIQUIDITY COVERAGE RATIO AND NET STABLE FUNDING RATIO (CONTINUED)

## APPENDIX 8: NET STABLE FUNDING RATIO AND ITEMS FOR THE SECOND QUARTER OF 2022 (CONTINUED)

(in millions of RMB unless otherwise stated)

| Serial Number |   | Unweighted value |                    |             |             | Weighted value |
|---------------|---|------------------|--------------------|-------------|-------------|----------------|
|               |   | No Maturity      | Less than 6 months | 6-12 months | Over 1 year |                |
| 28            | Assets posted as initial margin for derivative contracts and contributions to default funds of central counterparties |                  |                    |             | 12,413      | 10,551         |
| 29            | Net stable funding ratio derivative assets  |                  |                    |             | 56,153      | 16,662         |
| 30            | Net stable funding ratio derivative liabilities with additional requirements  |                  |                    |             | 39,491      | 7,898          |
| 31            | All other assets not included in the above  | 173,379          | 80,402             | 9,933       | 56,278      | 314,663        |
| 32            | Off-balance-sheet items   |                  |                    |             | 3,315,700   | 138,390        |
| 33            | Total required stable funding   |                  |                    |             |             | 6,766,230      |
| 34            | Net stable funding ratio (%)  |                  |                    |             |             | 109.02         |

## Notes:

1. The “no maturity” bucket mentioned in the table above include, but are not limited to, capital with perpetual maturity, non-maturity (demand) deposits, short positions, open maturity positions, non-high-quality liquid assets equities, and physical traded commodities.
2. The unweighted value of item 30 “Net stable funding ratio derivative liabilities with additional requirements” is the net stable funding ratio derivative liabilities before the deduction of the variation margin, without differentiation of maturity, and not included in the unweighted value of item 26 “Other assets”.

**Appendix 3**  
**Pricing Supplements dated 22 November 2022**

**Singapore SFA Product Classification** – In connection with Section 309B of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the “SFA”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “CMP Regulations 2018”), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the CMP Regulations 2018) and are Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendation on Investment Products).

**Pricing Supplement dated 22 November 2022**

**Bank of Communications Co., Ltd. Hong Kong Branch**

*(A joint stock company incorporated in the People's Republic of China with limited liability)*

**Legal Entity Identifier of Bank of Communications Co., Ltd.: 549300AX1UM10U30HK09**

**Issue of U.S.\$200,000,000 4.75 per cent. Notes due 2025 (the “Notes”)  
under the U.S.\$12,000,000,000 Medium Term Note Programme (the “Programme”)**

This document constitutes the Pricing Supplement relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the offering circular dated 7 March 2022 (the “**Original Offering Circular**”) and the supplemental offering circular dated 22 November 2022 (the “**Supplemental Offering Circular**”, together with the Original Offering Circular, the “**Offering Circular**”).

This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of the Offering Circular and this Pricing Supplement.

This Pricing Supplement is for distribution to professional investors (as defined in Chapter 37 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited) (“**Professional Investors**”) only.

**Notice to Hong Kong investors:** The Issuer confirms that the Notes are intended for purchase by Professional Investors only and will be listed on The Stock Exchange of Hong Kong Limited on that basis. Accordingly, the Issuer confirms that the Notes are not appropriate as an investment for retail investors in Hong Kong. Investors should carefully consider the risks involved.

**The Stock Exchange of Hong Kong Limited has not reviewed the contents of this Pricing Supplement, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this Pricing Supplement to Professional Investors only have been reproduced in this Pricing Supplement. Listing of the Programme and the Notes on The Stock Exchange of Hong Kong Limited is not to be taken as an indication of the commercial merits or credit quality of the Programme, the Notes, the Issuer, or quality of disclosure in this Pricing Supplement.** Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this Pricing Supplement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this Pricing Supplement.

The Managers and their respective officers, employees, affiliates, advisors and agents have not independently verified the information contained herein (financial, legal or otherwise) and, to the fullest extent permitted by law, none of the Managers or their respective officers, employees, affiliates, advisors or agents accepts any responsibility for the contents of this Pricing Supplement or for any other statement, made or purported to be made by the Managers or on their behalf in connection with the Issuer, the Bank, the Group, the Programme or the issue and offering of the Notes under the

Programme. The Managers and their respective officers, employees, affiliates, advisors or agents accordingly disclaim all and any liability whether arising in tort or contract or otherwise (save as referred to above) which might otherwise have in respect of this Pricing Supplement or any such statement.

This Pricing Supplement, together with the Offering Circular, includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to the Issuer. The Issuer accepts full responsibility for the accuracy of the information contained in this Pricing Supplement and confirms, having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement herein misleading.

#### **LISTING APPLICATION**

This Pricing Supplement comprises the final terms required to list the issue of Notes described herein pursuant to the U.S.\$12,000,000,000 Medium Term Note Programme of Bank of Communications Co., Ltd. Hong Kong Branch.

#### **STABILISATION**

In connection with the issue of the Notes, any of the Managers named as Stabilisation Manager (or persons acting on behalf of any Stabilisation Manager(s)) in this Pricing Supplement may, to the extent permitted by applicable laws and directives, over-allot and effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the Notes and 60 days after the date of the allotment of the Notes. Any stabilisation action or over-allotment must be

conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and regulations.

#### **MATERIAL ADVERSE CHANGE STATEMENT**

Except as disclosed in the Offering Circular, there has been no significant change in the financial or trading position of the Issuer or of the Group since 30 June 2022 and no material adverse change in the financial position or prospects of the Issuer or of the Group since 31 December 2021.

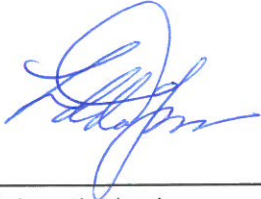

#### **RESPONSIBILITY**

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

Signed on behalf of

**BANK OF COMMUNICATIONS CO., LTD. HONG KONG BRANCH**

**Legal Entity Identifier of Bank of Communications Co., Ltd.: 549300AX1UM10U30HK09**

**Issue of CNY1,420,000,000 3.05 per cent. Notes due 2024 (the “Notes”)  
under the U.S.\$12,000,000,000 Medium Term Note Programme (the “Programme”)**

This document constitutes the Pricing Supplement relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the offering circular dated 7 March 2022 (the “**Original Offering Circular**”) and the supplemental offering circular dated 22 November 2022 (the “**Supplemental Offering Circular**”, together with the Original Offering Circular, the “**Offering Circular**”).

The parties have agreed to enter into a fourth supplemental fiscal agency agreement dated on or about 30 November 2022 in respect of the Notes, which makes certain modifications to the existing fiscal agency agreements between Bank of Communications Co., Ltd. Hong Kong Branch, Bank of Communications Co., Ltd. Hong Kong Branch as initial Fiscal Agent, CMU Lodging and Paying Agent, Registrar and the other agents named in it relating to the Programme.

This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of the Offering Circular and this Pricing Supplement.

This Pricing Supplement is for distribution to professional investors (as defined in Chapter 37 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited) (“**Professional Investors**”) only.

**Notice to Hong Kong investors:** The Issuer confirms that the Notes are intended for purchase by Professional Investors only and will be listed on The Stock Exchange of Hong Kong Limited on that basis. Accordingly, the Issuer confirms that the Notes are not appropriate as an investment for retail investors in Hong Kong. Investors should carefully consider the risks involved.

**The Stock Exchange of Hong Kong Limited has not reviewed the contents of this Pricing Supplement, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this Pricing Supplement to Professional Investors only have been reproduced in this Pricing Supplement. Listing of the Programme and the Notes on The Stock Exchange of Hong Kong Limited is not to be taken as an indication of the commercial merits or credit quality of the Programme, the Notes, the Issuer, or quality of disclosure in this Pricing Supplement. Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this Pricing Supplement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this Pricing Supplement.**

The Managers and their respective officers, employees, affiliates, advisors and agents have not independently verified the information contained herein (financial, legal or otherwise) and, to the fullest extent permitted by law, none of the Managers or their respective officers, employees, affiliates, advisors or agents accepts any responsibility for the contents of this Pricing Supplement or for any other statement, made or purported to be made by the Managers or on their behalf in connection with the Issuer, the Bank, the Group, the Programme or the issue and offering of the Notes under the Programme. The Managers and their respective officers, employees, affiliates, advisors or agents accordingly disclaim all and any liability whether arising in tort or contract or otherwise (save as referred to above) which might otherwise have in respect of this Pricing Supplement or any such statement.

This Pricing Supplement, together with the Offering Circular, includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to the Issuer. The Issuer accepts full responsibility for the accuracy of the information contained in this Pricing Supplement and confirms, having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement herein misleading.

## LISTING APPLICATION

This Pricing Supplement comprises the final terms required to list the issue of Notes described herein pursuant to the U.S.\$12,000,000,000 Medium Term Note Programme of Bank of Communications Co., Ltd. Hong Kong Branch.

## STABILISATION

In connection with the issue of the Notes, any of the Managers named as Stabilisation Manager (or persons acting on behalf of any Stabilisation Manager(s)) in this Pricing Supplement may, to the extent permitted by applicable laws and directives, over-allot and effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the Notes and 60 days after the date of the allotment of the Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and regulations.

## MATERIAL ADVERSE CHANGE STATEMENT

Except as disclosed in the Offering Circular, there has been no significant change in the financial or trading position of the Issuer or of the Group since 30 June 2022 and no material adverse change in the financial position or prospects of the Issuer or of the Group since 31 December 2021.

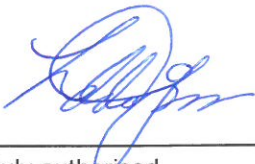

## RESPONSIBILITY

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

Signed on behalf of the Issuer:

**BANK OF COMMUNICATION CO., LTD. HONG KONG BRANCH**

*(A joint stock company incorporated in the People's Republic of China with limited liability)*

By:   
Duly authorised

## SCHEDULE 1

This Appendix sets out the special conditions referred to in Item 34 (*Other terms or special conditions*):

### 1. Payments and Talons

Condition 7(a) and 7(b) shall be amended and restated as follows with respect to the Notes:

“(a) **Bearer Notes:** Payments of principal and interest in respect of Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and provided that the Receipt is presented for payment together with its relative Note), Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(f)(vi)) or Coupons (in the case of interest, save as specified in Condition 7(f)(vi)), as the case may be:

- (i) in the case of Notes denominated in a currency other than Renminbi, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the holder, by transfer to an account denominated in such currency with, a Bank;
- (ii) in the case of Notes denominated in Renminbi, by transfer to a Renminbi account maintained by or on behalf of the Noteholder with a bank in Hong Kong; and
- (iii) In this Condition 7(a), “Bank” means a bank in the principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the TARGET System.

*Payments of principal and interest in respect of Bearer Notes held in the CMU will be made to the CMU for their distribution to the person(s) for whose account(s) interests in the relevant Bearer Note are credited as being held with the CMU in accordance with the CMU Rules (as defined in the Agency Agreement) at the relevant time and payment made in accordance thereof shall discharge the obligations of the Issuer in respect of that payment.*

(a) **Registered Notes:**

- (i) Payments of principal (which for the purposes of this Condition 7(b) shall include final Instalment Amounts but not other Instalment Amounts) in respect of Registered Notes shall be made against presentation and surrender of the relevant Certificates at the specified office of any of the Transfer Agents or of the Registrar and in the manner provided in paragraph (ii) below.
- (ii) Interest (which for the purpose of this Condition 7(b) shall include all Instalment Amounts other than final Instalment Amounts) on Registered Notes shall be paid to the person shown on the Register at the close of business on the fifth (in the case of Notes denominated in Renminbi) and fifteenth (in the case of Notes denominated in a currency other than Renminbi) day before the due date for payment thereof (the “Record Date”). Payments of interest on each Registered Note shall be made:
  - (A) in the case of Notes denominated in a currency other than Renminbi, in the relevant currency by cheque drawn on a Bank and mailed to the holder (or to the first-named of joint holders) of such Note at its address appearing in the Register. Upon application by the holder to the specified office of the Registrar or any Transfer Agent before the Record Date, such payment of interest may be made by transfer to an account in the relevant currency maintained by the payee with a Bank; and

(B) in the case of Notes denominated in Renminbi, by transfer to the registered account of the Noteholder.

In Condition 7(b)(ii), “registered account” means the Renminbi account maintained by or on behalf of the Noteholder with a bank in Hong Kong, details of which appear on the Register at the close of business on the fifth business day before the due date for payment.

*Payments of principal and interest in respect of Registered Notes held in the CMU will be made to the person(s) for whose account(s) interests in the relevant Registered Note are credited as being held with the CMU in accordance with the CMU Rules at the relevant time and payment made in accordance thereof shall discharge the obligations of the Issuer in respect of that payment.”*
