### **PROFIT WARNING**

The expected turnaround from profit to loss for the year ended 31 December 2022 was primarily attributable to (1) an approximate 20% decrease in the revenue from sales of prefabricated construction units and decoration and landscaping services, as well as a decrease in gross profit margin generated from different business activities, for the year ended 31 December 2022 as compared with the corresponding period in 2021, due to the recession of the overall macroeconomy and the increase in credit risks of real estate industry; (2) a decrease of approximately HK\$58,000,000 in the revenue from granting technology licensing for the year ended 31 December 2022 as compared with the corresponding period in 2021, due to the more prudent investment attitude towards prefabricated construction components factories as affected by the industry environment; (3)

an increase in provision for bad debts for the year ended 31 December 2022; and (4) a decrease of approximately HK\$20,000,000 in the income from government grants for the year ended 31 December 2022 as compared with the corresponding period in 2021.
