ACCOUNTANT'S REPORT ON HISTORICAL FINANCIAL INFORMATION TO THE DIRECTORS OF DPC DASH LTD AND MERRILL LYNCH (ASIA PACIFIC) LIMITED

Introduction

We report on the historical financial information of DPC Dash Ltd (the "Company") and its subsidiaries (together, the "Group") set out on pages [I-4 to I-86], which comprises the consolidated balance sheets as at December 31, 2019, 2020, 2021 and June 30, 2022, the company balance sheets as at December 31, 2019, 2020, 2021 and June 30, 2022, and the consolidated statements of comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows for each of the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2022 (the "Track Record Period") and a summary of significant accounting policies and other explanatory information (together, the "Historical Financial Information"). The Historical Financial Information set out on pages [I-4 to I-86] forms an integral part of this report, which has been prepared for inclusion in the [**REDACTED**] of the Company dated [[●], 2022] (the "[**REDACTED**]") in connection with the [**REDACTED**] of shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited.

Directors' responsibility for the Historical Financial Information

The directors of the Company are responsible for the preparation of Historical Financial Information that gives a true and fair view in accordance with the basis of preparation sets out in Note 2.1 to the Historical Financial Information, and for such internal control as the directors determine is necessary to enable the preparation of Historical Financial Information that is free from material misstatement, whether due to fraud or error.

Reporting accountant's responsibility

Our responsibility is to express an opinion on the Historical Financial Information and to report our opinion to you. We conducted our work in accordance with Hong Kong Standard on Investment Circular Reporting Engagements 200, *Accountants' Reports on Historical Financial Information in Investment Circulars* issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). This standard requires that we comply with ethical standards and plan and perform our work to obtain reasonable assurance about whether the Historical Financial Information is free from material misstatement.

Our work involved performing procedures to obtain evidence about the amounts and disclosures in the Historical Financial Information. The procedures selected depend on the reporting accountant's judgement, including the assessment of risks of material misstatement of the Historical Financial Information, whether due to fraud or error. In making those risk assessments, the reporting accountant considers internal control relevant to the entity's preparation of Historical Financial Information that gives a true and fair view in accordance with the basis of preparation sets out in Note 2.1 to the Historical Financial Information in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Our work also included evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the Historical Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the Historical Financial Information gives, for the purposes of the accountant's report, a true and fair view of the financial position of the Company as at December 31, 2019, 2020, 2021 and June 30, 2022 and the consolidated financial position of the Group as at December 31, 2019, 2020, 2021 and June 30, 2022 and of its consolidated financial performance and its consolidated cash flows for the Track Record Period in accordance with the basis of preparation sets out in Note 2.1 to the Historical Financial Information.

Review of stub period comparative financial information

We have reviewed the stub period comparative financial information of the Group which comprises the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the six months ended 30 June 2021 and other explanatory information (the "Stub Period Comparative Financial Information"). The directors of the Company are responsible for the preparation of the Stub Period Comparative Financial Information in accordance with the basis of preparation set out in Note 2.1 to the Historical Financial Information. Our responsibility is to express a conclusion on the Stub Period Comparative Financial Information based on our review. We conducted our review in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the International Auditing and Assurance Standards Board (IAASB). A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. Based on our review, nothing has come to our attention that causes us to believe that the Stub Period Comparative Financial Information, for the purposes of the accountant's report, is not prepared, in all material respects, in accordance with the basis of preparation set out in Note 2.1 to the Historical Financial Information.

Report on matters under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and the Companies (Winding Up and Miscellaneous Provisions) Ordinance

Adjustments

In preparing the Historical Financial Information, no adjustments to the Underlying Financial Statements as defined on page [I-4] have been made.

Dividends

We refer to Note 12 to the Historical Financial Information which states that no dividends had been paid by DPC Dash Ltd in respect of the Track Record Period.

No statutory financial statements for the Company

No statutory financial statements have been prepared for the Company since its date of incorporation.

II NOTES TO THE HISTORICAL FINANCIAL INFORMATION

(All amounts in RMB Yuan unless otherwise stated)

1 GENERAL INFORMATION

DPC Dash Ltd (the "Company") (previously named Dash Brands Ltd.) is a limited liability company incorporated in British Virgin Islands on April 30, 2008. The address of its registered office is Kingston Chambers, P.O. Box 173 Road Town, Tortola, British Virgin Islands.

The Company, an investment holding company, and its subsidiaries (collectively, the "Group") are principally engaged in the operation of fast food restaurant chains in the People's Republic of China (the "PRC").

Dash DPZ China Limited ("DPZ China") held 100% equity interests in Pizzavest China Ltd., which was Domino's Pizza's master franchisee in Mainland China, the Hong Kong Special Administrative Region of China and the Macau Special Administrative Region of China.

Before July 2017, DPZ China was jointly controlled by the Company and a third party. In July 2017, the Company issued additional shares to the third party to acquire the remaining equity interests in DPZ China (the "Acquisition"). After the Acquisition, DPZ China became a wholly-owned subsidiary of the Company.

The master franchise agreement with Domino's Pizza International Franchising Inc. ("DPIF") provides the Group with the exclusive right to develop and operate Domino's Pizza stores and to use and license Domino's system and the associated trademarks in the operation of the pizza stores in Mainland China, the Hong Kong Special Administrative Region of China and the Macau Special Administrative Region of China. The term of the master franchise agreement continues until June 1, 2027 and is renewable for two additional 10-year terms, subject to the fulfilment of certain conditions.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these Historical Financial Information are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The Historical Financial Information of the Group have been prepared in accordance with International Financial Reporting Standards ("IFRSs"). The Historical Financial Information have been prepared under the historical cost convention, as modified by the revaluation of certain financial liabilities at fair value through profit or loss which are carried at fair value.

The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the Historical Financial Information are disclosed in Note 4.

All effective standards, amendments to standards and interpretations, which are mandatory for the financial year beginning January 1, 2022, are consistently applied by the Group throughout the Track Record Period.

(a) New standards and amendments to standards and interpretations not yet adopted

Standards, amendments and interpretations that have been issued but not yet effective and not been early adopted by the Group during the Track Record Period are as follows:

New/amended standards		Effective for annual periods beginning on or after
IFRS 17	Insurance Contracts	January 1, 2023
IAS 1 (Amendments)	Classification of liabilities as current or non-current	January 1, 2023

New/amended standards		Effective for annual periods beginning on or after
IAS 1 and IFRS Practice Statement 2 (Amendments)	Disclosure of accounting policies	January 1, 2023
IAS 8 (Amendments)	Definition of accounting estimates	January 1, 2023
IAS 12 (Amendments)	Deferred tax related to assets and liabilities arising from a single transaction	January 1, 2023
IFRS 10 and IAS 28 (Amendments)	Sale or contribution of assets between an investor and its associate or joint venture	To be determined

The Group has already commenced an assessment of the impact of these new or revised standards and annual improvements. According to the preliminary assessment made by the directors of the Company (the "Directors"), no significant impact on the financial performance and position of the Group is expected when they become effective.

2.2 Going concern

As of December 31, 2019, 2020, 2021 and June 30, 2022, the Group recorded net current liabilities of approximately RMB209,600,000, RMB202,463,000, RMB64,989,000 and RMB64,057,000, respectively. For the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2022, the Group had net losses of RMB181,550,000, RMB274,050,000, RMB471,063,000, and RMB95,475,000, and net cash inflows from operating activities amounting to approximately RMB124,347,000, RMB103,543,000, RMB332,089,000, and RMB167,573,000, respectively.

The directors of the Company have reviewed the Group's cash flow forecast, which covers a period of not less than twelve months from June 30, 2022. In preparing the cash flow forecast, the directors have considered the Group's capital expenditures plans (including the new stores opening plan in the forecast period), estimated cash flows provided by operations, existing cash on hand and other available source of funds. Based on review of the cash flow forecast, the directors believe that the Group has sufficient funds to meet its liabilities and continue its operations for at least twelve months from June 30, 2022.

Accordingly, the Historical Financial Information have been prepared on the basis that the Group will continue as a going concern.

2.3 Subsidiaries

2.3.1 Consolidation

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group (refer to note (a)).

Inter-company transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statements of comprehensive income, statements of changes in equity and balance sheet respectively.

(a) Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the following, if applicable:

- fair value of the assets transferred;
- liabilities incurred to the former owners of the acquired business;
- equity interests issued by the Group;
- fair value of any asset or liability resulting from a contingent consideration arrangement; and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition related costs are expensed as incurred.

The excess of the:

- consideration transferred,
- amount of any non-controlling interest in the acquired entity, and
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions. Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognized in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognized in profit or loss.

2.3.2 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the Historical Financial Information of the investee's net assets including goodwill.

2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker ("CODM"). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the directors of the Company who make strategic decisions.

2.5 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the group entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The functional currency of the Company is United States Dollars ("US$"). The functional currency of the Group's subsidiaries incorporated in Cayman Islands and Hong Kong is US$. The Group's PRC subsidiaries determined their functional currency to be RMB. The Historical Financial Information are presented in RMB as the major operations of the Group are conducted in the PRC.

(b) Transaction and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the consolidated statements of comprehensive income within "finance cost". All other foreign exchange gains and losses are presented in the consolidated statements of comprehensive income within "other (losses)/gains, net".

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities classified as fair value through other comprehensive income are recognized in other comprehensive income.

(c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

(i) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;

(ii) income and expenses for each consolidated statements of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions);

(iii) all resulting currency translation differences are recognized in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, are recognized in other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange currency translation arising from the translation of any net investment in foreign entities are recognized in other comprehensive income.

2.6 Plant and equipment

All plant and equipment are stated at historical cost less accumulated depreciation and impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Depreciation of the plant and equipment is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follows:

Leasehold improvements	Over the lease terms or useful life of 6 years, whichever the shorter
Machinery and equipment	5-10 years
Office equipment	5 years
Motor vehicles	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of the reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 2.9).

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized within "other (losses)/gains, net" in the consolidated statements of comprehensive income.

2.7 Construction in progress

Construction in progress represents furniture and fixtures, equipment and leasehold improvements under construction or installation. Construction in progress is stated at cost less accumulated impairment losses, if any. Cost includes construction costs, installation costs that are eligible for capitalization and other costs necessary to bring the plant, equipment and leasehold improvements ready for their intended use. No provision for depreciation is made on construction in progress until such time as the relevant assets are completed and ready for intended use. When the assets concerned are available for use, the costs are transferred to plant and equipment and depreciated in accordance with the policies as stated in note 2.6.

2.8 Intangible assets

(a) Goodwill

Goodwill arises on the acquisition of subsidiaries and represents the excess of the consideration transferred over Group's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree and the amount of the non-controlling interest in the acquiree. Goodwill on acquisition of subsidiaries is included in intangible assets.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs"), that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs to sell. Any impairment is recognized immediately as an expense and is not subsequently reversed.

(b) Master franchise agreement

Master franchise agreement ("MFA") acquired in a business combination are recognized at fair value at the acquisition date. Master franchise agreement are amortized on the straight-line basis over estimated useful lives of 30 years, which is also the contractual term of the master franchise agreement with renewal terms considered.

The Group should pay additional store franchise fee for each new opening store. Store franchise fee are recognized at cost and amortized on the straight-line bases over estimated operation period of the new store.

According to the MFA, royalty fees are based on a fixed percentage of revenue and the expenses are recognized in "Store operation and maintenance expenses" as incurred.

(c) Acquired software and website

The acquired software and website is well-developed and used for the Group's financial reporting and business operation. The acquired software and website are recognized at cost and amortized on a straight-line basis over the estimated useful lives of 1-10 years, representing the management's best estimates after considering the current functionalities equipped by these software and website, the daily operation needs of the Group and the authorized use period of the acquired software and website.

(d) Self-developed website and app

Costs incurred on development projects are capitalized as intangible assets when recognition criteria are met, including (a) it is technically feasible to complete the website and app so that it will be available for use; (b) management intends to complete the website and app and use or sell it; (c) there is an ability to use or sell the website and app; (d) it can be demonstrated how the website and app will generate probable future economic benefits; (e) adequate technical, financial and other resources to complete the development and to use or sell the website and app are available; and (f) the expenditure attributable to the website and app during its development can be reliably measured. Other development costs that do not meet those criteria are expensed as incurred.

The Group capitalized development expenditure of self-developed website and app which are developed for pizza ordering. The Group can use and maintain the website and app (with minor upgrades) as long as it can meet the customer's pizza ordering needs. The self-developed website and app are recognized at cost and amortized on a straight-line basis over the estimated useful lives of 10 years, representing the management's best estimates after considering the current functionalities equipped by these self-developed website and app and the daily operation needs of the Group.

Research expenditure and development expenditure that do not meet the criteria above are recognized as an expense as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period.

2.9 Impairment of non-financial assets

Goodwill that has an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.10 Financial assets

(a) Classification

The Group classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income ("OCI") or through profit or loss), and

- Those to be measured at amortized cost.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(b) Recognition and derecognition

Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(c) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

(d) Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

- Amortized cost: Assets that are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest, are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in "other (losses)/gains, net" together with foreign exchange gains and losses.

- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses, which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in "other (losses)/gains, net". Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in "other (losses)/gains, net".

- FVPL: Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognized in profit or loss and presented net within "other (losses)/gains, net" in the period in which it arises.

(e) Impairment

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 3.1(b) details how the Group determines whether there has been a significant increase in credit risk.

(f) Derecognition

Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and reward of ownership.

(g) Offset

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where the Group currently has a legally enforceable right to offset the recognized amounts, and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

2.11 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of inventories comprises food ingredients, beverages consumables and other direct costs. It excludes borrowing costs. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

2.12 Trade and other receivables

Trade receivables primarily are amounts due from third-party platforms in connection with the sales of our products in the ordinary course of business. If collection of trade receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Group holds the trade and other receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method. See notes 19 and 20 for further information about the Group's trade receivables and other receivables, and note 3.1(b) for a description of the Group's impairment policies.

2.13 Cash and cash equivalents

For the purpose of presentation in the consolidated cash flow statement, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.14 Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issuance of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.15 Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. Trade and other payables are presented as current liabilities unless payment is not due within 12 months (or in the normal operating cycle of the business if longer) after the reporting period.

2.16 Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are removed from the balance sheets when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

2.17 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings, pending their expenditure on qualifying assets, is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

2.18 Convertible senior ordinary shares

The Group issued convertible senior ordinary shares which give holders a right for redemption into cash after specified time or a right for conversion into ordinary shares of the Company upon [**REDACTED**] automatically or any time at holders' option. The convertible senior ordinary shares will be automatically converted into ordinary shares upon occurrence of certain events outside the control of the Company.

The Group designates convertible senior ordinary shares as financial liabilities at FVPL. They are initially recognized at fair value. Any directly attributable transaction costs are recognized as expense in profit or loss.

Subsequent to initial recognition, the convertible senior ordinary shares are carried at fair value with changes in fair value recognized as "fair value change of financial liabilities at FVPL" in the consolidated statements of comprehensive income. The component of fair value changes relating to the Company's own credit risk is recognized in other comprehensive income. Amounts recorded in other comprehensive income related to credit risk are not subject to recycling to profit or loss, but are transferred to retained earnings when realized.

2.19 Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income, based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred income tax assets and liabilities attributable to temporary differences and to unused tax losses.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Historical Financial Information. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liabilities is settled.

Deferred income tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred income tax liabilities and assets are not recognized for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

(c) Offsetting

Deferred income tax assets and liabilities are offset where there is a legally enforceable right to offset current income tax assets and liabilities and where the deferred income tax balances relate to the same taxation authority. Current income tax assets and liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

2.20 Employee benefits

(a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated balance sheet.

(b) Pension obligations

The Group only operates defined contribution pension plans. In accordance with the rules and regulations in the PRC, the PRC based employees of the Group participate in various defined contribution retirement benefit plans organized by the relevant municipal and provincial governments in the PRC under which the Group and the PRC based employees are required to make monthly contributions to these plans calculated as a percentage of the employees' salaries. The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired PRC based employees' payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post-retirement benefits of its employees. The assets of these plans are held separately from those of the Group in independently administrated funds managed by the governments.

(c) Housing funds, medical insurances and other social insurances

Employees of the Group in the PRC are entitled to participate in various government-supervised housing funds, medical insurances and other social insurance plan. The Group contributes on a monthly basis to these funds based on certain percentages of the salaries of the employees, subject to certain ceiling. The Group's liability in respect of these funds is limited to the contributions payable in each year. Contributions to the housing funds, medical insurances and other social insurances are expensed as incurred.

2.21 Share-based compensations

The Group operates share incentive plan, under which it receives services from directors, employees and a shareholder as consideration for equity instruments (including directors' compensation, stock appreciation rights and RSUs) of the Group. The fair value of the services received in exchange for the grant of the equity instruments (directors' compensation, stock appreciation rights and RSUs) is recognized as an expense in the consolidated statements of comprehensive income.

(a) Stock appreciation rights ("SAR")

On January 1, 2018, the Company adopted the SAR to encourage key employees and directors to contribute to the success of the Group and to operate and manage the Group's business in a manner that will provide for the Group's long-term growth and profitability.

Liabilities for the Group's share appreciation rights are recognized as employee benefit expense over the relevant service period. At the end of each reporting period, the Group remeasures the exit equity value based on the fair market value of the Group. The expenses are recognized as "staff compensation expense" in profit or loss, with a corresponding increase in "accruals and other payables" as included in liability.

(b) RSUs

For grant of RSUs, the total amount to be expensed is determined by reference to the fair value of the RSUs granted.

- including any market performance conditions;
- excluding the impact of any service and non-market performance vesting condition; and
- including the impact of any non-vesting conditions.

The total expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the Group revises its estimates of the number of shares that are expected to vest based on the non-market vesting and service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

(c) Cancellations of stock appreciation rights

Where the Group cancels the stock appreciation rights it should derecognize the liability. Any difference between the carrying amount of the liability and the consideration paid to cancel the share-based compensation (if any) should be recognized in profit or loss. By the end of June 30, 2022, the Group has cancelled the stock appreciation rights for all existing employees.

In addition, the Group receives guarantee services in exchange for ordinary shares. The fair value of the guarantee services received by the Group is measurable directly and recognised as an expense in the consolidated statements of comprehensive income. The prepaid guarantee fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

2.22 Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amounts can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

2.23 Revenue recognition

The Group recognizes revenue when control of goods have been transferred and services have been rendered.

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of returns, value-added tax and discounts, and after eliminating sales within the Group.

The Group generates revenue from sales of food and beverages through self-developed website and app, third-party platforms and retail stores. Sales of food and beverages are recognized at point in time upon when food and beverages are accepted by customers.

The Group establishes a customer loyalty incentive program which customers can earn award credits from each order. The award credits can be redeemed to deduct payment in next order. The Group also provides coupons to customer for compensation of late delivery, which can be redeemed for free food in the next order. Award credits and coupons for customers are accounted for as separate performance obligations and the fair value of the consideration received or receivable is allocated among the food and beverage sold, award credits and coupons based on their stand-alone selling price ("SSP"). The SSP of the food and beverage is directly observable and determined by the price that they are sold separately. The SSP of award credits and coupons is measured by reference to the amount for which the award credits and coupons could be sold separately considering the breakage based on the Group's best estimation. Such consideration is not recognized as revenue at the time of the initial sale transaction, but is deferred in "contract liabilities" and recognized as revenue when the award credits and coupons are redeemed and the Group's obligations have been fulfilled.

Any consideration payable to customers with no distinct goods or services received from those customers is recognized as a reduction of the revenue.

2.24 Interest income

Interest income on financial assets at amortized cost calculated using the effective interest method is recognized in the consolidated statements of comprehensive income as part of "finance costs, net".

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Interest income is presented as finance income where it is earned from financial assets that are held for cash management purpose.

2.25 Government grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to plant and equipment are included in non-current liabilities as deferred government grants and are credited to profit or loss on a straight-line basis over the expected lives of the related assets.

2.26 Leases

The Group leases various offices, central kitchens and retail stores. Rental contracts of offices, central kitchens and retail stores are typically made for fixed periods of 3 to 6 years, 5 to 10 years and 5 to 6 years respectively but may have extension options as described below.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of properties for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments (if applicable):

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;

- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date;

- amounts expected to be payable by the Group under residual value guarantees;

- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and

- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;

- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and

- makes adjustments specific to the lease, e.g. term, country, currency and security.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following (if applicable):

- the amount of the initial measurement of lease liabilities;

- any lease payments made at or before the commencement date less any lease incentives received;

- any initial direct costs, and

- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipments and vehicles and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipments and small items of office furniture.

Extension and termination options are included in a number of property leases across the Group. These terms are used to maximize operational flexibility in terms of managing contracts. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option. Extension options are only included in the lease term if the lease is reasonably certain to be extended.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case, the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exceptions are any rent concessions which arose as a direct consequence of the COVID-19 pandemic and which satisfied the conditions set out in IFRS 16 Leases. In such cases, the Group took advantage of the practical expedient set out in IFRS 16 and recognized the change in consideration as if it were not a lease modification.

2.27 Dividend distribution

Dividend distribution to the Company's shareholders is recognized as a liability in the Historical Financial Information in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

2.28 Losses per share

(a) Basic losses per share

Basic losses per share is calculated by dividing:

- by the loss attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares;
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(b) Diluted losses per share

Diluted losses per share adjusts the figures used in the determination of basic losses per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

3 FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance. Risk management is carried out by the Broad of Directors.

(a) Market risk

(i) Foreign exchange risk

The Group's businesses are principally conducted in RMB, which is exposed to foreign currency risk with respect to transactions denominated in currencies other than RMB. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the functional currency of the relevant group entity. During the Track Record Period, the Group has not entered into any derivative instruments to hedge its foreign exchange exposures.

The following table shows the denominated monetary assets held by the Group which are denominated in a currency other than the functional currency of the respective group activities:

	Functional currency	Currency denomination	As of December 31, 2019	2020	2021	As of June 30, 2021	2022
			RMB'000	*RMB'000*	*RMB'000*	*RMB'000* *(Unaudited)*	*RMB'000*
Cash and cash equivalents	US$	RMB	3,661	3,493	2,096	3,495	2,095
Cash and cash equivalents	RMB	US$	181	24,994	44,625	304	590
			3,842	28,487	46,721	3,799	2,685

As at December 31, 2019, if US$ had strengthened/weakened by 5% against the RMB, with all other variables held constant, loss before income tax for the year would have been RMB174,000 higher/lower respectively, mainly as a result of the net foreign exchange losses/gains on translation of RMB-denominated cash and cash equivalents.

As at December 31, 2020 and 2021, if US$ had strengthened/weakened by 5% against the RMB, with all other variables held constant, loss before income tax for the year would have been RMB1,075,000 and RMB2,126,000 lower/higher respectively, mainly as a result of the net foreign exchange gains/loss on translation of US$-denominated cash and cash equivalents.

As at June 30, 2021 and 2022, if US$ had strengthened/weakened by 5% against the RMB, with all other variables held constant, loss before income tax for the year would have been RMB160,000 and RMB75,000 higher/lower respectively, mainly as a result of the net foreign exchange losses/gains on translation of RMB-denominated cash and cash equivalents.

(ii) Interest rate risk

The Group's interest rate risk mainly arises from borrowings, cash and cash equivalents and financial liabilities measured at FVPL. As at June 30, 2022, all of the Group's borrowings are obtained at variable rates and expose the Group to cash flow interest-rate risk. As at December 31, 2019, 2020 and 2021, all of the Group's borrowings were obtained at fixed rates and exposed the Group to fair value interest rate risk. The Group does not hedge its cash flow and fair value interest rate risk. Financial liabilities measured at FVPL expose the Group to fair value interest rate risk before conversion into ordinary shares. Please refer to Notes 24 and 25 for the details of these financial liabilities.

As at December 31, 2019, 2020, 2021 and June 30, 2022, if the Group's interest rates on borrowings obtained at variable rates had been higher/lower by 0.5%, loss before income tax for the year then ended would have been approximately nil, nil, nil, nil and RMB6,000 higher/lower respectively.

(b) Credit risk

The credit risk of the Group mainly arises from cash and cash equivalents, restricted cash, rental and other deposits. The carrying amounts of each financial asset represent the Group's maximum exposure to credit risk in relation to financial assets.

(i) Risk management

The Group has policies in place to ensure that credit terms are made to customers with an appropriate credit history and the Group performs periodic credit evaluations of its customers.

The Group's cash and cash equivalents and restricted cash were deposited with high quality financial and other institutions with sound credit ratings. Therefore, the Group does not expect material losses arising from non-performance by these counterparties.

For rental deposits, the Group signed lease contracts with big department stores and real estate management companies. The Group assessed that most of the underlying lease contracts grant the Group, as a leasee, the contractual right to continue occupying the corresponding premises if the landlord does not refund these rental and other deposits at the end of the lease terms. Hence, the Group does not expect material losses arising from non-performance by these counter parties.

(ii) Impairment of financial assets

Cash and cash equivalents and restricted cash

While cash and cash equivalents and restricted cash are also subject to the impairment requirements of IFRS 9, management considered the expected credit loss rates to be immaterial and the identified impairment loss was immaterial as substantially all of the Group's bank deposits were deposited with major financial and other institutions which management believes are of high-credit-quality without significant credit risk.

Trade receivables

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on the payment profiles of sales over a period of 36 months before December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022 respectively and the corresponding historical credit losses experienced within these periods. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the GDP and the unemployment rate of China in which it sells its goods and services to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. Trade receivables are presented net of allowance for doubtful accounts. The Group maintains an allowance for doubtful accounts which reflects its best estimate of amounts that potentially will not be collected. The Group determines the allowance for doubtful accounts by taking into consideration various factors including but not limited to historical collection experience and creditworthiness of customers. Trade receivable balances are written off after all collection efforts have been exhausted.

On that basis, the loss allowance at December 31, 2019, 2020, 2021 and June 30, 2022 was determined as follows.

Aging as at December 31, 2019	**Within 30 days**	**Total**
Expected loss rate	2.07%	2.07%
Gross carrying amount	2,367	2,367
Loss allowance	(49)	(49)

Aging as at December 31, 2020	**Within 30 days**	**Total**
Expected loss rate	2.18%	2.18%
Gross carrying amount	3,711	3,711
Loss allowance	(81)	(81)

Aging as at December 31, 2021	**Within 30 days**	**Total**
Expected loss rate	1.76%	1.76%
Gross carrying amount	4,663	4,663
Loss allowance	(82)	(82)

Aging as at June 30, 2022	**Within 30 days**	**Total**
Expected loss rate	2.39%	2.39%
Gross carrying amount	4,604	4,604
Loss allowance	(110)	(110)

Movements in the loss allowances for trade receivables are as follows:

	Year ended December 31,			**Six months ended June 30,**	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*	*RMB'000*
				(Unaudited)	
Opening loss allowance at January 1	(16)	(49)	(81)	(81)	(82)
Increase in the allowance recognized in profit or loss during the year/period	(33)	(32)	(1)	(4)	(28)
Closing loss allowance as at December 31/ June 30	(49)	(81)	(82)	(85)	(110)

When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables.

Impairment losses on trade receivables are presented within other (losses)/gains, net. Subsequent recoveries of amounts previously written off are credited against the same line item.

Other financial assets at amortized cost

The Group's other financial assets carried at amortized cost include rental deposits in the consolidated balance sheets. The impairment loss of rental deposits is measured based on the twelve months expected credit loss. The twelve months expected credit loss is the portion of lifetime expected credit loss that results from default events on a financial instrument that are possible within twelve months after the reporting date. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime expected credit loss.

To assess whether there is a significant increase in credit risk, the Group compares risk of a default occurring on the assets as at the reporting date with the risk of default as at the date of initial recognition. Especially the following indicators are incorporated:

- actual or expected significant adverse changes in business, financial economic conditions that are expected to cause a significant change to the counter-parties' ability to meet its obligation;
- actual or expected significant changes in the operating results of the counter-parties;
- significant changes in the expected performance and behaviour of the counter-parties, including changes in the payment status of the counter parties.

The loss allowance as at December 31, 2019, 2020, 2021 and June 30, 2022 was determined as follows for other financial assets:

Aging as at December 31, 2019	**Current**	**Non-current**	**Total**
Expected loss rate	1.01%	0.73%	0.77%
Gross carrying amount – Rental deposits	1,806	22,880	24,686
Gross carrying amount – Others	1,576	–	1,576
Loss allowance	(34)	(167)	(201)

Aging as at December 31, 2020	**Current**	**Non-current**	**Total**
Expected loss rate	0.84%	1.33%	1.23%
Gross carrying amount – Rental deposits	4,563	29,490	34,053
Gross carrying amount – Others	2,718	–	2,718
Loss allowance	(61)	(391)	(452)

Aging as at December 31, 2021	**Current**	**Non-current**	**Total**
Expected loss rate	0.84%	1.26%	1.15%
Gross carrying amount – Rental deposits	9,061	31,773	40,834
Gross carrying amount – Others	2,544	–	2,544
Loss allowance	(97)	(401)	(498)

Aging as at June 30, 2022	**Current**	**Non-current**	**Total**
Expected loss rate	1.18%	1.13%	1.14%
Gross carrying amount – Rental deposits	8,327	36,452	44,779
Gross carrying amount – Others	3,349	–	3,349
Loss allowance	(138)	(411)	(549)

Movements in the loss allowance for other financial assets at amortized cost are as follows:

	Rental deposits	Others	Total
Opening loss allowance as at January 1, 2019	–	–	–
Increase in the allowance recognized in profit or loss during the year	(177)	(24)	(201)
Closing loss allowance as at December 31, 2019	(177)	(24)	(201)
Increase in the allowance recognized in profit or loss during the year	(241)	(10)	(251)
Closing loss allowance as at December 31, 2020	(418)	(34)	(452)
Decrease/(increase) in the allowance recognized in profit or loss during the year	17	(63)	(46)
Closing loss allowance as at December 31, 2021	(401)	(97)	(498)
(Unaudited)			
Opening loss allowance as at 1 January 2021	(418)	(34)	(452)
Decrease/(increase) in the allowance recognized in profit or loss during the period	83	(64)	19
Closing loss allowance as at 30 June 2021	(335)	(98)	(433)
Opening loss allowance as at 1 January 2022	(401)	(97)	(498)
Increase in the allowance recognised in profit or loss during the period	(10)	(41)	(51)
Closing loss allowance as at 30 June 2022	(411)	(138)	(549)

(c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and availability of funding. Due to the dynamic nature of the underlying business, the Group aims at maintaining flexibility in funding by maintaining adequate amount of cash and cash equivalents.

The table below analyzes the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet dates to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Less than 1 year	**Between 1 and 2 years**	**Between 2 and 3 years**	**Over 3 years**	**Total**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*	*RMB'000*
As at December 31, 2019					
Borrowings and interest payments	7,854	35,870	38,422	–	82,146
Lease liabilities and interest payments	128,479	118,837	105,490	228,141	580,947
Trade payables *(note 26)*	83,992	–	–	–	83,992
Accrual and other payables (excluding salary and welfare payables and provision for restoration costs)	116,522	83,714	–	–	200,236
	336,847	238,421	143,912	228,141	947,321
As at December 31, 2020					
Borrowings and interest payments	44,190	189,570	–	–	233,760
Lease liabilities and interest payments	199,944	187,968	165,403	369,189	922,504
Trade payables *(note 26)*	73,743	–	–	–	73,743
Accrual and other payables (excluding salary and welfare payables and provision for restoration costs)	249,039	–	–	–	249,039
Financial liabilities at FVPL *(note 25)*	–	–	–	417,696	417,696
	566,916	377,538	165,403	786,885	1,896,742

	Less than 1 year *RMB'000*	Between 1 and 2 years *RMB'000*	Between 2 and 3 years *RMB'000*	Over 3 years *RMB'000*	Total *RMB'000*
As at December 31, 2021					
Borrowings and interest payments	189,570	–	–	–	189,570
Lease liabilities and interest payments	211,510	190,724	164,054	353,989	920,277
Trade payables *(note 26)*	124,696	–	–	–	124,696
Accrual and other payables (excluding salary and welfare payables and provision for restoration costs)	236,276	–	–	–	236,276
Financial liabilities at FVPL *(note 25)*	–	–	857,022	–	857,022
	762,052	190,724	1,021,076	353,989	2,327,841
As at June 30, 2022					
Borrowings and interest payments	4,850	4,850	103,651	–	113,351
Lease liabilities and interest payments	218,469	186,384	155,861	333,058	893,772
Trade payables *(note 26)*	141,843	–	–	–	141,843
Accrual and other payables (excluding salary and welfare payables and provision for restoration costs)	296,241	–	–	–	296,241
Financial liabilities at FVPL *(note 25)*	–	902,146	–	–	902,146
	661,403	1,093,380	259,512	333,058	2,347,353

3.2 Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may return capital to shareholders, issue new shares or draw down of new borrowings.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as total borrowing divided by total equity.

The gearing ratios at December 31, 2019, 2020, 2021 and June 30, 2022 were as follows:

	As at December 31,			As at June 30,
	2019	2020	2021	2022
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*
Total borrowing	65,000	210,000	180,000	100,000
Total equity	1,337,851	1,074,185	957,877	851,251
Gearing ratio	5%	20%	19%	12%

3.3 Fair value measurement

The table below analyzes financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The nominal values less any estimated credit adjustments for financial assets and liabilities with a maturity of less than one year are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

The following table summarizes the level inputs information of financial liabilities at December 31, 2019, 2020, 2021 and June 30, 2022.

	As at December 31,									As at June 30,		
	2019			2020			2021			2022		
	Level 1 inputs	Level 2 inputs	Level 3 inputs	Level 1 inputs	Level 2 inputs	Level 3 inputs	Level 1 inputs	Level 2 inputs	Level 3 inputs	Level 1 inputs	Level 2 inputs	Level 3 inputs
Convertible senior ordinary shares	–	–	–	–	–	275,077	–	–	784,426	–	–	826,886

Please refer to Note 25 for the methodology and key assumptions as adopted by management in determining the fair value of these financial liabilities.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Historical Financial Information requires the use of accounting estimates, which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(a) Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the group of CGUs to which goodwill has been allocated.

For the purposes of impairment testing, goodwill has been allocated to the group of CGUs that is expected to generate future economic benefits.

The recoverable amount of the group of CGUs of the Group are determined based on value-in-use calculations. Detailed information of the basis of recoverable amounts and major underlying assumptions are set out in note 15. Management of the Group believes that any reasonably possible change in any of these assumptions would not cause the recoverable amounts of the group of CGUs to fall below their carrying amounts.

(b) Estimated useful lives and residual values of plant and equipment and intangible assets

The Group's management determines the estimated useful lives and residual values for the Group's plant and equipment and intangible assets. The estimates are based on the historical experience of the actual useful lives of plant and equipment and intangible assets of similar nature and functions. Management will increase the depreciation and amortization charges where useful lives are less than previously estimated lives. It will write off or write-down technically obsolete or non-strategic assets that have been abandoned or sold. Actual economic lives may differ from estimated useful lives. Periodic review could result in a change in depreciable and amortizable lives and therefore affect the depreciation and amortization charges in future periods.

(c) Impairment of plant and equipment, master franchise agreement and right-of-use assets

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, including, among others, the economic impact of the unprecedented COVID-19 pandemic on the operations of the Group and the region in which it operates. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

(d) Current and deferred income taxes

The Group is subject to income taxes in a few jurisdictions. Judgement is required in determining the provision for income taxes. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will affect the current and deferred income tax assets and liabilities in the period in which such determination is made.

Recognition of deferred income tax assets depends on the management's expectation of future taxable profit that will be available against which the deferred income tax assets can be utilized. The outcome of their actual utilization may be different.

(e) Determination of fair value of the convertible senior ordinary shares

The convertible senior ordinary shares are not traded in an active market and their fair value is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting periods. For details of the key assumptions used and the impact of changes to these assumptions, refer to Note 25.

(f) Recognition of share-based compensation expense

Significant estimates of stock appreciation rights on key assumptions are required to be made by management in determining the exit equity value of the Company, the probability weight of redemption scenario occurrence and [**REDACTED**] scenario occurrence. Significant estimates of restricted share units on key assumptions are also required to be made by management in determining the fair value of the issued shares at grant date and each balance sheet dates, including revenue growth rate, pre-tax discount rate and terminal growth rate.

5 REVENUE AND SEGMENT INFORMATION

The Group is Domino's Pizza's exclusive master franchisee in Mainland China, the Hong Kong Special Administrative Region of China and the Macau Special Administrative Region of China.

The CODM has been identified as the directors of the Company. The directors review the Group's internal reporting in order to assess performance and allocate resources. The directors have determined the operating segment based on these internal reports.

The directors consider the Group's operation from a business perspective and determine that the Group is managed as one single reportable operating segment.

During the Track Record Period, all the Group's revenue are generated from Mainland China.

	Year ended December 31,			Six months ended June 30,	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*	*RMB'000*
				(Unaudited)	
Revenue from sales of goods and services recognized					
– at a point in time	836,629	1,104,053	1,611,327	766,559	908,789

(a) Contract liabilities

The Group has recognized the following revenue-related contract liabilities:

	As at December 31,			As at June 30,
	2019	**2020**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*
Contract liabilities	11,767	17,269	23,210	27,063

The increase during the years ended December 31, 2020, 2021 and the six months ended June 30, 2022 was due to increase of sale-based estimated award credits arising from the customer loyalty scheme and coupons for compensation of late delivery, both of which can be used in future purchases and consumptions in the stores.

(i) Revenue recognized in relation to contract liabilities

	Year ended December 31,			Six months ended June 30,	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*	*RMB'000*
				(Unaudited)	
Revenue recognized that was included in the balance of contract liabilities at the beginning of the year/period	6,047	11,730	17,202	8,551	11,502

Each order with customers is considered as a contract. All contracts entered by the Group are for periods one year or less. The Group has applied the practical expedient as permitted by IFRS 15 and the transaction price allocated to the remaining performance obligations is not disclosed.

(b) Non-current assets by geographical location

As of December 31, 2019, 2020, 2021 and June 30, 2022, most of the Group's non-current assets (other than intangible assets) were located in Mainland China.

6 OTHER EXPENSES

An analysis of other expenses is as follow:

	Year ended December 31,			Six months ended June 30,	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*	*RMB'000*
				(Unaudited)	
Professional service expenses	9,761	9,465	7,797	3,702	4,506

Other benefits	6,077	8,193	6,783	3,959	3,601
Total salary-based expenses *(b)*	326,941	436,022	612,637	291,905	340,246
Share-based compensation *(Note 29)*	8,932	33,202	90,821	50,684	(3,338)
Total staff compensation expense	335,873	469,224	703,458	342,589	336,908

(a) Contributions to pension plan

No forfeited contributions were available and utilised by the Group to reduce its future pension contributions for the years ended 31 December 2019, 2020, 2021 and the six months ended 30 June 2021 and 2022.

Mainland China

As stipulated under the relevant rules and regulations in Mainland China, the subsidiaries operating in Mainland China contribute to state-sponsored retirement plans for its employees. For the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022, depending on the provinces of the employees' registered residences and their current region of work, the subsidiaries contributed certain percentages of the basic salaries of its employees and had no further obligations for the actual payment of pensions or post retirement benefits beyond the contributions. The state-sponsored retirement plans are responsible for the entire pension obligations payable to the retired employees.

According to policies issued by the Ministry of Human Resources and Social Security of the PRC and local municipal departments in response to the Coronavirus Disease 2019 (COVID-19), certain social security relief policies have been implemented by local authorities which reduced the pension plan expenses for the period from February to December 2020.

Hong Kong

The Group has arranged for its Hong Kong employees to join the Mandatory Provident Fund Scheme (the "MPF Scheme"), a defined contribution scheme managed by an independent trustee. Under the MPF Scheme, the Group and its employees make monthly contributions to the scheme.

The Group has no further payment obligations once the contribution has been paid. The contributions are recognised as employee benefit expense when they are due.

(b) Total salary-based expenses

	Year ended December 31,			**Six months ended June 30,**	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*	*RMB'000*
				(Unaudited)	
Salary-based expenses					
– Store level	247,597	316,009	462,596	217,943	262,316
– Corporate level	79,344	120,013	150,041	73,962	77,930
	326,941	436,022	612,637	291,905	340,246

(c) Five highest paid individuals

Details of the remunerations of the five highest paid individuals in the Group during the Track Record Period are as follows:

	Year ended December 31,			**Six months ended June 30,**	
	2019	**2020**	**2021**	**2021**	**2022**
				(Unaudited)	
Director	1	–	1	1	1
Non-director	4	5	4	4	4
	5	5	5	5	5

The five individuals whose emoluments were the highest in the Group include 1, nil, 1 ,1 and 1 director for the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022 respectively, whose emoluments are reflected in Note 34. The emoluments payable to the remaining 4, 5, 4, 4 and 4 non-director highest paid individuals for the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022 are as follows:

	Year ended December 31,			**Six months ended June 30,**	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*	*RMB'000*
				(Unaudited)	
Salaries, wages and bonuses	14,829	14,020	16,225	4,287	5,565
Contributions to pension plan	196	166	167	91	89

Net foreign exchange (losses)/gains on financing activities	(5,431)	23,869	9,042	3,927	(1,396)
	(51,018)	(61,940)	(87,671)	(40,941)	(48,218)

(i) As of June 30, 2022, the Company has repaid the bank borrowings which were secured by the corporate guarantee from one of the shareholders, Good Taste Limited and one of the directors of the Company, and the guarantee was released correspondingly. For the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022, the related guarantee fee charged to finance costs was RMB4,408,000, RMB16,876,000, RMB16,126,000, RMB8,116,000 and RMB12,269,000, respectively.

10 INCOME TAX EXPENSE/(CREDIT)

	Year ended December 31,			Six months ended June 30,	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000* *(Unaudited)*	*RMB'000*
Current income tax					
– Mainland China corporate income tax	–	6,373	21,547	17,872	19,490
Deferred income tax *(Note 28)*	–	–	(28,606)	(26,764)	(9,752)
Income tax expense/(credit)	–	6,373	(7,059)	(8,892)	9,738

(i) B.V.I. profits tax

The Company is incorporated in the British Virgin Islands as an exempted company with limited liability under the Companies Law of the British Virgin Islands and, accordingly, is exempted from payment of British Virgin Islands income tax.

(ii) Hong Kong profits tax

The Hong Kong profits tax rate applicable to the Group is 16.5%. No Hong Kong profits tax has been provided, as the Group have no assessable profit earned or derived in Hong Kong in the Track Record Period.

(iii) Cayman Islands profits tax

The Company's subsidiary is incorporated in the Cayman Islands as an exempted company with limited liability and, accordingly, is exempted from payment of the Cayman Islands income tax.

(iv) Mainland China corporate income tax ("CIT")

CIT is provided on the taxable income of entities within the Group incorporated in Mainland China. Except as disclosed below, the corporate income tax rate applicable to the subsidiaries incorporated in Mainland China is 25% for the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022. Domino's Pizza (Ningbo) Co., Ltd. and Domino's Pizza (Dongguan) Co., Ltd. are qualified as small and micro businesses and enjoy preferential income tax rate as approved by the local tax authorities with effect from the respective dates of their establishment. The tax rates are 2.5% on taxable income for the first RMB1,000,000, 10% of tax rate on taxable income for the subsequent RMB1,000,000 to RMB3,000,000 and 25% of tax rate on taxable income over RMB3,000,000, respectively, for the year ended December 31, 2021 and the six months ended June 30, 2022.

A reconciliation from loss before income tax to tax charges is set out below:

	Year ended December 31			**Six months ended June 30,**	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000* *(Unaudited)*	*RMB'000*
Loss before income tax	(181,550)	(267,677)	(478,122)	(214,115)	(85,737)
Tax calculated at tax rates applicable to profit/(loss) in the respective jurisdictions	(32,603)	(44,816)	(45,869)	(23,972)	(7,368)
Expenses not deductible for tax purpose[(i)]	6,645	13,107	25,241	13,547	871
Temporary differences and tax losses for which no deferred income tax assets were recognized	29,980	38,671	33,643	26,040	20,374
Recognition of previously unrecognized tax losses and temporary differences	–	–	(17,945)	(17,945)	–
Utilization of previous unrecognized tax losses	(4,022)	(589)	(2,129)	(6,562)	(3,779)
Differences of year-end final settlement	–	–	–	–	(360)
Tax expense/(credit)	–	6,373	(7,059)	(8,892)	9,738

(i) Expenses not deductible for tax purpose mainly included share-based compensation and expenses not eligible for tax deduction.

11 LOSS PER SHARE

(a) Basic

Basic loss per share is calculated by dividing the loss attributable to owners of the Company by the weighted average number of ordinary shares in issue during the respective years/periods.

	Year ended December 31			Six months ended June 30,	
	2019	**2020**	**2021**	**2021**	**2022**
				(Unaudited)	
Loss attributable to owners of the Company (RMB'000)	(181,550)	(274,050)	(471,063)	(205,223)	(95,475)
Weighted average number of ordinary shares in issue (thousands)	84,703	85,475	86,921	86,181	95,031
Basic loss per share (RMB)	(2.14)	(3.21)	(5.42)	(2.38)	(1.00)

(b) Diluted

Diluted loss per share is calculated by dividing the loss excluding the effect of changes in the fair value of convertible senior ordinary shares attributable to owners of the Company by the weighted average number of ordinary shares and convertible senior ordinary shares in issue during the respective years/periods. The dilutive potential ordinary shares were not included in the calculation of diluted loss per share as their inclusion would be anti-dilutive. Accordingly, diluted loss per share for the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022 were the same as basic loss per share for the respective years/periods.

12 DIVIDENDS

No dividends have been paid or declared by the Company for the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022.

13 PLANT AND EQUIPMENT

Year ended December 31, 2020			
Opening net book amount	451,463	16,982	468,445
Additions	260,910	–	260,910
Depreciation	(123,951)	(4,475)	(128,426)
Impairment *(i)*	(5,154)	–	(5,154)
Net book amount at December 31, 2020	583,268	12,507	595,775
Year ended December 31, 2021			
Opening net book amount	583,268	12,507	595,775
Additions	201,535	4,720	206,255
Depreciation	(157,384)	(4,665)	(162,049)
Impairment *(i)*	(2,362)	–	(2,362)
Net book amount at December 31, 2021	625,057	12,562	637,619
Six months ended June 30, 2021 (Unaudited)			
Opening net book amount	583,268	12,507	595,775
Additions	112,120	–	112,120
Depreciation	(74,719)	(1,855)	(76,574)
Net book amount at June 30, 2021	620,669	10,652	631,321
Six months ended June 30, 2022			
Opening net book amount	625,057	12,562	637,619
Additions	125,810	–	125,810
Depreciation	(88,791)	(2,193)	(90,984)
Net book amount at June 30, 2022	662,076	10,369	672,445

(i) For the years ended December 31, 2019, 2020 and 2021, the Group recognized impairment losses for right-of-use assets of approximately RMB1,925,000, RMB5,154,000 and RMB2,362,000 (Note 8), respectively, at the end of each reporting years, due to the relocation plans of certain stores.

(b) Amounts recognized in the consolidated statements of comprehensive income

The consolidated statements of comprehensive income shows the following amounts relating to leases:

	Year ended December 31,			Six months ended June 30,	
	2019	**2020**	**2021**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000* *(Unaudited)*	*RMB'000*
Depreciation of right-of-use assets					
Leased properties – stores and central kitchens	94,149	123,951	157,384	74,719	88,791
Leased properties – offices	4,463	4,475	4,665	1,855	2,193
	98,612	128,426	162,049	76,574	90,984
Finance costs – net *(note 9)*	29,713	37,360	48,659	23,672	26,326
Expense relating to short-term leases	5,712	610	662	203	1,191
Expense relating to leases of low-value assets that are not shown above as short-term leases	110	197	226	87	144
Expense relating to variable lease payments not included in lease liabilities	1,053	7,339	17,087	8,408	12,896
	36,588	45,506	66,634	32,370	40,557

Some property leases contain variable payment terms that are linked to sales generated from some stores. For some individual stores, up to 100% of lease payments are on the basis of variable payment terms with percentages ranging from 7% to 14% of sales as generated from those stores. Variable payment terms are used for a variety of reasons, including minimizing the fixed costs base for newly established stores. Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

A 10% increase in sales across all stores in the Group with such variable lease contracts would increase total lease payments by approximately RMB105,000, RMB734,000, RMB1,709,000, RMB841,000 and RMB1,290,000 for the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022, respectively.

The total cash out of lease payment is RMB125,305,000, RMB157,949,000, RMB213,678,000, RMB98,458,000 and RMB111,103,000 for the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022, respectively.

On the date of the completion of the Acquisition (Note 1), an intangible assets of master franchise agreement as identified from the Acquisition was recognized at fair value of approximately RMB959,507,000. Goodwill of approximately RMB360,479,000, which represented the excess of total consideration over the fair value of the identified net assets acquired, was also recognized.

Before July 2017, DPZ China was jointly controlled by the Company and a third party. In July 2017, the Company issued additional shares to the third party to acquire the remaining equity interests in DPZ China. This Acquisition is accounted for using the acquisition method, where the identifiable assets and liabilities of DPZ China, including the Master Franchise Agreement, were measured at their fair values at the acquisition date.

(a) Goodwill impairment

The recoverable amount of the group of CGUs, which is allocated to the whole group, are determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a 10-year period. The Group is in the industry which is currently in the stage of rapid development. Considering the Group's store expansion plan, the Group plans to continue to grow its presence in China by expanding its geographic coverage and deepening its market penetration. As a result, the Group will be in a period of rapid development for the next few years and is expected to develop to a stable stage in the next decade. The recoverable amount of the group of CGUs is determined based on the valuation results which were also been cross checked to the valuation report as issued by an independent qualified appraisal firm, Avista Valuation Advisory Limited.

For the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2022, the key assumptions are:

	Year ended December 31,			Six months ended June 30,
	2019	**2020**	**2021**	**2022**
	%	%	%	%
Revenue growth rate	11.4 – 39.3	11.4 – 37.8	9.2 – 27.6	9.2-26.9
Pre-tax discount rate	19.9	19.1	18.3	18.3
Terminal growth rate	3.0	2.5	2.5	2.5

As at December 31, 2019, 2020, 2021 and June 30, 2022, the headroom of the Group of CGUs containing goodwill are RMB1,095,331,000, RMB1,603,933,000, RMB3,385,929,000 and RMB3,731,146,000, respectively.

Based on the results of the impairment assessment, the directors of the Company concluded that no impairment on goodwill has to be recognized as of the respective balance sheet dates.

Sensitivity analysis

Had the estimated key assumptions during the forecast period been changed as shown below, the headroom would have been decreased to the following amounts:

	As at December 31,			As at June 30,
	2019	**2020**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*
Revenue amount decreases by 10%	529,908	945,344	2,015,856	2,338,269
Discount rate increases by 1 percentage point	738,763	1,182,263	2,794,033	3,142,854
Terminal growth rate decreases by 0.5 percentage point	1,010,376	1,523,340	3,233,686	3,572,554

Therefore, the directors of the Company also concluded that any reasonable possible changes in key assumptions would not lead to impairment of the goodwill as of the respective balance sheet dates.

16 PARTICULARS OF SUBSIDIARIES

The following is a list of the principal subsidiaries of the Group as at December 31, 2019, 2020, 2021 and June 30, 2022:

Name	Place and date of incorporation/ establishment	Principal activities	Issued and paid up capital/ registered capital	Effective interest held by the Group: As of December 31, 2019	2020	2021	As at June 30, 2022	As of date of this report	Note

Details for the year ended December 31, 2019

(i) Pursuant to the board resolutions dated on July 17, 2019, the Board approved that the compensation to certain directors of RMB3,869,000 for their service rendered would be paid in the form of 168,843 ordinary shares of the Company in the year, which was determined based on the then fair value of the ordinary shares.

(ii) Pursuant to the board resolution dated on March 11, 2019, the Board approved the compensation of RMB5,378,000 payable to a shareholder for its financial advice and assistance rendered to the Group and such services fee shall be paid in the form of 207,470 ordinary shares of the Company in 2019, which is determined based on the then fair value of the ordinary shares.

On October 9, 2019, the Group signed a facility agreement with bank with guarantee provided by one of the shareholders, Good Taste Limited and one of the directors of the Company. The total fee payable to Good Taste Limited for the provision of guarantee was US$7,522,000 (the "Guarantee Fee"), which was paid in the form of 2,205,882 ordinary shares of the Company at a nominal cash consideration of US$22,000. In 2019, the Company issued 970,588 ordinary shares and received cash of RMB68,000, as settlement of the aforesaid guarantee fee. The prepaid guarantee fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates. For the year ended December 31, 2019, the related guarantee fee charged to finance costs was RMB4,408,000 (Note 9).

(iii) In 2018, the Company provided a loan to certain employees to finance their payment on exercise price of vested options. In 2019, the Company repurchased the shares from these employees by the way of offsetting the employee loan with US$3.16 per share, which is determined based on the fair value of the ordinary shares at repurchase date.

Details for the year ended December 31, 2020

(i) Pursuant to the board resolutions dated on September 25, 2020, the Board approved that the compensation to the certain directors of RMB9,257,000 for their service rendered would be paid in the form of 283,548 ordinary shares of the Company in the year, which was determined based on the then fair value of the ordinary shares.

(ii) In 2020, the Company issued 617,647 ordinary shares and received cash of RMB42,000, as settlement of the aforesaid Guarantee Fee. The prepaid guarantee fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates. For the year ended December 31, 2020, the related guarantee fee charged to finance costs was RMB16,876,000 (Note 9).

Details for the year ended December 31, 2021

(i) Pursuant to the board resolutions dated on July 20, 2021, the Board approved that the compensation to the certain directors of RMB7,848,000 for their service rendered would be paid in the form of 261,903 ordinary shares of the Company in the year, which was determined based on the then fair value of the ordinary shares.

(ii) In 2021, the Company issued 617,647 ordinary shares and received cash of RMB39,000, as settlement of the aforesaid Guarantee Fee. The prepaid guarantee fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates. For the year ended December 31, 2021, the related guarantee fee charged to finance costs was RMB16,126,000 (Note 9).

(iii) On December 10, 2021, the Company issued 5,887,403 ordinary shares to certain investors at the placing price of approximately RMB260,653,000. Share issuance costs that are directly attributable to the issuance of the new shares amounted to approximately RMB4,306,000 which were accounted for deduction against the share premium arising from the issuance of the Company's shares.

(iv) In 2021, the Group issued 4,023,785 shares of the Company's shares to various employees under RSUs (Note 29) with nil consideration. The respective share capital amount was approximately RMB25,669,000. The ordinary shares held for the Group's RSUs were regarded as treasury shares and presented as a deduction in equity as "Shares held for RSUs".

	65,000	210,000	180,000	100,000

(i) On October 9, 2019, the Company signed a facility agreement with bank, subject to the terms of this agreement, the corresponding bank agrees to make available to the Company a RMB term loan facility in an aggregate amount of RMB210,000,000, which were secured by the corporate guarantee from Good Taste Limited (one of the shareholders of the Company), personal guarantee from James Marshall (one of the directors of the Company), and the pledges of 100% equity interest of Pizzavest China Ltd. and DPZ China, US$16,250,000 of equity of Dash Beijing and US$50,000,000 of equity of Dash Shanghai. The interest is paid every three months based on the draw down date.

As of December 31, 2019, the Group has drawn down RMB65,000,000 from the corresponding bank's available facilities and the remaining facilities of RMB145,000,000 were drawn down in 2020. Pursuant to the repayment schedule, the principal of RMB10,000,000 shall be repayable on April 26, 2021, RMB20,000,000 shall be repayable on October 22, 2021, RMB20,000,000 shall be repayable on April 25, 2022 and eventually RMB160,000,000 shall be repayable on October 21, 2022, respectively. As of June 30, 2022, the Group has repaid the aggregate amount of RMB210,000,000 prior to the repayment schedule.

On March 28, 2022, Dash Shanghai signed a new facility agreement with another bank, subject to the terms of this agreement, the corresponding bank agrees to make available to the Company a RMB term loan facility in an aggregate amount of RMB200,000,000, which is guaranteed by Dash Beijing. As of June 30, 2022, Dash Shanghai has drawn down RMB100,000,000 from the corresponding bank's available facilities. Pursuant to the repayment schedule, the principal of RMB100,000,000 shall be repayable on March 27, 2025. The interest is paid every three months based on the draw down date.

(ii) The Group's borrowings are denominated in RMB. As at December 31, 2019, 2020 and 2021, the bank borrowings bear interests at fixed interest rates and the effective interest rates were 6.9825%, 6.9825% and 6.9825% per annum, respectively. As at June 30, 2022, the bank borrowings bear interests at a floating interest rate and the effective interest rate is 4.8500% per annum.

(iii) As at December 31, 2019, 2020, 2021 and June 30, 2022, the fair value of the long-term borrowing is RMB64,850,000, RMB179,806,000, nil and RMB100,258,000, respectively.

25 FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

The Group and the Company

	2019	**2020**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*
Convertible senior ordinary shares *(i)*	–	275,077	784,426	826,886

(i) On May 4, 2020, the Company issued 8,651,546 fully paid convertible senior ordinary shares ("SOS First Closing"), and on January 29, 2021, the Company issued 8,142,631 fully paid convertible senior ordinary shares ("SOS Second Closing") to Domino's Pizza LLC ("DPI") (Note 33(a)(i)). The shares are redeemable at 100% of its purchase price at US$4.6234 per share and US$4.9124 per share respectively with the accrued interests no less than an amount equal to the simple interest accruing annually at the rate of 15% on the earliest of May 4, 2024, which is the fourth anniversary of the issue date of SOS First Closing, if the Company fails to finish an [**REDACTED**] or the occurrence of a material breach of any covenants under a shareholders agreement with DPI.

On December 10, 2021, the Company issued 1,306,842 fully paid convertible senior ordinary shares (the "2021 SOS") to DPI, which are redeemable at 100% of its purchase price at US$6.9500 per share with the accrued interests no less than an amount equal to the simple interest accruing annually at the rate of 8% on the earliest of May 4, 2024, which is the fourth anniversary of the issue date of SOS First Closing, if the Company fails to finish an [**REDACTED**] or the occurrence of a material breach of any covenants under a shareholders agreement with DPI.

The convertible senior ordinary shares were classified as financial liabilities at fair value through profit or loss ("FVPL") and initially recognized at fair value and subsequently measured at fair value as well.

The movement of the convertible senior ordinary shares are set out as below:

	SOS First Closing	SOS Second Closing	2021 SOS	Total

The fair value of convertible senior ordinary shares was principally developed through the application of discounted cash flow and equity allocation. Between the date of issuance and December 31, 2020, 2021 and June 30, 2022, the equity value of the Company increased due to the expansion in the Group's business volume.

As at December 31, 2020, 2021 and as at June 30, 2022, the key assumptions are:

	As at December 31, 2020 %	2021 %	As at June 30, 2022 %
Revenue growth rate	11.4-37.8	9.2-27.6	9.2-26.9
Pre-tax discount rate	19.1	18.3	18.3
Terminal growth rate	2.5	2.5	2.5
Volatility	41.8	40.0	40.0

The valuation of the convertible senior ordinary shares as of the respective balance sheet dates, was undertaken by Avista Valuation Advisory Limited, an independent qualified professional valuer.

Sensitivity analysis

Below is a sensitivity analysis based on the assumption that (i) estimated revenue, (ii) discount rate, (iii) the terminal growth rate or (iv) volatility has been changed. Had the estimated assumptions during the forecast period changed as shown below, the fair value of convertible senior ordinary shares would have changed to the following amounts:

	As at December 31,		As at June 30,
	2020	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*
Revenue amount decrease by 10%	209,205	618,987	657,005
Discount rate increases by 1 percentage point	248,389	711,688	753,705
Terminal growth rate decrease by 0.5 percentage point	268,731	765,617	807,090
Volatility decrease by 5 percentage	274,174	781,906	824,646

The key terms of the convertible senior ordinary shares are summarized as follows:

(a) Voting and dividend participating rights

All convertible senior ordinary shares shall have the right to one vote on any resolution of shareholders of the Company, have equal rights with regard to dividends, and have equal rights with regard to distributions of the surplus assets of the Company.

(b) Conversion rights

Each convertible senior ordinary shares shall be convertible, at the option of the holder thereof and without the payment of any additional consideration, at any time into one fully-paid and non-assessable ordinary share. Without any action being required by the holder of such shares and whether or not the certificates representing such shares are returned to the Company or its registered agent, the convertible senior ordinary shares shall automatically be converted into ordinary shares upon the closing of an [**REDACTED**].

(c) Redemption feature

At any time following the earliest to occur of (a) the fourth (4th) anniversary of the SOS First Closing if an [**REDACTED**] has not occurred by then, or (b) a material breach by the Company of any covenants under a shareholders agreement dated on or about the first, the Company shall redeem all the subject shares by paying the redemption price in one lump sum in immediately available funds in U.S. Dollars to the respective convertible senior ordinary shareholders no more than forty-five (45) days from the date of the redemption notice. If the Company's legally available funds are insufficient to effectuate the redemption in full, the Company shall effectuate the redemption with respect to any portion of the shares that it is legally permitted to effectuate and, with respect to any portion of the redemption price not paid by the Company in respect of any subject share requested to be redeemed on the redemption price payment date, the Company shall deliver to each convertible senior ordinary shareholder that holds such unredeemed subject shares a fifteen percent (15%) interest per annum for both the SOS First Closing and the SOS second closing, and eight percent (8%) interest for the 2021 SOS per annum, promissory note issued in favor of such convertible senior ordinary shareholder by the Company for the amount of Redemption Price payable for such unredeemed Subject Shares, with a term of twelve (12) months from the redemption price payment date.

(d) Liquidation right

In the event of any liquidation, dissolution or winding up of the Company, whether voluntary or involuntary, all assets and funds of the Company legally available for distribution to the Shareholders (after satisfaction of all creditors' claims and claims that may be preferred by law) shall be distributed to the Shareholders of the Company in the following order and steps:

(i) to each holder of a convertible senior ordinary share prior and in preference to any distribution of any of the assets or funds of the Company to the holders of any other class or series of shares by reason of their ownership of such shares, an amount equal to one hundred percent (100%) of the original subscription price of such convertible senior ordinary share, plus a return on each convertible senior ordinary share of no less than an amount equal to the simple interest accruing annually based on a three hundred and sixty-five (365) day calendar year at the rate of fifteen percent (15%) for both the SOS First Closing and the SOS Second Closing, and eight percent (8%) for the 2021 SOS, calculated from the date of issuance of such convertible senior ordinary share, plus any declared but unpaid dividends of such convertible senior ordinary share as applicable; if the assets and funds thus distributed among the holders of the convertible senior ordinary shares shall be insufficient to permit the payment to such holders of the full convertible senior ordinary share amount, then the entire assets and funds of the Company legally available for distribution shall be distributed ratably among the holders of the convertible senior ordinary shares in proportion to the aggregate convertible senior ordinary share amount each such holder is otherwise entitled to receive in accordance with the terms of the convertible senior ordinary shares; then (ii) to each holder of shares on an as-converted-to-ordinary shares basis (other than holders of the convertible senior ordinary shares), any remaining funds or assets of the Company legally available for distribution to the shareholders.

26 TRADE PAYABLES

The aging analysis of trade payables, based on invoice date, were as follows:

	As at December 31,			As at June 30,
	2019	**2020**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*
– Within 3 months	83,263	73,160	120,863	137,410
– Between 4 months to 6 months	729	501	3,831	734
– Over 6 months	–	82	2	3,699
	83,992	73,743	124,696	141,843

The carrying amounts of trade payables approximated their fair values as at the balance sheet date due to their short-term maturities, and these balances were all denominated in RMB.

RSUs *(note b)*	–	–	82,838	66,704	18,064
Subtotal – Share-based compensation expense for employees including directors	8,932	33,202	90,821	50,684	(3,338)
Share-based compensation for guarantee for bank borrowings *(note 22)*	4,408	16,876	16,126	8,116	12,269
Total	13,340	50,078	106,947	58,800	8,931

(a) Stock appreciation rights

On January 1, 2018, the Company adopted the SAR to encourage key employees and directors to contribute to the success of the Group and to operate and manage the Group's business in a manner that will provide for the Group's long-term growth and profitability.

The first 50% of SAR will be vested up to 12.5% as of each of the first, second, third and fourth anniversaries of the vesting commencement, subject to the achievement of certain performance-based metrics. The other 50% will be vested on the occurrence of an [**REDACTED**] and subject to such participant's continuous service from the grant date through the [**REDACTED**] date.

The awards granted by the Company gives the employee the right to receive cash of which the value is dependent on the appreciation in the Company's equity value between the grant date and the exercise date. Such amount is payable by the Company upon the completion of an [**REDACTED**].

Total expenses arising from the stock appreciation rights charged to profit or loss for the years ended December 31, 2019, 2020, 2021 and the six months ended June 30, 2021 and 2022 amounted to approximately RMB2,144,000, RMB24,696,000, RMB28,156,000, RMB8,030,000 and RMB1,703,000, respectively.

On January 1, 2021, the Group cancelled the SAR for some employees and has reversed expenses of approximately RMB27,978,000 accordingly.

On April 30, 2022, the Group cancelled the SAR for the remaining employees and reversed expenses of RMB29,781,000 in 2022. At this point, the Group has cancelled the SAR for all existing employees. The Group cancelled the cash settled SAR and granted equity settled RSUs instead for long term incentive purposes.

The key assumption applied in the determination of exit value of the Company include (i) estimated revenue amount, (ii) discount rate or (iii) the terminal growth rate as below:

	2019	**2020**	**2021**	**June 30, 2021**	**June 30, 2022**
	%	%	%	%	%
				(Unaudited)	
Revenue increase rate	11.4 – 39.3	11.4 – 37.8	9.2 – 27.6	10.4 – 33.5	9.2 – 26.9
Discount rate	19.9	19.1	18.3	19.1	18.3
Terminal growth rate	3.0	2.5	2.5	2.5	2.5

The exit equity value was determined based on the valuation results from an independent qualified appraisal firm, Avista Valuation Advisory Limited.

(b) RSUs

According to the board resolution dated January 1, 2021, the Company set up a share incentive plan (the "2021 Plan") with a maximum aggregate 7,000,000 ordinary shares that may be issued under the 2021 Plan. On the same date, award agreements were entered with various employees which granted a total of 4,023,785 restricted share units.

Pursuant to the board resolution and award agreements, all the 4,023,785 restricted share units were granted and vested immediately on January 1, 2021. However, 50% of each employee's vested RSUs and the underlying ordinary shares issued to the employees will be forfeited and terminated if the employees leave the Company before the completion of the [**REDACTED**] of the Company, which was treated as a vesting condition in accounting.

According to the board resolution dated April 30, 2022, the Company granted 1,266,075 restricted share units to certain employees. There are various vesting conditions, either vest on the completion of the [**REDACTED**] of the Company or vest with service conditions.

Expenses arising from this equity settled share-based compensation amounted to approximately RMB82,838,000, RMB66,704,000 and RMB18,064,000, which were recognized in profit or loss for the year ended December 31, 2021 and the six months ended June 30, 2021 and 2022, respectively.

The fair value of the shares granted and the key assumptions to the valuation at the grant date are summarized as below:

	As at January 1, 2021	**As at April 30, 2022**
Fair value of the shares granted (US$ per share)	3.83	6.20
Revenue growth rate	11.4% – 37.8%	9.2% – 26.9%
Pre-tax discount rate	19.1%	18.3%
Terminal growth rate	2.5%	2.5%

	Numbers of RSUs
Outstanding as at December 31, 2019 and 2020	–
Granted during the period	4,023,785
Vested during the period	(2,011,893)
Outstanding as at December 31, 2021	2,011,892
(Unaudited)	
Outstanding as at December 31, 2020	–
Granted during the period	4,023,785
Vested during the period	(2,011,893)
Outstanding as at June 30, 2021	2,011,892
Outstanding as at December 31, 2021	2,011,892
Granted during the period	1,266,075
Vested during the period	(209,595)
Outstanding as at June 30, 2022	3,068,372

30 INVESTMENTS IN SUBSIDIARIES

	As at December 31,			As at June 30,
	2019	**2020**	**2021**	**2022**
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*
Interest in subsidiaries(i)	1,384,777	1,660,010	1,919,426	2,046,918
Deemed investments arising from share-based compensation(ii)	6,318	29,780	111,155	106,739
Amounts due from subsidiaries(iii)	316,273	295,946	289,222	304,352
	1,707,368	1,985,736	2,319,803	2,458,009

(i) Details of the subsidiaries of the Company are disclosed in Note 16.

(ii) The amount represents share-based compensation expenses arising from the grant of stock appreciation rights and RSUs of the Company to employees and a director of certain subsidiaries in consideration for their services provided to these subsidiaries, which were deemed to be investments made by the Company into these subsidiaries.

(iii) The amount represents payments on behalf of subsidiaries and the Company has no plan to recover these amounts in the foreseeable future.

32 COMMITMENTS

(a) Capital commitments

The table below sets forth the Group's capital commitments as of the respective balance sheet dates:

	As at December 31,			As at June 30,
	2019	2020	2021	2022
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*
Contracted but not provided for	64,836	67,558	61,137	35,006

(b) Lease commitments

Future minimum short-term and low-value leases payables under non-cancellable operating leases of the Group as at the reporting dates are as follows:

	As at December 31,			As at June 30,
	2019	2020	2021	2022
	RMB'000	*RMB'000*	*RMB'000*	*RMB'000*
– No later than 1 year	296	663	1,042	1,102

33 RELATED PARTY TRANSACTIONS AND BALANCES

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party, or exercise significant influence over the other party in making financial and operating decisions.

The shareholders who have significant influence over the Group, directors, members of key management and their close family members of the Group are also considered as related parties. In the opinion of the Directors, the related party transactions were carried out in normal course of business and at terms negotiated between the Group and the respective related parties.

(a) Related parties of the Group

Name of related parties	Relationship
DPI	Significant influences over the Company
DPIF	Subsidiary company of DPI
Domino's Pizza Distribution LLC ("DPD")	Subsidiary company of DPI
Good Taste Limited ("GTL")	A shareholder
James Marshall	A director of the Company

Note:

(i) After DPI purchased convertible senior ordinary share (note 25) issued by the Company on May 4, 2020, DPI has significant influence on the Company and has the right to designate a director representative in the board of directors of the Company and DPIF and DPD became related parties of the Company since then.

The following is a summary of the significant transactions carried out between the Group and its related parties in the ordinary course of business during the Track Record Period, and balances arising from related party transactions as at the respective financial position dates.

(b) Transactions with related parties
