NOTES:

1. GENERAL

Planetree International Development Limited (the "**Company**") is a limited liability company incorporated in Bermuda as an exempted company and its shares are listed on Main Board of The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**").

The Company and its subsidiaries (collectively, the "**Group**") is principally engaged in (i) financial services with operations licensed under the Securities and Futures Ordinance ("**SFO**"), (ii) credit and lending services with operations under Money Lenders Ordinance (the "**MLO**"), (iii) other financial services, (iv) property investment and leasing and (v) tactical and strategic investment.

The consolidated financial statements are presented in Hong Kong dollars, which is also the functional currency of the Company. All amounts have been rounded to the nearest thousand, unless otherwise indicated.

2. BASIS OF PREPARATION AND CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

Basis of preparation

These consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**"), which collective term includes all applicable HKFRSs, Hong Kong Accounting Standards ("**HKASs**") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (the "**HKICPA**"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. The consolidated financial statements also comply with the applicable disclosure requirements of the Rules Governing the Listing of Securities on the Stock Exchange (the "**Listing Rules**").

The consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the consolidated financial statements for the year ended 31 December 2021 except for the adoption of the following new/revised HKFRSs that are relevant to the Group and effective from the current year.

Adoption of new/revised HKFRSs

Amendments to HKFRS 16: COVID-19-Related Rent Concessions Beyond 30 June 2021

The amendments exempt lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications and allow lessees to account for such rent concessions as if they were not lease modifications. It applies to COVID-19-related rent concessions that reduce lease payments due on or before 30 June 2022. The amendments do not affect lessors.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Amendments to HKAS 37: Cost of Fulfilling a Contract

The amendments clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (for example, direct labour and materials) and an allocation of other costs that relate directly to fulfilling contracts (for example, an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Amendments to HKAS 16: Proceeds before Intended Use

The amendments clarify the accounting requirements for proceeds received by an entity from selling items produced while testing an item of property, plant or equipment before it is used for its intended purpose. An entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss and measures the cost of those items applying the measurement requirements of HKAS 2.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Amendments to HKFRS 3: Reference to the Conceptual Framework

The amendments update a reference in HKFRS 3 to the Conceptual Framework for Financial Reporting issued in 2018. The amendments also add to HKFRS 3 an exception to its requirement for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for some types of liabilities and contingent liabilities, an entity applying HKFRS 3 should instead refer to HKAS 37. The exception has been added to avoid an unintended consequence of updating the reference.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Annual Improvements Project – 2018-2020 Cycle

HKFRS 1: Subsidiary as a First-time Adopter

This amendment simplifies the application of HKFRS 1 for a subsidiary that becomes a first-time adopter of HKFRSs later than its parent – i.e. if a subsidiary adopts HKFRSs later than its parent and applies HKFRS 1.D16(a), then a subsidiary may elect to measure cumulative translation differences for all foreign operations at amounts included in the consolidated financial statements of the parent, based on the parent's date of transition to HKFRSs.

HKFRS 9: Fees in the "10 per cent" Test for Derecognition of Financial Liabilities

This amendment clarifies that – for the purpose of performing the "10 per cent test" for derecognition of financial liabilities – in determining those fees paid net of fees received, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

HKFRS 16: Lease Incentives

The amendment removes the illustration of payments from the lessor relating to leasehold improvements. As currently drafted, Example 13 is not clear as to why such payments are not a lease incentive.

HKAS 41: Taxation in Fair Value Measurements

This amendment removes the requirement to exclude cash flows for taxation when measuring fair value, thereby aligning the fair value measurement requirements in HKAS 41 with those in HKFRS 13.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

9. **DIVIDEND**

The Board of Directors does not recommend the payment of a dividend for the years ended 31 December 2022 and 2021.

10. LOSSES PER SHARE

The calculation of the basic and diluted losses per share is based on loss attributable to the owners of the Company and the weighted average number ordinary shares in issue during the year.

For the year ended 31 December 2022, diluted loss per share is the same as basic loss per share. The Company did not have any dilutive potential ordinary shares during the year ended 31 December 2022.

Diluted loss per share for the year ended 31 December 2021 did not assume the exercise of share award since their assumed exercise would have an anti-dilutive effect on the basic loss per share amount presented. Diluted loss per share for the year ended 31 December 2021 is calculated by assuming the exercise of options granted to the minority shareholder of the subsidiary as it has dilutive effect on the basic losses per share of the Company. The loss attributable to owners for the purpose of diluted losses per share was adjusted by the Group's proportionate interest in subsidiary's earnings attributable to owners of the Company.

The calculations of basic and diluted losses per share are based on:

Losses

MANAGEMENT DISCUSSION AND ANALYSIS

REVIEW OF RESULTS

During the year under review, the Group's total revenue of approximately HK\$155.3 million and other income of approximately HK\$13.3 million aggregated to approximately HK\$168.6 million, representing a reduction of approximately HK\$37.2 million or 18.1% as compared to that for the preceding financial year. The Group recorded a consolidated loss after tax of approximately HK\$1.5 million (2021: loss of HK\$15.3 million). After allocating the profit attributable to non-controlling interests for approximately HK\$15.6 million, the loss attributable to shareholders of the Company for the financial year ended 31 December 2022 (the "Year") was approximately HK\$17.2 million (2021: loss of HK\$22.2 million).

The decrease in loss for the Year when compared to the previous year is mainly attributable to the combined effects of: (i) the increase in fair value gain on financial assets by approximately HK\$6.9 million; and (ii) the reversal of impairment loss on loan and interest receivables and margin loan receivables of approximately HK\$4.9 million and HK\$7.8 million respectively recorded in 2022 as compared to the impairment loss on loan and interest receivables and margin loan receivables of approximately HK\$41.1 million and HK\$24.1 million respectively as recorded in the 2021. The aforementioned factors were partially offset by (i) the decrease in margin loan interest income, asset management service income and corporate advisory service income by approximately HK\$22.0 million, HK\$14.3 million and HK\$8.4 million respectively; and (ii) increase in share of loss from associates principally engaged in holding listed equity investments by approximately HK\$32.6 million. To better assess the profitability of the Group's core businesses, the share of loss/profit from the associate can be excluded to show the Group's profit before tax arising from its core businesses, which would amount to HK\$94.2 million for the Year when compared to that of HK\$46.9 million for the previous year.

The basic and diluted losses per share for the Year were HK1.82 cents and HK1.82 cents respectively, whereas the basic and diluted losses per share of HK2.35 cents and HK2.37 cents respectively were recorded for the last corresponding year.

FINAL DIVIDEND

The Board resolved not to recommend the payment of a final dividend for the year ended 31 December 2022 (2021: Nil). No interim dividend was declared for the financial years of 2022 and 2021.

BUSINESS REVIEW

At the beginning of 2022, the conflict between Russia and Ukraine has sparked a new spree of fears across the financial markets and has weighted adversely on global economic conditions throughout 2022. The rapid increase in global inflation rates triggered the decline in global economy in the first half of 2022. Moreover, the Federal Reserve's unprecedented interest rate hikes in order to tame inflation had cast a great shadow over the recovery of the global economy. These discouraging factors had caused substantial volatility in capital markets and asset prices and had a negative impact on overall investor sentiments.

The principal activities of the Group are classified into the following business segments:

(1) Financial services – operations under SFO licences

The Group has been engaging in the provision of dealing in securities (including the provision of margin loans to clients), dealing in futures contracts and asset management services with Type 1, Type 2 and Type 9 licences granted under the Securities and Futures Ordinance (the "SFO", Chapter 571 of the laws of Hong Kong) for years. It has further stepped into the businesses for the provision of corporate finance advisory services, automated trading services and securities margin financing with Type 6, Type 7 and Type 8 licences granted under the SFO.

Business of this segment has become more mature after the Group's dedicated development in this segment for several years. Investment atmosphere during the second half of the Year remained weak as reflected by the drop in Hang Seng Index from the level of around 23,274 points at the beginning of 2022 to the level of around 19,781 points by the end of 2022. The Hang Seng Index even reached its 13-year lowest level of around 14,597 on 31 October 2022. The Group's asset management service income (especially the contribution from performance fee income based on the appreciation in the value of clients' net assets) was inevitably affected by the lackluster stock market performance. Such asset management service income dropped to approximately HK\$4.5 million during the Year (2021: HK\$18.8 million). A large part of such reduced service income was recouped by higher margin loan interest income scored by the Group, thanks to a loyal clientele of high net worth individual and corporate clients built up by the use of the Group's financial resources, business network and management efforts. Margin loan interest income reached approximately HK\$59.5 million during the Year (2021: HK\$81.5 million).

In order to further develop Group's margin loan business, the Group successfully obtained a separate licence granted by the Securities and Futures Commission ("SFC") to carry on Type 8 regulated activity, i.e. securities margin financing, in 2021.

In order to expand the scope of this segment, the Group has engaged in Type 6 regulated activity, i.e. advising on corporate finance, under the SFO since October 2020. The Group's business network has facilitated the growth of this business unit contributing revenue of approximately HK\$9.8 million to the Group (2021: HK\$7.9 million). The Group has paved way to further develop the business of advising on corporate finance by having successfully procured the SFC's approval to conduct initial public offering sponsorship business and relevant regulated activities under the SFO since November 2021.

Overall, this segment performed steadily during the Year with segment revenue of approximately HK\$75.0 million, lower than the corresponding figure of approximately HK\$111.4 million during the previous year though. The segment profit dropped from approximately HK\$73.0 million for the previous year to approximately HK\$66.7 million for the Year. Despite the need to face deteriorating economic conditions, this segment is still able to remain as the most profitable core business of the Group.

After the lengthy application period, on 8 June 2022, the Group was granted licence to carry on Type 7 (providing automated trading services) regulated activity under the SFO. The Group intends to roll out a pre-IPO platform, which will allow its retail and corporate clients to trade new stocks before the official listings in Hong Kong. With an aim to support the business development and widen the client base, the Group will expand offering services online. By offering a full suite of professional financial services involving Type 1, Type 2, Type 6, Type 7, Type 8 and Type 9 regulated activities under the SFO, the Board expected that a synergy effect favourable to the Group's development of the integrated financial services business will be generated.

(2) Credit and lending services – operations under MLO licences

The Group conducts its money lending business with two money lenders licences held by the Group under the Money Lenders Ordinance (the "**MLO**", Chapter 163 of the laws of Hong Kong). The Group's clientele primarily consists of niche customers including corporations and high net-worth individuals. These clients mostly have been procured through business referrals and introductions from the Company's senior management, business partners or clients. In addition to the compliance with all rules and regulations imposed under the MLO, the Group has also formulated internal money lending policy to guide its two money lending subsidiaries in their operations of money lending business. The loan terms would be arrived at after considering various factors including prevailing market interest rates, the financial strength of the borrower, the collaterals offered and past credit history of the borrower with the Group and adjusted, if necessary, by arms-length negotiations with the borrower. With more loans granted by the Group to a broader base of clients at more competitive interest rates, the segment revenue raised to approximately HK\$53.8 million for the Year (2021: HK\$50.2 million). The segment profit increased to approximately HK\$57.7 million (2021: HK\$8.4 million). As at 31 December 2022, a total principal amount and accrued interest of approximately HK\$687.3 million remained outstanding of which the amount of loan receivables due from the largest borrower and the five largest borrowers in aggregate were approximately 13% and 48% thereof respectively. The Company retained an independent professional valuer to conduct impairment assessment on the outstanding loans for each reporting period end date. The impairment allowances of approximately HK\$0.6 million were provided on the outstanding loan receivables as at 31 December 2022 (2021: HK\$48.4 million). Further details of loan receivables are disclosed in note 11 to the financial information.

(3) Other financial services

To diversify the Group's financial services, the Group has commenced its business of providing corporate advisory related services in Hong Kong since October 2020. For the Year, the segment revenue amounted to approximately HK\$19.9 million (2021: HK\$28.0 million) and the segment profit reached approximately HK\$9.1 million (2021: HK\$14.0 million). The decrease in revenue for the Year is mainly due to the drop in number of clients as the COVID-19 pandemic still persisted in the second half of 2022 and the competitiveness is intense.

(4) **Property investment and leasing**

The performance of this segment was stable during the Year with the segment revenue increased from approximately HK\$8.9 million for the last year to approximately HK\$9.4 million for the Year. There was a segment loss of approximately HK\$6.2 million for the Year versus a loss of approximately HK\$4.7 million in the previous year, mainly due to the combined effects of: (i) the increase of finance costs of approximately HK\$4.0 million due to the reallocation of previously own-used property for leasing to a third-party tenant; and (ii) the decrease in fair value losses on investment properties recorded from HK\$8.9 million in previous year to HK\$5.9 million in current year. As at 31 December 2022, the Group held 4 commercial properties in Hong Kong for leasing to independent third party tenants for rental income with a total fair value at HK\$513.8 million (2021: HK\$349.3 million).

(5) Tactical and strategic investment

Since implementing the strategy of scaling down the portfolio of equity and debt investments held by the Group starting from year 2020, the amount of resources allocated by the Group to this segment (in the form of financial assets at fair value through profit or loss) remained at a relatively low level of approximately HK\$161.6 million at the end of the Year (2021: HK\$125.9 million). The Group recorded a segment revenue of approximately HK\$5.9 million (2021: negative revenue of HK\$2.1 million). The segment loss was approximately HK\$84.3 million for the Year (2021: HK\$62.1 million) mainly due to share of loss of associates (which is principally engaged in holding listed equity investments) amounted to approximately HK\$87.8 million (2021: HK\$55.2 million).

OUTLOOK AND STRATEGY

During the Year, global geopolitical and economic uncertainties brought about by the U. S. interest rate hikes and the lingering Russian-Ukraine conflict to wreak havoc and send ripple effect throughout the financial markets worldwide. The market sentiments in Hong Kong remained volatile in the second half of 2022. Investment atmosphere during the second half of the Year remained weak as reflected by the drop in Hang Seng Index from the level of around 23,274 points at the beginning of 2022 to the level of around 19,781 points by the end of 2022 with the 13-year lowest level of around 14,597 points recorded on 31 October 2022. Nevertheless, the prospect remains optimistic for a gradual resumption of travel with Mainland China and the reopening of the border with the rest of the world.

The Board would not underestimate the long-term growth prospect of the financial industry in Hong Kong. Apart from the provision of professional financial services, the credit and lending services will remain one of the Group's core businesses. The Group will be responsive in adjusting its lending interest rates to remain competitive in the local money lending market.

The gradual upward trend on property prices and rentals in Hong Kong is anticipated to strengthen the performance of the Group's property investment and leasing business in the coming year. In September 2022, the Group has relocated its securities brokerage arm to a smaller office near the Group's headquarter in North Point so as to release the previously own-used property in Wong Chuk Hang with a saleable area of about 7,900 sq. ft. for leasing to a third-party tenant to generate rental income. The Group will monitor the stock market sentiment constantly and intends to keep its tactical and strategic investments on a long-term basis.

After expanding the scope of the Group's Type 6 licence with coverage of initial public offering sponsorship services and obtaining a Type 8 (securities margin financing) licence in 2021, the Group was further granted with a Type 7 (providing automated trading services) licence in June 2022 by the SFC. Going forward, the Group intends to roll out a pre-IPO trading platform (tentatively named "Etreemart") to allow its retail and corporate clients to trade new stocks before the official listings in Hong Kong. In order to further expand the scope of this segment, in the mid of February 2023, the Group applied for the licences to carry on Type 4 (advising on securities) & Type 5 (advising on futures contracts) regulated activities under the SFO. The applications had been accepted by the SFC and pending for its approval.

Given our comprehensive profile of financial services, the Group is poised to widen its horizon and scale new heights in the years to come in order to continue maximizing returns and value for our shareholders.

The management of the Group will continue to review and adjust business strategies of the Group on regular basis with a prudent and balanced approach. The management of the Group remains cautiously optimistic about the business development and the overall performance of the Group in the future. The Group will continue to render comprehensive services to our clients in order to maintain our client confidence and loyalty.
