Chairman's Statement

On behalf of the board (the “**Board**”) of directors (the “**Directors**”) of Evergreen Products Group Limited (“**Evergreen**” or the “**Company**”) and its subsidiaries (collectively, the “**Group**”), I am pleased to present the annual report of the Group for the year ended 31 December 2022 (the “**Year**”).

OUR PURPOSE, VALUES AND STRATEGIES

Established in more than half a century ago, Evergreen has always emphasised the importance of integrity in conducting its business, which has contributed to the building of trust and mutual respect among its management, employees, customers and suppliers and has led to the success of Evergreen.

Evergreen wants to be the best manufacturer and create hair products of the highest quality to bring the goodness of beauty, fun and joy to all people. Evergreen focuses on actively responding to the demands of its customers by developing hair products which cater to its customers' needs, and continuously investing in research and development for innovative hair products to adapt to the rapidly evolving hair product market. The adoption of flexible working arrangements by Evergreen allows its employees to save commute time to improve their qualities of life and bring new employment opportunities to residential communities.

Evergreen's purpose, values and strategies are set out below:

- (1) the Company's purpose is to bring the goodness of beauty, fun and joy to its customers in the global hair product market;
- (2) the Company's values are to ensure that the Company adheres to the principles of achieving integrity, excellence, flexibility and innovation, and to strive to deliver the best and the highest quality hair products which are trusted by its customers; and
- (3) the Company's strategies are (i) to integrate the production lines of its Bangladesh factories to achieve a balanced and diverse product mix of hair products to satisfy its customers' requirements in scalability, flexibility, adaptability and quality; (ii) to lease additional workshops or production sites to offer its employees to choose their preferred work locations as part of the flexible working arrangements; and (iii) to sustain continuous market growth and product innovation to strengthen the research and development team in the People's Republic of China and to extend the team to Bangladesh.

Evergreen's purpose, values and strategies are aligned with its culture.

Chairman's Statement

BUSINESS REVIEW

The global outlook has deteriorated markedly throughout 2022 amid the macroeconomic headwinds, high inflation, operational challenges such as supply chain disruptions and bottlenecks in international freight movements persist and the lingering pandemic.

During the Year, the Group delivered stable revenue of hair products and recorded a decline of 8.9% as compared to the year ended 31 December 2021. The Group's focus on higher margin products has lifted the segmental revenue of human hair extension products and lace wig products during the Year, underpinned by a strong market demand following the easing of pandemic control across the world, which permitted hair salons to reopen. Most countries' resumption of festive activities supported the increase in segmental revenue of Halloween products. These increases to the Group's revenue were offset by a decline in segmental revenue of braid items with a lower profit margin. The newly lace closure product continued to contribute to the Group's revenue. The Group's gross profit margin continuously improved during the Year, supported by the devaluation of the Taka against the dollar and the strategic product mix and the net profit recorded a slightly increase of 2.2% affected by the decrease in employee retirement benefit and the decrease in deferred tax due to income tax rate change in Bangladesh during the Year which are mainly in non-cash nature. as compared to the year ended 31 December 2021.

The Group has continued to implement the policies on inventory control and credit control management, to enhance the strategy of the product mix diversity in order to optimise the balance sheet. The Group's gearing ratio dropped to 61.9% when compared to 72.8% for the year ended 31 December 2021.

FINANCIAL OVERVIEW

During the Year, the Group's turnover amounted to HK\$1,100.4 million (2021: HK\$1,207.4 million), representing a decrease of 8.9% from the year ended 31 December 2021. The Group recorded a profit of HK\$58.3 million for the Year, representing an increase of HK\$1.2 million, or 2.2%, as compared with the profit of HK\$57.1 million for the year ended 31 December 2021.

OUTLOOK

Amidst the revival of globalization after the pandemic, the high inflation and interest rates and the lingering pandemic, the Group has been closely monitoring the market conditions and adjusting its business strategies and operations to minimize any negative impacts and strengthen its focus on its core business.

In the upcoming year, the Group will continue to enhance the financial performance improvement initiatives across its operations including the inventory control, cost optimization, refining the bank borrowing costs and equipping its business with some environmental facilities for energy saving and environmental protection and increase resource in research and development of new products to expand sales channels.

Chairman's Statement

FINAL DIVIDEND

The Board has recommended the payment of a final dividend of HK3.7 cents per Share for the Year, in total approximately HK\$25.4 million based on a total of 686,082,000 Shares in issue as at the date of this annual report, plus the interim dividend of HK1.7 cents per Share already declared and paid, making a total dividend of HK5.4 cents per Share (2021: final dividend of HK1.1 cents per Share and interim dividend of HK1.3 cents per Share). The dividend payout ratio for Year was approximately 63.5% (2021: 28.8%). The Group decided to deploy sufficient funding and liquidity resources for future expenditure plans and any uncertain expenditure that may continuously arise from the pandemic.

APPRECIATION

On behalf of the Board, I would like to express my gratitude to the Directors for their continuing efforts and to thank all members of our staff and management team for their dedication and continuous support. The Group is dedicated to seeking opportunities for positive change and pursuing breakthroughs in 2023. I look forward to sharing the Group's prosperity with them and all of our shareholders and customers in the future.

Management Discussion and Analysis

BUSINESS REVIEW

During the Year, the global outlook has deteriorated markedly amid the macroeconomic headwinds, persistent high oil price, high inflation, supply chain disruptions and bottlenecks in international freight movements persist and the lingering pandemic, with the hair wig industry still sustaining the growing demand across all regions. The segmental revenue of human hair extension products and lace wig products with a higher profit margin have lifted and the demand for Halloween products has risen tremendously during the Year, underpinned by strong market demand following the easing of pandemic control across the world, which permitted hair salons to reopen and mask-wearing is no longer compulsory. This resulted in a continued growing demand of human hair extension products and lace products and a rebound on the demand for Halloween products.

After a tough two year battle, most countries have returned to normal and the people are going to the salons which is driving the consumption for and hence the revenue of braid and special braid products with a lower profit margin have been dropped as there has been a decrease in demand for braid items. The revenue of the Group decreased to 1,100.4 million during the Year, representing a decrease of approximately 8.9% against the corresponding year ended 31 December 2021, mainly due to the increase in the sale of human hair extension products and lace wigs products offset with a drop in sales in the sale of the lower profit margin braid products during the Year. The newly launched products, such as the lace closure contributed to the revenue during the Year. Gross profit margin increased to 23.4% when compared to 20.6% for the year ended 31 December 2021, mainly due to the increase in demand for human hair extensions products and lace wigs products with a higher profit margin since normalcy has resumed after pandemic and the benefit from the currency depreciation on Bangladeshi Taka. However, the Group has progressively increased capital investment in production facilities in Bangladesh to support its ongoing market expansion over the year, which has partially led to an increase in depreciation expenses. These increases to Group's gross profit margin were offset by an increase in depreciation expenses.

As a result of the above, the Group reported profits in the amount of HK\$58.3 million, representing a slightly increase of 2.2% as compared with the corresponding year ended 31 December 2021 and the gross profit margins of 23.4%, representing a marginal increase of 2.8% against the corresponding year ended 31 December 2021.

FINANCIAL REVIEW

During the Year, the Group's financial results slightly dropped as compared with the corresponding year ended 2021, primarily due to the change in product mix caused by the strong market demand for high margin human hair extension products and Halloween products due to the resumption on the festive activities but it was offset with the decrease in demand for the low margin braid products since normalcy has resumed after the pandemic across all regions.

Management Discussion and Analysis

REVENUE

Revenue of the Group is mainly generated from the manufacturing and sale of its products. Revenue represents the amount received by the Group and the receivables for the sale of its products, net of any discounts and returns. The Group derives revenue from three principal product segments: (i) wigs, hair accessories and others; (ii) high-end human hair extensions (that is, human hair goods used for adding hair length and/or hair volume with an average retail price of over US\$5 per gram); and (iii) Halloween products.

During the Year, the Group's revenue amounted to HK\$1,100.4 million, representing a decrease of HK\$107.0 million or 8.9% as compared with HK\$1,207.4 million for the year ended 31 December 2021. The decrease was primarily due to the strong market demand for its human hair products and lace wig products offset with the decrease in demand of the braid products during the Year. The Bangladesh factory has consistent enhancement in its production capabilities to satisfy the strong market demand. During the Year, the revenue generated from hair products made at the Bangladesh Factory accounted for 97.9% of the Group's total revenue as compared to 95.2% for the year ended 31 December 2021.

The USA remained as the Group's principal market during the Year with revenue contribution accounting for 87.6% of the Group's total revenue during the Year as compared to 87.6% for the year ended 31 December 2021. In terms of product segments, wigs, hair accessories and others remained as the Group's key product segment, accounted for 79.3% of its total revenue during the Year as compared to 85.0% for the year ended 31 December 2021.

Wigs, hair accessories and others. Revenue from wigs, hair accessories and others decreased by HK\$154.0 million, or 15.0%, from HK\$1,026.4 million for the year ended 31 December 2021 to HK\$872.4 million for the Year, primary due to the decreased sales on braids products during the Year.

High-end human hair extensions. Revenue from high-end human hair extensions increased by HK\$27.0 million, or 17.1%, from HK\$157.5 million for the year ended 31 December 2021 to HK\$184.5 million for the Year, primarily due to the strong market demand rebound since most countries returned to normalcy.

Halloween products. Revenue from Halloween products increased by HK\$19.9 million, or 84.7%, from HK\$23.6 million for the year ended 31 December 2021 to HK\$43.5 million for the Year, mainly due to the resumption of the festive activities.

COST OF GOODS SOLD

The Group's cost of goods sold decreased by HK\$115.3 million, or 12.0%, from HK\$958.6 million for the year ended 31 December 2021 to HK\$843.3 million for the Year, which is line with the decreased in revenue during the Year.

Wigs, hair accessories and others. Cost of goods sold for wigs, hair accessories and others decreased by HK\$146.1 million, or 17.6%, from HK\$828.4 million for the year ended 31 December 2021 to HK\$682.3 million for the Year, corresponding with a decrease in sales of these products during the Year.

Management Discussion and Analysis

High-end human hair extensions. Cost of goods sold for high-end human hair extensions increased by HK\$17.1 million, or 14.9%, from HK\$114.6 million for the year ended 31 December 2021 to HK\$131.7 million for the Year, which is in line with an increase in sales of these products during the Year.

Halloween products. Cost of goods sold for Halloween products increased by HK\$13.7 million, or 87.6%, from HK\$15.7 million for the year ended 31 December 2021 to HK\$29.4 million for the Year, corresponding with an increase in sales of these products during the Year.

GROSS PROFIT

During the Year, the Group's gross profit amounted to HK\$257.1 million, representing an increase of HK\$8.3 million, or 3.3%, as compared with HK\$248.8 million for the year ended 31 December 2021, primarily due to a strong market demand for its human hair extension products and lace wig products and the benefit from the currency depreciation on Bangladeshi Taka. These increases to gross profit were partially offset by an increase in depreciation expenses which the construction project of the expansion productions facilities in Bangladesh carried forward as properties, plant and machinery and an increase in ocean freight cost since the pandemic led to global surge of freight and cargo charges. During the Year, the Group's gross profit margin amounted to 23.4%, representing an increase of 2.8 percentage points from 20.6% for the year ended 31 December 2021.

Wigs, hair accessories and others. Gross profit for wigs, hair accessories and others largely decreased by HK\$7.9 million, or 4.0%, from HK\$198.0 million for the year ended 31 December 2021 to HK\$190.1 million for the Year. Gross profit margin for this segment increased from 19.3% for the year ended 31 December 2021 to 21.8% for the Year, primarily due to an increase in sales of the lace wig products and closure products with a high profit margin during the Year.

High-end human hair extensions. Gross profit for high-end human hair extensions increased by HK\$9.9 million, or 23.1%, from HK\$42.9 million for the year ended 31 December 2021 to HK\$52.8 million for the Year. Gross profit margin for this segment increased from 27.2% for the year ended 31 December 2021 to 28.6% for the Year, primarily due to the improvement on the production loss rate on the raw materials and an increase in the quality control on the purchase procurement during the Year when compared to the year ended 31 December 2021.

Halloween products. Gross profit for Halloween products increased by HK\$6.2 million, or 78.9%, from HK\$7.9 million for the year ended 31 December 2021 to HK\$14.1 million for the Year. Gross profit margin for Halloween products decreased from 33.5% for the year ended 31 December 2021 to 32.5% for the Year, primarily due to a rise in the cost of raw materials during the Year when compared to the year ended 31 December 2021.

Management Discussion and Analysis

OTHER INCOME

Other income increased by HK\$0.9 million, or 21.1%, from HK\$4.5 million for the year ended 31 December 2021 to HK\$5.4 million for the Year, primarily due to an increase in income from warehouse rental and government subsidies during the Year.

OTHER GAINS AND LOSSES

Other gains and losses increased by HK\$2.4 million, or 86.7%, from a loss of HK\$2.8 million for the year ended 31 December 2021 to a loss of HK\$5.2 million for the Year. The other gains and losses primarily comprises a loss amount to HK\$4.8 million from the fair value change of the financial assets at fair value through profit and loss and HK\$0.3 million from the gain on the exchange conversion due to the repayment of a bank loan in Hong Kong dollars during the Year.

IMPAIRMENT LOSSES UNDER EXPECTED CREDIT LOSS MODEL

During the Year, the Group provided impairment losses of HK\$0.2 million in respect of trade receivables (2021: Reversed impairment allowance of HK\$0.9 million). The impairment losses of HK\$0.2 million were provided on one customer which were unlikely to be recovered.

DISTRIBUTION AND SELLING EXPENSES

Distribution and selling expenses increased by HK\$7.8 million, or 40.9%, from HK\$19.0 million for the year ended 31 December 2021 to HK\$26.7 million for the Year, was mainly arising from the reclassification of salaries and staff welfare of administrative staff from “administrative expenses” during the Year.

ADMINISTRATIVE EXPENSES

Administrative expenses decreased by HK\$11.1 million, or 7.4%, from HK\$149.1 million for the year ended 31 December 2021 to HK\$138.1 million for the Year, was mainly arising from the reclassification of salaries and staff welfare of administrative staff to “selling expenses” during the Year.

OTHER EXPENSES

Other expenses decreased by HK\$0.2 million, or 42.1%, from HK\$0.5 million for the year ended 31 December 2021 to HK\$0.3 million for the Year. The donation made by the Group during the Year amounted to HK\$0.3 million (2021: HK\$0.5 million).

Management Discussion and Analysis

FINANCE COSTS

Finance costs increased by HK\$9.3 million, or 45.3%, from HK\$20.5 million for the year ended 31 December 2021 to HK\$29.8 million for the Year. During the Year, the Group did not capitalise any interest on bank borrowings as the cost of qualifying assets (2021: HK\$6.2 million). The increase in finance is primarily due to an increase in the interest rate.

TAXATION

Income tax expense of the Group decreased by HK\$1.3 million, or 24.7%, from HK\$5.2 million for the year ended 31 December 2021 to HK\$3.9 million for the Year. Income tax expense included reversed deferred taxation in the amount of HK\$0.1 million for the Year (2021: HK\$0.9 million).

NET PROFIT

The Group's net profit for the Year amounted to HK\$58.3 million, representing a slightly increase of HK\$1.2 million, or 2.2%, as compared with a net profit of HK\$57.1 million for the year ended 31 December 2021, primarily attributable to the decrease in employee retirement benefit and the decrease in deferred tax due to income tax rate change in Bangladesh during the Year which are mainly in non-cash nature.

LIQUIDITY AND FINANCIAL RESOURCES

The Group's bank balances, pledged bank deposits and cash decreased by HK\$5.0 million or 2.6% from HK\$175.0 million as at 31 December 2021 to HK\$170.0 million as at 31 December 2022. The decrease in cash and bank balances as at 31 December 2022 was primarily due to the repayment of bank loans and trade facilities during the Year.

BORROWINGS AND GEARING RATIO

As at 31 December 2022, the Group's banking facilities amounted to HK\$852.0 million, of which HK\$187.0 million remained unutilised. As at 31 December 2022, the gearing ratio of the Group, which is equivalent to total interest-bearing debt (including secured bank and other borrowings, bank overdrafts and lease liabilities) divided by total equity, was 61.9% as compared to 72.8% as at 31 December 2021. Moreover, the net gearing ratio of the Group, which is equivalent to total interest-bearing debt (including secured bank and other borrowings, bank overdrafts and lease liabilities) net of total cash and bank balances divided by total equity, was 42.7% as compared to 53.8% as at 31 December 2021. The decrease in gearing ratio was primarily due to a decrease in bank borrowings for the Year while the decrease in net gearing ratio was primarily due to a decrease in bank borrowings as at 31 December 2022.

Management Discussion and Analysis

CAPITAL EXPENDITURE AND CAPITAL COMMITMENTS

During the Year, the Group spent approximately HK\$29.0 million (including interest on bank borrowings of HK\$Nil capitalised as the cost of qualifying assets) on additions to fixed assets as compared to HK\$37.9 million (including interest on bank borrowings of HK\$6.2 million capitalised as the cost of qualifying assets) for the year ended 31 December 2021 mainly to maintain its manufacturing capabilities in Bangladesh. As at 31 December 2022, the Group had capital commitments of HK\$0.6 million in respect of property, plant and equipment (31 December 2021: HK\$0.9 million).

CURRENCY RISKS

A significant portion of the Group's revenue is derived from sales to overseas customers denominated in foreign currencies. For the Year, 87.6% (2021: 87.6%) of the Group's revenue was denominated in U.S. dollar ("**US\$**"). The Group mainly operates in Bangladesh and the PRC and most of the Group's operating expenses are denominated in Bangladeshi Taka ("**Taka**") and Renminbi ("**RMB**").

During the Year, the Group did not enter into any foreign currency forward contracts in view of the high volatility in the exchange rate of RMB. The Group has not hedged exposure to any change in the foreign exchange rate of Taka. The value of Taka or RMB against US\$ and other currencies may fluctuate due to, among other things, political as well as economic policies and conditions both in the jurisdictions in which the Group operates as well as globally. The Group's profit margins could be adversely affected to the extent that the Group is unable to increase the US\$ denominated selling prices of products sold to overseas customers or shift the exchange risk to the Group's customers to account for the appreciation of Taka or RMB against US\$. These fluctuations may result in exchange losses or gains or increases or reductions in the Group's costs after translation from US\$ to RMB or Taka. Any appreciation of Taka or RMB may lead to an increase in the Group's manufacturing costs if the Group is unable to pass on such additional costs to customers. This potential increase may, in turn, affect the Group's competitiveness against competitors outside Bangladesh and/or the PRC.

CONTINGENT LIABILITIES

As at 31 December 2022, the Group did not have any material contingent liabilities.

Management Discussion and Analysis

PLEDGE OF ASSETS

As at 31 December 2022, the Group's banking facilities were secured by:

- (a) pledge of the Group's bank deposits of approximately HK\$85.2 million (2021: HK\$101.9 million);
- (b) the Group's land and buildings and carparks in Hong Kong of approximately HK\$89.4 million (2021: HK\$79.1 million);
- (c) the Group land and buildings of approximately HK\$28.4 million (2021: HK\$24.7 million);
- (d) investment properties in the PRC of approximately HK\$9.3 million (2021: HK\$Nil);
- (e) negative pledge of the assets of certain subsidiaries in the PRC and Bangladesh; and
- (f) certain life insurance contract classified as financial assets at fair value through profit and loss of the Group.

As at 31 December 2022, the Group's other borrowing was secured by the Group's bank deposit of approximately HK\$6.7 million (2021: HK\$4.7 million).

EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2022, the Group employed a total of (i) 25,199 employees in Bangladesh, as compared to 32,002 as at 31 December 2021, (ii) 253 employees in China, as compared to 294 as at 31 December 2021, (iii) 55 employees in Hong Kong, as compared to 58 as at 31 December 2021, and (iv) 29 employees in Japan, the United States, Thailand and Ukraine, as compared to 28 as at 31 December 2021.

Total employee expenditures during the Year amounted to HK\$385.6 million as compared to HK\$393.3 million for the year ended 31 December 2021. The Group determines the remuneration of its employees based on prevailing market conditions, the relevant local laws and regulations regarding wage protection and the performance of the employees. Remuneration includes salary, bonuses and benefits. The remuneration packages of the employees are reviewed annually. The Group operates a defined contribution retirement scheme under the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of the Laws of Hong Kong) for all qualified employees. Employees of the Group's factories in the PRC are members of a state-managed retirement benefit plan operated by the government of the PRC. For employees in Bangladesh, the Group is currently not subject to any compulsory social insurance contribution, but they are covered by a self-managed provident fund operated by the respective subsidiaries of the Group in Bangladesh. In addition, the Company has adopted the Share Option Scheme, details of which are set out in the sub-section headed "Share Option Scheme" in this annual report.

On 11 December 2017, the Company adopted the Share Award Scheme. The Share Award Scheme were completed and terminated as at 30 November 2021.

Management Discussion and Analysis

SHARE OPTION SCHEME

On 19 June 2017, a share option scheme was adopted, whereby the Board may, at its absolute discretion and on such terms as it may think fit, grant any employee (full-time or part-time), director, consultant or adviser of the Group, or any substantial shareholder of the Group, or any distributor, contractor, supplier, agent, customer, business partner or service provider of the Group, options to subscribe for the Shares.

During the Year, no option has been granted or agreed to be granted under the share option scheme.

SIGNIFICANT INVESTMENTS HELD, MATERIAL ACQUISITIONS AND DISPOSALS, AND FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Save as disclosed in this annual report, (i) there were no significant investments held, nor were there any material acquisitions or disposals during the Year; and (ii) no plans have been authorised by the Board for any material investments or additions of capital assets as at the date of this annual report.

IMPORTANT EVENTS AFTER THE END OF THE YEAR

There were no events after the reporting period that had significant impacts on the Group after 31 December 2022 and up to the date of this annual report.

OUTLOOK

Amidst the revival of globalization after the pandemic, the high inflation and interest rates and the lingering pandemic, the Group has been closely monitoring the market conditions and adjusting its business strategies and operations to minimize any negative impacts and strengthen our focus on its core business.

In the coming year, the Group will continue to enhance the financial performance improvement initiatives across its operations including the inventory control, cost optimization, the refining the bank borrowing costs and equipping its business with some environmental facilities for energy saving and environmental protection and increase resource in research and development of new products to expand sales channels.

Corporate Governance Report

The Company is committed to maintaining high standard of corporate governance practices. The Board believes that good corporate governance standards are essential in providing a framework for the Group to safeguard the interests of shareholders, enhance corporate value, formulate its business strategies and policies, and enhance its transparency and accountability.

The Company has adopted the principles and code provisions of the Corporate Governance Code (the “**CG Code**”) contained in Appendix 14 to the Rules Governing the Listing of Securities on the Stock Exchange (the “**Listing Rules**”).

The Board is of the view that, the Company has complied with all the code provisions as set out in the CG Code throughout the Year, save and except for code provision C.2.1, which states that the roles of chairman and chief executive should be separate and should not be performed by the same individual, details of which are set out below:

Pursuant to code provision C.2.1 of the CG Code, the responsibilities between the chairman and the chief executive officer should be separate and should not be performed by the same individual. However, Mr. Chang Yoe Chong Felix, an executive Director, currently performs these two roles in the Company. Given the current scale of the Company’s operations and management structure, the Company considers that entrusting Mr. Chang, who has been the Company’s key leadership figure and chiefly responsible for the business strategy, decisions and operations, to perform both the functions of the chairman and the chief executive officer of the Company is appropriate. The Board believes that vesting the roles of both chairman and chief executive officer in the same person has the benefit of ensuring consistent leadership within the Group and enables more effective and efficient overall strategic planning for the Group. The Board considers that the balance of power and authority for the present arrangement will not be impaired considering the background and experience of the Directors and the number of independent non-executive Directors in the Board and this structure will enable the Company to make and implement decisions promptly and effectively.

Corporate Governance Report

CORPORATE GOVERNANCE PRINCIPLES AND THE COMPANY'S PRACTICES

A. DIRECTORS

A.1. Board of Directors

The Company should be headed by an effective Board which should assume responsibility for leadership and control of the Company and be collectively responsible for promoting the success of the Company by directing and supervising the Company's affairs. Directors should take decisions objectively in the interests of the Company.

The Company has in place mechanisms to ensure that independent views and input are available to the Board. Such mechanisms include appointing sufficient number of independent non-executive Directors, reviewing their time contribution and assessing their performance annually. If required, the Directors may request for separate independent professional advice to be provided to them to assist them to discharge their duties at the Company's expenses.

A.2. Chairman and Chief Executive Officer

There are two key aspects of the management of the Company – the management of the Board and the day-to-day management of the Company's business. There should be a clear division of these responsibilities at the Board level to ensure a balance of power and authority, so that power is not concentrated in any one individual.

Code provision C.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual.

In view of the present composition of the Board, the in-depth knowledge of Mr. Chang Yoe Chong Felix, the Chairman and the Chief Executive Officer, of the Company's operations and the wigs industry in general, his extensive business network and connections, and the scope of operations of the Company, the Board believes that it is in the best interest of the Company for Mr. Chang Yoe Chong Felix to assume the roles of both the Chairman and the Chief Executive Officer.

A.3. Board Composition

The Board should have a balance of skills and experience appropriate for the requirements of the business of the Company. The Board should ensure that changes to its composition can be managed without undue disruption. The Board should include a balanced composition of executive and non-executive Directors (including independent non-executive Directors) so that there is a strong independent element on the Board to enable effective exercise of independent judgment. Non-executive Directors should be of sufficient calibre and number for their views to carry weight.

Corporate Governance Report

The Board currently comprises four executive Directors, namely, Mr. Chang Yoe Chong Felix, Mr. Chan Kwok Keung, Ms. Jia Ziyang and Mr. Li Yanbo; one non-executive Director, namely, Mr. Chan Lau Yui Kevin; and four independent non-executive Directors, namely, Mr. Sin Hendrick *M.H.*, Mr. Szeto Yuk Ting, Ir. Cheung Siu Wa and Mr. Tseung Yuk Hei Kenneth. Mr. Li Yanbo is the spouse of Ms. Jia Ziyang. Mr. Chang Yoe Chong Felix is the Chairman of the Board.

During the Year, the Company has complied with Rules 3.10(1) and 3.10(2) of the Listing Rules in relation to the appointment of at least three independent non-executive Directors with one of whom, being Mr. Sin Hendrick *M.H.*, possessing appropriate professional qualifications, or accounting or related financial management expertise.

The Company has received written annual confirmation from each of the independent non-executive Directors in respect of his independence in accordance with the requirements set out in Rule 3.13 of the Listing Rules. The Company is of the view that all independent non-executive Directors are independent.

Biographies of the Directors including the necessary details of the relationships among the Directors are set out in the section headed “Biographical Details of Directors and Senior Management” of this annual report, which demonstrate a diversity of skills, expertise, experience and qualifications among members of the Board.

A.4. Appointments, Re-election and Removal of Directors

There should be formal, careful and transparent procedures for the appointment of new Directors to the Board. There should be plans in place for orderly succession for appointments to the Board. All Directors should be subject to re-election at regular intervals. The Company must explain the reasons for the resignation or removal of any Director.

Prior to 1st January 2022, Code provision A.4.1 of the CG Code stipulates that non-executive Directors should be appointed for a specific term, subject to re-election. After the new amendment to the CG Code which came into force on 1st January 2022, the non-executive Directors are no longer to be appointed for a specific term. During the Year, Mr. Hui Wing Ki resigned as executive Director with effect from 12 May 2022 and Mr. Kwok Yau Lung Anthony resigned as executive Director with effect from 18 June 2022.

According to article 108 of the articles of association of the Company, at each annual general meeting, one-third of the Directors for the time being, or, if their number is not three or a multiple of three, then the number nearest to but not less than one-third, shall retire from office by rotation provided that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years. A retiring Director shall be eligible for re-election. The Company at the general meeting at which a Director retires may fill the vacated office.

Corporate Governance Report

According to article 112 of the articles of association of the Company, any Director appointed to fill a casual vacancy or as an additional Director shall hold office only until the first general meeting of the Company after such appointment and be subject to re-election at such meeting.

A.5. Responsibilities and Delegation of Directors

The Board oversees the overall management of the Company's businesses and affairs. The Board's primary duty is to ensure the viability of the Company and to ascertain that it is managed in the best interests of the shareholders as a whole while taking into account the interests of other stakeholders.

The Board directly, and indirectly through its committees, leads and provides direction to management by laying down strategies and overseeing their implementation, monitors the Group's operational and financial performance, and ensures that sound internal control and risk management systems are in place.

All Directors, including non-executive Directors and independent non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning.

The independent non-executive Directors are responsible for ensuring a high standard of regulatory reporting of the Company and providing a balance in the Board for bringing effective independent judgement on corporate actions and operations.

The Board reserves its decision for all major matters relating to policy matters, strategies and budgets, internal control and risk management, material transactions (in particular those that may involve conflict of interests), financial information, appointment of directors and other significant operational matters of the Company.

The Board has delegated the day-to-day management of the Company's businesses to the management and the executive committee of the Company, and focuses its attention on matters affecting the Company's long-term objectives and plans for achieving these objectives, the overall business and commercial strategy of the Group as well as overall policies and guidelines.

During the Year, all Directors have been provided, on a quarterly basis, with the Group's management information updates, giving a balanced and understandable assessment of the Group's performance, position, recent developments and prospects in sufficient detail to keep them abreast of the Group's affairs and facilitate them to discharge their duties under the relevant requirements of the Listing Rules.

All Directors are entitled to access Board papers, minutes and related materials. Where queries are raised by Directors, steps are taken to respond as promptly and fully as possible.

Corporate Governance Report

A.6. Model Code for Securities Transactions

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Listing Rules (the “**Model Code**”) as its code of conduct for securities transactions by the Directors. All the Directors have confirmed, following a specific enquiry by the Company, that they had complied with the required standards as set out in the Model Code throughout the Year.

The Company has also established written guidelines (the “**Employees Written Guidelines**”) no less exacting than the Model Code for securities transactions by employees who are likely to be in possession of inside information of the Company. No incident of non-compliance of the Employees Written Guidelines by the employees was noted by the Company.

A.7. Corporate Governance Functions

The Audit Committee is responsible for performing the functions as set out in code provision D.3.3 of the CG Code.

During the Year, the Audit Committee has reviewed the Company’s corporate governance policies and practices, training and continuous professional development (“**CPD**”) of the Directors and senior management, the Company’s policies and practices on compliance with legal and regulatory requirements, the Company’s compliance with the CG Code and the disclosures in this report.

A.8. Continuous Professional Development of Directors

Directors shall keep abreast of regulatory developments and changes in order to effectively perform their responsibilities and to ensure that their contribution to the Board remains informed and relevant.

Every newly appointed Director would receive formal, comprehensive and tailored induction on the first occasion of his/her appointment to ensure appropriate understanding of the business and operations of the Company and full awareness of Director’s responsibilities and obligations under the Listing Rules and relevant statutory requirements. Such induction would be supplemented by visits to the Company’s key plant sites and meetings with senior management of the Company.

Directors should participate in appropriate CPD training to develop and refresh their knowledge and skills. Internally-facilitated briefings for Directors would be arranged and reading materials on relevant topics would be provided to Directors where appropriate. All Directors are encouraged to attend relevant training courses at the Company’s expenses.

The Directors are required to provide the Company with details of the CPD training undertaken by them from time to time. Based on the details so provided, the CPD training undertaken by the Directors in the Year is summarized as follows:

Corporate Governance Report

Corporate Governance Report

B. BOARD COMMITTEES

The Board has established three committees, namely, the Audit Committee, the Remuneration Committee and the Nomination Committee, for overseeing particular aspects of the Company's affairs and delegated its authority to these committees to assist it in the implementation of its functions.

The terms of reference setting out the authorities, duties and responsibilities of the above committees are posted on the Company's website and the Stock Exchange's website and are available to shareholders upon request.

B.1. Audit Committee

On 19 June 2017, the Board established the Audit Committee which currently comprises three independent non-executive Directors, namely Mr. Sin Hendrick *M.H.* (Chairman), Mr. Szeto Yuk Ting and Mr. Tseung Yuk Hei Kenneth. The Company has complied with Rule 3.21 of the Listing Rules, which requires that the Audit Committee must comprise a minimum of three members with at least one member being an independent non-executive Director possessing appropriate professional qualifications or accounting or related financial management expertise, and must be chaired by an independent non-executive Director. All members of the Audit Committee have appropriate skills and experience in reviewing financial statements as well as addressing significant control and financial issues of the Company.

B.1.1. Duties of the Audit Committee

The Audit Committee is principally responsible for, among other things, monitoring the integrity of periodical financial statements of the Company, reviewing significant financial reporting judgments contained in them before submission to the Board for approval, reviewing and monitoring the external auditor's independence and objectivity as well as the effectiveness of the audit process in accordance with applicable standards.

The Audit Committee has been delegated with the responsibilities to develop, review, monitor, and make recommendations to the Board (as appropriate) in respect of the Company's policies and practices of corporate governance (including the compliance with the CG Code and the relevant disclosures in the Company's interim and annual reports), whether the practices are in compliance with legal and regulatory requirements, the Company's compliance with the CG Code and disclosures in this report and the training and continuous professional development of the Directors and senior management of the Company. In addition, the Audit Committee has also been delegated the duties of overseeing and reviewing the Company's risk management and internal control systems.

Corporate Governance Report

B.1.2. Work Performed by the Audit Committee

The Audit Committee held three meetings during the Year, at which it reviewed the audited annual results of the Group for the year ended 31 December 2021, the unaudited interim results of the Group for the six months ended 30 June 2022 and the 2022 Planning Report to Audit Committee of the Group prepared by Deloitte Touche Tohmatsu, the Company's independent auditor ("**Deloitte**" or the "**Independent Auditor**"), the terms of reference of the Audit Committee, other matters related to the financial and accounting policies and practices of the Company, as well as the nature and scope of the audit for the Year. Further, it reviewed the Group's internal control review report, the risk management policy and a report on risk assessment prepared by CityLinkers Corporate Advisory Services Limited (an independent advisor of the Company) (the "**Independent Advisor**"), and put forward relevant recommendations to the Board for approval.

On 29 March 2023, the Audit Committee held another meeting and reviewed the audited consolidated financial statements of the Group as well as the accounting principles and policies for the Year in the presence of the representatives from Deloitte, and the Company's management. It also reviewed this report, a report on enterprise risk management of the Company prepared by the Independent Advisor and a report on internal control review and assessment of risk management prepared by the internal audit team of the Group. The Audit Committee concluded that the internal control systems and risk management of the Group are effective and adequate.

B.2. Remuneration Committee

On 19 June 2017, the Board established the Remuneration Committee which currently comprises five members, including four independent non-executive Directors, namely Mr. Szeto Yuk Ting (Chairman), Mr. Sin Hendrick *M.H.*, Mr. Tseung Yuk Hei Kenneth and an executive Director, Mr. Chang Yoe Chong Felix.

The Remuneration Committee has adopted the model under code provision E.1.2(c)(ii) of the CG Code, where it performs an advisory role to the Board by making recommendations to the Board on the remuneration packages of the Directors and the senior management of the Company, with the Board retaining the final authority to approve the remuneration packages of such individuals.

B.2.1. Duties of the Remuneration Committee

The Remuneration Committee has been charged with the responsibility of making recommendations to the Board, in consultation with the Chairman of the Board, on an appropriate policy and framework for all aspects of remuneration of all Directors and senior management of the Company, including but not limited to Directors' fees, salaries, allowances, bonuses, share options, benefits in kind and pension rights, to ensure that the level of remuneration offered by the Company is competitive and sufficient to attract, retain and motivate personnel of the required quality to manage the Company successfully.

Corporate Governance Report

B.2.2. Work Performed by the Remuneration Committee

The Remuneration Committee held one meeting during the Year to discuss the Company's remuneration-related matters. All members of the Remuneration Committee had also deliberated on matters relating to the director's fee of independent non-executive Directors, the remuneration package of, payment of bonuses and grant of share awards to, certain executive Directors and senior management of the Company and the remuneration packages of the Directors newly appointed during the Year. No Director was involved in deciding his own remuneration at the meeting of the Remuneration Committee.

The remuneration of the members of the senior management of the Group by band for the Year is set out below:

Remuneration band	Number of persons
HK\$1 to HK\$500,000	7
HK\$500,001 to HK\$1,500,000	1
HK\$1,500,001 to HK\$2,500,000	1
HK\$3,000,001 to HK\$4,000,000	1

B.3. Nomination Committee

On 19 June 2017, the Board established the Nomination Committee which currently comprises four members, including an executive Director, Mr. Chang Yoe Chong Felix (Chairman) and three independent non-executive Directors, namely Mr. Sin Hendrick *M.H.*, Mr. Szeto Yuk Ting and Mr. Tseung Yuk Hei Kenneth.

B.3.1. Duties of the Nomination Committee

The principal duties of the Nomination Committee include reviewing the composition of the Board, developing and formulating relevant procedures for the nomination and appointment of Directors, making recommendations to the Board on the appointment and succession planning of Directors, and assessing the independence of the independent non-executive Directors.

The Company and the Nomination Committee commit to selecting the best person for the role as Director. In assessing the composition of the Board, the Nomination Committee would take into account various aspects as well as factors concerning Board diversity as set out in the Board diversity policy adopted by the Company, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

Corporate Governance Report

In identifying and selecting suitable candidates for directorships, the Nomination Committee would consider the candidate's character, qualifications, experience, independence and other relevant criteria necessary to complement the corporate strategy and achieve Board diversity, where appropriate, before making recommendation to the Board.

The Company has adopted a policy for the nomination of Directors, which sets out the procedures as well as the process and criteria for nomination and appointment of a new Director and aims to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the needs of the Company's business.

The Nomination Committee should, upon receipt of the proposal on appointment of a new Director and his/her biographical information, evaluate such candidate based on the criteria as set out in the nomination policy to determine whether such candidate is qualified for directorship. If the process yields one or more desirable candidates, the Nomination Committee should rank them by order of preference based on the needs of the Company and reference check of each candidate. The Nomination Committee should then recommend to the Board to appoint the appropriate candidate for directorship, as applicable. For any person that is nominated by a shareholder for election as a Director at the general meeting of the Company, the Nomination Committee should evaluate such candidate based on the criteria as set out in the nomination policy to determine whether such candidate is qualified for directorship.

To ensure that a newly appointed Director will have a proper understanding of the operations and business of the Company and is fully aware of his/her responsibilities under all applicable laws and regulations (including the Listing Rules), he/she will be provided with a comprehensive, tailored made and formal induction on the first occasion of his/her appointment.

B.3.2. Work Performed by the Nomination Committee

The Nomination Committee held one meeting during the Year to review the size and composition of the Board and the independence of the independent non-executive Directors, identify any new Board member and make recommendation on the re-election of the retiring Directors at the 2022 annual general meeting.

Corporate Governance Report

C. ATTENDANCE RECORD AT MEETINGS

During the Year, eight Board meetings, three meetings of the Audit Committee, one meeting of the Remuneration Committee, one meeting of the Nomination Committee and one general meeting of the Company were held. Attendance of individual Directors at such meetings are as follows:

Directors are consulted to include matters in the agenda for regular Board meetings.

Dates of regular Board meetings are scheduled at least 14 days in advance to provide sufficient notice to give all Directors an opportunity to attend. For all other Board meetings, a reasonable period of notice will be given.

Directors have access to the advice and services of the company secretary of the Company to ensure that Board procedures and all applicable rules and regulations are followed.

Corporate Governance Report

Minutes of the Board, the Audit Committee, the Remuneration Committee and the Nomination Committee are kept by the company secretary and are open for inspection at any reasonable time on reasonable notice by any Director.

Minutes of the Board, the Audit Committee, the Remuneration Committee and the Nomination Committee have recorded in sufficient detail the matters considered by the Board and the committees, decisions reached, including any concerns raised by Directors or dissenting views expressed. Draft and final versions of such minutes would be sent to all Directors for their comments and records.

D. ACCOUNTABILITY AND AUDIT

D.1. Financial Reporting

The Directors acknowledge that they are responsible for overseeing the preparation of the financial statements which give a true and fair view of the financial position of the Group and of the financial performance and cash flows for such reporting period. In doing so, the Directors select suitable accounting policies and apply them consistently and make accounting estimates that are appropriate in the circumstances. With the assistance of the accounting and finance staff, the Directors ensure that the financial statements of the Group are prepared in accordance with statutory requirements and appropriate financial reporting standards. The Directors are also responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Group.

The Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

More detailed descriptions of the changes in accounting policies (if any) and the related financial impacts are included in the audited consolidated financial statements of the Group for the Year.

D.2. Independent Auditor's Reporting

The statement by the Independent Auditor about its reporting and auditing responsibilities for the financial statements is set out in the Independent Auditor's Report contained in this annual report.

D.3. Independent Auditor's Remuneration

The fees in respect of the audit and non-audit services provided to the Group by the Independent Auditor for the Year amounted to approximately HK\$2.4 million and HK\$0.2 million, respectively. The non-audit services mainly consisted of tax assessment review and interim review of the Group for the Year.

Corporate Governance Report

E. DIVERSITY

The Company has adopted a board diversity policy. As detailed under paragraph B.3.1 above in this Corporate Governance Report, gender is one of the factors which the Board will consider in maintains the composition of the Board. As at the date of this report, there is one female Director on the Board. In the future, the Board will continue to pay due regard to the importance of diversity in identifying potential candidates for directorships and continue to ensure that gender is one of the factors to be considered in appointing Directors by the Nomination Committee.

As at 31 December 2022, the gender ratio of the workforce of the Group was 28:72 male to female. As to senior management, currently the Chief Financial Officer of the Company is male. Although the Company does not currently have a specific diversity policy on hiring employees or appointing senior management, its HR measures and practices promote anti-discrimination and equal opportunity in all human resources decisions processes, as mentioned in the paragraph 5.1.1 of the Environmental, Social and Governance Report. The Company will review the effectiveness of these measures and practices against the actual circumstances of the Group and will adopt new policies when considered necessary. In particular, it will continue to monitor the above-mentioned gender ratio and will aim at achieving a greater gender diversity in hiring all positions across the Group.

F. INTERNAL CONTROLS AND RISK MANAGEMENT REPORT

The Board is directly responsible for risk management and the internal control systems of the Group and reviewing their effectiveness. The systems are designed for the Group to identify and manage significant risks to achieve its business objectives, safeguard its assets against unauthorised use or disposition, ensure the maintenance of proper accounting records for the provision of reliable financial information for internal use or for publication, and ensure compliance with relevant laws and regulations. The systems are designed to manage rather than to eliminate the risk of failure in order to achieve the business objectives of the Group, and can only serve as reasonable, but not absolute, assurance against material misstatement or loss.

The Board determines the nature and extent of risks that shall be taken in achieving the Group's strategic objectives, and has the overall responsibility for monitoring the design and implementation and the overall effectiveness of the systems. The Board conducts and reviews the effectiveness of the systems on a semi-annual basis through the Audit Committee which is responsible for all material controls and measures, including financial, operational and compliance controls. The Board has adopted a comprehensive risk management policy to identify, evaluate and manage significant risks. The Group can thereby identify risks which might adversely affect the achievement of the Group's objectives, and assess as well as prioritise the level of risk, in order to draw up risk mitigation plans which can then be established to respond to such significant risks.

Corporate Governance Report

The Audit Committee relies on the following parties for reviewing the Group's systems:

- The Company has an internal audit function. The Group Internal Audit Department (the "**GIA**") reviews material internal control aspects of the Group, including financial, operations and compliance controls. During the Year, the GIA conducted audits and issued internal audit reports to management covering various financial, operational and compliance controls based on the annual internal audit work plan. Audit findings were reported to the Audit Committee and the Board on a semi-annual basis. Relevant findings, recommendations and risk assessment results reported by GIA were communicated with management and remediation actions were taken to resolve deficiencies once they are identified. There were no material internal control deficiencies identified during the year.
- To further strengthen the resilience of the systems, during the year the Board had engaged an external independent internal control consultant ("**the IC Consultant**") to perform a review of the Group's internal controls (the "**Internal Controls Review**") and assist the Company to perform a Group level risk assessment. The scope of work of the IC Consultant was to conduct a gap analysis of the Company's overall systems to identify potential areas of improvement through interviews with designated responsible personnel and examined relevant documents of certain business processes, and to recommend remedial actions to be taken. Observations are reported to the Audit Committee on an annual basis.
- The IC Consultant adopts a risk-based approach when reviewing the system; the GIA develops and implements the annual internal audit work plan based on the Group level risk assessment results.

Management has confirmed to the Board and the Audit Committee on the effectiveness of the systems during the Year. The Board, as supported by the Audit Committee, reviewed the systems, including the financial, operational and compliance controls during the Year, and considered that such systems are effective and adequate. The annual review also covered the Company's accounting and financial reporting function, internal audit as well as the function relating to its ESG performance and reporting staff's qualifications, experiences and relevant resources.

G. HANDLING AND DISSEMINATION OF INSIDE INFORMATION

The Company has put in place a policy on handling and dissemination of inside information which sets out the procedures and internal controls for handling and dissemination of inside information in a timely manner in such a way to avoid placing any person in a privileged dealing position. The inside information policy also provides guidelines to employees of the Group to ensure proper safeguards exist to prevent the Company from breaching the statutory and Listing Rules disclosure requirements. The Company has appropriate internal control and reporting systems to identify and assess potential inside information. Dissemination of inside information of the Company shall be conducted by publishing the relevant information on the websites of the Stock Exchange and the Company, according to the requirements of the Listing Rules.

Corporate Governance Report

H. COMPANY SECRETARY

Mr. Siu Ching Hung, an employee of the Company, has been appointed as the company secretary of the Company. During the Year, Mr. Siu has complied with the relevant professional training requirement under Rule 3.29 of the Listing Rules.

I. COMMUNICATION WITH SHAREHOLDERS

I.1. Effective Communication

On 19 June 2017, the Board adopted a shareholders' communication policy reflecting mostly the current practices of the Company for communication with its shareholders. Such policy aims at providing the shareholders and potential investors with ready and timely access to balanced and understandable information of the Company. It will be reviewed regularly to ensure its effectiveness and compliance with the prevailing regulatory and other requirements.

The Company has established a number of channels for maintaining an on-going dialogue with its shareholders as follows:

- (i) corporate communications such as annual reports, interim reports and circulars are issued in printed form and are available on the Company's website at www.epfhk.com and the Stock Exchange's website at www.hkexnews.hk;
- (ii) periodic announcements are made through the Stock Exchange and published on websites of the Company and the Stock Exchange, respectively;
- (iii) corporate information is made available on the Company's website and the articles of association of the Company is made available on websites of the Company and the Stock Exchange, respectively;
- (iv) annual general meetings and other general meetings of the Company provide a forum for the shareholders to make comments and exchange views with the Directors and senior management of the Company; and
- (v) the Company's share registrar serves the shareholders in respect of share registration, dividend payment, change of shareholders' particulars and related matters.

On 6 May 2022, the annual general meeting was held, at which the Board and the chairmen of the Audit Committee and the Remuneration Committee were present to answer questions from shareholders.

The Chairman of the Board and the chairmen of the Audit Committee and the Remuneration Committee shall attend the upcoming annual general meeting of the Company to answer questions from shareholders.

Corporate Governance Report

I.2. Procedures for Convening an Extraordinary General Meeting by Shareholders

Pursuant to article 64 of the articles of association of the Company, one or more shareholders of the Company holding, at the date of deposit of the requisition, not less than one-tenth of the paid-up capital of the Company and having the right of voting at general meetings may make a requisition to convene an extraordinary general meeting by a written requisition to the Board or the company secretary either via mail to the Company's principal place of business in Hong Kong at 11th Floor, Chiap Luen Industrial Building, 30–32 Kung Yip Street, Kwai Chung, New Territories, Hong Kong or at the Company's Hong Kong branch share registrar, Tricor Investor Services Limited at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong, or via email to info2@epfhk.com. Such meeting shall be held within two months after the deposit of such requisition. If the Board fails to proceed to convene such meeting within 21 days of such deposit, the requisitionist(s) himself/themselves may do so in the same manner.

I.3. Procedures for Putting Forward Proposals at General Meetings

Any shareholder who wishes to put forward proposals at a general meeting of the Company shall submit such proposals to the Board in writing for the Board's consideration either via mail to the Company's principal place of business in Hong Kong at 11th Floor, Chiap Luen Industrial Building, 30–32 Kung Yip Street, Kwai Chung, New Territories, Hong Kong or at the Company's Hong Kong branch share registrar, Tricor Investor Services Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong, or via email to info2@epfhk.com not less than seven days prior to the date of the general meeting.

I.4. Procedures for Proposing a Person for Election as a Director

As regards the procedures for proposing a person for election as a Director, please refer to the procedures titled "Procedures for Shareholders to Propose a Director" made available under the section headed "Investor Relations – Corporate Governance" in the Company's website at www.epfhk.com.

I.5. Procedures for Putting Forward Enquiries to the Board

To put forward any enquiries to the Board, shareholders may send written enquiries to the Company. The Company will normally not deal with verbal or anonymous enquiries.

Address: 11th Floor, Chiap Luen Industrial Building, 30–32 Kung Yip Street, Kwai Chung, New Territories, Hong Kong, for the attention of the Board of Directors/Company Secretary

Email: info2@epfhk.com

For the avoidance of doubt, shareholders must deposit and send the original duly signed written requisition, notice or statement, or enquiry (as the case may be) to the above address and provide their full name, contact details and identification in order to give effect thereto. Shareholders' information may be disclosed as required by law.

Corporate Governance Report

J. CONSTITUTIONAL DOCUMENTS

There was no change in the memorandum and articles of association of the Company during the Year.

K. INVESTOR RELATIONS

The Company keeps on promoting good investor relations and enhancing communication with its shareholders and potential investors in order for them to better understand the Group's business performance and strategies. In line with the shareholders' communication policy of the Company, the Company maintains an on-going dialogue with shareholders and the investment community, in particular, through annual general meetings and other general meetings. At the annual general meeting, Directors (or their delegates as appropriate) are available to meet shareholders and answer their enquiries. Investors, stakeholders and the public can also communicate and/or raise concerns or suggestions with the Company by phone on (852) 2427 5468 during normal business hours, by fax at (852) 2420 3938 or by e-mail at info2@epfhk.com.

The Board has considered the shareholders' communication policy of the Company as described above and is satisfied that there are effective channels by which shareholders can communicate and raises concern with the Company.

Report of the Directors

The Directors present their report and the audited consolidated financial statements (“**Consolidated Financial Statements**”) of the Group for the Year.

PRINCIPAL ACTIVITIES

During the Year, the principal activities of the Group included the manufacturing and trading of hair products. There were no significant changes in the nature of the Group’s principal activities during the Year and up to the date of this report.

Particulars of the Company’s principal subsidiaries as at 31 December 2022 are set out in note 40 to the Consolidated Financial Statements.

BUSINESS REVIEW AND OUTLOOK

A fair review of the business of the Group including a discussion and analysis of the Group’s performance during the Year and the material factors underlying its financial performance and financial position as well as an indication of likely future development in the Group’s business as required by section 388(2) and Schedule 5 to the Companies Ordinance (Chapter 622 of the Laws of Hong Kong) can be found in the section headed “Management Discussion and Analysis” of this annual report. The financial risk management objectives and policies of the Group are set out in note 36 to the Consolidated Financial Statements.

RESULTS AND DIVIDENDS

Details of the consolidated loss of the Group for the Year and the Group’s financial position as at 31 December 2022 are set out in the Consolidated Financial Statements and their accompanying notes on pages 103 to 201.

The Board has recommended the payment of a final dividend of HK3.7 cents per Share for the Year, totalling approximately HK\$25,385,000 based on a total of 686,082,000 Shares in issue as at the date of this annual report, plus the interim dividend of HK1.7 cents per Share already declared and paid, making a total dividend of HK5.4 cents per Share (2021: final dividend of HK1.1 cents per Share and interim dividend of HK1.3 cents per Share).

Report of the Directors

DIVIDEND POLICY

The Company has adopted a dividend policy (the “**Dividend Policy**”) on payment of dividends. The objectives of the Dividend Policy are to allow shareholders of the Company to participate in the Company’s profits and to attract potential investors whilst retaining adequate reserves for the Group’s future growth.

The Board shall consider the following factors of the Group before declaring or recommending dividends:

- financial results;
- shareholders’ interests;
- general business conditions and strategies;
- capital requirements;
- contractual restrictions on the payment of dividends by the Company to its shareholders or by the Company’s subsidiaries to the Company;
- taxation considerations;
- possible effects on our creditworthiness;
- statutory and regulatory restrictions; and
- any other factors the Board may deem relevant.

The Company intends distribute no less than 20% of its net distributable profits as dividends to its shareholders for each financial year, subject to the conditions and factors as set out above.

The Board will review the Dividend Policy, as appropriate, to ensure its effectiveness from time to time.

PRINCIPAL RISKS AND UNCERTAINTIES

The principal risks and uncertainties that may cause the Group’s financial conditions or results materially different from the expected or historical results can be categorised into the following areas: (i) risks relating to the Group’s business and industry; (ii) risks relating to conducting business in Bangladesh; and (iii) risks relating to conducting business in the PRC, as described below:

Report of the Directors

RISKS WITH REGARD TO LABOUR SUPPLY, INCREASED LABOUR COSTS AND OTHER FACTORS AFFECTING LABOUR SUPPLY FOR THE GROUP'S PRODUCTION

The manufacturing of hair goods is labour intensive. Labour supply is key to being able to ensure the quality of the Group's products. The Group's performance relies on the steady supply of skilled and low-cost labour in Bangladesh and the PRC. The Group's direct labour costs accounted for approximately 35.2% of its total cost of goods sold for the Year (2021: 33.3%). Labour costs are primarily affected by the demand for and supply of labour, laws and regulations governing the industries operating inside the export processing zones, and other economic factors such as the rate of inflation and standard of living. Labour costs may increase due to a shortage of skilled labour or growing industry demands for skilled workers. There is no assurance that supply of skilled workers would not be disrupted or that labour costs would not increase. As such, the Group is subject to the risks associated with labour supply and its respective costs.

RISKS WITH REGARD TO HIGHLY COMPETITIVE INDUSTRY AND COMPETITION AMONG COMPETITORS

The industry in which the Group operates is highly competitive and fragmented. Competitive factors include product quality, price, design and development capability, timely delivery, valuable service, scale and capacity, and efficiency. The Group faces competition from existing and new players in the hair goods industry worldwide, including numerous manufacturers in the PRC and Indonesia which offer similar hair goods at lower prices than it does, as well as other enterprises which offer an increasing number of related products which could be used as substitutes for the Group's products. The Group's competitors conduct operations in Indonesia, Bangladesh, Cambodia or other developing countries where labour costs are relatively lower, and as a result they may adopt more competitive pricing strategies and achieve greater scales of production at lower production costs. In addition, margin pressure could arise from, among other factors, limited demand growth and overcapacity in a relevant market, price reductions by competitors, new industry players, industry consolidation, and the ability of competitors to capitalise on their economies of scale and create excess product supply.

Moreover, the entry barriers to the hair goods industry are relatively low as hair goods do not require advanced technology to produce and a small amount of production of these products does not require intensive capital investment. The Group therefore faces intense domestic and foreign competition in terms of production and sales. In the overseas market, enterprises located in central and southern Asian regions where hair goods may be commonly produced (for example, India and Pakistan) have been very competitive in terms of cost as there are cheap and abundant supplies of labour. In response to increasing labour and rental costs in the PRC, some PRC manufacturers are shifting their manufacturing bases from the PRC to various Asian countries such as Indonesia and Bangladesh.

Report of the Directors

To compete effectively, the Group may be forced, among other actions, to reduce prices, provide more sales incentives to customers and increase capital expenditures in the Group's labour force, plant, property and equipment. Any or a combination of these events may reduce the Group's profitability which could, in turn, adversely affect the Group's business, financial condition, results of operations and prospects. Any intensification of the competition or failure by us to compete successfully with the Group's competitors could have an adverse impact on the demand for, and pricing of, the Group's products, and as a result, could result in a reduction of the Group's market share and have an adverse effect on the Group's business, financial condition, results of operations and prospects.

RISKS WITH REGARD TO SIGNIFICANT RELIANCE ON SALES IN THE UNITED STATES AND OTHER INTERNATIONAL MARKETS

A significant portion of the Group's revenue is derived from international markets, in particular, the United States. For the Year, the Group derived 97.8% (2021: 96.3%) of the Group's revenue from outside the PRC and derived 87.6% (2021: 87.6%) of the Group's revenue from sales to the United States. As the Group relies heavily on international sales and sales to the United States, the economic conditions of these regions have had and will continue to have a significant impact on the Group's sales and business. Any significant downturn in the global economy and particularly in the local economies of the United States could have an adverse effect on the Group's business, financial condition, results of operations and prospects.

RISKS WITH REGARD TO FAILURE ON DESIGN, RESEARCH AND DEVELOPMENT OF NEW HAIR GOODS AND LOSE THE GROUP'S COMPETITIVENESS

The sales of hair goods to a specific sales market are subject to several factors, including consumers' taste, design, fashion trends and usage. There may be changes in fashion trends and consumers may have a change in preference towards certain hair goods in the future. The Group's future success depends upon the ability to address the changes in consumer trends by developing and introducing new and innovative products on a timely basis and in accordance with changing demands. The Group's market research regarding the latest trends of hair goods may be inaccurate, or the Group may fail to appreciate the change in customer preferences.

Report of the Directors

RISKS WITH REGARD TO ANY DISRUPTION IN SUPPLIERS' SUPPLY THAT COULD HAVE AN ADVERSE EFFECT ON THE GROUP'S BUSINESS, RESULTS OF OPERATIONS, FINANCIAL CONDITION AND PROSPECTS

The Group's five largest suppliers collectively supplied raw materials comprising 23.0% (2021: 33.3%) of the Group's cost of goods sold during the Year. The Group's largest supplier supplied raw materials comprising 18.9% (2021: 27.6%) of the Group's cost of goods sold. Some of the synthetic fibres that the Group uses in the manufacturing of products are not able to be readily sourced from other suppliers. If there is any decrease or disruption in supply or an increase in prices by one or more of the Group's major suppliers, particularly the Group's largest supplier, or any termination of the Group's business relationships with the Group's major suppliers and any failure to find replacement suppliers on similar or favourable terms in a timely manner, the Group's business, results of operations, financial condition and prospects could be adversely affected.

In general, the Group does not enter into any long-term supply agreements, which exposes the Group to uncertainty and potential volatility with respect to the Group's costs of raw materials and supply of raw materials. The prices of most of the Group's raw materials generally follow the price trends of, and vary with, prevailing market conditions. There is no assurance that the Group can continue to secure adequate supplies of raw materials at a competitive cost level to meet its production requirements. If the Group experiences any interruption, reduction or termination in supply of raw materials from its suppliers, or is unable to find a substitute material to meet the Group's production schedule or to produce or at all, the Group might not be able to have a stable and adequate supply of raw materials needed for the production of its products.

RISKS WITH REGARD TO POTENTIAL FINANCIAL DIFFICULTIES IF THE GROUP FAILS TO MAINTAIN SUFFICIENT WORKING CAPITAL

As at 31 December 2022, the Group recorded net cash from operating activities of HK\$421.6 million (2021: net cash from operating activities of HK\$477.7 million) and net cash use in financing activities of HK\$368.4 million (2021: net cash used in financing activities of HK\$465.7 million). During the Year, the Group had used net cash of HK\$38.5 million (2021: HK\$14.7 million) in its investing activities. The Group had total bank and other borrowings and bank overdrafts of HK\$540.2 million (2021: HK\$658.6 million), out of which HK\$526.2 million (2021: HK\$589.6 million) will be due within one year or repayable on demand. Also, the Group had cash and cash equivalents of HK\$78.6 million (2021: HK\$68.4 million) and unutilised bank credit facilities of HK\$187.0 million (2021: HK\$233.1 million). While the Group has in the past financed its working capital needs primarily with cash generated from operating activities and borrowings, there is no assurance that the Group will always be able to generate net cash from operating activities or that banking facilities or other loans will always be available to it on commercially acceptable terms, or at all. Even if the Group is able to obtain new borrowings, any increased level of indebtedness could have a negative impact on the Group's business. For example, any increase in finance expenses could lower the Group's profitability, and the banking facilities that the Group may enter into may contain covenants limiting its flexibility in planning for, or reacting to, changes in its business. The Group may even be in breach of certain covenants in existing bank facilities by increasing its level of indebtedness.

Report of the Directors

RISKS WITH REGARD TO CONDUCTING BUSINESS IN BANGLADESH

The Group's principal manufacturing capacities are currently housed in the Bangladesh Factory. As at 31 December 2022, the Group had a total of 25,199 employees (2021: 32,002 employees) in Bangladesh. Operating in developing countries exposes the Group to risks associated with regional, political and economic instabilities that could have a disproportionately negative effect on the Group's business, financial condition, results of operations and prospects.

The application of the laws in emerging-market countries such as Bangladesh is not always clear or consistent. The legislative drafting has not always kept pace with the demands of the marketplace, which can make it difficult to ensure that the Group is in compliance with changing legal requirements. Moreover, the government has the broad discretion in the grant of its licences and permits, including revocation for public interests. In addition, regulations are often introduced that require the Group to implement changes that are costly and technologically challenging. The regulators responsible for the control and supervision of communications services in Bangladesh frequently check the Group's compliance with the requirements of the applicable regulations. The Group may incur significant costs in implementing such compliance.

Corruption and poor governance in Bangladesh have historically been a hindrance to the Bangladesh government's ability to attract foreign investment and to reduce poverty. Failure of the Bangladesh government to continue to fight corruption or the perceived risk of corruption in Bangladesh could have an adverse effect on the Bangladesh economy, which may adversely affect the Group's business, financial condition, results of operations and prospects.

RISKS WITH REGARD TO CONDUCTING BUSINESS IN THE PRC

The economic, political and social conditions in the PRC, as well as government policies, laws and regulations, could affect the business, financial condition, results of operations and prospects of the Group.

As at the date of this report, the Group has small scale operations in the PRC, including production centres in Kunming, Yunnan, and production and research and display centres in Nantou, Shenzhen. Accordingly, the Group's results of operations and prospects are also subject to economic, political and legal developments in the PRC. The PRC's economy differs from the economies of most developed countries in many respects, including the extent of government involvement, its level of development, its growth rate and its control over foreign exchange. The PRC's economy has been transitioning from a planned economy to a more market-oriented economy. In recent years, the PRC Government has implemented measures emphasising market forces for economic reform, the reduction of state ownership of productive assets and the establishment of sound corporate governance in business enterprises. However, a portion of productive assets in the PRC is still owned by the PRC Government. The PRC Government continues to play a significant role in regulating industrial development. It also exercises significant control over the PRC's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policies and providing preferential treatments to particular industries or companies. All of these factors may affect the economic conditions in the PRC and, in turn, the Group's business.

Report of the Directors

INTEREST RATE RISKS

Most of the Group's borrowings are floating-rate bank loans, which expose the Group to rising interest rates. The Group will closely monitor the interest rate risk and when appropriate adopt measures to manage the associated risk, including but not limited to, the issuance of fixed rate bonds, and use of derivatives such as interest rate swaps and management of the ratio of fixed or floating loan portfolio. The Group had not entered into any interest rate swap contract to hedge exposure to the fluctuations of floating rate bank loans during the Year. (2021: HK\$15 million). During the Year, the Group had not incurred any net loss (2021: HK\$1,000) from the transactions under the contract.

During the Year and up to the date of this report, none of the Directors is considered to have interests in businesses which compete or are likely to compete, either directly or indirectly, with the businesses of the Group pursuant to the Listing Rules.

DEED OF NON-COMPETITION

Each of the controlling shareholders of the Company, namely, Mr. Chang Yoe Chong Felix, FC Management Limited, FC Investment Worldwide Limited, CLC Management Limited, CLC Investment Worldwide Limited, Golden Evergreen Limited and Evergreen Enterprise Holdings Limited, has confirmed to the Company his/its compliance with the non-competition undertakings given to the Company under the Deed of Non-competition as defined in the prospectus of the Company dated 29 June 2017.

SHARE OPTION SCHEME

On 19 June 2017 (the “**Adoption Date**”), a share option scheme (the “**Share Option Scheme**”) was adopted by the Company. The following is a summary of the principal terms of the rules of the Share Option Scheme:

PURPOSE OF THE SHARE OPTION SCHEME

The purpose of the Share Option Scheme is to attract and retain the best available personnel, to provide additional incentive to employees (full-time and part-time), directors, consultants, advisers, distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group and to promote the success of the business of the Group.

Report of the Directors

WHO MAY JOIN AND BASIS OF ELIGIBILITY

The Board may, at its absolute discretion and on such terms as it may think fit, grant any employee (full-time or part-time), director, consultant or adviser of the Group, or any substantial shareholder of the Group, or any distributor, contractor, supplier, agent, customer, business partner or service provider of the Group, options to subscribe at a price calculated in accordance with paragraph headed “price of shares” below for such number of Shares as it may determine in accordance with the terms of the Share Option Scheme.

The basis of eligibility of any participant to the grant of any option shall be determined by the Board (or as the case may be, the independent non-executive Directors) from time to time on the basis of his/her contribution or potential contribution to the development and growth of the Group.

PRICE OF SHARES

The subscription price of a Share in respect of any particular option granted under the Share Option Scheme shall be a price solely determined by the Board and notified to a participant and shall be at least the higher of: (i) the closing price of the Shares as stated in the Stock Exchange’s daily quotations sheet on the date on which the option is offered, which must be any day on which the Stock Exchange is open for the business of dealings in securities (“**Business Day**”); (ii) the average of the closing prices of the Shares as stated in the Stock Exchange’s daily quotations sheets for the five Business Days immediately preceding the date on which the option is offered; and (iii) the nominal value of a Share on the date on which the option is offered.

MAXIMUM NUMBER OF SHARES AVAILABLE FOR ISSUE UNDER THE SHARE OPTION SCHEME

The maximum number of Shares issuable upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Company (excluding, for this purpose, Shares issuable upon exercise of options which have been granted but which have lapsed in accordance with the terms of the Share Option Scheme or any other share option schemes of the Company) must not in aggregate exceed 10% of all the Shares in issue as at the Listing Date, i.e. 61,500,000 Shares.

As at the date of this report, the total number of shares available for issue under the Share Option Scheme was 61,500,000 Shares, representing approximately 8.96% of the Company’s issued share capital as at the date of this report.

MAXIMUM ENTITLEMENT OF EACH PARTICIPANT UNDER THE SHARE OPTION SCHEME

The total number of Shares issued and to be issued upon exercise of options granted to any participant (including both exercised and outstanding options) under the Share Option Scheme or any other share option schemes of the Company in any 12-month period up to the date of grant shall not exceed 1% of the Shares in issue unless otherwise approved by the shareholders in general meeting.

Report of the Directors

TIME OF EXERCISE OF AN OPTION

An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as the Board may determine which shall not exceed ten years from the date on which the option is offered subject to the provisions of early termination thereof.

MINIMUM PERIOD FOR WHICH AN OPTION MUST BE HELD BEFORE IT CAN BE EXERCISED

There is no minimum period for which an option must be held before it can be exercised; however, the Board may, subject to the provisions of the Listing Rules, in its absolute discretion when offering the grant of an option impose any conditions, restrictions or limitations in relation thereto in addition to those set forth in the Share Option Scheme as it may think fit.

AMOUNT PAYABLE ON APPLICATION OR ACCEPTABLE OF AN OPTION

Participants of the Share Option Scheme are required to pay the Company a nominal consideration of HK\$1.00 upon acceptance of the grant within seven days from the offer date.

BASIS OF DETERMINING THE EXERCISE PRICE

The subscription price of a Share in respect of any particular option granted under the Share Option Scheme shall be a price solely determined by the Board and notified to a participant and shall be at least the higher of: (i) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet on the date on which the option is offered, which must be a Business Day; (ii) the average of the closing prices of the Shares as stated in the Stock Exchange's daily quotations sheets for the five Business Days immediately preceding the date on which the option is offered; and (iii) the nominal value of a Share on the date on which the option is offered.

LIFE OF THE SHARE OPTION SCHEME

The Share Option Scheme will remain in force for a period of 10 years commencing on the Adoption Date and shall expire at the close of business on a Business Day immediately preceding the tenth anniversary thereof.

As at the date of this report, the remaining life of the Share Option Scheme is about five years and two months.

During the Year, no option has been granted or agreed to be granted under the Share Option Scheme.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the Directors, the Company had maintained the prescribed public float under the Listing Rules during the Year and up to the date of this report.

Report of the Directors

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the Year, neither the Company nor any of its subsidiaries had purchased, sold or redeemed the Company's listed securities.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the articles of association of the Company or the laws of the Cayman Islands which would oblige the Company to offer new shares on a pro-rata basis to its existing shareholders.

PROFESSIONAL TAX ADVICE RECOMMENDED

If the Shareholders are unsure about the taxation implications of purchasing, holding, disposing of, dealing in, or the exercise of any rights in relation to the Shares, they are advised to consult an expert.

BANK BORROWINGS

Details of the bank borrowings of the Group as at 31 December 2022 are set out in note 27 to the Consolidated Financial Statements.

KEY PERFORMANCE INDICATORS ("KPI")

(I) GROSS PROFIT MARGIN

- Definition and calculation: Gross profit margin is derived by dividing gross profit by revenue for a given year.
- Purpose: The Group aims to enhance its gross profit margin. The extent to which this objective has been achieved is assessed by comparing the Group's gross profit margin from one year to the next, as it is an indicator showing the Group's profitability.
- Quantified KPI data: The gross profit margin was approximately 23.4% for the Year (2021: approximately 20.6%).

Report of the Directors

(II) NET MARGIN

- Definition and calculation: Net margin is derived by dividing loss/profit for a given year by revenue for that year.
- Purpose: The Group emphasises cost control. The net margin provides direction for a better control and utilisation of expenses. The extent to which this objective has been achieved is assessed by comparing the Group's net margin from one year to the next, as it is an indicator showing the Group's earnings from its business operations and other related activities.
- Quantified KPI data: The net margin was approximately 5.3% for the Year (2021: net margin was approximately 4.7%). The increase in net margin was primarily attributable to: decrease in employee retirement benefit and the decrease in deferred tax due to income tax rate change in Bangladesh during the Year which are mainly in non-cash nature during the Year when compared to the year ended 31 December 2021 as a result of the unpredictable market conditions during the Year.

(III) GEARING RATIO AND NET GEARING RATIO

- Definition and calculation: Gearing ratio is derived by dividing total interest-bearing debt (including secured bank and other borrowings, bank overdrafts, lease liabilities and any preferred Shares) by total equity as at the end of a given year. Net gearing ratio of the Group is equivalent to total interest-bearing debt (including secured bank and other borrowings, bank overdrafts, lease liabilities and any preferred Shares) net of total cash and bank balances divided by total equity as at the end of a given year.
- Purpose: The Group monitors its capital structure based on gearing ratio. Gearing ratio provides direction for the Group to optimise its financing and business development activities. The extent to which this objective has been achieved is assessed by comparing the Group's gearing ratio from one year to the next, as it is an indicator showing the Group's level of leverage.
- Quantified KPI data: The Group's gearing ratio was approximately 61.9% (2021: 72.8%) and net gearing ratio was approximately 42.6% (2021: 53.8%) for the Year. The decrease in gearing ratio was primarily due to a decrease in the bank and other borrowings for the Year while the decrease in net gearing ratio was primarily due to a decrease in the bank and other borrowings as at 31 December 2022.

Report of the Directors

CHARITABLE CONTRIBUTIONS

During the Year, the Group made charitable contributions totalling approximately HK\$0.3 million (2021: HK\$0.5 million).

MAJOR CUSTOMERS AND SUPPLIERS

The revenue attributable to the Group's five largest customers and the largest customer accounted for 67.7% and 33.3%, respectively, of the Group's total revenue for the Year.

Purchases attributable to the Group's five largest suppliers and the largest supplier accounted for 48.9% and 40.2%, respectively, of the Group's total purchases for the Year.

None of the Directors or any of their close associates (as defined in the Listing Rules) or any shareholders of the Company (whom, to the best knowledge and belief of the Directors, own more than 5% of the Company's total issued share capital) had any beneficial interest in the Group's five largest suppliers and customers for the Year.

COMPLIANCE WITH THE RELEVANT LAWS AND REGULATIONS

The Group has compliance policies and procedures in place to ensure adherence to applicable laws, rules and regulations, in particular, those that have a significant impact on it. The Group would seek professional legal advice from its legal advisers to ensure that transactions and business to be performed by the Group are in compliance with the applicable laws and regulations. During the Year, the Group was not aware of any non-compliance with any relevant laws and regulations that had a significant impact on it.

ENVIRONMENTAL POLICIES AND PERFORMANCE

Acting in an environmentally responsible manner, the Group endeavours to comply with laws and regulations regarding environmental protection and to adopt effective measures to achieve efficient use of resources, energy saving and waste reduction. The Group has implemented internal recycling programme for office consumables such as toner cartridges and paper to minimise the operational impact on the environment and natural resources. The Group will review its environmental practices from time to time and will implement further eco-friendly measures and practices closely enhancing environmental sustainability. For details, please refer to the section headed "Environmental, Social and Governance Report" of this annual report.

Report of the Directors

RELATIONSHIPS WITH THE GROUP'S EMPLOYEES

The Group believes that employees are important and valuable assets. The Group will provide trainings for employees to enhance their knowledge in corporate values and culture and to implement them thoroughly. Meanwhile, the Group encourages staff on continued studies by giving subsidy to recognised development courses. The Group also aims to provide competitive and attractive remuneration packages to retain its employees. Management reviews annually the remuneration package offered to the employees of the Group. Meanwhile, for the purpose of providing incentives and rewards to eligible participants who have contributed to the success of the Group's operations, the Company has adopted the Share Option Scheme, details of which are set out in the sub-section headed "Share Option Scheme" in this annual report.

RELATIONSHIPS WITH THE GROUP'S CUSTOMERS AND SUPPLIERS

The Group values long standing relationships with its suppliers and customers. The Group aims at delivering high quality products to its customers and developing mutual trust and enhancing communication and commitment between the Group and its suppliers to maintain sustainable growth.

IMPORTANT EVENTS AFTER THE END OF THE YEAR

There were no events after the reporting period that had significant impacts on the Group after 31 December 2022 and up to the date of this report.

CORPORATE GOVERNANCE

Particulars of the Company's corporate governance practices are set out in the section headed "Corporate Governance Report" of this annual report.

EQUITY-LINK AGREEMENT

For the Year, the Company has not entered into any equity-link agreement, save for options that can be granted under the Share Option Scheme. As at 31 December 2022, no option had been granted under the Share Option Scheme.

Report of the Directors

REVIEW BY AUDIT COMMITTEE

The Audit Committee currently comprises three independent non-executive Directors, namely, Mr. Sin Hendrick *M.H.* (chairperson), Mr. Szeto Yuk Ting and Mr. Tseung Yuk Hei Kenneth. The Audit Committee has reviewed with the management of the Company the audited Consolidated Financial Statements for the Year.

INDEPENDENT AUDITOR

The Consolidated Financial Statements for the Year have been audited by Deloitte who will retire and, being eligible, offer itself for re-appointment at the forthcoming AGM. Having been approved by the Board upon the Audit Committee's recommendation, a resolution for the re-appointment of Deloitte as the Independent Auditor for the ensuing year will be put to the forthcoming AGM for shareholder's approval.

Environmental, Social and Governance Report

ABOUT THE REPORT

This Environmental, Social and Governance Report (the “**Report**”, or “**ESG Report**”) summarises an overview of the environmental, social and governance (“**Environmental, Social and Governance**” or “**ESG**”) initiatives, programs and performance of Evergreen Products Group Limited (the “**Company**”, together with its subsidiaries, the “**Group**”, “**Evergreen**” or “**We**”), and demonstrates its commitment to sustainable development.

REPORTING BOUNDARY

This ESG Report covers the Group’s environmental and social performances of its principal operations in the manufacturing, distribution, and retail business of hair products, which include:

- (1) the Group’s head office in Hong Kong;
- (2) the trading business and relevant services (collectively, the “**Trading Business**”) of hair products, in the United States; and
- (3) the manufacturing business of hair products and relevant services (the “**Manufacturing Business**”) in the PRC and Bangladesh.

REPORTING PERIOD

This ESG Report describes the ESG activities, challenges and measures taken by the Group during the period from 1 January 2022 to 31 December 2022 (the “**Reporting Period**”), (“**FY2022**”).

ACCESS OF THIS REPORT

This ESG Report is released in both printed and online versions. The online version is available on the Stock Exchange’s website (www.hkexnews.hk) and the Company’s website (www.epfhk.com).

This Report is released in both English and Chinese versions. Should there be any discrepancies between the two versions, the English version shall prevail.

REPORTING FRAMEWORK

This ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide (the “**ESG Reporting Guide**”) as set out in Appendix 27 of the Rules (the “**Listing Rules**”) governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”).

Environmental, Social and Governance Report

REPORTING PRINCIPLES

The preparation of the ESG Report has applied the following principles:

Materiality – The materiality assessment was conducted to identify material issues during the Reporting Period, thereby adopting the confirmed material issues as the focus for the preparation of the ESG Report. The materiality of issues was reviewed and confirmed by the ESG Working Group. Please refer to the sections headed “Stakeholder Engagement” and “Materiality Assessment” for further details.

Quantitative – Supplementary notes are added along with quantitative data disclosed in the ESG Report to explain any standards, methodologies, and source of conversion factors used during the calculation of emissions and energy consumption.

Consistency – The preparation approach of this ESG Report was substantially consistent with the previous year, and explanations were provided regarding data with changes in the scope of disclosure and calculation methodologies.

Balance – This ESG Report is completed based on fact and actual data disclosure to avoid bias judgement and misleading information to report readers.

FORWARD-LOOKING STATEMENT

This is a forward-looking statement that contains management’s current views and assumptions for assessing and identifying material ESG issues, risks and opportunities to the Group’s performance that could cause actual results to differ from expected results. Certain risks and uncertainties are subject to material differences.

CONFIRMATION AND APPROVAL

Information included in the ESG Report was sourced from the official documents and statistical data of the Group. The Report has been reviewed and approved by the Board.

CONTACT AND FEEDBACK

Should you have any enquiry on this ESG Report, please kindly contact us by email at info2@epfhk.com.

BOARD STATEMENT AND ESG GOVERNANCE STRUCTURE

OVERSIGHT OF ESG ISSUES

The board of directors (the “**Board**”) holds the ultimate responsibility for monitoring the Group’s ESG issues, including ESG management approach, strategy, and policies. To better manage the Group’s ESG performance and identify potential risks, the Board conducts materiality assessment where necessary with the assistance of the ESG Working Group to evaluate and prioritise material ESG-related issues with reference to the opinions of our stakeholders. The Board sets up a general direction for the Group’s ESG strategies, ensuring the effectiveness in the control of ESG risks and internal control mechanisms.

The Board	<ul style="list-style-type: none"> • Develop ESG goals in short, medium, and long-term. • Identify risks and opportunities and implement in its business strategy for goal achievement. • Develop environmental protection and social sustainability strategies. • Ensure the development and effectiveness of the Group’s ESG policies and measures.
ESG Working Group	<ul style="list-style-type: none"> • Formulated a designated team within each business unit for ESG issues, responsible for daily operation, monitoring, evaluating, and reporting to the Board. • Identify risks and opportunities in relation to ESG issues within each business unit. • Liaise with different business units regarding material ESG issues.

ESTABLISHMENT OF ESG WORKING GROUP

The Group has established an ESG Working Group and it is composed of core members from different business units of the Group to manage ESG issues. This ESG Working Group is responsible for collecting relevant information from our ESG aspects for preparing the ESG Reports and reports to the Board and assists in identifying and evaluating the Group’s ESG risks and the effectiveness of the internal control mechanisms.

The ESG Working Group also examines and evaluates our performances in different ESG-related goals and targets such as environment, health and safety, labour standards and product responsibilities. Following the direction set by the Board, the ESG Working Group ensures the execution of various ESG-related strategies and policies.

Environmental, Social and Governance Report

STAKEHOLDER ENGAGEMENT

The Group aims at developing a sustainable approach in its ESG strategies to enhance its performance in environmental protection and social responsibility. We value our stakeholders and their comments on our business and ESG issues by striving to understand, respond and address the main concerns. To facilitate communication with our stakeholders, we have a diverse group of communication channels, and we implement their feedback in our sustainable management and ESG strategies. The Group's communication channels with stakeholders and stakeholders' expectation are summarised as below:

Stakeholders	Expectations and Concerns	Communication Channels
Government and Regulatory Authorities	<ul style="list-style-type: none"> • Compliance with laws and regulations • Pay taxes according to law • Implement relevant regulatory policies 	<ul style="list-style-type: none"> • Policy guidance • Supervision of compliance • Routing reports and taxes paid

Environmental, Social and Governance Report

MATERIALITY ASSESSMENT

In FY2022, the Group conducted a materiality assessment survey by inviting its key stakeholders to participate. Material ESG issues are determined by the contribution of internal and external stakeholders. The Group's management selected and invited the key stakeholders with high level of influence and dependence on the Group to offer feedback on a list of material ESG issues.

Through materiality assessment survey, the Group has a better understanding of the significance of impacts of each material ESG issue on stakeholders and on the business, allowing the Group to gain a better understanding of its key issues and to identify risks and opportunities.

The matrix below shows the prioritization of material ESG issues of the group ranking it by its relative importance.

The Group reviewed the materiality assessment results and considered that the said result is applicable to the Group. The Group will continuously monitor its business operations and its ESG performances.

Environmental, Social and Governance Report

A. ENVIRONMENTAL

The Group understands the importance of protecting the environment and has established business strategies with environmental conscious manner. In FY2021, the Group has set 3 major goals for reducing carbon footprint including reduction of 5% GHG emission, 5% reduction in energy consumption and 10 % reduction in water consumption by 2031 and has integrated these ESG goals into strategic management.

The Hong Kong SAR Government announced Hong Kong's Climate Action Plan 2050 with decarbonisation strategies covering "Net-zero electricity generation", "Energy Saving and Green Buildings", "Green Transport" and "Waste Reduction" for reaching carbon neutral before 2050. The Group has taken responsive measures to contribute to a zero-carbon economy in the focused areas recommend by the Hong Kong SAR Government.

A1. EMISSIONS

Air Emissions

Air Emissions are mostly contributed by company's vehicles. The exhaust gas generated by the Group includes nitrogen oxides ("**NOx**"), sulphur oxides ("**SOx**") and particulate matters ("**PM**"). The Group has formulated relevant emission reduction measures with the aim to reduce emissions from mobile sources:

- Reduce in-person meetings by advocating the utilisation of electronic online meetings.
- Take public transport during business trips under normal circumstances.
- Conduct regular vehicle inspections and maintenance to enhance vehicle efficiency.
- Phase-out substandard vehicles and consider electric vehicles in future purchase.
- Switch off the engine when idles.

During the Reporting Period, the Group's exhaust gas emissions performance was as below:

Indicators	Unit	FY2022*	FY2021
Type of Air Emissions			
- SOx	Kg	6.72	0.5
- NOx	Kg	1,104	12.57
- PM	Kg	108.29	1.05

*Note: Bangladesh office's air emissions data has been included in FY2022 but not in FY2021 as the Group's data collection system has been improved.

Environmental, Social and Governance Report

GHG Emissions

The consumption of electricity at the office, petrol and diesel consumption for the vehicles and machinery used at the operation sites are the major sources of GHG emissions of the Group.

The Group's GHG emissions performance was as follows:

Indicators	Unit	FY2022	FY2021
GHG Emissions¹			
Scope 1 Direct emissions			
– Petrol and diesel consumption	Tonne CO ₂ e	4,319	1,224
Scope 2 Energy indirect emissions			
– Purchased electricity	Tonne CO ₂ e	13,268	17,221
Scope 3 Other indirect emissions ³	Tonne CO ₂ e	300	292
GHG Removal (Scope 1)	Tonne CO ₂ e	(1.91)	0
Total GHG emissions	Tonne CO ₂ e	17,886.1	18,737.2
Intensity²	Tonne CO ₂ e/employee	0.70	0.58

Notes:

- GHG emissions data is presented in carbon dioxide equivalent and was in reference to, including but not limited to, the reporting requirements of the “GHG Protocol Corporate Accounting and Reporting Standard” issued by the World Resources Institute and the World Business Council for Sustainable Development, the “How to prepare an ESG Report – Appendix II: Reporting Guidance on Environmental KPIs” issued by the Stock Exchange, the “Sustainability Report 2021” published by the Hong Kong Electric Investments Limited, the “2021 Sustainability Report” published by the CLP Power Hong Kong Limited and “Global Warming Potential Values” from the IPCC Fifth Assessment Report (AR5), 2014 and Enerdata.
- As of 31 December 2022, the Group had a total of 25,464 employees (2021: 32,305 employees). The data is also used for calculating other intensity data.
- Scope 3 GHG emissions comprises emissions from paper waste disposed at landfills, energy used for processing fresh water and sewage.

The measures taken for reducing GHG emissions from vehicles (Scope 1) were described under the above section headed “Air Emissions”.

Environmental, Social and Governance Report

Consumption of electricity is accounted as the major source of indirect energy and indirect GHG emissions (Scope 2). Proactive measures have been taken through energy-saving scheme and improving energy efficiency. The concept of green office is introduced and started with the use of LED light bulbs. Energy saving working culture is promoted to encourage employees to reduce electricity consumption such as turning-off light once they leave the room. Temperature control for air-conditioner is set at the range from 24–26°C to reduce electricity consumption. Employees are encouraged to use public transport to minimise unnecessary use of private transport.

With the common goal of carbon neutrality, fossil fuels are believed to be phased out due to stricter government regulation. The Group is planning for transitional business plan shifting from the use of fossil fuels to renewable energy such as solar panel to reduce GHG emissions.

During the Reporting Period, a large-scale planting scheme has been launched in our Group's factories located at Kunming, Yunnan Province of PRC. Around 167 trees were planted to enhance the value of the natural environment and improve air quality. Of which, 82 trees were over 5 meters in height and qualified for Scope 1 GHG removal. We are one of the few local businesses that have taken this measure to reduce our carbon footprint.

The Group would continuously work on various measures to reduce air and GHG emissions in the future with the integration of decarbonisation strategies.

Waste Management

The Group is committed to minimising the potential adverse impacts associated with solid waste, chemical waste, general refuse, and wastewater arising from operations of the Group.

Non-hazardous wastes are mainly generated from day-to-day domestic solid wastes and non-hazardous industrial wastes from production processes, including waste packaging materials and fabrics, which are collected and stored at designated areas onsite and handled by local sanitary stations or waste handling companies under the signed agreement.

Hazardous wastes include hazardous wastewater and sludge generated from the onsite wastewater treatment facility (“**WWTF**”), used chemical containers, and used oil, which are collected and stored at the designated hazardous waste disposal area onsite and handled by licensed hazardous waste vendors.

Indicators	Units	FY2022	FY2021
Hazardous waste	Tonnes	0.00	0.34
Intensity	Tonnes/employee	<0.01	<0.01
Non-hazardous waste	Tonnes	10.22	11.06
Intensity	Tonnes/employee	<0.01	<0.01

The Group strives to minimize the amount of non-hazardous waste with the integration of “4R Concept of Sustainability-Reduce, Reuse, Recycle and Recover”.

Environmental, Social and Governance Report

Wastewater Discharge

Production processes will generate both hazardous wastewater and non-hazardous wastewater.

For hazardous wastewater from production process, which is collected and stored at the designated area, will be handled by licensed hazardous waste collectors.

For non-hazardous wastewater, it is generated from the manufacturing process and domestic wastewater from sanitary purpose. For Industrial wastewater from manufacturing process, which for is treated onsite by the WWTF owned by the production plants followed with recycling purpose. For domestic wastewater from day-to-day sanitary use, it is discharged directly into the municipal drainage system.

Indicators	Units	FY2022	FY2021
Non-hazardous wastewater discharge	m ³	265,071	273,835
Intensity	m ³ per employee	10.41	8.48
Hazardous wastewater discharge	m ³	9,818	9,000
Intensity	m ³ per employee	0.39	0.28

The Group has taken below measures to manage the wastewater discharged, including:

- Establishing sewage treatment monitoring process under which water quality is inspected to ensure compliance with the national standards.
- Reusing shampoo and controlling the usage of fresh water to reduce the amount of wastewater generated; and
- Recycling treated wastewater for other purposes such as plants watering, floor cleaning, landscaping and toilet flushing.

Environmental, Social and Governance Report

“4R” Water Recycling

In 2021, the Chinese Government announced a plan for industrial wastewater recycling. The plan sets targeted industrial water recycling rates, a main target of the plan is to raise to 94% by 2025. To comply with relevant regulation, the Group has formulated Water Treatment Scheme to reduce wastewater discharge through applying “4R concept of Sustainability” to Reduce, Reuse, Recycle and Repurpose wastewater.

REDUCE: To reduce all wastewater from dyeing process through the Group’s “Water Treatment Scheme”.

REUSE: To reuse the wastewater for other purpose after the purification process.

RECYCLE: To recycle all wastewater from the dyeing process is recycled by dosing chemicals and carbon ore to the untreated effluent for removing the impurities in water.

REPURPOSE: Use recycled water can be used for landscaping, cleaning and sanitary to minimize freshwater consumption.

The Group aims to reduce waste disposal and freshwater consumption by recycling wastewater from all dyeing processes through these water treatment programs and reusing the recycled water for other purposes. Water consumption is expected to be reduced by 10% by 2031.

A2. USE OF RESOURCES

The Chinese Government put The National Energy Conservation Law in place with the objective to reduce energy consumption across all end-use sectors by promoting energy efficiency with an emphasis on economic and social development as well as positive economic value of energy efficiency, while Bangladesh Government enacted The First National Energy Policy aiming at ensuring proper exploration, production, distribution and rational use of energy resources to the growing demands of different zones, sectors and groups. In response to the energy conservation regulations, the Group implemented “Energy Saving Measures” to reduce energy consumption. The Group believes this does not only reduce carbon footprint but also bring positive financial and culture impacts on the Group in the long-term.

Energy Management

In daily operation, the Group’s main energy consumption is electricity consumption in daily operation, gasoline and diesel consumed in transportation, and coal for boilers operation.

Environmental, Social and Governance Report

Electricity

Electricity consumption of the Group is mainly from the operations of the offices and plants. To enhance efficiency, the following practices are adopted. The Group aims to promote environmental conservation culture at workplace by encouraging our employees to follow the energy-saving measures:

- Replacing traditional lightings with LED lightings.
- Replacing obsolete equipment with energy-saving or variable frequency equipment.
- Turning lights, computers, and air conditioning system off if they are not in use.
- Defaulting temperatures of air conditioners by season at optimum level.

Natural gas and Coal

The boilers of the Group mainly consume natural gas and coal, while some of the vehicles use compressed natural gas. To ensure efficient use of energy, the Group has considered and taken measures to reduce coal usage and enhance the use of natural gas for the boilers' operations. In the long run, the Group will source other renewable energy to replace the use of fossil fuels such as coal.

Gasoline and Diesel

Major source of gasoline consumption is vehicles, while diesel is consumed by both company's vehicles and manufacturing operation such as back-up generators. The Group strives to minimise energy consumption through promoting green culture, employees are encouraged to take public transport, meeting by electronic means and sourcing locally instead of using transports and vehicles to avoid unnecessary energy usage.

The Group's energy consumption is as follows:

Type of energy	Unit	FY2022	FY2021
Total Direct energy consumption	MWh	16,157	12,630
– Diesel	MWh	4,366	4,638
– Gasoline	MWh	100	304
– Coal	MWh	11,691	7,688
Total indirect energy consumption	MWh	26,113	25,834
– Purchased electricity	MWh	26,113	25,834
Total Energy consumption	MWh	42,270	38,464
– Intensity	MWh/employee	1.66	1.19

Environmental, Social and Governance Report

Water Management

Major consumption of water by the Group during FY2022 was for production and sanitary purpose.

Indicators	Units	FY2022	FY2021
Water Consumption	m ³	596,329	550,182
– Intensity	m ³ /employee	23	17

To enhance the mindset of water conservation, the Group has carried out a variety of effective water saving measures such as:

- Regular inspection and maintenance of water consumption facilities to prevent any water leakage.
- Displaying water conservation slogans and posters to remind employees' awareness of water conservation.
- Using water-saving and flow-controlling faucet to reduce water output; and
- Recycling of wastewater for other usages including cleaning, landscaping, and sanitary purposes.

During the Reporting Period, there is no issue in sourcing water for its operations as its business operation regions have no water-stress issue.

Packing Materials and Raw Materials

The main packaging materials used by the Group include cardboards, carton boxes and self-manufactured polyethylene film bags. The raw materials used by the Group are mainly hair and fibres. Paper made products are the dominant type of packaging materials of the Group. In the future, the Group will endeavour to use environmental-friendly raw materials to minimise the impacts to the nature.

Indicator	Unit	FY2022	FY2021*
Packaging Materials			
– Paper products	Tonnes	2,757	3,485
Production Raw Materials			
– Fibre	Tonnes	4,416	6,091
– Hair	Tonnes	16	18
– Plastic	Tonnes	477	672
Total	Tonnes	7,666	10,266

*Note – Data of FY2021 have been restated

Environmental, Social and Governance Report

A3. THE ENVIRONMENT AND NATURAL RESOURCES

As a corporate citizen, the Group is committed to protecting the planet and community. To fulfil the environment regulation under the Environmental Impact Assessment (EIA) Law of the PRC, the Group conducted environmental assessments (EIA) and obtained environmental certificate for the construction projects of the Group's manufacturing factories in Mainland China. Apart from business growth, the Group is concerned about environmental protection with the aim to prevent biodiversity degradation and minimize harm to the surrounding environment caused by the Group's business activities.

During the Reporting Period, a large-scale planting scheme has been launched in our Group's factories located at Kunming, Yunnan Province of PRC. Around 167 trees were planted to enhance the value of the natural environment and improve air quality. Of which, 82 trees were over 5 meters in height and GHG removal through assimilation of carbon dioxide into biomass through tree planting was achieved. This can be used for absorbing carbon dioxide. With the launch of planting scheme and creation of greenery zone, diverse biodiversity and balanced ecosystem are conserved. The Group develops sustainable business strategy for its business growth, while also making effort to preserve the natural environment and resources with implemented measures at the same time.

A4. CLIMATE CHANGE

Climate Change is a global issue nowadays which causes huge impact with rising public awareness to combat global warming and minimize carbon footprint for carbon neutral economy. As a responsible corporate citizen, the Group conducted assessments of climate-related risks and opportunities to ascertain sustainable development and protect stakeholders' rights.

Assessments were conducted in alignment with international standards such as the Taskforce Climate-related Financial Disclosure's ("**TCFD**"). According to TCFD's recommendations, climate change involves physical risks and transitional risks. The Group expected that substantial changes on legal and compliance, technology, market, and reputation landscapes, which also implies new business opportunities for the Group.

Environmental, Social and Governance Report

Transitional Risks

Legal and Compliance

Stricter environmental policies and heavier fines imposed by the government and regulatory authorities are expected, higher protection standard leads to higher cost in environmental aspect such as environmental assessments are required such as the Law of the PRC on Evaluation of Environmental Effects in China and Bangladesh Environmental Conservation Act, 1995. The Group has issued Environmental Impact Assessment (EIA) for the construction of manufacturing factories in Mainland China and obtained the Environmental Clearance Certificate (ECC) from the Department of Environment at Bangladesh to meet the regulatory requirement. Regular license renewal to ensure the factories meet the pollution ordinance in corresponding jurisdictions and to avoid legal liabilities and disruption of operation.

The Group has set ESG goals regarding reduction in GHG Emissions by FY2031 with FY2021 as base year for comparison. Through policies formulation and proper implementation, the Group believes its operation will comply with relevant compliance in corresponding jurisdictions.

Technology

Fossil fuels is expected to be phased out in the future under strict environmental regulation. Sourcing alternative energy source is important as the Group's operation relies heavily on fossil fuel consumption in manufacturing and vehicle usage. The Group is working on the transitional plan of business model with the shift from fossil fuel to renewable energy such as solar panel. It is expected that marginal cost of using renewable energy will be lower in long term which would bring positive impact on the Group's cost of goods and service.

Market and Reputation

Consumer preference is expected to change as the public is more concerned about well-beings and environment is closely related to personal health issues. The plan of introducing renewable energy is believed to gain merit on the Group's reputation, which would attract more potential customers and future business.

Environmental, Social and Governance Report

Physical Risks

According to TCFD, physical risk includes acute risk and chronic risk, which would bring impacts on the Group's business development and strategy formulation.

Acute Risks

Bangladesh is a low-lying, riparian country with a large, marshy jungle coastline. Bangladesh has a subtropical monsoon climate and is subject to seasonal rainfall, floods, tropical cyclones, tornadoes, and tidal bores every year. Climate change would incur more frequent precipitation events and higher chance of flooding leading to disruption of communication systems, traffic interruption, operation of factories and cause depreciation of machines.

To mitigate risk, the Group has insurance coverage to minimise financial loss caused by climate-related accidents. Employees' safety is threatened under severe rainfall and flooding. The Group has implemented contingency plan to report emergency and offer guidance for evacuation drills as mitigation.

Chronic Risks

The Group will keep identifying the risks caused by sustained increase in temperature and rise in sea level and will formulate related policy to minimise the impact on the Group's business.

B. SOCIAL

B1. EMPLOYMENT PRACTICES

The Group values our employees as company's assets and aims to protect employees' rights and interests. The Group sets out recruitment process in line with the employment ordinance to ensure fair employment opportunity. The Group develops different policies to create a safe working environment to staff, implements appraisal system to recognise employees' contribution for future career development.

To comply with relevant laws and regulation including but not limited to Cap. 57 Employment Ordinance in Hong Kong, Labour Law of the People's Republic of China, and Bangladesh Labour Act, 2006, the Group has established internal policies with periodic review to ensure full compliance.

The HR department has issued the policies and procedures for human resources and payroll management covering the employment process, employment terms and conditions in detail. Additional HR policies have been established to cover material social topics including recruitment and promotion, working hours and rest periods, equal opportunity, diversity, anti-discrimination, other benefits and welfare, compensation and dismissal, and occupational health and safety that would have significant impact to the employee.

Recruitment and Promotion

The HR department is responsible for conducting recruitments in a fair, open, objective, and non-discriminatory selection process. Candidates are chosen according to their educational and professional qualifications, job knowledge, work experience, skills, and competency. Policies and procedures for human resources and payroll management have been implemented to ensure relevant labour laws and regulations in corresponding jurisdiction are complied.

The Group provides its employees with sustainable career development to retain talents. Promotion is subjected to staff appraisal which is conducted in July and December every year. Performance evaluation process is conducted through self-assessment and assessment by the immediate supervisor, with the aim to facilitate communication between employees and the Group, and review or assess employment confirmation, promotion, rewards, transferal, jobs rotation, training, and personal development of employees.

Environmental, Social and Governance Report

Working Hours and Rest Periods

The Group has established guidance for determining working hours and rest periods, such as lunch break, for employees. To manage the staff's working hours effectively, HR department has established the Staff Attendance Systems.

Work-life balance and healthy lifestyle are encouraged by the Group, employees' rights and interests are protected by internal policy to ensure staff are provided with basic paid leave and statutory holidays stipulated by the local employment laws and regulations. Employees enjoy different leave entitlements provided by the Group, including but not limited to annual leave, marriage leave, sick leave, maternity leave, and compassionate leave.

Anti-Discrimination, Equal Opportunity, and Diversity

The Group is dedicated to cultivating a fair and anti-discrimination corporate culture with equal recruitment opportunities being offered to candidates in the recruitment selection process. Continuous effort will be put in developing a harassment-free working environment, providing fair opportunities for employees to develop talent and potential regardless of personal attributes.

Employees are offered with equal opportunity on all labour rights and benefits including recruitment, compensation, training and development, promotion opportunities, contract termination and retirement, all depending on their educational qualifications, professional knowledge, skills, work experience and competency, with no bias on their age, gender, race, religion, marital status, and disability.

The Group does not tolerate any discriminatory behaviour. Employees shall not be discriminated against any stages of the employment because of personal attributes which has no impact on their capability in handling work. Employees are encouraged to report any unfair judgement to the Department Head, who has the responsibility to assess, investigate and take necessary disciplinary actions on the reported incidents.

Labour Benefits and Welfare

The Group values our employee and wish our employees enjoy working with the Group. Competitive benefits are offered to our employees. Benefit scheme is formulated according to local laws and regulations in the operating jurisdictions, including various leave entitlements as described in the above section. Employee Dormitories are provided to employees to minimize traveling time to work and optimize resting period.

Environmental, Social and Governance Report

Compensation and Dismissal

The Group possesses a valid insurance policy to cover the liabilities under the Employees' Compensation Ordinance for the work injuries for employees. Our employees are covered by work compensation insurance and should notify supervisors and HR Department immediately if work injury happens.

Employees' rights are protected by the Group with reference to the relevant regulations. The Group strictly prohibits unfair or unreasonable dismissals. Employment contract will be terminated only when the employees fail to meet the assessments. Feedback will be collected from Employee Exit Surveys.

B2. HEALTH AND SAFETY

The Group aims to provide a safe and healthy working environment to our employees. To improve the working conditions, the Group sets up lists of policies complying with the relevant occupational health and safety regulations in corresponding jurisdictions, including but not limited to Occupational Disease Prevention Law of the PRC, the Production Safety Regulations of Guangdong Province, and the Bangladesh labour (Amendment) Act.

Occupational Health and Safety

Health and Safety Committee organises meetings regularly to discuss material health and safety issues and updates the related procedures to ensure a safe working environment. Employees are provided with occupational health and safety training. All employees are required to attend fire-fighting training when they get onboard with the Group. Refresher trainings are provided to employees working at factories twice a year, training content includes evacuation drill and operation of fire-fighting equipment. Safety equipment is located at designated areas. Maintenance personnel would carry out proper maintenance inspection of fire-fighting equipment.

The Group conducted a health and safety risk assessment and concluded that the main high-risk areas were production lines and storage areas. We have taken steps in these areas, including providing safety training for employees to prevent them from getting electrocuted. The safety emergency plan is included in the assessment as a mitigation measure to deal with emergencies, and the emergency plan is reviewed every year to comply with relevant regulations.

Other precautionary measures addressing health and safety issues related to the Group's business nature has been set out, such as the Chemical Safety Precautions & Hygienic Plan. Employees are reminded that all chemicals labelled should be handled carefully, use appropriate protective clothing and equipment such as glasses, aprons, boots, and gloves. Always keep the workplace clean and free from leakage to avoid the risk of contamination.

Employees are encouraged to maintain high level of self-discipline and pay attention at work to prevent injury particularly at the time of using machinery. Circuit breaker should be removed when the machine is not in use to avoid accidents due to overheat.

B3. DEVELOPMENT AND TRAINING

The Group understands that employees are key to achieving our business objectives. To improve efficiency at work and allow employees' career growth and development, the Group has provided role-specific- training to our employees ensuring that they are equipped with required knowledge for the job positions. Training and Development Policy is implemented to offer guidance to the relevant teams for training program design and course delivery. Trainings are classified into four categories, including Induction training, professional and technical training, qualification training and occupational health and safety training.

Induction training is assigned to new joiners as an orientation. Training modules are designed to cover policies and procedures of the Group to allow employees to get familiar with the new working environment, OHS and firefighting training are also included in the initial training.

Professional and technical training are offered to staff as role-specific training to enhance the efficiency of training resources. Management is responsible for prioritizing and authorizing such training in line with service and individual objectives.

Qualification training is provided to staff for career growth and development leading to enhancement in work efficiency. Employees are encouraged to obtain professional qualifications recognised by international institution to meet the service objectives. The Group operates "Post Entry Training Scheme" to link training and further external education to external standards wherever appropriate.

Occupational health and safety training is included in the induction trainings and refresher trainings. Evacuation drills and operation of fire equipment are included in the training.

Environmental, Social and Governance Report

B4. LABOUR STANDARDS

The Group has zero tolerance and strictly prohibits the use of child labour and forced labour in our operations. Below measures have been taken to avoid these illegal employment practices.

Prevention of child labour	During the recruitment process, the human resources department will verify the applicant's identity documents and ensure that they have reached the minimum age for employment.
Prohibition of forced labour	The Group specifies overtime compensation provisions in the Employee Handbook. The Group carefully monitors the employee working time and working schedule to ensure they work voluntarily and freely.

Environmental, Social and Governance Report

In case of any illegal labour practice is discovered, the Group will stop their employments immediately. An investigation will be carried out subsequently and report the case to the relevant authorities.

During the Reporting Period, the Group was not aware of any material non-compliance with child and forced labour-related laws and regulations, that would have a significant impact on the Group including but not limited to the Employment Ordinance of Hong Kong, Labour Law of the PRC and the Bangladesh Labour Act.

B5. SUPPLY CHAIN MANAGEMENT

The Group has established a supply chain system with global access, aiming at enhancing production quality and providing comprehensive solution for the operation of production line to meet customers' need. In FY2022, the Group has engaged with 10 major hair products suppliers with 20% of the suppliers from Mainland China, 20% from Hong Kong and the rest 60% from Japan, India, and Korea.

Locations	No. of major hair products Suppliers
Mainland China	2
Hong Kong	2
Others	6

Policies and procedures for expenditure management is set out as a guidance for the Purchasing Department to conduct selection and evaluation process of suppliers ensuring regulation's requirement is met. Selected suppliers and sub-contractors are reviewed and evaluated annually based on certain criteria, including but not limited to raw material quality, pricing, performance capability and the ability to meet delivery time.

During the selection process, selected suppliers need to pass the internal assessment to meet the Group's procurement standards and to be legally compliant and socially responsible and financially healthy. The Group will request suppliers to provide raw material test reports prepared by international recognised testing centres complying international standards, such as European standard EN71 and Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals.

Supplier evaluation system has been formulated. With procurement team is responsible for evaluating suppliers on an annual basis. Assigned personnel is responsible for ensuring that supplier master file is updated and properly maintained, unsatisfactory suppliers and sub-contractors will be removed from the list, with reasons clearly stated to guarantee efficient supply chain management.

Environmental, Social and Governance Report

Green Procurement

The Group puts green procurement strategy in practice, suppliers employed by the Group should be environmental conscious, demonstrating high awareness and contribution on ESG issues. Seeking environmental-friendly products for the use in production line is part of the Group's green strategy. Suppliers with recognised ESG achievements would have a higher ranking and priority to be selected by the Group.

The Group prioritises local suppliers and environmentally friendly products and services, hoping to reduce the carbon footprint caused by procurement via local procurement, while supporting local economic development and creating employment opportunities for local communities. In addition to environmental factors, the Group will also adopt measures to monitor whether its suppliers or contractors comply with relevant social laws and regulations or meet other standards in terms of health, safety, forced labour and child labour. Regular review and evaluation are conducted to ensure the efficiency of the green supply chain management system.

B6. PRODUCT RESPONSIBILITY

The Group emphasizes high product quality to maximize customer satisfaction and prioritise its brand management. The Group has implemented comprehensive measures covering procuring good quality raw materials, production, inventory control and post-sale service to enhance the shopping experience of customers.

Internal policies regarding product responsibility target five major aspects including product recall, quality assurance, advertising and labelling, intellectual properties rights and data protection and privacy. These policies take considerations of relevant regulations in respective jurisdictions, including but not limited the Product Quality Law of the PRC, the Law on Protection of Consumer Rights and Interests of the PRC, the US Consumer Product Safety Improvement Act, the US Code of Federal Regulations and the Consumers' Rights Protection act of Bangladesh.

Product Health and Safety

The Group is committed to providing quality and reliable products to customers. In response to product safety regulations in corresponding jurisdictions, such as the US Consumer Product Safety Act, the Consumer Product Safety Improvement Act, the US Code of Federal Regulations and the Consumers' Rights Protection Act of Bangladesh, the Group has set stringent products' health and safety policies to protect customers' rights.

The procurement team applies the set policy as guidance in sourcing raw materials from suppliers, which have passed the Group's quality and reliability assessment. As mentioned, suppliers are required to provide the Group with raw material test reports prepared by international recognised testing centres such as European standard EN71 and Regulation (EC) No 1907/2006, to prove its compliance with international standards. Production management policy strengthens product quality control and mitigates risk of product defeats jeopardising customers' health and safety.

Environmental, Social and Governance Report

During the Reporting Period, the Group had zero recall rate, no products were recalled due to safety and health reasons. The Group has achieved zero recall rate in 3 consecutive years, contributed by the efficient supply chain management system for procurement and strict monitoring of its production process.

Quality Assurance

Production management and quality control are two important steps taken by the Group to ensure product quality. Monitoring of production process is conducted by the production team to ascertain production process is up to the Group's requirements.

Quality Control Department is responsible for inspecting quality of raw materials, semifinished products and finished products. Quality inspections are carried out by designated staff on a random basis, defects can be corrected immediately before the finished products are delivered to our customers. Only final products with passing grade in internal product assessment will be delivered to customers. Regular meetings are conducted to discuss reasons of production failure and seek mitigation and preventive solutions.

The Group sets out Product Quality Contingency Plan for investigation of product defeats and handling customer complaints caused by unsatisfactory products. Customers can reach the sales department for complaints regarding the Group's products, the Group offer free maintenance, exchange, or discount on next purchase as

In FY2022, the Group has received zero customers complaints regarding products quality. There is no significant impact of unsatisfactory products on the Group's business due to strict quality control. Proper implementation of the stated policy and regular reviews are conducted to safeguard high product quality and expand the Group's potential market.

Advertising and Labelling

Production management policy includes high standard of labelling requirements and responsive procedures to ensure precise product descriptions for marketing materials.

The set policy complies with advertising and labelling regulations, including but not limited to Product Quality Law in China and the Consumer Goods Safety Regulation in Hong Kong. Product labelling is produced during the manufacturing phase to ensure information accuracy. Employees are responsible for filling in accurate product information on a separate new product label at each production stage. Multiple checking also ensures corrective measures can be carried out in a timely manner and accurate product information is disclosed.

In FY2022, the Group recorded no material non-compliance in advertising and labelling with reference to relevant regulations.

Environmental, Social and Governance Report

Intellectual Properties Rights

The Group is determined to protecting and enforcing its intellectual property rights through registered designs, patents and copyrights to comply with all relevant laws and regulations, including but not limited to Patent Law of the PRC, the Intellectual Property Law of the PRC and Patent and Design Rights guided under the Patents and Designs Act of 1911 and the Patent and Design Rules of 1933, aiming at protecting patents, designs and trademarks, and giving the creators of an invention the exclusive legal right to market, sell, manufacture, and profit from that invention.

During the reporting period, the Group recorded no material non-compliance in intellectual property rights with reference to relevant regulations.

Data Protection and Privacy

The Group places customer privacy with high priority in its business management, and is committed to complying with data privacy laws, including but not limited to Personal Data (Privacy) Ordinance of Hong Kong, Customer Protection Law of the PRC, Federal Trade Commission Act of US, the Technology Act of Bangladesh and the Consumers' Rights Protection Act of Bangladesh, which aims at protecting data privacy.

During the Reporting Period, the Group recorded no material non-compliance in data privacy with reference to the said laws and regulations.

B7. ANTI-CORRUPTION

In response to the anti-bribery and corruption regulations, the Group sets out Code of Conduct and related policy as a guideline to employees. The policy aims to maintain high standards of discipline, thereby avoiding conflict of interest and accepting reward for his performing any act in his official capacity. Reporting system is established, employees are encouraged to fill in the Report on Gifts/Advantages Received and Declaration of Conflict of Interest to avoid violating internal anti-bribery policy.

During Reporting Period, the Group recorded no concluded legal case regarding corrupt practices brought against the Group or its employees.

Environmental, Social and Governance Report

Whistleblowing Policy

The Group strives to maintain the highest possible standards of openness, probity, and accountability. To achieve its commitments, the Group has provided our employees with the Code of Conduct (the “**Code**”) and Employee Handbook, setting the guiding principles for all employees to behave with integrity and honesty, obey all laws, and accept accountability. Whistleblowing Policy is designed to encourage our employees and other third parties who deal with the Company such as customers, suppliers and business partners to report any suspected misconduct to the Group.

Employee are encouraged to promptly inform their supervisors or senior management of any business or work-related situation involving breach of Code (breach of code related to business or work-related situation). Identity of whistle-blowers would be kept confidential. Employees making appropriate complaints under Whistleblowing Policy are protected against unfair dismissal, victimization, or unwarranted disciplinary action, even if the concerns turn out to be unsubstantiated. Internal audit of the Group carries out an in-depth investigation and reports to law enforcement if evidence is found.

Anti-Corruption Training

During the Reporting Period, most of our employees including directors and senior management have enrolled in the anti-bribery and corruption training delivered by the Hong Kong Independent Commission Against Corruption (“**ICAC**”). The anti-corruption training includes topics such as definition and nature of bribery, minimum induced amount for bribery, updates in recent anti-bribery and corruption issues and practices. All employees are expected to work with integrity and in professional manner, understanding that they should act fairly and avoid involved in bribery activities or any activities which might deprive the Group’s interest after received training.

B8. COMMUNITY INVESTMENT

Community Investment is an essential part of the Group’s strategic development. The Group believes that community investment can be mutually beneficial to the Group’s business and the community it is serving. As a responsible corporate citizen, the Group is devoted to participating in community service through donation and voluntary activities.

Wigs donation to a local cancer institute

In FY2022, the Group donated wigs to a local cancer institute for cancer patients who were in need. To support patients and deliver a warm blessing to them for overcoming the cancer fighting battle, the Group wishes them to gain confidence and pick up normal life after the battle through this activity. The activity is meaningful and will be continued if it is needed.

In the future, the Group will continue to strengthen its product quality, while keep on seeking ways to give back to the community.

訓修實業集團有限公司

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Evergreen Products Group Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 103 to 201, which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Valuation of industrial buildings, offices and car parks (the "Revalued Properties") included in property, plant and equipment

We identified the valuation of the Revalued Properties as a key audit matter due to the significance of the balance to the consolidated financial statements as a whole and the significant judgment and estimation involved in determining their fair value.

As set out in note 4, the Revalued Properties of the Group are stated in the consolidated statement of financial position at the date of the revaluation at fair value less subsequent accumulated depreciation and accumulated impairment losses, if any. As set out in note 17 to the consolidated financial statements, the Group's the Revalued Properties amounted to approximately HK\$118,481,000 as at 31 December 2022, the date of revaluation. The key inputs used in valuing the Revalued Properties are market unit rate of comparable properties.

Our procedures in relation to valuation of the Revalued Properties included:

- Evaluating the competence, capabilities and objectivity of the independent qualified valuer;
- Obtaining an understanding from the independent qualified valuer about the valuation methodology, the significant assumptions adopted, critical judgmental areas on key inputs and data used in the valuation; and
- Assessing the reasonableness of the key inputs used by the independent qualified valuer by comparing to available market data.

Independent Auditor's Report

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Wan Wai Nga.

The Company’s immediate holding company is Evergreen Enterprise Holdings Limited, a company which was incorporated in the British Virgin Islands (the “**BVI**”). The Company’s ultimate holding company is Golden Evergreen Limited (“**GEL**”), a company incorporated in the BVI. GEL is wholly owned by HSBC International Trustee Limited, the trustee of the Felix Family Trust and CLC Family Trust (collectively, the “**Trust**”). The beneficiaries and settlor of the Trust, including Mr. Chang Chih Lung (who passed away in March 2022), Mr. Chang Yoe Chong Felix and their family members, are considered as the controlling shareholders of the Company. The registered office of the Company is PO Box 472, 2nd Floor, Harbour Place, 103 South Church Street, George Town, Grand Cayman KY1-1106, Cayman Islands and the principal place of business of the Company is 11th Floor, Chiap Luen Industrial Building, 30–32 Kung Yip Street, Kwai Chung, New Territories, Hong Kong.

The Company is an investment holding company. The principal activities of the Company and its subsidiaries (hereinafter collectively refer as the “**Group**”) are the manufacturing and trading of hair products.

The consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”). The Company’s functional currency is the United States dollars (the “**US\$**”). For the convenience of the financial statements users, the consolidated financial statements are presented in HK\$ as the Company’s share are listed on Stock Exchange.

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“**HKFRSs**”) AND AGENDA DECISIONS OF THE IFRS INTERPRETATIONS COMMITTEE (THE “**COMMITTEE**”)

AMENDMENTS TO HKFRSs THAT ARE MANDATORILY EFFECTIVE FOR THE CURRENT YEAR

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) for the first time, which are mandatorily effective for the annual periods beginning on or after 1 January 2022 for the preparation of the consolidated financial statements:

Amendments to HKFRS 3	Reference to the Conceptual Framework
Amendment to HKFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021
Amendments to HKAS 16	Property, Plant and Equipment – Proceeds before Intended Use
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a Contract
Amendments to HKFRSs	Annual Improvements to HKFRSs 2018–2020

In addition, the Group applied the agenda decision of the Committee of the International Accounting Standards Board issued in December 2020 on Supply Chain Financing Arrangements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) AND AGENDA DECISIONS OF THE IFRS INTERPRETATIONS COMMITTEE (THE “COMMITTEE”) (CONTINUED)

AMENDMENTS TO HKFRSs THAT ARE MANDATORILY EFFECTIVE FOR THE CURRENT YEAR (CONTINUED)

Except as described below, the application of the amendments to HKFRSs and the Committee’s agenda decision in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

The Group has entered into certain supplier financing arrangements with banks in which the relevant banks pay suppliers directly for extinguishment of amounts owned by the Group. Upon application of the Committee’s agenda decision in relation to Supply Chain Financing Arrangements, payments to suppliers by the banks are disclosed as non-cash transactions and repayments to the banks are included within financing cash flows. Certain comparative figures have been restated in the consolidated statement of cash flows to reflect the conclusion of the agenda decision which resulted in increase in “net cash from operating activities” as payments to suppliers on these arrangements are considered as non-cash and a corresponding increase in “net cash used in financing activities” with no effect on the Group’s result for the years ended 31 December 2022 and 2021 and financial positions as at 31 December 2022 and 2021.

NEW AND AMENDMENTS TO HKFRSs IN ISSUE BUT NOT YET EFFECTIVE

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 17 (including the October 2020 and February 2022 Amendments to HKFRS 17)	Insurance Contracts ¹
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ²
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback ³
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020) ³
Amendments to HKAS 1	Non-current Liabilities with Covenants ³
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies ¹
Amendments to HKAS 8	Definition of Accounting Estimates ¹
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction ¹

¹ Effective for annual periods beginning on or after 1 January 2023.

² Effective for annual periods beginning on or after a date to be determined.

³ Effective for annual periods beginning on or 1 January 2024.

Except as for the amendments to HKFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) AND AGENDA DECISIONS OF THE IFRS INTERPRETATIONS COMMITTEE (THE “COMMITTEE”) (CONTINUED)

NEW AND AMENDMENTS TO HKFRSS IN ISSUE BUT NOT YET EFFECTIVE (CONTINUED)

Amendments to HKAS 1 *Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020) (the “2020 Amendments”)* and *Amendments to HKAS 1 Non-current Liabilities with Covenants (the “2022 Amendments”)*

The 2022 Amendments provide clarification and additional guidance on the assessment of right to defer settlement for at least twelve months from reporting date for classification of liabilities as current or non-current, which:

- clarify that if a liability has terms that could, at the option of the counterparty, result in its settlement by the transfer of the entity’s own equity instruments, these terms do not affect its classification as current or non-current only if the entity recognises the option separately as an equity instrument applying HKAS 32 *Financial Instruments: Presentation*.
- specify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period. Specifically, the amendments clarify that the classification should not be affected by management intentions or expectations to settle the liability within 12 months.

For rights to defer settlement for at least twelve months from reporting date which are conditional on the compliance with covenants, the requirements introduced by the 2020 Amendments have been modified by the 2022 Amendments. The 2022 Amendments specify that only covenants with which an entity is required to comply with on or before the end of the reporting period affect the entity’s right to defer settlement of a liability for at least twelve months after the reporting date. Covenants which are required to comply with only after the reporting period do not affect whether that right exists at the end of the reporting period.

In addition, the 2022 Amendments specify the disclosure requirements about information that enables users of financial statements to understand the risk that the liabilities could become repayable within twelve months after the reporting period, if the entity classify liabilities arising from loan arrangements as non-current when the entity’s right to defer settlement of those liabilities is subject to the entity complying with covenants within twelve months after the reporting period.

The 2022 Amendments also defer the effective date of applying the 2020 Amendments to annual reporting periods beginning on or after 1 January 2024. The 2022 Amendments, together with the 2020 Amendments, are effective for annual reporting periods beginning on or after 1 January 2024, with early application permitted. If an entity applies the 2020 amendments for an earlier period after the issue of the 2022 Amendments, the entity should also apply the 2022 Amendments for that period.

Based on the Group’s outstanding liabilities as at 31 December 2022, the application of the amendments will not result in reclassification of the Group’s liabilities.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) AND AGENDA DECISIONS OF THE IFRS INTERPRETATIONS COMMITTEE (THE “COMMITTEE”) (CONTINUED)

NEW AND AMENDMENTS TO HKFRSs IN ISSUE BUT NOT YET EFFECTIVE (CONTINUED)

Amendments to HKAS 1 and HKFRS Practice Statement 2 Disclosure of Accounting Policies

HKAS 1 is amended to replace all instances of the term “significant accounting policies” with “material accounting policy information”. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If an entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

HKFRS Practice Statement 2 *Making Materiality Judgements* (the “**Practice Statement**”) is also amended to illustrate how an entity applies the “four-step materiality process” to accounting policy disclosures and to judge whether information about an accounting policy is material to its financial statements. Guidance and examples are added to the Practice Statement.

The application of the amendments is not expected to have significant impact on the financial position or performance of the Group but may affect the disclosures of the Group’s significant accounting policies. The impacts of application, if any, will be disclosed in the Group’s future consolidated financial statements.

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) AND AGENDA DECISIONS OF THE IFRS INTERPRETATIONS COMMITTEE (THE “COMMITTEE”) (CONTINUED)

NEW AND AMENDMENTS TO HKFRSS IN ISSUE BUT NOT YET EFFECTIVE (CONTINUED)

Amendments to HKAS 12 Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments narrow the scope of the recognition exemption of deferred tax liabilities and deferred tax assets in paragraphs 15 and 24 of HKAS 12 Income Taxes so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

As disclosed in note 3, for leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to the relevant assets and liabilities as a whole. Temporary differences relating to relevant assets and liabilities are assessed on a net basis.

Upon the application of the amendments, the Group will recognise a deferred tax asset (to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized) and a deferred tax liability for all deductible and taxable temporary differences associated with the right-of-use assets and the lease liabilities.

The amendments are effective for the Group’s annual reporting periods beginning on or after 1 January 2023. As at 31 December 2022, the carrying amounts of right-of-use assets and lease liabilities which are subject to the amendments amounted to HK\$9,190,000 and HK\$9,648,000 respectively. The Group is still in the process of assessing the full impact of the application of the amendments. The cumulative effect of initially applying the amendments, if any, will be recognized as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of the earliest comparative period presented.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES

3.1 BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rule Governing the Listing of Securities on the Stock Exchange (the “**Listing Rules**”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments and properties that are measured at fair value or revalued amounts at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 “Share-based Payment”, leasing transactions that are accounted for in accordance with HKFRS 16 “Lease”, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 “Inventories” or value in use in HKAS 36 “Impairment of Assets”.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial instruments which are transacted at fair value and a valuation technique that unobservable inputs is to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that at initial recognition the results of the valuation technique equals the transaction price.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.1 BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

3.2 SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of consolidation (Continued)

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in the relevant subsidiary after the sale.

Non-current assets classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell, except for financial assets within the scope of HKFRS 9 and investment properties, which continue to be measured in accordance with the accounting policies as set out in respective sections.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Contract costs

Incremental costs of obtaining a contract

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

The Group recognises such costs (sales commissions) as an asset if it expects to recover these costs. The asset so recognised is subsequently amortised to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the assets relate.

3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contract costs (Continued)

Incremental costs of obtaining a contract (Continued)

The Group applies the practical expedient of expensing all incremental costs to obtain a contract if these costs would otherwise have been fully amortised to profit or loss within one year.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application of HKFRS 16, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception or modification date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed. As a practical expedient, leases with similar characteristics are accounted on a portfolio basis when the Group reasonably expects that the effects on the consolidated financial statements would not differ materially from individual leases within the portfolio.

The Group as a lessee

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received; and
- any initial direct costs incurred by the Group.

Notes to the Consolidated Financial Statements

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (Continued)

The Group as a lessee (Continued)

Right-of-use assets (Continued)

Except for those that are classified as investment properties and measured under fair value model, right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets that do not meet the definition of investment property in “property, plant and equipment”, the same line item within which the corresponding underlying assets would be presented if they were owned. Right-of-use assets that meet the definition of investment property are presented within “investment properties”.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 “Financial Instruments” (“**HKFRS 9**”) and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (Continued)

The Group as a lessee (Continued)

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments included fixed payments (including in-substance fixed payments) less any lease incentives receivable.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset.

Leases (Continued)

The Group as a lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

Refundable rental deposits

Refundable rental deposits received are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

Foreign currencies

In preparing the financial statements of each individual entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are included in profit or loss in the period in which they arise.

Foreign currencies (Continued)

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognized in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Settlements of monetary items which formed part of net investment in foreign operations without changes in the Group's ownership interests is not considered as partial disposals.

Exchange differences relating to the retranslation of the Group's net assets in US\$ to the Group's presentation currency (i.e. HK\$) are recognised directly in other comprehensive income and accumulated in translation reserve. Such exchange differences accumulated in the translation reserve are not reclassified to profit or loss subsequently.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the asset are substantially ready for their intended use or sale.

Any specific borrowing that remain outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalisation rate on general borrowings. All other borrowing costs are recognised as and included in finance costs in the profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognised as expenses the related costs for which the grants are intended to compensate.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under “other income”.

Retirement benefit costs

Payments to defined contribution retirement benefit plans including state-managed retirement benefits scheme and the Mandatory Provident Fund Scheme are recognised as an expense when employees have rendered service entitling them to the contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries) after deducting any amount already paid.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

For the year ended 31 December 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Taxation (Continued)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale, except for freehold lands, which is always presumed to be recovered entirely through sale.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 “Income Taxes” requirements to the leasing transaction as a whole. Temporary differences relating to right-of-use assets and lease liabilities are assessed on a net basis. Excess of depreciation on right-of-use assets over the lease payments for the principal portion of lease liabilities results in net deductible temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly to equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes, other than freehold lands and factory buildings, owned properties which are industrial buildings, offices and car parks and construction in progress as described below, are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Freehold lands are not depreciated and are measured at cost less subsequent accumulated impairment losses.

Owned properties that are industrial buildings – offices and car parks held for use in the production or supply of goods or services, or for administrative purpose, are stated in the consolidated statement of financial position at fair value at the date of the revaluation less subsequent accumulated depreciation and accumulated impairment losses, if any. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the end of the reporting period and as at the date of transfer to investment property.

Factory buildings in the course of for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including costs of testing whether the related assets is functioning properly and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Property, plant and equipment (Continued)

When the Group makes payments for ownership interests of properties which includes both leasehold lands and building elements, the entire consideration is allocated between the leasehold lands and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold lands that is accounted for as an operating lease is presented as right-of-use assets in property, plant and equipment in the consolidated statement of financial position except for those that are classified and accounted for as investment properties under the fair value model. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold lands, the related leasehold lands are not presented separately as right-of-use assets.

Any revaluation increase arising on revaluation of owned properties that are industrial buildings, offices and car parks is recognised in other comprehensive income and accumulated in property revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in net carrying amount arising on revaluation of a property is recognised in profit or loss to the extent that it exceeds the balance, if any, on the property revaluation reserve relating to a previous revaluation of that property. On the subsequent sale or retirement, the attributable revaluation surplus is transferred to retained profits.

If a property measured under cost model becomes an investment property because its use has changed as evidenced by end of owner-occupation any difference between the carrying amount and the fair value of that item (including the relevant leasehold lands presented as right-of-use assets) at the date of transfer is recognised in other comprehensive income and accumulated in property revaluation reserve. On the subsequent sale or retirement of the property, the relevant revaluation reserve will be transferred directly to retained profits.

Depreciation is recognised so as to write off the cost or revalued amounts of items of property, plant and equipment, other than freehold lands and construction in progress, over their estimated useful lives and after taking into account their estimated residual value, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Property, plant and equipment (Continued)

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognised in profit or loss.

Impairment on property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

Impairment on property, plant and equipment and right-of-use assets (Continued)

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated to the assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that standard.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at fair value, adjusted to exclude any prepaid or accrued operating lease income.

Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position and the consolidated statement of cash flows include:

- (a) cash, which comprises of cash on hand and demand deposits; and
- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined on the first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs to completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 “Revenue from Contracts with Customers” (“**HKFRS 15**”). Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss (“**FVTPL**”)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

Notes to the Consolidated Financial Statements

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Classification and subsequent measurement of financial assets (Continued)

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or fair value through other comprehensive income (“**FVTOCI**”) as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the “other gains and losses” line item.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss (“**ECL**”) model on financial assets (including trade and other receivables, pledged bank deposits and bank balances) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“**12m ECL**”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Impairment of financial assets (Continued)

(i) Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Financial liabilities at amortised cost

Financial liabilities including trade payables, secured bank and other borrowings, bank overdrafts, amount due to a related company and amount due to a non-controlling shareholder of a subsidiary are subsequently measured at amortised cost, using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Changes in the basis for determining the contractual cash flows as a result of interest rate benchmark reform

For changes in the basis for determining the contractual cash flows of a financial asset or financial liability to which the amortised cost measurement applies as a result of interest rate benchmark reform, the Group applies the practical expedient to account for these changes by updating the effective interest rate, such change in effective interest rate normally has no significant effect on the carrying amount of the relevant financial asset or financial liability.

A change in the basis for determining the contractual cash flows is required by interest rate benchmark reform if and only if, both these conditions are met:

- the change is necessary as a direct consequence of interest rate benchmark reform; and
- the new basis for determining the contractual cash flows is economically equivalent to the previous basis (i.e. the basis immediately preceding the change).

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

CRITICAL JUDGEMENT IN APPLYING ACCOUNTING POLICIES

The following is the critical judgement, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

DEFERRED TAXATION ON INVESTMENT PROPERTIES

For the purposes of measuring deferred tax arising from investment properties that are measured using the fair value model, the directors of the Company have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Therefore, in determining the deferred taxation on investment properties, the directors of the Company have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is rebutted and the Group has recognised deferred tax on changes in fair value of investment properties on the basis that the deferred tax reflects the tax consequences that will follow from the manner in which the Group expects to recover the carrying amount of the investment properties through consumption by economic benefits over time.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

KEY SOURCES OF ESTIMATION UNCERTAINTY

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period or that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

FAIR VALUE OF INDUSTRIAL BUILDINGS, OFFICES AND CAR PARKS

Industrial buildings, offices and car parks in which the Group is the registered owner are stated in the consolidated statement of financial position at the date of the valuation at fair value less subsequent accumulated depreciation and accumulated impairment losses, if any. They are carried at their revalued amount of HK\$118,481,000 (2021: HK\$124,633,000) at the end of the reporting period. The revalued amount of the industrial buildings, offices and car parks was based on valuation on the properties conducted by an independent qualified valuer using market approach, as detailed in note 17. The valuation conducted by independent qualified valuer using the market approach. The key input using in the valuation are market unit rate of comparable properties. Favourable or unfavourable changes to these assumptions would result in changes in fair value of the Group's industrial buildings, offices and car parks and corresponding adjustments to the amount reported in other comprehensive income.

5. REVENUE

	1,100,375	1,207,420

All revenue is recognised at a point in time.

Notes to the Consolidated Financial Statements

5. REVENUE (CONTINUED)

(II) PERFORMANCE OBLIGATION FOR CONTRACTS WITH CUSTOMERS

Revenue is recognised when control of the goods has transferred, being when the goods have been shipped to the designated location (delivery). The normal credit period is 90 days upon delivery. Transportation and handling activities that occur before the customer obtains control are considered as fulfilment activities.

When the Group receives a deposit before the production activity commences, this will give rise to contract liabilities at the start of production, until the revenue recognised on the relevant contract exceeds the amount of the deposit. The Group typically receives 30% to 50% deposit on acceptance of new customers' order. A contract liability is recognised for receipt in advance for sales in which revenue has yet been recognised.

(III) TRANSACTION PRICE ALLOCATED TO THE REMAINING PERFORMANCE OBLIGATION FOR CONTRACTS WITH CUSTOMER

All the Group's sales contracts are for periods of one year or less. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

6. SEGMENT INFORMATION

The chief executive officer of the Company, being the chief operating decision maker ("CODM"), regularly reviews revenue analysis by types of products, including wigs, hair accessories and others, high-end human hair extensions and Halloween products when making decisions about allocating resources and assessing performance of the Group. No other discrete financial information is provided other than the Group's results and financial position as a whole. Accordingly, only entity-wide disclosures, major customers and geographic information are presented.

13. INCOME TAX EXPENSE (CONTINUED)

The Group is engaged in the manufacturing of certain hair products through several processing factories in the PRC under contract and import processing arrangement which is effective for both years. Accordingly, under such 50:50 onshore/offshore arrangement between the Group and the contract processing factories, certain profits of the Group are not taxable under Hong Kong Profits Tax for both years. Meanwhile, the profit derived under the import processing arrangement are treated as 100% taxable under Hong Kong Profits Tax for both years. In addition, the processing factories of the Group are subject to the PRC EIT at a rate of 25% on the actual profit generated in the PRC.

Bangladesh tax authority has published a regulation on 1 July 2022 with reference number “SRO No. 158-Law/Income Tax/2022” allowing 12% tax rate on export income. The definition of “export” includes supply of goods to outside Bangladesh and supply of goods to export oriented industry under internal back-to-back letter of credit. Minimum tax standard rate has also proportionately reduced as per applicable reduced income tax rate. For the year ended 31 December 2022, the subsidiaries operating in Bangladesh are subject to income tax rate of the higher of 0.24% of revenue or 12% on the assessable profit (2021: higher of 0.6% of revenue or 32.5% on the assessable profit) except Master Purple (BD) Limited. Master Purple (BD) Limited operating in Bangladesh is exempted from income tax for 3 financial years from the date of commencement of commercial operation (i.e. 9 March 2020) up to 8 March 2023, afterwards with 3 financial years of 50% exemption and subsequently with 1 financial year of 25% exemption.

Taxation arising from other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

Details of the deferred taxation are set out in note 30.

The income tax expense for the year can be reconciled to the profit before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

	2022 HK\$'000	2021 HK\$'000
Profit before tax	62,247	62,303
Tax at the Hong Kong Profits Tax rate of 16.5% (Note)	10,270	10,280
Tax effect of expenses not deductible for tax purpose	525	2,315
Tax effect of income not taxable for tax purpose	(58)	(53)
Tax effect of tax exemptions granted to a subsidiary operated in Bangladesh	(15,354)	(25,541)
Tax effect of tax losses not recognised	5,362	14,274
Under provision in prior year	1,995	688
Effect of different tax rate applicable to subsidiaries operating in the other jurisdictions	708	2,485
Others	491	780
Income tax expense for the year	3,939	5,228

Note: The domestic tax rate (which is Hong Kong Profits Tax rate) in the jurisdiction where the operation of the Group is substantially based is used.

16. EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share attributable to owners of the Company is based on the following data:

	2022 HK\$'000	2021 HK\$'000
Earnings attributable to owners of the Company:		
Earnings for the purpose of calculating basic and diluted earnings per share	66,289	54,067
Number of shares:		
Weighted average number of ordinary shares for the purpose of calculating basic earnings per share	686,082,000	685,868,608
Effect of dilutive potential ordinary share:		
Share award scheme	-	213,392
Weighted average number of ordinary shares for the purpose of calculating diluted earnings per share	686,082,000	686,082,000

No diluted earnings per share is presented for the year ended 31 December 2022 as there were no potential ordinary shares in issue for the year ended 31 December 2022.

The weighted average number of ordinary shares for the purpose of basic earnings per share shown above for the year ended 31 December 2021 has been arrived at after deducting the shares held by the trustee of the share award scheme of the Company as set out in note 31. There were no other potential ordinary shares outstanding as at the end of 31 December 2021.

Notes:

- (i) HK\$25,867,000 (2021: HK\$29,782,000) of freehold lands is included in the freehold lands and factory buildings.
- (ii) The Group is the registered owner of these property interests, including the underlying leasehold lands. Lump sum payments were made upfront to acquire these property interests. The leasehold lands components of these owned properties are presented as right-of-use assets only if the payments made can be allocated reliably.

The above items of property, plant and equipment other than freehold lands and construction in progress are depreciated on a straight-line basis, after taking into account the estimated residual value, at the following rates per annum:

Factory buildings, leasehold lands and buildings	4% to 6% or over the term of the lease, which is shorter
Leased properties	Over the respective lease term
Machinery and equipment, furniture and fixtures	20%
Leasehold improvements	Over the respective lease term
Motor vehicles	25%

THE GROUP AS LESSEE (CONTINUED)

Right-of-use assets (included in the property, plant and equipment) (Continued)

Restrictions or covenants on leases

During the year ended 31 December 2022, the management has reconsidered the presentation of the Group's right-of-use assets. As majority of the Group's right-of-use assets constitute leasehold lands which are owned by the Group, the management decided to present the right-of-use assets in the same line item of property, plant and equipment. Certain comparative figures have been represented in the consolidated statement of financial position to conform with the current year's presentation with no effect on previously reported result and equity.

The right-of-use assets are depreciated on a straight-line base over the respective lease term.

For both years, the Group leases leasehold lands, leased properties, motor vehicles and factory buildings for its operations. Lease contracts are entered into for fixed term of 2 to 30 years (2021: 2 to 30 years). Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

In addition, lease liabilities of HK\$9,648,000 (2021: HK\$12,086,000) are recognised with related right-of-use assets of HK\$9,190,000 (2021: HK\$11,819,000) as at 31 December 2022. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

FAIR VALUE MEASUREMENT OF THE INDUSTRIAL BUILDINGS, OFFICES AND CAR PARKS

In estimating the fair value of the Group's industrial buildings, offices and car parks by applying the appropriate valuation techniques and inputs for fair value measurements, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuer to perform the valuation. The directors of the Company work closely with qualified external valuer to establish the appropriate valuation techniques and inputs to the model.

As at 31 December 2021 and 2022, industrial buildings, offices and car parks were revalued by Roma Appraisals Limited ("**ROMA**") of which the registered office is at 22/F, China Overseas Building, 139 Hennessy Road, Wan Chai, Hong Kong, an independent qualified professional valuers. ROMA, which is not connected with the Group, is a member of Hong Kong Institute of Surveyors. There has been no change from the valuation technique used in the prior years. The valuation has been adopted by the directors of the Company in the consolidated financial statements and the property revaluation increase of HK\$19,598,000 (2021: HK\$2,689,000) have been credited to the property revaluation reserve for the year ended 31 December 2022.

FAIR VALUE MEASUREMENT OF THE INDUSTRIAL BUILDINGS, OFFICES AND CAR PARKS (CONTINUED)

If the industrial buildings, offices and car parks of the Group had not been revalued, they would have been included in these consolidated financial statements at historical cost less accumulated depreciation and their carrying amount would have been approximately HK\$36,900,000 (2021: HK\$51,256,000) as at 31 December 2022.

Notes:

- (i) The properties have been transferred to investment properties during the year ended 31 December 2022.
- (ii) The property has been reclassified as assets held for sale during the year ended 31 December 2022.

During the year ended 31 December 2022, the Group leased out certain properties with lease terms of 1 to 6 years to earn rentals.

Accordingly, the related properties, including the relevant leasehold lands presented as right-of-use assets of HK\$5,309,000 were revalued to the fair value of HK\$12,649,000 and transferred to investment properties. The gain on revaluation of properties at the date of transfer is accumulated in property revaluation reserve. The lease contracts do not contain residual value guarantee and/or lessee's option to purchase the property at the end of lease term.

The fair value of the Group's investment properties as at 31 December 2022 and at date of transfer have been arrived at on the basis of a valuation carried out on the respective dates by ROMA, an independent qualified professional valuers not connected to the Group.

These investments are not held for trading but for long-term strategic purposes.

Notes:

- (a) The Group entered into certain life insurance contracts for Mr. Chang Yoe Chong Felix, a director of the Company. Under the policies, Evergreen Factory, being the beneficiary and policy holder, is required to pay an upfront payment for the contracts. Evergreen Factory may request a partial surrender or full surrender of the contracts at any time and receive cash back based on the value of the contracts at the date of withdrawal, which is determined by the gross premium paid at inception plus accumulated guaranteed interest earned and minus insurance premium charged (the “**Cash Value**”). If such withdrawal is made at any time during the first to the twentieth policy year, as appropriate, a pre-determined specified surrender charge would be imposed.

The deposits placed for the life insurance contracts carries guaranteed interests at interest rates ranging from 1.80% to 5.00% (2021: 1.80% to 5.00%) per annum plus a premium determined by counterparty during the tenures of the contracts.

19. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (CONTINUED)

Notes: (Continued)

- (b) During the year ended 31 December 2022, the Group has subscribed for an investment fund at a consideration of HK\$3,893,000, which mainly invest in listed shares in areas including Hong Kong. The fair value of this investment fund was determined by adopting the net asset value approach. The investment manager determines the net asset values of the investment fund by using methodology based on relevant comparable data to quantify the adjustment from cost or latest transaction price where appropriate, or to justify that cost or latest transaction price is a proper approximation to fair value of the underlying investments held by the investment fund.

21. TRADE AND OTHER RECEIVABLES (CONTINUED)

The Group normally allows a credit period up to 120 days to its customers. A longer credit period may be granted to large or long established customers with good payment history.

Before accepting any new customers, the Group has an internal credit control system to assess the potential customers' credit quality and the board of directors has delegated the management to be responsible for determination of credit limits and credit approvals for customers. Limits attributed to customers are reviewed periodically.

As at 31 December 2022, included in the Group's trade receivables balance are debtors with aggregate carrying amount of HK\$24,423,000 (2021: HK\$22,027,000) are past due at the reporting date. Out of the past due balance, HK\$3,150,000 (2021: HK\$266,000) has been past due 90 days or more and is not considered as in default due to long and on-going business relationship and good repayment record from these customers.

The Group does not hold any collateral over the balances.

Details of impairment assessment of trade and other receivables are set out in note 36.

Most of the Group's trade receivables are denominated in functional currency of the relevant group entities.

22. PLEDGED BANK DEPOSITS

The amounts represent deposits pledged for banking facilities granted to the Group and are therefore classified as current assets.

Included in pledged bank deposits are the following amounts denominated in currency other than functional currencies of the relevant group entities:

	2022 HK\$'000	2021 HK\$'000
HK\$	15,248	20,211

The deposits carry fixed interest rate ranging from 0% to 4.11% (2021: 0% to 0.6%) per annum. The pledged bank deposits will be released upon the settlement of relevant bank and other borrowings.

Details of impairment assessment of pledged bank deposits are set out in note 36.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2022

23. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include short-term deposits for the purpose of meeting the Group's short term cash commitments, which carry interest at market rates range from 0% to 0.625% (2021: 0% to 0.0075%).

Included in cash and cash equivalents are the following amounts denominated in currency other than functional currency of the relevant group entities:

	2022 HK\$'000	2021 HK\$'000
HK\$	4,526	8,161

Details of impairment assessment of bank balances are set out in note 36.

24. TRADE AND OTHER PAYABLES (CONTINUED)

Credit period on purchases of goods is granted from 0–120 days but the Group will normally settle within 60 days. The following is an aged analysis of trade payables presented based on invoice date at the end of each reporting period:

	2022 HK\$'000	2021 HK\$'000
0–60 days	35,380	44,551

Included in the Group's trade payables are the following amounts denominated in currency other than the functional currency of the relevant group entities:

	2022 HK\$'000	2021 HK\$'000
HK\$	20,935	24,058

25. CONTRACT LIABILITIES

	2022 HK\$'000	2021 HK\$'000
Receipt in advance for sale of hair products	7,100	8,791

As at 1 January 2021, contract liabilities amounted to HK\$15,610,000.

Contract liabilities represent amounts received in advance for sale of hair products. During the year ended 31 December 2022, the Group has recognised revenue of HK\$8,791,000 (2021: HK\$15,610,000) that was included in the contract liabilities balance at the beginning of the respective year.

Contract liabilities are classified as current as they are expected to be settled within the Group's normal operating cycle. The balance of contract liabilities has decreased mainly due to the delivery of hair products during the year.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2022

26. AMOUNTS DUE TO A RELATED COMPANY/A NON-CONTROLLING SHAREHOLDER OF A SUBSIDIARY

The amounts are non-trade nature, unsecured, interest-free and repayable on demand for both years.

Amount due to a related company represented the amount due to Hopcom Software Company Limited of which is controlled by the late Mr. Chang Chih Lung (who passed away in March 2022) and Mr. Chang Yoe Chong Felix, who are also the directors and shareholders of the Company.

On 15 July 2021, the Group entered into a supplemental agreement with a related party to change from interest-free to fixed rate of 4.5%. On 18 August 2022, the Group entered into a supplemental agreement to further change from a fixed rate to a variable interest rate of HIBOR+3.5%.

27. SECURED BANK AND OTHER BORROWINGS/BANK OVERDRAFTS

	2022 HK\$'000	2021 HK\$'000
Secured:		
Bank overdrafts	18,491	42,088
Bank borrowings	459,637	487,253
Bank borrowings under supplier financing arrangement (<i>note</i>)	44,671	108,788
Other borrowing	17,455	20,423
	540,254	658,552

Note: The Group has entered into certain supplier finance arrangements with banks. Under these arrangements, the banks pay suppliers the amounts owed by the Group in advance of the original due dates at a discount offered by the suppliers. The Group's obligations to suppliers are legally extinguished on settlement by the relevant banks. The Group then settles with the banks between 60–120 days (2021: 60–120 days) after settlement by the banks. The interest rates are consistent with the Group's short term borrowing rates.

Taking into consideration of the nature and substance of the above arrangements, the Group presents payables to the banks under these arrangements as "secured bank and other borrowings" in the consolidated statement of financial position. In the consolidated statement of cash flows, repayments to the banks are included within financing cash flows based on the nature of the arrangements, and payments to the suppliers by the banks are disclosed as non-cash transactions.

LOAN COVENANTS

In respect of the bank and other borrowings with carrying amount of HK\$115,038,000 as at 31 December 2022 (2021: HK\$129,068,000), the Group is required to comply with the following financial covenants throughout the continuance of the relevant loan and/or as long as the loan is outstanding:

- (i) the consolidated tangible net worth at any time shall not be less than HK\$500,000,000;
- (ii) the consolidated bank borrowings less pledged bank deposits and bank balances and cash shall not be more than HK\$650,000,000; and
- (iii) the ratio of the consolidated net profits before interest, taxation, depreciation and amortisation and bank balances and cash in respect of any relevant period to the interests and principal repayment of bank borrowings of that relevant period shall not be less than 1.00:1.

The Group has complied with these covenants throughout the reporting period.

28. LEASE LIABILITIES

30. DEFERRED TAXATION

The following are the major deferred tax liabilities and assets recognised and movements thereon during the current and prior years:

	Revaluation of land and buildings <i>HK\$'000</i>	Accelerated accounting depreciation <i>HK\$'000</i>	Total <i>HK\$'000</i>
At 1 January 2021	6,845	(1,657)	5,188
Credit to equity	(288)	–	(288)
Charge to profit or loss	–	877	877
At 31 December 2021	6,557	(780)	5,777
(Credit) charge to profit or loss	(476)	373	(103)
Charge to equity	2,454	–	2,454
Exchange adjustment	–	(648)	(648)
At 31 December 2022	8,535	(1,055)	7,480

Under the tax law of Bangladesh, withholding tax is imposed on dividends declared in respect of profits earned by Bangladesh subsidiaries. Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences attributable to accumulated profits of the Bangladesh subsidiaries as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

The Group has unused tax losses of approximately HK\$543,626,000 (2021: HK\$511,129,000) available for offset against future profits. No deferred tax asset has been recognised due to the unpredictability of future profit streams.

Notes to the Consolidated Financial Statements

31. SHARE BASED PAYMENT TRANSACTIONS

SHARE OPTION SCHEMES

The Group adopted a share option scheme on 19 June 2017 (“**Share Option Scheme**”). The purpose of Share Option Scheme is to provide any directors and full-time employees of any member of the Group who have contributed or will contribute to the Group (“**Participants**”) with the opportunity to acquire proprietary interests in the Company and to encourage Participants to work towards enhancing the value of the Company and its shares for the benefit of the Company with a flexible means of either retaining, incentivising, rewarding, remunerating, compensating and/or providing benefits to Participants.

Pursuant to the Share Option Scheme, the directors of the Company may invite Participants to take up options at a price determined by the board of directors provided that it shall be at least the highest of (a) the closing price of the shares as stated in the Stock Exchange’s daily quotations sheet on the date on which an offer is made by the Company to the grantee (which date must be a business day, “**Offer Date**”); (b) a price being the average of the closing prices of the shares of the Company as stated in the Stock Exchange’s daily quotations sheets for the 5 business days immediately preceding the Offer Date; and (c) the nominal value of a share of the Company.

The total number of shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option scheme of the Company shall not in aggregate exceed 10% of the total number of shares in issue as at 12 July 2017 unless the Company obtains a fresh approval from the shareholders to refresh the limit.

The maximum entitlement for any one Participant is that the total number of the shares issued and to be issued upon exercise of the options granted under the Share Option Scheme to each participant (including both exercised and outstanding options) in any 12-month period shall not exceed 1% of the total number of shares in issue unless otherwise approved by the shareholders at a general meeting of the Company.

The option may be exercised in accordance with the terms of the Share Option Scheme at any time during the option period which would be determined and notified by the board of directors to the grantee at the time of making an offer.

No share options have been granted by the Group up to the date of issuance of these consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2022

31. SHARE BASED PAYMENT TRANSACTIONS (CONTINUED)

SHARE AWARD SCHEME

The Group adopted a share award scheme on 11 December 2017 (“**Share Award Scheme**”). The specific objectives of the Share Award Scheme are (i) to recognise the contributions by certain Employees and to provide them with incentives in order to retain them for the continual operation and development of the Group; and (ii) to attract suitable personnel for further development of the Group.

The result in the number of the shares awarded shall not exceeding 5% of the number of the issued shares of the Company from time to time. The maximum number of shares which may be awarded to a selected employee under the Share Award Scheme shall not exceed 1% of the number of the issued shares of the Company from time to time.

During the year ended 31 December 2018, 5,334,000 ordinary shares of the Company have been acquired at an aggregate cost of HK\$8,000,000. On 16 January 2018, certain directors and employees of the Group have been awarded for 5,333,334 ordinary shares under the Share Award Scheme.

The award shares have been vested to the selected participants in first three tranches with 1,333,000 ordinary shares of the Company vested in July 2018, 1,735,000 ordinary shares of the Company vested in July 2019, 1,910,667 ordinary shares of the Company vested in July 2020 and 250,000 ordinary shares of the Company vested in July 2021.

On 5 July 2021, the Group granted 105,333 shares to certain employees of the Group under Share Award Scheme. These shares have been vested in October 2021. The fair value of the share awards determined based on share price at grant date amounting to HK\$76,893. The closing price of the shares of the Company immediately before the grant of awarded shares was HK\$0.73 per share on 5 July 2021.

The Group recognised total expenses of HK\$620,000 for the year ended 31 December 2021 (31 December 2022: nil) in relation to the share awards granted by the Company.

As at 31 December 2022 and 31 December 2021, all shares have been granted and vested and nil ordinary shares of the Company were held by the trustee of the Share Award Scheme.

The following table discloses movements of the shares award during the year are as follows:

Outstanding awarded shares as at 1 January 2021	Number of shares awarded during the year	Number of shares awarded shares vested during the year	Number of awarded shares lapsed during the year	Outstanding awarded shares as at 31 December 2021 and 2022

32. RETIREMENT BENEFITS SCHEME

DEFINED CONTRIBUTION SCHEMES

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the “**MPF Scheme**”) under the Hong Kong Mandatory Provident Fund Schemes Ordinance. Under the MPF Scheme, the employees are required to contribute 5% of their monthly salaries or up to a maximum of HK\$1,500 and they can choose to make additional contributions. The employer’s monthly contributions are calculated at 5% of the employee’s monthly salaries or up to a maximum of HK\$1,500 (the “**Mandatory Contributions**”). The employees are entitled to 100% of the employer’s Mandatory Contributions upon their retirement at the age of 65, death or total incapacity.

The employees of the Group’s factories in the PRC are members of a state-managed retirement benefit plan operated by the government of the PRC. The Group are required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit plan is to make the specified contributions.

Provident fund in Bangladesh is not mandatory but the subsidiaries are required to create such a fund once three-fourth of the eligible employees demand so. If they demand so, the employees of the Group’s factories in Bangladesh will be covered by a company self-managed provident fund operated by respective subsidiaries of the Group in Bangladesh. Relevant subsidiaries will be required to contribute a minimum specified percentage of payroll costs to the provident fund to fund the benefits. The minimum contribution for the eligible employees is 8.33% of their basic salaries. Those subsidiaries are obliged to set up the trustee board for managing the contribution to the provident fund with participation from both of the company management team and the employees.

Provident fund in other jurisdictions is based on the local government policy.

During the year ended 31 December 2022, the total retirement benefits scheme contribution arising from the MPF Scheme and state-managed retirement benefit scheme charged to profit or loss were HK\$10,798,000 (2021: HK\$12,528,000).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2022

32. RETIREMENT BENEFITS SCHEME (CONTINUED)

DEFINED CONTRIBUTION SCHEME (CONTINUED)

Defined benefit plan

Pursuant to the Employment Ordinance, Chapter 57, the Group has the obligation to pay Long Service Payment (“**LSP**”) to qualifying employees in Hong Kong upon retirement, subject to a minimum of 5 years employment period, based on the following formula:

Last monthly wages (before termination of employment) × 2/3 × Years of service

Last monthly wages are capped at HK\$22,500 while the amount of long service payment shall not exceed HK\$390,000. This obligation is accounted for as a post -employment defined benefit plan.

Furthermore, the Mandatory Provident Fund Schemes Ordinance passed in 1995 permits the Group to utilise the Group’s mandatory MPF contributions, plus/minus any positive/negative returns thereof (collectively, the “**Eligible Offset Amount**”), for the purpose of offsetting LSP payable to an employee (the “**Offsetting Arrangement**”).

The Employment & Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 was gazetted on 17 June 2022, which will eventually abolish the Offsetting Arrangement. The Amendment will come into effect prospectively from a date to be determined by the Hong Kong SAR Government, which is expected to be in 2025 (the “**Transition Date**”). Under the amended Ordinance, the Eligible Offset Amount after the Transition Date can only be applied to offset the pre-Transition Date LSP obligation but no longer eligible to offset the post-Transition Date LSP obligation. Furthermore, the LSP obligations before the Transition Date will be grandfathered and calculated based on the Last monthly wages immediately preceding the Transition Date.

The Group’s LSP obligation, taking into consideration the Offsetting Arrangement, is considered to be insignificant and no provision has been recognised as at 31 December 2022 and 31 December 2021.

35. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debts which includes secured bank and other borrowings disclosed in note 27, lease liabilities disclosed in note 28, net of cash and cash equivalents and equity attributable to owners of the Group, comprising issued share capital, other reserves and retained profits.

The directors of the Group review the capital structure on a semi-annual basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debt or the redemption of existing debt.

(B) FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include trade and other receivables, financial assets at FVTPL, pledged bank deposits, bank balances and cash, trade payables, secured bank and other borrowings, bank overdrafts, amounts due to a non-controlling shareholder of a subsidiary and a related company and lease liabilities. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

The Group undertakes certain operating transactions in foreign currency, which exposes the Group to foreign currency risk. The Group currently does not have a foreign currency hedging policy. However, the directors of the Company monitor foreign exchange exposure and will consider hedging significant foreign currency exposure should such need arise.

At the end of the reporting period, the carrying amounts of monetary assets (including intra-group balances) and monetary liabilities denominated in currencies other than the respective group entities' functional currencies are as follows:

	Liabilities		Assets	
	2022 HK\$'000	2021 HK\$'000	2022 HK\$'000	2021 HK\$'000
Australian dollars	–	–	642	685
Canadian dollars	–	–	1,143	1,199
Euro dollars	–	–	1,351	1,438
Great British Pound	–	–	705	790
RMB	9,527	13,249	1,385	519
HK\$	164,349	281,238	19,774	28,372

The directors of the Company consider that the Group is exposed to minimal currency risk as HK\$ is pegged to US\$ which is the functional currency of certain group entities, and the exposure to other foreign currencies is not significant. Sensitivity on foreign currency risk is therefore not presented.

(B) FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (Continued)

Other price risk

The Group is exposed to other price risk arising from investment fund and life insurance contracts which were classified as financial assets at FVTPL (2021: life insurance contracts) as at 31 December 31 2022, respectively.

Sensitivity analysis

No sensitivity analysis of investment funds and life insurance contracts are presented as a reasonably possible change in the net asset value and account values would not have significant impact on the profit of the Group.

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate bank borrowings (see note 27 for these borrowings), lease liabilities (see note 28 for details) and pledged bank deposits (see note 22 for details) which carried fixed interest rate.

The Group is exposed to cash flow interest rate risk in relation to bank balances (see note 23 for details) and variable-rate bank and other borrowings (see note 27 for details of these borrowings). The Group aims at keeping borrowings at variable rates. The Group manages its interest rate exposures by assessing the potential impact arising from any interest rate movements based on interest rate level and outlook. From time to time, if interest rate fluctuates significantly, interest rate swaps may be used to convert some of the floating interest rates borrowings to fixed rates, to manage interest rate exposure.

A fundamental reform of major interest rate benchmarks has been undertaken globally to replace some interbank offered rates (“IBORs”) with alternative nearly risk-free rates. Details of the impacts on the Group’s risk management strategy arising from the interest rate benchmark reform and the progress towards implementation of alternative benchmark interest rates are set out under “interest rate benchmark reform” in this note.

The Group’s exposures to interest rates on financial liabilities is detailed in the liquidity risk management section of this note. The Group’s cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Dollar Prime Rate, US\$ Prime Rate, HIBOR, LIBOR, SOFR and PRC Loan Prime Rate, arising from the Group’s HK\$, US\$ and RMB borrowings.

Cash flow interest rate risk in relation to variable-rate bank balances is considered insignificant as minimal taking into account the minimal fluctuation on market interest rate. Accordingly, no interest rate sensitivity analysis is prepared.

(B) FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (Continued)

Interest rate risk (Continued)

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period. For variable-rate bank borrowings, the analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year. A 100 basis points (2021: 50 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 100 basis points (2021: 50 basis points) higher/lower and all other variables were held constant, the Group's profit for the year ended 31 December 2022 would decrease/increase by approximately HK\$4,386,000 (2021: HK\$3,243,000) respectively.

Credit risk and impairment assessment

At the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

Pledged bank deposits and bank balances

The credit risk on pledged bank deposits and bank balances are limited because the counterparties are banks with sound credit ratings Aa-B (2021: Aa-B) assigned by international credit-rating agencies. The Group assessed 12m ECL for bank balances and pledged bank deposits by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the Group assessed that the 12m ECL on bank balances and pledged bank deposits were insignificant and thus no loss allowance was recognised.

Trade receivables

The Group has concentration of credit risk as 34% (2021: 41%) and 78% (2021: 67%) of the total trade receivables was due from the Group's largest customer and the five largest customers respectively within the hair products business segment.

The Group's concentration of credit risk by geographical location as is mainly in the USA, which account for 97% (2021: 95%) of the total trade receivables as at 31 December 2022. In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed once a year.

The ECL on trade receivables are assessed individually.

The tables below detail the credit risk exposures of the Group's trade receivables which are subject to ECL assessment:

	Note	Internal management assessment	12m or lifetime ECL	Gross carrying amount	
				2022	2021
				HK\$'000	HK\$'000
Trade receivables	21	Note 1	Lifetime ECL (not credit-impaired)	195,639	234,775
		Note 2	Lifetime ECL (credit-impaired)	-	1,650

Notes:

- (1) These amounts are assessed individually by applying lifetime ECL approach based on historical default and loss data and adjusted for forward-looking factors.
- (2) In respect of these trade receivables, there is evidence indicating these assets are credit-impaired. These amounts are assessed individually by applying lifetime ECL approach based on historical default and loss data and adjusted for forward-looking factors.

Credit risk and impairment assessment (Continued)

Other receivables and deposits

For other receivables and deposits, the directors of the Group make periodic individual assessment on the recoverability of other receivables based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. In the opinion of the directors of the Company, the internal credit rating of the related debtors is at low risk. The directors of the Company believe that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. The Group assessed that the 12m ECL on other receivables and deposits with a total gross carrying amount of HK\$28,902,000 as at 31 December 2022 (2021: HK\$50,394,000) are insignificant and thus no impairment loss allowance was recognised.

Liquidity risk

Liquidity risk reflects the risk that the Group will have insufficient resources to settle its financial liabilities as they fall due. In managing liquidity risk, the Group monitors and maintains sufficient funds to meet all its potential liabilities as they fall due. It is applicable to normal market conditions as well as negative projections against expected outcomes, so as to avoid any risk of incurring contractual penalties or damaging the Group's reputation.

Liquidity forecasts are produced on a monthly basis, to ensure that utilisation of current facilities is optimised; on a quarterly basis to ensure that covenant compliance targets and medium-term liquidity is maintained; and on a long-term projection basis, for the purpose of identifying long-term strategic funding requirements. The board of directors also continuously assesses the balance of capital and debt funding of the Group.

The board of directors continuously manages liquidity risk on a regular basis and will increase the frequencies of such assessment should need arise. Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves of cash and banking facilities and by continuously monitoring the utilisation of bank borrowings and ensuring compliance with loan covenants.

The following tables detail the Group's remaining contractual maturity for its financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity analysis for other non-derivative financial liabilities is prepared based on the scheduled repayment dates. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.

Secured bank and other borrowings with a repayment on demand clause are included in the “on demand” time band in the above maturity analysis. As at 31 December 2022, the aggregate carrying amounts of these secured bank and other borrowings amounted to approximately HK\$480,182,000 (2021: HK\$518,497,000). Taking into account the Group’s financial position, the directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The directors believe that such bank borrowings will be repaid in accordance with the scheduled repayment dates set out in the loan agreements, details of which are set out in the table below:

Interest rate benchmark reform

As listed in note 36(b), several of the Group’s LIBOR and HIBOR bank borrowings will be subject to the interest rate benchmark reform. The Group is closely monitoring the market and managing the transition to new benchmark interest rates, including announcements made by the relevant IBOR regulators.

LIBOR

As at 31 December 2022, all LIBOR settings have been either ceased to be provided by any administrator or no longer be representative, except for US dollar settings (other than the 1-week and 2-month settings) which will be ceased immediately after 30 June 2023.

HIBOR

While the Hong Kong Dollar Overnight Index Average (“**HONIA**”) has been identified as an alternative to HIBOR, there is no plan to discontinue HIBOR. The multi-rate approach has been adopted in Hong Kong, whereby HIBOR and HONIA will co-exist. The Group’s bank borrowings linked to HIBOR will continue till maturity and hence, not subject to transition.

(i) *Risks arising from the interest rate benchmark reform*

The following are the key risks for the Group arising from the transition:

Liquidity risk

The additional uncertainty on various alternative rates which are typically published on overnight basis will require additional liquidity management. The Group’s liquidity risk management policy has been updated to ensure sufficient liquid resources to accommodate unexpected increases in overnight rates.

(ii) *Progress towards implementation of alternative benchmark interest rates*

As part of the Group’s risk management for transition, new contracts entered into by the Group are linked to the relevant alternative benchmark rates or interest rates which are not subject to reform to the extent feasible. Otherwise, the Group ensured the relevant contracts include detailed fallback clauses clearly referencing the alternative benchmark rate and the specific triggering event on which the clause is activated.

During the year, for a floating rate loan that is linked to HIBOR, the Group had confirmed with the relevant counterparty HIBOR will continue to maturity.
