## ABOUT THIS REPORT

Walnut Capital Limited (the “Company”), together with its subsidiaries (collectively, the “Group”), is pleased to present this Environmental, Social and Governance (the “ESG”) Report (the “Report”) to provide an overview of the Group’s management of significant issues affecting the operation, including environmental, social and governance issues.

The objective of this Report is to highlight the Group’s ESG performance for the purpose of assisting all stakeholders in understanding the Group’s ESG concepts and practices in achieving sustainable development for the future.

The Group is principally engaged in investment in listed and unlisted financial instruments. The Board of Directors (the “Board”) acknowledged the responsibility for monitoring and managing ESG-related risks and the effectiveness of the ESG management system. The Board reviews and discusses the goals and targets under the ESG initiatives to optimise efficient use of resources and to minimise impact on the environment and natural resources from the Group’s operation on an annual basis.

## BOARD STATEMENT

Sustainable development is an integral part of the Group’s business strategy in order to achieve business excellence and enhance capabilities for long-term competitiveness. The Group is committed to operating in a manner that is economically, socially, and environmentally sustainable while balancing the interests of our various stakeholders and fostering a positive impact on the society. The Group’s sustainability strategy is based on the compliance with the applicable legal requirements, principle of sustainability and opinions from stakeholders. The Group have established and implemented various policies to manage and monitor the risks related to the environment, employment, operating practices, and community.

The Board bears ultimate responsibility for the ESG management of the Group and supervises the ESG work of the Group. The Board of Directors has fully implemented the Group’s ESG governance in accordance with the ESG Guide, reviewed the establishment and implementation of ESG objectives, and the effectiveness of the ESG risk management and internal control systems.

The Board believes that a sound environmental, social and governance structure is vital for continued sustainability and development of the Group’s activities. The Group will continue to strengthen the efforts in information collection for better performance in the ESG areas and broader disclosure of related information in sustainable development.

## ESG GOVERNANCE STRUCTURE

The Group has established a three-tier structure conducts a top-down management approach concerning its ESG issues. The ESG governance structure is comprised of the Board, the senior management and the ESG Committee consisting of major departments of the Group, with their respective functions clearly defined, to achieve top-down ESG supervision and ensure the effectiveness of the Group's ESG work.

The Board assumes full responsibility for the Group's ESG strategy and reporting. The Board is responsible for formulating ESG management strategies, priorities and objectives; reviewing and approving the ESG risks and opportunities evaluated by senior management, as well as the ESG management policies; ensuring appropriate and effective ESG risk management and internal control systems to fit the actual business situation; regularly reviewing the Group's ESG performance against objectives; and approving the disclosures in this report.

The senior management is responsible for evaluating and identifying the ESG risks of the Group, formulating ESG management policies of the Group, ensuring the effectiveness of the ESG risk management and internal control system of the Group, and reporting these to the Board.

The ESG Committee is responsible for implementing ESG management policies approved by senior management, carrying out the ESG management and reporting work, and presenting the working progress of ESG management and reporting to senior management. The ESG Committee also reviews the Group's ESG performance through key performance indicators ("KPIs") from various ESG aspects, including environmental, labour practices, in order to review progress made against ESG-related goals and targets. By conducting regular materiality assessment, it assists the Board to evaluate, prioritise and manage material ESG-related issues. For further details, please refer to the sections headed "STAKEHOLDER ENGAGEMENT" and "MATERIALITY ASSESSMENT". During the reporting period, the senior management had a special meeting with the ESG working group to discuss the Group's ESG management plan and progress.

## REPORTING STANDARD & PRINCIPLES

This Report is prepared in accordance with Appendix 27 to the of the Main Board Listing Rules – “Environmental, Social and Governance Reporting Guide” and has complied with “comply or explain” provision in the Listing Rules.

The Group has prepared this Report in accordance with the following reporting principles:

- **Materiality:** Important and relevant information to stakeholders on different ESG aspects is covered in the Report. A materiality assessment was conducted to determine material ESG issues with results approved by the Board.
- **Quantitative:** The relevant standards, methodologies and assumptions used to prepare the quantitative information is disclosed, as appropriate. Quantitative information is provided with narrative and comparative figures, where possible.
- **Consistency:** Consistent methodologies are used to prepare and present ESG data in the Report, unless otherwise specified, to allow for meaningful comparisons.
- **Balance:** The information is presented without the inappropriate use of selections, omissions or other forms of manipulation that would influence a decision or judgment by the reader.

## REPORTING PERIOD AND BOUNDARY

This Report demonstrates our sustainability initiatives during the reporting period from 1 January 2022 to 31 December 2022. There was no material change to the methods or key performance indicators (“KPIs”) used by the Group in the years ended 31 December 2022 and 2021. The reporting boundary covers the Group’s principal business of investing in listed and unlisted equity and debt securities and investment funds and the scope of reporting covers the Group’s ESG performance with environmental and social data of the Group’s operation site in Hong Kong. The total number of employee used in this Report excluding non-executive director and independent non-executive directors, which this number applied to all employee data and is also being used for intensity calculations.

# STAKEHOLDER ENGAGEMENT

The Group understands the success of the Group’s business depends on the support from its key stakeholders, who (a) have invested or will invest in the Group; (b) have the ability to influence the outcomes within the Group; and (c) are interested in or affected by or have the potential to be affected by the impact of the Group’s activities, products, services and relationships. It allows the Group to understand risks and opportunities. The Group will continue to ensure effective communication and maintain good relationship with each of its key stakeholders.

# MATERIALITY ASSESSMENT

The Group believes that sound ESG performance is important to the Group’s sustainable development and community. The Group is committed to protecting and improving the ecological environment and society and minimizing the impact of its activities on the environment. Throughout the materiality assessment exercise, the ESG Committee has assisted the Board to review its operations, identify key ESG issues and assess the importance of these issues to its businesses and stakeholders. It is the Group’s policy to promote green operations, thereby gradually achieving the coordinated development of the Group, the environment and the society.

Identifying the material ESG issues that matter the most to the Group is a prerequisite for setting the framework for the ESG Report and formulation of ESG management strategies. To identify potential material topics for disclosure in the Report, the Group took reference to the HKEX ESG Reporting Guide and set possible topics for assessment. All material ESG issues listed below have been disclosed in the section headed “B. SOCIAL ASPECTS”.

B7. Anti-corruption	Corporate Governance

# STAKEHOLDER FEEDBACK

The Group welcomes stakeholders’ feedback on this Report for our sustainability initiatives. Please contact us by email to [info@walnutcapital.io](mailto:info@walnutcapital.io).

## A. ENVIRONMENTAL ASPECTS

The Group is mainly involved in office operations and its business activities do not have significant impact on the environment or natural resources. In spite of this, we are committed to continuously improving the environmental sustainability of our business and ensuring that environmental consideration remains one of the key focuses in fulfilling our obligations to both the environment and community. To demonstrate our commitment to sustainable development, we have established relevant emission reduction and energy saving initiatives to manage the emission and maintain green operations.

Throughout the year, the Group fully complied with all of the relevant environmental laws and regulations in Hong Kong, such as the Air Pollution Control Ordinance (Chapter 311), the Sewage Services Ordinance (Chapter 463) and the Waste Disposal Ordinance (Chapter 354). Besides, during the reporting period, we were not aware of any non-compliance with relevant laws and regulations that had significant impact on the Group related to air and greenhouse gas emissions, discharges into water and land, generation of hazardous and non-hazardous waste. We also regularly update with the latest development of the applicable laws and regulations on environmental protection.

### A1. EMISSIONS

#### Air Emissions

Air emission control is essential to mitigate environmental impacts and to protect employees' health. As the Group is mainly involved in general office activities, the amount of air emissions is insignificant. Our air emissions are mainly generated from the motor vehicles owned by the Group. The motor vehicles were used by the senior management to visit the operating venues and attend the conferences with the business partners locally in Hong Kong. The increase in air emissions in 2022 was mainly attributable to the more frequently used in motor vehicle during the year. The emission from the motor vehicles imposed immaterial impact on the overall air pollution in Hong Kong. The detail of air emissions of the Group during the reporting period was as follows:

Type of air pollutants	Unit	2022	2021
Nitrogen oxides (NO <sub>x</sub> )	kg	<b>3.54</b>	2.49
Sulphur dioxide (SO <sub>2</sub> )	kg	<b>0.06</b>	0.04
Particulate matter (PM)	kg	<b>0.26</b>	0.18

## A. ENVIRONMENTAL ASPECTS

### Greenhouse Gas (“GHG”) Emissions

Climate change is gradually becoming concerned by the community. The Group recognises that climate change poses a risk to its business, and it is committed to mitigating the effects of climate change. Regarding GHG emissions of the Group, scope 1 direct emissions and scope 2 and 3 indirect emissions are mainly resulted from combustion of fuels in motor vehicles, purchased electricity and paper waste. Given that the majority of the GHG emissions of the Group come from energy consumption, we place great emphasis on improving energy efficiency and reducing energy consumption. We have adopted energy saving initiatives mentioned in the section “Use of Resources” of this Report. The Group aims to reduce or maintain the current GHG emissions at the stable level in the next 3 years in the future compared to the baseline year 2021. During the year, the Group achieved the target set and will continue to maintain or reduce the GHG emissions. The GHG emissions of the Group during the reporting period were as follows:

Type of air pollutants	Units	2022	2021
Scope 1 <sup>1</sup>	tonnes of CO <sub>2</sub> -e	<b>10.54</b>	6.66
Scope 2 <sup>2</sup>	tonnes of CO <sub>2</sub> -e	<b>19.98</b>	24.82
Scope 3 <sup>3</sup>	tonnes of CO <sub>2</sub> -e	<b>0.67</b>	–
<b>Total GHG Emission</b>	<b>tonnes of CO<sub>2</sub>-e</b>	<b>31.19</b>	31.48
GHG Intensity <sup>4</sup>	tonnes of CO <sub>2</sub> -e/employee	<b>2.83</b>	2.86

### Sewage Discharge

The Group does not consume a significant volume of water in its daily operation due to its office-based nature, therefore its business activities did not generate a material portion of discharge into water. Since the sewage discharged by the Group is discharged into the municipal sewage pipe network to the regional water purification plant, water consumed by the Group is considered as sewage discharged.

### Hazardous and Non-hazardous Wastes

The Group recognises the importance of waste reduction. Waste management measures have been introduced to minimise the amount of waste generated and reduce the impact of our operation on the environment. Due to our business operation’s nature, no hazardous waste was generated during the reporting period.

<sup>1</sup> Scope 1: Direct emission from sources that are owned or controlled by the Group.

<sup>2</sup> Scope 2: Indirect emissions from the generation of purchased electricity consumed by the Group.

<sup>3</sup> Scope 3: Includes all other indirect emissions that occur in the Group’s value chain.

<sup>4</sup> The intensity refers to tonnes of carbon dioxide equivalent (CO<sub>2</sub>-e) per the total number of employees at the end of the reporting period. The total number of employees is 11 (2021: 11 employees) which this number is also being used for other intensity calculations.

# A. ENVIRONMENTAL ASPECTS

Due to the nature of office operation, the non-hazardous waste can be classified into two categories, including domestic waste generated from daily operation and recyclable waste. The Group strives to reduce the amount of non-hazardous waste generated and strengthen the environmental awareness of employees by introducing various waste reduction measures and education as follows:

- Recycling bins are available in the office for effective recycling of used paper, letter, and envelope to minimise the paper waste.
- By printing or photocopying on both sides of paper, where applicable, to minimise paper consumption.
- Electronic communication is promoted, such as using emails instead of letters or faxes.
- Excessive packing materials and decorations are avoided.
- Employees are encouraged to participate in training and workshops related to environmental issues, including food waste problems and air pollution.
- Employees are encouraged to participate in waste reduction and recycling events such as No Plastic Bottle Day.

The Group aims to reduce or maintain the current hazardous and non-hazardous wastes at a stable level in the next 3 years in the future compared to the baseline year 2021. During the year, the Group achieved the target set and will continue to maintain or reduce the non-hazardous waste level. The non-hazardous waste generated by the Group during the reporting period was as follows:

Type of waste	Units	2022	2021
Non-hazardous waste	tonnes	<b>0.46</b>	0.46
Non-hazardous waste intensity <sup>5</sup>	tonnes/employee	<b>0.04</b>	0.04

## A2. USE OF RESOURCES

The Group considers environmental protection as an essential component of a sustainable and responsible business. We have an in-depth understanding of the importance of safeguarding sustainable development of the environment and attach importance to efficient utilization of resources by introducing various measures in daily business operations. We understand that staff participation is the key to achieving such goals. We have adopted energy and water efficiency initiatives policies to motivate our employees to participate in resource conservation activities.

<sup>5</sup> The intensity refers to tonnes of non-hazardous waste per total number of employees at the end of the reporting period.

## A. ENVIRONMENTAL ASPECTS

### Energy consumption

With aims of resource saving and implementation of energy saving measures, we actively promote the concept of energy saving and emission reduction into its business development and operation. We have advocated various energy conservation strategies as follows:

- Use of natural lighting is encouraged.
- Energy-saving lightings are installed.
- Unnecessary lighting and electrical appliances are switched off when they are not in use.
- Temperature of air-conditioners is maintained at an energy-efficient level of 24 degrees Celsius to 26 degrees Celsius.

The slightly increase in total energy consumption in 2022 was mainly contributed by the more frequently in using motor vehicles during the year. The energy consumption of the Group during the reporting period was as follows:

Type of energy	Units	2022	2021
Purchased electricity	MWh	28.11	34.96
Petrol	MWh	22.42	7.97
Diesel	MWh	17.74	18.09
<b>Total energy consumption</b>	<b>MWh</b>	<b>68.27</b>	<b>61.01</b>
Energy intensity <sup>6</sup>	MWh/employee	6.21	5.55

The Group aims to reduce or maintain the current energy consumption at a stable level in the next 3 years in the future compared to the baseline year 2021. During the year, the Group achieved the target set and will continue to maintain or reduce the use of resources level.

### Water consumption

Water is an important natural resource. The business of the Group is operated in leased office premises where the water supply is solely controlled and centrally managed by the building management company. In this case, it is not feasible for us to provide water consumption data as there is no separate meter for each individual office unit to record water usage data. In spite of this, we still activity seek ways to reduce water consumption in daily operation by encouraging employees to turn taps off tightly to prevent dripping of water and giving priority to effective water-saving products. As said, due to the Group's office-based business nature, there is no issue in water sourcing.

### Use of Packaging Materials

Due to the Group's business nature, no packaging material is needed in its operation and is not considered to be a material ESG aspect of the Group.

<sup>6</sup> The intensity refers to MWh per the total number of employees at the end of the reporting period.

## A. ENVIRONMENTAL ASPECTS

### A3. THE ENVIRONMENT AND NATURAL RESOURCES

The Group understands that implementing environmental protection can reduce operational risk and increase business opportunities. Regarding the business nature of the Group, we do not aware of any significant impact of our business activities on the environment and natural resources. Despite this, we endeavour to consistently improve our environmental performance by implementing aforementioned waste reduction measures and resources saving initiatives. We will continue to seek opportunities to further reduce emission and resources consumption with the aim to reduce the impacts on environment and natural resources to minimal.

### A4. CLIMATE CHANGE

One of the major reasons for climate change which is global warming driven by human emissions of greenhouse gases has raised the public's concern for many years. The results of extreme weather events have threatened the human lives and economic activities. Through management's discussion, the Group identifies the global warming issue and concerns about its impacts, and commits to reduce the emissions of greenhouse gases by encouraging our employees to switch off lights and electronic equipment when not in use, travel to work by public transportation and recycle the working papers.

#### Physical Risks

The Group mainly operates in Hong Kong and Guangdong Province and the Group considered rainstorm and typhoon as the major threats from the increasing climate change. The Group has developed mitigation measures to reduce the effect raised by extreme weather conditions such as typhoons on our employees, properties and our operation. For instance, before the Black Rainstorm Warning Signals and No. 8 or above Tropical Cyclone Warning Signals incurred, the Group will release employees from work and ensure there is sufficient time for their journeys between living place and office. The Group also conducts inspection on windows during the typhoon and rainstorm season and ensure all inventories will be stocked on the shelves for the protection from the risk of water invasion.

#### Transition Risks

The Group keeps on monitoring changes in regulatory, technological and market landscape due to climate change, including the tightening of national policies and listing rules. The Group has been taking comprehensive measures to deal with changing situation.

## B. SOCIAL ASPECTS

### EMPLOYMENT AND LABOUR PRACTICES

#### B1. EMPLOYMENT

The Group believes people are important assets and the keys to maintaining its competitiveness. We aim to attract and retain talents, maintain a safe and equal working environment for our employees, provide development opportunities and promote employee health and well-being. The commitments are incorporated into staff handbook. The staff handbook covers the Group's standard in respect of compensation and dismissal, recruitment and promotion, working hours, rest periods and other benefits and welfare.

#### *Equal Opportunities, Diversity and Anti-discrimination*

The Group strives to create a diverse and inclusive workplace where all our employees are treated with dignity and respect. We are dedicated to providing equal opportunity in all aspects of employment and maintaining a workplace that is free from discrimination or harassment against any individual on the basis of seniority, nationality, gender, age, marital status, disability, race, color, religion or sexual preference.

The Group is in strict compliance with the Hong Kong Bill of Rights Ordinance (Chapter 383 of the Laws of Hong Kong), the Sex Discrimination Ordinance (Chapter 480 of the Laws of Hong Kong), the Disability Discrimination Ordinance (Chapter 487 of the Laws of Hong Kong), the Family Status Discrimination Ordinance (Chapter 527 of the Laws of Hong Kong), the Race Discrimination Ordinance (Chapter 602 of the Laws of Hong Kong) and other applicable laws and regulations in Hong Kong relating to equal opportunities, diversity and anti-discrimination.

#### *Remuneration and Promotion*

Remuneration and promotion opportunities are important to attract, retain and motivate talents in achieving key goals of the Group. The Group provides remuneration for our employees according to their qualifications, experience and work performance. Taken into considerations the individual performance, inflation and salary movement in the market, the salary structure is reviewed annually to ensure that it is fair and competitive.

The Group offers fair promotion opportunities based on conditions such as qualifications and work performance, which serve as motivations for employees to continue learning and improving work performance.

## B. SOCIAL ASPECTS

The Group is in strict compliance with the Employment Ordinance (Chapter 57 of the Laws of Hong Kong) (the “Employment Ordinance”), the Minimum Wage Ordinance (Chapter 608 of the Laws of Hong Kong) and other applicable laws and regulations in Hong Kong relating to employees’ remuneration and promotion.

### *Benefits and Welfare*

The Group strives to create a comprehensive welfare and benefit system for employees by offering an all-encompassing package of benefits and insurance to uphold adequate living standards for employees. Most of the employees enjoy the benefits including five-day work per week, medical insurance, mandatory provident fund and share option scheme. Employees are also entitled to annual leave, maternal leave, compassionate leave as well as statutory holidays.

The Group is in strict compliance with the Employment Ordinance, the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of the Laws of Hong Kong) (the “MPF Schemes Ordinance”), the Employees Compensation Ordinance (Chapter 282 of the Laws of Hong Kong) and other applicable laws and regulations in Hong Kong relating to employees’ benefits and welfare.

### *Dismissal*

Whenever an employee resigns or gets laid off, an exit interview is conducted by department head to find out the reason of departure or dismissal, so that the Group can further improve its business operations. The final salary payment, severance payment and long service payment (if any) are calculated and paid in accordance to the Employment Ordinance, the form 56F to Inland Revenue Department is filled in accordance to section 52(5) of the Inland Revenue Ordinance (Chapter 112 of the Laws of Hong Kong) and the MPF trustee is notified with the termination of employment in accordance to MPF Schemes Ordinance.

## B. SOCIAL ASPECTS

As at 31 December 2022, the employee compositions (in numbers of employees, excluding non-executive director and independent non-executive directors) by gender, age group, employee category and geographical region were as follows:

## B. SOCIAL ASPECTS

### B2. HEALTH AND SAFETY

Regarding the business nature of the Group, employees are mainly engaged in office work. The Group is committed to providing a safe and comfortable working environment for its employees. We comply with the Occupational Safety and Health Ordinance (Chapter 509 of the Laws of Hong Kong) and other applicable laws and regulations in Hong Kong to ensure occupational health and safety of our employees. We spare no effort to provide and maintain a safe and healthy working environment for employees to protect them from work-related injuries by adopting the following key measures:

- Smoking is prohibited in all enclosed areas within the office.
- Unsafe conditions are fixed immediately.
- Medical and employment injury insurance is provided to eligible employees.
- Work arrangement for typhoon and rainstorm warning is established.

With the above measures implemented, there was no work-related fatal for the past three years and no lost days due to work injury during the reporting period. The Group was not aware of any noncompliance with relevant laws and regulations that had significant impact on the Group in providing a safe and healthy working environment during the reporting period.

## B. SOCIAL ASPECTS

### B3. DEVELOPMENT AND TRAINING

The Group considers the skills and knowledge of our employees as the key elements of sustainable development of the Group. We provide training opportunities for our employees to enhance their working capabilities. Employees are provided with on-the-job training by their respective department heads to enable prompt fulfillment of job responsibilities and enhance their skills in discharging their duties. Employees are also encouraged to enroll in relevant courses and examinations to enhance personal performance.

During the Reporting Period, the overall training rate of the Group is 36% and the total training hours of the Group was 74 hours. The training detail was illustrated below:

## B. SOCIAL ASPECTS

### B4. LABOUR STANDARDS

Child and forced labour are strictly prohibited during the recruitment process as defined by laws and regulations. The Group strictly complies with local laws and prohibits any child and forced labour employment. The Group's human resources and administration department is responsible for monitoring and ensuring compliance with the latest and relevant laws and regulations that prohibit child labour and forced labour. Also, ensure identity documents are carefully checked. If the violation is involved, it will be dealt with in the light of circumstances.

During the Reporting Period, the Group was not aware of any material non-compliance with any material non-compliance with child and forced labour-related laws and regulations that would have a significant impact on the Group. Such laws and regulations include but are not limited to the Employment Ordinance (Chapter 57 of the laws of Hong Kong), 《中華人民共和國勞動法》 (the Labour Law of the PRC), 《中華人民共和國勞動合同法》 (the Law of the PRC on Employment Contracts) and other related labour laws and regulations.

## OPERATING PRACTICES

### B5. SUPPLY CHAIN MANAGEMENT

Due to the Group's business nature, the Group maintains business relationships with general office supplies suppliers. All sourcing of office supplies is performed locally. During the reporting period, the Group had a total of 1 supplier in Hong Kong. In selecting suppliers, we take considerations into their scale of business and reputation. Our suppliers are required to comply with all relevant local and national laws and regulations in relation to unethical behavior, bribery, corruption and other prohibited business practices. When suppliers are found to be non-compliance with our policy or contractual requirements, partnership will be terminated to uphold our stringent standards.

#### *Green Sourcing*

The Group integrates sustainability into supply chain by procuring products that cause minimal impacts on the environment, including eco-friendly stationery, reusable items and energy efficient appliances with energy labels.

## **B. SOCIAL ASPECTS**

### **B6. CUSTOMER DATA PROTECTION AND PRIVACY**

The Group regards data privacy and security as a key operating principle. We are in strict compliance with the Personal Data (Privacy) Ordinance (Chapter 486 of the Laws of Hong Kong) and committed to protecting confidentiality of the personal data of our employees, business partners and other identifiable individuals.

The Group instructs its employees to exercise strict standards of care in handling the personal information of customers and remind them of their obligations with regard to the confidentiality of customer information. The use of the information is restricted for the purpose consistent with those identified in the contracts to ensure the information is used in a responsible and non-discriminatory manner.

Due to the Group's business nature, no products or services subject to recalls for safety and health reasons have been recorded during the reporting period. No products and services related complaints have been received during the reporting period.

During the reporting period, the Group was not aware of any material non-compliance with laws and regulations concerning advertising, labelling and privacy matters relating to products and services provided and methods of redress that would have a significant impact on the Group.

### **B7. ANTI-CORRUPTION**

The Group strictly complies with the Prevention of Bribery Ordinance (Chapter 201 of the Laws of Hong Kong) enforced by the Independent Commission Against Corruption to prevent unethical pursuit. We place great importance in maintaining the highest standards of integrity and honesty and have no tolerance for any misconduct case. Once a misconduct case is discovered and confirmed, the employee will be subject to disciplinary action and the case will be reported to related governing body when necessary.

As part of an ongoing process of directors' training, the directors are updated with the latest developments regarding the Listing Rules and other applicable regulatory requirements from time to time to ensure compliance by all directors. All directors are encouraged to attend external forums or training courses on relevant topics which may count towards continuous professional development training. During the Year, all directors participated in appropriate continuous professional development activities by attending training courses on topics related to corporate governance and regulations or by reading materials relevant to the Company's business or their duties and responsibilities. The Group will provide training to our directors and employees on anti-corruption practices in the ensuing fiscal years.

During the reporting period, the Group was not aware of any non-compliance with the relevant laws and regulations that had significant impact on the Group relating to bribery, extortion, fraud and money laundering. No concluded legal cases regarding corrupt practices brought against the issuer or its employees during the reporting period.

## **B. SOCIAL ASPECTS**

### *Whistle-blowing Mechanism*
