CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the "Board") of directors (the "Directors") of Champion Alliance International Holdings Limited (the "Company" or "Champion Alliance International Holdings"), I am pleased to present the annual report of the Company and its subsidiaries (collectively, the "Group") for the year ended 31 December 2022 ("Year" or "Reporting Period").

China experienced an unprecedented economic slowdown in 2022 as the country's economy slumped to one of its worst growth in nearly half a century. The prolonged outbreaks of COVID-19 pandemic in various regions in the country once again caused disruptions to economic and industrial activities to different extent, dragging business performance in many industries.

To cope with the economic headwind and pandemic disruptions, the Group swiftly adjusted its strategies and took measures to minimise the impact to our day-to-day operation, while continuing to explore opportunities to expand its operations to wider geographies in China. Besides, the Group has built a strong business foundation which helped us navigate the adverse operating environment.

During the Reporting Period, the Group's revenue decreased 32.2% to approximately RMB334 million because of the aforementioned economic downturn which resulted in a slowed demand for our products and services.

Gross profit for the Reporting Period amounted to approximately RMB29.5 million, representing a year-on-year decrease of approximately 28.7%. Gross profit margin was approximately 21.9%. Loss attributable to shareholders of the Company amounted to approximately RMB9.2 million. Such loss was mainly attributable to the impairment of inventory in the cigarette packaging products segment.

In light of the increasingly tightened smoking and tobacco control imposed by the local government, we resolved to dispose of the cigarette packaging products operation during the Reporting Period to make better use of the Group's resources and focus on the development of the new energy and household paper segment.

Looking ahead, we remain confident in the long-term development of China's economy and our operations in a post-pandemic era. On one hand, the Chinese government is adamant to revitalise the domestic economy through a series of fiscal and monetary support, as the target of "around 5%" growth in gross domestic product ("GDP") was announced earlier this year. In particular, the government has identified consumption as a primary driver of economic growth, whereby the authority has promised there are "many tools" to boost consumer spending, thus potentially boosting the demand for staple consumer goods, such as household paper products.

On the other hand, as the world continues to work together to beat the climate crisis, China is determined to achieve its "dual-carbon goals". The government has pledged to push forward the transition to green development, with the target to cut energy intensity by 13.5% and carbon dioxide intensity by 18% during the Five-year plan period of 2021 to 2025. The Chinese government is therefore anticipated to accelerate the development of renewable and clean energy. We will remain prudent and keep abreast of market changes to refine our business strategies to capture these opportunities, in order to catalyse sustainable growth for the Group.

On behalf of the Board, I would like to express my gratitude to the continuous trust and support of all shareholders, investors, business partners and customers. The management team and all staff members of the Group will continue to strive for better results for the Group together and bringing higher returns to the shareholders.

Chen Shuming

Chairman and Executive Director

Hong Kong, 31 March 2023

MANAGEMENT DISCUSSION AND ANALYSIS

The Group is principally engaged in the (i) new energy operations which includes the production and sale of steam for industrial use, household heating and electricity production; (ii) sale of household paper products; and (iii) cigarette packaging products.

MARKET REVIEW

In 2022, various regions in People's Republic of China ("PRC" or "China") witnessed large-scale outbreaks of the pandemic of the novel coronavirus ("COVID-19"), subsequently hindering industrial activities and domestic consumption. As a result, the growth in gross domestic products ("GDP") of the country contracted to 3% only, marking the second slowest pace since 1976.

BUSINESS REVIEW

i. Steam for Industrial Use, Household Heating and Electricity Supply

The new energy operation segment of the Group engages in the production and sale of steam for industrial use, household heating and electricity in the PRC. The Group provides integrated services solutions for high-efficiency clean coal technology, clean production, energy saving, and environmental protection. Through these solutions, the Group has helped the PRC's clean energy industry to transform, upgrade and tackle the long-existing heating supply problem in urban areas and industrial parks.

In 2022, industrial and manufacturing activities in the PRC slowly recovered to pre-pandemic level as the country's value-added industrial output grew by 3.6% year-on-year. On the other hand, the government continued to push for development of and investment in clean energy industry in order to achieve its "dual carbon" goals. These factors supported the increased application of combined heat and power ("CHP" or "co-generation") in the PRC during the year.

During the reporting period, revenue of this segment was approximately RMB185.5 million, representing an increase of approximately 18.4% as compared to 2021.

ii. Household Paper Products

The Group's household paper products segment trades household paper products in the PRC. The Group's household paper products business currently has over 400 corporate customers, with sales network spanning across Heilongjiang, Jilin, Liaoning, Hebei, Henan, Shandong, Shaanxi, Jiangsu and Anhui Provinces, Beijing and Tianjin.

Due to an economic slowdown characterised by depressed consumer and investment sentiment, and with the pandemic largely contained in the PRC, the Group witnessed a slowdown in demand for high-quality household paper products during the year.

During the reporting period, revenue of this segment was approximately RMB65.2 million, representing a decrease of approximately 61.8% as compared to 2021.

MANAGEMENT DISCUSSION AND ANALYSIS

iii. Cigarette Packaging Products

In 2022, the government of the PRC continued to step up effort in cigarette control, promotion of mental and physical health, and cancer prevention. Therefore, the Group resolved to dispose of the operation during the year to focus resources on the new energy and household paper products operations. The details of the transaction are set out in the “Major Transaction” section below.

During the reporting period, revenue of this segment was approximately RMB83.4 million, representing a decrease of approximately 49.5% as compared to 2021.

FINANCIAL REVIEW

Revenue

For the year ended 31 December 2022, total revenue of the Group was approximately RMB334 million, representing a decrease of approximately RMB158.4 million over the total revenue of approximately RMB492.4 million for the corresponding period in 2021. Such decrease was because of the disposal of cigarette packaging products operation and the decrease in the sale of household paper products.

The following table sets forth the breakdown of the Group’s revenue for the year ended 31 December 2022 and 2021:

	For the year ended 31 December		Change %
	2022 RMB'000	2021 RMB'000	
Steam for industrial use, household heating and electricity supply	185,469	156,605	18.4
Household paper products	65,188	170,663	(61.8)
Cigarette packaging products	83,351	165,146	(49.5)

Gross Profit and Gross Profit Margin

The Group’s gross profit decreased from approximately RMB102.9 million for the year ended 31 December 2021 to approximately RMB73.3 million for the year ended 31 December 2022. The decrease was mainly due to the decrease in total revenue. Gross profit margin increased from approximately 20.9% for the year ended 31 December 2021 to approximately 21.9% for the year ended 31 December 2022.

Other Income and Gains, Net

For the year ended 31 December 2022, the Group’s net other income and gains mainly consisted of rental income, bank interest income, subsidy income, government grants and other income. The other income and gains decreased by approximately 69.9% to approximately RMB1.5 million for the year ended 31 December 2022 from approximately RMB4.9 million for the year ended 31 December 2021. The decrease was mainly due to the decrease in the governmental grants received for the reporting period.

MANAGEMENT DISCUSSION AND ANALYSIS

Selling and Distribution Expenses

During the reporting period, selling and distribution expenses mainly consisted of (i) costs of transportation expenses, (ii) staff costs, (iii) entertainment expenses, (iv) travelling expenses and (v) other expenses. The Group's selling and distribution expenses decreased by approximately 38.3% from approximately RMB26.7 million for the year ended 31 December 2021 to approximately RMB16.5 million for the year ended 31 December 2022. The decrease in selling and distribution expenses was mainly due to the decrease in revenue.

Administrative Expenses

For the year ended 31 December 2022, administrative expenses mainly consisted of (i) staff costs, (ii) depreciation and amortisation, (iii) entertainment expenses, (iv) office expenses and (v) legal and professional fee. Administrative expenses decreased from approximately RMB22.3 million for the year ended 31 December 2021 to approximately RMB18.8 million for the year ended 31 December 2022. The decrease in administrative expenses of the Group was mainly due to the decrease of staff costs and repair and maintenance expenses for the reporting period.

Other Expenses

For the year ended 31 December 2022, the Group's other expenses consisted of research and development expenses and depreciation. The net other expenses were approximately RMB2.2 million for the year ended 31 December 2022 as compared to approximately RMB8.4 million for the year ended 31 December 2021.

Finance Costs

Finance costs consisted of interest expenses from bank and other borrowings and interest on lease liabilities. The finance expenses were approximately RMB2.4 million for the reporting period (for the year ended 31 December 2021: RMB3.6 million). The decrease was mainly attributable to the decrease in interest expenses from a loan from an independent third party.

Income Tax Expense

The Group's income tax expense was approximately RMB16 million for the year ended 31 December 2022. The Group's income tax expense was approximately RMB17.8 million in the same period of 2021.

(Loss)/Profit Attributable to Owners of the Company

For the year ended 31 December 2022, the Group's loss attributable to owners of the Company was approximately RMB9.2 million. Profit attributable to owners of the Company for the year ended 31 December 2021 was approximately RMB24.4 million. The loss was mainly attributable to an impairment of inventory in the cigarette packaging products segment with net amount of approximately RMB31.2 million.

LIQUIDITY AND FINANCIAL RESOURCES

Net Current Assets

The Group recorded net current assets of approximately RMB150.8 million as at 31 December 2022, while the net current assets as at 31 December 2021 was approximately RMB76.5 million.

MANAGEMENT DISCUSSION AND ANALYSIS

Borrowings and Gearing Ratio

The total borrowings of the Group as at 31 December 2022 were approximately RMB14.8 million (as at 31 December 2021: RMB41.1 million). The Group's gearing ratio decreased from approximately 27.9% as at 31 December 2021 to approximately 11.8% as at 31 December 2022. The decrease in the gearing ratio was primarily a result of the decrease in bank and other borrowings, and amount due to a former shareholder of a subsidiary. Gearing ratio was calculated by dividing total debt (which mainly consisted of bank and other borrowings, amount due to the ultimate holding company, amount due to a company controlled by a former director of a subsidiary, amount due to a director of the former subsidiary, amount due to a former shareholder of a subsidiary and lease liabilities) by total equity as at the dates indicated and multiplied by 100%.

Capital Expenditure

During the year ended 31 December 2022, the Group's total capital expenditure amounted to approximately RMB4.3 million, which was mainly used in plant and machinery and office equipment (year ended 31 December 2021: RMB256.7 million).

Treasury Policies

The Group adopts a prudent approach with respect to treasury and funding policies, with a focus on risk management and transactions that are directly related to the underlying business of the Group.

Capital Structure

The capital structure of the Group consists of equity attributable to owners of the Company, which comprises issued share capital and reserves. During the year ended 31 December 2022, there had been no change in the number of issued shares in the Company (the "Shares").

Charge on Assets

The Group's borrowings and notes payables were secured by its property, plant and equipment, investment property, right-of-use assets and restricted cash. The following table sets forth the carrying amounts of assets pledged to secure the bank borrowings and bills payables:

	As at 31 December 2022 RMB'000	As at 31 December 2021 RMB'000
Property, plant and equipment	–	12,809
Investment property	–	4,086
Right-of-use assets	–	10,388
Restricted cash	–	26,641
Total	–	53,924

MANAGEMENT DISCUSSION AND ANALYSIS

MAJOR TRANSACTION

On 5 August 2022, the Company and Sage Height Limited (the “Purchaser”) entered into a sale and purchase agreement, pursuant to which the Company conditionally agreed to sell and the Purchaser conditionally agreed to purchase the entire issued share capital of Lucky Glorious Limited (the “Target Company”) at a consideration of HK\$49,000,000. The Target Company holds the entire issued share capital of Hubei Mengke Paper Co., Ltd (湖北盟科紙業有限公司) (“Hubei Mengke”), the subsidiary engaging in the production and processing of cigarette packaging products in Hubei Province. The disposal was completed on 14 October 2022, therefore the cigarette packaging product segment is regarded as a discontinued operation.

Contingent Liabilities

As at 31 December 2022, the Group did not have any significant contingent liabilities (as at 31 December 2021: nil).

Foreign Exchange Risk

The Group’s transactions were mainly conducted in RMB, the functional currency of certain subsidiaries of the Group, and the major receivables and payables were denominated in RMB. The Group’s exposure to foreign currency risk related primarily to certain bank balances and cash and other payables maintained in Hong Kong dollars (“HK\$”). The Group did not use derivative financial instruments to hedge against the volatility associated with foreign currency transactions and other financial assets and liabilities arising in the ordinary course of business during the year ended 31 December 2022 (year ended 31 December 2021: nil).

Human Resources and Remuneration

As at 31 December 2022, the Group employed 146 employees (as at 31 December 2021: 280) with total staff costs of approximately RMB12.3 million incurred for the same period (for the year ended 31 December 2021: approximately RMB24.9 million). The decrease of staff costs of the Group was mainly due to the decrease in employees. The Group’s remuneration packages are generally structured with reference to market terms and individual merits.

Final Dividend

The Board proposed not to declare any final dividend for the year ended 31 December 2022 (year ended 31 December 2021: nil).

MANAGEMENT DISCUSSION AND ANALYSIS

Use of Net Proceeds from the Listing

The Company listed its Shares on the Stock Exchange on 25 November 2016 (the "Listing Date"). Net proceeds from the listing of the Shares (the "Listing") (after deduction of the underwriting commission and relevant expenses) were approximately HK\$42.2 million (equivalent to approximately RMB37.6 million), which has been applied in the manner as disclosed in the prospectus of the Company dated 15 November 2016 (the "Prospectus").

As at 31 December 2022, the net proceeds from the Listing has been utilised as follows:

	Adjusted use of net proceeds in the manner and proportion as stated in the Prospectus <i>RMB'000</i>	Approximate% of total actual net proceeds	Actual amount utilised from the Listing Date up to 31 December 2022 <i>RMB'000</i>	Balance as at 31 December 2022 <i>RMB'000</i>	Expected timeline for the remaining use of net proceeds <i>(Note)</i>	
					For the year ending 31 December 2023 <i>RMB'000</i>	For the year ending 31 December 2024 <i>RMB'000</i>
Use of net proceeds from the Listing						
Purchase and upgrade of production equipment, as well as expansion and maintenance of the production facilities	23,303	62%	3,568	19,735	1,969	17,766
Expansion and upgrade of non-production facilities, including but not limited to warehouse and other supporting facilities	5,638	15%	1,334	4,304	226	4,078
Business development expenditures, including expanding the geographical coverage of sales network and research and development expenditures relating to the purchase of research and development equipment and to future research and development projects	4,886	13%	4,886	–	–	–
Working capital and general corporate purposes	3,758	10%	3,758	–	–	–
	37,585	100%	13,546	24,039	2,195	21,844

Note: The expected timeline for utilising the remaining net proceeds is based on the best estimation of the future market conditions made by the Group. It will be subject to change based on the current and future development of market conditions.

As at 31 December 2022, unutilised proceeds amounted to approximately HK\$27 million (equivalent to approximately RMB24 million), which will be invested in production plant, equipment upgrade and technical development. The unutilised portion of the net proceeds have been placed as interest bearing deposits with licensed banks as restricted cash in the PRC. As at the date of this report, the Directors do not anticipate any change to the plan on the use of net proceeds.

Future Plans for Material Investments or Capital Assets

Save for the business plan disclosed in the Prospectus or in this report, there is no other plan for material investments or capital assets as at 31 December 2022.

MANAGEMENT DISCUSSION AND ANALYSIS

Capital Commitments

As at 31 December 2022, the Group had capital commitments of approximately RMB1 million in terms of acquisition of property, plant and equipment (as at 31 December 2021: RMB5.2 million).

PRINCIPAL RISKS AND UNCERTAINTIES

The following are some principal risks and uncertainties facing the Group, which may pose material and adverse effects on its business, financial condition or results of operations:

Increasingly Regulated Industry

The PRC tobacco industry is becoming increasingly regulated and our business is subject to various industry requirements. In 2014, the State Tobacco Monopoly Administration (中國國家煙草專賣局) published the Requirements for Design of Cigarette Package (《卷煙包裝設計要求》), which limits the cost of cigarette packaging by setting a maximum ratio on the packaging cost to the cigarette selling price to avoid excessive packaging. Under these requirements, the ratio for tier 1 to tier 3 cigarettes must be no more than 8% to 11% and the ratio for tier 4 to tier 5 cigarettes must be no more than 12%. Our products are primarily used for mid to high-end cigarette brands in tier 1 to tier 3. The PRC cigarette packaging industry could be negatively affected by these requirements or any future regulatory control, industry policies or applicable guidelines or requirements, as they may reduce cigarette manufacturers' spending on the PRC cigarette packaging or otherwise place negative pricing pressure on cigarette package manufacturers. This may cause cigarette package manufacturers to reduce their demand for our products or result in increased competition among cigarette packaging paper manufacturers which drives down the selling prices of our products.

In 2021, the Chinese government continued to step up its regulatory efforts in the tobacco and cigarette industry. During the reporting period, the State Tobacco Monopoly Administration issued the "Action Plan for Protecting Minors from Harm of Cigarette" (《保護未成年人免受煙侵害「守護成長」專項行動方案》), which specified plans for promoting education, protection and regulations on the subject matter. The control has extended to e-cigarette sector. In May 2022, the "E-cigarette Control Measures" (《電子煙管理辦法》) became effective, whereby e-cigarette market regulation is reinforced and tightened in terms of production and quality control, sales requirements and behaviours. Furthermore, effective from 1 October 2022, entities engaged in the production and sale of e-cigarette are required to obtain a license to operate, while all e-cigarette products that contain fruit flavour were no longer allowed to be sold. The cigarette market will become more difficult amidst the increasing cigarette control effort, which may result in a decrease in demand for cigarette packaging products.

PRC Legislative Control and Awareness of Health Concerns

In recent years, the PRC government has promulgated a series of legislative and regulatory control on the cigarette industry including the proposed Regulations on Smoking Control in Public Areas (《公共場所控制吸煙條例》), which aims to tighten control of the Chinese cigarette industry and to curb the demand for cigarette consumption due to concerns for public health. Such tightened legislative and regulatory control include regulations limiting smoking in public areas, prohibition on certain types of tobacco advertising, as well as labelling requirements for cigarette packages. In addition, the PRC government promulgated the Opinions on Implementing Healthy China Action (《關於實施健康中國行動的意見》), pursuant to which a number of actions such as smoking control, promotion of mental health and cancer prevention will be introduced. Integrated measures including tariff and price adjustment will be studied to improve the effectiveness of smoking control.

MANAGEMENT DISCUSSION AND ANALYSIS

In May 2021, the National Health Commission of the PRC published the “2020 Report on Health Hazards of Smoking in China” (《中國吸煙危害健康報告2020》). The Report showed that the Chinese smoking population had reached 300 million and the condition of the country’s smoking control still fell far behind the target specified in the Outline for Healthy China 2030 Initiatives (《健康中國2030規劃綱要》), which aimed to lower the smoking population to 20% of the total population of the country. Therefore, the government is anticipated to continue to promulgate new policies on cigarette and smoking control in the future.

Various cities and regions in the PRC, including Shanghai, Chongqing, Beijing, Shenzhen, have promulgated new rules to ban smoking in public areas. The global trend of increasing awareness of health and the health hazards associated with cigarette smoking may negatively influence the sales of cigarette, which in turn would affect the demand for cigarette packaging in China and our sales of cigarette packaging paper.

Dependence on Cigarette Price and Economic Conditions in China

The slowdown in China’s economic growth in recent years has influenced the purchasing power of cigarette consumers, which in turn affected their willingness to spend on cigarettes and therefore, the amount of cigarettes consumption. In fact, according to the National Bureau of Statistics, total cigarette production volume was approximately 2,418.2 billion in 2021, representing a year-on-year growth of 1.3% only. Research from AskCI Consulting indicates that total income of tobacco enterprises above designated size is estimated to reach RMB977.4 billion and RMB995.4 billion in 2020 and 2021, respectively, representing a compound annual growth rate of 1.05% only between 2015 and 2021.

Intense Competition

Despite a large number of cigarette brands in China, “Dual 15 cigarette brands” (the top 15 brands with the highest sales from tier one and 2 cigarettes) contributed nearly 70% of total cigarette sales revenue in China in the first 10 months of 2020. With the country experiencing a slowdown in economy, and the continued regulatory tightening in terms of cigarette controls, further industry consolidation is expected in the future. This creates greater competition between the cigarette brands remaining in the market and increases the competition among cigarette manufacturers. On the other hand, the cigarette packaging paper manufacturing sector remains fragmented over the years. The low entry barrier has also attracted businesses from the upstream, such as raw materials suppliers and cigarette manufacturers to enter the market. According to industry report, there were over 200 industry players in the market, the top five manufacturers accounted for a total market share of approximately 12.6% in 2020 in terms of sales value. In the event that further restructuring or consolidation takes place among cigarette manufacturers in China, the number of cigarette manufacturers and cigarette brands will further reduce, resulting in a more competitive market for cigarette package manufacturers. In addition, if the number of cigarette packaging paper manufacturers continues to rise, these factors will ultimately intensify the competition of the cigarette packaging paper market.

Reliance on Major Customers

For the years ended 31 December 2021 and 2022, revenue from our five largest customers amounted to approximately RMB184 million and approximately RMB247 million, respectively, which accounted for approximately 37.4% and approximately 73.9% of our total revenue for the respective periods.

In order to reduce such reliance and widen our customer base, the Group plans to proactively expand into new markets such as Sichuan Province, Yunnan Province, Zhejiang Province and Hunan Province of China for easing the risk of concentration on income sources.

MANAGEMENT DISCUSSION AND ANALYSIS

Policy Changes and Increasing Competition amidst Continuous Industry Development

As the PRC government continue to promote its goals to achieve carbon peaking and carbon neutrality by 2030 and 2060, respectively, we are seeing the possibilities of continuous changes in existing policies or implementation of new policies to ensure a healthy, sustainable development of the clean energy sector. In 2022, the National Development and Reform Commission (“NDRC”) and the National Energy Administration (“NEA”) issued the Guiding Opinions on Enhancing Green, Low-Carbon Transition Mechanism and Policy Measures for the Energy Sector (《關於完善能源綠色低碳轉型體制機制和政策措施的意見》). One of the recommendations made in the Guiding Opinions is to support the development of co-generation sector. While this would drive the growth in this area given the government’s resolve to transform and upgrade coal-fired generation units and eliminate low-efficiency units, the brighter business prospect is also likely to attract more new industry players, thus intensifying the competition of the co-generation market.

Furthermore, if the growth in increasing number of industry players outweigh the growth in demand, such flooded market can force lower prices for market players to stay competitive, decreasing profit margins, which ultimately decreases market efficiency. In this case, the government will be forced to make critical changes in relevant policy to reinforce sustainable industry development, including industry consolidation where only the largest industry players would survive.

Weakening Growth in Demand for Household Paper Products

The COVID-19 pandemic has created an unprecedentedly huge impact to people’s lives across the world, including heightened awareness of personal health and hygiene. Such change brought about a robust growth in demand for higher quality personal hygiene products, including household paper products.

With the pandemic largely contained in the PRC, there are possibilities the rapid increase in demand for high-quality household paper products may not sustain in a post-pandemic world. The industry may witness a subdued growth in the short term.

Details of the above principal risks and uncertainties and other risks and uncertainties facing the Group are set out in the section headed “Risk Factors” in the Prospectus.

MANAGEMENT DISCUSSION AND ANALYSIS

KEY PERFORMANCE INDICATORS (“KPI”) WITH THE STRATEGY OF THE GROUP

The Group sets a number of KPIs to support the delivery of its strategies with its performance as below:

Strategy	KPIs	Performance
Maximise value for the Shareholders	Gross profit margin = 21.9% (2021: 20.9%)	The Group managed to maintain stable operational performance during the year with effective cost control measures and continued to expand into new markets.
Improve the Group’s liquidity	Cash and cash equivalents = RMB160.9 million (2021: RMB149.8 million) Current ratio = 3.4 (2021: 1.3) Gearing ratio = 11.8% (2021: 27.9%)	The Group adopts a policy to regularly monitor the liquidity requirements of the Group so as to ensure that it maintains sufficient reserves of cash and adequate committed credit facilities from major financial institutions to meet the liquidity requirements of the Group in the short and long term.
Strive for the “zero harm” safety goal	Accident rate = 0% (2021: 0%)	During the year, the Group has put adequate resources and efforts to uphold and improve its safety management system to reduce its risks related to safety issues. The Company successfully obtained the certification in OHSAS 18000 Occupational Health and Safety Assurance System.

MANAGEMENT DISCUSSION AND ANALYSIS

FUTURE OUTLOOK

After a prolonged period of enforcing “zero-COVID” policies, the Chinese government has removed most of the anti-pandemic measures since late 2022. The policy change caused short-term disruptions as various cities in the country witnessed outbreaks of new wave of infections. Notwithstanding, with China relaunching itself on the international stage and reconnecting with the rest of the world, the domestic economy is anticipated to pick up markedly, led by pent-up consumer demand and stronger investment flow. The Chinese government has now set a “around 5%” target for its full-year GDP growth as well as a 3% goal for the consumption price index in 2023. This reflects the government’s determination to ensure an accelerated economic recovery.

It is expected that the government will roll out a series of stimulus measures to achieve its objective to spur domestic demand and create around 12 million new urban jobs. Given the consumers’ pursuit of better-quality products, a strengthened domestic consumption market will provide opportunities for growth in the consumer staples market, and will be favourable to the development of our household paper product segment. The Group aims to increase penetration in regions where it has existing sales network, enhance product portfolio and expand sales channel to commercial and medical use.

Meanwhile, China is committed to speeding up its energy transition in order to achieve its “dual-carbon” goals. With the industrial and manufacturing activities slowly returning to pre-pandemic level and favourable government policies to drive investment in clean energy, Clean energy sector, including CHP, is likely to see continuous growth in the future. The Group’s new energy business is currently focused in Shandong Province. In order to capture the aforesaid growth of clean energy demand, the Group contemplates to expand to Northeast and Northern China regions.

We expect the long-term, stable economic development will continue to offer ample room for our business growth in the future as the Group continues to nurture its household paper product and new energy operations. The Group will continue to strive for better results and thus to maximise returns to shareholders and society through its dedication to optimise its businesses.

DIRECTORS' REPORT

DIRECTORS' REPORT

ANNUAL GENERAL MEETING AND CLOSURE OF REGISTER OF MEMBERS

The annual general meeting of the Company is scheduled to be held on Wednesday, 28 June 2023 (the "2023 AGM"). Notice and circular of the 2023 AGM will be delivered to Shareholders in accordance with the Listing Rules and the articles of association of the Company in due course. For the purpose of determining Shareholders who are entitled to attend and vote at the 2023 AGM, the register of members of the Company will be closed from Friday, 23 June 2023 to Wednesday, 28 June 2023 (both dates inclusive), during which period no transfer of shares will be registered. In order to be eligible to attend and vote at the 2023 AGM, all completed share transfer instruments accompanied by the relevant share certificates must be lodged with the Company's branch share registrar in Hong Kong, Tricor Investor Services Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong, not later than 4:30 p.m. on Wednesday, 21 June 2023.

MAJOR CUSTOMERS AND SUPPLIERS

During the Year, the aggregate sales attributable to the Group's five largest customers accounted for approximately 73.9% (2021: 37.4%) of the total sales for the Year and the sales attributable to the largest customer included therein accounted for approximately 45.7% of the total sales for the Year (2021: 14.4%).

The aggregate purchases attributable to the Group's five largest suppliers accounted for approximately 69.4% (2021: 46%) of the total purchases for the Year and the purchase attributable to the largest supplier included therein accounted for approximately 17.7% of the total purchases for the Year (2021: 32.9%).

None of the Directors, their close associates (as defined in the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules")) or any Shareholders to the Company (which, to the best knowledge of the Directors, own more than 5% of the Shares) had any interests in the Group's five largest customers or suppliers.

RELATIONSHIP WITH STAKEHOLDERS

The Group recognises that employees, customers and business partners are keys to its sustainable development. The Group is committed to establishing a close and caring relationship with its customers and enhancing co-operation with its business partners.

The Group maintains a very stable and experienced management team and places great emphasis on training its employees such as by providing induction training for new employees, on-the-job training, team building training and external training. The Group also organized various social activities occasionally to create a harmonious working environment for the employees.

During the Year, the Group maintained good relationship with its customers and generally maintained a high contract renewal rate with the ten largest customers to keep abreast of market development and potential business opportunities.

The Group has maintained stable and long-established business relationships with its major suppliers. We do not foresee any difficulty in procurement nor experienced any production disruption due to shortage of raw materials.

2. Ms. Chen Xiuchun is the spouse of Mr. Chen, who in turn beneficially owns the entire issued share capital of Champion Alliance International Corporation, and is deemed to be interested in all the Shares in which Mr. Chen is interested pursuant to the SFO.

Save as disclosed above, as at 31 December 2022 the Directors were not aware of any other person (other than the Directors or chief executive of the Company) who had or was deemed to have any interests or short positions in the shares, underlying shares or debentures of the Company which would fall to be disclosed to the Company and the Stock Exchange under the provisions of Divisions 2 and 3 of Part XV of the SFO or which were required to be recorded in the register of interests required to be kept by the Company under section 336 of the SFO.

SHARE OPTION SCHEME

A share option scheme (the "Scheme") was conditionally adopted by the written resolutions of all Shareholders passed on 3 November 2016. As of the date of this report, no option had been granted, agreed to be granted, exercised, cancelled or lapsed under the Scheme.

Purpose of the Scheme

The purpose of the Scheme is to enable the Group to grant options to the eligible participants as incentive or rewards for their contribution to the Group and/or to enable the Group to recruit and retain high-caliber employees and attract human resources that are valuable to the Group or any entity in which any member of the Group holds any equity interest (the "Invested Entity").

DIRECTORS' REPORT

Qualifying Participants

Subject to the provisions in the Scheme, the Board shall be entitled but shall not be bound at any time within a period of 10 years commencing from the date of adoption of the Scheme to make an offer to any person belonging to the following classes:

- (i) any employee (whether full time or part time, including the Directors (including any non-executive Director and independent non-executive Director)), any of its subsidiaries or any Invested Entity;
- (ii) any supplier of goods or services to any member of the Group or any Invested Entity;
- (iii) any customer of any member of the Group or any Invested Entity;
- (iv) any person or entity that provides research, development or other technological support to any member of the Group or any Invested Entity;
- (v) any shareholder of any member of the Group or any Invested Entity or any holder of any securities issued by any member of the Group or any Invested Entity;
- (vi) any adviser (professional or otherwise), consultant, individual or entity who in the opinion of the Directors has contributed or will contribute to the growth and development of the Group; and
- (vii) any other group or class of participants who have contributed or may contribute by way of joint venture, business alliance or other business arrangement to the development and growth of the Group.

Maximum Number of the Shares

The maximum number of the Shares in respect of which options may be granted under the Scheme and under any other share option schemes of the Company (excluding, for this purpose, Shares which would have been issuable pursuant to options which have lapsed in accordance with the terms of the Scheme or any other share option scheme of the Company) must not in aggregate exceed 10% of the total number of Shares in issue as at Listing Date, being 546,092,537 Shares. The Company may, subject to the issue of a circular, the shareholders' approval in general meeting and/or such other requirements prescribed under the Listing Rules, refresh this limit at any time to 10% of the Shares in issue as at the date of the shareholders' approval and/or grant options beyond the 10% limit to eligible participants specifically identified by the Board. The above is subject to the condition that the maximum number of the Shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other share option schemes of the Company at any time shall not exceed 30% of the Shares in issue from time to time.

Maximum Entitlement of Each Eligible Participant

The total number of the Shares issued and which may fall to be issued upon exercise of the options granted under the Scheme and any other share option schemes of the Company (including both exercised and outstanding options) to each participant in any 12-month period shall not exceed 1% of the issued share capital of the Company for the time being. Any further grant of options in excess of this 1% limit shall be subject to the issue of a circular, the approval of the Shareholders in general meeting and/or other requirements prescribed under the Listing Rules.

DIRECTORS' REPORT

Time of Acceptance and Exercise of an Option

The options granted under the Scheme may remain open for acceptance for a period of up to 21 days from the date on which the options are offered to eligible participants. Upon acceptance of the option, the eligible person shall pay HK\$1 to the Company as consideration for the grant.

An option may be exercised in accordance with the terms of the Scheme at any time during a period to be determined and notified by the Directors to the grantee thereof, and in the absence of such determination, from the date of acceptance of the offer of such option to the earlier of (i) the date on which such option lapses under the relevant provisions of the Scheme; and (ii) the date falling 10 years from the offer date of that option.

Subscription Price for Shares

The subscription price in respect of any option granted under the Scheme shall be at the discretion of the Directors, save that such price shall not be less than the highest of:

- (i) the closing price of the Shares as stated in the Stock Exchange's daily quotation sheets for trade in one or more board lots of the Shares on the offer date;
- (ii) the average closing price of the Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the offer date; and
- (iii) the nominal value of a Share.

DIRECTORS' INTERESTS IN COMPETING BUSINESS

During the Year, none of the Directors or any of their respective associates had any interest in a business which competes or is likely to compete, either directly or indirectly, with the business of the Group.

CONTROLLING SHAREHOLDERS' INTEREST

There were no contracts of significance between the Company or any of its subsidiaries and a controlling shareholder or any of its subsidiaries nor any contracts of any significance for the provision of services to the Company or any of its subsidiaries by a controlling shareholder or any of its subsidiaries.

CORPORATE GOVERNANCE

The Company has complied with the code provisions set out in the Corporate Governance Code in Appendix 14 of the Listing Rules during the Year.

As a publicly listed company, the Directors recognize the importance of good corporate governance standards and internal procedures so as to achieve effective accountability and enhance Shareholders' value. Details of the corporate governance are set out in the section headed "Corporate Governance Report" in this report.

DIRECTORS' REPORT

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group is committed to the long-term sustainability of the environment and communities in which it operates. The Company sees sustainable development as the key for a corporation to succeed and therefore, it aims to seek a win-win situation for the Group, society and environment by balancing between the creation of economic value and the impact on the environment.

In order to meet the requirements of the PRC government and clients and establish a positive corporate image, the Group has formulated environmental protection policies and guidelines to enhance its environmental protection management, including forming an environmental protection committee to oversee and supervise our environmental protection management and to monitor the implementation of environmental protection policies and guidelines.

COMPLIANCE WITH LAWS AND REGULATIONS

The Group and its activities are subject to requirements under various laws. These include, among others, the Environmental Protection Law of the People's Republic of China 《中華人民共和國環境保護法》, Law of the People's Republic of China on Prevention and Control of Pollution From Environmental Noise 《中華人民共和國環境噪聲污染防治法》, Law of the People's Republic of China on Appraising of Environment Impacts 《中華人民共和國環境影響評價法》, Law of the People's Republic of China on the Prevention and Control of Environmental Pollution by Solid Wastes 《中華人民共和國固體廢物污染環境防治法》 and Decision of the State Council on Several Issues Concerning Environmental Protection 《國務院關於環境保護若干問題的決定》. The Company seeks to ensure compliance with these requirements through various measures such as internal controls, training and oversight of various business units at different levels of the Group. The Group highly values the importance of ensuring compliance with applicable legal and regulatory requirements.

During the Year, as far as the Company is aware, there was no material breach of or non-compliance with applicable laws, rules and regulations by the Group that have a significant impact on the operations of the Group.

AUDIT COMMITTEE

The Company established the audit committee of the Board on 3 November 2016 with written terms of reference in compliance with Rule 3.22 of the Listing Rules and provision C.3.3 of the Corporate Governance Code set out in Appendix 14 to the Listing Rules. The audit committee consists of three independent non-executive Directors, namely Mr. Chin Chi Ho Stanley (as chairman), Mr. Chen Hua and Mr. Zhao Zhendong.

The consolidated financial statements of the Group for the Year together with the notes attached thereto have been reviewed by the Audit Committee. The Audit Committee is of the opinion that the consolidated financial statements of the Group comply with the applicable accounting standards, the Listing Rules and that adequate disclosure has been made.

DIRECTORS' REPORT

DONATIONS

No charitable donations were made by the Group during the Year.

CONFIRMATION OF INDEPENDENCE

The Company has received from the independent non-executive Directors confirmations of independence (including an annual confirmation from each of the independent non-executive Directors) pursuant to Rule 3.13 of the Listing Rules and considers that all the independent non-executive Directors are independent of the Company under the Listing Rules.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information available to the Company and within the knowledge of the Directors, at least 25% of the Company's total issued share capital was held by the public as at 31 December 2022 and up to the date of this report.

MAJOR EVENT AFTER THE REPORTING PERIOD

The Group has recently been informed by its four subsidiaries (the "Subsidiaries") in regard to their purchase of certain financial products from a state-owned asset management company in the PRC.

On the premise of ensuring the funds required for normal operations, the Subsidiaries entered into contracts for the purchase of these financial products with an annualized rate of return of 2.9% in order to make good use of temporarily idle working capital, as well as to earn interest income. The financial products can be purchased and redeemed at any time, subject to the terms of the contract. The contract period is from 5 January 2023 to 15 April 2023 (the "Contract Period"). On or before the end of the Contract Period, all principal amounts can be redeemed and transferred to the Subsidiaries' bank accounts at the Subsidiaries' discretion. All the interest earned will then be credited into the Subsidiaries' bank account after the end of the Contract Period.

The Subsidiaries have purchased financial products with a total worth of RMB198.98 million since 5 January 2023, which consist of 冠均(濟南)日用品有限公司 (RMB95.7 million), 冠均(山東)貿易有限公司 (RMB50,000), 冠均華盈(山東)新能源有限公司 (RMB102.09 million), and 中煤東能(山東)清潔能源有限公司 (RMB1.14 million). The purchase of these financial products did not affect the normal operation of the Group. As of the date of this report, all the principal amounts of these financial products have been redeemed and transferred back to the Subsidiaries' bank accounts.

The Group will make further announcements with respect to the above purchase of financial products and to re-comply with the requirements of the Listing Rules.

DIRECTORS' REPORT

AUDITOR

The financial statements of the Company for the year ended 31 December 2022 have been audited by BDO Limited. BDO Limited shall retire from office at the forthcoming AGM and being eligible, offer themselves for re-appointment.

On behalf of the Board

Chen Shuming

Chairman and executive Director

Hong Kong, 31 March 2023

CORPORATE GOVERNANCE REPORT

OVERVIEW

As a publicly listed company, the Directors recognize the importance of good corporate governance standards and internal procedures so as to achieve effective accountability and enhance Shareholders' value. The Company has complied with all applicable code provisions of the Corporate Governance Code (the "CG Code") as set out in Appendix 14 to the Listing Rules for the Year.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") on terms no less exacting than those set out in Appendix 10 to the Listing Rules as the code of conduct regarding directors' securities transactions. Having made specific enquiry of all Directors, each of them confirmed that he or she has complied in full with the Model Code for the Year.

THE BOARD OF DIRECTORS

The Board consists of eight Directors, comprising five executive Directors and three independent non-executive Directors. The main functions of the Board include the approval of the Group's overall business plans and strategies, monitoring the implementation of these policies and strategies and the management of the Company as well as overseeing the corporate governance functions of the Company.

The Board comprises the following Directors:

Executive Directors

Mr. Chen Shuming (*Chairman*)

Mr. Chen Xiaolong

Mr. Hu Enfeng

Mr. Zhang Shihua

Ms. Chen Xiaoyan

Independent non-executive Directors

Mr. Chen Hua

Mr. Zhao Zhendong

Mr. Chin Chi Ho Stanley

The independent non-executive Directors are expressly identified in all corporate communications pursuant to the Listing Rules. The list of Directors (by category) is also disclosed in all corporate communications issued by the Company pursuant to the Listing Rules from time to time.

In accordance with the above provisions of the Articles, Ms. Chen Xiaoyan will retire by rotation at the 2023 AGM and will offer herself for re-election at the 2023 AGM.

CORPORATE GOVERNANCE REPORT

Ms. Chen Xiaoyan is the spouse of Mr. Chen Xiaolong and also the daughter-in-law of Mr. Chen Shuming. Save as disclosed, there are no financial, business, family or other material relationships among the Directors. The biographical details of the Directors are set out in the section entitled “Biographies of Directors and Senior Management” in this report.

In compliance with Rule 3.10(1) of the Listing Rules, the Board currently comprises three independent non-executive Directors representing one-third of the Board. Each of the independent non-executive Directors has confirmed by annual confirmation that he has complied with the independence criteria set out in Rule 3.13 of the Listing Rules. The Company considers that all the three independent non-executive Directors are independent under these independence criteria and are capable to effectively exercise independent judgement. The Directors are experienced in a range of corporate and industry expertise. Amongst the three independent non-executive Directors, Mr. Chin Chi Ho Stanley has the appropriate professional qualifications or accounting or related financial management expertise as required under Rule 3.10(2) of the Listing Rules.

The Board is responsible for the leadership and control of the Company and overseeing the Group’s businesses, strategic decisions, funding and performance, as well as corporate governance practices. The day-to-day management, administration and operation of the Company are delegated to the chief executive officer and the senior management of the Company. The delegated functions and work tasks are periodically reviewed. Approvals must be obtained from the Board prior to any significant transactions entered into by the aforesaid officers.

The Board is responsible for performing the corporate governance functions set out in provision A.2.1 of the CG Code. As at the date of this report, the Board has reviewed and monitored: (a) the Company’s corporate governance policies and practices, (b) training and continuous professional development of Directors and senior management, (c) the Company’s policies and practices on compliance with legal and regulatory requirements, (d) the Company’s code of conduct, and (e) the Company’s compliance with the CG Code disclosures requirements.

The Board has delegated various responsibilities to the Board committees including the audit committee (the “Audit Committee”), the remuneration committee (the “Remuneration Committee”) and the nomination committee (the “Nomination Committee”) of the Board (collectively, the “Board Committees”). Further details of the Board Committees are set out below.

CONTINUOUS PROFESSIONAL DEVELOPMENT

All newly appointed Directors will receive comprehensive, formal and tailored induction on the first occasion of their appointment so as to ensure that they have appropriate understanding of the business of the Company and the obligation and responsibility of being a Director. Directors’ training is an ongoing process.

Pursuant to the provision C.1.4 of the CG Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure that their contribution to the Board remains informed and relevant.

CORPORATE GOVERNANCE REPORT

BOARD DIVERSITY POLICY

The Company recognizes and embraces the benefits of having a diversified Board and sees increasing diversity at the Board level as an essential element in maintaining the Company's competitive advantage and believes that greater diversity of directors is good for corporate governance and is committed:

- To attract and retain candidate(s) for Board with a combination of competencies from the widest possible pool of available talents.
- To maintain a Board with diversity perspectives at all levels, in particular, those are aligning with the Company's strategy and objectives.
- To assess regularly the diversity profile of the Board and, where applicable, senior management prepared for Board positions under the succession planning of the Company and the progress on achieving diversity objectives, if any.
- To ensure that the selection and nomination of Board positions are appropriately structured so that a diverse range of candidates can be considered.
- To set up appropriate procedures for development of a broader and more diverse pool of skilled and experienced senior management that would be prepared for Board positions.
- To ensure that changes to the Board's composition can be managed without undue disruption.

The Board therefore adopted the board diversity policy which aims to build and maintain a Board with a diversity of directors, in terms of skills, experience, knowledge, expertise, culture, independence, age and gender. These differences will be taken into account in determining the optimum composition of the Board. The Nomination Committee will discuss the measurable objectives for implementing diversity on the Board from time to time and recommend them to the Board for adoption. The Nomination Committee will report annually on the composition of the Board under diversified perspectives, and monitor the implementation of this policy to ensure the effectiveness of this policy. It will also discuss any revisions that may be required, and recommend any such revisions to the Board for consideration and approval.

For the purpose of implementation of the board diversity policy, the following measurable objectives were adopted:

1. at least one-third of the members of the Board shall be independent non-executive Directors; and
2. at least one of the members of the Board shall have obtained accounting or other professional qualifications.

The Board has achieved the measurable objectives in the board diversity policy.

CORPORATE GOVERNANCE REPORT

DIRECTORS' RESPONSIBILITIES IN RESPECT OF FINANCIAL STATEMENTS

The Directors are responsible for the preparation of the financial statements that give a true and fair view of the state of affairs of the Group and of the results and cash flow for that period. The financial statements are prepared in accordance with the Hong Kong Financial Reporting Standards. ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

REPORTING SCOPE, MATERIALITY AND PERIOD

This Environmental, Social and Governance (“ESG”) report (“ESG Report”) is prepared by the Company. This ESG Report is published in accordance with the Environmental, Social and Governance Reporting Guide (the “ESG Reporting Guide”) as set out in Appendix 27 to the Listing Rules and the “comply or explain” provisions contained therein.

Reporting Principle and Scope

This ESG Report covers our strategies, accomplishments and ongoing measures to enhance our ESG performance, while identifying ESG risks and challenges that induce significant impacts to our operations and are of the greatest interest or concern to stakeholders for the period from 1 January to 31 December 2022. In this regard, this ESG report contains qualitative and quantitative information about our approaches, initiatives and priorities in achieving our ESG objectives and managing relevant risks.

This qualitative and quantitative information covers mainly the Group’s principal business operations of (i) manufacture of metallised packaging paper for cigarette package manufacturers (which was disposed of in 14 October 2022), (ii) supply of new energy (steam for industrial use, household heating, and electricity supply), and (iii) household paper products during the Reporting Period. These businesses were mainly operated in the Group’s headquarters and its self-owned production facility for cigarette packaging products in Yichang City, Hubei Province, and the plants in Shandong Province.

Our Hong Kong office is mainly used for administrative purpose, where freshwater is mainly supplied through common amenities in the leased office spaces for our employees’ daily general hygiene needs, and it emits, discharges immaterial amounts of wastewater, hazardous and non-hazardous wastes, and greenhouse gas through its minimal consumption of electricity and energy.

Therefore, for our reporting on the environmental aspect, this ESG report will mainly discuss the impact of our operations in Hubei Province and Shandong Province, unless otherwise stated.

Regarding the corporate governance structure of the Group and other relevant information, please refer to the Corporate Governance Report on page 29 to 39 in this annual report.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Materiality Assessment

This report serves as a key channel to communicate our ESG approaches with our stakeholders. Hence, we have conducted a materiality assessment which examines the importance of various issues to our stakeholders as well as the potential impact to our business development. The findings and results of the materiality assessment were set out below in the materiality matrix:

		Stakeholders	Company
1	Employee development	8	8
2	Reward to employee	8	8
3	Employee rights and equal opportunities	6	8
4	Occupational health and safety	10	8
5	Corporate governance	10	10
6	Product and service quality	10	10
7	Supply chain management	8	8
8	Financial performance	6	10
9	Customer privacy/intellectual property rights	10	10
10	Business ethics and anti-corruption	10	10
11	Environmental policy and impact	8	6
12	Community investment	6	6

- Issues that are of most critical and material to our stakeholders and with greatest impact on our business success
- Issues that are important to both our stakeholders and our business development
- Issues that are relatively less important to both our stakeholders and our business development

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Stakeholder Groups, Their Concerns and How We Engage with Them

We understand that stakeholder engagement plays a pivotal role to our continuous effort in improving our ESG standard. Therefore, we have built and maintained for our shareholders, customers, employees, suppliers, other stakeholders and all interested parties various communication channels. We also endeavour to provide our stakeholders with clear information about our approaches to business operation and ESG issues. These include, but are not limit to, statutory announcements, circulars, financial reports, shareholders' meetings, corporate websites and electronic correspondence.

Stakeholder groups	Key topics of interest	How we engage
Employees	Labour rights; Employee engagement; Promotion and development opportunities; Health and safety	Staff newsletter; Staff training; Staff appraisal and survey
Shareholders and investors	Financial performance; Corporate governance; Compliance and ESG performance	Results announcement and financial reports; Shareholders' meeting/investor meeting
Customers	Quality and pricing of services and products; Protection of data privacy and intellectual property	After-sales survey and follow-up communication; Promotional and marketing collaterals
Suppliers/business partners	Responsible supply chains; Business continuity and conduct; Product specifications and quality expectations; Fair competition	Supplier visits and meeting; Feedback on service and products
Governments and regulators	Corporate governance; Relevant regulated information; Labour rights; Economic contributions; Environmental impact and compliance; Business continuity and sustainability	Financial reports; Disclosure in accordance with relevant regulations

ACHIEVING SUSTAINABLE DEVELOPMENT OF THE COMPANY AND THE COMMUNITY

In 2022, the once contained pandemic broke out again in China, causing major disruptions to economic activities. Not only did that affect businesses, the situation also brought difficult challenges to daily lives with new waves of infections having emerged, such as access to basic resources and necessities.

The pandemic is now being largely under controlled, and China has lifted most of the quarantine and anti-pandemic restrictions in order to reconnect with the international world. As we step into the post-pandemic era, uncertainties remain and more importantly, it has already changed how we live as an individual and how we operate as a company.

As a company, we understand the needs to constantly evolve to so that we are able adapt and react to abrupt changes brought about by unexpected situation. The pandemic also led business leaders to re-contemplate the relationship between a company and an employee, as well as between a business and the community – and how all these transform our strategies to pursue sustainability as a company to ensure a long-term, healthy development together with the world we live in.

We are committed to supporting to our employees through all sorts of difficulties that they and their families may encounter, while implementing stricter workplace hygiene and safety protocols. We also strengthened our communication with suppliers, business partners and regulators so that we could address major issues that have or may have material impact to the communities, such as climate change, suppressed economic development, and so on.

Throughout the years, sustainability has been central to our business. While we have a well-defined governance framework to ensure board-level oversight and management of our ESG priorities across the Group, we are also building on these strong foundations to accelerate progress towards a sustainable future and create a better tomorrow for all our stakeholders. We engage with the communities in which we operate and involve our employees in the process to improve our sustainability efforts, with an aim to progress our ESG strategy from the traditional risk mitigation approach to value creation for all our stakeholders.

REPORTING ON ENVIRONMENTAL ASPECTS

We operate an environmental management system that is based on ISO14001-2015 certification and governed by a Safety and Environmental Protection Department since 2018. The department is responsible for reinforcing the Group's environmental control, designing relevant system and providing environmental training for employees. We have a robust system in place to manage our environmental risks and emission levels to ensure that we comply with all relevant government requirements. The Group has made continuous efforts to adopt policies, including forming an environmental protection committee to oversee and supervise our environmental protection management, help improve our environmental stewardship.

In addition, we believe that it is critical that our employees share the same values to protect our environment. Hence, we have stepped up our efforts in promoting environmental awareness among our employees. We often issue various notices to remind them of our environmental protection measures and provide updates and information about environmental issues and the Group's latest environmental initiatives. We have also codified and drawn up a set of safety and environmental protection manual for employees to heighten their awareness and arrange relevant training.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, there was no incident of non-compliance with relevant environmental laws and regulations relating to air and greenhouse gas emissions, discharge into water and land, and generation of hazardous and non-hazardous waste that have a significant impact on the Group. The Group also confirmed that during the Reporting Period, our business operation had not encountered any punishment by respective governmental authorities due to violation of the above laws and regulations.

Emission and Resource Stewardship

During the Reporting Period, the Group has complied with relevant laws and regulations that have significant impacts on the Group relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste. These laws and regulations include, but not limited to, the Environmental Protection Law of the People's Republic of China (《中華人民共和國環境保護法》), Law of the People's Republic of China on Prevention and Control of Pollution From Environmental Noise (《中華人民共和國環境噪聲污染防治法》), Law of the People's Republic of China on Appraising of Environment Impacts (《中華人民共和國環境影響評價法》), Law of the People's Republic of China on the Prevention and Control of Environmental Pollution by Solid Wastes (《中華人民共和國固體廢物污染環境防治法》), PRC Law on Air Pollution Control (《中華人民共和國大氣污染防治法》) and Decision of the State Council on Several Issues Concerning Environmental Protection (《國務院關於環境保護若干問題的決定》).

Throughout the years, we have implemented effective measures to reduce wastage and consumption levels of resources in our facilities and offices. Relevant training and information are provided to our employees to adequately communicate these measures and to raise their awareness. When situation allows, we always seek to upgrade our production technology and enhance business processes to achieve better energy and water efficiency.

Despite the re-emergence of the pandemic in China during the Reporting Period, we did not encounter any challenges to access fresh water source, nor did we see that our business has brought negative impact to the access and quality of fresh water to our communities. We call on our factory workers and employees from time to time to enhance water efficiency and actively manage consumption of potable water or water for production use.

Greenhouse Gas and Exhaust Gas Emissions

A stringent production control system is critical to achieve our goals to minimising direct and indirect greenhouse gas emissions and reducing energy consumption. Ongoing measures such as enhancing production and energy efficiency, upgrading production technology, adopting green building design are under regular reviews to ensure that the Group operates in a high environmental level.

We have obtained all relevant and necessary permits for pollutant emissions for our operations in Shandong Province, while we closely monitor our levels of pollutant emissions, including sulfur oxide, nitrogen oxide, smoke and other industrial exhaust gas. We strictly enforce the ultra-low emission standard to support the country's carbon reduction objective and ensure that our exhaust gas emissions, however minimal, are within the maximum limit.

We are mindful of the environmental risks a business may have along its supply chain. Therefore, while we strive to embed and sustain a comprehensive environmental protection system within our production and operating processes, we also communicate with our suppliers and business partners to gain a stronger understanding and assurance of their environmental control levels. Suitable arrangements are made for the delivery of raw materials from our suppliers and delivery of products to our customers, including optimising travelling routes and regular check of vehicles, so as to minimise exhaust gas emissions produced during the delivery process.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Sewage Discharge

Our operations in Hubei Province and Shandong Province obtained the necessary wastewater and pollutant discharge permit. Domestic and industrial wastewater produced during operation is handled properly through wastewater processing facilities including grease trap and septic tank at our production sites or by qualified subcontractors before being discharged to the municipal wastewater system. All these procedures meet the requirements stipulated by relevant national laws and regulations, including the PRC Law on the Prevention and Treatment of Water Pollution (《中華人民共和國水污染防治法》). Industrial wastewater produced in Shandong manufacturing base is reused without discharging.

Noise Control

Our operations create certain mechanical noise from the use of machinery and equipment, and automobile aerodynamic noise from our vehicle fleet. To minimise such noise pollutions, we perform regular maintenance and repair works for our machinery and equipment to ensure that they function normally. Otherwise, we would replace them with new ones or more technologically advanced models. We also make sure that these machinery and equipment operate only in hours allowed by relevant regulations.

Waste Treatment and Reduction

Our approach to minimising our environmental impact created by operational waste stems from the idea of waste reduction and proper treatment.

Regular monitoring and adherence to the set operating procedures are key to avoid wastage. We adopt the well-known concept of “3R” as we intend to reduce, reuse and recycle waste from our products, packaging and production process through improving relevant manufacturing processes. We classify our operational waste by types and reuse paper and other reusable waste when feasible. Scrap metal, toner cartridges and ink cartridges, large water bottles and other non-reusable waste are collected and handled by qualified subcontractors, or are disposed of at area as designated by the property management office of the office premises.

Emissions	Unit	Quantity 2022	2021

Making Environmental-friendly Products

Making products that are more environmental-friendly is important to our journey to reduce waste and our carbon footprint. We invest in research and development to consistently launch new household paper products with increased recycled content or resources that are more eco-friendly. We explore raw materials that are easily accessible and create lower environmental impact from sourcing and using of them, such as materials that are reusable or degradable.

Our team of household paper product operation boasts extensive professional experience and endeavours to conduct research on measures to protect natural resources. These initiatives include monitoring of and improving traceability of supply source and avoiding over-consumption and preventing acts that threaten the sustainability of resource use, as well as prioritising the procurement and selection of wood pulp certified by China Forest Certification Council, Forest Stewardship Council, Programme for the Endorsement of Forest Certification Schemes or other certification schemes, and resisting procurement and use of wood pulp from illegal logging.

Our Role in Fighting Climate Change

Since the PRC government announced its 2060 carbon neutrality target in September 2020, the country has unveiled multiple environmental policies and action plans under the 1+N policy framework. In September 2021, the Central Government released the Working Guidance for Carbon Dioxide Peaking and Carbon Neutrality (《關於完整準確全面貫徹新發展理念做好碳達峰碳中和工作的意見》), which outlines key measures and approaches for achieving the country's goal of carbon neutrality; and in October 2021, the State Council of the PRC released the Action Plan for Carbon Dioxide Peaking Before 2030 (《2030年前碳達峰行動方案》), which outlines key objectives to be included in the following two Five-Year Plans to reach peak carbon emissions by 2030.

In President Xi Jinping's opening speech to the Chinese Communist Party's 20th National Congress in October 2022, he said that China planned to promote its energy revolution and engage in global climate governance. China and the Group of 77 developing countries have been pushing to put the issue of loss and damage on the agenda of the upcoming COP27 climate change conference in Egypt. Also in the government work report delivered by the former Premier Li Keqiang in March 2023, he said that the government would continue cutting its energy intensity and the emission of major pollutants, and would continue the transition to green development.

These align with the strong focus on energy transition in the 14th Five-Year-Plan released in March 2021. The government has pledged to increase the non-fossil fuel share of total energy to 20% by 2025 and 80% by 2050. Other key environmental targets announced by the PRC government includes:

- 40% of new vehicles fuelled by new energy by 2030 (up from 13% in 2021)
- CO₂ emission per unit of GDP to drop over 65% by 2030 (vs 2005)
- CO₂ emissions per unit of GDP: decrease 18% by 2025
- Good urban air quality for 87.5% of days/year by 2025
- Forest coverage rate of 24.1% by 2025

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Therefore, we expect local governments, and central or local ministries will continue to roll out sector-specific measures and environmental targets to support the country's dual-carbon goals. These new measures and targets, such as new greenhouse gas limits, requirement to adopt renewable energy, will hold companies accountable for delivering an effective environmental strategies in business operations. All of these imply financial and social impact to our business and wide-scale of changes in operational structure.

Our business strategy to expand our operations to the provision of new energy in 2019 aligned with the government's plan to accelerate energy transition. As the co-generation projects have become increasingly popular and successful in the country, we will continue to extend the geographical coverage of our new energy business to support the country's green transition.

On the other hand, the post-pandemic era means there are greater connectivity across regions and countries characterised by the significant recovery of economic activities. These will inevitably produce more greenhouse gas emissions through more air flights and vehicle travels. Therefore, we have reinforced our internal governance by reviewing our environmental policies from time to time, and minimise our environmental impacts throughout our value chain to support the above-mentioned PRC government's objectives.

In future, we will proactively explore the use of clean energy when feasible, and reduce our reliance on traditional fossil fuel, thereby lower our indirect greenhouse gas and exhaust gas emissions. We will maintain close communication with our suppliers and work together to develop contingency solutions for supply chain disruption or other relevant issues. We also keep a watchful eye on any changes in environmental regulations while acquiring new knowledge and technology.

The Group is currently mapping out its plan and targets on reducing carbon footprint which covers water stewardship, waste management, as well as energy consumption, etc. In the long run, these new changes will help the Group better manage climate risks and improve its resilience against it.

Our success to build a sustainable business stems on our ability to attract, retain and motivate a highly skilled and productive workforce. We have invested reasonably in attracting and developing the right talent that brings valuable knowledge and skills to our operations. We are also dedicated to creating a work environment that encourages our employees to thrive and to maximise their potential.

Our employee handbook and other employee training materials set out the defining characteristics of our culture and business, and what we expect of our employees. They are available to all our staff members to help them grow the right, necessary skills to deliver what our customers need, making sure that they feel valued in their role in our company, and equipping them with the mindsets and skills for their career development.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Recruitment and remuneration policies

The Group endeavours to provide a fair, safe and respectful workplace environment for our staff. The Group has formulated and strictly implemented a set of comprehensive human resources management system, which is in compliance with the Employment Ordinance (Chapter 57 of the Laws of Hong Kong) (《僱傭條例》), the Minimum Wage Ordinance (Chapter 608 of the Laws of Hong Kong) (《最低工資條例》), the Employees' Compensation Ordinance (Chapter 282 of the Laws of Hong Kong) (《僱員補償條例》), the PRC Labour Law (《中華人民共和國勞動法》), the PRC Labour Contract Law (《中華人民共和國勞動合同法》) and other prevailing laws and regulations.

Our recruitment programmes promote the creation of quality jobs for our existing and potential employees based on our business needs. We provide fair and adequate remuneration that aligns with market condition, industry standard and job performance for our staff members to afford a respectable standard of living.

The Group also ensure that we provide adequate employee benefits and welfare that are stipulated by the relevant laws and regulations, such as social insurance, mandatory provident fund and housing provident fund, as well as medical insurance and reasonable amount of annual leave and working hours for our employees.

Equal opportunity, inclusion and diversity

We are an equal opportunities employer and we aim to attract, recruit, develop and promote our people based on merit and irrespective of age, gender, sexual orientation, social background or ethnicity. Our employees have different perspectives and ways of working. We aim to foster diversity including ensuring a good mix and balance of gender and people from different background in in our workforce. We also aim to create a culture where employees feel comfortable to work in.

We do not tolerate any form of discrimination as set out in the mandatory requirements of our Code of Business Conduct and our Employee Handbook. We have enabled a whistle-blowing system where employees can report any discrimination or mistreatment at work, and the Group will pursue internal investigation and take rectifying measures.

Dismissal policy

In situations of serious employee misconduct or underperformance at an unacceptable level, our human resources department will follow a series of procedures to terminate his or her employment contract. Terms and conditions relating to dismissal are enumerated in employment contract and other employment policy manual and would be done according to the relevant labour laws and regulations.

During the Reporting Period, there was no incident of non-compliance with the relevant laws and regulations that have a significant impact on the Group relating to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination and other benefits and welfare.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Health and Safety

To ensure workplace safety, we primarily aim to achieve zero work-related fatalities, reduce the number and severity of incidents, and learn from any incidents and near misses, so that we can continually improve our performance in this space. We seek to have a better and stronger understanding of how incidents and near misses happen as we carry out thorough investigations and subsequently take necessary actions to prevent repeat incidents and make sure that lessons learnt are shared across our operations.

We have formulated and will continued to refine our bespoke safety guidelines and protocols for each of our operations, which are based on the Occupational Safety and Health Ordinance (Chapter 509 of the Laws of Hong Kong) (《職業安全及健康條例》), the PRC Labour Law and other relevant laws, administrative regulations, national standards and industrial standards. We also stress the importance of encouraging active reporting and investing in health and safety training and resources.

We intend to form a “safety-first” workplace culture and look to create a closer alignment between our leadership and employees to develop a more safety-conscious awareness across the Group to hold everyone within our organisation accountable for their actions and for maintaining their health and workplace safety.

In respect of occupational injuries sustained by an employee as a result of an accident arising out of and in the course of employment, or occupational diseases specified in the Employees’ Compensation Ordinance (Chapter 282 of the Laws of Hong Kong) (《僱員補償條例》) or other applicable laws, or permanent loss of earning capacity, the Group will offer compensation pursuant to relevant regulations, guidelines and employee agreements. The Group believes that its work environment and nature do not entail material safety risks to its employees.

Employee wellbeing

The pandemic has brought a heightened awareness of employees’ physical and mental wellbeing. Although the pandemic has now been largely gone, we continue to allow work flexibilities to our employees, including the work-from-home or hybrid mode. We also strengthen the communication with our employees to provide necessary support to their special needs during difficult times, such as health checks and awareness programmes, as well as adopting family-friendly policies.

During the Reporting Period, we had not experienced any material or prolonged stoppages of production due to equipment failure and we had not experienced any severe accidents during our production process. We have also complied with all relevant laws and regulations that have significant impacts on the Group relating to the provision of a safe working environment and the protection of our employees from occupational hazards.

Delivering learning and development opportunities for our employees has always been an integral part of our business success. We aim to empower our employee to succeed as we foster a learning environment that has an equitable and fair processes for employment and progression. These learning opportunities include functional training programmes that encourage everyone to take control of their career development as we aim to support them to realise their potential and enhance their capabilities.

Our training and development programmes cover both internal and external trainings surrounding business ethics, risk and compliance culture, industry knowledge, regulatory requirements, operation management, and so on. We believe these learning programmes will help the Group build a sustainable business and the next generation of business leaders.

These training programmes are connected with our employee development and reward policies, which are designed to develop, motivate, reward and retain high calibre employees to deliver business success. Although participating and completing our training programme does not automatically guarantee immediate career progression, we offer ample opportunities for promotion and a significantly enhanced role, given the continued growth of the Group.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Labour Standard

Our policy is to respect the dignity, wellbeing and human rights of our employees, the workers in our supply chain and the communities in which we operate. We believe acting ethically and responsibly is the right thing to do for our business. Child labour, forced labour and modern slavery are not acceptable in our company. We focus on addressing the root causes of child labour, including lack of awareness and moral poverty. We provide detailed guidelines and protocols for tackling the risks in our recruitment process, which is in strict compliance with the Employment Ordinance (Chapter 57 of the Laws of Hong Kong) and Regulations on Labour Security Supervision issued by the State Council of the PRC, and takes reference to international labour standards in formulating internal guidance and labour system. All recruitment procedures and promotions are strictly supervised by the Group's human resources management system.

Our guidelines outline our position and what we consider as best practices, and strictly monitor all employees (including directors and all levels of staff) to eradicate all violations. Employees' rights are clearly described in employee manual and employment contracts as they are encouraged to speak out if they are exploited or forced to work unethically against their will. The Group will conduct investigations, punishment or dismissal of employees who violate our policy. If necessary, the Group will further improve the labour mechanism against illegal behaviours.

Operating Practices

Supply Chain Management

We aim to develop a responsible supply chain to mitigate the social and environmental issues related to the sourcing of service and commodities for our business use. We believe sustainability is an integral part of our sourcing and procurement activities. That idea extends to the products and services we purchase, contractual agreements that we enter into, and business partners that we work with. We strive to ensure minimum standards, such as acceptable labour conditions, compliance with environmental laws, and transparency related to health and safety, and data security.

Regarding household paper products, the PRC government promulgated the Safety Assessment Management System of Household Paper and Paper Products, Chemicals and Raw Materials (GB/T36420-2018) (《生活用紙和紙製品、化學品及原料安全評價管理體系》) since 1 January 2019 with an aim to lay down stricter requirements on production process of household paper and paper products, as well as safety control of chemicals and raw materials. The Group has adopted necessary measures to meet relevant standards.

Procurement policy

We choose suppliers based on their business records, products and services quality, cost, after-sale services and transportation and other factors. We periodically invite suppliers to provide us samples for pre-assessment and our procurement department maintains a list of qualified suppliers which have passed our internal assessment as potential suppliers for future purchases.

As at 31 December 2022, the Group had approximately 86 suppliers and they are mainly located in Shandong, Jiangsu, Shanghai, Henan, Beijing and other provinces or cities in China. Working with them helps keeping our transportation costs low and enabling us to keep abreast of local market development which facilitate us to produce products that cater to customers' needs.

We usually do not enter into any long-term supply contracts with our suppliers, but we have been able to maintain a stable and long-term relationship with our major suppliers. We also ask our suppliers and business partners to take reasonable efforts to monitor their own supply chain and ensure that their own supply chain policies align with our supplier code to encourage good ESG practices.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

For the purpose of selecting a supplier for procurement of raw materials, we typically invite our pre-assessed suppliers to participate in a fair, just and open tendering procedure and we assess the tenders based on their quality, price and our purchasing history. Once a supplier is selected after the close of a tender, we typically enter into a fair and reasonable supply contract with the supplier to avoid any exploitation before placing orders to procure the raw materials we require. In addition, provisions for environmental protection are incorporated into certain contracts, requesting contractors and/or suppliers to strictly observe the requirements of environmental protection. In addition to assessing our suppliers on environmental performances, we also closely monitor the quality, cost, service and delivery of their products, as well as their commitments to high moral standards, when performing their contractual obligations. In case our suppliers fail to comply with any applicable laws and regulations or are unable to fulfill their contractual obligations, we will replace them and take legal actions for any related losses when necessary.

Product Responsibility

Quality-first

Our "quality-first" policy formalises how we strive to deliver defect-free products, processes and capabilities that create sustainable value for our brands. Our customers trust in the quality of our products and their needs are constantly evolving as the industry is also advancing with higher environmental and regulatory requirements. To ensure that we meet our customers' needs and the changing industry trends, and maintain our good reputation within the industry, we implement stringent quality control management and pursue innovation with the aim to not only meet these needs but to anticipate them.

At the same time, our production department works closely with the quality control department throughout the production process to ensure each production process is carried out in accordance with the quality standard. Before we deliver our final products to customers, our quality control department conducts quality assessment on each batch of final products to check that the products have been produced in accordance with the applicable standards and approved production processes. Only those final products that have fulfilled all testing requirements are delivered to our customers.

We maintain an effective quality control system covering all the major production processes, from procurement of raw materials, operation of machineries, to proper use of materials and packaging, in order to prevent product defects and excessive chemicals remained in our products and excessive emission of Volatile Organic Compounds (VOC).

Customer-first

The pandemic and improving living standard of our customers prompted the rising health awareness of the products they consume. Therefore, gaining customer satisfaction is one of the most important factors in solidifying our market leadership. To maintain our competitive advantages, we put extensive efforts to engage with our existing and potential customers, understand their needs, so that we can improve our product and service quality through research and development, and produce products that not only suits their needs, but also create new demands in the industry.

We have also adopted a unified sales return policy which applies to all of our products and all customers. After receiving our products and prior to giving its final confirmation of acceptance, our customers may request us to reprocess any products which fail to meet their required product specifications. On the other hand, request for product return after a customer's final confirmation of acceptance will only be accepted if there is any product quality issue and upon re-examination of the alleged defective product by our production department, quality control department and sales department.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Privacy and intellectual property policies

We are well aware of the importance of intellectual property rights as our core production technology and critical production processes are crucial to our continued success and development. Any infringement of our intellectual rights may seriously affect our business and reputation. Therefore, we aspire to protect our patents, brand, trademark and other intellectual property rights and eradicate all infringement of our intellectual property rights. We also ensure that our business operation processes are in compliance with the Trademark Law of the PRC (《中華人民共和國商標法》), the Implementation Rules of the PRC Patent Law (《中華人民共和國商標法實施條例》), the Contract Law of the PRC (《中華人民共和國合同法》), the Intellectual Property Law of the PRC (《中華人民共和國知識產權法》), the Anti-unfair Competition Law (《反不正當競爭法》) and other relevant laws, administrative regulations, national standards and industrial standards.

We also have a privacy policy, pursuant to which all personal and corporate data must be collected in compliance with all relevant privacy laws. We requested our staff to protect our customers' privacy and handle all commercially sensitive or confidential information in strict confidence. When cooperating with other companies, the Group enters into corresponding confidentiality agreements, whereby collection, use, storage and deletion of data including third-party patent technology are regulated, while the scope within which such confidential information can be informed of is delimited, in order to prevent any misuse or leaks.

Advertising and labelling

To attract clients, we carry out marketing and promotional works in an appropriate manner. We have been in compliance with all applicable laws and standards enacted by the government and industry associations. All promotion activities are only conducted upon confirmation that the requirements on the use of brand and advertising solutions of products and services are met, so as to avoid any misleading, inaccurate or exaggerating information. The Group will seek legal advice when necessary. We ensure that consumers are provided with sufficient and accurate information on our services to make informed choices.

During the Reporting Period, the Group has complied with all relevant laws and regulations that have a significant impact on the Group relating to health and safety, advertising, labelling and privacy matters of its products and services. There was no loss sustained by the Group's customers that are caused by leaks of customers' privacy data or other service problems; there was also no material complaints or damage claim from customers in respect of poor product or service quality.

Anti-corruption

Anti-corruption, extortion, fraud and money-laundering

Our Board and management lead by example to create and promote a workplace culture where ethical principles and business conduct are expected and encouraged. We strive to achieve the highest legal, moral and ethical standards in all of our corporate activities. Our commitment to anti-bribery and anti-corruption is articulated in the Group's Code of Conduct, which pinpoints our whole supply chain from upstream suppliers to downstream end-customers, thereby ensuring that our directors and every employee clearly understand our strong stance of "zero-tolerance" against any corruption, fraudulence, extortion, money laundering and bribes.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Our Code of Conduct covers anti-corruption measures about recruitment and promotion, procurement and sale, as well as internal audit. These measures include, but are not limited to, verification of the identity and relationship of employees to avoid hiring people who have close relationships with the Group's employees and management with unreasonable clauses; thorough inspection of clients' capital source to prevent money-laundering; stringent monitoring of procurement process to prohibit staff from taking benefits for facilitating the clients to obtain procurement contracts in a dishonest manner. In addition to setting up audit committee, nomination committee and remuneration committee as required by the Listing Rules, the Group also engages external compliance and legal advisors and auditor to ensure that the Company's results announcement and other disclosures fulfill the relevant requirements.

Besides control measures to tackle malpractices, the Group also focuses on risk assessment and employee training to identify and mitigate potential risks of unethical conduct and law violations.

Also, all directors of the Company are provided with detailed induction training on our governance structure upon their appointment. In addition, they will receive regular updates on various ESG matters, such as major accounting, compliance and regulatory updates, as well as information on best practice in relation to anti-corruption programmes.

Whistle-blowing policy

Any stakeholders of the Group, including employees, customers and suppliers are encouraged to speak up and raise concerns about any violation of relevant laws and our internal Code of Conduct. We provide multiple reporting channels to report any wrongdoing and misconduct anonymously as we undertake to safeguard their identity. Reported issues are reviewed, verified and analysed by our management and designated staff. Cases in which an employee does not comply with our code of conduct or policies may constitute grounds for disciplinary action or termination of employment. We will also cooperate with regulatory authorities and law enforcement agencies to report issues that violate the anti-corruption laws. The Group will further improve the mechanism to safeguard against illegal behaviour when necessary.

During the Reporting Period, there was no major incident of non-compliance with the relevant laws and regulations that have a significant impact on the Group relating to corruption, bribery, extortion, fraud and money laundering.

Community

Community Investment

We seek to create and contribute to social value in the communities through bringing positive social and economic benefits that are generated by our core business. We aspire to build meaningful long-term relationships with the communities where we operate in. As part of our initiatives to support the government's objective to eradicate extreme poverty and achieve common prosperity, we employ local people and purchase local goods and services through our supply chains when possible. The Group actively explores options in coordinating charitable activities and collaborating with other organisations in different areas, such as education, culture, poverty relief, and so on. We aim to demonstrate positive influence of corporate values by raising employees' awareness of caring for the community and mutual help.

During the Reporting Period, the Group actively engaged with different institutions in the community where we operate in and communicated with the local governments, so that we can participate in or organise community programmes that meet their needs and support their visions to create positive social impact. We hope to build the corporate culture of "lending a helping hand" through setting up an example by ourselves. We also encourage our staff to actively participate in community activities and promote the relationship between our employees and community.

TO THE SHAREHOLDERS OF CHAMPION ALLIANCE INTERNATIONAL HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Champion Alliance International Holdings Limited (the "Company") and its subsidiaries (hereinafter collectively referred to as the "Group") set out on pages 65 to 135, which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAAs") issued by the HKICPA. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the HKICPA's "Code of Ethics for Professional Accountants" (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS *(Continued)*

Revenue recognition

The Group recognised revenue in total of RMB250,657,000 from its continuing operations of new energy business and sale of household products for the year ended 31 December 2022.

We identified revenue recognition as a key audit matter because revenue is one of the key performance indicators of the Group and the amount of revenue for the year is significant to the consolidated statement of profit or loss and other comprehensive income.

Refer to Notes 6 and 7 to the consolidated financial statements and related accounting policies in Note 4(s) to the consolidated financial statements.

Our response:

Our audit procedures in relation to the revenue recognition included the following:

- Obtaining an understanding of and assessing the design, implementation and operating effectiveness of key internal controls over revenue recognition;
- Assessing the appropriateness of the Group's revenue recognition policy under HKFRS 15 by inspecting a sample of representative contracts with customers;
- Assessing the existence and identity of a sample of new customers of the Group during the year by performing background searches on these customers;
- Assessing whether revenue had been recognised in the appropriate accounting period and in accordance with the terms of the sales contracts by comparing a sample of sales transactions recorded immediately before and after the year end with relevant underlying documents, which included delivery notes or documentation indicating the customers' acknowledgement of delivery of the goods sold; and
- Identifying significant sales returns from the sales ledger after the year end and inspecting the underlying documentation in relation to these sales returns to assess if the related adjustments to revenue had been accounted for in the appropriate accounting period.

INDEPENDENT AUDITOR'S REPORT

OTHER INFORMATION IN THE ANNUAL REPORT

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

3. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

(a) Adoption of amended HKFRSs – effective on 1 January 2022

The Hong Kong Institute of Certified Public Accountants has issued a number of amended HKFRSs that are first effective for the current accounting period of the Group:

Amendments to HKAS 16	Property, Plant and Equipment: Proceeds Before Intended Use
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a Contract
Amendments to HKFRS 3	Reference to the Conceptual Framework
Amendments to HKFRS 16	Covid-19 – Related Rent Concessions beyond 30 June 2021
Annual Improvements to HKFRSs 2018–2020	Amendments to HKFRS 1, HKFRS 9, HKFRS 16 and HKAS 41

None of these amended HKFRSs has a material impact on the Group’s results and financial position for the current or prior period. The Group has not early applied any new or amended HKFRSs that is not yet effective for the current accounting period.

(b) New or amended HKFRSs that have been issued but are not yet effective

The following amended HKFRSs, potentially relevant to the Group’s financial statements, have been issued, but are not yet effective and have not been early adopted by the Group. The Group’s current intention is to apply these changes on the date they become effective.

Amendments to HKAS 1	Classification of Liabilities as Current or Non-current (the “2020 Amendments”) ^{2,3}
Amendments to HKAS 1	Non-Current Liabilities with Covenants (the “2022 Amendments”) ²
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies ¹
Amendments to HKAS 8	Definition of Accounting Estimates ¹
Amendments to HKAS 12	Deferred Tax Related to Assets and Liabilities arising from a Single Transaction ¹
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback ²

¹ Effective for annual periods beginning on or after 1 January 2023

² Effective for annual periods beginning on or after 1 January 2024

³ As a consequence of the 2022 Amendments, the effective date of the 2020 Amendments was deferred to annual periods beginning on or after 1 January 2024. In addition, as a consequence of the 2020 Amendments and 2022 Amendments, Hong Kong Interpretation 5 Presentation of Financial Statements - Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause was revised to align the corresponding wording with no change in conclusion.

3. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

(Continued)

(b) New or amended HKFRSs that have been issued but are not yet effective (Continued)

Amendments to HKAS 1, Classification of Liabilities as Current or Non-current

The 2020 Amendments provide clarification that if an entity’s right to defer settlement of a liability is subject to compliance with future covenants, the entity has a right to defer settlement of the liability even if it does not comply with those covenants at the end of the reporting period. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The 2020 Amendments also clarify the situations that are considered as a settlement of a liability. The 2020 Amendments are effective for annual periods beginning on or after 1 January 2024 and shall be applied retrospectively. Earlier application of the 2020 Amendments is permitted. However, an entity that applies the 2020 Amendments early is also required to apply the 2022 Amendments, and vice versa.

The directors of the Company do not anticipate that the application of the amendments in the future will have any material impact on the financial statements.

Amendments to HKAS 1 Non-current Liabilities with Covenants

The 2022 Amendments clarify how to treat liabilities that are subject to covenants to be complied with, at a date subsequent to the reporting period. The 2022 Amendments improve the information an entity provides when its right to defer settlement of a liability for at least twelve months is subject to compliance with covenants. The 2022 Amendments clarify that only covenants with which an entity must comply on or before the reporting date will affect a liability’s classification as current or non-current. The 2022 Amendments are effective for annual periods beginning on or after 1 January 2024 and shall be applied retrospectively. Earlier application of the 2022 Amendments is permitted.

Based on the Group’s outstanding liabilities as at 31 December 2022, the directors of the Company do not anticipate that the application of the amendments will result in reclassification of the Group’s liabilities.

Amendments to HKAS 1 and HKFRS 2 Practice Statement 2 – Disclosure of Accounting Policies

The amendments require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to HKFRS Practice Statement 2 provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. Amendments to HKAS 1 are effective for annual periods beginning on or after 1 January 2023 and earlier application is permitted. Since the guidance provided in the amendments to HKFRS Practice Statement 2 is non-mandatory, an effective date for these amendments is not necessary.

The directors of the Company do not anticipate that the application of the amendments in the future will have any material impact on the financial statements.

3. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

(b) New or amended HKFRSs that have been issued but are not yet effective (Continued)

Amendments to HKAS 8 – Definition of Accounting Estimates

The amendments introduce a definition of ‘accounting estimates’. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

The directors of the Company do not anticipate that the application of the amendments in the future will have any material impact on the financial statements.

Amendments to HKFRS 16 – Lease Liability in a Sale and Leaseback

The amendments specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The directors of the Company do not anticipate that the application of the amendments in the future will have any material impact on the financial statements.

Amendments to HKAS 12 – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments require entities to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. They will typically apply to transactions such as leases of lessees and decommissioning obligations and will require the recognition of additional deferred tax assets and liabilities.

The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, entities should recognise deferred tax assets (to the extent that it is probable that they can be utilised) and deferred tax liabilities at the beginning of the earliest comparative period for all deductible and taxable temporary differences associated with:

- right-of-use assets and lease liabilities, and
- decommissioning, restoration and similar liabilities, and the corresponding amounts recognised as part of the cost of the related assets.

The cumulative effect of recognising these adjustments is recognised in retained earnings, or another component of equity, as appropriate.

HKAS 12 did not previously address how to account for the tax effects of on-balance sheet leases and similar transactions and various approaches were considered acceptable. For entities which may have already accounted for such transactions consistent with the new requirements. These entities will not be affected by the amendments.

The directors of the Company do not anticipate that the application of the amendments in the future will have any material impact on the financial statements.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment loss, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. Adjustments are made to bring into any dissimilar accounting policies that may exist.

Profit or loss and each component of other comprehensive income are attributed to the shareholders of the Company. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

(b) Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of key management personnel of the Group or the Company's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Company's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include (i) that person's children and spouse or domestic partner; (ii) children of that person's spouse or domestic partner; and (iii) dependents of that person or that person's spouse or domestic partner.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(c) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(d) Property, plant and equipment

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The estimated useful lives of different categories of property, plant and equipment are as follows:

Plant and buildings	5 to 20 years
Machinery	5 to 20 years
Furniture and fixtures	5 to 10 years
Motor vehicles	5 to 10 years

Construction in progress is stated at cost less impairment losses. Cost comprises direct costs of construction as well as borrowing costs capitalised during the periods of construction and installation. Capitalisation of these costs ceases and the construction in progress is transferred to the appropriate class of property, plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided for in respect of construction in progress until it is completed and ready for its intended use.

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the period the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(e) Investment property

Investment property is an interest in land and building (including the leasehold property held as a right-of-use asset) which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such property is stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated on the straight-line basis to write off the cost of an investment property over its estimated useful life of 20 years.

Any gain or loss on the retirement or disposal of an investment property is recognised in profit or loss in the period of the retirement or disposal.

(f) Computer software

Computer software acquired separately is measured on initial recognition at cost. The useful life of computer software is assessed to be finite.

Computer software is subsequently amortised over the useful economic life of 5 years and assessed for impairment whenever there is an indication that an item of computer software may be impaired. The amortisation period and the amortisation method for computer software are reviewed at least at each financial year end.

An item of computer software is derecognised on disposal or no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the period the computer software is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant computer software.

(g) Research and development costs

All research costs are charged to profit or loss as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset arising from the projects so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(h) Leasing

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on the straight-line basis over the lease terms and is included in other income in profit or loss. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents, if any, are recognised as other income in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, are accounted for as finance leases.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) *Right-of-use assets*

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on the straight-line basis over the following depreciation periods, which are the shorter of the lease terms and the estimated useful lives of the assets:

Leasehold land	41 to 50 years
Office premises	2 years
Staff quarter	2 years

31 December 2022

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(h) Leasing *(Continued)*

Group as a lessee (Continued)

(a) *Right-of-use assets (Continued)*

If ownership of the leased asset is transferred to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The Group's right-of-use assets are separately presented on the face of the consolidated statement of financial position.

(b) *Lease liabilities*

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the interest rate implicit in the lease or, where that rate cannot be readily determined, the Group uses its incremental borrowing rate at the lease commencement date. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are separately presented on the face of the consolidated statement of financial position.

(c) *Short-term leases*

The Group applies the short-term lease recognition exemption to its short-term leases of plant, machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option).

Lease payments on short-term leases are recognised as an expense on the straight-line basis over the lease term.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(i) Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

(j) Investments and other financial assets

Initial recognition and measurement

Financial assets are all classified, at initial recognition, as subsequently measured at amortised cost.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value plus transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset (debt instrument) to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets (debt instruments) with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2022

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(j) Investments and other financial assets *(Continued)*

Initial recognition and measurement *(Continued)*

The Group's business model for managing financial assets (debt instruments) refers to how it manages its financial assets (debt instruments) in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets (debt instruments), or both. Financial assets (debt instruments) classified and measured at amortised cost are held within a business model with the objective to hold financial assets (debt instruments) in order to collect contractual cash flows, while financial assets (debt instruments) classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets (debt instruments) which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Impairment

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

(a) *General approach*

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (12-month ECLs). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (lifetime ECLs).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2022

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(j) Investments and other financial assets *(Continued)*

Impairment *(Continued)*

(a) *General approach (Continued)*

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

(b) *Simplified approach*

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(j) Investments and other financial assets *(Continued)*

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

(k) Financial liabilities

Initial recognition and measurement

Financial liabilities are all classified, at initial recognition, as financial liabilities measured at amortised cost, which are recognised initially at fair value and net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, financial liabilities at amortised cost are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2022

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(k) Financial liabilities *(Continued)*

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in profit or loss.

(l) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

(m) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

(n) Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

(o) Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in profit or loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(p) Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(p) Income tax *(Continued)*

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(q) Sales tax

Revenues, expenses and assets are recognised net of the amount of sales tax, except:

- where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables that are stated with the amount of sales tax included.

(r) Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with.

Where the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed. Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to profit or loss by way of a reduced depreciation charge.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(s) Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

(a) *Sale of goods*

Sale of cigarette packaging products and household paper products

Revenue from the sale of cigarette packaging products and household paper products is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the products.

Some contracts for the sale of household paper products provide customers with volume rebates. The volume rebates give rise to variable consideration.

Retrospective volume rebates may be provided to certain customers once the quantity of products purchased during the period exceeds a threshold specified in the contract. Rebates are offset against amounts payable by the customer. To estimate the variable consideration for the expected future rebates, the most likely amount method is used for contracts with a single-volume threshold and the expected value method for contracts with more than one volume threshold. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The requirements on constraining estimates of variable consideration are applied and a refund liability for the expected future rebates is recognised.

Sale of heating

Revenue from the sale of heating is recognised over time when the heating is supplied to and consumed by the customers. Revenue is recognised at the stated unit price per square meter of each flat.

Sale of steam for industrial use and electricity

Revenue from the sale of steam for industrial use and electricity is recognised over time when the steam and electricity are supplied to and consumed by the customers. Revenue is recognised at the contractually stated price based on the steam and electricity consumption derived from meter readings.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(s) Revenue recognition *(Continued)*

Revenue from contracts with customers (Continued)

(b) Processing service income

The Group provides processing services to certain customers. Processing service income is recognised in the accounting period in which the services are rendered, by reference to stage of completion of the specific transaction and assessed on the basis of actual services provided as a proportion of the total service to be provided.

Revenue from other sources

- (a) Rental income is recognised on the straight-line basis over the lease terms.
- (b) Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

(t) Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

(u) Employee benefits

(a) Share-based payments

In prior years, an employee of the Group received remuneration in the form of a share-based payment provided by the then controlling shareholder of the Group, whereby the employee agreed to render a five-year service period to the Group in exchange for acquiring certain percentage of equity interest in a subsidiary of the Group from the controlling shareholder at a below-market price (the "equity-settled transaction").

The cost of the equity-settled transaction is measured at the fair value of the equity interest of the subsidiary acquired less the consideration paid by the employee. The cost of the equity-settled transaction is recognised as an employee benefit expense, together with a corresponding increase in equity of the subsidiary, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for the equity-settled transaction at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired. The charge to profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(u) Employee benefits *(Continued)*

(b) Retirement benefit schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

(v) Borrowing costs

Borrowing costs attributable directly to the acquisition, construction or production of qualifying assets which require a substantial period of time to be ready for their intended use or sale, are capitalised as part of the cost of those assets. Income earned on temporary investments of specific borrowings pending their expenditure on those assets is deducted from borrowing costs capitalised. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(w) Foreign currencies

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 December 2022

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

(w) Foreign currencies *(Continued)*

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currency of the Company and certain subsidiaries is Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rate prevailing at the end of the reporting period and their statements of profit or loss are translated into RMB at the weighted average exchange rate for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of the Company and subsidiaries which have Hong Kong dollar as their functional currency are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of the Company and these subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rate for the year.

(x) Asset acquisitions

Groups of assets acquired and liabilities assumed are assessed to determine if they are business or asset acquisitions. On an acquisition-by-acquisition basis, the group chooses to apply a simplified assessment of whether an acquired set of activities and assets is an asset rather than business acquisition, when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

When a group of assets acquired and liabilities assumed do not constitute a business, the overall acquisition cost is allocated to the individual identifiable assets and liabilities based on their relative fair values at the date of acquisition. An exception is when the sum of the individual fair values of the identifiable assets and liabilities differs from the overall acquisition cost. In such case, any identifiable assets and liabilities that are initially measured at an amount other than cost in accordance with the group's policies are measured accordingly, and the residual acquisition cost is allocated to the remaining identifiable assets and liabilities based on their relative fair values at the date of acquisition.

(y) Discontinued operation

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group and which represents a separate major line of business or geographical area of operations, or is a part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. It also occurs if the operation is abandoned.

Where an operation is classified as discontinued, a single amount is presented on the face of the statement of profit or loss, which comprises the post-tax profit or loss of the discontinued operation and post-tax gain or loss recognised on the measurement to fair value less costs to sell, or on the disposal, of the assets or disposal group constituting the discontinued operation.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In the process of applying the Group's accounting policies, management has made the following key judgements, estimations and assumptions, which have the most significant effect on the amounts recognised in the consolidated financial statements:

(a) Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets (including the right-of-use assets) at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

(b) Useful lives and residual values of property, plant and equipment

The Group's management determines the useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. It could change significantly as a result of technical innovations and competitor actions in response to severe industry cycles. Management will increase the depreciation charge when useful lives and residual values are less than previously estimated, or it will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold. Actual economic lives may differ from estimated useful lives. Periodic review could result in a change in depreciable lives and therefore depreciation in the future periods.

(c) Provision for expected credit losses on trade and other receivables

The Group uses a provision matrix to calculate ECLs for trade and other receivables, by applying ECL rates to different ageing groups of debtors. The ECL rate of each ageing group is determined by the Group based on the average of historical incurred credit loss experience on each ageing group in the past years and, where material, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group's historical credit loss experience and forecast of economic conditions may not be representative of a customer's actual default in the future and significant management estimates are required in the estimates. When the actual outcome or expectation in future is different from the original estimates, such differences will impact on the carrying amounts of trade receivables and the amount of ECLs provided or reversed in the periods in which such estimates have been changed. Details of the ECLs on the Group's trade and other receivables are disclosed in note 42(c) to the consolidated financial statements.

6. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has the following reportable operating segments:

- (a) the new energy operation segment engages in the production and sale of steam for industrial use, heating and electricity in Mainland China;
- (b) the household paper products segment trades household paper products; and
- (c) the cigarette packaging products segment manufactures and sells cigarette packaging products and provides related processing service in Mainland China (discontinued operation).

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before tax. The adjusted profit/(loss) before tax is measured consistently with the Group's profit/(loss) before tax except that interest income, finance costs as well as head office and corporate income and expenses are excluded from such measurement.

(b) Performance obligations

Information about the Group's performance obligations is summarised below:

Sale of goods

The performance obligation is satisfied upon delivery of the cigarette packaging products, steam for industrial use, heating, electricity and household paper products and payment is generally due within 30 to 150 days from delivery, except for new customers and the sale of steam for industrial use and heating and electricity, where payment in advance is normally required. Some household paper products sales contracts provide customers with volume rebates which give rise to variable consideration subject to constraint.

14. DISCONTINUED OPERATION

During the year, the Group disposed of its 100% equity interest in Lucky Glorious Limited and its subsidiaries (collectively the "Disposal Group"). The Disposal Group engages in the production and sale of metallised packaging paper and provision of related processing services for cigarette package manufacturers. The Group decided to cease its cigarette packaging business in view of the structural reform of the tobacco market in China that may continue weakening the performance of the Group's cigarette packaging business. The disposal was completed on 14 October 2022 and consequently, this operation has been discontinued.

The results of Disposal Group for the relevant periods are presented below:

	Period from 1 January 2022 to 14 October 2022 RMB'000	Year ended 31 December 2021 RMB'000

21. DEFERRED TAX

- (a) Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China.

At 31 December 2022 and 2021, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. As at 31 December 2022, the aggregate temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised amounted to RMB122,862,000 (2021: RMB102,675,000).

- (b) As at 31 December 2022, the Group has tax losses arising from subsidiaries operated in Mainland China of RMB10,937,000 (2021: RMB20,226,000) which are available for offsetting against future taxable profits of these subsidiaries for a period of five years. Deferred tax assets have not been recognised in respect of these losses as the future profitability of the subsidiaries from which these tax losses arose is not assured and hence it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

Notes:

- (a) The Group's trading terms with its customers for the sale of goods and provision of processing services are mainly on credit. For new customers, payment in advance is normally required. The credit period is generally 30 to 150 days. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables to minimise the credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

An ageing analysis of the trade and bills receivables as at the end of the reporting period, based on the invoice date and net of impairment, is as follows:

	2022 RMB'000	2021 RMB'000
Within 1 month	1,043	54,404

Notes: (Continued)

(b) The movement in provision for impairment of trade receivables is as follows:

	2022 RMB'000	2021 RMB'000
At 1 January	14,267	5,176
Impairment recognised, net	1,397	9,091
Amount written off as a result of disposal of subsidiaries	(14,267)	–
At 31 December	1,397	14,267

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on the average of historical incurred credit loss experience on each ageing group of trade receivables. Generally, trade receivables are written off if they are not considered recoverable by the Group and are not subject to enforcement activity.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

35. ACQUISITION OF A SUBSIDIARY

On 8 July 2021, the Group entered into an equity transfer agreement with independent third parties in relation to its acquisition of 51% equity interest in China Coal, a company engaged in the leasing of its plant and equipment to Shandong New Energy.

The gross assets of China Coal acquired was concentrated in a single identifiable asset, therefore, the acquisition was accounted for as a purchase of assets and liabilities as the operation of China Coal did not constitute a business as defined in HKFRS 3 (Revised) "Business Combinations". As the acquisition was considered as a purchase of assets and liabilities and the consideration was settled by the issuance of the Company's shares, the acquisition was considered as a share-based payment transaction to non-employees in accordance with HKFRS 2 "Share-based Payment". The transaction was completed on 27 October 2021 (the "acquisition date"). The total consideration for the acquisition was RMB97,427,000 and was settled through allotment and issue of 46,092,537 new shares by the Company. The fair value of the consideration as at acquisition date was determined by reference to the fair value of the net assets from China Coal.

Upon the completion of the acquisition, China Coal became an indirectly non-wholly owned subsidiary of the Company.

Details of the fair value of identifiable assets and liabilities acquired and purchase consideration are as follows:

	2021 RMB'000

37. DISPOSAL OF SUBSIDIARIES

On 5 August 2022, the Company entered into a sale and purchase agreement (the “Agreement”) with an independent third-party purchaser (the “Purchaser”) to dispose of its 100% equity interest of the Disposal Group for a consideration of HK\$49,000,000 (equivalent to approximately RMB42,081,000). Pursuant to the Agreement, the consideration shall be settled by the Purchaser by entering into the deed of novation with the Company and the lender of the Loan (note 28(b)) (the “Lender”) upon completion of this disposal (the “Deed of Novation”). The disposal was duly completed on 14 October 2022 (the “Completion Date”).

As at the date of the Agreement, the total outstanding amount of the Loan was in the amount of approximately HK\$53,000,000 (equivalent to approximately RMB45,516,000), being the principal amount of the Loan of HK\$40,000,000 (equivalent to approximately RMB34,352,000) and total accrued interest of approximately HK\$13,000,000 (equivalent to approximately RMB11,164,000). As the total outstanding amount of the Loan as at the date of the Agreement was more than the said consideration, the Company undertook to the Purchaser under the Agreement to settle part of the outstanding principal amount of HK\$4,000,000 (equivalent to approximately RMB3,435,000) to the Lender. The remaining outstanding principal amount of the Loan of HK\$36,000,000 (equivalent to approximately RMB30,917,000) and all accrued interest of approximately HK\$13,000,000 (equivalent to approximately RMB11,164,000) will be assumed and satisfied by the Purchaser pursuant to the Deed of Novation signed on the Completion Date.

41. FINANCIAL INSTRUMENTS BY CATEGORY

All financial assets and liabilities of the Group as at 31 December 2022 and 2021 are classified as financial assets and liabilities at amortised cost, respectively.

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise bank and other borrowings, cash and bank balances. The main purpose of these financial instruments is to finance the Group's operations. The Group has various other financial instruments such as trade and bills receivables and trade and bills payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are (a) interest rate risk; (b) foreign currency risk; (c) credit risk; and (d) liquidity risk. The Group does not have any written risk management policies and guidelines. However, the board of directors meets periodically to analyse and formulate measures to manage the Group's exposure to these risks. Generally, the Group introduces conservative strategies on its risk management. As the Group's exposure to these risks is kept to a minimum, the Group has minimal use of derivatives and other instruments for trading purposes. The board of directors reviews and agrees policies for managing each of these risks and they are summarised as follows:

(a) Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's cash at banks with floating interest rates.

If interest rates had been 100 basis points (2021: 100 basis point) higher/lower and all other variables were held constant, the Group's loss before tax for the year ended 31 December 2022 would have increased/decreased by RMB148,000 (2021: profit before tax decreased/increased by RMB411,000).

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(Continued)*

(b) Foreign currency risk

Currency risk to the Group is minimal as most of the Group's transactions are carried in RMB.

(c) Credit risk

Maximum exposure and year-end staging

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the counterparty has good history of repayment, the Group's exposure to bad debts is not significant.

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and the year-end staging classification as at 31 December. The amounts presented are gross carrying amounts for financial assets and the exposure to credit risk for the financial guarantee contracts.

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(Continued)*

(d) Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans and other borrowings.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments is as follows:

	Carrying amount <i>RMB'000</i>	On demand and within one year <i>RMB'000</i>	More than one year but less than two years <i>RMB'000</i>	Total contractual undiscounted payments <i>RMB'000</i>

	271,724	269,598	2,340	271,938

At 31 December 2021, the other borrowing classified as repayable on demand was RMB32,636,000. The directors of the Company considered that it is not likely that the lender will exercise its discretionary right to demand immediate repayment.

(e) Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise the shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may adjust the dividend payment to its shareholders or issue new shares to increase capital. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2022 and 2021.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(e) Capital management (Continued)

The Group monitors capital using a gearing ratio, which is total debt divided by the total equity. Total debt includes bank and other borrowings, lease liabilities, amounts due to the ultimate holding company, a company controlled by a former director, a company controlled by a subsidiary's director, a subsidiary's director and a former shareholder of a subsidiary. The gearing ratios as at the end of the reporting periods were as follows:

	Notes	2022 RMB'000	2021 RMB'000
Bank and other borrowings	28	14,759	41,136
Amount due to the ultimate holding company	27	–	1,198

Total debt		38,095	94,896
Total equity		321,878	340,121
Gearing ratio		11.8%	27.9%

43. MAJOR EVENT AFTER THE REPORTING PERIOD

The Group has recently been informed by its four subsidiaries (the "Subsidiaries") in regard to their purchase of certain financial products from a state-owned asset management company in the PRC.

On the premise of ensuring the funds required for normal operations, the Subsidiaries entered into contracts for the purchase of these financial products with an annualized rate of return of 2.9% in order to make good use of temporarily idle working capital, as well as to earn interest income. The financial products can be purchased and redeemed at any time, subject to the terms of the contract. The contract period is from 5 January 2023 to 15 April 2023 (the "Contract Period"). On or before the end of the Contract Period, all principal amounts can be redeemed and transferred to the Subsidiaries' bank accounts at the Subsidiaries' discretion. All the interest earned will then be credited into the Subsidiaries' bank account after the end of the Contract Period.

The Subsidiaries have purchased financial products with a total worth of RMB198.98 million since 5 January 2023, which consist of 冠均(濟南)日用品有限公司 (RMB95.7 million), 冠均(山東)貿易有限公司 (RMB50,000), 冠均華盈(山東)新能源有限公司 (RMB102.09 million), and 中煤東能(山東)清潔能源有限公司 (RMB1.14 million). The purchase of these financial products did not affect the normal operation of the Group. As of the date of these consolidated financial statements, all the principal amounts of these financial products have been redeemed and transferred back to the Subsidiaries' bank accounts.

The Group will make further announcements with respect to the above purchase of financial products and to re-comply with the requirements of the Listing Rules.

44. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved and authorised for issue by the board of directors on 31 March 2023.
