Management Discussion and Analysis

BUSINESS OVERVIEW

The Group is the largest vocational education group in the Pearl River Delta and Yangtze River Delta, the two most important economic regions in China. Our education businesses services cover the entire modern vocational education system, including the secondary-level vocational program, higher-level vocational program, and undergraduate-level vocational program (including application-oriented undergraduate program and college level program). Since the establishment of our first school in 2000, the Group has been adhering to the mission of building a skills-based society, cultivating more high-quality technological talents, and providing powerful talents with skills in contributing to the comprehensive construction of a modern socialist country.

On 20 April 2022, the newly amended Vocational Education Law of the People's Republic of China (《中華人民共和國職業教育法》) was approved at the 34th meeting of the 13th NPC Standing Committee. The newly amended Vocational Education Law emphasized that vocational education is one of the education types that has the same important position as other general education and students of vocational education shall have the equal opportunities compare with the students in ordinary schools at the same level in aspects of further education, employment, and career development. In the meanwhile, industry enterprises are encouraged to hold high-quality vocational education, which are deeply involved in the integration of industry and education. The Group will continue to benefit from the favorable policies on vocational education. In response to the national call to promote high-quality development of modern vocational education, the Group has determined to spare no effort to accomplish investment in six key sectors, includes upgrading professional training laboratories, building a smart-digital campus, further optimizing the structure of major layout, continuously increasing investment to cultivate teaching talents, deepening the connection with industry-leading enterprises to jointly build up modern industry colleges and fulfilling the Group's ESG responsibilities.

Focusing on High-Quality Development as the Core of Operating Schools, Strengthening Connotation Construction and Increasing Investments in Operating Schools

(1) *Building a High-Quality Teaching Team to Promote the Development of Research and Teaching*

The teaching team is the key to improving the quality of personnel training, the basis for forming the characteristics and advantages of the school, and the guarantee for the sustainable development of the school. The Group has been committed to building a high-level teaching team with optimized structure, high quality, vitality, innovation and adaptability to the development of the school, and to create “dual-qualification” (雙師雙能型) talents with solid theoretical knowledge, rich practical experience and ability, and innovative ability. In 2022, the Group has introduced more than 600 high-quality teachers, and the number of teachers with intermediate titles and above has increased significantly. To link the increase of the teachers' salaries with the teaching quality, result of student competitions and the employment outcomes, the Group has implemented a new KPI examination system and set out a set of policies, such as Measures for Graduates Employment Evaluation (《畢業生就業工作評估辦法》), Measures for the Assessment of Professional and Technical Titles (《專業技術職稱評審辦法》), Measures for the Administration of Student Subject Competition Awards (《學生學科競賽獎勵管理辦法》), Measures for the Administration of Dispatched Teachers Guiding Interns in Enterprises (《派駐企業指導實習教師管理辦法》), Measures for the Administration of Comprehensive Internships for Fresh Graduates (《應屆畢業生綜合實習管理辦法》) and others.

Management Discussion and Analysis

Our teacher qualification training has achieved remarkable results. In 2022, we received 12 national awards and 102 provincial awards. A teacher from the faculty of Information Engineering of Heilongjiang School was awarded the First Prize of Heilongjiang Province Teaching Achievement Award. Adhering to the scientific research goal of “Promoting Teaching through Research and Promoting Learning through Teaching”, the school actively carries out scientific research and ignites the enthusiasm of teachers to engage in scientific research. In 2022, the Group’s schools undertook 94 provincial-level scientific research projects, and our teachers published 522 academic papers, including 53 core journal papers. The school has received 32 invention patents, 15 utility model patents and 6 design patents.

Almost 100 key teachers have enjoyed the preferential housing purchase policies. In addition, the Group has newly invested in 3 high-end apartment buildings for teachers, which can accommodate up to 1,000 beds as transitional housing for new employees.

(2) Construction of High-Standard Modern Campus and Experimental Training Rooms

The Group newly invested in the construction of 52 experimental training rooms, including electrical CAD laboratory, intelligent communication laboratory, ERP laboratory, engineering mechanics laboratory and sensor system laboratory, to meet the needs of modern vocational education. In terms of digitalization, the digital orientation system, all-in-one card system and dormitory management system deeply integrated with Tencent Micro-Schools have improved students’ campus life experience. Cooperating with online teaching platforms such as Chaoxing (超星), University Open Online Courses (優課聯盟), Treenity (智慧樹) and Chinese University MOOC (中國大學MOOC), we have been providing online teaching for teachers and students on campus, effectively improving the level of information application. The gross profit margin for the period ended 28 February 2023 was 61.9%, representing a slightly decrease of 3 percentage points as compared to the gross profit margin of 64.9% for the same period of last year. The decrease was mainly due to the Group's continuously investment in teaching expenses and students expenses to achieve high teaching qualities and student employment.

Other expenses decreased by RMB0.6 million, or 12.2%, from RMB4.6 million for the six months ended 28 February 2022 to RMB4.0 million for the six months ended 28 February 2023. Management Discussion and Analysis

Non-HKFRS Measurement

To supplement the Group's combined financial statements which are presented in accordance with HKFRS, the Company also uses adjusted EBITDA and core net profit as additional financial measures, which are not required by, or presented in accordance with HKFRS. The Group presents these items because the Group considers it an important supplemental measure of the Group's operational performance used by the Group's management as well as analysts or investors.

Calculation of adjusted EBITDA

Adjusted EBITDA is defined as to earnings before interest, income tax expenses, depreciation and amortisation after adjusting for the items which are not indicative of the Group's operating performance. The exchange gain and equity-settled restricted share award expense are the non-HKFRS measure adjusting items as the Company consider that those items were not reflective of the Group's core operating results and should be reconciled in the adjusted EBITDA. The following table reconciles from profit for the period to adjusted EBITDA for both financial periods:

Items	Six months ended		Change RMB'000	Percentage Change (%)
	28 February 2023 RMB'000 (Unaudited)	2022 RMB'000 (Unaudited)

2.1 BASIS OF PREPARATION

The unaudited interim condensed consolidated financial statements for the six months ended 28 February 2023 have been prepared in accordance with HKAS 34 *Interim Financial Reporting*. The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 August 2022.

The Group has prepared the unaudited interim condensed consolidated financial statements on the basis of going concern. Included therein were the contract liabilities of RMB683,872,000 as at 28 February 2023, which will be settled by education services to be provided by the Group. In view of the net current liabilities position, the Directors have given careful consideration to the future liquidity and performance of the Group and its available sources of finance when assessing whether the Group will have sufficient financial resources to continue as a going concern and meet its liabilities as and when they fall due in the foreseeable future.

The Directors have prepared a cashflow forecast for the Group which covers a period of twelve months from the end of the reporting period. 6. INCOME TAX

The Group is subject to income tax on an entity basis on profits arising in or derived from the jurisdictions in which members of the Group are domiciled and operate.

The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies ACT of the Cayman Islands and accordingly is not subject to income tax from business carried out in the Cayman Islands.

Huanan Education Group Limited, the Company's directly held subsidiary, was incorporated in the BVI as an exempted company with limited liability under the BVI Companies ACT and accordingly is not subject to income tax from business carried out in the BVI.

China Kepei Education (Hong Kong) Limited, a subsidiary incorporated in Hong Kong, is subject to income tax at the rate of 16.5% on the estimated assessable profits arising in Hong Kong. No provision for Hong Kong profits tax has been made as the Group had no assessable profits derived from or earned in Hong Kong during the period.

Pursuant to the 2016 Decision, which was promulgated on 7 November 2016 and came into force on 1 September 2017, private schools are no longer being classified as either schools for which the school sponsor(s) require reasonable returns or schools for which the school sponsor(s) do not require reasonable returns. Instead, the school sponsor(s) of a private school may choose for the school to be a for-profit private school or a non-profit private school, with the exception that schools providing nine-year compulsory education must be non-profit.

On 14 May 2021, the State Council released the 2021 Implementation Rules with the effective date of 1 September 2021. The 2021 Implementation Rules are the detailed implementation rules of the Private Schools Promotion Law of the PRC. Pursuant to the 2016 Decision and the 2021 Implementation Rules, a private school may enjoy the preferential tax policies, which are not defined under neither the 2016 Decision nor the 2021 Implementation Rules, as stipulated by the related government authorities and a non-profit school may enjoy the same tax policies as enjoyed by a public school.

The local governments of Guangdong, Heilongjiang and Anhui province, where the PRC Schools registered, have promulgated the Local Implementation Opinions.

6. INCOME TAX (continued)

According to the Implementing Opinions of the Guangdong Provincial Government on Encouraging Private Entities and Individuals to Operate Schools and Promote the Healthy Development of Private Education (《廣東省人民政府關於鼓勵社會力量興辦教育促進民辦教育健康發展的實施意見》), which was promulgated by the People's Government of Guangdong Province on 4 May 2018 and the 2016 Decision, school sponsors of private schools which were established and registered in Guangdong prior to 7 November 2016 may choose for the schools to be for-profit private schools or non-profit private schools at their own discretion, except for the schools providing compulsory education, which must be non-profit. However, the Implementing Measures of Classification Registration for Private Schools (《關於民辦學校分類登記的實施辦法》), which was promulgated by five departments of the Guangdong province government and came into effect on 30 December 2018, do not specify a deadline for the existing private schools to elect to be registered as non-profit or for-profit private schools.

According to the Local Implementation Opinions of Heilongjiang and Anhui provinces, the Group's PRC Schools are required to commence classification registration of the school as a for-profit private school or a non-profit private school by 1 September 2022 and 1 September 2023, respectively.

As at the date of these unaudited interim condensed consolidated financial statements, the PRC Schools of the Group have not yet registered or completed the classification registration as for-profit private schools or non-profit private schools and remain as private non-enterprise units. The PRC Schools have applied the corporate income tax exemption treatment since their establishment in accordance with the historical tax returns filed with the relevant tax authorities. As a result, no income tax expense was recognised for the PRC Schools during the period.

Considering that the relevant tax policies regarding schools for which the school sponsor(s) require reasonable returns or schools for which the school sponsor(s) do not require reasonable returns remain unchanged and no further new and specific tax implementation regulations are announced, if the school nature has not yet been changed, in accordance with the tax compliance confirmations obtained from the local tax authorities and the Group's external legal advisor's comments on the preferential tax treatments for the current period, the PRC Schools did not pay corporate income tax for the income from academic educational services and have enjoyed the preferential tax treatments during the period. Following the completion of the registration of the PRC Schools as for-profit private schools, the PRC Schools may be subject to the CIT at a rate of 25% in respect of service fees which they receive from the provision of academic educational services going forward, if they do not enjoy any preferential tax treatment. As such, a significant impact on the Group's profit and loss may arise.

6. INCOME TAX (continued)

The Group has been conducting the Conversion to comply with the 2016 Decision and related implementing rules. The Conversion is still in progress in a smooth and orderly manner in accordance with the regulations of the relevant government authorities. 16. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

As at 28 February 2023, the fair values of the Group's financial assets and liabilities approximated to their respective carrying amounts.

Management has assessed that the fair values of trade receivables, cash and cash equivalents, financial assets included in prepayments, other receivables and other assets, financial liabilities included in other payables and accruals and the current portion of interest-bearing bank and other borrowings approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. At each reporting period, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values of those financial assets measured at fair value:

The fair values of a listed equity investment and a fund are based on quoted market prices.

The fair values of the non-current portion of interest-bearing bank and other borrowings, pledged deposits and unlisted financial products have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The changes in fair value as a result of the Group's own non-performance risk for the non-current portion of interest-bearing bank and other borrowings, pledged deposits and unlisted financial products as at 28 February 2023 was assessed to be insignificant. The fair values of the non-current portion of interest-bearing bank and other borrowings, pledged deposits and unlisted financial products approximate to their carrying amounts as at 28 February 2023.
