III. MAJOR REASONS FOR THE ESTIMATED LOSS IN RESULTS FOR THIS PERIOD

During the Reporting Period, due to the constant recovery of domestic economy and gradual alleviation of multiple negative impacts, service consumption experienced a noticeable recovery as well as the domestic civil aviation industry. The Company made every effort to seize the opportunities arising from market recovery, enhance cost control, and accelerate and optimize the utilization of idle resources, which contributed to a significant year-on-year decrease in operating loss of the Company. However, as a result of the relatively slow restoration of international flights, oversupply in the domestic market, significant depreciation of RMB and fluctuations in the high oil price, the Company is still under great operating pressure and suffered operating loss in the first half of 2023.

IV. RISK WARNINGS

The finance department of the Company is making every effort to prepare the 2023 interim financial report of the Company. There is no other substantial uncertainty which may affect the accuracy of the estimated results of the Company in this announcement.

V. OTHER EXPLANATORY MATTERS

The data set out above is only preliminary accounting data. The specific and accurate financial data should be those to be officially disclosed in the 2023 interim report of the Company. Investors are advised to pay attention to such investment risks involved.
