Environmental, Social and
Governance Report
2023

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

INTRODUCTION

Mexan Limited (the “**Company**”) and its subsidiaries (collectively, the “**Group**”) is pleased to present the environmental, social and governance (“**ESG**”) report (the “**ESG Report**”) for the financial year ended 31 March 2023 (“**Reporting Period**” or “**2023**”). This ESG Report summarises the ESG initiatives, plans and performances of the Group and demonstrates its commitment to sustainable development.

The Group is engaged in two business segments: 1) hotel operation, which mainly focuses on the operation of the Winland 800 Hotel (the “**Hotel**”), an 800-room Hotel in Tsing Yi, New Territories, Hong Kong; and 2) supply of furniture and building materials and provision of the design and fit-out construction service by its non-wholly owned subsidiary, Winland Firmstone Limited (“**Winland Firmstone**”).

The Group believes sustainability is the key to achieving continuing success and has integrated this key concept into its business strategy. In order to pursue a successful and sustainable business model, the Group actively promotes an environmentally and socially sustainable culture among all its employees and stakeholders. This culture enables the Group to formulate appropriate ESG policies and procedures in its daily operations and governance perspectives, to monitor and measure the progress of its ESG efforts, and also to report on its performances to investors and other stakeholders.

Recognising the urgent need for decisive action to mitigate climate change and protect the environment, the Group has set targets to enhance its performance on greenhouse gas (“**GHG**”) emissions, waste management, energy consumption, and water consumption. The Group believes setting ESG-related targets can enhance the Group’s commitment to corporate social responsibility and allow the Group’s stakeholders to have a clearer understanding of the ESG performance of the Group.

The ESG Governance Structure

The Group has developed an ESG governance structure to ensure ESG governance aligns with its business strategy and to integrate ESG management into its business operations and decision-making process.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

INTRODUCTION – CONTINUED

The board of directors (the “**Board**”) of the Company holds the overall responsibility for the Group’s ESG issues and discusses ESG-related issues at least once annually. In order to better manage the Group’s ESG performance, related issues and potential risks, the Board has resolved to establish an ESG committee (the “**ESG Committee**”). The Board is diverse in its composition and is considered to have a balance of skills and experience in overseeing the ESG-related issues of the Group, with support from the ESG Committee and the independent ESG consultant. The ESG Committee is a sub-committee of the Board, composed of at least one executive director, members from the senior management and representatives of relevant departments of the Group. The ESG Committee assists the Board in oversight of ESG issues by providing direction on and overseeing the development and implementation of the ESG initiatives of the Group, executing the Group’s ESG management approach and strategy, including the process used to identify, evaluate, prioritise, and manage material ESG-related issues, as well as formulating and reviewing ESG-related targets. The ESG Committee reports to the Board on ESG-related issues, including the progress made against ESG-related targets at least once annually. Relevant departments will assist the ESG Committee in collecting ESG-related data, preparing ESG reports and implementing ESG-related policies and initiatives.

SCOPE OF REPORTING

The senior management of the Group identifies the reporting scope by considering the materiality principle, its core business and its main revenue source. The scope of reporting of this ESG Report is the same as the reporting scope of the Group’s 2023 Annual Report. Compared with the ESG report for the financial year ended 31 March 2022 (“**2022**”), this ESG Report expanded its reporting scope by including the operation of Winland Firmstone which constitutes a new business segment of the Group after the acquisition of Winland Firmstone on 8 April 2022. During 2023, the environmental data covers the operation of the Hotel, the offices within the Hotel, and one showroom of Winland Firmstone in Hong Kong. Compared with 2022, the data from the showroom is newly included in 2023. The ESG key performance indicators (“**KPIs**”) are shown in the ESG Report as well as supplemented by explanatory notes to establish benchmarks.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

REPORTING FRAMEWORK

The ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide (the “**ESG Reporting Guide**”) as set out in the Appendix 27 of the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”).

Information relating to the Group’s corporate governance practices has been set out in the Corporate Governance Report of the Group’s 2023 Annual Report.

During the preparation for this ESG Report, the Group applied the reporting principles in the ESG Reporting Guide as follows:

Materiality: Materiality assessment was conducted to identify material ESG issues during the Reporting Period, thereby adopting the confirmed material ESG issues as the focus for the preparation of the ESG Report. The materiality of ESG issues was reviewed and confirmed by the Board and the ESG Committee. For further details, please refer to the sections headed “Stakeholder Engagement” and “Materiality Assessment”.

Quantitative: The standards, methodologies and applicable assumptions used in the calculation of KPIs data were supplemented by explanatory notes.

Consistency: For the purpose of meaningful comparison, this ESG Report describes the information about changes in the scope of disclosures and calculation methodologies as appropriate. During the Reporting Period, due to the acquisition of Winland Firmstone, the scope of disclosures has been changed accordingly as explained in the section headed “Scope of Reporting”. Relevant changes are listed in the section of affected information with explanatory notes.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

STAKEHOLDER ENGAGEMENT

The Group values its stakeholders and endeavours to understand and accommodate their views and interests related to the Group's businesses and ESG aspects. In order to understand and address their key concerns, the Group has maintained constructive communications with its key stakeholders, including but not limited to employees, investors and shareholders, suppliers, customers, media, non-governmental organisations ("NGOs") and the public, as well as government bodies and regulators.

In formulating ESG strategies and measures, the Group takes into account the stakeholders' expectations and concerns and strives to improve its performance through mutual cooperation with the stakeholders. The Group believes that it will create greater value for the community by utilising diversified key communication channels.

Stakeholders	Expectations and Concerns	Communication Channels
Employees	<ul style="list-style-type: none">• Employee health and safety• Employee development and training• Equal opportunities• Protection of employees' rights and interests• Compliant operation• Working environment	<ul style="list-style-type: none">• On-job training• Mentoring by direct supervisor• Regular team sharing• Employee notice board• Performance reviews• Staff handbook

The Group aims to collaborate with its stakeholders to improve its ESG performance and create greater value for the wider community on a continuous basis.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

MATERIALITY ASSESSMENT

In order to understand the stakeholders' areas of concern, identify material ESG issues, assess the importance of these issues, and formulate sustainable development strategies and guidelines, the Group continues to conduct annual materiality assessment. The specific work steps are as follows:

Identifying relevant issues

- With the assistance of the ESG Committee, the Group identified and confirmed a list of 16 material ESG issues for the Group in 2023, based on the Group's business development, results of the materiality assessment in 2022, and the MSCI ESG Industry Materiality Map.

Collecting stakeholder's feedback

- Questionnaires were designed based on the list of the material ESG issues, which was as the core content of the materiality assessment. The questionnaires were distributed to stakeholders for them to rate the material ESG issues according to the significance of economic, environmental and social impacts, and influence on stakeholders assessment and decisions and answer any open-ended questions.
- This assessment covered various stakeholders, including but not limited to staff and suppliers.

Prioritising material issues

- Based on the results of the questionnaires, the Group evaluated the materiality of these ESG issues and compiled the materiality matrix.
- The ESG Committee reviewed the feedback from stakeholders and the results of the materiality assessment, and identified the focus of the ESG Report and the improvement areas for ESG performance.

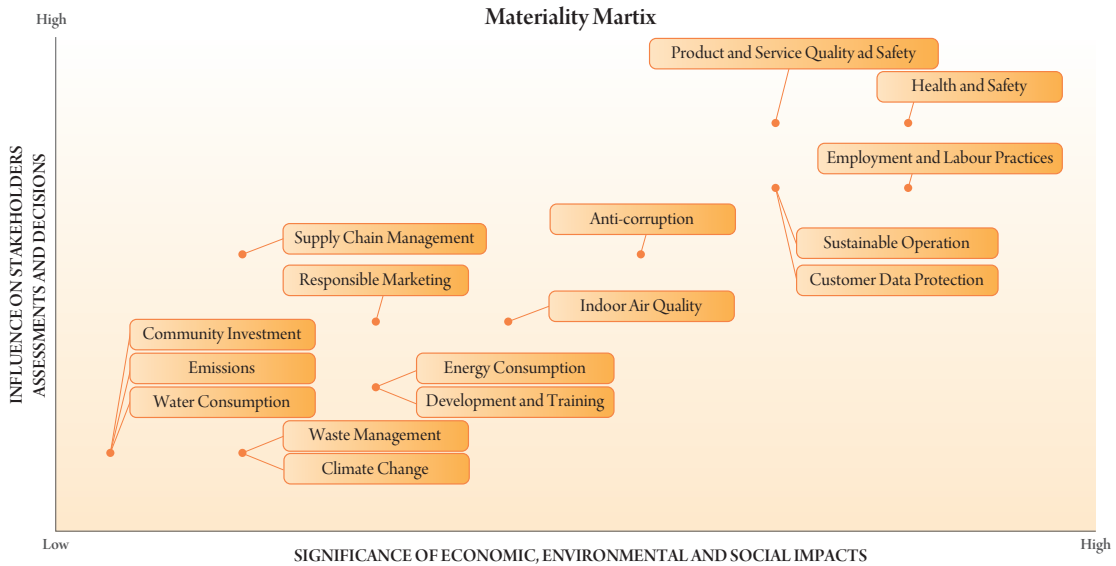

Validating material issues

- The ESG Committee presented the summary of the result of the materiality assessment to the Board and the Board reviewed and approved the materiality matrix.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

MATERIALITY ASSESSMENT – CONTINUED

The following matrix summarises the Group’s material ESG issues as set out in the ESG Report:

CONTACT US

The Group welcomes stakeholders to provide comments and suggestions. You can provide valuable advice in respect of the ESG Report or the Group’s performances in sustainable development by the following means:

Address: 7th Floor, Winland 800 Hotel, Hotel 2, Rambler Crest, No. 1 Tsing Yi Road, Tsing Yi, New Territories, Hong Kong
 Email: ir@winland800.hk

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL

A1. Emissions

The Group strives to protect the environment through the implementation of control activities and monitoring measures in its business activities and workplace. The Group is committed to promoting a green environment by introducing environmentally friendly business practices, educating its employees to enhance their awareness of environmental protection and complying with the relevant environmental laws and regulations.

In order to mitigate the environmental impact produced by the Group's operations, the Group has adopted and implemented relevant environmental policies. For example, there is a section of "Environment, Health and Safety" in the Group's Code of Conduct, showing its commitment to achieving environmental, health and safety excellence. These policies cover the waste management principle of "Reduce, Reuse, Recycle and Replace" as well as the emissions mitigation principle, with the objectives of minimising the adverse environmental impacts and ensuring the waste and emissions are handled in an environmentally responsible manner.

During the Reporting Period, the Group was not aware of any material non-compliance with the relevant environmental laws and regulations in Hong Kong in relation to air and GHG emissions, water and land discharge, and the generation of hazardous and non-hazardous waste. The relevant laws and regulations include, but are not limited to the Air Pollution Control Ordinance (Chapter 311 of the Laws of Hong Kong), the Waste Disposal Ordinance (Chapter 354 of the Laws of Hong Kong), the Water Pollution Control Ordinance (Chapter 358 of the Laws of Hong Kong) and the Noise Control Ordinance (Chapter 400 of the Laws of Hong Kong).

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A1. Emissions – continued

Emissions

Air Emissions

Due to the Group's business nature, it only generates a minimal amount of air emissions resulting from the combustion of town gas for cooking at the stoves in the kitchen and water heating in the boilers in the Hotel. Winland Firmstone has neither owned vehicles nor any stationary sources that require fuel consumption. During 2023, air emissions increased compared with 2022, which is due to the increase in town gas consumption resulting from the increase in the Hotel's occupancy rate.

The summary of the Group's air emissions performance:

Indicator ¹	Unit	2023			2022	
		Total	Hotel	Winland Firmstone	Total	Hotel
Nitrogen oxides (NO _x)	kg	14.59	14.59	–	12.48	12.48
Sulphur oxides (SO _x)	kg	0.07	0.07	–	0.06	0.06

Note:

1. The calculation method of air emissions and the related emission factors were based on, including but not limited to, "How to Prepare an ESG Report – Appendix 2: Reporting Guidance on Environmental KPIs" issued by the Stock Exchange.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A1. Emissions – continued

Emissions – continued

GHG Emissions

The Group's GHG emissions were mainly direct GHG emissions (Scope 1) from the town gas consumed for cooking in the kitchen and water heating in the boilers in the Hotel, as well as fugitive emissions from refrigerants in the Hotel, and energy indirect GHG emissions (Scope 2) from the use of town gas in the Hotel and the purchased electricity of the Group, while other indirect GHG emissions (Scope 3) includes both upstream and downstream emissions, such as methane gas generation at landfill due to disposal of paper waste, and GHG emissions due to electricity used for processing fresh water and sewage by the government.

During the Reporting Period, the Group's directors and employees attended a training on environmental protection and ESG-related issues that fulfilled its target set for 2023 of organising an internal training on environmental protection to increase the environmental awareness of its employees. For the year ending 31 March 2024 ("2024"), the Group continues setting a target to organise at least one activity or internal training related to environment protection. As Winland Firmstone is a newly acquired company, the Group is currently evaluating the feasibility of establishing environmental targets for Winland Firmstone and will disclose the set targets for Winland Firmstone when applicable.

The Group has actively adopted electricity conservation and energy saving measures as well as other initiatives to reduce GHG emissions, including but not limited to:

- Turning off air-conditioners when not in use;
- Circulating various energy-saving guidelines to staff (for example, turning off computers, lights and office equipment after work and during holidays, and closing windows when the air conditioning is in use);
- Procuring some of its products from companies using recyclable materials and renewable energy in their production processes; and
- Actively adopting other measures for environmental protection, energy conservation, and water saving. More measures are described in the sections headed "Energy Consumption" and "Water Consumption".

During 2023, the Group's total GHG emissions intensity decreased significantly compared with 2022, primarily due to the inclusion of Winland Firmstone in the reporting scope in 2023, resulting in the significant increase in the Group's revenue base for intensity calculation.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A1. Emissions – continued

Emissions – continued

GHG Emissions – continued

The summary of the Group's GHG emissions performance:

Indicator ²	Unit	2023			2022	
		Total	Hotel	Winland Firmstone	Total	Hotel
Direct GHG emissions (Scope 1)						
• Town gas consumption, fugitive emissions of refrigerants	tCO _{2e}	229.39	229.39	–	213.87	213.87
Energy indirect GHG emissions (Scope 2)						
• Purchased electricity and town gas	tCO _{2e}	1,366.12	893.88	472.24	1,111.77	1,111.77
Other indirect emissions (Scope 3)						
• Electricity use for fresh water and sewage processing by government departments, and paper disposal at landfills	tCO _{2e}	12.66	12.62	0.04	11.03	11.03
Total GHG emissions (Scope 1, 2 and 3)	tCO _{2e}	1,608.17	1,135.89	472.28	1,336.67	1,336.67
Intensity	tCO _{2e} /room ³	N/A	1.42	N/A	1.67	1.67
	tCO _{2e} /HK\$ million revenue ⁴	12.73	25.41	5.78	48.58	48.58

Notes:

- GHG emissions data are presented in terms of carbon dioxide equivalent and are based on, but not limited to, “The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards” issued by the World Bank Institute and the World Business Council for Sustainable Development, “How to prepare an ESG Report – Appendix 2: Reporting Guidance on Environmental KPIs” issued by the Stock Exchange, “Global Warming Potential Values” issued by the IPCC Fifth Assessment Report, 2015 (AR5), “Environmental, Social and Governance Report 2022” issued by The Hong Kong and China Gas Company Limited, and “2022 Sustainability Report” issued by the CLP Holdings Limited.
- During 2023, the total number of hotel rooms was 800 (2022: 800). The number would also be used for calculating other intensity data. Since this intensity calculation base is specific to hotel operation, such intensity is not presented for the operation of Winland Firmstone and the Group in its entirety.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A1. Emissions – continued

Emissions – continued

GHG Emissions – continued

Notes: – continued

4. Due to the inclusion of the operation of Winland Firmstone in the scope of reporting during the Reporting Period, revenue has been included as the base for calculating intensity to reflect the actual performance of the Group. Revenue of the Group for 2023 amounted to approximately HK\$126,362,000.00 (2022: approximately HK\$27,515,000.00), revenue of the Hotel is approximately HK\$44,702,000.00 in 2023 (2022: approximately HK\$27,515,000.00), and revenue of Winland Firmstone is approximately HK\$81,660,000.00 in 2023 (2022: N/A). The number would also be used for calculating other intensity data.

Waste Management

Hazardous Waste Handling Method

The Group did not generate any significant amount of hazardous waste during the Reporting Period and thus, no related targets have been set. To comply with relevant environmental laws and regulations, and to be a responsible firm, if there is any unusual hazardous waste produced, the Group will follow the internal guidelines for governing the management and disposal of hazardous waste, and such waste must be handled by a qualified waste collector.

Non-hazardous Waste Handling Method

The majority of the non-hazardous waste produced by the Group was grease trap waste primarily left from the restaurant in the Hotel as well as waste paper from the office within the Hotel and the showroom. The Group emphasises waste reduction with the principle of “Reduce, Reuse, Recycle and Replace” to promote better utilisation of environmental resources. In 2023, the Group has achieved one of its waste-related target set in 2022 by placing waste separation bins (3-coloured bins) in the Hotel. For the target of placing umbrella dryers in the Hotel, the Group is actively working towards sourcing umbrella dryers to replace plastic bags. The Group understands the importance of waste reduction and aims to achieve the target of placing umbrella dryer in 2024.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A1. Emissions – continued

Waste Management – continued

Non-hazardous Waste Handling Method – continued

Waste separation bins at the lobby of the Hotel

With the aim of minimising the environmental impact of non-hazardous waste generated from its business operations, the Group has implemented relevant measures to handle such waste and launched different reduction initiatives in daily operations and at the back office, with reference to the established environmental policies. These measures and initiatives include but are not limited to the followings:

- Repairing and reusing the electrical appliances (if possible) by the maintenance department before disposal;
- Reusing wrapping materials and paper cartons wherever possible, otherwise, recycle properly, or dispose of responsibly;
- Reducing excessive printing by going paperless as far as possible, for example, utilising digital devices to the greatest extent for internal meetings and internal communications;
- Reusing printed papers wherever possible, subject to personal data privacy requirements; and
- Avoiding taking more food than their needs in every staff meal.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A1. Emissions – continued

Waste Management – continued

Non-hazardous Waste Handling Method – continued

The Hotel uses grease trap devices to collect the grease and oil, and dispose of the grease trap waste responsibly by employing authorised service providers for collection. In addition, toilet amenities are only provided to hotel guests upon request so as to reduce unnecessary wastage. Also, only bulk-size refillable shower gel is provided in the rooms to reduce single-use plastics.

The Hotel has monitored the streamlined food production process and the stock level of the cooking ingredients, food waste has been kept to a minimum. Therefore, the Hotel has no relevant data recorded as it is not material.

Despite lacking direct influence over the waste disposal and recycling practices of its customers, Winland Firmstone is committed to promoting sustainability by providing maintenance services to the furniture sold. By prolonging the lifespan of the furniture, waste generation can be reduced. Furthermore, Winland Firmstone procures some of its furniture from companies which have made a conscious effort to use of recyclable and biodegradable materials during their production processes. This not only reduces the consumption of raw materials and minimises the negative environmental impact of resource extraction but also helps to mitigate the waste generated at the end of the furniture's lifecycle.

During 2023, the Group's total non-hazardous waste disposed intensity decreased significantly compared with 2022, primarily due to the inclusion of Winland Firmstone in the reporting scope in 2023, resulting in the significant increase in the Group's revenue base for intensity calculation.

The summary of the Group's non-hazardous waste disposal performance:

Indicator	Unit	Total	2023		2022	
			Hotel	Winland Firmstone	Total	Hotel
Grease trap waste	Tonnes	33.65	33.65	–	33.55	33.55
Paper	Tonnes	1.32	1.31	0.01	1.17	1.17
Total non-hazardous waste	Tonnes	34.97	34.96	0.01	34.72	34.72
Intensity	Tonnes/room	N/A	0.04	N/A	0.04	0.04
	Tonnes/ HK\$ million revenue	0.28	0.78	0.00012	1.26	1.26

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A1. Emissions – continued

Discharges into Water

Since the wastewater discharged from the Group is discharged into the municipal sewage pipeline network for processing, the amount of water consumption of the Group could be seen as the wastewater discharge volume. Relevant data will be described in the section headed “Water Consumption”. The Group strives to use environmentally friendly cleaning products to minimise the risk of water pollution caused by its operation.

A2. Use of Resources

The Group has always placed great emphasis on energy and resources conservation. During the operations, electricity and water are frequently consumed, and the Group has established relevant policies and procedures governing the efficient use of resource, with the objectives of achieving higher energy efficiency and reducing the unnecessary use of materials. The Group also regularly checks water and electricity meters to review its resource consumption performance and unexpected high consumption will be investigated to find out the root cause and preventive measures will be taken.

Energy Consumption

The energy consumption by the Group was mainly attributed to the use of the town gas in the Hotel for direct energy consumption, and the purchased electricity of the Group for indirect energy consumption. Related policies and measures were developed to set energy conservation as one of the Group’s ESG strategies. All employees must execute the adopted measures and assume responsibility for the Group’s overall energy efficiency.

In 2022, the Group has set two targets to reduce its energy consumption: 1) change all lighting in its Hotel to LED light by the financial year ending 31 March 2025 (“2025”); 2) install motion sensors in its Hotel to automatically control the switching of lighting by 2025. For the first target, the Group purchased LED lights and replaced some conventional lights with LED ones during 2023. The Group will continue to purchase and install LED lights in the coming years. For the second target, the Group is currently conducting market research to identify the suitable vendor for motion sensors. Once a suitable vendor is determined, the Group will proceed with the installation of the equipment.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A2. Use of Resources – continued

Energy Consumption – continued

The Group has also implemented the following practical measures to reduce energy consumption:

- Prioritising the use of air-conditioners with pre-set 25°C room temperature and humidity controls, which allows employees to work in a comfortable environment at the back office, while at the same time reducing unnecessary energy consumption due to overheating or overcooling;
- Using machines, fixtures, and electrical appliances which are certified to be energy-efficient or environmentally friendly with Energy Label;
- Cleaning air-conditioners' filters regularly to enhance efficiency;
- Regulating the opening hours of machines and fixtures, such as televisions and air-conditioning in staff changing rooms in the Hotel to reduce unnecessary usage;
- Checking fridges and public area temperature regularly, to reduce unnecessary energy consumption in the Hotel;
- Promoting energy-saving awareness amongst employees and reminding them to turn off lighting in working areas during their lunch breaks to save energy in the back office; and
- Encouraging employees to put forward feasible advice to continuously improve the Group's energy saving and control.

During 2023, the Group's total energy consumption intensity decreased significantly compared with 2022, primarily due to the inclusion of Winland Firmstone in the reporting scope in 2023, resulting in the significant increase in the Group's revenue base for intensity calculation.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A2. Use of Resources – continued

Energy Consumption – continued

The summary of the Group's energy consumption performance:

Indicator ⁵	Unit	2023			2022	
		Total	Hotel	Winland Firmstone	Total	Hotel
Direct energy consumption						
• Town gas ⁶	MWh	1,013.31	1,013.31	–	867.00	867.00
Indirect energy consumption						
• Purchased electricity	MWh	2,874.23	2,179.76	694.47	2,752.66	2,752.66
Total energy consumption	MWh	3,887.54	3,193.07	694.47	3,619.66	3,619.66
Intensity	MWh/room	N/A	3.99	N/A	4.52	4.52
	MWh/ HK\$ million revenue	30.77	71.43	8.50	131.55	131.55

Notes:

- The calculation of unit conversion refers to the “Energy Statistics Manual” issued by the International Energy Agency.
- Amount of town gas consumed is equivalent to approximately 3,647,904.00 MJ in 2023 and approximately 3,121,200.00 MJ in 2022 respectively.

Water Consumption

The Group encourages all employees and customers to develop the habit of conserving water consciously. The Group has achieved the following targets set in 2022 to reduce its water consumption:

- From 2023 onwards, the Group will display posters or other promotional materials in prominent locations in its Hotel to encourage water conservation; and
- From 2023 onwards, the Group will actively conduct water audits using the “Water Efficiency Checklist” established by the Water Supplies Department of Hong Kong Government.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A2. Use of Resources – continued

Water Consumption – continued

The Group remained steadfast in the above targets. The management of the Hotel is evaluating the feasibility of installing water flow control devices while considering the potential impact on the guest experience to reduce water consumption.

The Group promotes the awareness of water conservation among employees, and encourages hotel guests to request for cleaning of linen and towel only when necessary. The Group carries out regular inspections of the water pipes and facilities in the Hotel and showroom to ensure no water leakages.

During 2023, the Group's total water consumption intensity decreased significantly compared with 2022, primarily due to the inclusion of Winland Firmstone in the reporting scope in 2023, resulting in the significant increase in the Group's revenue base for intensity calculation.

The summary of the Group's water consumption performance:

Indicator	Unit	Total	2023		2022	
			Hotel	Winland Firmstone	Total	Hotel
Total water consumption	m ³	9,937.00	9,928.00	9.00	8,476.00	8,476.00
Intensity	m ³ /room	N/A	12.41	N/A	10.60	10.60
	m ³ /HK\$ million revenue	78.64	222.09	0.11	308.05	308.05

Since the Group's business nature and operations are mainly based in Hong Kong, the Group does not encounter any issue in sourcing water that is fit for purpose.

Packaging Materials

The Group does not consume significant amounts of packaging materials as it has no industrial production or any factory facilities.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A3. The Environment and Natural Resources

The Group's operations are not directly involved in the use of natural resources. Hence, the impact on the environment and natural resources from its operations was minimal during the Reporting Period. As an ongoing commitment to good corporate social responsibility, the Group has established relevant policies and recognises the responsibility of minimising the negative environmental impacts of its operations in achieving sustainable development to create long-term values for its stakeholders and community.

Sustainable Operation

Due to the Group's business nature, its operation includes the provision of food and beverage services in the Hotel. As a responsible corporate, the Group is committed to not serving endangered animal species such as shark fins, wild game meat and is trying to source sustainable seafood under the World Wide Fund Seafood Guide whenever possible. The Group also strives to minimise plastic waste whenever possible and evaluates the possibilities to provide biodegradable toiletries in the future to reduce the negative impact on the environment.

Sustainable Procurement

During the procurement process, the Group promotes suppliers which offer sustainable products. Winland Firmstone has procured some of its products from companies with the use of recyclable materials and renewable energy during their production processes, which not only reduces the consumption of raw materials and the generation of waste, but also reduces the related GHG emissions. In cases where the products sold have sustainable options, such as fibre made from recyclable and biodegradable materials, Winland Firmstone will inform the customers of the environmentally friendly options, and actively collaborate with the suppliers in catering to the environmental needs of the customers.

Indoor Air Quality

Good indoor air quality is important as employees and hotel guests of the Group spend most of their time indoors. Indoor air quality is thus regularly monitored and measured. Air pollutants, contaminants and dust particles are filtered by air purifying equipment in the workplace, and regular cleaning of air conditioning system is conducted to ensure indoor air quality. In addition, smoking is prohibited in non-smoking guest rooms, restaurants, common areas and other enclosed facilities of the Hotel and showroom to prevent second and lingering of third-hand smoke.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A4. Climate Change

The management of the Group understands that climate change may adversely impact its businesses and the global economy as a whole. Therefore, other than reducing the environmental footprint caused by the Group's business, the Group has also established relevant policies to identify any physical and transition risks caused by climate change, and to adapt to and/or mitigate major impacts on the Group's business associated with identified risks. The Group has integrated climate risks into its enterprise risk management process to manage and review climate-related risks regularly. The identified climate-related risks of the Group and corresponding actions taken to manage them are as follows:

Physical Risks

In view of the seriousness of climate change, the Group identified physical risks that might significantly impact the Group. As climate change is causing extreme weather events to be more frequent and severe, the Group's normal operation may be subject to disruption under extreme weather events. In severe cases, these events may pose a threat to the health and even personal safety of the Group's employees. In addition, if extreme weather damages the properties owned by the Group, the Group will experience an increase in repairing costs and a loss of assets. More specifically, for the hotel operation, more frequent extreme weather events would prevent people from travelling, causing a reduction in the number of hotel guests and room occupancy, which would reduce the Group's revenue. For the operation of Winland Firmstone, extreme weather events may cause disruptions to the supply chain, causing a delay in the delivery of the products from the suppliers and to the customers, which results in increased operating costs, such as transportation and storage costs. The extreme weather events may also cause the project timelines to be extended or disrupted, resulting in increased costs.

The Group has taken different actions to manage the abovementioned physical risks. For example, the Group has the Staff Handbook in place to give guidance to the employees regarding work and operation arrangements when they are endangered by adverse weather conditions, such as suspending all outdoor work under heavy rainstorms. Business continuity plans are also formulated for different businesses to minimise the impacts brought by extreme weather events. It is believed that the potential financial impacts can be minimised with adequate preparations and risk management.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL – CONTINUED

A4. Climate Change – continued

Transition Risks

Other than physical risks, the Group is aware that transition risks associated with climate-related issues may significantly impact the Group. As different countries are working on the goals of the Paris Agreement on global climate change (“**Paris Agreement**”), the Group expects the laws and regulations related to climate change are going to be more stringent. As a result, the Group may face legal and compliance risks, which may cause the Group to bear higher operating costs to comply with regulatory changes, including the tightening requirements on climate-related disclosures from the Stock Exchange. To minimise such risks, the Group regularly monitors current and emerging climate-related trends, policies and regulations, and is prepared to alert senior management when necessary to avoid delayed response. In addition, the Group has communicated its actions on climate change mitigation and adaptation to the public via multiple channels, particularly the ESG reports.

Due to climate change, public awareness of environmental protection has risen and more people tend to prefer environmentally friendly products and services and more customers favour suppliers who can provide products that meet specific environmental criteria. The Group actively collaborates with existing suppliers or new suppliers to fulfil the environmental requirements of the customers to reduce the market risks associated with climate change. For hotel operation, the Group only provides bulk-size refillable shower gel in the hotel room to prevent unnecessary wastage, and uses machines, fixtures and electrical appliances which are certified to be energy-efficient or environmentally friendly with Energy Label in the Hotel and its offices. For the operation of Winland Firmstone, the Group will keep itself updated on the latest green preferences in the construction industry and explore the possibility of introducing green products that meet stricter environmental criteria.

After all, the Group will closely monitor the changes in the business environment and policies, and capitalise on the opportunities whenever possible to fulfil its role as a global citizen. In addition, the Group will also adjust and formulate appropriate business strategies to support the global vision of achieving the goals of the Paris Agreement.

SOCIAL

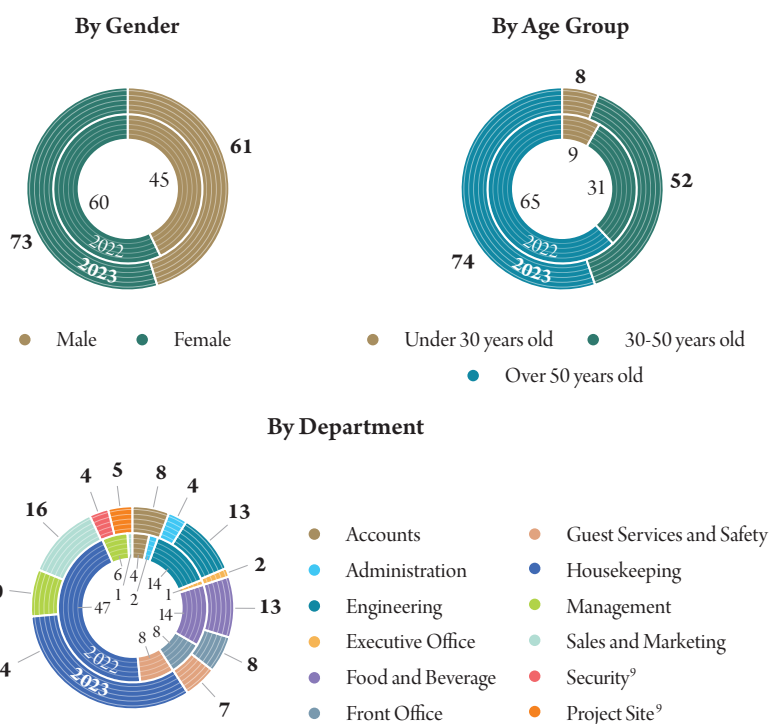

B1. Employment

Employment and Labour Practices

Human resources are the foundation in supporting the development of the Group. Thus, the Group values its employees and is committed to providing them with a fair and equitable workplace environment. The Group has set up relevant policies and procedures, including but not limited to the Staff Handbook, and has an in-house counsel to ensure that it complies with related laws and regulations related to employment, i.e. remuneration, dismissal, recruitment and salary adjustment and promotion, working hours, leave entitlements, equal opportunities, diversity, anti-discrimination, and other staff welfares and benefits.

During the Reporting Period, the Group was not aware of any material non-compliance with employment-related laws and regulations that would have a significant impact on the Group. The relevant laws and regulations include, but are not limited to the Employment Ordinance (Cap. 57 of the Laws of Hong Kong) and the Minimum Wage Ordinance (Cap. 608 of the Laws of Hong Kong).

As at 31 March 2023, the total workforce of the Groups was 134 employees (as at 31 March 2022: 105 employees), all of them are full-time employees and they are all located in Hong Kong. Breakdown of workforce by gender, age group and department of the employees are depicted below:

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B1. Employment – continued

Employment and Labour Practices – continued

The total employee turnover rate⁷ was approximately 18.29% during 2023 (2022: approximately 11.02%). Employee turnover rate by gender, age group and department are depicted below:

Indicator ⁸	2023 (%)	2022 (%)
By Gender		
Male	27.38	10.00
Female	8.75	11.76
By Age Group		
Under 30 years old	27.27	–
30-50 years old	23.53	29.55
Over 50 years old	12.94	–
By Department		
Accounts	55.56	–
Administration	50.00	–
Engineering	31.58	–
Executive Office	–	–
Food and Beverage	7.14	–
Front Office	–	20.00
Guest Services and Safety	12.50	11.11
Housekeeping	8.33	6.00
Management	–	53.85
Sales and Marketing	15.79	–
Security ⁹	–	N/A
Project Site ⁹	16.67	N/A

Notes:

7. Total employee turnover rate = Total number of employees leaving employment during the financial year / (Total number of employees at the end of the financial year + total number of employees leaving employment during the financial year) * 100%. The calculation method is updated during 2023, data in 2022 is updated accordingly to ensure consistency with the new method. The employee turnover rate by geographical region is the same as the Group's total employee turnover rate, as all employees work in Hong Kong.
8. Employee turnover rate by category = Total number of employees leaving employment by category during the financial year / (Total number of employees by category at the end of the financial year + total number of employees leaving employment by category during the financial year) * 100%. The calculation method is updated during 2023, data in 2022 is updated accordingly to ensure consistency with the new method.
9. The two categories of employees are disclosed starting from 2023.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

B1. Employment – continued

Recruitment, Promotion, Remuneration and Dismissal

The Group ensures its employees are recruited, remunerated and promoted based on their merits, qualifications, competence, suitability and contributions, ensuring that it treats and evaluates employees and applicants in a fair way and compensates employees by reference to other players in the industry and local labour markets in which it operates. Legal employment rights such as rest days and leave entitlements are fully respected and are detailed in the Staff Handbook.

In addition, the Group strives to provide a competitive remuneration system. The Group's remuneration packages consist of competitive levels of fixed and variable compensation, including but not limited to holidays, annual leave, sick leave, maternity leave, medical scheme, dental scheme, transportation allowance, and mandatory provident fund. As an appreciation for the employees' efforts, the Group sends commendatory letters to outstanding employees.

Unreasonable dismissal under any circumstances is forbidden in the Group. Dismissal will only be proceeded on a reasonable basis and a warning letter will be sent prior to the dismissal. Official dismissal will only be considered when the employee fails to correct the problems after receiving a warning letter.

Diversity, Equal-opportunity and Anti-discrimination

The Group is committed to creating and maintaining an inclusive and collaborative workplace culture in which all can thrive. The Group is dedicated to providing equal opportunity in all aspects of employment and maintaining a workplace that is free from discrimination against any individual based on age, race, family background, region, nationality, gender, sexual orientation, disability, ethnicity, religion and political beliefs. Discriminatory acts of any kind will not be tolerated. The Group has included a section of "Anti-discrimination" in its Staff Handbook and a section of "Fair Employment Practices" in its Code of Conduct to show its commitment to developing a discrimination-free working environment.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B2. Health and Safety

The Group is committed to providing and maintaining a safe and healthy environment for all employees. The Group has shown its determination in developing a safe and healthy workplace by including a section of “Environment, Health and Safety” in the Group’s Code of Conduct. Other policies and measures are also implemented in its operation to ensure health and safety during its operation.

During the Reporting Period, the Group was not aware of any material non-compliance with health and safety-related laws and regulations that would have a significant impact on the Group. The relevant laws and regulations include, but are not limited to the Occupational Safety and Health Ordinance (Cap. 509 of the Laws of Hong Kong) and the Employees’ Compensation Ordinance (Cap. 282 of the Laws of Hong Kong). There were no significant work-related fatalities recorded within the past three years (including the Reporting Period). During 2023, there was 1 reported case related to the work injury for one full-time employee of the Group, resulting in 4 lost working days (2022: 0 lost working days). The Group provided assistance to the employee involved in accordance with the relevant policies by arranging sufficient work-related injury leave. In addition, there are two work-related injury cases connected with one subcontractor resulting in 49 lost working days during the Reporting Period. Such incident is promptly reported to the management and the Group has taken appropriate actions to follow up on the incident. The Group’s employees who deal with subcontractors also attended training held from the Occupational Safety and Health Council of Hong Kong to reinforce their knowledge and awareness on occupational safety and health issues.

The Group has provided guidance on health and safety principles in the Staff Handbook as well as the Engineering Health and Safety Handbook. Within the working hours that meet the requirements of the relevant labour protection laws of Hong Kong, reasonable arrangements are made for the working hours of employees, and reasonable rest times are allowed with adequate space and furniture provided. The Group also reminds employees of risks of sitting for an extended period and encourages them to take rest and do stretching exercises when necessary.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B2. Health and Safety – continued

Regarding the hotel operation, in areas where there is a high risk of body injury, such as kitchen and cloak rooms, where manual handling is frequently involved, there are posters issued by the Occupational Safety and Health Council to remind workers to pay special attention to safety and avoid injury. To avoid the spread of germs and bacteria, the Hotel also displays posters to remind its staff to keep their working environment clean and tidy at all times, as well as to sanitise their hands after using toilets and before handling food. Adequate first aid boxes and equipment are available throughout the Hotel, and regular inspections are conducted to ensure their good condition. Fire safety and CCTV systems are also regularly inspected and serviced, and fire drills are conducted to ensure effective staff evacuation. Dangerous areas, such as electrical rooms, are marked with signs and kept locked, with entry restricted to qualified and authorised personnel.

Regarding the operation of Winland Firmstone, the Group has designated project managers and site coordinators to ensure the health and safety-related policies and measures are implemented and followed by its employees and subcontractors at project sites. The site coordinators will apply control measures to mitigate the hazards for any risks identified at project sites, such as ensuring that workers use personal protective equipment correctly and proper inspections are carried out by qualified personnel before equipment usage. If a work-related incident occurs, the site coordinator will promptly report to the project manager and appropriate follow-up actions will be taken in response to the specific circumstances. In addition, the Group continuously encourages its employees and subcontractors to monitor and rectify its health and safety management system and measures. They are urged to report risks and provide suggestions by notifying the site coordinators at the project sites.

B2. Health and Safety – continued

COVID-19 Arrangement and Measures

With the outbreak of COVID-19, the Group is highly aware of its potential health and safety impacts on employees and customers. The Group has provided face masks, COVID-19 rapid antigen test kits, and disinfection supplies to employees in order to protect their health. The Group also performs body temperature measurements for employees and guests entering its premises and adopted flexible work arrangements to minimise employees' risks of infection. In the Hotel, the Group places air purifier robots in the Hotel's lobby and utilises the food delivery robot in its operation if customers request to maintain social distancing.

Air purifier and food delivery robots have been utilised in the hotel area

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

B3. Development and Training

The Group regards its employees as the most important asset and resource. The Group recognises the valuable contribution of their talents for its continued success, and it is committed to inspiring its human capital toward delivering excellence. The Group has the Directors' Training Policy and the Staff Handbook in place on improving employees' knowledge and skills for discharging duties at work, and regularly arranges various training to increase employees' abilities to adapt to the changing environment. Related information will be posted on the employee notice board. On-job practical training is offered to employees to equip them with the relevant skill sets to enable them to provide quality and efficient services to customers.

The Group encourages lifelong learning at all employee levels with no age restrictions. Training programmes are constantly updated and their contents are reviewed and improved based on the feedback from staff and the management. The Group regularly organises various training programmes, including communication skills training, on-job practical training, basic to advanced level of computer operation classes, experience sharing workshops, focus groups on occupational safety and health, round-table discussion of contingency planning, and small group dialogue of the Whistleblowing Policy. These programmes aim to equip the Group's employees with the right skills and attitude to reach their potential and to become more efficient and prepared to deliver the best quality services to customers and stakeholders.

The Group continues to host half-day training programmes for the management executives, not only to develop and refresh their knowledge and skill, but also to cultivate talents with leadership potential from supervisory to manager level. The programmes cover various aspects of training for the participating employees to enhance their skills in the management of self, team and work. Also, the programmes offer management support such as training in presentation skills, seminars and English and Mandarin language training. Through such programmes, the participants can further develop their management skills with confidence and pave the way to become professional team leaders to deal with crises where appropriate. This also enables the participants to have mutual growth with the Group by achieving continuous lifelong learning.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B3. Development and Training – continued

During 2023, approximately 16.42%¹⁰ of employees participated in the training (2022: approximately 9.52%). The average training hours completed per employee is approximately 1.48 hours¹¹ (2022: approximately 0.10 hours). The increase in the percentage of trained employees and average training hours are mainly contributed by the Winland Firmstone which conducts more professional training to its employees. The percentage of employees trained and the average training hours completed per employee by gender and employee category are as follows:

Indicator	2023		2022	
	Percentage of employees trained ¹²	Average training hours ¹³	Percentage of employees trained ¹²	Average training hours ¹³
By Gender				
Male	63.64%	1.64	50.00%	0.11
Female	36.36%	1.34	50.00%	0.08
By Employee Category				
Senior Management	31.82%	1.27	40.00%	0.80
Management	27.27%	4.24	30.00%	0.30
General Employees	40.91%	1.06	30.00%	0.03

Notes:

10. Total percentage of employees trained = Total number of employees trained during the financial year/Total number of employees at the end of the financial year*100%.
11. Average training hours completed per employee = Total number of training hours completed during the financial year/Total number of employees at the end of the financial year.
12. Percentage of employees trained = Number of employees trained by category during the financial year/Total number of employees trained during the financial year*100%.
13. Average training hours = Number of training hours completed by category during the financial year/Number of employees by category at the end of the financial year.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B4. Labour Standards

Prevention of Child and Forced Labour

Child and forced labour are strictly prohibited during the recruitment process of the Group as defined by relevant laws and regulations. The Group actively detects and prevents child labour through its internal relevant policies. The Group conducts a comprehensive screening in the recruiting process, including checking the applicants' identity documents, and their working visas (if applicable) prior to any employment offers.

The Group understands the importance of balance between work and life. Long working hours will only reduce productivity and increase the risk of accidents. Therefore, the Group's work schedules are arranged with reference to employees' input to ensure the schedules are arranged fairly, and provided with adequate rest and the appropriate work-life balance to ensure service quality excellence. In cases where overtime work is required, employees do so of their own accord and with their supervisor's approval, and overtime compensation is provided in accordance with relevant labour laws and regulations.

If there is any suspected violation case regarding child and forced labour, the Group will conduct an investigation. When the violation case of child labour is confirmed, the Group would terminate the employment contract immediately, and may refer the case to relevant statutory bodies in light of the actual situation. In addition, when the violation case of forced labour is confirmed, the Group might take disciplinary actions against any staff members who are responsible for the cause of the incident.

During the Reporting Period, the Group was not aware of any material non-compliance with child and forced labour-related laws and regulations that would have a significant impact on the Group, including but not limited to the Employment Ordinance (Cap. 57 of the Laws of Hong Kong).

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B5. Supply Chain Management

The Group is aware of the importance of managing environmental and social risks of its supply chain, and has embedded environmental and social considerations in the procurement process and supplier (including subcontractor) communication. The Group has established relevant supply chain management policies and procedures to ensure procurement choices are made thoughtfully and responsibly. The Group has implemented such policies and relevant procedures to ensure the suppliers can compete in a transparent and fair way, and that no discrimination against any particular suppliers nor corruption and bribery in the selection process. When selecting new suppliers, the Group will conduct due diligence to ensure the suppliers provide the necessary documents and will consider factors including but not limited to their licences, qualifications, service quality, degree of support, reputation and environmental and social issues. The Group will shortlist at least three suppliers for comparison before a final decision is made by the management in sourcing for new suppliers, and for large-scale projects or large-volume procurements, four or even more suppliers may be shortlisted. During the selection process, the Group will give priority to local suppliers and suppliers who provide or promote environmentally friendly products and services.

Once the suppliers are registered into the approved supplier list, assessments work on the suppliers' performance are conducted on a regular basis. If the Group discovers any supplier has non-compliance with relevant environmental and social laws and regulations, or significant negative impacts on related environmental and social aspects, including but not limited to quality control, resource efficiency, employment practices, and business ethics, during the supplier assessment, the Group will carry out corrective action to remediate the identified risks, and the suppliers may be suspended or removed from the approved supplier list, where necessary. Relevant policies and measures are reviewed regularly to ensure their effectiveness.

In 2023, the Group has 270 major suppliers (2022: 139 major suppliers), and all of the Group's suppliers are subject to the procurement practices above. The number of suppliers by geographical region are depicted below:

Geographical Region	2023	2022
Mainland China	16	2
Hong Kong	242	137
Overseas	12	–

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

B6. Product Responsibility

Product and Service Quality and Safety

Product and service quality is the cornerstone of the sustainable development of the Group. For the hotel operation, it is the Group's mission to provide a comfortable, safe and hygienic environment for all guests and customers, and to ensure that the Hotel's services meet their expectations. Thus, the Group is committed to complying with all requirements of the licences or permits they are granted, which include hotel, general restaurant and liquor licences. These requirements include proper air, water and noise pollution controls, proper fire safety, proper ventilation systems, sufficient sanitary fitments, proper water supply and drainage systems, as well as compliance with laws and regulations with respect to building works. The Group complies with these requirements with the help of its employees, many of whom are well-trained through many years of experience working at the Hotel and other hotels in the hospitality industry. The Group also stipulates these requirements in relevant internal policies, and provides guidelines which are posted on different displays and notice boards in the Hotel, to remind the employees of these requirements.

The Hotel's engineering department regularly checks the conditions of the premises, boilers, and other operating equipment to ensure that none of them will endanger the well-being of its guests and employees. There is a CCTV system and security personnel on-duty to monitor the Hotel's premises 24 hours per day, 7 days per week as security surveillance for the Hotel. Unauthorised visitors will be questioned, and incidents of abnormality will also be followed-up in a timely manner. To promote better indoor air quality, smoking is prohibited in non-smoking guest rooms, restaurants, common areas and other enclosed facilities of the Hotel. These measures help to provide a health-conscious and smoke-free environment for customers, and guarantee that guests stay out from both second and lingering of third-hand smoke.

When supplying products to customers, Winland Firmstone ensures that the detailed specifications of the products are stated clearly in sale contracts and that the products shall fulfil the guaranteed specifications in order to complete a sale transaction. Before products are shipped, the quality of products is monitored through close communication with and supporting documents provided by suppliers. Reliable logistic companies are also engaged in product delivery. If any product is subject to product recall due to safety and health reasons, Winland Firmstone will communicate with customers concerning the reasons for product recalls and formulate appropriate and viable solutions in response to the product recall cases in a timely manner. During the Reporting Period, the Group did not violate any law and regulation relating to the health and safety of products and services, and there was no product recalled due to safety and health reasons.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B6. Product Responsibility – continued

Product and Service Quality and Safety – continued

Winland Firmstone also places a strong emphasis on delivering high-quality services to its customers. It works closely with customers to understand their needs and provide tailored solutions to meet those needs. When the project involves subcontractors, the supplier engagement and review procedures mentioned in the sections headed “Supply Chain Management” will be strictly followed to select qualified suppliers. Through the designated project managers and site coordinators, Winland Firmstone works closely with customers and subcontractors to ensure that projects are completed on time, within budget, and up to quality and safety standards. A rigorous quality control process is implemented to ensure that the products and services meet the necessary standards, and Winland Firmstone regularly reviews and updates its processes to strive for continuous improvement. After the completion of the project, detection and rectification will be arranged for quality monitoring purposes and future improvement if necessary.

During the Reporting Period, the Group was not aware of any incidents of non-compliance with laws and regulations that had a significant impact on the Group, concerning product health and safety, advertising, labelling and privacy matters relating to products and services provided. The relevant laws and regulations include, but are not limited to, the Trade Descriptions Ordinance (Cap. 362 of the Laws of Hong Kong), the Copyright Ordinance (Cap. 528 of the Laws of Hong Kong), the Personal Data (Privacy) Ordinance (Cap. 486 of the Laws of Hong Kong), the Trade Marks Ordinance (Cap 559 of the Laws of Hong Kong), the Patent Ordinance (Cap 514 of the Laws of Hong Kong) and the Registered Design Ordinance (Cap 522 of the Laws of Hong Kong).

Complaint Handling

The Group has established procedures for handling complaints, customers can file complaints through different channels, i.e. telephone, email, and online booking websites (for hotel guests). These customer complaints are properly recorded and handled by the Group’s designated personnel which will investigate the relevant reasons for each complaint and follow up accordingly. These complaint-handling processes allow the Group to receive feedback on the products and service provided, and at the same time appropriately address customers’ concerns in a timely and professional manner. In addition, these processes also help the Group to formulate preventive measures in order to avoid the occurrence of similar issues in the future. It is a vital element of the Group’s continuous development for service excellence. During 2023, no significant complaints were received from customers (2022: 0 cases).

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B6. Product Responsibility – continued

Customer Data Protection

The Group takes customer data protection very seriously. Private information of the Group's customers will only be collected with proper consent, and is collected solely for the agreed purposes unless consented otherwise. There is a section of "Confidentiality" in the Group's Code of Ethics, stating that employees must maintain the confidentiality of all information entrusted to them, except when disclosure is authorised or legally mandated. There is also a section of "Confidentiality and Privacy" in the Group's Code of Conduct, stating that any non-public information relating to the Group or its products and services has to be treated as confidential during, as well as after, an employee's term of employment.

The Group's IT systems have been configured to have different levels of rights of access to information to ensure only authorised personnel have access to customer personal information. The Group also has policies and procedures in place to determine the time that such information should be retained and when it should be destroyed. All employees are encouraged to keep abreast of and fully comply with the relevant laws and regulations. The Group will review the policies regularly to ensure their effectiveness.

Protection of Intellectual Property

Despite the Group does not hold any significant intellectual property ("IP") assets, as a responsible corporate citizen, the Group respects IP rights and is committed to complying with relevant laws and requirements. There is a section of "Intellectual Property" in the Group's Code of Conduct to establish, protect, maintain and defend its IP rights and to use those rights in a commercially responsible manner. All employees must safeguard these assets and other IP issues under the Trade Marks Ordinance (Cap. 559 of the Laws of Hong Kong) and the Patent Ordinance (Cap. 514 of the Laws of Hong Kong) as well as international conventions, such as Paris Convention for the Protection of Industrial Property and the treaties of World Intellectual Property Organisation.

Responsible Marketing

The Group produces minimal marketing and advertising materials. However, it has formulated clear guidelines on advertising and marketing for its employees to ensure no misleading or false information is disclosed in the Group's advertising or marketing materials.

SOCIAL – CONTINUED

B7. Anti-corruption

The Group values and upholds integrity, honesty and fairness in its business. It does not tolerate any type of corruption, fraud and other behaviours violating work ethics.

During the Reporting Period, the Group was not aware of any material non-compliance with the relevant laws and regulations of bribery, extortion, fraud and money laundering. The relevant laws and regulations include, but are not limited to, the Prevention of Bribery Ordinance (Cap. 201 of the Laws of Hong Kong), the Anti-Money Laundering and Counter-Terrorist Financing Ordinance (Cap. 615 of the Laws of Hong Kong), and other relevant laws and regulations related to anti-corruption. There were also no concluded legal cases regarding corrupt practices brought against the Group or its employees during 2023 (2022: 0 cases).

The Group has strict policies on anti-money laundering and counter-terrorist financing to ensure adherence to the highest ethical standards and maintain a corporate culture of integrity and justice so as to prevent, detect and report all types of corruption, including bribery, extortion, fraud and money laundering. In complying with provisions included in the Staff Handbook, employees at all levels are expected to conduct business in an appropriate manner, with integrity, impartiality and honesty. The Group has also clearly stated that employees must avoid activities that conflict with the Group's interests or influence their judgment or actions in performing their duties as employees in the section of "Conflicts of Interest Issues" in the Group's Code of Conduct. There is also a section of "Conflict of Interest Issues" in the Group's Code of Conduct, stating that any material transaction or relationship that could reasonably be expected to give rise to a conflict of interest should be discussed with the in-house lawyer and professionals.

To maintain a high level of integrity in the Group's corporate culture, the Group provides anti-corruption training or related learning materials to the directors and employees annually, familiarising them with their corresponding role and responsibility regarding anti-corruption and business ethics under applicable laws and regulations. The Group invited the officer from Independent Commission Against Corruption ("ICAC") to give an anti-corruption training to the directors and employees. Through these efforts, the Group aims to ensure that directors and employees are equipped with the knowledge and skills necessary to uphold the Group's commitment to ethical business practices and prevent corruption.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIAL – CONTINUED

B7. Anti-corruption – continued

Whistleblowing Mechanism

To further maintain and achieve the highest degree of openness, probity and accountability, the Group has established the Whistleblowing Policy, which allows employees and third parties (for example, customers and suppliers) to report concerns about any suspected or actual improprieties relating to the Group. Reports and complaints received will be handled in a prompt and fair manner, while all information received will be treated confidentially, except where the Group is required by laws and regulations or relevant regulators or law enforcement authorities to disclose it. The identity of the whistleblower will also be kept confidential and protected from reprisal or disadvantage as a result of making a report under the policy. The Group will review the policy regularly to ensure its effectiveness.

B8. Community Investment

The Group is committed to supporting the public by means of social participation and contribution as part of its strategic development. To nurture corporate culture and strengthen practices of corporate citizenship, the Group has established relevant policies and formulated social management strategies to sustain its corporate social responsibility and support the Group's strategic development.

Community Participation

The Group invests in the community by making significant contributions where appropriate, as well as encourages employees to participate in various local community activities and events on a voluntary basis, i.e. participation in voluntary work and blood donation for the community. The Group's employees are also encouraged to participate in sporting activities not only for their healthy well-being, but also as a means to support the "Sport for All Day" by the Leisure and Cultural Services Department of the Hong Kong government, to encourage others to lead more active, healthier and happier lives.

During the Reporting Period, to comply with the government's social distancing measures, the Group did not participate in any community activities, and will focus on contributing to the environmental concerns, and health of employees and customers in the future when COVID-19 eases.
