## PROSPECTS

#### **Strong Resilience in Challenging Times**

#### **Business Review**

The Group remained resilient with its solid foundation and strong financials despite a prolonged period of uncertainty in the global economic environment. Its diversified portfolio of high-quality assets contributed recurring income across different geographies and sectors. The Group's performance was in line with expectations in the first half of 2023, as the property sector continued to be impacted by the challenging market environment. A decrease in profit attributable to shareholders was recorded as compared with the same period last year, mainly due to the discontinuation of the aircraft leasing operation in 2022, and a temporary gap in the property development schedule arising from our prudent strategy on land bank replenishment. The Group's investment policy with focus on quality assets, growth prospects and sustainability performance is demonstrated in its recent offer for the listed Civitas Social Housing PLC ("Civitas"), a leading provider of care-based specialist supported housing in the UK.

#### **Property Sales**

The overall property market conditions in Hong Kong were challenging during the period under review despite some improvements in the first quarter. On the Mainland, the Central Government continued to implement various policies to stabilise and support the real estate market. The Group recorded a decrease in contribution from property sales in Hong Kong and on the Mainland in the first half of 2023 when compared with the same period in 2022.

The Group has adopted a proactive sales strategy to respond to the challenging market conditions. Profit contribution from El Futuro in Sha Tin was recognised in the first half of 2023 and profit contribution from #LYOS in Hung Shui Kiu is expected to be recognised in the second half of 2023 when the contracted sales are completed. The sales of Grand Jeté Phase 1 and Phase 2 in Tuen Mun and Perfect Ten in Singapore have been well received. The sale of The Coast Line in Yau Tong is expected to be launched in early August 2023.

The agreement for the disposal of the Group's interest in the development company that owns the unsold units of 21 BORRETT ROAD in Mid-Levels West, Hong Kong was terminated by the Group on 13 July 2023, and the forfeited deposit will be booked in the second half of the year. Details of the termination are set out in the Company's announcement of the same date.

Planning and works in relation to the residential and retail developments of the four sites acquired through government tenders and two redevelopment projects secured in Hong Kong in the last two years are in progress. The Group will continue to optimise its property development portfolio and expand its land bank as suitable investment opportunities arise in and outside Hong Kong.

#### **Property Rental**

Office leasing momentum remained relatively soft due to unfavourable market sentiment in the first half of 2023. The Group recorded a decrease in contribution from property rental during the period when compared with the same period in 2022. Nevertheless, the Group remains confident in the demand for Grade A office buildings in the core business district. Cheung Kong Center II located at the heart of Central is anticipated to be completed around the end of 2023. This iconic building is expected to enhance the Group's investment property portfolio by providing long-term recurring rental income and asset appreciation.

During the period under review, the Group made a recommended all-cash offer for Civitas, a listed real estate investment trust dedicated to investing in social care housing and health care facilities in the UK. The offer has been declared unconditional and the necessary process is under way to delist Civitas shares from the London Stock Exchange and to acquire compulsorily the remainder of the Civitas shares. The earnings profile and social impact of Civitas are complementary to the Group's investment criteria and ESG initiatives and make for a suitable strategic fit. Civitas will provide immediate rental income in the second half of the year.

#### Hotel and Serviced Suite Operation

The Group achieved higher hotel occupancy rates and recorded an increase in contribution for its overall hotel and serviced suite operation during the period when compared with the same period in 2022 due to a rise in visitor arrivals driven by the lifting of travel restrictions in early 2023. The Group continued to optimise its hotels and serviced suites portfolio by adjusting its marketing strategy in order to maximise the revenue streams from short-term visitors and long stay guests. Its strategic focus on long-term business captured additional domestic market share, with the serviced suite operation recording a stable occupancy rate.

#### **Pub** Operation

The overall business environment in the UK continues to be challenging, with inflationary pressure on energy, food and labour costs affecting our pub operation. After experiencing some impact to the business in the first quarter caused by snowy and wet weather as well as national rail strikes, much improved weather conditions along with improving customer confidence provided a much better operating environment in the second quarter, with revenue growth across the first half of 2023 when compared with the same period in 2022 but contribution was lower. The pub sector continues to be an integral part of the British way of life. With the backing of the Group and a significant high-quality freehold asset base, Greene King remains focused on improving cost efficiency and building the foundations that will drive long-term success of the business.

#### Infrastructure and Utility Asset Operation

The infrastructure and utility assets operation stayed resilient due to its stable nature in the current high interest rate environment. As the revenues and the asset bases of regulated businesses are inflation-linked, these businesses are protected against the adverse effects of the current high inflation environment. In addition, these businesses are also protected against rising interest rates, given they are appropriately geared and the allowed cost of debt is regularly adjusted to reflect actual prevailing interest rates. The Group recorded a comparable contribution during the period under review when compared with the same period last year. CK William Group, Reliance Home Comfort and ista contributed HK\$645 million, HK\$678 million and HK\$846 million respectively. Other infrastructure and utility assets made a total contribution of HK\$1,839 million. The Group will continue to proactively source investment opportunities in high quality global infrastructure and utility assets.

#### Sustainability Initiatives

We recognise the importance of sustainability in driving corporate values and seek to embrace innovation for long-term growth. Our climate disclosures have been enhanced by adopting the framework recommended by the Task Force on Climate-Related Financial Disclosures, while significant efforts have been deployed in science-based target setting and low carbon transition planning. In the UK, Greene King has received approval from Science Based Targets Initiative for its near-term science-based emissions reduction targets to reduce absolute scope 1, 2 and 3 greenhouse gas emissions by 50% by 2030 from a 2019 base year, and was named by The Financial Times and Statista as one of Europe's Climate Leaders for 2023.

In line with responsible management principles, the Group is committed to integrating its green vision into building projects and driving reduction initiatives in a cost-effective manner. It takes pride in developing and managing high-quality buildings which incorporate features to mitigate climate change and elevate the user experience to attract and retain tenants. During the period, the Metropolis Tower and Ma On Shan Plaza have achieved Final Platinum rating under BEAM Plus Existing Buildings Version 2.0 Comprehensive Scheme. In addition, the Group won six awards at the 2023-2024 Asia Pacific Property Awards for Cheung Kong Center II, Wong Chuk Hang Station Package Three project, Hotel Alexandra, El Futuro, Sea to Sky and 90 Repulse Bay Road. Our recent privatisation of Civitas facilitates the delivery of specialist supported social housing for the most vulnerable individuals, generating positive, quantifiable social impact and complementing our proven track record of developing affordable social housing in the UK.

The Group recognises the contribution of its employees and strives to be an employer of choice. During the period, its property management companies won 16 awards under Joyful@Healthy Workplace Best Practices category at the Occupational Health Award 2022-23 organised by the Occupational Safety & Health Council for its outstanding achievements in promoting wellbeing at the workplace. Greene King was named Best Pub Employer and Best Leased & Tenanted Pub Company at The Publican Awards 2023. The Group will continue to invest in its employees and their wellbeing throughout the sustainable development journey to foster a good environment for them to advance and prosper.

#### Outlook

Global inflation and interest rates are expected to remain high in the near term. Economic growth worldwide is under pressure with major economies experiencing a slower than expected recovery. Ongoing geopolitical tensions, trade conflicts and heightened macroeconomic volatility will continue to overshadow the prospects for growth.

The Mainland recorded a positive real GDP year-on-year growth of 5.5% in the first half of 2023. The Central Government has implemented fiscal and sound monetary policies together with measures to support the local property sector. The promotion of high-quality development through high-tech innovation and expansion of domestic demand is expected to lay a foundation for economic recovery.

The Hong Kong economy has partially recovered as border control and anti-pandemic measures were lifted. The local property market remains under pressure against a backdrop of global economic uncertainties and rising interest rates. Nevertheless, the Group is confident that underlying demand and purchasing power will support the property market over the long term. Housing policies and interest rate movements will continue to be determining factors. Hong Kong has the unique advantage of acting as a premier gateway between the Mainland and the rest of the world. The city's role as an international financial centre, trade and shipping centre, innovation and technology centre highlights its competitiveness and impetus for the gradual recovery of the local economy with the continuing support of the Mainland.

Strict financial discipline and a prudent management philosophy have been central pillars for our success and resilience. The Group is poised to weather the headwinds and swiftly capture new opportunities from a wealth of possibilities given its solid foundation and strong financial position. We will continue to invest in a resilient portfolio to generate stable recurring income and create shareholder value.

As at 30 June 2023, the Group had a net debt to net total capital ratio of approximately 1.4%. The Group has maintained "A/Stable" and "A2 Stable" credit ratings from Standard & Poor's and Moody's respectively, demonstrating its stable financial profile.

#### Acknowledgement

My colleagues on the Board join me in thanking our team of diligent employees around the world for their hard work, adaptability and contributions during the period. I also take this opportunity to express my sincere gratitude to our board members for their unwavering dedication and to our stakeholders for their continued support.

### FINANCIAL REVIEW

### Liquidity and Financing

The Group monitors its liquidity requirements on a short to medium term basis and arranges its financing accordingly.

At the interim period end date, the Group's bank and other loans amounted to HK\$49.4 billion, an increase of HK\$0.8 billion when compared with bank and other loans at 31 December 2022. The maturity profile was spread over a period of 13 years, with HK\$9.2 billion repayable within 1 year, HK\$31.0 billion within 2 to 5 years and HK\$9.2 billion beyond 5 years.

Taking into account the bank balances and deposits of HK\$43.8 billion at 30 June 2023, the Group carried a net debt of HK\$5.6 billion at the interim period end date. The net debt to net total capital ratio was approximately 1.4%.

With plenty of cash on hand as well as available banking facilities, the Group's liquidity position remains strong and the Group has sufficient financial resources to satisfy its commitments and working capital requirements.

### **Treasury Policies**

The Group maintains a conservative approach on foreign exchange risk management and borrows principally on a floating rate basis. The Group's exposure to foreign exchange fluctuations and interest rate changes are reviewed regularly. For investments in foreign currencies and at times of financial uncertainty or volatility, hedging instruments including swaps and forwards are used in the management of exposure to foreign exchange and interest rate fluctuations.

At the interim period end date, the Group's borrowings were 40% in HK\$ or US\$, and 60% in other currencies (including AUD, GBP and RMB) which had been arranged for investments and operations in Australia, the United Kingdom and on the Mainland. The Group derives its revenue mainly from property businesses in HK\$ and RMB, and maintains bank balances and deposits substantially in HK\$, RMB and US\$.
