Notes: (1)

- Interim profitability indicators are all annualized.
- Net interest spread is calculated as the difference between the average yield on total interest-earning assets and (2) the average cost of total interest-bearing liabilities.
- Net interest margin is calculated by dividing net interest income by the average balance of total interest-earning
- Cost-to-income ratio is calculated by dividing total operating expenses (excluding tax and surcharges, etc.) by total operating income.
- NPL ratio equals the balance of non-performing loans divided by gross loans and advances to customers (excluding interests accrued).
- (6) Allowance coverage ratio equals the sum of allowance for impairment losses on the loans measured at amortized cost and allowance for impairment losses on the loans measured at fair value through other comprehensive income divided by the NPL balances.
- Allowance to gross loan ratio equals the sum of allowance for impairment losses on the loans measured at amortized cost and allowance for impairment losses on the loans measured at fair value through other comprehensive income divided by gross loans and advances to customers (excluding interests accrued).
- The Group calculates the capital adequacy ratios for each tier according to the Capital Rules for Commercial Banks (Provisional) (《商業銀行資本管理辦法(試行)》), China Accounting Standards for Business Enterprises (中國企業會 計準則) and other relevant regulations.

# Management Discussion and Analysis

# I. ECONOMIC, FINANCIAL AND REGULATORY ENVIRONMENT OF THE FIRST HALF OF 2023

A slowdown in downward trend was seen as the world economy has gradually got over the negative impact of the pandemic since this year. However, risk factors such as the Russian-Ukrainian conflict, the tightening of monetary policies, and stubbornly high inflation continued to pose major challenges to the global economy. With the increasing divergence between economic trends in various countries, the global manufacturing and commodity trade sectors were relatively weak, and the growth of countries in the Asia-Pacific region and other export-oriented economies was under pressure. The US banking crisis spread to Europe, which once caused market concern. In the first half of 2023, the US dollar index fluctuated within a certain range, with increasing volatility in the international financial market.

In the first half of 2023, China's economy continued to recover in an overall favorable momentum after lifting the pandemic lockdown. China continued to boast its fundamentals of strong resilience, great potential and long-term improvement. In the first half of the year, China GDP grew at 5.5%. The total retail sales of consumer goods increased by 8.2% year on year. The national fixed assets investment increased by 3.8% year on year, and the total value of import and export of trade in goods increased by 2.1% year on year. The commodity prices hovered around a low level, and insufficient demand in general remains a prominent macro-economic problem. From January to June, China's CPI and PPI increased by 0.7% and decreased by 3.1% year on year, respectively.

In the first half of 2023, the precise and effective prudent monetary policy intensified the countercyclical adjustment to promote the overall economic improvement, which resulted in reasonably ample liquidity, further optimized credit structure, and enhanced stability and sustainability in the total credit growth. At the end of June 2023, the M2 balance was RMB287.3 trillion, a year-on-year increase of 11.3%; the existing social financing scale amounted to RMB365.45 trillion, a year-on-year increase of 9%; RMB loans increased by RMB15.73 trillion in the first half of the year, a year-on-year increase of RMB2.02 trillion. The balance of RMB loans issued to the real economy was RMB228.86 trillion, a year-on-year increase of 11.2%. The RMB exchange rate remained basically stable at a reasonable and balanced level.

In the first half of 2023, the financial industry was stable as a whole, and the risks were under control in general, which supported the recovery and expansion of effective demand, and promoted the sustainable economic recovery. The CPC Central Committee and the State Council deepened institutional reform by establishing the National Financial Regulatory Administration, which strengthened institutional, behavioral, functional, penetrating and continuous supervision. The formation and transmission mechanism of market-oriented interest rates continued to improve. The PBoC lowered the reserve requirement ratio by 0.25 percentage point, and the one-year and five-year LPRs both dropped by 10 basis points, steadily reducing the real economy financing cost. As to the structural monetary policy tools, the inclusive micro-loan support tool and the property delivery guarantee loan support plan were sustained, and key areas and weak links of the national economy such as inclusive finance, technological innovation, green development, infrastructure received greater support, which assisted the accelerated construction of a modern industrial system, and enhanced the economic development momentum.

### II. DEVELOPMENT STRATEGIES

The Bank's strategic vision is to become "a modern wealth and treasury manager offering the best experience (最佳 體驗的現代財資管家)", its mission is to "serve the national strategy, serve the real economy and serve the good life, create sustainable value for shareholders, create a broad stage for employees and fulfill legal person responsibility for society (服務國家戰略、服務實體經濟、服務美好生活,為股東創造持續價值,為員工打造廣闊舞台,為社會 履行法人責任)", and its value is "customer first, struggle-oriented, agility as the essence, innovation as the soul, and compliance as the lifeblood (客戶為先,奮鬥為本,敏捷為要,創新為魂,合規是命)". Setting foot on the new development stage, the Bank is adhering to the new development philosophy and integrating itself into the new development pattern. During the Fourth "Five-Year Plan" period, the Bank insisted on transforming into a retail bank, a transaction bank and a light-model bank. The Bank focuses on building an eco-banking model of "Bank the world" to create five strategic capabilities of "Ecosystem", "Engaged", "Enable", "Everywhere" and "Engined", achieving comprehensive upgrade of business model. The Bank always insists on the unification of economic responsibility and social responsibility, comprehensively pushes forward the construction of a green financial system, prevents and controls environmental and social risks, and contributes financial strength to accelerate the formation of green production and lifestyle, peak carbon emissions and achieve carbon neutrality. It is committed to promoting the green adjustment of the credit structure, cultivating new business growth points, establishing a diversified green financial product system, and continuously optimizing the green financial comprehensive service model.

During the Fourth "Five-Year Plan" period, the Bank has accelerated the formation of a trinity of corporate, retail, and financial market business development. The corporate banking business adheres to the transformation direction of "Transaction Banking + FPA", and it realizes the change from asset pulling to asset leveraging through the "Platform Boosting" business model, which lays a solid foundation for the Bank's business transformation. The retail banking business insists on using MAU operation as the starting point, AUM operation as the cornerstone and enhancing customer value as the goal, providing customers/users with personalized, differentiated, and customized products and services through the "Plug & Play" business model to build the distinct competitive advantages. The financial market business insists on taking trading as its soul, returning to its origin and creating value as its starting and ending point, and effectively helps the Bank's strategic transformation and business development through the "Supportive Activation" business model.

In the last three years of the Fourth "Five-Year Plan" period, as guided by the spirit of the 20th National Congress of the Communist Party of China, the Bank will continue to thoroughly study and pursue Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and focus on implementing the national strategy and Tianjin's "Ten Actions". By knowing the situation well, taking advantage of the trend, and giving full play to its advantages, the Bank will make accurate planning on the strategic direction of business development, and firmly seize serving high-quality development as the vital link, in order to win the "Ten Major Battles" of "full and rigorous Party governance, recovery of distressed assets, capital replenishment, liquidity, customer base and business structure, asset circulation, risk control and compliance, cost reduction and efficiency enhancement, talent recruitment, and self-improvement at branch level" and start a new journey to high-quality development with transformation and revitalization. Meanwhile, the Bank will further build a strategic support system with "Seven New Infrastructure Construction" as the main body. The "Seven New Infrastructure Construction" includes FinTech, creative R&D, operation system, incentives and constraints, internal control & compliance, risk management, as well as training and education. The FinTech system is positioned to strengthen technology empowering and drive the "light front platform, fast middle platform, strong back platform" comprehensive digital transformation. The creative R&D system is positioned to drive development with innovation, to better meet market demand and user needs with agile and innovative rapid response capabilities, and to better improve the quality and efficiency of financial services. The major operation system is located at "lifting weights as lightness". With the goal of building an all-scenario, all-channel, all-service, all-user, all-chain, all-product, all-cycle and all-process system, the Bank is committed to building a highly adaptable delivery capability so that the "weights" of operation will enable the "lightness" of business. The incentives and constraints system is fighter-oriented, and gives play to the advantage of the flexible mechanism of a joint-stock bank, widening the gap of performance assessment, and transforming the advantages in resource allocation into the efficiency of operation and development. The major compliance system is positioned as the "repair system", "prevention system" and "immune system" of the Bank. Focusing on the main theme of "compliance is lifeblood" and taking systems, models and data as the starting point, a bank-wide compliance defense line is built so that no one dares, can and wants to violate compliance regulations. The risk management system is designed to enhance the ability of "risk control for the Bank's protection", build an overall framework of intelligent risk control, and deeply apply big data and artificial intelligence technology to realize the transformation from "management" to "empowerment". The training system is positioned as a "charging station" and "booster" for the growth of cadres and employees, with project- and data-based operation as the starting point to effectively enhance Bohai Bank's advantages in talents.

### III. SCOPE OF BUSINESSES

The business scope of the Bank includes: absorbing public deposits; offering short-term, medium-term and long-term loans; arranging settlement of domestic and international accounts; handling acceptance and discount of bill; issuing financial bonds; acting as agent to issue, settle and underwrite government bonds and proprietary trading bonds issued by government and financial institutions; inter-bank borrowing and lending; trading of foreign currencies by itself and on behalf of its customers; bank card business; letters of credit and financial guarantees; acting as agent on inward and outward payments and insurance agency; offering safe-deposit facilities and other business approved by the regulatory authority.

### IV. OVERALL OPERATING PERFORMANCE

During the Reporting Period, targeting at consistent implementation of the spirit of the 20th National Congress of the Communist Party of China and the major decision-making and deployment of the State Council, the Group took the lead to follow regulatory requirements, adhered to the general principle of pursuing progress while ensuring stability, actively served the national strategy, stepped up efforts to serve the real economy, and took various measures to support economic and social development. At the same time, the Group steadily promoted the transformation under its Fourth "Five-Year Plan". Focusing on the requirements of high-quality development, it continued to adjust business structure, optimized business layout, actively promoted green finance, increased investment in financial innovation, and strengthened comprehensive risk management, which achieved steady growth in the size of assets, brought the liability business back to its origin, and maintained stable asset quality. During the Reporting Period, the Group achieved an operating income of RMB13,083 million and a net profit of RMB4,099 million, showing steady improvement in overall operation in terms of quality and efficiency.

### Steady growth in the size of assets and liabilities

As of the end of the Reporting Period, the total assets of the Group amounted to RMB1,690,558 million, representing an increase of RMB31,098 million or 1.87% as compared to the end of the previous year, among which net loans and advances to customers amounted to RMB941,761 million, representing a decrease of RMB962 million or 0.10% as compared to the end of the previous year. Total liabilities amounted to RMB1,576,336 million, representing an increase of RMB26,827 million or 1.73% as compared to the end of the previous year, among which deposits from customers amounted to RMB924.438 million, representing an increase of RMB60.504 million or 7% as compared to the end of the previous year. The size of deposits maintained steady growth.

#### Focus on serving key sectors

During the Reporting Period, the Group actively implemented major national and regional strategies, and increased investment in key sectors such as manufacturing, private enterprises, green finance, and rural revitalization. The growth of loans in key sectors outpaced the growth of general loans. As of the end of June 2023, the medium- and long-term manufacturing loan balance was RMB36,909 million, representing an increase of 15.2% as compared to the end of the previous year; the agriculture-related loan was RMB51,628 million, representing an increase of 2.1% as compared to the end of the previous year; the green loan balance was RMB30,261 million, representing an increase of 10.8% as compared to the end of the previous year. The alignment between business layout and real economy continued to improve.

#### Continuous optimization of business and revenue structures

The Group continued to optimize its liability development mechanism, focused on the development of basic customer groups, consolidated customer infrastructure, and strengthened product and service capabilities, which achieved sustained and stable growth in customer deposits. During the Reporting Period, the customer deposits increased by 7% as compared to the end of the previous year, and the liability structure was fundamentally improved. The Group focused on improving quality and efficiency. As of the end of June 2023, the net fee and commission income amounted to RMB1,765 million, representing an increase of RMB338 million or 23.72% as compared to the same period of the previous year. The revenue structure became increasingly diversified.

### Asset quality risks under control

As of the end of the Reporting Period, the balance of the non-performing loans of the Bank amounted to RMB17,553 million, representing an increase of RMB746 million as compared to the end of the previous year. The NPL ratio was 1.84%, representing an increase of 0.08 percentage point as compared to the end of the previous year. Allowance for loans loss was adequate, and the allowance for loan impairment of the Bank was RMB25,349 million, representing a slight decrease of RMB21 million as compared to the end of the previous year. The allowance to gross loan ratio was 2.65%, and the allowance coverage ratio was 144.42%. All the indicators met the regulatory requirements.

### V. ANALYSIS OF FINANCIAL STATEMENTS

# (I) Key Items in the Consolidated Statement of Profit or Loss and Other Comprehensive Income

# 1. Changes in items in the consolidated statement of profit or loss and other comprehensive income

During the Reporting Period, the Group realized a net profit of RMB4,099 million, representing a year-on-year decrease of 6.91%.

The following table sets forth the changes in key items in the consolidated statement of profit or loss and other comprehensive income of the Group for the periods indicated:

(Unit: RMB'000)

|                             | January to<br>June 2023 | January to<br>June 2022 | Change      | Increase<br>(decrease) (%) |
|-----------------------------|-------------------------|-------------------------|-------------|----------------------------|
| Net interest income         | 9,327,727               | 11,351,479              | (2,023,752) | (17.83)                    |

Interest expense on borrowing from the central bank, deposits from banks and other financial institutions, placements from banks and other financial institutions and interest expense on financial assets sold under repurchase agreements

During the Reporting Period, the Group's interest expense on borrowing from the central bank, deposits from banks and other financial institutions and placements from banks and other financial institutions totaled RMB4,994 million, representing a year-on-year increase of 15.24%; interest expense on financial assets sold under repurchase agreements amounted to RMB336 million, representing a year-on-year decrease of 30.02%.

### Interest expense on debt securities issued

During the Reporting Period, the Group's interest expense on debt securities issued amounted to RMB3,599 million, representing a year-on-year decrease of 1.58%.

# (4) Impact of changes in volume and interest rate on interest income and interest expense

The following table sets forth the allocation of changes in the interest income and interest expense of the Group due to changes in volume and changes in rate for the periods indicated:

(Unit: RMB'000)

|                                    | January to<br>June 2023<br>vs. January to<br>June 2022 due<br>to changes<br>in volume | January to June 2023 vs. January to June 2022 due to changes in rate | Net increase<br>(decrease) (%) |
|------------------------------------|---|--|--------------------------------|
| Loans and advances to customers    | (113,961)   | (379,540)  | (2.14)                         |
| Financial investments              | 758,084   | (267,150)  | 8.01                           |
| Deposits with the central bank     | 1,221   | 54,642   | 11.92                          |
| Deposits with banks and other      |   |  |                                |
| financial institutions             | (8,449)   | 38,556   | 25.88                          |
| Placements with banks and other    |   |  |                                |
| financial institutions             | 158,336   | 33,239   | 66.89                          |
| Financial assets held under resale |   |  |                                |
| agreements                         | 170,893   | 3,323  | 216.81                         |
| Changes in interest income         | 966,124   | (516,930)  | 1.49                           |
| Deposits from customers            | 1,216,300   | 798,020  | 19.57                          |
| Deposits from banks and other      |   |  |                                |
| financial institutions             | (32,591)  | (101,628)  | (4.84)                         |
| Placements from banks and other    | /   |  |                                |
| financial institutions             | (258,963)   | 609,852  | 146.93                         |
| Financial assets sold under        | (02.402)  | (50.005)   | (20.02)                        |
| repurchase agreements              | (93,183)  | (50,886)   | (30.02)                        |
| Debt securities issued             | 156,950   | (214,803)  | (1.58)                         |
| Borrowing from the central bank    | 528,586   | (84,708)   | 33.56                          |
| Changes in interest expense        | 1,517,099   | 955,847  | 13.18                          |
| Changes in net interest income     | (550,975)   | (1,472,777)  | (17.83)                        |

Note: Changes in interest income and expense caused by both changes in volume and changes in rate have been allocated to the amount of impact of changes in volume on changes in interest income and expense.

## 3. Net non-interest income

During the Reporting Period, the net non-interest income of the Group amounted to RMB3,755 million, representing a year-on-year increase of 75.52%.

## (1) Net fee and commission income

During the Reporting Period, the net fee and commission income of the Group amounted to RMB1,765 million, representing a year-on-year increase of 23.72%, primarily due to the increase in agency service fees income.

The following table sets forth the principal components of the Group's net fee and commission income for the periods indicated:

|                               | January to<br>June 2023 | January to<br>June 2022 | Increase<br>(decrease) (%) |
|-------------------------------|-------------------------|-------------------------|----------------------------|
| Fee and commission income     | 2,305,676               | 1,888,967               | 22.06                      |
| Of which: Agency service fees | 1,061,631               | 677,746                 | 56.64                      |
| Settlement and clearing fees  | 567,086                 | 489,911                 | 15.75                      |
| Credit commitments and loan   |                         |                         |                            |
| service fees                  | 367,658                 | 203,693                 | 80.50                      |
| Custodian service fees        | 151,704                 | 241,511                 | (37.19)                    |
| Consulting service fees       | 94,112                  | 144,725                 | (34.97)                    |
| Bank card fees                | 41,961                  | 44,737                  | (6.21)                     |
| Others                        | 21,524                  | 86,644                  | (75.16)                    |
| Fee and commission expense    | 540,510                 | 462,167                 | 16.95                      |
| Net fee and commission income | 1,765,166               | 1,426,800               | 23.72                      |

### (2) Other net non-interest income

During the Reporting Period, other net non-interest income of the Group amounted to RMB1,990 million, representing a year-on-year increase of 179.27%, primarily due to the increase in net trading gains and net gains arising from financial investments as compared to the same period of the previous year.

The following table sets forth the principal components of other net non-interest income of the Group for the periods indicated:

(Unit: RMB'000)

|   | January to<br>June 2023 | January to<br>June 2022 | Increase<br>(decrease) (%) |
|---|-------------------------|-------------------------|----------------------------|
| Net trading gains/(losses) Net gains arising from financial | 501,268                 | (320,715)               | N/A                        |
| investments   | 1,453,143               | 993,051                 | 46.33                      |
| Other operating income                                      | 35,218                  | 40,093                  | (12.16)                    |
| Total   | 1,989,629               | 712,429                 | 179.27                     |

## 4. Operating expenses

During the Reporting Period, the operating expenses of the Group amounted to RMB5,360 million, representing a year-on-year increase of 11.39%, which was mainly due to the increase in staff costs and other general and administrative expenses.

The following table sets forth the principal components of operating expenses of the Group for the periods indicated:

(Unit: RMB'000)

|   | January to<br>June 2023 | January to<br>June 2022 | Increase<br>(decrease) (%) |
|---|-------------------------|-------------------------|----------------------------|
| Staff costs                               | 3,202,892               | 2,850,279               | 12.37                      |
| Depreciation and amortization             | 858,178                 | 793,337                 | 8.17                       |
| Taxes and surcharges                      | 224,515                 | 208,045                 | 7.92                       |
| Interest expense on lease liabilities     | 82,199                  | 82,564                  | (0.44)                     |
| Other general and administrative expenses | 992,442                 | 877,697                 | 13.07                      |
| Total                                     | 5,360,226               | 4,811,922               | 11.39                      |

### 5. Impairment losses on assets

The Group strictly followed the regulatory requirements to provide impairment losses on credit based on the principle of prudence. During the Reporting Period, the impairment losses on credit provided by the Group amounted to RMB3,064 million, representing a year-on-year decrease of 16.11%, among which the provision for impairment losses on loans and advances to customers amounted to RMB1,589 million, the impairment losses on investments amounted to RMB1,251 million, and other impairment losses on credit amounted to RMB224 million.

### 6. Income tax expense

During the Reporting Period, the income tax expense of the Group amounted to RMB560 million, representing a year-on-year decrease of 10.28%, and the effective tax rate was 12.02%. The income tax expense decreased primarily due to a decrease in the profit before taxation.

#### 1. Items of assets

As of the end of the Reporting Period, the total assets of the Group amounted to RMB1,690,558 million, representing an increase of 1.87% as compared to the end of the previous year, which was mainly due to an increase in asset scale led by the rapid development of financial investments.

The following table sets forth the composition of total assets of the Group as of the dates indicated:

(Unit: RMB'000)

|  | June 30, 2023 |                   | December      | 31, 2022          |                            |  |
|--|---------------|-------------------|---------------|-------------------|----------------------------|--|
|  | Amount        | Proportion<br>(%) | Amount        | Proportion<br>(%) | Increase<br>(decrease) (%) |  |
| Cash and deposits with the central bank<br>Deposits with banks and other financial     | 96,699,571    | 5.72              | 108,394,184   | 6.53              | (10.79)                    |  |
| institutions   | 22,491,874    | 1.33              | 16,074,856    | 0.97              | 39.92                      |  |
| Placements with banks and other financial institutions and financial assets held under |               |                   |               |                   |                            |  |

| Total                          | 924,437,903   |                   | 863,934,028 |                   |                            |

### 3. Total equity

As of the end of the Reporting Period, the total equity of the Group amounted to RMB114,222 million, representing an increase of RMB4,271 million or 3.88% as compared to the end of the previous year, primarily due to an increase of retained earnings of the Group during the Reporting Period.

### 4. Pledge of assets

Details for the pledge of assets of the Group are set out in "Review Report and Interim Financial Report – Notes to the Unaudited Consolidated Financial Statements" in this report.

### 5. Overdue and outstanding debts

The Group had no overdue and outstanding debts as of the end of the Reporting Period.

# VI. ANALYSIS OF CAPITAL ADEQUACY RATIOS

As of the end of the Reporting Period, the Group calculated the capital adequacy ratios at all levels in accordance with the Capital Rules for Commercial Banks (Provisional) (《商業銀行資本管理辦法(試行)》) and other relevant regulatory requirements. In calculating its capital adequacy ratios, the Bank considers itself and the financial institutions it invests directly or indirectly in compliance with the requirements of the regulations. The items related to capital adequacy ratios at all levels calculated by the Group and the Bank in accordance with the Capital Rules for Commercial Banks (Provisional) (《商業銀行資本管理辦法(試行)》) and the relevant requirements are as follows:

(Unit: RMB'000)

|  | June 30,    | 2023        | December 31, 2022 |             |
|--|-------------|-------------|-------------------|-------------|
|  | The Group   | The Bank    | The Group         | The Bank    |

| Off-balance sheet credit risk          | 65,132,440    | 65,132,440    | 62,706,781        | 62,706,781    |  |
| Counterparty credit risk               | 2,533,681     | 2,533,681     | 2,141,050         | 2,141,050     |  |
| Market risk-weighted assets            | 7,011,112     | 7,011,112     | 4,233,476         | 4,233,476     |  |
| Operational risk-weighted assets       | 54,462,589    | 54,462,589    | 54,462,589        | 54,462,589    |  |
| Total risk-weighted assets             | 1,079,720,013 | 1,079,171,203 | 1,061,879,062     | 1,061,342,220 |  |

According to the information disclosure requirements on asset securitization in Appendix 15 of the Capital Rules for Commercial Banks (Provisional) (《商業銀行資本管理辦法(試行)》), as of the end of the Reporting Period, the Group's on-balance sheet credit risk exposure included RMB70,400 million of on-balance sheet asset securitization risk exposure and RMB15,100 million of risk-weighted assets.

# **VII. LEVERAGE RATIO**

The Group measured the leverage ratio pursuant to the Leverage Ratio Rules for Commercial Banks (Revised) (《商業銀行槓桿率管理辦法(修訂)》) and relevant regulatory rules as follows:

(Unit: RMB'000)

|  | June 30, 2023 | December 31, 2022 |
|--|---------------|-------------------|
| Tier 1 capital                                   | 114,222,379   | 109,951,034       |
| Tier 1 capital deductions                        | (4,861,053)   | (4,362,055)       |
| Total adjusted on-balance sheet and              |               |                   |
| off-balance sheet assets                         | 1,935,361,177 | 1,943,617,486     |
| Of which: Total adjusted on-balance sheet assets | 1,672,365,322 | 1,653,886,331     |
| Total adjusted off-balance sheet assets          | 249,912,769   | 287,609,535       |
| Others <sup>Note</sup>                           | 13,083,086    | 2,121,620         |
| Leverage ratio (%)                               | 5.65          | 5.43              |

Note: Others include the assets balance of derivatives and securities financing transactions.

## **VIII. SEGMENT REPORTING**

The following table shows the segment performance of the Group by business segment for the periods indicated:

(Unit: RMB'000)

|                   | January to       | June 2023              | January to June 2022 |                        |  |
|-------------------|------------------|------------------------|----------------------|------------------------|--|
|                   | Operating income | Profit before taxation | Operating income     | Profit before taxation |  |
| Corporate banking | 7,177,329        | 3,591,324              | 7,006,009            | 2,279,156              |  |
| Retail banking    | 4,656,861        | 1,302,341              | 4,829,281            | 1,155,981              |  |
| Financial markets | 1,219,655        | (167,148)              | 1,616,647            | 1,662,805              |  |
| Others            | 28,677           | (67,935)               | 38,771               | (71,102)               |  |
| Total             | 13,082,522       | 4,658,582              | 13,490,708           | 5,026,840              |  |

The following table shows the segment performance of the Group by geographic region for the periods indicated:

|                                 | January to       | June 2023              | January to June 2022 |                        |  |
|---------------------------------|------------------|------------------------|----------------------|------------------------|--|

# (IX) Restructured Loans

Restructured loans refer to those loans that the financial status of the relevant borrowers deteriorates, or that borrowers are not capable of repaying and therefore certain clauses on the loan contract are adjusted. As of the end of the Reporting Period, the balance of restructured loans amounted to RMB1,095.7972 million, representing a decrease of 9.70% as compared to the end of the previous year.

# (X) Repossessed Assets

As of the end of the Reporting Period, the Bank had no repossessed assets.

# (XI) Disposal of Non-Performing Assets

As of the end of the Reporting Period, the Bank had disposed of RMB5,278 million of non-performing assets through means such as cash collection, write-off of bad debts, and others.

# (XII) Allowance for Loan Impairment

#### 1. Loans and advances to customers measured at amortized cost

# (XIII) Large Exposure

The Bank has strictly implemented the regulatory requirements of the Rules on Large Exposure of Commercial Banks (《商業銀行大額風險暴露管理辦法》) and established a large exposure management system. According to its own risk appetite, risk profile, management level and capital strength, the Bank sets internal management limits that are more stringent than the regulatory limits, and conducts continuous monitoring, early warning and control of large exposures. During the Reporting Period, all concentration indicators of large exposures of the Bank met regulatory requirements.

# X. MAIN BUSINESS OPERATION AND MANAGEMENT

# (I) Corporate Banking Business

During the Reporting Period, the corporate banking adhered to its fundamental purpose of serving the national strategic objectives and the real economy, focused on creating three featured services of "industry banking, professional banking, and ecological banking" around the strategic planning of corporate business, insisted on transforming to FPA and transaction banking, and continued to improve the four major systems of customer base, channel, product and management, accelerated the construction of a digital platform for corporate business, and realized the healthy and orderly development of corporate banking business while maintaining effective risk control.

## Customer development

During the Reporting Period, the corporate banking adhered to customer-centric operation, continued to strengthen the development of corporate customers, strengthened comprehensive customer services, and continuously consolidated the customer base. For strategic customers, it has gradually built a strategic customer marketing management system. For institutional customers, it made significant customer expansion in education, people's livelihood, government affairs and other fields, obviously promoted the contracting of customers for payroll service, and soundly linked the wholesale and retail banking businesses. For basic customers, it focused on high-quality small, medium and micro customer groups, accurately targeted customers, strengthened customer acquisition through channels, and pursued customer planning from the source.

### Liability business

During the Reporting Period, the corporate banking insisted on "developing bank by deposit", and enhanced the stability and increase of deposits. It continuously broadened the sources of liabilities, optimized the liability structure, increased the proportion of demand deposits, and promoted the increase in both the quantity and quality of corporate liabilities. Meanwhile, it made great efforts in expanding institutional deposits, and, with finance as the core, made breakthroughs in special bonds, government guidance funds, bankruptcy administrators and other business fields. As of the end of the Reporting Period, the gross corporate deposits amounted to RMB577,728 million, representing an increase of RMB39,625 million or 7.36% as compared to the end of the previous year.

### Asset business

During the Reporting Period, in accordance with the national macro-control policies and industrial development direction, the corporate banking continued to improve the alignment between its business layout and the real economy, and continued to grant more loans in manufacturing, green finance, rural revitalization and other fields. At the same time, in order to follow the national financial policy on real estate, it maintained reasonable and moderate real estate financing, supporting the stable and healthy development of the real estate market. As of the end of the Reporting Period, the gross corporate loans amounted to RMB551,427 million, representing an increase of RMB16,278 million or 3.04% as compared to the end of the previous year.

### Transaction banking business

During the Reporting Period, the transaction banking served the real economy, vigorously developed assetlight business, continuously improved its digital level, and continued to optimize its customer base and business structure. It established the brand of "Boyin Global Express Remittance" and launched the industry-pioneering "transparent showcase + dynamic map navigation" function to offer customers a brand new cross-border payment and settlement experience. It upgraded the PBoC's electronic L/C and electronic forfaiting system, expanded the application scenarios of the electronic letter of guarantee business, and introduced "Boyin Swift Top-up (渤銀閃電充)" and "Boyin L/C Acceptance (渤銀證兌通)" products, which provided financing convenience for enterprises. It continuously improved the online and automated service capabilities of the new generation of bill products and systems, gave full play to the detachable and transferable nature of the new generation of bills, and enriched the embedding of bills into transaction scenarios, returning to the essence of settlement, and reducing the financing cost of corporate supply chains.

During the Reporting Period, the transaction banking achieved a non-interest income of RMB869 million, representing a year-on-year increase of 13%. The volume of domestic trade financing such as domestic L/C, forfaiting and factoring achieved substantial growth, with a total financing amount of RMB130.1 billion, representing a year-on-year increase of 224%. The new generation of bill business has been fully implemented in 34 tier-one branches across the country, steadily accumulating high-quality basic bill customer groups, with 4,648 contracted customers. The domestic L/C business has acquired a total of 725 customers, representing a year-on-year increase of 373.9%. The number of international settlement customers increased by 559, representing an increase of 105% over the same period last year. Electronic channels such as corporate online banking, direct Bank-Corporation Connection APIs and mobile banking continued to iterate their functions. In pursuit of customer experience as always, the transaction banking continuously iterated and upgraded transaction banking products, improved the level of professional service, and met the multi-dimensional financial needs of enterprises.

### Investment banking business

During the Reporting Period, the investment banking business firmly adhered to the FPA business development concept, focused on customer demand, started from both debts and assets, and diversified the fund sources and asset allocation in the direct financing and indirect financing markets. Starting from various aspects such as general loans, bond underwriting, transaction facilitation, corporate financing and asset securitization, with reference to the changes in market condition and the characteristics of different financing channels, and following the service concept of integrating investment banking and commercial banking, the Bank made efforts to improve the comprehensive financial service capabilities of serving listed companies and companies to be listed, and provided full-cycle, three-dimensional and multi-level financing support for corporate customers, in order to accelerate the transformation of comprehensive service for corporate customers. In particular, the M&A and syndicated loan businesses meet the core needs of customers by focusing on key strategic customers and characteristic service scenarios, and actively built "headquarters-to-headquarters, branches-to-branches" marketing and distribution channels with various peer banks. The bond underwriting business gave full play to its role as a "hook" and actively expanded high-quality customer base. While improving the comprehensive income level, the Bank expanded the supply chain finance, corporate finance and other businesses for core enterprises by introducing a group of large and medium-sized customers. The transaction facilitation business focused on building cooperation with non-bank peers, integrating the external superior market resources for internal use, and "bridging the way" for enterprises to form a linkage ecosystem of "channel-funds-deposit/customers". For corporate wealth management business, the Bank continued to improve the product portfolio, gave full play to the advantages of acting as a link between organization and sales of assets, and achieved efficient matching of different types of high-quality assets and funds with different risk preferences through a series of measures such as diversifying product portfolio and optimizing institutional processes, so as to meet the diverse needs of corporate customers on wealth management and become a "gold medal wealth management service provider". The asset securitization business is committed to opening up the circulation channels of public credit asset securitization, revitalizing the existing credit resources, and enhancing the Bank's service capacity to customers.

### Asset custodian business

During the Reporting Period, the asset custodian business focused on the four strategic products, namely wealth management products, trust plans, mutual funds and private funds, in terms of marketing, and strengthened the services of cross-border custody business such as QDII and QFII, which further enriched its business variety and strengthened the customer base. It strengthened the digital construction of custody business services, and was committed to continuous optimization of customer service experience and iterative upgrade of the whole process business management system. A sound system for the asset custody business was established and the ability to operate in compliance with regulation of the asset custody business was enhanced. As of the end of the Reporting Period, the custodian and outsourcing business reached RMB2,004,772 million, generating revenue of RMB152 million from the intermediary custodian and outsourcing business for the first half of the year.

#### Inclusive finance business

During the Reporting Period, the Bank actively implemented the decisions and deployments made by the Party Central Committee and the State Council on inclusive finance, strengthened its responsibility and accountability, and continuously strengthened and deepened the financial services for small and micro enterprises. It always took serving the real economy as the starting point and goal, and fully supported the relief and recovery of small and micro enterprises. Focusing on "two districts" (communities and parks), "two chains" (supply chain and industry chain) and ecological customer groups, the Bank continuously improved its products, markets, and pricing strategies, and further strengthened team building, process optimization, risk management, and system construction. As of the end of the Reporting Period, the balance of inclusive small and micro loans of the Bank was RMB61.227 billion, and the number of loan accounts was 140,262. At the same time, the Bank continued to strengthen fee reduction and interest concession, further reducing the financing costs of small and micro enterprises. In the first half of 2023, the average interest rate of inclusive small and micro loans decreased by 0.84 percentage point from the beginning of the year, which strongly supported the high-quality development of small and micro enterprises.

# (II) Retail Banking Business

The retail banking implemented the strategic deployment of the Fourth "Five-Year Plan", continued to build retail business infrastructure, focused on basic capacity building, and accelerated the transformation of integrated retail operations and management. During the Reporting Period, the retail banking achieved operating income of RMB4,657 million; the balance of retail deposits amounted to RMB204,552 million, representing an increase of RMB35,828 million or 21.23% as compared to the end of the previous year. The total number of retail customers was 7,328,700, representing a net increase of 607,300 or 9.03% as compared to the beginning of the year.

### Customer development

During the Reporting Period, the Bank focused on the construction of customer acquisition system through retail channels, and strengthened efforts to expand customers through channels. Firstly, the Bank firmly established the core customer management logic of "customer expansion, acquisition, activation, stickiness, retention, and transmission with the use of channels, products, innovation, experience, services, and reputation". Starting from customer expansion with the use of channels, the Bank enriched the construction of scenarios of business outlets and circles, which facilitated the steady increase in retail customers. Secondly, the Bank strengthened the application of fintech means, accelerated the application of automatic marketing tools for customer expansion with the use of channels, and provided customers with customized, frictionless and ubiquitous financial service experience. Thirdly, the Bank continued to enrich the construction of the three-level customer expansion system, with the headquarters, branches and sub-branches coordinating promotion efforts to improve quality and efficiency of retail customer expansion. Fourthly, the Bank strengthened the public-private linkage to accelerate the development of agency business, continued to optimize the function of the agency service, provided online exclusive management, and improved the management of individual agency customers. As of the end of the Reporting Period, the total number of retail customers was 7,328,700, representing a net increase of 607,300 or 9.03% over the beginning of the year, or a period-on-period increase of 20.40%. The Bank served a total of 25,131,600 individual customers, representing an increase of 12.38% over the beginning of the year.

### Wealth management business

During the Reporting Period, the agency wealth management business had made a breakthrough and launched its first agency wealth management product. The agency standardized trusts covered the entire market, strategy and pipeline, and were available on a regular basis to meet customers' diversified wealth management needs. As of the end of the Reporting Period, the Bank's assets under management amounted to RMB349,000 million. The Bank adhered to professional empowerment and built a team of professional customer managers. The agency insurance business achieved breakthroughs. During the Reporting Period, revenue from the intermediary business under the agency insurance business was RMB57.082 million, representing a year-on-year increase of 178.61%. The Bank continued to improve our comprehensive service system for private banking and developed four major types of value-added services, namely, health butler, travel butler, intelligent butler and education butler, so as to continuously enhance the comprehensive ability to serve private banking customers. During the Reporting Period, the average wealth assets of private banking customers increased by 5.04%.

#### Asset business

During the Reporting Period, following China's credit policy, the retail asset business continuously improved the spectrum of consumer loan products and broadened the scenario ecosystem to maintain steady development. Firstly, the Bank diversified new products and new models for mortgage loans, promoted personal judicial auction housing mortgage loans, second-hand housing mortgage transfer loans and exclusive repayment methods for new citizens, reasonably arranged allocation of mortgage loans, and fully supported rigid and improved housing loan needs. During the Reporting Period, mortgage loans of RMB9,026 million were granted. Secondly, the Bank fully leveraged the advantages of its blockbuster product Golden Lending Loan to improve product integration capabilities, in-depth marketing capabilities and risk control capabilities. Thirdly, the Bank actively promoted the implementation of the "bank-government interaction" projects, continued to connect with public information data providers in relation to government affairs in various regions, and created and launched regionally customized, differentiated, and personalized public credit products.

As of the end of the Reporting Period, the Bank's gross retail loan was RMB322,024 million, which was relatively stable.

### Credit card business

During the Reporting Period, revenue from the credit card business was RMB111 million, representing a year-on-year increase of 8.55%.

During the Reporting Period, the credit card business gave full play to the role of credit cards in acquiring customers, generating revenue, and enriching the brand, deepened the scenarios of customer acquisition, and developed credit cards into an important channel for expanding retail customers and an effective carrier for enriching the brand of the whole bank. The Bank accelerated digital transformation, focused on creating a new generation of digital credit card product Hi Card, and launched the Himi Club on the basis of fully integrating the deep operation of the Internet and customer life cycle management to create a Hi Card membership system to achieve comprehensive and effective customer base management. The Bank also introduced cash rebates for every transaction, consumption discount coupons and other privileges, so as to improve customer life cycle management capabilities. As of the end of the Reporting Period, the Bank had issued an aggregate of 1,257,300 credit cards, representing an increase of 21.58% as compared to the end of the previous year. Credit card loan balance was RMB5,567 million, representing an increase of 5.15% as compared to the end of the previous year.

# (III) Financial Market Business

During the Reporting Period, in response to the macroeconomic situation and regulatory guidance, the financial market business of the Bank continuously optimized the asset-liability structure, deepened the customer base, ensured the safety of liquidity across the bank, enriched financial market products, improved market rankings, and served the real economy under the premise of operating in accordance with laws and regulations and keeping the bottom line of risk. It pushed ahead with various business plans in an orderly manner, with remarkable achievements in transformation and development.

### Wealth management business

During the Reporting Period, in order to meet the demands for high-quality wealth management products and diverse wealth management services of customers, the Bank continued to enrich our wealth management product type and optimize product functions. It actively expanded out-of-bank agency sales channels and reached agency sales cooperation with a number of consignment agencies. During the Reporting Period, the Bank launched 238 non-principal guaranteed wealth management products within the scope of consolidation with a total sales amount of RMB341,677 million. As of the end of the Reporting Period, the Bank had 363 existing non-principal guaranteed wealth management products within the scope of consolidation with a balance of RMB137,951 million, of which net-worth wealth management products accounted for 85.22%. Among wealth management products, closed-end products accounted for 37.77%, and open-end products accounted for 62.23%. The assets of wealth management products were mainly allocated in the fixed income category, 63.66%, 19.05% and 4.52% of which were invested in bonds, non-standardized bonds and equity assets, respectively, while the remaining assets, including cash and interbank assets purchased under resale agreements, public funds and interbank deposit, accounted for 12.77%.

### Treasury business

The Bank paid close attention to the market trends, strengthened market research and judgment, actively carried out various currency market transactions, earnestly fulfilled the duties of primary dealers, expanded transaction scale and counterparties, and actively participated in various transactions of the China Foreign Exchange Trade System. In the first half of 2023, the pledged repo trading volume of RMB bonds amounted to approximately RMB5.25 trillion, representing a year-on-year increase of nearly 50%. The Bank won the award of repo active trader from the China Foreign Exchange Trade System, which significantly enhanced its influence in the interbank market.

Facing the complex and volatile financial environment in both domestic and overseas markets, the Bank grasped the market opportunities, strengthened the study and judgment of trends of exchange rate and foreign currency market interest rates, flexibly adjusted trading strategies, actively carried out transactions in the interbank foreign exchange market, continuously improved its own trading capabilities, and enthusiastically participated in various standardized trading operations in the China Foreign Exchange Trade System. During the Reporting Period, the Bank's ranking in all terms of foreign exchange transactions improved to varying degrees compared to the same period of the previous year, in which, the Bank ranked among the top 45 in terms of RMB foreign exchange swap market transactions.

#### **Bond business**

In the face of the complex and volatile bond market, the Bank has focused the development of its bond business, flexibly utilized a different set of strategies for asset allocation, actively explored bond trading value, and steadily improved comprehensive income from bonds. As a general market maker in the interbank bond market, the Bank effectively fulfilled its obligations as a market maker, actively improved the bilateral quotation model, enriched the types of market-making transactions, improved market pricing capabilities and promoted the Bank as a comprehensive and competitive bond market maker. During the Reporting Period, the Bank maintained steady growth in the volume of various financial market bond business, and recorded spot trading volume of nearly RMB1.7 trillion, representing a year-on-year increase of 47.33%.

During the Reporting Period, the Bank significantly improved our market ranking in bond business. In the first half of 2023, the Bank ranked 21st in the Export-Import Bank of China Financial Bond Underwriting Group, representing an improvement of 25 places from 2022, and underwrote the Export-Import Bank of China Green Financial Bonds as the lead underwriter for the first time. The Bank continued to strengthen financial support for key areas such as the rural areas, agriculture and farmers, rural revitalization, green industry development, and urban infrastructure construction through interest rate debt undertaking and distribution, helping to open up the credit transmission mechanism.

#### Interbank business

During the Reporting Period, apart from effective prevention and control of financial risks, the Bank promoted the transformation of asset allocation to a "light capital and light asset" approach, reduced the scale of nonstandard asset business, increased the proportion of standardized and low risk weight assets, and continued to promote the development of interbank credit investment and financing business. The Bank continued to enrich the varieties of interbank liabilities business, strengthened cost control, optimized business processes, improved electronic transaction channels, such as online and internet banking, enhanced customer experience, returned to the origin of interbank business, and supported the real economy.

During the Reporting Period, the Bank continued to explore and promote the integrated operating system for interbank customers. By strengthening the application of customer territorial management and classification and stratification, the Bank selected core and key interbank customers based on quantitative data, continued to build customer KYP profiles to continuously improve the average contribution of interbank customers. During the Reporting Period, the Bank achieved a coverage rate of 31.49% of target territorial interbank customers. At the same time, the Bank launched Phase II of the Interbank Online Banking, an exclusive platform for the management of interbank customers, which improved the exclusive electronic business channels for interbank customers to be line with the industry benchmark, enhanced digital operation capabilities, updated interbank product marketing manuals, and enhanced our management capability in terms of customer expansion, acquisition, activation, stabilization, stickiness and transmission by integrating online and offline operations.

### Bill transactions business

During the Reporting Period, the Bank timely seized the favorable trading opportunities, and actively conducted transactions on bill markets to enlarge transaction volume. Meanwhile, the Bank extensively contacted all kinds of transaction entities in the bill market, which expanded our market influence, and improved customer acquisition and profitability. The commencement of operation of the new generation of bill system of Shanghai Commercial Paper Exchange enabled the Bank to fully achieve online transaction process, standardized transaction nodes, paperless transaction information and intelligent quota occupation, which enhanced our transaction capability in the second-tier bill market.

#### Interbank credit

During the Reporting Period, the Bank was granted sufficient credit limits by domestic and foreign banks with a wide range of products to maintain a stable development of all its businesses. As of the end of the Reporting Period, more than 1,500 banking institutions provided credit to the Bank in total, with an aggregate amount of nearly RMB1.6 trillion.

### Agency business

During the Reporting Period, the Bank continued to focus on our agency business of treasury transactions, and the head office and branches cooperated in multiple directions to promote the healthy and rapid business development. The Bank carried out customer research in various ways to look into customer needs. The Bank assisted its branches to strengthen customer marketing and provided customers with personalized business solutions. The Bank stepped up product development and realized the transformation from basic agency trading products to a combination of products that fully meet customer needs. The Bank promoted the construction of the agency capital trading system, enriched product functions and improved business efficiency. The Bank insisted on carrying out product training, compliance training, and qualification certification examinations to improve the skills of product managers. The Bank also actively implemented the self-regulatory mechanism for foreign exchange, increased our effort in the promotion of exchange rate risk awareness and helped establish risk-neutral concept for exchange rate among real enterprise customers.

# (IV) Online Financial Business

During the Reporting Period, adhered to the aspiration of "putting people first", the online financial business of the Bank implemented the strategic deployment of the Fourth "Five-Year Plan", developed the "Boyin E-home" retail banking business philosophy and service brand, solidly promoted the progress of integration, digitalization and ecosystem construction, and provided customers with all-round, three-dimensional and zero-distance comprehensive financial services.

### Intensive cultivation in digital engine to help upgrade service experience

As our major channel of customer service, the major battlefield of product innovation and the major front of ecosystem construction, our mobile banking has been iteratively upgraded around the "finance + life" dual model. The Bank focused on refining high-frequency scenarios such as wealth companionship, financing installment, payment and settlement, life rights services, and content information, enriched our product portfolio of "Boyin E-finance", "Boyin E-loan" and "Boyin E-payment", created special sessions for pension, private banking, agency payment and smart campus, and provided butler-style services integrating exclusive products, market information, industry analysis and special privileges. Our "Bo Lan Hui (渤攬惠)" life rights services platform focuses on services with local characteristics, covering high-quality life scenarios such as culture and entertainment, rural revitalization, transportation and living payment, and providing convenient and beneficial services for consumers. With the development goal of "Better Finance for Better Life", our mobile banking helps every family to make better use of their wealth and optimize their lives, and comprehensively creates a new service experience of inclusive, intelligent, frictionless and warm "family culture" in Bohai Bank.

Being customer-oriented, our mobile banking leverages integrated marketing, integrated risk control and integrated data system, and has established an online integrated service platform integrating product, content and customer operation, as well as security control, which is in line with users' thinking process. Equipped with a package of agile and efficient online digital marketing tools, we established a customer portrait model for intelligent and accurate delivery. Through our multi-channel linkage mechanism with Bohai on the Palm (掌上渤海), WeCom account and 5G messaging bank, we achieved accurate and rapid access to multiple customers and multiple customer groups. We customized the asset allocation plan based on customer group features, provided customers with the ultimate service experience with refined and differentiated services, and reshaped the business and service journey with consistency of use, continuity of concept and foresight of innovation.

### Keeping innovation to promote the traffic value conversion with ecosystem scenarios

Adhering to the "people-oriented payment" service concept, the Bank has continuously introduced various collection and payment functions, such as order payment, online credit, personal and corporate entrusted collection, to meet the fund settlement needs of customers in different scenarios. Based on "account + payment + financial products", the Bank actively embraced big data, artificial intelligence, cloud computing, blockchain and other technologies, deeply explored and understood the financial needs of customers, embedded digital and intelligent financial services such as intelligent marketing and intelligent risk control, built a closed-loop ecosystem with the "mobile banking" APP as the core, and constructed an open ecosystem with "open platform" API as the starting point, and strived to provide customers with customized, invisible and ubiquitous financial services.

Focusing on the financial needs of different customer groups, the Bank carried out three-dimensional, indepth and all-round operational services, and developed ecosystem service scenarios such as smart business circle, smart campuses and smart canteens. The "smart business circle" scenario connects outlets, neighboring supermarkets and customers to establish a relationship bond and build an outlet-centered community convenience financial ecosystem. The Bank simultaneously established a "mobile business circle" in mobile banking, which gathered high-quality business circle services and rights service resources, and created an online-offline integrated marketing system of user traffic acquisition, intensive customer cultivation and value mining. The "smart campus" scenario focuses on the campus business such as education payment and daily consumption, and provides integrated campus financial service solutions including account system, fee payment and deposits for schools, teachers, students and parents with "1+N+X" system, which has covered more than 300 campuses in various provinces across the country. For different fields such as government and daily life, retail consumption, industry and banking peers, the Bank will continue to build industry scenario service platforms, provide products and service solutions, and achieve mutual assistance and success with ecosystem partners in terms of traffic, brand and technology resources.

### (V) The Construction of Branches

During the Reporting Period, the Bank newly established 17 sub-branches.

As of the end of the Reporting Period, the Bank has established outlets in 25 provinces, municipalities and autonomous regions, 5 sub-provincial cities and the Hong Kong Special Administrative Region, covering 65 key cities nationwide, and has established 36 tier-one branches (including 3 branches in Suzhou, Qingdao and Ningbo under direct management of the Head Office and 1 overseas branch), 33 tier-two branches, 261 sub-branches, and 21 small and micro community sub-branches. The total number of officially opened outlets reached 351.

### (VI) Information Technology Construction

In 2023, adhering to the development vision of a "modern wealth and treasury manager offering the best experience", the Bank considered digital transformation as one of the key drivers to achieve high-quality financial development. It closely focused on the financial technology transformation work ideas of "middle-end platform architecture, data-driven, intelligent operation and maintenance, agile and proactive", and continued to promote technology innovation and application through cloud computing, artificial intelligence, natural language processing, knowledge graphs, big data and other technologies, which provided strong technological support for business development, and supported the Bank to embark on a new journey of transformation, revitalization and high-quality development.

During the Reporting Period, the Bank continued to consolidate the foundation of the technology talent team, stimulated the innovation vitality of technology talents, and strengthened the innovation of technology talents. As of the end of the Reporting Period, the Bank had 1,317 technology personnel, accounting for 9.91% of its contract employees. The Bank optimized the structure of technology talents, focused on increasing investment in technology talents in terms of customers, marketing, channels, and risk control, strengthened enterprise-level sharing capacity building, and improved digital support for business.

During the Reporting Period, the Bank made every effort to promote high quality development in terms of information technology construction, with an investment in technology of RMB530 million as of the end of the Reporting Period. The Bank paid close attention to promoting innovation with science and technology and improved business development in terms of quality and efficiency with technological means, focusing on serving the real economy: the Bank launched the Global Express Remittance 3.0 project to start a new journey of cross-border remittance experience with the industry-pioneered "global navigation – transparent window", and simultaneously offered the "Hundred Currency Connect" service, effectively helping small and medium-sized enterprises to achieve "one account with one hundred currencies to reach the world" in the planning for international industrial chain. The Bank created a blockchain financial platform to provide new economic settlement tools for enterprises, which improved settlement efficiency, and created a convenient and low-cost new financing channel. The Bank continued to enrich the Boyin E-finance product system to integrate the trust system with asset allocation, and provide differentiated wealth management services for mid-to high-end customers. The Bank promoted the construction of the Boyin E-payment product system, opened up the agent collection channel, developed standardized products, and provided customers with flexible, convenient and safe agent collection services. Further, the Bank continued to accelerate the construction of key projects such as the financial market agency fund trading system, Boyin E Butler, the new version of corporate mobile banking and corporate WeChat banking, comprehensively enhancing the customer service experience, and helping the Bank to build its digital financial service capabilities.

During the Reporting Period, the Bank continued to establish a comprehensive and proactive safety production operation system, reinforced the foundation of production operation safety, and achieved the operation indicator of 99.99% key system availability rate. The Bank accelerated the key infrastructure construction, continuously improved the multi-active cloud computing platform based on Bohai Cloud (渤海雲) with four centers in two places, and consolidated the same-city, multi-site resilience capability. The Bank accelerated the technological upgrading of cloud architecture, promoted the mixed deployment of one cloud and multiple cores of Bohai Cloud platform, improved the ability to comprehensively manage multiple chip servers, and laid a solid foundation for upgrading the production environment. Further, the Bank refined safe operation management, comprehensively strengthened daily monitoring and protection, and ensured the safe and stable information system operation.

### (VII) Business Profiles of Overseas Branch

The Hong Kong Branch of the Bank was established in 2020 and is the first overseas branch of the Bank. The Hong Kong Branch, as a licensed bank, operates a full range of commercial banking services. Presently, its scope of operations mainly involves wholesale banking and treasury business. The Hong Kong Branch is focusing on cross-border banking services and business development opportunities such as the "Belt and Road", RMB internationalization and the Guangdong-Hong Kong-Macao Greater Bay Area, to enhance the Bank's international business and provide one-stop services for domestic and foreign customers, including a wide range of wholesale banking services and products, such as integrated account management, crossborder RMB, deposits, treasury settlement and clearing, corporate financing business including but not limited to cross-border business, green financing, trade financing, bilateral loans, syndicated loans, collateral loans, quarantee business, etc. At the same time, it is involved in money market business, bond investments, certificate of deposit issuance, notes issuance and foreign exchange transactions, etc. At the end of the Reporting Period, total assets of Hong Kong Branch of the Bank equivalent of HK\$12.181 billion.

### (VIII) Business Profile of Subsidiary

Established in September 2022 with a registered capital of RMB2 billion, CBHB Wealth Management Co., Ltd. (渤銀理財有限責任公司) ("CBHB Wealth Management") is a wholly-owned subsidiary of the Bank. As of the end of the Reporting Period, CBHB Wealth Management had total assets of RMB2,200 million and net assets of RMB2,124 million. During the Reporting Period, it achieved operating income of RMB174 million and net profit of RMB104 million.

Centering around the strategic goal of "becoming the most trusted asset management institution with the best experience", CBHB Wealth Management focuses on its principal business of asset management and wealth management, forges ahead with professional, unique, digital and brand development, and strives to develop itself as an excellent wealth management subsidiary with a stronger investment research system, a better sales system, a more refined product system, and a better risk control and compliance system. CBHB Wealth Management has outstanding profitability in wealth management products. In the "Ranking of 280 Banks in China in Terms of Wealth Management Ability in the First Quarter of 2023" released by PYSTANDARD, the company ranked fourth among national financial institutions in terms of the profitability indicators of its wealth management products. It also received industry awards for many times, demonstrating that its professional ability has been fully recognized by the market and third-party research institutions. During the Reporting Period, CBHB Wealth Management won the "Excellent Wealth Management Subsidiary of Bank Award" and the "Excellent Net Worth Wealth Management Product Award" in the "14th Fund and Wealth Management • Jiefu award", the "Excellent Bond Investment and Trading Institution" from the Shenzhen Stock Exchange, the "Excellent Wealth Management Company in Terms of Investment Return Award" and the "Excellent Fixed Income Bank Wealth Management Products Award" in the third "Golden Honor Award" hosted by PYSTANDARD, and other major industry awards.

### XI. COMPREHENSIVE RISK MANAGEMENT

### Comprehensive Risk Management Summary

During the Reporting Period, the Bank continued to improve its comprehensive risk management system, enhanced the forward-looking and effective risk management, practiced the risk management concept of "comprehensive, proactive, agile and effective (全面、主動、敏捷、到位)", and promoted the implementation of various requirements of the Board of Directors and regulatory agencies. The Bank deeply cultivated nine categories of risk management, strictly upheld compliance operation, continuously improved the effectiveness of risk management, and built a professional and refined risk management system to construct a digital ecological bank.

The Bank's Board of Directors, the Risk Management and Green Finance Committee of the Board of Directors (and the Related Party Transactions Control Committee subordinated to it), the Audit and Consumer Rights Protection Committee of the Board of Directors, the Board of Supervisors, senior management and its Risk Control Committee, the Assets and Liabilities Management Committee, the Information Technology Committee, as well as the Risk Management Department, the Credit Review and Approval Department (including the Regional Approval Centers), the Asset Monitoring Department, the Retail Risk Management Department, the Assets and Liabilities Management Department, the Internal Control and Compliance Department, the Legal Affairs Department and other functional risk departments, the Information Technology Department, the General Office (Public Relations Department), the Strategic Development and Investment Management Office, the Audit Department, the Regional Audit Centers and other departments of the head office, as well as the risk management functional departments of subsidiaries and branches constitute the main organizational structure of the Bank's risk management.

The Board of Directors of the Bank is responsible for the ultimate responsibility for comprehensive risk management. The Risk Management and Green Finance Committee of the Bank are set up under the Board of Directors, which is responsible to the Board of Directors. The Board of Supervisors of the Bank is responsible for the supervision of comprehensive risk management and is responsible for supervising the performance of the Board of Directors and senior management in risk management and the rectification. The senior management shall assume the responsibilities for implementing comprehensive risk management and implementing the resolutions of the Board of Directors.

The Bank has senior management personnel (the chief risk officer) in charge of risk management, who shall be responsible for leading the relevant departments of the risk management line to carry out work under the risk management framework of the Bank. The chief risk officer maintains independence and can directly report the overall risk management to the Board of Directors.

The Bank has established a risk prevention system consisting of three lines of defense against each main risk to which it is exposed. The first line of defense of risk management is formed by various business departments, divisions, branches and sub-branches, which are directly responsible for carrying out their risk management functions. The second line of defense is departments of risk management line, Assets and Liabilities Management Department, Internal Control and Compliance Department, the General Office (Public Relations Department) and Strategic Development and Investment Management Office, which assume responsibilities for formulating policies and procedures, supervising and managing risk. The third line of defense of risk management is the Audit Department, which assumes audit responsibilities for the performance of the first and second lines of defense.

#### (II)**Credit Risk**

The Bank adhered to a comprehensive, vertical and independent management model for credit risk, and continuously improved and optimized the "residence system" of risk management personnel. At the head office, the Risk Management Department, the Credit Review and Approval Department (including the Regional Approval Centers), the Asset Monitoring Department and the Retail Risk Management Department were established. At the branches, there are risk directors who report to the chief risk officer.

During the Reporting Period, the Bank responded to constant changes in the internal and external operating conditions, focused on deepening innovation and transformation, strengthened risk identification and strategic orientation in key areas, key businesses and key customer groups, enhanced the ability to proactively manage risks and create value, and further improved credit risk management system. Our credit risk management technologies and means were further optimized. The management process was gradually digitalized. The credit approval efficiency was further improved. Asset quality remained stable, while the overall credit risk was controllable.

Firstly, consolidating asset quality. The Bank put greater efforts on the supervision and inspection of postloan management, thereby realizing systematic management of post-loan supervision. The Bank tracked and analyzed the completion of monitoring reports of key customers, post-loan inspection reports and financial statement entry, thus further improving the level of post-loan management. We implemented listbased dynamic management, strengthened continuous tracking and special monitoring of key customers, strengthened off-site monitoring and on-site inspections in key areas, standardized operational behavior, and ensured that risk internal control requirements were met. In accordance with the principle of prudence, the ten-level asset quality classification management was implemented. As of the end of the Reporting Period, the non-performing loan ratio of the Bank was 1.84%. We fully implemented the new financial instrument standards, followed the principles of prudence, timeliness, effectiveness and objectivity to make provision for impairment of financial assets included in the scope of impairment provision, and further increased the provision for impairment, to ensure that the Bank can strengthen its risk resistance ability under unfavorable environment of continuous slowdown in economic growth. As of the end of the Reporting Period, the Bank had a total balance of impairment provision for financial assets of RMB37.840 million, representing an increase of RMB1,468 million over the balance at the end of the previous year.

Secondly, strengthening basic management. The Bank strengthened the standardized and comprehensive credit management, further enhanced the management and control on the total amount of credit, reinforced the low credit risk limit and business management, and fully implemented compliance management requirements. We regulated the management of group customers, applied policies to group customers by category, and enhanced the ability to manage risks in a proactive manner. We optimized the credit application process and comprehensively improved the efficiency of credit application. We iterated and upgraded the standardized credit management system, and made preparations for launching the system. The Bank comprehensively improved the quality of credit management, and continued to strengthen the management of credit approval by strengthening the tracking and monitoring of approved credit, organizing regular supervision and inspection of credit approval process in branches, carrying out credit analysis of existing customers, establishing a regular review mechanism, and strengthening the qualification management of credit approval personnel, so as to improve credit approval behavior and enhance risk management and control. The Bank made every effort to improve the retail inclusive automated approval system, agilely iterated the retail inclusive approval thinking and approval process, and created an intelligent risk control "foundation" for competitive retail inclusive business.

Thirdly, optimizing the credit structure. The "Bohai Bank 2023 Credit Policy" was formulated, which specified the overall credit strategy of the whole bank in 2023, including policies in terms of industry, region, product and customer credit, proposed supporting measures to ensure the implementation of policies from multiple perspectives, strengthened the transmission of risk preference, and fully supported the development of front-line business. With the key support for retail inclusive business development, we followed the business direction of "housing mortgage, big data and strong guarantee (住房抵、大數據、強擔保)", and focused on achieving "high quality, high volume, and profit creation" of the basic high-quality customer groups. According to the current status and reserves of basic customers of the branches, the list of regional key customers and target customers was released so as to achieve precise and targeted business development.

Fourthly, improving the system model. The Bank completed the iterative upgrade and commissioning of the first phase of the real estate credit business decision support engine, which achieved full-process application of pre-lending marketing decision-making assistance, risk decision-making and comprehensive evaluation during lending, and regular automatic monitoring and analysis after lending for corporate real estate credit business in terms of customers, regions and projects. The Bank completed the commissioning and launch of the risk management cockpit of the government debt solvency evaluation model, which introduced the function of model running status guery and monitoring, specified the model application criteria for customer access, and focused on optimizing user experience and improving efficiency of model application. The Bank realized the connection between the financial reporting risk intelligent identification system and the CRMS system, actively carried out promotion and training, continued to optimize and improve the system functions based on the system usage, and promoted the effective use of financial anti-fraud capabilities. The Bank promoted the optimization and upgrading of the retail risk management cockpit, and improved the quality and efficiency of inputting real-time tracking and monitoring into credit approval and business marketing.

### (III) Liquidity Risk

The Bank adopts a centralized approach with respect to its liquidity risk management and has established a sound governance structure, with clear duties for the Board of Directors, senior management, special committees and other relevant management departments. The Board of Directors assumes the ultimate responsibility for liquidity risk management, reviews the Bank's acceptable liquidity risk appetites, management strategies, policies, and procedures, supervises the effective management and control of liquidity risk, and approves information disclosure contents, etc. The senior management authorizes its Assets and Liabilities Management Committee to implement specific management work under the liquidity management system and methods approved by the Board of Directors, timely understands and evaluates the liquidity risk level and management status of the Bank, as well as reports to the Board of Directors, etc. The Assets and Liabilities Management Department at the head office is responsible for leading the organization of liquidity risk management for the Bank, formulating liquidity risk management strategies, policies and procedures, and conducting qualitative and quantitative analysis of liquidity risk and other specific management tasks. The departments of corporate banking, retail ranking and financial market businesses, among others at the head office, and the branches and sub-branches engage in their business activities in compliance with the liquidity risk management policies, appetite, processes, limits and other requirements as set down by the Board of Directors and senior management.

The Bank adheres to prudent liquidity risk management strategies, and clarifies the overall objective, management mode, and main policies and procedures of liquidity risk management. The overall objective of the Bank's liquidity risk management is to reasonably arrange the asset and liability structure and future cash flows, to fulfill the fund payment needs of each business and to ensure compliance with liquidity regulatory indicators, and to reduce extra costs arising from liquidity as much as possible, including the opportunity cost of reserve funds, market financing premium, and loss on realization of assets. The Bank has established a tier-one liquidity reserve mainly consisting of cash and excess reserves, short-term interbank deposits, treasury bonds and policy bank bonds, a tier-two liquidity reserve mainly consisting of local government bonds and high-grade corporate bonds, and a tier-three liquidity reserve mainly consisting of other assets such as monetary funds and bond funds. The allocation of liquidity assets was constantly adjusted for addressing the mismatches between short-term and medium-to-long-term liquidity. In accordance with internal and external requirements and actual business development, through following liquidity risk management policies and procedures, such as cash flow estimate and calculation and analysis, liquidity risk limit management, financing management, daytime liquidity risk management, qualified high-quality liquid asset management, liquidity early warning management, stress tests, and emergency plans, and under the premise of ensuring liquidity safety, the Bank effectively balances the relationship among liquidity, safety and efficiency, so as to promote sustainable and healthy development of business.

Under the guidance of the liquidity risk management policies determined by the Board of Directors, the Bank implements effective identification, measurement, monitoring and control of liquidity risk. Based on cash flow gap analysis, the Bank realizes the liquidity risk management and control under normal circumstances with the help of intraday position management, maturity mismatch management, liquid asset portfolio management and financing strategy management. As for managing intraday positions, it reasonably manages cash flows to balance liquidity and profitability, which is based on the principle of ensuring safety payment and on the integration management of local and foreign currency. As for liquidity mismatch management, it adopts active management methods, such as continuous optimization of internal limit management, early warning indicators monitoring, and dynamic simulation of regulatory indicators, which not only achieves accurate measurement of static liquidity mismatch, but effectively manages and controls the future liquidity mismatch. As for liquid asset portfolio management and financing strategy management, it timely monitors and optimizes its asset-liability structure, strengthens active liability management, enhances inter-bank customer relationship management, expands active liability channels, and promotes the steady growth of core liabilities. As for emergency management for liquidity risk, it regularly conducts liquidity risk stress tests, carefully evaluates future liquidity needs, maintains sufficient high-quality liquid assets and continuously improves liquidity risk resistance capacity. At the same time, it organizes liquidity crisis response exercises on a regular basis, continuously optimizes the liquidity emergency management system, evaluates the effectiveness of various emergency measures, and ensures the liquidity safety in an emergency environment. The liquidity stress test of mature cash flow gap covers the window periods of 7 days, 30 days and 90 days. During the Reporting Period, the Bank was able to meet the minimum lifetime requirement of not less than 30 days under various stress scenarios, and with the availability of sufficient quality liquid assets which are readily realizable at any time, it could meet the potential liquidity needs under stress conditions. The Bank formulated the Liability Quality Management Measures of CHINA BOHAI BANK CO., LTD., which was reviewed and approved by the Board of Directors, established a comprehensive and systematic liability business management and risk control system, continued to promote the improvement of liability business management, and enhanced the efficiency and level of financial services to the real economy.

During the Reporting Period, the Group's liquidity remained reasonably adequate with a stable and controllable liquidity risk level. All liquidity regulatory indicators were met or beyond regulatory requirements, and major monitoring indicators operated smoothly. As of the end of June 2023, the Group's liquidity ratio reached 59.07%, representing a decrease of 10.09 percentage points as compared to last quarter; the liquidity coverage ratio was 125.07%, representing a decrease of 1.57 percentage points as compared to last quarter; the net stable funding ratio was 102.65%, representing a decrease of 1.67 percentage points as compared to last quarter; the liquidity matching ratio (on a legal person basis) was 119.90%, representing a decrease of 1.62 percentage points as compared to the beginning of the year, and an increase of 0.01 percentage point as compared to last quarter.

According to the requirements of the Measures for the Disclosure of Information on Net Stable Funding Ratio by Commercial Banks (《商業銀行淨穩定資金比例信息披露辦法》), the following table sets out the Group's net stable funding ratio indicator, available stable funding for the numerator item, and required stable funding for the denominator item at the end of March and June 2023:

(Unit: RMB'000)

|   | June 30, 2023  | March 31, 2023 |
|---|----------------|----------------|
| Net stable funding ratio (%)                | 102.65         | 104.32         |
| Available stable funding (converted to RMB) | 951,717,104.02 | 988,928,508.36 |
| Required stable funding (converted to RMB)  | 927,107,956.17 | 947,934,233.81 |

The following table shows the Group's liquidity coverage ratio indicator:

(Unit: RMB'000)

|   | June 30, 2023  | March 31, 2023 |
|---|----------------|----------------|
| Liquidity coverage ratio (%)                            | 125.07         | 126.64         |
| Qualified high-quality liquid assets (converted to RMB) | 133,060,038.10 | 164,162,780.10 |
| Net cash outflow in the next 30 days (converted to RMB) | 106,390,531.90 | 129,626,684.10 |

The following table shows the analysis of the Group's non-derivative financial assets and financial liabilities based on the relevant remaining maturity dates:

(Unit: RMB'000)

|                       | Repayable<br>on demand | Within one month | Between<br>one month<br>and three<br>months | Between<br>three months<br>and one year | Between<br>one year and<br>five years | More than<br>five years | Indefinite  | Total         |
|-----------------------|------------------------|------------------|---|---|---------------------------------------|-------------------------|-------------|---------------|
| Financial assets      | 112,762,848            | 204,992,689      | 115,902,576                                 | 318,763,630                             | 521,722,766                           | 286,384,660             | 127,964,936 | 1,688,494,105 |
| Financial liabilities | 283,124,080            | 169,363,076      | 248,748,084                                 | 570,806,194                             | 286,537,062                           | 1,961,421               | 13,668,084  | 1,574,208,001 |
| Net liquidity         | (170,361,232)          | 35,629,613       | (132,845,508)                               | (252,042,564)                           | 235,185,704                           | 284,423,239             | 114,296,852 | 114,286,104   |

### (IV) Market Risk (Including the Interest Rate Risk in the Banking Book)

The Bank, in strict compliance with relevant requirements such as the Guidance on Market Risk Management of Commercial Banks (《商業銀行市場風險管理指引》) and the Guidelines for the Management of Interest Rate Risk in the Banking Book of Commercial Banks (Revised) (《商業銀行銀行賬簿利率風險管理指引(修訂)》), implements an independent and comprehensive market risk (including interest rate risk in the banking book, similarly hereinafter) management mode. The Board of Directors is responsible for reviewing and approving the market risk management strategies, policies and procedures, so as to define the acceptable market risk level of the Bank. The Assets and Liabilities Management Committee under the senior management is responsible for developing, regularly reviewing and overseeing the policies, procedures and workflows relating to market risk, and delineates market risk limits based on the risk appetite outlined by the Board of Directors. The Assets and Liabilities Management Department at the head office is responsible for establishing the market risk identification, measurement, monitoring, reporting and control mechanisms to ensure that the market risk borne by the Bank is controlled within the risk appetite set by the Board of Directors.

The Bank's market risk management is governed by a comprehensive, sound and prudent principle, and its overall goal is to control the market risk level within its tolerance, by organically combining the identification, measurement, monitoring and control of market risks with the Bank's major operational and management activities including strategic planning, business decision-making and financial budgeting.

The Bank has formulated the Market Risk Management Policy and Administrative Measures for the Classification of Bank Accounts and Transaction Accounts (Revised) on this basis, actively implemented relevant market risk (including interest rate risk in the banking book) regulatory requirements, and established a market risk management system covering all aspects of market risk identification, measurement, monitoring and control. The Bank uses gap analysis, duration analysis, foreign exchange exposure analysis, and scenario analysis to identify and measure market risk, conducts regular stress tests, and monitors and controls risk through limit management.

In respect of the interest rate risk in the banking book, the Bank primarily applies measurement tools such as gap management, sensitivity analysis and duration analysis to manage it. The Bank constantly optimizes a net interest margin analysis system that combines dynamic and static conditions. On the basis of quantitative models and qualitative analysis, the Bank continuously reinforces the research and judgment of interest rate trends, so as to provide decision-making basis for tasks such as allocation of asset-liability structure. As for trading books, the Bank mainly measures, manages and controls through basis point value, value at risk (VAR), position limit, duration and stop-loss limits to ensure that the anticipated income of the trading books matches the trading exposure. In response to exchange rate risk, the Bank sets market risk limits, and effectively manages on-balance sheet and off-balance sheet foreign exchange risk exposure through derivative financial instruments, such as exchange rate swaps and exchange rate forwards, so as to keep its total foreign currency exposures to a low level. During the Reporting Period, in accordance with regulatory standards, the Group's interest rate risk measurement indicator, namely the maximum economic value change under the framework of standardized measurement, accounted for 9.49% of tier 1 capital, and the cumulative foreign exchange exposure ratio was 1.15%. Both interest rate risk and exchange rate risk were kept within the internal limits and controllable on the whole.

The market risk-weighted assets measurement uses the standardized approach, and the market risk capital provision covers interest rate risk and specific risks in the trading books, as well as all exchange rate risks and commodity risks. As the trading position is relatively small, the market risk capital occupation is low.

#### The Group's interest rate sensitivity gap

The Group's on-balance sheet interest rate sensitivity gap is classified according to assets and liabilities on the statement of financial position at carrying amounts, by the earlier of the contractual re-pricing date or the maturity date as follows:

(Unit: RMB'000)

|                                     | Less than three months | Between<br>three months<br>and one year | Between<br>one year and<br>five years | More than five years | Non-interest<br>bearing | Total         |
|-------------------------------------|------------------------|---|---------------------------------------|----------------------|-------------------------|---------------|
| Total assets                        | 518,154,541            | 653,488,889                             | 376,172,094                           | 69,242,738           | 73,499,894              | 1,690,558,156 |
| Total liabilities                   | 696,633,014            | 562,217,633                             | 272,971,742                           | 1,811,500            | 42,701,888              | 1,576,335,777 |
| Total interest rate sensitivity gap | (178,478,473)          | 91,271,256                              | 103,200,352                           | 67,431,238           | 30,798,006              | 114,222,379   |

#### The Group's interest rate sensitivity

The following table sets forth the results of the Group's interest rate sensitivity analysis on profit before taxation and equity (without tax effect) with an assumption that all other variables held constant:

(Unit: RMB'000)

|   | (Decrease)/Increase<br>on June 30, 2023 |
|---|---|
| Change in profit before taxation            |   |
| Up 100 bps parallel shift in yield curves   | (1,846,965)                             |
| Down 100 bps parallel shift in yield curves | 1,846,965                               |
| Change in equity (without tax effect)       |   |
| Up 100 bps parallel shift in yield curves   | (2,799,413)                             |
| Down 100 bps parallel shift in yield curves | 2,799,413                               |

The sensitivity analysis above is based on a static interest rate risk profile of the Group's assets and liabilities. This analysis measures only the impact of changes in interest rates within one year, showing how annualized profit before taxation and shareholder's equity (without tax effect) would have been affected by repricing of the Group's assets and liabilities within the one-year period.

Due to possible inconsistencies between actual conditions and assumptions, the actual changes in the Group's profit before taxation and shareholder's equity (without tax effect) caused by an increase or decrease in interest rates might vary from the estimated results of this sensitivity analysis.

#### The Group's exchange rate risk exposure

The following table sets forth the Bank's foreign exchange rate risk exposure as at June 30, 2023:

(Unit: RMB'000)

|                                      | RMB           | USD<br>equivalent to<br>RMB | Other currency<br>equivalent to<br>RMB | Aggregate<br>RMB |
|--------------------------------------|---------------|-----------------------------|--|------------------|
| Total assets                         | 1,586,629,851 | 92,442,057                  | 11,486,248                             | 1,690,558,156    |
| Total liabilities                    | 1,484,005,435 | 83,707,212                  | 8,623,130                              | 1,576,335,777    |
| Net exposure amount of balance sheet | 102,624,416   | 8,734,845                   | 2,863,118                              | 114,222,379      |

### (V) Operational Risk

Operational risk is the risk of losses due to inadequate or flawed internal processes, staff and IT systems, and external events. It includes legal risk but excludes strategic risk and reputational risk.

During the Reporting Period, the Bank continued to strengthen operational risk monitoring and control. The head office optimized the operational risk management indicators of the departments/lines. When revising the indicators, attention was paid to regulatory case risk warnings, regulatory penalties, and operational risks in existing cases and audit findings. The first line of defense completed the operational risk assessment on time and timely reported on assessment results and problem findings. The Bank also launched and promoted the enterprise-level inspection management system across the whole bank, coordinated its on-site inspection work, connected on-site inspection planning, execution and supervision, and carried out a series of training to actively create a sound operational risk management culture.

### (VI) Capital Management

The Bank implemented comprehensive capital management, including capital planning, capital allocation and evaluation, capital monitoring and early warning, internal capital adequacy assessment, capital replenishment and emergency measures, capital measurement and reporting, information disclosure, etc. The capital management objectives of the Bank are to stabilize the capital base, enhance capital strength, promote bank value creation with economic capital as the core, achieve a beneficial balance among capital constraints, risk management, and shareholders' returns, and maintain a satisfactory level of capital adequacy, so as to effectively deal with the major risks and unexpected losses faced by the Bank and ensure the steady operation and sustainable and healthy development of the Bank. The Bank calculated, managed and disclosed capital adequacy ratio based on the Capital Rules for Commercial Banks (Provisional) (《商業銀行資本管理辦法(試行)》) and other relevant regulatory rules.

As of the end of the Reporting Period, the Group's capital adequacy ratio at all levels met the minimum capital requirements, reserve capital requirement and countercyclical capital requirement of regulatory authorities. Capital adequacy ratio was 11.55%, representing an increase of 0.05 percentage point as compared to the end of the previous year. Tier 1 capital adequacy ratio was 10.13%, representing an increase of 0.19 percentage point as compared to the end of the previous year. Core tier 1 capital adequacy ratio was 8.28%, representing an increase of 0.22 percentage point as compared to the end of the previous year. Capital adequacy ratios at all levels experienced changes as compared with the end of last year, mainly due to: firstly, the replenishment from the Group's endogenous profit in the first half of the year facilitated the steady growth of all tiers of capital. Secondly, the Group took the lead to optimize the asset structure on and off the balance sheet, resulting in a slowdown in the growth rate of risk-weighted assets during the quarter. Thirdly, the Group steadily promoted the disposal and elimination of distressed assets. Changes in the scale of asset impairment provisions and write-offs of non-performing assets also had a certain impact on the capital structure.

In order to achieve the capital management objectives, the Bank adopted the following management measures during the Reporting Period: formulating capital budgeting and capital planning based on development strategy objectives, risk appetite, financial budget and other factors, arranging the asset structure rationally under capital constraints, revitalizing the existing assets, at the same time, improving the year-by-year rolling mechanism for mid- and long-term capital planning, and making a forward-looking layout for the Bank's mid- and long-term capital management work; strengthening the core concept of capital value creation, improving the capital allocation and assessment system with capital efficiency indicator as the core, strengthening the promotion of reform and transformation as well as the guidance and support to key businesses by resource allocation, and continuously improving the efficiency of capital use; perfecting the internal capital adequacy assessment system, improving the comprehensive risk management framework, regularly carrying out internal capital adequacy assessment procedures, and formulating emergency plans in response to stressful situations; actively cooperating with various capital replenishment work, continuing to explore capital instrument innovation, and gradually forming a long-term capital replenishment mechanism that mainly replenishes endogenous capital and supplemented by external capital.

### (VII) Information Technology Risk

During the Reporting Period, in accordance with regulatory requirements such as comprehensive risk management and internal control, as well as internal requirements such as risk appetite and information technology risk management policies, the Bank implemented the financial technology transformation and development strategy, effectively performed its duties on the three lines of defense of information technology risk management, continuously improved information technology risk management methods and management mechanism, and continued to promote the rectification of information technology risk issues. There were no major information technology emergencies. The information technology risk was controllable as a whole, and the information technology risk preference had not been broken, providing a guarantee for the realization of the financial technology strategic goals.

### (VIII) Compliance Risk

Compliance risk refers to the risk of being subject to legal sanctions, regulatory penalties, significant financial loss and reputational loss as a result of failure to comply with laws, rules and guidelines.

#### Compliance risk status

The Bank's compliance risk management structure is composed of the Board of Directors, Board of Supervisors, senior management, Risk Control Committee, Internal Control and Compliance Department, Audit Department, as well as various business lines and branches and sub-branches. Our Board of Directors is responsible for reviewing and approving our compliance risk management policies and assumes ultimate responsibility for the compliance of the operational and management activities with relevant applicable laws and regulations. Our senior management is responsible for formulating and implementing compliance risk management policies and organizing the implementation of compliance risk management, whereas the Internal Control and Compliance Department assists our senior management in leading and promoting the daily management of the compliance risk across the bank. Each of the business lines is principally responsible for its compliance with the applicable laws and regulations and compliance risk management.

During the Reporting Period, the Bank deepened the compliance review with system review as the main body, proactively identified, assessed and controlled the compliance risks of new products, new businesses and major projects, strictly controlled the advance pass of compliance risks, and kept the bottom line of compliance; the Bank internalized the external regulations in a timely manner, made express and summary of regulations, and continuously paid attention to and tracked the introduction and changes of regulations; the Bank carried out rules and regulations planning, clarified system revisions and formulated plans.

#### Anti-money laundering management status

The Bank continues to strengthen its major responsibility for the prevention and control of money laundering and terrorist financing risks, adheres to the risk-based and problem-oriented working approach, improves the construction of systems and mechanisms, and continuously improves the management of anti-money laundering. During the Reporting Period, the Bank organized its branches to carry out comprehensive selfinspection on anti-money laundering, covering key areas and key processes, and intensified investigation and rectification efforts especially for common problems in supervision and punishment, so as to comprehensively improve the internal management efficiency of anti-money laundering. The Bank continued to optimize the anti-money laundering business system, and improved data security and information protection, reports on large and suspicious transactions, customer due diligence, customer risk rating and other functions, which effectively improved the ability of technology to support anti-money laundering. The Bank promoted the publicity and training of anti-money laundering in various forms. Internally, it carried out quarterly special training on anti-money laundering, specific training for individual branches, training for product managers, training on preventing illegal fund-raising, etc. Externally, it carried out a number of publicity activities such as drug control, national security, and prevention of illegal fund-raising to effectively enhance the ability to actively perform duties in anti-money laundering across the whole bank. At the same time, the Bank earnestly fulfilled social obligations and enhanced public awareness of risk prevention and control. The Bank promoted the construction of the anti-money laundering center of the head office in a timely manner. The department adjustment plan was submitted to the Party committee of the head office for review and approval, and the system reform and system drafting for the anti-money laundering center have been started.

### (IX) Strategic Risk

During the Reporting Period, the Bank deeply comprehended the spirit of the 20th National Congress of the Communist Party of China, thoroughly followed the major instructions of the Party Central Committee, the State Council, the Tianjin Municipal Party Committee and Tianjin Government, and effectively integrated thoughts and actions into the major goals and missions for future economic and financial works of the central and Tianjin Municipal Party Committee. In addition, the Bank earnestly studied and evaluated domestic and overseas macroeconomic situation, adopted industry-leading practices, linked up and down, implemented policies accurately, and seized opportunities of digital development, so as to effectively carry out strategic risk management and promote high-quality development of Bohai Bank.

During the Reporting Period, the Bank tracked major national strategic deployments and specific requirements in a timely manner, and ensured that the positioning and development direction of the Fourth "Five-Year Plan" were consistent with relevant national requirements. At the same time, the Bank adhered to new development concept, grasped the opportunities arising from the new development stage, and integrated itself into the new development pattern. Based on the actual situation of Bohai Bank, in accordance with the general concept of "building a framework, mechanism, improving ability and strengthening assessment", the Bank gradually promoted the implementation of the Fourth "Five-Year Plan" and strategically revised it on a dynamic basis to ensure the effectiveness and guiding nature of the strategy. The Bank scientifically carried out annual strategic insight, strategy revision, strategy decoding and monitoring supervision, implementation evaluation and assessment, and enhanced the execution capability of strategic planning, so as to continuously improve the ability to serve the national strategy, the real economy and people's better life.

### (X) Reputational Risk

Reputational risk refers to the risk of forming negative evaluation of the Bank by stakeholders, public or media due to the Bank's behaviors, employees' behavior or external events, etc., which in turn damages the brand value, has an adverse effect on the normal operation, and even affects market stability and social stability. During the Reporting Period, the overall public opinion of the Bank was good, and no major reputation incident occurred.

The Bank always attaches great importance to reputational risk management and regards reputational risk management as an important task to ensure the normal development of business, create a harmonious public opinion environment, and maintain a good image of the company and the industry.

During the Reporting Period, the Bank adhered to the forward-looking, comprehensive, proactive and effective management principle for reputational risk, strictly implemented regulatory requirements, continuously optimized the working mechanisms, strengthened whole-process management, and actively promoted the improvement of reputational risk management capabilities and professionalism: Firstly, it continuously upgraded the reputational risk management system, revised and circulated new systems and work notices to the whole bank, continued to improve the reputational risk response and handling mechanism, and consolidated the foundation of the whole-process reputational risk management. Secondly, it continued to pursue forward-looking management, adhered to the prevention-oriented reputational risk management concept, strengthened investigation, early warning and alerts, and promoted the advancement of reputational risk management. Thirdly, it strengthened the regular reputational risk management, effectively reinforced the accountability of the party in charge of managing the units causing the incident, strengthened the prevention and control of risk sources, and continuously improved the quality and efficiency of management. Fourthly, it actively responded to social concerns and properly handled various public opinion incidents by establishing a unified information publication mechanism. Fifthly, by organizing bank-wide special reputational risk training, sand table deduction, scenario drills, etc., it continuously strengthened the awareness of reputational risk prevention throughout the bank, and improved the ability of the units causing the incident to respond to and handle emergency public opinion incidents. Sixthly, focusing closely on the positive initiatives adopted, and featured products and high-quality services introduced by the Bank in serving national strategies, supporting the real economy, serving rural revitalization and fulfilling social responsibilities, it organized positive publicity, and actively spoke out. By telling the "Bohai Story", the Bank enhanced the brand image and accumulated reputation capital.

### (XI) Country Risk

The Bank incorporated country risk management into its comprehensive risk management system. The Board of Directors undertakes the ultimate responsibility for the effectiveness of monitoring country risks. The senior management is responsible for implementing the country risk management policies approved by the Board of Directors.

The Bank continued to strengthen its management on country risks. Pursuant to the Country Risk Management Measures of CHINA BOHAI BANK CO., LTD., the Bank formulated the Country Risk Rating and Quota Management Scheme of CHINA BOHAI BANK CO., LTD. for 2023, which specified the objects, responsibilities and procedures, rating methods and risk limit management methods of country risk management. At the same time, we established a country risk reporting, stress test, supervision and inspection mechanism. During the Reporting Period, the Bank had a low country risk level in terms of the final overseas claim involving the country or region where the debtor is located. There were no overseas claims involving countries with higher and high-level country risk, and the final balance of overseas claims met the Bank's country risk limit requirements. The overall country risks were controllable.

### (XII) ESG Risk

During the Reporting Period, the Bank actively fulfilled its environmental and social responsibilities, created social value, and built itself as a responsible bank with leading concepts, sustainable economy and outstanding ESG performance, which improved its own ESG performance.

The Bank actively promoted the construction of the ESG risk management system, formulated the "ESG Risk Management Policy of CHINA BOHAI BANK CO., LTD.", introduced ESG risk (including climate related risk) management into the comprehensive risk management system, established and improved the ESG risk management decision-making mechanism, and strengthened the major decision-making functions of the Board of Directors and special committees in ESG management. The Bank established and improved the ESG risk management system of the investment and financing business, and revised and published the "Management Measures of ESG Risk of Credit Business of Bohai Bank", which orderly embedded ESG risk management requirements into the entire process of investment and financing business risk management, established differentiated credit granting policies for Class A, B, and C customers (projects) to effectively identify, manage and control ESG risks of customers (projects).

Taking comprehensive consideration of its business development needs under the goals of carbon peaking and carbon neutrality, the Bank fully supported green and sustainable business development, implemented differentiated and dynamic ESG risk management policies, enhanced support for green transportation, energy conservation and emission reduction, ecological restoration, pollution prevention and other fields, gradually incorporated ESG evaluation into the entire credit process, and promoted the implementation of the green financial transformation indicators under the Fourth "Five-Year Plan".

#### XII. OUTLOOK OF THE SECOND HALF OF 2023

### (I) Economic, Financial and Banking Industry Outlook

Looking forward to the second half of 2023, the recovery and divergence of global service and manufacturing industry will continue, and the continuous tightening in global liquidity will have a greater impact on investment and financing, household consumption and economic growth. The cooling trend of the US economy, employment and inflation now seems a certainty, and the Fed interest rate hikes may approach the end, with a persistent US economic recession risk. European and other regional or national central banks are expected to continue to raise interest rates to fight inflation. Some developing economies are likely to face intensified sluggish growth, persistently high inflation and other problems. Coupled with the uncertainty in Russia-Ukraine conflict and other factors, it is expected that the overall world economy growth this year will be slower than last year. The IMF released the latest World Economic Outlook report on July 25, 2023, forecasting that the global economy will grow by 3.0% in 2023.

In the second half of 2023, China's export growth may face pressure, and the domestic demand recovery will be the key factor affecting China's economic growth. It is expected that the macro-policy adjustment will be strengthened in the second half of the year. The liquidity will remain reasonably abundant. The dual functions of monetary policy tools in terms of the aggregate amount and the structure will be better brought into play to effectively support domestic demand and promote a virtuous economic cycle. As the proactive fiscal policy will further exert its force, the consumption is expected to maintain moderate recovery, and the infrastructure investment will continue to grow rapidly, so as to support the growth of manufacturing investment, gradually warm up the real estate market in expectation, and promote the annual GDP growth rate to reach the target. Further, CPI and PPI will rise steadily.

In the second half of 2023, the banking industry will continue to strengthen its support for the real economy and serve high-quality development. With the macro-economy recovery, the trend of term deposits will slow down, but the cost pressure on the debt side of the banks will subsist. The scale of the asset side will maintain steady expansion with the stabilization of credit demand, but there is still pressure from structural non-performing loans, and the narrowing of net interest margin will continue to test the refined management ability of banks. With the continuous economic improvement in expectation, and the stabilization of interest margin and non-performing loans, the operating performance and asset quality of banks will continue to improve. Commercial banks, especially small and medium-sized banks, will increase capital replenishment to better serve key areas and weak links such as inclusive small and micro loans, property delivery guarantee, green development, technological innovation, infrastructure construction, regional coordinated development and social consumption. The banks will also increase medium and long-term loans for manufacturing industries, support regulated and healthy development of platform enterprises, and back up the accelerated construction of a modern industrial system. Further, the banking capital management, comprehensive risk management and consumer protection will be further strengthened.

### (II) Guiding Ideology and Major Measures for the Bank's Business Development in the Second Half of 2023

In the second half of 2023, the Bank will adhere to the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, comprehensively and deeply study, promote and implement the spirit of the 20th National Congress of the Communist Party of China, resolutely implement the decisions and deployments of the Party Central Committee and the State Council, thoroughly implement the deployment requirements of the municipal party committee and the city government, adhere to the general tone of seeking progress while maintaining stability, and unswervingly implement the strategy of transformation and revitalization. Taking the chance of deeply commencing themed education and inspection for rectification, the Bank will align its thought and action with the decisions and deployments of the Party Central Committee on economics. In respect of operation, the Bank will proactively alter operating modes, adjust structure, enhance momentum, create new situation, as well as adapt and respond to changes and strive for changes. The Bank will facilitate the effective improvement of operating efficiency by fully enhancing its asset and liability management, thereby comprehensively promoting the high-quality development of China Bohai Bank.

Major work measures: Firstly, strengthening the leadership of party building and continuously promoting the strict governance by the party. By enhancing its political standings and taking politics as top priority, the Bank will continuously deepen the results of themed education, strengthen the building of clean party culture, and rectify various issues including formalism, bureaucracy and failure in taking responsibility and action, aiming to create good political environment. Secondly, strengthening accountability mechanism and solidly serving real economy. By fully implementing national strategies and deployments, the Bank will put every effort in developing industrial finance, green finance, fintech and inclusive finance, and continuously improve its financial service capabilities. Thirdly, the focus is placed on improving operations and strengthening comprehensive asset and liability management. The Bank will implement FPA operational concepts, optimize asset structure, and put greater efforts in key industries, regions and customers. It will also optimize liability structure and enhance the initiative and stability of liability. The Bank will enhance the matching level between assets and liabilities, increase operating revenue and accelerate growth in noninterest-earning revenue. Fourthly, adhering to innovation while staying on the right track and accelerating the transformation of customer and industry strategies. By establishing and improving the territorial, tier and classified marketing management system, the Bank will continuously and duly implement special services for state-owned enterprises, listed companies and specialized and sophisticated enterprises etc., accelerate industrial finance development, duly provide integrated financial services for customers, and proactively provide services for the financial demands in new economic situation. Fifthly, strengthening risk control capabilities and continuously preventing and mitigating risk exposures. The Bank will enhance comprehensive risk management, fully resolve problematic assets, continuously stabilize asset quality level, optimize centralized credit management and improve approval efficiency. Sixthly, deepening active compliance and continuously improving the establishment of compliance system. The Bank will facilitate the internalization of external regulation, enhance operation and non-compliance inspection, strengthen employee behavior management, and implement strict and precise accountability mechanism on any acts in violation of regulation and disciplines. Seventhly, the focus is placed on improving quality through empowerment, and deepening measures on cost reduction and efficiency improvement. The Bank will enhance comprehensive budget management, strictly adopt the saving culture, focus on core operations, optimize resources allocation, improve appraisal incentive mechanism, and greatly improve input and output efficiency. Eighthly, increasing the awareness on limits and enhancing fundamental management standards. The Bank will strictly focus on safe production, prevent the occurrence of safety production incident, control public opinion risks, ensure system stability, and improve operational efficiency.

## Changes in Share Capital and Information on Shareholders

#### I. **CHANGES IN ORDINARY SHARES**

#### **STAFF**

### **Number and Structure of Employees**

As of the end of the Reporting Period, the Group had 13,400 employees, increased by 114 as compared to the end of the previous year, including 6,272 male employees and 7,128 female employees. The age structure, educational background and professional post structure of the employees are as follows:

#### 1. Age structure of employees

| Age              | Number of employees | Structure (%) |
|------------------|---------------------|---------------|
| Aged 30 or below | 3,208               | 23.94         |
| Aged 31-35       | 3,720               | 27.76         |
| Aged 36-40       | 3,185               | 23.77         |
| Aged 41-45       | 1,565               | 11.68         |
| Aged 46-50       | 926                 | 6.91          |
| Aged over 50     | 796                 | 5.94          |
| Total            | 13,400              | 100.00        |

#### 2. Educational background of employees

| Educational background/degree          | Number of<br>employees | Structure (%) |
|--|------------------------|---------------|
| Postgraduate/Master's degree and above | 3,662                  | 27.33         |
| Undergraduate/Bachelor's degree        | 9,506                  | 70.94         |
| College and lower                      | 232                    | 1.73          |
| Total                                  | 13,400                 | 100.00        |

#### 3. Professional post structure of employees

| Professional post                           | Number of employees | Structure (%)  |
|---|---------------------|----------------|
| Trolessional post                           | employees           | Structure (70) |
| Corporate banking                           | 2,907               | 21.70          |
| Retail banking                              | 3,223               | 24.05          |
| Financial markets                           | 259                 | 1.93           |
| Online finance                              | 141                 | 1.05           |
| Finance and assets & liabilities            | 304                 | 2.27           |
| Risk management                             | 852                 | 6.36           |
| Audit, legal, internal control & compliance | 385                 | 2.87           |
| Business operation                          | 2,407               | 17.96          |
| Information technology                      | 1,317               | 9.83           |
| Others                                      | 1,499               | 11.19          |
| Subsidiary                                  | 106                 | 0.79           |
| Total                                       | 13,400              | 100.00         |

In addition to the employees with whom the Group has entered into labor contracts, as of the end of the Reporting Period, the Group also engaged 228 dispatched workers through third-party human resources agencies and they generally hold non-essential positions at the Group.

#### (II)REMUNERATION POLICY FOR EMPLOYEES

Under the guidance of the Bank's development strategy and business objectives, the Bank establishes a remuneration system based on the principles of strategy, value and performance, and also establishes and improves a sound incentive and restraint mechanism to enhance the efficiency of remuneration resource allocation. The Bank implements risk responsibilities, and strictly executes the deferred payment and recourse deduction system of performance remuneration for employees in positions that have a significant impact on risks.

The Bank's post-employment benefit plans are defined contribution plans. Defined contribution plans are post-employment benefit plans under which the Bank pays fixed contributions into a separate fund and will have no obligation to pay further contributions. During the Reporting Period, the Bank's post-employment benefits mainly include the social pension schemes, unemployment insurance and annuity plan. In particular, the pension schemes and unemployment insurance are calculated at the applicable rates based on the amounts stipulated by the government, while the annuity is contributed to the annuity plan in proportion to the employees' gross salaries in the prior year. The amounts based on the above calculations are recognized as liabilities in the accounting period in which the service has been rendered by the employees, with corresponding amounts charged to the profit or loss.

### (III) STAFF TRAINING

During the Reporting Period, regarding demand system, curriculum system, teaching system and platform system as the pillars, the Bank placed control on the whole process of training expenses, namely before, during and after incurring such expenses, standardized the curriculum system, accumulated curriculum resources, refined and improved the standards and levels of evaluation and incentives for internal trainers, strengthened the management of the training process, and optimized the platform operation process, which gave full play to the role of training in guaranteeing, motivating and guiding business development, and improved training efficiency.

Managed the demand system. Pursuant to the "Training Fee Management Measures of CHINA BOHAI BANK CO., LTD. (2022 Edition)", the Bank organized various departments of the head office to prepare and complete the 2023 training plan and expense budget, and provided policy guidance for the branches on preparing the 2023 training plan and expense budget. Enhanced the curriculum system. The Bank established development standards for courses of general business knowledge, formulated development plans, reviewed existing courses, supported various learning needs such as Party member training, young cadre training, new employee training, and professional talent training, and cooperated with business departments to improve the development and introduction of professional courses. Strengthened the teaching system. Pursuant to the "Internal Part-time Trainer Management Measures of Bohai Bank (2022 Revision)", the Bank rationalized the evaluation and application management of internal trainers, and refined and improved the standards and grades of evaluation incentives of internal trainers. **Promoted the platform system.** According to the established construction plan, the Bank launched market research on platform product selection, carried out exchanges and research on platform products with a relatively high market share in the training market and successful cases of focus, and further clarified the ideas and goals of training platform construction.

### Corporate Governance

### I. OVERVIEW OF CORPORATE GOVERNANCE

The Bank has established a corporate governance structure consisting of the shareholders' general meeting, the Board of Directors, the Board of Supervisors and the senior management. The shareholders' general meeting is the supreme authority of the Bank. The Board of Directors undertakes final responsibility of operation and management of the Bank, accountable to the shareholders' general meeting. The Board of Supervisors is the internal supervision body of the Bank, accountable to the shareholders' general meeting. The senior management is responsible for the operation and management of the Bank, accountable to the Board of Directors. For the corporate governance structure of the Bank, please refer to "Organizational Structure Chart" described in this report. For information on the responsibilities of each corporate governance entity, please refer to the Articles of Association published on the websites of the HKEX and the Bank.

During the Reporting Period, all corporate governance entities of the Bank performed their respective duties and responsibilities, communicated with each other and governed harmoniously, which further improved the efficiency of discussion and level of decision-making.

During the Reporting Period, the Bank convened 1 general meeting, at which 10 proposals were considered and 6 reports were heard; 4 meetings of the Board of Directors, at which 39 proposals were considered and 16 reports were heard; 16 meetings of special committees under the Board of Directors (including: 4 meetings of the Risk Management and Green Finance Committee, 2 meetings of the Related Party Transactions Control Committee, 4 meetings of the Audit and Consumer Rights Protection Committee, 3 meetings of the Nomination and Remuneration Committee, and 3 meetings of the Development Strategy and Inclusive Finance Committee), at which 40 proposals were considered and 7 reports were heard; 2 meetings of the Board of Supervisors, at which 8 proposals were considered and 29 reports were heard; and 3 meetings of special committees under the Board of Supervisors (including: 1 meeting of the Nomination Committee and 2 meetings of the Supervision Committee), at which 2 proposals were considered and 17 reports were heard. At the above meetings, the corporate governance entities made careful decisions on major issues of the Bank, and considered and approved important matters involving change of Directors, change of joint company secretaries, information disclosure, the report of the Board of Directors, the report of the Board of Supervisors, the work report of the senior management, the report on comprehensive risk management, the report on liability quality management, the report on internal capital adequacy, the work report on the interim evaluation of the Fourth "Five-Year Plan" and other important matters, and formulated the interim measures for anti-nepotism policies among employees, the ESG risk management policy, the administrative measures for the implementation of the expected credit loss method, the interim measures for Internet loan risk management and other systems, which promoted the continuous improvement of corporate governance.

#### II. INTRODUCTION TO THE GENERAL MEETING

During the Reporting Period, the Bank held 1 general meeting. The relevant information is as follows:

The Bank held the 2022 annual general meeting in Tianjin on May 18, 2023. Shareholders or their proxies attending the general meeting represented a total of 13,221,561,501 ordinary Shares with voting rights of the Bank. 12 Directors of the Bank attended the meeting and the Supervisors and secretary to the Board of Directors of the Bank were present at the meeting. 10 resolutions were considered and approved at the meeting and the matters considered included: the Report of the Board of Directors for 2022, the Report of the Board of Supervisors for 2022, the Report of Final Financial Accounts for 2022, the Profit Distribution Plan for 2022, the Financial Budget Report for 2023, the Investment Plan for 2023, appointment of external auditors for 2023, remuneration of Mr. LI Fuan for 2021, election of Mr. AU Siu Luen as a non-executive Director, and the general mandate granted to the Board of Directors to issue Domestic Shares and/or H Shares.

The meeting also reviewed 6 written reports, including the Report on Resignation of Mr. FUNG Joi Lun Alan as a Non-executive Director and Vice Chairman of the Bank, the Bank's 2021 Assessment Report on Major Shareholders and Substantial Shareholders, the Bank's 2022 Special Report on Related Party Transactions, the Bank's 2022 Assessment Report on the Performance of Duties of the Board of Directors, Senior Management and their Members issued by the Board of Supervisors, the Bank's 2022 Report on Self-evaluation of the Board of Supervisors and Assessment of the Performance of Duties of Supervisors, and the Report of the Board of Supervisors on Independent Opinions on Related Matters in 2022.

The PRC legal advisor of the Bank witnessed the convening of the meeting and other related matters in accordance with the law, and believed that the meeting was in compliance with relevant laws and regulations, regulatory documents and the Articles of Association. For details of the meeting, please refer to the circular, notice and the poll results announcement of the 2022 annual general meeting published on the websites of the HKEX and the Bank.

### III. WORK OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Bank's Articles of Association stipulates that the independent non-executive Directors of the Bank shall represent at least one-third of the total members of the Board. As of the end of the Reporting Period, there were a total of 6 independent non-executive Directors in the Bank's Board of Directors. The chairmen of the Risk Management and Green Finance Committee (and the Related Party Transactions Control Committee subordinated to it), the Audit and Consumer Rights Protection Committee, and the Nomination and Remuneration Committee under the Board of Directors were all independent non-executive Directors, and the independent non-executive Directors accounted for no less than one-third of the committee members. During the Reporting Period, the independent non-executive Directors of the Bank fulfilled their duties of integrity and diligence towards the Bank and all shareholders, thought independently and deeply, expressed their independent opinions objectively and impartially, performed their duties independently under the principles of fairness, impartiality and openness, and paid close attention to the Bank's business development, operation and management by reviewing the Bank's meeting documents, information reports and other materials. They attended the Board meetings and special committee meetings on time, and conducted independent reviews and expressed professional opinions on matters under consideration. They paid attention to building their professional capacity and continuously improved their ability to perform duties. During the Reporting Period, the independent non-executive Directors expressed their independent opinions on the Bank's material related party transactions, profit distribution, election of Directors and asset disposal.

#### IV. WORK OF EXTERNAL SUPERVISORS

According to the Articles of Association, the Bank has three external Supervisors. The chairmen of the Nomination Committee and the Supervision Committee under the Board of Supervisors are all external Supervisors. During the Reporting Period, the external Supervisors of the Bank strictly complied with the laws and regulations and the Articles of Association, performed their duties conscientiously, diligently and independently, attended the meetings of the Board of Supervisors and special committees on time, actively attended general meetings, meetings of the Board of Directors and special committees, carefully reviewed proposals before meetings, actively spoke at the meetings, and provided professional advice to the Board of Directors and senior management. They continued to pay attention to the Bank's operation, management and risk status, and actively protected the legitimate rights and interests of minority shareholders and other stakeholders. During the Reporting Period, they mainly conducted the following work: They attended all meetings of the Board of Supervisors held during the Reporting Period that should be attended, and complied with regulatory requirements on in-person attendance rate; presided over and convened 1 meeting of the Nomination Committee and 2 meetings of the Supervision Committee; observed 1 shareholders' general meeting, 4 meetings of the Board of Directors and 6 meetings of special committees under the Board of Directors; reviewed the voting materials of the meetings of the Board of Directors and its special committees by correspondence, and supervised the operation of the meetings, and the performance of duties by Directors during the meetings. They continued to promote the implementation of regulatory opinions by the Board of Directors and senior management, and timely issued the Letter on Stepping up the Implementation of New Regulatory Regulations and Strengthening Steady Operations. They reviewed the minutes of the president's office meetings, minutes of special meetings conducted by the president, monthly financial statements, internal control compliance risk alerts, consumer rights protection risk alerts and other materials to strengthen daily supervision on performance.

#### V. INTERNAL CONTROL

The Bank has established a "four-in-one" internal control system consisting of process execution, functional management, second-line supervision and internal audit. The Bank adheres to the "comprehensive, whole-process, and whole-workforce" control principle in internal control management, compliance support, operational risk prevention, case prevention and control, anti-money laundering management, business continuity management, auditing and inspection and other aspects, to promote compliance and orderly management and steady development of all operations.

During the Reporting Period, the Bank continued to improve the long-term mechanism of internal control and compliance management, optimized the internal control and compliance management structure, and strengthened business line management; strengthened assessments and incentives to enhance the accuracy and effectiveness of the assessment of internal control and compliance management; continued to compile and issue the Internal Control Compliance Risk Alerts (《內控合規風險提示》) and conducted various forms of internal control and compliance training to continuously enhance the employees' awareness of compliance and cultivate a compliance culture; improved inspection mechanism, strengthened inspection management, and coordinated on-site inspections across the bank to realize the organic linkage of on-site inspection planning, execution and supervision; strengthened rectification and supervision, reinforced accountability, and precisely focused on violations; established an enterprise-level on-site inspection system, continuously optimized the internal control compliance model, and continuously improved the intelligent level of internal control compliance management.

### VI. INTERNAL AUDIT

The Bank has adopted a risk-based auditing model in internal audit. Based on the division of audit units and risk assessment of audit units, the Bank determines audit items according to regulatory requirements, key tasks of the whole bank, risk level and the principle of materiality, formulates annual plan for internal audit work, and actively performs the duties of audit and oversight on key businesses and major risk areas within its scope of responsibility. By tracking the rectification of audit findings, the Bank strives to promote the continuous improvement of the internal control and risk management system.

During the Reporting Period, the Bank carried out 19 special audits and 7 regular audits to tier-one branches in accordance with the plan for internal audit work approved by the Audit and Consumer Rights Protection Committee under the Board of Directors, the work arrangements of the Board of Supervisors and regulatory requirements, focusing on the Bank's central tasks on the "Ten Major Battles", and completed exit audits in a timely manner according to the Bank's actual situation. In response to the control weaknesses identified by internal audits, relevant departments or branches formulated remedial measures, and the audit department of the Bank has tracked the implementation of the remedial measures. The tracking results showed that, as of the end of the Reporting Period, the problems identified by internal audits of the Bank had been basically rectified before the deadline.

### VII. SECURITIES TRANSACTIONS BY DIRECTORS AND SUPERVISORS

The Bank has adopted the Model Code as the code of conduct for the supervision of securities transactions by Directors and Supervisors of the Bank. Following specific inquiries with all Directors and Supervisors of the Bank, the Directors and Supervisors of the Bank confirmed that they have complied with the Model Code during the Reporting Period.

#### VIII. AMENDMENTS TO THE ARTICLES OF ASSOCIATION

During the Reporting Period, the Bank did not amend the Articles of Association.

In 2022, in accordance with the Code of Corporate Governance of Banking and Insurance Institutions, the Provisional Measures for the Evaluation of Performance of Duties by Directors and Supervisors of Banking and Insurance Institutions, the Provisional Rules on Major Shareholders' Conduct of Banking and Insurance Institutions, the Administrative Measures for Related Party Transactions of Banking and Insurance Institutions and other relevant laws, regulations and regulatory documents, and based on the actual condition of the Bank, the Bank has made amendments to the Articles of Association, which have been considered and approved at the 2021 annual general meeting, the first domestic shareholders' class meeting of 2022 and the first H shareholders' class meeting of 2022 and will become effective upon approval by the regulatory authority. For details, please refer to the relevant announcements and circulars published by the Bank on the websites of the HKEX and the Bank.

#### IX. COMPLIANCE WITH CORPORATE GOVERNANCE CODE

The Bank has adopted the code provisions set out in Part 2 of Appendix 14 to the Listing Rules. Pursuant to code provision B.2.2, every director (including those appointed for a specific term) should be subject to retirement by rotation at least once every three years. The term of the fifth session of the Board of Directors of the Bank expired on December 15, 2022. Given that the re-election of the Board of Directors is still in preparation, the re-election of the Board of Directors has been postponed in order to maintain the continuity of the relevant work of the Bank. The Bank will publish announcements and circulars containing details of candidates for the new session of the Board of Directors as soon as practicable. Save and except for disclosed above, the Bank has complied with the code provisions set out in Part 2 of Appendix 14 to the Listing Rules during the Reporting Period. The Bank has also complied with certain recommended best practices set out in the Code.

### **Important Events**

### I. MATERIAL LITIGATIONS AND ARBITRATIONS

As of the end of the Reporting Period, the Bank as the plaintiff or claimant has involved in a total of 85 litigations with the amount in dispute of over RMB30 million each, most of which were routine litigations and settlements initiated by the Bank, and no provisions will be made.

As of the end of the Reporting Period, the Bank as the defendant or respondent has involved in a total of 5 litigations with the amount in dispute of over RMB10 million each. Among them, 1 case has been closed, 1 case has completed the first-instance judgment, and the Bank does not need to bear any responsibility. The remaining three cases have not yet entered the substantive trial stage. Currently, no provisions will be made.

As of the end of the Reporting Period, the Bank as the third party has involved in a total of 3 litigations with the amount in dispute of over RMB10 million each. Among them, 1 case has been closed, 1 case has completed the first-instance judgment, and the Bank does not need to bear any responsibility. The remaining 1 case has not yet entered the substantive trial stage. Currently, no provisions will be made.

According to the above, the Bank considers that the above-mentioned litigations and arbitrations will not have any material impact on our operating activities and financial position.

In 2021, the Bank had a dispute with individual corporate customers over the business of bank acceptance bills pledged by certificates of deposit and reported the case to the security authorities. In 2022, the Bank filed a civil lawsuit with the People's Court in this regard. As of the Reporting Date, the case was in the judicial process. The outcome of the case is subject to the judgment of the court, and the Bank is of the view that the financial impact of the above dispute cannot be reliably estimated.

# II. INCREASE OR REDUCTION IN THE REGISTERED CAPITAL, ACQUISITION AND DISPOSAL OF ASSETS AND BUSINESS MERGER

During the Reporting Period, there was no change in the registered capital of the Bank, nor were there any material acquisition and disposal of assets or business merger.

### III. IMPLEMENTATION OF EQUITY INCENTIVE PLANS

During the Reporting Period, the Bank did not implement any equity incentive plans.

# IV. MATERIAL RELATED PARTY TRANSACTIONS AND CONNECTED TRANSACTIONS

During the Reporting Period, all related party transactions of the Bank were conducted in accordance with relevant laws and regulations as well as relevant provisions of domestic and overseas regulatory authorities and the Bank's rules for related party transactions. These transactions were conducted in adherence to the general business principles, and based on conditions which were not superior to those granted to an independent third party, and their terms were fair and reasonable and in the interests of the Company and its Shareholders as a whole.

The related party transactions of the Bank were mainly the credit business with the members of the Shareholders' group. Please refer to "Review Report and Interim Financial Report – Notes to the Unaudited Consolidated Financial Statements: 'Related parties'" in this report.

### (I) Related Party Transactions Relating to Daily Operation

According to the Administrative Measures for Related Party Transactions of Banking and Insurance Institutions issued by the CBIRC, the material related party transactions of the Bank were all credit business. All credit-granting related party transactions were conducted in accordance with relevant laws and regulations, external regulatory requirements, the Bank's credit conditions and review procedures. During the Reporting Period, the Board of Directors of the Bank approved one resolution on material related party transactions, which were the related party transactions on credit business of CBHB Wealth Management Co., Ltd. (渤銀理財有限責任公司) considered and approved at the 45th meeting of the fifth session of the Board of Directors.

As of the end of the Reporting Period, the Bank's net credit amount granted to all related parties were RMB23,021 million according to the standards of the National Financial Regulatory Administration. Specifically, the net credit amount granted to TEDA Investment Holding Co., Ltd. and its related parties was RMB12,430 million, that granted to China Shipping Investment Co., Ltd. and its related parties was RMB700 million, that granted to State Development & Investment Corp., Ltd. and its related parties was RMB415 million, that granted to China Baowu Steel Group Corporation Limited and its related parties was RMB618 million, that granted to Oceanwide Industry Co., Ltd. and its related parties was RMB8,403 million, and that granted to other related parties reached RMB455 million.

According to the standards of Hong Kong Stock Exchange, the Bank's net credit amount granted to all connected persons amounted to RMB13,130 million. Specifically, the Bank extended RMB12,430 million of net credits to TEDA Investment Holding Co., Ltd. and its connected persons, RMB700 million to China Shipping Investment Co., Ltd. and its connected persons, and RMB40,000 to other connected persons. The above-mentioned connected transactions are transactions conducted by the Bank with its connected persons in the ordinary course of business on general commercial terms or better terms for the Bank, which are fully exempted in accordance with Chapter 14A of the Listing Rules.

Non-credit transactions between the Bank and related parties, such as deposits, services, leasing, agency sales, custody and entrusted management of wealth management products, and other daily related party transactions, are subject to general commercial terms and conditions no superior to those granted to independent third parties. None of the above-mentioned transactions constitute material related party transactions under the standards of the National Financial Regulatory Administration, and they are connected transactions meeting the minimum exemption level under Chapter 14A of the Listing Rules.

# (II) Related Party Transactions Involving Disposal and Acquisition of Assets or Equity

During the Reporting Period, the Bank was not engaged in any related party transactions involving disposal and acquisition of assets or equity.

### (III) Related Party Transactions in Joint External Investment

During the Reporting Period, the Bank was not engaged in any related party transactions in joint external investment.

### V. MATERIAL CONTRACTS AND THEIR PERFORMANCE

### (I) Material Custody, Contracting or Leasing Matters

During the Reporting Period, the Bank had no material custody, contracting or leasing matters which were required to be disclosed.

### (II) Material Guarantees

During the Reporting Period, save as normal operation activities, the Bank had no material guarantee matters which were required to be disclosed.

### (III) Other Material Contracts

During the Reporting Period, the Bank had no other material contract matters which were required to be disclosed.

### VI. SIGNIFICANT INVESTMENT AND MAJOR INVESTMENT PLAN

During the Reporting Period, the Bank had no significant external equity investment or major external equity investment plans.

# VII. PENALTIES IMPOSED ON THE BANK AND ITS DIRECTORS, SUPERVISORS AND MEMBERS OF SENIOR MANAGEMENT

During the Reporting Period, the Bank was not subject to any investigation due to suspected crimes according to law, or any criminal penalty. The Bank was not subject to any investigation or administrative penalty by the CSRC due to suspected violations of laws and regulations, or any administrative penalty by other competent authorities that has a significant impact on the operation and management of the Bank. During the Reporting Period, none of the Directors, Supervisors or members of senior management was subject to any coercive measures due to suspected crimes according to law, any criminal penalty, any investigation or administrative penalty by the CSRC and other competent authorities due to suspected violations of laws and regulations in their performance of duties in the Bank, any confinement measures by disciplinary inspection authorities due to suspected serious violations of discipline, law or duty crimes which affect their performance of duties, or any coercive measures by other competent authorities due to suspected violations of laws and regulations which affect their performance of duties in the Bank. During the Reporting Period, neither the Bank nor any of its Directors, Supervisors or members of senior management was subject to any administrative and regulatory measures or disciplinary actions taken by the CSRC, other competent authorities or the stock exchange.

### VIII. OTHER MATERIAL EVENTS

The Bank issued three-year financial bonds with a face value of RMB10 billion on May 12, 2023, with a fixed coupon rate of 2.88% per annum.

### IX. SUBSEQUENT EVENTS

The Bank issued three-year financial bonds with a face value of RMB10 billion on July 25, 2023, with a fixed coupon rate of 2.72% per annum.

### X. REVIEW OF INTERIM RESULTS

The Bank's external auditor Deloitte Touche Tohmatsu has reviewed the interim financial report prepared by the Bank in accordance with IFRS and the disclosure requirements of the Listing Rules. Meanwhile, the Audit and Consumer Rights Protection Committee under the Board of the Bank has reviewed and approved the Bank's results and financial report for the six months ended June 30, 2023.

#### XI. PUBLICATION OF THE INTERIM REPORT

The English and Chinese versions of the interim report prepared by the Bank pursuant to the IFRS and the Listing Rules are available on the website of the HKEX and the Bank's website.

# Report on Review of Consolidated Financial Statements

### To the Board of Directors of CHINA BOHAI BANK CO., LTD.

(A joint stock company incorporated in the People's Republic of China with limited liability)

#### Introduction

We have reviewed the consolidated financial statements of CHINA BOHAI BANK CO., LTD. (the "Bank") and its subsidiary (collectively the "Group") set out on pages 70 to 168, which comprise the consolidated statement of financial position as of 30 June 2023 and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the six-month period then ended, and certain explanatory notes. The Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited require the preparation of the interim financial statements to be in compliance with the relevant provisions thereof and International Accounting Standard 34, Interim Financial Reporting ("IAS 34"), issued by the International Accounting Standards Board. The directors of the Bank are responsible for the preparation and presentation of these consolidated financial statements in accordance with IAS 34. Our responsibility is to express a conclusion on these consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the International Auditing and Assurance Standards Board. A review of these consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

# 1. Background information

CHINA BOHAI BANK CO., LTD. (the "Bank") is a national joint-stock commercial bank established in Tianjin on 30 December 2005.

The Bank was approved by the former China Banking and Insurance Regulatory Commission (the "CBIRC") to hold financial business permit (No. B0017H112000001) and the Tianjin Administration for Market Regulation for the business license (Unified social credit code No. 911200007109339563).

On 16 July 2020, the Bank's H shares were listed on the Main Board of The Stock Exchange of Hong Kong Limited with the stock code 9668.

The Bank's operation commenced on 16 February 2006. As at 30 June 2023, the Bank has established 36 tier-one branches, 33 tier-two branches, and 261 sub-branches. The total number of outlets reached 351, including 330 branches and sub-branches, and 21 small and micro community sub-branches.

The principal activities of the Bank include absorbing public deposits; offering short-term, medium term and long-term loans; arranging settlement of domestic and international accounts; handling acceptance and discount of bill; issuing financial bonds; acting as agent to issue, settle and underwrite government bonds and proprietary trading bonds issued by financial institutions and government; inter-bank borrowing and lending; trading of foreign currencies for its own account and on behalf of its customers; selling and purchasing foreign exchange, bank card business; letters of credit and financial guarantees; acting as agent on inward and outward payments; acting as an insurance agent, safe-deposit facilities, derivative trading, securities investment custody, insurance fund custody, selling securities investment fund and other business approved by the banking regulatory institutions of the State Council.

According to the "Approval from the China Banking and Insurance Regulatory Commission on the Opening of CBHB Wealth Management Co., Ltd. (渤銀理財有限責任公司)", the Bank established its wholly owned subsidiary CBHB Wealth Management Co., Ltd. with a registered capital of RMB2 billion on 6 September 2022. The approved business scope of CBHB Wealth Management Co., Ltd. includes public issuance of financial products to the non-specific public, investment and management of the entrusted investor assets; non-public issuance of wealth management products to qualified investors, investment and management of the entrusted investor assets, consultancy and advisory services and other business as approved by the banking regulatory institutions of the State Council. The Bank and its subsidiary are collectively referred to as the "Group".

# Basis of preparation and accounting policies **Basis of preparation**

The consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting, issued by the International Accounting Standards Board ("IASB") as well as the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

The interim consolidated financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs"), and should be read in conjunction with the audited annual consolidated financial statements for the year ended 31 December 2022.

The consolidated financial statements are unaudited, but have been reviewed by Deloitte Touche Tohmatsu in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the International Auditing and Assurance Standards

### Accounting judgements and estimates

The preparation of the consolidated financial statements in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied in the preparation of the consolidated financial statements for the year ended 31 December 2022. Actual results may differ from these estimates.

# Significant accounting policies

In the current period, the Group has applied, for the first time, the follow IFRS and amendments to IFRSs (including IASs and their amendments) issued by the IASB.

IFRS 17 (including the June 2020

Insurance Contracts

and December 2021 amendments to IFRS 17):

Amendments to IAS 1 and IFRS Disclosure of Accounting Policies

Practice Statement 2:

Definition of Accounting Estimates

Amendments to IAS 8: Amendments to IAS 12:

Deferred Tax related to Assets and Liabilities arising from a Single Transaction

Amendments to IAS 12:

International Tax Reform - Pillar Two Model Rules

The adoption of these IFRS and amendments has no material impact on the financial position and the financial performance of the Group.

The Group has not applied any new standard, amendment or interpretation that is not yet effective for the current accounting period.

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

# 2. Basis of preparation and accounting policies (Continued)

# **Significant accounting policies** (Continued)

Other than the application of these IFRS and amendments to IFRSs mentioned above, the accounting policies and methods of computation used in the consolidated financial statements for the six months ended 30 June 2023 are the same as those presented in the Group's annual consolidated financial statements for the year ended 31 December 2022.

(In RMB thousands, unless otherwise stated)

# 10. Income tax expense

## (a) Income tax expense:

|                             |       | Six months ended 30 June |                        |
|-----------------------------|-------|--------------------------|------------------------|
|                             | Note  | 2023<br>(Unaudited)      | 2022<br>(Unaudited)    |
| Current tax<br>Deferred tax | 21(b) | 1,555,628<br>(995,874)   | 1,448,388<br>(824,464) |
| Total                       |       | 559,754                  | 623,924                |

# (b) Reconciliations between income tax expense and accounting profit are as follows:

|  | Six months ended 30 June   |                             |
|--|----------------------------|-----------------------------|
|  | 2023<br>(Unaudited)        | 2022<br>(Unaudited)         |
| Profit before taxation   | 4,658,582                  | 5,026,840                   |
| People's Republic of China ("PRC") statutory income tax rate Tax at the PRC statutory income tax rate Effects of non-deductible expenses | 25%<br>1,164,646<br>72,331 | 25%<br>1,256,710<br>284,777 |
| Effects of non-taxable income (i) Effects of others  | (597,787)<br>(79,436)      | (917,589)<br>26             |
| Income tax expense   | 559,754                    | 623,924                     |

<sup>(</sup>i) The non-taxable income mainly represents the interest income arising from the PRC government bonds, municipal debts, and dividend income from funds.

# 11. Basic and diluted earnings per share

|   | Six months ended 30 June |                     |
|---|--------------------------|---------------------|
|   | 2023<br>(Unaudited)      | 2022<br>(Unaudited) |
| Net profit for the period attributable to ordinary shareholders of the parent company                                 | 4,098,828                | 4,402,916           |
| Weighted average number of ordinary shares in issue (in thousands) Basic and diluted earnings per share (in RMB Yuan) | 17,762,000<br>0.23       | 17,762,000<br>0.25  |

There is no difference between basic and diluted earnings per share as there were no potentially dilutive shares outstanding during the reporting period.

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

# 12. Cash and deposits with the central bank

|   | Notes      | At 30 June<br>2023<br>(Unaudited)   | At 31 December<br>2022<br>(Audited) |
|---|------------|-------------------------------------|-------------------------------------|
| Cash on hand  |            | 863,807                             | 503,504                             |
| Deposits with the central bank  – Statutory deposit reserves  – Surplus deposit reserves  – Fiscal deposits and other | (a)<br>(b) | 61,968,108<br>33,738,233<br>100,682 | 62,453,533<br>45,085,427<br>320,029 |
| Sub-total   |            | 95,807,023                          | 107,858,989                         |
| Interests accrued   |            | 28,741                              | 31,691                              |
| Total   |            | 96,699,571                          | 108,394,184                         |

The Bank places statutory deposit reserves with the People's Bank of China ("PBoC") in accordance with relevant regulations. As at the end of the reporting period, the statutory deposit reserve ratios applicable to the Bank were as

|   | At 30 June<br>2023 | At 31 December<br>2022 |
|---|--------------------|------------------------|
| Reserve ratio for RMB deposits              | 7.25%              | 7.50%                  |
| Reserve ratio for foreign currency deposits | 6.00%              | 6.00%                  |

The statutory deposit reserves are not available for the Group's daily business.

(b) The surplus deposit reserves with the PBoC include funds for the purpose of cash settlement.

(In RMB thousands, unless otherwise stated)

#### 15. Derivative financial instruments

A derivative is a financial instrument, the value of which changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other similar variables. Derivative financial instruments used by the Group mainly include forwards, swaps and option contracts.

The notional amount of a derivative represents the amount of the underlying asset upon which the value of the derivative is based. It indicates the volume of business transacted by the Group but does not reflect the risk.

The notional amount and fair value of unexpired derivative financial instruments held by the Group are set out in the following tables:

|  | 30 June 2023 (Unaudited)  |   |  |
|--|---|---|--|
|  |   | Fair value  |  |
|  | Notional amount   | Assets  | Liabilities  |

| Interests in associate | -           | 9 and 1 and |

The Group invested in Hawtai Motor Finance Co., Ltd. ("Hawtai") in 2015, with a percentage of equity and voting rights of 10%. The investment in Hawtai is accounted for under the equity method. As at 30 June 2023 and 31 December 2022, the Group's share of accumulated losses exceeds its interest in the associate. As the Group has no obligation in respect of any additional losses, the Group's interest in associate is reduced to nil.

#### (b) Main Clauses

#### (i) Principal amount

The principal amount of the Bonds is RMB20 billion.

#### (ii) Maturity date

The Bonds will continue to be outstanding so long as the Issuer's business continues to operate.

#### (iii) Distribution rate

The distribution rate of the Bonds will be adjusted at defined intervals, with a distribution rate adjustment period every 5 years since the payment settlement date. In any distribution rate adjusted period, interests will be based on a fixed prescribed distribution rate.

The distribution rate is determined by a benchmark rate plus a fixed spread. The benchmark rate is the arithmetic average of the yields to maturity of 5 trading days prior to the announcement date of the Bonds subscription agreement, as indicated by the yield curve of applicable 5-year China government Notes (rounded up to 0.01%) published on China Bond website (or other websites approved by the China Central Depository & Clearing Co., Ltd.). The fixed spread is the difference between the distribution rate and the benchmark rate as determined at the time of issuance. The fixed spread will not be adjusted once determined.

The Bonds do not have any distribution rate step up mechanism nor any other incentive to redeem.

# 33. Other equity instruments (Continued) Undated capital bonds (Continued)

#### **(b) Main Clauses** (Continued)

#### (iv) Conditional redemption rights of the issuer

The Bonds have conditional redemption rights for the Issuer. From the fifth anniversary since the issuance of the Bonds, the issuer may redeem the Bonds in whole or in part on each distribution payment date (including the fifth distribution payment date since the issuance). If, after the issuance, the Bonds no longer qualify as Additional Tier 1 Capital as a result of any unforeseeable change or amendment to the relevant provisions of supervisory regulations, the issuer may redeem all but not part of the Bonds.

#### (v) Order of distribution and liquidation

The claims in respect of the Bonds, in the event of the liquidation of the issuer, will be subordinated to claims of depositors, general creditors, and subordinated indebtedness that rank senior to the Bonds; shall rank in priority to all classes of shares held by the issuer's shareholders and rank pari passu with the claims in respect of any other Additional Tier 1 Capital instruments of the issuer that rank pari passu with the Bonds.

#### (vi) Distribution Payment

The distribution of the Bonds will be payable annually. The distribution payment date of the Bonds shall be 16 September of each year. The Issuer shall have the right to cancel, in whole or in part, distributions on the Bonds and any such cancellation shall not constitute an event of default. When exercising such right, the issuer will take into full consideration the interest of the Bond holders. The issuer may, at its sole discretion, use the proceeds from the cancelled distributions to meet other obligations as they fall due. Cancellation of any distributions on the Bonds, no matter in whole or in part, will not impose any other restriction on the issuer, except in relation to dividend distributions to ordinary shareholders. Any cancellation of distribution on the Bonds, whether in whole or in part, will require approval of the general meeting, and the Bond holders should be notified promptly.

#### (vii) Put Option

The investors do not have any put option to sell back the Bonds.

# 33. Other equity instruments (Continued) Undated capital bonds (Continued)

#### **(b) Main Clauses** (Continued)

#### (viii) Write down Clauses

Upon the occurrence of an Additional Tier 1 Capital Trigger Event, namely, the issuer's Core Tier 1 Capital Adequacy Ratio having fallen to 5.125% (or below), the issuer has the right, subject to the approval of the National Financial Regulatory Administration ("NFRA") but without the need for the consent of the Bond holders, to write down all or part of the aggregate amount of the Bonds then issued and outstanding, in order to restore the Core Tier 1 Capital Adequacy Ratio to above 5.125%. In the case of a partial write-down, all of the Bonds then issued and outstanding shall be written down on a pro rata basis, according to the outstanding par value, with all other Additional Tier 1 Capital instruments with equivalent write-down clauses of the issuer. The Bonds may be subject to write-down more than once, in order to restore the Core Tier 1 Capital Adequacy Ratio of the issuer to above 5.125%.

Upon the occurrence of a Tier 2 Capital Trigger Event, the issuer has the right to write down in whole, without the need for the consent of Bond holders, the aggregate principal amount of the Bonds then issued and outstanding according to the outstanding par value. A Tier 2 Capital Trigger Event refers to the earlier of the following events: (a) NFRA having decided that the issuer would become non-viable without a write down; (b) any relevant authority having decided that a public sector injection of capital or equivalent support is necessary, without which the issuer would become non-viable. Upon write-off of the Bonds, such Bonds are to be permanently cancelled and will not be restored under any circumstances.

## 34. Reserves

## (a) Capital reserve

|               | At 30 June<br>2023<br>(Unaudited) | At 31 December<br>2022<br>(Audited) |
|---------------|-----------------------------------|-------------------------------------|
| Share premium | 10,732,077                        | 10,732,077                          |

## (b) Surplus reserve

Pursuant to the Company Law of the PRC and the Articles of Association, the Group is required to appropriate 10% of its net profit for the current year, as determined under the Accounting Standards for Business Enterprises and other relevant requirements ("PRC GAAP"), to statutory surplus reserve until the balance reaches 50% of its registered capital. For the year ended 31 December 2022, the Group appropriated statutory surplus reserve based on 10% of the net profit amounting to approximately RMB611 million.

## (c) General reserve

Pursuant to the "Measures on Impairment Allowances for Financial Enterprises (Cai Jin [2012] No. 20)" issued by the Ministry of Finance, the Bank is required to set aside a general reserve through profit appropriation which should not be lower than 1.5% of the ending balance of its gross risk-bearing assets on an annual basis. For the year ended 31 December 2022, the Bank appropriated 1.5% of the ending balance of the gross risk-bearing assets as general reserve amounting to approximately RMB749 million.

Pursuant to the "Measures for the Administration of Wealth Management Subsidiary Companies of Commercial Banks" issued by the CBIRC, the Bank's subsidiary shall appropriate general reserve until the balance reaches 1% of the ending balance of its wealth management products.

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

## 35. Retained earnings

## **Dividends to ordinary shareholders**

In accordance with the resolution at the Bank's Annual General Meeting held on 18 May 2023, the Bank did not distribute dividends to ordinary shareholders for the year ended 31 December 2022.

In accordance with the resolution at the Bank's Annual General Meeting held on 16 May 2022, the shareholders approved the distribution of cash dividends of approximately RMB1,545 million for the year ended 31 December 2021 to the ordinary shareholders.

## **Interests for Undated Capital Bonds**

The Bank declared and distributed the interest on the 2021 Undated Capital Bonds amounting to RMB950 million on 16 September 2022.

## 36. Interests in unconsolidated structured entities

# (a) Structured entities sponsored by third party institutions in which the Group holds an interest:

The Group holds interests in certain structured entities sponsored by third party institutions through investments in the units issued by these structured entities. Such structured entities include the wealth management products issued by financial institutions, investment management products managed by securities companies and trust schemes and investment funds. The nature and purpose of these structured entities are to generate fees from managing assets on behalf of investors. These vehicles are financed through the issue of units to investors.

The following table sets out an analysis of the carrying amounts of interests held by the Group in unconsolidated structured entities, as well as an analysis of the line items in the statement of financial position in which relevant assets are recognised as at 30 June 2023 and 31 December 2022:

|   |  | At 30   | June 2023 (Unaud  | ited)                                  |  |

# (b) Structured entities sponsored by the Group which the Group does not consolidate but holds an interest in:

The types of unconsolidated structured entities sponsored by the Group include non-principal guaranteed wealth management products. The nature and purpose of these structured entities are to generate fees from managing assets on behalf of investors. These structured entities are financed through the issue of wealth management products to investors. Interest held by the Group relates to fees charged by providing management services.

For the six months ended 30 June 2023 and 2022, the amount of fee and commission income received from the abovementioned structured entities by the Group amounted to RMB779 million and RMB416 million, respectively.

As at 30 June 2023 and 31 December 2022, the amount of assets held by the unconsolidated non-principal guaranteed wealth management products, which are sponsored by the Group, were RMB137,951 million and RMB168,309 million, respectively.

# (c) Unconsolidated structure entities sponsored by the Group during the period which the Group does not have an interest in as at 30 June:

The aggregated amount of the non-principal-guaranteed wealth management products sponsored and issued by the Group after 1 January 2023 but matured before 30 June 2023 was RMB2,935 million (the aggregated amount of the non-principal-guaranteed wealth management products sponsored and issued by the Group after 1 January 2022 but matured before 30 June 2022 was RMB14,183 million).

## 37. Transferred financial assets

The Group enters into transactions in the normal course of business whereby it transfers recognised financial assets to third parties or to structured entities. These transfers may give rise to full or partial derecognition of the financial assets concerned if they fulfill the derecognition criteria. If they do not meet the derecognition criteria as the Group retains substantially all the risks and rewards of these assets, the Group continues to recognise the transferred assets.

The Group enters into transactions by which it transfers loans to structured entities which issue trust units to investors. The Group assessed among other factors, whether or not to derecognise the transferred assets by evaluating the extent to which it retains the risks and rewards of the assets and whether it has relinquished control over these assets.

For the six months ended 30 June 2023, the Group has not transferred any financial assets. In 2022, the Group transferred loans and advances to customers to independent third parties amounting to RMB734 million at the transfer price of RMB640 million, and to structure entities amounting to RMB865 million at the time of transfer. These transactions were all qualified for full de-recognition.

## 38. Capital management

The Group implements a comprehensive capital management framework, covering the management of the regulated capital, economic capital and book capital, particularly the capital compliance management, capital planning, allocation and evaluation.

In setting its capital adequacy objective, the Group considers regulatory requirements, external rating objective and its own risk appetite, so as to protect the interest of its customers and creditors, maximise the value of shareholders and meet all regulatory requirements on capital management.

The Group calculates capital adequacy ratios in accordance with the "Regulation Governing Capital of Commercial Banks (Provisional)" and related regulatory requirements promulgated by the former China Banking Regulatory Commission (the "former CBRC"). In calculating its capital adequacy ratios, the Group considers all its domestic and overseas branches and sub-branches and financial institution subsidiaries (excluding insurance companies).

The on-balance sheet risk-weighted assets are measured using different risk weights, which are determined according to the credit, market and other risks associated with each asset and counterparty, taking into account any eligible collaterals or guarantees. Similar treatment is adopted for off-balance sheet exposure, with adjustments made to reflect the more contingent nature of any potential losses. The credit risk-weighted assets of counterparties in overthe-counter derivatives transactions are the sum of default risk-weighted assets of counterparties and credit-adjusted risk-weighted assets. Market risk-weighted assets are calculated using the standardised approach. Operational risk-weighted assets are calculated using basic indicator approach.

The former CBRC requires commercial banks to meet the requirements of capital adequacy ratios by the end of 2018 in accordance with "Regulation Governing Capital of Commercial Banks (Provisional)" and related regulatory requirements. For systemically important banks, minimum core tier 1 capital adequacy ratio, tier 1 capital adequacy ratio and capital adequacy ratio should reach 8.5%, 9.5% and 11.5%, respectively. For non-systemically important banks, the minimum ratios for core tier 1 capital adequacy ratio, tier 1 capital adequacy ratio and capital adequacy ratio are 7.5%, 8.5% and 10.5%, respectively. During the reporting period, the Group has complied with the capital requirements of the regulatory authorities.

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

## 38. Capital management (Continued)

The Group calculates its core tier 1 capital adequacy ratio, tier 1 capital adequacy ratio and capital adequacy ratio in accordance with the former CBRC's "Regulation Governing Capital of Commercial Banks (Provisional)" and related regulatory requirements. The capital adequacy ratios and related components of the Group illustrated below are computed based on the Group's statutory financial statements prepared in accordance with PRC GAAP.

The Group's capital adequacy ratios at 30 June 2023 and 31 December 2022 calculated in accordance with "Regulation Governing Capital of Commercial Banks (Provisional)" and related regulatory requirements promulgated by the former CBRC are as follows:

|  | At 30 June    | At 31 December                          |

There were no amounts due but unpaid as at 30 June 2023 and 31 December 2022.

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

## 41. Segment reporting

## (a) Operating segment

The Group manages its business by operating segments. Consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group defines reporting segments based on the following operating segments:

#### Corporate banking

This segment represents the provision of a range of financial products and services to corporations, government agencies and financial institutions. These products and services include corporate loans and advances, trade financing, deposit taking activities, agency services, wealth management services, consulting and advisory services, remittance and settlement services and guarantee services.

#### Retail banking

This segment represents the provision of a range of financial products and services to retail customers. These products and services include personal loans, deposit taking activities, personal wealth management services and remittance services.

#### Financial market

This segment covers the Group's financial market business operations. The financial market business includes inter-bank money market transactions, repurchases transactions, inter-bank investments, and bond investments and trading. The financial market business segment also covers management of the Group's overall liquidity position, including the issuance of debts.

#### **Others**

These represent assets, liabilities, income and expenses which cannot be directly attributable or allocated to a segment on a reasonable basis.

Measurement of segment assets and liabilities and of segment income, expenses and results is based on the Group's accounting policies.

Internal charges and transfer prices are determined with reference to market rates and have been reflected in the performance of each segment. Interest income and expense earned from third parties are referred to as "external net interest income/expense". Net interest income and expense arising from internal charges and transfer pricing adjustments are referred to as "internal net interest income/expense".

Segment income, expenses, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Intra-group balances and intra-group transactions are eliminated by segment income, expenses, assets and liabilities as part of the consolidation process. Segment capital expenditure is the total cost incurred for the six months ended 30 June 2023 and for the year ended 31 December 2022 to acquire property and equipment, intangible assets and other long-term assets.

## 42. Financial risk management

The Group has exposure to the following financial risks: credit risk, market risk, liquidity risk and operational risk.

The Group develops and continually improves risk management policies, limit system, control procedures and information system based on the latest changes in regulatory policies, market environment and business development to analyse, identify, monitor and report various risks.

This note presents information about the Group's exposure to each type of risk mentioned above and their root cause, and the Group's objectives, policies and procedures for measuring and managing these risks.

## Risk management system

The Board of Directors (the "Board") of the Group undertakes the ultimate responsibility for comprehensive risk management. The Risk Management and Green Finance Committee is set up under the Board, which reports to the Board. The Board of Supervisors of the Group takes the role of supervising the comprehensive risk management and is responsible for supervising the performance of the Board and senior management in risk management and the rectification. The senior management shall assume the responsibilities of implementing the comprehensive risk management and executing the resolutions of the Board.

The Group has established a risk prevention system consisting of three lines of defense against each type of key risk to which it is exposed. The first line of defense is formed by various business departments at the head office, branches, and sub-branches of the Group, which are directly responsible for the prevention of various types of risks. The second line of defense is various risk management departments, Assets and Liabilities Management Department, Internal Control and Compliance Departments, General Office (Public Relations Department), Strategic Development and Investment Management Offices of the Group, which take the lead in formulating the requisite policies and procedures, and supervising bank-wide risk management measures. The third line of defense is the Audit Department of the Group, which is responsible for auditing the effectiveness of the first and second line of defense.

## (a) Credit risk

Credit risk is one of the most important risks facing the business operations of the Group. The Group may be exposed to significant risks when all counterparties are concentrated in a single industry or region. This is mainly because the counterparties' concentration risk is subject to the same impact by the economic development of the region or industry in which they operate.

The Board of the Group undertakes the ultimate responsibility for credit risk management and could authorise the Risk Management and Green Finance Committee to execute some of its functions. The Group continues to improve the credit risk management system, credit risk management policies and tools, and the management process is gradually moving towards online and digital. The efficiency of credit approval is further enhanced, providing strategic support for the business development of the Group.

## 42. Financial risk management (Continued)

## (a) Credit risk (Continued)

#### Measurement of credit risk

#### Loans and advances to customers and off-balance sheet credit commitments

The Risk Management Department, Credit Review and Approval Department, Asset Monitoring Department and Retail Risk Management Department are jointly responsible for management of credit risks in various credit exposures, and the credit risk management for financial investments. For corporate credit business, the Group has established a customer credit rating model system and a debt rating model system. Through customer credit rating evaluation, the Group understands the credit risk of each customer and determines the probability of default. Through debt rating, the Group makes clear the loss given default of each credit business, which can be used as a reference for credit managers to balance risks and benefits. With respect to retail credit business, the Group measures credit risk of loans and customers by closely studying the ecological platform of retail market segments and continuously improving credit scoring models and data mining and risk analysis of the historical performance of the borrowers, so as to gradually improve the effectiveness and efficiency of credit access, asset management, asset classification and impairment provisioning.

# Deposits and placements with banks and other financial institutions and financial assets held under resale agreements

The Group adopts a comprehensive credit underwriting process in relation to approving credit limits for financial institution counterparties engaged in interbank placements, investment securities and securities under repurchase and resale agreements. On top of internal credit rating and customer classification, the Group assesses the credit risk of these counterparties through a quantitative and qualitative approach which collectively assesses and evaluates their size, management capabilities, business prospects, industry position, external environment, regulatory indicators and cooperation with the Group and financial standing and performance etc.

#### Debt investments and derivative financial instruments

Before making investment in bonds issued by financial institutions or corporate bonds or before any dealing in financial derivatives with clients, the Group conducts credit assessment on the issuers and the potential clients for dealing in derivative financial instruments (excluding customers who pay full margin). The Group is also appropriately using external credit rating in assessing risk.

The credit risks in derivatives engaged by the Group are mitigated mainly through margin deposits, government bonds, pledge of time deposit certificates accepted by the Group and credit facilities from the Bank

Prior to approval, the Asset and Liability Management Department assesses the potential future exposure ratio for settlement of foreign exchange on behalf of customers which is guaranteed by margin. The Credit Monitor Department is responsible for reviewing the specific transaction. Transactions are carried out in accordance with the business administrative measures.

## 42. Financial risk management (Continued)

## (a) Credit risk (Continued)

#### Credit risk limit management

#### Loans and advances to customers and off-balance sheet credit commitments

The Group takes effect credit underwriting amount for the customers in accordance with the approval opinions. Meanwhile, the Group reviews the approved conditions for the credit line and monitors the use of the credit limit. The Group has strict controls to prevent the use of credit that exceeds the approved amounts or conditions. Where customers provide collateral, credit limits shall be frozen or adjusted in a timely manner in response to changes in collateral value.

# Deposits and placements with banks and other financial institutions and financial assets held under resale agreements

The Group activates the credit line for financial institution counterparties based on the credit approval, and monitors the deposits and placements with banks and other financial institutions and financial assets held under resale agreements quotas based on the relevant information such as the credit approval and risk exposure.

#### Debt securities and derivative trading

The Group activates the credit line for financial institutions based on the credit approval, and monitors the debt investments and derivatives dealing limits of interbank and non-interbank customers based on the relevant information such as the credit approval and risk exposure.

#### Credit risk mitigation measures

#### Collateral

The credit policies of the Group provide specific requirements on the acceptable collaterals and pledges and set different rates for different collaterals and pledges based on their nature and extent of realisation. The Group sets out specific requirements for the qualifications of professional appraiser. In addition, through credit risk management system, the Group implements strict management on the collaterals and pledges and their ownership certificates to prevent the occurrence of operational risks.

If the value or quantity of collateral declines and the actual value of the collateral is insufficient to meet the collateral rate, the Group shall freeze the underlying credit underwriting amounts, require the customer to provide additional collateral or security deposit or repay the corresponding amount of credit line.

In respect of real estate development loans, by complying with relevant regulatory requirements, the Group assesses the value of collateralised real estate properties based on their progress of construction, cost to resume and complete construction, expected time of completion, selling prices and reasonable discount rates to prevent over extension of credit. For real estate properties accepted for pledge, the Group sets the minimum requirements on their completion.

The acceptable collaterals include financial collateral, real estate properties, accounts receivable and other collaterals, mainly consisting of cash and cash equivalent, stock, state-owned construction land use right, residential real estate, commercial real estate and accounts receivable.

## 42. Financial risk management (Continued)

## (a) Credit risk (Continued)

### **Credit risk mitigation measures** (Continued)

### Master netting arrangements

The Group and its counterparties enter into master netting arrangements for derivatives transactions to further reduce credit risk. Master netting arrangements may not lead to the offsetting between assets and liabilities on the statement of financial position, because the transactions are usually settled on a gross basis. However, the credit risk associated with contracts is reduced by a master netting arrangement to the extent that if a default occurs, all credit arrangements are terminated and settled on a net basis.

The derivatives are mainly settled in accordance with the provisions of the International Swaps and Derivatives Association and the features of the products, using, in principle, the method that involves the lowest settlement risk.

#### Credit commitments

The main objective of credit commitments is to ensure that customer obtain the funds they need. The Group makes irrevocable guarantee when it issues letters of guarantee, letters of credit and acceptance bill, i.e., the Group shall make repayments on behalf of the customer if the customer cannot meet its repayment obligations to a third party, and the Group assumes the same credit risks as those of a loan, review should be done in strict compliance with the Group's relevant requirements in conducting such business.

The Group considers margin deposits as one of the risk mitigation measures and receives certain margin deposits when conducting relevant credit extension business, with the exception of certain creditworthy clients, to reduce the credit risk involved in providing this service. The margin deposits are collected at a certain percentage of the committed amount based on the degree of credibility of the customers.

#### Impairment and provisioning policies

(1) Stages of risks in financial instruments

The financial assets are categorised by the Group into the following stages to manage their credit risk:

- Stage 1: Financial assets have not experienced a significant increase in credit risk since initial recognition and impairment is recognised on the basis of 12 months expected credit losses.
- Stage 2: Financial assets have experienced a significant increase in credit risk since initial recognition and impairment is recognised on the basis of lifetime expected credit losses.
- Stage 3: Financial assets that are in default and considered credit-impaired is recognised on the basis of lifetime expected credit losses.

## **42.** Financial risk management (Continued)

## (a) Credit risk (Continued)

#### **Credit risk mitigation measures** (Continued)

#### **Impairment and provisioning policies** (Continued)

(2) Significant increase in credit risk

The Group evaluates whether the credit risk of related financial instruments has increased significantly since initial recognition at least at the end of every financial reporting period. The Group makes full use of all reasonable and supportable information, including forward-looking information, to reflect the significant changes in its credit risk when it conducts the classification of losses of financial instruments. Criteria include regulatory and operating environment, internal and external credit ratings, solvency, operating capabilities, provisions of loan contract, and repayment activities etc. Based on a single financial instrument or a combination of financial instruments with similar credit risk characteristics, the Group compares the risk of default of financial instruments on the date of statement of financial position with that at the end of the prior period to determine the change in default risk during the expected duration of financial instruments. The Group judges whether the credit risk of a financial instrument has significantly increased since initial recognition from the risk classification, risk overdue days, internal and external ratings, probability of default, and market price etc.

(3) Definition of "default" and "credit-impaired assets"

When a financial asset is impaired, the Group identifies the financial asset as a default. Generally, if the financial asset is overdue for more than 90 days, it is considered as a default.

At each statement of financial position date, the Group assesses whether financial assets carried at amortised cost and debt instruments at fair value through other comprehensive income are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable information:

- significant financial difficulty of the borrower or issuer;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- for economic or contractual reasons relating to the borrower's financial difficulty, the Group having granted to the borrower a concession that would not otherwise consider;
- it is probable that the borrower will enter into bankruptcy or other financial reorganisation;
- the disappearance of an active market for that financial asset because of financial difficulties of the borrower or issuer;
- purchase or source a financial asset at significant discount, which reflects that the financial asset is credit-impaired; or
- overdue more than 90 days.

The above criteria apply to all financial assets of the Group and they are consistent with the definition of "default" adopted by the internal management of credit risk.

## 42. Financial risk management (Continued)

## (a) Credit risk (Continued)

### Credit risk mitigation measures (Continued)

#### Impairment and provisioning policies (Continued)

(4) Measurement of expected credit losses ("ECL")

The Group adopts ECL model to measure provision for loss of financial assets based on the stages categorised above.

The ECL is the result of the discounted product of probability of default (PD), exposure at default (EAD) and loss given default (LGD). The definitions of these terms are as follows:

- PD refers to the likelihood that a borrower will be unable to meet his repayment obligations over the next 12 months or the remaining lifetime of the loan;
- EAD is the amount that the Group should be reimbursed upon default of an obligor over the next 12 months or the remaining lifetime of the loan;
- LGD refers to the expected degree of loss arising from the exposure at default which is predicted by the Group. LGD varies according to different types of counterparties, methods and priority of recovering debts, and the availability of collaterals or other credit support.

The Group determines the ECL by estimating the PD, LGD and EAD of individual exposure or asset portfolios in the future years. The Group multiplies these three parameters and makes adjustments according to the probability of their continuance (i.e. there is no prepayment or default at an earlier period). For the purpose of calculating the lifetime ECL, the Group calculated the ECL of each period, and the results of calculation are then discounted to the date of statement of financial position and added up. The discount rate used in the calculation of ECL is the initial effective interest rate or its approximate value.

The lifetime PD is deduced from the 12-month probability of default using the maturity model. The maturity model describes the development rule of the defaults of the asset portfolio over its lifetime. The model is developed based on historical observable data and applicable to all assets in the same portfolio with the same credit rating. The above method is supported by empirical analysis.

The 12-month EAD and lifetime EAD are determined based on expected repayment arrangements, which are different according to different types of products.

In respect of the financial assets with instalment repayments and bullet repayment, the Group determines 12-month or lifetime EAD according to the repayment schedule agreed in the contract, and makes adjustment based on prediction of overlimit repayment and prepayments/refinancing made by the borrower.

As to the off-balance sheet credit commitments, the parameter of EAD is calculated using the current exposure method and obtained from multiplying the nominal amount of the off-balance sheet items on the statement of financial position date by the credit conversion factor.

The Group determines the 12-month LGD and lifetime LGD based on the factors that affects post-default recovery. LGD for different product types are different.

## **42.** Financial risk management (Continued)

## (a) Credit risk (Continued)

#### **Credit risk mitigation measures** (Continued)

#### **Impairment and provisioning policies** (Continued)

(4) Measurement of expected credit losses ("ECL") (Continued)

As to financial assets with collaterals, the Group determines the LGD according to the types of collaterals and their expected value, the discount rate at the compulsory sale, the recovery time and the estimated recovery cost.

As to financial assets without any collaterals, the Group usually determines the LGD at the product level due to the difference in recoverable amounts from different borrowers is limited.

Forward-looking economic information should be considered when determining the 12-month and lifetime PD, EAD and LGD.

The Group monitors and reviews assumptions related to the calculation of expected credit losses, including the changes in PD and the value of collaterals under the different time limits on a quarterly basis.

Forward-looking information included in the ECL model is as follows:

The calculation of ECL involves forward-looking information. After the historical analysis, the Group identified the key economic indicators related to ECL, such as gross domestic product (GDP), consumer price index (CPI), Purchasing Managers' index (PMI), Broad money supply (M2), and Industrial Added Value. The Group carried out regression analysis to determine the relationship between these economic indicators with PD and LGD so as to ascertain the impact of historical changes in these indicators on PD and LGD. The Group forecasts these economic indicators at least annually and provides the best estimates of the economic conditions for the coming year.

The important macroeconomic assumptions used by the Group in various macroeconomic scenarios include M2, CPI, GDP, Export Amount, Industrial Added Value, second-hand housing price index in 70 large and medium-sized cities, etc.

The Group established measurement models to identify the three risk weights, i.e. optimistic, neutral and pessimistic. During the six months ended 30 June 2023, the Group's optimistic scenario weight is 20%, neutral scenario weight is 60%, and pessimistic scenario weight is 20%. The Group measures allowance for credit losses for stage 1 based on the weighted average of the credit losses in the three cases in the next 12 months; and measures allowance for credit losses for the stage 2 and stage 3 based on the weighted average of credit losses in the three cases within the lifetime.

As at 30 June 2023 and at 31 December 2022, the fair value of collaterals held against loans and advances that are not credit-impaired and assessed for lifetime expected credit losses amounted to RMB13,803 million and RMB6,391 million. The fair value of collaterals held against loans and advances that are credit-impaired and assessed for lifetime expected credit losses amounted to RMB8,707 million and RMB8,975 million. The collaterals mainly include land, buildings, machinery and equipment, etc. The fair value of collaterals was estimated by the Group based on the latest external valuations available, adjusted in light of disposal experience and current market conditions.

#### (iii) Restructured loans and advances to customers

Restructured loans refer to those loans that the financial status of the relevant borrowers deteriorates, or that borrowers are not capable of repaying and therefore certain clauses on the loan contract are adjusted. As at 30 June 2023 and at 31 December 2022, the Group's restructured loans amounted to RMB1,096 million and RMB1,214 million, respectively.

Notes to the Unaudited Consolidated Financial Statements For the six months ended 30 June 2023

(In RMB thousands, unless otherwise stated)

## **42.** Financial risk management (Continued)

#### (a) Credit risk (Continued)

#### (iv) Credit rating

The Group adopts a credit rating approach in managing the credit risk of the debt securities and interbank certificates of deposit portfolio. Debt securities and interbank certificates of deposit are rated with reference to major rating agencies where the issuers are located. The carrying amounts of investments (excluding interests accrued) analysed by the rating agency designations as at 30 June 2023 and at 31 December 2022 are as follows:

|                                      | At 30 June<br>2023<br>(Unaudited) | At 31 December<br>2022<br>(Audited) |
|--------------------------------------|-----------------------------------|-------------------------------------|
| Neither overdue nor impaired Ratings |                                   |                                     |
| - AAA                                | 278,247,255                       | 288,636,217                         |
| - AA- to AA+                         | 37,029,416                        | 21,644,811                          |
| Sub-total                            | 315,276,671                       | 310,281,028                         |
| Sub-total                            | 3.372707071                       | 310,201,020                         |
| Unrated                              | 2,538,961                         | 3,064,777                           |
| Total                                | 317,815,632                       | 313,345,805                         |

# (b) Market risk (including the interest rate risk in the banking book)

Market risk refers to the risk of losses to the Group's on-balance sheet and off-balance sheet activities arising from unfavorable changes in market prices, mainly including interest rates and exchange rates, commodity price risk and equity price risks. The interest rate risk in the banking book refers to the risk of losses on the economic value and the overall income of the banking book resulted from unfavorable changes in interest rate levels and the maturity structure. The Group is exposed to market risks in its trading book and banking book. Financial instruments and commodity position held by the Group for the purpose of trading or hedging risks in other items of trading book and which can be traded freely are recorded in the trading book. The assets and liabilities of long-term positions held for the purpose of managing the liquidity of the Group, regulatory reserve or profit maximisation are included in the banking book. Generally, the assets and liabilities recorded in the banking book are mainly held-to-maturity.

## **42.** Financial risk management (Continued)

# (b) Market risk (including the interest rate risk in the banking book)

(Continued)

The Board is responsible for approving the strategies, policies and procedures of market risk management (including interest rate risks in the banking book, similarly hereinafter), determining the level of market risk tolerance, urging senior management to undertake necessary measures to identify, measure, monitor and control market risk, obtaining periodic reports associated with nature and level of market risk, monitoring and evaluating the comprehensiveness, effectiveness of market risk management, and performance of senior management under market risk management. The Group's senior management has set up the Asset and Liability Management Committee to formulate, review and supervise market risk policies and procedures, and workflow execution. The committee sets market risk limit according to the Board's risk appetite.

The Group sets up the market risk management team under the Asset and Liability Management Department. The team is independent of trading department, and responsible for market risk identification, measurement, monitoring, and control, ensuring that the market risk management of the Group is in compliance with the requirements of internal limits and external supervision and in accordance with the Group's market risk management policies and procedures.

#### Trading book market risk

#### Limits management

In order to control trading book market risk, the Group sets Value-at-Risk limits, Basis Point Value limits and stop loss limits.

#### Stress testing

Stress testing is used to assess the loss sustainability under extreme adverse conditions when significant market changes take place, including the extreme fluctuations of market risk elements, such as interest rates, exchange rates and their correlations, unexpected political or economic events, or a combination of the above situations. The Group conducts market risk stress testing on a regular basis.

#### Assessment of fair value

Assessment of the fair value of financial instruments is based on the quantitative analysis of the financial products that takes into consideration the specific characteristics of the financial products, market situation of trading strategy, risk factors and the quality of the counterparties. The Group assesses the fair value of its financial instruments on a regular basis.

## **42.** Financial risk management (Continued)

# (b) Market risk (including the interest rate risk in the banking book) (Continued)

#### Interest rate risk of banking book

Interest rate risk of banking book is managed mainly through such quantitative tools as gap management, sensitivity analysis and duration analysis to ensure the interest rate risk of the banking book are controlled within the scope set by the risk appetite.

The Group calculates the interest rate sensitivity gap based on repricing cash flow of the interest-earning assets and interest-bearing liabilities and conducts scenario analysis, to assess the impact on the Group of changes in interest rates. The impact on the market value of assets or liabilities of one basis point movement in interest rate was assessed through calculation of Basic Point Value.

The Group conducts banking book interest rate risk stress testing on a regular basis. In such stress testing, base interest rate and market rate are treated as the prime factor, and other factors such as unexpected political and economic events or a combination of the above situations.

#### Interest rate risk

The Group operates its business predominantly in Mainland China under the interest rate scheme regulated by PBoC.

The Group manages its interest rate risks through gap analysis, duration analysis and sensitivity analysis of its assets and liabilities. The Group has set limits to the rate gap, duration and interest rate sensitivity, and monitors regularly to ensure that the exposures are within the Group's limit.

#### Notes:

- (i) As at 30 June 2023 and 31 December 2022, for loans and advances to customers, the category "Less than three months" includes overdue amounts (net of allowance for impairment losses) of RMB14,370 million and RMB16,228 million, respectively.
- (ii) Financial investments include financial investments measured at fair value through profit or loss, financial investments measured at fair value through other comprehensive income and financial investments measured at amortised cost.

Interest rate risk (Continued)

#### (ii) Interest rate sensitivity analysis

The Group uses sensitivity analysis to measure the potential impact of changes in interest rate on the Group's profit before tax and equity (without tax effect). The following table sets forth the results of the Group's interest rate sensitivity analysis on profit before tax and equity (without tax effect) with an assumption that all other variables held constant.

|   | At 30 June<br>2023<br>(Unaudited)<br>(Decrease)/<br>Increase | At 31 December<br>2022<br>(Audited)<br>(Decrease)/<br>Increase |
|---|--|--|
| Change in profit before tax Up 100 bps parallel shift in yield curves Down 100 bps parallel shift in yield curves | (1,846,965)<br>1,846,965                                     | (688,950)<br>688,950   |

|   | At 30 June<br>2023<br>(Unaudited)<br>(Decrease)/<br>Increase | At 31 December<br>2022<br>(Audited)<br>(Decrease)/<br>Increase |
|---|--|--|
| Change in equity (without tax effect) Up 100 bps parallel shift in yield curves Down 100 bps parallel shift in yield curves | (2,799,413)<br>2,799,413                                     | (1,590,633)<br>1,590,633                                       |

The sensitivity analysis above is based on a static interest rate risk profile of the Group's assets and liabilities. This analysis measures only the impact of changes in interest rates within one year, showing how annualised profit before tax and equity (without tax effect) would have been affected by repricing of the Group's assets and liabilities within the one-year period.

Due to possible inconsistencies between the actual situation and assumptions, the actual changes in the Group's profit before tax and equity (without tax effect) caused by an increase or decrease in interest rates might vary from the estimated results of this sensitivity analysis.

# (b) Market risk (including the interest rate risk in the banking book) (Continued)

#### Foreign currency risk

Foreign exchange risk refers to the risk of losses arising from the adverse changes in the rate of exchange. The Group conducts the majority of its business in RMB, with certain foreign transactions in United States dollars ("USD"), Hong Kong dollars ("HKD") and, to a much lesser extent, other currencies.

The Group's principle in controlling foreign exchange risk is to match its assets and liabilities by currency and to maintain foreign exchange risk within established limits. The Group has set foreign exchange risk limits which are consistent with the guidelines established by the Asset and Liability Management Committee of the Group and are in accordance with relevant regulatory requirements, and reflect management's assessment of current circumstances. The Group also manages its sources and uses of foreign currencies to minimise potential mismatches.

The Group monitors its foreign exchange risk. The Group mainly uses the foreign exchange exposure analysis, scenario analysis and stress testing to measure and analyze the foreign exchange risk. Besides, the Group monitors and controls the foreign exchange risk through the limit management. The Asset and Liability Management Department's market risk team performs independent monitoring, reporting, and management for the entire bank's foreign exchange risk. Meanwhile, the Group managed the on-balance sheet foreign exchange risk exposures through derivative financial instruments such as foreign exchange swaps and foreign exchange futures, and kept the Group's total exposures of on-balance sheet and off-balance sheet to a low level. Therefore, the foreign exchange exposure at the end of the period is not sensitive to exchange rate fluctuations, and the potential impact on the Group's net profit and shareholders' equity is not significant.

The following table summarises the Group's exchange risk of assets and liabilities at reporting date. Included in the table are the carrying value of assets and liabilities, and the off-balance sheet credit commitments in RMB equivalent, categorised by the original currency.

<sup>(</sup>i) Financial investments include financial investments measured at fair value through profit or loss, financial investments measured at fair value through other comprehensive income, financial investments measured at amortised cost.

# **42.** Financial risk management (Continued)

# (c) Liquidity risk

The Group adopts a centralised approach with respect to its liquidity risk management, in which the head office centrally manages overall liquidity risk across the Group under the policies and guidance of the Board. Liquidity risk is managed on three levels from the Board, to senior management and down to individual departments, so that all levels of the Group are involved in the liquidity risk management. The Asset and Liability Management Department is the lead department in managing the liquidity risk, and is responsible for formulating liquidity risk management strategies, policies and procedures, and identifying, measuring, monitoring and controlling liquidity risk, and ensuring the Group's overall liquidity risk is controlled within the Group's risk tolerance based on cash flow gap analysis, with the help of intraday position management, early-warning indicators and limit control, among other means and methods, and by conducting stress testing and crisis response exercises, strengthening market forecast and implementing dynamic liquidity risk management when appropriate. The Group reviews the above practices and means and methods at least once a year. The Group has established and continuously improved a comprehensive and systematic liability business management and risk control system to continuously improve the efficiency and level of financial services to the real economy. The Corporate Banking Department, Retail Banking Department and Financial Market Department, among others at the head office, and the branches and subsidiary engage in their business activities in compliance with the liquidity risk management policies, appetite, processes, limits and other requirements as set down by the Board and senior management.

In addition to effectively managing intraday positions, the Group manages cash flow, balancing liquidity and profitability and ensuring safety payment of the Group and implementing integration management of local and foreign currency. For medium- and long-term liquidity risk management, the Group strengthens management measures on regulatory ratios and internal limit, and timely monitors early warning indicators, implements initiative supplementing of liabilities, stabilises the source of capital and improves future maturity structure of assets and liabilities. Regulatory indicators mainly including liquidity ratio, liquidity coverage ratio, net stable funding ratio and liquidity matching rate are set to guide business development. Internal limits, primarily on treasury loans, debt securities pledged as security and asset-liability maturity gap, are monitored to manage and adjust mismatches between the duration of assets and liabilities. Enforcing the establishment and analysis of customer behavior models, leveraging liquidity management models that use prudent assumptions on the Group's cash inflows and outflows from its assets and liabilities, and by monitoring, analysing and managing its compliance with regulatory indicators and internal limits, the Group has been able to maintain a sound liquidity position.

## 42. Financial risk management (Continued)

## (c) Liquidity risk (Continued)

In order to cope with the potential impact arising from fluctuation of capital market and changes of macroeconomic environment, the Group conducts stress tests for liquidity risk on a quarterly basis, including the test of cash flow gaps in the future 7 days, 30 days and 90 days and implementation of shortest lifetime management of the Group by introducing the internal and external factors to test the Group's tolerance of liquidity risks under different stress scenarios through stimulation of decline in the price of marketable securities and outflow of deposits. Also, in consideration of its business size, complexity, level of risk and organisational structure, the Group has emergency plans in place and explicit internal division of duties and emergency procedures to maintain its liquidity under a crisis.

The Group formulates investment guidelines and regularly assesses and adjusts its investment strategies for debt securities investments in light of actual risk management needs, clearly defines the ceiling for collateral bonds through internal limits. This ensures the availability of sufficient quality liquid assets which are readily realisable, and the potential liquidity needs of the Group are well taken care of. The Group focuses on the adjustment and optimisation of asset structure, establishes a portfolio of liquidity reserve assets, and implements asset planning management, and pay attention to the stable return of funds when due. In addition, the Group continues to expand its various debt sourcing channels, actively strengthens the degree of participation in the issuance of financial bonds, inter-bank customer relationship management and open market operations of the PBoC, expands interbank credit, builds up emergency fund reserves, attempts to expand the Group's medium- and long-term stable sources of liabilities, so as to improve the Group's financing ability under high liquidity pressure.

#### Notes:

- (i) Indefinite amount of cash and deposits with the central bank represents the statutory deposit reserves and fiscal deposits with the central bank. Indefinite amount of loans and advances to customers includes all the impaired loans and advances, as well as those overdue more than one month. Loans and advances to customers and investments with no impairment but overdue within one month are classified into the category of repayable on demand. Indefinite amount of financial investments represents impaired investments or those overdue more than one month. Equity investments are listed in the category of indefinite.
- (ii) Financial investments include financial investments measured at fair value through profit or loss, financial investments measured at fair value through other comprehensive income and financial investments measured at amortised cost.

#### Analysis of contractual undiscounted cash flows of derivative financial instruments

The Group's derivative financial instruments that will be settled on a net basis include interest rate swaps and precious metal swaps. The Group's derivative financial instruments that will be settled on a gross basis are exchange rate swaps.

The following table analyses the contractual undiscounted cash flows of financial derivatives that will be settled on net amounts and gross amounts basis held by the Group. The amounts disclosed are the contractual undiscounted cash flows.

## 42. Financial risk management (Continued)

# (d) Operational risk

Operational risk is the risk of losses due to inadequate or flawed internal processes, staff and IT systems, and external events. It includes legal risk but excludes strategic risk and reputational risk.

During the reporting period, the Group organised the improvement of operational risk management tools, focusing on the operational risk identified in regulatory risk warning, regulatory punishment and inspection findings; coordinated the on-site inspection work of the whole Bank to realise the organic linkage of on-site inspection planning, execution and supervision, and built and put into operation an enterprise-wide inspection management system; carried out operational risk management inspection on branches to strengthen the operational risk management capability of the first line of defense; completed the revision of the points management system to improve the points standard and increase the application of points, guided and urged all employees to abide by the rules and regulations and operated in compliance with the law to improve the implementation of rules and regulations; organised the business continuity system of branches to meet the required standards.

#### 43. Fair value

### (a) Methods and assumptions for measurement of fair value

The Group adopts the following methods and assumptions when evaluating fair values:

# (i) Debt securities, interbank certificates of deposit, investment funds and equity investments

The fair values of debt securities, interbank certificates of deposit, investment funds and equity investments that are traded in an active market are based on their quoted market prices in an active market at the end of reporting period. If quoted market prices are not available, then fair values are estimated on the basis of pricing models, such as discounted cash flow model.

#### (ii) Other non-derivative financial assets

Fair values are estimated as the present value of the future cash flows. The discount rates are based on the market interest rates adjusted for market liquidity and credit spreads at the end of reporting period.

## Notes to the Unaudited Consolidated Financial Statements

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

#### **43.** Fair value (Continued)

### (a) Methods and assumptions for measurement of fair value (Continued)

#### (iii) Debt securities issued and other non-derivative financial liabilities

Fair values of debt securities issued are based on their quoted market prices at the end of reporting period, or the present value of estimated future cash flows. The fair values of other non-derivative financial liabilities are valued at the present value of estimated future cash flows. The discount rates are based on the market interest rates adjusted for market liquidity and credit spreads at the end of reporting period.

#### (iv) Derivatives

Derivatives valued using a valuation technique with market observable inputs are mainly interest rate swaps, foreign exchange forwards, swaps and options, etc. The most frequently applied valuation techniques include discounted cash flow model and the Garman Kohlhagen model extended from Black Scholes model. The models incorporate various inputs including foreign exchange spot and forward rates, foreign exchange rate volatility, interest rate yield curves, etc.

### (b) Fair value measurement

#### (i) Financial assets

The Group's financial assets mainly consist of cash and deposits with the central bank, deposits with banks and other financial institutions, placements with banks and other financial institutions, derivative financial assets, financial assets held under resale agreements, loans and advances to customers, and investments

Deposits with the central bank, deposits with banks and other financial institutions, placements with banks and other financial institutions and financial assets held under resale agreements are mostly priced at market interest rates and due within one year. Accordingly, the carrying amounts approximate the fair values.

Loans and advances to customers are mostly priced at floating rates that are close to the Loan Prime Rate. Accordingly, the carrying amounts approximate the fair values.

Derivative financial assets, financial investments measured at fair value through other comprehensive income and financial assets measured at fair value through profit or loss are stated at fair value. Financial investments measured at amortised cost are the reasonable approximations of their fair values because, they are short-term in nature or repriced at current market rates frequently.

#### **43.** Fair value (Continued)

#### (b) Fair value measurement (Continued)

#### (ii) Financial liabilities

The Group's financial liabilities mainly include deposits from banks and other financial institutions, placements from banks and other financial institutions, derivative financial liabilities, financial assets sold under repurchase agreements, deposits from customers and debt securities issued.

Derivative financial liabilities are stated at fair value. The fair value of debt securities issued is presented in Note 43(c). The carrying amounts of other financial liabilities approximate their fair value.

### (c) Fair value hierarchy

The following table presents the fair value of financial instruments measured at the end of the reporting period on a recurring basis and those that are not measured at fair value, categorised into the three-level fair value hierarchy as defined in IFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date;
- Level 2: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available; and
- Level 3: Fair value measured using significant unobservable inputs.

If there is a reliable market quote for financial instruments that are measured at fair value, the fair value of which is based on quoted market prices. When quoted prices on open market are not available, the Banks will determine the fair value of financial instruments by using appropriate valuation model, enquiry or by reference to the valuation results of third-party valuation institution. The Group selects appropriate models based on the risk characteristics, liquidity, counterparty risk and pricing basis of specific financial instruments or trading strategies to ensure that their fair value are truly and effectively reflected. When referring to the valuation results of third-party valuation agencies, the Group assesses the authority, independence and professionalism of the agencies.

The Group's financial instruments measured at the Level 3 fair value adopt the discounted cash flow approach and net asset value approach as the valuation techniques, and the unobservable inputs used are the risk-adjusted discount rate, cash flows and net assets, liquidity discount respectively. For the six months ended 30 June 2023 and for the year ended 31 December 2022, there were no significant change in the valuation techniques.

For the six months ended 30 June 2023 and for the year ended 31 December 2022, there were no significant transfers among different levels for financial assets and financial liabilities measured at fair value on a recurring basis.

#### Notes to the Unaudited Consolidated Financial Statements

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

## 44. Entrusted lending business

The Group provides entrusted lending business services to customers. All entrusted loans are funded by entrusted funds from these customers. The Group does not take any credit risk in relation to these transactions. The Group acts as an agent to hold and manage these assets and liabilities at the direction of the entrustor and receives fee income for the services provided. The entrusted assets are not the assets of the Group and are not recognised in the statement of financial position. Surplus funding is accounted for as deposits from customers.

| Entrusted funds | 26,722,763                        | 26,636,754                          |

# 45. Commitments and contingencies

#### (a) Credit commitments

The Group's credit commitments take the form of approved loans with signed contracts, credit card commitments, bank acceptances, letters of credit and financial guarantees.

The contractual amounts of loans commitments and credit card commitments represent the amounts should the contracts be fully drawn upon. The Group provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. Bank acceptances comprise of undertakings by the Group to pay bills of exchange drawn on customers. The Group expects most acceptances to be settled simultaneously with the reimbursement from the customers.

| Letters of guarantees  | 28,823,363                        | 28,227,940                          |
|  |                                   | 1 2016                              |
| Total  | 323,773,718                       | 341,578,520                         |

The Group may be exposed to credit risk in all the above credit businesses. Bank management periodically assesses credit risk and makes provision for any probable losses. As the facilities may expire without being drawn upon, the total of the contractual amounts shown above is not representative of expected future cash outflows. As at 30 June 2023 and 31 December 2022, provisions for credit commitments were RMB330 million and RMB435 million.

## **45.** Commitments and contingencies (Continued)

## (b) Credit risk-weighted amount for credit commitments

|                              | At 30 June<br>2023<br>(Unaudited) | At 31 December<br>2022<br>(Audited) |
|------------------------------|-----------------------------------|-------------------------------------|
| Credit risk-weighted amounts | 65,132,440                        | 62,706,781                          |

The credit risk-weighted amount for credit commitments represents the amount calculated with reference to the guidelines issued by the former CBRC.

## (c) Capital commitments

As at 30 June 2023 and 31 December 2022, the Group's authorised capital commitments were as follows:

|  | At 30 June<br>2023<br>(Unaudited) | At 31 December<br>2022<br>(Audited) |
|--|-----------------------------------|-------------------------------------|
| Contracted but not paid for<br>Authorised but not contracted for | 505,294<br>92,518                 | 381,455<br>113,531                  |
| Total  | 597,812                           | 494,986                             |

# (d) Outstanding litigations and disputes

As at 30 June 2023 and 31 December 2022, the Group has several outstanding litigations and disputes in its normal business operations. Based on the court process and the opinion of the external legal counsel, the reserve balance for litigation losses amounts to RMB42.24 million. After consulting with external professional legal counsel, the management of the Group believes that the final outcome of such legal proceedings and claims will not have a material impact on the financial position or operating results of the Group.

During the year ended 31 December 2021, the Group had a dispute with individual corporate customers over the business of bank acceptance bills pledged by certificates of deposit. The Group had reported the case to the security authorities. For the year ended 31 December 2022, the Group has filed a civil lawsuit to the court. As of the approval date of this report, the case is still in the judicial process. The outcome of the case is subject to the judgement of the court, and the Group is of the view that the financial impact of the above dispute cannot be reliably estimated. As a result, no relevant accrued liabilities were recognised as at 30 June 2023 and 31 December 2022.

Notes to the Unaudited Consolidated Financial Statements

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

# **45.** Commitments and contingencies (Continued)

# (e) Pledged assets

#### Assets pledged as collateral

|                  | At 30 June  | At 31 December |
|------------------|-------------|----------------|
|                  | 2023        | 2022           |
|                  | (Unaudited) | (Audited)      |
| Debt securities  | 172,308,232 | 181,439,469    |
| Discounted bills | 545,810     | 198,094        |
|                  |             |                |
| Total            | 172,854,042 | 181,637,563    |

Certain assets are pledged as collateral under repurchase agreements, and borrowings from the central bank.

As at 30 June 2023 and 31 December 2022, the Group did not hold any discounted bills under resale agreements. As at 30 June 2023 and 31 December 2022, the Group did not sell or repledge any pledged assets which it is obliged to resell upon due.

# 46. Subsequent events

On 25 July 2023, the Group issued a three-year financial bond with face value of RMB10,000 million. The coupon interest rate per annum is 2.72%.

# 47. Comparative figures of the prior year

For financial statements disclosure purpose, the Group made reclassification adjustments to some comparative figures.

# Unaudited Supplementary Information to the Consolidated Financial Statements

For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

In accordance with the Listing Rules and Banking (Disclosure) Rules, the Group discloses the unaudited supplementary financial information as follows:

# 1. Liquidity coverage ratio and leverage ratio

# (a) Liquidity coverage ratio

|   |                    | Average for the six months |
|---|--------------------|----------------------------|
|   | At 30 June<br>2023 | ended<br>30 June 2023      |
| Liquidity coverage ratio (RMB and foreign currency) | 125.07%            | 147.36%                    |

|   | At 31 December<br>2022 | Average for<br>the year ended<br>31 December<br>2022 |
|---|------------------------|--|
| Liquidity coverage ratio (RMB and foreign currency) | 149.69%                | 131.01%  |

Pursuant to the Administrative Measures for Liquidity Risk Management of Commercial Banks, the liquidity coverage ratio of commercial banks shall not be lower than 100%.

# (b) Leverage Ratio

|                | At 30 June<br>2023 | At 31 December<br>2022 |
|----------------|--------------------|------------------------|
| Leverage Ratio | 5.65%              | 5.43%                  |

Pursuant to the Leverage Ratio Management of Commercial Banks (Revision) issued by the former CBRC and was effective since 1 April 2015, a minimum leverage ratio 4% is required.

Unaudited Supplementary Information to the Consolidated Financial Statements For the six months ended 30 June 2023 (In RMB thousands, unless otherwise stated)

# 1. Liquidity coverage ratio and leverage ratio (Continued)

# (c) Net Stable Funding Ratio

|  | At 30 June<br>2023         | At 31 December<br>2022     |
|--|----------------------------|----------------------------|
| Available stable funding Required stable funding | 951,717,104<br>927,107,956 | 933,965,652<br>913,963,270 |
| Net Stable Funding Ratio                         | 102.65%                    | 102.19%                    |

Pursuant to the Administrative Measures on the Liquidity Risk Management of Commercial Banks, a minimum net stable funding ratio of 100% is required.

The above liquidity coverage ratio, leverage ratio and net stable funding ratio are calculated in accordance with the formula promulgated by the former CBRC and based on the financial information prepared in accordance with PRC GAAP.

# 2. Currency concentrations

|                                 |                                   | At 30 June 2023          |                          |                             |  |

### 3. International claims

The Group is principally engaged in business operations within Mainland China, and regards all claims on third parties outside Mainland China as international claims.

International claims include loans and advances to customers, deposits with the central bank, deposits with banks and other financial institutions, placements with banks and other financial institutions and financial investments.

A country or geographical area is reported where it constitutes 10% or more of the aggregate amount of international claims, after taking into account any risk transfers. Risk transfers are only made if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose Head Office is located in another country.

| 28 | Of which: Method to determine the conversion price, if convertible  | N/A   | N/A                | N/A                   |
| 29 | Of which: Mandatory or not, if convertible                          | N/A   | N/A                | N/A                   |
| 30 | Of which: Instrument type convertible into, if convertible          | N/A   | N/A                | N/A                   |
| 31 | Of which: Issuer of the instrument convertible into, if convertible | N/A   | N/A                | N/A                   |
| 32 | Write-down feature  | Yes   | N/A                | Yes                   |

Of which: Trigger(s) for write-down, if write- (1) Upon the occurrence N/A down shall be committed of an additional tier

- of an additional tier 1 capital instrument trigger event, i.e. the core tier 1 capital adequacy ratio of the Issuer having fallen to 5.125% (or below), the Issuer has the right. subject to the approval of CBIRC but without the need for the consent of the Bond holders, to write down all or part of the aggregate amount of the Bonds then issued and outstanding, in order to restore the core tier 1 capital adequacy ratio to above 5.125%.
- (2) Upon the occurrence of a tier 2 capital instrument trigger event, the Issuer has the right to write down in whole, without the need for the consent of Bond holders, the aggregate principal amount of the Bonds then issued and outstanding according to the outstanding par value. In particular, a tier 2 capital instrument trigger event shall refer to the earlier of the following events: ① CBIRC having decided that the Issuer would become non-viable without a write-off; or ② the relevant authorities having decided that the Issuer would become non-viable without a public sector injection of capital or equivalent support.

Upon the occurrence of a non-viable trigger event, the Issuer has the right, without the need for the consent of the Bond holders, write down all or part of the principal amount of the Bonds after all additional tier 1 capital instruments are written down or converted into shares. Non-viable trigger event shall refer to the earlier of the following events:

- (1) CBIRC having decided that the Issuer would become non-viable without a write-off; or
- (2) the relevant authorities having decided that the Issuer would become non-viable without a public sector injection of capital or equivalent support.

The following information is disclosed in accordance with the Disclosure Templates of Leverage Ratio, Appendix 3 to the Leverage Ratio Rules for Commercial Banks (Revised) of the former China Banking Regulatory Commission.

Table 1: Regulatory leverage items and their corresponding accounting items

Unit: RMB million

| No. | Item   | Balance   |
|-----|--|-----------|
| 1   | Total consolidated assets                            | 1,690,558 |
| 2   | Consolidated adjustments                             | 0         |
| 3   | Customer assets adjustments                          | 0         |
| 4   | Derivative adjustments                               | (491)     |
| 5   | Securities financing transactions adjustments        | 242       |
| 6   | Off-balance sheet items adjustments                  | 249,913   |
| 7   | Other adjustments                                    | (4,861)   |
| 8   | Balance of adjusted on- and off-balance sheet assets | 1,935,361 |

Table 2: Leverage ratio information table

Unit: RMB million, %

| No. | Item   | Balance   |
|-----|--|-----------|
| 1   | On-balance sheet assets (excluding derivatives and securities financing transactions)  | 1,677,226 |
| 2   | Less: Deduction of tier 1 capital  | 4,861     |
| 3   | Adjusted on-balance sheet assets (excluding derivatives and securities financing   | 1,672,365 |
|     | transactions)  |           |
| 4   | Replacement cost of various derivatives (net of eligible margin)   | 585       |
| 5   | Potential risk exposure in various derivatives   | 988       |
| 6   | Total collateral and pledges deducted from the balance sheet   | 0         |
| 7   | Less: Assets receivable arising from provision of eligible margin  | 0         |
| 8   | Less: Balance of derivative assets generated from transactions with central counterparties when providing clearing services to customers | 0         |
| 9   | Nominal principal of sold credit derivatives   | 0         |
| 10  | Less: Balance of deductible sold credit derivative assets  | 0         |
| 11  | Balance of derivatives assets  | 1,573     |
| 12  | Balance of accounting assets of securities financing transactions  | 11,268    |
| 13  | Less: Balance of deductible securities financing transaction assets  | 0         |
| 14  | Counterparty credit risk exposure to securities financing transactions   | 242       |
| 15  | Balance of securities financing transaction assets arising from securities financing transaction agency services                         | 0         |
| 16  | Balance of securities financing transaction assets   | 11,510    |
| 17  | Balance of off-balance sheet items   | 361,082   |
| 18  | Less: Balance of off-balance sheet items reduced due to credit conversion  | 111,169   |
| 19  | Balance of adjusted off-balance sheet items  | 249,913   |
| 20  | Net tier 1 capital   | 109,361   |
| 21  | Balance of adjusted on- and off-balance sheet assets   | 1,935,361 |
| 22  | Leverage ratio   | 5.65%     |

Note: Some of the data in the above table may slightly differ from the relevant contents of the financial report and the calculation results of the formulas in the table due to rounding.

# Organizational Structure Chart

As of the Reporting Date, the principal organizational and management structure of the Bank are as follows:
