In view of the net loss of the Group for the Financial Year, the Board has resolved not to recommend a final dividend for the Financial Year. Total dividend for the full financial year is nil as the Board did not declare any interim dividend during the Financial Year (2021/2022: Nil).

### **REVIEW OF OPERATIONS**

As at 30th June, 2023, the Group's portfolio of hotels comprises City Garden Hotel, Conrad Hong Kong and The Royal Pacific Hotel & Towers.

Positive development was observed in the global hospitality industry as countries around the world started to relax COVID-19 controls. With borders between China and Hong Kong reopened at the beginning of 2023, major steps were undertaken by the HKSAR Government to revive the tourism industry by easing travel restrictions for international visitors in an orderly manner, as well as launching a series of effective initiatives to stimulate the recovery of the economy and attracting visitors to enjoy the vibrancy of the city. According to the Hong Kong Tourism Board, visitor

arrivals to Hong Kong were 13,412,439 during the Financial Year (2021/2022: 133,653 and 2018/2019: 69,413,372). Visitors from Mainland China during the Financial Year were 10,423,923, representing approximately 78% of total tourist arrivals (2021/2022: 103,415 and 2018/2019: 54,922,879). A gradual normalisation in visitor arrivals is expected to surface over time, alongside the resumption of airlines' passenger flight capacity, when mass tourists resume with their travels. Steady improvement in hotels' trading condition is well-anticipated, as reflected by neighbouring countries' performances post-borders reopening.

The Group has been proactively managing our hotels to prepare for the expected normalisation in order to capitalise on the return of visitors. To optimise occupancy and to ensure a stable stream of income, City Garden Hotel, while remaining under the Group's management, entered into a new lease agreement for a period of four years with a tenant effective August 2022. Under such agreement, the hotel receives pre-agreed rates for all available rooms. Conrad Hong Kong and The Royal Pacific Hotel & Towers, the hotels joined the government's Designated Quarantine Hotel ("DQH") scheme since 1st June, 2022 and 14th April, 2022 respectively. Such arrangements were discontinued when the DQH scheme ended on 26th September, 2022. Conrad saw a marked improvement in monthly room rates and occupancy, particularly in the second half of the Financial Year, aided by the continuous increase in business and leisure travellers on mega events such as Art Basel and Rugby Sevens, and the resumption of physical exhibitions, events and local banquets. The Royal Pacific Hotel & Towers, which is highly dependent on Chinese tourist arrivals, it has benefitted from the return of tourists from the Mainland, as well as the resumption of ferry service at China Ferry Terminal and the full operation of cross borders buses. The Group remained vigilant on cost control and focused on making efficiency improvements, while continuously enhancing the quality of hotel services to ensure our discerning guests have enjoyable experiences during their stay in the hotels.

During the Financial Year, gross income generated from operations of City Garden Hotel, Conrad Hong Kong, and The Royal Pacific Hotel & Towers were HK\$93.3 million, HK\$418.2 million and HK\$177.4 million (2021/2022: HK\$88.9 million, HK\$209.7 million and HK\$206.9 million), respectively. Overall, an improvement in operating results of the three hotels was observed, particularly in the second half of the Financial Year, aided by the return of visitors post-borders reopening as well as the successful campaigns launched by the HKSAR Government to revive the tourism industry, leading to a noticeable resumption of social and economic activities. Although hotel operations have improved significantly during the Financial Year, there was an unrealised loss on fair value changes of financial instrument of HK\$42.6 million, representing a long-term investment in a company whose shares are listed on the Main Board of the Stock Exchange and is principally engaged in real estate investment trust in Mainland China. As a result, net loss attributable to shareholders of HK\$19.5 million was recorded in the Financial Year.

### **EMPLOYEE PROGRAMMES**

During the Financial Year, several employee initiatives to uplift service levels, promote sustainability, and engage colleagues were rolled out for our hotel colleagues.

A key initiative was the implementation of a new Service Excellence Programme for all employees. This programme is led by our colleagues who are Service Excellence Champions and certified trainers after completing the Train-the-Trainer programme. They facilitate training sessions and help cultivate a service culture in all touch points within our hotels.

The Operations Management Trainee Programme was developed this year to grow and train our future industry leaders. This programme offers trainees key learning opportunities as they rotate through different operational departments, and different hotels. The trainees gain experience in various hospitality roles. The programme also offers a flexible top-up option, allowing them additional time as a trainee to develop skills in administrative departments for talent development.

Sustainability and ESG continue to drive the employee training programmes as colleagues can go on sustainability walks in the hotels to learn firsthand the ways our facilities and operations are working to support the Group's ESG goals.

In addition to talent development, several employee engagement programmes were launched, including "Thankful Week" which promoted ways colleagues could participate in community service programmes including "Bun Run" and assist organisations including Food Angel. Colleagues also got active in a variety of fun sports activities.

These initiatives reflect our commitment to continuous improvement and development while promoting sustainability and employee engagement. We look forward to continuing to provide a high level of services to our guests while creating a positive impact on our community and environment.

# SUSTAINABILITY

The Group continues to embrace Environmental, Social and Governance ("ESG") best practices and integrates sustainability into the operations and management of our hotels. The Group seeks to create value for stakeholders and makes business a driver of sustainability for a better future by mitigating climate change, serving the community, promoting social integration and conserving cultural heritage.

In September 2022, the Group was recognised as being in the Top 10 of the Greater China Hotel Business Sustainability Index for the first year. The index is organised by the Centre for Business Sustainability, CUHK Business School, and The Chinese University of Hong Kong.

#### **Environmental management**

The Group places strong emphasis on protecting the environment and improving energy efficiency in daily operations. Key focus areas include climate change mitigation, promoting a circular economy and the conservation of biodiversity. The Group also strives to promote sustainable living among our stakeholders and the broader community.

Our efforts in adopting environmentally-friendly practices and management have been recognised through various awards. In February 2023, Royal Pacific Hotel & Towers received the Certificate of Merit under the Hong Kong Awards for Environmental Excellence ("HKAEE") led by the Environmental Campaign Committee and the Environment and Ecology Bureau.

#### Climate resilience

The Group is committed to reducing greenhouse gas emissions by 30% by 2030, based on its 2012 baseline. As at 30th June, 2023, a reduction of 42.57% has been achieved, equivalent to planting 214,185 trees. As an ongoing effort, the Group supports the "Energy Saving Charter" and "4T Charter" organised by the Environment and Ecology Bureau and the Electrical and Mechanical Services Department of the HKSAR Government. In this connection, City Garden Hotel has installed 72 solar panels with a rated power of 21.6 kW, aiming to generate an estimated 20,822 kWh of electricity annually to promote the development of renewable energy in Hong Kong. The Group also encourages electric vehicles ("EVs") by installing an EV charging station at the City Garden Hotel's car parking area.

#### Promoting a circular economy

The Group initiated a group-wide "Plastic Awareness Campaign" in April 2018, and set a new target in 2022 to eliminate all single-use plastic items by 2035 across its core operations. An Upcycled Christmas Tree Programme was also organised with the aim of nurturing an environmentally-conscious mindset among colleagues and hotel guests to spread the message of sustainable development through their imagination and creativity.

#### Urban biodiversity

The Group has been expanding our efforts to ensure sustainable consumption and production in our supply chain. The Group adopted the Seafood Guide issued by the World Wide Fund For

Nature Hong Kong ("WWF") for procuring sustainable seafood, including those certified by the Aquaculture Stewardship Council and the Marine Stewardship Council. Furthermore, the Group supports Sino Group's participation in the Sustainable Seafood Business Membership Programme, organised by WWF, to promote sustainable seafood consumption. These recognitions attest to the Group's commitment to corporate social responsibility to build a better community together.

#### Tai O Heritage Hotel

The Ng Family, the major shareholder of the Group, established a non-profit-making organisation named Hong Kong Heritage Conservation Foundation Limited ("HCF"). HCF revitalised and converted the Old Tai O Police Station, a Grade II historic building, into a boutique hotel. Named Tai O Heritage Hotel ("Hotel"), it is home to nine colonial-style rooms and suites. The Hotel, operated by HCF as a non-profit-making social enterprise, is part of the HKSAR Government's "Revitalising Historic Buildings Through Partnership Scheme". The Hotel is a winner of the "2013 UNESCO Asia-Pacific Awards for Cultural Heritage Conservation" and the first UNESCO-awarded hotel in Hong Kong.

In November 2022, the Hotel participated in "Heritage Vogue  $\cdot$  Hollywood Road" organised by the Commissioner for the Heritage Office of the Development Bureau to enhance public understanding and support for various heritage conservation projects in Hong Kong.

To share warmth and care with the Tai O community, the Hotel extends festive greetings through sharing Mid-autumn festival gifts to residents of Tai O. In December 2022, the Hotel joined hands with the Hong Kong Young Women's Christian Association ("YWCA") and the Hong Kong Family Welfare Society ("HKFWS") to present hot soup and festive gifts to the elderly and children. To extend good wishes to Tai O in the new year, the Hotel joined hands with a local artists and students from C.C.C. Such recognitions show the Hotel's commitment to community support for a better community.

# **INDUSTRY OUTLOOK AND PROSPECTS**

The World Health Organization (WHO) has declared that COVID-19 no longer constituted a global health emergency, this has boosted business and consumer sentiments across different sectors globally, in particular, the hotel industry. Appreciable improvements in operating conditions have been noted after the reopening of borders between Mainland China and Hong Kong in early 2023, as well as the relaxation of social distancing measures and a gradual return to normal flight capacities, leading to a noticeable uptick in economic activities and international traffic. Visitor arrivals reached 3.6 million in July 2023, the highest level since the onset of COVID-19 in 2020. Together with the rebound in Hong Kong's population to 7.5 million at mid-2023, from 7.3 million at mid-2022, it is a clear indication that business environment is progressively returning to normality. According to the Hong Kong Tourism Board, visitor arrivals to Hong Kong totalled 12.8 million in the first six months of 2023, which were 36.9% of the prepandemic level in 2019. It is well anticipated that hotels' occupancy and room rates will continue to improve alongside the increasing visitor arrivals.

Hong Kong has its own overriding advantages, with seamless connection to Mainland China and the rest of the world. The HKSAR government has made swift and decisive measures to revive the economy and tourism industry through the implementation of successful campaigns such as "Hello Hong Kong" and "Happy Hong Kong", which encompassed a series of promotional activities and highlight the many new attractions, developments and excitements Hong Kong has to offer to visitors.

Over the past few years, a number of major new attractions have been launched, including the Hong Kong Palace Museum and M+ Museum at the West Kowloon Cultural District and Ocean Park Water World, providing new excitements for tourists. A variety of mega events and exhibitions were also staged during the Financial Year, including Hong Kong Sevens, Art Basel Hong Kong, the Hong Kong Marathon, Hong Kong International Jewellery Show and Hong Kong Book Fair, stimulating business travels and benefitting the city's MICE sector. The timely removal of social distancing measures by the HKSAR government has also led to a resumption of banquets and weddings, fuelling demand for events at hotels.

Under the "One Country, Two Systems" principle, Hong Kong enjoys strong ties with Mainland China and good opportunities to drive sustainable long-term growth. Hong Kong remains one of the most important international financial, trade and shipping centres, with rising contribution from emerging industries such as innovation and technology. With the enhanced interconnectivity and integrated trade development among the Greater Bay Area cities, the city serves as a bridge linking Mainland China to the rest of the world, and it is well positioned to experience long-term sustainable growth.

The Group is encouraged by the improving operating environment in 2023 fuelled by the pent-up leisure and business travel demand. With re-opening of borders with Mainland China in early 2023, we expect travel to continue to recover together with the resumption of physical events and exhibitions, driving up demand for hotels. Management will remain vigilant in monitoring the market development and carefully manage costs without comprising quality and services. The Group will continuously evaluate and enhance our offerings and services to ensure our discerning guests have enjoyable and pleasant stays in our hotels.

The Group has a healthy financial position with cash and bank deposits of HK\$911.5 million and no debt outstanding as at 30th June, 2023.

The application of the amendments to HKFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Amendments to HKAS 16, Property, plant and equipment: Proceeds before intended use

The amendments prohibit an entity from deducting the proceeds from selling items produced before that asset is available for use from the cost of an item of property, plant and equipment. Instead, the sales proceeds and the related costs should be included in profit and loss. The amendments do not have a material impact on the financial statements as the Group does not sell items produced before an item of property, plant and equipment is available for use.

#### 1. Basis of preparation – continued

Amendments to HKAS 37, *Provisions, contingent liabilities and contingent assets: Onerous* <u>contracts – cost of fulfilling a contract</u>

The amendments clarify that for the purpose of assessing whether a contract is onerous, the cost of fulfilling the contract includes both the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts.

Previously, the Group included only incremental costs when determining whether a contract was onerous. In accordance with the transitional provisions, the Group has applied the new accounting policy to contracts for which it has not yet fulfilled all its obligations at 1st July, 2022, and has concluded that none of them is onerous.

<u>New HKICPA guidance on the accounting implications of the abolition of the MPF-LSP offsetting mechanism</u>

In July 2023, the HKICPA published Accounting implications of the abolition of the mandatory provident fund ("MPF")-long service payment ("LSP") offsetting mechanism in Hong Kong that provides guidance on the accounting considerations relating to the offsetting mechanism and the abolition of the mechanism.

The Group is currently assessing the impact of the HKICPA guidance and expect to adopt this guidance with retrospective application in its annual financial statements for the year ending 30th June, 2024.
