NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2023

1. BASIS OF PREPARATION

The condensed financial statements have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The condensed financial statements should be read in conjunction with the 2022 annual financial statements. The accounting policies (including the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty) and methods of computation used in the preparation of the condensed financial statements are consistent with those used in the annual financial statements for the year ended 31 December 2022.

2. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

Deferred tax related to assets and liabilities arising from a single transaction

The Group has adopted Amendments to HKAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction" from 1 January 2023. The amendments narrow the scope of the initial recognition exemption to exclude transactions that give rise to equal and offsetting temporary differences – e.g. leases. For leasing transactions, the Group is required to recognise the associated deferred tax assets and liabilities from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. For all other transactions, an entity applies the amendments to transactions that occur after the beginning of the earliest period presented.

The Group previously accounted for deferred tax on leases applying the "integrally linked" approach, resulting in a similar outcome to the amendments, except that the deferred tax asset or liability was recognised on a net basis. Following the amendments, the Group has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. However, there was no impact on the condensed consolidated statement of financial position because the balances qualify for offset under paragraph 74 of HKAS 12. There was also no impact on the opening retained earnings as at 1 January 2022 as a result of the change. The key impact for the Group relates to disclosure of the deferred tax assets and liabilities recognised. This disclosure will be provided in the annual financial statements.

The change in accounting policy will also be reflected in the Group's consolidated financial statements as at and for the year ending 31 December 2023.

In addition to the adoption of the above amendments to standards, in the current period, the Group has adopted all other new and revised Hong Kong Financial Reporting Standards issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 January 2023. They do not have a material effect on the Group's condensed consolidated interim financial statements.

A number of new standards and amendments to standards are effective for annual periods beginning after 1 January 2023 and earlier application is permitted. The Group has not early adopted any of the forthcoming new or amended standards in preparing these condensed consolidated interim financial statements.

3. REVENUE AND SEGMENT INFORMATION

Information reported to the executive directors, being the chief operating decision maker (the "CODM"), for the purposes of resource allocation and assessment of segment performance focuses on geographical markets, based on the location of customers. Thus the Group is currently organised into four segments which are sales of optical products to customers located in Europe, the United States, Asia and other regions.

Segment profit or loss represents the profit earned by or loss from each segment without allocation of central administration costs, directors' emoluments, interest income, property rental income, net foreign exchange gains or losses, increase or decrease in fair values of investment properties, losses on disposal of equity investments at fair value through profit or loss and FVTOCI, finance costs and share of profit of an associate. This is the measure reported to the CODM for the purposes of resource allocation and performance assessment.

The CODM makes decisions according to operating results of each segment. No analysis of segment assets and segment liabilities is presented as the CODM does not regularly review such information for the purposes of resources allocation and performance assessment. Therefore, only segment revenues and segment results are presented.

The Board has resolved not to declare any interim dividend (2022: nil) for the six months ended 30 June 2023.

BUSINESS REVIEW

Profitability analysis

The Group's consolidated revenue decreased slightly by 2% to HK\$566.4 million (2022: HK\$580.1 million) for the six months ended 30 June 2023. During the period under review, the Group recorded a net profit attributable to owners of the Company of HK\$21.7 million and a profit per share of 5.61 HK cents respectively (2022: HK\$28.5 million and 7.37 HK cents respectively).

The major reason for the decrease in net profit attributable to owners of the Company was mainly due to the strengthening of the Renminbi exchange rate during the six months ended 30 June 2023. Since the majority of the Group's revenue was denominated in United States dollars and the majority of the Group's liabilities were denominated in Renminbi, the Group recorded a significant loss on exchange rate differences of HK\$4.2 million during the six months ended 30 June 2023.

Original design manufacturing ("ODM") division

Revenue generated by the ODM division contributed 70% to the consolidated revenue of the Group in the period under review (2022: 72%). Sales to ODM customers decreased by 5% from HK\$418.3 million in the first six months of 2022 to HK\$398.1 million in the first six months of 2023. The decrease in revenue was mainly due to the weakened consumer confidence in Europe and the United States (the "US") as a result of the high inflation rate and the war between Russia and Ukraine. Geographically, sales to Europe, the US, Asia and other regions accounted for 61%, 23%, 15% and 1% respectively (2022: 61%, 25%, 12% and 2% respectively) of the revenue of the ODM division during the period under review. The Group continued to maintain a fairly balanced sales mix between prescription frames and sunglasses. Sales of prescription frames, sunglasses and spare parts accounted for 42%, 52% and 6% of the revenue generated by the ODM division respectively during the period under review (2022: 46%, 49% and 5% respectively).

Distribution division

The Group's house brand and licensed brand products were sold to retailers through the Group's wholesale arms in the United Kingdom, France, South Africa, Mainland China, Germany and Italy, and to independent distributors in other countries. Revenue for the distribution division increased slightly by 2% to HK\$129.7 million (2022: HK\$127.0 million) and accounted for 23% (2022: 22%) of the consolidated revenue during the six months ended 30 June 2023. Sales to Europe, the US, Asia and other regions accounted for 69%, 9%, 10% and 12% respectively of the revenue of the distribution division during the period under review (2022: 64%, 9%, 12% and 15% respectively). Sales to Europe increased significantly by 9% as compared to the same period last year. The growth in sales are mainly attributable to our own distributors in the United Kingdom and Italy during the period under review. STEPPER, the German brand owned by the Group, continued to be the most popular brand in our distribution division.

Lens division

Revenue for the lens division was HK\$38.6 million (2022: HK\$34.8 million) and accounted for 7% (2022: 6%) of the consolidated revenue during the six months ended 30 June 2023. Sales increased significantly by 11% as compared to the same period last year mainly because the Mainland China government had gradually ended the zero-COVID policy since the December of 2022. At the moment, the revenue for the lens division is generated solely from Asia and the Group plans to gradually expand its lens business to other regions.

Financial position and liquidity

Cash flows

The Group recorded a net cash inflow from operating activities of HK\$59.1 million during the period under review (2022: HK\$51.4 million) and which was mainly resulted from cash flow derived from the net profit for the period under review. The net cash position of the Group (being the short-term bank deposits, bank balances and cash less bank borrowings) decreased from HK\$184.8 million as at 31 December 2022 to HK\$173.4 million as at 30 June 2023. The decrease in net cash position was mainly due to the payment of dividends of HK\$38.6 million to shareholders of the Company.

Working capital management

In contrast to the decrease in revenue during the period under review, both of the inventory balance and total amount of trade debtors and bills receivable balances increased by 5% from HK\$129.9 million and HK\$310.5 million as at 31 December 2022 to HK\$136.6 million and HK\$327.2 million as at 30 June 2023. The reason behind was that the production and shipment activities in Mainland China were interrupted by the widespread of COVID-19 during the first two months of 2023 and sales have been gradually caught up from March 2023 after the COVID-19 under control. Debtors turnover period (being the ratio of the total of trade debtors and bills receivable to revenue) increased from 95 days for the six months ended 30 June 2022 to 105 days for the period under review. There was no sign of deterioration in collecting payments from trade debtors as compared to the corresponding period in last year. On the other hand, inventory turnover period (being the ratio of inventory balances to cost of sales) slightly decreased from 66 days for the six months ended 30 June 2022 to 63 days for the period under review because of the strong demand of goods delivery since the second quarter of 2023 after productions and shipments activities resumed normal. The current ratio (being the ratio of total current assets to total current liabilities) of the Group remained stable at 1.3 as at 30 June 2023 compared to 1.4 as at 31 December 2022.

Gearing position

The Group's gearing position remained low throughout the period under review. The debt-to-equity ratio (expressed as a percentage of non-current liabilities over equity attributable to owners of the Company) remained low at around 5% as at 30 June 2023 and around 4% as at 31 December 2022. The non-current liabilities of the Group comprised mainly deferred taxation which amounted to HK\$21.7 million as at 30 June 2023 (31 December 2022: HK\$18.3 million).

Net asset value

The Company had 386,263,374 shares in issue as at both 30 June 2023 and 31 December 2022 with equity attributable to owners of the Company of HK\$514.7 million and HK\$519.2 million as at 30 June 2023 and 31 December 2022 respectively. Net asset value per share (being the equity attributable to owners of the Company divided by the total number of shares in issue) as at 30 June 2023 was HK\$1.33 (31 December 2022: HK\$1.34).

Contingent liabilities

As at 30 June 2023, the Group did not have significant contingent liabilities (31 December 2022: nil).

Charges on the Group's assets

As at 30 June 2023, the Group's investment properties and leasehold land and buildings pledged as security for the Group's bank borrowings amounted to HK\$3.8 million (31 December 2022: HK\$6.1 million). Details of bank borrowings are set out in note 11.

Foreign currency exposure

The Group was exposed to the fluctuation of Renminbi against both United States dollars and Hong Kong dollars. Save for the above, the Group had limited exposure to foreign exchange rate fluctuations as most of its transactions were conducted in either United States dollars, Hong Kong dollars or Renminbi. The Group noted that there was potential exposure to the change in the value of the Renminbi yet the range of movement was relatively limited. The Group manages foreign exchange risk by closely monitoring the movements of the foreign currency rates and enters into forward contracts whenever appropriate.

PROSPECTS

Market outlook

Same as the last year in the corresponding period under review, the global economy has been facing continued volatility and uncertainty with inflationary pressures and geopolitical tensions in both Europe and Asia. The management expected that the business environment for eyewear industry is tough and challenging. Meanwhile, the pricing pressure from the ODM customers will limit the growth of the ODM business.

On the other hand, the higher profit margins of the distribution and lens divisions demonstrate their growing importance to the future development of the Group. The Group will continue to seek business opportunities with prudence so as to increase the contribution of these businesses either through establishment of our own network or forming joint ventures with strategic distribution partner(s).
