MANAGEMENT DISCUSSION AND ANALYSIS

COMPANY BACKGROUND

Swang Chai Chuan Limited (the "Company") together with its subsidiaries (the "Group") is an established distributor of food & beverage (the "F&B") and other products located in Malaysia. The Company distributes a great selection of products consisting of more than 200 international, domestic third-party and own brands. Apart from F&B products such as dairy products, frozen food, packaged food and commodities, sauce, oil and condiments, beverages and speciality products, the Company also provides non-F&B options, which include personal and baby care products, pet care products and cleaning and kitchen supplies. Furthermore, the Company has a broad sales network which allows a high level of customer reach via hypermarket/supermarket chains, provision shops, convenience stores/kiosks, F&B dealers and merchandisers, hotels/restaurants/cafes and school canteens. On top of supplying products to customers, the Company also offers other services such as warehousing, logistics, sales and marketing support and other services which can enhance consumers' experience.

BUSINESS REVIEW AND PROSPECTS

As the world has been affected by the COVID-19 pandemic since the end of 2019, which led to an increase of demand of F&B products, the Company had to accelerate its business in 2020 by leasing 2 more warehouses located in Kuantan and Perai of Malaysia to satisfy the demand. As at 30 June 2023, the Company has a total of 8 self-owned and 4 leased warehouses strategically distributed in Malaysia which contributed to an aggregate designated storage capacity of approximately 30,900 m³. In addition, the Company also owns a fleet with more than 160 self-operated logistics vehicles, which allows the Group to enhance its service quality.

The Company was successfully listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 19 August 2022 (the "Initial Listing"). The Initial Listing represents an important milestone to the Group and will greatly benefit the Group's development in the future.

Looking forward, we will continue to utilize our existing industry knowledge to expand our core strengths and target to explore more business opportunities, and also exercise careful cost control measures under high inflation business environment to enhance profit margin and maintain competitiveness.

FINANCIAL OVERVIEW

Revenue

The Company's revenue is primarily generated from (i) the distribution and sales of F&B and other products and (ii) the provision of logistics, warehousing services and others. For the six months ended 30 June 2023 (the "Period"), the Group's revenue increased by approximately Malaysian Ringgit ("RM") 81.8 million or 20.5% from approximately RM399.9 million in the six months ended 30 June 2022 (the "Last Corresponding Period") to approximately RM481.7 million in the Period, mainly due to the increase in distribution revenue from third party brands amounting to approximately RM79.8 million. The increase in revenue from third party brands is mainly attributed to dairy products, sauce, oil and condiments with increase of approximately RM78.5 million mainly as a result of (a) securing distribution rights to north Peninsula Malaysia from an existing supplier of dairy products, and (b) securing distribution rights to distribute to retail channels in east Peninsula Malaysia from an existing supplier of sauce, oil and condiments and dairy products, both in the second half of 2022.

Gross profit and gross profit margin

The gross profit margin decreased to approximately 12.1% in the Period as compared to approximately 14.2% in the Last Corresponding Period. The decrease in the gross profit margin was due to the result of competitive price strategy to capture market share, inflationary price increase of products that we were not yet able to fully pass on to the customers and the lower margins from securing two new distribution rights described in the above section.

Other income

Other income mainly consists of interest income, net exchange gain, and others. Other income increased by approximately RM2.9 million or 580.0%, from approximately RM0.5 million in the Last Corresponding Period to approximately RM3.4 million in the Period which was primarily due to the increase in interest income and net exchange gain.

Selling and distribution expenses

Selling and distribution expenses primarily comprise of (i) staff cost, (ii) transportation expenses, (iii) vehicle maintenance expenses, (iv) travelling expenses, (v) marketing and advertising expenses, and (vi) others. Selling and distribution expenses increased by approximately RM4.5 million or 20.4%, from approximately RM22.1 million in the Last Corresponding Period to approximately RM26.6 million in the Period which was mainly due to the increase in a) salaries and wages and b) transportation and storage expenses as a result of the increase in revenue of approximately 20.5% mentioned above. Various third parties had increased their charges for storage and transportation due to the increase in minimum wages and the withdrawal of electricity rebate by the Malaysian Government.

Administrative and other operating expenses

Administrative and other operating expenses primarily comprise of i) staff costs which include Directors' remuneration, ii) utility expenses, iii) insurance expenses, iv) depreciation, v) professional fees, and vi) others. Administrative and other operating expenses increased by approximately RM1.8 million or 21.2%, from approximately RM8.5 million in the Last Corresponding Period to approximately RM10.3 million in the Period primarily due to increase in professional fees incurred and directors' remunerations.

Finance costs

Finance costs mainly represent interest on interest-bearing borrowings and interest on lease liabilities. The Company's finance costs increased by approximately RM0.5 million or 71.4% from approximately RM0.7 million in the Last Corresponding Period to approximately RM1.2 million in the Period. The increase in finance costs was mainly due to the increase in interest rates during the Reporting Period by Bank Negara Malaysia in tandem with the Federal Reserve Board to fight inflation and increase in interest on bank acceptance.

Income tax expenses

Income tax expenses primarily consist of current and deferred income tax at the applicable tax rate in accordance with the relevant laws and regulations in Malaysia. No provision for Hong Kong profit tax has been made as the Group has no assessable profits arising in or derived from Hong Kong and the group entities established in the Cayman Islands and the British Virgin Islands are exempted from corporate income tax therein. Income tax expenses for the Period increased by approximately RM0.6 million or 9.0% to approximately RM7.2 million from approximately RM6.6 million in the Last Corresponding Period. The increase in income tax expenses was mainly due to the increase in profit before tax generated in the Period.

Profit for the period and net profit margin

As a result of the foregoing, the Group recorded a profit for the period of approximately RM16.5 million in the Period and approximately RM16.0 million in the Last Corresponding Period. The net profit margin of the Group declined to 3.4% in the Period from 4.0% in the Last Corresponding Period mainly due to the decline in gross profit margin as explained above.

OTHER INFORMATION

USE OF PROCEEDS FROM THE INITIAL LISTING

On 19 August 2022 (the "Listing Date"), the shares of the Company (the "Share") were listed on the Main Board of the Stock Exchange. The Group intends to apply the proceeds from the issuance of 241,000,000 Shares at the offer price of Hong Kong dollars ("HK\$") 0.56 per Share (the "Global Offering") in accordance with the proposed applications set out in the section headed "Net Proceeds From The Global Offering" in the announcement of offer price and allotment result dated 18 August 2022.

On 9 September 2022, the over-allotment options was fully exercised and the Company issued 36,150,000 shares additional new shares at HK\$0.56 each to cover the over-allocations in the international offering and with a gross proceeds of approximately HK\$20.2 million.

After deducting share issuance expense and professional fee regarding to the Share Offer, the net proceeds amounted to approximately HK\$105.2 million. Utilisation of the proceeds (adjusted on pro rata basis based on the actual net proceeds) on as at 30 June 2023 are as per followings:

Business Objectives	Planned use of net proceeds HK\$ million	Actual use of proceeds as at 30 June 2023 HK\$ million	Balance of unutilised proceeds as at 30 June 2023 HK\$ million	Expected timeline for unutilised proceeds

The utilisation of proceeds is slower than expected as the Group (i) have yet to find a suitable location and at the right price to build a warehouse in Klang, Selangor; (ii) is actively looking for strategic investments but many were unsuitable; and (iii) is at various stages in the selection of the right vendors for marketing and at the same time planning the right marketing activities based on current market conditions.

We will continuously evaluate, reassess, change or modify the existing plans and explore new business opportunities after taking into consideration the latest market condition with an aim to achieve sustainable business growth and to bring long-term benefits for the Shareholders.

LIQUIDITY, CAPITAL RESOURCES AND CAPITAL STRUCTURE

The Group generally finances its operations primarily through bank borrowings and internal resources. Following the completion of the Global Offering in August 2022, the net proceeds from the Global Offering has provided additional funds for future cash requirements. It is anticipated that the Group has sufficient working capital to fund its future working capital, capital expenditure and other cash requirements.

As at 30 June 2023, the Group's net current assets were approximately RM180.8 million (31 December 2022: approximately RM169.5 million). The Group's cash and cash equivalents as at 30 June 2023 were approximately RM38.0 million (31 December 2022: approximately RM23.0 million).

As at 30 June 2023, there were bank borrowings of approximately RM63.1 million bearing interest rate of base lending rate plus a percentage ranging from 3.25% per annum to 4.85% per annum (31 December 2022: approximately RM63.3 million bearing interest rate of base lending rate plus a percentage ranging from 0.75% per annum to 3.50% per annum).
