Note:

The computation of diluted earnings (loss) per share for the periods ended 30 June 2023 and 2022 did not assume the exercise of certain share options and the issue of certain shares awarded since their assumed exercise and issue during the periods would have an anti-dilutive effect on the basic earnings (loss) per share amount presented.

10. PROPERTY AND EQUIPMENT

During the six months ended 30 June 2023, the Group acquired property and equipment of approximately HK\$5,444,000 (six months ended 30 June 2022: acquired and disposed property and equipment of approximately HK\$4,988,000 and HK\$251,000 respectively).

Notes: (Continued)

(b) On 17 February 2022, the Group entered into a subscription agreement with Future Capital, an independent third party incorporated in the Cayman Islands, to subscribe for 3,750 newly issued shares, which represents 17.81% equity interests of Future Capital, at a consideration of HK\$750,000,000 which was settled by cash. Future Capital and its subsidiaries principally engage in property investments. The transaction was completed on the same day. The Group irrevocably designated the investment in Future Capital as Designated FVOCI because the Group intends to hold for long term strategic purposes. At the initial recognition as Designated FVOCI, the fair value of investment in Future Capital was HK\$680,000,000, which was determined based on valuation carried out by independent professional valuer. As the fair value determination is not evidenced by a quoted price in an active market or based on a valuation technique that uses only data from observable markets, the Group should defer the difference of HK\$70,000,000 between the transaction price and fair value of investment in Future Capital at acquisition date as a day-one loss. Such deferred day-one loss will be recognised to profit or loss until (a) the fair value is evidenced by a quoted price in active market, (b) the valuation can be determined using market observable inputs or (c) realised through settlement. During the period, the fair value loss on investment in Future Capital of approximately HK\$99,000,000 was recognised in other comprehensive income.

14. TRADE, LOAN AND OTHER RECEIVABLES (CONTINUED)

Notes:

- (a) No aging analysis by invoice date is disclosed as in the opinion of the Directors, the aging analysis does not give additional value in view of the nature of securities brokerage business. The Group offsets certain trade receivables against trade payables when the Group currently has a legally enforceable right to set off the balances; and intends to settle on a net basis or to realise the balances simultaneously.
- (b) Trade receivables from margin clients are repayable on demand and bear interests ranging from 5% to 30% (31 December 2022: 8% to 30%) per annum at the end of the reporting period. The loans are secured by pledged marketable securities with a total fair value of approximately HK\$1,170,135,000 (31 December 2022: approximately HK\$1,927,536,000). The Group is permitted to sell or repledge the marketable securities if the customers default on the payments when requested by the Group. During the six months ended 30 June 2023 and 2022, no margin loans were granted to the Directors or directors of subsidiaries.
- (c) The settlement terms of trade receivables arising from the provision of securities brokerage business with HKSCC are usually two days after trade date.
- (d) At the end of the reporting period, the Group's net loan receivables included both fixed and variable rate loan advances to independent third parties of which approximately HK\$496,000 (31 December 2022: approximately HK\$70,790,000) were secured by the pledge of properties and personal guarantees (31 December 2022: the pledge of certain collaterals and personal guarantees), bearing interests ranging from 7.75% to 12% (31 December 2022: 5% to 15%) per annum and had contractual loan period between 6 months and 18 months (31 December 2022: between 12 months and 7 years) under the Group's credit and lending services. The remaining balance included fixed rate (31 December 2022: fixed rate) loan advances to independent third parties of which approximately HK\$241,986,000 (31 December 2022: HK\$235,208,000) were unsecured, bearing interests ranging from 5% to 10% (31 December 2022: 5% to 15%) per annum. The Group maintains readily available funds and equips itself with sufficient lending capacities for capturing potential business opportunities. The Group finances its credit and lending business with its existing general working capital. The Group's credit and lending business has a unique business model with emphasis on the provision of sizeable loans to both corporate and individual clients with good financial standing and low credit risk (such as listed companies and individuals holding marketable assets).

The Group targets a niche market of high-profile borrowers (i.e. (a) listed companies; (b) companies with well-established businesses; (c) companies or individuals holding marketable assets; and (d) individuals whose occupations are executives, businessmen or professionals) in need of sizeable loans, who have a proven track record of making repayments. The Group grants loans only to recognised and creditworthy customers. The Group grants loans only to the customers (a) who are third parties and not connected with the Group; (b) who are introduced by the Group's directors, senior management, business partners or existing/previous borrowers; and (c) whose creditworthiness and loan collateral are evaluated and approved by the credit committee (the "Credit Committee") of the Group.

The management team of the Group's credit and lending business comprises the Credit Committee and 2 managers. During the six months ended 30 June 2023, the Credit Committee consisted of two directors of the Group, who had more than 30 years and around 20 years of experience in finance, investment and credit and lending industries, respectively. The Credit Committee has the power and authority to review and approve the loan applications. The Credit Committee is responsible for (i) assessing credit risks; (ii) overseeing the approval of credit applications and loan approvals; and (iii) managing customer relationships. The managers are responsible for (i) reviewing loan documentations, (ii) identifying potential problems; and (iii) recommending mitigating factors.

B. Credit and Lending Services (Continued)

(ii) Internal Control Procedures

The Group has taken the following internal control measures in carrying out the credit and lending services business:

Credit risk assessment of customers

Potential customers are required to disclose and provide the Group with a list of information required for a loan application. The Group will then assess the creditworthiness of the potential customers and their repayment abilities, including legal due diligence. In particular, the following information is requested and considered as part of the process of assessing creditworthiness:

- a) the potential customers' background and statutory information;
- b) the potential customers' proof of income, including bank statements;
- c) the amount and purpose of the loan;
- d) the results of legal searches, such as litigation (or the absence of), on the potential customers; and
- e) whether the Group and the potential customers have any prior dealings and, if so, the credit history of any such prior arrangements.

In making the approval decision, the Credit Committee considers the information set out above and assesses the potential customers' credit risk, the loan-to-value ratio and the proposed interest rate. The operations of the Credit Committee are subject to review by the Executive Directors of the Company.

Mechanism in determining loan terms

The request from each potential customer is unique. The loan terms are determined based on the potential customers' financial needs (e.g. type of loan, capital needs and loan tenure), credit risk assessment of potential customers and their financial repayment abilities. The loan interest rate is determined based on the result of credit risk assessment and reference to the market interest rate.

B. Credit and Lending Services (Continued)

(ii) Internal Control Procedures (Continued)

Monitoring loan repayment and recovery

The status of outstanding loan principals and interest collection is monitored by the Credit Committee, two managers and accounting department on a daily basis by reviewing daily reports. On the maturity date, the Credit Committee communicates with borrowers by phone regarding their financial conditions and source of repayment to ascertain whether borrowers have any difficulty in making their repayments on time; and the Credit Committee also reminds borrowers to make timely repayments of their loans. When borrowers request for loan extension, the Credit Committee would request the managers and accounting department to ascertain and review the borrowers' financial condition through publicly available information (such as the Stock Exchange's website and press media, etc) so as to assess the recoverability of loans. In the event that there is no such publicly available information, the Credit Committee would request for their updated financial information.

Taking actions on delinquent loans

When a loan is overdue, the Group will contact the borrower and guarantor (if any) to remind them of the possible enforcement action(s) and timing of repayment and seeking reasons for the delay in repayment. The Group will also issue demand letter(s) to the borrowers. If the Group does not receive any favourable reply from the borrowers, the Group will instruct legal advisers to take legal actions for recovery of outstanding loan principal and accrued interest.

The action plans are determined based on the individual situation on a case by case basis. In general, the Group takes into account factors such as whether the pledged assets provided by the borrowers are sufficient in value; and whether there are any bona fide settlement offers made by the borrowers.

In case the market value of pledged assets falls below the outstanding loan amount, the Group may request the borrowers to increase the pledged assets. In case the borrowers can provide the Group with bona fide settlement proposal, the Group may consider withholding legal action against the borrowers and accept the settlement proposal in order to save legal costs and time.

CORPORATE GOVERNANCE

The Board is committed to maintaining high standards of corporate governance. During the Reporting Period, the Company has complied with the code provisions of the Corporate Governance Code as set out in Appendix 14 to the Listing Rules except code provision C.2.1.

Code provision C.2.1 requires that the roles of chairman and chief executive should be separate and should not be performed by the same individual. Following the resignation of Mr. Alejandro Yemenidjian as Non-Executive Chairman and Non-Executive Director of the Company on 6 October 2022, the duties of the chairman were undertaken by the Independent Non-Executive Directors who led the Board and had to ensure that the Board works effectively whereas the Executive Directors continued performing the role of the Chief Executive Officer collectively. The Board was of the view that under such board structure, there was a clear division of the responsibilities of chairman and chief executive, thus the balance of power and authority could be ensured. Such deviation had been rectified upon the re-designation of Mr. Sam Hing Cheong from a Non-Executive Director to an Executive Director and Chairman of the Company with effect from 1 July 2023.
