Management Discussion and Analysis

During the six months ended 30 June 2023 (“**period under review**”), although the oil and chemical sector (the “**Sector**”) as well as the economy of the People’s Republic of China (“**PRC**”) were in the progress of recovering and resuming to pre-COVID-19 Pandemic level, China Sanjiang Fine Chemicals Company Limited (the “**Company**”) and its subsidiaries (collectively, the “**Group**”) experienced a decline in gross profit margin, leading to a slight gross loss margin position of 2.4%, which was primarily due to the fact that the Group’s major products namely ethylene oxide (“**EO**”), ethylene glycol (“**EG**”) and polypropylene (“**PP**”) are closely tied to the downstream applications of a variety of products/industries like cleaning and detergents, cement, textiles, packings and etc. and in turn subject to the recovery of the economy of PRC in general and the economy of PRC would require more time to recover and resume to pre-COVID-19 Pandemic level. With the ramp-up and commercial operation of the Group’s new production facilities — the 6th phase EO/EG production facilities with 1,000,000MT output on a yearly basis and its ancillary upstream level production facilities during Q2 of 2023 which would enable the Group to diversify market risks in terms of feedstock procurement to rebalance the composition from the status of Ethylene, Propylene and Methanol on a 20%–10%–70% basis to the new status of the aggregate of Naphtha, Ethane and Propane and Methanol on a 70%–30% basis starting from Q3 of 2023, the Group expects the slight gross loss margin position would be improved in the second half of 2023.

Revenue of the Group slightly decreased by approximately 5.6% as both the average selling price (“**ASP**”) and production capacities of the Group’s major products namely EO, EG and PP decreased when comparing to the corresponding period of 2022. Overall gross profit margin of the Group decreased by approximately 4.4% to a gross loss margin position of approximately 2.4%. Despite the gross loss margin position, the net profit attributable to shareholders was approximately RMB26.1 million and basic earnings per share was approximately RMB2.22 cents, for the six months ended 30 June 2023, which was primarily attributable to the inclusion of one-off items derived from: –1) Lotte Chemical Corporation, the joint venture partner of joint operation between the Group and Lotte Chemical Corporation (“**Joint Operation**”), agreed to bear and repay the 50% bank loan amounted to approximately RMB115 million of the Joint Operation for the Group; and 2) Lotte Chemical Corporation agreed to transfer its 50% equity interest in the Joint Operation with net asset value amounted to approximately RMB85 million to the Group at zero consideration. During the period under review, the board (the “**Board**”) of directors (the “**Directors**”) does not recommend the payment of an interim dividend for the six months ended 30 June 2023.

The decrease in overall gross profit margin of the Group by approximately 4.4% to a gross loss margin position of approximately 2.4% was primarily due to the decreases in gross profit margins of major line of businesses namely the EO line of business, EG line of business and PP line of business by approximately 14.5%, 3.8% and 1.8% respectively as a result of the combined effects of: 1) the pricings of Methanol, which counted for approximately 70% in total of the Group's feedstock procurement (before the ramp-up of the 6th phase EO/EG production facilities with 1,000,000MT output on a yearly basis and its ancillary upstream level production facilities during Q2 of 2023) during the period under review decreased by approximately 12.0% (on a simple average basis), which was less than the price movements of EO, EG and PP of approximately -15.0%, -19.0%, -14.4% respectively during the period under review as a result of certain global emergencies, which led to higher average market prices of upstream commodities/feedstocks on a relatively basis when comparing to downstream products which eroded the overall gross profit margin of the Group; and 2) the demands from downstream markets as well as the general economy of PRC during the period under review still required more time to re-build and resume to levels and scales before COVID-19 after the lifting of strict prevention measures in relation to COVID-19 in December 2022. During the period under review, in view of the negative profit spreads of EO, EG and PP, the Group has been actively adjusting its revenue composition by focusing more on downstream products and ancillary products of EO, EG and PP, which are considered to be less price elastic and have positive profit spreads in general. The Group's surfactants revenue increased by 95% in the first half of 2023 when comparing to the corresponding period of 2022.

Despite the aforementioned challenges, the Group's management anticipates an improvement in gross profit margin during the second half of 2023. This optimism stems from the Group's proactive measures to enhance its sales, marketing estimations, and reporting mechanisms. Additionally, by streamlining production processes, the Group is better positioned to swiftly adjust its production mix in response to market demands. Furthermore, the Group foresees the full impact of the 6th phase EO/EG production facilities and its ancillary upstream level production facilities in the second half of 2023. These facilities not only position the Group to double its market share in EO/EG in the Eastern China region but also empower it to recalibrate its feedstock composition substantially. This strategic move is expected to mitigate business risks associated with price volatility in crude oil, natural gas, and coal, which will mitigate and improve negative gross profit spread of EO, EG and PP.

Ethylene oxide

During the period under review, the revenue from EO line of business amounted to approximately RMB745.8 million, representing a decrease of approximately 45.0% when comparing to the corresponding period of 2022. The decrease in EO revenue was primarily due to the decrease in EO output by approximately 35.3% as the Group lowered the production volume in view of negative spread and adverse market conditions.

Ethylene glycol

During the period under review, the revenue from EG line of business amounted to approximately RMB457.5 million, representing a decrease of approximately 9.8% when comparing to the corresponding period of 2022. The decrease in EG revenue was primarily due to the decrease in the average selling price of EG by approximately 19.0% during the period under review.

Polypropylene

During the period under review, the revenue from PP line of business decreased by approximately 18.5% when compared to the corresponding period of 2022, which was primarily due to the decrease in the average selling price of PP by approximately 14.4% during the period under review.

Gross profit margin

Overall gross profit margin of the Group decreased by approximately 4.4% to a gross loss margin negative of approximately 2.4% was primarily due to the decreases in gross profit margins of major line of businesses namely the EO line of business, EG line of business and PP line of business by approximately 14.5%, 3.8% and 1.8% respectively as a result of the combined effects of: 1) the pricings of Methanol, which counted for approximately 70% in total of the Group's feedstock procurement (before the ramp-up of the 6th phase EO/EG production facilities with 1,000,000MT output on a yearly basis and its ancillary upstream level production facilities during Q2 of 2023) during the period under review decreased by approximately 12.0% (on a simple average basis), which was less than the price movements of EO, EG and PP of approximately -15.0%, -19.0% and -14.4% respectively during the period under review as a result of certain global emergencies, which led to higher average market prices of upstream commodities/feedstocks on a relatively basis when comparing to downstream products and it erodes the overall gross profit margin of the Group; and 2) the demands from downstream markets as well as the general economy of PRC during the period under review still required more time to re-build and resume to levels and scales before COVID-19 after the lifting of strict prevention measures in relation to COVID-19 in December 2022.

Administrative expenses

Administrative expenses mainly consist of staff related costs, various local taxes and educational surcharge, depreciation, audit fee and miscellaneous expenses.

Notes to Condensed Consolidated Financial Information

1 CORPORATE INFORMATION

The Company was incorporated with limited liability in the Cayman Islands on 30 January 2009. The registered office address of the Company is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands.

The Company and its subsidiaries (the “Group”) was principally engaged in the manufacture and EO, EG, PP, methyl tert-butyl ether (“MTBE”) and surfactants in the PRC. The Group was also engaged in the provision of processing services for PP, MTBE and surfactants to its customers and the production and supply of other chemical products such as C4, crude pentene and industrial gases, namely oxygen, nitrogen and argon in the PRC. EO is a key intermediary component for the production of ethylene derivative products such as ethanolamines and glycol ethers and a wide range of surfactants. EG is a type of semi-finished goods that is used to produce other bio-organic chemical products such as mono ethylene glycol which is used to produce polyester and anti-frozen chemical liquids. PP is a kind of thermoplastic resin, which can be used in knitting products, injection molding products, film products, fiber products, pipes etc. Surfactants are widely applied in different industries as scouring agents, moisturising agents, emulsifiers and solubilisers. MTBE is a gasoline additive, used as an oxygenate to raise the octane number and is almost exclusively used as a fuel component in fuel for gasoline engines.

2.1 BASIS OF PRESENTATION AND PREPARATION

The Group’s unaudited interim condensed consolidated financial information for the six months ended 30 June 2023 has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 *Interim Financial Reporting*. The Group’s unaudited interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 December 2022. The unaudited interim condensed consolidated financial information has been prepared under the historical cost convention. These financial information is presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated. The Group’s unaudited interim condensed consolidated financial information has been reviewed by the audit committee of the Company.

Going concern assumption

As at 30 June 2023, the Group’s net current liabilities amounted to approximately RMB6,970,170,000. The liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflows from operations and sufficient financing to meet its financial obligations as and when they fall due. In preparing the financial information, the directors of the Company have considered the Group’s sources of liquidity and believe that adequate funding is available to fulfill the Group’s debt obligations and capital expenditure requirements. Accordingly, the interim condensed consolidated financial information has been prepared on a basis that the Group will be able to continue as a going concern.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2022, except for the adoption of the following new and revised Hong Kong Financial Reporting Standards ("HKFRSs") for the first time for the current period's financial information.

HKFRS 17	<i>Insurance Contracts</i>
Amendments to HKFRS 17	<i>Insurance Contracts</i>
Amendment to HKFRS 17	<i>Initial Application of HKFRS 17 and HKFRS 9 – Comparative Information</i>
Amendments to HKAS 1 and HKFRS Practice Statement 2	<i>Disclosure of Accounting Policies</i>
Amendments to HKAS 8	<i>Definition of Accounting Estimates</i>
Amendments to HKAS 12	<i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction</i>
Amendments to HKAS 12	<i>Hong Kong Tax Reform – Pillar Two Model Rules</i>

The nature and impact of the new and revised HKFRSs that are applicable to the Group are described below:

- (a) Amendments to HKAS 1 require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to HKFRS Practice Statement 2 provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. The Group has applied the amendments since 1 January 2023. The amendments did not have any impact on the Group's interim condensed consolidated financial information but are expected to affect the accounting policy disclosures in the Group's annual consolidated financial statements.
- (b) Amendments to HKAS 8 clarify the distinction between changes in accounting estimates and changes in accounting policies. Accounting estimates are defined as monetary amounts in financial statements that are subject to measurement uncertainty. The amendments also clarify how entities use measurement techniques and inputs to develop accounting estimates. The Group has applied the amendments to changes in accounting policies and changes in accounting estimates that occur on or after 1 January 2023. Since the Group's policy of determining accounting estimates aligns with the amendments, the amendments did not have any impact on the financial position or performance of the Group.
- (c) Amendments to HKAS 12 Deferred Tax related to Assets and Liabilities arising from a Single Transaction narrow the scope of the initial recognition exception in HKAS 12 so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences, such as leases and decommissioning obligations. Therefore, entities are required to recognise a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability for temporary differences arising from these transactions. The Group has applied the amendments on temporary differences related to leases as at 1 January 2022, with any cumulative effect recognised as an adjustment to the balance of retained profits or other component of equity as appropriate at that date. In addition, the Group has applied the amendments prospectively to transactions other than leases that occurred on or after 1 January 2022, if any.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(continued)*

(c) *(continued)*

Prior to the initial application of these amendments, the Group applied the initial recognition exception and did not recognise a deferred tax asset and a deferred tax liability for temporary differences for transactions related to leases. Upon initial application of these amendments, the Group recognised (i) a deferred tax asset for all deductible temporary differences associated with lease liabilities (provided that sufficient taxable profit is available), and (ii) a deferred tax liability for all taxable temporary differences associated with right-of-use assets as at 1 January 2022. The quantitative impact on the financial information is immaterial.

(d) Amendments to HKAS 12 Hong Kong Tax Reform — Pillar Two Model Rules introduce a mandatory temporary exception from the recognition and disclosure of deferred taxes arising from the implementation of the Pillar Two model rules published by the Organisation for Economic Co-operation and Development. The amendments also introduce disclosure requirements for the affected entities to help users of the financial statements better understand the entities' exposure to Pillar Two income taxes, including the disclosure of current tax related to Pillar Two income taxes separately in the periods when Pillar Two legislation is effective and the disclosure of known or reasonably estimable information of their exposure to Pillar Two income taxes in periods in which the legislation is enacted or substantively enacted but not yet in effect. Entities are required to disclose the information relating to their exposure to Pillar Two income taxes in annual periods beginning on or after 1 January 2023, but are not required to disclose such information for any interim periods ending on or before 31 December 2023. The Group has applied the amendments retrospectively. Since the Group did not fall within the scope of the Pillar Two model rules, the amendments did not have any impact to the Group.

3 SEGMENT INFORMATION

18 BUSINESS COMBINATION

In May 2023, the Group entered into a share transfer agreement with its joint operation, Lotte Sanjiang Chemical Co., Ltd. (“**Sanjiang Lotte**”) and its another shareholder, Lotte Chemical Corporation (“**Seller**”), to acquire an additional 50% interest in Sanjiang Lotte at zero cash consideration. The acquisition was completed on 20 June 2023 when the Group obtained control of the operating and financial activities of Sanjiang Lotte. After the acquisition, the Group’s aggregate shareholding interest in Sanjiang Lotte increased from 50% to 100% and Sanjiang Lotte became a wholly-owned subsidiary of the Group.

18 BUSINESS COMBINATION *(continued)*

The fair values of the identifiable assets and liabilities of Sanjiang Lotte as at the date of acquisition were as follows:

	Fair value recognised on acquisition RMB'000
Cash and cash equivalents	4,256
Notes receivable	8,000
Inventories	17,632
Prepayments and other receivables	346
Property, plant and equipment	184,362
Intangible asset	62
Trade payables	(1,760)
Due to related parties	(42,850)
Other payables and accruals	(2,910)
Total identifiable net assets at fair value	167,138
Gain from bargain purchase	(83,569)
Fair value of 50% interest in the joint operation previously held	83,569
Satisfied by cash	—

Gain from acquisition of Sanjiang Lotte mainly consisted of i) the waiver of 50% bank loan of RMB114,696,000, which should be beared by the Group according to the joint operation arrangement and was repaid by the Seller for the Group; and ii) bargain purchase arising from difference between zero cash consideration and fair value of identifiable net assets acquired. Given the business model, physical location and setup of the joint operation, the Group is the only available buyer for the 50% equity interest of Sanjiang Lotte that the Seller could reach in a short time. In order to exist the investment in Sanjiang Lotte, the Seller agreed to repay bank loans for the Group, which was one of these terms and conditions of the acquisition. So the Group recorded gains derived from this acquisition of RMB198,265,000 in total.

The assessment of the fair value of the identifiable assets and liabilities of Sanjiang Lotte is still undergoing and the information of the fair values of the identifiable assets and liabilities is provisional at the date of the interim condensed consolidated financial information. The finalised information will be disclosed in the consolidated financial statements of the Group for the year ending 31 December 2023.

An analysis of the cash flows in respect of the acquisition of Sanjiang Lotte is as follows:

	RMB'000
Cash consideration paid to the then shareholder	—
Cash received from the Seller	114,696
Deemed disposal of 50% interest in the joint operation	(2,128)
Cash and bank balances acquired	4,256
Net inflow of cash and cash equivalents included in cash flows from investing activities	116,824

Since the acquisition, Sanjiang Lotte contributed nil to the Group's revenue and nil to the consolidated profit for the period ended 30 June 2023.

Had the combination taken place at the beginning of the period, the revenue of the Group and the loss of the Group for the period would have been RMB4,591,853,000 and RMB9,372,000, respectively.

SHARE AWARD PLAN

The Company adopted a share award plan on 31 March 2011 (the “**Share Award Plan**”). The purposes of the Share Award Plan are to recognise and reward the contribution of certain eligible employees for the growth and development of the Group, to give incentives thereto in order to retain them for the continual growth and development of the Group, and to attract suitable personnel for further development of the Group. The eligible employees include any employee (whether full time or part time, including any executive director) of the Company, any subsidiary or any invested entity.

The Share Award Plan will be valid and effective for a term of 50 years commencing on the date on which the Share Award Plan was adopted.

Under the rules of the Share Award Plan (the “**Plan Rules**”), the Share Award Plan will be subject to the administration of the board or the plan administrator, who is authorised by the board to render supports in all respects to the Board in connection with the implementation of the Share Award Plan, whose decisions on all matters arising in relation to the Share Award Plan or its interpretation or effect shall be final, conclusive and binding on all persons who may be affected thereby.

The Group has appointed a trustee (the “**Trustee**”) for the purposes of administering the Share Award Plan. The Trustee will be notified by the directors in writing upon making an award to an eligible employee under the Share Award Plan. Upon the receipt of such notice, the Trustee will set aside the appropriate number of awarded shares out of a pool of shares comprising the following:

- (A) such shares as may be (i) transferred to the Trustee from any person (other than the Group) by way of gift, or (ii) purchased by the Trustee on the Stock Exchange by utilising the funds received by the Trustee from any person (other than the Group) by way of gift;
- (B) such shares as may be purchased by the Trustee on the Stock Exchange by utilising the funds allocated by the board out of the Company’s resources;
- (C) such shares as may be subscribed for at par value by the Trustee by utilising the funds allocated by the board out of the Company’s resources; and
- (D) such shares which remain unvested and reverted to the Trustee.

The legal and beneficial ownership of the relevant awarded shares shall vest in the relevant selected employee within 10 business days after the later of: (a) the earliest vesting date as specified in the award notice to which such award relates; and (b) where applicable, the date on which the conditions or performance targets (if any) to be attained by such selected employee as specified in the related award notice have been attained and notified to the Trustee by the board in writing.

Under the Plan Rules, the employees of the Group shall not have any right to receive any shares awarded to them under the Share Award Plan and all other interests attributable thereto unless and until the Trustee has transferred the legal and beneficial ownership of such awarded shares to them and the legal and beneficial ownership of those awarded shares vested in them. When the participant ceased to be the Group’s employee, the unvested shares would be retained by the Trustee.

In accordance with the Plan Rules, the total number of shares available for issue under the share award plan of the Company should not exceed 5% of the total number of issued shares as at the beginning of any financial year, being 59,500,000 shares of the Company for the year ended 31 December 2022.

In accordance with the Plan Rules, the maximum entitlement of any selected employee shall not exceed the difference between (A) the total number of Shares held under the pool of Shares and (B) the aggregate number of (i) the Shares which have been provisionally awarded under the share award plan of the Company; and (ii) the Shares which are proposed to be considered and approved at the same meeting to be provisionally awarded to other selected employees.

As at 30 June 2023, the total number of Shares held under the pool of Shares were 22,424,000. Accordingly, the maximum entitlement of any one selected employee under the share award plan of the Company will be 22,424,000 Shares, representing approximately 1.88% of the issued Shares of the Company.

In accordance with the Plan Rules, the vesting period of any awarded shares to any selected employee shall be within ten (10) Business Days after the latest of: (i) the earliest date specified by the Board on which the Trustee may vest the legal and beneficial ownership of the award shares in the relevant selected employee; and (ii) where applicable, the date on which the condition(s) or performance target(s) (if any) to be attained by such selected employee as specified in the related award notice have been attained and notified to the Trustee by the Board in writing. No amount is payable on the acceptance of an award.

During any particular financial year, the Board shall at the beginning of such financial year determine the maximum amount of the contribution to be allocated to the Trustee for the purchase of Shares to constitute the pool of shares to be held by the Trustee. The Trustee shall purchase the Shares at the prevailing market price and in off-market transactions, the purchase price shall not be higher than the lower of the following: (i) the closing market price on the date of such purchase, and (ii) the average closing market price for the five preceding trading days on which the Shares were traded on the Stock Exchange.

The fair value of services received in return for shares granted is measured by reference to the fair value of shares granted. The fair value of the shares granted is measured at the grant date at the market value of the shares, adjusted for the exclusion of expected dividends to be received in the vesting period.

The following awarded shares were outstanding under the Share Award Plan during the year/period:

	Number of shares purchased and held for the Share Award Plan	Number of awarded shares
At 1 January 2021	17,622,000	—
Purchased and withheld	4,802,000	—
At 31 December 2021	22,424,000	—
At 1 January 2022 and at 31 December 2022	22,424,000	—
At 1 January 2023 and at 30 June 2023	22,424,000	—

No share award plan expense was charged to the condensed consolidated statement of profit or loss during the six months ended 30 June 2023 (30 June 2022: Nil).
