1. Basis of preparation

These condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

In the current period, the Group has adopted all the new and revised HKFRSs issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 January 2023. The adoption of these new and revised HKFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's financial statements and amounts reported for the current period and prior years.

The following new and amended standards and interpretations are adopted for the first time for financial year beginning 1 January 2023:

In view of the highly unpredictable business environment, we are evaluating different business segments within the Group and reposition our strategy and business operation in more optimistic business segments. During the period under review, the Group has obtained the licenses of Types 4 and 9 issued by the Securities and Futures Commission for operating a virtual asset trading platform. It is expected that the Group will deploy more resources in developing the business of the asset management in the future.

The Group will continue to seek potential investment and business opportunities for broadening its income stream and further development of the existing business segments.

MANAGEMENT DISCUSSION AND ANALYSIS

For the six months ended 30 June 2023, the Group recorded a revenue of approximately HK\$40.8 million which represented a decrease of approximately 37.2% as compared to the corresponding figure for the six months ended 30 June 2022.

The gross profit for the period under review was approximately HK\$6.8 million as compared to approximately HK\$5.8 million for the previous period.

During the six months ended 30 June 2023, the sales of clothes and beauty products business continued to contribute a significant percentage to our revenue. We continue to be optimistic at this business segment and will capture more market opportunities as and when appropriate. On the other hand, the sales and marketing of electronic equipment and related products was still an important source of income of the Group. In addition, the financial arm of the Group comprising of securities brokerage, placing and underwriting business and money lending business also contributed the revenue to the Group during the period. Details please refer to note 3.

LIQUIDITY AND FINANCIAL RESOURCES

As compared with 31 December 2022, the decrease in current ratio from 3.60 to 3.36 was mainly due to decrease in the financial assets at FVTPL as at 30 June 2023.

As at 30 June 2023, the Group had cash on hand of approximately HK\$32.7 million, current assets of approximately HK\$259.2 million, total assets of approximately HK\$259.6 million and shareholders' equity of approximately HK\$182.2 million.

GEARING RATIO

As at 30 June 2023, the Group generally financed its operations through internally-generated cash flows, shareholders equity and external bank loan and borrowings. The gearing ratio was approximately 1.0% as at 30 June 2023 (31 December 2022: approximately 1.1%).

CAPITAL STRUCTURE

As at 30 June 2023, the authorised share capital of the Company was HK\$600,000,000, which divided into 100,000,000,000 shares of HK\$0.006 each. The authorised share capital had no change during the period.

EXCHANGE RATE

Most of sales in the current period were denominated in United States dollars, whilst the majority of the Group's expenses were denominated in United States dollars, Renminbi and Hong Kong dollars. Although the Group currently does not maintain any hedging policy to hedge against foreign exchange exposure that may arise from the above transactions, the management team continuously assess the foreign currency exposure, with an aim to minimize the impact of foreign exchange fluctuation on the Group's business operations.
