A. *Distributorship*

For the six months ended 30 June 2023, the increase in revenue was primarily due to the recovery of sales, especially in the medium end wine products, resulting from the normalisation of consumption scenes and resumption of consumer sentiment in the PRC after the dismantlement of pandemic control measures at the end of last year.

Management Discussion and Analysis

Supplies of Grapes and Grape Juice

Production of quality wines greatly depends on a sufficient supply of quality grapes or grape juice. Currently, the Group has more than 10 major grape juice suppliers with whom the Group has enjoyed long-term relationship, mainly located in Tianjin, Hebei, Ningxia and Xinjiang. Ensuring reliable supplies of quality grapes and grape juice to meet the production needs of the Group's growing business is a high priority of the Group. Thus, the Group continues to actively work with vignerons to expand their existing vineyards in order to enjoy better economies of scale and equip their vineyards with state-of-the-art techniques for assuring quality. For super and ultra-premium wines, vignerons have adopted a disciplined approach to limiting harvest yields in order to deliver higher quality grapes. To optimise the supply network, the Group kept identifying new suppliers that comply with the quality requirements, and the Group conducted thorough tests on their grape juices before orders were placed. These procedures ensure the Group to procure quality grapes and grape juice supplies and also minimise the effect of bad harvests interrupting production. The Group also strengthened presence by subsidiaries set up in Ningxia and Xinjiang during the period under review targeted to enhance the supply and procurement of quality grapes and grape juice in those regions with premium vineyards.

During the period, the Group sourced and planned to increase the direct sourcing of quality grapes harvested from Ningxia and Xinjiang regions, in addition to Tianjin region, and processing of grape juices locally in accordance with the guidance and advices provided by the Group in the process of pressing which can also better ensure that the quality and freshness of grape juice (including unprocessed wines) meets the Group's standard.
