To accomplish this, our Company intends to comply with Corporate Governance Code set out in Appendix 14 to the Listing Rules and the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 to the Listing Rules after the [REDACTED].

Pursuant to code provision C.2.1 of the Corporate Governance Code, companies listed on the Stock Exchange are expected to comply with, but may choose to deviate from the requirement that the responsibilities between Chairman and Chief Executive Officer should be segregated and should not be performed by the same individual. We do not have a separate Chairman and Chief Executive Officer and Dr. Dai currently performs these two roles. Dr. Dai has assumed the role of Chief Executive Officer of our Company since 2015. He has extensive experience in the business operations and management of our Group and in the AI industry. The Board also believes that vesting the roles of both Chairman and Chief Executive Officer in the same person has the benefit of (i) ensuring consistent leadership within the Group, (ii) enabling more effective and efficient overall strategic planning and execution of strategic initiatives of the Board, and (iii) facilitating the flow of information between the

management and the Board for the Group. The Board considers that the balance of power and authority for the present arrangement will not be impaired, and this arrangement will enable the Company to make and implement decisions promptly and effectively. The Board will continue to review and consider splitting the roles of Chairman of the Board and Chief Executive Officer of the Company at a time when it is appropriate by taking into account the circumstances of the Group as a whole.

Save as disclosed above, our Directors consider that upon [REDACTED], we will comply with all applicable code provisions of the Corporate Governance Code as set out in Appendix 14 to the Listing Rules.

BOARD DIVERSITY POLICY

We are committed to promoting the culture of diversity in the Company. We have strived to promote diversity to the extent practicable by taking into consideration a number of factors in our corporate governance structure.

We have adopted the board diversity policy (the “**Board Diversity Policy**”) which sets out the objective and approach to achieve and maintain diversity of our Board in order to enhance the effectiveness of our Board. Pursuant to the board diversity policy, we seek to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, race, cultural background, educational background, industry experience and professional experience. Our Directors have a balanced mix of knowledge and skills, including knowledge and experience in the areas of business management, computer science, AI technology, legal, economics, investment and accounting. They obtained degrees in various areas including computer science, law, economics, mathematics, astrophysics, finance. Our board diversity policy is well implemented as evidenced by the fact that there are Directors ranging from 32 years old to 61 years old with experience from different industries, sectors and genders.

We will continue to take steps to promote gender diversity at all levels of our Company, including but not limited to our Board and the senior management levels. We will encourage our incumbent Board members to recommend female candidate directors and take other actions to help achieve greater board diversity, for example inviting some of our outstanding female staff at mid to senior level to attend and observe Board meeting. This will allow our Board to understand more about these potential female candidates before they are nominated to our Board and provide opportunities for potential female candidates to prepare themselves for director duties. We will also continue to ensure that there is gender diversity when recruiting staff at mid to senior level so that we will have a pipeline of female senior management and potential successors to our Board in due time to ensure gender diversity of our Board. Our Group will continue to emphasize training of female talent and providing long-term development opportunities for our female staff including but not limited to business operation, management, accounting and finance, legal and compliance. As such, we are of the view that our Board will be offered chances to identify competent female staff at mid to senior level to be nominated as a Director in future with a pipeline of female candidates.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

We are committed to adopting a similar approach to promote diversity within management (including but not limited to the senior management) of the Company to enhance the effectiveness of corporate governance of the Company as a whole.

Our Nomination Committee is responsible for ensuring the diversity of our Board members. After the [REDACTED], our Nomination Committee will review the board diversity policy from time to time, develop and review measurable objectives for implementing the policy, and monitor the progress on achieving these measurable objectives to ensure its continued effectiveness. We will disclose in our corporate governance report about the implementation of the board diversity policy on an annual basis.
