Broad reach of end-user base with established stable business partnerships

Leveraging our technology platforms highlighted by the Hetu (河圖) and Luoshu (洛書) systems, data analysis capabilities and user insights to operate game products based on internal test results, we are able to accurately simulate the actual performance of our marketing campaigns, thus providing precise recommendations of the game products to a large base of end-users with a higher chance of conversion.

Management Discussion and Analysis

BUSINESS REVIEW AND OUTLOOK

As a publisher of online game products in China, in the first half of 2023, we continued to devote to marketing and operating online games (in particular mobile games) in China. The online games developed by our clients and marketed and operated by us are delivered to players under the “Tan Wan” brand (貪玩遊戲). During the Reporting Period, we had successfully launched 35 new games. As of June 30, 2023, we have operated over 330 game products, and the game products we marketed and operated had accumulated 432.9 million registered users. During the Reporting Period, we achieved an average MAU of 8.7 million for the game products we marketed and operated and the ARPPU of all the game products we marketed and operated was RMB509.4.

During the Reporting Period, we continued to enhance our core capabilities in marketing and operating game products. Gross profit margin for game products operated under the self-run model remained relatively stable at 95.4% and 95.2% for the six months ended June 30, 2022 and 2023, respectively. Gross profit margin for the game products operated under the joint-run model decreased from 19.3% for the six months ended June 30, 2022 to 16.4% for the six months ended June 30, 2023, primarily due to an increase in the portion of gross billings withheld by collaborating distribution channels.

In addition to game products, we also provide marketing services in relation to online literature products. For the six months ended June 30, 2023, revenue generated from other marketing business was RMB49.3 million, representing a significant increase of 135.9% from RMB20.9 million for the six months ended June 30, 2022.

Furthermore, the end-user insights we accumulate allow us to spot other needs of end-users. We have developed our own consumer product brands in new consumption scenarios, including the instant food brand “Zha Zha Hui” (渣渣灰) and pop toy brand “Bro Kooli.” For the six months ended June 30, 2023, revenue generated from consumer products business was RMB126.8 million, representing an increase of 89.9% from RMB66.8 million for the six months ended June 30, 2022.

Our Game Product Portfolio

We run our online game publishing business primarily through two operation models, namely the self-run model and joint-run model, where such categorization depends on whether the end-user acquisition for the game product we market and operate is solely performed by us through utilizing the marketing strategies formulated by our Hetu (河圖) and Luoshu (洛書) technology platforms. We measure the performance of the game products we marketed and operated as a whole by the following key operating metrics: (i) average MAUs, (ii) average MPUs, (iii) average monthly ARPPU, and (iv) total number of cumulative registered end-users. The following table sets forth these operating metrics for the periods/as of the dates indicated.

	For the six months ended June 30,	
	2023	2022
Average MAUs (in thousands)	8,678.6	9,352.2
Average MPUs (in thousands)	1,054.8	1,767.8
Average monthly ARPPU (RMB)	509.4	419.3
	<hr/>	
	As of	
	June 30, 2023	December 31, 2022
Number of cumulative registered end-users ⁽¹⁾ (in millions)	432.9	356.1
	<hr/>	

Note:

- (1) The number of cumulative registered end-users is calculated on the basis of the number of registered accounts on file as of the end of each period.

Management Discussion and Analysis

We continue investing in improving and expanding our portfolio of game products. As such, we have established a pipeline that we deem viable for future precision marketing, in-depth operation and brand development. As of June 30, 2023, we had 73 game products in our game pipeline.

OUTLOOK

Looking forward, we will continue to enhance and expand online game publishing business and other marketing business and will continue to expand our product portfolio, identify products with high monetization potentials, diversify the end-user base and deepen content development of popular game products with potential for a longer lifecycle. We also aim to continue enhancing our intelligence technologies and invest in technology and innovation in fields such as digital marketing, AI-powered intelligent engagement, home brands and content development. We will also continue broadening our brand development capabilities and diversifying our sources of income, particularly through “Zha Zha Hui” and “Bro Kooli” and further advancing their full lifecycle value chain and deepening the cooperation with other major market participants, including developers of game products and media platforms.

FINANCIAL REVIEW

	2023		2022	
	RMB'000 (Unaudited)	%	RMB'000 (Unaudited)	%
Online Game Publishing Business and Other Marketing Business				
Game products operated under the self-run model	2,118,937	62.3%	3,261,892	71.9%
Game products operated under the joint-run model	1,105,104	32.5%	1,186,141	26.2%

<i>Subtotal</i>	3,273,292	96.2%	4,468,903	98.6%

Total	3,400,091	100.0%	4,535,674	100.0%

We recorded revenue of RMB3,400.1 million for the six months ended June 30, 2023, representing a decrease of 25.0% from RMB4,535.7 million for the six months ended June 30, 2022. The decrease was primarily due to a decrease in revenue generated from the online game publishing business.

Online Game Publishing Business and Other Marketing Business

Revenue generated from the game products we market and operate under the self-run model decreased by 35.0% from RMB3,261.9 million for the six months ended June 30, 2022 to RMB2,118.9 million for the six months ended June 30, 2023, primarily due to (i) the delay in the launch of certain new game products under this model, and (ii) certain existing game products entering into a later stage of their lifecycle, which typically result in a significant decrease of revenue generated under the self-run model. The delay in launching new game products in the first half of 2023 was a result of an extended R&D cycle for such new game products through ongoing collaboration with game developers, enabling us to improve and optimize games based on testing performance and the dynamics of the overall game market.

Revenue generated from the game products we market and operate under the joint-run model decreased by 6.8% from RMB1,186.1 million for the six months ended June 30, 2022 to RMB1,105.1 million for the six months ended June 30, 2023, primarily due to the decrease of revenue generated from the launch, marketing and operation of new game products under this model as a result of the delay in the launch of certain new game products under this model, partially offset by the increase of revenue generated from certain existing game products under this model.

Management Discussion and Analysis

Revenue generated from other marketing business, primarily revenue from provision of marketing online literature products, increased significantly by 135.9% from RMB20.9 million for the six months ended June 30, 2022 to RMB49.3 million for the six months ended June 30, 2023, which was generally in line with the Group's efforts to export its core capabilities to sectors beyond game products.

Consumer Product Business

Revenue generated from consumer products business, primarily including sales of our private-label and local-flavor rice noodle products and other fast consumer foods under the brand "Zha Zha Hui", increased by 89.9% from RMB66.8 million for the six months ended June 30, 2022 to RMB126.8 million for the six months ended June 30, 2023 as a result of the Group's continuous efforts to promote and enhance its consumer product business.

Cost of Sales

The Group's cost of sales remained relatively stable at RMB1,144.5 million and RMB1,106.0 million for the six months ended June 30, 2022 and 2023, respectively.

Gross Profit and Gross Profit Margin

As a result of the foregoing, the Group's total gross profit decreased by 32.4% from RMB3,391.2 million for the six months ended June 30, 2022 to RMB2,294.1 million for the six months ended June 30, 2023.

The Group's gross profit margin decreased from 74.8% for the six months ended June 30, 2022 to 67.5% for the six months ended June 30, 2023, primarily due to the increase in our revenue generated from game products operated under the joint-run model (which generally had a lower gross profit margin) as a percentage of our total revenue.

Gross profit margin for game products operated under the self-run model remained relatively stable at 95.4% and 95.2% for the six months ended June 30, 2022 and 2023, respectively. Gross profit margin for the game products operated under the joint-run model decreased from 19.3% for the six months ended June 30, 2022 to 16.4% for the six months ended June 30, 2023, primarily due to an increase in the portion of gross billings withheld by collaborating distribution channels. Gross profit margin for the consumer product business decreased from 43.6% for the six months ended June 30, 2022 to 38.1% for the six months ended June 30, 2023, as a result of the increase of procurement costs for our rice noodle products in the first half of 2023.

Other Income and Gains

Other income and gains increased by 90.7% from RMB202.6 million for the six months ended June 30, 2022 to RMB386.3 million for the six months ended June 30, 2023, primarily due to an increase in investment income from disposal of financial assets at fair value through profit or loss.

Selling and Distribution Expenses

The Group's selling and distribution expenses decreased by 34.9% from RMB3,000.6 million for the six months ended June 30, 2022 to RMB1,953.2 million for the six months ended June 30, 2023, primarily due to a decrease in marketing and promotion expenses, as certain game products entered into a later stage of their lifecycle, and therefore did not require significant marketing and promotion resources.

Administrative Expenses

The Group's administrative expenses increased by 101.9% from RMB63.2 million for the six months ended June 30, 2022 to RMB127.6 million for the six months ended June 30, 2023, primarily due to (i) an increase of RMB44.1 million in share-based compensation resulting from the new grant pursuant to the Pre-IPO Share Option Plan; and (ii) an increase of RMB12.9 million in listing expenses incurred in relation to the Global Offering.

Management Discussion and Analysis

R&D Costs

The Group's R&D costs increased by 22.8% from RMB70.6 million for the six months ended June 30, 2022 to RMB86.7 million for the six months ended June 30, 2023, primarily due to an increase of RMB21.4 million in share-based compensation resulting from the new grant pursuant to the Pre-IPO Share Option Plan.

Other Expenses

The Group's other expenses increased significantly from RMB1.4 million for the six months ended June 30, 2022 to RMB3.8 million for the six months ended June 30, 2023, primarily due to an increase in donations.

Finance Costs

The Group's finance costs remained relatively stable at RMB52.9 million and RMB53.4 million for the six months ended June 30, 2022 and 2023, respectively.

Share of Profits and Losses of Joint Ventures

The Group recorded a gain of RMB2.2 million for the six months ended June 30, 2023, compared to a gain of RMB5.8 million for the six months ended June 30, 2022, as the Group's share of profits and losses of joint ventures, primarily attributable to a decrease in the gain recorded by our joint venture company, Zhejiang Xuwan Technology Co., Ltd. (浙江旭玩科技有限公司) in 2023.

Share of Profits and Losses of Associates

The Group recorded a loss of RMB13.3 million for the six months ended June 30, 2023, compared to a loss of RMB10.9 million for the six months ended June 30, 2022, as our share of profits and losses of associates, primarily due to an increase in the loss recorded by our associate company, Hangzhou Shengxu Miracle Network Technology Co., Ltd. (杭州盛旭奇跡網絡科技有限公司) in 2023.

Income Tax Expense

The Group recorded income tax expense of RMB61.1 million and RMB142.4 million for the six months ended June 30, 2022 and 2023, respectively. The increase was primarily attributable to an increase of RMB72.6 million in current tax expense, mainly due to upward adjustments in our preferential tax rates pursuant to the applicable policies.

Profit for the Period

As a result of the foregoing, the Group's net profit decreased by 11.1% from RMB337.7 million for the six months ended June 30, 2022 to RMB300.3 million for the six months ended June 30, 2023.

Adjusted profit for the period

To supplement our consolidated financial statements, which are presented in accordance with HKFRSs, we also use the adjusted profit (Non-HKFRS measure) as an additional financial measure, which is not required by, or presented in accordance with, HKFRSs. We believe that the presentation of non-HKFRS measure facilitates comparisons of operating performance from period to period and provides useful information to investors and others to understand and evaluate our consolidated results of operations in the same manner as our management by eliminating potential impacts of items. We also believe that the non-HKFRS measure are appropriate for evaluating our operating performance. The use of this non-HKFRS measure has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for analysis of, our results of operations or financial conditions as reported under HKFRS. In addition, this non-HKFRS measure may not be comparable to similar measures presented by other companies.

We define the adjusted profit (Non-HKFRS measure) as the profit for the period, excluding share-based compensation and listing expenses. Share-based compensations are non-cash in nature and do not result in cash outflow, and the adjustment has been consistently made as in the Prospectus. In addition, we exclude listing expenses, as this item arises from activities relating to the Listing. For the six months ended June 30, 2022 and 2023, we recorded adjusted profit (non-HKFRS measure) of RMB345.1 million and RMB433.1 million, respectively.

Management Discussion and Analysis

Trade Receivables

Trade receivables primarily consist of outstanding amounts payable by collaborating distribution channels under the joint-run model in the ordinary course of business. Our net trade receivables decreased by 36.2% from RMB426.8 million as of December 31, 2022 to RMB272.5 million as of June 30, 2023, primarily as a result of the settlement of certain trade receivables which were due.

Trade Payables

Trade payables primarily consist of (i) a portion of gross billing payable to the game developers in connection with end-users' in-game purchases of the products for which the Group provides precision marketing, in-depth operation and brand development services; and (ii) payables to the suppliers, such as server custody service providers and suppliers for the consumer product business. The Groups' trade payables decreased by 7.9% from RMB523.6 million as of December 31, 2022 and RMB482.4 million as of June 30, 2023, mainly due to a decrease in payables to game developers.

Bills Payables

Bills payables primarily consist of bank acceptance bills and letter of credit made in the ordinary course of our business, mainly attributable to payables to game developers and to collaborating media platforms for marketing and promotion activities. The Group's bills payables decreased by 6.8% from RMB5,640.2 million as of December 31, 2022 to RMB5,256.0 million as of June 30, 2023, mainly due to a decrease in payables to game developers and advertising agencies.

Investment in Associates

The Group's investment in associates increased from RMB6.0 million as of December 31, 2022 to RMB258.3 million as of June 30, 2023 mainly due to our investment in Jiaxing Xukai Enterprise Management Partnership (Limited Partnership) (嘉興旭愷企業管理合夥企業(有限合夥)) ("Jiaxing Xukai"). With an aim to invest in companies with significant growth potential in the digital mobile game industry, in June 2023, we, together with two independent third parties, namely Shanghai Shengyi Network Technology Co., Ltd. (上海盛薏網絡科技有限公司) and Shanghai Jiale Network Technology Co., Ltd. (上海佳樂網絡科技有限公司), as limited partners and an independent third party, namely Shanghai Erta Network Technology Co., Ltd. (上海爾塔網絡科技有限公司), as general partner, established Jiaxing Xukai. We invested approximately RMB235.2 million for 42% limited partnership interest in Jiaxing Xukai. As of June 30, 2023, Jiaxing Xukai held approximately 1.07% of the total issued shares of Zhejiang Century Huatong Group Co., Ltd. (浙江世紀華通集團股份有限公司) ("Century Huatong"), a listed company on the Shenzhen Stock Exchange (SZSE: 002602).

Liquidity and Capital Resources

The Group monitored and maintained a level of cash and cash equivalents deemed adequate to finance its operations and mitigate the effects of fluctuations in cash flows. During the Reporting Period, the Group funded its cash requirements principally from cash generated from operating activities. As of June 30, 2023, the Group had cash and cash equivalents of RMB427.0 million, representing cash and bank balance, net of restricted cash. Cash and cash equivalents were held in RMB, HK dollars and US dollars. Going forward, the Group believes that its liquidity requirements will be satisfied by using a combination of cash generated from operating activities, funds raised from the capital markets from time to time and the net proceeds received from the Global Offering. The Group currently does not have any other plans for material additional external financing.

Bank Borrowings

As of June 30, 2023, the Group had interest-bearing bank and other borrowings of RMB351.0 million. The Group's interest-bearing bank and other borrowings were discounted bills and bank loans provided by commercial banks to the Group, both of which were fully secured by pledges during the ordinary course of business. The interest-bearing bank and other borrowings were denominated in RMB and bear interests at 1.3% to 2.8% per annum.

Gearing Ratio

The Group monitored its capital sufficiency using gearing ratio. As of June 30, 2023 and December 31, 2022, the Group's gearing ratio (total debt (including interest-bearing bank borrowings and lease liabilities) as a percentage of total equity) as of the end of the Reporting Period) was 0.26 and 0.45, respectively.

Significant Investments, Material Acquisitions and Disposals

As of June 30, 2023, the Group held an aggregate of RMB607.2 million of listed equity investments at fair value in Century Huatong, representing 6.4% of the Group's total assets as of June 30, 2023. The Group held 80,000,000 shares in Century Huatong, representing approximately 1.07% of its total issued shares, and the investment cost was RMB585.9 million. During the Reporting Period and up to June 30, 2023, the accumulated unrealized fair value gain from such investment amounted to RMB21.3 million. No dividend was received from such investment during the Reporting Period.

Management Discussion and Analysis

Century Huatong is engaged in automobile components, internet game and artificial intelligence businesses. The Group's investment in Century Huatong is for strengthening strategical alliance with a major player in the digital entertainment industry chain. By Order of the Board

Mr. WU Xubo

Chairman

Independent Review Report

To the board of directors of ZX Inc.

(Incorporated in Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial information set out on pages 19 to 40, which comprises the condensed consolidated statement of financial position of ZX Inc. (the “**Company**”) and its subsidiaries (the “**Group**”) as at 30 June 2023 and the related condensed consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period then ended, and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 *Interim Financial Reporting* (“**HKAS 34**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 (“**HKSRE 2410**”) *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the HKICPA. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.

The Group recorded net current liabilities of RMB1,765,879,000 as at 30 June 2023, which was primarily due to certain of the Group’s interest-bearing bank borrowings and bills payables being secured by long term fixed deposits of RMB3,033,575,000 that can be used to settle the Group’s current liabilities before maturity. The directors of the Group have given careful consideration to the future liquidity and performance of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern. Taking into account the long term fixed deposits available to the Group and the internally generated funds from operations, the directors believe that the Group has sufficient cash flows in the foreseeable future to enable it to continue its operations and meet its liabilities as and when they fall due. Therefore, the interim condensed consolidated financial information has been prepared on a going concern basis.

After Fujian Higher People's Court accepted the case in April 2021, all defendants raised objections to jurisdiction. In February 2023, the Fujian Provincial Higher People's Court rejected the defendants' objection to jurisdiction in the case. In March 2023, the Group filed an appeal against the above ruling. In July 2023, the Supreme People's Court ruled to reject the appeal and maintain the original ruling, and the case continues to be heard by the Fujian Higher People's Court. The directors of the Company, based on the advice from the Company's legal counsel and the progress of the case, believe that the ultimate outcome of this litigation cannot be reliably estimated.

19. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

As at 30 June 2023 and 31 December 2022, the fair values of the Group's financial assets or liabilities approximated to their respective carrying amounts.

Management has assessed that the carrying amounts of cash and cash equivalents, pledged deposits, trade receivables, amounts due from related parties, financial assets included in prepayments, other receivables and other assets, trade payables, amounts due to related parties, financial liabilities included in other payables and accruals, and discounted bills reasonably approximate to their fair values because these financial instruments are mostly short term in nature.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The directors review the results of the fair value measurement of financial instruments periodically for annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of the non-current portion of lease liabilities, non-current portion of pledged deposits and non-current portion of time deposit have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The changes in fair value as a result of the Group's own non-performance risk for lease liabilities as at the end of each of the reporting period were assessed to be insignificant.

The Group has unlisted investments, which represent wealth management products issued by banks in Mainland China. The Group has estimated the fair values of these unlisted investments by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

The fair values of listed equity investments are based on quoted market prices.

For the fair value of the unlisted equity investments, management has estimated the potential effect of using reasonably possible alternatives as inputs to the valuation model.
