Tsim Sha Tsui Properties Limited (“Tsim Sha Tsui Properties” or the “Company”) is pleased to present this financial year’s Sustainability Report (the “Report”), covering the period from 1 July 2022 to 30 June 2023. This Report outlines the environmental, social and governance (“ESG”) policies, initiatives and performance of the Company and its subsidiaries (collectively, the “Group”). The operations under Sino Land Company Limited (“Sino Land”) represent a substantial portion of the operations of the Group as a whole. Therefore, for discussion purposes, this Report focuses on the sustainability performance and initiatives of Sino Land, including its headquarters, managed properties and construction sites in Hong Kong, as well as the hotels under The Fullerton Hotels and Resorts in Hong Kong, Singapore and Sydney.

This Report has been prepared in accordance with the Global Reporting Initiative (“GRI”) Standards, which were updated in 2021, and in conjunction with the GRI G4 Construction and Real Estate Sector disclosures. It also addresses the requirements outlined in the Environmental, Social and Governance Reporting Guide under Appendix 27 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“HKEX ESG Reporting Guide”), the World Economic Forum (“WEF”) Stakeholder Capitalism Metrics and the Sustainability Accounting Standards Board (“SASB”) Standard for the Real Estate sector. In addition, our climate actions are disclosed with reference to the Task Force on Climate-related Financial Disclosures (“TCFD”) recommendations. As a signatory to the United Nations Global Compact (“UNGC”), we also disclose how Sino Land is implementing the UNGC’s Ten Principles regarding environmental, social and ethical practices.

This year, for the first time our nature-related risks are disclosed with reference to the Taskforce on Nature-related Financial Disclosures (“TNFD”) framework. The Report is also prepared with reference to the International Sustainability Standards Board’s (“ISSB”) new IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures published in June 2023. Methodologies and reporting scope adopted for the preparation of this Report are consistent with previous years unless otherwise stated.

Message from the Chairman of the ESG Steering Committee

環境、社會及管治督導委員會主席寄語

At Sino, we have a firm belief that businesses have a key role to play in promoting decarbonisation and contributing to a sustainable built environment.

Climate resilience has been one of the global hot topics in recent years with scientific data showing temperatures of Planet Earth steadily on the rise and at the same time concerted efforts, solutions and calls-to-action such as Business Ambition for 1.5°C and commitment to net zero carbon.

At Sino, we have a firm belief that businesses have a key role to play in promoting decarbonisation and contributing to a sustainable built environment. Sustainability is integral to our business and operations through our Value Creation Framework. Following the announcement of our Sustainability Vision 2030, which now includes 38 goals covering crucial areas like decarbonisation, climate resilience, renewable energy, plastic reduction, green building certification and innovative solutions after one year of extensive research with the academia, we have unveiled the Decarbonisation Blueprint. It is a holistic roadmap covering 30 areas including energy efficiency, renewable energy and engagement with our customers and community partners in addition to setting science-based targets.

During the reporting period, we further explicated our efforts on identifying, assessing and managing climate-related risks and opportunities in Sino Land's first standalone Climate Action Report, elucidating comprehensive climate-related risks assessment results of over 170 of the Group's properties in Hong Kong. Our support to the United Nations Global Compact is ongoing, observing the latest trends and regulations in human rights, labour, environment and anti-corruption and making appropriate updates in this Report.

Together for a Sustainable Future

We have extended our sustainability efforts to collaborate with customers and partners. Examples include partnerships with a local start-up, EcoBricks, on converting all the seven types of plastic waste into sustainable construction materials

EcoBricks through its proprietary, low-carbon technologies, and leveraging artificial intelligence ("AI"), IoT and big data to enhance energy efficiency.

Oceans and marine biodiversity are indispensable elements of carbon neutrality. The Group's partnership on Hong Kong's first cross-sectoral coral conservation and restoration project, CORAL REEFStorage, welcomed a meaningful milestone with the opening of CORAL REEFStorage Centre at the Ocean Park, a new rehabilitation facility for rescued coral fragments and a learning centre for the public.

2022 is a memorable year for the Group as our ongoing efforts to Create Better Lifescapes have been recognised by the international community. We are humbled that Sino Land has been recognised as a Global Listed Sector Leader, Regional Listed Sector Leader (Asia) and Regional Sector Leader (Asia) in the Global Real Estate Sustainability Benchmark ("GRESB"), and achieved a five-star rating in the 2022 Real Estate Assessment. We are honoured to become the first developer in Hong Kong recognised among the Global 100 Most Sustainable Corporations by Corporate Knights and as a Regional Top-rated ESG Performer by Sustainalytics. Furthermore, Sino Land has been selected as a constituent of the Dow Jones Sustainability™ Asia/Pacific Index and included in the S&P Global Sustainability Yearbook 2023 and the S&P Global Sustainability Yearbook (China) 2023, and our MSCI ESG Rating has been upgraded to "AA".

Thank you for your wonderful support on our sustainability journey, which has made all these possible. We look forward to continuing to work with you to build a more sustainable future together.

Daryl Ng
Chairman, ESG Steering Committee

ESG Steering Committee members from left to right include Mr David Ng, Group Associate Director; Mr Daryl Ng, Deputy Chairman; Ms Nikki Ng, Non-Executive Director (formerly Group General Manager) (seated); Ms Bella Chhoa, Director – Asset Management; Ms Elaine Liu, Group Associate Director & Chief Human Resources Officer; Mr Thomas Tang, Group Chief Financial Officer; Ms Vivian Lee, Group General Manager – Corporate Marketing, Communications & Sustainability (standing).

信和集團深信，企業在促進減碳和 建構可持續發展建築環境方面擔起重要角色。

應對氣候變化是近年全球關注的議題之一。科學數據顯示，地球氣溫持續上升；與此同時，各界同心協力，制定解決方案，以及呼籲參與如「Business Ambition for 1.5°C」等倡議，並攜手履行淨零碳排放承諾。

信和集團深信，企業在促進減碳和建構可持續發展建築環境方面擔起重要角色。集團制定「創造共享價值框架」，將可持續發展理念融入業務和營運各層面。集團發表《可持續發展願景 2030》，及後增訂目標至合共 38 個，涵蓋減碳、應對氣候變化、可再生能源、減少使用塑膠、綠色建築認證和創新解決方案等關鍵範疇。我們與學者在為期一年的研究後，訂立了科學基礎目標以及制定全方位《減碳藍圖》，包括能源效益、可再生能源，以及與顧客和社會夥伴共同合作等 30 個範疇。

報告期內，信和置業發表了首份獨立《氣候行動報告》，進一步闡述集團在識別、評估和管理氣候相關風險和機遇方面的努力，並詳細彙報集團旗下在香港超過 170 項物業的氣候相關風險評估結果。我們繼續按《聯合國全球契約》，留意人權、勞工、環境和反貪污方面的最新趨勢，並作適當彙報。

一起 續建未來

我們並進一步與顧客和夥伴合作，推進可持續發展。例如，我們與本地初創企業 EcoBricks 合作，利用其專利的低碳技術，將七類塑膠廢料升級再造成為可持續建築物料 EcoBricks，以及利用人工智能、物聯網和大數據，提升能源效益。

海洋以及海洋生物多樣性是達致碳中和不可或缺的一環。集團與合作夥伴攜手推出香港首個跨界別珊瑚保育和復修項目「活化珊瑚行動」，並於海洋公園設立「活化珊瑚中心」，中心設有復修拯救珊瑚碎片的設施，以及公眾學習中心，為計劃的重要里程碑。

2022 年對集團別有意義。我們在「建構更美好生活」方面的努力獲得國際認可。集團榮獲全球房地產可持續標準（「GRESB」）評選為「全球業界領導者（上市企業）」、「區域上市企業業界領導者（亞洲）」和「區域業界領導者（亞洲）」，並在其 2022 可持續發展標準中榮獲最高的五星級別。我們亦成為香港首家獲 Corporate Knights 納入全球可持續發展企業 100 強的地產發展商，以及獲 Sustainalytics 評為「亞太區域 ESG 最高評級企業」。此外，信和置業獲選為道瓊斯可持續發展亞太指數成份股，以及入選標普全球 2023 年《可持續發展年鑑》和標普全球《可持續發展年鑑（中國版）2023》，並獲 MSCI 環境、社會及管治指數上調至「AA」評級。

衷心感謝各位在可持續發展之旅上對我們的支持，讓我們取得上述成果。期待與各位繼續並肩前行，共建更可持續發展的未來。

環境、社會及管治督導委員會主席
黃永光 謹啟

CORAL REEFStoration Project

活化珊瑚行動

應對大趨勢

Coral reefs in Hong Kong are susceptible to the effects of climate change, including ocean acidification and warming water. Reefs provide valuable climate-adaptive ecosystem services such as protecting coastlines from storms. Conserving and regenerating these important structures is one nature-based approach to address our changing climate and protect marine biodiversity.

The CORAL REEFStoration Ambassador Programme is designed to raise awareness on coral habitat conservation amongst the youth.

「活化珊瑚大使計劃」旨在提升青少年對保育珊瑚棲息地的意識。

Coral reefs occupy only about 1% of the ocean floor, yet they are home to more than a quarter of all marine species. Hong Kong's marine biodiversity is immensely rich with a long coastline of nearly 90 hard coral species. The coral communities, however, face challenges such as climate change, marine pollution, habitat damage and overfishing, which all greatly affect marine biodiversity and ecological balance.

To address this, we have joined the Hong Kong Innovation Foundation, Archireef, Ocean Park Corporation and The Fullerton Ocean Park Hotel Hong Kong to launch the CORAL REEFStoration project. The project leverages Ocean Park's marine conservation expertise, and the world's first 3D-printed reef tiles in terracotta from Archireef, to rehabilitate the coral reef habitat in Hong Kong's southern waters by seeding more than 120 pieces of rescued coral fragments at the restoration site.

珊瑚礁雖然只佔海洋總面積的 1%，卻孕育著全球超過四分之一的海洋生物。香港的海洋生物多樣性非常豐富，延綿海岸線擁有近 90 種石珊瑚。然而，珊瑚群落正面臨氣候變化、海洋污染、棲息地被破壞和過度捕撈等挑戰，嚴重影響海洋生物多樣性和生態平衡。

為此，我們聯同香港創新基金、Archireef、香港海洋公園和香港富麗敦海洋公園酒店攜手推動「活化珊瑚行動」計劃。計劃運用海洋公園的海洋保育專業知識，結合 Archireef 全球首創 3D 打印陶製珊瑚礁盤技術，於修復地點移植 120 多塊被拯救的珊瑚碎片，致力修復香港南部水域的珊瑚礁棲息地。

The CORAL REEFStoration project is Hong Kong's first cross-sector collaborative project for local coral restoration.

「活化珊瑚行動」為香港首個跨界別合作的本地珊瑚保育計劃。

The first batch of 7.5 square metres of reef tiles was deployed in June 2023 and over the course of the project we aim to rebuild 20 square metres of artificial reefs to re-create liveable habitats for local marine life and enrich marine biodiversity. The project achieved a significant milestone with the opening of a new rehabilitation facility, the CORAL REEFStoration Centre, for rescued coral fragments. To empower the public to take action to protect our marine ecosystem, the Centre invites Ocean Park visitors and guests at The Fullerton Ocean Park Hotel Hong Kong to experience a range of activities, including a coral lecture and STEAM (Science, Technology, Engineering, Arts and Mathematics) experiments. Hotel guests are further engaged in guided snorkelling expeditions at Ocean Park's Grand Aquarium. Immersive experiences like these allow participants to learn about coral reef ecology through first-hand encounters.

The project also includes a "CORAL REEFStoration Ambassador Programme" that has taught 100 passionate students from 19 schools the basic marine conservation knowledge. Of these participants, ten outstanding students were selected as "Star CORAL REEFStorators" who joined in-depth coral conservation learning activities including an eco tour and snorkelling experience.

我們於2023年6月移植首批佔7.5平方米的珊瑚礁盤，目標重建20平方米人工珊瑚礁，從而為本地海洋生物重建宜居之所，及豐富海洋的生物多樣性。計劃的另一個重要里程碑，是開設名為「活化珊瑚中心」的全新珊瑚保育設施，用於修復被拯救的珊瑚碎片。為推動公眾一同保護海洋生態系統，中心為海洋公園遊客，以及香港富麗敦海洋公園酒店的賓客安排多種體驗活動，包括珊瑚講座和STEAM（科學、技術、工程、藝術和數學）實驗。酒店的賓客亦可在海洋公園海洋奇觀內參加導賞浮潛活動，透過親身體驗了解珊瑚礁生態學。

計劃亦包括「活化珊瑚大使計劃」，藉以向來自19間學校的100名海洋愛好者傳授海洋保育的基本知識。當中10名表現傑出的學生獲提名成為「星級活化珊瑚大使」，透過生態導賞團和浮潛等活動深入學習珊瑚保育知識。

The Group and the Ng Teng Fong Charitable Foundation, in collaboration with the School of Nursing, LKS Faculty of Medicine of the University of Hong Kong (“HKUMed”), charitable organisations and NGOs, launched the “Generations Connect” project to connect young people and the elderly through technology, community intervention and behavioural coaching. The project aims to help the elderly keep abreast of practical e-health tools with an emphasis on preventive care and self-care management.

Through the project, healthcare professional students engage the elderly to promote health and wellbeing through regular home visits, phone greetings and video conferencing, assisting them to use electronic devices and cultivating their e-health literacy. HKUMed conducted a pilot study of the project in November 2022, visiting over 100 elderly members to understand their mobile phone use behaviours and low e-health literacy levels. 集團和黃廷方慈善基金聯同香港大學李嘉誠醫學院（「港大醫學院」）、社福機構及非牟利機構合作推行「耆青連心樂融融計劃」，透過引入科技、心理介入和行為指導連繫年輕人與長者。計劃旨在協助長者掌握實用的電子健康軟件，並強調預防保健和自我健康管理。

在項目推行期間中，護理專業的學生透過定期上門探訪、電話問安和關懷訪視等方式，協助長者使用電子產品和培養電子健康素養，以促進身心健康。港大醫學院於2022年11月進行了項目的先導計劃研究透過探訪100多位長者，了解他們的手機使用行為和電子健康素養水平。

70% of elderly members who completed the programme, the rate of low e-health literacy dropped from 66% to 56%, providing initial evidence that intervention by students is effective.

The concept of "mobile health" is integrated into the project with a curated health benefit-focused e-platform tailored to their needs. With personalised support from the students, elderly members can learn to access pertinent information, training materials, games and videos through the platform, further cultivating their e-health literacy and awareness of developments in public e-health services.

During this two-year project, over 1,000 healthcare professional students are expected to provide services to 10,000 elderly members and assist them in adapting to post-pandemic life. The project leverages student familiarity with technology and combines offline services, such as visitations, to establish inter-generational relationships between students and the elderly.

By bringing young people together with the elderly to boost emotional resilience, the "Generations Connect" project aims to improve the physical, psychological and mental health, and overall wellbeing, of all participants.

計劃研究顯示，七成完成計劃的隨訪長者中，低電子健康素養水平的比率從 66% 下降至 56%，初步反映學生適當介入的成效。

我們藉著提升長者的電子健康素養能力，將「流動健康」的概念融合於項目中，並根據長者的需求定制以健康有益為前提的電子平台。在學生悉心的支援下，長者可透過平台學習並獲取相關資訊、培訓教材、遊戲和短片，進一步培養電子健康素養能力和留意公共電子健康服務發展的意識。

為期兩年的計劃預計將有超過 1,000 名護理專業學生為 10,000 名長者提供服務，以協助適應疫情復常後的生活。項目運用學生對科技的熟悉，結合探訪等上門服務，以建立學生與長者之間的融樂關係。

「耆青連心樂融融計劃」讓年輕人與長者聚首一堂，提升長者舒緩情緒的能力，從而改善各參加者的身心健康和福祉。

Sustainability issues, including climate change and inequality, are often complex and interconnected with many economic, environmental and social factors. As a result, solutions often require collective actions by a diverse group of stakeholders. We ensure our employees are up-to-date on these critical topics to deliver our sustainability strategy.

The Sino Sustainability Academy was created with the full support of management to ensure our sustainability strategy is understood and put into practice at all levels of the organisation. This Group-wide platform shares knowledge and builds capabilities on a diverse range of sustainability topics, including pressing issues like climate change and diversity and inclusion. All new employees receive training on our sustainability governance procedures, strategies and ESG initiatives during orientation.

During the reporting period, the Academy organised a series of activities for colleagues. Events included Diversity and Inclusion Week, Farm Together farm visits, ESG workshops and webinars with experts speaking on topics including gender equality and circular economy, as well as a competition for upcycled Christmas tree and ornament design.

「可持續發展學堂」在管理層的支持下成立，以確保可持續發展策略於業務各層面中得以貫徹推行。這學習平台分享不同可持續發展的知識，加強員工的認識，當中包括氣候變化、多元與共融等迫切議題。所有新員工於入職培訓課程接受有關可持續發展管治程序、策略和環境、社會及管治的舉措。

報告期內，學堂為同事舉辦一系列活動，包括「多元共融週」、「一喜種田」導賞、由專家嘉賓主持的環境、社會及管治工作坊和網上講座，內容包括性別平等和循環經濟，以及升級再造聖誕樹和裝飾品設計比賽。

The Sino Sustainability Academy builds employee knowledge on various sustainability topics.
「可持續發展學堂」為員工提供多個以可持續發展為主題的課程。

In addition, “Green Tips” via email and on-screen pop-up messages, arranged by the Academy, regularly reminded colleagues of the importance of environmentally responsible practices. These tips covered topics such as ways to reduce plastic usage and to save energy, encouraging colleagues to take simple steps to reduce their impact on the environment.

We were also able to resume face-to-face, knowledge-sharing sessions with colleagues, including multiple mini-town hall sessions. One such session was themed “Let’s Go ESG”, during which colleagues were introduced to the Group’s latest initiatives to encourage the adoption of ESG practices in their daily lives and work. During this session, colleagues exchanged views and our frontline colleagues provided helpful insights into the needs and concerns of those we serve.

In line with our SV2030 target to ensure all of our employees receive ESG training, the Academy offers various learning opportunities. Colleagues can earn inSino Badges for completing courses and participating in activities, enabling them to redeem prizes as a reward for completing the training. In recognition of these efforts, the Academy was honoured to receive two awards at the Award for Excellence in Training and Development 2022 organised by The Hong Kong Management Association, which included the “Bronze Award” and the “Excellence in Environmental Sustainability in the Workplace” award. Going forward, the Academy will continue to work to ensure that a sustainability mindset permeates from our leadership to frontline colleagues.

此外，學堂定期以電郵和螢幕訊息傳遞「綠色貼士」，提醒同事對環境負責實務常規的重要性，內容涵蓋減少塑膠使用和節約能源等主題，鼓勵同事以簡單行動來減少對環境的影響。

我們亦已恢復與員工面對面的知識交流會，包括多次員工分享會。其中，以「攜手推動 ESG」為題的分享會向員工介紹集團在環境、社會和管治方面的最新舉措，鼓勵員工於業務或日常生活融入相關理念。員工藉著是次會議交換意見，前線同事更就服務對象的需求和關注點提供寶貴資訊。

學堂提供各種學習機會，確保全體員工能透過環境、社會及管治培訓以達成《可持續發展願景 2030》目標。為鼓勵員工參加培訓，參加者完成課程和活動後可獲得「信誌徽章」來兌換獎品。學堂的努力備受香港管理專業協會認可，於「最佳管理培訓及發展獎 2022」中榮獲兩項獎項，分別為「培訓及發展計劃獎項——銅獎」和「可持續發展措施（工作環境）特別獎」。展望未來，學堂將繼續努力確保可持續發展理念從管理層推廣至前線員工中。

Materiality Assessment

In 2022, we engaged an independent consultant, Sedgwick Richardson (SR), to conduct an in-depth materiality assessment integrating the updated GRI Standards' criteria. This included assessing the positive and negative impacts that our relevant sustainability issues have on the economy, the environment and people (including impacts on human rights) across our value chain. The process of the materiality assessment was assured by an independent third party and is described below.

1 Research 研究

We identified sustainability issues most relevant to our business through desk research and peer benchmarking. This research considered changes in the regulatory and disclosure landscape, as well as industry trends.

我們透過資料閱覽方式及參照同儕，以識別與業務最相關的可持續發展議題。研究包括對監管機制、披露環境，以及行業趨勢變化的考量。

2 Stakeholder Engagement 持份者參與

Our research was supported by a stakeholder engagement exercise involving seven face-to-face interviews with internal stakeholders, and an online survey of 748 individuals representing ten stakeholder groups. All stakeholders were asked to assess the actual and potential negative and positive impacts on the economy, environment and people (including their human rights) of our identified sustainability issues, prioritising them based on their significance. They were also asked to rank key risks, opportunities, our sustainability performance and communication strategies. The stakeholders engaged included representatives from the Board, employees, tenants/customers, partners/suppliers, investors/analysts, peers, media, academia and NGOs amongst others.

我們的研究獲持份者參與活動所支持，其中包括七個內部持份者訪談，以及由748名受訪者，共代表十個持份者組別所完成的網上問卷調查。所有持份者都必須評估我們初步識別的「可持續發展議題對經濟、環境和大眾(包括人權)」的實際和潛在的負面和正面影響，並根據其重要性排序。持份者亦為我們的主要風險、機遇、可持續發展表現和溝通策略進行排序。參與的持份者包括董事會代表、員工、租戶/顧客、合作夥伴/供應商、投資者/分析師、業界、傳媒、學術界和非政府機構。

重要性評估

2022年，我們委託獨立顧問 Sedgwick Richardson (SR) 展開深入的重要性評估，以符合新修訂的GRI準則。當中，我們評估相關可持續發展議題對整個價值鏈中的經濟、環境和大眾(包括對人權的影響)所衍生的正面和負面影響。重要性評估由獨立第三方驗證，流程如下所述。

3 Evaluation 評估

In a materiality assessment discussion, executives from the Group evaluated the distilled results of the research, stakeholder responses, and our independent consultant's assessment of the sustainability impacts based on each of the GRI Standards' criterion. This analysis provided the foundation for setting a threshold to determine which topics are material, and to prioritise the impacts for reporting. A list of issues categorised by significance of impact can be found on the opposite page. A description of the impacts considered and how they affect our value chain can be found on subsequent pages.

集團的高級管理人員於重要性評估討論中，分析研究結果、持份者意見，以及由獨立顧問根據各項GRI準則要求對可持續發展影響的評估。分析為報告影響排列出優先順序，並為設定閾值奠定基礎，以助其後界定重大議題。對頁的可持續發展議題按影響的重要性分類。相關影響及其對我們價值鏈的延伸影響，詳細說明可參考後續頁面。

Significant Impacts

<p>Governance 管治</p>	<p>Sustainable and Ethical Supply Chain 可持續和具道德的供應鏈</p>	<p>The Group benefits local communities by providing employment opportunities along the supply chain and in construction and renovation projects. Long-term benefits include new revenue generation opportunities for suppliers, economic development and enhanced customer satisfaction from delivering products that meet expectations for ethical and sustainable sourcing.</p> <p>Undertaking risk assessments and building capacity will help suppliers uphold high standards when it comes to ethical business practices, human and labour rights, efficient consumption of resources and provision of products and services with sustainability attributes. Sound management of business relationships is imperative to minimise the risk of the Group indirectly contributing to environmental and social impacts (e.g. waste, emissions or human right abuses) through its supply chain.</p>
	<p>Forced and Child Labour 強制勞工和童工</p>	<p>Adopting a transparent approach to forced and child labour throughout the value chain ensures stakeholders benefit from internationally recognised standards of protection. Respecting labour rights in the workplace and on construction sites creates a more inclusive, productive and safe environment. Just treatment of people including, for example, attention to forced and child labour, will prevent impaired performance, impacts on people, societies and economies, and loss of reputation.</p>
	<p>Cybersecurity and Data Protection 網絡安全與數據保護</p>	<p>A robust cybersecurity and data protection strategy can empower and equip employees and other key stakeholders with the right information and tools, facilitating digitalisation and PropTech efforts that can enhance positive outcomes, such as tenant and customer satisfaction and reduced environmental footprint.</p> <p>In today's digital age, property and hospitality companies are at a higher risk of cyberattacks due to the significant amount of data they retain during the sales and leasing phases. These types of attacks can lead to breaches of sensitive, proprietary and personal data, which can adversely affect all key stakeholder groups, including employees, tenants, customers, suppliers and business partners. Adherence to data privacy regulations and agreements with key stakeholders will prevent potentially significant legal ramifications.</p>

穩健的網絡安全與數據保護策略，可為員工和其他主要持份者提供正確資訊和工具，促進數碼化和房地產科技工作，帶來提升租戶和顧客滿意度及減少環境足跡等成果。

在現今的數碼時代，房地產和酒店業務在銷售和租賃過程都涉及和管有大量數據，增加受到網絡攻擊的風險。這些攻擊可導致敏感、專利和個人數據洩露，進而對所有主要持份者產生負面影響，包括員工、租戶、顧客、供應商和商業夥伴。遵守數據私隱相關規定，及與主要持份者達成協議，可防止潛在的重大法律後果。

Governance 管治	Ethics and Integrity 道德與誠信	<p>Ethical business practices set the foundation for functioning economies and markets along the value chain. Robust corporate governance and transparency build trust that results in customer and talent attraction and creates positive economic development. Ethical conduct avoids penalties, which means more resources can be allocated to support people and the environment.</p> <p>The reliance on contractors and sub-contractors for property/hotel development and operations poses corruption risks that may erode trust in markets and governments, impacting the entire value chain. Robust corporate governance and transparency can prevent impaired performance, a loss of reputation and potential fines.</p>
	Economic Performance 經濟表現	<p>The property and hospitality sectors are major contributors to economies. The Group contributes by providing job opportunities (generating income for employees which in turn stimulates economic growth), and by stimulating demand for related industries such as architecture, engineering, construction and food and beverage.</p> <p>The property sector as a whole can influence issues such as housing affordability and economic stability. Therefore, careful consideration is required to deliver broader prosperity. Strong economic performance can prevent a decline in performance, growth and human capital development.</p>
	Customer Satisfaction 顧客滿意度	<p>Regular stakeholder engagement and a focus on quality management systems will help identify customer needs and enhance product and service excellence, enhancing the Group's ability to contribute to community development. A focus on customer satisfaction may avoid consequences such as customer attrition that will ultimately impact revenue and constrain resources available for fostering sustainable business growth and disbursement to stakeholders, and thereby meaningfully contributing to the economy and society.</p>

Management Approach

Corporate Governance Structure

The Group places great importance on corporate integrity, business ethics and good governance. Our governance systems and processes are designed to reflect these values at all levels, including Tsim Sha Tsui Properties' Board of Directors (the "Board"). The Board provides overall leadership and control for the Company, in an effective manner, to maximise the financial performance of the Company and shareholder value. The Board sets overall direction, strategies and policies and evaluates financial performance.

As at the publication of this Report, the Board has seven Directors comprising two Executive Directors including the Chairman and the Deputy Chairman of the Board, two Non-Executive Directors (including Ms Nikki Ng who has been appointed as a Non-Executive Director with effect from 10 August 2023) and three Independent Non-Executive Directors. Non-Executive Directors, including Independent Non-Executive Directors, play a crucial role by bringing independent views and advice on important issues relating to the Company's strategy, policy and financial performance, and taking the lead on issues where potential conflicts of interest arise.

Risk Management

An essential and integral part of our corporate governance is the robust and effective management of risks, including ESG risks. The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and ensuring that the Company establishes and maintains appropriate and effective risk management and internal control systems to address ESG risks, including climate-related risks. In addition, the Audit Committee is authorised by the Board to oversee risk management and internal control systems.

Enterprise Risk Management ("ERM") is a process through which risks and relevant controls are identified, assessed, evaluated and reviewed on an ongoing basis. The Group implements an ERM approach to support the Board and the Audit Committee in discharging their risk management responsibilities and aid individual business units in managing key risks they face. An ERM Policy and Framework based on International Standard ISO 31000:2018 Risk Management – Guidelines, has been established and is reviewed regularly.

With direction from the Board, the Audit Committee and the Risk and Control Committee, the Group utilises the Three Lines of Defence model. This model combines a top-down strategic view with a bottom-up operational risk assessment, by each department, to provide a holistic view and ensure all significant risks are properly identified and managed.

風險管理

穩健有效的風險管理，包括環境、社會及管治風險，是企業管治的重要一環。董事會全面負責評估及釐定集團於達成策略目標的過程中願意承擔之風險性質及程度，並確保本公司設立及維持合適及有效之風險管理及內部監控系統，以監督環境、社會及管治相關風險，當中包括氣候風險。此外，董事會進一步授權審核委員會監督風險管理和內部監控系統。

企業風險管理是用於持續識別、評估、衡量和檢討各項風險及其相關監控措施的機制。集團採用企業風險管理系統協助董事會及審核委員會履行風險管理的責任，以及幫助各業務單位管理其面對的主要風險。《企業風險管理政策及框架》依據國際標準《ISO 31000：2018 風險管理——指引》制訂並經定期檢討。

在董事會、審核委員會與風險及監控委員會的指引下，集團採用「三道防線」的風險管理模式，綜合「由上而下」的策略觀點以及各部門所進行「由下而上」的營運風險評估，以確保所有重大風險均獲識別並適當管理。

For the year ended 30 June 2023, the Audit Committee, with the assistance of the Risk and Control Committee, reviewed the effectiveness of the risk management and internal control systems covering strategic, financial, operational, compliance and ESG-related risks. The Audit Committee engages in various activities to oversee the risk management system on an ongoing basis. Such activities include, but are not limited to, reviewing the ERM Policy and Framework and ERM reports.

In May 2022, the Group engaged an independent consultant to organise a workshop on ESG risks and opportunities for our management representatives. During the workshop, participants reviewed ESG risks and opportunities, including climate-related risk, and discussed potential mitigation actions. Results of the workshop are now guiding the enhanced integration of ESG risk into our ERM Policy and Framework. More information about our risk management and internal control systems can be found in our Annual Report 2023 [📄](#).

Sustainability Governance

The Board oversees the management of the overall sustainability strategy and reporting of the Group through regular updates from the Environmental, Social and Governance Steering Committee (“ESG Steering Committee”). The ESG Steering Committee is chaired by Mr Daryl Ng, Deputy Chairman, and comprises another Director of the Company and key executives.

截至 2023 年 6 月 30 日年度，審核委員會在風險及監控委員會的協助下，檢討集團的風險管理和內部監控體系的成效，範疇包括策略性、財務、營運、合規監控，以及與環境、社會及管治相關的風險。審核委員會透過檢討《企業風險管理政策及框架》以及企業風險管理報告等不同方式，持續監督風險管理系統。

2022 年 5 月，集團委託獨立顧問為管理層代表舉辦有關環境、社會及管治風險及機遇的工作坊。於工作坊期間，參加者審視集團相關的環境、社會及管治風險及機遇，當中包括氣候相關風險，並就潛在的緩解措施進行討論。工作坊的結果引導我們將環境、社會及管治風險更完善地整合到《企業風險管理政策及框架》。有關風險管理及內部監控系統的詳情，請參考本公司 2023 年報 [📄](#)。

可持續發展管治

董事會透過環境、社會及管治督導委員會的定期匯報，監督集團整體可持續發展策略的管理和報告。環境、社會及管治督導委員會由集團副主席黃永光先生擔任主席，成員包括本公司其他董事和主要管理人員。

The ESG Steering Committee reports to the Board twice a year and supports the Board in overseeing sustainability practices by:

- observing and highlighting ESG trends, risks and inherent opportunities
- identifying and addressing the expectations of stakeholder groups
- planning and implementing programmes and policies to support the sustainability strategy
- monitoring and enhancing the management approach to our material topics to create shared value
- reporting on sustainability performance and progress at regular board meetings
- reviewing and approving the Company's sustainability reports

The ESG Steering Committee also oversees the alignment of the Company's sustainability disclosures with international standards, including the recommendations of the TNFD, as well as the ISSB's IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures released in June 2023.

The ESG Steering Committee is supported by sub-committees with representatives from various business units responsible for developing roadmaps and actions to deliver the goals and targets under our three pillars — Green Living, Innovative Design and Community Spirit. Sub-committees ensure sufficient resources are allocated to achieve the goals and targets under each material topic. They also monitor feedback or grievances raised through multiple channels and propose initiatives for the ESG Steering Committee to consider. Sub-committees engage in annual review exercises, stakeholder surveys, as well as peer and best practice benchmarking to assess and enhance the Company's management approach for each material topic. They meet regularly and track key performance indicators aligned with our SV2030 targets to identify areas for improvement.

環境、社會及管治督導委員會每年向董事會匯報兩次並透過以下方式協助董事會監督可持續發展事宜：

- 觀察和重點說明環境、社會及管治趨勢、風險和潛在機遇
- 識別和回應持份者組別的期望
- 規劃和實施支持可持續發展策略的計劃和政策
- 監察和加強重大議題的管理方針以創造共享價值
- 於董事會定期會議上匯報可持續發展績效和進展
- 審批公司的可持續發展報告

環境、社會及管治督導委員會亦監察公司的可持續發展披露符合國際標準，包括TNFD的框架建議及由ISSB於2023年6月發布的《國際財務報告可持續披露準則第1號——可持續相關財務信息披露一般要求》，以及《國際財務報告可持續披露準則第2號——氣候相關披露》。

環境、社會及管治督導委員會由來自各個業務部門代表的小組委員會所支持。小組委員會負責規劃「綠色生活」、「創新構思」和「心繫社區」三大元素的路線圖和籌辦活動，並確保每個元素均獲分配充足的資源，以達成因應每個重大議題而訂立的目標和指標。小組委員會透過多個渠道聽取意見或申訴，從而為環境、社會及管治督導委員會建議相應計劃。此外，小組委員會透過年度審核、持份者問卷調查，並以行業同儕和最佳實務常規為基準，評估和加強公司對各個重大議題的管理方針。小組委員會亦會定期舉行會議跟進《可持續發展願景 2030》目標的關鍵績效指標，以識別有待改進的地方。

Ethics and Integrity

道德與誠信

“Integrity” is an important core value of the Group. We promote high ethical standards and strictly prohibit any form of corruption and bribery in our business transactions.

「誠信可靠」是集團重要的核心價值。我們提倡高道德標準，並嚴禁商業交易存有任何貪污和賄賂的行為。

We do not compromise on ethics and integrity. As outlined in our Code of Conduct (“CoC”), any form of corruption or bribery is not tolerated. Breach of our CoC may result in disciplinary or civil action. All staff members are required to complete an e-learning course on our CoC comprising two videos and a quiz using the SINO iLearn app. They must also complete a mandatory “Code of Conduct Acknowledgement and Declaration Form” to confirm that they understand the requirements stipulated in our CoC. Our contractors and suppliers must likewise adhere to the Contractor/Supplier Code of Conduct (“SCoC”), and must align to the ethically, socially and environmentally responsible practices stipulated in the SCoC.

我們不會在道德和誠信方面妥協。我們於《紀律守則》訂明絕不允許任何形式的貪污或賄賂。違反《紀律守則》的行為可導致紀律處分或民事訴訟。所有員工必須利用「信學堂」手機應用程式完成有關《紀律守則》的培訓，當中包括兩段短片和一份測驗。員工亦必須填寫「《紀律守則》簽署及聲明書」，以示確認和明白當中訂明的規定。我們的承辦商和供應商亦須符合《承辦商/供應商行為守則》的規定，遵守對道德、社會和環境負責的常規。

Employees are regularly reminded to ensure a high level of business integrity in accordance with the Code of Conduct.
我們經常提醒員工遵守《紀律守則》的規定，以確保以誠信營運業務。

Anti-Corruption

The Group complies with all applicable laws and regulations, including the Prevention of Bribery Ordinance in Hong Kong and equivalent laws and regulations in Mainland China, Singapore and Sydney. Senior management takes full responsibility for complying with regulations to prevent bribery and corruption. Our Anti-Corruption Policy provides guidelines to ensure proper conduct across our business, including those relating to the prevention of bribery, solicitation and acceptance of advantages, conflicts of interest, forging of documents or presenting false accounting records, as well as the acceptance of gifts and entertainment from third parties. Employees are regularly reminded to ensure a high level of business integrity in accordance with the CoC, and to avoid situations that may lead to a potential conflict of interest. During the reporting period, there were no significant instances of non-compliance with laws and regulations.

We provide yearly anti-corruption training to colleagues, including Executive Directors, in collaboration with the Independent Commission Against Corruption ("ICAC"). This training covers topics such as ethical conduct in property management, construction and work supervision. A Tender Committee monitors contractor/supplier selection to ensure fairness in the tendering process. To ensure we comply with high ethical standards, we continue to conduct internal monitoring and risk assessments on a quarterly basis.

Open Communication

We value the views and suggestions of our stakeholders. Our grievance handling mechanisms are designed to ensure concerns are handled promptly and impartially. For employees, we have a dedicated phone line, email and secure storage, and defined systems for receiving, logging and saving reports securely, so these are not at risk of unauthorised processing or disclosure. Other stakeholders, including those from the local communities, can also voice concerns safely through a dedicated channel. We regularly review our grievance mechanisms to ensure their continual improvement.

Whistleblowing

Employees and other stakeholders may report any suspected cases of misconduct without fear of retaliation in accordance with our Whistleblowing Policy. As part of our procedures, a dedicated investigation team reviews issues raised and reports these to the Business Ethics Committee, which comprises a member of the Board, the Head of the Human Resources Department and the Head of the Internal Audit Department. The Business Ethics Committee in turn reports to the Risk and Control Committee and the Board (via the Audit Committee).

Our Unethical Conduct Notification (“UCN”) Policy and Procedures provide employees with a formal channel for reporting complaints to the Business Ethics Committee. When a complaint is received, an investigation is conducted by the dedicated investigation team and all complaints are handled promptly and fairly. Reports may be submitted anonymously, and the Group is committed to protecting the reporting person’s identity. Reported cases are handled by the Business Ethics Committee in confidence, except where the Group is required to disclose information by law or regulation, and followed through in accordance with our UCN Policy and Procedures. Regular monitoring of these policies and procedures is facilitated by reporting to the Risk and Control Committee and the Board to ensure the effectiveness of our whistleblowing mechanisms.

Cybersecurity and Data Protection

網絡安全與數據保護

As digitalisation becomes increasingly important to our business, there is a growing need to focus on cybersecurity and data protection as part of our governance strategy.

數碼化對業務的重要性與日俱增，將網絡安全與數據保護納入管治策略的需求亦隨之增加。

The Innovative Design Sub-committee of the ESG Steering Committee oversees our approach to cybersecurity and data protection, while our Cybersecurity Policy outlines our approach to protecting colleagues, customers and suppliers from data breaches. The Internal Audit Department and third-party auditors continue to conduct risk assessments of the Group's information technology ("IT") systems, including secure network architecture, performance and capacity monitoring, data protection, licenced software management and anti-virus detection and management, annually at a minimum. For example, we conduct disaster recovery drill testing annually on a number of business applications. In addition, our managed security operations centre service and endpoint detection and response system provide us with round-the-clock protection, offering visibility on rapidly evolving cyberattacks and enabling effective defence.

We also focus on educating our colleagues about data security and safeguarding digital assets. During the reporting period, we provided our staff with a cybersecurity awareness course via our SINO iLearn app to enable them to build knowledge on how to protect the Group's information and systems. The course was mandatory for all colleagues with company email accounts in our Hong Kong and regional offices.

環境、社會及管治督導委員會轄下的創新構思小組委員會負責監督網絡安全與數據保護的管理方針，而我們的《網絡安全政策》列明保護員工、顧客和供應商免受數據洩露威脅的方針。內部審核部和第三方核數師為集團資訊科技系統進行至少每年一次的風險評估，包括穩妥的網絡架構、效能與容量監控、數據保護、軟件授權管理，以及防毒檢測與管理。例如，我們為多個業務應用程式進行年度災難恢復演練測試。此外，我們的資訊安全監控中心和端點偵測及應變系統為我們提供全天候保護，令我們能及早發現並有效防禦迅速演變的網絡攻擊。

我們亦重視員工在數據系統和保護數碼資產方面的培訓。報告期內，我們透過「信學堂」應用程式向員工提供網絡安全意識課程，以提升有關保護集團資訊和系統的知識。所有擁有公司電郵賬號的香港和區域辦事處員工都必須參加網絡安全意識培訓。

The course covered topics such as password policies and phishing, as well as social engineering scams. Course materials included a video and quiz designed to ensure colleagues understand how cyberattacks can occur. We also continued to communicate information security tips to colleagues via email, with messages focusing on actions that should be taken to protect against security threats with various devices and applications and ways to prevent the leakage of sensitive company data. In addition, tips were shared on how to recognise phishing emails and what to do if a data breach occurs. During the reporting period, two cybersecurity training webinars focusing on cybercrime and recent trends in cyberattacks were held. Our effort in cybersecurity training also included a phishing simulation exercise in December 2022, with simulated phishing emails sent to colleagues to assess their awareness. The training provided colleagues with an opportunity to experience the process of recognising, avoiding and reporting potential phishing threats in a realistic scenario.

As we worked to strengthen our cyber defence systems, we continued to make progress towards our goal of obtaining ISO/IEC 27001 certification in information security management by 2025. During the reporting period, we further advanced our implementation phase, which entailed refining our information technology processes with security controls, conducting a risk review and establishing criteria for measuring and monitoring system security. We have confirmed arrangements with a certification body and, as a next step, will proceed to the operational phase in preparation for our ISO/IEC 27001 assessment.

Intellectual Property and Data Privacy

We are always dedicated to protecting our intellectual property and the secure collection, storage and proper use of data. The intellectual property of the Group is protected through the registration of our trademarks and domain names in relevant jurisdictions. Our CoC stipulates that all employees must respect intellectual property and treat customer data in strict confidence. Colleagues who do not follow the CoC could be subject to disciplinary actions, which may include summary dismissal. We have worked with the Office of the Privacy Commissioner for Personal Data in Hong Kong to provide regular training to our employees on effective personal data protection in line with The Personal Data (Privacy) Ordinance in Hong Kong. Employees in other offices are also trained in accordance with the privacy laws that are relevant to their jurisdictions. Any cases of scamming or infringement of materials are immediately reported to law enforcement authorities for further action. Our personal data and privacy protection practices are continually reviewed to ensure legal compliance and identify areas for enhancement.

課程主題涵蓋密碼設定原則、網路釣魚以及社交工程詐騙。課程包括短片和測驗，確保員工對潛藏的網絡攻擊提高警覺。我們亦繼續透過電郵向員工分享網絡安全貼士，重點包括防止各種電子設備和應用程式出現安全威脅的應有措施，防止敏感資料外洩的方法、如何識別網絡釣魚電郵，以及發現數據洩露時應採取的措施。報告期內，我們於網上舉辦了兩場網絡安全培訓研討會，重點關注網絡罪案和網絡攻擊的最新趨勢。我們亦於2022年12月以釣魚攻擊模擬情境加強培訓，透過向員工傳送網絡釣魚電郵來評估其警覺水平，同時藉此機會讓他們親身體驗在真實情境中識別、預防和匯報網絡釣魚威脅的過程。

我們不僅加強網絡防禦系統，同時在實現2025年獲取資訊安全管理體系ISO/IEC 27001認證的目標取得進展。報告期內，我們進一步推進了實施階段，期間通過安全控制完善資訊科技程序、展開風險審查並建立安全衡量和監控準則。我們已與認證機構確認安排，下一步將管理體系納入日常營運，為ISO/IEC 27001評估作好準備。

知識產權和數據私隱

我們致力保護知識產權，以及數據的安全收集、儲存和正確使用。集團的知識產權得到各個相關司法管轄區註冊商標和域名所保護。我們的《紀律守則》訂明所有員工必須尊重知識產權和嚴格保密顧客資料。違反此等指引的員工可能受到紀律處分，嚴重者或會遭即時解僱。我們與香港個人資料私隱專員公署合作，就香港《個人資料(私隱)條例》，定期為員工提供有關有效保護個人資料的培訓。其他經營所在司法管轄區的員工，則根據相關司法管轄區的私隱法例接受培訓。任何涉嫌欺詐或侵權材料的個案，我們定必立即向有關執法機關舉報以採取進一步行動。我們定期檢討保護個人資料和私隱的措施，以確保遵守相關法定要求並識別有待改進的地方。

Sustainable and Ethical Supply Chain

可持續和具道德的供應鏈

Our high ethical standards also extend to our suppliers and partners, who are vital in enabling us to deliver quality products and services. Our relationship with suppliers is guided by our core values of “Integrity”, “Respect” and “Teamwork”.

我們對道德的高標準同樣適用於供應商和合作夥伴，此對提供優質產品和服務至關重要。我們以「誠信可靠」、「尊重共融」和「團隊精神」的核心價值為本，與供應商建立合作關係。

We are committed to engaging with partners to minimise any potential negative impacts — to this end one of our SV2030 targets is that 100% of our approved suppliers are governed by our SCoC. We also have a Sustainable Procurement Policy that ensures responsible ESG practices are prioritised in contractor/supplier selection and across all procurement activities. As part of this effort, the Group supports Sino Group's participation in the “Sustainable Seafood Business Membership Programme” organised by WWF Hong Kong.

Our approach to implementing sound environmental practices considers all aspects, from the consumption of resources and energy to the generation of waste and pollution, taking into account the potential impacts on surrounding ecosystems. Our aim is to ensure at least 50% of our approved suppliers obtain recognised ISO/ESG/EHS standards by 2030. We are working with suppliers that share our approach to responsible business practices. Applying our SCoC and Sustainable Procurement Policy that cover business ethics, regulatory compliance, anti-corruption, environmental performance and labour practices — including the prohibition of forced and child labour — as well as occupational safety and health systems, is a key part of our supplier screening process.

我們致力與夥伴溝通，務求將任何潛在的負面影響減至最低。為此，我們訂立 100% 認可供應商受《承辦商/供應商行為守則》約束的《可持續發展願景 2030》目標。我們亦制定了《可持續採購政策》，確保在承辦商/供應商甄選過程和所有採購工作均以負責任的環境、社會及管治常規為優先考慮原則。集團支持信和集團加入由世界自然基金會香港分會推出的「環保海鮮企業會員計劃」。

我們把全面的環境因素納入行動方針，從資源和能源消耗，以至廢物產生和污染，周全地評估採購工作對周邊生態系統的潛在影響。我們致力確保於 2030 年前至少 50% 認可供應商獲得 ISO/ESG/EHS 認證。為了確保合作的供應商符合我們的負責任營商實踐常規，我們以《承辦商/供應商行為守則》和《可持續採購政策》為供應商篩選的關鍵指引，涵蓋營商操守、法律規管、反貪污、環保措施和勞工實務常規——包括禁止強制勞工和童工——以及職業安全及健康。

We undergo supplier assessments to ensure existing and new suppliers adopt responsible ESG practices. These assessments have enabled us to identify areas for improvement in our supply chain, amongst other actions. In accordance with our Group Approved Contractors/Suppliers List Policies & Procedures, we assess the performance of contractors and suppliers every 12 months. Relevant departments also review contractors and suppliers according to pre-determined criteria, such as safety measures, quality of service, cleanliness and overall performance. These reviews are consolidated in a Contractor Performance Assessment Report that is submitted to a panel for review on an annual basis. Any violations of our guidelines or suspected misconduct can be reported through communication channels described in the SCoC.

我們為供應商進行評估，確保現有和新供應商均奉行負責任的環境、社會及管治常規。這些評估亦有助我們識別需改善的地方。我們按《集團認可承辦商/供應商的相關政策及程序指引》每12個月審核承辦商和供應商的表現。相關部門亦根據預定標準，包括安全措施、服務質量、潔淨度和整體表現，評核承辦商和供應商。這些評估結果將綜合成承辦商績效評估報告，每年提交給工作小組審查。任何違反指引或可疑的不當行為都可透過《承辦商/供應商行為守則》所提及的舉報渠道反映。

Quality Assurance

An essential part of maintaining customer satisfaction is ensuring that our products and services follow all relevant regulatory requirements and industry guidelines across all markets. In promoting responsible marketing practices, our sales and information materials adhere to all applicable laws and regulations, such as the Residential Properties (First-hand Sales) Ordinance and the self-regulatory regime of the Real Estate Developers Association of Hong Kong. Accordingly, detailed information about fittings and fixtures is made available to customers and tenants during the sale and leasing process to ensure transparency and the authenticity of information. To identify opportunities for the continual improvement of our practices, customer satisfaction surveys are conducted with our property buyers on a regular basis.

Ensuring high standards of food quality and safety is one of our top priorities, as we strive to provide the best possible experience for our hotel business customers. Our commitment to providing high-quality food while minimising environmental impact is reflected in our goal to purchase 100% of seafood served at our hotels from sustainable sources. We aim to procure seafood from sustainable sources certified by schemes such as the Aquaculture Stewardship Council ("ASC") and the Marine Stewardship Council ("MSC") to promote marine conservation. We have strict protocols to ensure our food supplies are safe and of high quality, including requiring all hotel suppliers to adhere to our SCoC.

We have aligned our continuous efforts for improvement with recognised management system certifications to ensure the service

Engaging Tenants and Customers in Sustainable Practices

Our membership-based loyalty programme, Sino Club, continues to serve as an important way to engage with our customers. In addition to providing access to bespoke lifestyle experiences, cultural activities and exclusive property-related privileges, we cultivate long-term relationships with these customers through meaningful interactions. During the reporting period, Sino Club once again ran activities to actively raise awareness about sustainability issues amongst stakeholders. Sino Club held a "Beach Clean-up and Biodiversity Discovery Day" for families to engage in a meaningful opportunity to demonstrate care for the environment, learn fun facts about biodiversity and appreciate our planet's natural resources. The day began with a coastal clean-up activity, followed by a citizen science workshop on biodiversity. Over 40 Sino Club members and their families and friends joined the event and around 20 kg of waste was collected. Apart from encouraging participants to rethink their consumption of single-use plastic, Sino Club also donated funds to A Plastic Ocean Foundation to support STEM (Science, Technology, Engineering and Mathematics) education for less-resourced students as part of this activity.

這些認證包括 ISO 9001(品質)、ISO 14001(環境)、ISO 10002(客戶滿意度)、ISO 45001(職業健康及安全)、ISO 41001(設施)和 ISO 50001(能源)，以及確保與公共衛生有關的健康風險得到系統管理的衛生監控體系認證。在我們旗下管理的物業中，我們獲得共 139 張 ISO 10002 證書，149 張 ISO 9001 證書和 41 張 ISO 14001 證書。

Management Approach

A thriving natural environment is critical to the health of our society, including our colleagues, partners and communities, and greatly affects the sustainability of our business operations in the long term. Our environmental management system (“EMS”) is certified to the ISO 14001 EMS Standard by an independent third party. It provides guidelines regarding principles, scope, responsibilities and processes for identifying and reducing the significant environmental impacts of our business operations. In addition, the Group received 41 certificates in ISO 14001.

We are committed to implementing environmental protection and conservation initiatives that exceed regulatory requirements across our operations, as outlined in our Environmental Policy. Our Green Office Policy and Green Office Management Guidelines further promote resource-efficient practices in the workplace such as the reduction in consumption of energy, water and office supplies. During the reporting period, we continued to raise awareness on environmental protection and the importance of reducing the impact of our operations amongst colleagues through the Sino Sustainability Academy; details can be found on p.20 [📄](#). We also promote sustainable practices amongst tenants, our Green Lease and Green Fit-out Guides provide recommendations including consuming less energy and water, monitoring indoor air quality (“IAQ”), utilising greener construction materials, managing food waste and more. “Green Clauses” reflect these recommendations in our lease agreements and set out specific measures tenants can implement in their operations.

Our efforts in managing environmental impact focus on climate resilience, energy efficiency, resource management and biodiversity. Our approach to these areas is overseen by the ESG Steering Committee and the Board with the support of the Green Living Sub-committee. This sub-committee sets our objectives and targets, reviews and evaluates our environmental protection initiatives and identifies areas for improvement. We continue to utilise innovative technology to enhance our environmental performance as we strive to achieve our SV2030 targets.

Sino Land is one of the pioneer developers in Hong Kong to publish a standalone Climate Action Report in 2023, disclosing our efforts in identifying, assessing and managing climate-related risks and opportunities that are material to our business, in alignment with TCFD recommendations. Details about this Report can be found on p.65 [📄](#).

管理方針

一個生機蓬勃的自然環境，對於我們的員工、合作夥伴和社區至關重要，同時對業務運作的可持續發展有長遠影響。我們的環境管理體系已通過獨立第三方的ISO 14001（環境）標準認證。此標準為識別和減少業務對環境的重大影響提供相關原則、範圍、責任和流程指引。現時集團共獲得41張ISO 14001證書。

如《環保政策》所述，我們承諾在營運中實施超越相關法例要求的環境保護和資源節約措施。而我們的《綠色辦公室政策》和《綠色辦公室管理指引》加以促進工作間的能源、用水和辦公室資源的使用效益。報告期內，我們繼續透過「可持續發展學堂」讓員工了解環境保護和減少營運對環境影響的重要性；詳情可參閱第20頁 [📄](#)。我們亦向租戶推廣可持續實務常規，我們的綠色租賃計劃和《綠色裝修指南》提供有關節能和減少用水、監測室內空氣質素、採用環保建築物料和廚餘管理等方面的建議，並透過租約內的「綠色條款」鼓勵租戶採取具體措施，將可持續發展元素於營運中實踐。

在管理環境影響方面，我們著重於氣候抗禦力、能源效益、資源管理，以及生物多樣性。環境、社會及管治督導委員會和董事會在綠色生活小組委員會的協助下監督這些主題的管理方針。小組委員會制定目標和指標、檢討和評估與環境保護有關的計劃，並找出有待改進的地方。我們在實現《可持續發展願景2030》目標的過程中，繼續積極採用創新科技來提升環境表現。

2023年，信和置業成為香港首批發表獨立《氣候行動報告》的地產發展商之一。當中，我們根據TCFD的建議，闡述識別、評估及管理重大氣候相關業務風險和機遇方面的工作。詳情可參閱本報告第65頁 [📄](#)。

Climate Resilience and GHG Emissions

氣候抗禦力和溫室氣體排放

Climate change has emerged as one of the global community's most critical issues. Understanding that collective action is needed to address this challenge, we aim to achieve net zero carbon emissions by 2050. We are committed to playing our part in minimising the impacts of climate change as we strive to understand how climate-related risks are affecting our business and to adapt to the changing environment.

氣候變化已成為國際社會的一個重要議題。我們明白採取集體行動來應對這項挑戰的必要性，並就此訂立目標，於2050年前實現淨零碳排放。我們致力為應對氣候變化出一分力，務求將影響減至最低，同時了解氣候相關風險對業務的影響，以適應不斷變化的環境。

How We Are Managing It

The Group is dedicated to addressing climate-related issues across all aspects of our operations, to advance sustainable development.

Focus on Decarbonisation

In 2022, we announced a holistic Decarbonisation Blueprint [📄](#) to achieve our net zero carbon commitment and guide our climate-related strategy. This effort aligns with Sino Land's pledge to support the Business Ambition for 1.5°C, led by the Science Based Targets Initiative ("SBTi") in partnership with the United Nations Global Compact and the We Mean Business Coalition, that calls on businesses to set science-based targets for GHG emission reductions. Initiatives set out in our Decarbonisation Blueprint will help us reduce our environmental impact, so as to contribute to a more sustainable, low-carbon future. In line with this Blueprint, we have set GHG emission reduction targets with The Hong Kong University of Science and Technology ("HKUST") academics as per the SBTi methodology. These targets reflect what the latest climate science deems necessary to meet the goals of the Paris Agreement. More information about our Decarbonisation Blueprint can be found in our Sustainability Report 2022 [📄](#).

怎樣管理

集團致力將氣候相關事宜融入到營運各層面，以推動可持續發展。

集中減少碳排放

我們於2022年發表全方位《減碳藍圖》[📄](#)，致力實踐淨零碳排放的承諾並引領制定氣候相關策略的方向。我們藉著《減碳藍圖》來實現承諾，信和置業支持由科學基礎目標倡議組織與《聯合國全球契約》及全球商業氣候聯盟聯合發起的「Business Ambition for 1.5°C」聯署運動，訂立科學基礎減碳目標。《減碳藍圖》所訂明的計劃，有助我們減低對環境的影響，促進更可持續的低碳未來。為此，我們與香港科技大學（「科大」）學者合作並採用科學基礎目標倡議組織的計算方式訂立溫室氣體排放減量目標，符合實現《巴黎協定》目標所需的最新氣候科學。有關詳情，請參閱《可持續發展報告2022》[📄](#)。

The following overarching targets have been submitted to SBTi for validation:

我們已提交以下減量目標，供科學基礎目標倡議組織驗證：

-46.2%

Reduce absolute Scope 1 and 2 GHG emissions by 46.2% by 2030 from the 2018 baseline.

以2018年水平為基數，於2030年或之前將範疇一及範疇二的絕對溫室氣體排放量減少46.2%。

-51.6%

Reduce Scope 3 GHG emissions by 51.6% per square foot by 2030 from the 2021 baseline.

以2021年水平為基數，於2030年或之前將每平方呎的範疇三溫室氣體排放量減少51.6%。

Engaging in Collective Action

We are committed to supporting collective action on climate issues. During the reporting period, Sino Land became a signatory of the Action Declaration on climate policy engagement, an initiative of Corporate Knights and the Global 100 Council. The Action Declaration outlines how industry leaders in the global movement to decarbonise the economy will support ambitious action to close the say-do gap on countries' emission reductions. On a local level in Hong Kong, Sino Land was amongst the first to sign the Business Environment Council's Low Carbon Charter in March 2019 and, in 2021, Sino Group participated in the Hong Kong Government's Carbon Neutrality Partnership to accelerate the low-carbon transformation in the public and private sectors. Tsim Sha Tsui Properties also continues to disclose our annual GHG emissions in the Environment and Ecology Bureau of the Government of the HKSAR ("EEB")'s Carbon Footprint Repository for Listed Companies in Hong Kong. Industry collaborations during the reporting period included Sino Land's ongoing sponsorship of ReThink HK, a conference furthering sustainability awareness where Sino Land's representatives shared views on circular economy principles in the hospitality industry, including how they have been incorporated at The Fullerton Ocean Park Hotel Hong Kong.

Climate-related Risk Analysis

Our Climate Change Policy provides guidelines for addressing climate-related risks across business lines. As part of our SV2030 strategy, we are committed to conducting climate risk assessments at our wholly-owned new development projects, where applicable, by 2030. Details of our recent risk assessment exercise are included in the following section titled Climate Action Report.

我們全力支持與氣候事宜相關的集體行動。報告期內，信和置業簽署了由Corporate Knights及Global 100 Council發起的《參與氣候政策與行動宣言》。宣言概述全球行業領袖如何參與減碳經濟，以幫助各國縮小減碳承諾與實踐之間的差距。在香港，信和置業是首批企業簽署由商界環保協會於2019年3月推出的《低碳約章》。於2021年，信和集團亦參與香港政府的「碳中和夥伴計劃」，以加快公私營界別低碳轉型的步伐。尖沙咀置業繼續於香港特別行政區政府環境及生態局的香港上市公司碳足跡資料庫中公開披露年度溫室氣體排放量。報告期內，我們推動行業合作，包括信和置業繼續贊助推動可持續發展意識的ReThink HK研討會，信和置業代表在活動中分享對酒店業循環經濟模式的看法，包括如何將這些準則於香港富麗敦海洋公園酒店的營運中實踐。

氣候相關風險分析

我們的《氣候變化政策》為各營運範圍提供應對氣候風險的指引。作為我們《可持續發展願景2030》的一部分，我們致力於2030年前為合適的全資擁有新發展項目展開氣候風險評估。有關我們最新的風險評估詳情，已刊載於以下「氣候行動報告」章節。

Climate Action Report

Sino Land published its first standalone Climate Action Report [📄](#) in 2023 to discuss its comprehensive strategies to mitigate emerging risks and progress.

The Climate Action Report includes an evaluation of Sino Land's portfolio in Hong Kong under different climate scenarios in alignment with TCFD recommendations. The exercise evaluated the resilience of over 170 existing and new buildings under different climate scenarios. The Network for Greening the Financial System ("NGFS") climate scenarios used in the exercise resembled Representative Concentration Pathways ("RCP") scenarios (RCP2.6 and RCP6) as both are used to model the climate risk impact under similar global warming pathways. The list of risks and opportunities was assessed based on two screening criteria — "priority" and "likelihood of financial impact". Key representatives from the ESG Steering Committee and key business units then participated in a workshop to discuss and prioritise the climate-related risks and opportunities based on their impact on Sino Land. Considering the assessment results, TCFD recommendations, local policy and Sino Land's sustainability strategy, a list of climate-related risks and opportunities was shortlisted.

Through this exercise, two key physical risks — extreme weather events and rising temperatures and heatwaves — which are material to the Group's business, were identified. Key transition risks and opportunities, taking into consideration foreseeable changes in policy, technology and consumer preferences, were also outlined. This assessment enables the Group to seize opportunities to bolster the climate resilience of our portfolio. Independently assured by the Hong Kong Quality Assurance Agency, Sino Land's Climate Action Report describes the Group's sustainability vision, management approach and decarbonisation strategy.

Supporting the TCFD

In support of the global effort to enhance transparency, we have aligned our climate-related disclosures with the TCFD recommendations since 2021, and in 2022, Sino Land became one of the pioneer developers in Hong Kong to join the list of TCFD supporters. Together with more than 2,500 organisations worldwide, Sino Land pledged its commitment to increasing transparency of reporting on climate-related risks and opportunities, promoting more informed financial decision making, and building a more resilient financial system.

The Group's approach to climate-related governance, strategy, risk management, metrics and targets in line with the recommendations of the TCFD are summarised on the following page. More details on our TCFD-aligned disclosures are described on p.188 [📄](#) of this Report.

氣候行動報告

2023年，信和置業發表首份獨立《氣候行動報告》[📄](#)，討論緩解氣候相關風險的全面策略及工作進展。

《氣候行動報告》參照TCFD的建議，評估信和置業位於香港的物業項目在不同氣候下的情境，當中包括評估170多座現有和新建物業在不同氣候情境下的抗禦力。評估採用的綠色金融網絡(「NGFS」)模擬氣候情境與「代表性濃度路徑」(「RCP」)情境(RCP2.6和RCP6)相似，兩者均適用於模擬全球暖化路徑下的氣候風險影響。集團基於「優先條件」和「財務影響可能性」兩項標準，評估一系列風險和機遇。來自環境、社會及管治督導委員會和主要業務部門的代表隨後參加了工作坊，根據氣候相關風險和機遇對信和置業的潛在影響，討論並作出優先排序。集團根據評估結果、TCFD建議、當地政策和信和置業的可持續發展策略，羅列出氣候相關風險和機遇清單。

集團透過是次評估，識別出兩項對業務有重大影響的主要實體風險，即極端天氣事件，以及熱浪和氣溫上升。集團亦綜合考慮政策、技術和客戶偏好方面可預視的變化，總結出主要轉型風險和機遇。是次評估讓集團把握機會提升物業的氣候抗禦力。信和置業的《氣候行動報告》由香港品質保證局獨立驗證，內容涵蓋集團的可持續發展願景、管理方針和減碳策略。

支持TCFD

為支持全球致力提高透明度行動，自2021年，我們便已參照TCFD建議披露氣候相關的資訊，信和置業於2022年加入成為TCFD的支持機構，為香港首批房地產開發商之一。信和置業與全球2,500多家機構攜手承諾，確認提高與氣候相關風險和機遇的報告透明度，並致力為財務決策以及建立更具抗禦力的金融體系提供更多支持。

下頁摘要概述集團根據TCFD建議對氣候相關的管治、策略和風險管理方針，以及其指標和目標。有關我們符合TCFD的披露資訊，請參閱本報告的第188頁 [📄](#)。

Governance

Climate-related governance processes are integrated throughout our operations. Overall responsibility for managing climate-related risks and opportunities lies with the Board, while the ESG Steering Committee manages the day-to-day identification, assessment and management of these issues. Senior managers from various business units consider climate-related impacts in their operations through their participation in the Green Living Sub-committee, which meets regularly and reports to the ESG Steering Committee and the Board.

Strategy

Our Decarbonisation Blueprint guides our climate-related strategy and focuses our efforts on three principal areas:

Three Principal Areas 三個主要領域

Development 物業發展

Optimising properties and construction sites for energy efficiency and climate resilience
優化物業和建築工地來提高能源效益和抵禦氣候變化

Operations 營運管理

Managing properties in ways that minimise carbon emissions
以盡量減少碳排放為前提來管理旗下物業

Collaboration 協同合作

Managing resources and inspiring stakeholders to join our efforts
管理資源並鼓勵持份者一同減碳

In addition, climate-related risks and opportunities influence various aspects of our operations, from material selection to innovative initiatives like leveraging IoT and AI in energy management and monitoring.

Risk Management

We review and monitor physical and transition climate-related risks on a regular basis, including through our environmental management system and ERM Policy and Framework. We continue to enhance the integration of climate-related risks into our ERM framework with the assistance of an independent consultant. To further manage risks, climate-related measures are considered early in the development process at our properties, for example, through procurement of low-carbon construction materials.

Metrics and Targets

Our SV2030 strategy includes numerous climate-related targets, including GHG reduction and electricity-related targets, as well as to conduct climate risk assessments at our wholly-owned new development projects where applicable. We continue to monitor these key climate-related metrics and publish them annually in this Report.

管治

與氣候相關的管治流程貫穿我們的所有業務。董事會對管理與氣候相關的風險和機遇負有最終責任，至於識別、評估和管理與氣候變化相關風險的日常流程，則由環境、社會和管治督導委員會負責。來自各個業務單位的高級管理人員透過參與綠色生活小組委員會，考慮業務營運中與氣候相關的影響。該小組委員會定期召開會議，並向環境、社會和管治督導委員會和董事會匯報。

策略

我們的《減碳藍圖》引領氣候相關策略，並將工作重點劃分為三個主要領域：

此外，與氣候相關的風險和機遇影響我們營運各層面，從物料選用以至利用物聯網和人工智能管理及監察能源使用等創新舉措。

風險管理

我們定期檢討和監察與氣候相關的實體和轉型風險，包括透過我們的環境管理系統和《企業風險管理政策及框架》。在獨立顧問的協助下，我們繼續將氣候相關風險更完善地整合到企業風險管理框架中。為進一步管理風險，我們在物業發展的起始階段便考慮應對氣候相關的措拖，當中包括採購低碳建築材料。

指標和目標

我們於《可持續發展願景 2030》中羅列出多個與氣候相關的目標，包括減低溫室氣體以及用電相關的目標，以及為合適的全資擁有新發展項目進行氣候風險評估。我們繼續監察與氣候相關的關鍵指標，並每年於本報告匯報進展。

Energy Consumption and Efficiency

能源消耗和效益

In Hong Kong, commercial and residential buildings account for approximately 90% of overall electricity consumption, generating over 60% of total carbon emissions.* As we strive to achieve net zero carbon in our effort to tackle climate change, reducing energy consumption, adopting renewable and cleaner energy sources, and improving operational efficiencies are central to our operations.

香港的商業和住宅樓宇佔整體用電量約90%，產生的碳排放量佔總碳排放量超過60%*。在我們實現淨零碳排放以應對氣候變化的過程中，減少能源消耗、採用可再生和潔淨能源，以及提升營運效益極為重要。

How We Are Managing It

Our Energy Policy outlines our approach to improving energy efficiency to manage consumption and costs effectively. We integrate energy management considerations across our operations through initiatives including retrofitted lighting, energy-efficient HVAC equipment and domestic appliances, smart monitoring platforms to optimise building services and renewable energy systems. In addition, we engage our stakeholders and government bodies to promote wider action on energy management.

怎樣管理

我們的《能源政策》概述提高能源效益的管理方針，以有效管理能源消耗和成本。我們透過多項計劃將能源管理融合於營運的各層面，其中包括照明改造、節能暖通空調設備和家用電器、使用智能監控平台優化樓宇服務和可再生能源系統。我們亦與持份者和政府等機構聯繫，務求促進不同方面的能源管理。

香港綠色建築議會 [🔗](#)。

During the reporting period, we supported activities such as Green Sense's No Air Con Night to encourage energy saving and GHG emission reduction. As part of this initiative, over 150 properties in our management portfolio joined other businesses and households across Hong Kong to switch off air conditioners for 12 hours on 7 October 2022. To raise public awareness about climate change, we also supported WWF's Earth Hour by turning off the façade lighting of The Fullerton Hotel Singapore, The Fullerton Bay Hotel Singapore, and over 170 managed properties in Hong Kong, for one hour on 25 March 2023. To further demonstrate our commitment to environmental protection through energy conservation, 32 of our managed properties obtained the Energywi\$e certificate from the Hong Kong Green Organisation.

Having already achieved our original 2030 target for electricity reduction, we are currently working on reducing our electricity consumption intensity by 30% from our 2018 baseline. As at 30 June 2023, we have reduced electricity use intensity by 6.91% from our 2018 baseline.

Greener Transportation

The promotion of electric vehicles ("EVs") remains a key area where we can make a positive impact. As such, we continue to expand the coverage of EV charging stations at our managed properties with the aim of reducing environmental impact, as well as energy costs for our stakeholders. We plan to install over 3,000 EV chargers at 17 of our managed properties under the Hong Kong Government's EV-charging at Home Subsidy Scheme. As at 30 June 2023, our managed properties had around 1,500 EV chargers in total. We aim to increase these to over 1,700 stations by the end of the year.

We continue to work with partners to enhance our EV charging services and build a more robust network of facilities in Hong Kong. Following the launch of upgraded V3 Supercharger stations at Olympian City, charging facilities were installed at six more properties, namely Island Resort Mall, China Hong Kong City, tmtpiazza and the Group's latest projects, One North in Yuen Long as well as Landmark South and The Fullerton Ocean Park Hotel Hong Kong in Island South. Landmark South and One North car parks offer 100% coverage of EV charging for private car bays. In recognition of our effort, we received the Silver Award for Smart Mobility (Smart Transport) at the Hong Kong ICT Awards 2022.

報告期內，我們支持環保觸覺「無冷氣夜」等活動，藉以鼓勵節約能源和減低溫室氣體排放。其中，我們旗下管理超過 150 項香港物業聯同其他企業和住戶，於 2022 年 10 月 7 日一同關掉冷氣 12 小時。為提升大眾對氣候變化的認識，我們亦支持世界自然基金會的「地球一小時」活動，於 2023 年 3 月 25 日將新加坡富麗敦酒店、新加坡富麗敦海灣酒店及旗下超過 170 項香港管理物業的外牆燈飾關掉一小時。此外，我們旗下 32 項管理物業獲香港綠色機構「節能證書」認證，進一步展示我們通過節能來保護環境的承諾。

我們已經達成原定於 2030 年實現的減少用電量目標，目前正努力將用電強度從 2018 年的基數減少 30%。截至 2023 年 6 月 30 日，我們的用電強度已由 2018 年基數減少 6.91%。

綠色運輸

推廣電動車普及化仍是我們推動積極影響的主要領域。我們繼續於旗下管理物業增加電動車充電站的覆蓋範圍以致力減少對環境的影響，同時為持份者降低能源成本。在香港政府的「EV 屋苑充電易資助計劃」支持下，我們計劃於旗下 17 項管理物業安裝超過 3,000 個充電站。截至 2023 年 6 月 30 日，我們已於旗下管理物業設置超過 1,500 個充電站，並以年底增加至 1,700 多個充電站為目標。

我們繼續與夥伴攜手合作，提升電動車充電服務並擴大香港充電設施網絡。奧海城超級充電站完成 V3 Supercharger 的升級工程後，集團亦為旗下六項物業增設充電設施，包括藍灣廣場、中港城、屯門市廣場，以及集團新建項目朗壹廣場、位於港島南區的 Landmark South 及香港富麗敦海洋公園酒店。Landmark South 和朗壹廣場的私家車電動車充電設施覆蓋率更達 100%。我們的努力備受認可，榮獲 2022 年「香港資訊及通訊科技獎」頒發「智慧出行（智慧交通）獎（銀獎）」。

The Enertainer energy storage system used at our construction sites is a responsible alternative to noisy and smoke-emitting traditional diesel generators.

我們於建築工地使用能源儲存系統「淨能櫃」，較傳統柴油發電機寧靜且能減少空氣污染，是更環保的替代方案。

Harnessing Technology

We continued to implement innovative technology solutions to reduce our carbon footprint and enhance business performance during the reporting period. These solutions included the Enertainer, developed by local start-up, Ampd Energy, which utilises diesel-free power and IoT technology to review equipment and operational efficiency, enhancing planning capabilities and limiting potential disruptions onsite. In addition, CLP PlantPro was piloted at Olympian City 3 and Island Resort Mall to improve the operation of chiller plants, resulting in a reduction of approximately 7% in energy consumption by the Mechanical Ventilation and Air Conditioning ("MVAC") systems. To further optimise energy efficiency in the MVAC system, an AI-based platform called Automated Logic Chilled Water System Optimiser was implemented in Olympian City 1, which is estimated to reduce energy usage across the entire chilled water system by 5-10%.

善用科技

報告期內，我們繼續實施創新科技解決方案，以減少碳足跡並提高業務績效。這些解決方案包括由本地初創公司 Ampd Energy 開發的「淨能櫃」，利用非柴油發電以及物聯網技術監測設備和運作效率，從而改善項目規劃流程和減低工地現場的潛在滋擾。此外，我們已在奧海城三期和藍灣廣場完成 CLP PlantPro 試點計劃，完善冷機組操作。計劃減少了機械通風及空調（「MVAC」）系統能源消耗約 7%。為進一步優化 MVAC 系統的能源效益，奧海城一期引入名為 Automated Logic Chilled Water System Optimiser 的人工智能平台，預計減少整個冷水系統 5-10% 能源消耗。

One North features smart technologies including hybrid solar-wind turbines to power lighting.
朗壹廣場採用智能技術，包括以風和太陽混能渦輪機為照明系統供電。

Renewable Energy

We strive to promote the use of renewable energy while raising awareness amongst our stakeholders. As at 30 June 2023, over 4,000 photovoltaic panels have been installed at properties under the Group's management in Hong Kong. The GHG emissions avoided are equivalent to the amount of CO₂ removed by 78,993 trees planted.* In 2023, we installed over 1,600 photovoltaic panels at our managed properties, including China Hong Kong City, Empire Centre, Landmark South and One North. Together, these photovoltaic systems are expected to generate 600,000 kWh of electricity annually, which is equivalent to avoiding 420 tonnes of CO₂ emissions annually, or the annual amount of CO₂ emissions removed by 18,260 trees planted.* The photovoltaic system in China Hong Kong City is one the largest-scale installations at a commercial building in Kowloon.

By 2030, we target to achieve accumulated renewable energy generation of 6,000,000 kWh from the 2012 level; to date, we have generated 2,595,510 kWh of renewable energy above our 2012 level.

可再生能源

我們致力推廣可再生能源的使用，同時增強持份者的相關意識。截至2023年6月30日，集團在香港的管理物業已安裝超過4,000塊光伏電板。所避免的溫室氣體排放量相當於種植78,993棵樹*。我們亦於2023年為旗下管理物業包括中港城、帝國中心、Landmark South和朗壹廣場安裝超過1,600塊光伏電板，預計每年合共產生約600,000千瓦時的電力，相當於每年從大氣層中減少420公噸二氧化碳或種植了18,260棵樹*。當中，中港城所安裝的太陽能板，是九龍眾多商業大廈中規模最大的光伏系統。

我們的目標，是於2030年前將累計的再生能源發電量從2012年水平增加至6,000,000千瓦時。至今，我們已從2012年水平起產生合共2,595,510千瓦時的再生能源。

Material Use, Waste Reduction and Management

物料使用、廢物削減和管理

We strive to effectively utilise natural resources, monitor consumption, reduce waste at source, and adopt a circular economy approach to minimise our environmental impact.

我們致力有效利用自然資源、監察資源使用的情況並源頭減廢，以及採取循環經濟模式來減低對環境的影響。

How We Are Managing It

Our ESG Steering Committee, with the support of our Green Living Sub-committee, has oversight of all material use and waste management initiatives. This includes reviewing and evaluating our progress towards achieving our SV2030 targets in this area. Our Green Office Policy guides the use of resources across our offices, and initiatives for tenants are included in our Green Fit-out Guides. We continue to engage our stakeholders in resource and material use reduction, recycling and upcycling through various channels.

怎樣管理

我們的環境、社會及管治督導委員會在綠色生活小組委員會的支持下，監督所有物料運用和廢物管理的計劃。當中包括檢討和評估《可持續發展願景 2030》相關目標的進展。我們的《綠色辦公室政策》概述辦公室資源運用實務常規，而針對租戶的計劃則載於《綠色裝修指南》。我們透過多個渠道，與持份者就減少、回收及升級再造資源和物料進行交流。

Waste Management

Our Waste Management Policy outlines requirements for the proper reuse, recycling and disposal of waste. All our stakeholders are encouraged to join us as we strive to reduce waste from daily operations as well as construction waste from our development sites. As per local market regulations, all our waste is collected by licenced collectors for proper disposal. The limited amount of hazardous waste, including a small quantity of mercury-containing fluorescent tubes, is also collected by licenced waste collectors and sent to Hong Kong's Chemical Waste Treatment Centre, where the mercury is recovered and recycled. Demonstrating our commitment to responsible waste management, 45 properties under our management received Wastewi\$e certificates from the Hong Kong Green Organisation, acknowledging our efforts in this area.

Plastic Waste

In 2018, we launched the Plastic Awareness Campaign as part of our efforts to reduce single-use plastic consumption. Our long-term target is to eliminate single-use plastic from our core business operations by 2035. We have already replaced plastic straws and bottled water, as well as single-use plastic amenity containers in hotels, and we provide umbrella dryers instead of plastic sleeves at our managed properties. As at 30 June 2023, we have reduced single-use plastic consumption by 64.81% across all our business lines from our 2017 baseline.

Waste reduction initiatives included workshops to educate the public on how to correctly recycle plastic at our "Goodbye Plastic!" recycling education centre as part of our holiday events.

作為連串假日活動的一環，我們於「Goodbye Plastic!」塑膠回收教育中心舉辦工作坊，教育公眾如何正確回收塑膠。

廢物管理

我們的《廢物管理政策》概述妥善重用、回收和處置廢物的要求。我們致力與所有持份者攜手減少日常營運所產生的廢物，以及在項目發展的工地減少建築廢料。所有廢物均按當地相關規定，由持牌廢物處理商收集並妥善處置。當中的少量含汞光管等有害廢物，亦由持牌廢物處理商收集送往香港化學廢物處理中心，將汞收集和循環再造。我們旗下管理的45項物業獲香港綠色機構頒發減廢證書，彰顯我們對負責任廢物管理的承諾，及對我們在這方面的努力作出肯定。

塑膠廢料

我們於2018年推行「減塑行動」，作為減少即棄塑膠消耗量工作的一環。我們的長期目標為於2035年前在核心業務停止使用所有即棄塑膠製品。我們已停止使用膠飲管和膠樽裝水、於酒店停止提供即棄塑膠小瓶裝沐浴用品，以及於旗下管理物業利用雨傘除水機取代即棄雨傘塑膠袋。截至2023年6月30日，與2017年相比，我們已減少所有業務的即棄塑膠製品消耗量的64.81%。

Plastic reduction is a particular focus at our hotels. At The Fullerton Hotel Sydney, we completed a review of all suppliers for opportunities to eliminate plastic packaging in purchased products last year. To minimise the use of plastic bottles, Zip Taps are installed in banqueting areas to offer filtered still and sparkling water for guests. At our hotels in Singapore, we remain committed to reducing single-use plastic in line with the Plastic ACTion ("PACT") agreement we signed in 2019 with WWF-Singapore.

In addition, in-room water filtration systems will be installed in more than 90% of guest rooms in The Fullerton Hotel Singapore by September 2023. This can potentially eliminate disposal of more than 160,000 plastic bottles each year.

We continue to engage our stakeholders in plastic and waste reduction initiatives, including the deployment of reverse vending machines for recycling plastic beverage bottles in Hong Kong. Plastic bottles collected through the reverse vending machines are sent to a contractor and transformed into plastic flakes for the production of recycled plastic products.

As at 30 June 2023, we have installed reverse vending machines at 24 of our managed properties. During the reporting period, more than 1 million plastic bottles were recycled through this initiative, reducing carbon emissions by 140,000 kg, equivalent to the annual amount of CO₂ removed by 6,086 trees planted.* We also engage our suppliers through Guidelines on Green Gift Hampers and Basket Packaging Design, to reduce excessive packaging and opt for environmentally responsible materials.

我們的酒店業務積極關注減塑。去年，悉尼富麗敦酒店審查所有供應商，力求採購非塑膠包裝產品。我們亦於宴會場地安裝濾水器，為賓客提供過濾水和氣泡水，以減少使用塑膠樽裝水。我們在新加坡的酒店繼續履行於2019年與新加坡世界自然基金會簽署的「絕膠行動」聲明，減少使用即棄塑膠製品。

此外，逾90%的新加坡富麗敦酒店客房將於2023年9月前安裝室內濾水系統。預計每年可減少棄置超過160,000個膠樽。

我們繼續透過多項計劃，與持份者一起參與減少使用塑膠和減廢。其中，我們於香港設置「逆向自動售貨機」回收塑膠飲品樽。從逆向自動售貨機收集得來的膠樽會交由承辦商處理，轉化成塑膠薄片，用於生產再生塑膠產品。

截至2023年6月30日，我們於旗下24項管理物業設置逆向售貨機，並於報告期內回收超過100萬個膠樽，減少了140,000公斤碳排放，相當於每年種植了6,086棵樹*。我們亦透過《禮籃綠色包裝設計指引》與持份者溝通，鼓勵供應商減少過度包裝，並採用對環境負責的物料。

Food Waste

The residential properties, shopping malls, offices and industrial buildings under our management have a comprehensive food waste management programme in place to reduce food waste sent to landfill. Decomposers have been installed at nine properties to convert food waste into gas, wastewater or organic fertilisers. This helps avoid sending food waste to landfill, where it creates methane and other emissions. As at 30 June 2023, the overall utilisation rate of onsite decomposers was approximately 94%. Apart from onsite food waste management, Best Result Environmental Services Limited and Perfect Green Supplies Company Limited, the registered food waste collectors under our SPS division, provide collection services to clients at Olympian City 1, China Hong Kong City, Citywalk, Island Resort Mall, Tsim Sha Tsui Centre and Empire Centre, and transport the collected food waste to O·PARK1 for conversion into biogas. During the reporting period, 401.1 tonnes of food waste was collected.

We actively engage stakeholders and community partners in our waste reduction initiatives. In Hong Kong, we continue to participate in Food Angel's Food Smart Buddy Programme. Smart food donation machines and collection boxes have been placed in three flagship shopping centres and residential properties under our management, including YM², Olympian City 1 and Citywalk to collect dry food. This effort resulted in the collection of 7,600 kg of food during the reporting period.

Smart food donation machines placed in various properties managed by the Group, including YM², Olympian City 1 and Citywalk resulted in the collection of 7,600 kg of dry food as part of the Food Smart Buddy Programme.

作為「智·惜食夥伴」計劃的一部分，集團於旗下管理的裕民坊、奧海城一期和荃新天地等多個物業設置智能食物捐贈機，共收集7,600公斤乾貨剩食。

廚餘

我們在旗下管理的住宅物業、商場及工商大廈推行全面的廚餘管理計劃，以減少運往堆填區的廚餘量。當中，我們為九項物業安裝廚餘機，有效將廚餘轉化為蒸氣、廢水或有機堆肥，減少堆填區相關的甲烷和其他污染物排放。截至2023年6月30日，廚餘機的整體使用率約為94%。除了物業的廚餘管理計劃，信和管業優勢旗下的註冊廚餘收集商——恒毅環衛服務有限公司和綠玲瓏供應有限公司為奧海城一期、中港城、荃新天地、藍灣廣場、尖沙咀中心及帝國中心的客戶收集廚餘，並運送至O·PARK1以轉化為沼氣發電。報告期內，集團共收集401.1公噸廚餘。

我們積極與持份者及社區夥伴就廢物削減的措施溝通。在香港，我們繼續與惜食堂的「智·惜食夥伴」計劃合作，於集團管理的三個旗艦商場——裕民坊、奧海城一期和荃新天地以及屋苑設置智能食物捐贈機及食物收集箱，收集乾貨剩食。此計劃於報告期內共收集7,600公斤食物。

As at 30 June 2023, we have reduced water consumption intensity by 22.89% from our 2018 baseline.
截至 2023 年 6 月 30 日，我們的用水強度已由 2018 年基數減少 22.89%。

Our waste reduction and food rescue programmes are also implemented at hotels. At The Fullerton Hotel Singapore, we partnered with Food from the Heart, a charity that helps feed the less-resourced within the city, and Divert for 2nd Life, a food rescue group, to collect bread and surplus food every evening for distribution to those under the organisations' care.

Water Consumption

We recognise the importance of conserving water, and our commitment to using it more efficiently is clearly outlined in our Environmental Policy, Green Office Policy, Sustainable Building Guidelines and Sustainable Procurement Policy. In Hong Kong, we obtain potable water and seawater for flushing from the Water Supplies Department of the Government of the HKSAR, and discharge all effluents to public sewer systems in compliance with applicable discharge licences.

Our target is to reduce water consumption intensity by 20% from our 2018 baseline by 2030. As at 30 June 2023, we have reduced water consumption intensity by 22.89% from our 2018 baseline. We monitor our water consumption on a monthly basis and have implemented various measures to reduce and monitor consumption. These measures include the use of high-efficiency fixtures, occupancy sensors on taps, leakage detection systems, smart irrigation systems and rainwater collection tanks for water reuse. For instance, we have installed digital water sub-meters in areas such as laundry, kitchens, and the swimming pool at The Fullerton Hotel Singapore.

We will continue to improve our water conservation efforts and raise awareness amongst stakeholders about responsible consumption. During the reporting period, we supported the Singapore Public Utilities Board's "Make Every Drop Count" campaign. As part of this campaign, The Fullerton Hotel Singapore's façade was lit up in blue from 18 March to 22 March 2023 in honour of Singapore World Water Day's "City Turns Blue" initiative.

我們亦於旗下酒店推行減廢和剩食處理計劃。新加坡富麗敦酒店與慈善機構善糧社合作，該機構向社區中的弱勢群體提供糧食，並和食物拯救團隊 Divert for 2nd Life 合作，於每天黃昏收集剩餘麵包和食品，分發給機構的受助者。

用水

我們明白節約用水的重要性，並致力履行在《環保政策》、《綠色辦公室政策》、《可持續建築指引》和《可持續採購政策》所述的有效用水承諾。在香港，我們從香港特別行政區政府水務署獲取食水和沖廁海水，並根據適用的排放許可證，將所有廢水排入公共污水收集系統中。

我們的目標是於 2030 年前將用水強度從 2018 年基數減少 20%，截至 2023 年 6 月 30 日，我們的用水強度已由 2018 年基數減少 22.89%。為減低和監測消耗，我們每月監測用水量，並實施多項節約用水措施。這些措施包括使用高效能裝置、水龍頭感應器、漏水偵測系統、智能灌溉系統，以及收集雨水以重新使用。當中，我們在新加坡富麗敦酒店洗衣房、廚房和游泳池等區域安裝電子水錶，務求更完善地監控用水量。

我們繼續加強節約用水方面的工作，藉以增加持份者對負責使用水資源的意識。我們於報告期內支持新加坡公用事業局的活動主題「善用每滴水」。新加坡富麗敦酒店於 2023 年 3 月 18 日至 3 月 22 日期間在外牆亮起藍燈，以響應新加坡世界水資源日的「城市變藍」計劃。

Promoting a Future with Less Waste

We continued to work with community partners and stakeholders in driving the circular economy.

During the reporting period, we have launched a variety of initiatives under the Green Journey Programme, including, but not limited to, collecting books and disposable eye care plastic products. As part of the Green Journey Programme, we also organised Eco Market activities at clubhouses where residents could sell their second-hand items. Taking the lead in this green activity, SPS colleagues set up a booth at Hong Kong Gold Coast Eco Market on 7 January 2023. Over 500 second-hand items were collected from colleagues and sold at the booth. Proceeds from the sale of items, together with the unsold items, were donated to Christian Action, our long-term recycling activity partner.

Over the past decade, our partnership with Christian Action has collected over 55,000 kg of usable items and more than 62,000 mooncake containers. During the reporting period, we also organised a CNY Usable Item Collection Programme. We collected more than 6,700 kg of used items, including clothes, electrical appliances and toys, from tenants and residents at over 120 properties. Collected items were distributed to less-resourced families and ethnic minority communities and sold at Christian Action's charity outlets to collect funds for the NGO's other service programmes.

To further the transition to a circular economy, we have also installed 15 Tetra Pak® recycling bins at some of our managed properties to encourage the recycling of beverage cartons. We have collaborated with Food Angel on its Food Smart Buddy Programme to set up smart food donation boxes; more details can be found on p.76 [📄](#). The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore continued their partnership with social enterprise, Clean the World, to recycle soap bars and redistribute them to developing countries.

Our property service arm, SPS, received Christian Action's 38th Anniversary Volunteer Award in recognition of our efforts to help the community. 我們的物業服務部門信和管業優勢於基督教勵行會「三十八載關愛義工嘉許禮」中獲獎，以表揚我們為社區所付出的努力。

促進減廢未來

我們亦繼續與社區夥伴和持份者合作，以共同推動循環經濟。

報告期內，我們推出了「綠色旅程」計劃。計劃涵蓋多個項目，從舊書收集到即棄眼部護理產品塑膠回收等。透過此計劃，我們亦於多個會所舉辦環保市集活動，讓住戶售賣二手物品。作為計劃的推動者，信和管業優勢在2023年1月7日在香港黃金海岸設立攤位，收集並轉售由員工捐出的500多件二手物品。物品的轉售收益及尚未售出的物品，已捐贈予我們長期的回收合作夥伴基督教勵行會。

過去十年，我們與基督教勵行會合作，總共收集了超過55,000公斤的可重用物品和超過62,000個月餅盒。報告期內，我們亦舉行新春可重用物品收集計劃，從120項物業的租戶和住戶收集衣物、電器和玩具等6,700多公斤二手物品。收集到的物品將分派給有需要家庭和少數族裔社區，以及於基督教勵行會旗下社企商店出售，籌集所得的善款將用於勵行會的其他服務項目。

為推動循環經濟，我們在旗下管理的多個物業中設置15個紙包飲品盒回收桶，以推動飲品盒的回收。我們亦參與了惜食堂「智·惜食夥伴」計劃，並於集團旗艦商場和特選屋苑設立智能食物捐贈箱，詳情可參閱第76頁 [📄](#)。新加坡富麗敦酒店及新加坡富麗敦海灣酒店繼續與社會企業Clean the World合作，回收肥皂並重新製成新肥皂贈予發展中國家。

Through our Green Journey Programme we work with our community partners and engage stakeholders to drive the transition to a circular economy.

The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore also partnered with Nespresso to recycle coffee capsules for a range of uses, including car engines, bicycles, computers and soda cans. During the reporting period, we collected a total of 193 kg of soap and 456 kg of Nespresso capsules for recycling.

Additionally, as part of our twelfth consecutive year of celebrating the Chinese New Year in a more environmentally responsible way, around 130 properties under our management, including shopping malls, offices and residential properties, participated in the Greeners Action's "Lai See Reuse and Recycle Programme" for the collection of good-as-new lai see packets. From 30 January to 27 February 2023, over 2,500 kg of lai see packets were collected for reuse in the following year. Other green promotional activities included a GREEN@COMMUNITY — Recycling Day and Carbon Neutral@HK — Mobile Environmental Education Programme, which have also been organised during the reporting period to encourage our stakeholders to live more sustainably.

新加坡富麗敦酒店及新加坡富麗敦海灣酒店亦與Nespresso合作，回收咖啡囊並升級再造成不同物品，如汽車引擎、單車、電腦、汽水罐等。報告期內，我們共回收了193公斤肥皂和456公斤Nespresso膠囊。

此外，我們連續第十二年參加綠領行動的「利是封回收重用大行動」，以支持以更環保的方式慶祝農曆新年。集團在2023年1月30日至2月27日期間，於我們旗下管理的約130個商場、辦公室和住宅物業地點設置利是封收集點，收集超過2,500公斤利是封，供來年重用或循環再造。於報告期內，我們亦舉辦其他綠色推廣活動，包括「綠在區區回收日」，以及「香港邁向碳中和——流動教育計劃」，以鼓勵我們的持份者奉行可持續生活。

Urban Biodiversity

城市生物多樣性

Biodiversity conservation is essential for the future of our planet. We are committed to protecting the resilience of natural ecosystems, and strive to implement sustainable practices in our operations and across our value chain.

保護生物多樣性對地球的未來十分重要。我們致力保護自然生態系統的抗禦力，並於業務營運和供應鏈中推行可持續實務常規。

How We Are Managing It

Our property development activities have the potential to impact the ecosystems surrounding our development sites. We seek to minimise impact on natural habitats and species by conducting proper assessments and employing effective management practices. It is also essential for our suppliers to manage biodiversity risks in their operations to reduce impacts throughout our value chain.

Our Biodiversity Policy guides our efforts to protect ecological systems and provides a framework for integrating biodiversity considerations into all aspects of our operations. To ensure that we prioritise the protection of native species, habitats and ecosystems, our Sustainable Building Guidelines outline our commitment to considering the protection and conservation of these elements during site selection for development projects. Our landscaping team accounts for impacts on surrounding ecosystems as they improve the environments around our properties to avoid introducing invasive species and seek opportunities to promote local biodiversity. As part of our commitment to biodiversity conservation, we target for all our new development projects to conduct tree assessment surveys, where applicable, by 2030. We have prepared to implement tree assessment surveys at 100% of our new development projects in 2023/24.

怎樣管理

我們的業務對開發地點周邊的生態系統具潛在影響。因此，我們致力透過適當的評估和有效的管理方針，將營運對自然棲息地和物種的影響減至最低。而我們的供應商亦必須管理其營運中的生物多樣性風險，以減低在價值鏈中對大自然的影響。

我們的《生物多樣性政策》指引我們在保護生態系統方面的工作，並提供框架將生物多樣性融入於營運各層面。為確保我們優先保護當地物種、重要棲息地和生態系統，我們在發展項目的選址過程中，會根據《可持續建築指引》進一步就有關生態系統的元素作出考量。我們的園景團隊在美化物業環境時會考慮對周邊生態系統的影響，避免引入入侵物種，促進當地生物多樣性。作為履行保護生物多樣性承諾的一環，我們的目標是於2030年前為所有合適的新發展項目進行樹木風險評估。至今我們已準備好在2023/24年度對100%的新發展項目進行樹木評估調查。

The CORAL REEFStorage Centre offers educational programmes aimed at raising awareness about biodiversity amongst the public. 「活化珊瑚中心」提供教育計劃，務求提高公眾對生物多樣性的認識。

Supporting the TNFD

Recognising the Taskforce on Nature-related Financial Disclosures (“TNFD”) as a key initiative to address the challenge of significantly shifting financial flows towards being nature-positive, Sino Land was one of the first developers in Hong Kong to become a TNFD Forum member in December 2022. The TNFD Forum is a global and multi-disciplinary advisory group of supporters who share the vision and mission of the TNFD and contribute to its work. This group includes over 1,100 institutions across 22 sectors with the highest nature-related dependencies and impacts.

As a member of the TNFD Forum, the Group will be kept informed of the TNFD’s progress and may be offered opportunities to participate in research activities that support the TNFD and its working groups. This might include supporting specific research activities and participating in industry pilots, surveys and polls of Forum members.

Building Awareness Amongst Stakeholders

During the reporting period, we continued to drive awareness on biodiversity protection amongst our stakeholders through a number of key initiatives including the CORAL REEFStorage project, which is described in detail on p.16 [📄](#). Other activities are described below.

支持 TNFD

信和置業深明「自然相關財務信息披露工作組」（「TNFD」）是一項重要倡議，有助企業應對在大幅度將資金流向自然增益項目時的挑戰。因此，信和置業於2022年12月成為香港首批加入成為TNFD論壇會員的發展商之一。論壇由全球多個範疇的支持機構組成諮詢小組，當中包括來自22個與自然最息息相關及最受其影響的行業之1,100多個機構。他們與TNFD有著共同的願景。

作為TNFD論壇的會員，集團緊貼TNFD的發展，並有機會參與支持TNFD及其工作組的研究活動，例如支援具體調研、參與行業的試行方案以及由論壇會員推行的問卷和意向調查。

提高持份者的意識

報告期內，我們繼續通過多個重點計劃促進持份者對保護生物多樣性重要性的認識，其中包括「活化珊瑚行動」項目，詳情見第16頁 [📄](#)。其他活動如下。

Farm Together

Our integrated green community project, Farm Together, continues to promote harmony with nature through urban farms that support social inclusion in Hong Kong and Singapore. During the reporting period, the project expanded to include a total of 19 farms in Hong Kong and one farm in Singapore, spanning over 56,000 sq. ft., cultivating over 380 plant and crop species and producing more than 1,700 kg crops annually. The farms breathe new life into our properties, enabling colleagues, tenants, hotel guests and the wider community to experience urban farming.

During the reporting period, our Skyline Tower tenants joined an eight-week programme at Sky Farm where they learned the basics of urban farming. They were able to plant and harvest their own fuzzy melon, Chinese spinach and water spinach at assigned plots, and savour their nutritious harvest with family and friends.

GREENHOUSE@Landmark South

GREENHOUSE@Landmark South offers tenants closer access to plants in the comfort of the Sky Garden, as well as a variety of tenant workshop opportunities. This indoor intelligent farm features an automatic irrigation system where the water circulates to keep roots moist, while reducing overall water consumption. The system also simulates sunlight using LED lighting to enable photosynthesis indoors.

Farm by the Ocean at The Fullerton Ocean Park Hotel Hong Kong

Farm by the Ocean at The Fullerton Ocean Park Hotel Hong Kong focuses on growing herbs to be used in our restaurants and bars to bring the farm-to-table concept to life. This farm is specially designed to bring guests closer to nature with a sensory farm experience that celebrates local biodiversity.

Tenants experienced the joys of planting and harvesting their own crops and had the opportunity to savour their nutritious produce as part of our Farm Together initiative.

「一喜種田」計劃的一環，是讓租戶從種植和收割自己農作物的體驗中獲得樂趣，並可親嚐營養美味的農產品。

一喜種田

我們的綜合綠色社區項目「一喜種田」，繼續以都市耕作宣揚與自然和諧共處，在香港和新加坡支持社會共融。報告期內，項目已擴展至包括共19個位於香港的農圃和一個位於新加坡的農圃，總面積逾56,000平方呎，合共種植逾380種植物和農作物品種，每年收成量超過1,700公斤。農圃為我們的物業注入活力，讓員工、租戶、賓客及廣大社區都能體驗都市耕作。

報告期內，集團旗下宏天廣場的租戶參加了為期八週的宏天空中農莊租戶農務工作坊，學習都市耕作的基礎知識。同時在指定農圃親手種植和收割節瓜、莧菜和通菜，並與家人和朋友分享和品嚐營養豐富的農產品。

GREENHOUSE@Landmark South

GREENHOUSE@Landmark South 提供空間，讓租戶於舒適的空中花園近距離欣賞植物，並有機會參與不同類型的工作坊。此室內智能農圃利用自動循環水系統，能讓植物的根部長期保持濕潤的同時節省整體用水量。系統亦採用了LED燈模擬陽光，促進植物在室內產生光合作用。

香港富麗敦海洋公園酒店「海洋農莊」

香港富麗敦海洋公園酒店「海洋農莊」專注種植可用於餐廳和酒吧的香草，實踐把農場帶到餐桌的概念。農圃的精心設計，能讓賓客透過耕作體驗更接近大自然，並從而推廣生物多樣性。

The Fullerton Ocean Park Hotel Hong Kong put together an exhibition of the late Professor Brian Morton's original hand sketches at a bookstore in Tsim Sha Tsui to raise public awareness of marine conservation.

為提高大眾對海洋保育的意識，香港富麗敦海洋公園酒店於尖沙咀一間書店舉辦展覽，展出已故莫雅頓教授的原創手繪插圖。

Promoting Marine Conservation

To promote marine life conservation and education, The Fullerton Ocean Park Hotel Hong Kong collaborated with "Hong Kong's father of marine conservation", the late Professor Brian Morton, in publishing *Sea Creatures & Animals*, a meaningful bilingual children's book. Professor Morton's beautiful hand-drawn illustrations bring to life 40 fascinating sea creatures and animals from Hong Kong and around the world.

The book is available in all hotel rooms for guests' enjoyment. A complimentary copy of the book was sent to all schools and public libraries in Hong Kong, while copies are available for purchase at major retail locations. All proceeds from the sale of the book go to the Ocean Park Conservation Foundation, Hong Kong ("OPCFHK"), a foundation committed to ecological conservation across Asia.

We strive to further the understanding of biodiversity in various ways. During the reporting period, we presented hotel guests with a unique CORAL REEFStorage Playing Card Gift Set. The cards illustrate some interesting facts about 13 local coral species common in Hong Kong.

Another way that the hotel supports marine conservation work was through the sale of exclusive Fullerton Christmas baubles, which were meticulously hand-painted using the ancient art technique, "nei hua". The trilogy gift set of baubles featured paintings of The Fullerton Hotel Singapore, The Fullerton Bay Hotel Singapore, The Fullerton Hotel Sydney and The Fullerton Ocean Park Hotel Hong Kong, set against their respective city skylines. Part of the proceeds from each sale was donated to OPCFHK to conserve Asian wildlife, with an emphasis on Chinese white dolphins and giant pandas, and their habitats.

推廣保育海洋生態

為了推廣海洋生態的保育和教育工作，香港富麗敦海洋公園酒店與「香港海洋保育之父」已故的莫雅頓教授合作出版一本極具意義的雙語兒童圖書《海洋及陸地的動物朋友》。莫雅頓教授精美的手繪插圖，紀錄來自香港和世界各地 40 種迷人的海洋生物和動物。

酒店所有客房均提供圖書供賓客閱讀。我們將圖書贈予香港所有學校及公共圖書館，並於主要零售書店發售。所有圖書收益撥捐致力促進亞洲生態保育的香港海洋公園保育基金會。

我們致力以多種方式加深公眾對生物多樣性的了解。報告期內，我們向酒店賓客呈獻「活化珊瑚行動」遊戲卡禮盒。遊戲卡印有香港 13 種本地常見的珊瑚品種的有趣知識。

酒店更義賣獨家富麗敦聖誕裝飾球，作為另一種支持海洋保育工作的方式。聖誕裝飾球禮盒一套三個，採用傳統「內畫」工藝精心手繪出新加坡富麗敦酒店、新加坡富麗敦海灣酒店、悉尼富麗敦酒店和香港富麗敦海洋公園酒店的特色，配合所在城市的標誌天際線。我們將每個售出禮盒的部分收益，撥捐香港海洋公園保育基金會，用於保護亞洲野生動物，重點保護中華白海豚和大熊貓及其棲息地。

Going Green at China Hong Kong City

中港城環保項目

China Hong Kong City implemented several sustainability initiatives starting in 2022. Notably, 1,143 photovoltaic panels covering around 2,260 m² were installed on rooftops resulting in the production of approximately 472,500 kWh of renewable energy annually.

In addition, we partnered with Shell Hong Kong and local start-up Halo Energy to establish the EV charging station at China Hong Kong City, and with Tesla to build a more robust network of EV charging facilities in Hong Kong, to support the Hong Kong Roadmap on Popularisation of Electric Vehicles. These included 40 Semi Quick chargers, an Ultra Fast charger and three Super Fast EV chargers.

To further save energy and reduce tenants' operating costs, we provided Intelligent Fan Coil Units instead of traditional Fan Coil Units for their air-side equipment. As a result, annual energy consumption was reduced by approximately 73% on average. We also provided LED light tubes instead of T5 fluorescent tubes to new office tenants. These measures resulted in a 49% reduction in energy consumption.

China Hong Kong City is one of 16 office buildings under our management where tenants also benefit from door-to-door recycling services at no additional cost. Additionally, free IAQ assessments are conducted for office tenants. Recommendations to enhance air quality are provided after the assessments are conducted.

自 2022 年開始，中港城物業推行多項可持續發展措施。其中的重點項目是於天台安裝 1,143 塊光伏電板，覆蓋面積達 2,260 平方米，每年生產約 472,500 千瓦時能源。

此外，我們與香港蜆殼有限公司和本地創科公司希路能源合作，設置電動車充電設備。我們並與 Tesla 合作，在香港建立更強大的電動車充電設施網絡，以支持《香港電動車普及化路線圖》。這些設施包括 40 個中速充電站、一個快速充電站和三個超級充電站。

為進一步節省能源並降低租戶的營運成本，我們向租戶提供智能風機盤管代替傳統風機盤管，平均每年可以減少約 73% 的能源使用量。我們亦向新辦公室租戶提供 LED 光管來取代 T5 光管，將相關能源使用量減少 49%。

包括中港城在內，我們亦為合計 16 個寫字樓的辦公室租戶提供免費的每週上門回收服務。此外，我們亦為辦公室租戶進行免費的室內空氣質量評估，並在完成後評估及提供改善空氣質量的建議。

Fullerton Ocean Park Green Journey

富麗敦海洋公園酒店的綠色體驗

The Fullerton Ocean Park Hotel Hong Kong is committed to encouraging our guests to join our green journey.

香港富麗敦海洋公園酒店致力鼓勵賓客加入我們的綠色之旅。

The Fullerton Ocean Park Hotel Hong Kong is committed to incorporating sustainability across all levels of operations and encouraging our guests to join our green journey by eating well, staying well and doing well sustainably. Our initiatives include the installation of smart filtered water refill stations to reduce single-use plastic consumption. Instead of using traditional single-use plastic mini tubes, biodegradable and refillable dispensers are provided for guests to enjoy personal in-room amenities. To further raise awareness on environmental protection, we have created two souvenirs for guests to take home: coasters sharing our exciting conservation project CORAL REEFStorage and a box of seed pencils with lavender, mint and corn poppy seeds for planting.

In addition to these initiatives, much has been done in terms of building design and equipment. For example, 121 photovoltaic panels have been installed to generate renewable energy and EV chargers are available in the hotel's general car parking facilities. To conserve water, specialised fittings limit water flow, and a rainwater harvesting system collects rainwater for irrigation or cleaning. Additionally, six food waste digester machines with capacity to handle 540 tonnes per year have been used to reduce waste.

Responsible consumption is one of our key aims, with sustainable seafood such as ASC and MSC-certified products offered at restaurants. During the reporting period, we organised Green Tours to showcase these features and exchange views with like-minded partners.

Reflecting our team's commitment to sustainability and hospitality excellence, we are humbled that the hotel has been recognised as "Best Sustainable Hotel Hong Kong" and "Best Luxury Hotel Hong Kong for 2022" at the prestigious International Hotel Awards.

香港富麗敦海洋公園酒店將可持續發展措施融入各個營運層面，並鼓勵賓客透過可持續飲食、生活和行為，共同創建更美好的將來。酒店的其中一項環保措施是安裝智能添水站，藉以減少使用即棄塑膠。另外，洗漱用品亦由傳統的即棄塑膠容器，轉為可生物降解及可重複使用的按壓式容器。為進一步提高客人對環境保護的關注，我們亦準備了兩份紀念品予賓客，其中包括「活化珊瑚行動」杯墊，以及一盒分別裝有薰衣草、薄荷和罌粟子的種子鉛筆。

除了上述措施，我們亦於建築設計和設備方面推行多項計劃。例如，我們安裝了121塊光伏電板以生產可再生能源，並於酒店的泊車位安裝電動車充電設備。為了節約用水，酒店亦已安裝節水器來限制水流，並安裝雨水收集系統，收集雨水作灌溉或清潔之用。此外，酒店安裝了六部廚餘機，每年可處理540公噸廚餘。負責任消費為我們主要目標之一，我們以可持續的方式採購海鮮，並在酒店餐廳供應海洋管理委員會和水產養殖管理委員會認證的海鮮。報告期內，我們舉辦綠色導賞體驗展示以上酒店特色，並與志同道合的合作夥伴交換意見。

我們榮獲由International Hotel Awards頒發的2022年度「Best Sustainable Hotel Hong Kong」和「Best Luxury Hotel Hong Kong for 2022」國際獎項，體現出團隊對可持續發展和卓越酒店服務的承諾。

Promoting a Green and Upcycled Christmas

推動環保聖誕

Sino Group encouraged circular economy principles and spread holiday cheer across our properties during the Christmas season.

信和集團於聖誕節期間，在旗下物業分享循環經濟模式和節日歡樂。

To engage colleagues and the public on the topics of circular economy and urban biodiversity, we organised the “Upcycled Christmas Tree and Ornament Design Competition” for a third consecutive year. Together with a local upcycling product designer, Mr Kevin Cheung, we created three upcycled Christmas trees at Tsim Sha Tsui Centre, Landmark South and The Fullerton Ocean Park Hotel Hong Kong. The trees featured 2,000 Christmas ornaments in the shape of ocean creatures, created by upcycling 600 mooncake boxes collected during the Mid-Autumn Festival. All the upcycled ornaments were recycled again after Christmas to give them another life. We also invited Mr Kevin Cheung to host workshops to teach children how to transform aluminium cans into Christmas ornaments.

We extended our annual “Upcycled Christmas Tree and Ornament Design Competition” from internal staff to a wider audience to encourage recycling, with Sino Club organising the “Upcycled Christmas Challenge”. Themed “Preserving Our Earth’s Environment and Biodiversity”, the two competitions received a total of over 800 creative entries from our colleagues, their families and Sino Club members. Entries included trees and ornaments made from recycled materials such as coffee capsules, fluorescent tubes, recycled paper, plastic bottles and waste wood, giving a second life to recyclable materials using creativity.

Other recycling and upcycling initiatives implemented during the holiday season included a special event, “Merry Christmas! Goodbye Plastic!” at Citywalk, featuring educational games combining fun with meaningful messages about ocean conservation. The event featured a Christmas tree made from over 1,000 upcycled bottles provided by V cycle. EcoBricks and plastic bottles were showcased as part of the event to promote circular economy principles, and a

為了讓員工和公眾了解循環經濟和城市生物多樣性，集團連續第三年舉辦「升級再造聖誕樹及裝飾設計比賽」。我們聯同香港升級再造產品設計師張璋晉先生，將物業管理團隊於中秋節收集回來的600個月餅盒升級再造成逾2,000個不同海洋生物形態的聖誕吊飾，分別於尖沙咀中心、Landmark South及香港富麗敦海洋公園酒店佈置成三棵升級再造環保聖誕樹。節慶過後，所有吊飾再次回收成為可用材料。我們亦邀請張璋晉先生舉辦工作坊，教授小朋友運用創意，將鋁罐升級再造成聖誕飾物。

為鼓勵大眾實踐升級再造，我們將「升級再造聖誕樹及裝飾設計比賽」由我們的員工擴展至社區。Sino Club舉辦「聖誕Upcycle! 創意比賽」，兩項比賽以「保護地球和生物多樣性」為主題，收集來自員工、家屬，以及Sino Club會員共逾800件創意作品。作品包括以咖啡膠囊、光管、廢紙、膠樽、棄置木材等物料升級再造而成的聖誕樹和吊飾。讓參加者憑藉創意賦予可回收的材料第二生命。

其他於節日期間舉行的回收和升級再造項目包括於荃新天地舉行的主題活動「Merry Christmas! Goodbye Plastic!」，透過教育遊戲帶出有趣且富意義的海洋保育訊息。場內豎立的聖誕樹由V cycle提供的過千個回收膠樽升級再造而成，並展示EcoBricks和膠樽以宣傳循環經濟模式，又設有教育

Management Approach

Our approach to safeguarding and enhancing the health, safety and wellness of people and our surrounding communities is outlined in our Human Rights Policy, Diversity and Inclusion Policy and Health and Safety Policy. These policies help us protect people by providing a just and inclusive environment for employees, customers and communities to thrive. The systems and procedures pertaining to human capital management are continually reviewed to ensure they fit our needs and address evolving stakeholder concerns.

The Green Living Sub-committee of the ESG Steering Committee is responsible for people management — including nurturing talent and safeguarding health and wellness — and meets every quarter to evaluate and identify any concerns and trends in this area. The sub-committee's role includes maintaining compliance with labour and health and safety regulations, including market-specific minimum wage requirements, and reviewing our safety performance quarterly. With health and safety being a top priority for the Group, the sub-committee is tasked with developing action plans to ensure all safety measures remain robust.

Communication Channels

We believe that understanding the opinions and concerns of our stakeholders is of utmost importance. Our colleagues are encouraged to communicate with management executives through a variety of channels, including email, intranet, inSino, newsletters, and Corporate Town Hall and mini-town hall meetings. Through these two-way communication channels, we strive to listen and respond to our employees promptly.

In November 2022, we were pleased to have more than 700 colleagues participate in our Corporate Town Hall meeting in person with over 100 colleagues joining online. Management and department heads shared the progress and performance of key initiatives over the year and discussed challenges and strategies. The meeting also featured an inspiring guest speaker, who provided insights about financial market conditions and how we can embrace new opportunities together. In the spirit of open communication, the meeting closed with an interactive Q&A session with our management team, where views were exchanged with colleagues. A follow-up email was sent to all colleagues to address the questions and comments received at the session.

管理方針

我們的《人權政策》、《多元共融政策》和《健康及安全政策》概述了集團保障及提升健康、安全和福祉，以及周邊社區的管理方針。政策不僅有助我們保護公眾，同時為員工、顧客和社區的發展營造公正和共融的環境。我們持續檢討與人力資源管理相關的制度和程序，以確保其切合公司的需要，亦同時能回應持份者不斷變化的關注事宜。

環境、社會及管治督導委員會轄下的綠色生活小組委員會負責人力資源管理，當中包括培育人才及保障員工健康和福祉。小組委員會每季舉行一次會議，以檢討和識別相關關注事項和趨勢。小組委員會亦負責確保集團遵守勞工和健康及安全規例，包括各個市場的最低工資要求，並每季評估我們的安全表現。員工的健康和安全為集團的首要任務，小組委員會負責制定行動計劃以確保所有安全措施穩妥。

溝通渠道

我們重視各持份者的意見和關注事項。我們鼓勵員工以電子郵件、內聯網、「信誌」、員工通訊，以及員工溝通大會和小型座談會等多個渠道，與管理層保持溝通。這些雙向的溝通渠道，有助我們聽取和適時回應員工的意見。

我們於2022年11月舉行員工溝通大會，逾700名員工親臨現場及100多名員工於網上參與。管理層和部門主管分享各項主要計劃於過去一年的進展和表現，並討論市場挑戰及其應對策略。我們亦邀請嘉賓於會上分享對金融市場狀況的灼見，以及如何把握新機遇。本著開放溝通的精神，我們在會議完結前安排互動問答環節，讓員工和管理層交流意見。會議後，我們向所有員工傳送跟進電郵以回應會上的問題和意見。

我們致力提供共融和公平的工作環境，培養同事技能以成就個人和專業發展。我們以具競爭力的薪酬和福利吸引和保留合適的人才，使業務蓬勃發展。

How We Are Managing It

We comply with Hong Kong's Employment Ordinance and the relevant laws and regulations in all the jurisdictions within which we operate. Our human resources framework and detailed management policies are included in our Staff Handbook. This contains guidelines on working conditions, benefits and remuneration, training and development, as well as health and safety. The Handbook is updated regularly to align with best practices and evolving regulatory requirements. Our CoC and Human Rights Policy guarantee equal opportunities for all employees and the freedom to participate in collective bargaining and join labour unions. We have a strict policy against forced and child labour and, as stipulated in our SCoC, this extends to our contractors and suppliers. Anyone found to violate our CoC or SCoC is subject to disciplinary action. In line with our commitment to open communication channels, employees, suppliers and contractors can report any concerns through our established grievance mechanisms. More details on our CoC and grievance communication process are described in the Governance section on p.46-48 [of this Report](#).

怎樣管理

我們遵守香港的《僱傭條例》以及所在司法轄區的相關法律和規例。我們的人力資源框架以及詳細的管理政策已載列於《僱員手冊》，當中包括有關僱傭條件、福利與薪酬、培訓與發展，以及健康和安全的指引。我們定期修訂手冊，以符合最佳僱傭實務常規以及不斷變化的監管要求。我們的《紀律守則》和《人權政策》保障所有員工享有平等機會，以及參加工會及集體談判的自由。我們亦已制定相關政策，嚴禁強制勞工和童工，並以《承辦商/供應商行為守則》規範承辦商和供應商。如發現任何人違反《紀律守則》或《承辦商/供應商行為守則》，將受到紀律處分。我們致力提供開放的溝通渠道，讓員工、承辦商和供應商利用舉報機制檢舉任何違規行為。有關《紀律守則》和申訴流程的詳情，請參閱本報告「管治」章節的第46頁至48頁 。

We are committed to promoting diversity and inclusion in the workplace.
我們致力於工作場所促進多元和共融。

Diversity and Equal Opportunities

A fair and inclusive workplace is of utmost importance for our staff to thrive. Our Diversity and Inclusion Policy sets out our commitment to providing a safe and supportive workplace free of discrimination. We promote equal opportunities regarding recruitment, remuneration, promotion, training and transfers regardless of gender, disability, family status, marital status, pregnancy, race, religion, age, nationality or sexuality. Sino Group has been a signatory to the Racial Diversity & Inclusion Charter for Employers launched by Hong Kong's Equal Opportunities Commission since 2020. Our goals are to maintain a gender pay ratio of 1:1 and a gender balance in all management positions by 2030. To date, over 40% of management positions are held by females.

We take all concerns regarding suspected inappropriate behaviour or harassment seriously. Our Whistleblowing Policy, described on p.48 [☞](#), outlines the confidential grievance mechanism we have in place for colleagues. It also describes the types of reportable conduct, procedures and follow-up actions. All new colleagues must complete training on diversity and non-discrimination as part of their onboarding process. To create a more inclusive and empathetic working environment, our Group Human Resources Department also provides regular training on effective communication for colleagues.

多元與平等機會

公平和共融的工作環境對員工的發展極為重要。我們於《多元共融政策》承諾提供安全、互相尊重且免受歧視的工作環境。我們致力於招聘、薪酬、晉升、培訓和調職方面促進平等機會，不論性別、殘疾、家庭狀況、婚姻狀況、懷孕、種族、宗教、年齡、國籍或性取向。自2020年，信和集團已為香港平等機會委員會推行的《種族多元共融僱主約章》的簽署機構，目標是於2030年前保持1:1的性別薪酬比例，以及保持所有管理職位的男女比例均衡。至今，擔任管理職位的女性超過40%。

我們嚴肅對待所有涉嫌不當行為或騷擾的投訴。我們於第48頁 [☞](#) 提及的《舉報政策》，說明為員工設立的保密申訴機制和有關可舉報的行為種類，以及其程序和跟進工作。所有新入職員工必須於迎新活動期間接受職場多元共融和反歧視培訓。集團人力資源部亦定期舉辦有關有效溝通的培訓，以助員工建立共融和互助互諒的工作環境。

Diversity and Inclusion Activities

During the reporting period, we organised interactive and experiential workshops as part of our Diversity and Inclusion Week. Details can be found on p.106 [📄](#). In addition, we held a gender equality webinar and equal opportunities training workshop with speakers from the Equal Opportunities Commission and a local charitable organisation, CareER. Over 100 colleagues attended, and the topics discussed included the definition of sexual harassment, the amended Sex Discrimination Ordinance in Hong Kong related to protection from breastfeeding discrimination and other forms of harassment, as well as best practices for preventing harassment and discrimination in the workplace and fostering awareness of diversity and inclusion amongst colleagues.

In addition to these initiatives, our hotels provided work placements for individuals with varying abilities and diverse backgrounds. The Fullerton Ocean Park Hotel Hong Kong partnered with NGOs, Cookie Smiles and Shine Skills Centre in their Shining Star Programme. Nine students from the Centre worked in kitchen and stewarding positions, to gain real-life work experience. The Caritas Lok Mo Work Integration Programme also continued at The Fullerton Ocean Park Hotel Hong Kong where we offered two placements in the Housekeeping Department during the reporting period.

To further our support for individuals with varying abilities in the community, we collaborated with Hong Chi Association to hold an Inclusive Farm Fun Day. Employees and their families visited the Hong Chi Love Garden where they sowed seeds and played games organised by Hong Chi students with intellectual challenges.

The Fullerton Hotel Sydney is committed to creating a diverse and inclusive culture for colleagues. The hotel partnered with Hotel Etico, Australia's first social enterprise hotel, which provides vocational training for young adults with special educational needs (SEN). To build understanding of the experiences of visually impaired individuals, colleagues at The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore participated in Dialogue in the Dark Singapore, an exclusive collaboration between Ngee Ann Polytechnic and Dialogue Social Enterprise. Participants were led by a visually impaired guide through a series of themed rooms that simulate everyday environments in complete darkness. With the reversal of roles, the guide helped our employees to understand the different perspectives of individuals with varying abilities.

多元和共融活動

報告期內，我們於「多元共融週」舉辦互動和體驗式工作坊，有關詳情載於第106頁 [📄](#)。此外，我們亦舉辦性別平等網上講座和平等機會工作坊，並邀請平等機會委員會及本地慈善機構 CareER 擔任講者。超過100名員工參與講座和工作坊，討論性騷擾的定義，以及在香港就有關母乳餵哺歧視和其他方式的騷擾而修訂的《性別歧視條例》。同場更分享防止職場騷擾和歧視，以及促進員工多元和共融意識的最佳實務常規。

除此之外，我們旗下的酒店亦為不同能力和背景的人士提供工作機會。香港富麗敦海洋公園酒店參與非政府機構 Cookie Smiles 及展亮技能發展中心舉辦的「Shining Star Programme」。期間，九名中心學員獲邀於酒店擔任廚房和管事職位，從真實環境中汲取工作經驗。於報告期內，香港富麗敦海洋公園酒店亦繼續支持「香港明愛樂務綜合訓練計劃」，提供兩個在客房部工作的實習名額。

為擴大對不同能力人士的支援，我們與匡智會合辦「多元農莊同樂日」。活動上，員工及其家屬探訪匡智愛心農場，參與春季播種活動及由匡智學員籌辦的攤位遊戲。

悉尼富麗敦酒店致力為員工建立多元共融文化。酒店與澳洲首間社會企業酒店 Hotel Etico 合作，為有特殊教育需要 (SEN) 的年輕人提供職業培訓。為了加深理解視障人士的處境，新加坡富麗敦酒店和新加坡富麗敦海灣酒店的員工參加了由新加坡義安理工學院和 Dialogue Social Enterprise 獨家合作的「黑暗中對話 (新加坡)」活動。在完全黑暗的環境中，視障導遊帶領參加者通過一系列模擬日常生活環境的主題房間，讓我們的員工藉著角色的轉換，親身感受視障人士的日常生活體驗。

Our training initiatives include courses, seminars and workshops on financial knowledge, information technology and language proficiency. Technical training on topics such as first aid, the safe use of electricity and legal requirements applicable to our business are also provided. We continue to design courses, and tailor them to the changing needs of our business and operations. Training on wellness topics such as mental health and stress management have been increasingly important.

Talent development workshops and courses, delivered in person and online, covered various topics, including effective speaking and presentation, customer service, professional knowledge such as leasing and maintenance, as well as safety at construction sites. We also covered diverse management skills such as conflict management, leadership and communication, amongst many other subjects.

During the reporting period, we engaged industry leaders to deliver leadership talks for our employees. Mr NiQ Lai, Co-owner and Group CEO of HKBN Group, was invited to share HKBN's recipe for success. In addition, Professor Randy Lai, CEO of McDonald's Hong Kong, delivered a seminar on the "Importance of Branding". We were honoured by their insightful sharing, helping us to continue to build a brand that resonates with our audience while advancing our shared goals and doing more for our community together.

To help colleagues build a more professional image, the "Professional Image Coaching" programme was launched at tmtplaza, Olympian City, Citywalk and Lee Tung Avenue, and rolled out to 190 managed properties. The programme aims to improve the professional image of frontline staff, enhance customer experience with a consistent brand image, and foster a service-oriented culture by empowering frontline staff to enforce and uphold the Group's new grooming standards. As part of this, 218 onsite trainers were trained, and 3,640 frontline staff were provided with professional advice on grooming and presentation to achieve service excellence. The improvement has been reflected in the Mystery Shopper Score ("MSS"), which increased from 90.6% to 98.3% from 2021 to 2022.

我們提供財務知識、資訊科技和語言方面的課程、研討會和工作坊；另外亦提供急救、用電安全、以及適用於業務的法律要求等技能培訓。我們按持續變化的業務和營運需求設計課程，當中，舒緩精神健康和壓力等健康主題的課程越趨重要。

人才發展工作坊和課程以網上和面授方式進行，當中涵蓋的主題繁多，包括說話及匯報技巧、客戶服務；另外亦提供租務和維修保養及建築工地安全等專業知識培訓。我們亦提供多元化的管理技能培訓，如衝突管理、領導技巧和溝通方法等。

報告期內，我們為員工舉辦了多個領導才能講座。其中，我們邀請香港寬頻集團的持股管理人及集團行政總裁黎汝傑先生，分享集團的成功秘訣。此外，香港麥當勞行政總裁黎韋詩教授亦以「品牌的重要性」為題舉行研討會。他們的分享讓我們獲益良多，不僅有助我們繼續打造能引起觀眾共鳴的品牌，同時推進我們的共同目標，繼續貢獻社會。

為協助員工建立更專業的形象，我們於屯門市廣場、奧海城、荃新天地及利東街等 190 項管理物業推行「專業形象指導計劃」。計劃培養前線員工執行和展現集團全新的形象標準，提升前線員工的專業形象，並建立以服務為本的文化，透過統一的品牌形象提升客戶體驗。計劃共培訓了 218 名駐場專業形象培訓人員，並為 3,640 名前線員工提供有關儀容和形象的專業建議，以實現卓越服務。神秘顧客得分（「MSS」）由 2021 年的 90.6% 增至 2022 年的 98.3%，反映前線員工的表現有所改善。

To foster the professional growth of colleagues and promote the success of our business, we invited various industry leaders to share their insights on leadership. 為了培養同事發展專業，同時促進業務成功，我們邀請了多位業界領袖分享其對領導才能的見解。

We also launched a programme called “Together for Better Service” in May 2022, which aims to encourage colleagues to work together as a team to provide exceptional customer service. Senior colleagues visited our sites as “mystery shoppers” to evaluate the level of frontline service. Assessment areas included greetings, observations and initiatives, inquiry handling, farewells and grooming standards. Three rounds of service level checks are planned per year with immediate follow-up actions to be implemented.

We continued to organise various training courses to help colleagues upskill while fostering team spirit. In September 2022, over 30 employees, including participants in our High Potential Staff Development Programme and Management Trainees, participated in a “Young Talents Teambuilding” activity. Participants were divided into groups and given a series of indoor and outdoor problem-solving tasks, such as building domino chain reactions that required strong teamwork.

Recognising that innovation and technology are important for business growth, several learning opportunities were focused on these topics. We held a seminar on the metaverse, robotics, nano material and ChatGPT and their applications in the property industry. To keep abreast of new developments and evaluate the possibility of applying these technologies and inventions in our industry, colleagues are also invited to visit Sino Inno Lab once a year.

此外，我們亦於2022年5月推出名為「Together for Better Service」的計劃，旨在鼓勵員工與團隊通力合作，以提供卓越的客戶服務。當中高級職員以「神秘顧客」身分探訪旗下商場，以評估前線服務的水平。評估範圍包括迎接客人、觀察力與主動性、處理查詢、道別和儀容標準。計劃於每年進行三次服務水平評估，隨後立即因應結果採取跟進行動。

我們繼續舉辦不同的培訓課程，協助員工提升技能並促進團隊精神。超過30位員工，包括「優秀員工發展計劃」的成員及集團見習行政員，於2022年9月參加「年輕領袖團隊訓練」活動。參加者獲分派至不同小組，參與一系列室內室外解難任務，例如製作骨牌效應機關，過程中需要團隊緊密合作。

我們明白創新科技對業務增長的重要性，並因此提供多個相關主題的學習機會。我們舉辦講座，講解元宇宙、機械人、納米材料和ChatGPT在房地產行業的應用。為了解行業科技和新發明的最新發展及評估其應用，員工每年亦獲邀參觀「信和創意研發室」。

Health, Safety and Wellbeing

健康、安全和福祉

At the heart of our commitment to wellbeing lies our stakeholders' health, safety and overall wellness. We strive to create a supportive environment where our employees, customers and communities can flourish, and we achieve this by implementing the highest standards across our operations.

我們促進身心健康的承諾，以持份者的健康、安全和福祉為核心。我們力求創造互助的環境，並以最高的標準營運，讓員工、顧客和社區得以健康發展。

How We Are Managing It

Our Health and Safety Policy outlines our approach to safeguarding the safety of our stakeholders, including employees, customers, contractors and suppliers. The Green Living Sub-committee, a branch of our ESG Steering Committee, ensures that our health and safety management system encompasses all our operations and adheres to the most stringent industry standards and relevant regulations. Regular inspections and audits keep us accountable, and the Company's ERM framework also provides a risk-based approach to identifying, mitigating and reporting any further issues related to health and safety. A dedicated Occupational Health and Safety ("OHS") Steering Committee formulates effective strategies and policies to maintain a healthy and safe workplace for our employees, meeting on a quarterly basis.

怎樣管理

我們的《健康及安全政策》概述保障員工、顧客、承辦商和供應商等持份者安全的方針。環境、社會及管治督導委員會旗下的綠色生活小組委員會，負責確保我們的健康及安全管理體系貫徹於各營運層面，並符合最嚴謹的行業標準和相關規例。我們定期視察和審核問責，並以企業風險管理框架下的風險為本方針來識別、緩解和報告有關健康及安全的其他問題。我們成立職業健康及安全督導委員會專責制定有效策略和政策，成員每季舉行一次會議，務求為員工提供健康及安全的工作環境。

Occupational Health and Safety

Prioritising workplace health and safety is paramount to our business operations. We comply with all applicable laws and regulations, including Hong Kong's Occupational Safety and Health Ordinance, and ensure stringent control over high-risk situations such as work in confined spaces and at height. SPS received 23 certificates in the ISO 45001 OHS Management System standard.

The OHS performance of our operations in property management, car park management, security and environmental services falls under the purview of the OHS Steering Committee, comprising senior executives from key business units. This Committee also ensures that appropriate safety principles are implemented in day-to-day operations in accordance with our health and safety management system. A Safety and Health sub-committee, and a separate sub-committee focused on district-level safety and health sit under the OHS Steering Committee. These sub-committees review all issued accident investigation and near-miss reports and provide recommendations for the improvement of systems and prevention of incidents. These sub-committees also compile OHS data and reports for the OHS Steering Committee's review. Employees' views on the development, implementation and evaluation of our OHS management system are gathered through our two-way communication channels.

職業健康及安全

以工作環境的健康和安全為先，乃業務營運的重中之重。我們遵守所有適用的職業安全及健康的法律和規例，包括香港《職業安全及健康條例》，並確保嚴密監控密閉空間和高空工作等高風險工作。信和管業優勢已獲得 23 張 ISO 45001 職業健康與安全管理體系標準證書。

職業健康及安全督導委員會由主要業務單位的高級行政人員組成，職權範圍包括物業管理、停車場管理，以及保安和環境服務業務的職安健表現。委員會確保在日常業務中執行健康及安全管理系統的各项原則。我們於職業健康及安全督導委員會轄下設立安全及健康小組委員會，以及另一個專門負責區域安全及健康事宜的小組委員會。這些小組委員會審查已發布的意外調查及險失事故報告，並提供改善措施和預防同類意外的建議。這些小組委員會亦會編制職安健數據和報告，供職業健康及安全督導委員會審查。我們透過雙向溝通渠道，就有關制定、推行和評估職安健管理體系向員工收集意見。

Maintaining stringent health and safety measures in the workplace is a key focus for the Group.

在工作場所維持嚴格的健康與安全措施是集團的關注重點。

During the reporting period, we updated a number of policies pertaining to OHS practices. As part of this regular review, we have enhanced our safety guidelines for working with ladders and at heights, amongst other conditions. Daily inspections and risk assessments allow us to maintain effective and reliable systems. We have implemented emergency response plans to manage incidents and conducted external audits by specialists to enhance our investigation mechanisms, to ensure that we have fulfilled all regulations and adopted measures to address all identified risks. We are committed to tracking performance and adopting measures for continuous improvement. All our building managers are required to set yearly targets for key OHS performance indicators, such as injury rates and the number of qualified first aiders. Our overall target is to maintain a lost-time injury rate ("LTIR") at or below 2.5 per 100 employees by 2030. During the reporting period, we have achieved this target by maintaining an LTIR of 2.01 per 100 employees.

Training is a key aspect of upholding OHS practices, and is delivered through safety campaigns, alerts, newsletters, billboards, discussion sessions as well as mandatory and specialised programmes. We organised several training courses in the first quarter of 2023 on topics including working in confined spaces, first aid administration, fire and chemical safety, amongst others. SPS is one of the first organisations in the private property management sector to be recognised and accredited by the Labour Department to run Safety Training Courses.

Construction Site Safety

Our health and safety systems extend to construction sites and workers. The Safety Team is responsible for training and education, communication and technical support, safety inspections, hazard control and the investigation of incidents at our sites. The team also organises safety meetings, issues weather alerts, conducts risk assessments and evaluates contractor performance to identify areas for improvement. Since 2008, 7,611 staff members have completed the Mandatory Basic Safety Training Course (Construction Work), and 654 colleagues have completed the Safety Training Course for Competent Persons of Confined Spaces Operation.

OHS Awards

SPS received eight awards including one Gold, two Silver, three Bronze, one Merit and one Nomination Award at the 10th Best Property Safety Management Award, recognising the team's efforts in upholding OHS practices. This award was co-organised by the Occupational Safety and Health Council, the Labour Department, the Electrical and Mechanical Services Department and various associations. In addition, SPS received a number of awards at the Occupational Health Award 2022-2023, including one Gold, one Excellence Award, six Outstanding Awards and six Merit Awards. This award was jointly organised by the Occupational Safety and Health Council, the Labour Department, the Department of Health, the Pneumoconiosis Compensation Fund Board and the Occupational Deafness Compensation Board. Both awards are aimed at encouraging the property management industry to implement effective safety management systems, and recognising those with outstanding achievements in the field.

報告期內，我們修訂了多項有關職安健的政策。透過此定期檢討，我們加強了使用梯子，以及高空工作的安全指引。日常巡查和風險評估讓體系保持有效可靠。我們已推行緊急應變計劃來處理事故，並由外部審核專家加強調查機制，以確保我們遵守所有規例，以及採取措施以應對所有已識別的風險。我們致力監控並採取措施持續改善職安健表現。所有樓宇經理均需為職安健關鍵績效指標訂立年度目標，如工傷率和合格急救員的數量。我們的總體目標，是於2030年前將工傷引致損失工時比率保持在每100名員工2.5或以下。報告期內，我們將工傷引致損失工時比率保持在每100名員工2.01。

培訓是維護員工健康及安全的關鍵，而培訓方式包括安全推廣活動、提示、員工通訊、資訊板、討論分享環節，以及強制性和專門的計劃。我們於2023年首季舉辦了多個培訓課程，涵蓋主題包括密閉空間工作、急救措施，以及火災和化學品安全等。信和管業優勢是首批獲得勞工處授權開辦安全訓練課程的私營物業管理機構之一。

建築工地安全

我們的健康及安全體系同樣適用於建築工地和工人。安全小組負責監督施工現場的培訓與教育、溝通和技術支援、安全巡查、危機控制和事故調查。當中包括舉辦安全啟動會議、發出天氣警告、評估風險和評估承辦商的表現以識別需改善的地方。自2008年以來，7,611名員工完成強制性基本安全培訓課程（建築工程），以及654名員工完成密閉空間作業合資格人士安全訓練課程。

職業健康安全獎

憑藉團隊在維護職安健方面的努力，信和管業優勢於「第十屆最佳職安健物業管理大獎」中榮獲八個獎項，包括一項金獎、兩項銀獎、三項銅獎、一項優異獎，以及一項提名獎項。獎項由職業安全健康局、勞工處、機電工程署和其他協會合辦。此外，信和管業優勢於「職業健康大獎2022-2023」中榮獲多項獎項，包括一項金獎、一項卓越機構大獎、六項傑出機構大獎和六項良好機構大獎。獎項由職業安全健康局、勞工處、衛生署、肺塵埃沉着病補償基金委員會及職業性失聰補償管理局合辦。兩個獎項均旨在鼓勵物業管理行業實施有效的安全管理體系，並表揚在職安健方面表現傑出的機構。

The Hong Kong Fire Services Department presented commendation certificates to two frontline colleagues in recognition of their initiative in assisting an individual who required emergency medical care.
香港消防處向兩名前線同事頒發嘉許狀，以表揚他們主動協助一名需急救的人士。

Customer Health and Safety

To protect the health and safety of all stakeholders, including customers, tenants and visitors, we remain vigilant about managing the risks presented by the built environment. A qualified engineer is tasked by the Risk Management Team to conduct building safety reviews, including site visits.

During the reporting period, we maintained automated external defibrillators (“AEDs”) in 57 managed properties to cope with emergency situations. Twenty-eight AEDs are registered under the Hong Kong Fire Services Department’s “AED Anywhere for Anyone Programme” with locations shown online on the “Centralised AED Registry for Emergency” platform to facilitate easy public access.

Employee Wellness — Promoting Mental and Physical Health

Our dedication to employee health encompasses all aspects of wellness, both mental and physical. To further engage employees, we put out an open call for staff to submit activity ideas they would like to participate in. One of the activities submitted in response was “Golf Fun Day”, which was successfully organised in June 2023.

Employee Wellness Programme

Our comprehensive Employee Wellness Programme offers various activities across the themes of work, family, and physical and mental health. This Programme prioritises mindfulness, positivity and support for colleagues. Highlights of activities during the reporting period are as follows.

顧客健康及安全

為保障所有持份者的健康，包括顧客、租戶和訪客，我們一直保持警覺，管理建築環境的既有風險。我們的風險管理團隊責成合資格工程師展開樓宇安全審查，包括實地視察。

報告期內，我們繼續於旗下管理的57項物業設置自動體外心臟除顫器（「AED」）來應付緊急狀況。其中28個已在香港消防處的「AED睇得到用得到」計劃下註冊。AED的位置顯示於網上資訊平台「AED搵得到」，方便公眾獲得實用資訊。

員工福祉 —— 促進身心健康

我們關顧員工各方面的身心健康。為了進一步與員工連繫，我們誠邀他們建議心儀的活動。其中一項活動為「高爾夫球同樂日」，已成功於2023年6月舉行。

員工身心健康計劃

我們全面的「員工身心健康計劃」提供多項有關工作、家庭和身心健康的活動。此計劃著力促進正向、積極心態，以及對員工的支援。報告期內的活動重點如下。

To protect colleagues from physical ailments like seasonal influenza, subsidised vaccinations were offered again this year. We strive to improve the physical wellbeing of our colleagues by encouraging a healthy and active lifestyle. Fencing and yoga classes with aroma healing were organised to relieve stress. We also launched the "Move Together" Sports Team Funding Programme to fund colleagues' self-organised basketball, football and volleyball teams, encouraging teamwork and collaborative spirit through sports.

Our emotional support services include confidential counselling through the Christian Family Service Centre, available to colleagues and their family members, to address stress stemming from work or personal issues. In addition, a Mental Health First Aid Course was offered to equip colleagues with foundational knowledge about depression, anxiety and other concerns, as well as to provide information about community resources for those seeking help. The course enables colleagues to provide appropriate support to people who are facing emotional crises prior to seeking professional assistance. To further promote mental health awareness, a lunch talk show hosted by the renowned comedian, Vivek Mahbubani, on the topic of "The Positivity of Humour" was held. In addition, head, neck and shoulder massage sessions were arranged at the office for colleagues and a sensory coffee experience workshop was held to refresh minds and bodies during breaks.

We understand that work-life balance is important for our colleagues' overall wellness. Therefore, we organised a variety of family-friendly employee activities, including the Ocean Park Water Battle Fest, Tai O Cultural Tour and hiking at Lau Shui Heung Reservoir. During the summer months, we also offered free hotel getaways at The Fullerton Ocean Park Hotel Hong Kong and Hong Kong Gold Coast Hotel so that colleagues and their families could enjoy some relaxing and memorable family time together.

為了保護員工免受季節性流感等疾病的影響，我們今年再次資助員工接種疫苗。我們亦致力鼓勵員工保持健康和積極的生活方式，強健體魄。我們舉辦劍擊和香薰療愈瑜珈課程，讓員工減壓。此外，我們亦啟動了「『健康動起來』球隊資助計劃」，資助員工自行組織籃球、足球和排球隊伍，通過運動鼓勵團隊合作和協作精神。

我們為員工提供情緒支援服務，當中包括透過基督教家庭服務中心提供保密輔導，支援員工及家屬解決因工作或個人事務而產生的壓力。此外，我們亦開設精神健康急救課程，為員工提供有關抑鬱、焦慮和其他問題的基礎知識，以及社區資源的資訊。課程讓員工為面臨情緒危機的人在獲得專業的協助前提供適切的支援。為進一步增強心理健康的意識，我們邀請棟篤笑藝人 Vivek Mahbubani 於午膳時間主持題為「幽默中見正能量」的講座。我們亦於辦公室安排頭肩頸按摩活動，讓員工可以利用午膳時間放鬆身心，恢復活力。我們更舉辦感味咖啡工作坊，讓員工忙裡偷閒，洗滌心靈。

我們明白工作與生活之間的平衡對身心健康的重要性。為此，我們為員工籌劃一系列適合家庭參與的員工活動，例如海洋公園水上嘉年華、大澳文化之旅以及到流水響水塘遠足。我們在夏天更為員工及其家人提供香港富麗敦海洋公園酒店和香港黃金海岸酒店的免費住宿，讓他們一同享受輕鬆愉快的家庭時光。

Holiday Celebrations

Our support for colleagues extends to the holiday season. To celebrate the Mid-Autumn Festival, special mooncakes from The Fullerton Ocean Park Hotel Hong Kong were sent to colleagues. To share the joy of Christmas with our teams and the wider community, we organised the “Sino Xmas Family Movie Day” for over 600 colleagues and their loved ones. Making the event more meaningful, 20 young people with special education needs from social enterprise, Hello Cocoa, joined the Movie Day to enjoy some quality time together. Colleagues also received festive cookies as a sweet holiday treat. Similarly, we arranged special coupons and gift packs for colleagues to celebrate the Chinese New Year (“CNY”). The CNY snack boxes prepared by AngelChild, a social enterprise that helps youth with autism, were distributed to spread festive cheer.

In addition to holiday celebrations, we express gratitude to our colleagues through events like “Thankful Week” held by The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore. The week was filled with a series of meaningful activities including an art jamming session, a food donation drive, and more — all to show our heartfelt thanks to colleagues who constantly go above and beyond to deliver our signature hospitality from the heart.

慶祝節日

我們於佳節期間為員工送上關懷。為慶祝中秋佳節，我們向員工贈送香港富麗敦海洋公園酒店的月餅。為了與團隊和社區分享聖誕節的喜悅，我們舉辦「信和聖誕家庭電影同樂日」，讓逾 600 位員工與其摯親一起觀看電影。來自 Hello Cocoa 社企的 20 名有特殊學習需要的青年亦前來參加電影日，共享美好時光，使活動更具意義。當天，員工亦收到聖誕曲奇，為節日更添暖意。在迎春接福之際，我們不但為員工準備特別禮券和福袋，更送贈由協助自閉症青年的社企星星堂準備的賀年小食禮盒，為新年增添喜慶氣氛。

除了慶祝節日，我們亦藉著舉辦活動向員工表達謝意。當中，新加坡富麗敦酒店和新加坡富麗敦海灣酒店舉行了「Thankful Week」，籌辦多項別具意義的活動，包括自由繪畫體驗和食物募捐活動，衷心答謝以卓越服務款待顧客的一眾員工。

Management Approach

Property development may have a profound impact on our health and the surrounding ecosystems. We strive to adopt sustainability best practices throughout the lifecycle of our buildings, including in our property construction and management processes, to reduce environmental impact and enhance the wellbeing of all our stakeholders and the community. We accomplish this by adopting leading sustainable building standards and materials to improve climate resilience and the wellness of our surrounding ecosystems. Our approach to designing environmentally and socially responsible, resource-efficient buildings is overseen by the Innovative Design Sub-committee of our ESG Steering Committee. This sub-committee meets quarterly and monitors our performance and progress, including our efforts to achieve sustainable building certifications and continual improvement in our property construction and management processes.

管理方針

物業發展能對我們的健康和周邊生態系統產生重大影響。我們務求在樓宇的生命週期中，包括在物業建築和管理的流程中，採用最佳的可持續實務常規以減低對環境的影響和提升所有持份者及社區的身心健康。同時，我們力求採納領先的可持續建築標準和物料，以提高氣候抗禦力及增強社區和生態系統的健康。環境、社會及管治督導委員會轄下的創新構思小組委員會負責監督我們的樓宇設計方針，確保設計對環境和社會負責和具能源效益。小組委員會每季舉行一次會議，監察我們的工作表現和進度，包括在可持續建築認證方面的工作，並持續檢討以改進物業建設和管理流程。

Sustainable Buildings

可持續發展建築物

Our approach to building design enhances the wellbeing of people, the environment and the neighbourhood. Our innovative designs also engage building inhabitants — our employees, tenants and customers — in sustainable practices.

我們的樓宇設計方針，有助提升大眾的身心健康及福祉，以及改善環境和社區。我們的創新設計亦讓員工、租戶和顧客實踐可持續發展。

How We Are Managing It

We incorporate sustainability attributes throughout the building lifecycle in accordance with our Sustainable Building Guidelines, Sustainable Procurement Policy and SCoC. This ensures sustainable development principles are integrated into our properties' design, construction, management and procurement processes. Our Guidelines stipulate that we measure the embodied carbon in development projects where practicable and monitor community impacts during project development. We also apply innovative and environmentally responsible technologies to enhance IAQ to protect the health and safety of customers, tenants and visitors. More details on our procurement policies can be found in the Sustainable and Ethical Supply Chain section of this Report on p.51 [☐](#). At our properties and construction sites, we also take into account ecological impacts in accordance with our Biodiversity Policy; details can be found in the Urban Biodiversity section of this Report on p.80 [☐](#).

怎樣管理

我們按照《可持續建築指引》、《可持續採購政策》和《承辦商/供應商行為守則》將可持續發展元素注入樓宇的生命週期中，以確保物業設計、建築、管理及採購過程都符合可持續發展原則。指引規定我們必須在可行情況下量度物業發展項目的含碳量，並在項目發展期間監察對社區的影響。我們還會應用創新且對環境負責任的技術提升室內空氣質素，以保障顧客、租戶和訪客的健康和安全。有關採購政策的詳情，請參閱本報告第51頁的「可持續和具道德的供應鏈」章節 [☐](#)。我們亦會根據《生物多樣性政策》考慮物業和建築工地項目對生態的影響，詳情請參閱本報告第80頁的「城市生物多樣性」章節 [☐](#)。

Sustainability at our Properties

Our approach to sustainable building practices is guided by local and global standards and certifications. The BEAM Plus certification sets out performance criteria for sustainability issues relating to the planning, design, construction, commissioning, fitting out, management, operation and maintenance of buildings, as recognised and certified by the Hong Kong Green Building Council ("HKGBC"). The WELL Building Standard™ outlines ten key features of building performance: air, water, nourishment, light, movement, thermal comfort, sound, materials, mind and community, developed by the International WELL Building Institute™ ("IWBI"). In Singapore, we also follow the standards set by Singapore's Building and Construction Authority; The Fullerton Hotel Singapore has received a Green Mark Gold^{PLUS} Rating, which recognises building performance that reflects robust levels of energy and water efficiency, indoor air quality, greenery provision, active mobility considerations and waste management.

As an advocate for sustainability, the Group sponsored the "WELL Journey in Hong Kong", organised by the IWBI. The two-day conference featured leadership talks and discussions on ESG topics in the built environment, while highlighting the role of IWBI's evidence-based features in enabling healthy and sustainable spaces. Participants also toured some of the WELL Building Standard™ certified buildings around the city, including The Fullerton Ocean Park Hotel Hong Kong, the first hotel in Hong Kong and Mainland China to attain the WELL v2™ Precertification, and the Group's latest commercial project, Landmark South, which has been awarded the WELL Core v2™ Pilot Design & Operation Precertification.

Our SV2030 target is to obtain BEAM Plus Gold or above certifications at 100% of our wholly-owned new development projects, where applicable, by 2030. We expect 100% of our applicable wholly-owned new development projects to meet this target in 2023/24. We also strive to achieve WELL™ certification for all of our new buildings in Hong Kong.

During the reporting period, the following certifications were achieved by our managed properties:

Cameron Plaza, Ritz Plaza and Gold Coast Piazza

attained the Final Platinum Rating in the BEAM Plus Existing Buildings V2.0 Comprehensive Scheme

38 Repulse Bay and Corporation Park

Sino Estates Management Limited and its managed properties, including Tsim Sha Tsui Centre, Empire Centre and Hong Kong Pacific Centre

received the WELL Health-Safety Rating for Facility Operations

旗下物業的可持續發展

我們以本地和全球標準和認證為可持續建築物實務的指導方針。綠建環評認證由香港綠色建築議會認可，就建築物在規劃、設計、施工、調試、裝修、管理、運作及保養維修中各範疇的可持續發展表現訂立準則。而國際 WELL 建築研究所™ (「IWBI」) 制定的《WELL 建築標準™》則測量建築表現的十個關鍵要素，包括空氣、水質、營養、光線、運動、熱舒適、聲環境、材料、精神和社區。於新加坡，我們依循新加坡建設局訂立的標準。新加坡富麗敦酒店榮獲其「Green Mark Gold^{PLUS} Rating」以表彰酒店在能源及用水效益、室內空氣質素、綠化空間、促進流動性以及物料與廢物管理方面，表現出穩健的水平。

作為環境可持續性的倡導者，集團贊助由 IWBI 在香港舉辦的「健康人居萬里行」。這為期兩天的會議涵蓋了領袖分享並重點討論建築環境中的環境、社會及管治議題，以及探討 IWBI 實證為本，實現健康和可持續發展空間的角色。參與者還參觀了本地一些獲得《WELL 建築標準™》認證的建築物，包括香港富麗敦海洋公園酒店，是香港及中國內地首間獲得《WELL 建築標準™》v2 預認證的酒店項目，以及集團最新已獲得《WELL 建築標準™》核心體 v2 試行版中期認證的商業項目 Landmark South。

我們以《可持續發展願景 2030》為本，訂立於 2030 年前為合適的 100% 全資擁有新發展項目取得綠建環評金級或以上認證的目標。我們預計 2023/24 年所有適用的全資新發展項目達到上述目標。我們亦致力為香港所有新建物業取得《WELL 建築標準™》認證。

報告期內，我們管理的物業取得以下認證：

金馬倫廣場、麗斯中心和黃金海岸商場

於「綠建環評既有建築 2.0 版綜合評估計劃」中取得最終鉑金級評級認證

淺水灣道 38 號和企業中心

於「綠建環評既有建築 2.0 版綜合評估計劃」中獲頒最終金級評級認證

獲頒物業設施營運管理《WELL 健康 — 安全評價準則》證書

Industrial Revitalisation with Sustainability Features

The Hong Kong Government has been actively advocating reindustrialisation in Hong Kong in recent years, transforming industrial estates into innoparks. Kwai Chung, for example, has rapidly transformed from a conventional industrial district into a business district under the Government's industrial building revitalisation measures. The Group is contributing to this development at our industrial buildings, welcoming a diverse portfolio of tenants with features including start-ups, such as fitness and yoga centres, as well as healthcare providers.

Our new industrial developments, such as 38 Wing Kei Road in Kwai Chung, similarly incorporate numerous features to promote green living and wellness, from EV charging stations to touchless lift buttons.

以可持續元素活化工廈

香港政府近年積極倡導香港再工業化，將工業區轉型為創新園區。以葵涌為例，在政府的活化工廈措施下，葵涌已迅速從傳統工業區轉變為商業區。集團亦響應相關措施，於我們旗下的工業大廈打造多元的租戶組合，吸引不同類型的初創企業如健身和瑜伽中心以及醫療保健中心等。

此外，我們的新工業發展項目亦引入了不同元素以促進綠色生活和健康舒泰。例如位於葵涌的永基路 38 號已配備電動車充電站及免觸式升降梯按鈕。

GoCircular

We implement circular economy principles within our properties and adopt innovative construction materials. The Group's GoCircular platform engages our colleagues, partners and the community in applying the principles of the circular economy to their daily lives, encouraging them to "reduce, reuse and recycle". Through the platform, we are driving innovative solutions to address waste issues and transform waste into new opportunities. For example, we work with like-minded partners to create sustainable construction materials and upcycled furniture. Some of our initiatives are described below.

Concrete for Social Good

The "Concrete for Social Good" project enabled design students from The Hong Kong Polytechnic University School of Design ("PolyU Design") to redefine concrete aesthetics through systematic experiments. The students explored waste materials such as paper, plastic, towels, fish nets and CDs, and developed design concepts using these materials, based on a circular operation model.

起動循環

我們在旗下物業採用創新建築物料，推行循環經濟理念。集團的「起動循環」平台鼓勵同事、合作夥伴和社區於日常生活中應用循環經濟的原則，鼓勵他們「減廢、重用和回收再造」。透過這個平台，我們推動創新解決方案以應對廢物問題，並將廢棄物轉化為新的機遇。例如，我們與志同道合的合作夥伴協力創造可持續建築材料，並使用升級再造的家具。以下為相關計劃：

「Concrete for Social Good」項目

「Concrete for Social Good」項目讓香港理工大學設計學院（「理大設計」）的設計學生，透過系統性實驗重新定義混凝土美學。學生研究紙張、塑膠、毛巾、魚網和光碟等廢棄物料，並根據循環營運模型來發展出設計概念。

Participants in the "Concrete for Social Good" project used waste materials to develop design concepts based on a circular operation model.

「Concrete for Social Good」項目的參加者以循環營運模型為基礎，利用廢物發展出設計概念。

Scaling up Applications of EcoBricks

We continue to extend applications of EcoBricks, the sustainable construction materials made from upcycled plastic, including mixed and composite plastics that are currently impossible to recycle. EcoBricks were first deployed at Gold Coast Piazza in Tuen Mun; other managed properties to use them include Olympian City, Citywalk, The Fullerton Ocean Park Hotel Hong Kong and One North. We are also exploring the potential to support local EcoBricks manufacturing through partnering with local community recycling centres. We hope to bring benefits to the environment, society and our business through this innovative solution.

擴大 EcoBricks 的應用規模

我們繼續擴大 EcoBricks 的使用。EcoBricks 環保磚由塑膠廢料升級再造而成，當中物料包括現時無法回收再造的混合塑膠和合成塑膠等。我們率先於屯門黃金海岸商場使用 EcoBricks，其後奧海城、荃新天地、香港富麗敦海洋公園酒店和朗壹廣場等其他管理物業亦相繼使用。我們亦正研究與社區回收中心合作支援 EcoBricks 製造系統的可能性。我們希望通過這創新的解決方案使環境、社會和旗下業務受惠。

Benches at Landmark South, which are composed of upcycled plastic waste collected from local households, serve as a reminder to live sustainably and cherish nature.

我們在 Landmark South 擺放的長凳，由本地家庭收集的塑膠廢料升級再造而成，鼓勵大眾實行可持續生活和珍惜大自然。

Circular Economy Principles at Landmark South

We have launched circular economy projects to reduce waste sent to landfill and engage our community to implement sustainability practices. The new benches at Landmark South are composed of upcycled plastic waste, which was collected from local households and then processed and re-moulded into statement furniture pieces. Combining art and functionality, these new benches, created in partnership with local architecture firm HIR studio, were conceived to echo the overlapping silhouettes of nearby mountains. These meaningful structures are a reminder to cherish nature and a nod to Landmark South's wellness-centric and sustainability-focused design.

China Hong Kong City's Green Office Solutions

Our China Hong Kong City property management team collaborated with Sustainable Office Solutions to introduce its green furniture management service at our show office. To encourage our existing and potential tenants to adopt responsible practices, we also held an exhibition of green items in the show office, such as a maintenance system to improve indoor air quality, smart devices to save energy, and examples of environmentally friendly building materials for offices.

於 Landmark South 引入循環經濟原則

我們藉著循環經濟項目減少送往堆填區的廢物，並與社區緊密聯繫以實行可持續措施。例如，在 Landmark South 擺放的新長凳是由塑膠廢料升級再造製成。我們與本地建築設計室 HIR Studio 合作，把由本地家庭收集的塑膠廢料重塑成藝術和功能融為一體的長凳。這設計和結構獨特的長凳靈感取自毗鄰的茵綠山岳，不僅提醒訪客珍惜大自然，亦與 Landmark South 重視健康和可持續發展的設計如出一轍。

中港城可持續辦公室解決方案

中港城的物業管理團隊與 Sustainable Office Solutions 合作，引入了他們的綠色家具管理服務到我們的示範辦公室。為了鼓勵我們現有和潛在的租戶採用負責任的實務常規，我們在示範辦公室亦舉辦了可持續辦公室物品展覽，例如改善室內空氣質量的維護系統，節省能源的智能設備，以及適合辦公室使用的環保建材。

奧海城的「借嘢」智能櫃提供免費方便的借用服務，鼓勵租戶互相分享資源，奉行減廢、重用和循環再造的精神。

Jie Yeah Locker

We collaborated with Tung Wah Group of Hospitals and Shun Feng Express (Hong Kong) (“SFHK”) to promote sustainable actions and launched the first self-help, free item-borrowing platform — “Jie Yeah” Smart Locker. Sino Group provides the space at Olympian City and SFHK provides the SF Smart Locker and logistics services, together with Tung Wah’s “Jie Yeah” services and community network. Together, we encourage our residential tenants and customers to reduce, reuse, and recycle more towards a more sustainable future.

Facility Management

Sustainability is also at the heart of our property management services, which SPS provides through SEML. These services include responsible practices such as energy and water management, waste reduction and recycling.

During the reporting period, Sino Parking Services Limited, together with our partner, Halo Energy Limited, received the Silver Award at the Hong Kong ICT Awards 2022: Smart Mobility (Smart Transportation) Award, co-organised by the Office of the Government Chief Information Officer of the HKSAR Government and GS1 Hong Kong. The award aims to promote outstanding information and communication technology (“ICT”) inventions and applications, thereby encouraging innovation and excellence amongst enterprises in their pursuit of creative solutions to meet business and social needs.

In addition, 60 properties under our management were recognised at the Excellence in Facility Management Award (“EFMA”) 2022 organised by the Hong Kong Institute of Facility Management. These included Olympian City, which received the Grandmaster Award (Retail), and Grand Central, which won the Gold Award (Theme Award — Smart Technology). Judging criteria included organisational structure and governance, corporate social responsibility, team building, performance awards and recognition, maintenance and renovation, occupational safety and health and facility management practices.

「借嘢」智能櫃

我們與東華三院和香港順豐速運（「SFHK」）合作推廣可持續發展的行動，並推出第一個自助式免費物品借用平台——「借嘢」智能櫃。信和集團提供位於奧海城的場地，而SFHK則提供順豐智能櫃和物流服務，與東華三院的「借嘢」服務和社區網絡連接。我們共同鼓勵住戶和顧客進一步減廢、重用和循環再造，邁向更可持續未來。

設施管理

可持續發展亦是物業管理服務的核心。信和管業優勢透過信和物管提供的服務結合負責任的實務常規，例如能源和水資源的管理、減少廢棄物和回收等。

報告期內，信和停車場管理有限公司與合作夥伴希路能源有限公司在香港特別行政區政府政府資訊科技總監辦公室和香港貨品編碼協會合辦的「2022香港資訊及通訊科技獎」中，榮獲「智慧出行（智慧交通）獎（銀獎）」。獎項旨在表揚及推廣優秀的資訊及通訊科技發明和應用，鼓勵業界不斷追求創新和卓越的創意方案，以滿足企業的營運及社會需求。

此外，我們旗下管理的60項物業在香港設施管理學會舉辦的「卓越設施管理獎2022」中獲得認可。其中，奧海城榮獲「卓越設施大師獎（商場）」，而凱滙榮獲「主題獎——智能科技」金獎。其評審標準包括公司架構及管治、企業社會責任、團隊建立、績效獎勵、保養及翻新、職業安全及健康，以及設施管理實務。

SPS received a total of 367 related awards, including the Platinum Award at Hong Kong Gold Coast Residences (Phase 2) and the Enthusiastic Award for seven properties at the Tree Management Award 2022, organised by the International Society of Arboriculture (“ISA”) Hong Kong Chapter. The Group has received 11 awards, including two Gold Awards, two Environmental Efficiency Awards and seven Merit Awards, at the Best Landscape Award for Private Property Management 2022, organised by the Leisure and Cultural Services Department of the Government of the HKSAR.

Recognition for Design

In 2022, our property management arm received several awards for its efforts. SPS received the Grand Award for the Year in the property developer and management category at the Brand Design Awards 2023, organised by the Hong Kong Designers Association. The award was established to set high standards for premium brands in Hong Kong and was judged under a set of criteria including distinctiveness, aesthetic value, marketability, innovation and sustainability.

We also earned recognition for design in other areas. At the Green Good Design Sustainability Awards 2023, we received awards for three projects including our Sustainability Report 2022, the upcycled wooden benches at Lee Tung Avenue and the upcycled plastic benches at Landmark South. In addition, we were awarded the 48th Salon International des Invention de Genève Gold Medal for our “Sustainable Design Series” project including the upcycled benches at Lee Tung Avenue and Landmark South and the benches made from EcoBricks at One North.

信和管業優勢共獲得 367 項相關獎項，當中包括香港黃金海岸 2 期於國際樹木學會香港分部舉辦的「樹木管理大獎 2022」中獲得白金獎，另外共七項物業獲得「踴躍參與獎」。此外，集團在香港特別行政區政府康樂及文化事務署主辦的「2022 最佳園林大獎——私人物業獎」中獲得了 11 個獎項，其中包括兩項金獎、兩項環保效益獎和七項優異獎。

設計獎項

我們的物業管理團隊於 2022 年榮獲多個獎項，包括在香港設計師協會舉辦的「最佳設計品牌大獎」2023 中，榮獲房地產及物業管理組別的「年度大獎」。獎項根據一系列標準評審，包括設計獨特性、美學價值、市場競爭力、創新性和可持續性，務求為香港優質品牌訂立高標準。

我們在設計方面同樣備受認可。我們共有三個項目獲「Green Good Design Sustainability Awards 2023」頒發獎項，包括《可持續發展報告 2022》、利東街升級再造木製公共座椅和 Landmark South 由塑膠廢料升級再造而成的長凳。此外，我們的「可持續設計系列」項目，包括在利東街和 Landmark South 的升級再造長凳，以及於朗壺廣場利用 EcoBricks 製造的座椅，於「第四十八屆日內瓦國際發明展」上榮獲金獎。

Introducing One North

朗壹廣場簡介

Health and wellbeing are key elements of our latest Grade-A office-cum-retail development in Yuen Long.

朗壹廣場以身心健康為主要發展元素，是元朗區全新甲級寫字樓及商場綜合項目。

One North provides prime office and retail space across two 14-storey towers with a more than 20,000 square-foot landscape area. The landscape area has an urban farm, a fitness station, performance area and the first running track offered by a commercial building in the New Territories. The generous communal space provides opportunities for tenants, visitors and shoppers to recharge from stressful daily life through fitness and play, promoting physical and psychological wellbeing. As the first Grade-A wellness hub in the Northern Metropolis, One North is also connected to bicycle trails linking Nam Sang Wai, Tin Shui Wai Park and Hong Kong Wetland Park. In collaboration with V'air Hong Kong, an environmental educational organisation specialising in eco-tourism and climate action, we created a cycling map to raise awareness about biodiversity and sustainable living by introducing valuable ecological and cultural attractions in the neighbourhood for the enjoyment of families, friends and cycling lovers. Strategically located, the property provides convenient access to Shenzhen and the Greater Bay Area, and serves as a technology hub and meeting point for innovators in Guangdong, Hong Kong and Macao.

To raise awareness of biodiversity and sustainable living, we created a cycling map highlighting ecological and cultural attractions in the neighbourhood around One North.

為提高大眾對生物多樣性和可持續生活的認識，我們建立了一份單車地圖，突顯朗壹廣場周邊地區的生態和文化景點。

朗壹廣場提供優質的辦公和零售空間，包括兩座樓高 14 層的寫字樓，以及佔地逾 20,000 平方呎的草坪公共空間。草坪公共空間設有都市農莊、體展空間、藝能空間以及首設於新界區內寫字樓的緩跑徑。寬敞的公共空間為租戶、訪客和顧客提供舒展和放鬆的園地，舒解日常生活壓力以促進身心健康。作為香港北部都會區首座以健康舒泰和現代辦公需求為主軸的綜合項目，朗壹廣場亦連接多條單車徑，通往南生圍、天水圍公園和香港濕地公園。我們與專注推廣生態導賞和氣候行動的環保教育機構 V'air Hong Kong 合作，共同製作了一份單車地圖。地圖旨在透過介紹區內具價值的生態和文化景點予家庭、朋友和單車愛好者，從而提高大眾對生物多樣性和可持續生活的認識。此外，項目地理位置優越，前往深圳和大灣區亦非常方便，為廣東、香港和澳門的創新者提供創科基地和滙聚點。

One North is designed to promote physical and psychological wellness, while providing multiple features to support sustainable living. 朗壹廣場致力推動身心健康，並藉著提供多項設施推動可持續生活。

Cutting-edge design, responsible operations and management are incorporated within the property. Sustainable features include EV chargers, ultra-modern curtain walls with LED façade lighting, air purifiers in all wellness floor lift lobbies, and MERV 14 filters in primary area units. In line with best practices, we target to attain BEAM Plus New Building V1.2 Silver Rating and WELL™ Core v2 Platinum Rating for this development.

The GoCircular Corner at One North is a platform to engage our tenants and customers in circular economy practices. This initiative is designed to drive innovative solutions to transform waste into sustainable construction materials. In addition to installing recycling bins made of upcycled plastic, over 2,960 EcoBricks were used to pave the bench seating area and create two upcycled benches. In total, the EcoBricks used in this project upcycled over 480,000 plastic bottle caps and rings, amounting to 960 kg of plastic waste diverted from landfill. In addition, uniforms for staff at the property are created from upcycled fabric.

尖端的設計、負責任營運和管理貫穿整個建築項目，當中可持續發展設計包括設置電動車充電器、破格的戶外LED多媒體幕牆、所有健康樓層的電梯大堂設置空氣淨化機，以及鮮風櫃房採用MERV14濾網。我們實施最佳實務常規，目標取得「綠建環評新建建築1.2版」銀級和《WELL建築標準™》核心體v2鉑金級認證。

朗壹廣場內的「起動循環」區是我們向租戶和顧客介紹循環經濟原則的平台，並推動創新解決方案以應對廢棄物問題，將廢棄物轉化為可持續的建築材料。另外，我們設置由升級塑膠廢料再造的回收桶，使用超過2,960塊EcoBricks鋪設平台和製作兩套再造座椅。我們避免了超過480,000個塑料瓶蓋和瓶蓋環，相當於減少960公斤塑膠廢物被棄置於堆填區內。此外，朗壹廣場內員工的制服亦是由升級再造布料製成。

The many sustainability features across our One North property include a GoCircular Corner for tenants and customers (above) as well as upcycled uniforms for staff (below).

朗壹廣場具有多個可持續發展特色，包括為租戶和客戶提供教育資訊的「起動循環」區（上圖），以及為員工提供升級再造的制服（下圖）。

New Technologies

The Lab showcased more than 30 new solutions focusing on advanced green materials, sensing technologies, lighting for wellness and sanitisation as well as AI and robots, which can be applied to hotels, residences, shopping malls and property management. These included:

- Eco-wall tiles which are fully recyclable and biodegradable
- Environmental sensors to measure and monitor the health parameters and safety in buildings
- MetaRoom that uses specially designed acoustic metamaterials made from upcycled materials to reduce noise
- A mid-air haptic sensor system that transforms traditional displays into touch-free panels
- Natural limestone-based paint for sanitisation and carbon absorption

During the reporting period, Sino Inno Lab entered into a licencing agreement with the Laboratory for Artificial Intelligence in Design ("AiDLab"), the first research platform in Hong Kong dedicated to exploring AI-integrated designs. This collaboration makes us the first commercial entity to licence AiDLab's patented intelligent textile system for interiors. The technology, developed by Dr Jeanne Tan and her team, transforms conventional passive fabrics into textiles that instantly change colour via contactless gestures. Made of illuminating optical fibres that can also be produced from upcycled resources, the interactive textiles will enable us to customise products and environments while minimising material wastage. Using this cutting-edge technology, we hope to explore novel built environment applications as we continue to support local innovation.

報告期內，「信和創意研發室」與首個結合人工智能與設計的研究平台「人工智能設計研究所」(「AiDLab」) 簽訂授權協議。是次合作，讓我們成為首個商業機構獲得 AiDLab 授權，許可使用其適用於室內設計的專利智能織物系統。技術由陳芊瑞博士及其團隊開發，將傳統、被動的物料轉化成通過非接觸式手勢便能即時改變光纖顏色的織品。這種交互式智能織品由發光光纖製成，亦可從回收的資源中升級再造而成，讓我們可以按需要定制產品和設計環境，同時將材料浪費減至最低。我們希望這項尖端科技能助我們在探索新穎建築環境應用的同時，繼續支持本地創新。

Senior citizens in the community participated in a demonstration of the disease-preventing Trap Pro project, developed by colleagues as part of the Sinovation programme.

同事在「信·共創」計劃下研發出「Trap Pro」項目，並向各社區的長者示範使用方法，以助防止疾病傳播。

Sinovation

Sinovation, established in 2019, is our long-standing programme to foster innovation amongst our staff, including innovative ideas for efficiency and quality improvements that will benefit our operations and the wider community. The programme welcomes all staff to express their ideas and collaborate to build an innovative culture aligned with our vision of Creating Better Lifescapes.

During the reporting period, one of the 2021 programme's winning projects, Trap Pro — a tool developed to help the elderly add water to the U-traps of drainage pipes to prevent the spread of disease — entered mass production. The tool enables the elderly to better control water flow without splashing or bending over when using it. In October 2022, our colleagues distributed and demonstrated Trap Pro to senior citizens at Tung Wah Group of Hospitals Jockey Club Tai Kok Tsui Integrated Services Centre, The ABM Hong Kong Swatow Baptist Church Community Service Association and other NGO partners.

In 2023, the Sinovation programme themed energy saving attracted more than 40 entries from staff members. The programme aims to harness the collective wisdom of onsite colleagues to generate value-driven solutions to solve the toughest energy-saving challenges. Five outstanding ideas were shortlisted and the contributors were appointed as Sinovators at the kickoff ceremony in April. The Sinovators underwent an intensive mentorship programme and further developed their concepts before pitching their ideas to management in a final presentation.

信·共創

「信·共創」於2019年成立，是我們啟發同事創新思維的長期計劃，平台鼓勵同事挑戰以創新思維提高工作效率，以及提出改善品質的建議，改善營運和貢獻社區。計劃歡迎所有員工分享個人構思和合作，以配合「建構更美好生活」的願景共建創新文化。

報告期內，其中一個2021年計劃的獲獎項目「Trap Pro」投入大量生產。這項於疫情期間研發的手製泵型工具，可協助長者注水至U形水管以防止疾病傳播。這工具讓長者不用彎腰便能注水，水流亦更易控制而不會導致水花四濺。2022年10月，我們的同事向東華三院賽馬會大角咀綜合服務中心、美差會潮浸服務聯會，以及其他非政府機構合作夥伴的長者派發「Trap Pro」及示範其使用方法。

2023年，「信·共創」計劃以節能為題，吸引40多份來自員工的建議書。計劃旨在集思廣益，共同創造具價值的解決方案，以解決最具挑戰的節能議題。五項入選優秀創意構思的參加者於4月舉行的啟動禮上，獲委任為Sinovators。他們接受密集的指導，進一步研發構思，然後向管理層講解最終提案。

In 2023, our Sinovation programme competition encouraged colleagues to generate value-driven solutions to promote energy saving. 2023年，我們的「信·共創」計劃鼓勵同事提出能創造價值的解決方案，以促進節約能源。

Two of the winning solutions harnessed the power of renewable energy: an add-on device that collects heat generated from a swimming pool's filtration system to heat up a hot tub, and a turbine that generates power from high-volume water discharged from a water tank or pool. Colleagues also delved into a smart lighting system, designing car park LED lights that automatically dim when daylight is detected and light up when motion is detected.

Support for Innovation

During the reporting period, we continued to support other programmes that promote innovation. Key highlights are described below.

The Hong Kong General Chamber of Commerce ("HKGCC") Business Case Competition

We supported youth-led innovation as a case sponsor of the annual HKGCC Business Case Competition. For the fourth consecutive year, tertiary students had the opportunity to crystallise their impressive ideas into concrete solutions that help to promote wellness in the built environment. The Group's track was well received, with approximately 40 applications from more than 150 students. Our colleagues also took part to guide the shortlisted teams to refine their proposals and pitch presentations. We see fostering innovative co-creation between youth and the business sector as another way to realise our vision of Creating Better Lifescapes, to build a better future together.

兩個善用再生能源的得獎解決方案包括：一個可收集游泳池過濾系統產生的熱量，用作加熱熱水浴缸的附加裝置；以及一個利用水箱或游泳池排放的高排水量發電的渦輪機。同事們還開發了一個智能照明系統，應用於停車場的LED燈。當系統檢測到日光時便會自動調暗燈光，並在檢測到移動物時亮起。

支援創新

報告期內，我們繼續支持其他促進創新的計劃，重點計劃如下。

香港總商會「商業案例競賽」

我們連續第四年成為香港總商會年度「商業案例競賽」的案例贊助商，以支持青年的創新。一如既往，大學生團隊獲機會將創新構思應用為具體的解決方案，在建築環境中促進身心健康。集團的研究題目收到來自150多名學生約40份申請，入圍團隊得到同事指導完善提案和演講技巧。此項競賽有助我們促進青年和商界共同創新，是體現「建構更美好生活」的願景及共同建設更美好將來的另一例子。

HKUST-Sino One Million Dollar Entrepreneurship Competition

Since 2018, we have supported the HKUST-Sino One Million Dollar Entrepreneurship Competition to nurture the next generation of visionary entrepreneurial talent. The 2023 competition attracted a record number of 234 eligible entries and introduced a new award, the Sustainability Impact Award. Designed to generate and transform environmentally conscious ideas into sustainability-driven start-up enterprises, this new award will help pave the way for a brighter future for all. Out of the entries from Hong Kong, Mainland Chinese and international teams, 80% featured sustainability elements.

This year's three winning entries address issues ranging from healthcare to sustainable development. Solutions include a cost-effective cell therapeutic platform for treating cancer and autoimmune diseases, a freeze-drying method for upcycling "ugly fruit" into nutritious products and a medical-grade lower limb rehabilitation wearable for stroke patients. The competition's most promising finalists will have the opportunity to broaden their horizons by participating in the 48th Salon International des Invention de Genève in 2024.

科大 — 信和百萬獎金創業大賽

自2018年，我們一直支持「科大 — 信和百萬獎金創業大賽」，致力培育下一代具遠見的創業人才。2023年，大賽吸引了234名合資格參賽者，數量創下歷年紀錄。另外，大賽亦增設獎項——「可持續發展影響力獎」，藉以發掘具潛質的綠色意念，轉化為推動可持續發展的初創企業，期望為社會創造更美好未來。在來自香港、中國內地和海外團隊的參賽作品中，80%具有可持續發展元素。

今年的三個獲獎作品，旨在解決涵蓋從醫療保健到可持續發展各種領域的問題。當中包括細胞治療平台，平台不但可治療癌症和自身免疫性疾病，亦可平衡成本效益。另外是通過冷凍乾燥技術將「醜陋水果」升級為營養豐富產品的方案，以及為中風患者適用的康復級別下肢復康穿戴裝置。大賽最具潛質的決賽隊伍更有機會參加2024年「第四十八屆日內瓦國際發明展」，拓闊國際視野。

Nurturing Aspiring Reporters

Combining a workshop on writing news in English with the opportunity to learn about innovation, we engaged 120 local secondary school students, shortlisted from about 400 applicants, in the Sino Junior Reporter Programme. Jointly presented by Sino Group and SCMP Young Post since 2014, the programme allows participants to learn from professionals and practise techniques such as research and verification, active listening and interviewing skills. The students visited Sino Inno Lab and interviewed Mr Andrew Young, Associate Director (Innovation).

Innovation at Work

Our innovation projects continue to be actively implemented in our business.

Voicebot with Facility Management Expertise

We continue to collaborate with the Hong Kong Applied Science and Technology Research Institute (“ASTRI”) in the development of a voicebot with facility management domain knowledge and the ability to understand multiple and mixed languages. This application provides a system to manage processes with an integrative approach to promote overall operational efficiency. The voicebot will be further integrated into the SINO living app.

During the reporting period, we have deployed and trialled ten robots with functions including delivery, cleaning and water testing for new buildings and customer service at nine sites.

培養記者專才

我們接獲近 400 項「信和校園記者計劃」的申請，從中甄選 120 位本地中學校園記者參與英文新聞撰寫工作坊和學習新興科技。自 2014 年，信和集團與《南華早報青年報》合辦「信和校園記者計劃」，讓參加者向資深新聞工作者學習和實踐技巧，例如研究和驗證、積極聆聽和採訪要訣。校園記者參觀了「信和創意研發室」並親身採訪創新聯席董事楊孟璋先生。

於工作中運用創新技術

我們繼續積極於業務中實施創新項目。

具有設施管理專業知識的語音機器人

我們繼續與香港應用科技研究院合作，研發備有設施管理範疇知識，以及能夠理解多國混合語言的語音機械人。此應用程式提供管理流程系統，藉以採用綜合方針來提高整體的營運效率。語音機械人將被進一步整合到「SINO living」應用程式中。

報告期內，我們在九個地點配置和試用了十個機械人，功能包括新建築物的運輸、清潔、試水工程以及客戶服務。

The Sino Junior Reporter Programme provided students with the opportunity to write news in English and learn about megatrends in innovation.

Heritage and Culture

文化傳承

Conserving collective memories through heritage conservation, art and cultural initiatives revitalises our communities. A key focus of our actions is honouring the historical gems that represent our heritage and connecting them with the generations of today and tomorrow.

我們透過保育、藝術和文化計劃活化社區和締造集體回憶。以延續和宏揚具代表性的歷史文化為工作核心，連繫古今和未來社會。

How We Are Managing It

Appreciation and understanding of heritage and culture are important facets of our sustainability strategy. We strive to encourage interest in heritage conservation and culture amongst our younger generation to build community connections. Through exhibitions and events, we promote the importance of cultural legacies and artistic talent. We also collaborate with NGOs and artists to inspire creativity in children and young people with the hope that this will enhance their personal development and help them become engaged members of society.

Heritage and Conservation Projects

We prioritise heritage preservation at the Fullerton hotels in Sydney and Singapore. The Fullerton Hotel Sydney, housed in the city's historic former General Post Office building, is an iconic structure listed on the Commonwealth Heritage List and New South Wales Heritage Register. Completed in 1874, this majestic sandstone structure inspired by late Medieval and Renaissance Italian architecture is considered one of Australia's finest examples of the Italianate style. Under our management, this landmark building underwent a two-year restoration of its façade, which we ensured was done by hand, without the use of chemicals.

怎樣管理

欣賞和了解歷史文化是可持續發展策略的重要一環。我們致力促進年輕一代對保育文化的興趣，從而與社區建立更緊密的連繫。我們藉著展覽和活動，宣揚傳承歷史文化和培養藝術人才的重要性。我們亦與非政府機構和藝術家合作，激發兒童和青少年的創意思維並促進個人發展，協助他們積極貢獻社會。

歷史文化保育項目

我們著重保育悉尼和新加坡富麗敦酒店的歷史文化。悉尼富麗敦酒店為坐落於前悉尼郵政總局大樓的經典建築物，並獲列入《英聯邦遺產名錄》和《新南威爾士州立遺產名錄》。大樓於1874年落成，其砂岩結構的靈感來自中世紀晚期和文藝復興時期的意大利建築，被譽為澳洲最具意大利風格建築的典範之一。在我們的管理下，這座建築地標經過歷時兩年的外牆修復保育工作。過程中我們確保修復工作皆由人手處理，並沒有使用任何化學品。

A series of celebrations including a photo exhibition commemorated the 90th anniversary of Clifford Pier, the former landing point of Singapore's forefathers.

紅燈碼頭為早期移民登陸新加坡的地方，我們舉辦了一連串慶祝活動紀念碼頭90周年，當中包括攝影展。

The Fullerton Hotel Singapore is also located in an iconic building, the 71st National Monument of Singapore, formerly known as the Fullerton Building. Built in 1928, this grand neoclassical structure served as Singapore's General Post Office, various government departments and the prestigious Singapore Club before it became a hotel. The building, recognised as a National Monument in 2015, is located in The Fullerton Heritage precinct along with The Fullerton Bay Hotel Singapore, Clifford Pier, The Fullerton Waterboat House, One Fullerton, The Fullerton Pavilion and the Customs House. From May to July 2023, a series of celebrations including a photo exhibition, commemorated the 90th anniversary of Clifford Pier, the former landing point of Singapore's forefathers, which is now transformed into a stunning event venue.

To build awareness about the rich history of these structures, we offer complimentary heritage tours that tell the stories of these great buildings and the memories of people who have lived and worked nearby. During the reporting period, 1,778 visitors participated in these tours in Singapore, and 3,329 participated in Sydney. In Singapore, we also offer a self-guided heritage trail designed to allow visitors to explore significant sites around The Fullerton Heritage precinct and the neighbouring civic district.

During the reporting period, The Fullerton Heritage was honoured at the 2022 Urban Redevelopment Authority's Architectural Heritage Awards ("AHA"), which acknowledges exemplary work in heritage conservation in terms of building maintenance, creation of social value and positive community impact. The Fullerton Heritage received the first Architectural Heritage Legacy Award. The award is bestowed upon a past AHA winner with at least ten years of post-award exemplary management in sustaining the longevity of a heritage building, both physically and socially.

新加坡富麗敦酒店同樣坐落於經典的建築地標，前身為浮爾頓大樓，是新加坡第七十一座國家法定古蹟。這座宏偉的新古典建築於1928年落成，前身為新加坡郵政總局、眾多政府機構和著名的新加坡俱樂部的所在地。大樓於2015年被評定為國家歷史文物，現位於富麗敦天地，毗鄰新加坡富麗敦海灣酒店、紅燈碼頭、富麗敦船屋、富麗敦一號、富麗敦蓮亭和前海關大樓。為紀念紅燈碼頭90周年，新加坡富麗敦酒店於2023年5月至7月期間舉辦了一系列包括攝影展的慶祝活動。紅燈碼頭是早期新加坡移民的登陸點，現已改建為酒店的活動場地。

為了傳承富麗敦建築群的深厚歷史文化，我們提供免費的文化導賞團，細說這些偉大建築的故事，從中發掘在周邊社區生活和工作的人物回憶。報告期內，共有1,778名訪客參加了新加坡的導賞團，以及3,329名訪客參加了悉尼的導賞團。在新加坡，我們另提供遊覽路線，讓遊客在富麗敦天地及鄰近的市政區步行觀光，親身探索具歷史意義的文化地標。

報告期內，富麗敦天地榮獲新加坡市區重建發展局的2022年「建築文化大獎」，獎項表彰於建築保育、創造社會價值及為社會帶來積極影響方面傑出表現的項目。富麗敦天地為首屆「建築文化承傳獎」的獲獎者，該獎授予歷屆「建築文化大獎」得獎者在獲獎後至少於十年的文物管理中延續建築的壽命及積極推廣其對社會的影響。

Art and Cultural Initiatives

To encourage the younger generation and nurture their talents, we showcase works of local and international art and cultural significance in our communities.

Appreciating Nature through Art

The Fullerton Hotel Singapore highlighted the importance of conservation by hosting the “Nature of Art” exhibition by Singapore-based Russian artist, Inessa Kalabeova, in March 2023. The pieces were inspired by sights from Singapore’s parks, with 20% of proceeds from sales donated to the Animal Concerns Research and Education Society (“ACRES”), which strives to drive a collaborative and sustainable animal protection movement in Asia.

Yong Mun Sen In Nanyang

The Fullerton Hotels and Resorts was a co-sponsor of the “Yong Mun Sen in Nanyang” exhibition from February to May 2023 at the Nanyang Academy of Fine Arts in Singapore. One of the most iconic Malaysian artists of the 20th century, Yong Mun Sen was an important figure in Southeast Asia as an artist and art educator. Organised together with Michael Yong-Haron, Saniza Othman and the Nanyang Academy of Fine Arts, the exhibition featured research on the artist and his practice through a visual narrative of his explorations in watercolour, oil, ink and photography.

楊曼生與南洋

富麗敦集團贊助展期為2023年2月至5月於新加坡南洋藝術學院舉行的「楊曼生與南洋」展覽。楊曼生被譽為20世紀最具代表性的馬來西亞藝術家之一，亦是東南亞在藝術和藝術教育方面的重要人物。展覽由 Michael Yong-Haron 和 Saniza Othman 以及南洋藝術學院合辦，介紹並展示楊曼生在水彩、油畫、水墨和攝影領域的藝術探究和實踐。

Yayoi Kusama: 1945 to Now Exhibition

As part of our continuous drive to make art accessible to everyone, the Group sponsored “Yayoi Kusama: 1945 to Now”, the first special exhibition of M+ Museum. Featuring more than 200 avant-garde pieces, the exhibit was the largest retrospective about the artist in Asia held outside of Japan. In addition to showcasing the impressive work of this celebrated Japanese artist on the LED façades of Tsim Sha Tsui Centre and Empire Centre during November 2022, tours were arranged for Sino Club members and customers to further art appreciation in the community.

Lighting Up Magical Moments

To celebrate Christmas and the 40th anniversary of the Tsim Sha Tsui East Festive Illuminations, Tsim Sha Tsui Centre and Empire Centre lit up the promenade of Victoria Harbour with snowflakes. Featuring motion graphics and colour-changing effects, the façades of the two buildings were illuminated under the themes, “Musical Snow Globe” and “40th Anniversary Revival of the Classics”, bringing Christmas joy to the community. Meanwhile, Lee Tung Avenue celebrated the festive season by being transformed into a retro disco with Asia’s biggest mirror ball measuring seven metres in diameter glittering above the Central Piazza. Covered with over 2,000 mirrors and topped with Christmas decorations, professional stage lighting complemented the disco ball to recreate a disco vibe of times past.

「草間彌生：一九四五年至今」展覽

集團贊助M+首個特別展覽「草間彌生：一九四五年至今」，致力於社區推廣藝術。是次展覽是草間彌生於日本以外亞洲地區最大規模的回顧展，共展出逾200件前衛藝術品。2022年11月期間，尖沙咀中心和帝國中心的LED多媒體幕牆亦播放展示草間彌生精彩作品的短片。此外，我們亦為Sino Club會員和顧客提供導賞團，進一步在社區推廣藝術欣賞。

璀璨燈飾慶佳節

為慶祝聖誕及「閃爍尖東耀香江」40周年，尖沙咀中心和帝國中心以「雪花」圖案點亮維多利亞港海濱長廊。兩座建築物外牆的燈飾以「飄雪音樂盒」和「40周年經典重溫」為主題，在動態影像和幻彩效果的互相映照下，為社區帶來聖誕喜悅氣氛。與此同時，利東街亦佈置成復古經典的士高來慶祝節日，於中庭廣場上懸掛全亞洲最巨型，長達七米直徑鏡面球。鏡面球上覆蓋著2,000多面鏡子，加上頂部裝設聖誕裝飾，再配合專業的舞台燈光，讓利東街呈現出昔日的士高氣氛。

Hong Kong Rugby Sevens

Three of our malls, tmtplaza, Olympian City and Citywalk, broadcasted the Hong Kong Rugby Sevens for shoppers to enjoy. In addition, various themed events were held including “Rugby Trial Workshops for Kids”, where little ones learned the basics of the game with local professionals. Other rugby-themed offerings and exciting food and beverage options were also provided.

體育項目

鼓勵大眾參與社區活動是我們的首要目標。除了藝術活動，我們亦以體育和其他社區活動連繫社區。

香港國際七人欖球賽

“Goal Together” Campaign

To engage the public and promote international sports, Olympian City, tmtplaza and Citywalk live-streamed all 64 World Cup football matches for more than 100,000 football fans. Olympian City enhanced the experience with two 430-inch TVs, real-time game analysis and the opportunity to take photos with footballers using augmented reality (“AR”) technology. tmtplaza hosted a 13.7-metre-4K screen, while Citywalk held an exclusive “Young Footballer Training Workshop” designed by LaLiga’s Spanish headquarters for S+ Rewards members.

WELL DUNK! Grand Finals Cheering Zone

Lee Tung Avenue also supported sport development by setting up a cheering zone for the grand finals of “WELL DUNK!”, a public housing estate-based basketball programme organised by the InspiringHK Sports Foundation. The zone featured meaningful basketball-themed activities and installations for the community. A charity bazaar and an eco-responsible DIY booth were also part of the event. In addition, the zone exhibited a reproduction of a painting by Roy Cheng, a local artist who has chosen basketball as his main subject. Attendees were inspired by the spirit of “the sky’s the limit” at this event.

Goal Together全城開波!

為提升大眾對國際體壇盛事的興趣，奧海城、屯門市廣場和荃新天地全程直播64場世界盃賽事，共吸引超過100,000名球迷到場觀賞。奧海城更安裝了兩部430吋大電視、設置實時賽事分析體驗館，以及利用擴增實境讓球迷有機會與球星合照。此外，屯門市廣場亦安裝了長13.7米的4K超高清屏幕，而荃新天地亦為S+ Rewards會員舉辦專屬活動「小球員足球訓練工作坊」，讓小朋友體驗由西班牙西甲總部設計的專業足球訓練。

在「香港藝術月」期間，我們在旗下的管理物業展示世界一流的藝術品和本地文化。

"Serving the People" by celebrated Hong Kong designer Mr Alan Chan at Landmark South.

《為人民服務》為香港著名設計師陳幼堅先生於 Landmark South 展出的作品。

To support Hong Kong Arts Month, we participated in a street art festival organised by a non-profit organisation, HKwalls. For the past seven years, the festival has brought art into the community through vibrant street murals. This year, we featured renowned Spanish street artist J. Demsky's digital artwork titled "VLTRAPHOTONICS" on the multimedia walls of Tsim Sha Tsui Centre and Empire Centre, which provided HKwalls with its first-ever digital art platform. As some of the largest on the Victoria Harbourfront, these façades are ideal for encouraging appreciation of cultural activities within the community, supporting the Group's goal to promote the development of the arts, culture and creative industries.

The ceremony was graced by Mr Cheuk Wing-hing, GBS, JP, Deputy Chief Secretary for Administration of the Government of the HKSAR, as our Guest of Honour. Shortlisted by 26 nominating organisations, an independent judging panel selected the winners of the six categories, while the Lion Rock People's Choice Award was determined by public voting. The Community Chest New Territories Walk for Millions

In November 2022, 500 colleagues across Sino Group, their families and friends joined the Walk for Millions to fundraise for 24 member agencies of the Community Chest. The member agencies will provide “Family and Child Welfare Services” to those in need, including services to maintain and strengthen family bonding, encourage mutual support amongst family members, and help them cope with concerns or unmet needs. The event was held in person for the first time since the pandemic, taking place at the Cross Bay Link in Tseung Kwan O. As a new landmark bridge, and Hong Kong’s first-in-town marine viaduct with a carriageway, cycle track and footpath, the bridge plays a significant role in improving the area’s transportation network. We donated funds for each participant to join the walk, providing colleagues with an opportunity to bond over a worthwhile cause.

Operation Santa Claus

To spread love and care during the festive season, we participated in the annual Operation Santa Claus initiative co-presented by the South China Morning Post and Radio Television Hong Kong. Marking our 18th consecutive year of participation, we invited 20 children supported by the Hong Kong Children in Need Foundation and their families to The Fullerton Ocean Park Hotel Hong Kong for a hearty Christmas feast and fun-filled celebration. Strive and Rise Programme 共創明「Teen」計劃

As part of our commitment to youth development, we support the Hong Kong Government's Strive and Rise Programme, which is run through collaboration between the Hong Kong Government, the business sector and the community. We partnered with various organisations to curate approximately 20 unique group activities related to innovative technology, cultural heritage, life planning and sustainable development. Around 500 mentees and mentors enrolled or participated in these activities designed to help less-resourced students broaden their horizons, reinforce their self-confidence, and inspire them to explore more possibilities for personal development.

Programme activities included various outdoor experiences, such as urban farming tours to learn about the farm-to-table concept. Students also discovered the traditions and culture of stilt houses during an in-depth exploration of Tai O Heritage Hotel and its surroundings. Other activities included a visit to the Sino Inno Lab and participation in STEM-related workshops, through which students explored innovative technology solutions. In addition, coral conservation workshops and beach clean-up exercises promoted a sustainable mindset, and a visit to The Fullerton Ocean Park Hotel Hong Kong deepened their understanding of the hospitality industry and sustainable tourism.

Colleagues from different areas of the Group's business were recruited as volunteer mentors. These mentors shared their life experiences and created personal development plans for mentees. Olympian City also provided students with structured job shadowing opportunities, allowing students to work in different capacities and explore various career paths.

Support for Less-resourced Families and the Elderly

Supporting Local Boat Dwellers

In Hong Kong, we worked with community partners to support boat dwellers and families in need by distributing 200 care packs comprising essential food items such as rice, cereal, cooking oil and biscuits, as well as anti-pandemic materials in October of 2022. The packs were handed out to less-resourced families living near typhoon shelters in Causeway Bay and Aberdeen as well as to the elderly in the Southern District, in collaboration with partners including the Hong Kong Yacht & Start-up Association, the Society for Community Organization ("SoCO") and the Aberdeen Kai-fong Association. In addition to distributing care packs, we hosted more than 50 beneficiaries on cruises along Victoria Harbour and the Southern District on Dukling, Hong Kong's only remaining, original, antique Chinese-style junk, to enjoy the scenic harbour and storied Southside.

Visits with Seniors in Singapore

Colleagues from The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore volunteered at Bright Hill Evergreen Home, and Kreta Ayer Active Aging Centre, two institutions dedicated to serving underprivileged seniors. The teams distributed food and engaged with the seniors through various activities to build connections amongst different generations.

We work with community partners to support families and the elderly who are in need.
我們與社區夥伴合作，支援有需要家庭和長者。

支援基層家庭和長者

支持本地船民

在香港，我們與社區夥伴合作，於2022年10月派發200份心意包，內有白米、燕麥、煮食油、餅乾等主要食品及抗疫物資，以支持船民和有需要家庭。我們與香港帆船創業協會、香港社區組織協會和香港仔坊會等合作夥伴合作，向居住在銅鑼灣和香港仔避風塘附近的基層家庭以及南區的長者派發心意包。除了派發心意包，我們亦接待50多位受益人乘坐香港唯一仍在海港航行的中式古董帆船鴨靈號，遊覽維多利亞港和南區，欣賞迷人景致。

探訪新加坡長者

新加坡富麗敦酒店和新加坡富麗敦海灣酒店的員工探訪專門照顧弱勢長者的非牟利療養院光明山修身院，以及牛車水樂齡活動中心。由員工組成的義工團隊分發食物，並透過活動連繫不同世代。

Coming Together for the Community

攜手連結社群

Our employee volunteer team, Sino Caring Friends, has worked with less-resourced families across Hong Kong since 2008.

自 2008 年，我們的員工義工服務團隊「信和友心人」便一直致力在香港幫助基層家庭。

Sino Caring Friends engages our colleagues, their families and friends in volunteer activities in collaboration with community partners. During the reporting period, Sino Caring Friends organised 460 activities, with more than 1,770 volunteers participating in services for over 25,000 less-resourced elderly, children and youth and more than 5,800 families. In total, we performed over 207,000 hours of volunteer service in Hong Kong. Our goal is to increase volunteer service hours by 15% from the 2020 level by 2030; to date, we have achieved this goal by increasing our volunteer service hours by 19.37% from our 2020 level.

Activities undertaken throughout the reporting period included the following highlights. Looking ahead, we will continue to work with even more partners to support those in need.

Spreading Mid-Autumn Joy

To celebrate the Mid-Autumn Festival, we joined hands with nine community partners to distribute more than 2,000 festive gift packs to less-resourced families at community centres as well as schools and visited subdivided flats. In addition, we supported the “Mid-Autumn Festival event” at the YLPMS Alumni Association Tang Ying Yip Primary School in Tin Shui Wai by sponsoring 12 Chinese traditional game booths. The school also invited kindergarten students to join and learn more about Chinese culture and tradition. Students from Primary 6 took up the role of “junior volunteers” to pack 700 gift packs together with Sino Caring Friends.

「信和友心人」義工隊與社區夥伴合作，讓員工及其親友參加義工活動。報告期內，「信和友心人」共舉辦 460 項活動，超過 1,770 名義工參與，為超過 25,000 個來自基層的長者、兒童及青少年以及超過 5,800 個家庭提供服務。於香港的義工服務總時數超過 207,000 小時。我們的目標，是於 2030 年或以前將義工服務時數從 2020 年的基礎上增加 15%。至今，我們已實現此目標，與 2020 年相比，我們的義工服務時數增加了 19.37%。

以下介紹報告期內的重點活動。展望未來，我們將繼續與更多社區夥伴合作，支援有需要的人士。

中秋關懷活動

為慶祝中秋佳節，我們與九間社區夥伴攜手合作，在社區中心和學校派發超過 2,000 份節日禮物包予基層家庭，並探訪劏房住戶。此外，我們亦支持位於天水圍的元朗公立中學校友會鄧英業小學的「中秋嘉年華活動」，贊助 12 個中華傳統遊戲攤位。學校亦邀請幼稚園學生參與活動，深入了解中華文化和傳統。當中小六學生更擔當「小義工」與「信和友心人」一起準備 700 份禮物包。

Young residents from the Society of Boys' Centres were invited to enjoy a Christmas buffet lunch and were presented with gifts to celebrate the holiday season. 香港扶幼會的院舍學童獲邀享用聖誕自助午餐和贈予禮物慶祝節日。

Christmas Blessings

Supported by our community partners, we distributed gift packs to around 3,000 less-resourced children and families, as well as those living in residential care homes, to celebrate the Christmas season. We also hosted Christmas buffet lunches for residents of children's homes, treating them to a hearty lunch at Hong Kong Gold Coast Hotel and The Fullerton Ocean Park Hotel Hong Kong. Sino Caring Friends also distributed claypot rice to warm hearts and stomachs. In addition, open-top night bus tours were arranged for less-resourced families and children to enjoy the vibrant Christmas illuminations in Tsim Sha Tsui.

Spring Festival Programme

We launched festive care programmes to bring cheer to over 10,000 less-resourced people and our frontline colleagues during the Chinese New Year. In collaboration with more than 30 community partners, the Spring Festival Programme supported families in need, the elderly who live alone, minorities and people with varying abilities through home visits and gift giving. Activities included delivering seasonal treats to welcome the Year of the Rabbit and donations to sponsor the purchase of clothing and shoes. People in need were accompanied on shopping trips in preparation for a brighter new year.

聖誕祝福

在社區合作夥伴的支持下，我們向約3,000名基層及需要住宿照顧服務的兒童及家庭送上聖誕禮物，傳送佳節氣氛。我們亦邀請了暫居於兒童或青少年院舍的學童到香港黃金海岸酒店及香港富麗敦海洋公園酒店享用聖誕自助午餐。「信和友心人」亦四出派發熱騰騰的煲仔飯。我們還安排特色開篷巴士，讓基層家庭和兒童於晚上遊覽尖沙咀，欣賞璀璨繽紛的聖誕燈飾。

新春送暖活動

我們舉辦節日關愛活動，為10,000多名基層人士，以及集團前線員工送上關懷及新年祝福。我們聯同30多間社區合作夥伴透過上門探訪及送贈賀年食品和禮品福袋，與基層家庭、獨居長者、少數族裔、傷健人士等弱勢社群迎接兔年。另外，我們亦捐款贊助有需要人士添置全新的衣褲鞋履，以及陪同他們購物，一起準備迎春接福。

Remarks 備註

- ¹ The scope of environmental performance data covers the assets where Sino Land has operational control, including the Head Office, property management and construction sites in Hong Kong, as well as hotels in Hong Kong, Singapore and Sydney.
Head Office refers to the offices of Sino Land in Tsim Sha Tsui Centre.
Property management in 2022/23 refers to the 169 buildings managed by the Group. For 2021/22 and 2020/21, the data included 162 and 67 buildings managed by the Group respectively. Electricity consumption by property management also included some centralised cooling services for tenants.
Construction sites in 2022/23 included four projects. For 2021/22 and 2020/21, the data included seven and eight projects respectively. The changes in environmental footprints were due to the different stages of construction activities at the sites during the reporting period, when compared with previous years.
Hotels included The Fullerton Hotel Singapore, The Fullerton Bay Hotel Singapore, The Fullerton Hotel Sydney, and The Fullerton Ocean Park Hotel Hong Kong. The environmental footprints for our hotel business increased significantly in 2022/23 due to the opening of The Fullerton Ocean Park Hotel Hong Kong.
- ² Calculation methodologies for GHG emissions:
Methodologies: "Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes) in Hong Kong" published by the Environmental Protection Department and the Electrical and Mechanical Services Department of the Government of the HKSAR, "How to prepare an ESG Report — Appendix 2: Reporting Guidance on Environmental KPIs" published by the Stock Exchange of Hong Kong Limited.
Sources of emission factors: Local power and utility companies, Drainage Services Department and Water Supplies Department of the Government of the HKSAR, Energy Market Authority of the Government of Singapore, and Department of Industry, Science, Energy and Resources of the Australian Government, and UK Government Greenhouse Gas (GHG) Conversion Factors for Company Reporting. Emission factors adopted have been updated based on the above sources.
GHG emissions calculated included carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O) and hydrofluorocarbons (HFCs). Perfluorocarbons (PFCs), sulphur hexafluoride (SF₆) and nitrogen trifluoride (NF₃) are not considered material as the amount is insignificant.
Scope 1 emissions included direct GHG emissions from stationary and vehicle fuel consumption, loss of refrigerant (HCFC refrigerants: 27.2 kg; HFC refrigerants: 795.1 kg) and fugitive emissions from the use of fire extinguishers in the properties managed and at construction sites. Scope 1 emissions do not apply to Head Office.
Scope 2 emissions included indirect GHG emissions from purchased electricity and gas. Starting from this reporting year, both market-based and location-based GHG emissions are reported.
Scope 3 emissions included indirect GHG emissions from water consumption, wastewater discharge, paper waste disposal and air travel. GHG emissions from air travel are calculated by the ICAO Carbon Emissions Calculator.
- ³ Included Scope 1, 2 and 3 GHG emissions.
- ⁴ Water consumption data of our Head Office is unavailable since there is no separate metering.
- ⁵ Excluded recycled materials.
- ⁶ The amount of hazardous waste produced by the Group during the reporting period was insignificant. Hazardous waste generated by the Group was collected by qualified contractors for treatment in a safe manner.
- ⁷ Hazardous waste intensity figures for Property Management were rounded to three or four decimal places in previous reports. This year, they have been presented in greater detail.
- ⁸ Plastic and aluminium cans collected through Reserve Vending Machines (RVMs) and food waste collected from food waste decomposers are included in the calculation, resulting in a significant increase in the materials recycled data in 2022/23. As the collection and decomposition of food waste increased, there was a noticeable reduction in the generation of grease trap waste.
- ¹ 環境表現數據範圍涵蓋信和置業擁有營運控制權的資產，包括香港的總部、物業管理和建築工地，以及香港、新加坡及悉尼的酒店。總部為信和置業於尖沙咀中心的辦事處。
2022/23 年度的物業管理為集團管理的 169 座建築物。2021/22 及 2020/21 年度則分別包括集團管理的 162 及 67 座建築物。物業管理的用電量，亦包括為部分租戶提供的中央冷氣服務。
2022/23 年度的建築工地包括四個項目。2021/22 及 2020/21 年度則分別包括七個和八個項目。與過往年度相比，報告期內工地施工活動處於不同階段，環境足跡因而有所變化。
酒店包括新加坡富麗敦酒店、新加坡富麗敦海灣酒店、悉尼富麗敦酒店，以及香港富麗敦海洋公園酒店。香港富麗敦海洋公園酒店於 2022/23 年度開幕，導致酒店業務的環境足跡大幅增加。
- ² 溫室氣體排放量計算方法：
方法：根據香港特別行政區政府環境保護署和機電工程署所發布的《香港建築物（商業、住宅或公共用途）的溫室氣體排放及減除的核算和報告指引》，以及香港聯合交易所有限公司發布的《如何準備環境、社會及管治報告 — 附錄二：環境關鍵績效指標匯報指引》。
排放因子的來源：本地電力和公用事業公司、香港特別行政區政府渠務署和水務署、新加坡政府能源市場管理局、澳洲政府產業、科學、能源及資源部，以及英國政府供公司申報使用的溫室氣體轉換因子。所運用的排放因子已根據以上來源作出相應的更新。
計算的溫室氣體排放量包括二氧化碳 (CO₂)、甲烷 (CH₄)、氧化亞氮 (N₂O) 及氫氟碳化物 (HFCs)。全氟化合物 (PFCs)、六氟化硫 (SF₆) 及三氟化氮 (NF₃) 並不顯著。
範疇一排放量包括固定源和車輛的燃料消耗，及製冷劑折耗造成的直接溫室氣體排放（氟氯烴 (HCFC) 製冷劑：27.2 公斤；氫氟碳化物 (HFC) 製冷劑：795.1 公斤）及使用滅火器時釋出的氣體。範疇一排放並不適用於總部。
範疇二排放量包括購買電力和燃氣的間接溫室氣體排放。由本報告年度開始，溫室氣體排放量同時採用以市場和位置為基礎的方法來匯報。
範疇三排放量包括用水、廢水排放、廢紙棄置和航空交通造成的間接溫室氣體排放。航空交通的二氧化碳對等值排放，以國際民用航空組織的碳排放計算器計算得出。
- ³ 包括範疇一、二及三的溫室氣體排放。
- ⁴ 由於總部並沒有獨立水錶，有關用水量數據因而未能提供。
- ⁵ 回收物料除外。
- ⁶ 報告期內，集團並無產生大量有害廢物。集團產生的有害廢物由合資格承辦商收集，並以安全的方式處理。
- ⁷ 以往報告中，物業管理的有害廢物棄置強度數據被四捨五入至小數點後三至四個位。今年，數據得到更詳細顯示。
- ⁸ 「逆向自動售貨機」收集得來的塑膠和鋁罐，以及從廚餘機收集的廚餘亦計算在 2022/23 年度回收物料量內，導致數量顯著增加。隨著收集和分解廚餘量增加，隔油池廢物的產生量因而顯著減少。

The day-to-day process of identifying, assessing, and managing risks associated with climate change rests with the ESG Steering Committee, which is chaired by Mr Daryl Ng, Deputy Chairman, and comprises another Director of the Company and key executives. The ESG Steering Committee is responsible for planning and implementing, and ensuring our programmes and policies support the overall sustainability strategy. This includes oversight of the policies and approaches that outline how our strategy is to be implemented across the business and for all our material topics. Overall sustainability performance and progress are reported to the Board by the ESG Steering Committee at regular board meetings.

Under the ESG Steering Committee, the Green Living Sub-committee reviews and evaluates initiatives to address climate change, manage energy and waste, conserve water resources, and promote environmental protection, while identifying areas for improvement. This sub-committee meets regularly and makes timely reports to the ESG Steering Committee and the Board to facilitate the overall sustainability approach of the Group.

We provide incentives to key executive directors who hold responsibility in overseeing and addressing important material topics. In addition, employees at Assistant Manager level and above are expected to set KPIs related to sustainability topics and incorporate sustainability practices into their daily work. Strategy 策略

Describe the climate-related risks and opportunities the organization has identified over the short, medium, and long term.

描述機構所識別的短、中、長期氣候相關風險與機遇。

We engaged an external consultant to conduct a climate risk assessment for all new and existing operations under our management in Hong Kong, covering over 170 existing and new buildings under 3°C and 1.5°C warmer climate scenarios. The exercise included analysis of climate-related risks, including both physical and transition risks as described below, alongside potential financial impacts and opportunities, to assess the implications of the prioritised risks for our operations, upstream and downstream activities, and to inform risk management and resilience planning. Shortlisted key climate-related risks and opportunities were then analysed under two scenarios developed by the Network for Greening Financial Services ("NGFS"), the World Resource Institute ("WRI"), the World Bank, and the Intergovernmental Panel on Climate Change ("IPCC"), including the Net Zero 2050 scenario, which aligns with the goal of the Paris Agreement to preferably limit global warming to 1.5°C above pre-industrial levels. Three timeframes (2025, 2030 and 2050) were defined to understand the risk profile in the short, medium and long term.

Physical Risks

Risks arising from acute events or longer-term shifts in climate patterns, such as extreme weather events, heatwaves and rising temperatures.

Transition Risks

Risks arising from policy and legal, technology and market changes, as well as reputational risks, in the process of transitioning to a lower-carbon economy. These include changes in building codes and standards, supply of raw materials, low-carbon technology and innovation, consumer preferences, financier expectations and green finance.

Please refer to Sino Land's Climate Action Report [📄](#) for more details on our key physical risks, transition risks and opportunities.

我們外聘獨立顧問，對集團旗下對集團旗下管理的香港現有和新業務進行氣候風險評估，包括170多個現有和新建物業在全球氣溫上升3°C和1.5°C情境下所面臨的氣候風險。該評估分析各項實體和轉型風險（如下述所示）所帶來的潛在財務影響和機遇。此有助我們評估主要氣候相關風險對集團營運、上游和下游活動的影響，為風險管理和抗禦力規劃提供指引。為響應《巴黎協定》將全球氣溫升幅限控制在工業化前水平以上1.5°C以內的目標，我們針對重大氣候風險和機遇，進一步分析央行與監管機構綠色金融網絡（「NGFS」）、世界資源研究所（「WRI」）、世界銀行和政府間氣候變化專門委員會（「IPCC」）所提倡的包括2050年淨零情境在內的兩個情境下的影響，並設定2025年、2030年和2050年三個階段作分析，用於監察短、中及長期風險狀況。

實體風險

由突發事件或氣候形態長期變化（包括極端天氣事件、熱浪和氣溫上升）所引起的風險。

轉型風險

在轉型至低碳經濟的過程中，因政策與法律、技術和市場變化，以及聲譽風險所引起的風險。當中包括建築規範和標準、原材料供應、低碳技術和創新、消費者偏好、金融機構預期和綠色金融的變化。

有關主要實體風險、轉型風險和機遇的詳情，請參閱信和置業的《氣候行動報告》[📄](#)。

Describe the impact of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning.
描述氣候相關風險及機遇對機構業務、策略及財務規劃的影響。

Climate risk assessment enables the Group to assess and monitor both physical and transition risks by quantifying climate-related financial impacts under multiple climate scenarios. We engaged an external consultant to conduct an in-depth financial impact analysis for key climate-related risks and opportunities with reference to climate and transition pathway projections published by established research bodies such as the NGFS, WRI and IPCC.

Please refer to Sino Land's Climate Action Report [📄](#) for more details on the impacts and financial implications for different climate-related risks and opportunities.

We have published a holistic Decarbonisation Blueprint [📄](#) that outlines our climate-related and decarbonisation strategy, focuses under three key areas (Development, Operations and Collaboration) and interim targets related to GHG emissions, electricity use, climate risk assessment and green building certification.

In 2018, we announced our first green loan and the details of its Green Finance Framework. The framework guides the financing of sustainable building developments that will deliver environmental benefits in line with our sustainability vision. In 2021, we converted a five-year HK\$1 billion loan signed with Bank of China (Hong Kong) Limited to a sustainability-linked loan, marking our first financing arrangement directly linked to sustainability targets. The proceeds will be used for funding sustainability-related initiatives. During the reporting period, we deposited over HK\$3.6 billion into innovative "green deposits" with local banks in Hong Kong to contribute to this growing ecosystem.

集團透過氣候風險評估，量化相關風險在不同氣候情境下的氣候相關財務影響，藉此評估和監測實體風險和轉型風險。我們外聘獨立顧問，參照NGFS、WRI和IPCC等專門研究機構所公布的氣候和轉型路徑預測，針對重大氣候風險和機遇深入分析相關財務影響。

有關不同氣候相關風險和機遇對業務和財務影響的詳情，請參閱信和置業的《氣候行動報告》[📄](#)。

我們亦發布了全方位《減碳藍圖》[📄](#)，針對三大重點範疇，包括物業發展、營運管理和協同合作制定了具體的減碳策略和改善氣候抗禦力的措施，並制定了有關溫室氣體排放、用電、氣候風險評估和綠色建築認證的中期目標。

2018年，我們發表首筆綠色貸款及「綠色融資框架」的詳情。框架不僅為可持續建築發展融資提供指引，更配合我們推動可持續發展的願景，創造環保效益。我們於2021年與中國銀行（香港）有限公司簽訂協議，將一筆十億港元五年期貸款轉為與可持續發展表現掛鉤貸款，為信和置業首個與可持續發展目標直接相關的融資安排。所得款項將用於資助與可持續發展相關的計劃。報告期內，我們向香港本地銀行存入超過36億港元的創新「綠色存款」，為持續發展的綠色金融生態作出貢獻。

Describe the resilience of the organization's strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario.

描述機構的策略彈性，並考慮不同氣候相關情境（包括2°C或更嚴苛的情境）。

We have conducted scenario analysis that considers different climate-related scenarios. Through the scenario analysis, we aim to conduct in-depth financial impact analysis for key risks and opportunities with reference to climate and transition pathway projections, including the NGFS Net Zero 2050 scenario and Current Policies scenario. These scenarios share resemblances with Representative Concentration Pathways ("RCP") 2.6 and 6.0 scenarios as both are used to model the climate risk impact under similar global warming pathways. These pathways broadly represent comprehensive climate scenarios related to two projected global average temperature increases: 1.5°C and 3°C.

Please refer to Sino Land's Climate Action Report [\[link\]](#) for more details on the scenario analysis.

In 2021, we committed to developing an approach towards net zero emissions by 2050. This effort is guided by Sino Land's pledge to support the Business Ambition for 1.5°C, led by the Science-based Targets Initiative ("SBTi") in partnership with the United Nations Global Compact and We Mean Business Coalition, calling on businesses to set science-based targets for GHG emission reductions. Our efforts to reach this goal are described in more detail in our Decarbonisation Blueprint [\[link\]](#). More information about our Decarbonisation Blueprint can be found in our Sustainability Report 2022 [\[link\]](#).

In 2020, we established the Group's Sustainability Vision 2030 [\[link\]](#), outlining our management approach and targets for crucial areas such as GHG and energy use reduction, renewable energy generation, single-use plastic consumption, green building certification and innovative sustainability solutions to mitigate climate-related risks for a more sustainable future. Going forward, colleagues across our business lines will work together in meeting our 38 SV2030 goals, reflecting our intention to make every aspect of our operations a driver of sustainability for a better future. Building climate resilience is one of our focus areas. Our commitment to take collective action to minimise GHG emissions and the impacts of climate change is illustrated by our climate action-related targets.

我們對不同的氣候相關情境進行了情境分析，我們參照氣候和轉型路徑預測，包括NGFS 2050淨零情境以及當前政策情境，對關鍵風險和機遇進行深入的財務影響分析。這些情境與溫室氣體濃度途徑（「RCP」）2.6和6.0情境有相似之處，兩者同樣用於模擬相近的全球暖化路徑下的氣候風險影響。它們分別代表1.5°C和3°C兩個預計全球平均溫度上升的氣候情境。

有關情境分析的詳情，請參閱信和置業的《氣候行動報告》[\[link\]](#)。

我們於2021年承諾制定方針，致力於2050年前實踐淨零碳排放目標。信和置業參與由科學基礎目標倡議組織與《聯合國全球契約》及全球商業氣候聯盟聯合發起的「Business Ambition for 1.5°C」聯署運動，響應號召訂立科學基礎減碳目標。有關我們的計劃詳情，請參閱我們的《減碳藍圖》[\[link\]](#)。更多《減碳藍圖》的詳情，請參閱《可持續發展報告2022》[\[link\]](#)。

我們於2020年制定了《可持續發展願景2030》[\[link\]](#)，涵蓋我們在減少溫室氣體排放和能源消耗、生產可再生能源、減少即棄塑膠製品用量、綠色建築認證及採用創新科技等重要範疇的管理方針和目標，以緩解氣候相關風險及建構更可持續發展未來。展望未來，各業務單位的同事將齊心合力，實現《可持續發展願景2030》的38個目標，以展現集團帶動各營運層面實踐可持續發展的抱負，共建更美好未來。建立氣候抗禦力是我們最關注的範疇之一，我們以集體行動來減緩溫室氣體排放和氣候變化帶來的影響的承諾，已在我們氣候行動相關的目標中體現。

Risk Management 風險管理

Describe the organization's processes for identifying and assessing climate-related risks.
描述機構識別和評估氣候相關風險的流程。

We have engaged an independent consultant to support a comprehensive assessment of climate risks for our portfolio in Hong Kong, which consists of more than 170 existing and new properties. The assessment included identification and prioritisation of climate-related risks and opportunities. With reference to the Group's existing risk register, previous risk disclosures and peer reviews, a list of relevant climate-related risks and opportunities was developed.

We conducted an in-depth ESG and Climate Risk Workshop for key representatives from the ESG Steering Committee and key business units. During the workshop, participants were asked to discuss and prioritise climate-related risks and opportunities based on their impact to the Group. Based on the assessment results, as well as consideration of TCFD recommendations, local policy and the Group's sustainability strategy, a list of risks and opportunities has been shortlisted.

Based on the shortlisted climate-related risks and opportunities, the likelihood of financial impact is derived from analysis of recent market trends, policy changes and the development of the macro-environment.

Please refer to Sino Land's Climate Action Report [📄](#) for more details on the identification and prioritisation of climate-related risks and opportunities.

我們委託獨立顧問，協助對位於香港的170多座現有和新建物業所面臨的氣候風險開展綜合評估，包括對氣候相關風險和機遇進行識別和排序。我們參照了集團現有的風險登記冊、以往的風險披露內容以及同儕審查，制定了一系列氣候相關風險和機遇。

我們舉辦了深入的環境、社會及管治和氣候風險工作坊，參與者來自環境、社會及管治督導委員會和主要業務部門的代表。於工作坊期間，參加者根據各項氣候相關風險和機遇對集團的潛在影響水平，討論並對其進行優先排序。根據評估結果、TCFD建議、當地政策和集團的可持續發展策略，最終識別出一系列風險和機遇。

根據識別出的氣候相關風險和機遇，我們透過分析近期的市場趨勢、政策變化和宏觀環境的發展得出各項風險和機遇對財務影響的可能性。

有關氣候相關風險和機遇的識別和優先排序的詳情，請參閱信和置業的《氣候行動報告》[📄](#)。

To enhance our preparedness and response, the Group regularly monitors and reviews climate-related risks. Our environmental management system ("EMS") ensures that environmental considerations are front and centre in all the decisions we make. Our properties are certified to the ISO 14001 and ISO 50001 management systems.

The ESG Steering Committee is responsible for planning and implementing, and ensuring our programmes and policies support the overall sustainability strategy. Our ESG policies and guidelines enable us to design and deliver low-carbon products and services while meeting our sustainability goals, as well as managing climate-related risks. Our Climate Change Policy provides guidelines for addressing climate-related risks across our operations, upstream and downstream activities. Our Sustainable Building Guidelines provide a framework for integrating sustainability attributes at the design stage, as well as throughout the building lifecycle. The ESG Policies and Guidelines are reviewed on a regular basis.

Green – Material Use, Waste Reduction and Management – Water Consumption

綠色低碳 – 物料使用、廢物削減和管理 – 用水

In Hong Kong, all of the water consumed by our operations comes from municipal water supplies, including freshwater for potable use, cooling, washing, toilets and landscaping, and seawater for flushing. Hong Kong's two main sources of freshwater are rainfall from natural catchments and the Dongjiang water from Guangdong Province. All effluents are discharged to public sewers and/or the sea in accordance with applicable discharge licences.

In Singapore, all of the water consumed by our operations comes from third-party water sources supplied by the Public Utilities Board ("PUB"). According to PUB, Singapore's water demand is currently met by water from local catchment areas, imported water, NEWater and desalinated water.

In Sydney, all of the water consumed by our operations comes from Sydney Water. All effluents are discharged to public sewers and/or the sea in accordance with applicable discharge licences/permits. There is no significant water-related impact caused by the Group's operations. We monitor the consumption of water in our operations monthly and have used this data to establish our water-related goals and targets.

在香港，我們業務使用的所有水，均來自水務署，包括用於飲用水、冷卻、洗滌、洗手間和澆灌的淡水，以及用於沖廁的海水。香港的兩個主要淡水來源是自然流域的降雨和廣東省的東江水。根據適用的排放許可證，所有廢水均排入公共污水收集系統和/或海洋。

在新加坡，我們運營所用的所有水，均由公用事業局第三方水源提供。根據公用事業局，新加坡目前可透過使用當地集水區的水、進口水、「新生水」和化淡海水來滿足對水的需求。

在悉尼，所有業務營運的用水均來自悉尼水務局。所有廢水均根據適用的排放牌照/許可證，排入公共污水收集系統和/或海洋。集團運營不會對水資源造成重大影響。我們每月監測營運用水量，並使用這些數據訂立用水相關目標和指標。

SASB Content Index

SASB內容索引

SASB Standards guide the disclosure of financially material sustainability information by companies to their investors and other stakeholders. Available for 77 industries, the Standards identify the subset of ESG issues most relevant to financial performance in each industry. Starting from 2023, the International Sustainability Standards Board (“ISSB”) assumed responsibility for the SASB Standards. The SASB framework is integrated with the IFRS Sustainability Disclosure Standards as industry-based disclosure requirements.

SASB 標準協助企業向投資者和其他持份者披露就財務重要性而言重大的可持續發展資訊。該標準分別就 77 個行業識別並羅列與其財務表現最為相關的環境、社會及管治議題。2023 年起，SASB 標準的管理責任由國際可持續準則理事會（「ISSB」）承擔。SASB 披露框架已融合到國際財務報告可持續披露準則當中，作為行業基準的披露要求。

We actively seek opportunities to incorporate sustainability into our tenant relationships and achieve our vision of Creating Better Lifescapes via joint efforts. Key tenant engagement channels include Sino Club, Farm Together and SPS. During the reporting period, we engaged our tenants on numerous topics including the circular economy, biodiversity and arts and culture.

Our Green Lease and Green Fit-out Guides provide recommendations on making more sustainable choices including consuming less energy and water, monitoring indoor air quality ("IAQ"), utilising greener construction materials, managing food waste and more. "Green Clauses" reflect these recommendations in our lease agreements and set out specific measures tenants can implement into their operations. After trialling these Guides with selected tenants, we have extended the trial to other tenants.

我們積極尋求機會，與租戶在可持續發展方面建立緊密合作關係，攜手實現「建構更美好生活」願景。我們透過多個途徑與租戶連繫，包括 Sino Club、「一喜種田」和信和管業優勢。報告期內，我們與租戶在多個議題上合作，當中包括循環經濟、生物多樣性，以及藝術與文化。

我們的綠色租賃計劃和《綠色裝修指南》提供有關節能和減少用水、監測室內空氣質素、採用環保建築物料和廚餘管理等方面的可持續建議，並透過租約內的「綠色條款」鼓勵租戶採取具體措施，將可持續發展元素實施於營運中。在與特選租戶試行指南後，我們已將試用範圍擴展到其他租戶。

Disclosure 披露

Guided by our Climate Change Policy, we are committed to identifying the climate-related risks and opportunities affecting our business, assessing the financial implications and responding in line with the three focus areas of our climate-related strategy. We focus on optimising our properties and construction sites for efficiency and climate resilience during construction, managing properties in ways that minimise carbon emissions during operations, and managing resources and inspiring stakeholders to join our efforts through collaboration.

During the reporting period, we have ramped up our science-based targets (“SBTs”) to align with the 1.5°C pathway. We have set GHG emission reduction targets with HKUST academics in line with the SBTi methodology, which reflects what the latest climate science deems necessary to meet the goals of the Paris Agreement, to guide our decarbonisation efforts. We have submitted the following Scope 1 & 2 and Scope 3 targets to SBTi for validation:

- Reduce absolute Scope 1 and 2 GHG emissions 46.2% by 2030 from the 2018 baseline.
- Reduce Scope 3 GHG emissions 51.6% per square foot by 2030 from the 2021 baseline.

We continued to focus our efforts on climate-related risk management. We have engaged an external consultant to evaluate the resilience of over 170 existing and new managed properties under different climate scenarios in alignment with recommendations from the TCFD, and we are working to enhance the integration of climate-related risks into our ERM framework.

More information, including a summary of the climate-related risks and opportunities relevant to our business and our steps to address them, can be found in the Climate Resilience and GHG Emissions [☞](#) and TCFD Recommendations [☞](#) sections of this Report, as well as Sino Land’s standalone Climate Action Report [☞](#).

在《氣候變化政策》的指引下，我們致力識別影響業務的氣候相關風險和機遇、評估其財務影響，以及根據氣候相關策略的三個關注領域作出應對。我們重點在施工階段提高旗下物業和建築工地的效率和氣候抗禦力，在營運階段以盡力減低碳排放為目標來管理物業，同時管理不同資源並鼓勵持份者一同參與。

為配合將全球暖化升溫控制在攝氏 1.5 度以內的願景，我們已更新科學基礎目標。我們與科大學者合作並採用科學基礎目標倡議組織的計算方式訂立減碳目標，符合實現《巴黎協定》目標所需的最新氣候科學，以指導我們減碳和實現淨零碳排放的工作。我們已將以下範疇一和二及範疇三的目標提交予科學基礎目標倡議組織進行驗證：

- 以 2018 年水平為基準年，於 2030 年或之前將範疇一及範疇二的絕對溫室氣體排放量減少 46.2%。
- 以 2021 年水平為基準年，於 2030 年或之前將每平方呎的範疇三溫室氣體排放量減少 51.6%。

我們繼續專注於氣候相關風險管理的工作上。我們委託獨立顧問參照 TCFD 的建議，評估旗下管理的 170 多個現有和新建物業在不同氣候情境下的抗禦力。我們正積極將氣候相關風險融入於企業風險管理框架中。

有關詳情，包括與業務相關的氣候相關風險和機遇的摘要，以及應對這些風險的行動，請參閱本報告的「氣候抗禦力和溫室氣體排放」[☞](#) 和「TCFD 建議」[☞](#) 章節，以及信和置業獨立的《氣候行動報告》[☞](#)。

Describe the board's oversight of nature-related dependencies, impacts, risks and opportunities.

描述董事會對自然相關依賴、影響、風險與機遇的監管。

Tsim Sha Tsui Properties' Board of Directors (the “Board”) holds overall responsibility for overseeing the Group’s sustainability issues, including nature-related issues and respective strategies.

The Group has adopted an Enterprise Risk Management (“ERM”) approach to assist the Board in discharging its risk management responsibilities via the Audit Committee and guide individual business units in managing the key risks faced by the Group.

The Board oversees the management of the overall sustainability strategy and reporting of the Group through regular updates from the Environmental, Social and Governance Steering Committee (“ESG Steering Committee”), which reports to the Board at least twice a year. The ESG Steering Committee monitors and reports nature-related dependencies, impacts, risks and opportunities, as well as the Group’s progress towards its nature-related targets to the Board at regular meetings. The ESG Steering Committee is chaired by Mr Daryl Ng, Deputy Chairman, and comprises another Director of the Company and key executives, who support the Board in overseeing the Group’s management approach to nature-related issues.

Management and business units are informed about and responsible for assessing and managing nature-related dependencies, impacts, risks and opportunities across the Group.

The day-to-day process of identifying, assessing and managing risks associated with nature rests with the ESG Steering Committee, which is chaired by Mr Daryl Ng, Deputy Chairman, and comprises another Director of the Company and key executives. The ESG Steering Committee is responsible for planning, implementing and ensuring our nature-related strategies and targets support the overall sustainability strategy. This includes oversight of the ESG Policies, including the Biodiversity Policy and Sustainable Building Guidelines, as well as the approaches that outline how our nature-related considerations are to be integrated into all aspects of our operations. Nature-related performance and progress, including nature-related dependencies, impacts, risks and opportunities identified, and progress of the Group's nature-related targets, are reported to the Board by the ESG Steering Committee at regular board meetings.

Under the ESG Steering Committee, the Green Living Sub-committee monitors, reviews and evaluates nature-related strategies and targets. These encompass initiatives such as promoting water conservation, sourcing seafood from sustainable sources, implementing circular economy practices, and advocating environmental protection, while proactively identifying areas for improvement. This sub-committee meets regularly and makes timely reports to the ESG Steering Committee and the Board to facilitate the overall sustainability approach of the Group.

Strategy 策略

Describe the nature-related dependencies, impacts, risks and opportunities the organisation has identified over the short, medium and long term.

描述組織在短期、中期和長期內識別的自然相關依賴、影響、風險與機遇。

Dependencies

The Group relies on natural capital for various aspects of its operations. Natural resources, such as water and timber, are used for both building construction and ongoing operations. In addition, we depend on intact ecosystems' ability to regulate natural hazards such as landslides, flooding and other extreme weather events, as well as to mitigate their impacts. In addition, our hotels also rely on nature-based recreation to enhance overall guest experiences and attract tourism.

Impacts

The Group has recognised its impacts on nature. With building construction being one of the key business operations, direct impacts on nature may arise during property development. This process could potentially lead to disturbances and disruptions to the natural environment. Our daily operations could also lead to indirect and cumulative impacts on nature. These include climate change resulting from GHG emissions, potential air and water pollution originating from fuel combustion, sewage discharge, and waste disposal. Our daily operations are dependent on natural resources, which could potentially contribute to resource depletion and water scarcity.

Physical Risks

Physical risks arise from the potential supply instability of essential natural resources, such as water and timber, along the Group's supply chain. Climatic and geologic events, such as drought, have the potential to cause yield losses of natural resources that the Group relies on, which represents a key physical risk. On top of that, physical risk arises from reduction in resilience to extreme climatic events due to changes in regulating services provided by ecosystems. Furthermore, given the Group's reliance on nature-based recreation, there is a physical risk associated with the potential impact on the recreational value of areas due to alterations in ecosystems, habitats and biodiversity.

Transition Risks

Transition risks arise from policy and legal, market as well as technological changes related to nature. These include more stringent nature-related legislation and reporting obligations, shifts in customer and investor preferences favouring products and services with less impacts on nature, volatile costs of raw materials, conflicts amongst stakeholders over changing land use, as well as requirements to transition to more efficient, resilient and environmentally sustainable technologies.

Opportunities

Opportunities arise from resource efficiency, new products and services, as well as ecosystem restoration and regeneration. The Group has implemented initiatives to enhance resource efficiency across its operations to reduce its dependencies and impacts on nature. These include adhering to sustainable business models, such as adoption of a circular economy approach to help reduce carbon emissions and municipal waste. The Group also invests in reputational capital through collaborative engagement with stakeholders and conducts initiatives to further the restoration and conservation of ecosystems, habitats and threatened species.

The Group plans to conduct a nature risk assessment through scenario analysis in the future, which will allow for a comprehensive evaluation of its nature-related dependencies, impacts, risks and opportunities across different timeframes.

依賴

集團在不同層面的營運都依賴自然資本。在建築施工和日常營運期間，我們需要水和木材等自然資源的供應。我們亦依賴完整的生態系統來調節水泥傾瀉和洪水等極端天氣，和減輕其影響。此外，我們的酒店業務亦依靠自然為本的休閒娛樂活動來提升住客體驗和吸引旅遊人流。

影響

集團意識到我們對自然的影響。物業發展是我們的核心理業務之一，施工過程中可能會對自然環境造成干擾和直接影響。我們的日常營運也可能對自然環境產生間接和累積的影響，包括由溫室氣體排放引起的氣候變化，以及由燃料燃燒、污水排放以及和廢物處理時所產生的潛在空氣和水污染。我們的日常營運還依賴自然資源，過度依賴可能導致資源枯竭和缺水。

實體風險

實體風險源於集團供應鏈中必要的自然資源（如水和木材）潛在供應不穩定性。另外，氣候和地質事件（如乾旱）可能減少集團依賴的自然資源產量，構成重大實體風險之一。除此之外，生態系統提供的調節服務可能發生變化，從而降低我們對極端氣候事件的抵抗力。此外，考慮到集團依賴自然為本的休閒娛樂活動，該區域的娛樂價值有機會因生態系統、棲息地和生物多樣性的改變而減少，從而帶來實體風險。

轉型風險

轉型風險源自與自然相關的政策與法律、市場和技術變化。這些包括更嚴格的與自然相關的立法和報告守則、客戶和投資者對帶來較小自然影響的產品和服務的偏好、原材料成本的波動、持份者在改變土地用途上的衝突，以及轉型向更高效、更具抗禦力和環境可持續的技術的要求。

機遇

機遇來自於資源效益、新產品和服務以及生態系統的恢復和再生。集團已實施了一系列提升資源效益的措施，以減少對自然的依賴和影響。這包括遵循可持續的商業模式，如採用循環經濟模式來減少碳排放和都市廢物。集團亦與持份者合作，投放資源於修復和保護生態系統、棲息地和受威脅物種，以提升聲譽資本。

集團計劃在日後進行自然風險情境分析，從而全面評估我們在不同時間範圍下與自然相關依賴、影響、風險和機遇。

Describe the effect nature-related risks and opportunities have had on the organisation's businesses, strategy and financial planning.

描述自然相關風險及機遇已經或可能對組織業務、策略和財務規劃的影響。

The identified nature-related risks could result in increased costs for the Group's natural inputs, reduced revenue due to interruption of operations, and decreased asset value resulting from the losses in natural habitats and biodiversity.

On the other hand, the nature-related opportunities would allow the Group to mitigate exposure to fluctuations in natural resource prices, enhance resilience towards supply instability of natural resources, and increase market valuation through resilience planning. Revenue streams could be expanded due to business diversification.

上述自然相關風險可能增加集團對自然資本的投入成本、因營運中斷而減少收入、以及因自然棲息地和生物多樣性損失而導致資產價值下降。

另一方面，與自然相關的機遇能減低自然資源價格波動所帶來的風險、增強對自然資源供應不穩定的抗禦力、通過抗禦規劃以提高市場估值、和透過業務多元化以擴大收入來源。

Risk and Impact Management 風險與影響管理

Describe the organisation's processes for identifying and assessing nature-related dependencies, impacts, risks and opportunities in its direct operations.

描述組織在其直接營運中識別和評估自然相關依賴、影響、風險與機遇的流程。

During the reporting period, the Group engaged an independent consultant to conduct identification and assessment of nature-related dependencies, impacts, risks and opportunities in its direct operations. The Natural Capital Protocol [☑](#) is used to understand the relationship and interactions between the Group's business activity and natural capital through a high-level overview. Online tools such as Exploring Natural Capital Opportunities, Risks and Exposure ("ENCORE") [☑](#) and WWF Biodiversity Risk Filter [☑](#), are used for the identification of dependencies and impacts of the real estate industry in a local context, providing a better understanding of the relationship between the Group's business activity and natural capital. We have performed nature-related risks and opportunities analysis through desktop research on existing and emerging regulatory requirements, recent market trends, as well as the development of the macro environment related to nature loss. Taking a more quantitative approach, we have leveraged tools such as the Aqueduct Water Risk Atlas [☑](#) to conduct water risk assessments at a global and local scale. This has enabled us to identify water risk hotspots and enhance our resilience. The identified risks and opportunities are being mapped to the identified dependencies and impacts to assess the severity of potential impacts on the Group. The quantitative financial impact of each nature-related risk and opportunity would be further explored to prioritise the identified risks, thus helping inform decision making.

To ensure transparency and accountability, the Group will evaluate the need to conduct location-specific impact assessment in the future, using the Integrated Biodiversity Assessment Tool ("IBAT") to indicate the relationship of our assets' direct and indirect influence with detailed biodiversity indicators. Results of the assessment for different timeframes would be further disclosed. In response to the TNFD framework, the Group would also pursue ongoing efforts in adopting the Locate, Evaluate, Assess and Prepare ("LEAP") approach, the integrated process for nature-related risk and opportunity management developed by TNFD for robust assessment and disclosure.

報告期內，集團委託獨立顧問識別和評估與其直接營運業務中自然相關的依賴、影響、風險和機遇。我們參考《自然資本協議》[☑](#)，以了解集團業務活動與自然資本之間的關係和相互作用。同時，我們利用《探索自然資本機會、風險和暴露》[☑](#)和《世界自然基金會生物多樣性風險評估工具》[☑](#)等網上工具來識別集團營運所在地的地產行業對自然的依賴和影響，從而深入地瞭解集團業務營運與自然資本之間的關係。我們透過研究現有和新興的監管要求、近期市場趨勢以及與自然損失相關的宏觀經濟環境發展，分析了與自然相關的風險和機遇。我們採用了量化方法，利用《輸水道水源風險地圖》[☑](#)在全球和地方層面進行水風險評估，有助我們識別水風險熱點並增強抗禦力。已識別的風險和機遇與已識別的依賴性和影響相互對應，以評估對集團潛在影響的嚴重性。我們將進一步探討每種與自然相關風險和機遇的財務影響，以確定已識別風險的優先順序，以助制定決策。

為了確保透明度和問責性，集團將評估日後進行特定地點影響評估的必要性，使用《綜合生物多樣性評估工具》及詳細的生物多樣性指標來顯示我們資產對自然的直接和間接影響，並進一步披露不同時間範圍的評估結果。集團將會積極考慮採用由 TNFD 開發的風險與機遇評估綜合管理流程（「LEAP」），以提高與自然相關風險和機遇的評估和披露穩健性，以進一步響應 TNFD 框架及指引。

Moreover, Sino Group has partnered with WWF by joining the "Sustainable Seafood Business Membership Programme"  and adopted a supplier e-directory assessed by WWF to procure sustainable seafood. We are committed to purchasing 100% of seafood served at the Group's hotels from sustainable sources and have made significant progress in achieving 66% of seafood served at the Group's hotels from sustainable sources during the reporting period. The Group also collaborated with local stakeholders to conserve local ecosystems and protect threatened species. For example, the Group formed a local cross-sectorial coral conservation partnership with other parties and launched a restoration project, with an opening of the CORAL REEFStoration Centre at Ocean Park, which rehabilitates rescued coral fragments and offers public engagement and educational activities including guided tours, interactive STEM experiments, and more. Our Approach 方針

Describe how affected stakeholders are engaged by the organisation in its assessment of, and response to, nature-related dependencies, impacts, risks and opportunities.
描述組織如何讓受影響的利益相關者參與其評估和應對自然相關依賴、影響、風險與機遇。

The Group has a structured approach to identify and address grievances related to its potential and actual impacts on nature during different stages of the development project by identifying the impacted groups and nature of the disruption, monitoring the impacts with a community monitoring plan, thus implementing risk mitigation and communication to obtain feedback from the impacted group. To ensure effective communication with stakeholders, the Group maintains dialogue through a dedicated channel to collect the views of other stakeholders, including those from the communities in which we operate. This allows us to actively engage with stakeholders to ensure that their concerns are considered and addressed in a timely and effective manner. The Group also complies with international standards of responsible business conduct and other human rights and stakeholder engagement policy, guidance and declarations. More details could be found in our Sustainable Building Guidelines.

集團設有完善系統，用以識別和處理在不同營運階段對自然造成潛在和實際影響的相關申訴，確定受影響的群體和影響性質，並通過社區監測計劃監測其影響，從而實施風險緩解並與受影響群體溝通，以獲取他們的反饋。為確保能與持份者有效溝通，本集團通過專門渠道收集持份者的意見，包括我們營運所在社區的持份者的意見，令我們能夠積極與持份者溝通，確保及時有效地考慮和解決他們的擔憂。集團努力遵守負責任的商業行為國際標準以及其他人權和持份者參與政策、指引和承諾。詳情請參閱《可持續建築指引》。

Metrics and Targets 指標及目標

Disclose the metrics used by the organisation to assess and manage material nature-related risks and opportunities in line with its strategy and risk management process.
披露組織以符合其策略和風險管理流程的方式，用於評估和管理重大自然相關風險及機遇的指標。

We have determined a financial budget allocated to our identified nature-related opportunity on reputational capital and ecosystem restoration. We have been contributing over HK\$7.5 million to the CORAL REEFStorage project. The project creates a positive change in sentiment towards the Group's brand through the direct conservation and restoration of coral reef ecosystems in Hong Kong. Sino Group was awarded ESG Initiative of the Year – Hong Kong in the Real Estate Asia Awards 2023 by initiating the project. This award recognises the most innovative real estate developments and industry players in Asia Pacific that stand out in the market. EcoBricks present a viable circular economy solution to the urban waste issue; the Group continues to deploy this solution at other suitable properties. We are also exploring the potential to use the local EcoBricks production system through community recycling centres.

As other financial impacts of the Group's nature-related risks are still under assessment, and more detailed guidance in disclosing nature-related metrics and targets are to be developed by TNFD, we will disclose other metrics once the information is prepared. We believe that monitoring and reporting nature-related risk and opportunity metrics would help us further improve our sustainability performance.

我們已預留財務預算，用作投放於已識別的自然相關機會，以提升聲譽資本和恢復生態系統。我們已在「活化珊瑚行動」投入超過750萬港元。該項目通過直接恢復香港的珊瑚礁生態系統，為集團品牌樹立正面形象。此項目令信和集團於2023年亞洲房地產大獎中榮獲「年度ESG項目—香港」大獎。該獎項旨在表彰亞太地區最具創新性的房地產開發項目和在市場上脫穎而出的行業參與者。集團繼續在其他合適的物業部署採用EcoBricks，以推動循環經濟發展，同時應對都市廢棄塑膠問題。我們正探討透過社區回收中心來進行EcoBricks本地生產的可能性。

由於集團自然相關風險的財務影響仍在評估中，而TNFD亦將制定更詳細的自然相關指標和目標披露指南，我們將於信息齊備後再作披露。我們相信監測和披露與自然相關的風險和機遇指標將有助於進一步提升可持續發展表現。

Disclose the metrics used by the organisation to assess and manage dependencies and impacts on nature.

披露組織用於評估和管理對自然的依賴和影響的指標。

We publish key metrics on Scope 1, 2 and 3 GHG emissions, air pollutant emissions, water consumption, material use and waste generation in our Sustainability Report annually. Please refer to the Progress on Key Sustainability Indicators section [📄](#) for more details. Monitoring and reporting these metrics enable us to identify areas with high nature-related dependencies and impacts to further improve our performance. Other metrics for dependencies and impacts on nature will be monitored and disclosed upon more detailed guidance in disclosing nature-related metrics and targets being established by TNFD.

我們每年都會在《可持續發展報告》中披露範圍一、二和三溫室氣體排放、空氣污染物排放、用水量、物料使用量、以及廢物棄置量等關鍵指標。詳情請參閱「關鍵可持續發展指標的進展」[📄](#)。監控和披露相關指標有助我們識別自然相關依賴和影響較高的領域，從而繼續提升表現。其他依賴和影響的指標及目標將有待 TNFD 制定更詳細的自然相關指標和目標披露指南後再作披露。

Describe the targets and goals used by the organisation to manage nature-related dependencies, impacts, risks and opportunities and its performance against these.

描述組織用於管理自然相關依賴、影響、風險與機遇的目標，以及針對這些目標的績效。

Our nature-related targets set out in the SV2030 initiative, including those related to climate resilience and GHG emissions, water consumption, material use, waste reduction and management as well as urban biodiversity, along with progress on metrics, are available in the Sustainability Vision 2030 [📄](#) chapter of this Report.

We will continue to develop new goals that prioritise nature conservation and monitor our approaches towards managing nature-related dependencies and impacts, risks and opportunities to ensure long-term environmental stewardship. We will explore the possibility of conducting scenario analysis to evaluate the possible consequences of nature loss to our operations. Sino Land has joined the Science-Based Targets Network ("SBTN")'s Corporate Programme to engage with other mission-driven organisations, and to participate in the development and testing of tools, methodologies and guidance for setting science-based targets for nature, demonstrating our commitment in contributing to nature and biodiversity.

我們的自然相關目標載於《可持續發展願景 2030》，包括氣候抗禦力和溫室氣體排放、用水量、物料使用、廢物削減和管理、和城市生物多樣性的相關目標以及進展，詳情可參閱本報告的「可持續發展願景 2030」章節 [📄](#)。

我們將繼續制定新的目標，優先考慮自然保護，並監測我們與自然相關的依賴和影響、風險和機遇的管理，以確保長期的環境管理。我們將探索進行情境分析的可能性，以評估自然損失對我們營運可能造成的後果。信和置業已加入科學目標網絡（「SBTN」）企業參與計劃，與其他使命相近的組織合作，參與開發和測試制定科學基礎自然目標的工具、方法和指引，展示了我們在自然和生物多樣性方面的承諾。

ISSB Standards Content Index

ISSB 準則內容索引

In June 2023, the International Sustainability Standards Board (“ISSB”) issued the IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information (“IFRS S1”) and IFRS S2 Climate-related Disclosures (“IFRS S2”). It marks a pivotal moment for sustainability-related disclosures in global capital markets, improving trust and confidence in corporate disclosures about sustainability to inform investment decisions. To support the development of this global baseline, Sino Land is one of the first companies in Hong Kong to prepare disclosures with reference to the applicable core content of IFRS S1 and IFRS S2.

While ISSB provided transition relief that allows an entity to report only on climate-related risks and opportunities in the first year that it applies IFRS S1 and IFRS S2, we strive to report on all sustainability-related risks and opportunities where feasible to demonstrate our commitment to sustainability. The IFRS S1 and IFRS S2 Content Indices are available in English only.

2023年6月，國際可持續準則理事會（「ISSB」）發布了《國際財務報告可持續披露準則第1號——可持續相關財務信息披露一般要求》（「ISSB一般準則」）及《國際財務報告可持續披露準則第2號——氣候相關披露》（「ISSB氣候準則」）。這標誌著可持續發展相關披露在全球資本市場的關鍵時刻，提升了公眾對企業可持續發展披露的信任與信心，從而為投資決策提供依據。為支持這全球基準的設定，信和置業是香港首批參考「ISSB一般準則」及「ISSB氣候準則」適用核心內容準備披露的公司之一。

雖然ISSB的過渡措施允許匯報實體在首年應用「ISSB一般準則」及「ISSB氣候準則」時僅報告與氣候相關的風險和機遇，然而，我們在可行情況下儘可能披露更多與可持續性相關的風險和機遇，以展示我們對可持續發展的承諾。「ISSB一般準則」及「ISSB氣候準則」的內容索引僅提供英文版本。
