MANAGEMENT DISCUSSION AND ANALYSIS

Change of Financial Year End Date

The Board has resolved to change the financial year end date of the Company from 31 December to 30 June. Accordingly, this final report has been prepared for the period of eighteen-months from 1 January 2022 to 30 June 2023.

As disclosed in the announcement of the Company dated 11 November 2022, the change of the financial year end date of the Company is to enable the Group to rationalise and mobilise its resources with higher efficiency for the preparation of results announcements and financial reports given the change will:

- avoid competition of resources with other listed companies with regard to results announcement and reports-related external services under the peak reporting season in the market;
- (2) remove the uncertainty from the variation in the dates of the Chinese New Year Holiday which put pressure on the workflow; and
- (3) better coincide with the seasonal operating cycle of the Group's business, which usually records higher sales before Chinese New Year of each year. Such busy season demands heightened commercial efforts, and the change of financial year end date will enable the Group to better utilize its resources on executing its business plans during such busy season.

The Board does not foresee any material financial impact on the Group in respect of the change of financial year end date of the Company and there is no other matter that needs to be brought to the attention of the shareholders of the Company.

Business Review

The COVID-19 outbreak lasted for more than three years and it was not until the end of 2022 that the outbreak gradually returned to normal. However, the Mainland economy has not shown any significant improvement after the recovery. Large real estate enterprises have suffered from a series of financial turmoil, and the knock-on effect has begun to affect the general public, thus weakening their spending power. With the uncertainty of the economic outlook and the increasing competition in the market, even though the Group's attempts to strengthen marketing efforts in supermarkets and adopt flexible pricing have yielded some results, the gross profit of the products is still under pressure. During the Reporting Period, the Group's revenue from the food products business increased 530.8% to RMB530.2 million from RMB84.1 million in 2021. Segment gross profit increased by 124.2% to RMB16.7 million from RMB7.5 million in 2021. In addition, due to the increase in selling and distribution costs, the Group's loss for the reporting period further expanded to approximately RMB151.5 million.

誠如本公司於二零二二年十一月十一日的公佈 所披露,本公司財政年度結算日更改可讓本集 團合理及更有效地配置其資源,以編製業績公 佈及財務報告,此乃由於更改將:

Outlook

In the second half of the Reporting Period, the consumer rebound from the economic recovery is over. The household savings rate has broadly returned to the pre-epidemic level. The savings rate of the population has largely returned to the pre-epidemic level. However, domestic consumer demand for seafood has weakened recently due to the impact of the Fukushima nuclear incident in Japan. This has intensified competition in the already highly competitive domestic food market. On the other hand, driven by factors such as enterprises replenishing their inventories, demand recovery and supply-side support policies, the momentum of industrial production growth will be restored. In the seminar "Global and China Economic Outlook for the Second Half of 2023" organized by Oxford Economics together with China Going Global Thinktank, China's GDP growth is forecast to be 5.1% in 2023. We believe that China's economy is now entering a period of growth transition. During the transition period, China's economic growth will slow down, but its quality will improve. When China's economy is rebalanced, it will rely more on the demand side. That is to say, the economy will shift from investment and export-oriented to consumption-oriented. At the same time, China will shift from developing an old economy to a new economy.

The Industry Internet is a new type of economic product that has gradually developed due to the continuous integration of marketization and informationization and the deepening of social specialized division of labor. Driven by the development of high-speed informationization, it has not only gradually become a new highlight of economic development, but has also driven the transformation of a large number of traditional industries. In recent years, a number of policies issued by the State have been conducive to promoting the rapid development of the industry. With the development of consumer Internet gradually entering a mature stage and the continuous upgrading of consumption, the development of the demand side is continuously driving the reform of the supply side of the industry. On the supply side of the industry, internetbased platforms are born. The Internet economy will be a major feature and an important opportunity for China's economic transformation in the new era. Therefore, the Group will continue to keep abreast of the market conditions to identify opportunities and proactively develop new business, especially the Internet business, to further diversify its sources of income with diversified business, so as to stabilize the financial performance of the Group.

展望

報告期間內下半旬,經濟重開帶來的消費反彈 已經結束,居民儲蓄率已大致回到疫情前水準。 然而,近期受日本福島核污水事件影響,國內消 費者對海產類食品需求出現疲軟,令原來競爭 劇烈的國內食品市場競爭加劇。另一方面,在企 業補庫存、需求恢復及供應端支援政策等因素 帶動下,工業生產增長動能將恢復。在牛津經濟 研究院攜手走出去智庫舉辦《二零二三年下半 年全球及中國經濟前景展望》研討會中,預測二 零二三年中國GDP增長5.1%。我們認為當前中 國經濟正在進入增長模式轉軌期。在轉換期間, 中國的經濟增長將放緩,但品質將有所提升。在 中國的經濟相投資、出口導向,轉向消費導向。與 此同時,中國亦由發展舊經濟轉向發展新經濟。

產業互聯網是市場化和資訊化不斷融合以及社 會專業化分工的深化而逐步發展起來的新型經 濟產物。在高速資訊化發展的推動下,其不僅逐 漸成為經濟發展的新亮點,而且帶動了大批傳 統產業轉型升級。近年來,國家出台的多項政策 有利於推動行業快速發展。隨著消費互聯網發 展逐漸進入成熟階段以及持續的消費升級,需 求側的發展正在不斷推動產業供給側的改革, 在產業供給側的互聯網平台型企業應運而生。 互聯網經濟將是中國新時代經濟轉型的主要特 色和重要機遇。因此,本集團將繼續監察市場變 化,以識別機遇,積極開發新業務,特別是互聯 網業務,以多元化業務進一步擴大收入來源及 穩定本集團的財務表現。

As Mr. Hu Hongchu serves as the Joint-Chairman and Executive Director concurrently, the code provision does not apply and the Company deviates from such code provision. In addition, the Chairman of the Board is of the view that, the Independent Non-executive Directors can express their opinions to all Executive Directors more directly and effectively at the Board meetings, hence the Board is of the view that the deviation from the code provision does not have material impact on the operation of the Board.
