LETTER FROM THE CHAIRMAN

Dear Shareholders,

On behalf of the board (the “**Board**”) of directors (the “**Directors**”) of China Maple Leaf Educational Systems Limited (the “**Company**”, together with its subsidiaries and consolidated affiliated entities, collectively the “**Group**”), I am pleased to present the annual report comprising the consolidated results of the Company for the year ended 31 August 2022.

RESULTS AND DIVIDENDS

On 14 May 2021, the PRC State Council announced the Regulations for the Implementation of the Private Education Promotion Law of the People’s Republic of China* 《中華人民共和國民辦教育促進法實施條例》(the “**Implementation Regulations**”), which came into effect on 1 September 2021. The Implementation Regulations impose significant uncertainties and restrictions on the Group’s control over the affiliated entities operating private schools that offer compulsory education consisting of six years of primary school education and three years of middle school education to PRC residents and not-for-profit schools that provide preschool education in the People’s Republic of China (“**PRC**” or “**China**”) (the “**Affected Schools**”). Up to the date of this report, both the national and local governments have not yet issued corresponding classifications management regulations and rules for the Implementation Regulations, based on the advice of our PRC legal advisor, there are uncertainties concerning the validity and enforceability of the current contractual arrangements between the Group and the Affected Schools and therefore it could not be concluded that they are

legally binding and enforceable upon the Implementation Regulations becoming effective on 1 September 2021. Consequently, the Directors considered that by the end of 31 August 2021, it was no longer practicable for the Group to make and enforce relevant decisions for its own benefit as a principal in accordance with the contractual arrangements with the Affected Schools and the Group lost control over the Affected Schools on 31 August 2021. The Affected Schools were deconsolidated from the consolidated financial statements of the Company for the year ended 31 August 2021 and the operations of the Affected Schools were classified as discontinued operations as of 31 August 2021. Please refer to the section headed “Update on the Regulations for the Implementation of the Private Education Promotion Law of the People’s Republic of China” for further details.

The revenue of the Group from continuing operations was RMB989.8 million and RMB941.0 million for the year ended 31 August 2022 and 31 August 2021 respectively. The profit for the year ended 31 August 2022 was RMB57.1 million and the loss for the year ended 31 August 2021 was RMB671.9 million.

The Adjusted Net Profit (as illustrated in “Five-Year Financial Summary – Calculation of the Adjusted Net Profit” as contained in this report) for the year ended 31 August 2022 was RMB45.5 million, representing a decrease of RMB564.5 million or 92.5% as compared to the year ended 31 August 2021.

The Board has resolved not to declare a final dividend for the year ended 31 August 2022.

BUSINESS HIGHLIGHTS

The quality of Maple Leaf education is reflected in the achievements of our students. Despite the impacts of the pandemic globally, at the end of 2021/2022 school year, 1,848 Maple Leaf high school students of the class of 2022 (“**Class 2022 Students**”) received over 7,353 offer letters from universities in 15 countries. Moreover, 196 of our Class 2022 Students received offer letters from QS Top 10 universities including prestigious University College London and Imperial College London in the United Kingdom. In addition, 1,596 students, approximately 86.3% of our Class 2022 Students, received at least one offer letter from the Maple Leaf Educational Systems Global Top 100 universities.

In order to provide Maple Leaf graduates with a wider range of further education opportunities, the Group has entered into cooperation agreements with more than 20 well-known domestic universities, such as the Beijing Foreign Studies University, Southwestern University of Finance and Economics, etc. These universities offer programs in various disciplines in cooperation with overseas universities. We will continue to increase cooperation with Chinese domestic universities, and offer a variety of options to our high school graduates.

OUTLOOK

Following the promulgation of the Implementation Regulations, Maple Leaf has adjusted its development strategy from the pyramid structure to inverted pyramid structure and our high schools carry on a dual development scheme. We will focus on the development of high schools providing Maple Leaf World School Program (“**World School Program**”), with moderate development of regular high schools whereby students are sitting for the National College Entrance Examination (“**Gaokao**”).

We will expand online education offering the World School Program, English as a second language (“**ESL**”) curriculum and Chinese as a second language (“**CSL**”) curriculum as well as certificate examination training or other new educational products to domestic and overseas learners.

In addition to providing the academic education services, the Group also plans to further develop education industry chain business which previously provided services only to

Maple Leaf students internally. We plan to offer professional catering services for universities, boarding schools, institutions, and corporate canteens; and provide services of supplies of school uniforms and professional uniforms for various schools, institutions and corporate customers. We strive to forge Maple Leaf brand to a professional catering and professional uniforms brand and generate additional income for the Group.

Overseas expansion is an important part of the Group’s long-term growth strategy. The Group believes that a global presence of Maple Leaf branded schools will help the Group’s student recruitment in China as Chinese parents recognise that Maple Leaf is able to offer a broader array of educational opportunities for their children. In fact, the demand for bilingual English and Chinese education is growing not only in China but also along the Belt and Road countries, such as Southeast Asia, and around the world, such as the North America. Accordingly, the Group believes that with its unique advantages in having both English and Chinese curricula, and both ESL and CSL curricula, it is precisely positioned to meet the demand for quality international preschool to grade 12 (“**K-12**”) education along the Belt and Road countries, where there is a demand for blending the best of Western and Eastern cultures. The Group will further expand its school network under the brand of Canadian International School and Kingsley International School in the Southeast Asian countries.

APPRECIATION

I would like to express my heartfelt gratitude to our students’ parents, the local governments, and our Shareholders for their continuing support on behalf of the Board. I also wish to thank our fellow Board members and senior management for their contributions and hard work during the year and extend my appreciation to our management, teachers and staff for their endeavours and commitments in providing the highest quality education for tens of thousands of Maple Leaf students.

NON-IFRS MEASURES

To supplement the Group's consolidated financial statements which are presented in accordance with the International Financial Reporting Standards (the "IFRS"), the Company also uses Adjusted Net Profit and other adjusted figures as additional financial measures, which are not required by, or presented in accordance with, IFRS. The Company believes that these non-IFRS measures facilitate comparisons of operating performance from period to period by eliminating potential impacts of items that the management does not consider to be indicative of the Group's operating performance. The Company believes that these measures provide useful information to the shareholders of the Company (the "Shareholders") and potential investors in understanding and evaluating the Group's consolidated results of operations in the same manner as they help the Group's management.

However, the use of these non-IFRS measures have limitations as an analytical tool, and you should not consider it in isolation from, or as substitute for analysis of, the Group's results of operations or financial condition as reported under IFRS.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group's Market Position

With over 28 years of experience in operating international schools in China, the Group is one of the leading international school operators in China in terms of student enrolment, offering high-quality and bilingual education, combining the merits of both Western and Eastern educational philosophies. We also operate international schools in Malaysia, Singapore and Canada.

Maple Leaf World School Program is the first international program with oriental cultural characteristics in the world. It cooperates with two of the world's largest educational institutions, benchmarked by ECCTIS, and accredited by Cognia. As of 31 August 2022, we have received official support letters from 113 universities in 12 countries and have successfully promoted World School Program in domestic universities in China. At the end of March 2023, ECCTIS completed the benchmarking of the World School Program which marks that the World School Program has become globally certified course after A-Level and IB programs, and has filled the gap in China's international education program.

World School Program is in line with the national strategy in education, namely, Opinions of Eight Government Departments Including the Ministry of Education on Accelerating and Expanding the Opening-up of Education in the New Era* (《教育部等八部門關於加快和擴大新時代教育對外開放的意見》) issued by the Ministry of Education in June 2020.

Our high schools in China provide World School Program at the commencement of the 2020/2021 school year. The unique programs and systems are designed to cultivate elite talents with a global perspective and proficiency in Chinese culture and wisdom. The combination of "Chinese language curriculum" and "English academic curriculum" is a set of "curricula for Chinese plus high school subjects" which happens to be suitable for international students in China and students around the globe preparing for undergraduate study in China from a multidimensional perspective.

The Group relocated its headquarters to Shenzhen in March 2021. Shenzhen headquarters was officially launched at the commencement of 2022/2023 school year. The relocation of the Group's headquarters to Shenzhen is a strategic move intended to bolster the Group's further development and ensure the success of the Group's sixth five-year plan (from 2020/2021 to 2024/2025 school years) (the "**Sixth Five-Year Plan**") and strengthen its ability to recruit and retain talents for its expansions in China and overseas. Moreover, the new headquarters will increase the brand awareness of the "Maple Leaf" brand and accelerate our business development in first-tier cities in China, especially in the Greater Bay Area.

Our overseas school, KIS offers A-Level program to K-12 students in Malaysia. KIS targets mainly local as well as international students primarily from Asian countries. CIS offers IB curriculum for K-12 students across two campuses, the Tanjong Katong campus and the Lakeside campus, in Singapore. CIS is one of the largest for-profit premium international schools in Singapore in terms of revenue and student enrolment, and targets expatriate families employed in Singapore, especially those from the United States, India and other Asian countries. CIS is well known for its highly acclaimed bilingual English/Chinese program where students are fully immersed culturally and taught by qualified native English speakers who are also IB certified.

University Placements

The quality of Maple Leaf education is reflected in the achievements of our students. Despite the impacts of the pandemic globally, at the end of 2021/2022 school year, 1,848 Maple Leaf high school students of the class of 2022 (“**Class 2022 Students**”) received over 7,353 offer letters from universities in 15 countries. Moreover, 196 of our Class 2022 Students received offer letters from Quacquarelli Symonds (“**QS**”) Top 10 universities including prestigious University College London and Imperial College London in the United Kingdom. In addition, 1,596 students, approximately 86.3% of our Class 2022 Students, received at least one offer letter from the Maple Leaf Educational Systems Global Top 100 universities.

In April 2023, the Group entered into agreement with Arizona State University (“**ASU**”) to facilitate ASU’s delivery of two first-year higher education experiences, including the New College of Interdisciplinary Arts and Sciences focusing on Humanities and on Mathematics and Sciences, for Maple Leaf graduates in the PRC (the “**1+3 Program**”). The 1+3 Program was welcomed by Maple Leaf graduates, as at the date of this report, we have enrolled 14 Maple Leaf students.

In order to provide Maple Leaf graduates with a wider range of further education opportunities, the Group has entered into cooperation agreements with more than 20 well known domestic universities, such as the Beijing Foreign Studies University, Beijing Institute of Technology, etc. These universities offer programs in various disciplines in cooperation with overseas universities. We will continue to increase cooperation with Chinese domestic universities and offer a variety of options to our high school graduates. Since then, Maple Leaf has been offering domestic and international “Dual Graduation Exit” to its high school students for pursuing higher education.

Maple Leaf maintains long-term relationships with a significant number of universities and colleges around the world. Various universities and colleges have memoranda of understanding with us to facilitate the admission process for our high school graduates. Our Group provides consulting services to assist our students in making informed decisions about the universities and colleges they choose to attend, Maple Leaf has held annual university and college recruitment fairs on our campuses mainly for overseas participants since November 2005. In March 2022, the first domestic universities and colleges recruitment fair was held online. In addition, we assist our students with respect to admissions, visas and scholarships, preparing them to study abroad. We believe that our services ensure a smooth transition for our students from our high schools to higher education.

Update on the Regulations for the Implementation of the Private Education Promotion Law of the People's Republic of China

On 14 May 2021, the PRC State Council announced the Regulations for the Implementation of the Private Education Promotion Law of the People's Republic of China* (《中華人民共和國民辦教育促進法實施條例》) (“**Implementation Regulations**”), which came into effect on 1 September 2021. The Implementation Regulations lay down a concrete measure to implement the top-level design of the classification management system of the superior law – Private Education Promotion Law of the People's Republic of China – and help regulate and promote the policies of “classification management”, “classification support” and “classification development” of private education in China. It will help realise the development of private education with distinctive characteristics and high quality and meet the diversified and selective needs of different families for education in the new era.

The restrictions in the Implementation Regulations on the prohibition of foreign participation in private schools that provide compulsory education and not-for-profit preschools by means of mergers and acquisitions, contractual agreements and related party transactions. The restrictions are intended to ensure the legitimate rights and interests of not-for-profit schools, especially to protect the property rights and interests of not-for-profit schools and to avoid the improper transfer of proceeds from the operation of not-for-profit schools.

The Implementation Regulations strengthen the supervision of compulsory education schools, and at the same time, specify that private education enjoys preferential taxation policies stipulated by the Chinese government. The Implementation Regulations grant for-profit schools the autonomy to charge fees, and encourage and support private schools to use internet technology to implement online education, grant private schools, which carry out higher education and secondary vocational and technical education, the autonomy to self-established majors, designing courses and other greater autonomy, enriching the operation of and expanding student sources of private schools and facilitating the development of private schools.

The Implementation Regulations impose significant uncertainties and restrictions on the Group's control over the affiliated entities operating private schools offering compulsory education and not-for-profit preschools in the PRC. As local governments have not yet issued corresponding classifications management regulations and rules for the Implementation Regulations, there are uncertainties concerning the validity and enforceability of the contractual arrangements between the Group and the private schools that provide compulsory education consisting of six years of primary school education and three years of middle school education to PRC residents and not-for-profit schools that provide preschool education in the PRC (“**Affected Schools**”) and therefore it could not be concluded that they are legally binding and enforceable upon the Implementation Regulations becoming effective on 1 September 2021. Consequently, the Affected Schools were deconsolidated from the consolidated financial statements of the Company for the year ended 31 August 2021. Please refer to the 2021 annual report of the Company for further details of the deconsolidation of the Affected Schools.

The Group has determined to take measures to optimise its operating structure to mitigate the impact of the Implementation Regulations. Such measures include, among others, transferring current students from high schools which are under the same operating licences with private schools providing compulsory education and/or not-for-profit preschools in the PRC (“**Mixed High Schools**”) to high schools that have their own operating licences in the PRC (“**Independent High Schools**”) and making registration and filings with the relevant local government departments in the PRC for individual operating licences for the eight Mixed High Schools. Xi'an School obtained a private school operating license as an Independent High School and a registration certificate for private non-enterprise entities to operate as the Independent High School in August 2022 and January 2023 respectively. The financial positions of Xi'an School were re-consolidated with the Group as at 10 August 2022. The Group has also registered four for-profit preschools in Dalian, China for the year ended 31 August 2022 and one preschool in Chongqing, China at the commencement of the 2022/2023 school year.

* For identification purpose only

The Group has adjusted its enrolment strategy from the pyramid structure to inverted pyramid structure in the Sixth Five-Year Plan, which focuses on its development of high schools providing World School Program in China. We will expand online education offering World School Program, ESL curriculum and CSL curriculum as well as certificate examination training or other new educational products to domestic and overseas learners.

Up to the date of this report, both the national and the local governments have not yet issued corresponding classification management regulations and rules for the Implementation Regulations. We will continue to monitor the implementation of the Implementation Regulations in different regions and continue to assess its subsequent impact on the Company and will make further announcement(s) as and when appropriate.

The Impact of Covid-19

Despite the global pandemic of Covid-19, our schools in China resumed face-to-face teaching since the commencement of the 2021/2022 school year. Before the opening of schools, Maple Leaf has thoroughly cleaned and disinfected all campuses and ensured that various pandemic prevention supplies were sufficient to improve campus safety and safeguard the health and safety of all students and employees. For the year ended 31 August 2022, as small scale of Covid-19 outbreak took place in different areas in China from time to time, we provided mixed mode of learning classes comprising face-to-face and online teaching during this period.

Our overseas school, KIS targets both local students and international students. CIS targets expatriate families employed in Singapore as well as international students. For the year ended 31 August 2022, CIS mainly delivered face-to-face teaching, while KIS conducted hybrid teaching by both face-to-face and online teaching due to the continuous lockdowns regulated by the Malaysian government in order to curb the Covid-19 pandemic. Two overseas schools were temporarily closed, including a high school in Australia and a high school in Canada due to the tight travel restrictions and visa conditions. With the widespread vaccination and the stabilisation of the pandemic, overseas countries have gradually lifted travel restrictions and relaxed visa conditions, which will increase the student enrolment in our overseas schools, and benefit both domestic and overseas Maple Leaf schools.

As at 31 August 2022, three preschools and two high schools were added to the Group's school network in China. Two overseas schools were temporarily closed, including a high school in Australia and a high school in Canada due to the tight travel restrictions and visa conditions implemented in these countries as a result of the Covid-19 pandemic. The Group will assess the possibility to re-open these schools when the pandemic ends and market conditions improve within one or two years.

The Group's Teachers

Teachers are the key to maintaining high-quality educational programs and services as well as maintaining our brand and reputation. Our globally certified teachers form a core group within our teaching staff, allowing us to maintain the quality of our educational services while undergoing expansion. Our Group has established a global recruitment office ("Global Recruitment Office") to recruit high school foreign teachers and ESL foreign teachers worldwide. The establishment of the Global Recruitment Office ensures both the quality and quantity of Maple Leaf foreign teachers and satisfies the development needs of the Group's Sixth Five-Year Plan. As at 31 August 2022, the Group employed 293 IB certified teachers (as at 31 August 2021: 295 IB certified teachers).

FUTURE DEVELOPMENT

Following the promulgation of the Implementation Regulations, Maple Leaf has adjusted its development strategy from the pyramid structure to inverted pyramid structure and our high schools carry on a dual development scheme in China. We will focus on the development of high schools providing World School Program, with moderate development of regular high schools whereby students are sitting for Gaokao.

We will expand online education offering the World School Program, ESL curriculum and CSL curriculum as well as certificate examination training or other new educational products to domestic and overseas learners. Maple Leaf entered into a cooperation agreement and a memorandum of understanding with an education and technology company in Beijing to strategically cooperate in online education.

In addition to providing the academic education services, the Group also plans to further develop education industry chain business which previously provided services only to Maple Leaf students internally. We plan to offer professional catering services for universities, boarding schools, institutions and corporate canteens; and provide services of supplies of school uniforms and professional uniforms for various schools, institutions and corporate customers. We strive to forge Maple Leaf brand to a professional catering and professional uniforms brand and contribute additional income for the Group. The Group launched a pilot canteen which provides dine-in and take-away catering services to the public in June 2023 in Shenzhen, the PRC. This is a one-stop small group meal customized catering brand and we plan to develop it to become a catering service platform serving tens of thousands of urban elites in the future. We strive to forge Maple Leaf brand to a professional catering and professional uniforms brand and generate additional income for the Group.

Standard Implementation Strategy

Under the Standard Implementation Strategy, during the Sixth Five-Year Plan period, the Group implemented the Maple Leaf World School Program in China, China’s first internationally accredited curriculum with self-developed intellectual property, at the commencement of 2020/2021 school year. The World School Program was developed by Maple Leaf curriculum experts and meets high academic and curriculum standard, which will get students well equipped for entering into the world’s top ranked universities. The World School Program has been benchmarked by ECCTIS and has acquired accreditation from Cognia – two of the world’s most recognised certification institutions – providing further assurance that Maple Leaf graduates will be able to transit to universities across the globe seamlessly.

At the end of March 2023 UKENIC completed its benchmarking against the UK A-Levels and Canadian British Columbia (“BC”) Programs and US New York State before the end of 2022/2023 school year which marks the World School Program has become globally certified course after A-Level and IB programs, and has filled the gap in China’s international education program. The Group’s first batch of graduates from the World School Program received Maple Leaf High School Graduation Diplomas in June 2023, endorsed by Cognia.

Overseas Expansion

Overseas expansion is an important part of the Group's long-term growth strategy. The Group believes that a global presence of Maple Leaf branded schools will help the Group's student recruitment in China as Chinese parents recognise that Maple Leaf is able to offer a broader array of educational opportunities for their children. In fact, the demand for bilingual English and Chinese education is growing not only in China but also along the Belt and Road countries, such as Southeast Asia, and around the world, such as the North America. Accordingly, the Group believes that with its unique advantages in having both English and Chinese curricula, and both ESL and CSL curricula, it is precisely positioned to meet the demand for quality international K-12 education along the Belt and Road countries, where there is a demand for blending the best of Western and Eastern cultures. The Group will further expand its school network under the brand of CIS and KIS in the Southeast Asian countries.

Conclusion

Pursuant to the Sixth Five-Year Plan, the Group will continue to adopt multiple expansion strategies including, but not limited to, increasing our student enrolment, increasing tuition fee rate, and expanding our established schools to achieve the growth targets in both China and overseas, and strive to become one of the largest international school operators in the world.

OTHER INFORMATION

Issuance of US\$125.0 million 2.25% Convertible Bonds due 2026

On 12 January 2021, the Company entered into a subscription agreement ("**Subscription Agreement**") with UBS AG Hong Kong Branch ("**Manager**"), under which the Manager agreed to subscribe and pay for, or to procure subscribers to subscribe and pay for, convertible bonds ("**Convertible Bonds**") due 2026 in an aggregate principal amount of US\$125.0 million. The Manager informed the Company that it intended to offer and sell the Convertible Bonds to no less than six independent places (who would be independent individual, corporate and/or institutional investors). The closing price of the ordinary shares of par value US\$0.0005 each in the share capital of the Company (the "**Shares**") quoted on the Stock Exchange on the date of the Subscription Agreement, i.e. 12 January 2021, was HK\$2.020 per Share. The net proceeds from the subscription of the Convertible Bonds, after deduction of underwriting commission and expenses, amounted to approximately US\$123.1 million. The issue of the Convertible Bonds can provide the Company with additional funds at lower funding cost. Among the total net proceeds from the issuance of the Convertible Bonds, the Company intended to use the net proceeds for the repayment of existing borrowings as to approximately US\$119.0 million and, acquisitions related expenses and general corporate purposes as to approximately US\$4.1 million.

Based on the initial conversion price (subject to adjustments) of HK\$2.525 per Share and assuming full conversion of the Convertible Bonds, the Convertible Bonds will be convertible into approximately 383,881,188 new Shares (subject to adjustments) which will have an aggregate nominal value of approximately US\$191,940.59. The net price of each new Share, based on the net proceeds of US\$123.1 million and assuming the full conversion of the Convertible Bonds at the initial conversion price, is approximately HK\$2.487.

The new Shares (if any) are to be issued under the general mandate granted to the Directors pursuant to an ordinary resolution of the Shareholders passed on 22 January 2020 to allot, issue and deal with, among other securities, up to 599,064,184 Shares. The issue of the Convertible Bonds is not subject to the specific approval of the Shareholders.

The Convertible Bonds bear interest on their outstanding principal amount from and including 27 January 2021 at the rate of 2.25% per annum, payable semi-annually in arrears on 27 January and 27 July in each year until 27 January 2026, being the maturity date. Subject to the conditions as stipulated in the Subscription Agreement, each Convertible Bond shall entitle the bondholder to convert such Convertible Bond into new Shares credited as fully paid at any time on or after 9 March 2021 up to the close of business on the seventh day prior to the maturity date (i.e. 27 January 2026) (both days inclusive) (unless previously redeemed, converted or purchased or cancelled). On 27 January 2021, with the fulfilment of all conditions required for the Convertible Bonds under the Subscription Agreement, the Company issued the Convertible Bonds with an aggregate principal amount of US\$125.0 million for the repayment of existing borrowings, acquisitions and general corporate purposes. Permission for the listing of, and dealing in, the Convertible Bonds and the new Shares upon conversion of the Convertible Bonds on the Stock Exchange became effective on 28 January 2021.

As at 31 August 2022, all the proceeds had been applied for the repayment of the existing borrowings, as to approximately US\$119.0 million, and general corporate purposes as to approximately US\$4.1 million. The net proceeds from the issuance of the Convertible Bonds were used according to the intentions previously disclosed by the Company. For the year ended 31 August 2022, no conversion right attached to the Convertible Bonds was exercised by the bondholders and no Convertible Bonds were redeemed, purchased or cancelled by the Company. As at 31 August 2022, the Convertible Bonds issued by the Company in an aggregate principal amount of US\$125.0 million remained outstanding.

Assuming there is full conversion of the Convertible Bonds at the initial conversion price of HK\$2.525 per Share, the Convertible Bonds will be convertible into approximately 383,881,188 new Shares (subject to adjustment), representing approximately 12.82% of the total number of Shares in issue as at 31 August 2022 and approximately 11.36% of the total number of Shares in issue as enlarged by the allotment and issue of the new Shares (assuming no other change in the issued share capital of the Company). Such allotment and issue of the new Shares will result in the respective shareholdings of the Shareholders being diluted by approximately 11.36%.

BUSINESS REVIEW

A fair review of the business of the Group during the year as required by Schedule 5 to the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), including an analysis of the Group's financial performance, an indication of likely future developments in the Group's business and the Group's key relationships with its stakeholders who have a significant impact on the Group and on which the Group's success depends, is set out in the sections headed "Letter from the Chairman" and "Management Discussion and Analysis" of this report. These discussions form part of this report.

Principal Risks and Uncertainties

Save as disclosed in the section headed "Risks relating to the Contractual Arrangements" under "Contractual Arrangements" in this report, the following list is a summary of certain principal risks and uncertainties facing the Group.

- Our operations and business prospects;
- Our business and operating strategies and our ability to implement such strategies;
- Our ability to develop and manage our operation and business;
- Our business depends on the market recognition of our Maple Leaf brand, CIS brand and KIS brand;
- Our ability to maintain or increase student enrolment in our schools;
- Our ability to maintain or increase tuition fees;
- Our ability to control our operating costs;

- Competition in the education industry where we serve;
- Our business depends on our ability to recruit and retain dedicated and capable teachers and other school personnel;
- Ability to obtain or renew the necessary licenses or government approvals for our business and operations;
- Changes to regulatory and operating conditions in the education industry where we serve, in particular, the regulatory changes under the new law and new policies;
- The recognition of the World School Program; and
- the COVID-19 pandemic.

Some of the above risks and uncertainties are beyond the Group's control and should any of these occur, the Group's business, financial position and results of operation may be materially adversely affected.

In addition, the Group also faces various market risks. In particular, the Group is exposed to credit, liquidity, interest rate and currency risks that arise in the normal course of the Group's business. In order to meet these challenges, the Group has established the following structures and measures to manage the Group's risks:

- the Board is responsible for and has general powers over the management and operation of our schools, and is in charge of the overall risk control of the Group. Any significant business decision involving material risks, such as decisions to expand into new geographic regions or to raise tuition fees, is reviewed, analysed and approved at the board level to ensure a thorough examination of the associated risks at the Group's highest corporate governance body;
- the Group maintains insurance coverage which we believe is in line with the customary practice in the PRC education industry. The Group also adopts health and safety measures on our campuses to safeguard our students' wellbeing; and
- the Group has made arrangements with banks to ensure that the Group is able to obtain credits to support its business operation and expansion.

However, the above is not an exhaustive list. Investors are advised to make their own judgment or consult their own investment advisors before making any investment in the Shares. As recommended under "Review of Disclosure in Issuer's Annual Reports to Monitor Rule Compliance Report" and "Review of Issuers' Annual Report Disclosure" issued by the Stock Exchange from time to time, the Company discussed specifically how the major risk areas would affect the business operations, the potential financial impact, and whether they had undertaken any measure to manage risk areas.

SPECIFIC PERFORMANCE OBLIGATION ON CONTROLLING SHAREHOLDER

2020 Term Loan Facility

On 16 August 2020, the Company (as a guarantor), Maple Leaf CIS Holdings Pte. Limited (as a borrower) and a subsidiary of the Company (as a guarantor) entered into a facility agreement (the “**2020 Term Loan Facility Agreement**”) with certain lenders pursuant to which the lenders agreed to make available a term loan facility in an aggregate amount up to SGD225,000,000 with a final maturity date being the date which is three years after the utilisation date of the term loan (the “**2020 Term Loan Facility**”). On the same day, the Company (as a borrower), Maple Leaf CIS Holdings Pte. Limited (as a guarantor) and certain subsidiaries of the Company (each as a guarantor) have also entered into a facility agreement (the “**Bridge Loan Facility Agreement**”, together with the 2020 Term Loan Facility Agreement, the “**Facility Agreements**”) with certain lenders pursuant to which the lenders agreed to make available a bridge loan facility in an aggregate amount up to SGD158,000,000 with a final maturity date being the date which is 350 days after the utilisation date of the bridge loan facility (“**Bridge Loan Utilisation Date**”) assuming the extension option is being exercised pursuant to the Bridge Loan Facility Agreement (or six months after the Bridge Loan Utilisation Date if the extension option is not exercised) (the “**Bridge Loan Facility**”, together with the 2020 Term Loan Facility, the “**Facilities**”). On 26 August 2020, a deed of novation was entered into between, among others, Maple Leaf CIS Holdings Pte. Limited as original borrower, Canadian International School Pte Ltd as new borrower, the Company as guarantor and certain lenders pursuant to which the 2020 Term Loan Facility was novated from Maple Leaf CIS Holdings Pte. Limited as original borrower to Canadian International School Pte Ltd as new borrower.

Pursuant to the Facility Agreements, the Facilities must be prepaid (among other matters) if:

- i. Mr. Shu Liang Sherman Jen (“**Mr. Jen**”), chairman and Executive Director of the Company, does not or ceases to own beneficially at least 45% of each class of the issued share capital of the Company excluding any part of that issued share capital that carries no right to participate beyond a specified amount in a distribution of either profits or capital (or at least 40% after a permitted issue of shares pursuant to the Facility Agreements);
- ii. Mr. Jen does not or ceases to have the power to:
 - a. cast or control of the casting of at least 45% of the maximum number of vote that might be cast at a general meeting of the Company (or at least 40% after a permitted issue of shares pursuant to the respective Facility Agreement);

REPORT OF THE DIRECTORS

- b. appoint or remove all or majority of the Directors or other equivalent officers of the Company; or
 - c. give directions with respect to the operating and financial policies of the Company;
- iii. Mr. Jen is not or ceases to be the single largest owner of each class of the issued share capital of the Company; and
- iv. Mr. Jen is not or ceases to be the chairman of the Board of the Company,

and in such event the Facilities will be terminated and all outstanding loans under the Facilities may immediately become payable on demand.

In light of the dilution impact of the Convertible Bonds which were issued in January 2021, the lenders of the Facility Agreements have granted a waiver to reduce the threshold of Mr. Jen's ownership requirement under the Facility Agreements from 45% to 40% such that no change of control (for the purpose of the Facility Agreements) will occur if Mr. Jen does not or cease directly or indirectly to have the power to cast or control the casting of at least 40% of the maximum number of votes that might be cast at a general meeting of the Company.

Please refer to section headed "Management Discussion and Analysis – Other Information – Issuance of US\$125.0 million 2.25% Convertible Bonds due 2026" and the announcements of the Company dated 13 January 2021, 27 January 2021 and 28 January 2021 and the offering circular of the Company dated 22 January 2021 for further details of the issuance of the Convertible Bonds.

In January 2021, the Bridge Loan was fully settled. On 4 January 2023, following the full payment and discharge of the secured liabilities by the new borrower Canadian International School Pte Ltd and the other obligors, the lenders agreed to release and discharge all security documents and the parties agreed to grant the release and executed a deed of discharge, release and reassignment.

2022 Term Loan Facility

On 22 December 2022, CIS Pte Ltd (as a borrower) ("**Borrower**"), among others, and certain lenders ("**2022 Lenders**") entered into the term loan facility agreement ("**2022 Term Loan Facility Agreement**") pursuant to which the 2022 Lenders agreed to make available the term loan facility ("**2022 Term Loan Facility**") in an aggregate amount up to USD143,000,000 with a final maturity date being either (i) the date falling 18 months after the utilisation date of the 2022 Term Loan Facility or (ii) the date falling 30 months after the utilisation date of the 2022 Term Loan Facility ("**Extended Final Repayment Date**"). The Borrower may request the final maturity date be extended to the Extended Final Repayment Date by submitting a written request notice in accordance with the terms of 2022 Term Loan Facility Agreement. The proceeds of the 2022 Term Loan Facility would be used for refinancing of existing indebtedness of the Group (including the amounts outstanding under or in connection with the 2020 Term Loan Facility Agreement), financing the payment of the aggregate cash consideration payable by Maple Leaf CIS for the acquisition of the remaining 10% of the Target Company, payment of expenses in connection with the 2022 Term Loan Facility and the general working capital requirements of the Group. The 2022 Term Loan Facility Agreement imposes, among other things, specific performance obligations on the controlling shareholder of the Company. As at the date of this annual report, Mr. Jen and Sherman Investment Holdings Limited (indirectly wholly owned by a discretionary trust, of which Mr. Jen is the founder who can influence how the trustee exercises his discretion) ("**Sherman Investment**") are the controlling shareholders who were interested or deemed to be interested in 1,570,858,010 Shares and 1,483,639,818 Shares respectively (representing approximately 52.44% and 49.53% of the total issued share capital of the Company respectively).

Pursuant to the 2022 Term Loan Facility Agreement, a change of control event occurs (among other matters) if:

- i. Mr. Jen and each of his immediate family members (taken together) do not or cease directly or indirectly to:
 - a. have the power (whether by way of ownership of shares, contract, agency or otherwise) to cast, or control the casting of, more than 30% of the maximum number of votes that might be cast at a general meeting of the Company; or

- b. beneficially own and control more than 30% of the issued share capital of the Company; or
- ii. any person or persons acting in concert (other than Mr. Jen and each of his immediate family members) (whether directly or indirectly and whether individually or together) beneficially owns and controls more of the issued voting share capital of the Company than Mr. Jen and each of his immediate family members (taken together).

If a change of control event abovementioned occurs:

- a. the Borrower shall promptly (and in any case no later than 1 business day of becoming aware of that event) notify the agent; and
- b. irrespective of whether the Borrower has complied with paragraph (a): (i) no Lender shall be obliged to participate in the making of the loan; and (ii) each available commitment of each 2022 Lender will be immediately cancelled and reduced to zero and the loan drawn under the 2022 Term Loan Facility, together with accrued interest, and all other amounts accrued or outstanding under the finance documents, shall become immediately due and payable.

For details, please refer to the announcement of the Company dated 22 December 2022.

DISCLOSURE PURSUANT TO RULES 13.18, 13.19 AND 13.21 OF THE LISTING RULES

As a result of the Implementation Regulations, the Directors reassessed the contractual arrangements relating to certain affiliated entities, which were used to be consolidated for the previous financial years and concluded that the Group ceased its control over the Affected Schools by 31 August 2021 and thus the Affected Schools were deconsolidated from the consolidated financial statements of the Group as of 31 August 2021. The deconsolidation has resulted in the financial results of the Affected Schools having been classified as discontinued operations on 31 August 2021 and the Group recorded one-off losses upon deconsolidation of the Affected Schools.

The net assets held by the Affected Schools were approximately RMB2.9 billion upon deconsolidation as at 31 August 2021 and an aggregate one-off losses upon deconsolidation of the Affected Schools were recognised during the year ended 31 August 2021 and included in the losses from discontinued operations. Such loss, together with other impairment loss recognised by the Group as a result of the deconsolidation, has substantially reduced the earnings of the Group and thus resulted in a non-compliance of certain financial covenants under the 2020 Term Loan Facility Agreement. For further details, please refer to Note 30 to the consolidated financial statements.

Notwithstanding the non-compliance of certain financial covenants under the 2020 Term Loan Facility Agreement, in January 2021, the 2020 Term Loan was fully settled.

For details of the obligation arising under Rule 13.18 of the Listing Rules i.e. the loan agreement with covenants relating to specific performance of the controlling shareholder, please refer to the section headed "Specific Performance Obligation on Controlling Shareholder – 2022 Term Loan Facility" in this annual report.

CONTRACTUAL ARRANGEMENTS

Due to restrictions in the PRC laws and regulations on foreign investment in schools that offer compulsory education and not-for-profit preschools in China, we have entered into a number of continuing agreements and arrangements (“**Contractual Arrangements**” or “**VIE Agreements**”) with certain consolidated affiliated entities in the PRC solely for the purpose of operating the Group’s relevant business in China. Some of these agreements and arrangements have been entered into with our connected persons in our ordinary and usual course of business, which constitute continuing connected transactions under the Listing Rules. We set out below details of the Contractual Arrangements.

Reasons for the Contractual Arrangements

The PRC laws and regulations currently prohibit foreign participation in private schools that provide compulsory education and not-for-profit preschools by means of mergers and acquisitions, contractual agreements and related parties transactions. Furthermore, although the PRC laws and regulations allow foreign investment in foreign nationals schools and high schools, government authorities either impose restrictions in this respect or, as a matter of policy, withhold approval for such ventures altogether (as discussed further below in the section headed “Updates in Relation to the Qualification Requirement”). The Contractual Arrangements among us, Dalian Beipeng Educational Software Development Inc. (“**Beipeng Software**”), Shenzhen Beipeng Educational Software Development Inc. (“**Shenzhen Beipeng Software**”), our consolidated affiliated entities and shareholders of our consolidated affiliated entities are therefore necessary to achieve our business objectives, although they have been as narrowly tailored as possible so as to minimize potential conflict with current PRC laws and regulations.

Particulars of the consolidated affiliated entities and their registered shareholders are as follows:

- (1) Dalian Maple Leaf Education Group Co., Ltd (“**Dalian Educational Group**”) is a limited liability company established in the PRC on 23 May 2003, the registered shareholders of which is Ms. Shu’E Ren (the “**Founder’s sister**”), a sister of Mr. Shu Liang Sherman Jen (“**Founder**”). Dalian Educational Group is principally engaged in investment in private K-12 education in the PRC.
- (2) Shenzhen Maple Leaf Education Group Co., Ltd (“**Shenzhen Educational Group**”) is a limited liability company established in the PRC on 1 June 2021, the registered shareholders of which are Ms. Lihua Liu and Ms. Tingting Sun, both are independent third parties. Shenzhen Educational Group is principally engaged in investment in private K-12 education in the PRC.
- (3) Dalian Youwen Science and Education Co., Ltd. (“**Dalian Youwen**”) (formerly known as Dalian Science and Education Co., Ltd.) is a limited liability company established in the PRC on 9 January 2003, the registered shareholders of which are Ms. Shu’E Ren and Dalian Educational Group. Dalian Youwen is principally engaged in investment in private K-12 education in the PRC.

Our Directors (including the Independent Non-executive Directors) consider that the Contractual Arrangements have been entered into: (i) in the ordinary and usual course of business of the Company; (ii) on normal commercial terms; and (iii) in accordance with the respective agreement governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

Risks relating to the Contractual Arrangements

We believe the following risks are associated with the Contractual Arrangements. Further details of these risks are set out on pages 26 to 32 of the Company's prospectus dated 18 November 2014 ("**Prospectus**").

1. If the PRC government finds that the agreements that establish the structure for operating our business in China do not comply with applicable PRC laws and regulations, we could be subject to severe penalties and our business may be materially and adversely affected.
2. Our Contractual Arrangements may not be as effective in providing control over our consolidated affiliated entities as equity ownership.
3. Any failure by our consolidated affiliated entities or their respective ultimate shareholders to perform their obligations under our Contractual Arrangements would potentially lead to us having to incur additional costs and expend substantial resources to enforce such arrangements, temporary or permanent loss of control over our primary operations or loss of access to our primary sources of revenue.
4. The ultimate owners of our consolidated affiliated entities may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.
5. Certain terms of our Contractual Arrangements may not be enforceable under PRC laws.
6. The Contractual Arrangements between Beipeng Software and our consolidated affiliated entities and Dalian Maple Leaf International School (High School) ("**Dalian Maple Leaf High School**") may subject our Group to increased income tax due to the different income tax rates applicable to Beipeng Software and our consolidated affiliated entities and Dalian Maple Leaf High School, which may adversely affect our results of operations.
7. Our Contractual Arrangements may be subject to scrutiny by the PRC tax authorities, and a finding that we owe additional taxes could substantially reduce our net income and the value of our investment.
8. We rely on dividends and other payments from Beipeng Software and Shenzhen Beipeng Software to pay dividends and other cash distributions to our shareholders.
9. Our consolidated affiliated entities and Dalian Maple Leaf High School may be subject to significant limitations on their ability to operate private education or make payments to related parties or otherwise be materially and adversely affected by changes in the PRC laws and regulations.
10. The discontinuation of any preferential tax treatments currently available to us, in particular the tax exempt status of our schools, could result in a decrease of our net income and materially and adversely affect our results of operations.
11. If any of our PRC subsidiaries or consolidated affiliated entities becomes the subject of a bankruptcy or liquidation proceeding, we may lose the ability to use and enjoy certain important assets, which could reduce the size of our operations and materially and adversely affect our business, ability to generate revenue and the market price of our Shares.
12. Our exercise of the option to acquire the equity interests of our consolidated affiliated entities may be subject to certain limitations and the ownership transfer may subject us to substantial costs.

Apart from the above, there are no other new Contractual Arrangements entered into, renewed or reproduced between the Group and the PRC consolidated affiliated entities during the financial year ended 31 August 2022 and up to the date of this report. Save as disclosed in this report, there was no material change in the Contractual Arrangements under which they were adopted for the year ended 31 August 2022, except that Shenzhen Shicheng Educational Service Co., Ltd. has been added as subsidiary entities of Shenzhen Educational Group pursuant to the requirements of the management consultancy and business cooperation agreement in (xii) above, and Dalian Jinpu New District Tongniuling Maple Leaf Preschool Co., Ltd., Dalian Xigang District Maple Leaf Preschool Co., Ltd., Dalian Jinpu New District Jinshitan Maple Leaf Preschool Co., Ltd., Dalian Jinpu New District Cuizhunanli Maple Leaf Preschool Co., Ltd., Chongqing Yongchuan District Maple Leaf Preschool Co., Ltd. and Xiangyang Maple Leaf Bilingual High School Co., Ltd. have been added as subsidiary entities of Dalian Educational Group pursuant to the requirements of the management consultancy and business cooperation agreement in (i) above.

For the year ended 31 August 2022, none of the Contractual Arrangements has been terminated as none of the restrictions that led to the adoption of structured contracts under the Contractual Arrangements has been removed.

For the year ended 31 August 2022, the Group has adopted various measures to ensure the effective operation of the Group with the implementation of the Contractual Arrangements and the Group's compliance with the Contractual Arrangements including the review of the overall performance of and compliance with the structured contracts under the Contractual Arrangements by the Board at least once a year.

We have been advised by our PRC legal advisor that the Contractual Arrangements do not violate the relevant PRC regulations as at 31 August 2022.

On 14 May 2021, the PRC State Council announced the Implementation Regulations, which came into effect on 1 September 2021. The restrictions in the Implementation Regulations on the prohibition of foreign participation in private schools that provide compulsory education and not-for-profit preschools by means of mergers and acquisitions, contractual agreements and related party transactions. The restrictions are intended to ensure the legitimate rights and interests of not-for-profit schools, especially to protect the property rights and interests of not-for-profit schools and to avoid the improper transfer of proceeds from the operation of not-for-profit schools.

The Implementation Regulations stipulate that no social organisation or individual may control a private school that is an elementary school or middle school (learning stages) or not-for-profit preschools by means of mergers and acquisitions, contractual agreements and related party transactions, etc. As advised by our PRC legal advisor, PRC laws and regulations do not have retrospective effect, except for the special provisions developed for the better protection of the rights and interests of citizens, legal persons, and other organisations. According to our PRC legal advisor, the Implementation Regulations should be subject to further laws, regulations or rules (if any) by relevant local competent regulatory authorities or other organs of state power, rendering it retrospective. As a result, there are uncertainties concerning the validity and enforceability of the current Contractual Arrangements between the Group and the Affected Schools and therefore it could not be concluded that they are legally binding and enforceable upon the Implementation Regulations becoming effective on 1 September 2021.

Revenue, profit before taxation and assets subject to the Contractual Arrangements

Dalian Educational Group is wholly owned by the Founder's Sister and is therefore an associate of the Founder and our connected person pursuant to Rules 14A.12(2)(b) and 14A.07(4) of the Listing Rules. Dalian Youwen is 95.3% indirectly owned by the Founder's Sister via Dalian Educational Group, which she controls, and is therefore an associate of the Founder and our connected person pursuant to Rules 14A.12(2)(b) and 14A.07(4) of the Listing Rules. The auditors of the Company have confirmed in a letter to the Board that, with respect to the aforesaid continuing connected transactions entered into in the year ended 31 August 2022:

Updates in Relation to the Qualification Requirement

Our PRC legal advisor has advised us that there have not been changes in the relevant regulatory developments and guidance relating to the Qualification Requirement since the publication of the Prospectus and the amendment in 2019.

Efforts and Actions Undertaken to Comply with the Qualification Requirement

Up to the date of this report, apart from the steps taken as disclosed in the Prospectus and previous years' annual reports, the Group is still in the progress of working on different ways of obtaining the Qualification Requirement.

Impact of the Implementation Regulations on the Contractual Arrangements

As disclosed in the section headed "Update on the Regulations for the Implementation of the Private Education Promotion Law of the People's Republic of China" in Management Discussion and Analysis, based on the advice of our PRC legal advisor, there are uncertainties concerning the validity and enforceability of the current contractual arrangements between the Group and the Affected Schools and therefore it could not be concluded that they are legally binding and enforceable upon the Implementation Regulations becoming effective on 1 September 2021. By the end of 31 August 2021, it was no longer practicable for the Group to make relevant decision to obtain significant variable returns from the Affected Schools. Consequently, the Group lost control over the Affected Schools on 31 August 2021 and the Affected Schools were deconsolidated from the consolidated financial statements of the Company for the year ended 31 August 2021 and the operations of the Affected Schools were classified as discontinued operations as of 31 August 2021.

As at the date of this report, Xi'an School obtained a private school operating license as an Independent High School and its financial positions were re-consolidated with the Group as at 10 August 2022. The financial results of four for-profit preschools located in Dalian, China and one for-profit preschool located in Chongqing, China were consolidated with the Group for the year ended 31 August 2022 and at the commencement of the 2022/2023 school year respectively. The Group will continue to monitor the implementation of the Implementation Regulations in different regions and continue to assess its subsequent impact on the Company and will make further announcement(s) as and when appropriate.

Dalian S&E is a company incorporated in the PRC and is controlled by the Group by way of a series of contractual arrangement and is accounted for as a wholly-owned subsidiary of the Company. Compensation of key executives of the Group is determined by the Company's remuneration committee which reviews and determines executives' compensation based on the Group's performance and the executives' respective contributions to the Group.

The Company also has a provident fund set up for its employees and share incentive schemes as described below.

SHARE INCENTIVE SCHEMES

In order to incentivise our Directors, senior management, other employees and consultants for their contribution to the Group and to attract and retain suitable personnel to our Group, on 10 November 2014 we adopted the Post-IPO Share Option Scheme and the restricted share units scheme which was subsequently modified by the Board on 28 April 2015 and renamed as the Share Award Scheme. The Company has also adopted the employee share purchase plan on 12 October 2020. From 1 January 2023, the Company will rely on the transitional arrangements provided for the existing share incentive schemes and will comply with the new Chapter 17 of the Listing Rules accordingly (effective from 1 January 2023).

Details on the movement of the relevant scheme for the year ended 31 August 2022 is set out in note 37 to the financial statements.

1. Post-IPO Share Option Scheme

(a) Purpose of the Post-IPO Share Option Scheme

The Company adopted the Post-IPO Share Option Scheme on 10 November 2014 to enable our Group to grant options to selected participants as incentives or rewards for their contributions to our Group. Our Directors consider the Post-IPO Share Option Scheme, with its broadened basis of participation, will enable our Group to reward our employees, our Directors and other selected participants for their contributions to our Group. Given that our Directors are entitled to determine the performance targets to be achieved as well as the minimum period that an option must be held before an option can be exercised on a case by case basis, and that the exercise price of an option cannot in any event fall below the price stipulated in the Listing Rules or such higher price as may be fixed by our Directors, it is expected that grantees of an option will make an effort to contribute to the development of our Group so as to bring about an increased market price of the Shares in order to capitalize on the benefits of the options granted.

(b) Who may join

Our Directors (which expression shall, for the purpose of this paragraph, include a duly authorised committee thereof) may, at their absolute discretion, invite any person belonging to any of the following classes of participants, who our Board considers, in its sole discretion, have contributed or will contribute to our Group, to take up options to subscribe for Shares:

- (i) any Directors (including Executive Directors, Non-executive Directors and Independent Non-executive Directors) and employees of any member of our Group; and
- (ii) any advisers, consultants, distributors, contractors, customers, suppliers, agents, business partners, joint venture business partners, service providers of any member of our Group.

For the purposes of the Post-IPO Share Option Scheme, the options may be granted to any company wholly owned by one or more persons belonging to any of these classes of participants. For the avoidance of doubt, the grant of any options by our Company for the subscription of Shares or other securities of our Group to any person who falls within any of these classes of participants shall not, by itself, unless our Directors otherwise so determine, be construed as a grant of option under the Post-IPO Share Option Scheme.

The eligibility of any of these class of participants to the grant of any option shall be determined by our Directors from time to time on the basis of our Directors' opinion as to the participant's contribution to the development and growth of our Group.

(c) Maximum number of Shares

The maximum number of Shares which may be issued upon the exercise of all outstanding options granted and yet to be exercised under the Post-IPO Share Option Scheme and any other share option scheme of our Group shall not in aggregate exceed 10% of the shares in issue of our Company.

The total number of Shares which may be issued upon exercise of all options to be granted under the Post-IPO Share Option Scheme and any other share option scheme of our Group shall not in aggregate exceed 10% of the Shares in issue on the Listing Date, such 10% limit represents 266,800,000 Shares (the “**General Scheme Limit**”) but excluding any Shares which may be issued upon the exercise of the over-allotment option for the Listing. There was no service provider sublimit under the Post-IPO Share Option Scheme.

As at the date of this report, the Company had a total of 199,637,168 Shares available for issue under the Post-IPO Share Option Scheme (representing approximately 6.66% of the issued Shares as at the date of this report).

Subject to paragraph (a) above and without prejudice to paragraph (d) below, our Company may issue a circular to its Shareholders and seek approval of its Shareholders in a general meeting to extend the General Scheme Limit provided that the total number of Shares which may be issued upon exercise of all options to be granted under the Post-IPO Share Option Scheme and any other share option scheme of our Group shall not exceed 10% of the Shares in issue as at the date of approval of the limit and, for the purpose of calculating the limit, options (including those outstanding, cancelled, lapsed or exercised in accordance with the Post-IPO Share Option Scheme and any other share option scheme of our Group) previously granted under the Post-IPO Share Option Scheme and any other share option scheme of our Group will not be counted. The circular sent by our Company to its Shareholders shall contain, among other information, the information required under the Listing Rules.

Subject to paragraph (a) above and without prejudice to paragraph (c) herein, our Company may seek separate Shareholders’ approval in a general meeting to grant options beyond the General Scheme Limit or, if applicable, the extended limit referred to in paragraph (c) herein to participants specifically identified by our Company before such approval is sought. In such event, our Company must send a circular to its Shareholders containing a general description of the specified participants, the number and terms of options to be granted, the purpose of granting options to the specified participants with an explanation as to how the terms of the options serve such purpose and such other information required under the Listing Rules.

(d) Maximum entitlement of each participant

The total number of Shares issued and which may fall to be issued upon exercise of the options granted under the Post-IPO Share Option Scheme and any other share option scheme of our Company (including both exercised and outstanding options) to each participant in any 12-month period shall not exceed 1% of the issued share capital of our Company for the time being (the “**Individual Limit**”). Any further grant of options in aggregate in excess of the Individual Limit in any 12-month period up to and including the date of such further grant shall be subject to the issue of a circular to our Shareholders and our Shareholders’ approval in general meeting of our Company with such participant and his associates abstaining from voting. The number and terms (including the exercise price) of options to be granted to such participant must be fixed before Shareholders’ approval and the date of board meeting for proposing such further grant should be taken as the date of grant for the purpose of calculating the exercise price under note (1) to Rule 17.03(9) of the Listing Rules.

(e) Grant of options to connected persons

Any grant of options under the Post-IPO Share Option Scheme to a Director, chief executive or Substantial Shareholder of our Company or any of their respective associates must be approved by our Independent Non-executive Directors (excluding any Independent Non-executive Director who is the proposed grantee of the options).

Where any grant of options to a substantial Shareholder of our Company or an Independent Non-executive Director or any of their respective associates would result in the Shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding) to such person in the 12-month period up to and including the date of such grant:

- (i) representing in aggregate over 0.1% (or such other higher percentage as may from time to time be specified by the Stock Exchange) of the Shares in issue; and
- (ii) having an aggregate value, based on the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet as at the date of the offer of grant, in excess of HK\$5 million (or such other higher amount as may from time to time be specified by the Stock Exchange);

All connected persons of our Company must abstain from voting at such general meeting, except that any connected person may vote against the relevant resolution at the general meeting provided that his intention to do so has been stated in the circular. Any vote taken at the general meeting to approve the grant of such options must be taken on a poll.

Any change in the terms of options granted to a substantial Shareholder or an Independent Non-executive Director or any of their respective associates must be approved by our Shareholders in a general meeting.

(f) Time of acceptance and exercise of option

An option may be accepted by a participant within five business days from the date of the offer of grant of the option.

An option may be exercised in accordance with the terms of the Post-IPO Share Option Scheme at any time during a period to be determined and notified by our Directors to each grantee, which period may commence on a day after the date upon which the offer for the grant of options is made but shall end in any event not later than 10 years from the date of grant of the option subject to the provisions for early termination under the Post-IPO Share Option Scheme. 2. Share Award Scheme

The Share Award Scheme was adopted by the Company on 10 November 2014 and modified by the Board on 28 April 2015.

(a) Purpose of the Share Award Scheme

The grant of share awards (the “**Awards**”) recognises the contribution of the Directors, executive officers, senior management, employees and consultants of the Company and of its subsidiaries and consolidated affiliated entities (collectively, “**Scheme Companies**” and each, a “**Scheme Company**”) to the historical achievements of the Company. The Company has the intention to continue exploring ways to incentivise, retain and reward Scheme Companies’ directors, executive officers, senior management and employees and may implement other share award schemes or other share-based remuneration schemes in the future.

(b) Awards

Each Award is a right to receive a Share at the end of the vesting period, subject to vesting conditions provided for under the Share Award Scheme. For each Award, the Eligible Participants (as defined below) may receive, subject to vesting, one Share.

Awards cannot be sold, pledged or transferred by the Eligible Participants by any means, except by inheritance.

(c) Grant of Awards

The Share Award Scheme provides for the grant of Awards by the Company to beneficiaries (the “**Beneficiaries**”) selected at the discretion of the Board from among the directors, executive officers, senior management, employees and consultants of the Scheme Companies (the “**Eligible Participants**”). Shares will not be released under the Awards until the applicable vesting conditions have been satisfied.

(d) Shares underlying the Awards

The Company will from time to time transfer the necessary funds and instruct the scheme trustee (“**Scheme Trustee**”) to acquire Shares through on-market transactions so as to satisfy Awards.

The Share Award Scheme Shares will be held on trust by the Scheme Trustee until their release to the Beneficiaries upon vesting of their Awards.

The grant of Awards by the Company to a connected person of the Company will be subject to the requirements of Chapter 14A of the Listing Rules.

(e) Restrictions on grants and Share purchases

No instruction may be given to the Scheme Trustee to acquire Shares and no Award may be granted when the Board is in possession of unpublished inside information in relation to the Scheme Companies or when dealings by Directors are prohibited under any code or requirement of the Listing Rules and all applicable laws from time to time.

(f) Vesting of Awards

Vesting of Awards is subject to continued employment of the Beneficiaries with a Scheme Company over the vesting period as determined by the Board. Upon vesting, the Company will instruct the Scheme Trustee to release Share Award Scheme Shares to the Beneficiary on its behalf.

In the event of termination of the employment or corporate officer's mandate of a Beneficiary with a Scheme Company, his or her Awards will be forfeited: (i) in the case of employment contracts, such forfeiture shall take effect on the date of receipt of the dismissal letter or the submission of the resignation letter (as the case may be), notwithstanding any period of notice (regardless of whether it has been given or satisfied), or on the date of the termination of the employment agreement for other circumstances, and (ii) in the case of corporate officer's mandate, such forfeiture shall take effect on the date of the expiration of the term of the mandate, or on the date of the dismissal or notification of such dismissal.

In the case of retirement or early retirement of the Beneficiary, Awards are not forfeited. However, the Shares are not released until they vest on the grantee.

If a Beneficiary's employer ceases to be a Scheme Company during the vesting period, the continued employment condition will be deemed not to have been satisfied.

No consideration is paid or payable by the grantees for the Shares to be issued under the Share Award Scheme.

(g) Limit for each Beneficiary

Pursuant to a resolution passed at a meeting of the Board on 29 November 2016, the maximum number of Awards which may be granted to a Beneficiary but unvested under the Share Award Scheme was revised to not exceed 1% of the Shares in issue from time to time.

(h) The Share Award Scheme Period

The Share Award Scheme shall be valid and effective from 28 April 2015 and end on the earlier of (i) the business day immediately prior to the tenth anniversary of 28 April 2015 except in respect of any non-vested Awards granted prior to the expiration of the Share Award Scheme, for the purpose of giving effect to the vesting of such Awards or otherwise as may be required in accordance with the provisions of the Share Award Scheme; and (ii) such date of early termination as determined by the Board provided that such termination shall not affect any subsisting rights of any Beneficiary in respect of the Awards already granted.

(i) Outstanding Shares awarded

In July 2015, the Scheme Trustee purchased a total of 62,160,000 Shares on the Stock Exchange at a total consideration of approximately HK\$74.7 million (equivalent to approximately RMB59.0 million). During the year ended 31 August 2022, no share award was granted, vested, cancelled or lapsed under the Share Award Scheme. The number of share award available for grant under the scheme mandate as at 1 September 2021 and 31 August 2022 were all 24,309,988. There was no service provider sublimit under the Share Award Scheme.

The Company did not expect to grant further Share awards under the Share Award Scheme prior to its expiry on 27 April 2025 and in order to reduce administrative cost of the Company, the Board has resolved to terminate the trust of the Share Award Scheme with effect from 17 October 2022. In accordance with the rules of the Share Award Scheme, the total of 24,309,988 Shares (representing approximately 0.81% of the issued Shares as at the date of this report) were resettled and transferred to the ESPP Trust established for Employee Share Purchase Plan on 3 November 2022.

3. Employee Share Purchase Plan (“ESPP”)

The Company’s ESPP was approved and adopted on 12 October 2020 which provides eligible employees with the opportunity to acquire proprietary interests in the Company and to encourage eligible employees to work towards enhancing the value of the Company and the Shares for the benefit of the Company and the Shareholders as a whole. Chinese employees in the PRC who have been employed by the Group for three years or more are eligible to participate in the ESPP. The ESPP is effective for a period of 5 years from the adoption date. The remaining life of the scheme is approximately 24 months from the date of this report. Each year employees may make contributions according to their respective ranks, and a trustee will be responsible for purchasing Shares on their behalf. Under the ESPP, eligible employees of the Group may elect to purchase the Company’s shares (“**Employee Contribution Share(s)**”) and, through the grant of matching restricted share units (“**RSUs**”), receive one matching share (“**Matching Share(s)**”) for every three shares purchased and held until the end of the vesting period. Each eligible employee’s participation level is capped at RMB2,000 or RMB1,000 per calendar month for senior and middle management and RMB1,000 or RMB500 per calendar month for general employees. No consideration is payable by participants on grant of Matching RSUs. The vesting period with respect to a Matching RSU is the period commencing on the first allocation date (i.e. the 1st day of each March and September) of the offering period in which such Matching RSU was granted to a participant, and ending on the third anniversary of such date. On the allocation date within an offering period, the trustee shall purchase, in one or more tranches, as many Shares as may be purchased by using all of the Employee Contributions made for the preceding six months and held under the trust on such date.

Upon vesting of the Matching RSUs (i.e. three years from the first share purchase date in a plan year), those employees who are still employed with the Group will receive one Matching Share for each RSU granted to him or her. The Matching Shares can either be provided to recipients through the issuance of new shares by the Company or be purchased on market by the trustee of the ESPP.

For the year ended 31 August 2022, no Matching Shares were granted under the ESPP, no Matching RSUs were granted and no Matching RSUs were vested. Since the adoption date of the ESPP, no new Shares were issued under the ESPP. As at 31 August 2022, nil Shares are available for issue under the ESPP. The number of Matching RSUs available for grant under the ESPP as of 1 September 2021 and 31 August 2022 was nil and nil, respectively.

The number of Shares that may be issued in respect of options and awards granted under all schemes of the Company during the year ended 31 August 2022 divided by the weighted average number of shares of the relevant class in issue for the year ended 31 August 2022 is 0.

On 20 June 2023, the Independent Investigator has completed the Independent Investigation and issued the investigation report on the findings of the Independent Investigation and provided therein recommendations to the IBC in respect of the Relevant Matters (“**Investigation Report**”). The IBC, having reviewed the findings and results of the Independent Investigation, presented the Investigation Report, together with its recommendations, to the Board for consideration and approval. The Board concurred with the IBC that the content and findings of the Independent Investigation are reasonable and acceptable and the Board believed that (i) there was no reasonable regulatory concern regarding the integrity of the management or any individuals with substantial influence over the Company’s management and operations, which could potentially put investors at risk and undermine market confidence; and (ii) the enhanced internal control measures adopted by the Company were sufficient and effective in fulfilling the Company’s obligations and protecting its interests as per the Listing Rules. Unless otherwise defined, capitalised terms used in this section shall have the same meanings as those defined in the CB Announcements. The updates regarding relevant events in relation to the Convertible Bonds after the reporting period are as follows:

- (a) As disclosed in the announcement of the Company dated 5 October 2022, notwithstanding the occurrence of the Applicable Relevant Event, on 15 August 2022, the Consenting Bondholders entered into the First Standstill Agreement which set out, among other things, the parties’ in-principle agreement to implement and otherwise give effect to the original “Proposal” as defined in the notice of meeting from the Company to the Bondholders dated 1 September 2022. The First Standstill Agreement was automatically terminated in accordance with its terms on 14 September 2022, following which the Company and the Consenting Bondholders entered into further negotiations, including in relation to the Escrow Agreement. On 4 October 2022, the Company and the Consenting Bondholders entered into the Second Standstill Agreement, which set out, among other things, the parties’ in-principle agreement to implement and otherwise give effect to the new Proposal;
- (b) the Second Standstill Agreement was drafted on substantially similar terms as the First Standstill Agreement, albeit the Mandatory Redemption Undertaking (as defined in the announcement of the Company dated 16 August 2022) was amended such that the Redemption Amount shall take place on the Amended Mandatory Redemption Date. Until the Amended Mandatory Redemption Date, an amount equal to 40 per cent. of the Convertible Bonds originally issued at their principal amount plus accrued and unpaid interest up to 8 November 2022 (which comprises all, or substantially all, of the Redemption Amount) shall be subject to the terms of the Escrow Agreement;
- (c) the Meeting was convened and held on 27 October 2022. The Extraordinary Resolution as set out in the Notice of Meeting was duly passed at the Meeting by the requisite majority of Bondholders in accordance with the terms of the Trust Deed. The Proposed Waivers in relation to the Convertible Bonds became immediately effective upon the passing of the Extraordinary Resolution. The Amended and Restated Trust Deed and the Amended and Restated Agency Agreement giving effect to the Proposed Amendments were duly executed by each of the parties thereto on 27 October 2022. As a result, each present and future holder of the Convertible Bonds were bound by the terms of the Amended and Restated Trust Deed (which amended and restated the Trust Deed), and by the terms of the Amended and Restated Agency Agreement (which amended and restated the Agency Agreement);
- (d) in accordance with paragraph (i) of Condition 8(F) (Mandatory redemption) of the terms and conditions of the Convertible Bonds, the Company has (i) redeemed (on a pro rata basis) 40 per cent. of the aggregate principal amount of the Convertible Bonds outstanding (being an amount of U.S.\$50,000,000) (“**Redemption Amount**”), together with interest accrued but unpaid in respect of such amount from, and including, the previous Interest Payment Date (being 27 January 2023) up to, but excluding, the First Mandatory Redemption Date (being 3 February 2023). For the avoidance of doubt, interest accrued on the Redemption Amount from and including 8 November 2022 up to but excluding 27 January 2023 was paid by the Company in accordance with Condition 5 (Interest) of the Convertible Bonds;

Second occurrence of the relevant event on 17 April 2023

- (e) as disclosed in the announcement of the Company dated 14 April 2023, despite the Company's best efforts to comply with Condition 8(E) (Redemption for Relevant Event) of the Convertible Bonds, trading in the Company's shares on the Stock Exchange continued to remain suspended on 17 April 2023 resulting in the occurrence of a Relevant Event;
- (f) as disclosed in the announcement of the Company dated 18 April 2023, a Relevant Event occurred on 17 April 2023 on the basis that, the Shares continue to remain suspended from trading on the Stock Exchange;
- (g) upon the occurrence of a Relevant Event, the holder of each Bond would have the right, at such holder's option, to exercise the Bondholder Put Option;
- (h) as also disclosed in the announcement of the Company dated 14 April 2023, the Company shall not exercise the CIS Encumbrance Option pursuant to Condition 4(C) (Second Ranking CIS Encumbrance) of the Convertible Bonds on the basis that the creation of the Second Ranking CIS Encumbrance would trigger an 'event of default' under the New SGD Loan. Consequently, on 27 June 2023, under Condition 8(F)(ii) (Mandatory redemption) of the Convertible Bonds, the Company is required to make the Second Mandatory Redemption. However, due to the prevailing controls of the State Administration of Foreign Exchange of the PRC and other related PRC policies and regulations which are currently preventing the Company and its applicable Subsidiaries from remitting sufficient funds out of the PRC, regrettably, the Company will not have sufficient offshore funds to make the Second Mandatory Redemption on 27 June 2023, resulting in the occurrence of an Event of Default under Conditions 10(A)(i) and (v) of the Convertible Bonds;
- (i) as disclosed in the announcement of the Company dated 19 June 2023, the Exercise Period expired on 17 June 2023. As at 17 June 2023, the aggregate outstanding principal amount of the Convertible Bonds was U.S.\$75,000,000 and the aggregate principal face value of the Convertible Bonds in respect of which the Paying Agent has received a Relevant Event Redemption Notice on or prior to the expiry of the Exercise Period was US\$20,200,000.
- (j) as disclosed in the announcement of the Company dated 18 August 2023, the Company issued and disseminated to Bondholders a notice of meeting dated 18 August 2023 to request Bondholders to consider and, if thought fit, approve and pass the Extraordinary Resolution at a meeting of the Bondholders to be held on 11 September 2023, which will provide for certain amendments and waivers in relation to the Convertible Bonds; and
- (k) as disclosed in the announcement of the Company dated 12 September 2023, the Meeting was convened and held on 11 September 2023. The Extraordinary Resolution as set out in the Notice of Meeting was duly passed at the Meeting by the requisite majority of Bondholders in accordance with the terms of the Trust Deed. The Proposed Waivers in relation to the Convertible Bonds became immediately effective upon the passing of the Extraordinary Resolution and the occurrence of the Fee Pay Effective Date (being 12 September 2023). The Second Amended and Restated Trust Deed giving effect to the Proposed Amendments were duly executed by each of the parties thereto. As a result, each present and future holder of the Convertible Bonds were bound by the terms of the Second Amended and Restated Trust Deed.

For further details of the updates in relation to the Convertible Bonds after the reporting period, please refer to the CB Announcements. The Company will make further announcement(s) in relation to the above matters as and when appropriate.

CORPORATE GOVERNANCE CODE

The Board has committed to achieving high corporate governance standards. The Board believes that high corporate governance standards are essential in providing a framework for the Company to safeguard the interests of Shareholders and to enhance corporate value and accountability. The corporate governance principles of the Company put an emphasis on an effective Board with a high level of integrity, comprehensive internal controls, and a high degree of transparency and accountability, which enhances corporate value for Shareholders and protects the long-term sustainability of the Group and thereby achieving sustainable business growth and generating values over the longer term and the strategy for delivering the Group's objective. The Board has played a proactive role in the development of effective and sustainable business strategy and in aligning the Group's culture with the Group's purpose, values and strategy.

During the year ended 31 August 2022 and up to the date of this report, the Company has applied the principles as set out in the Corporate Governance Code and Corporate Governance Report (the "**CG Code**") contained in Appendix 14 to the Listing Rules and has complied with all the applicable code provisions, save and except for code provision C.2.1.

Code provision C.2.1 of Part 2 of the CG Code stipulates that the roles of chairman and CEO should not be performed by the same individual. Mr. Jen performs the dual roles of both chairman and CEO. The Board believes that by vesting the roles of both chairman and CEO in the same person, the Company derives the benefit of ensuring consistent leadership within the Group, which in turn enables more effective and efficient overall strategic planning for the Group. The Board considers that the balance of power and authority for the present arrangement will not be impaired and this structure will enable the Company to make and implement decisions promptly and effectively.

The Board will continue to review and monitor the practices of the Company for the purpose of complying with the CG Code and maintaining a high standard of corporate governance practices of the Company.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code as set out in Appendix 10 to the Listing Rules as its own securities dealing code to regulate all dealings by Directors and relevant employees of securities in the Company and other matters covered by the Model Code.

Specific enquiries have been made of all the Directors and the relevant employees and they have confirmed that they have complied with the Model Code during the year ended 31 August 2022, save and except for the following.

Mr. Jen verbally informed the designated Director of the proposed Acquisition and received the verbal acknowledgement from the designated Director before conducting the Acquisition. After the business trip, Mr. Jen sent a written notice to the designated Director and received a written acknowledgement from the designated Director. As such, Mr. Jen had failed to comply with (1) Rule A.3(a)(i) of the Model Code which provides that, among other matters, a director must not deal in any securities of the listed issuer on any day on which its financial results are published; and (2) Rule B.8 of the Model Code which provides that, among other matters, a director must not deal in any securities of the issuer without first notifying in writing the chairman or a director designated by the board for specific purpose.

In view of the above inadvertent mistake and the non-compliance of the Model Code, the Company has implemented corresponding remedial measures, including but not limited to reminding all Directors regarding (i) the trading prohibition as required under the Model Code, in particular, the blackout period only ends on the date on which the relevant results announcement is published regardless of the time of the meeting approving such results; and (ii) the need, if in doubt, of seeking professional advice before dealing in the shares of the Company to the extent permitted under all applicable laws and regulations. The Company has also engaged legal adviser to provide training in respect of, among other matters, the dealing restrictions and requirements under the Model Code to all Directors and the Company Secretary in order to avoid similar incident in the future.

The Company has maintained an effective system in monitoring the dealings by Directors (including a notification mechanism) to ensure compliance with the Model Code. In particular, the Company has notified all Directors the prohibition period before the commencement of such prohibition period. The Board is of the view that the guidelines and procedures for the director's dealings of shares in the Company are adequate and effective.

Nomination and Corporate Governance Committee

The Company has established a Nomination and Corporate Governance Committee (“N&CGC”) with written terms of reference in compliance with paragraphs B.3 and A.2 of the CG Code. The N&CGC has the following two main functions: (i) nomination function including reviewing the structure, size, composition and performance of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company’s corporate strategy, identifying individuals suitably qualified to become board members and select or make recommendations to the Board on the selection of individuals nominated for directorships, assessing the independence of Independent Non-executive Directors and making recommendations to the Board on matters relating to the appointment of Directors; and (ii) corporate governance function including developing and reviewing the Company’s corporate governance policies and practices and making recommendations to the Board, reviewing and monitoring the training and continuous professional development of Directors and senior management, reviewing and monitoring the Company’s policies and practices on compliance with legal and regulatory requirements, developing, reviewing and monitoring the code of conduct and compliance manual (if any) applicable to employees and directors and reviewing the Company’s compliance with the CG Code and disclosure in the Corporate Governance Report.

As at 31 August 2022, the N&CGC consisted of three members: Mr. Shu Liang Sherman Jen, Mr. Peter Humphrey Owen and Mr. Alan Shaver (resigned with effect from 31 August 2023). Mr. Jen was an Executive Director and Mr. Owen and Mr. Shaver were Independent Non-executive Directors. Mr. Jen was the chairman of the N&CGC.

Director Nomination Policy

On 9 November 2018, the Company adopted a director nomination policy which sets out the selection criteria and process and the Board succession planning considerations in relation to nomination and appointment of Directors. When assessing and selecting candidates of directors, the N&CGC and the Board will consider the character, integrity, qualifications, including professional qualifications, skills, knowledge and experience and diversity elements as described in the Board Diversity Policy of the candidates. For appointment of Independent Non-executive Directors, the Company will also consider the independence of the candidates in accordance with the Listing Rules and the commitment of sufficient time in order to discharge the duties as the member of the Board and the Board Committees.

CORPORATE GOVERNANCE REPORT

For appointment of directors, the N&CGC should recommend to the Board to appoint suitable candidates for directorship. For person nominated by shareholders for election as a director at the general meeting of the Company, the N&CGC and/or the Board should assess such candidate based on the above selection criteria to determine the eligibility of such candidate to be appointed as a director, and thus make recommendation to the shareholders on the proposal of election of director at the general meeting.

For re-election of directors at the general meeting, the N&CGC and/or the Board should review the overall contribution and services made by the retired directors to the Company, and consider whether their level of engagement and performance in the Board meet the above standards, and make recommendation to the shareholders on the proposed re-election of directors at the general meeting.

During the year ended 31 August 2022, the N&CGC held three meetings. The attendance record of the meeting is set out in the table below:

Name of Committee Member	Attendance/Number of meeting
Mr. Shu Liang Sherman Jen	3/3
Mr. Peter Humphrey Owen	3/3
Mr. Alan Shaver (<i>resigned with effect from 31 August 2023</i>)	2/3

During the meeting, the N&CGC reviewed the structure, size, composition and diversity of the Board, assessed the independence of Independent Non-executive Directors, made recommendation to the Board for the re-election of directors, reviewed the Company's policies and practices on corporate governance, and on compliance with the CG Code, the Listing Rules and other legal and regulatory requirements and discussed the adequacy on the training and continuous professional development of Directors and senior management.

Board Diversity Policy

The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance and strives to maintain a Board with diversity perspectives at all levels, in particular, those aligning with the Company's strategies and objectives. In determining the composition of the Board and the nomination of directors, the Company takes into consideration a number of factors, including but not limited to gender, age, cultural and educational background, professional qualifications and skills, knowledge and industries and regional experience. Measurable objectives are adopted for achieving diversity of the Board. As at the date of this report, the Board comprises seven Directors comprising two female Directors and five male Directors. Gender diversity in respect of the Board has been achieved to a certain extent, as opposed to a single-gender board. The Board would continue to take initiatives to identify suitable candidates so as to appoint at least one additional female Director on the Board in the next 5 years. For succession planning to maintain gender diversity on the Board, the Board will ensure, by upholding an open, fair and reasonable human resource policy with equal opportunities for talent attraction and promotion regardless of gender, that a diverse pipeline of candidates is available to take up leadership positions when any vacancy arises.

As at 31 August 2022, for the gender ratio in the workforce, 32.1% were male and 67.9% were female. Our approach for talent recruitment and retention is to employ a diverse team that works together collaboratively and encourage differences and individuality in employees with respect to equal opportunities, diversity and anti-discrimination. To enhance efficiency, we have not set a measurable objective for achieving gender diversity at the workforce level, the Company is determined to commit to adopting the meritocratic and diverse approach which provides equal consideration and opportunities to all qualified candidates regardless of gender in terms of hiring and promotion process. The Company will conduct regular assessment on the diversity perspective, measurable objectives and progress in achieving the objective of diversity.

The N&CGC is responsible for monitoring and reviewing the Board Diversity Policy annually. During the year ended 31 August 2022, the N&CGC reviewed the implementation and effectiveness of the Board Diversity Policy and the results were satisfactory and the N&CGC was satisfied with the diversity of the existing Board and did not recommend any change of the size of the Board.

DIRECTORS' RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements of the Company for the year ended 31 August 2022.

The statement of the independent auditors of the Company about their reporting responsibilities on the financial statements is set out in the Independent Auditor's Report on page 84 to page 87 in this report.

As disclosed in Note 2 to the consolidated financial statements in this report, as of 31 August 2022, the Group had net current liabilities of approximately RMB1,267,273,000. The Group's total secured bank borrowings and convertible bonds amounted to approximately RMB763,136,000 and RMB778,663,000 respectively as of 31 August 2022; while its cash and cash equivalents amounted to approximately RMB805,876,000 as of 31 August 2022.

Subsequent to the end of the reporting period, borrowings amounting to SGD23,070,000, SGD243,228,000 and SGD39,640,000 (equivalent to approximately RMB107,275,000, RMB1,131,010,000 and RMB184,338,000, respectively), respectively, were fully settled.

Subsequent to the end of the reporting period, on 22 December 2022, Canadian International School Pte Ltd. ("**CIS**"), an indirectly wholly-owned subsidiary of the Company, entered into a new secured borrowing agreement amounted to USD143,000,000 (equivalent to approximately RMB1,036,750,000) (the "**New CIS Loan**" for the principal purpose of repayment of the original borrowing amounted to SGD188,081,000 (equivalent to approximately RMB874,634,000) (the "**Original CIS Loan**").

As of the date of this report, the aggregate outstanding principal amount of the convertible bonds in the book of the Company, as well as secured borrowings in the book of CIS, are USD75,000,000 (equivalent to approximately RMB543,750,000) (the "**Outstanding Bonds**") after repayment of the principal amount of USD50,000,000 prior to the date of this report and the New CIS Loan of USD143,000,000 (equivalent to approximately RMB1,036,750,000 respectively).

Certain of the Outstanding Bonds amounted to USD31,250,000 (equivalent to approximately RMB226,563,000) were agreed to be repaid in January 2024, while the New CIS loan is repayable in July 2024 and has the right to apply an extension of 12 months which subject to an approval from the lender. The detailed information on the Outstanding Bonds and the New CIS Loan is illustrated in Notes 34 and 31 respectively to the consolidated financial statements.

The above conditions indicate the existence of material uncertainties which cast significant doubt regarding the Group's ability to continue as a going concern. In view of such circumstances, the Directors considered that even in the very unlikely event that the New CIS Loan will default in the future, it will not affect the continuity of the business of the Company as well as the Group's PRC segment, as there is no corporate guarantee nor any other means of shares pledged on the Company or the PRC segments on the New CIS Loan. And even though the default of the New CIS Loan will trigger a cross-default terms over the Outstanding Bonds, the Directors believe that the Group can raise and possess sufficient cash and cash equivalents for the repayment of the Outstanding Bonds in case the cross-default terms had been triggered.

In addition to the above, the Directors also have undertaken a number of plans and measures to improve the Group's liquidity and financial position. including; (i) negotiating a new bank loan of SGD300,000,000 (equivalent to approximately RMB1,442,000,000) ("**New Negotiating Loan**") to replace the New CIS Loan and repay the Outstanding Bonds; (ii) exercising the right to apply an extension of 12 months on the New CIS Loan in accordance with the New CIS Loan agreement which will be subjected to the approval from the lender of the New CIS Loan; (iii) remitting and maintaining sufficient offshore fund to repay the Outstanding Bonds from subsidiaries of the PRC; (iv) in discussions with local government departments to comply with Implementation Regulations; and (v) adjusting the strategy to focus on development of high schools and overseas schools which are not affected by the Implementation Regulations.

The Directors consider that the Group can continue as a going concern based on the assumptions that (i) the Group can raise and possess sufficient cash and cash equivalents for the repayment of the Outstanding Bonds; (ii) the above financing plan can be successfully completed; and (iii) no further rules and interpretation from the government will adversely affect the continuing operations.

Further discussion on the uncertainties of the Group's going concern has been set out in the sections headed "Independent Auditor's Report – Material uncertainty related to going concern" and "Notes to the Consolidated Financial Statements – 2. Going concern basis".

Property, plant and equipment

Refer to Notes 17 and 19 to the consolidated financial statements

In addition, the Group's impairment test involves application of judgement and is based on assumptions and estimates.

Our audit procedures included, among others:

- Assessing the identification of the related cash generating units;
- Assessing the arithmetical accuracy of the value-in-use calculations;
- Comparing the actual cash flows with the cash flow projections;
- Assessing the reasonableness of the key assumptions (including revenue growth, terminal growth rates and discount rates); and
- Checking input data to supporting evidence

Impairment assessment of goodwill and trademark

Refer to Notes 21, 22 and 23 to the consolidated financial statements

These impairment tests are significant to our audit because the balances of goodwill and trademark of RMB1,949,551,000 and RMB571,378,000 as at 31 August 2022 respectively are material to the consolidated financial statements. In addition, the Group's impairment tests involve application of judgement and are based on assumptions and estimates.

2. GOING CONCERN BASIS

As of 31 August 2022, the Group had net current liabilities of approximately RMB1,267,273,000. The Group’s total secured bank borrowings and convertible bonds amounted to approximately RMB763,136,000 and RMB778,663,000 respectively as of 31 August 2022; while its cash and cash equivalents amounted to approximately RMB805,876,000 as of 31 August 2022.

Subsequent to the end of the reporting period, borrowings amounting to SGD23,070,000, SGD243,228,000 and SGD39,640,000 (equivalent to approximately RMB107,275,000, RMB1,131,010,000 and RMB184,338,000, respectively), respectively, were fully settled.

Subsequent to the end of the reporting period, on 22 December 2022, Canadian International School Pte Ltd. (“**CIS**”), an indirectly wholly-owned subsidiary of the Company, entered into a new secured borrowing agreement amounted to USD143,000,000 (equivalent to approximately RMB1,036,750,000) (the “**New CIS Loan**”) for the principal purpose of repayment of the original borrowing amounted to SGD188,081,000 (equivalent to approximately RMB874,634,000) (the “**Original CIS Loan**”).

As of the date of this report, the aggregate outstanding principal amount of the convertible bonds in the book of the Company, as well as secured borrowings in the book of CIS, are USD75,000,000 (equivalent to approximately RMB543,750,000) (the “**Outstanding Bonds**”) after repayment principal amount of USD50,000,000 prior to the date of this report and the New CIS Loan of USD143,000,000 (equivalent to approximately RMB1,036,750,000) respectively.

Certain of the Outstanding Bonds amounted to USD31,250,000 (equivalent to approximately RMB226,563,000) were agreed to be repaid in January 2024, while the New CIS Loan is repayable in July 2024 and has the right to apply an extension of 12 months which subject to an approval from the lender. The detailed information on the Outstanding Bonds and the New CIS Loan is illustrated in Notes 34 and 31 respectively to the consolidated financial statements.

2. GOING CONCERN BASIS (Continued)

The above conditions indicate the existence of material uncertainties which cast significant doubt regarding the Group's ability to continue as a going concern. In view of such circumstances, the Directors of the Company considered that even in the very unlikely event that the New CIS Loan will default in the future, it will not affect the continuity of the business of the Company as well as the Group's PRC segment, as there is no corporate guarantee nor any other means of shares pledged on the Company or the PRC segments on the New CIS Loan. And even though the default of New CIS Loan will trigger a cross-default terms over the Outstanding Bonds, the Directors of the Company believe that the Group can raise and possess sufficient cash and cash equivalents for the repayment of the Outstanding Bonds in case the cross-default terms had been triggered.

In addition to the above, the Directors also have undertaken a number of plans and measures to improve the Group's liquidity and financial position, including: (i) negotiating a new bank loan of SGD300,000,000 (equivalent to approximately RMB1,442,000,000) (the "**New Negotiating Loan**") to replace the New CIS Loan and repay the Outstanding Bonds; (ii) exercising the right to apply an extension of 12 months on the New CIS Loan in accordance with the New CIS Loan agreement which will be subjected to the approval from the lender of the New CIS Loan; (iii) remitting and maintaining sufficient offshore fund to repay the Outstanding Bonds from subsidiaries of the People's Republic of China (the "**PRC**"); (iv) in discussions with local government departments to comply with implementation regulations of the PRC for the law for promoting of private education (the "**Implementation Regulations**"); and (v) adjusting the strategy to focus on development of high schools and overseas schools which are not affected by the Implementation Regulations.

The Directors of the Company consider that the Group can continue as a going concern based on the assumptions that (i) the Group can raise and possess sufficient cash and cash equivalents for the repayment of the Outstanding Bonds; (ii) the above financing plan can be successfully completed; and (iii) no further rules and interpretation from the government will adversely affect the continuing operations.

Should the Group be unable to continue as a going concern, adjustments would have to be made to the consolidated financial statements to adjust value of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets non-current liabilities as current assets and current liabilities, respectively. The effect of these adjustments has not been reflected in the consolidate financial statements.

3. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

In the current year, the Group has adopted all the new and revised International Financial Reporting Standards ("**IFRSs**") issued by the International Accounting Standards Board (the "**IASB**") that are relevant to its operations and effective for its accounting year beginning on 1 September 2021. IFRSs comprise International Financial Reporting Standards ("**IFRS**"); International Accounting Standards ("**IAS**"); and Interpretations. The adoption of these new and revised IFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's consolidated financial statements and amounts reported for the current year and prior years.

The Group has not applied the new IFRSs that have been issued but are not yet effective. The application of these new IFRSs will not have material impact on the consolidated financial statements of the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 August 2022

4. SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation of consolidated financial statements

These consolidated financial statements have been prepared in accordance with IFRSs, and the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

IFRSs comprise International Financial Reporting Standards (“**IFRS**”); International Accounting Standards (“**IAS**”); and Interpretations.

These consolidated financial statements have been prepared under the historical cost convention, as modified by certain financial instruments which are carried at their fair values/fair values less costs to sell.

The preparation of consolidated financial statements in conformity with IFRSs requires the use of certain key assumptions and estimates. It also requires the directors to exercise its judgements in the process of applying the accounting policies. The areas involving critical judgements and areas where assumptions and estimates are significant to these consolidated financial statements, are disclosed in Note 5 to the consolidated financial statements.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (including the Consolidated Affiliated Entities) made up to 31 August. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill relating to that subsidiary and any related accumulated foreign currency translation reserve.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and non controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 August 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Business combination and goodwill

The acquisition method is used to account for the acquisition of a subsidiary in a business combination. The cost of acquisition is measured at the acquisition-date fair value of the assets given, equity instruments issued, liabilities incurred and contingent consideration. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received. Identifiable assets and liabilities of the subsidiary in the acquisition are measured at their acquisition-date fair values.

The excess of the cost of acquisition over the Company's share of the net fair value of the subsidiary's identifiable assets and liabilities is recorded as goodwill. Any excess of the Company's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss as a gain on bargain purchase which is attributed to the Company.

In a business combination achieved in stages, the previously held equity interest in the subsidiary is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in consolidated profit or loss. The fair value is added to the cost of acquisition to calculate the goodwill.

If the changes in the value of the previously held equity interest in the subsidiary were recognised in other comprehensive income (for example, equity investments at fair value through other comprehensive income), the amount that was recognised in other comprehensive income is recognised on the same basis as would be required if the previously held equity interest were disposed of.

Goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is measured at cost less accumulated impairment losses. The method of measuring impairment losses of goodwill is the same as that of other assets as stated in the accounting policy (II) below. Impairment losses of goodwill are recognised in consolidated profit or loss and are not subsequently reversed. Goodwill is allocated to cash-generating units that are expected to benefit from the synergies of the acquisition for the purpose of impairment testing.

The non-controlling interests in the subsidiary are initially measured at the non-controlling shareholders' proportionate share of the net fair value of the subsidiary's identifiable assets and liabilities at the acquisition date.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Foreign currency translation

(i) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The consolidated financial statements are presented in Renminbi ("**RMB**"), which is the Company's presentation currency and the functional currency of the principal operating subsidiaries of the Group.

(ii) *Transactions and balances in each entity's financial statements*

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items that are measured at fair values in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

(iii) *Translation on consolidation*

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- All resulting exchange differences are recognised in the foreign currency translation reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities and of borrowings are recognised in the foreign currency translation reserve. When a foreign operation is sold, such exchange differences are recognised in consolidated profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 August 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal annual rates are as follows:

Buildings	1.9% to 4.0%
Leasehold improvements	The shorter of useful life or lease term
Motor vehicles	19.0% to 20.0%
Furniture and fixtures	11.9% to 48.0%
Computer equipment	19.0% to 20.0%

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

Construction in progress represents buildings under construction and plant and machinery pending installation, and is stated at cost less impairment losses. Depreciation begins when the relevant assets are available for use.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

(e) Investment properties

Investment properties are land and/or buildings held to earn rentals and/or for capital appreciation. An investment property is measured initially at its cost including all direct costs attributable to the property.

After initial recognition, the investment property is stated at cost less accumulated depreciation and impairment losses. The depreciation is calculated using the straight line method to allocate the cost to the residual value over its estimated useful life.

The gain or loss on disposal of an investment property is the difference between the net sales proceeds and the carrying amount of the property, and is recognised in profit or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Leases

The Group as a lessee

Leases are recognised as right-of-use assets and corresponding lease liabilities when the leased assets are available for use by the Group. Right-of-use assets are stated at cost less accumulated depreciation and impairment losses. Depreciation of right-of-use assets is calculated at rates to write off their cost over the shorter of the asset's useful life and the lease term on a straight-line basis. The principal annual rates are as follows:

Leasehold lands	Over the term of leases
Leased properties	Over the term of leases
Favorable lease	Over the term of leases

Right-of-use assets are measured at cost comprising the amount of the initial measurement of the lease liabilities, lease payments prepaid, initial direct costs and the restoration costs. Lease liabilities include the net present value of the lease payments discounted using the interest rate implicit in the lease if that rate can be determined, or otherwise the Group's incremental borrowing rate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the lease liability.

Payments associated with short-term leases and leases of low-value assets are recognised as expenses in profit or loss on a straight-line basis over the lease terms. Short-term leases are leases with an initial lease term of 12 months or less. Low-value assets are assets of value below US\$5,000.

The Group as a lessor

(i) Operating leases

Leases that do not substantially transfer to the lessees all the risks and rewards of ownership of assets are accounted for as operating leases. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

(ii) Finance leases

Leases that substantially transfer to the lessees all the risks and rewards of ownership of assets are accounted for as finance leases. Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment in the leases.

(g) Intangible assets

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination with finite useful lives are reported at costs less accumulated amortisation and any accumulated impairment losses. Intangible assets acquired in a business combination with indefinite useful lives are carried at cost less any subsequent accumulated impairment losses.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Books for lease

Books for lease are stated in the consolidated statement of financial position at cost less subsequent accumulated amortisation and subsequent accumulated impairment losses, if any. Amortisation is recognised in the consolidated statement of profit or loss and other comprehensive income on a straight-line basis over the period of the books' economic life.

(i) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted-average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

(j) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire; the Group transfers substantially all the risks and rewards of ownership of the assets; or the Group neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

(k) Financial assets

Financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an asset is under a contract whose terms require delivery of the asset within the timeframe established by the market concerned, and are initially recognised at fair value, plus directly attributable transaction costs except in the case of investments at fair value through profit or loss. Transaction costs directly attributable to the acquisition of investments at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets of the Group are classified under the following categories:

- Financial assets at amortised cost; and
- Financial assets at fair value through profit or loss

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(k) Financial assets (Continued)

(i) Financial assets at amortised cost

Financial assets (including trade and other receivables) are classified under this category if they satisfy both of the following conditions:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

They are subsequently measured at amortised cost using the effective interest method less loss allowance for expected credit losses.

(ii) Financial assets at fair value through profit or loss

Financial assets are classified under this category if they do not meet the conditions to be measured at amortised cost and the conditions of debt investments at fair value through other comprehensive income unless the Group designates an equity investment that is not held for trading as at fair value through other comprehensive income on initial recognition.

Investments at fair value through profit or loss are subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss. The fair value gains or losses recognised in profit or loss are net of any interest income and dividend income. Interest income and dividend income are recognised in profit or loss.

(l) Loss allowances for expected credit losses

The Group recognises loss allowances for expected credit losses on financial assets at amortised cost. Expected credit losses are the weighted average of credit losses with the respective risks of a default occurring as the weights.

At the end of each reporting period, the Group measures the loss allowance for a financial instrument at an amount equal to the expected credit losses that result from all possible default events over the expected life of that financial instrument (“**lifetime expected credit losses**”) for trade receivables, contract assets and lease receivables, or if the credit risk on that financial instrument has increased significantly since initial recognition.

If, at the end of the reporting period, the credit risk on a financial instrument (other than trade receivables, contract assets and lease receivables) has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to the portion of lifetime expected credit losses that represents the expected credit losses that result from default events on that financial instrument that are possible within 12 months after the reporting period.

The amount of expected credit losses or reversal to adjust the loss allowance at the end of the reporting period to the required amount is recognised in profit or loss as an impairment gain or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value. Bank overdrafts which are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents.

(n) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under IFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(o) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(p) Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

(q) Derivative financial instruments

Derivatives (including contingent considerations under business combinations) are initially recognised and subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss.

(r) Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(s) Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer with reference to the customary business practices and excludes amounts collected on behalf of third parties. For a contract where the period between the payment by the customer and the transfer of the promised product or service exceeds one year, the consideration is adjusted for the effect of a significant financing component.

The Group recognises revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. Depending on the terms of a contract and the laws that apply to that contract, a performance obligation can be satisfied over time or at a point in time. A performance obligation is satisfied over time if:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance;
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If a performance obligation is satisfied over time, revenue is recognised by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the product or service.

(t) Other revenue

Interest income is recognised using the effective interest method.

Rental income is recognised on a straight-line basis over the lease term.

(u) Employee benefits

(i) Retirement benefit costs

Payments to defined contribution retirement benefit plans are recognised as expenses when employees have rendered services entitling them to the contributions.

(ii) Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employee rendered the services. All short-term employee benefits are recognised as an expense unless another IFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leaves and sick leave) after deducting any amount already paid.

(iii) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs and involves the payment of termination benefits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 August 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(v) Share-based payments

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share-based payments reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share-based payment reserve. For equity-settled share-based payments that vest immediately at the date of grant, the fair value of the equity-settled share-based payments granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share-based payments reserve will be transferred to share premium. When restricted shares are vested, the amount previously recognised in share-based payment reserve will be transferred to shares held for restricted share award scheme, with any difference recognised to retained profits.

(w) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(x) Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Government grants relating to the purchase of assets are deducted from the carrying amount of the assets. The grant is recognised in profit or loss over the life of a depreciable asset by way of a reduced depreciation charge.

Repayment of a grant related to income is applied first against any unamortised deferred income set up in respect of the grant. To the extent that the repayment exceeds any such deferred income, or where no deferred income exists, the repayment is recognised immediately in profit or loss. Repayment of a grant related to an asset is recorded by increasing the carrying amount of the asset or reducing the deferred income by the amount repayable. The cumulative additional depreciation that would have been recognised in profit or loss to date in the absence of the grant is recognised immediately in profit or loss.

Such grants are presented under "other income".

(y) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 August 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(y) Taxation (Continued)

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model of the Group whose business objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax for such investment properties are measured based on the expected manner as to how the properties will be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(z) Segment reporting

Operating segments and the amounts of each segment item reported in the financial statements are identified from the financial information provided regularly to the Group's most senior executive management for the purpose of allocating resources and assessing the performance of the Group's various lines of business.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(aa) Related parties

A related party is a person or entity that is related to the Group.

- (A) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Company or of a parent of the Company.
- (B) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (A).
 - (vii) A person identified in (A)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to a parent of the Company.

(ab) Impairment of assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and other intangible assets except goodwill, deferred tax assets, investments, inventories and receivables to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 August 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(ab) Impairment of assets (Continued)

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

(ac) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(ad) Convertible bonds

Convertible bonds which entitle the holder to convert the loans into equity instruments, other than into a fixed number of equity instruments at a fixed conversion price, are regarded as combined instruments consist of a liability and derivative components. At the date of issue, the fair values of the derivative components are determined using an option pricing model. The remainder of the proceeds is allocated to the liability component and is carried as a liability at amortised cost using the effective interest method until extinguished on conversion or redemption. The derivative components are measured at fair value with gains and losses recognised in profit or loss.

Transaction costs are apportioned between the liability and derivative components of the convertible loans based on the allocation of proceeds to the liability and derivative components on initial recognition.

(ae) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the financial statements when material.

5. CRITICAL JUDGMENT AND KEY ESTIMATES

Critical judgements in applying accounting policies

In the process of applying the accounting policies, the directors have made the following judgements that have the most significant effect on the amounts recognised in the financial statements.

(a) Going concern basis

These consolidated financial statements have been prepared on a going concern basis, the validity of which depends on the certain measures to improve the Group's liquidity and financial position. Details are explained in Note 2 to the consolidated financial statements.

(b) Legal titles of certain buildings

As stated in Note 17 to the consolidated financial statements, the titles of certain buildings have not been transferred to the Group as at 31 August 2022. Despite the fact that the Group has not obtained the relevant legal titles, the directors determine to recognise those buildings as property, plant and equipment on the grounds that they expect the transfer of legal titles in future should have no major difficulties and the Group is in substance controlling those buildings.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) Impairment of property, plant and equipment, right-of-use assets

Property, plant and equipment and right-of-use assets are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group's management has to exercise judgement and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset (including right-of-use assets), the Group's management estimates the recoverable amount of the cash generating unit to which the assets belongs. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 August 2022

5. CRITICAL JUDGMENT AND KEY ESTIMATES (Continued)

Key sources of estimation uncertainty (Continued)

(a) Impairment of property, plant and equipment, right-of-use assets (Continued)

As at 31 August 2022, the carrying amounts of property, plant and equipment and right-of-use assets subject to impairment assessment were RMB2,285,196,000 and RMB80,992,000 (2021: RMB2,002,303,000 and RMB84,738,000) respectively, after taking into account the impairment losses of RMBNil and RMBNil (2021: RMB545,230,000 and RMB46,798,000) in respect of property, plant and equipment and right-of-use assets, that have been recognised respectively. Details of the impairment of right-of-use assets, property, plant and equipment are disclosed in Note 19.

(b) Goodwill and trademark impairment

Determining whether goodwill and trademark is impaired requires an estimation of the value in use of the cash-generating unit ("CGU") to which goodwill and trademark has been allocated. Significant judgment and assumptions were required by the management of the Group in assessing the impairment recoverable amounts of cash generating units. The recoverable amounts are determined with reference to the value in use of the relevant cash generating units, which required significant assumptions on discount rates, growth rates of students and tuition fee during the forecasting period in order to derive the net present value of the discounted future cash flow analysis. Where the actual future cash are less than expected, or change in facts and circumstances which results in downward revision of future cash flow or upward revision of discount rate, there will be a change of recoverable amount, and further impairment loss may arise. Furthermore, the estimated cash flows and discount rates are subject to higher degree of estimation uncertainties in the current year due to uncertainty on how the Covid-19 pandemic may progress and evolve and volatility in financial markets.

The carrying amount of goodwill and trademark at the end of the reporting period was approximately RMB1,949,551,000 and RMB571,378,000 (2021: RMB1,896,803,000 and RMB557,039,000) (net of accumulated impairment loss of 2022 is RMB1,949,551,000 and RMB2,416,000 (2021: RMB199,215,000 and RMB2,416,000). Details of the impairment loss assessment are set out in Note 23.

(c) Fair value measurement of convertible bonds

As at 31 August 2022, the Group's convertible bonds amounting to RMB778,663,000 (2021: RMB753,665,000) are measured at fair value with fair value being determined based on significant unobservable inputs using valuation techniques. Judgement and estimation are required in establishing the relevant valuation techniques and the relevant inputs thereof. Whilst the Group considers these valuations are the best estimates, the ongoing Covid-19 pandemic and the implication of the Implementation Regulations may cause disruptions to the Group's businesses, which have led to higher degree of estimation uncertainties and volatility of inputs used in respect of the valuations in the current year. Changes in assumptions relating to these factors could result in material adjustments to the fair value of these instruments. See Note 34 and 40(c) for further disclosures.

6. REVENUE

Revenue represents (i) service income from tuition fees and boarding fees, (ii) fees from summer and winter camps provided to students, (iii) fees from selling educational books to students, and (iv) fees from overseas studies consulting services, sales of goods and educational materials to students, less refunds and sales related tax and (v) catering services income.

The revenues from continuing operations attributable to the Group's service lines are as follows:

Performance obligations for contracts with customers

Tuition and boarding fees (revenue recognised over time)

For tuition and boarding services, the Group provides classroom education services and boarding services through the Group's high schools, middle schools, elementary schools, preschools and foreign schools to customers (individual students) during the service period for a fixed fee. These services are mainly paid in advance prior to the beginning of each school year. The service period for tuition and boarding services is the related school year. A contract liability is recognised for fee received whereas revenue has yet been recognised.

The Directors have determined that the performance obligation of providing tuition and boarding services is satisfied over time as customers simultaneously receive and consume the benefits of these services throughout the service period.

Revenue from summer and winter camps (revenue recognised over time)

Other education related services include summer and winter camps and educational vacation activities provided to students for a fixed fee. These services are mainly paid in advance prior to the service is provided. The service period for other education related services is the duration of the summer and winter camps or educational vacation activities. A contract liability is recognised for fee received whereas revenue has yet been recognised.

The Directors have determined that the performance obligation of other education related services is satisfied over time as customers simultaneously receive and consume the benefits of these services throughout the service period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 August 2022

6. REVENUE (Continued)

Performance obligations for contracts with customers (Continued)

Sales of textbooks (revenue recognised at a point in time)

The Group sells textbooks and other educational materials to students which are purchased from third parties. The Group recognises revenue from sales of textbooks and educational materials at a point in time when the control of textbooks and educational materials are passed to students. The Group considers that it is acting as the principal in the transaction as the Group controls the specific goods before it is transferred to the customer after taking into considerations indicators such as the Group is primarily responsible for fulfilling the promise to provide the goods to its customers and has the inventory risk. Therefore, the Group recognises revenue from sales of textbooks and educational materials on a gross basis.

Sales of goods and materials (revenue recognised at a point in time)

The Group sells goods and materials at the supermarkets and stationery stores, as well as the clothing to the students which are purchased from third parties. The Group recognises revenue from sales of goods and materials at a point in time when the control of goods, materials and clothing are passed to students. The Group considers that it is acting as the principal in the transaction as the Group controls the specific goods before it is transferred to the customer after taking into considerations indicators such as the Group is primarily responsible for fulfilling the promise to provide the goods to its customers and has the inventory risk. Therefore, the Group recognises revenue from sales of goods and materials on a gross basis.

Revenue from catering services income (revenue recognised over time)

The Group provides catering services directly to canteens of the schools. These services are charged at certain rates on the gross income of the school canteens.

The Directors have determined that the performance obligation of providing catering services is satisfied over time as customers simultaneously receive and consume the benefits of these services throughout the service period.

Others (including revenue recognised overtime and at a point in time)

Others represent revenue from management fee received from school canteens operated by third party service providers, fees from overseas studies consulting service and sales of goods and educational materials, which individually are not material. For management fee received, the Group recognises revenue over time through the duration of the service period; and for fees from overseas studies consulting service, sales of goods and other educational materials, the Group recognises revenue at a point in time when the control of the goods and services are passed to students.

Transaction price allocated to the remaining performance obligation for contracts with customers

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 August 2022 is expected to be recognised within one year amounted to RMB501,550,000 (2021: RMB441,673,000). As permitted under IFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

7. OPERATING SEGMENTS

Information reported to the Group's Chief Executive Officer, being the chief operating decision maker ("CODM"), for the purposes of resource allocation and assessment of segment performance focuses on types of services provided.

Following the acquisition of Star Readers Pte. Ltd. in Singapore on 26 August 2020, the Group's international school education business in overseas starts to contribute significant portion of revenue and profits. Starting from this interim period, discrete segment information is developed and reported to the CODM. Specifically, the Group's reportable segments under IFRS 8 are as follows:

- (i) PRC Segment
- (ii) Overseas Segment

The Group is mainly engaged in international school education in the PRC and Southeast Asia. The CODM reviews revenue analysis by services lines when making decisions about allocating resources and assessing performance of the Group.

As disclosed in Note 12, the Group has deconsolidated the Affected Schools on 31 August 2021 which were part of the PRC Segment and presented the Affected Schools as discontinued operations separately in the consolidate statement of profit or loss and other comprehensive income. The segment information below excludes amounts of discontinued operations. The inter-company transactions were eliminated without any adjustments between the continuing operations and the discontinued operations for the year ended 31 August 2021.

Note:

On 15 November 2016, the Company received a writ of summons from Hong Kong Zhixin Financial News Agency Ltd. (“**Zhixin**”) seeking among other things, specific performance of the consultancy agreement between the Company and Zhixin by the allotment and issue of 7,000,000 shares of the Company to Zhixin, and damages in lieu or in addition thereof (“**Zhixin Case**”). On 28 November 2016, the Company filed with the High Court of the Hong Kong Special Administrative Region its acknowledgement of service of the writ and indicated its intention to defend the claim.

In December 2016, Zhixin took out an application for summary judgment against the Company. The hearing of the summary judgment application took place on 25 October 2017 in which Zhixin’s application was dismissed. The case now has proceeded to the main trial stage.

On 29 January 2018, Zhixin filed its amended statement of claim to allege that it is entitled to 17,500,000 shares of the Company by virtue of an option (the “**Option**”) provided in the Agreement. The date of hearing at the Court of First Instance of the High Court for the Zhixin Case is fixed on 16 May 2022.

The number of shares disclosed above has not considered the effect of the Share Subdivision that became effective on 9 July 2018.

In late August 2022, the Company received the judgment on the Zhixin Case (“**Judgment**”) dated 31 August 2022 from the Court. Pursuant to the Judgment, it was ruled in favour of Zhixin and held that, among others, (1) the Company was ordered to pay damages in the amount of HK\$70,840,000 together with interest; (2) the counterclaims of the Company for misrepresentation, declaratory relief and/or restitution against Zhixin were dismissed; and (3) a costs order nisi was made that costs of the proceedings be paid by the Company to Zhixin, with certificate for two counsel, to be taxed if not agreed. The Court made a further order on 23 September 2022 (“**Order of 23 September 2022**”) in relation to the amount payable in connection with the proceedings of the Zhixin Case. Subsequently, Zhixin and the Company reached an agreement to settle all sums payable in connection with the Judgment and the Order of 23 September 2022 (“**Settlement**”). On 5 January 2023, in light of the Settlement reached by the parties, Zhixin and the Company jointly applied to the Court for an order to stay the enforcement of the Judgment and the Order of 23 September 2022. Pursuant to the Settlement, on 6 January 2023, a settlement sum of approximately HK\$118.2 million (equivalent to RMB99,205,000) was partially covered by a deposit made to the Court, and the rest was paid by the Company to Zhixin (which has acknowledged receipt of such payment) to fully settle the Company of its payment obligations owed to Zhixin in respect of the Judgment inclusive of damages, costs and interests as set out in the Judgment and the Order of 23 September 2022. On 25 May 2023, the Court made an order that the full payment of approximately HK\$100.6 million paid by the Company on 6 January 2023 shall fully settle the company’s outstanding payment obligations owed to Zhixin in respect of the judgment sum inclusive of damages, costs and accrued interests as set out in the Judgment and the Order of 23 September.

No provision for Hong Kong Profits Tax has been made as the Group's operation in Hong Kong had no assessable profit for the years ended 31 August 2022 and 2021. On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HKD2,000,000 of profits of the qualifying group entity will be taxed at 8.25%, and profits above HKD2,000,000 will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

The Inland Revenue Board, an agency of the Ministry of Finance in Malaysia, is responsible for the administration of direct taxes enacted under the Income Tax Act. The standard corporate tax rate in Malaysia is 24%.

11. TAXATION (Continued)

The standard corporate tax rate in Singapore is 17% and Singapore follows a single-tier corporate tax system.

Dalian Beipeng Software is entitled to High and New Technology Enterprise (“**HNTE**”) status starting from the calendar year of 2017. Dalian Beipeng Software is eligible for a preferential enterprise income tax rate of 15% starting from the calendar year of 2017. The HNTE status is valid for three years, and is renewed on 2 December 2019.

According to the Implementation Regulations for the Law for Promoting Private Education, private schools for which the sponsors do not require reasonable returns are eligible to enjoy the same preferential tax treatment as public schools, subject to review by relevant tax bureaus each year. Dalian Maple Leaf International School (the “**Dalian High School**”) and Wuhan Maple Leaf International School, have been granted enterprise income tax exemption for the tuition income from relevant local tax bureaus.

Taxation arising in other jurisdictions is calculated as the rates prevailing in the relevant jurisdictions.

During the year ended 31 August 2022, non-taxable tuition income was RMB262,079,000 (2021: RMB214,028,000), and the related expense of RMB92,669,000 (2021: RMB98,082,000) was not deductible.

As at 31 August 2022, the Group had unused tax loss of RMB154,116,000 (2021: RMB143,099,000) available for offset against future taxable profits. A deferred tax asset has been recognised in respect of approximately RMB86,267,000 (2021: RMB Nil) of such losses. As at 31 August 2022, tax losses of RMB144,830,000 (2021: RMB133,813,000) will expire in various years before 2027 (2021: 2026).

Under the EIT law of PRC, withholding tax is imposed on dividends declared in respect of profits earned by PRC subsidiaries from 1 January 2008 onwards. Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences attributable to accumulated undistributed profits of the PRC subsidiaries amounting to RMB872,517,000 at 31 August 2022 (2021: RMB1,023,451,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

12. DISCONTINUED OPERATIONS

During the year ended 31 August 2021, the PRC State Council announced the issuance of the Implementation Regulations, which became effective on 1 September 2021. The key provisions of the Implementation Regulations include, but not limited to: (1) prohibiting foreign investors from controlling private schools that provide compulsory education (which includes the six years primary school education and the three years middle school education provided to PRC residents) and not-for-profit schools that provides pre-school education (the “**Affected Schools**”) by means of merger, acquisition and contractual arrangements, and (2) prohibiting private schools providing compulsory education from conducting transactions with the related parties. Therefore, the Contractual Arrangements with the Affected Schools is considered not enforceable upon the effective of the Implementation Regulations. Based on its reassessment of the Contractual Arrangements and the profound implication of the Implementation Regulations, the Directors considered that, the Group’s ability to use its power from the Contractual Arrangements to direct the relevant activities of and its ability to affect its variable returns from the Affected Schools had ceased by 31 August 2021 immediately before the Implementation Regulations became effective. By the end of 31 August 2021, it was no longer practicable for the Group to make relevant decisions to obtain significant variable returns from the Affected Schools. Consequently, the Group lost control over the Affected Schools on 31 August 2021 immediately before the Implementation Regulations became effective, and deconsolidated the Affected Schools as of 31 August 2021.

The Directors has assessed that each of the Affected Schools comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting purposes, therefore each of the Affected Schools is a CGU. The Directors classified the Affected Schools as discontinued operations and the results of the discontinued operations were presented separately in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 August 2021. The comparative information relating to the discontinued operations has been re-presented to conform to the current year’s presentation.

For both years, the Group leases various buildings for its operations. Lease contracts are entered into for a fixed term of 12 months to 30 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

Details of impairment of right-of-use assets are set out in Note 19.

19. IMPAIRMENT TESTING ON LONG-TERM ASSETS

As disclosed in Note 11, the Group has deconsolidated the Affected Schools on 31 August 2021. There are certain property and equipment and right-of-use assets held by the Consolidated Affiliated Entities (other than the Affected Schools) occupied by the Affected Schools before the deconsolidation and are expected to be continuously occupied by the Affected Schools subsequent to the deconsolidation. The Group concluded that impairment indicators existed in relation to such assets due to the Implementation Regulations and deconsolidation of the Affected Schools, and performed an impairment assessment on such assets with carrying amounts (before impairment) of RMB545,230,000 and RMB46,798,000, for property and equipment and right-of-use assets, (together, the "Occupied Asset") respectively.

When determining the recoverable amount of the Occupied Assets, the Directors considered (1) currently, there's no rental agreement with the Affected Schools on the use of the Occupied Assets, (2) the fact that the Implementation Regulations prohibit the Affected Schools to conduct transactions with the related parties, as a result, upon the effective of the Implementation Regulations the Group could not charge fees to the Affected Schools for the use of the Occupied Assets, and (3) it is not practicable for the Group to remove such occupation which imposes significant restriction on the Occupied Assets, and such restriction is a characteristic of the Occupied Assets and not entity specific.

19. IMPAIRMENT TESTING ON LONG-TERM ASSETS (Continued)

Based on the above assessment of the implications of the Implementation Regulations, and the related facts and circumstances of the Occupied Assets, full impairment was made for the Occupied Assets as at 31 August 2021. Impairment losses of RMB545,230,000 and 46,798,000 have been recognised against the carrying amount of property and equipment and right-of-use assets, respectively.

As at 31 August 2022, the Group's management assessed: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate.

Based on the above assessment made for the long-term assets, as at 31 August 2022, no impairment losses have been recognised against the carrying amount of property and equipment and right-of-use assets.

20. INVESTMENT PROPERTIES

The Group leases out various offices under operating leases with rentals payable monthly. The leases typically run for an initial period of 1 to 3 years.

The Group is not exposed to foreign currency risk as a result of the lease arrangements, as all leases are denominated in the respective functional currencies of group entities. The lease contracts do not contain residual value guarantee and/or lessee's option to purchase the property at the end of lease term.

The fair value has been arrived based on a valuation carried out by Cushman & Wakefield Limited ("C&W") for investment property located in PRC and by Valplus Consulting Limited for investment property located in Canada. The valuation was determined by capitalising the rental income derived from the existing tenancies with due provision for the reversionary income potential of the property interests and determined by cost of reproduction new. The key inputs are term capitalisation rate, market unit rent of individual unit, and the cost of reproduction new.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

22. OTHER INTANGIBLE ASSETS (Continued)

The trademark of Kingsley International School and Canadian International School has a legal life of 10 years and is renewable every 10 years at minimal cost. The Directors are of the opinion that the Group would renew the trademark continuously and has the ability to do so. Various studies including product life cycle studies, market, competitive and environmental trends, and brand extension opportunities have been performed by the management of the Group, which supports that the trademark has no foreseeable limit to the period over which the trademarked products are expected to generate net cash inflows for the Group.

As a result, the trademark is considered by the management of the Group as having an indefinite useful life because it is expected to contribute to net cash inflows indefinitely. The trademark will not be amortised until its useful life is determined to be finite. Instead it will be tested for impairment annually and whenever there is an indication that it may be impaired. Particulars of the impairment testing are disclosed in Note 23.

All of the Group's student base, trademark and licence were acquired through business combination. Trademark has an infinite estimated useful life. Student base has a finite estimated useful life and are amortised on expected usage of the intangible assets. Licence has a finite estimated useful life of 1.75-4 years and it is amortised on the straight-line basis over the estimated useful life.

23. IMPAIRMENT TESTING ON GOODWILL AND INTANGIBLE ASSETS WITH INDEFINITE USEFUL LIVES

For the purposes of impairment testing, goodwill and trademarks with indefinite useful lives set out in Notes 21 and 22 have been allocated to the CGUs that are expected to benefit from the business combination. The carrying amounts of goodwill and trademarks (net of accumulated impairment losses) allocated to these units are as follows:

	Goodwill At 31 August		Trademark At 31 August	
	2022 RMB'000	2021 RMB'000	2022 RMB'000	2021 RMB'000

	1,949,551	1,896,803	571,378	557,039

The recoverable amount of each CGU has been determined based on value in use calculation. The calculation uses cash flow projections based on financial budgets approved by the management covering a five-year period and discount rate. Extrapolated growth rate used in cash flow projections is based on the relevant industry growth forecasts and does not exceed the average long-term growth rate for the relevant industry. Other key assumptions for the value in use calculations relate to the estimation of cash flows which include budgeted revenue, such estimation is based on each CGU's past performance and the management's expectations for future market development. The cash flows projections, growth rates and discount rate have been reassessed as at 31 August 2022 taking into consideration higher degree of estimation uncertainties in the current year due to how the Covid-19 pandemic may progress and evolve and volatility in financial markets, including potential disruptions of the Group's operations.

23. IMPAIRMENT TESTING ON GOODWILL AND INTANGIBLE ASSETS WITH INDEFINITE USEFUL LIVES (Continued)

The Group tests goodwill and trademarks annually for impairment or more frequently if there are indicators that goodwill and trademark might be impaired. The impairment test of the current year were performed by the Company with reference to an independent valuation provided by Duff & Phelps, an independent firm of professional valuer not connected with the Group, who has appropriate qualification and recent experience of valuation of similar scope. Its address is Suite 801–803, 8/F Tower 2, China Central Place, 79 Jianguo Road, Chaoyang District, Beijing, China.

During the year ended 31 August 2021, the management has taken into consideration (1) the current year performance of Kingsley and STAR, and (2) the development of the Covid – 19 pandemic and its impact on international travelling and international students, which had direct impact on Kingsley and STAR's forecasted international students numbers and consequently future performance outlook. Based on the discounted cash flow analysis of Kingsley and STAR, impairment were identified for both Kingsley and STAR. The Directors have determined impairment of goodwill and trademark directly related to Kingsley amounting to RMB66,086,000 and RMB2,416,000, respectively. The impairment of goodwill directly related to STAR amounting to RMB133,129,000. Both Kingsley and STAR belongs to the Overseas Segment of the Group. The impairment loss has been included in profit or loss in the other gains and losses line item.

During the year ended 31 August 2022, in view of the (1) improved performance of Kingsley and STAR during the year, and (2) the gradual recovery of the Covid-19 pandemic and its reduced impact on international travelling and international students, and based on the discounted cash flow analysis of Kingsley and STAR, the Directors considered that no impairment of goodwill and trademark directly related to Kingsley and STAR should be recognised for the year ended 31 August 2022.

The management has conducted a sensitivity analysis of key assumptions applied in conducting the above impairment testing of STAR and Kingsley which assumes one assumption changed, while other parameters remain constant.

Loss allowance for trade receivables has been measured at an amount equal to lifetime ECL. The ECL on trade receivables are estimated by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast directions of conditions at the reporting date. The group has recognised a loss allowance of 100% against all receivables over 365 days past due because historical experience has indicated that these receivables are generally not recoverable.

The following table details the risk profile of trade receivables from contracts with customers based on the group's provision matrix. As the group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the group's different customer base. The following is an analysis of trade receivables by age, presented based on the dates the students were informed for payment.

40. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies

The Group's major financial instruments include deposits, trade and other receivables, financial assets measured at FVTPL, pledged bank deposits, bank balances and cash, amount due from related parties, other payables, amount due to related parties, borrowings, consideration payable, contingent consideration and convertible bonds. Details of these financial instruments are disclosed in the respective notes. These risks include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

(i) Currency risk

The Group conducts its business mainly in the PRC and Southeast Asia. The majority of the Group's revenue and expenditures are denominated in RMB SGD and MYR. The Company and several subsidiaries of the Company have bank balances, other receivables, other payables and borrowings which are denominated in foreign currencies. The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the end of reporting period are as follows:

	Liabilities		Assets	
	2022 RMB'000	2021 RMB'000	2022 RMB'000	2021 RMB'000
HKD	78,603	8,690	84,416	95,401
SGD	763,136	1,358,291	87,704	30,233
CAD	–	–	4,594	443
USD	–	–	15,616	92,232
MYR	–	–	28,910	–
	841,739	1,366,981	221,240	218,309

Sensitivity analysis

The Group is mainly exposed to the currency of USD, SGD, CAD, HKD and MYR (2021: USD, SGD, CAD and HKD). The following table details the Group's sensitivity to a 5% (2021: 5%) increase and decrease in RMB against USD, SGD, CAD, HKD and MYR (2021: USD, SGD, CAD and HKD). 5% (2021: 5%) is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts the translation at the year-end for a 5% (2021: 5%) change in foreign currency rates. A positive number below indicates a decrease in profit before tax where RMB strengthens 5% against USD, SGD, CAD, HKD and MYR (2021: USD, SGD, CAD and HKD). For a 5% (2021: 5%) weakening of RMB against USD, SGD, CAD, HKD and MYR (2021: USD, SGD, CAD and HKD), there would be an equal and opposite impact on the profit, and the balances below would be negative.

	2022 RMB'000	2021 RMB'000
Profit or loss related to USD	781	4,612
Profit or loss related to SGD	(33,772)	(66,403)
Profit or loss related to CAD	230	22
Profit or loss related to HKD	290	4,336
Profit or loss related to MYR	1,446	–

In the opinion of the Directors, the sensitivity analysis is unrepresentative of the inherent foreign currency risk as the exposure at the end of the reporting year does not reflect the exposure for the full year.

Market risk (Continued)

(ii) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to lease liabilities (see Note 30 for details) and pledged bank deposits (see Note 24 for details). The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank borrowings (see Note 31 for details). The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of interest rates on bank balances and Swap Offer Rate ("SOR") arising from the Group's Singapore dollar denominated borrowings. The Group manages its interest rate exposures by assessing the potential impact arising from any interest rate movements based on interest rate level and outlook. The management will review the proportion of borrowings in fixed and floating rates and ensure they are within reasonable range.

A fundamental reform of major interest rate benchmarks is being undertaken globally, including the replacement of some Swap Offer Rate ("SOR") with alternative nearly risk-free rates. The Group is closely monitoring the transition to new benchmark interest rates.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for variable interest rate bank balances and borrowings. If interest rates had been 5 basis points higher/lower and all other variables were held consistent, the Group's post-tax profit for the year ended 31 August 2022 would decrease/increase by RMB1,407,000 (2021: decrease/increase by RMB10,496,000).

(iii) Other price risk

The Group is exposed to equity price risk through its investments in listed equity securities for the year ended 31 August 2022. The management manages the exposure to equity price risk of investments in listed equity securities by closely monitoring fluctuation of these investments.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks relating to held-for-trading equity instruments investments at the reporting date.

If the price of the respective equity instruments had been 5% higher/lower, post-tax profit for the year ended 31 August 2022 would increase/decrease by RMB1,585,000 as a result of the changes in fair value.

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to wealth management products, deposits, trade and other receivables, pledged bank deposits, restricted cash and bank balances and cash. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

Except for investment in wealth management products which is subsequently measure at FVTPL, the Group performed impairment assessment for financial assets under ECL model. Information about the Group's credit risk management, maximum credit risk exposures and the related impairment assessment, if applicable, are summarised as below:

Pledged bank deposits/restricted cash/bank balances and cash

Credit risk on pledged bank deposits/restricted cash/bank balances and cash is limited because the counterparties are reputable banks with high credit ratings assigned by credit agencies. The Group assessed 12m ECL for pledged bank deposits/restricted bank deposits/bank balances and cash by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12m ECL on pledged bank deposits/restricted cash/bank balances and cash is considered to be insignificant.

Other receivables and deposits

For other receivables and deposits, the Directors make periodic individual assessment on the recoverability of other receivables and deposits based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The Directors believe that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. For the year ended 31 August 2022, the Group assessed the ECL for other receivables and deposits were insignificant.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management of the Group monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The amount of net current liabilities of the Group is approximately RMB1,267,273,000 (2021: RMB600,751,000) as at 31 August 2022, which causes the Group in significant liquidity risk.

The following tables detail the Group's remaining contractual maturity for its financial liabilities based on the agreed repayment terms. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. The interest rates as at the end of the reporting period are used for the cash flow calculation in relation to variable rate interest bearing financial liabilities.

(c) Fair value measurements of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis.

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair value of these financial assets and financial liabilities are determined (in particular, the valuation technique and inputs used).

Financial assets and financial liabilities	Fair value as at 31 August		Fair value hierarchy	Valuation techniques and key inputs
	2022	2021		
Financial assets at FVTPL – listed equity securities (Note 26)	RMB7,787,000	RMB8,274,000	Level 1	Quoted bid prices in an active market
Financial assets at FVTPL – wealth management products (Note 26)	RMB23,918,000	–	Level 2	Discounted cash flow, future cash flows are estimated based on contractual terms of the wealth management products and discounted at a rate that reflects that credit risk of the counterparties
Contingent liabilities in a business combination (as included in contingent consideration)	–	RMB24,178,000	Level 3	Discounted cash flow method was used to capture the present value of the expected future economic benefits that will flow out of the Group arising from the contingent consideration arrangement in relation to the second tranche transaction of STAR acquisition, based on an appropriate discount rate
Convertible Bonds issued by the Group and designated at FVTPL (Note 34)	RMB778,663,000	RMB753,665,000	Level 3	Binomial option pricing model and discounted cash flow method

(c) Fair value measurements of financial instruments (Continued)

Notes:

- (a) A slight increase in the discount rate used in isolation would result in a significant decrease in the fair value measurement of the Convertible Bonds, and vice versa. A 1% increase in the discount rate holding all other variables constant would decrease the carrying amount of the Convertible Bonds by RMB25,766,000.
- (b) A slight increase in the expected volatility/dividend yield used in isolation would result in a significant increase/decrease in the fair value measurement of the Convertible Bonds, and vice versa. A 2% increase in the volatility holding all other variables constant would increase the carrying amount of the Convertible bonds by RMB6,442,000. A 1% increase in the dividend yield holding all other variables constant would decrease the carrying amount of the Convertible Bonds by RMB6,442,000.

(d) Disclosure of valuation process used by the Group and valuation techniques and inputs used in fair value measurements at the end of reporting period:

The Group's financial controller is responsible for the fair value measurements of assets and liabilities required for financial reporting purposes, including level 3 fair value measurements. The financial controller reports directly to the Board of Directors for these fair value measurements. Discussions of valuation processes and results are held between the financial controller and the Board of Directors at least twice a year.

For level 3 fair value measurements, the Group will normally engage external valuation experts with the recognised professional qualifications and recent experience to perform the valuations.

45. STATEMENT OF FINANCIAL POSITION AND RESERVES OF THE COMPANY (Continued)

Note:

In preparing the financial statements of the Company, the Directors have given careful consideration to the future liquidity of the Company in light of the fact that the Company had net current liabilities of RMB510,007,000 (2021: RMB1,097,397,000) as at 31 August 2022.

The Directors consider that it is appropriate to prepare the Company's financial statements on the going concern basis taking into accounts the cash flow forecast of the Company prepared by the management of the Company and the nature of current liabilities and the Directors expect that operating activities of the Group can contribute substantial cash inflow to repay all liabilities when due and capital commitment of the Group or the Company when the amount is due.

Notwithstanding the above, as described in Note 2, the Group might not be able to continue to operate as a going concern, which may have impact on the Company's ability to continue to operate as a going concern.
