Financial performance for the year ended 31 March 2023

For FY2023, the Group recorded revenue of approximately HK\$63.7 million, representing a decrease of approximately 17.3% as compared to that of approximately HK\$77.0 million for FY2022. The decrease in revenue was mainly due to the downward pressure on the global economy which reduced the consumer spending on discretionary purchases and lead to decrease in demand of the Group's products.

The gross profit of the Group was approximately HK\$16.2 million for FY2023, representing an increase of approximately 14.9% as compared to that of approximately HK\$14.1 million for FY2022, and gross profit margin was approximately 25.4%, increase for 7.1 percentage points when compared to that of approximately 18.3% for FY2022. The increase in gross profit was mainly due to (i) negotiated lower cost of goods with suppliers; and (ii) less discounts was offered to customers.

The loss for the year of the Company was approximately HK\$1.4 million for FY2023, representing a decrease of approximately 93.8% as compared to that of approximately HK\$22.4 million for FY2022 mainly due to the decrease in cost of sales and the selling and distribution expenses resulted from the decrease in marketing and promotion expenses for the Group's fashion accessories business during FY2023.

LETTER FROM AMASSE CAPITAL

Financial performance for the year ended 31 March 2022

For FY2022, the Group recorded revenue of approximately HK\$77.0 million, representing a decrease of approximately 3.0% as compared to that of approximately HK\$79.4 million for FY2021. The decrease in revenue was mainly due to decrease in sales volume resulted from no extra discounts was offered to customers.

The gross profit of the Group was approximately HK\$14.1 million for FY2022, representing an increase of approximately 53.3% as compared to that of approximately HK\$9.2 million for FY2021, and gross profit margin was approximately 18.3%, increase for 6.7 percentage points when compared to that of approximately 11.6% for FY2021. The increase in gross profit was mainly due to (i) the fact that the COVID-19 epidemic (the “**Epidemic**”) was increasingly stabilized within the year and boosted the sales in fashion accessories online platform segment which has lower cost of sales; and (ii) no extra discounts was offered to customers when compared to FY2021.

The loss for the year of the Company was approximately HK\$22.4 million for FY2022, representing a decrease of approximately 15.8% as compared to that of approximately HK\$26.6 million for FY2021 mainly due to the combined effect of (i) decrease in cost of sales and administrative expenses; and (ii) the increase in selling and distribution expenses mainly resulted from the increase in the distribution costs such as logistics and shipping costs and the marketing and promotion expenses for the Group’s fashion accessories business during the FY2022.

Financial performance for the year ended 31 March 2021

For FY2021, the Group recorded revenue of approximately HK\$79.4 million, representing a decrease of approximately 65.1% as compared to that of approximately HK\$227.6 million for FY2020. The decrease in revenue was mainly due to the global outbreak of the Epidemic in January 2020 with the decrease in the total number of customers and transactions.

The gross profit of the Group was approximately HK\$9.2 million for FY2021, representing a decrease of approximately 83.5% as compared to that of approximately HK\$55.6 million for FY2020, and gross profit margin was approximately 11.6%, decrease of 12.8 percentage points when compared to that of approximately 24.4% for FY2020. The decrease in gross profit was mainly due to the impact of the Epidemic which led to (i) the decrease in revenue; (ii) the offer of extra discounts to customers when compared to FY2020; and (iii) the provision for inventories of approximately HK\$4.4 million made and recognised as cost of inventories sold during FY2021.

LETTER FROM AMASSE CAPITAL

The loss for the year of the Company was approximately HK\$26.6 million for FY2021, representing a turnover as compared to the profit for the year of the Company of approximately HK\$11.0 million for FY2020 mainly due to the decrease in revenue and gross profit as mentioned above.

Financial position as at 31 March 2023

The total assets of the Group were approximately HK\$154.3 million as at 31 March 2023, representing a decrease of 5.6% as compared to that of approximately HK\$163.5 million as at 31 March 2022. The assets of the Group mainly consist of (i) trade receivables, contract assets and other receivables; (ii) inventories; (iii) intangible assets; and (iv) cash and bank balances. The trade receivables, contract assets and other receivables includes receivable from the sales of goods, balances due from customers under sales of fashion accessories products and other receivables raised from which mainly are prepaid advertising expenses, logistics cost and deposit with trading platforms. The intangible assets consist of trademark and non-contractual customer lists and relationships.

The total liabilities of the Group were approximately HK\$23.9 million as at 31 March 2023, representing an increase of 5.3% as compared to that of approximately HK\$22.7 million as at 31 March 2022. The liabilities of the Group mainly consist of (i) trade and other payables; and (ii) income tax payable. The Group's trade payables principally comprise amounts outstanding for trade purchases and other payables mainly consists of other tax payable, other payables and accruals raised from which mainly are accrued audit fee and other operating expenses.

As at 31 March 2023, the net asset of the Group decreased approximately 7.4% from approximately HK\$140.8 million as at 31 March 2022 to approximately HK\$130.4 million. The decrease in net asset of the Group was mainly resulted from the combined effect of the increase in trade receivables and offset by the decrease in cash and bank balances due to the decrease in net asset value of PRC subsidiaries of the Group as the closing rate of Renminbi as at 31 March 2023 was weakened around 8% compared to the closing rate of 31 March 2022.

2. Future Plan and Prospects

The Group is principally engaged in fashion accessories jewellery business. As stated in the 2023 Annual Report, approximately 90% of the Group's revenue was derived from the United States of America (the "U.S.") during FY2023. The demands for consumer goods in the U.S. are expected to be affected by (i) the consumer price index; (ii) the disposable personal income; (iii) the interest rate; and (iv) the unemployment rate.

LETTER FROM AMASSE CAPITAL

According to the U.S. Bureau of Labor Statistics, the consumer price index (“CPI”) in the U.S. had increased by approximately 3.7% on a year-on-year basis in August 2023 when compared to that of approximately 3.2% for July 2023. A higher inflation rate erodes purchasing power of the consumers and may directly affect the affordability of consumer goods. Meanwhile, higher price tags on consumer goods also deter consumers’ spending as higher prices may discourage consumption.

According to the U.S. Bureau of Economic Analysis, the disposable personal income (the “DPI”) of the U.S. for the 2022 was approximately US\$18,703 billion which represented an increase of approximately 0.2% from that of approximately US\$18,664 billion for that 2021. The aforesaid growth rate of the U.S. DPI has shown a trend of slowing down when compared to an average annual growth rate of approximately 6.03% between 2017 and 2021.

The Federal Reserve of the United States of America (the “**Federal Reserve**”) has been on a path of raising interest rates to combat inflation. The interest rate has been increased from 0.5% to 5.5% since mid-March 2022 to mid-September 2023. The high interest rate environment would impact demands for consumer goods, as higher interest rates can encourage saving, discourage borrowing and increase the cost of financing which may lead to a decrease in consumer spending.

According to the statistics provided by the U.S. Bureau of Labor Statistics, the unemployment rate in the U.S. rose to 3.8% in August 2023 from 3.5% in July 2023 which is the highest since February 2022. As the more consumer are expecting to receive a steady income, the more of them are willing to make discretionary spending purchases. Therefore, the higher unemployment rate reported would have adversely affect on the consumer goods demand.

Having considered the above factors, we considered that the consumer goods industry in the U.S. remains uncertainty, we believe the business and operation environments of the Group will remain challenging.

We consider that the duration of the Review Period of approximately one year period prior to the Last Trading Day would be a reasonable and sufficient period to illustrate the recent closing price movement of the Shares.

As shown in chart above, the closing price of the Shares during the Review Period ranges from the lowest closing price of approximately HK\$0.046 per Share recorded on 28 December 2022, 12, 13, 16, 17, 18, 19 January 2023, 2, 3 February 2023 to the highest closing price of approximately HK\$0.310 per Share recorded on the Latest Practicable Date respectively with an average closing price per Share of approximately HK\$0.1163.

We have enquired the Directors regarding the possible reasons for such increase in the closing price of the Shares in the above period, and as confirmed by the Directors, the Directors were not aware of any happening which might have affected the closing price of the Shares.

Immediately after the date of the Joint Announcement and to the Latest Practicable Date (the “**Post-announcement Period**”), the daily closing price of the Shares was reached its peak of HK\$ 0.310 per Share recorded on the Latest Practicable Date. We have enquired into the Directors regarding the possible reasons for such increase in the closing price of the Shares in the Post-announcement Period, and as confirmed by the Directors, save as the Offer, the Directors were not aware of any happening which might have affected the closing price of the Shares.

LETTER FROM AMASSE CAPITAL

We noted that the Offer Price had been higher than the daily closing prices for 185 out of 264 trading days during the Review Period. The Offer Price of HK\$0.1812 represents a premium of approximately 293.9% over the lowest closing price per Share, a discount of approximately 41.5% to the highest closing price per Share and a premium of approximately 55.8% over the average closing price per Share during the Review Period, respectively.

We further noted that the closing price of the Shares as at the Latest Practicable Date of HK\$0.310 per Share exceeded the Offer Price and the Offer Price represented a discount of approximately 41.5% to the closing price of the Shares as at the Latest Practicable Date. However, we considered that there is no guarantee on whether the trading price of the Shares could be sustained at a level higher than the Offer Price during and/or after the Offer Period. Those Independent Shareholders who intend to accept the Offer are reminded that they should closely monitor the market price of Shares during the Offer Period and should consider selling their Shares in the open market, rather than accepting the Offer, if the net proceeds from the sale of such Shares in the open market would exceed the net proceeds receivable under the Offer.

After considering that (i) the Offer Price had been higher than the daily closing prices for 185 out of 264 trading days during the Review Period; and (ii) the Offer Price of represents a premium of approximately 293.9% over the lowest closing price per Share and a premium of approximately 55.8% over the average closing price per Share during the Review Period, we are of the view that the Offer Price is fair and reasonable.

Historical trading liquidity of the Shares

The number of trading days, the average daily number of the Shares traded per month (the “**Average Volume**”), and the respective percentages of the Average Volume as compared to the total number of issued Shares during the period from 16 September 2022 and up to the Latest Practicable Date, the Review Period, are tabulated as below:

Notes: 1. The calculation is based on the Average Volume divided by the total number of issued Shares at the end of each month during the Review Period (or at the Latest Practicable Date for October 2023).

2. The calculation is based on the Average Volume divided by the total number of issued Shares held by the public Shareholders at the end of each month during the Review Period (or at the Latest Practicable Date for October 2023).

LETTER FROM AMASSE CAPITAL

As illustrated above, during the Review Period, the Average Volume was ranging from 0.006% to 0.530% for the total number of issued Shares as at the end of each respective month (or at the Latest Practicable Date for October 2023). For the whole review period, the Average Volume was around 0.180% and 0.501% of total number of issued Shares and Shares held by public Shareholders respectively and we therefore consider the trading liquidity of the Shares is relatively low when compared to the total number of issued Shares and Shares held by public Shareholders respectively.

On the first trading day (i.e. 27 September 2023) after the Last Trading Date, the daily trading volume of the Shares increased to approximately 7.57 million Shares from approximately 0.58 million Shares as recorded on Last Trading Day (i.e. 15 September 2023). We consider that this increase in the trading volume of the Shares should have been the initial market reaction to the Joint Announcement.

Given the low historical trading volume of the Shares as stated above, it is uncertain as to whether there would be sufficient liquidity in the Shares for the Independent Shareholders to dispose of a significant number of Shares in the open market without exerting a downward pressure on the Share price. Accordingly, the market trading price of the Shares may not necessarily reflect the proceeds that the Independent Shareholders can receive by the disposal of their Shares in the open market. We consider that the Offer provide opportunities for the Independent Shareholders to realise all of their investments in the Company at a fixed price. It is noted that the closing price of the Shares as at the Latest Practicable Date of HK\$0.310 per Share was exceeded the Offer Price, those Independent Shareholders who intend to accept the Offer are reminded that they should closely monitor the market price of Shares during the Offer Period and should consider selling their Shares in the open market, rather than accepting the Offer, if the net proceeds from the sale of such Shares in the open market would exceed the net proceeds receivable under the Offer.

Comparison with other comparable companies

In assessing the fairness and reasonableness of the Offer Price, it is a general practice to make reference to other comparable companies. We attempt to carry out a comparable analysis with the price-to-earnings ratio (“**PER**”), price-to-book ratio (“**PBR**”) and price-to-sales ratio (“**PSR**”) which are the most commonly used benchmarks in valuing a company as the data for calculating the ratios can be obtained fairly and directly from publicly available information and reflect the value of the companies determined by the open market. However, since the Group had been in poor financial performance which recorded net losses since year ended 31 March 2021 for three consecutive years, therefore the Group is not appropriate for PER comparison purpose.

LETTER FROM AMASSE CAPITAL

For the purpose of our analysis, we have identified comparable companies based on the following criteria: (i) the shares of which are listed on the Main Board of the Stock Exchange; (ii) engages in principal business similar to those of the Group namely, the retail and wholesale of fashion accessories jewellery businesses contributed over 50% of its total revenue for the latest completed financial year; (iii) recorded net asset value in their respective latest published financial information; and (iv) the companies with market capitalisation of below HK\$500 million which is considered as of similar size as compared with the Company.

We noted that approximately 90% of the Group's revenue was derived from the U.S. during FY2023. Based on our preliminary analysis, we only identified one company (i.e. Affluent Partners Holdings Limited) which is listed on the Main Board of the Stock Exchange and engaged in retail and wholesale of fashion accessories jewellery businesses with 50% of its revenue derived from the U.S.. Therefore, in order to maintain the samples size and ensure that we have a meaningful number of comparable companies, we have not included the selection criteria of where its revenue geographically derived. We found 7 Hong Kong listed companies (the "Market Comparables") which meet the said criteria and they are exhaustive. Despite the fact that the geography location of the revenue generated have not been included in the selection criteria, we are of the view that the Market Comparables selected base on the aforesaid selection criteria had covered all companies listed on the Main Board of the Stock Exchange that engaged in retail and wholesale of fashion accessories jewellery businesses and can provide a sufficient sample size for our analysis. Shareholders should note that the businesses, the market capitalisation, operations and prospects of the Group are not exactly the same as the Market Comparables.

1. The PBR of the Market Comparables were calculated based upon their respective market capitalization as at the Latest Practicable Date and divided by the equity attributable to the owners of the respective companies disclosed in the respective latest financial reports.
2. The implied PBR of the Offer was calculated based upon the Offer Price multiplied by total number of issued Shares as at the Latest Practicable Date and then divided by the audited consolidated net asset value of the Company attributable to Shareholders of approximately HK\$130,396,000 as at 31 March 2023 as extracted from the 2023 Annual Report.
3. The PSR of the Market Comparables were calculated based upon their respective market capitalization as at the Latest Practicable Date and divided by the revenue of the respective companies disclosed in the respective latest annual reports.
4. The implied PSR of the Offer was calculated based upon the Offer Price multiplied by total number of issued Shares as at the Latest Practicable Date and then divided by the revenue of the Company of approximately HK\$63,692,000 for the year ended 31 March 2023 as extracted from the 2023 Annual Report.

LETTER FROM AMASSE CAPITAL

As depicted from the above table, the PBR of the Market Comparables ranged from approximately 0.08 times to approximately 5.88 times, with a median and average of approximately 0.38 times and 1.36 times. Accordingly, the implied PBR of the Offer of approximately 1.53 times is higher than the median and average of the PBR of the Market Comparables.

It is noted from the above table that the PSR of the Market Comparables ranged from approximately 0.09 times to approximately 5.30 times, with a median and average of approximately 0.65 times and 1.25 times. Accordingly, the implied PSR of the Offer of approximately 3.14 times is higher than the median and average of the PSR of the Market Comparables.

RECOMMENDATION

Mr. Chen will be nominated as an executive Director and the chairman of the Board, given Mr. Chen's background and experience in consumer goods business as well as his management experience, Mr. Chen may contribute to the business management and enhance efficiency of the Group's operations by expanding the Group's product offerings through launching more fashion accessories products and diversifying its products range to cover skincare and health products and by strengthening the Group's online and offline sales channels. However, having considered the principal factors and reasons as discussed above, in particular:

- (i) the fact that the Group had been loss-making for recorded net losses since year ended 31 March 2021 for three consecutive years. Notwithstanding the financial performance of the Company demonstrated an improvement form for the latest years, as stated in sub-section headed "2. Future Plan and Prospects" above, we considered that the consumer goods industry in the U.S. remains uncertainty and we believe the business and operation environments of the Group will remain challenging;

LETTER FROM AMASSE CAPITAL

- (ii) the Offer Price of HK\$0.1812 is at a price level higher than the daily closing prices of the Shares for 185 out of 264 trading days as quoted on the Stock Exchange during the Review Period. Although the Offer Price represented a discount of approximately 41.5% to the closing price of the Shares as at the Latest Practicable Date of HK\$0.310 per Share, there is no guarantee on whether the trading price of the Shares could be sustained at a level higher than the Offer Price during and/or after the Offer Period;
- (iii) given the low liquidity of the Shares, the Offer provide opportunities for the Independent Shareholders including those with significant shareholding interest to realise all of their investments in the Company at a fixed price;
- (iv) the Offer Price represents a premium of approximately 53.42% to the audited consolidated net asset value of approximately HK\$0.1181 per Share as at 31 March 2023;
- (v) the implied PBR and PSR of the Offer are higher than the average and median of the PBR and PSR of the Market Comparables; and

we are of the opinion that the terms of the Offer and the Offer Price are fair and reasonable so far as the Independent Shareholders are concerned. Accordingly, we recommend the Independent Board Committee to advise the Independent Shareholders to accept the Offer. In view of the volatility of market conditions, those Independent Shareholders who intend to accept the Offer are reminded that they should closely monitor the market price and the liquidity of the Shares during the Offer Period and should consider selling their Shares in the open market, rather than accepting the Offer, if the net proceeds from the sale of such Shares in the open market would exceed the net proceeds receivable under the Offer.

We would like to remind the Shareholders that if they consider retaining their Shares or tendering less than all their Shares under the Offer should carefully consider the potential difficulties they may encounter in disposing their investments in the Shares after the close of the Offer in view of the historical low liquidity of the Shares.

LETTER FROM AMASSE CAPITAL

As different Shareholders would have different investment criteria, objectives and/or circumstances, we would recommend any Shareholders who may require advice in relation to any aspect of the Composite Document, or as to the action to be taken, to consult a licensed securities dealer, bank manager, solicitor, professional accountant, tax adviser or other professional adviser.

Yours faithfully,
For and on behalf of
Amasse Capital Limited
Stephen Lau
Director
