The conversion period of the A Share Convertible Bonds commenced from 30 September 2022, and shall end on 23 March 2028. The current conversion price is RMB9.70 per share.

Pursuant to the relevant provisions of the offering document for the A Share Convertible Bonds (the “**Offering Document**”), during the conversion period of the A Share Convertible Bonds, when either of the following two circumstances occurs, the Company shall have the right to decide whether to redeem all or part of the outstanding A Share Convertible Bonds at a price equal to the nominal value of the A Share Convertible Bonds plus the then accrued interest (the “**Conditional Redemption**”): (1) during the conversion period of the A Share Convertible Bonds, if the closing prices of A Shares in at least 15 trading days out of any 30 consecutive trading days are no less than 130% (inclusive) of the prevailing conversion price; or (2) when the amount of the outstanding A Share Convertible Bonds is lower than RMB30 million.

B: denotes the aggregate nominal value of the A Share Convertible Bonds held by the holders of A Share Convertible Bonds;

i: denotes the nominal interest rate of the A Share Convertible Bonds for the current year;

In case of any adjustment to the conversion price during the aforesaid 30 trading days, in respect of the trading days prior to the adjustment to the conversion price, the calculation shall be based on the unadjusted conversion price and the closing price on each such day, while in respect of the trading days after the adjustment to the conversion price, the calculation shall be based on the adjusted conversion price and the closing price on each such day.

The closing prices of the A Shares of the Company for nine consecutive trading days from 6 November 2023 to 16 November 2023 are no less than 130% of the prevailing conversion price of the A Share Convertible Bonds of RMB9.70 per share (i.e. RMB12.61 per share). If the closing prices of the A Shares in at least six trading days out of any 21 consecutive trading days in the future are no less than 130% (inclusive) of the prevailing conversion price of the A Share Convertible Bonds, the Conditional Redemption will be triggered, in which case the Company shall, in accordance with the relevant provisions of the Offering Document, have the right to decide whether or not to redeem all or part of the outstanding A Share Convertible Bonds at a price equal to the nominal value of the A Share Convertible Bonds plus the then accrued interest.

The Company will, in accordance with the requirements of applicable laws, regulations and normative documents and the relevant provisions of the Offering Document, hold a meeting of the board of directors to determine whether or not to exercise the right of redemption when the Conditional Redemption is triggered. The Company will fulfill its information disclosure obligations in a timely manner.
