## **VOLUNTARY ANNOUNCEMENT**

### **APPLICATION FOR CLINICAL TRIAL OF HLX42 FOR INJECTION (ANTIBODY-DRUG CONJUGATE TARGETING EGFR WITH NOVEL DNA TOPOISOMERASE I INHIBITOR) FOR THE TREATMENT OF ADVANCED/ METASTATIC SOLID TUMOURS WAS APPROVED BY THE UNITED STATES FOOD AND DRUG ADMINISTRATION (FDA)**

#### **A. INTRODUCTION**

This announcement is made by Shanghai Henlius Biotech, Inc. (the “**Company**”) on a voluntary basis to inform the shareholders and potential investors of the Company about the latest business development of the Company.

The board of directors of the Company (the “**Board**”) is pleased to announce that, recently, application for phase 1 clinical trial of HLX42 for injection (antibody-drug conjugate targeting EGFR with novel DNA topoisomerase I inhibitor) (“**HLX42**”) for the treatment of advanced/metastatic solid tumours was approved by the United States Food and Drug Administration (FDA).

#### **B. ABOUT HLX42**

HLX42 is an antibody-drug conjugate (ADC) targeting EGFR developed by the Company through conjugating the novel DNA topoisomerase I inhibitor payload-peptide linker, licensed-in from MediLink Therapeutics (Suzhou) Co., Ltd. in November 2022, with monoclonal antibody targeting EGFR independently developed by the Company, which is designed for the treatment of advanced/metastatic solid tumours. HLX42 can specifically bind to human EGFR target antigen and release the small-molecule payload in tumour, then kill tumour cells. Nonclinical pharmacology, pharmacokinetics and safety evaluation have proved that HLX42 could inhibit tumour growth and showed a favorable safety profile. In October 2023, application for phase 1 clinical trial of HLX42 for the treatment of advanced/metastatic solid tumours was approved by the National Medical Products Administration (NMPA).

## C. MARKET CONDITION

As of the date of this announcement, no antibody-drug conjugate targeting EGFR with the small-molecule payload has been approved for marketing globally.

**WARNING STATEMENT WITH REFERENCE TO THE REQUIREMENTS UNDER RULE 18A.05 OF THE RULES GOVERNING THE LISTING OF SECURITIES ON THE STOCK EXCHANGE OF HONG KONG LIMITED:** The Company cannot guarantee the successful development and commercialization of HLX42. Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

On behalf of the Board
