# NOTES

# **1 BASIS OF PREPARATION AND ACCOUNTING POLICIES**

# (a) Basis of preparation

The financial information of the Company (the "Financial Information") for the three months ended 30th September 2023 is unaudited and has been prepared in accordance with International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board ("IASB").

This Financial Information has been prepared under the historical cost convention.

The preparation of this Financial Information in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies.

This second quarter results announcement should be read in conjunction with the audited consolidated annual financial statements of the Group for the year ended 31st March 2023, which have been prepared in accordance with IFRSs and the interim results announcement for the six months ended 30th September 2023.

# (b) Accounting policies

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31st March 2023, as described in those annual financial statements.

Taxes on income during the period are accrued using the tax rate that would be applicable to expected total annual earnings.

The Group has not early adopted new and amended accounting standards that have been published but are not mandatory for 31st March 2024 reporting periods. These new and amended standards are expected to have no material impact on the Group's consolidated financial statement.

# 2 SEGMENT INFORMATION

IFRS 8 "Operating segments" requires operating segments to be identified based on internal reporting that is regularly reviewed by the chief operating decision maker. The Group regards the executive committee as the chief operating decision maker being responsible for allocating resources to segments and assessing their performance.

The executive committee assesses the performance of the operating segments based on a measure of operating profit/loss before tax but excluding corporate expenses. Other information provided is measured in a manner consistent with that in the internal financial reports.

The executive committee identifies the following operating segments: entertainment and lifestyle operation, and the watch and car operation and others.

The breakdown of total turnover from customers from these businesses and the Group's turnover and results provided to the executive committee for the reporting segments for the three months ended 30th September 2023 and 2022 are as follows:
