REASONS FOR AND BENEFITS OF ENTERING INTO THE DEBTS SETTLEMENT AGREEMENTS

The Group has been providing, among others, property management services and onsite services to the Debtors and/or their respective subsidiaries. In order to mitigate the risk caused by the possible liquidity issues faced by the Debtors, the Debtors made debts settlement proposals to its creditors including the Group, according to which the Debtors proposed to sell the Settlement Properties to Chengdu Desun and the consideration of the Acquisition shall be offset against the Receivables on a dollar-for-dollar basis. Before entering into the Debts Settlement Agreements, Chengdu Desun conducted financial due diligence and valuation on the Settlement Properties. With continuous efforts, the Company had finally reached agreements with the Debtors and/or their respective subsidiaries to enter into the Debts Settlement Agreements for the relevant debt offset and settlement arrangement. Upon completion of the Debts Settlement Agreements, the Group will gradually sell the Settlement Properties either to the owners or tenants of the Group's properties under management or by identifying suitable third parties in the open market. With the rising number of automobile ownership volume in the PRC while relatively low ratio of parking spaces to cars, there is a development potential in the parking space market in the PRC, and the launching of measures such as the adjustment by various local governments in the PRC of the restriction policy on sales and loans in the property market, it is expected to bring favourable factors to the sales of parking spaces. In respect of the owners and tenants of the Group's properties under its management, the Group is able to utilise its information, service and technological advantages to prioritize and effectively access to the customers, and is able to promote the sales of parking spaces to the owners and tenants of the properties under its management in a more effective manner as compared to other third parties. For third parties in the open market, the Group intends to sell the parking spaces through the existing real estate brokerage agency business unit, and leverage on the Group's sales team to continuously expand its clientele and promote the sales of the Settlement Properties. Upon the completion of Acquisition, the Group will formulate feasible and effective sales strategies and sales plans, and carry out the sales of the Settlement Properties through the team and sales channels of its existing real estate brokerage agency business unit to generate cash proceeds. The entering into the Debts Settlement Agreements would allow Chengdu Desun to recover the Receivables, and that Settlement Properties were valued by an independent valuer with the valuation amount of RMB137,259,000, which is more than the debt settlement amount of RMB51,640,000 under the Debts Settlement Agreements. The transactions contemplated under the Debts Settlement Agreement would enable the Group to sell out the Settlement Properties in future which will bring cashflow to the Group. This is conducive to resolving the Group's receivables risk and is in the interests of the Shareholders.

In view of the above, the Directors (excluding the independent non-executive Directors whose view will be expressed after considering the advice from the independent financial adviser) consider that, despite the Debts Settlement Agreements are not entered into during the ordinary and usual course of business of the Group, the terms of the Debts Settlement Agreements are on normal commercial terms or better and are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.
