NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED OCTOBER 31, 2023

1. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

Application of new and revised Hong Kong Financial Reporting Standards ("HKFRSs")

The Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") for the first time, which are mandatorily effective for the annual period beginning on or after November 1, 2022 for the preparation of the financial statements:

Amendments to Hong Kong Accounting Standard ("HKAS") 16	Property, Plant and Equipment: Proceeds before Intended Use
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a Contract
Amendments to HKFRS 3	Reference to the Conceptual Framework
Annual Improvements Project	Annual Improvements to HKFRSs 2018-2020
Amendments to Accounting Guideline 5	Merger Accounting for Common Control Combinations

The HKICPA has issued a number of amendments to HKFRSs that are first effective for the current accounting period of the Group. Of these, the following revised HKFRSs are relevant to the Group:

Amendments to HKAS 16 - Property, Plant and Equipment: Proceeds before Intended Use

The amendment to HKAS 16 Property, Plant and Equipment prohibits an entity from deducting from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment.

Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity's ordinary activities.

Amendments to HKAS 37 – Onerous Contracts – Cost of Fulfilling a Contract

The amendment to HKAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts. Before recognising a separate provision for an onerous contract, the entity recognises any impairment loss that has occurred on assets used in fulfilling the contract.

None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

New and revised HKFRSs in issue but not yet effective

The Group has not applied any new standards, amendments to standards and interpretation that have been issued but are not yet effective for the financial year beginning November 1, 2022. These new standards, amendments to standards and interpretation include the following which may be relevant to the Group.

	Effective for accounting periods
	beginning on or after
Amendments to HKAS 1 – Classification of Liabilities as Current or Non-current	January 1, 2024
Amendments to HKAS 1 – Non-current Liabilities with Covenants	January 1, 2024
Amendments to HKAS 1 and HKFRS Practice Statement 2 – Disclosure of Accounting Policies	January 1, 2023
Amendments to HKAS 7 and HKFRS 7 – Supplier Finance Arrangements	January 1, 2024
Amendments to HKAS 8 – Definition of Accounting Estimates	January 1, 2023
Amendments to HKAS 12 – Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction	January 1, 2023
Amendments to HKAS 12 – International Tax Reform – Pillar Two Model Rules	January 1, 2023
Amendments to HKAS 21 – Lack of Exchangeability	January 1, 2025
Amendments to HKFRS 16 – Lease Liability in a Sale and Leaseback	January 1, 2024
HKFRS 17 – Insurance Contracts	January 1, 2023
Amendments to HKFRS 17 – Initial Application of HKFRS 17 and HKFRS 9 – Comparative Information	January 1, 2023
Amendments to HKFRS 10 and HKAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined by the HKICPA
Hong Kong Interpretation 5 (2020) Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause	January 1, 2024

The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

2. REVENUE AND SEGMENT INFORMATION

(a) Disaggregation of revenue

Disaggregation of revenue from contracts with customers by major products or service lines for the year is as follows:

	2023 HK\$'000	2022 HK\$'000
Revenue from contracts with customers within		
the scope of HKFRS 15

Meeting architecture activation	134,501	92,724
	5,327,931	4,541,018

Disaggregation of revenue from contracts with customers by the timing of revenue recognition and by geographic markets is disclosed as below.

Transaction price allocated to the remaining performance obligation for contracts with customers

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at October 31, 2023 and 2022 and the expected timing of recognising revenue as follows:

The Group has applied the practical expedient in paragraph 121 of HKFRS 15 to its sales contracts for installation services such that the above information does not include information about revenue that the Group will be entitled to when it satisfies the remaining performance obligations under the contracts for installation services that had an original expected duration of one year or less.

(b) Segment information

The Group is principally engaged in the exhibition, event and brand activation; visual branding activation; museum and themed entertainment; meeting architecture activation; and their related business.

The Group's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies. During the year, the management also reviewed the assets, liabilities and share of profits or losses of associates and joint ventures separately.

The accounting policies of the operating segments are the same as those described in notes to the consolidated financial statements. Segment profits or losses do not include income tax expense, change in remeasurement of contingent consideration, amortisation of other intangible assets arising from business combinations and income and expenses arising from corporate teams. Segment assets do not include certain properties, motor vehicles and financial assets at FVTPL which are used as corporate assets, goodwill and other intangible assets arising from business combinations, current tax assets and deferred tax assets. Segment liabilities do not include contingent consideration, current tax liabilities and deferred tax liabilities.

The Group accounts for inter-segment sales and transfers as if the sales or transfers were to third parties, i.e. at current market prices.

	57,401	29,744

Hong Kong profits tax is calculated at 16.5% (2022: 16.5%) on the estimated assessable profits for the year. A portion of the Group's profit is derived offshore and is not subject to Hong Kong profits tax.

Under the two-tiered profits tax regime, the first HK\$2 million of profits of the qualifying group entities established in Hong Kong has been taxed at 8.25%, and profits above that amount will be subject to the tax rate of 16.5%. The profits of the group entities not qualifying for the two-tiered profits tax rate regime will continue to be taxed at a rate of 16.5%.

Tax charge on profits assessable elsewhere have been calculated at the rates of tax prevailing in the countries in which the Group operates, based on existing legislation, interpretation and practices in respect thereof.

The reconciliation between the income tax expense and the product of profit before tax multiplied by the Hong Kong profits tax rate is as follows:

BUSINESS REVIEW AND PROSPECTS

Financial Results

During the year under review, the Group's business strategies and resilience enabled it to expand its portfolio and seize growth opportunities. Revenue surpassed pre-COVID levels to reach a new record high, despite geopolitical conflicts and tightening monetary conditions globally.

During the financial year under review, the Group reported total revenue of HK\$5,328 million (2022: HK\$4,541 million), representing a 17.3% increase compared to the same period of the previous year.

Earnings before interest, taxes, depreciation, amortisation and a change in remeasurement of contingent consideration (EBITDA) increased by 46.5% year-over-year to HK\$437.4 million (2022: HK\$298.6 million).

Profit from core operations was HK\$360.0 million (2022: HK\$208.9 million), a 72.3% increase compared to the same period last year.

Profit for the year attributable to owners of the Company increased by 40.3% year-over-year to HK\$228.1 million (2022: HK\$162.6 million).

Dividend

The Directors recommend payment of a final dividend of HK7.0 cents (2022: HK6.0 cents) per ordinary share. Together with an interim dividend of HK2.0 cents (2022: nil) per ordinary share, the total dividend for the year amounts to HK9.0 cents (2022: HK6.0 cents) per ordinary share, representing 48.9% of the year's basic earnings per share of HK18.41 cents (2022: HK13.13 cents). The proposed final dividend, if approved at the annual general meeting on Monday, March 18, 2024, will be dispatched on Wednesday, April 10, 2024 to shareholders who appear on the register of members of the Company on Wednesday, March 27, 2024.

Business Review

As of October 31, 2023, the Group employed some 2,300 permanent staff and operated 47 permanent offices in 36 cities.

During 2023, major markets around the world were recovering at a varied pace. The Group's established market presence and ongoing transformation of integrating data, digital and technological services into all events enabled us to build greater resilience, add value to our business offerings, capture emerging demands and enhance profitability.

Though mainland China lifted its strict COVID measures in December 2022, business only began to return to normalcy by April 2023. Despite having only approximately seven months of 'normal' operational conditions, the Group's strong presence in the country and deep customer relationships enabled us to capitalise on the revived activities and promptly restore business to pre-COVID levels.

In Southeast Asia, the Group's effective strategies and inherent resilience gave us the ability to capture a growing share of all recovering key markets.

In the Middle East, the slight drop in revenue is largely attributable to the completion of certain non-repeated mega projects in the previous year, including Expo 2020 Dubai and the Oman Across Ages Museum. During the year, the Group also secured and delivered major projects such as the opening and closing ceremonies of the Arabian Gulf Cup in Iraq and FIFA museum during FIFA World Cup Qatar. Furthermore, the Group was able to seize the opportunities arising from the Kingdom of Saudi Arabia's 'Saudi Vision 2030' programme, which has stimulated major business activity and tremendous investment. We have and continue to deliver multiple projects for the NEOM city project, the Saudia Airlines rebrand, and Noor Riyadh, the world's largest light art festival.

In the USA and Europe, our ability to provide new integrated brand activation campaign solutions with experiential marketing at their core enabled us to sustain revenue and profit growth in this mature market.

In summary, the Group's adaptive strategies and approaches allowed us to not just survive but thrive during the COVID pandemic and the ensuing challenging economic conditions, endowing us with the ability to quickly capture a bigger share of a post-COVID recovering market.

Building a growth-sustaining business

Much of the Group's exceptional resilience stems from our Integrated Brand Experience business model. By incorporating our Content, Community, Creative and Data strategy into cross-platform campaigns, we can create engaging personalised content for brands to interact within communities. This approach separates the Group from its competitors, aids us in tapping into up- or cross-selling opportunities, and creates better value for brands.

Building upon our AI-embedded PowerONE unified IT system, the Group continues to enhance our operational efficiency by moving towards becoming a fully data-driven enterprise. By advancing our data strategy, we are able to capture data to generate quantifiable leads, explore new business offerings and increase profit margin.

Recognising the need for a high-performing organisational foundation for future growth, the Group has maintained its focus on maximising the potential of its talent. By empowering employees with data literacy and technological and operational know-how, the Group is primed to adapt to market shifts.

The Group has implemented robust financial discipline and practices to protect mid- to long-term profits, particularly under the adverse economic conditions of the past few years. By monitoring and prudently managing our working capital, liquidity and cash flow, we have established a foundation for growth, expansion and financial health, and our net cash position has been improved. Our gearing ratio was also further improved as both long- and short-term bank borrowing were lowered substantially.

Operations Review

By Geographical Region

Geographically, Greater China (including mainland China, Hong Kong, Macau and Taiwan) accounted for 47.8% (2022: 45.3%) of the Group's total revenue of HK\$5,328 million (2022: HK\$4,541 million).

Southeast Asia (including Malaysia, Singapore, the Philippines and Vietnam) accounted for 21.5% (2022: 20.9%); the Middle East (including Bahrain, Oman, Qatar, Saudi Arabia and the United Arab Emirates) accounted for 11.5% (2022: 14.8%); and, the United Kingdom and United States accounted for 15.2% (2022: 15.8%). Other regions accounted for 4.0% (2022: 3.2%).

By Business Segment

Exhibition, Event and Brand Activation

During the year under review, revenue in this segment was HK\$4,413 million (2022: HK\$3,689 million) or 82.8% (2022: 81.3%) of the Group's total revenue. Profit in this segment was HK\$302.5 million (2022: HK\$181.9 million).

Exhibitions

During the year, exhibitions experienced a steady resurgence in most countries. The Group capitalised on these emerging opportunities, as evidenced by a 44% increase in the total number of exhibitions and a 192% increase of total exhibition space to which Pico was appointed as official service provider, compared to the previous year.

The Group was appointed to provide official exhibition services for organisers and/or brand activation services for exhibitors at major shows such as:

In China, the Group continued to serve brands at large-scale motor shows, including 14 at Auto Guangzhou, 25 at Chengdu Motor Show, and a number more at Auto Chongqing, the Guangdong-Hong Kong-Macao Greater Bay Area International Auto Show and others. Most notably, we provided exhibition services to 32 brands at the biennial Auto Shanghai.

Events and Brand Activations

During the year, the Group consistently developed brand solutions based upon cross-platform integration to foster consumer engagement. To achieve this, we incorporated digital and interactive elements such as AI, web3, VR, AR and gamification into activations.

Among such projects, the Group curated and produced the opening and closing ceremonies of the historic 25th Arabian Gulf Cup in Basra Governorate, Iraq. The project leveraged 3D projection and AR for a stunning expression of Iraq's rich culture and was the first major international sporting event held in the country since the end of the Iraq War in 2011.

The Group continued to work for State Farm to create campaigns which leveraged gamification, social media, influencers and digital streaming to engage millennial and Gen Z audiences. A prominent event was 'The Big Game Came to Us', a Super Bowl activation that integrated influencers and viral TikTok postings, using PR and social media via TikTok as marketing channels. This unprecedented campaign achieved over 220 million views, a number far surpassing the Super Bowl's live viewership. Other State Farm projects in the USA included Good Neighbor Crew roadshows, and Gamerhood Challenge which was a unique blend of tournament, live show, and event which garnered a billion impressions.

With a focus on capitalising on the potential of web3 ecosystems, the Group continued to integrate web3 strategy into marketing services to clients including China Mobile, CM Financial Technology, Honeywell, Infineon and Shanghai Promotion Centre for City of Design.

By leveraging the power of data, we help clients to make informed decisions and strategically align our efforts to maximise revenue generation. In one example, the Group created a proprietary 'data mid-end' platform to consolidate and analyse the immense volume of client data from Siemens' myriad touchpoints, including apps, an event platform and virtual showroom. The multichannel data management and analysis system drives the front-end line of business while also providing back-end system support.

Visual Branding Activation

This segment accounted for HK\$383 million (2022: HK\$364 million) or 7.2% (2022: 8.0%) of total Group revenue. Segment profit was HK\$32.0 million (2022: HK\$11.9 million).

This segment recorded growth since mainland China's reopening and the resurgence of project planning and execution in the second half of the year. The new Electric Vehicle (EV) sector provided a new growth opportunity, with new EV experiential showrooms creating an increasing demand for integrated experiential solutions leveraging interactive digital tools and data analysis. A major achievement in this sector was the Group's appointment as exclusive service provider for the design and digitalisation of Kia's new EV showrooms across China. The Group also secured a contract to provide visual branding services for GAC Aion's premium brand 'Hyper' across a network of 150 retail outlets.

As a leader in the conventional and EV sectors, we continue to consolidate our market share by delivering visual branding projects for prominent brands including Bentley, Changan Mazda, Dongfeng Nissan, GAC Aion, GAC Trumpchi, Lexus, Lincoln, Lotus, Mercedes-Benz, Polestar and SAIC General Motors.

The Group continues to achieve remarkable success in corporate and retail experiential showrooms integrating experiential marketing and digital tools to cater to a diverse customer base. The Group has also expanded into the agricultural and aerospace sectors via a retail store visual identity project with Bombardier's aviation division and a headquarters design and construction project for Guangdong HAID Group.

Museum and Themed Entertainment

This segment accounted for HK\$397 million (2022: HK\$395 million) or 7.5% (2022: 8.7%) of total Group revenue. Segment profit was HK\$38.7 million (2022: HK\$37.7 million). This segment maintained its business volume despite the completion of a significant non-repeated contract for a museum in Oman in the previous year.

In Hong Kong, the Group has made good progress, in partnership with K11 Group, to deliver a themed attraction at 11 SKIES. Set to be a future iconic 'retailtainment' landmark adjacent to Hong Kong International Airport, it is planned to feature a total gross floor area of over 353,000 sq.m. and some 800 shops, including 120 dining concepts.

Meeting Architecture Activation

This segment accounted for HK\$135 million (2022: HK\$93 million) or 2.5% (2022: 2.0%) of total Group revenue. Segment profit was HK\$3.2 million (2022: HK\$1.2 million).

The Group's strategies to rapidly align with shifting market dynamics have enabled this segment to position itself at the forefront of innovation and customer engagement. Catering to revived demand for in-person and hybrid events – particularly within reopening Southeast Asian markets – the segment enjoyed a solid improvement in performance.

The Group has consistently driven business growth through the integration of content, community, creative and data strategies into our business solutions. By connecting the dots across a variety of platforms and curating resonant and engaging content, our expertise in AI-powered data analytics has allowed us to create seamless online-to-offline experiences and foster vibrant communities.

During the year, we orchestrated Sibos in Toronto, delivering a personalised conference experience through the use of technologies to engage the financial community. By utilising a mix of media production, data analytics and machine learning, we traced and analysed attendee behaviours to tailor content for optimal audience engagement. Our innovation has laid the groundwork for the future of Sibos – for which our Group has been awarded the next edition of Sibos in Beijing in 2024 – as a smart conference deeply connected with the community.

Noteworthy shows in this segment include:

Financial Position

As at year end date, the total net tangible assets of the Group increased by 11.1% to about HK\$1,795 million (2022: HK\$1,615 million).

Bank and cash balances amounted to HK\$1,294 million (2022: HK\$1,405 million), with HK\$4 million pledged bank deposits (2022: HK\$2 million). Deducting interest bearing external borrowings from bank and cash balances, the net cash balance was HK\$904 million (2022: HK\$601 million).

Total borrowings were HK\$390 million at October 31, 2023 (2022: HK\$804 million). Borrowings are mainly denominated in Great Britain pound, Hong Kong dollars, Korean won, New Taiwan dollars and United States dollars, and the interest is charged on fixed and floating rate basis. The Group's bank loans of HK\$0.3 million (2022: HK\$0.5 million) carry fixed interest rate.

	2023 HK\$' million	2022 HK\$' million
Bank and cash balances Pledged bank deposits Less: Borrowings	1,290 4 (390)	1,403 2 (804)
Net cash balance	904	601

For the year ended October 31, 2023, the Group invested HK\$20 million (2022: HK\$14 million) in property, plant and equipment; HK\$34 million (2022: HK\$74 million) in intangible assets. All these were financed from internal resources and bank borrowings.

The Group has HK\$201 million (2022: HK\$368 million) long-term borrowings and HK\$112 million (2022: HK\$111 million) long-term lease liabilities at October 31, 2023. The current ratio was 1.48 times (2022: 1.49 times); the liquidity ratio was 1.48 times (2022: 1.49 times); and the gearing ratio was 6.20% (2022: 9.56%).

	2023	2022
Current ratio (current assets/current liabilities) Liquidity ratio (current assets excluding	1.48 times	1.49 times
inventories/current liabilities) Gearing ratio (long-term borrowings including	1.48 times	1.49 times
long-term lease liabilities/total assets)	6.20%	9.56%

Although our subsidiaries are located in many different countries of the world, over 76% of the Group's sales and purchases were denominated in Hong Kong dollars, Renminbi, Singapore dollars and United States dollars, and the remaining 24% were denominated in other Asian currencies and European currencies. We are already diversified in many different currencies, and the major Asian currencies have been quite stable throughout the year. The Group currently does not adopt a hedging policy to hedge the exposure to minimise the impact of foreign currency risk on cash flow. It is the Group's policy not to enter into derivative transactions for speculative purposes.

Employees and Emoluments Policies

At October 31, 2023, the Group employs some 2,300 permanent staff engaged in project management, design, production, sales and marketing and administration, and is supported by a large pool of subcontractors and suppliers. The staff costs incurred in the year was about HK\$1,175 million (2022: HK\$987 million).

The Group's emolument policies are formulated on the performance of individual employees and on the basis of the trends of salaries in various regions, which will be reviewed regularly every year. Apart from provident fund scheme and medical insurance, discretionary bonuses and employee share options are also awarded to employees according to the assessment of individual performance.

Pledge of Assets

At October 31, 2023, the following assets were pledged as collaterals for credit facilities granted to the Group by certain banks.

Outlook

According to the International Monetary Fund's World Economic Outlook in October 2023, the global economic forecast indicates generally slow growth for 2024.

Despite this and increasing geoeconomic fragmentation, we are cautiously optimistic for many regions where the Group operates.

Among these, Greater China and Southeast Asia have demonstrated resilience, with business activities – especially international – swiftly rebounding. These conditions will enable the Group to continue its growth.

The Saudi market will provide growth impetus for much of the Middle East, catered to by the Group's expansion of office and production facilities in Kingdom of Saudi Arabia.

In the USA, fundamental changes in consumer behaviour in the post-COVID world, clients' increasing demands for integrated campaigns, agile processes and a 360-degree approach to marketing planning will continue to increase.

Our Integrated Brand Experience services will enable the Group to capture these emerging opportunities and expand our client portfolio, with a focus on high-quality clients and deeper collaboration with our existing clientele.

In the Exhibition, Event and Brand Activation segment, the Group has been appointed by organisers and brands to deliver many exhibitions and events across multiple platforms in the next financial year:

In the Visual Branding Activation segment, the Group has fostered strategic initiatives that will propel it into new realms and expand its global footprint. A testament to this is the Group's involvement in GAC Aion's establishment of a production base in Thailand, coupled with an ambitious plan to launch 200 stores across Southeast Asia in 2024, with the Group appointed as one of the designated suppliers.

While strengthening digital transformation and capitalising on the flourishing EV sector, we will continue to serve prominent names like Bentley, Ford Beyond, GAC Trumpchi, Huawei, Hyper, Kia, Lexus, Lincoln, Lotus, Mercedes-Benz, Polestar, SAIC General Motors and SAIC Volkswagen.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the year 2023, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities.

CORPORATE GOVERNANCE

The Board is always committed to maintaining high standards of corporate governance. During the year ended October 31, 2023, the Company has complied with the code provision (the "CG Code") as set out in the Corporate Governance Code contained in Appendix 14 of the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (which has been re-numbered as Appendix C1 under the Listing Rules that came into effect on January 1, 2024) except for the following deviation:

CG Code C.2.1 stipulates that the roles of the chairman and the chief executive officer should be separated and should not be performed by the same individual. Given the current corporate structure, there is no separation between the roles of the chairman and the chief executive officer. Although the responsibilities of the chairman and the chief executive officer are vested in one person, all major decisions are made in consultation with the Board members and the senior management of the Company. There are four Independent Non-Executive Directors in the Board for the year ended October 31, 2023. The Board considers that there is sufficient balance of power and the current arrangement maintains a strong management position of the Company.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 of the Listing Rules (which has been re-numbered as Appendix C3 since January 1, 2024) as the code of conduct regarding securities transactions by the Directors. Having made specific enquiry, the Company confirms that the Directors complied with the required standard set out in the Model Code for the year ended October 31, 2023.

AUDIT COMMITTEE

The Audit Committee has reviewed with management the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters including the review of the audited consolidated financial statements.
