After taking into account the revaluation loss (net of deferred taxation) on investment properties of HK\$141.9 million (2022: revaluation loss of HK\$340.6 million), which is a non-cash item, the Group reported a net profit attributable to shareholders of HK\$2,615.9 million for the Interim Period (2022: HK\$2,459.8 million). Earnings per share for the Interim Period was HK\$0.31 (2022: HK\$0.31).

Total revenue from property sales comprises mainly the sales of residential units and carparking spaces in the projects completed during the Interim Period, namely Grand Victoria Phase 2 and Phase 3 in South West Kowloon and ONE SOHO in Mong Kok, as well as the sales of remaining stocks of residential units and carparking spaces in projects completed in previous financial years, including The Palazzo in Chengdu, St. George's Mansions in Ho Man Tin, La Marina in Wong Chuk Hang, Grand Central in Kwun Tong, and Silversands in Ma On Shan.

During the Interim Period, the Group launched two new residential projects in Hong Kong for sale, namely La Montagne in Wong Chuk Hang (6.5% sold) and Villa Garda III in Tseung Kwan O (26.7% sold). In addition, the Group expects to obtain pre-sale consent for two additional residential projects in calendar year 2024, namely Yau Tong Ventilation Building Property Development and LOHAS Park Package Thirteen Property Development. The timing for launching these projects for sale will depend on when the pre-sale consent is received and the prevailing market conditions.

In terms of breakdown of the land bank by status, 5.1 million square feet were properties under development, 13.1 million square feet of properties for investment and hotels, together with 1.3 million square feet of properties held for sale. This land bank should be sufficient to meet the Group's development needs over the next few years. The Group will continue to be selective in replenishing its land bank to optimise its earnings potential.

(4) Rental activities

For the Interim Period, the Group's attributable gross rental revenue, including share from associates and joint ventures, was HK\$1,776.7 million (2022: HK\$1,728.3 million), representing an increase of 2.8% year-on-year. This increase was primarily driven by improved business sentiment following the reopening of borders and the return of tourists and business travelers, higher turnover rent and higher contribution from new properties. The net rental income for the Interim Period was HK\$1,469.9 million (2022: HK\$1,480.6 million), representing a decrease of 0.7% year-on-year, mainly due to additional rental-related expenses incurred for new projects as well as an increase in repair and maintenance expenses to maintain the quality of our properties.

Overall occupancy of the Group's investment property portfolio was 90.8% for the Interim Period (2022: 91.1%), a decrease of 0.3 percentage point when compared with last interim period. Among the different sectors, residential recorded the biggest improvement with its occupancy rate increased by 7.8 percentage points to 87.9% (2022: 80.1%), followed by industrial's 2.6 percentage points increase to 89.5% (2022: 86.9%), while occupancy rate for office was 86.6% (2022: 87.3%). Reported occupancy rate for retail was 93.4%, a decline of 1.5 percentage points from 94.9% last year, mainly affected by the discontinuation of a show flat in Olympian City 2 since July 2023. Excluding this impact, the retail occupancy rate would have remained largely stable year-on-year.

The market situation remained dynamic throughout the Interim Period. Despite a gradual increase in tourist arrivals to Hong Kong following the reopening of borders in January 2023, total visitor arrivals only reached 34.0 million for the year, recovering to just 52.2% of the 65.1 million recorded in 2018. A shift in behaviour was observed among Chinese tourists, with planning of their trips focusing on experiences rather than shopping. To revitalise economic activities and tourism, the HKSAR Government launched several effective campaigns and measures, and a new round of Consumption Vouchers for local citizens in July 2023. These initiatives have successfully attracted tourists to the city and encouraged domestic consumption. In response to this ever-changing operating environment, it is crucial for the Group to closely monitor changes in consumer behaviour and respond in a timely manner. Continuous efforts are being made to refine and optimise tenant mix, with ongoing marketing and promotion activities organised in our shopping malls to stimulate traffic. A series of marketing campaigns were launched on the Group's digital loyalty programme 'S+ REWARDS' to increase customer loyalty and to drive consumption in our retail properties. Overall, footfall and tenant sales at our flagship malls have experienced a marked improvement from the low of the pandemic.

(4) Rental activities (Continued)

The office sector continued to face challenges, with demand for office space remaining slow despite the gradual phase out of the hybrid working model by certain corporates and the return of Chinese tourists and business travelers after the reopening of borders. The impact was magnified by an increase in available office space in the market, resulting in both occupancy and rental remaining under pressure. Notwithstanding these challenging operating conditions, Hong Kong is well-positioned to benefit from the 'One Country, Two Systems' principle and tremendous support from the motherland. Continuous integration into the country's development through initiatives such as the Guangdong-Hong Kong-Macao Greater Bay Area ("GBA"), the Belt and Road Initiative, and the Northern Metropolis proposed by the HKSAR Government will help to reinforce Hong Kong's position as a powerful hub connecting the country with the rest of the world. In addition, various talent schemes launched by the HKSAR Government have attracted over 220.000 applications from talents from Mainland China and overseas, resulting in a rise in accommodation demand. The Group will continue to support the HKSAR Government's initiative to engage talents, fostering a diverse and dynamic community that drives innovation and growth. The Group's portfolio of office buildings, which features top-of-the-line building specifications and recognised green credentials, is well-positioned to appeal to tenants seeking sustainable and high-quality office space.

As at 31st December, 2023, the Group has approximately 13.1 million square feet of attributable floor area of investment properties and hotels in Mainland China, Hong Kong, Singapore and Sydney. Of this portfolio, commercial developments (retail and office) account for 63.0%, industrial 11.9%, car parks 11.9%, hotels 9.0%, and residential 4.2%.

(5) Hotels

For the Interim Period, the Group's hotel revenue, including attributable share from associates and joint ventures, was HK\$810.9 million compared to HK\$692.8 million last interim period, and the corresponding operating profit was HK\$253.5 million (2022: HK\$229.2 million).

During the Interim Period, the HKSAR Government launched several successful campaigns and measures, including 'Hello Hong Kong', 'Happy Hong Kong' and 'Night Vibes Hong Kong' as well as popular megaevents such as the Hong Kong Sevens and financial summits. These initiatives attracted tourists to the city and boosted consumption since the borders reopened in January 2023. According to the latest figures from the Hong Kong Tourism Board, nearly 34 million tourists visited Hong Kong in 2023, gradually recovering to pre-pandemic levels. Management is particularly encouraged by the continuous recovery observed in our Singapore and Sydney operations since travel restrictions were eased and international travel resumed in early 2022, where Revenue Per Available Room exceeded pre-pandemic levels in 2019 as normalisation continued to emerge.

Although the operating conditions improved postpandemic, our Group remained mindful of the everchanging environment, including shifts in consumer behaviour and higher inflation. Management continued to focus on cost control while actively seeking new strategies to enhance the quality of our hotel services and improve efficiency. Conrad Hong Kong saw a significant increase in occupancy and room rates, thanks to the gradual rise in business and leisure travelers driven by the resumption of physical exhibitions, events, and local banguets. The Fullerton Ocean Park Hotel Hong Kong, positioned as a resort hotel, experienced higher demand during the summer and festive seasons, and its food and beverage performance improved as more events and weddings were hosted. The Olympian Hong Kong reopened in September 2023 with new commercial and operational strategies, successfully attracting new business and achieving respectable occupancy and room rates.

Business review (Continued)

(5) Hotels (Continued)

As at 31st December, 2023, the Group's portfolio of hotels comprises The Fullerton Hotel Singapore, The Fullerton Bay Hotel Singapore, The Fullerton Ocean Park Hotel Hong Kong, Conrad Hong Kong, The Fullerton Hotel Sydney and The Olympian Hong Kong.

(6) Mainland China business

During the Politburo meeting in December 2023, top leadership committed to boosting domestic demand and solidifying the economic recovery in 2024. To achieve this, fiscal policy will be moderately strengthened, while a prudent monetary policy will be executed with flexibility, moderation, precision, and effectiveness. With the goal of establishing a virtuous cycle between consumption and investment, profound reforms will be implemented in key areas, providing a strong driving force for high-quality development.

To support post-pandemic economic recovery, the Central Government has implemented a series of policy measures in recent months. In the property sector, several initiatives have been introduced to stimulate the market. These include the reduction of payment ratios. the lowering of interest rates for second homes, the adoption of a non-loan-based mortgage system, and the removal of upper limit pricing restrictions on land sales in additional cities. Since November 2023, the Central Government and Central Bank have consistently offered support for the reasonable financing needs of real estate companies. These measures aim to reduce financial pressure and encourage a healthy cycle between finance and real estate. The Group remains positive about the future of the mainland property market in the medium-to-long term.

As at 31st December, 2023, the Group had approximately 3.5 million attributable square feet of land bank in Mainland China. Of the total, approximately 2.0 million square feet are projects under development and the remaining are mainly investment properties. There are three key projects under development, including 30% interest in a commercial development site in Qianhai in the Greater Bay Area, 100% interest in Dynasty Park Phase IV in Zhangzhou and 20% interest in The Palazzo in Chengdu.

Other than the matters mentioned above, there has been no material change from the information published in the report and accounts for the year ended 30th June, 2023.

Finance

The Group's financial position remains strong. As at 31st December, 2023, the Group had cash and bank deposits of HK\$44,130.4 million. After netting off total borrowing of HK\$832.0 million, the Group had net cash of HK\$43,298.4 million as at 31st December, 2023. The Group is in net cash position, therefore gearing ratio, calculated on the basis of total borrowings less cash and bank deposits to equity attributable to the Company's shareholders, is not applicable. The Group's borrowing is denominated in Hong Kong dollars, subject to floating interest rate and repayable within two to three years. Total assets and shareholders' funds of the Group were HK\$179,086.6 million and HK\$164,516.9 million, respectively. Net book value of the Group attributable to the Company's shareholders was HK\$19.28 per share as at 31st December, 2023 (HK\$19.87 per share as at 30th June, 2023).

The majority of the Group's cash are denominated in Hong Kong dollars with a portion in US dollars, Renminbi, and Singaporean dollars.

The Group has maintained a sound financial management policy and foreign exchange exposure has been prudently kept at a minimal level.

With the objective of practising good corporate governance, the Group has formed Audit, Compliance, Remuneration and Nomination Committees. Sino Land has also become the first real estate conglomerate in Hong Kong to join the Science Based Targets Network Corporate Engagement Programme.

Fully aware of the importance of urban biodiversity, the Group and the Hong Kong Innovation Foundation, in partnership with Ocean Park Corporation, Archireef Limited, and The Fullerton Ocean Park Hotel Hong Kong launched the CORAL REEFStoration project. The project's new rehabilitation facility, the CORAL REEFStoration Centre, was opened in July last year for rescued coral fragments. The public is invited for guided tours, interactive STEAM experiments, and other educational and experiential activities.

The Group is also committed to enriching communities through supporting arts and culture and promoting sports events. The Group welcomed the new Hong Kong Arts Development Council headquarters located at Landmark South that brings together various facilities, including a multipurpose exhibition hall, 'SHOWCASE', an Arts Information Centre, and 28 art studios to promote the development of arts and culture as well as creative industries. The Group's volunteer team has also organised a series of festive programmes to give a meaningful and fun-filled Christmas celebration to over 1,000 people in need.

Prospects

The global economy is recovering from the pandemic: meanwhile, a number of macro factors are at play, such as geopolitics, international trade frictions, uncertainty over interest rate hike cycle and supply chain rebalancing, which may all affect the pace of recovery.

In Mainland China, the Central Government continues to fine-tune and optimise policies to stimulate economic activities. At the Politburo meeting held on 24th July, 2023, coordinated efforts were introduced to support the real estate sector on both the supply and demand sides. On the demand side, various policies have been implemented to bolster the market, including reducing payment ratios, lowering interest rates for second homes, adopting a non-loan-based mortgage system, and lifting upper limit pricing restrictions on land sales in more cities. On the supply side, the Central Government and Central Bank consistently rendered support for the reasonable financing needs of real estate companies since November 2023. These measures are conducive to alleviating financial pressure and fostering a virtuous cycle between finance and real estate. At the World Economic Forum in January 2024, Premier Li reaffirmed China's commitment to further opening its economy, reiterating the country's vision for open, collaborative, pro-business policies for both domestic and multinational enterprises. With timely review of policies and support provided to various sectors, Mainland China's long-term fundamentals remain intact, demonstrating enormous development resilience and potential.

Buoyed by the 'One Country, Two Systems' principle and tremendous support from the motherland, Hong Kong continues to integrate into the country's development through visionary initiatives such as the GBA, the Belt and Road Initiative, and the Northern Metropolis proposed by the HKSAR Government, These will help to reinforce Hong Kong's global positioning as a powerful hub connecting the country with the rest of the world. The city offers distinctive advantages, and its unique positioning has been bolstered by the recent signing of memorandums of understanding with markets such as Egypt and Saudi Arabia, in addition to signing the First Protocol to Amend the Free Trade Agreement (FTA) between the ASEAN and Hong Kong to drive growth in economic and trade relations. These agreements promote greater commercial ties and cooperation on investment promotion exchange and collaboration. The growing ties with different markets solidify Hong Kong's positioning and further enhance its global appeal.

To revitalise economic activities and tourism following Hong Kong's full re-opening, a series of effective campaigns and measures have been launched by the HKSAR Government, including 'Hello Hong Kong', 'Happy Hong Kong' and 'Night Vibes Hong Kong' as well as popular mega events such as the Hong Kong Sevens and well-attended financial and investment summits. These initiatives managed to attract business and leisure travellers to the city and encouraged consumption. The latest figure from the Hong Kong Tourism Board indicates that close to 34 million tourists visited Hong Kong in 2023, gradually recovering to pre-pandemic level. The latest unemployment rate in Hong Kong tightened to 2.9%, while the city's population rebounded from 7.2 million in mid-2022 to 7.5 million at end-2023, both implying optimism towards the outlook of the economy.

Prospects (Continued)

The HKSAR Government has made significant efforts in recent years to attract talents from Mainland China and beyond to Hong Kong. Various talent admission schemes have been implemented, and these schemes have received positive responses, with over 220,000 applications received and more than 135,000 applications approved as of end-2023. In addition, the HKSAR Government has made timely adjustments to the demand-side management measures for residential properties in 2023. These include shortening the applicable period of the Special Stamp Duty from three years to two years, reducing the respective rates of the Buyers' Stamp Duty and the New Residential Stamp Duty from 15% to 7.5%, and introducing a stamp duty suspension arrangement for incoming talents' acquisition of residential properties.

The Group is cautiously optimistic about the Hong Kong property market. During the Interim Period, the Group acquired three plots of lands with an attributable GFA of over 806,000 square feet, showcasing our commitment and full confidence in Hong Kong. These plots occupy strategic locations and bring the Group's attributable landbank to 19.5 million square feet, sufficient to support our property development in the medium term.

With increasing visitor arrivals and improvement in consumer sentiment thanks to the HKSAR Government's good efforts, we continue to make strides on the sustainability journey and stay committed to our mission of Creating Better Lifescapes. The notes on pages 23 to 41 form part of these condensed consolidated financial statements.

For the six months ended 31st December, 2023

1. Basis of preparation

These condensed consolidated financial statements have been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with Hong Kong Accounting Standard ("HKAS") 34, Interim Financial Reporting, issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA").

The condensed consolidated financial statements are unaudited, but have been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the HKICPA. KPMG's independent review report to the Board of Directors is included on page 51.

The financial information relating to the financial year ended 30th June, 2023 that is included in the condensed consolidated financial statements as comparative information does not constitute the Company's statutory annual consolidated financial statements for that financial year but is derived from those financial statements. Further information relating to these statutory financial statements disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Cap. 622) is as follows:

The Company has delivered the financial statements for the year ended 30th June, 2023 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance.

The Company's auditor has reported on those financial statements. The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its reports; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance.

2. Principal accounting policies

The condensed consolidated financial statements have been prepared on the historical cost basis, except for investment properties and certain financial instruments, which are measured at fair values, as appropriate.

Other than changes in accounting policies resulting from application of new and amended Hong Kong Financial Reporting Standards ("HKFRSs"), the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 31st December, 2023 are the same as those followed in the preparation of the Group's annual financial statements for the year ended 30th June, 2023.

For the six months ended 31st December, 2023

2. Principal accounting policies (Continued)

Application of new and amended HKFRSs

In the current interim period, the Group has applied the following new and amended HKFRSs issued by the HKICPA, which are effective for the annual period beginning on or after 1st July, 2023 for the preparation of the Group's condensed consolidated financial statements:

HKFRS 17 Insurance contracts

Amendments to HKAS 8 Accounting policies, changes in accounting estimates and errors:

Definition of accounting estimates

Amendments to HKAS 1 and HKFRS Presentation of financial statements and Making materiality

Practice Statement 2 judgements: Disclosure of accounting policies

Amendments to HKAS 12 Income taxes: Deferred tax related to assets and liabilities arising

from a single transaction

Amendments to HKAS 12 Income taxes: International tax reform – Pillar Two model rules

The application of new and amended HKFRSs in the current period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

New HKICPA guidance on the accounting implications of the abolition of the MPF-LSP offsetting mechanism

In July 2023, the HKICPA published Accounting implications of the abolition of the mandatory provident fund ("MPF")-long service payment ("LSP") offsetting mechanism in Hong Kong that provides accounting guidance relating to the offsetting mechanism and the abolition of the mechanism.

To better reflect the substance of the abolition of the offsetting mechanism, the Group has changed its accounting policy in connection with its LSP liability and has applied the above HKICPA guidance retrospectively. The cessation of applying the practical expedient in paragraph 93(b) of HKAS 19, Employee Benefits, in conjunction with the enactment of the Amendment Ordinance resulted in a catch-up profit or loss adjustment in June 2022 for the service cost up to that date and consequential impacts on current service cost, interest expense and remeasurement effects from changes in actuarial assumptions for the period ended 31st December, 2023, with the corresponding adjustment to the comparative carrying amount of the LSP liability. However, since the amount of the catch-up profit or loss adjustment was immaterial, the Group did not restate the comparative figure for the condensed consolidated financial statements.

24. Fair value measurements of financial instruments (Continued)

Fair value of the Group's financial assets that are measured at fair value on a recurring basis (Continued)

Notes:

- The fair values of all listed equity securities are determined with reference to quoted market prices in an active (a) market as at 31st December, 2023 and 30th June, 2023.
- The fair values of all listed perpetual bonds and debt securities are determined with reference to quoted market (b) prices provided by financial institutions as at 31st December, 2023 and 30th June, 2023.
- The fair values of all unlisted investments at FVTPL and FVTOCI are determined based on their net asset value, (c) representing the fair value of the funds reported by respective fund managers, and relevant factors if deemed necessary, as at 31st December, 2023 and 30th June, 2023, except those where the Directors of the Company consider cost approximates their fair value.

The Directors of the Company consider that the carrying amounts of financial assets and liabilities classified as current assets or liabilities and recorded at amortised costs in the condensed consolidated financial statements approximate their fair values as these financial instruments are short-term in nature. For noncurrent financial assets and liabilities which are interest-free, the Directors of the Company consider that their carrying amounts approximate their fair values as their carrying amounts are discounted using the relevant effective interest rates which approximated the prevailing borrowing rates. For non-current financial assets and liabilities which bear interest at fixed interest rates, these rates approximated the prevailing borrowing rates of the respective group entities and accordingly, the Directors consider that their carrying amounts approximate their fair values.

There was no transfer among different levels of the fair value hierarchy in the current and prior periods.

Report on review of condensed consolidated financial statements

Review report to the board of directors of Sino Land Company Limited

(Incorporated in Hong Kong with limited liability)

Introduction

We have reviewed the condensed consolidated financial statements set out on pages 16 to 41 which comprise the consolidated statement of financial position of Sino Land Company Limited (the "Company") as of 31st December, 2023 and the related consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard ("HKAS") 34, Interim Financial Reporting, issued by the Hong Kong Institute of Certified Public Accountants. The directors are responsible for the preparation and presentation of the condensed consolidated financial statements in accordance with HKAS 34.

Our responsibility is to form a conclusion, based on our review, on the condensed consolidated financial statements and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Hong Kong Institute of Certified Public Accountants. A review of the condensed consolidated financial statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements as at 31st December, 2023 are not prepared, in all material respects, in accordance with HKAS 34.
