OVERVIEW OF THE COMPANY

Harbin Electric Company Limited (the “Company”), was formed through the restructuring of relevant entities including former Harbin Electrical Machinery Works, Harbin Boiler Workers and Harbin Turbine Works (the “three major power factories”).

Located in Harbin, China, the Company was incorporated on 6 October 1994 and listed on the Stock Exchange of Hong Kong Limited on 16 December 1994 with its stock code of “01133”.

As at 31 December 2023, the total share capital of the Company comprised of 2,236,276,000 shares of which 675,571,000 were H shares traded on the HKSE.

The Company and its subsidiaries are one of the largest manufacturers of power plant equipment in China, with a power plant equipment of production capacity of 30 million kilowatts per annum. The Group’s principal activities and products include:

- ✧ thermal power main equipment: boilers, steam turbines and steam turbine generators with single unit capacity up to 1,000 MW class, accounting for one-third of the installed capacity of thermal power in China;
- ✧ hydro power main equipment: hydro power generators units with single unit capacity up to 1,000 MW, accounting for 50% of the installed capacity of hydro power in China;
- ✧ nuclear power main equipment: nuclear island and conventional islands equipment for nuclear power plants with single unit capacity up to 1,400 MW class;
- ✧ complete set of steam power equipment: 9F/9H class gas turbine and combined gas and steam cycle set;
- ✧ clean energy: R&D and production of products such as solar energy, tidal power and desalination;
- ✧ other products: ancillary equipment for power stations, industry boilers, industrial steam turbines, control devices, valves for power stations, pressure vessels, etc.;

OVERVIEW OF THE COMPANY (CONTINUED)

- ✧ turnkey construction of power station projects;
- ✧ service for complete sets of thermal and hydro power equipment;
- ✧ import and export of equipment for power stations;
- ✧ after-sales service for power station equipment products;
- ✧ R&D of engineering technology for complete sets of power equipment;
- ✧ R&D of power equipment and its ancillary products;
- ✧ environmental protection engineering services, such as desulfurization, denitrification and dust removal.

The Company actively participates in the construction of “Belt and Road”, vigorously develops the international market and advances into the world’s high-end power station engineering contracting field, and exports its products to over 50 countries and regions in Asia, Africa, Europe and America.

The Company brings together a pool of top talents in scientific research, technology and management, as well as a comprehensive system for quality assurance and quality control with a range of advanced production and research facilities. Its capabilities in research and development, production and manufacturing and power station construction rank the top in the power equipment manufacturing industry in China.

CHAIRMAN'S STATEMENT

Dear shareholders,

On behalf of the Board, I hereby present the 2023 annual report of Harbin Electric Company Limited (the "Company") and its subsidiaries.

The year 2023 is the first year for the Company to fully implement the spirit of the 20th National Congress of the CPC as well as a crucial year for its "three steps" work arrangement to "achieve results". The majority of cadres and workers worked hard in unity, forged ahead and overcome difficulties, and promoted the enterprise to embark on the fast track of high-quality development; the workers' morale was refreshed, the momentum of progress was significantly increased, with continuous improvement in development quality, and the economic operation continued to improve. During the Reporting Period, the Company achieved operating revenue of RMB28,841 million, representing a year-on-year increase of 17.03%; net profit attributable to the owner of the parent company of RMB574.76 million, representing a year-on-year increase of RMB476.12 million; and value of formal contracts signed of RMB43,565 million, representing a year-on-year increase of 29.53%, demonstrating the continuous upswing of enterprise development trend.

During the Reporting Period, the Company insisted on political leadership, fulfilled the "Two Upholds" more consciously and resolutely, focused on its new mission and positioning as a state-owned central enterprise, further improved the development strategy, and introduced more than 20 systems and programmes in scientific and technological innovation, quality enhancement, digital transformation, etc. Focusing on the annual targets and tasks, we intensified our efforts to improve quality and increase efficiency, achieving double-digit growth in major economic indicators, with operating income, overall labour productivity and market orders reaching the best level in history. We insisted on being innovation-driven, achieved key breakthroughs in scientific and technological innovation, increased investment in research and development, and set up seven innovation consortiums through the restructuring of two key national laboratories, with the completion rate of the second phase of the key core technology research project and the task nodes of SINOMACH innovation consortium reaching 100% and multiple technologies reaching the international leading level. We made every effort to develop the market, maintaining a leading position in the market for large hydropower main units and achieving a significant breakthrough in the market development of nuclear steam turbine generator units, with a substantial year-on-year increase in orders for large-capacity and high-parameter coal power generator units. We insisted on serving the national strategy with the construction of major projects, helping the Baihetan Hydropower Station to win the 2023 FIDIC Award for Engineering Excellence, and all four units of the Hasyan Clean Coal-fired Power Plant Project were put into commercial operation and won the 2023 International Security Prize. We made every effort to transform and upgrade by completing one digital workshop, two digital production lines and four digital units and passing the acceptance of the special digital twin project, with four scenarios being selected as excellent demonstration scenarios of intelligent manufacturing by the Ministry of Industry and Information Technology and revenue from the digital industry increasing by 112% year on year.

At present, China's economic and social development with high quality continues to deepen, and power demand will continue to grow. In the context of the "dual carbon" goal, green low-carbon transformation is accelerating, the advancement of clean energy substitution is unstoppable, the traditional power system is evolving into a new power system, and hydropower, nuclear power and other industries are developing rapidly. The Company will maintain strategic focus and boost development confidence, grasp the rare opportunity of industrial development, definitely identify the urgent need for transformation and upgrade, and steadily carry out the arduous task of being first-class by insisting on constant attention to technology, quality and service, continuing to deepen the "seven key points for strong enterprises" of manufacturing, technology, quality, digital, reform, service and talent to strengthen the enterprise as well as the "seven key points for enterprise development" of learning, solidarity, collaboration, branding, style, hard work and dedication, and comprehensively improve the abilities of innovation, governance and value creation, so as to build a century-old enterprise in China's equipment manufacturing industry.

CHAIRMAN'S STATEMENT (CONTINUED)

In 2024, the Company will insist on the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, thoroughly carry out the spirit of the 20th Party Congress, carry out the spirit of the Central Economic Work Conference, persist in seeking progress while maintaining stability, promoting stability through progress, and establishing after progress, strengthen the strategic leadership, accelerate the reform and innovation, focus on strengthening core capabilities and improving core competitiveness, give full play to the roles of scientific and technological innovation, industrial control, and security support, focus on building excellent and strong heavy equipment manufacturing bases to accelerate the optimisation of spatial layout, and strive to sprint to a higher goal on the basis of ensuring the growth of main economic indicators, so as to accelerate high-quality development in the construction of a world-class equipment manufacturing enterprise.

Manufacturing industry is the very foundation and fundamental for building and strengthening China, as well as the lifeblood of the national economy. Comrade Xi Jinping attaches great importance to the development of the manufacturing industry, clearly defines the strategic position of the manufacturing industry in the construction of a strong nation and the national rejuvenation, and stresses that manufacturing industry is an indispensable part in China at any time, greatly enhancing our confidence and determination to promote the development of manufacturing. With more than 70 years of experience in equipment manufacturing, the Company has been leading and promoting China's power generation equipment to achieve a new leap from Made in China to Created in China. With our excellent talent resources, strong technological research and development capabilities, a complete manufacturing and marketing system, and the strong support of many strategic partners, we are confident and capable of accelerating the enhancement of our core competitiveness and market influence, and we will continue to promote and lead the development of the equipment manufacturing industry in the manner of high-end, intelligent and green development, and reward our shareholders with better results.

I would like to express my gratitude to our shareholders for their trust and support, to my colleagues on the Board of Directors and Board of Supervisors for their effort and contribution, and to all of our staff members for their hard work and dedication.

Chairman

Cao Zhi-an

Harbin, the PRC, 28 March 2024

MANAGEMENT DISCUSSION AND ANALYSIS

Unless otherwise stated, all amounts are denominated in Renminbi.

MACRO-ECONOMY AND INDUSTRY DEVELOPMENT

In 2023, in the face of an unusually complex international environment and the challenging tasks of advancing reform and development and ensuring stability at home, the Party Central Committee with Comrade Xi Jinping at its core brought together the Chinese people of all ethnic groups and led them in withstanding external pressures and overcoming internal difficulties with dedicated efforts. China secured a smooth transition in epidemic response following a major, decisive victory in the fight against Covid-19. The main goals and tasks for economic and social development in 2023 were accomplished, and China made steady progress in pursuing high-quality development, maintained overall social stability, and made solid advances in building a modern socialist country in all respects.

In 2023, the green, low-carbon transformation was accelerated in the energy sector. As China strengthened the overall planning and policy support, the non-fossil energy maintained a strong development momentum, continuing laying a solid foundation for the green development. According to the relevant statistics from China Electricity Council, throughout the 2023, the total installed capacity of power generation rose by 370 million kilowatts, to which the on-grid solar power contributed 220 million kilowatts or 58.5%. As of the end of 2023, the total installed capacity of power generation on a consolidated basis in China was 2.92 billion kilowatts, of which the installed capacity of non-fossil energy power generation was 1.57 billion kilowatts, the percentage of which in the total installed capacity exceeded 50% for the first time to 53.9%. By type, the installed capacity of hydropower generation amounted to 420 million kilowatts, including 50.94 million kilowatts of pumped storage; nuclear power 56.91 million kilowatts; wind power connected to the grid 440 million kilowatts, consisting of onshore wind power 400 million kilowatts and offshore wind power 37.29 million kilowatts; solar power generation connected to the grid 610 million kilowatts; wind and solar power generation connected to the grid 1.05 billion kilowatts on a combined basis, up 38.6% over the end of the previous year and representing 36.0% of the total installations, presenting an increase of 6.4 percentage points year-on-year; thermal power 1.39 billion kilowatts, including 1.16 billion kilowatts of coal power that represented a year-on-year increase of 3.4% and accounted for 39.9% of the total installed capacities, down by 4.0 percentage point year on year and lower than 40% for the first time. New energy storage witnessed robust development momentum. As of the end of 2023, the accumulated installed capacities of nationwide new energy storage projects having been completed and put into operation amounted to 31.39 million kilowatts/66.87 million kWh, with average storage time of 2.1 hours; the installed capacities rose over 260% from the end of 2022 to approximate 22.6 million kilowatts/48.7 million kWh.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

PRODUCTION AND OPERATION

In 2023, the Company earnestly studied and implemented a series of important statements by General Secretary Xi Jinping, and thoroughly implemented the decisions and deployments of the CPC Central Committee and the State Council. With all employees working together, the Company forged ahead with determination and tackled difficulties to boost the high-quality development, as shown by the continuous improvement of the production and operation, stronger growth momentums and higher development quality across the Company.

New contracts

In 2023, the orders of the Company realized RMB43.565 billion worth of duly signed contracts, representing a year-on-year increase of 29.53%, of which RMB24.59 billion for new-type power equipment, a year-on-year increase of 44.32% (RMB13.973 billion for thermal power equipment, a year-on-year increase of 101.66%; RMB5.873 billion for hydropower equipment, a year-on-year increase of 38.81%; RMB1.982 billion for nuclear power equipment, a year-on-year decrease of 41.77%; RMB1.687 billion for steam equipment, a year-on-year decrease of 16.81%); RMB994 million for green and low carbon driven equipment, a year-on-year decrease of 27.76%; RMB5.936 billion for clean and efficient industrial system, a year-on-year increase of 23.00%; RMB6.957 billion for EPC and trading, a year-on-year increase of 22.68%; and RMB5.088 billion for modern manufacturing and service industry, a year-on-year increase of 7.8%.

New-type power equipment: Driven by the good momentum of the thermal power market, the formal contract value of the Company's thermal power equipment increased significantly; the pumped storage market continued the robust development trend, and the formal contract value in the hydropower industry rose by a large margin.

Green and low carbon driven equipment: The Company saw an increase in the orders from the marine equipment industry.

Clean and efficient industrial system: The Company saw an increasing orders in the industrial petrochemical business and pump valve, with the formal contract value increasing steadily.

EPC and trading: The Company continued to increase its efforts in developing the overseas EPC market and secured orders for a number of EPC projects in Central Asia and Southeast, among others, resulting in an increase in the formal contract value.

Modern manufacturing and service industry: The Company vigorously explored the service market, centering on its development orientation of being an "operation and maintenance service provider", resulting in steady growth in the formal contract value.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

Production

In order to ensure the Company's sustainable and healthy development and reasonably control operational risks, taking into account the orders on hand, the market situation, customer demand and project progress of the Company, the output of the Company's power generation equipment amounted to 26.93 million kilowatts in 2023, up by 76.4% over the same period last year, of which 6.44 million kilowatts were produced by water turbine generator units, up by 138.7% over the same period last year; and 20.49 million kilowatts were produced by steam turbine generators, up by 63.0% over the same period last year. Output of steam turbines for power stations was 13.69 million kilowatts, up by 35.6% over the same period last year and that of boilers for power stations was 15.16 million kilowatts, up by 8.1% over the same period last year.

Scientific research and innovation

In 2023, the Company invested RMB1.584 billion in science and technology in total, with the R&D investment intensity of 5.53%, and completed 300 scientific research projects and development of 210 new products. The Company received 33 scientific and technological awards at or above the ministerial and provincial-level throughout the year, including: the research and application of the 700m head 400MW high-speed pumped storage unit and the 600-1,000MW ultra-supercritical secondary reheating boiler won the China Good Design Award (Gold) granted by the Innovative Design Alliance of China and the Chinese Mechanical Engineering Society; the critical technology for the installation of the giant mixed-flow units and its application won the First Prize of Electric Power Science and Technology Award issued by the Chinese Society of Electrical Engineering; the research on high temperature gas-cooled reactor steam generator manufacturing technology and engineering application won the Second Prize in Science and Technology from the Hebei Provincial Government. The Company completed 331 patent licenses, including 148 invention patents.

In 2023, the Company continued to make progress in traditional advantageous products such as hydropower, nuclear power, steam power, thermal power and general equipment, and achieved remarkable results in solar PV, new energy storage and energy efficiency. The Company's "million kilowatt hydroelectric generator unit" was included into the catalog of recommended technological innovation achievements of central enterprises; the "large-scale impulse water turbine generation unit" was selected by the Ministry of Industry and Information Technology and the State-owned Assets Supervision and Administration Commission as a "one-stop" application demonstration direction; "the technology of large-scale coal-to-natural gas pressurized fluidized bed for heat recovery and key equipment", and "the new efficient and flexible coal-fired power generation unit" was approved by the National Energy Administration as the first of the third-batch major technical equipment projects in the energy sector. The Company successfully signed contracts for the construction of the Zala 500MW giant impact water turbine generator unit with the world's largest single-unit capacity and the Huizhou Zhongdong 400MW variable-speed pump-turbine unit with the largest single-unit capacity in China, maintaining its leading performance in the hydropower segment; the demonstration High Temperature Gas-Cooled Reactor Module, a major technology project built by the Company as a part and operated by China Huaneng Group at the Shidao Bay, was put into commercial operation, marking that China's fourth-generation nuclear power technology has reached the world's leading level; the Company successfully signed the solar PV power projects including Three Gorges CTGR Henderson Energy Guazhou, Qingyu DC and Xinhua Bozhou, achieving the breakthroughs in key equipment such as tower receiver systems, steam generators, molten salt storage tanks; the Company secured the contract of providing the air turbine equipment to the world's largest 60,000 kilowatt/600,000 kWh liquid air energy storage demonstration project in Golmud of Qinghai, making new progress in compressed air energy storage.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

Capital expenditure and significant investments held

In 2023, the Company injected a total of capital expenditures worth RMB1.501 billion for major construction and technological transformation projects. The major projects include:

Basic Nuclear Power Capability Improvement Project, Pumped Storage Capacity Improvement Project and the state-level power generation equipment research center R&D base construction project, all of which are steadily progressing.

In 2024, the Company intends to commit an investment of RMB2.563 billion in key construction and technological transformation projects, mainly for the technical measures and technological transformation projects of subsidiaries, Basic Nuclear Power Capability Improvement Project, Pumped Storage Capacity Improvement Project, the state-level power generation equipment research center R&D base construction project, and the construction of digital workshops.

MAJOR ACQUISITIONS AND SALES OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

On 18 July 2023, the Company entered into the Asset Purchase Agreement with Jiadian Co. Ltd, in which the Company conditionally agreed to sell and Jiadian Co. Ltd conditionally agreed to purchase 51% equity interest in Harbin Electric Power Equipment Company Limited. On 28 November 2023, all the conditions precedent to the disposal under the Asset Purchase Agreement were fulfilled and Harbin Electric Power Equipment Company Limited ceased to be a subsidiary of the Company. For further details, please refer to the Company's announcements dated 18 July 2023 and 28 November 2023.

MAJOR FINANCIAL INDEXES

Profit

In 2023, net profit attributable to the owner of the parent company realized by the Company registered RMB574.76 million, representing an increase of RMB476.12 million over the same period last year; earnings per share were RMB0.26. The increase in profit of the Company was mainly due to the Company's significant YoY revenue growth driven by its achievement in expanding markets as well as the incomes from selling its 51% equities in Harbin Electric Power Equipment Company Limited.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

Operating revenue

In 2023, the Company recorded an operating revenue of RMB28,840.86 million, representing an increase of 17.03% over the same period last year, of which: RMB15,746.85 million for new-type power equipment, a year-on-year increase of 34.06% (RMB8,013.58 million for thermal power equipment, a year-on-year increase of 17.79%; RMB3,443.63 million for hydropower equipment, a year-on-year increase of 25.09%; RMB2,489.88 million for nuclear power equipment, a year-on-year increase of 95.18%; RMB1,143.66 million for steam equipment, a year-on-year increase of 86.35%); RMB703.22 million for green and low carbon driven equipment, a year-on-year decrease of 42.24%; RMB5,905.26 million for clean and efficient industrial system, a year-on-year increase of 14.50%; RMB3,792.97 million for EPC and trading, a year-on-year decrease of 20.52%; and RMB2,202.38 million for modern manufacturing and service industry, a year-on-year decrease of 30.53%.

In 2023, the Company recorded a revenue from export of RMB4,662.18 million (or 16.17% of the total operating revenue), decreasing by RMB9.13 million over the same period of the previous year. The export of the Company was dominated by Asia, North America and Europe, in which export to Asia amounted to RMB3,485.07 million, export to North America amounted to RMB882.94 million while export to Europe amounted to RMB204.68 million.

Cost

In 2023, the operating costs of the Company amounted to RMB25,721.08 million, representing an increase of 18.09% as compared with the corresponding period of last year. This was mainly due to the significant growth of the production of such products as the power generation equipment and steam turbines for power stations during the period.

Gross profit and gross profit margin

In 2023, the Company realized a gross profit from operating business of RMB3,119.78 million, representing a year-on-year increase of RMB256.35 million, and a gross profit margin of 10.82%, representing a year-on-year decrease of 0.8 percentage points. The gross profit of new-type power equipment was RMB2,018.84 million, with a gross profit margin of 12.82%, representing a year-on-year decrease of 1.35 percentage points (of which, gross profit of thermal power equipment was RMB765.14 million, with a gross profit margin of 9.55%, representing a year-on-year decrease of 3.91 percentage points; the gross profit of hydropower equipment was RMB444.18 million, with a gross profit margin of 12.90%, representing a year-on-year decrease of 3.42 percentage points; the gross profit of nuclear power equipment was RMB671.72 million, with a gross profit margin of 26.98%, representing a year-on-year increase of 0.18 percentage point; the gross profit of steam equipment was RMB61.39 million, with a gross profit margin of 5.37%, representing a year-on-year increase of 0.66%); the gross profit of green and low carbon driven equipment was RMB42.55 million, with a gross profit margin of 6.05%, representing a year-on-year increase of 9.55 percentage points; the gross profit of clean and efficient industrial system was RMB192.49 million, with a gross profit margin of 3.26%, representing a year-on-year increase of 1.97 percentage points; the gross profit of EPC and trading was RMB162.02 million, with a gross profit margin of 4.27%, representing a year-on-year increase of 0.49 percentage point. The gross profit of modern manufacturing and service industry was RMB770.89 million, with a gross profit margin of 35%, representing a year-on-year increase of 3.23 percentage points. The YoY decline of the overall gross profit margin was due to the decline of the gross profit margin of coal power products and hydropower products as a result of the differences in the structure of products scheduled for production between the two years and the impact of lower prices of products completed during the period.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

Expenses for the period

In 2023, the Company incurred expenses of RMB3,481.48 million in the period, an increase of RMB700.50 million or 25.19% year-on-year. Firstly, the accumulated administrative expenses amounted to RMB1,561.03 million, an increase of RMB265.71 million year-on-year, primarily due to factors such as the rise in employee salary levels and the fulfillment of performance-based compensation for 2022; secondly, the accumulated selling expenses amounted to RMB622.17 million, a decrease of RMB1.74 million year-on-year; thirdly, the accumulated finance expenses amounted to RMB299.65 million, an increase of RMB164.54 million year-on-year, mainly due to the year-on-year loss from the forward exchange settlement; fourthly, the accumulated research and development expenses amounted to RMB998.63 million, an increase of RMB271.98 million year-on-year. The Company maintained a high level of investment in research and development.

Funding source and borrowing status

The Company financed its operation and development with four major funding sources, namely shareholder's funds, trade receivables from customers, bank borrowings and state-funded entrusted loans. The Company arranges borrowings based on each specific project. Except for some exceptions, loans are usually raised by each of the Company's subsidiaries respectively within the annual financing budget. As of 31 December 2023, the balance of the Company's borrowings amounted to RMB6,147.79 million (31 December 2022: RMB7,606.82 million), all of which amounts were borrowed from various financial institutions, such as commercial banks and state-funded entrusted loans, at LPR, and the decrease in the borrowings was mainly due to the fact that the Company effectively supplemented the working capital through issuing domestic shares. Among those borrowings, the amount repayable within one year amounted to RMB4,399.81 million, representing a decrease of RMB815.11 million as compared with the beginning of the year; the borrowings repayable after one year amounted to RMB1,747.98 million, representing a decrease of RMB643.92 million as compared to the beginning of the year. As of 31 December 2023, the Company's borrowings were primarily in RMB and there was no amount due. The repayment plan has been made for the borrowings that were not due, with no risk of default.

Monetary capital and cash flows

As of 31 December 2023, the monetary capital of the Company was RMB18,677.32 million, representing an increase of RMB1,376.53 million as compared with the beginning of the year. During the period, the net cash flow generated from operating activities of the Company was RMB2,284.20 million; the net cash flow from investing activities was RMB-1,708.54 million; the net cash flow from financing activities was RMB521.88 million. The Company experienced a significant increase in its monetary capital due to factors such as increase in recoveries of payments for goods.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

Asset structure and movements

As of 31 December 2023, the total assets of the Company amounted to RMB71,296.65 million, representing an increase of RMB8,013.42 million or 12.66% as compared to the beginning of the year, out of which RMB60,626.58 million was current assets, accounting for 85.03% of total assets; and RMB10,670.37 million was non-current assets, accounting for 14.97% of total assets.

Liabilities

As of 31 December 2023, total liabilities of the Company amounted to RMB56,709.16 million, representing an increase of RMB5,799.49 million as compared to the beginning of the year, out of which RMB52,869.37 million was current liabilities, accounting for 93.22% of the total liabilities; and RMB3,839.79 million was non-current liabilities, accounting for 6.78% of the total liabilities. As of 31 December 2023, the gearing ratio of the Company was 79.54%. The scale of liabilities increased to some extent due to factors such as increase in accounts payable and contract liabilities.

Owners' interests

As of 31 December 2023, the total equity attributable to the owners of the parent company of the Company amounted to RMB13,864.70 million, representing an increase of RMB2,136.75 million as compared to the beginning of the year; the net asset value per share was RMB6.20, representing a decrease of RMB0.67 as compared with the beginning of the year. During the period, the return rate on net assets of the Company was 4.6%.

GEARING RATIO

As of 31 December 2023, the Company's gearing ratio (non-current liabilities over total shareholders' equity) was 0.26:1, compared with that of 0.41:1 at the beginning of the year.

CONTINGENT LIABILITIES AND PLEDGES

As of 31 December 2023, the Company had guarantees to the Company's subsidiaries and guarantees between the Company's subsidiaries totaling RMB1,332.26 million, and there were no guarantees outside the Company. As of 31 December 2023, the Company pledged its assets of RMB86.84 million to secure loans for liquidity.

EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATE

Some of the deposits of the Company are denominated in foreign currencies. As at 31 December 2023, the amount of the Company's deposits in foreign currencies was equivalent to RMB703.95 million. The export business and businesses settled in foreign currencies expose the Company to certain exchange risk.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

USE OF FUND-RAISING PROCEEDS

As of 31 December 2023, the funds raised from the domestic share subscription conducted by the Company in 2017 (the “2017 Proceeds”) had an unused amount of RMB96 million (the “Related Proceeds”) for a nuclear power technology upgrade project that had been clarified. Such Related Funds were originally expected to be used up before 31 December 2023, which has been postponed to 31 December 2024 in accordance with the progress of the project.

The use of the 2017 Proceeds is as follows:

Intended use of the 2017 Proceeds	Intended amount of the 2017 Proceeds used <i>(RMB100 million)</i>	Amount of the 2017 Proceeds used <i>(RMB100 million)</i>	Remaining amount of the 2017 Proceeds <i>(RMB100 million)</i>	Intended use time
Investment in a joint venture project on gas turbine	1.8	1.8	0	
Investment in a nuclear power technology upgrading project	4.86	3.9	0.96	By 31 December 2024
Purchase of raw materials for the production and operation of the nuclear power business	3	3	0	
Purchase of raw materials for the production and operation of the gas turbine business	1.47	1.47	0	
Conducting financial leasing business	1.54	1.54	0	
Total	12.67	11.71	0.96	

As of 31 December 2023, RMB697 million of the funds raised from the domestic share subscription conducted by the Company in 2023 (the “2023 Proceeds”) had been used, and the remaining RMB1 billion will be used as planned for the working capital of the Company’s daily operations over the next two years.

The use of the proceeds in 2023 was as follows:

Intended use of the proceeds in 2023	Intended amount of the proceeds used in 2023 <i>(RMB100 million)</i>	Amount of the proceeds used in 2023 <i>(RMB100 million)</i>	Remaining amount of proceeds in 2023 <i>(RMB100 million)</i>	Intended use time
Daily administrative expenses and loan repayment	1.97	1.97	0	
Working capital supplement	15	5	10	By 31 December 2025
Total	16.97	6.97	10	

The Company has fully utilized its remaining proceeds from issuance of shares and bonds in previous years.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

OUTLOOK

In the Analysis and Forecast Report on the Situation of Electricity Supply and Demand in China for 2024 released by China Electricity Council, it is pointed out that, driven by the rapid development of new energy power generation, the total installed capacity of power generation newly put into operation in 2024 will again exceed 300 million kilowatts, which is basically the same as that in 2023. By the end of 2024, the total installed capacity of power generation is estimated to reach 3,250 million kilowatts, a YoY increase of 12%. Specifically, the installed capacity of thermal power will be 1,460 million kilowatts, including about 1,200 million kilowatts from coal-fired power, with its share in the total installed capacity declining to 37%. The installed capacity of non-fossil energy power generation is estimated to reach 1,860 million kilowatts, with its share in the total installed capacity increasing to approximate 57%. The installed capacity of wind power and solar power generation is estimated to reach 530 million kilowatts and 780 million kilowatts respectively and the combined installed capacity of wind power and solar power will exceed that of the coal power, with the combined share in the total installed capacity up to approximate 40%.

The year 2024 is a crucial year for the Company to achieve the objectives and tasks laid down in the 14th Five-Year Plan, and an important year for the Company to realize a high level of development. The Company will adhere to the guidance by Xi Jinping's thought of socialism with Chinese characteristics in the new era, fully implement the new development philosophy, support the construction of the new development pattern, coordinate the high-quality development and the high-level security. The Company will stick to the general principle of seeking progress while maintaining stability, promoting stability through progress, and establishing the new before abolishing the old. While making efforts to transform the growth model, make structural adjustments, improve quality, and enhance performance, the Company will strive to reinforce core functions and core competitiveness, and anchor the development goal of building itself into a world-class equipment manufacturing enterprise. Adhering to the direction of high-end, intelligent and green development of the industry, the Company will accelerate the building of the "three systems" industrial layout, and implement the "three steps" work arrangement, striving to "achieve results" in a high-level manner and open a new chapter of high-quality development. First, the Company will coordinate the high-quality development and the high-level security, improve the quality of economic operation, strengthen market exploration, enhance the ability to fulfill commitments, and build a strong defense line against risks; second, the Company will accelerate scientific and technological innovation to create new productivity, strengthen the national strategic scientific and technological forces, speed up the breakthroughs in the R&D of core technologies, continue to improve the innovation mechanism, and strengthen the training of the talent team; third, the Company will focus on the construction of a good and strong manufacturing base for heavy equipment to accelerate the industrial upgrade, accelerate the optimization and improvement of the industrial system, vigorously develop strategic emerging industries and future industries, and continue to promote industrial technology upgrade; fourth, the Company will accelerate the digitalization to build new competitive advantages, comprehensively enhance the effectiveness of intelligent manufacturing, make every effort to improve the level of product digitization, and enhance the level of information management in an all-round manner; fifth, the Company will vigorously deepen the reform to stimulate the endogenous impetus, take active actions, constantly improve the corporate governance and the market-based business operation mechanism; sixth, the Company will promote lean operation and management, emphasize the lean cost management and comprehensively improve product quality and services. While accelerating the high-quality development to grow into a world-class enterprise, the Company will strive to make greater contributions to China's ambitious blueprint of building a modern socialist country in all respects and advancing the great rejuvenation of the Chinese nation on all fronts.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

DIRECTORS

Executive Directors

Mr. Cao Zhi-an (“Mr. Cao”), born in 1962, holds a master’s degree in engineering and title of senior economist, and is currently an executive Director, chairman of the board of Directors and the secretary of the Party Committee of the Company, and the chairman of the board of Directors and the secretary of the Party Committee of Harbin Electric Corporation* (哈爾濱電氣集團有限公司). Mr. Cao obtained a master’s degree in engineering from North China Electric Power University majoring in thermal engineering. He served as the deputy officer of the Personnel and Director Management Department of the State Power Corporation* (國家電力公司), officer of the Ideological and Politics Work Office, officer of the Administrative Office, officer of the Personnel Director Department and assistant to the general manager of the State Grid Corporation of China* (國家電網公司). He served as the deputy general manager and member of the Party Group of the State Grid Corporation of China since April 2006, and served as the Director, general manager and deputy secretary of the Party Group of the China Southern Power Grid Company Limited* (中國南方電網有限責任公司) since July 2015. He has been serving as the chairman of the Board and the secretary of Party Committee of Harbin Electric Corporation since November 2021. He has been serving as an executive Director, the chairman of the board of Directors and the secretary of Party Committee of the Company since December 2021.

Mr. Huang Wei (“Mr. Huang”), born in 1965, holds a doctor’s degree and the title of senior engineer, and is currently an executive Director, President and deputy secretary of the Party Committee of the Company, as well as a director, general manager and deputy secretary of the Party Committee of Harbin Electric Corporation. Mr. Huang graduated from the Department of Power and Mechanical Engineering at Shanghai Jiaotong University with a bachelor’s degree in marine power machinery, graduated from the Department of Thermal Engineering at Chongqing University with a master’s degree in thermal engineering, and later obtained a doctor’s degree from Southwestern University of Finance and Economics. Mr. Huang successively served as a key technician of the complete set design department of Dongfang Power Equipment Union Company Limited (東方電站成套設備公司), deputy manager of the thermal power department of importation and exportation branch of Dongfang Electric Corporation (中國東方電氣集團進出口公司), and deputy general manager and general manager of importation and exportation branch of Dongfang Electric Corporation. He served as deputy general manager of Dongfang Electric Corporation (中國東方電氣集團有限公司) from June 2000 to February 2007. He served as deputy general manager and a member of the Party Committee of State Nuclear Power Technology Corporation from February 2007 to September 2008. From September 2008 to April 2021, he successively served as deputy general manager, a member of the Party Committee, deputy general manager, deputy secretary of the Party Committee, director, deputy secretary of the Party Committee of Dongfang Electric Corporation (during June 2009 to April 2021, he also served as a director of Dongfang Electric Corporation Limited (東方電氣股份有限公司), and during August 2017 to May 2019, he also served as senior vice president of Dongfang Electric Corporation Limited). From April 2021 to March 2023, he served as a director and the deputy secretary of the Party Committee of Dongfeng Motor Corporation (東風汽車集團有限公司), and from June 2021 to May 2023, he concurrently served as a non-executive director of Dongfeng Motor Group Company Limited (東風汽車集團股份有限公司). Since March 2023, he has served as a director, general manager and deputy secretary of the Party Committee of Harbin Electric Corporation. Since April 2023, he has served as the deputy secretary of the Party Committee of the Company. He has been an executive Director and President of the Company since May 2023.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT (CONTINUED)

Mr. Zhang Ying-jian (“Mr. Zhang”), born in 1964, holds a master’s degree and is a senior engineer. He currently resigned as the executive Director of the Company. Mr. Zhang graduated from the Department of Thermal Engineering at Tsinghua University with a bachelor’s degree in gas turbines and subsequently obtained a master’s degree from Harbin Institute of Technology. Mr. Zhang joined HE in 1991. He was formerly a project engineer, project manager, business representative, deputy Director of Harbin Power Station Equipment Import and Export Company, deputy chief engineer, deputy manager of financial planning division and deputy general manager of Harbin Power Engineering Company Limited. He became the deputy general manager of HE in September 2007, a non-executive Director of the Company in January 2013, an executive Director of the Company from March 2013 to January 2021 and a senior vice president of the Company from March 2013 to August 2021. He has been a director and the deputy secretary of the Party Committee of HE since July 2022 and the executive director and the deputy secretary of the Party Committee of the Company since August 2022. He resigned as the executive Director and deputy secretary of the Party Committee of the Company in March 2024.

Mr. Wu Wei-zhang (“Mr. Wu”), born in 1962, is a senior engineer at researcher level with a doctor’s degree, and has retired. Majoring in Hydraulics and River Dynamics, Mr. Wu graduated from Tsinghua University with a master’s degree and subsequently obtained a doctorate degree at Tsinghua University. Mr. Wu has been a deputy Director and deputy head of the turbine department of Electrical Machinery Institute of the Harbin Electrical Machinery Plant, a deputy factory manager of hydropower workshop, a deputy chief engineer and a deputy manager of the product design department of the Electrical Machinery Company. Mr. Wu was appointed as the deputy general manager of the Electrical Machinery Company in 1999 and then the chairman and general manager in October 2000 respectively. He also holds various social posts, including a member of academic committee of National Key Laboratory of Hydroelectric Power Generating Equipment (水力發電設備國家重點實驗室) and the vice chairman of the seventh session of council of China Energy Research Society (中國能源研究會). He was appointed as an executive Director of the Company since September 2000 and has been serving as the general manager of the Company since February 2010. He has been the President of the Company since March 2013, and resigned as an executive Director and the President of the Company in May 2023.

Independent Non-Executive Directors

Mr. He Yu (“Mr. He”), born in 1957, is a senior engineer at researcher level with postgraduate degree and a doctoral degree in management. He is currently an independent non-executive Director of the Company. Mr. He graduated from Huazhong University of Science and Technology, and had held various positions such as deputy general manager of Guangdong Nuclear Power Joint Venture Co., Ltd., deputy general manager, member of the party group, general manager, member of the party committee of China Guangdong Nuclear Power Corporation Co., Ltd.. He served as the chairman of the Board, secretary of the party committee of China General Nuclear Power Corporation (renamed in April 2013, formerly known as China Guangdong Nuclear Power Corporation Co., Ltd.) in April 2010. He retired in July 2020, and served as an independent non-executive Director of the Company since January 2021.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT (CONTINUED)

Mr. Hu Jian-min (“Mr. Hu”), born in July 1954, holds a bachelor degree and the title of senior engineer and serves as an independent non-executive Director of the Company and an independent Director of China first heavy industries. Mr. Hu was graduated from Shandong Institute of Technology, majoring in power system relay protection and automation. He served as a chief engineer of Shandong Electric Power Industry Bureau (Shandong Electric Power Group Corporation), deputy general manager and party leadership group member of Huaneng Power International, Inc., deputy chief engineer, assistant to general manager of China Huaneng Group, executive Director and general manager, and secretary of the party committee of Huaneng Hulunbuir Energy Development Co., Ltd.. He has been the chief engineer, deputy general manager, party leadership group member of China Huaneng Group since 2009, and retired in September 2014. He has been an independent Director of China First Heavy Industries since May 2015. He has been appointed as independent non-executive Director of the Company since March 2017.

Mr. Tang Zhi-hong (“Mr. Tang”), born in 1960, is a senior economist with a university degree. He is now an independent non-executive Director of the Company, and an independent non-executive director of Postal Savings Bank of China Co., Ltd. Mr. Tang graduated from Jilin University and had served as secretary of party committee and president of Liaoning Jinzhou branch of the People's Bank of China and Director of Jinzhou branch of the State Administration of Foreign Exchange, vice president of Shenyang branch, president of Lanzhou branch, secretary and president of the party committee of Shanghai branch, secretary and Director of the party committee of the Shenzhen management department of China Merchants Bank, member of the party committee and assistant to the president of China Merchants Bank. He had been the vice president and member of the party committee of China Merchants Bank in May 2006, retired in April 2020, and served as an independent non-executive Director of the Company since January 2021 and an independent non-executive director of Postal Savings Bank of China Co., Ltd. since November 2022.

Mr. Pan Qi-long (“Mr. Pan”), born in February 1965, holds a bachelor's degree, is a research librarian and currently a non-executive Director of the Company, a full-time external director of a central enterprise, an external director of China RongTong Asset Management Group Corporation Limited* (中國融通資產管理集團有限公司) and an external director of China Iron & Steel Research Institute Group. Mr. Pan graduated from Wuhan University with a bachelor's degree in library science. Mr. Pan successively served as a cadre of the institute of nuclear intelligence, deputy director of the development research department of the policy research office of China National Nuclear Company* (中國核工業總公司), director of the department of policy research and reform of China National Nuclear Corporation (CNNC)* (中國核工業集團公司) (“CNNC”), general manager and deputy secretary of the Party Group of China Baoyuan Industry and Trade Company* (中國寶原工貿公司), general manager and deputy secretary of the Party Group of China National Nuclear Instrument and Equipment Corporation* (中國核儀器設備總公司), general manager and deputy secretary of the Party Committee of China National Nuclear Baoyuan Assets Holding Company* (中國中核寶原資產控股公司), president and secretary of the Party Committee of Nuclear Science and Technology Information and Economics of China* (中國核科技信息與經濟研究院), chairman and secretary of the Party Committee of China National Nuclear Strategic Planning and Research Institute Co., Ltd.* (中核戰略規劃研究總院有限公司) and deputy chief economist of CNNC, and during such period, he also served as the vice chairman of the board of directors of CNNC SUFA Technology Industries Co., Ltd.* (中核蘇閩科技實業股份有限公司) from November 2010 to February 2016. He has served as a full-time external director of a central enterprise since September 2022, an external director of China RongTong Asset Management Group Corporation Limited since November 2022, and an external director of China Iron & Steel Research Institute Group Co., Ltd.* (中國鋼研科技集團有限公司) since June 2023. He has served as an independent non-executive Director of the Company since August 2023.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT (CONTINUED)

Mr. Chen Guo-qing (“Mr. Chen”), born in 1964, a senior engineer with postgraduate qualifications. He currently resigned as the independent non-executive Director of the Company. Mr. Chen graduated from Chongqing University and had served as deputy Director and member of the party committee of the Three Gorges Dam Hydropower Station, assistant to the general manager and deputy chief engineer, chief engineer, member of the party committee, deputy general manager, secretary of the party committee and deputy general manager, general manager and deputy secretary of the party committee of China Yangtze Power Co., Ltd. He served as a Director of China Yangtze Power Co., Ltd. from July 2018 to October 2020, a Director of China General Nuclear Power Corporation from December 2018 to January 2021, a full-time external Director of Central Enterprises since July 2020, and an independent non-executive Director of the Company since January 2021. He resigned as an independent non-executive Director of the Company since August 2023.

SUPERVISORS

Supervisors Representing Shareholders

Mr. Liu Wei-min (“Mr. Liu”), born in 1966, is a senior engineer at researcher level with a postgraduate degree and a master's degree holder. He now serves as supervisor representing shareholder of the Company and the deputy chief auditor of HE and the Company. Mr. Liu graduated from Xi'an Jiaotong University, and received an MBA degree from Harbin Institute of Technology. Mr. Liu had served as the secretary to the former general manager office of Harbin Turbine, deputy chief economist, deputy director of the administration department and director to the general manager office of Turbine Company, assistant to the general manager and party committee member of HE, deputy general manager of Electric Machinery Company, secretary of the disciplinary committee of Boiler Factory, deputy manager and manager of the audit department of HE and the Company. He served as general managers of the audit and supervision department of HE and the Company in December 2019, has been serving as the supervisor representing shareholder of the Company since January 2021 and the deputy chief auditor of HE and the Company since June 2023.

Mr. Zhang Jun (“Mr. Zhang”), born in 1972, is a certified public accountant and senior engineer at researcher level with a postgraduate degree. He now serves as supervisor representing shareholders of the Company, and the chief accountant of Boiler Factory. Mr. Zhang graduated from the Faculty of Business of Heilongjiang, and received an MBA degree from Harbin Institute of Technology. Mr. Zhang served as deputy manager and manager of the financial planning division the Company, deputy general manager of Finance Company, chief accountant of Valve Company, chief accountant of Electric Power Equipment, chief accountant of Harbin Electric Corporation Jiamusi Electric Machine Co., Ltd., and deputy manager of the economic operation department of HE and the Company. He has served as the chief accountant of Boiler Factory since December 2019 and supervisor representing shareholders of the Company since January 2021.

Supervisors Representing Employees

Mr. Yang Yu-long (“Mr. Yang”), born in 1972, is a certified public accountant and senior accountant with a bachelor degree. He now serves as a supervisor representing employees of the Company and the chief accountant of Turbine Company. Mr. Yang graduated from Shenyang University of Technology. He successively served as the deputy manager and manager of the financial planning division of Electric Machinery, deputy general manager, deputy secretary of the Party committee and secretary of the disciplinary committee of Harbin Electric and General Electric Wind Power (Jiangsu) Co., Ltd., deputy chief accountant and manager of the financial planning division of Turbine Company, assistant to the manager of the financial assets department and director of the finance office of HE and the Company. He has served as the chief accountant of Turbine Company since November 2018, and a supervisor representing employees of the Company since January 2021.

Mr. Zhao Xin (“Mr. Zhao”), born in 1978, is a senior accountant, international certified management accountant with a postgraduate degree. He now serves as a supervisor representing employees of the Company and the chief accountant of Electric Machinery Company. Mr. Zhao graduated from Anshan Iron and Steel College and later obtained a master’s degree in business administration from Harbin Institute of Technology. Mr. Zhao successively served as the deputy manager of the finance office of Boiler Company, assistant to the manager, assistant to the manager and director of the accounting department of HE and the Company’s financial assets department, and the deputy general manager and chief accountant of Finance Company. Since November 2019, he has served as the chief accountant of Electric Machinery Company and a supervisor representing employees of the Company since January 2021.

SENIOR MANAGEMENT

Mr. Lu Zhi-qiang (“Mr. Lu”), born in 1973, is a holder of a doctoral degree in engineering and a senior engineer of researcher level. He is currently a deputy secretary of the Party Committee and senior vice president of the Company, and a deputy secretary of the Party Committee of HE. Mr. Lu graduated from Harbin Institute of Technology with a degree in thermal turbine, and obtained a Ph.D. in dynamical machinery and engineering from Harbin Institute of Technology. Mr. Lu has served as a deputy head of the design research center, vice principal of the research institute, head of the technical management department and deputy chief engineer of Turbine Company. He served as the assistant to the general manager of Turbine Company in September 2009, deputy general manager of Turbine Company in June 2011, executive deputy general manager of Turbine Company in March 2015, general manager and deputy secretary of the Party Committee of Turbine Company in January 2016, chairman and secretary of the Party Committee of Harbin Turbine Company Limited in March 2017, standing committee member of the Party Committee and deputy general manager of HE since August 2018, and a senior vice president and standing committee member of the Party Committee of the Company since November 2018. He has served as a deputy secretary of the Party Committee of HE and a deputy secretary of the Party Committee of the Company since March 2024.

Mr. Shen Tong (“Mr. Shen”), born in 1972, is a professor level senior engineer with a postgraduate degree. He now serves as a senior vice president and standing member of the Party committee of the Company, and deputy general manager and standing member of the Party committee of Harbin Electric Corporation. Mr. Shen graduated from Tsinghua University, and subsequently received his master’s degree from Tsinghua University. Mr. Shen has successively served as director and deputy head of the production department of Qiqihar Power Bureau, secretary to the Party group of the general manager’s department of Northeast China Power Grid Company Ltd., head of Jinzhou Ultra High Voltage Bureau, director of the general manager’s department and director of the press center of Northeast China Power Grid Company Ltd., secretary to the committee of the Communist Youth League and deputy director of the ideological and political work department of State Grid Corporation, deputy general manager and member of the Party group of State Grid Shanxi Electric Power Company*, director, general manager and deputy secretary to the Party committee of State Grid Shaanxi Electric Power Company*, chairman of the board of directors and secretary to the Party committee of State Grid Qinghai Electric Power Company*. He has served as deputy general manager and standing member of the Party committee of Harbin Electric Corporation since February 2021, and served as a senior vice president and standing member of the Party committee of the Company since August 2021.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT (CONTINUED)

Mr. Du Xing-kai (“Mr. Du”), born in 1967, holds a bachelor’s degree and title of senior accountant at professor level, and is currently the senior vice president and the member of the Standing Committee of the Party Committee of the Company, the chief accountant and the Standing Committee member of the Party Committee of HE. Mr. Du graduated from the Department of Management Engineering, Northeast Institute of Technology with a bachelor’s degree in industrial accounting. Since then, Mr. Du has served as deputy director and director of the capital operation department of the financial planning division of Angang, director, deputy general manager and general manager of Angang Financial Company Limited, general manager of the capital operation department of Angang Group Company Limited, and director of Angang Group (Hong Kong) Holdings Limited. In November 2020, he was appointed as assistant general manager and general manager of the capital operation department of Ansteel Group Company Limited, and in February 2021, he was appointed as chairman of Ansteel Capital Holding Co., Ltd.. He has been the chief accountant and a member of the Standing Committee of the Party Committee of HE since July 2022, and a senior vice president and a member of the Standing Committee of the Party Committee of the Company since August 2022.

Mr. Qiu Xiliang (“Mr. Qiu”), born in 1968, is a senior engineer at researcher level with a master's degree in engineering. He is currently the vice president of the Company, chairman and the party committee secretary of Turbine Company. Mr. Qiu graduated from the Harbin Institute of Technology and obtained a master's degree in engineering from the Harbin Institute of Technology. Mr. Qiu had served as the deputy chief technician and deputy director of technical room of cooling branch factory, manager of cooling branch factory, manager, deputy general manager, chairman and general manager and deputy secretary of party committee of hydropower workshop of Electric Machinery Company, general manager of Power Station Service Division of the Company. Since February 2017, he has served as the general manager and secretary of the Party Branch of Power Station Service Division of the Company. He has also served as the chairman and the party committee secretary of Turbine Company since August 2020 and the vice president of the Company since January 2021.

Mr. Wang Gui (“Mr. Wang”), born in 1967, is a senior engineer at researcher level with a doctorate's degree. He is currently the vice president of the Company, chairman and the party committee secretary of Electric Machinery Company. Mr. Wang graduated from Changchun Institute of Optics and Fine Mechanics and obtained a doctorate's degree in engineering from the Harbin Institute of Technology. Mr. Wang had served as the deputy chief economist and head of project management department, manager of hydropower workshop of Electric Machinery Company. He also served as the director and general manager, chairman and general manager of Electric Power Equipment Company, deputy general manager of Electric Machinery Company, head of technology and quality department of the Company. Since August 2018, he has served as chairman and the party committee secretary of Electric Machinery Company and the vice president of the Company since January 2021.

Mr. Yu Long (“Mr. Yu”), born in 1965, holds a master's degree and title of senior engineer at the researcher level, and is currently the vice president of the Company, and the chairman of the board of directors and secretary of the Party Committee of Harbin Boiler Factory Co., Ltd. (“HB”). Mr. Yu graduated from the Department of Thermal Engineering at Tsinghua University with a bachelor’s degree in thermal engineering. Since then, Mr. Yu has served as the deputy director, deputy chief engineer and deputy general manager of the design department of HB, secretary of the Party Committee and executive deputy general manager of the steam power division of the Company. In January 2018, he was appointed as the secretary of the Party Committee and general manager of the steam power division of the Company, and in March 2019, he was appointed as the vice chairman, general manager and deputy secretary of the Party Committee of Harbin Boiler Company Limited. He has served as the chairman of the board of directors and secretary of the Party Committee of Harbin Boiler Company Limited since July 2022, and the vice president of the Company since August 2022.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT (CONTINUED)

Mr. Chen Dong-shi (“Mr. Chen”), born in June 1971, holds a master’s degree and the title of senior engineer, is currently the vice president of the Company, the general manager of marketing department and general manager of safety, environment and quality control department of HE. Mr. Chen graduated from Shenyang Institute of Technology majoring in metal corrosion and protection, and later obtained a master’s degree in engineering from Harbin Engineering University majoring in project management. He successively served as a craftsman, deputy director of the cadre office of the organization department of the Party Committee, deputy director and director of the steam turbine branch (汽發分廠) of Harbin Electric Machinery Co., Ltd.* (哈爾濱電機廠有限責任公司), head of the organization department of HE and the Company, deputy general manager of Harbin Boiler Co., Ltd.* (哈爾濱鍋爐廠有限責任公司), chairman, general manager, and deputy secretary of the Party Committee of Harbin Turbine Company Limited* (哈爾濱汽輪機廠有限責任公司), deputy chief economist of HE, general manager and secretary of the Party Committee of the gas turbine division of the Company, chairman of Harbin Electric General Gas Turbine (Qinhuangdao) Co., Ltd.* (哈電通用燃氣輪機(秦皇島)有限公司), general manager and secretary of the Party Committee of the steam power division, general manager and secretary of the Party Committee of the gas turbine division of the Company, and chairman of Harbin Electric General Gas Turbine (Qinhuangdao) Co., Ltd.. He has served as the general manager of the marketing department of HE and the Company since January 2022. He has served as the vice president of the Company since August 2023.

COMPANY SECRETARY

Mr. Ai Li-song (“Mr. Ai”), born in 1970, is a senior economist with a master degree. He is currently the company secretary and a general manager of legal compliance department of the Company. Mr. Ai graduated from Jilin University of Technology majoring in technical economics and he obtained a master degree from Harbin Institute of Technology. Mr. Ai has been a staff of the Harbin Electrical Machinery Works, general manager of the Sales Office of Shenyin & Wanguo Securities Co., Ltd. (申銀萬國證券公司) at Nanma Road, Harbin, deputy manager of the investment and reforming department and manager of investment management department of HE, manager of the planning and development department, director of the secretariat of the Board, deputy manager and manager of the securities and legal affairs department of HE and the Company. He has been the company secretary of the Company since May 2015 and has been the general manager of legal compliance department of the Company since December 2019.

DIRECTORS' REPORT

PRINCIPAL ACTIVITIES

The Company is mainly engaged in the manufacture and sales of various kinds of power generation equipment and provision of power station engineering services, and its major businesses currently include: New-type power equipment, mainly including thermal power equipment, hydropower equipment, nuclear power equipment, steam equipment, energy storage equipment, etc.; green and low carbon driven equipment, mainly including marine equipment, etc.; clean and efficient industrial system, mainly including environmental protection products, industrial petrochemical equipment, etc.; EPC and trading, including general contracting of power systems, drive systems, etc.; modern manufacturing and service industry, including energy equipment renovation, spare parts sales, operation and maintenance, inspection and other related businesses. There were no significant changes in the Company's principal activities during the Reporting Period.

The operations of the Company are mainly located in China, with approximate four-fifth of its revenue deriving from China during 2023. In 2023, the revenue from export of the Company amounted to RMB4,662.18 million, representing 16.17% of the Company's operating income, representing a year-on-year decrease of RMB9.13 million. The Company's major regions for export included Asia, North America, Europe and other regions, which respectively amounted to RMB3,485.07 million to Asia, RMB882.94 million to North America and RMB204.68 million to Europe.

BUSINESS REVIEW

Details of a fair review of the Company's business in 2023, key financial performance indicators and possible future developments of the Company are set out in the section headed "Management Discussion and Analysis" of this annual report.

Principal Risk and Uncertainties

In 2023, with the goal of "strengthening internal control, preventing risks, and promoting compliance", the Company coordinated high-quality development and high-level safety, fully committed to constructing a compliance and risk control system that covers the entire group, all staff, all fields, and all systems, with "horizontal coordination and vertical integration" as its core, strived to institutionalize and normalize the efforts of preventing and mitigating major risks, continued to improve the risk management mechanism, strengthened risk assessment and response, focused on preventing and resolving major systemic risks, and strived to improve enterprise risk management and control capabilities. The Company ensured the operation and management of the year were legal and compliant, and major risks were under control. During the year, the principal risks and countermeasures of the Company were as follows:

1. International operation risk: At present, the uncertainty of the world economy is significantly increasing, and the possibility of risks caused by changes in the political and economic situation of the countries where foreign-related business is located continues to rise. Moreover, foreign-related contracts are usually denominated in US dollars, and exchange rate fluctuations may have a certain impact on the Company's operating performance. In this regard, the Company conducted in-depth research and analysis of overseas market policies and environment. When selecting projects, the Company tried to avoid countries or regions with greater risks in the political environment and natural environment; in the process of project implementation, the Company strictly followed the requirements of risk management and control, and did a good job of project risk assessment, identification and response, as well as safeguarded its legitimate rights and interests according to law; the Company continued to consolidate the management foundation for hedging foreign exchange transaction risks, and strictly controlled the risks that may be caused by exchange rate fluctuations.

DIRECTORS' REPORT (CONTINUED)

2. Reform and transition risks: The Company is engaged in the equipment manufacturing industry, which is considerably influenced by national policies. The country is vigorously promoting the transformation and upgrade of industrial structure and accelerating the development of new energy, green and low-carbon economy, which poses new challenges to the Company's judgment and execution in promoting reform and transformation and adapting to changes in the external environment such as industry development and market competition. In this regard, the Company has coordinated the green and low-carbon transformation of its industry, accelerated the construction of a new power system, a green and low-carbon drive system and a clean and efficient industrial system with new energy as the mainstay, and further enhanced its core competitiveness and sustainable development capability.
3. Market competition risk: The clean energy and low-carbon transformation in the "14th Five-Year Plan" provides rare opportunities for the energy equipment manufacturing industry, and also puts forward urgent requirements for the technological upgrade and leapfrogging of energy equipment manufacturing enterprises. The market competition will then become increasingly fierce. In this regard, the Company will strive for better product, better quality and better service, solidly promote the special action of quality and efficiency improvement and win the trust of customers by continuously promoting business and product innovation, technology research and development, improving product competitiveness, increasing market development efforts, and improving service capability levels.

Compliance with Relevant Laws and Regulations

In 2023, none of non-compliant events occur to the Company with respect to relevant laws and regulations that have a significant impact on the business of the Company. Relevant laws and regulations are listed as follows:

Principal Laws and Regulations	Key Scope	Compliance Measures
Civil Code of the People's Republic of China	The Company's business contract signed with customers must comply with basic requirements stipulated in the Civil Code.	<ol style="list-style-type: none">1. Business contracts signed by each business department of the Company need to be reviewed by the Company's legal advisers.2. The legal adviser puts emphasis on reviewing the main terms of the contract subject, contract subject, quantity, quality, price or remuneration, performance period, place, method, liability for breach of contract and dispute resolution, proposes amendments and controls contract legal risk of the Company.

DIRECTORS' REPORT (CONTINUED)

Principal Laws and Regulations	Key Scope	Compliance Measures

Among them, the largest supplier had a contract value of RMB1,274 million, accounting for 3.91% of the total procurement volume of the Company.

3. *Major customers*

During 2023, the Company's top five customers contributed 15.93% of total operating revenue, of which the largest customer accounted for 3.50% of total operating revenue.

None of the Directors, Supervisors, their associates and any shareholders of the Company (which to the knowledge of the Board of Directors own 5% or above of the Company's shares) has any interest in the above-mentioned suppliers or customers.

RESULTS

As of 31 December 2023, the operating income of the Company amounted to RMB28,840.86 million, and net profit attributable to the owners of the parent company was RMB574.76 million. The results of the Company for the year ended 31 December 2023 are set out in the consolidated income statement of this annual report.

DIVIDEND

Based on the Company's total share capital of 2,236,276,000 shares, the board of directors recommends a final dividend of RMB0.052 per share (tax inclusive) for the year 2023, representing 20.23% of the Company's earnings per share for the year 2023, for a total dividend of RMB116,286,352.00.

The dividends of H-share shareholders will be paid in HKD at the market exchange rate of RMB against HKD published by the People's Bank of China five days prior to 28 March 2024, that is, RMB1 is equivalent to HK\$1.1021, and the dividend of H-share shareholders will be HK\$0.0573 per share.

The Company will review and approve the 2023 final dividend distribution plan at the 2023 Annual General Meeting of Shareholders to be held on 24 May 2024.

No shareholder has told the Company to waive or agree to waive any dividend as of 31 December 2023.

DIRECTORS' REPORT (CONTINUED)

CLOSURE OF REGISTER FOR THE PURPOSE OF DIVIDEND PAYMENT

The final dividend for the year of 2023 of the Company will be distributed on 24 July 2024, and the register of members of the Company will be closed from 17 June 2024 to 21 June 2024 (both dates inclusive). Final dividends for the year of 2023 of the Company will be distributed to shareholders whose names appear in the register of members of the Company on 17 June 2024.

In order to be qualified for the final dividends for 2023, all duly completed transfers of shares together with the relevant share certificates must be lodged with Hong Kong Registrars Limited, the Company's share registrar in Hong Kong, at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong (for the holders of the H Shares only) or the Company's principal place of business in the PRC at 1399 Chuangxinyi Road, Songbei District, Harbin, Heilongjiang Province, the PRC (for the holders of the Domestic Shares only) not later than 4:30 p.m. on 14 June 2024.

DIVIDEND TAX

Pursuant to the Individual Income Tax Law of the People's Republic of China (《中華人民共和國個人所得稅法》), the Implementation Regulations of the Individual Income Tax Law of the People's Republic of China (《中華人民共和國個人所得稅法實施條例》) and other relevant requirement, the Company will withhold and pay the individual income tax in respect of the dividend (bonus) received by individual shareholders of H shares from the Company. Individual shareholders of H shares of the Company may be entitled to certain tax preferential treatments pursuant to the tax treaties between the PRC and the countries in which the individual shareholders of H shares are domiciled and the tax arrangements between Mainland China and Hong Kong (Macau). The Company will determine the residence of the individual shareholders of H shares based on the registered address as recorded in the register of shareholders on the book closure date. The specific arrangement will be as follows:

For individual shareholders of H shares who are residents of Hong Kong or Macau and countries which entered into a tax treaty with the PRC stipulating a dividend tax rate of 10%, the Company will withhold and pay individual income tax at the rate of 10% on their behalf; for individual shareholders of H shares who are residents of countries which entered into a tax treaty with the PRC stipulating a dividend tax rate of less than 10%, the Company will withhold and pay individual income tax at the rate of 10% on their behalf. Individual shareholders of H shares may apply for refund of excess amount of individual income tax withheld by providing relevant information for approval by taxation authority; for individual shareholders of H shares who are residents of countries which entered into a tax treaty with the PRC stipulating a dividend tax rate of more than 10% but less than 20%, the Company will withhold and pay individual income tax at the effective rate stipulated by the relevant tax treaty on behalf of the relevant shareholders; for individual shareholders of H shares who are residents of countries which entered into a tax treaty with the PRC stipulating a dividend tax rate of 20% or has not entered into any tax treaties with the PRC, the Company will withhold and pay individual income tax at the rate of 20% on behalf of the relevant shareholders; according to the "PRC Individual Income Tax Law" (《中華人民共和國個人所得稅法》), the Company will withhold and pay dividend income tax at the rate of 10% on behalf of the non-resident corporate shareholders.

According to the requirements of local tax authorities, the individual shareholders of H share of the Company who need personal income tax clearance certificates shall provide their passport information, therefore, for those individual shareholders of H share of the Company who need the personal income tax clearance certificates, please delivery the copy or scanning copy of their passports to the contact address of the Company before 30 days from the date of the dividend payment, and for those shareholders of H share who fail to provide their passport information, the Company will withhold and pay individual income tax collectively.

DIRECTORS' REPORT (CONTINUED)

CONFIRMATION OF INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company confirmed to have received annual confirmation of independence from each independent non-executive director pursuant to Rule 3.13 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"), confirming all independent non-executive Directors are independent.

INTERESTS OF DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT IN THE SHARE CAPITAL

As of 31 December 2023, none of the directors, supervisors and senior management of the Company had any interest or short position in the shares, underlying shares and debentures (as the case may be) of the Company and any of its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (SFO)) which was required to be notified to the Company and the Hong Kong Stock Exchange (including interest or short position which any such director, supervisor or senior management is taken or deemed to have under such provisions of the SFO) pursuant to the SFO or which was required to be recorded in the Register kept by the Company pursuant to section 352 of the SFO or which was required to be notified to the Company and the Hong Kong Stock Exchange pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers as contained in Appendix C3 to the Listing Rules.

SERVICE CONTRACTS OF DIRECTORS AND SUPERVISORS

As of 31 December 2023, the Company entered into no service contract specified in Rule 14 of Appendix D2 of the Listing Rules with Directors and Supervisors of the Company.

INTERESTS OF DIRECTORS AND SUPERVISORS IN CONTRACTS OF SIGNIFICANCE

As of 31 December 2023, none of the Directors or Supervisors of the Company has any interest, whether directly or indirectly, in the contracts of significance entered into by the Company.

CONTRACTS OF SIGNIFICANCE WITH THE CONTROLLING SHAREHOLDERS OR THEIR SUBSIDIARIES

On 18 July 2023, the Company entered into an asset purchase agreement with Jiamusi Electric Machine Co., Ltd., a subsidiary of the controlling shareholder, Harbin Electric Company Limited. The Company conditionally agreed to sell and Jiamusi Electric Machine Co., Ltd. agreed to purchase 51% equity interest of Harbin Electric Power Equipment Company Limited. On 28 November 2023, all the prerequisites for the sale transactions under the asset purchase agreement were fulfilled, and Harbin Electric Power Equipment Company Limited was no longer a subsidiary of the Company. For further details, please refer to the announcements published by the Company on 18 July and 28 November 2023.

DIRECTORS' REPORT (CONTINUED)

REMUNERATION OF DIRECTORS AND SUPERVISORS

Remuneration of directors and supervisors of the Company was approved at the general meeting of the Company, in which executive directors, shareholder representative supervisors and employee supervisors will not receive any remuneration as directors and supervisors. The remuneration of independent non-executive directors was determined with reference to remuneration of the relevant personnel of companies engaging in similar business or with similar scale as the Company. None of the directors waived or agreed to waive any remuneration.

At the same time, the Company has adopted an enterprise annuity system in accordance with the relevant regulations, and the Company was required to contribute a certain percentage of its employees' remuneration to the retirement benefits scheme. The Company is not allowed use the forfeited contributions (if any) to reduce the existing contribution level, and no contributions to any retirement benefit schemes have been forfeited during the year ended 31 December 2023.

DIRECTORS' REPORT (CONTINUED)

FIXED ASSETS

As of 31 December 2023, the fixed assets of the Company amounted to RMB4,995.48 million.

PROFITS AVAILABLE FOR DISTRIBUTION

As of 31 December 2023, the total undistributed profits of the Company amounted to RMB5,255.69 million. Movements in the undistributed profits of the Company during the year are set out in the consolidated statement of changes in equity to the financial statements.

PURCHASE, SALE AND REDEMPTION OF THE COMPANY'S LISTED SECURITIES

As of 31 December 2023, neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company's listed securities.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's Articles of Association or PRC laws, which would require the Company to offer new shares to existing shareholders according to their respective proportions of shareholding.

MAJOR LITIGATION

On 17 October 2023, the company received an "Enforcement Order" issued by the People's Court of Shihe District, Xinyang City, Henan Province, demanding the Company to refund RMB128.1 million (equivalent to approximately HKD139.24 million) to the account of the Enforcement Bureau of the People's Court of Shihe District, Xinyang City, within ten days from the date of receiving the order. Failure to comply within the specified period will result in the freezing or transfer of RMB128.1 million from the Company's bank account or the seizure and sealing of other equivalent assets of the Company. For further details, please refer to the announcement published by the Company on 19 October 2023. The Company has made provisions for the estimated liabilities related to this matter.

TAX POLICIES

According to the provisions of Administrative Measures with regard to the Recognition of High and New Technology Enterprises (《高新技術企業認定管理辦法》) jointly issued by the Ministry of Science and Technology, the Ministry of Finance and the State Administration for Taxation of the PRC on 14 April 2008 and the Administrative Guidance with Regard to the Recognition of High and New Technology Enterprises (《高新技術企業認定管理工作指引》) jointly issued by the Ministry of Science and Technology, the Ministry of Finance and the State Administration of Taxation on 8 July 2008, corporations including the Company and its affiliates, including Harbin Electrical Machinery Company Limited, Harbin Boiler Company Limited, Harbin Turbine Company Limited, and HE Harbin Power Plant Valve Company Limited were re-recognised as High and New Technology Enterprises, and shall continue to enjoy a 15% preferential income tax rate, which is significant to their long-term development.

DIRECTORS' REPORT (CONTINUED)

Under the Opinions of Central Committee of the Communist Party of China and the State Council on the Comprehensive Revitalization of Historical Industrial Bases of the Northeast Regions (《中共中央國務院關於全面振興東北地區等老工業基地的若干意見》) in 2016, the Company will continue to enjoy the relevant favourable policies in supporting such revitalization for historical industrial bases of the northeast regions.

In accordance with regulations of the State Administration of Taxation, the rate for tax rebate applicable to the Company's new export products contracts is 13%, which is effective from 1 April 2019.

Pursuant to the Announcement of the General Administration of Taxation of the Ministry of Finance on the Expansion of the Scope of the Policy on the Refund of Value Added Tax Credits (《財政部稅務總局關於擴大全額退還增值稅留抵稅額政策行業範圍的公告》) in 2022, the Company is entitled to a refund of the newly-added credits and a one-time refund of the existing tax credits.

CONNECTED TRANSACTIONS AND CONTINUING CONNECTED TRANSACTIONS

The Company has established Measures for Managing Connected Transactions (《關連交易管理辦法》) to regulate performance of connected transactions and continuing connected transactions. The continuing connected transactions of the Company are internally monitored by the responsible departments, including finance department of planning and secretariat of the Board. The amendment of relevant system and pricing policies are carried out by the responsible departments which are in charge of relevant works and shall be approved by the Board after discussion with the management of the Company. In addition, relevant pricing systems, process and their implementation are supervised by the responsible departments, and those of our subsidiaries were monitored by relevant departments so as to ensure continuing connected transactions were carried out in accordance with their systems.

The annual review of continuing connected transactions by independent non-executive directors of the Company were based on the annual progress of continuing connected transactions detailed state in the annual report and financial report of the Company, and also the review letter of annual progress of continuing connected transactions issued by the auditor of the Company. The independent non-executive directors, where appropriate, inquiry to the management to ensure that sufficient information is obtained to review such transactions and internal control procedures. The independent non-executive directors can ensure that (i) the methods and procedures established by the issuer are sufficient to ensure that the transaction conducted on normal commercial terms and does not prejudice the interests of the issuer and the minority shareholders; and (ii) the issuer has in place internal monitoring procedures, and these transactions were also reviewed by internal audit function.

The Company confirmed that it has complied with the disclosure requirements under Chapter 14A of the Listing Rules in respect of such connected transactions and continuing connected transactions.

DIRECTORS' REPORT (CONTINUED)

Total	120	675,571,000	100.00%

SHARE ISSUANCE

On 28 December 2022, the Company entered into the Domestic Shares Subscription Agreement with Harbin Electric Corporation, the controlling shareholder, pursuant to which the Company agreed to issue and the controlling shareholder agreed to subscribe in cash for new Domestic Shares at a total subscription price of approximately RMB1.7 billion (the "Issuance"). On 13 October 2023, the Company officially obtained the registration certificate dated 10 October 2023 for new domestic shares under the subscription of domestic shares issued by China Securities Depository and Clearing Corporation Co., Ltd, and the subscription of domestic shares was completed. Details of the issue of shares are as follows:

Reasons for Issue

In the strategic context of promoting green and low-carbon transformation and development in the PRC, the proceeds from the issue of new Domestic Shares and the Domestic Share Subscription provide financial support for the Company's reform, transformation and sustainable development, which is conducive to the Company's stimulation of the momentum of business development and steady introduction of new strategies, hence enabling the Company to create greater value for the Shareholders as a whole.

Type of Issue

The Issuance has adopted private placement and the issued shares are Domestic Shares.

Numbers and Total Nominal Value

The number of new Domestic Shares to be issued is 529,753,000. The par value of each share is RMB1.

DIRECTORS' REPORT (CONTINUED)

Issue Price

The final subscription price is HKD3.60 per new domestic share.

The Net Price of Each Share Certificate

The net amount received from the subscription of domestic shares is approximately RMB1.697 billion, with a net price per security of approximately RMB3.20.

Description of Subscriber

The Subscriber is the controlling shareholder of the Company, and is the pioneer in establishing the largest research and manufacturing base for power generating equipment, marine engines, power driven equipment and export base for complete set of equipment in the PRC. Its ultimate beneficial owner is the State-owned Assets Supervision and Administration Commission of the State Council of the PRC.

Market Price of The Securities on the Date of Issue

On 13 October 2023, the securities of the Company were priced at HKD2.39 per share, which was the price on the day of the announcement regarding the issuance of new domestic shares based on special authorization.

Use of Proceeds

It is the intention of the Company to use the net proceeds from the Domestic Share Subscription for replenishing the general working capital of the Group, such that the asset-liability ratio and capital structure can be improved and the financial expenses and financial risks can be reduced. From 2023 to 2025, the Company intends to use net proceeds of approximately RMB500 million per annum as liquidity for the Group's daily operations in such areas. In addition, given the decrease in the Group's gearing ratio (i.e. total assets divided by total liabilities) in recent years, the remaining net proceeds of approximately RMB197 million are intended to be used for ordinary administrative expenses and repayment of borrowings.

MODEL CODE

The Company, having made specific enquiry to the Directors, confirms that all directors complied with the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix C3 of the Listing Rules throughout the period.

DIRECTORS' REPORT (CONTINUED)

ENVIRONMENT, SOCIETY AND GOVERNANCE

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The Company has been actively enhancing the Company's corporate governing structure and standardizing the Company's operations through strictly complying with relevant provisions such as the Company Law of the People's Republic of China and the Securities Law of the People's Republic of China. The Board (the "Board") of the Company is committed to maintaining a high standard of corporate governance, and believes that good corporate governance practices are crucial to the success and sustainable development of the Company's operation in the long run.

In 2023, the Company has fully complied with provisions set out in the Corporate Governance Code in Appendix C1 of the Rules Governing the Listing Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and, where appropriate, adopted the recommended best practices as specified therein.

The Board of the Company is responsible for the corporate governance functions. In 2023, the Board has strictly observed the policies and practices in compliance with laws and regulatory requirement, and also enacted and amended its regulations with reference to those policies and practices, with an aim to perfect our corporate governance policies and practices. The Company continues to focus on the training and continuous professional development of directors and senior management, and actively carries out internal review and rectification work to improve the level of the Company's governance.

As of the date of this announcement, the term of office for the 9th Board of Directors and the 9th Board of Supervisors of the Company expired on 28 January 2024. Since HE, the controlling shareholder of the Company, is still deliberating on the selection of members for the new Board of Directors and Board of Supervisors, the transition of the Board of Directors and Board of Supervisors has been delayed. On 20 March 2024, Mr. Zhang Ying-jian resigned as an executive director of the Company due to a change in position, so the number of the Board members is temporarily below the quorum as required under the Articles of Association of the Company.

CODE OF CONDUCT REGARDING DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix C3 of the Listing Rules as the code of conduct regarding directors' securities transactions. In response to a specific enquiry by the Company, all Directors confirmed that they complied with the Model Code for Securities Transactions by Directors of Listed Issuers at all applicable times during 2023.

BOARD OF DIRECTORS

The major duties of the Board of Directors of the Company are to exercise the discretion in management decision according to the authorization by the general meeting with respect to the development strategies, management structure, investment and financing, planning and management and financial control. Details are set out in the Articles of Association.

CORPORATE GOVERNANCE REPORT (CONTINUED)

5	Considering the Company's self-assessment report of 2022 on internal control and risk management
6	Considering the summary of the Company's audit work for 2022 and the audit work plan for 2023
7	Considering the Company's Interim Results Report of 2023
8	Considering the Company and its subsidiaries' loan matters
9	Considering the matters in relevant Connected Transactions
10	Considering the legal construction and compliance risk control work of the Company

The Audit Committee has reviewed the financial statements included in the 2023 Annual Report, confirmed that these financial statements were prepared in accordance with China Accounting Standards and fairly presented the financial positions and results of the Company for the year ended 31 December 2023.

CORPORATE GOVERNANCE REPORT (CONTINUED)

Strategy Development Committee

The main responsibilities of the Strategy Development Committee are: to conduct research on the Company's strategic development plans, governance policies, significant investment and financing plans that require the approval of the Board, capital operation and asset operation, and to advise and make recommendations on the above matters.

Prior to 8 May 2023, the members of the Strategy Development Committee were Mr. Wu Wei-zhang, Mr. He Yu, Mr. Hu Jianmin, Mr. Chen Guo-qing and Mr. Tang Zhi-hong and Mr. Wu Wei-zhang, an executive director, being the chairman of the Committee. Mr. Wu Wei-zhang resigned as a member of the Strategy Development Committee on 8 May 2023 and Mr. Huang Wei was appointed as a member of the Strategy Development Committee on 25 May 2023. Mr. Chen Guo-qing resigned as a member of the Strategy Development Committee and Mr. Pan Qi-long was appointed as a member of the Strategy Development Committee on 25 August 2023. As of 31 December 2023, the members of the Strategy Development Committee included Mr. Huang Wei, Mr. He Yu, Mr. Hu Jianmin, Mr. Tang Zhi-hong and Mr. Pan Qi-long, and Mr. Huang Wei, an executive director, being the chairman of the Committee.

In 2023, the Strategy Development Committee held a total of 6 meetings and accomplished the following key tasks:

No.	Summary of Work
-----	-----------------

- | | |
|---|--|
| 1 | Considering the Company's strategic development plan |
| 2 | Considering the Company and its subsidiaries' investment matters |
| 3 | Considering the 2022 Corporate Governance Report of the Company |
| 4 | Considering the disposal of equity interests in subsidiaries |
| 5 | Considering the assessment of the organizational restructuring of the Company's headquarters |

The Strategy Development Committee has reviewed this report and confirmed that: the Company strived to maintain corporate governance of high standard and believed that quality governance is a key to long-term success and sustainable development of the Company's business. In 2023, the Company fully complied with the provisions in the Corporate Governance Code contained in Appendix C1 of the Listing Rules of the Stock Exchange of Hong Kong and, when appropriate, adopted the recommended best practices as specified therein.

AUDITORS AND THEIR REMUNERATION

In 2023, the audit business remuneration of Da Hua Certified Public Accountants (special general partnership), the auditor of the Company, was RMB2.2 million. Save for that, Dahua Certified Public Accountants issued a capital verification report on the fundraising for the issuance of new domestic shares by the Company, with a remuneration of RMB20,000. An independent verification report was prepared regarding the valuation of the sale of a 51% equity interest in Harbin Electric Power Equipment Company Limited, based on the discounted future estimated cash flows. The remuneration for this service was RMB140,000. A review report was issued for the audit report on the sale of a 51% equity interest in Harbin Electric Power Equipment Company Limited, and the remuneration for this service was RMB140,000. A review report was also issued for the audit report on Harbin Electric Machinery Company Limited, a subsidiary of the Company, and the remuneration for this service was RMB118,000.

Da Hua Certified Public Accountants (special general partnership), together with the Audit Committee of the Board have reviewed the financial statements included in the 2023 Annual Report and been convinced that the financial statements were prepared in accordance with the PRC Accounting Standards and fairly presented the financial positions and performance of the Company for the year ended 31 December 2023.

The Board proposed to the general meeting to renew the appointment of Da Hua Certified Public Accountants (special general partnership) as the auditor of the financial statements of the Company in 2024.

COMPANY SECRETARY

In 2023, Mr. Ai Li-song was appointed as the Company Secretary of the Company, and Mr. Tung Tat Chiu, Michael, Joint Secretary of the Company, will assist Mr. Ai Li-song to carry out the duties as the Company Secretary. In 2023, Mr. Ai Li-song participated in no less than 15 hours of professional training.

SHAREHOLDERS RIGHTS

Pursuant to the Articles of Association, upon the requisition in writing of holders of 10% or more shares issued by the Company with voting rights, the Board shall convene an interim general meeting within two months. When the Company convenes an annual general meeting, shareholders holding 3% or more of the total shares carrying the voting right of the Company are entitled to propose new proposals to the Company in writing. The Company shall include in the agenda of that meeting those matters contained in the proposal that fall within scope of the responsibility of the general meeting.

CORPORATE GOVERNANCE REPORT (CONTINUED)

When shareholders request to convene an interim general meeting or class meeting of shareholders, the following procedures shall be followed:

- (1) Two or more shareholders who hold more than 10% (including 10%) of the shares in total with voting rights at the meeting to be held may sign one or more written request in the same format, and submit to the Board of Directors to convene interim general meeting or class meeting of shareholders and clarify the issue of the meeting. The Board of Directors shall convene an interim general meeting or a class meeting in time after receiving the above written request.
- (2) If the Board fails to issue a notice of convening the meeting within 30 days after receiving the above written request, the shareholders who put forward the request may convene the meeting by themselves within 4 months after the Board receives the request.

The Company safeguards interests of the shareholders, treats all shareholders equally, and initiates active participation of shareholders in corporate governance. As the stakeholders of the Company, shareholders enjoy the rights provided by laws and regulations and undertake commensurate obligations. Shareholders enjoy rights to information and rights to decision-making in respect of the Company's important matters. Shareholders may put forward their enquiries on any relevant matters to the Board. The Board shall provide sufficient information to enable these enquiries to be properly directed.

Shareholders can contact the Company via various channels, such as telephone, fax and e-mail. The recommendations of shareholders can be smoothly fed back to the Board of the Company. The copies of the minutes of general meeting are available for inspection during the business hours of the Company free of charge. Shareholders of the Company can request a copy of the minutes, and the Company will send out the copy within 7 days after collection of reasonable charges.

The controlling shareholder of the Company is Harbin Electric Corporation, a state-owned company registered in the People's Republic of China.

INFORMATION DISCLOSURE AND MANAGEMENT OF INVESTOR RELATIONS

The Company continuously enhances its information disclosure management and promotes its investor relations management. The Company discloses information on an open, fair, true, accurate, complete and timely ground and strictly follows the related disclosure requirements of relevant laws and regulations, the Listing Rules and the Articles of Association of the Company. In our effort to enhancing the management of investor relations, the Company issues its Interim Reports and Annual Reports and discloses matters such as change of directors and senior management, connected transaction, disclosable transactions and other important information in a timely manner, enhancing the transparency of the Company.

In 2023, the Company through spot meeting and teleconference communicated, with a view to updating the investors' information on the Company's latest development and prospects, and in turn strengthening the relationship with the investors.

The office of the Board of the Company is responsible for the information disclosure and investor relations management. The Company strictly performs its duties, and continuously enhances its corporate governance structure so as to improve its management standard by strictly following the requirements of relevant laws and regulations of local and overseas securities regulatory organizations.

CORPORATE GOVERNANCE REPORT (CONTINUED)

Amendments to the Articles of Association

In accordance with the authorization of the extraordinary general meeting of shareholders on 12 April 2023, the Company amended the Articles of Association on 13 October 2023. Details of the amendments are as follows:

	Before Amendment	After Amendment
Article 16	<p>After approval from the Company's regulatory department authorized by the State Council, the total number of ordinary shares issued by the Company is 1.706523 billion, with a par value of RMB1 per share, of which:</p> <p>(I) At the time of the Company's establishment, 720 million domestic shares were issued to the founders. During the additional issuance in December 2005, 8.53 million domestic shares were reduced, resulting in the founders holding 711.47 million domestic shares, accounting for 55.83% of the total shares of the Company. During another additional issuance in March 2007, 10.235 million domestic shares were further reduced, resulting in the founders holding 701.235 million domestic shares, accounting for 50.93% of the total shares of the Company. During another additional issuance in 2017, 329.717 million domestic shares were increased, resulting in the founders holding 10.30952 billion domestic shares, accounting for 60.41% of the total shares of the Company.</p> <p>(II) After its establishment, the Company initially issued 469.151 million overseas listed foreign shares, and 93.83 million additional overseas listed foreign shares in December 2005, totaling 562.981 million overseas listed foreign shares, accounting for 44.17% of the Company's total shares; In March 2007, 102.355 million overseas listed foreign shares were issued, totaling 675.571 million overseas listed foreign shares, accounting for 49.07% of the Company's total shares; After the issuance of additional domestic shares in 2017, there were totally 675.571 million overseas listed foreign shares, accounting for 39.59% of the Company's total shares.</p> <p>The Company's share capital structure consists of 1.706523 billion ordinary shares, of which the founders hold 1.030952 billion domestic shares, and overseas listed foreign shareholders hold 675.571 million overseas listed foreign shares.</p>	<p>After approval from the Company's regulatory department authorized by the State Council, the total number of ordinary shares issued by the Company is 2.236276 billion, with a par value of RMB1 per share, of which:</p> <p>(I) At the time of the Company's establishment, 720 million domestic shares were issued to the founders. During the additional issuance in December 2005, 8.53 million domestic shares were reduced, resulting in the founders holding 711.47 million domestic shares, accounting for 55.83% of the total shares of the Company. RISK MANAGEMENT AND INTERNAL CONTROL

The Audit Committee of the Board of the Company is responsible for assessing and determining the nature and extent of risk which the Company is willing to accept in reaching its strategic goals, as well as ensuring that the Company establishes and maintains an appropriate and effective risk management and internal control system. The Board of Directors monitors and supervises the management in the design, implementation and supervision of the risk management and internal control system, while the management provides confirmation to the Board of Directors as to whether such system is effective.

The Company has a comprehensive risk management and internal control system in place, where the Board of Directors is responsible for the risk management and internal control system, and fully implements the relevant requirements of the Internal Control Guideline and continues to optimize the internal control system and self-assessments and continuous improvements. Through incentive measures and the guidance of corporate culture, the complete internal control system of the Company and its effective implementation are ensured.

The Company monitors and supervises the disclosure of financial information by the Company, as well as operations and internal control activities regularly or where necessary, so as to ensure the transparency of information disclosure and effectiveness of its risk management and internal control mechanism.

In 2023, the Company has reviewed the risk management and internal control system as well as risks and has completed its self-assessment report on internal control and risk management and then approved by the Audit Committee of the Board.

The Board of Directors and the Audit Committee confirm that: as of 31 December 2023, the risk management and internal control system has operated effectively; the Company has adopted effective monitoring mechanism to rectify the issues in time; and the Company has properly complied with the provisions on the risk management and internal control system in the Corporate Governance Code.

AUDITORS' REPORT

(Unless otherwise specified, amounts are in RMB)

D.H.S.Z.[2024] 0011015632

All shareholders of Harbin Electric Co., Ltd:

I. OPINION

We have audited the attached financial statements of Harbin Electric Co., Ltd (hereinafter referred to as the "Company"), which comprise the consolidated balance sheet and the parent company's balance sheet as at December 31, 2023, the consolidated income statement and the parent company's income statement, the consolidated statement of cash flows and the parent company's statement of cash flows, and the consolidated statement of changes in shareholders' equity and the parent company's statement of changes in shareholders' equity for the year then ended, as well as notes to the relevant financial statements.

In our opinion, the financial statements attached are prepared in accordance with Accounting Standards for Business Enterprises and present fairly, in all material respects, the consolidated financial position of the Company and the parent company's financial position as at December 31, 2023 and the consolidated operating results and the parent company's operating results and cash flows for the year then ended.

II. BASIS FOR OUR OPINION

We conducted our audit in accordance with the Auditing Standards for Certified Public Accountants of China. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. According to the Code of Ethics for Chinese CPA, we are independent of the Company and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

III. KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We determine to communicate the following key audit matters in the auditors' report.

We have determined that the following matters are key audit matters that need to be communicated in the audit report.

- (I) Revenue recognition
- (II) Impairment of receivables

AUDITORS' REPORT (CONTINUED)

(Unless otherwise specified, amounts are in RMB)

(I) Revenue recognition

1. Description of the matter

Please refer to Note 4 (29) and Note 8 Note 50 of the financial statements, Harbin Electric recognized an operating income of RMB28,631,854,390.57 in 2023. Harbin Electric recognizes revenue according to the performance period and performance time point respectively. The completeness and accuracy of revenue recognition has a significant impact on Harbin Electric's operating results. At the same time, the recognition of revenue according to the performance period involves significant judgment and estimation by the management, which may affect whether Harbin Electric recognizes revenue in the appropriate accounting period according to the performance period. As a result, we have identified the relevant revenue recognition as a key audit matter.

2. Audit response

The key audit procedures we have implemented for Harbin Electric's revenue recognition include:

- (1) Understand and evaluate the design rationality of relevant internal controls, and test the effectiveness of the implementation of key controls.
- (2) Inspect and review the content of relevant material contracts and key contract clauses in accordance with revenue recognition accounting policies.
- (3) Sampling and checking the contract and cost budget information on which the management is based on the projected total revenue and estimated total cost, and evaluating whether the estimates made by the management are reasonable and sufficient.
- (4) Sampling inspection of sales contracts, invoices, transport bills, progress confirmation forms and other supporting materials, to evaluate the authenticity and accuracy of the actual costs incurred.
- (5) Sample inspection of business documents such as contracts, invoices, warehousing lists, etc., to verify the reasonableness and completeness of revenue recognition at the time of performance.
- (6) Sample review the project completion schedule to check the accuracy of relevant revenue recognition.

Based on the audit work performed, we believe that management's judgments and estimates regarding revenue recognition are reasonable.

AUDITORS' REPORT (CONTINUED)

(Unless otherwise specified, amounts are in RMB)

(II) Impairment of receivables

1. Description of the matter

As mentioned in notes 4 (11) and notes 8 to note 4 (11) and note 8 to the financial statements, as of December 31, 2023, the total balance of notes receivable, accounts receivable, and other receivables of Harbin Electric was RMB14,236,821,577.65, and the total provision for bad debts was RMB4,767,161,666.94. Since the determination of the recoverability of receivables requires management to identify the items and objective evidence that have been impaired, evaluate the expected future available cash flows and determine their present value, it involves the management to use significant accounting estimates and judgments, and the recoverability of receivables is material to the financial statements. Therefore, we identify the impairment of receivables as a key audit matter.

2. Audit response

Important audit procedures for impairment of receivables include:

- (1) Understand, evaluate and test the design and operation effectiveness of internal controls related to the daily management and recoverability assessment of receivables, such as customer credit risk assessment and receivables recovery process.
- (2) Review management's judgment and estimation in assessing the recoverability of receivables, and pay attention to whether management has adequately identified items that have been impaired.
- (3) Spot checks were carried out on the receivables with a single significant amount and for which the provision for bad debts had been separately made to verify the reasonableness of the timing and amount of the provision for bad debts.
- (4) The receivables of the management according to the credit risk characteristics were randomly checked to evaluate the reasonableness of the management's provision for bad debts.
- (5) assessed the appropriateness of management's accounting treatment and presentation and disclosure of impairment receivables in the financial statements for the year ended December 31, 2023.

Based on the audit work performed, we believe that management's judgment and estimate of impairment of receivables are reasonable.

AUDITORS' REPORT (CONTINUED)

(Unless otherwise specified, amounts are in RMB)

IV. OTHER INFORMATION

The Management of the Company is responsible for other information. The other information comprises information of the 2023 annual report, but excludes the financial statements and our auditors' report.

Our opinion on the financial statements does not cover the other information, and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. In this regard, we have nothing to report.

V. RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The Management of the Company is responsible for preparing the financial statements in accordance with the requirements of Accounting Standards for Business Enterprises to achieve a fair presentation, and for designing, implementing and maintaining internal control that is necessary to ensure that the financial statements are free from material misstatements, whether due to frauds or errors.

In preparing the financial statements, the Management is responsible for assessing the going-concern ability of the Company, disclosing the matters related to going concern (if applicable) and using the going-concern assumption unless the Management either intends to carry out the liquidation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

AUDITORS' REPORT (CONTINUED)

(Unless otherwise specified, amounts are in RMB)

VI. AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the audit standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

During the process of an audit conducted in accordance with audit standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- (3) Evaluate the appropriateness of accounting policies used by and the reasonableness of accounting estimates and related disclosures made by the management.
- (4) Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cause significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to, in our auditors' report, draw attention of the users of statements to the related disclosures in the financial statements; if such disclosures are inadequate, we should modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- (5) Evaluate the financial statements' overall presentation (including disclosure), structure and contents, and whether the financial statements fairly represent the underlying transactions and events.
- (6) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit, and bear full responsibility for our audit opinion.

We communicate with those charged with governance regarding the planned scope and timing of the audit, significant audit findings and other matters, including any significant deficiencies in internal control that we identify during our audit.

AUDITORS' REPORT (CONTINUED)

(Unless otherwise specified, amounts are in RMB)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them in regard to all relationships and other matters that may reasonably be thought to affect our independence, and related safeguards (if applicable).

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. COMPANY PROFILE (CONTINUED)

1.1 Place of registration, organizational form and address of headquarters (Continued)

On April 12, 2023, the general meeting of shareholders passed a proposal to agree to issue new domestic shares to Harbin Electric Group, including 52,975.30 new shares. On September 20, 2023, the company received an additional share capital of RMB529,753,000.00 paid by Harbin Electric Power Group in currency, and the share capital of the company became RMB2,236,276,000.00. Its state-owned corporate shares were RMB1,560,705,000.00, accounting for 69.79% of the total share capital, and H shares were issued overseas of RMB675,571,000.00, accounting for 30.21% of the total share capital.

The company's business license registration number: 91230100127575573H

Legal representative: Cao Zhi'an

Address: No. 1399, Chuangxin 1st Road, Songbei District, Harbin City.

1.2 Nature of business and main business of the enterprise

The company belongs to the generator and generator set manufacturing industry, mainly engaged in the production and sales of power generation equipment and the general contracting of power station projects.

At present, the main business segments are: large-scale thermal power, hydropower, nuclear power and their auxiliary equipment manufacturing, power station project turnkey projects, ship power units and electrical drive devices and other leading product development, design and manufacturing.

1.3 The name of the parent company and the headquarters of the group

The parent company of the Company is Harbin Electric Group Co., Ltd.

1.4 Approval of financial statements

These financial statements were approved by the Board of Directors of the Company on March 28, 2024.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

2. BASIS OF PREPARATION FOR THE FINANCIAL STATEMENTS

On the basis of going concern, the Company's subsidiaries are in accordance with the Accounting Standards for Business Enterprises – Basic Standards and specific Accounting Standards for Business Enterprises, the Guidelines for the Application of Accounting Standards for Business Enterprises, the Interpretation of Accounting Standards for Business Enterprises and other relevant regulations issued by the Ministry of Finance (hereinafter collectively referred to as the “Current Accounting Standards for Business Enterprises”) issued by the Ministry of Finance, as well as the Rules for the Preparation of Information Disclosure of Companies Offering Securities to the Public No. 15 – General Provisions on Financial Reporting issued by the China Securities Regulatory Commission and the Hong Kong Stock Exchange's Preparation of financial statements under the disclosure requirements of the Rules Governing the Listing of Securities and the Hong Kong Companies Ordinance.

As at 31 December 2023, the Company's current assets exceeded its current liabilities by approximately RMB7,757,215,595.31. The Company meets its day-to-day working capital needs through cash flow generated from operating activities and available financing facilities from banks and other financial institutions. The Directors of the Company consider the following sources of funds available to the Company:

The expected net cash inflows from the Company's operating activities, based on the Company's credit history, may provide access to other available sources of financing from banks and other financial institutions.

The Directors of the Company believe that the Company has sufficient resources and is in a position to meet its liabilities as they fall due and to continue to operate for a foreseeable future period of not less than 12 months after the end of this reporting period. Accordingly, the Directors of the Company consider it appropriate to prepare these consolidated financial statements on a going concern basis.

3. STATEMENT OF COMPLIANCE WITH ACCOUNTING STANDARDS FOR BUSINESS ENTERPRISES

The financial statements prepared by the Company comply with the requirements of the Accounting Standards for Business Enterprises, and truly and completely reflect the Company's financial position, operating results, cash flow and other relevant information during the reporting period.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

4.1 Accounting period

The accounting year is from January 1 to December 31 in calendar year.

4.2 The base currency of accounting

The Company adopts RMB as the base currency of accounting.

4.3 Accounting basis and valuation principles

The Company uses the accrual basis as the basis for accounting. The Company generally uses historical cost when measuring the accounting elements, and the Company will make special explanations for the measurement of other attributes such as replacement cost, net realizable value, present value or fair value in accordance with the provisions of the Standards.

4.4 Accounting treatment of business combinations under the same control and not under the same control

4.4.1 The terms, conditions and economic impact of various transactions in the process of enterprise merger are in line with one or more of the following conditions step by step, and multiple transactions are treated as a package transaction for accounting treatment

- (1) These transactions are concluded at the same time or under the condition of considering each other's influence;
- (2) These transactions as a whole can achieve a complete business result;
- (3) The occurrence of one transaction depends on the occurrence of at least one other transaction;
- (4) A transaction is uneconomical when viewed alone, but it is economical when considered together with other transactions.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.2 Business combination under common control

For assets and liabilities obtained through business combination by the combining party, they are measured at the book value of the assets and liabilities (including the goodwill formed by the acquisition of the combined party by the ultimate controller) in the consolidated financial statements of the ultimate controller on the combination date. The stock premium in capital reserves is adjusted according to the difference between the book value of net assets acquired through combination and the book value of consideration paid for the combination (or total par value of shares issued). If the stock premium in capital reserves is insufficient to cover the difference, the remaining amount will be charged against retained earnings.

If there is contingent consideration and it is necessary to confirm the estimated liabilities or assets, the difference between the estimated liabilities or assets amount and the subsequent contingent consideration settlement amount, adjust the capital reserve (capital premium or equity premium), and if the capital reserve is insufficient, adjust the retained earnings.

If the enterprise merger is finally realized through multiple transactions, which belongs to a package transaction, each transaction will be treated as a transaction to obtain control rights; If it is not a package transaction, the difference between the initial investment cost of the long-term equity investment and the book value of the long-term equity investment before the merger plus the book value of the new share payment consideration on the merger date will be adjusted to the capital reserve; If the capital reserve is insufficient to offset, the retained earnings shall be adjusted. For the equity investment held before the merger date, other comprehensive income confirmed by adopting the equity method accounting or financial instrument confirmation and measurement standard accounting will not be accounted for temporarily until the investment is disposed of on the same basis as the invested unit directly disposing of related assets or liabilities; Other changes in owner's equity except net profit and loss, other comprehensive income and profit distribution in the net assets of the investee confirmed by the equity method will not be accounted for temporarily until the investment is transferred to the current profits and losses when it is disposed of.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.3 Business combination not under common control

The purchase date refers to the date when the company actually obtains the control right over the purchased party, that is, the date when the net assets of the purchased party or the control right of production and operation decisions are transferred to the company. At the same time, when the following conditions are met, the company generally believes that the transfer of control rights has been realized:

- (1) the business combination contract or agreement has been approved by the internal authority of the company.
- (2) If the merger of enterprises needs to be examined and approved by the relevant competent department of the state, it has been approved.
- (3) The necessary formalities for transferring property rights have been handled.
- (4) The Company has paid most of the consolidated price, and has the ability and plan to pay the remaining amount.
- (5) The Company has actually controlled the financial and business policies of the purchased party, and enjoyed corresponding benefits and assumed corresponding risks.

The acquirer, on the acquisition date, measures the assets surrendered and liabilities incurred or assumed for a business combination at their fair values. The difference between the fair value and their book value are included in the current profit or loss.

The Company recognizes the difference of the combination costs in excess of the fair value of the identifiable net assets acquired from the acquiree as goodwill. The Company includes the difference of the combination costs in short of the fair value of the identifiable net assets acquired from the acquiree in the current profit or loss.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.3 Business combination not under common control (Continued)

If the business combination under different control realized step by step through multiple exchange transactions is a package transaction, each transaction will be treated as a transaction to obtain control rights; If the equity investment held before the merger date is accounted by equity method, the sum of the book value of the equity investment held before the purchase date and the new investment cost on the purchase date shall be taken as the initial investment cost of the investment; Other comprehensive income recognized by the equity investment held before the purchase date due to accounting by the equity method shall be accounted for on the same basis as the investee's direct disposal of related assets or liabilities. If the equity investment held before the merger date is accounted by the financial instrument recognition and measurement standards, the sum of the fair value of the equity investment on the merger date plus the new investment cost shall be taken as the initial investment cost on the merger date. The difference between the fair value and book value of the original held equity and the change of accumulated fair value originally included in other comprehensive income shall be transferred to the current investment income on the merger date.

4.4.4 The related fees incurred for combination

The agency fee such as audit, legal service and evaluation consultation and other fees which are directly related to the above matters shall be recognized as the profit or loss in the period when the costs are incurred; the transaction costs for the equity securities issued for corporate combination shall be written-off against equity directly attributable to the deduction.

4.4.5 Scope of consolidation

The scope of consolidation for the consolidated financial statements of the Company is determined based on control, including the Company and all its subsidiaries.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.6 Procedures for consolidation

The Company prepares the consolidated financial statements based on financial statements of itself and its subsidiaries and according to other relevant information. Upon the preparation of consolidated financial statements, the Company shall take the enterprise group as a whole accounting entity, and reflects the overall financial position, operating results and cash flows of the enterprise group in accordance with relevant requirements for recognition, measurement and presentation as stated in the Accounting Standards for Business Enterprises as well as uniform accounting policies.

All the subsidiaries within the scope of consolidation for the consolidated financial statements adopt the same accounting policies and accounting periods as those of the Company. If the accounting policies or accounting periods of a subsidiary are different from those of the Company, the consolidated financial statements of the subsidiary, upon preparation, will be adjusted according to the accounting policies and accounting periods of the Company.

The consolidated financial statements offset the impact of internal transactions between the company and its subsidiaries and subsidiaries on the consolidated balance sheet to consolidated income statement, consolidated cash flow statement, consolidated statement of changes in shareholders' equity. If the view of consolidated financial statements of enterprise group is different from the recognition of the same transaction with the company or subsidiary as the accounting subject, the transaction is adjusted from the perspective of enterprise group.

The owner's equity, the net profit or loss and the comprehensive income attributable to minority shareholders of a subsidiary of the current period are presented separately under the owners' equity in the consolidated balance sheet, the net profit and the total comprehensive income in the consolidated income statement respectively. Where losses attributable to the minority shareholders of a subsidiary exceed the minority shareholders' interest entitled in the shareholders' equity of the subsidiary at the beginning of the period, the excess is allocated against the minority shareholders interest.

For subsidiaries acquired through a business combination not under the same control, their financial statements are adjusted on the basis of the fair value of the identifiable net assets on the purchase date.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.6 Procedures for consolidation (Continued)

(1) Increase of subsidiaries or business

During the reporting period, where the Company acquired subsidiaries or business from the business combination under common control, the beginning balance in the consolidated balance sheet is adjusted; the revenue, expenses and profits of the newly acquired subsidiaries or business from the beginning of the period for business combination to the end of the reporting period are included in the consolidated income statement; the cash flows of the same for the aforesaid period are included in the consolidated statement of cash flows. Relevant items in the comparative financial statements of the subsidiaries are adjusted accordingly, as if the reporting entity after the business combination exists as of the time when the ultimate controller has the control.

Where control can be exercised on the investee under common control for additional investment or other reasons, adjustment is made as if all parties involved in the combination exist at the beginning of the control by the ultimate controller. Equity investments held before the control over the combined party is obtained, the related profits or losses, other comprehensive income as well as other changes in net assets recognized from the later between the date when the original equity is obtained and the date when the acquirer and the acquiree are under common control to the combination date will respectively write down the beginning retained earnings or the current profit or loss during the period for comparing financial statements.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.6 Procedures for consolidation (Continued)

(1) Increase of subsidiaries or business (Continued)

During the reporting period, if the Company acquired subsidiaries or business from the business combination not under common control, the beginning balance in the consolidated balance sheet will not be adjusted. The revenue, expenses and profits of the newly acquired subsidiaries or business from the acquisition date to the end of the reporting period will be included in the consolidated income statement; the cash flows of the same for the aforesaid period will be included in the consolidated statement of cash flows.

Where the Company can control the investee not under common control for additional investments, it shall re-measure equity of the acquiree held before the acquisition date at the fair value of such equity on the acquisition date and include the difference between the fair value and book value in the current investment income. Where equity of the acquiree held before the acquisition date involves in other comprehensive income accounted for under equity method and other changes in owners' equity other than net profit or loss, other comprehensive income and profit distribution, the relevant other comprehensive income and other changes in owners' equity shall be transferred to the investment income in the year which the acquisition date falls in, except for other comprehensive income from changes arising from re-measurement of net liabilities or net assets of defined benefit plan by the investee.

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.6 Procedures for consolidation (Continued)

(2) Disposal of subsidiaries or business

1) General treatment methods

During the reporting period, where the Company disposes a subsidiary or business, the revenues, expenses and profits of the subsidiary or business from the beginning period to the disposal date shall be included in the consolidated cash flow statement; cash flows of the subsidiary or the business from the beginning period to the disposal date shall be included in the consolidated cash flow statement.

When the Company loses the control over the investee due to disposal of partial equity investment or other reasons, the remaining equity investment after the disposal shall be remeasured by the Company at its fair value on the date of loss of the control. The difference of total amount of the consideration from disposal of equities plus the fair value of the remaining equities less the shares calculated at the original shareholding ratio in net assets and goodwill of the original subsidiary which are continuously calculated as of the acquisition date or combination date shall be included in the investment income of the period at the loss of control. Other comprehensive incomes associated with the equity investments of the original subsidiary, or the changes in owners' equity other than net profit or loss, other comprehensive income and profit distribution, shall be transferred into investment income of the period when control is lost, except for other comprehensive income from the change in net liability or net asset due to the investor's re-measurement of defined benefit plan.

Where the Company loses the control due to the decline in its proportion of shareholding caused by the increase of investment in subsidiaries by other investors, accounting treatment should be conducted according to the above principles.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.6 Procedures for consolidation (Continued)

(2) Disposal of subsidiaries or business (Continued)

2) Disposal of subsidiaries by stages

If the control is lost due to disposal of the equities in subsidiaries through multiple transactions by stages, and the terms, conditions and economic impact of the transactions related to the enterprise's disposal of its investment in the subsidiaries meet one or more of the following circumstances, it usually indicates that multiple transactions should be included in a package deal and subject to accounting processing as below:

- i. The transactions are concluded at the same time or under the consideration of mutual effect;
- ii. These transactions as a whole can reach a complete business result;
- iii. The occurrence of a transaction depends on that of at least one other transactions; and/or
- iv. A single transaction is uneconomical but it is economical when considered together with other transactions.

Where various transactions of disposal of equity investments in subsidiaries until loss of the control belong to a package deal, accounting treatment shall be made by the Company on the transactions as a transaction to dispose subsidiaries and lose the control; however, the difference between each disposal cost and net asset share in the subsidiaries corresponding to each disposal of investments before loss of the control should be recognized as other comprehensive income in the consolidated financial statements and should be transferred into the current profit or loss at the loss of the control.

Where various transactions of disposal of equity investments in subsidiaries until loss of the control do not belong to a package deal, before the loss of the control, accounting treatment shall be made according to the relevant policies for partial disposal of equity investments in the subsidiary without losing control; at the loss of the control, accounting treatment shall be made according to general treatment methods for disposal of subsidiaries.

4.4 Accounting treatment of business combinations under the same control and not under the same control (Continued)

4.4.6 Procedures for consolidation (Continued)

(3) Purchase of minority equity of subsidiaries

The share premium in the capital reserves under the consolidated balance sheet will be adjusted at the difference between the long-term equity investment acquired by the Company for the purchase of minority interest and the share of net assets calculated constantly from the acquisition date (or combination date) according to the newly increased shareholding ratio. Where the share premium is insufficient to offset, retained earnings will be adjusted.

(4) Partial disposal of equity investments in subsidiaries without losing control

The equity premium of capital reserves in the consolidated balance sheet will be adjusted according to the difference between the disposal price obtained for partial disposal of long-term equity investments in subsidiaries in the case of not lose control and the share of net assets of subsidiaries calculated from the acquisition date or the combination date corresponding to the disposal of long-term equity investments; if the equity premium of capital reserves is insufficient, the retained earnings will be adjusted.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.5 Classification and accounting treatment of joint venture arrangements

4.5.1 Classification of joint venture arrangements

Joint venture arrangements are classified into joint operation and joint venture according to factors such as the structure and legal form of the joint venture arrangement, the terms agreed in the joint venture arrangement, other relevant facts and circumstances.

Joint venture arrangements not reached through separate entities are classified as joint operations; Joint venture arrangements entered into through separate entities are usually classified as joint ventures; However, if there is conclusive evidence that any of the following conditions are met and that the joint venture arrangement meets the requirements of relevant laws and regulations, it is classified as a joint operation:

- (1) The legal form of the joint venture arrangement indicates that the joint venture party has rights and obligations to the relevant assets and liabilities in the arrangement.
- (2) The contractual terms of the joint venture arrangement stipulate that the joint venture party has rights and obligations to the relevant assets and liabilities in the arrangement.
- (3) Other relevant facts and circumstances show that the joint venture party has rights and obligations in respect of the relevant assets and liabilities in the arrangement, such as the joint venture enjoys substantially all the outputs associated with the joint arrangement and the settlement of the liabilities under the arrangement continues to depend on the support of the joint venture party.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.5 Classification and accounting treatment of joint venture arrangements (Continued)

4.5.2 Accounting treatment of joint venture arrangements (Continued)

The Company recognizes the following items related to its share of benefits in the joint operation and conduct accounting treatment in accordance with relevant accounting standards for business enterprises:

- (1) Assets it solely holds and its share of jointly-held assets based on its percentage;
- (2) Liabilities it solely assumes and its share of jointly-assumed liabilities based on its percentage;
- (3) Revenues from sale of output enjoyed by it from the joint operation;
- (4) Revenues from sale of output from the joint operation based on its percentage; and
- (5) Separate costs and costs for the joint operation based on its percentage.

If the Company invests in or sells assets, etc. to a joint operation (except where such assets constitute a business), only the portion of the profit or loss arising from the transaction is recognized as attributable to other participants in the joint operation before the asset, etc. is sold by the joint operation to a third party. If an asset sold or sold has an asset impairment loss that complies with the provisions of Accounting Standard for Business Enterprises No. 8 – Asset Impairment, etc., the Company recognizes the loss in full.

The Company purchases assets, etc. (other than those in which such assets constitute business) from joint operations, and recognizes only the portion of the profits and losses arising from the transaction attributable to other participants in the joint operation before selling such assets, etc. to a third party. If an asset is subject to an impairment loss in accordance with the provisions of Accounting Standard for Business Enterprises No. 8 – Asset Impairment, etc., the Company recognizes such part of the loss according to the share it bears.

The Company does not enjoy joint control over the joint operation, and if the Company owns the relevant assets of the joint operation and bears the liabilities related to the joint operation, the accounting treatment shall still be carried out in accordance with the above principles, otherwise, the accounting treatment shall be carried out in accordance with the provisions of the relevant accounting standards for enterprises.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.6 Recognition criteria of cash and cash equivalents

For the purpose of preparing the statement of cash flows, the term “cash” refers to the cash on hand and the unrestricted deposit of the Company. The term “cash equivalents” refers to short-term (maturing within three months from the date of acquisition) and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

4.7 Foreign currency transactions and translation of foreign currency statements

4.7.1 Foreign currency transaction

Foreign currency transactions are translated into RMB for recording purpose at the spot exchange rate prevailing on the transaction date.

The balance of foreign currency items on the balance sheet date are measured at the spot exchange rate on the balance sheet date. The exchange difference arising therefrom shall be included in the current profit or loss, while other exchange difference arising from the special borrowings of foreign currency related to the acquired and constructed assets qualified to capitalization shall be dealt with according to the principle of borrowing capitalization. Foreign currency non-monetary items measured at historical cost are still translated using the spot exchange rate on the date of the transaction, without changing their basic currency amount.

Foreign currency non-monetary items measured at fair value are translated using the spot exchange rate on the fair value determination date, and the difference between the converted base currency amount and the original accounting currency amount is treated as a change in fair value (including exchange rate changes) and recognized as profit or loss for the period or recognized as other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.7 Foreign currency transactions and translation of foreign currency statements (Continued)

4.7.2 Translation of foreign currency statements

Assets and liabilities in the balance sheet are translated using the spot exchange rate at the balance sheet date; Owner's equity items, except for the "Undistributed Profit" item, are translated using the spot exchange rate at the time of incurrence. The income and expense items in the income statement are translated using the spot exchange rate on the date of the transaction. The difference in the translation of the foreign currency financial statements resulting from the above translation is recognized in other comprehensive income.

When disposing of an overseas operation, the difference in the translation of the foreign currency financial statements related to the overseas operation shown in other comprehensive income items in the balance sheet is transferred from other comprehensive income items to the profit or loss of the current period of disposal; When the proportion of equity interests held in overseas operations decreases due to the disposal of part of the equity investment or other reasons, but the control of the overseas operations is not lost, the difference in the translation of foreign currency statements related to the disposal part of the overseas operations will be attributed to the minority shareholders' interests and will not be transferred to the profit or loss of the current period. When disposing of part of the equity interests of an overseas operation as an associate or joint venture, the difference in the translation of foreign currency statements related to the overseas operation shall be transferred to the profit or loss of the current period of disposal according to the proportion of the disposal of the overseas operation.

4.8 Financial instruments and financial liabilities

4.8.1. Recognition and initial measurement of financial assets and financial liabilities

Financial assets and financial liabilities are recognized in the balance sheet when the Group becomes a party to the contractual terms of the relevant financial instruments. Except for accounts receivable that do not have a significant financing component, financial assets and financial liabilities are measured at fair value at the time of initial recognition. For financial assets or financial liabilities measured at fair value through profit or loss, the relevant transaction costs are directly recognized in the current profit or loss, and for other types of financial assets or financial liabilities, the relevant transaction costs are included in the initial recognition amount. For accounts receivable that do not have a significant financing component, the Group conducts initial measurement at the transaction price determined by the Group in accordance with its accounting policies (see Note "4.(25) Revenue Recognition Principle").

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.2. Classification and subsequent measurement of financial assets

(1) Classification of financial assets

At the time of initial recognition, the Group classified financial assets into different categories based on the business model under management and the contractual cash flow characteristics of financial assets: financial assets measured at amortized cost, financial assets measured at fair value through other comprehensive income, and financial assets measured at fair value through profit or loss. Financial assets shall not be reclassified after initial recognition unless the Group changes its business model for managing financial assets, in which case all affected underlying financial assets are reclassified on the first day of the first reporting period following the change in business model.

1) Financial assets measured at amortized cost

The Group classifies financial assets that are not designated as financial assets measured at fair value through profit or loss that meet both the following criteria: the Group's business model for managing the financial asset is based on the objective of receiving contractual cash flows, and the contractual terms of the financial assets stipulate that the cash flows generated on a specific date are only payments to the principal and interest based on the outstanding principal amount.

2) Financial assets at fair value through other comprehensive income

The Group classifies financial assets that are not designated at fair value through profit or loss and are not designated as financial assets at fair value through profit or loss: the Group's business model for managing the financial asset is aimed at both the receipt of contractual cash flows and the sale of the financial asset, and the contractual terms of the financial asset stipulate that the cash flow generated on a specific date is only the payment of principal and interest on the basis of the outstanding principal amount.

In addition, for investments in non-trading equity instruments, the Group may irrevocably designate them as financial assets at fair value through other comprehensive income at the time of initial recognition. The designation is made on the basis of a single investment and the underlying investment meets the definition of an equity instrument from the issuer's perspective.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.2. Classification and subsequent measurement of financial assets (Continued)

(1) Classification of financial assets (Continued)

3) Financial assets at fair value through profit or loss

Except for the above-mentioned financial assets measured at amortized cost and measured at fair value through other comprehensive income, the Group classifies all other financial assets as financial assets measured at fair value through profit or loss. At the time of initial recognition, if the accounting mismatch can be eliminated or significantly reduced, the Group may irrevocably designate financial assets that should have been measured at amortized cost or measured at fair value through other comprehensive income through profit or loss.

The business model of managing financial assets refers to how the Group manages financial assets to generate cash flows. The business model determines whether the source of cash flow for the financial assets under management of the Group is the receipt of cash flows from contracts, the sale of financial assets or both. The Group determines the business model for managing financial assets based on objective facts and on the basis of specific business objectives for the management of financial assets as determined by key management personnel.

The Group evaluates the contractual cash flow characteristics of financial assets to determine whether the contractual cash flows generated by the relevant financial assets on a specific date are only payments of principal and interest based on the outstanding principal amount. Principal refers to the fair value of a financial asset at the time of initial recognition, and interest includes the time value of money, the credit risk associated with the amount of principal outstanding in a given period, and other fundamental borrowing risks, costs and profits. In addition, the Group evaluates contract terms that may result in a change in the time distribution or amount of contractual cash flows of financial assets to determine whether they meet the requirements of the above-mentioned contractual cash flow characteristics.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.2. Classification and subsequent measurement of financial assets (Continued)

(2) Subsequent measurement of financial assets

1) Financial assets measured at fair value through profit or loss

After the initial recognition, the gains or losses (including interest and dividend income) arising from the subsequent measurement of such financial assets at fair value are recognized in profit or loss for the current period, unless the financial assets are part of the hedging relationship.

2) Financial assets measured at amortized cost

After initial recognition, the effective interest rate method is used to measure such financial assets at amortized cost. Gains or losses arising from financial assets measured at amortized cost that are not part of any hedging relationship are recognized in profit or loss for the current period when they are derecognized, amortized under the effective interest method or when impairment is recognized.

3) Financial assets at fair value through other comprehensive income

① Debt investments measured at fair value through other comprehensive income

After the initial recognition, the financial assets are subsequently measured at fair value. Interest, impairment losses or gains and exchange gains and losses calculated using the effective interest rate method are recognized in profit or loss for the current period, and other gains or losses are included in other comprehensive income. When the recognition is derecognized, the accumulated gains or losses previously included in other comprehensive income are transferred from other comprehensive income and included in the profit or loss for the current period.

② Investments in equity instruments at fair value through other comprehensive income

After the initial recognition, the financial assets are subsequently measured at fair value. Dividend income is included in profit or loss, and other gains or losses are included in other comprehensive income. When the recognition is derecognized, the accumulated gains or losses previously included in other comprehensive income are transferred out of other comprehensive income and included in retained earnings.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.3. Classification and subsequent measurement of financial liabilities

The Group classifies financial liabilities into financial liabilities at fair value through profit or loss, financial guarantee contract liabilities and other financial liabilities.

(1) Financial liabilities at fair value through profit or loss

This category of financial liabilities includes trading financial liabilities (including derivatives that are financial liabilities) and financial liabilities designated as measured at fair value through profit or loss. After the initial recognition, the subsequent measurement of such financial liabilities at fair value is recognizable, and the gains or losses (including interest expense) arising are recognized in profit or loss for the current period, except in relation to hedge accounting.

At the time of initial recognition, in order to provide more relevant accounting information, the Group may designate financial liabilities as financial liabilities measured at fair value through profit or loss, provided that the designation satisfies one of the following conditions:

- ① Ability to eliminate or significantly reduce accounting mismatches;
- ② Conduct management and performance evaluation of the financial liability portfolio or financial assets and financial liability portfolio on the basis of fair value in accordance with the enterprise risk management or investment strategy set out in the formal written documents, and report to key management personnel on this basis within the enterprise. Once the designation has been made, it cannot be revoked.

After the initial recognition, the financial liabilities measured at fair value through profit or loss are subsequently measured at fair value, and the gains or losses (including interest expense) arising are recognized in profit or loss for the current period, except in relation to hedge accounting. For financial liabilities designated as measured at fair value through profit or loss, the change in fair value caused by changes in the Group's credit risk is included in other comprehensive income. When the relevant liabilities are derecognized, the accumulated gains or losses previously included in other comprehensive income are transferred from other comprehensive income and included in retained earnings.

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.3. Classification and subsequent measurement of financial liabilities (Continued)

(2) Financial guarantee contract liabilities

A financial guarantee contract refers to a contract that requires the Group to pay a specific amount to the contract holder who has suffered losses when the specific debtor is unable to repay the debt in accordance with the terms of the original or modified debt instrument when it is due. The liabilities of the financial guarantee contract are subsequently measured according to the amount of the loss provision determined in accordance with the principle of impairment of financial instruments and the balance of the initial recognition amount after deducting the accumulated amortization, whichever is higher.

(3) Other financial liabilities

After initial recognition, other financial liabilities are measured at amortized cost using the effective interest rate method.

4.8.4. Offset of financial assets and financial liabilities

Financial assets and financial liabilities are presented separately in the balance sheet and are not offset against each other. However, if the following conditions are met at the same time, the net amount after offsetting is shown in the balance sheet:

- (1) the Group has a legal right to set off the recognized amount and such legal right is currently enforceable;
- (2) The Group plans to settle on a net basis, or at the same time to realise the financial assets and settle the financial liabilities.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.5. Derecognition of financial assets and financial liabilities

When one of the following conditions is satisfied, the Group will terminate the recognition of the financial asset:

- (1) Termination of the contractual right to receive the cash flows of the financial asset;
- (2) the financial assets have been transferred, and the Group has transferred substantially all of the risks and rewards of the ownership of the financial assets to the transferee;
- (3) The financial asset has been transferred, and although the Group has neither transferred nor retained substantially all of the risks and rewards in the ownership of the financial asset, it has not retained control of the financial asset.

If the transfer of financial assets as a whole satisfies the conditions for derecognition, the Group shall include the difference between the following two amounts in profit or loss for the current period:

- (1) the carrying amount of the transferred financial asset on the date of derecognition;
- (2) The sum of the consideration received for the transfer of financial assets and the amount corresponding to the derecognition of the cumulative amount of fair value changes originally directly included in other comprehensive income (the financial assets involved in the transfer are debt investments measured at fair value through other comprehensive income). If the current obligation of a financial liability (or part thereof) has been discharged, the Group shall derecognize the financial liability (or part thereof).

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.6. Impairment of financial assets

Based on expected credit losses, the Group carries out impairment accounting treatment and recognises loss provisions for financial assets measured at amortized cost, debt investments and lease receivables measured at fair value through other comprehensive income:

The expected credit loss model is not applicable to other financial assets at fair value held by the Group, including debt investments or investments in equity instruments measured at fair value through profit or loss, investments in equity instruments designated at fair value through other comprehensive income, and derivative financial assets.

(1) Measurement of expected credit losses

Expected credit loss refers to the weighted average of credit losses of financial instruments weighted by the risk of default. Credit loss refers to the difference between all contractual cash flows receivable under contracts and all cash flows expected to be received by the Group discounted at the original effective interest rate, i.e. the present value of all cash shortfalls.

In measuring expected credit losses, the Group is required to consider the maximum contract period for which the enterprise is exposed to credit risk (including considering the renewal option).

Expected credit loss over the entire duration refers to the expected credit loss due to all possible default events that may occur throughout the expected duration of a financial instrument.

Expected credit losses in the next 12 months are expected credit losses that may occur as a result of an event of default on a financial instrument that may occur within 12 months after the balance sheet date (or the expected duration of the financial instrument if the expected duration of the financial instrument is less than 12 months), and is part of the expected credit loss for the entire duration.

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.6 Impairment of financial assets (Continued)

(1) Measurement of expected credit losses (Continued)

For receivables, the Group has always measured its loss allowance at an amount equivalent to the expected credit losses throughout the duration. The Group's ECLs for the above-mentioned financial assets are calculated using a provision matrix based on historical credit loss experience, which is adjusted based on the borrower's specific factors at the balance sheet date and the assessment of current conditions and projections of future economic conditions. In addition to receivables, the Group measures its loss allowance at an amount equivalent to the expected credit loss in the next 12 months for financial instruments and an amount equivalent to the expected credit loss for the entire duration of other financial instruments under the following circumstances:

- ① the financial instrument has only a lower credit risk at the balance sheet date;
 - ② the credit risk of the financial instrument has not increased significantly since its initial recognition.
- 1) Have a low credit risk

A financial instrument is considered to have a low credit risk if the risk of default is low, the borrower's ability to meet its contractual cash flow obligations in the short term is strong, and adverse changes in the economic situation and operating environment over a longer period of time do not necessarily reduce the borrower's ability to meet its contractual cash flow obligations.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.6. Impairment of financial assets (Continued)

(1) Measurement of expected credit losses (Continued)

2) Significant increase in credit risk

The Group determines the relative change in the risk of default of a financial instrument during its expected duration by comparing the risk of default on the balance sheet date with the risk of default occurring on the initial recognition date to assess whether the credit risk of a financial instrument has increased significantly since the initial recognition. In determining whether credit risk has increased significantly since initial recognition, the Group considers reasonable and evidence-based information, including forward-looking information, that is available without undue additional cost or effort. The information considered by the Group includes:

- ① The debtor fails to pay the principal and interest on the due date of the contract;
- ② a significant deterioration in the external or internal credit rating, if any, of the financial instrument that has occurred or is anticipated;
- ③ a serious deterioration in the debtor's operating results that has occurred or is expected;
- ④ existing or anticipated changes in the technical, market, economic or legal environment that will have a material adverse effect on the debtor's ability to repay the Group.

Depending on the nature of the financial instruments, the Group assesses whether there is a significant increase in credit risk on the basis of individual financial instruments or a combination of financial instruments. When assessing on the basis of a portfolio of financial instruments, the Group may classify financial instruments based on common credit risk characteristics, such as overdue information and credit risk ratings. The Group believes that the financial assets are in default when the borrower is unlikely to pay the amount it owes to the Group in full, and this assessment does not take into account recourse actions by the Group, such as realising the collateral (if held).

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.6. Impairment of financial assets (Continued)

(1) Measurement of expected credit losses (Continued)

3) Financial assets that have been subject to credit impairment

At the balance sheet date, the Group assesses whether there has been credit impairment in financial assets measured at amortized cost and debt investments at fair value through other comprehensive income. When one or more events occur that adversely affect the expected future cash flows of a financial asset, the financial asset becomes a financial asset that has undergone credit impairment. Evidence that a financial asset has been impaired in credit includes the following observable information:

- ① The issuer or the debtor has major financial difficulties;
- ② the debtor breaches the contract, such as default or overdue payment of interest or principal;
- ③ the creditor gives the debtor a concession that the debtor would not have made under any other circumstances, for reasons of economic or contractual considerations relating to the debtor's financial difficulties;
- ④ the debtor is likely to go bankrupt or undergo other financial restructuring;
- ⑤ The financial difficulties of the issuer or the debtor cause the disappearance of the active market for the financial asset.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.6 Impairment of financial assets (Continued)

(1) Measurement of expected credit losses (Continued)

4) Presentation of provisions for expected credit losses

In order to reflect the change in the credit risk of financial instruments since the initial recognition, the Group remeasures the expected credit losses at each balance sheet date, and the resulting increase or reversal of the loss provision should be recognized in the current profit or loss as an impairment loss or gain. For financial assets measured at amortized cost, the loss allowance is set off against the carrying amount of the financial asset shown in the balance sheet, and for debt investments measured at fair value through other comprehensive income, the Group recognises the loss provision in other comprehensive income and does not offset the carrying amount of the financial asset.

(2) Write-off

If the Group no longer reasonably expects that the contractual cash flows of financial assets will be fully or partially recovered, the carrying balance of such financial assets will be directly written down. Such write-downs constitute the derecognition of the underlying financial assets. This usually happens when the Group determines that the debtor has no assets or source of income to generate sufficient cash flow to repay the amount that will be written down. However, in accordance with the Group's procedures for recovering amounts due from the Group, the financial assets that have been written down may still be affected by the execution activities. If the financial assets that have been written down are later recovered, they shall be recognized in the profit or loss for the current period as an impairment loss.

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.8 Financial instruments and financial liabilities (Continued)

4.8.7. Distinction between financial liabilities and equity instruments and related treatments

The Group distinguishes between financial liabilities and equity instruments based on the following principles: (1) if the Group cannot unconditionally refrain from delivering cash or other financial assets to meet a contractual obligation, the contractual obligation meets the definition of a financial liability. Some financial instruments, while not explicitly containing terms and conditions for the delivery of cash or other financial assets, may indirectly create contractual obligations through other terms and conditions. (2) If a financial instrument is to be settled or can be settled with the Group's own equity instruments, consideration should be given to whether the Group's own equity instruments used to settle the instruments are used as a substitute for cash or other financial assets, or to enable the holder of the instrument to enjoy a residual interest in the assets of the issuer after deducting all liabilities. In the case of the former, the instrument is a financial liability of the issuer, and in the case of the latter, the instrument is an equity instrument of the issuer. In certain circumstances, a financial instrument contract provides that the Group is required to settle or may settle the financial instrument with its own equity instruments, where the amount of the contractual rights or obligations is equal to the number of its own equity instruments available for acquisition or delivery multiplied by its fair value at settlement, regardless of whether the amount of the contractual rights or obligations is fixed or based wholly or partly on variables other than the market price of the Group's own equity instruments (e.g. interest rates, The price of a commodity or the price of a financial instrument) is classified as a financial liability.

In classifying financial instruments (or their components) in the consolidated financial statements, the Group takes into account all terms and conditions entered into between members of the Group and holders of financial instruments. If the group as a whole assumes an obligation as a result of the instrument to deliver cash, other financial assets or settle in other ways that cause the instrument to become a financial liability, the instrument should be classified as a financial liability.

Where financial instruments or their components are financial liabilities, the relevant interest, dividends (or dividends), gains or losses, as well as gains or losses arising from redemption or refinancing, are included in the Group's profit or loss for the current period.

If a financial instrument or its component is an equity instrument, the issuance (including refinancing), repurchase, sale or cancellation of the financial instrument shall be treated as a change in equity and the fair value change of the equity instrument shall not be recognized.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.9 Accounts receivable

Receivables include notes receivable, accounts receivable, other receivables, etc. The accounts receivable arising from the Company's external sales of goods or the provision of labor services shall be initially recognized at the fair value of the contract or agreement price receivable from the purchaser. Receivables are presented using the effective interest method on a net basis of amortized cost less provision for bad debts.

(1) Accounts receivable

The Company's method of determining the expected credit loss of accounts receivable and accounting treatment are detailed in Note 4/(10) 6. Impairment of Financial Instruments.

The Company separately determines the credit loss of accounts receivable that have sufficient evidence to assess the expected credit loss at a reasonable cost at the level of a single instrument.

When sufficient evidence of expected credit loss cannot be assessed at a reasonable cost at the level of a single instrument, the Company divides the accounts receivable into analysis portfolios based on the credit risk characteristics with reference to historical credit loss experience, combined with the current situation and judgment of future economic conditions, and calculates the expected credit loss on the basis of the portfolio.

The Company has combined the accounts receivable with similar credit risk characteristics (aging) and based on all reasonable and evidence-based information, including forward-looking information, estimates the proportion of the provision for bad debts of the accounts receivable as follows:

Aging	Proportion of provision (%)
Within 1 year	0-5
1 – 2 years	5-25
2 – 3 years	50
3 – 4 years	80
4 – 5 years	80
Over 5 years	100

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.10 Inventories

4.10.1 Classification of inventories

Inventories can be classified into raw materials, self-manufactured semi-finished products and goods in process, self-manufactured semi-finished products, stock commodities (finished products), materials for consigned processing, revolving materials and contract performance cost, etc.

4.10.2 Valuation method of inventory

Inventories are initially measured at cost when acquired, including procurement costs, processing costs, and other costs. When the inventory is issued, it is valued in the following two ways.

- (1) Actual costing, which is valued on the weighted average method at the time of inventory issuance.
- (2) Accounting according to planned costing, the difference between the planned cost and the actual cost is accounted for through the cost difference account, and the cost difference that should be borne by the issued inventory is carried forward on time, and the planned cost is adjusted to the actual cost.

4.10.3 Inventory system

Perpetual inventory system is adopted.

4.10.4 Amortization method for low-value consumables and packaging

- (1) Low-value consumables adopt the one-time resale method;
- (2) The packaging adopts the one-time resale method.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.10 Inventories (Continued)

4.10.5. *The basis for determining the net realizable value of inventories and the method of accrual of provisions for inventory declines*

After a comprehensive inventory of inventories is carried out at the end of the period, the provision for inventory decline is withdrawn or adjusted according to the lower of the cost of inventories and the net realizable value. In the ordinary course of production and operation, the net realizable value of the inventory of finished products, inventory commodities and materials used for sale directly used for sale shall be determined by the estimated selling price of the inventory minus the estimated selling expenses and relevant taxes and fees; The net realizable value of the inventory held for the execution of the sales contract or the service contract shall be calculated on the basis of the contract price, and if the quantity of the inventory held exceeds the quantity ordered under the sales contract, the net realizable value of the excess inventory shall be calculated on the basis of the general sales price.

At the end of the period, the provision for inventory decline is made according to a single inventory item, but for inventory with a large quantity and low unit price, the provision for inventory decline is made according to the inventory category, and for inventory related to the product series produced and sold in the same region, with the same or similar end use or purpose, and it is difficult to measure separately from other items, the provision for inventory decline is provided for together.

If the influencing factors of the previous write-down of the value of the inventory have disappeared, the amount of the write-down shall be restored and reversed within the amount of the original provision for the decline in the value of the inventory, and the amount reversed shall be included in the profit or loss for the current period.

4.11 Contract assets

If the Company has transferred the goods to the customer and is entitled to receive the consideration, and such right depends on factors other than the passage of time, it is recognized as a contract asset. The Company's unconditional (i.e., only subject to the passage of time) right to collect consideration from the Client is presented separately as a receivable.

The Company's method of determining the expected credit loss of contract assets and accounting treatment are detailed in Note (9) 6. Impairment of Financial Instruments.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment

4.12.1 Recognition of initial investment cost

- (1) Long-term equity investment acquired from business combination: for details of specific accounting policies, please refer to Note 4.5 for accounting treatment methods of business combination under the same control and not under the same control.
- (2) Long-term equity investments acquired by other methods

The long-term equity investment obtained by means of cash payment shall be taken as the initial investment cost according to the purchase price actually paid.

The long-term equity investment obtained by issuing equity securities shall be taken as the initial investment cost according to the fair value of issuing equity securities.

The non-monetary assets transaction with commercial nature and the fair value of the assets received or surrendered can be reliably measured, under the premise of non-monetary assets transaction in long-term equity investment to the fair value of the assets surrendered and shall pay the relevant taxes to determine its initial investment cost, unless there is convincing evidence that the fair value of the assets received is more reliable; If the non-monetary asset exchange fails to meet the above premise, the book value of the asset to be exchanged and the relevant taxes to be paid shall be taken as the initial investment cost of the long-term equity investment to be exchanged.

The initial investment cost of long-term equity investment obtained through debt restructuring is determined on the basis of fair value.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment (Continued)

4.12.2 Subsequent measurement and recognition of profits or losses

(1) Long-term equity investment accounted for by the cost method

Long-term equity investments of the Company in its subsidiaries are accounted for by the cost method.

Except for the actual price paid for acquisition of investment or the cash dividends or profits contained in the consideration which have been declared but not yet distributed, the Company recognizes the current investment income based on the cash dividends or profits enjoyed by the Company and declared to be distributed by the investee.

(2) Long-term equity investment accounted for by the equity method

Long-term equity investment in joint ventures and joint ventures shall be accounted for by the equity method. For some of the equity investments of joint ventures indirectly held by venture capital institutions, mutual funds, trust companies or similar entities including investment-linked insurance funds, fair value measurement is adopted and the changes are included in profit or loss.

When the initial investment cost is greater than the investment, the difference of the fair value share of the identifiable net assets of the invested entity shall be obtained, and the initial investment cost of long-term equity investment shall not be adjusted; When the initial investment cost is less than the investment, the difference of the fair value share of the identifiable net assets of the invested entity shall be obtained and recorded into the current profit and loss.

The company shall recognize the investment income and other comprehensive income respectively according to the share of net profit and loss and other comprehensive income that should be realized by the invested company, and adjust the book value of long-term equity investment at the same time; The reduction in the book value of long-term equity investments based on the portion of the profits or cash dividends declared to be distributed by the invested entity; The book value of the long-term equity investment shall be adjusted and included in the owner's equity for other changes in the owner's equity except the net profit and loss, other comprehensive income and profit distribution of the invested entity.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment (Continued)

4.12.2 Subsequent measurement and recognition of profits or losses (Continued)

(2) Long-term equity investment accounted for by the equity method (Continued)

When recognizing the share of the net profit and loss of the investee, the fair value of the identifiable net assets of the investee at the time of investment shall be taken as the basis, and the net profit of the investee shall be confirmed after adjustment according to the company's accounting policies and accounting period. During the period of holding the investment, if the invested entity prepares the consolidated financial statements, the accounting shall be conducted on the basis of the net profit, other comprehensive income and other changes in owners' equity attributable to the invested entity.

The profits and losses of unrealized internal transactions between the company, its associated enterprises and joint ventures shall be calculated in accordance with the proportion to which they shall be entitled, the part attributable to the company shall be offset, and the investment gains shall be recognized on this basis. The unrealized internal transaction loss incurred with the invested company, which belongs to the loss of asset impairment shall be fully recognized.

In case of any transaction between the company and its associated enterprises or joint ventures in which assets are invested or sold and the assets constitute businesses, the accounting treatment shall be conducted in accordance with the relevant policies. When the company confirms that it shall share the losses of the invested company, it shall deal with the losses in the following order: First, write off the book value of long-term equity investments. Secondly, if the book value of long-term equity investment is insufficient to be written off, the investment loss shall be continuously recognized within the book value of long-term equity and write off the book value of long-term accounts receivable. Finally, after above treatments, if the enterprise still bears additional obligations in accordance with the investment contract or agreement, the estimated liabilities shall be recognized according to the expected obligations and recorded into the current investment loss.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment (Continued)

4.12.3 Determine the basis for control, joint control, and significant impact on the investee

If the Company has the power over the investee, enjoys variable returns by participating in the related activities of the investee, and has the ability to use the power over the investee to influence its return amount, it is deemed that the Company controls the investee.

If the Company collectively controls an arrangement with other participants in accordance with the relevant agreement, and the activity decisions that have a significant impact on the return of the arrangement exist only after the unanimous consent of the participants sharing the control rights, it is deemed that the Company and other participants jointly control an arrangement, which is a joint venture arrangement.

If the joint venture arrangement is reached through a separate entity, if it is judged according to the relevant agreement that the Company has rights to the net assets of the separate entity, the separate entity shall be regarded as a joint venture, and the equity method shall be adopted for accounting. If it is judged according to the relevant agreement that the company does not have the right to the net assets of the separate entity, the separate entity shall operate as a joint operation, and the company shall confirm the items related to the share of the joint operation interests and carry out accounting treatment according to the relevant accounting standards for enterprises.

Significant influence refers to the power to participate in making decisions on the financial and operating policies of an enterprise, but not the power to control, or jointly control, the formulation of such policies with other parties. After one or more of the following situations and considering all facts and circumstances, the company judges that it has a significant impact on the invested unit: (1) it has representatives on the board of directors or similar authorities of the invested unit; (2) Participate in the financial and business policy formulation process of the invested unit; (3) Important transactions with the investee; (4) Send management personnel to the invested unit; (5) Provide key technical data to the investee.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment (Continued)

4.12.4 Conversion of accounting methods for long-term equity investment

(1) Fair value measurement to equity method

If the equity investment originally held by the Company, which has no control, joint control or significant influence on the investee and is accounted for according to the financial instrument recognition and measurement standards, can exert significant influence on the investee or implement joint control but does not constitute control due to additional investment and other reasons, the original investment shall be determined according to Accounting Standards for Business Enterprises No.22-Recognition and Measurement of Financial Instruments.

Under the current accounting standards for business enterprises, if the equity investment originally held is classified as available-for-sale financial assets, the difference between its fair value and book value, as well as the change in accumulated fair value originally included in other comprehensive income, will be transferred to the current profits and losses accounted for by the equity method instead.

Under the new accounting standards for business enterprises, if the equity investment originally held is designated as a financial asset measured at fair value and its changes are included in other comprehensive income, the difference between its fair value and book value and the accumulated fair value changes originally included in other comprehensive income will be transferred to the retained earnings accounted for by the equity method. The initial investment cost calculated by the equity method is less than the difference between the fair value shares of identifiable net assets of the investee on the additional investment date calculated and determined according to the brand-new shareholding ratio after the additional investment. The book value of the long-term equity investment is adjusted and included in the current non-operating income.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment (Continued)

4.12.4 Conversion of accounting methods for long-term equity investment (Continued)

- (2) *Fair value measurement or equity method accounting is converted to cost method accounting*

If the Company originally held equity investments that do not have control, joint control or significant influence on the investee and are accounted for in accordance with the standards for the recognition and measurement of financial instruments, or the long-term equity investments originally held by the Company in associates or joint ventures, and can exercise control over the investee not under the same control due to additional investment or other reasons, the initial investment cost shall be calculated according to the sum of the carrying amount of the equity investment originally held plus the new investment cost when preparing individual financial statements.

Other comprehensive income recognized by the equity investment held before the acquisition date due to the adoption of the equity method of accounting shall be accounted for on the same basis as the investee's direct disposal of the relevant assets or liabilities when disposing of the investment.

If the equity investment held before the acquisition date is accounted for in accordance with the relevant provisions of Accounting Standard for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments, the accumulated fair value changes originally included in other comprehensive income will be transferred to profit or loss for the current period when the accounting method is changed to the cost method.

- (3) *Equity method accounting is converted to fair value measurement*

If the Company loses common control or significant influence on the investee due to the disposal of part of the equity investment, the remaining equity after the disposal shall be accounted for in accordance with Accounting Standard for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments, and the difference between the fair value and the carrying amount on the date of loss of joint control or significant impact shall be included in the profit or loss for the current period.

Other comprehensive income recognized by the original equity investment due to the adoption of the equity method of accounting shall be accounted for on the same basis as the investee's direct disposal of the relevant assets or liabilities when the equity method of accounting is terminated.

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment (Continued)

4.12.4 Conversion of accounting methods for long-term equity investment (Continued)

(4) Conversion of cost method to equity method

If the Company loses control of the investee due to the disposal of part of the equity investment, if the remaining equity after disposal can exercise joint control or exert significant influence on the investee when preparing individual financial statements, it shall be accounted for according to the equity method instead, and the remaining equity shall be adjusted as if it had been accounted for by the equity method since the acquisition.

(5) Conversion from cost method to fair value measurement

If the Company loses control of the investee due to the disposal of part of the equity investment, etc., and the remaining equity after the disposal cannot exercise joint control or exert significant influence on the investee when preparing individual financial statements, the accounting treatment shall be carried out in accordance with the relevant provisions of the Accounting Standard for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments, and the difference between the fair value and the carrying amount on the date of loss of control shall be recognized in profit or loss for the current period.

4.12.5 Disposal of long-term equity investments

For the disposal of long-term equity investment, the difference between its book value and the actual price shall be recorded into the current profit and loss.

For disposal of long-term equity investment, the difference between its book value and the actual purchase price shall be included in the current profits and losses. For long-term equity investment accounted by equity method, when disposing of the investment, it adopts the same basis as the investee's direct disposal of related assets or liabilities, and accounts for the part originally included in other comprehensive income according to the corresponding proportion.

The terms, conditions and economic impact of various transactions for disposal of equity investment in subsidiaries meet one or more of the following conditions, and multiple transactions are treated as package transactions for accounting treatment:

These transactions are concluded at the same time or under the condition of considering each other's influence;

These transactions as a whole can achieve a complete commercial result;

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment (Continued)

4.12.5 Disposal of long-term equity investments (Continued)

The occurrence of one transaction depends on the occurrence of at least one other transaction;

A transaction is uneconomical when viewed alone, but it is economical when considered together with other transactions.

If an enterprise loses its control over its original subsidiary due to the disposal of part of its equity investment or other reasons, and it does not belong to a package transaction, it shall distinguish between individual financial statements and consolidated financial statements for relevant accounting treatment:

- (1) In individual financial statements, the difference between the book value and the actual acquisition price of the disposed equity is included in the current profits and losses. If the remaining equity after disposal can exercise joint control or exert significant influence on the invested unit, it shall be accounted for by equity method instead, and the remaining equity shall be regarded as being accounted for by equity method at the time of acquisition for adjustment; If the remaining equity after disposal cannot exercise joint control or exert significant influence on the investee, it shall be accounted for according to the relevant provisions of Accounting Standards for Business Enterprises No.22-Recognition and Measurement of Financial Instruments, and the difference between its fair value and book value on the date of loss of control shall be included in the current profits and losses.
- (2) In the consolidated financial statements, for all transactions before the loss of control over subsidiaries, the difference between the disposal price and the disposal of long-term equity investment corresponding to the share of net assets continuously calculated by subsidiaries from the purchase date or the merger date, adjust the capital reserve (equity premium), and adjust the retained earnings if the capital reserve is insufficient to offset; In case of loss of control over subsidiaries, the remaining equity shall be re-measured according to its fair value on the date of loss of control. The sum of the consideration obtained from the disposal of equity and the fair value of the remaining equity, minus the difference between the share of the original subsidiary's net assets continuously calculated from the purchase date calculated according to the original shareholding ratio, is included in the investment income of the current period of loss of control, and the goodwill is offset at the same time. Other comprehensive income related to the original subsidiary's equity investment, etc., will be converted into current investment income when the control right is lost.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.12 Long-term equity investment (Continued)

4.12.5 Disposal of long-term equity investments (Continued)

If all transactions involving disposal of equity investment in subsidiaries until loss of control rights belong to a package transaction, all transactions shall be treated as transactions involving disposal of equity investment in subsidiaries and loss of control rights, and relevant accounting treatment shall be carried out by distinguishing individual financial statements from consolidated financial statements:

- (1) In individual financial statements, the difference between the disposal price before the loss of control and the book value of the long-term equity investment corresponding to the disposed equity is recognized as other comprehensive income, which will be transferred to the profit and loss of the current period when the control is lost.
- (2) In the consolidated financial statements, the difference between the disposal price and the share of the subsidiary's net assets corresponding to the disposal investment before the loss of control right is recognized as other comprehensive income, which will be transferred to the profit and loss of the current period when the control right is lost.

4.12.6 Impairment test method and impairment provision accrual method

On the balance sheet date, if the book value of the long-term equity investment is larger than the share of the book value of the owner's equity of the investee, the impairment test shall be conducted for the long-term equity investment according to Accounting Standards for Business Enterprises No.8-Asset Impairment. If the recoverable amount is lower than the book value of the long-term equity investment, the impairment reserve shall be accrued. The recoverable amount of a long-term equity investment is determined according to the higher of the net amount of the fair value of a single long-term equity investment minus the disposal expenses and the present value of the estimated future cash flow of the long-term equity investment. When the recoverable amount of long-term equity investment is lower than the book value, the book value of the asset is written down to the recoverable amount, and the written-down amount is recognized as the asset impairment loss, which is included in the current profits and losses, and the corresponding asset impairment reserve is accrued at the same time.

Once the impairment loss of long-term equity investment is confirmed, it will not be reversed.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.13 Investment properties

Investment properties refers to real estate held for the purpose of earning rent or capital appreciation, or both, including land use rights that have been leased, land use rights that are held and ready to be transferred after appreciation, and buildings that have been leased. In addition, vacant buildings held by the Company for operation and lease are also reported as investment properties if the Board of Directors makes a written resolution stating that they will be used for operation and lease and that the intention to hold them will not change in the short term.

The Company's Investment properties is recorded at its cost, the cost of purchasing Investment properties includes the purchase price, relevant taxes and other expenses directly attributable to the asset, and the cost of self-construction of investment properties consists of the necessary expenses incurred before the asset reaches its intended state of use.

The Company uses a cost model for the measurement of existing investment properties. The same depreciation policy as the Company's fixed assets is applied to investment real estate-rental buildings measured according to the cost model, and the same amortization policy as intangible assets is applied to leased land use rights.

When the use of investment properties is changed to self-use, the Company converts the investment properties into fixed assets or intangible assets from the date of change. In the event that the use of self-occupied real estate is changed to earn rent or capital appreciation, the Company converts fixed assets or intangible assets into investment properties from the date of change. In the event of a conversion, the book value before the conversion is used as the recorded value after the conversion.

At the balance sheet date, the Company estimates the recoverable amount of investment real estate with signs of impairment, and if the recoverable amount is lower than its carrying amount, it recognizes the corresponding impairment loss. Once the impairment loss of investment real estate is recognized, it will not be reversed.

When an investment property is disposed of, or permanently withdrawn from use and it is not expected that it will be economically beneficial from its disposal, the recognition of the investment real estate will be terminated. The amount of the disposal income from the sale, transfer, scrapping or damage of investment real estate after deducting its carrying amount and relevant taxes and fees is included in profit or loss for the current period.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.14 Fixed assets

4.14.1 Recognition criteria of fixed assets

Fixed assets refer to the tangible assets held for the purpose of producing commodities, providing services, renting or business management with useful lives exceeding one accounting year. Fixed assets are recognized when they simultaneously meet the following conditions:

- (1) It is probable that the economic benefits relating to the fixed assets will flow into the Company;
- (2) The costs of the fixed assets can be measured reliably.

4.14.2 Initial measurement of fixed assets

The fixed assets of the company are initially measured at cost, of which:

- (1) The cost of purchased fixed assets includes the purchase price, import duties and other related taxes and fees, as well as other expenses that can be directly attributed to the fixed assets before they reach the intended usable state.
- (2) The cost of self-built fixed assets consists of the necessary expenses incurred before the assets are built to the intended usable state.
- (3) The fixed assets invested by investors are recorded at the value agreed in the investment contract or agreement, but if the value agreed in the contract or agreement is unfair, they are recorded at fair value.
- (4) If the purchase price of fixed assets exceeds the normal credit conditions and the payment is delayed, the cost of fixed assets is determined based on the present value of the purchase price. The difference between the actual paid price and the present value of the purchase price shall be included in the current profits and losses within the credit period, except for those that should be capitalized.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.14 Fixed assets (Continued)

4.14.3 Subsequent measurement and disposal of fixed assets

(1) Depreciation of fixed assets

Except for the fixed assets that have been fully depreciated and continue to be used, and the land that has been separately priced and recorded, the depreciation of fixed assets shall be accrued by the method of life average or double declining balance, and the depreciation rate shall be determined according to the category of fixed assets, estimated service life and estimated net salvage value rate.

For the fixed assets formed by special reserve expenditure, the special reserve shall be offset according to the cost of forming the fixed assets, and the accumulated depreciation of the same amount shall be confirmed. The fixed assets will not be depreciated in future periods.

According to the nature and usage of fixed assets, the Company determines the service life and estimated net salvage value of fixed assets. At the end of the year, the service life, estimated net salvage value and depreciation method of fixed assets shall be rechecked, and if there is any difference with the original estimate, corresponding adjustments shall be made.

Depreciation life and annual depreciation rate of various fixed assets are as follows:

Type	Depreciation method	Depreciation life (year)	Residual value rate (%)
Houses and buildings	15-30	3	3.23-6.47
Machinery equipment	7-15	3	6.47-13.86
Transportation equipment	5-6	3	16.17-19.40
Electronic computer	5-10	3	9.70-19.40
Office equipment	5-9	3	10.78-19.40
Other equipment	5-9	3	10.78-19.40

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.14 Fixed assets (Continued)

4.14.3 Subsequent measurement and disposal of fixed assets (Continued)

(2) Subsequent expenditure of fixed assets

Subsequent expenditures related to fixed assets shall be included in the cost of fixed assets if they meet the conditions for recognition of fixed assets; Those that do not meet the conditions for recognition of fixed assets are included in the profits and losses of the current period when they occur.

(3) Disposal of fixed assets

When a fixed asset is disposed of, or it is expected that no economic benefits can be generated through use or disposal, the recognition of the fixed asset is terminated. The amount of disposal income from the sale, transfer, scrapping or damage of fixed assets after deducting its book value and related taxes and fees is included in the current profits and losses.

4.14.4 Impairment test method and provision method for impairment of fixed assets

At the end of each period, the company judges whether there is any sign of possible impairment of fixed assets.

If there are signs of impairment of fixed assets, the recoverable amount is estimated. The recoverable amount is determined according to the higher of the net amount of the fair value of fixed assets minus disposal expenses and the present value of the estimated future cash flow of fixed assets.

When the recoverable amount of fixed assets is lower than its book value, the book value of fixed assets will be written down to the recoverable amount, and the written-down amount will be recognized as the impairment loss of fixed assets, which will be included in the current profits and losses, and the corresponding provision for impairment of fixed assets will be accrued at the same time.

After the impairment loss of fixed assets is confirmed, the depreciation of the impaired fixed assets will be adjusted accordingly in the future period, so that the book value of the adjusted fixed assets will be shared systematically within the remaining service life of the fixed assets (excluding the estimated net salvage value).

Once the impairment loss of fixed assets is confirmed, it will not be reversed in the following accounting period.

If there are signs that a fixed asset may be impaired, the enterprise estimates its recoverable amount on the basis of a single fixed asset. If it is difficult for an enterprise to estimate the recoverable amount of a single fixed asset, the recoverable amount of the asset group shall be determined based on the asset group to which the fixed asset belongs.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.15 Construction in progress

4.15.1 *Categories of construction in progress*

The construction in progress built by our company is priced according to the actual cost, which consists of the necessary expenses incurred before the construction of the asset reaches the intended usable state, including the cost of engineering materials, labor costs, relevant taxes and fees paid, borrowing costs to be capitalized, and indirect expenses to be shared, etc. The construction in progress of our company is accounted by project classification.

4.15.2 *Standards and time points for carrying forward projects under construction into fixed assets*

For a construction project under construction, all expenses incurred before the construction of the asset reaches the intended usable state shall be taken as the recorded value of fixed assets. If the construction in progress has reached the scheduled serviceable condition, but the final accounts have not yet been completed, it will be transferred into fixed assets according to the estimated value according to the project budget, cost or actual project cost from the date of reaching the scheduled serviceable condition, and the depreciation of fixed assets will be accrued according to the Company's fixed assets depreciation policy. After the final accounts are completed, the original provisional valuation value will be adjusted according to the actual cost, but the original accrued depreciation amount will not be adjusted.

4.15.3 *Impairment test method and impairment provision accrual method of construction in progress*

At the end of each period, the Company judges whether there is any sign of possible impairment of the construction in progress.

If there are signs that a construction in progress may be impaired, the enterprise shall estimate its recoverable amount on the basis of a single construction in progress. If it is difficult for an enterprise to estimate the recoverable amount of a single project under construction, the recoverable amount of the asset group shall be determined based on the asset group to which the project under construction belongs. The recoverable amount is determined according to the higher of the net amount of the fair value of the construction in progress minus the disposal expenses and the present value of the estimated future cash flow of the construction in progress.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.15 Construction in progress (Continued)

4.15.3 Impairment test method and impairment provision accrual method of construction in progress (Continued)

When the recoverable amount of the construction in progress is lower than its book value, the book value of the construction in progress will be written down to the recoverable amount, and the written-down amount will be recognized as the impairment loss of the construction in progress, which will be included in the current profits and losses, and the corresponding impairment reserve of the construction in progress will be accrued at the same time. Once the impairment loss of construction in progress is confirmed, it will not be reversed in future accounting periods.

4.16 Borrowing costs

4.16.1 Recognition criteria of capitalization of borrowing costs

Borrowing costs include the interest of borrowings, the amortization of discount or premium, auxiliary expenses, exchange differences incurred by foreign currency borrowings, etc.

The borrowing costs incurred to the Company and directly attributable to the acquisition and construction or production of assets eligible for capitalization should be capitalized and included in relevant asset costs; other borrowing costs should be recognized as costs based on the amount incurred and be included in the current profit or loss.

Assets eligible for capitalization refer to fixed assets, investment property, inventories and other assets which may reach their intended use or sale status only after long-time acquisition and construction or production activities.

Borrowing costs may be capitalized only when all the following conditions are met at the same time:

- (1) Asset disbursements, which include those incurred by cash payment, the transfer of non-cash assets or the undertaking of interest-bearing debts for acquiring and constructing or producing assets eligible for capitalization, have already been incurred;
- (2) Borrowing costs have already been incurred; and
- (3) The acquisition and construction or production activities which are necessary to prepare the assets for their intended use or sale have been in progress.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.16 Borrowing costs (Continued)

4.16.2 Capitalization period of borrowing costs

Capitalization period refers to the period from the commencement of capitalization of borrowing costs to its cessation, excluding the period of capitalization suspension of borrowing costs.

Capitalization of borrowing costs should be ceased when the acquired and constructed or produced assets eligible for capitalization have reached their intended use or sale condition.

When some projects among the acquired and constructed or produced assets eligible for capitalization are completed and can be used separately, the capitalization of borrowing costs of such assets should be ceased.

Where construction for each part of assets purchased, constructed or manufactured has been completed separately but can be used or sold only after the entire assets have been completed, capitalization of borrowing costs should cease at the completion of the entire assets.

4.16.3 Suspension of capitalization

If the acquisition, construction or production activities of assets eligible for capitalization are abnormally interrupted and such condition lasts for more than three months, the capitalization of borrowing costs should be suspended; if the interruption is necessary procedures for the acquired, constructed or produced assets eligible for capitalization to reach the working conditions for their intended use or sale, the borrowing costs continue to be capitalized. Borrowing costs incurred during the interruption are recognized as the current profit or loss and continue to be capitalized until the acquisition, construction or production of the assets restarts.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.16 Borrowing costs (Continued)

4.16.4 *Measurement method of capitalization rate and capitalized amounts of borrowing costs*

As for special borrowings borrowed for acquiring and constructing or producing assets eligible for capitalization, borrowing costs of special borrowings actually incurred in the current period less the interest income from undrawn borrowings deposited in the bank or investment income from temporary investment should be recognized as the capitalization amount of borrowing costs.

As for general borrowings used for acquiring and constructing or producing assets eligible for capitalization, the amount of general borrowings to be capitalized should be calculated by multiplying the weighted average of asset disbursements of the part of accumulated asset disbursements exceeding special borrowings by the capitalization rate of used general borrowings. The capitalization rate is calculated by weighted average interest rate of general borrowings.

If the loan has discount or premium, the amount of discount or premium to be amortized in each accounting period shall be determined according to the effective interest rate method, and the amount of interest in each period shall be adjusted.

4.17 Right to use assets

Our company initially measures the right to use assets according to the cost, which includes:

- 1) Initial measurement amount of lease liabilities;
- 2) The lease payment amount paid on or before the start date of the lease period, if there is a lease incentive, deduct the amount related to the lease incentive already enjoyed;
- 3) Initial direct expenses incurred by the Company;
- 4) The Company's estimated costs for dismantling and removing the leased assets, restoring the leased assets' site or restoring the leased assets to the state agreed in the lease terms (excluding the costs incurred for producing inventory).

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.17 Right to use assets (Continued)

After the start of the lease term, the Company adopts the cost model to measure the right to use assets subsequently.

If it can be reasonably determined that the ownership of the leased asset is acquired at the expiration of the lease term, the Company shall accrue depreciation within the remaining service life of the leased asset. If it is impossible to reasonably determine that the ownership of the leased asset can be acquired upon the expiration of the lease term, the Company shall accrue depreciation within the shorter period of the lease term and the remaining service life of the leased asset. For the right-to-use assets with provision for impairment, depreciation will be accrued according to the book value after deducting the provision for impairment in the future with reference to the above principles.

4.18 Intangible assets

Intangible assets refer to identifiable non-monetary assets owned or controlled by the company without physical form.

4.18.1 Initial measurement of intangible assets

The costs of externally purchased intangible assets include purchase prices, relevant taxes and surcharges and other directly attributable expenditures incurred to prepare the assets for their intended uses. If the payment for an intangible asset is delayed beyond the normal credit conditions and it is of the financing nature, the cost of the intangible asset shall be determined on the basis of the present value of the purchase price.

For intangible assets obtained through debt restructuring that are used by debtors for offsetting debts, its book value is determined by the fair value of the abandoned creditor's right and the taxes directly attributable to the assets reaching intended use, and the difference between the fair value of the abandoned creditor's right and the book value is included into the current profit or loss.

On the premise that non-monetary assets trade is of commercial nature and the fair value of the assets traded in and out can be measured reliably, the intangible assets traded in with non-monetary assets should be recognized at the fair value of the assets traded out, unless any unambiguous evidence indicates that the fair value of the assets traded in is more reliable; as to the non-monetary assets trade not meeting the aforesaid premise, the book value of the assets traded out and related taxes and surcharges payable should be recognized as the cost of the intangible assets, with profits or losses not recognized.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.18 Intangible assets (Continued)

4.18.1 Initial measurement of intangible assets (Continued)

The intangible assets acquired by the enterprise under the same control are determined based on the book value of the merged party; the intangible assets acquired by the enterprises under the same control are determined at fair value.

Intangible assets developed by the company itself, whose costs include: materials used in the development of the intangible assets, labor costs, registration fees, amortization of other patents and concessions used in the development process, and interest charges to meet capitalization conditions, and other direct costs incurred to bring the intangible asset to its intended use.

4.18.2 Subsequent measurement of intangible assets

Analyze and judge the service life of intangible assets when acquiring them. Intangible assets with limited service life are amortized by straight-line method within the period of bringing economic benefits to enterprises; If it is impossible to foresee the period when intangible assets bring economic benefits to the enterprise, they shall be regarded as intangible assets with uncertain service life and shall not be amortized.

4.18.3 Provision for impairment of intangible assets

For intangible assets with a defined service life, if there is any obvious sign of impairment, the impairment test is carried out at the end of the period.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.18 Intangible assets (Continued)

4.18.3 Provision for impairment of intangible assets (Continued)

For intangible assets with an indefinite useful life, an impairment test is performed at the end of each period.

The intangible assets are tested for impairment and the recoverable amount is estimated. If there is any indication that an intangible asset may be impaired, the company estimates its recoverable amount based on a single intangible asset. If it is difficult for the company to estimate the recoverable amount of an individual asset, the recoverable amount of the intangible asset group is determined based on the asset group to which the intangible asset belongs.

The recoverable amount is determined based on the higher of the fair value of the intangible assets minus the disposal expenses and the present value of the estimated future cash flows of the intangible assets.

When the recoverable amount of the intangible asset is lower than its carrying amount, the carrying amount of the intangible asset is reduced to the recoverable amount, and the amount of the write-down is recognized as the impairment loss of the intangible asset, which is included in the current profit and loss, and the corresponding intangible is accrued. Impairment of assets.

After the impairment loss of intangible assets is recognized, the depreciation or amortization expenses of the intangible assets are adjusted accordingly in the future period, so that the intangible assets are systematically apportioned the adjusted book value of intangible assets (net of estimated net Residual value).

Once the impairment loss of an intangible asset is recognized, it will not be reversed in subsequent accounting periods.

4.18.4 Specific criteria for dividing research stage and development stage

Research stage: The stage of an original, planned investigation or research activity to acquire and understand new scientific or technical knowledge.

Development stage: The stage at which research or other knowledge is applied to a plan or design to produce a new or substantially improved material, device, product and so on before commercial production or use.

Expenditures during the research phase of internal research and development projects are included in the current profits and losses when they occur.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.18 Intangible assets (Continued)

4.18.5 Specific conditions for capitalization of expenditure in the development stage

Expenditures arising from development stage are determined as intangible assets when the following conditions are simultaneously satisfied:

- (1) It is technically feasible to finish intangible assets for use or sale;
- (2) The management has the intention to finish and use or sell the intangible assets;
- (3) The method that the intangible assets generate economic benefits, including the existence of a market for products produced by the intangible assets or for the intangible assets themselves, shall be proved. Or, if to be used internally, the usefulness of the assets shall be proved;
- (4) With the support of sufficient technologies, financial resources and other resources, it is able to finish the development of the intangible assets, and it is able to use or sell the intangible assets; and
- (5) The expenditures attributable to the intangible assets during their development stage can be reliably measured.

Expenditures at the development stage that do not meet the above conditions are included in the current profit or loss on occurrence. Development expenditures that have been included in profit or loss in prior periods will not be recognized as an asset in future periods. The capitalized expenditures at the development stage should be listed as development expenses in the balance sheet, and transferred to be intangible assets when the project meets the working condition for its intended use.

4.19 Long-term deferred expenses

Long-term deferred expenses refer to various expenses which have been already incurred but will be borne in the reporting period and in the future with an amortization period of over one year. Long-term deferred expenses are evenly amortized over the benefit period.

For long-term deferred expenses are not beneficiary to the subsequent accounting periods, the amortized value of the projects that are not amortized yet is all included in the current profit and loss.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.20 Contract liabilities

The Company recognizes the obligation to transfer goods to customers after receiving or receiving consideration from customers as contractual liabilities.

4.21 Employee compensation

Employee compensation refers to the various forms of remuneration or compensation given by the company to obtain the services provided by the employees or to terminate the labor relationship. Employee remuneration includes short-term remuneration, dismissal benefits and retirement benefits.

4.21.1 Short-term compensation

During the accounting period of an employee's providing services, the Company should recognize the actual short-term compensation as liabilities and shall include it into the current gains and losses or relevant asset costs. The cost of social insurance and housing fund paid by Company for employees and the labor union cost and employee education costs provided by the Company in accordance with provisions shall, in the accounting period, during which the service is provided by employees for enterprises, be used to calculate corresponding amount of employee compensation according to the stipulated provision basis and proportion.

4.21.2 Post-employment benefits

Post-employment benefits refer to various forms of remuneration and benefits provided by the Company after employees retire or terminate their labor relations with enterprises in order to obtain services provided by employees, except short-term remuneration and dismissal benefits.

The Company's post-employment benefit plans are classified into defined contribution plans and defined benefit plans.

The plan for setting and depositing post-employment benefits is mainly to participate in social basic endowment insurance and unemployment insurance organized and implemented by local labor and social security institutions; In addition to the basic endowment insurance, the Company has also established an enterprise annuity payment system (supplementary endowment insurance)/enterprise annuity plan in accordance with the relevant policies of the national enterprise annuity system. The Company pays the local social insurance institution/annuity plan according to a certain proportion of the total wages of employees, and the corresponding expenses are included in the current profits and losses or related asset costs. During the accounting period when employees provide services for the Company, the amount of deposit payable calculated according to the set deposit plan is recognized as a liability and included in the current profits and losses or related asset costs.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.21 Employee compensation (Continued)

4.21.2 Post-employment benefits (Continued)

Post-employment benefits defined benefit plans mainly refers to the explicit standard off-planning benefits paid by retirees and the living expenses paid for the survivors of deceased employees. As for the obligations undertaken in defined benefit plans, on the balance sheet, according to the formula determined by the expected cumulative welfare unit method, the company attributed the welfare obligations arising from defined benefit plans to the period during which employees provided services, and included them in current profits and losses or related asset costs. Among them, unless other accounting standards require or allow employee welfare costs to be included in asset costs, defined benefit plans service costs and net interest of defined benefit plans net liabilities or net assets are included in current profits and losses in the current period; Changes arising from remeasurement of net liabilities or net assets of defined benefit plans are included in other comprehensive income in the current period, and are not allowed to be reversed to profit or loss in subsequent accounting periods.

4.21.3 Dismissal benefits

When the Company fails to unilaterally withdraw the dismissal benefits offered due to the termination of the labor relation plan or layoff proposal, or confirms the costs or fees associated with the reorganization involving the payment of the dismissal benefits (whatever is earlier), the employee compensation liabilities arising from the confirmation of dismissal benefits are included in the current profit or loss.

The Company provides retirement benefits to employees who accept internal retirement arrangements. Retirement benefits refer to the wages and social insurance premiums paid to employees who have not reached the retirement age stipulated by the state and voluntarily quit their jobs with the approval of the management of the company. The Company shall pay internal retirement benefits to retired employees from the start of internal retirement arrangements until the employees reach the normal retirement age. For the retired benefits, the Company will carry out accounting treatment according to the dismissal benefits. When the relevant confirmation conditions of the dismissal benefits are met, the wages and social insurance premiums to be paid by the retired employees from the date when the employees stop providing services to the normal retirement date will be recognized as liabilities, which will be included in the profits and losses of the current period at one time. Changes in actuarial assumptions of retired benefits and differences caused by adjustment of welfare standards are included in current profits and losses when they occur.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.21 Employee compensation (Continued)

4.21.4. Other long-term employee benefits

Other long-term employee benefits refer to all employee benefits except short-term salary, post-employment benefits, and severance benefits.

For other long-term employee benefits that meet the conditions for setting up a deposit and withdrawal plan, the amount payable shall be recognized as a liability during the accounting period in which the employee provides services to the Company and shall be included in the current profit or loss or the cost of related assets.

4.22 Lease liabilities

The Company initially measures the lease liabilities according to the present value of the unpaid lease payment on the start date of the lease term. When calculating the present value of the lease payment, the company adopts the lease embedded interest rate as the discount rate; If the interest rate of the lease cannot be determined, the incremental borrowing rate of the Company shall be used as the discount rate. The lease payment amount includes:

- 1) Fixed payment amount and substantial fixed payment amount after deducting the relevant amount of lease incentive;
- 2) Variable lease payment amount depending on index or ratio;
- 3) When the Company reasonably determines that the option will be exercised, the lease payment amount includes the exercise price for purchasing the option;
- 4) In the case that the lease period reflects that the Company will exercise the option to terminate the lease, the lease payment amount includes the amount to be paid for exercising the option to terminate the lease;
- 5) Estimated amount to be paid according to the residual value of guarantee provided by the Company.

The Company calculates the interest expenses of the lease liabilities in each period of the lease term according to a fixed discount rate, which is included in the current profits and losses or related asset costs.

The variable lease payments that are not included in the measurement of lease liabilities shall be included in the current profits and losses or related asset costs when they actually occur.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.23 Share-based payment

4.23.1. *Types of share-based payments*

The Company's share-based payments are divided into equity-settled share-based payments and cash-settled share-based payments.

4.23.2. *The method of determining the fair value of equity instruments*

For equity instruments such as options granted with an active market, their fair value is determined based on the quotations quoted in the active market. For equity instruments such as options granted that do not have an active market, the fair value is determined by using an option pricing model, etc., and the option pricing model selected takes into account the following factors: (1) the exercise price of the option, (2) the validity period of the option, (3) the current price of the underlying shares, (4) the expected volatility of the stock price, (5) the expected dividend of the shares, and (6) the risk-free interest rate during the life of the option.

In determining the fair value of equity instruments at the grant date, the impact of market conditions and non-vesting conditions in the exercisable conditions set out in the share-based payment agreement is considered. If there are non-exercisable conditions for share-based payment, as long as the employee or other party satisfies all the non-market conditions (such as the term of service, etc.) in all the exercisable conditions, the corresponding cost of the service will be recognized.

4.23.3. *The basis for determining the best estimate of the exercisable equity instrument*

During the waiting period, at each balance sheet date, the number of equity instruments with exercisable rights is revised based on the best estimate and other subsequent information such as changes in the number of employees with the latest vesting rights. On the vesting date, the final expected number of exercisable equity instruments is consistent with the actual number of exercisable rights.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.23 Share-based payment (Continued)

4.23.4. *Accounting treatment related to the implementation, modification and termination of the share-based payment plan*

Equity-settled share-based payments are measured at the fair value of equity instruments granted to employees. If the right is exercisable immediately after grant, the relevant costs or expenses shall be included in the fair value of the equity instrument on the grant date, and the capital reserve shall be increased accordingly. If the rights are exercised only after the completion of the services during the waiting period or the performance conditions are met, the services obtained in the current period shall be included in the relevant costs or expenses and capital reserve at each balance sheet date during the waiting period, based on the best estimate of the number of exercisable equity instruments, and at the fair value of the equity instruments on the date of grant. No adjustments will be made to the relevant costs or expenses recognized and the total amount of owner's equity after the vesting date.

Cash-settled share-based payments are measured at the fair value of liabilities assumed by the Company on the basis of shares or other equity instruments. If the right is exercisable immediately after grant, the fair value of the liability assumed by the Company shall be included in the relevant costs or expenses on the grant date, and the liability shall be increased accordingly. For cash-settled share-based payments that are exercisable after the completion of services during the waiting period or the achievement of specified performance conditions, services acquired during the current period are included in costs or expenses and corresponding liabilities at each balance sheet date during the waiting period, based on the best estimate of the exercisable rights and the amount of the fair value of the liabilities assumed by the Company. The fair value of the liability is remeasured at each balance sheet date and the settlement date before the settlement of the relevant liability, and its change is recognized in profit or loss for the current period.

4.23.5. *If there is a modification of the terms and conditions, the modification of the current period and the related accounting treatment*

If the granted equity instruments are cancelled during the waiting period, the Company will treat the cancelled granted equity instruments as an accelerated exercise, and the amount that should be recognized during the remaining waiting period will be immediately included in the profit or loss for the current period, and the capital reserve will be recognized at the same time. If the employee or other party can choose to meet the non-exercisable conditions but fail to do so within the waiting period, the Company will treat it as a cancellation of the grant of equity instruments.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.24 Bonds payable

4.24.1. General corporate bonds

Bonds payable at fair value through profit or loss are initially recognized at their fair value, and the relevant transaction costs are directly recognized in profit or loss for the current period and subsequently measured at fair value.

For other types of bonds payable, the sum of their fair value and related transaction costs is the initial recognition amount, and the amortized cost is used for subsequent measurement. A premium or discount is an adjustment for interest expense payable over the life of the bond, which is amortized over the life of the bond using the effective interest method.

4.24.2. Convertible corporate bonds

For the convertible corporate bonds issued by the Company, the liability component and equity component contained in the convertible corporate bonds issued by the Company shall be split at the time of initial recognition, and the liability component shall be recognized as bonds payable and the equity component shall be recognized as capital reserve. In the spin-off, the initial recognition amount of the debt component is determined by discounting the future cash flows of the debt component, and then the initial recognition amount of the equity component is determined by deducting the initial recognition amount of the debt component from the total issue price. The transaction costs incurred in the issuance of convertible corporate bonds are apportioned between the liability component and the equity component according to their respective relative fair value.

4.25 Estimated liabilities

4.25.1 Recognition criteria of estimated liabilities

The Company recognizes estimated liabilities when such obligations related to contingencies including litigation, debt guarantee, onerous contracts and restructuring matters satisfy all the following conditions:

- (1) Such obligation is a present obligation of the Company;
- (2) The performance of this obligation may very probably lead to the flow of economic interests out of the Company;
- (3) The amount of the obligation can be measured reliably.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.25 Estimated liabilities (Continued)

4.25.2 Measurement method of estimated liabilities

The estimated liabilities of the Company are initially measured as the best estimate of expenses required for the performance of relevant present obligations.

When determining the best estimates, the Company comprehensively considers the risks, uncertainties, time value of money, and other factors relating to the contingencies. If the time value of money is significant, the best estimates will be determined after discount of relevant future cash outflows.

The best estimates shall be treated as follows in different circumstances:

- (1) If there is continuous range (or interval) for the necessary expenses, and probabilities of occurrence of all the outcomes within this range are equal, the best estimate should be determined at the average amount of upper and lower limits within the range.
- (2) If there is no continuous range (or interval) for the necessary expenses, or probabilities of occurrence of all the outcomes within this range are unequal despite such a range exists, in case that the contingency involves a single item, the best estimate should be determined at the most likely outcome; if the contingency involves two or more items, the best estimate should be determined according to all the possible outcomes with their relevant probabilities.
- (3) When all or part of the expenses necessary for the settlement of an estimated liability of the Company are expected to be compensated by a third party, the compensation shall be separately recognized as an asset only when it is virtually certain that the compensation will be received. The amount recognized for the compensation shall not exceed the book value of the estimated liability.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.26 Production safety expenses

The company's machinery manufacturing enterprises take the accrual of safety production expenses as the basis for the accrual of the actual operating income of the previous year, and adopt the method of excess regression to withdraw on an average monthly basis according to the following standards:

1. If the operating income does not exceed 10 million yuan, it shall be withdrawn according to 2.35%;
2. The part of the operating income exceeding 10 million yuan to 100 million yuan shall be withdrawn according to 1.25%;
3. The part of the operating income exceeding 100 million yuan to 1 billion yuan shall be withdrawn according to 0.25%;
4. The part of the operating income exceeding 1 billion yuan to 5 billion yuan shall be withdrawn at 0.1%;
5. The part of the operating income exceeding 5 billion yuan shall be withdrawn according to 0.05%;

The safety production expenses withdrawn are included in the profit or loss for the current period, and at the same time recorded in the special reserve, which is listed separately under the owner's equity. When the actual use of the extracted safety production expenses is an expense expenditure, the special reserve shall be directly deducted. If the extracted safety production expenses are used to form fixed assets, the expenses incurred shall be collected through the accounting account of "construction in progress", and recognized as fixed assets when the safety project is completed and reaches the intended usable state; at the same time, the special reserves shall be offset according to the cost of forming fixed assets, and the accumulated depreciation of the same amount shall be recognized. If the balance of the special reserve withdrawn is insufficient to offset it, it shall be directly included in the profit or loss for the current period.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.27 Revenue

4.27.1 *General principles of revenue recognition*

When the Company fulfills its performance obligations under the contract, i.e., when the Customer obtains control of the relevant goods or services, the Company recognizes revenue at the transaction price allocated to the performance obligation.

The obligation to perform refers to the promise of the Company to transfer goods or services to the customer in a contract that can clearly distinguish between goods or services.

To gain control of a commodity in question is to be able to dominate the use of the commodity and derive almost all of the economic benefits from it.

The Company evaluates the contract on the commencement date of the contract, identifies the individual performance obligations contained in the contract, and determines whether each individual performance obligation is to be performed within a certain period of time or at a certain point in time. If one of the following conditions is satisfied, it is a performance obligation to be performed within a certain period of time, and the Company shall recognize revenue within a period of time according to the performance progress: (1) the customer obtains and consumes the economic benefits brought by the company's performance at the same time as the company's performance, (2) the customer can control the goods under construction in the course of the company's performance, and (3) the goods produced by the company in the course of the performance of the contract have irreplaceable uses, and the company has the right to receive payment for the part of the performance that has been completed so far during the entire contract period. Otherwise, the Company recognises revenue at the point at which the Client acquires control of the relevant goods or services.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.27 Revenue (Continued)

4.27.2. Principles for the treatment of revenue for specific transactions

(1) *A contract with a return of sale clause*

At the time the customer acquires control of the relevant merchandise, revenue is recognized at the amount of consideration that is expected to be received as a result of the transfer of the merchandise to the customer (i.e., excluding the amount expected to be refunded as a result of the return of the sale) and the liability is recognized as the amount expected to be refunded as a result of the return of the sale.

The carrying amount of the goods expected to be returned at the time of sale, after deducting the estimated cost of recovering the goods (including the impairment of the value of the returned goods), is accounted for under "cost receivable returns".

(2) *Contracts with quality assurance clauses*

Assess whether this quality assurance provides a separate service in addition to assuring the customer that the goods sold meet the established standards. If the Company provides additional services, it shall be accounted for in accordance with the provisions of the revenue standard as a single performance obligation, otherwise, the quality assurance liability shall be accounted for in accordance with the accounting standard for contingencies.

(3) *A contract of sale with an additional purchase option for the customer*

The Company assesses whether the Option provides a material right to the Client. If a material right is provided, the transaction price will be allocated to the performance obligation as a single performance obligation, and the corresponding revenue will be recognized when the customer exercises the purchase option to obtain control of the relevant goods in the future, or when the option expires. If the individual price of the additional purchase option cannot be directly observed, a reasonable estimate shall be made after taking into account all relevant information such as the difference in the discount that the customer can obtain by exercising and not exercising the option, and the possibility of the customer exercising the option.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.27 Revenue (Continued)

4.27.2 Principles for the treatment of revenue for specific transactions (Continued)

(4) *A contract to license intellectual property rights to a customer*

To assess whether the IP license constitutes a single performance obligation, and if it constitutes a single performance obligation, it is further determined whether it is performed within a certain period of time or at a certain point in time. If the intellectual property license is granted to the customer and the royalty is agreed to be charged according to the actual sales or use of the customer, the revenue shall be recognized at the later of the following two points: the subsequent sales or use of the customer actually occurs, and the company fulfills the relevant performance obligations.

(5) *After-sales repurchase*

- 1) Contracts with repurchase obligations due to forward arrangements with customers: In this case, the customer does not obtain control of the relevant commodities at the time of sale, so they are accounted for as lease transactions or financing transactions. Among them, if the repurchase price is lower than the original selling price, it shall be regarded as a lease transaction, and the relevant provisions of the leasing shall be accounted for in accordance with the accounting standards for business enterprises; if the repurchase price is not lower than the original selling price, it shall be regarded as a financing transaction, and the financial liability shall be recognized when the payment is received from the customer, and the difference between the payment and the repurchase price shall be recognized as interest expense during the repurchase period. If the Company fails to exercise the repurchase right at maturity, the financial liability shall be derecognized when the repurchase right expires, and the revenue shall be recognized at the same time.
- 2) Contracts with repurchase obligations arising at the request of the customer: If the customer has a significant economic motive, the after-sales repurchase shall be treated as a lease transaction or a financing transaction and shall be accounted for in accordance with the provisions of 1) of this article;

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.28 Contract costs

4.28.1 Contract performance costs

The costs incurred by the Company for the performance of the contract are recognized as an asset as contract performance costs when the following conditions are met:

- (1) The costs are directly related to a current or expected contract obtained.
- (2) The costs increase the resources of the Company to fulfill its performance obligations in the future.
- (3) The costs are expected to be recovered.

The asset is reported in inventory or other non-current assets according to whether the amortization period at initial recognition exceeds a normal business cycle.

4.28.2 Contract acquisition costs

If the incremental costs incurred by the Company in order to obtain a contract can be recovered, the contract acquisition costs are recognized as an asset. Incremental cost refers to the cost that will not happen if the company does not obtain the contract, such as sales commission. If the amortization period does not exceed one year, it will be included in the current profits and losses when it occurs.

4.28.3 Amortization of contract cost

Assets related to contract costs are amortized on the same basis as the recognition of goods or services income related to the assets; however, if the amortization period of the contract acquisition costs does not exceed one year, the company will account them in the current profit and loss when incurred.

4.28.4 Impairment of contract cost

For assets related to contract costs, where the book value is higher than the difference between the following two items, the company will make provision for impairment losses and recognize them as asset impairment losses:

The remaining consideration that can be expected to be obtained by transferring the goods or services related to the asset;

Estimate the costs to be incurred for the transfer of the related goods or services. If the above asset impairment provision is subsequently reversed, the book value of the asset after the reversal shall not exceed the book value of the asset on the date of reversal under the assumption that no provision for impairment is provided.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.29 Government subsidies

4.29.1 Type

Government grants refer to the monetary or non-monetary assets obtained by the Company from the government for free. Government grants are divided into asset-related government grants and income-related government grants.

Asset-related government grants refer to government subsidies obtained by the Company for forming long-term assets by acquisition, construction or other manners. Income-related government grants refer to those other than asset-related government grants. Where government documents fail to clearly define grant objects, the Company will make a judgement according to the aforesaid principle.

4.29.2 Confirmation of government subsidies

If there is evidence at the end of the period that the company can meet the relevant conditions stipulated in the financial support policy and is expected to receive financial support funds, the government subsidy shall be confirmed according to the receivable amount. In addition, government subsidies are confirmed when they are actually received.

Government subsidies are monetary assets, which shall be measured according to the amount received or receivable. If government subsidies are non-monetary assets, they shall be measured at fair value; If the fair value cannot be obtained reliably, it shall be measured according to the nominal amount (RMB1 yuan). Government subsidies measured in nominal amount are directly included in current profits and losses.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.29 Government subsidies (Continued)

4.29.3. Accounting treatment

According to the essence of the economic business, the Company determines whether a certain type of government subsidy business should be accounted for by the gross or net method. In general, the Company selects only one method for the same or similar government subsidy business, and consistently applies that method to the business.

Government subsidies related to assets should be written off or recognized as deferred income for the carrying amount of the relevant assets. If the government subsidy related to the asset is recognized as deferred income, it shall be included in profit or loss in installments in a reasonable and systematic manner during the useful life of the asset built or purchased.

If the government subsidy related to income is used to compensate the relevant expenses or losses of the enterprise in subsequent periods, it shall be recognized as deferred income and shall be included in the profit or loss of the current period or offset the relevant costs in the period of recognition of the relevant expenses or losses;

Government subsidies related to the daily activities of the enterprise are included in other income or offset related costs and expenses, and government subsidies unrelated to the daily activities of the enterprise are included in non-operating income and expenditure.

If the borrower receives a government subsidy related to the preferential interest rate of the policy-based preferential loan to offset the relevant borrowing costs, the actual amount of the loan received shall be taken as the recorded value of the loan, and the relevant borrowing costs shall be calculated according to the principal of the loan and the policy-preferential interest rate.

When the recognized government subsidy needs to be returned, the book value of the asset shall be adjusted if the book value of the relevant asset is reduced at the time of initial recognition, and if there is a balance of relevant deferred income, the book balance of the relevant deferred income shall be written off, and the excess part shall be included in the profit or loss for the current period; and if there is no relevant deferred income, it shall be directly included in the profit or loss for the current period.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.30 Deferred tax assets and deferred tax liabilities

The Group's deferred tax assets and deferred tax liabilities are recognized based on the difference between the tax basis of the assets and liabilities and their carrying amounts (temporary differences), as well as the difference between the carrying amount and the tax basis of items that are not recognized as assets and liabilities but whose tax basis can be determined in accordance with the tax law. For deductible losses and tax credits that can be deducted from taxable income in subsequent years in accordance with the provisions of the tax law, the corresponding deferred tax assets are recognized as temporary differences.

Deferred tax liabilities are not recognized for taxable temporary differences relating to the initial recognition of goodwill, as well as in respect of assets or liabilities arising from transactions that are neither a business combination nor affect accounting profits and taxable income (or deductible losses) at the time of their occurrence. In addition, the relevant deferred tax liabilities will not be recognized for taxable temporary differences related to investments in subsidiaries, associates and joint ventures if the Group is able to control the timing of the reversal of the temporary differences and the temporary differences are likely not to be reversed in the foreseeable future. Subject to the above exceptions, the Group recognises all other deferred tax liabilities arising from taxable temporary differences.

Deductible temporary differences relating to the initial recognition of assets or liabilities arising from transactions that are neither a business combination nor affect accounting profits and taxable income (or deductible losses) at the time of occurrence are not recognized as deferred tax assets. In addition, deferred tax assets will not be recognized for deductible temporary differences related to investments in subsidiaries, associates and joint ventures if the temporary differences are not likely to be reversed in the foreseeable future, or if it is not likely that the taxable income used to offset the deductible temporary differences will be obtained in the future. Except for the above exceptions, the Group recognises deferred tax assets arising from other deductible temporary differences to the extent that it is likely to obtain taxable income that can be used to offset deductible temporary differences.

At the balance sheet date, deferred tax assets and deferred tax liabilities are measured at the applicable tax rate during the period in which the asset is expected to be recovered or liquidated.

The Group recognises deferred tax assets arising from deductible temporary differences to the extent that it is likely to obtain taxable income that can be used to offset deductible temporary differences. For recognized deferred tax assets, the carrying amount of the deferred tax assets should be written down when it is expected that there is a high probability that sufficient taxable income will not be available in future periods to offset the deferred tax assets. The write-down amount is reversed when it is likely that sufficient taxable income will be obtained.

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.31 Lease

On the contract commencement date, the Company evaluates whether the contract is a lease or includes a lease. If a party to a contract transfers the right to control the use of one or more identified assets within a certain period in exchange for consideration, the contract shall be a lease or include a lease.

4.31.1 *The split of the lease contract*

If the contract contains multiple individual leases, the lessee and the lessor will split the contract and make accounting treatment over each individual lease.

If the contract contains both leased and non-leased parts, the lessee and lessor will split the leased and non-leased parts. The lease part shall be accounted for according to the lease standards, and the non-lease part shall be accounted for according to other applicable accounting standards for enterprises.

4.31.2 *Merger of lease contracts*

When two or more contracts including leases concluded between the Company and the same counterparty or its related parties at the same time or at a similar time meet one of the following conditions, they shall be merged into one contract for accounting treatment:

- (1) The two or more contracts are concluded based on the overall commercial purpose and constitute a package transaction, and if they are not considered as a whole, their overall commercial purpose cannot be understood.
- (2) The consideration amount of one of the two or more contracts depends on the pricing or performance of other contracts.
- (3) The right to use assets transferred by two or more contracts together constitute a separate lease.

4.31.3 *Accounting treatment of the Company as a lessee*

At the commencement date of the lease term, the Company recognizes the right-of-use assets and lease liabilities for the lease. The accounting policies for right-of-use assets and lease liabilities are detailed in four (xx) right-of-use assets

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.31 Lease (Continued)

4.31.4 The Company as the lessor

(1) Classification of leases

Leases of the Company are classified as financing lease and operating lease on the lease commence date. Lease under which almost all the risks and rewards relevant to the ownership of leased assets are materially transferred is recognized as financing lease, regardless of whether the ownership is ultimately transferred. Operating lease refers to the leases other than financing lease.

In case of one or more of the following circumstances, the company usually classifies a lease as a financial lease:

- 1) When the lease term expires, the ownership of the leased assets is transferred to the lessee.
- 2) The lessee has the option to purchase the leased assets, and the purchase price is lower than the fair value of the leased assets when the option is expected to be exercised, so it can be reasonably determined that the lessee will exercise the option on the lease start date.
- 3) Although the ownership of the assets is not transferred, the lease period accounts for most of the service life of the leased assets.
- 4) On the lease start date, the present value of the lease receipts is almost equal to the fair value of the leased assets.
- 5) The leased assets are special in nature, and only the lessee can use them without major modification.

If one or more of the following signs exist in a lease, the Company may also classify it as a financial lease:

- 1) If the lessee cancels the lease, the lessor shall bear the losses caused by the cancellation of the lease.
- 2) Gains or losses arising from fluctuations in the fair value of the residual value of assets belong to the lessee.
- 3) The lessee has the ability to continue to lease for the next period at a rent far below the market level.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.31 Lease (Continued)

4.31.4 The Company as the lessor (Continued)

(2) Accounting treatment of financial leasing

On the start date of the lease term, the Company recognizes the receivable financial lease funds for the financial lease and terminates the recognition of the financial lease assets.

In the initial measurement of the financial lease receivable, the sum of the unsecured residual value and the present value of the lease receipts that have not been received at the start date of the lease term is taken as the recorded value of the financial lease receivable. The lease payment amount includes:

- 1) Fixed payment amount and substantial fixed payment amount after deducting the relevant amount of lease incentive;
- 2) Variable lease payment amount depending on index or ratio;
- 3) When it is reasonably determined that the lessee will exercise the purchase option, the lease payment amount includes the exercise price of the purchase option;
- 4) When the lease period reflects that the lessee will exercise the right to terminate the lease, the lease payment amount includes the amount that the lessee needs to pay for exercising the right to terminate the lease;
- 5) The residual value of guarantee provided to the lessor by the lessee, the party related to the lessee and the independent third party with financial ability to perform the guarantee obligation.

The Company calculates and confirms the interest income of each period during the lease period according to the fixed lease embedded interest rate, and the variable lease payment amount not included in the measurement of the net lease investment is recorded into the current profits and losses when it actually occurs.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.31 Lease (Continued)

4.31.4 The Company as the lessor (Continued)

(3) Accounting treatment of operating lease

During each period of the lease term, the company adopts the straight-line method or other systematic and reasonable methods to recognize the lease receipts of operating leases as rental income; Capitalization of the initial direct expenses related to the operating lease shall be allocated on the same basis as the rental income recognition during the lease period, and shall be included in the current profits and losses by stages; The variable lease payments related to operating leases that are not included in the lease receipts are included in the current profits and losses when they actually occur.

4.32 Held for sale

4.32.1 Confirmation criteria for holding for sale

The Company recognizes non-current assets or disposed asset portfolios meeting the following conditions at the same time as assets held for sale:

- (1) According to the general practice for selling such kind of asset or disposed asset portfolio in the similar transaction, the asset or portfolio can be immediately sold in the prevailing circumstance;
- (2) The sale of the asset or portfolio is very likely to happen, which means that the Company has made a resolution for one selling plan and had acquired decided purchase commitment, and it is estimated that the sale will be completed within one year.

The confirmed purchase commitment refers to the legally binding purchase agreement signed by the Company and other parties, which contains important clauses such as transaction price, time and severe penalties for breach of contract, which makes it extremely unlikely that the agreement will be significantly adjusted or cancelled.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.32 Held for sale (Continued)

4.32.2 Accounting method of holding for sale

The Company does not accrue depreciation or amortization for non-current assets or disposal groups held for sale. If its book value is higher than the net amount of fair value minus selling expenses, it shall write down the book value to the net amount of fair value minus selling expenses, and the written-down amount shall be recognized as asset impairment loss, which shall be included in current profits and losses, and at the same time, provision for impairment of assets held for sale shall be made.

For non-current assets or disposal groups that are classified as held for sale on the acquisition date, the initial measurement amount and the net amount of fair value minus selling expenses when they are not classified as held for sale are compared in the initial measurement, whichever is lower.

The above principles are applicable to all non-current assets, but do not include investment real estate with fair value model for subsequent measurement, biological assets with fair value minus selling expenses, assets formed by employee compensation, deferred income tax assets, financial assets regulated by accounting standards related to financial instruments, and rights arising from insurance contracts regulated by accounting standards related to insurance contracts.

4.33 Fair value measurement

4.33.1 Financial instruments that are not measured at fair value

Financial assets and liabilities not measured at fair value mainly include: receivables, short-term borrowings, payables, non-current liabilities and long-term borrowings due within one year, and investments in equity instruments that are not quoted in active markets and whose fair value cannot be reliably measured.

The carrying amount of the above-mentioned financial assets and liabilities that are not measured at fair value differs from the fair value of a small amount, or investments in equity instruments that are not quoted in an active market and whose fair value cannot be reliably measured are measured at cost in accordance with the Recognition and Measurement of Financial Instruments standards.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

In addition to the special note, the unit of amount is CNY

4. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4.33 Fair value measurement (Continued)

4.33.2 Financial instruments measured at fair value

The Company's financial assets and liabilities measured at fair value mainly include: financial assets or financial liabilities measured at fair value through profit or loss, and financial assets available for sale.

When fair value is classified into three levels as a whole, it is based on the lowest of the three levels to which each of the significant inputs used in fair value measurement belongs. The three levels are defined as follows:

Level 1: It is an unadjusted quote in an active market for the same assets or liabilities that can be obtained on the measurement date;

Level 2: is the directly or indirectly observable input of the relevant asset or liability in addition to the input value of the first level;

Level 2 inputs include: 1) quotes for similar assets or liabilities in active markets, 2) quotes for identical or similar assets or liabilities in inactive markets, 3) observable inputs other than quotes, including interest rate and yield curves, implied volatility, and credit spreads that can be observed during normal quote intervals, and 4) inputs for market validation.

Level 3: is the unobservable input value of the underlying asset or liability.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

For the year ended December 31, 2023

5. EXPLANATION OF ACCOUNTING POLICIES, CHANGES IN ACCOUNTING ESTIMATES, AND CORRECTION OF MAJOR PREVIOUS ERRORS

5.1 Changes in accounting policies

There were no changes to the significant accounting policies for the reporting period.

5.2 Changes in accounting estimates

There were no changes to the significant accounting estimates for the reporting period.

6. TAXATION

The main taxable items of the Company and its subsidiaries are listed as follows:

6.1 Turnover tax and additional taxes and fees

Tax Type	Tax basis	Tax rate(%)	Note
Value-added tax ("VAT")	Value-added tax payable shall be the difference obtained by the output taxes calculated on the basis of the revenue from the sale of goods and taxable services calculated by tax laws less the input taxes allowed to be deducted for the current period	3%.6%. 9%.10%. 13%.16%	
City construction and maintenance tax	Calculate by the actual payment on value-added tax and consumption tax	7%

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

For the year ended December 31, 2023

9. EQUITY IN OTHER ENTITIES (CONTINUED)

9.1 Equity in subsidiaries (Continued)

9.1.1 Structure of the enterprise group (Continued)

Subsidiary	Main business place	Registration place	Business nature	Shareholding ratio (%)	Method of acquisition		Subsidiary
					Direct	Indirect	
Harbin Electric Power Group Biomass Power Generation (Dehui) Co., Ltd	Dehui	Dehui	China	Biomass power generation	100		investment
Harbin Electric Materials Co., Ltd	Harbin	Harbin	China	Business services	100		investment
Harbin Electric Science and Technology Co., Ltd	Harbin	Harbin	China	Science and technology promotion and application services	100		investment

The list of directors of the Company's major subsidiaries is as follows:

Che Dongguang, Dai Bolin, Dou Huiqiang, Du Wenpeng, Gao Weijun, Gao Zhijun, Hong Lianshun, Hua Guangyu, Jia Lijun, Jiang Qinghai, Jin Changfan, Li Chao, Li Chunting, Li Weidong, Lin Kuanhai, Liu Limin, Liu Yuqiang, Liu Zhiqiang, Lu Xuepeng, Lv Zhiqiang, Qiu Xiliang, Qu Aimin, Qu Weimin, Song Xiaofang, Song Zhaoyuan, Sun Zhongmin, Wang Gui, Wang Qianzhuang, Wang Shouge, Wang Wenlong, Wang Xiaohui, Wang Yan, Xie Jingdong, Xu Fuwu, Xu Qing, Xu Ying, Xue Wei, Yao Minghui, Ye Xinyong, Yu Long, Zhang Jie, Zhang Lizhong, Zhang Lianbin, Zhang Xiulin, Zhang Chongyang, Zhou Fanzhen, Zhu Hongguang, etc.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

For the year ended December 31, 2023

9. EQUITY IN OTHER ENTITIES (CONTINUED)

9.1 Equity in subsidiaries (Continued)

9.1.1 Structure of the enterprise group (Continued)

Explanation of the difference between the shareholding ratio in the subsidiary and the voting equity ratio:

1. The shareholding structure of Harbin Power Technology Trading Co., Ltd. is 55.55% directly held by the Company, 27.77% indirectly held by Harbin Electric International Engineering Co., Ltd., a subsidiary of the Company, 5.56% each indirectly held by Harbin Electric Machinery Plant Co., Ltd., Harbin Boiler Plant Co., Ltd. and Harbin Steam Turbine Plant Co., Ltd., and 99.87% held by the Company on a consolidated basis.
2. The shareholding structure of Harbin Electric Power Group (Qinhuangdao) Heavy Equipment Co., Ltd. is 34.15% held by the Company, Harbin Electric Machinery Factory Co., Ltd., Harbin Boiler Plant Co., Ltd. and Harbin Steam Turbine Plant Co., Ltd., which are subsidiaries of the Company, each hold 21.95% of the shares, and the Company holds 99.53% of the shares on a consolidated basis.
3. The shareholding structure of Harbin Power Station Valve Co., Ltd. of Harbin Electric Power Group is 45% of the company's shares and 45% of the voting rights, because the company's directors account for more than half of its board members, forming control over them.
4. The shareholding structure of Harbin Electric Group Finance Co., Ltd. is 55.00% held by the Company, 18.00% held by Harbin Electric International Engineering Co., Ltd., a subsidiary of the Company, 6.00% held by Harbin Electric Machinery Plant Co., Ltd., Harbin Boiler Plant Co., Ltd. and Harbin Steam Turbine Plant Co., Ltd., and 90.87% held by the Company on a consolidated basis.

Basis for holding half or less of the voting rights but still controlling the investee, and holding more than half of the voting rights but not controlling the investee:

5. The shareholding structure of Shenzhen Hadonghuihua Industry and Trade Co., Ltd. is 60% held by the company, which is not included in the scope of consolidation due to liquidation and rectification.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

For the year ended December 31, 2023

10. RISK DISCLOSURE IN RELATION TO FINANCIAL INSTRUMENTS

The Company faces various financial risks in the course of its operations: credit risk, market risk and liquidity risk. The Board of Directors of the Company is fully responsible for the determination of risk management objectives and policies, and assumes ultimate responsibility for risk management objectives and policies. The Company's internal auditors also audit risk management policies and procedures and report findings to the Audit Committee.

The overall objective of the Company's risk management is to establish a risk management policy that minimizes risks without unduly affecting the Company's competitiveness and resilience.

(1) Credit risk

Credit risk refers to the risk that one party to a financial instrument will fail to perform its obligations, resulting in financial losses to the other party. The Company is mainly exposed to customer credit risk caused by credit sales. Before entering into a new contract, the Company will assess the credit risk of the new customer, including external credit ratings and, in some cases, bank references (when this information is available). The Company has set a credit limit for each client, which is the maximum amount that does not require additional approval.

The company ensures that the company's overall credit risk is within a manageable range through quarterly monitoring of existing customer credit ratings and monthly review of accounts receivable aging analysis. When monitoring the credit risk of customers, they are grouped according to their credit characteristics. Clients classified as "High Risk" are placed on the Restricted Customer List and may only be granted credit for future periods subject to additional approval, otherwise they must be required to make the corresponding payment in advance.

(2) Market risk

Market risk of financial instruments refers to the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market prices, including foreign exchange risk, interest rate risk and other price risks.

(3) Interest rate risk

Interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. As of December 31, 2023, 684,597,100 yuan of the Company's external borrowings are floating rate borrowings, with an interest rate range of 2.8%-4.4%, and under the assumption that other variables remain unchanged, reasonable changes in interest rates will not have a significant impact on the Company's total profits and shareholders' equity.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

For the year ended December 31, 2023

10. RISK DISCLOSURE IN RELATION TO FINANCIAL INSTRUMENTS (CONTINUED)

(4) Foreign exchange risk

Foreign exchange risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company's exposure to foreign exchange risks is mainly related to US dollars, euros, Hong Kong dollars and British pounds, etc., except for Harbin Electric International Engineering Co., Ltd., a subsidiary of the Company, which purchases and sells in US dollars, euros, Hong Kong dollars and British pounds, etc., other major business activities of the Company are settled in RMB.

(5) Liquidity risk

Liquidity risk refers to the risk that an enterprise will have a shortage of funds when it fulfills its obligations to settle by means of cash or other financial assets. It is the Company's policy to ensure that it has sufficient cash to pay off its debts as they fall due. Liquidity risk is centrally controlled by the Company's finance department. By monitoring cash balances, marketable securities that are readily realizable, and rolling forecasts of cash flows over the next 12 months, the finance department ensures that the company has sufficient funds to repay its debts under all reasonable forecasts.

The financial assets and financial liabilities held by the company with a maturity period of less than one year are analyzed as follows:

Items	Within 1 year
Financial Assets and Liabilities:	
Monetary funds	18,677,316,557.23
Notes receivable	975,331,805.68
Accounts receivable	7,161,224,594.18
Other receivables	1,333,103,510.85
Buy and sell back financial assets	1,755,000,000.00
Short-term borrowing	3,285,133,158.88
Notes payable	6,146,285,172.11
Accounts payable	16,202,261,315.59
Employee compensation payable	803,131,335.59
Other payables	499,208,747.36
Non-current liabilities due within one year	1,114,672,500.76
Other current liabilities	12,381,749.42

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

For the year ended December 31, 2023

11. DISCLOSURE OF FAIR VALUE

(1) Financial instruments measured at fair value

The Company has presented the carrying amount of financial asset instruments at fair value as at 31 December 2022 at three levels of fair value. When fair value is classified into three levels as a whole, it is based on the lowest of the three levels to which each of the significant inputs used in fair value measurement belongs. The three levels are defined as follows:

Level 1: It is an unadjusted quote in an active market for the same assets or liabilities that can be obtained on the measurement date;

Level 2: is the directly or indirectly observable input of the relevant asset or liability in addition to the input value of the first level;

Level 2 inputs include: 1) quotes for similar assets or liabilities in active markets, 2) quotes for identical or similar assets or liabilities in inactive markets, 3) observable inputs other than quotes, including interest rate and yield curves, implied volatility, and credit spreads that can be observed during normal quote intervals, and 4) market-validated inputs.

Level 3: is the unobservable input value of the underlying asset or liability.

(2) Measurement of fair value at the end of the period

1. Ongoing fair value measurement

Items	Closing fair value			Total
	Level 1	Level 2	Level 3	
Tradable financial assets	603,149,819.44			603,149,819.44
Other debt investments				
Investments in other equity instruments	388,494,875.58		288,518,816.18	677,013,691.76
Other non-current financial assets				
Total assets	991,644,695.02		288,518,816.18	1,280,163,511.20

6	Harbin Boiler Plant Co., Ltd	Harbin Electric Group Shanxi Environmental Protection Engineering Co., Ltd	State-owned holdings	Joint and several liability guarantee	Loan guarantees	No Counter-Warranties	8,834,210.00		Normal operations	No	No

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

For the year ended December 31, 2023

13. EXPLANATION OF CONTINGENCIES (CONTINUED)

(1) Contingent liabilities (Continued)

2. *The contract has been signed but no commitment to purchase and construction assets has occurred*

As of December 31, 2023, the Company still had a total of RMB66,917,459.92 of large contract expenditures for the purchase and construction of assets that have been signed but not incurred, as follows:

<u>Company name</u>	<u>The amount of the contract that has not yet been paid</u>	<u>Estimated investment period</u>
Harbin Electric Co., Ltd. (Headquarters)	16,667,597.23	Year 2024
Harbin Steam Turbine Factory Co., Ltd	50,249,862.69	Year 2024
Total	66,917,459.92	

(2) Contingent assets

As of December 31, 2023, the Company had no material contingent assets that need to be explained.

14. EVENTS AFTER THE BALANCE SHEET DATE

As of the date of approval of the financial report, the Company has no other material balance sheet events that should be disclosed and not disclosed.

NOTES TO THE FINANCIAL STATEMENTS OF 2023 (CONTINUED)

For the year ended December 31, 2023

15. EXPLANATION OF OTHER IMPORTANT MATTERS

Related party relationships and their transaction segment information

1. *Basis for determining the reporting segment and accounting policies*

Based on the internal organizational structure, management requirements and internal reporting system, the Company's main business is divided into three business systems: new power system with new energy as the main body, clean and efficient industrial system, and green and low-carbon drive system, and at the same time, the financial company and other non-main businesses are treated as separate business segments. Each of the Company's reporting segments offers different products or services or operates in different regions. As each segment requires different technology or market strategies, the Company's management manages the operating activities of each reporting segment separately and evaluates the operating results of these reporting segments on a regular basis to determine the allocation of resources to them and evaluate their performance.

The inter-segment transfer price is determined on the basis of the actual transaction price, and the expenses indirectly attributable to each segment are allocated among the segments in proportion to revenue. Assets are allocated according to the operation of the segment and the location of the assets, and segment liabilities include liabilities attributable to the segment arising from the segment's operating activities. If expenses related to liabilities shared by multiple operating segments are allocated to those operating segments, the shared liabilities are also allocated to those operating segments.

Profit for the reporting period	Weighted average Return on equity (%)	Earnings per share	
		Basic earnings per share	Diluted earnings per share
Net income attributable to common shareholders of the Company	4.49	0.313	0.313
Net profit attributable to ordinary shareholders of the Company after deducting non-recurring gains and losses	2.24	0.156	0.156

Harbin Electric Co., Ltd
March 28, 2024

DISCLOSURE OF SIGNIFICANT EVENTS

PRODUCTION AND OPERATION EVENTS

On 16 June 2023, the Company won the bid for the project of 1 set of 500MW impact hydroelectric unit and its auxiliary equipment for Zala Hydropower Station, with the largest single-machine capacity in the world, marking another important breakthrough achieved by the Company in respect of leading the overall level of impact hydropower units in China, enhancing the development capability of hydropower in China, and realising the autonomy of the key core technology of hydropower equipment.

On 26 June 2023, the Company won the bid for the energy storage turbo-expander generator set of the “appreciation of competent person (揭榜掛帥)” liquid compressed air energy storage demonstration project in Golmud, Qinghai, with a construction capacity of 60MW/600MWh, which is the largest capacity liquid compressed air energy storage project in the world.

In July 2023, the “key technology and application of the 400MW 700-metre-class high-stability pumped storage unit (40萬千瓦700米級高穩定性抽水蓄能機組關鍵技術與應用)” participated by the Company passed the appraisal of scientific and technological achievements by China Society for Hydropower Engineering, which marked a new breakthrough in the independent design and manufacturing level of China's pumped storage units, and pushed the key core technology of China's pumped storage field to stand at the forefront of the international arena.

On 6 December 2023, the demonstration project of Huaneng Shidao Bay Nuclear Power Station with high temperature gas-cooled reactors, a major national scientific and technological project co-developed by the Company, was officially put into commercial operation. This is a landmark achievement of the national science and technology major project with completely independent intellectual property rights in China, symbolizing that China has become a leading country in the world in the field of fourth-generation nuclear power technology.

OTHER EVENTS

On 28 December 2022, the Company entered into the Domestic Share Subscription Agreement with Harbin Electric Corporation, the controlling shareholder of the Company, pursuant to which the Company conditionally agreed to issue and Harbin Electric Corporation conditionally agreed to subscribe for new domestic shares in cash at a total subscription price of approximately RMB1.7 billion. The Company has received the share registration certificate dated 10 October 2023 issued by China Securities Depository and Clearing Corporation Limited in respect of the new Domestic Shares issued under the Domestic Shares Subscription on 13 October 2023. The Domestic Share Subscription has been completed. For details, please refer to the Company's announcement dated 13 October 2023.

On 18 July 2023, the Company entered into the Asset Purchase Agreement with Jiamusi Electric, pursuant to which the Company has conditionally agreed to sell, and Jiamusi Electric has conditionally agreed to purchase the 51% equity interest in Power Equipment Company. On 28 November 2023, all the Conditions Precedent of the Disposal under the Asset Purchase Agreement have been satisfied, and Power Equipment Company ceases to be a subsidiary of the Company. For details, please refer to the Company's announcements dated 18 July 2023 and 28 November 2023.
