## Chairman's Statement

Commercial real estate serves as a critical economic barometer, reflecting the pulse and dynamism of urban development. The trajectory of commercial state is crucial, not only to the sector itself, it is crucial to the overall economic landscape. This past year, the commercial property market was impacted by a variety of factors: a global economic slowdown put persistent pressure on rental prices and occupancy rates, while shifts in consumer behavior and digital transformation intensified competition in the market.

For SOHO China, 2023 was a year of significant challenges. The Company's principal business is office leasing, and the Company's income is dependent on the product of rent and occupancy rate.

Facing the unfavourable situation of double decline in rents and occupancy rates, we adjusted our strategy in a timely manner to concentrate our focus on maintaining occupancy rates. We managed to maintain 77.6% occupancy by the year's end. While this may not seem to be such an impressive number, this figure represents the resilience of every member of our team who has faced adversity head on.

Facing the pressure of reduced revenues, the Company endeavored to cut costs. In 2023, we had practically eliminated entertainment expenses to nearly none. By the year's end, we had to make the difficult decision to reduce employees' salaries across the Group. This was a test for all SOHO China's employee, but we are very grateful that everyone chose to unite and work together to overcome the difficulties!

Every person, and every company, has been undergoing a stretch and stress test, and our capacity to withstand external pressure is a significant test for each of us. Thankfully, we have not fractured under the strain, we have remained flexible and resilient, continuing to fulfill our responsibilities and deliver quality service to our customers.

## CHAIRMAN'S STATEMENT

In the past year, we worked hard to explore the market, identify and develop new customers, while wholeheartedly serving our customers, working with them to overcome their difficulties, and ensuring that the hundreds of thousands of people who work in our office buildings are assured safety and efficiency.

In the past year, we actively participated in charity and public welfare activities, and tried our best to reduce carbon emissions and make our contributions to the society. In April 2023, the “Yangzheng Library” we built to donate pro-bono was completed and put into use, becoming one of the first real zero-carbon buildings in China. Moreover, we achieved the highest possible rating of five-stars from Global Real Estate Sustainability Benchmark (GRESB). A civilized society cultivates both material and spiritual wealth; individual progress goes hand in hand with societal advancement. By helping others, we become more compassionate and broaden our perspectives.

As we forward to 2024, despite the many changes and uncertainties we face, we have no reason to be pessimistic. The advent of artificial intelligence (“AI”) heralds a new era for humanity. 2023 has been touted as the inaugural year for AI. We should see that technological progress has always been the most important force driving social progress. Looking back over the past few decades, what has brought about the biggest change is the popularization of the internet. The internet has completely changed people’s lives and ways of working, it has improved production and efficiency, brought about a broad range of business opportunities, and equipped our company with the ability to create platforms for efficient management. Our Company’s name, SOHO, is representative of embracing new ways of working made possible by embracing the internet. We learn from and deeply respect to the scientists and entrepreneurs who have promoted the popularization of the internet.

Another industry that has changed the dramatically is our real estate industry. In just two or three decades, our living conditions, office environment, and urban environment have undergone earth-shattering changes. This is not due to the achievements of the real estate industry alone, but it is the result of the joint efforts of dozens of industries and greater society. It is also the inevitable result of people’s pursuit of a better life. The demand was the root, and the powers of developers, banks, and builders, have enabled us to reap this beautiful fruit.

## CHAIRMAN'S STATEMENT

But looking ahead, the impact of AI and new technologies is poised to build upon and surpass that of the internet and real estate. Like the steam engine during the Industrial Revolution, AI promises a future brimming with hope and potential. We must embrace change and let new technologies empower us and SOHO China.

When we see our hardworking colleagues, with families and children eager to learn, we are reminded that diligence, hard work, wisdom, and purity of spirit are societal development's greatest asset. Market uncertainty can foster pessimism, but what we lack most is not capital. It is not demand, or market, but confidence. Lack of confidence is nearly universally acknowledged. What does it take to build confidence? It needs voice, action, and ideological concepts. As the wise Chinese sages suggest "unity of knowledge and action" is required to establish confidence. Action is more important than words, and thought is the direction and guide of action.

While fire puts gold to the test, money tests the Company and every person. In the coming year, and especially in hard times, we must uphold the integrity that has long defined the Company. It is our long-standing principle that every cent must be used in compliance with the law.

Every employee is a cell within a company's body, and every company is a cell within the larger organism of society. Cells ensure the health of the organism through their functions, through their interaction with other organisms, and ensure the health of the body. Only when every person acts as a tiny cell, performing their duty and uniting together, can the Company operate in a healthy manner, and contribute to the larger organism that is greater society.

## DIRECTORS' REPORT

Notes:

- (1) (L) represents long position in shares or underlying shares.
- (2) Mr. Pan Shiyi had deemed interests in 3,324,100,000 shares held by his spouse, Mrs. Pan Zhang Xin Marita as mentioned in Note (3) below. According to the DI form filed by Mr. Pan Shiyi on 1 January 2018, Mr. Pan Shiyi is now a beneficiary of a discretionary trust (the "Trust") that was founded by his spouse, Mrs. Pan Zhang Xin Marita.
- (3) Each of Boyce Limited and Capevale Limited ("Capevale BVI"), both of which were incorporated in the British Virgin Islands, was interested in 1,662,050,000 shares. Boyce Limited and Capevale BVI are the wholly-owned subsidiaries of Capevale Limited ("Capevale Cayman"), which was incorporated in the Cayman Islands. Cititrust Private Trust (Cayman) Limited (in its capacity as trustee) is the legal owner of 100% of the shares in the issued share capital of Capevale Cayman. Cititrust Private Trust (Cayman) Limited held these shares under the Trust, for the benefit of the beneficiaries of the Trust, including Mrs. Pan Zhang Xin Marita.

### (ii) Interests in the ordinary shares of the Company's associated corporations

Name	Name of associated corporation	Nature of interest	Share capital (USD)	Approximate percentage of shareholding
Pan Shiyi	Beijing Redstone Jianwai Real Estate Development Co., Ltd.	Interest of controlled corporation	1,275,000 (Note)	4.25%
	Beijing SOHO Real Estate Co. Ltd.	Beneficial owner	4,950,000	5.00%
	Beijing Redstone Newtown Real Estate Co., Ltd.	Beneficial owner	500,000	5.00%
	Beijing Shanshi Real Estate Co., Ltd.	Beneficial owner	1,935,000	5.00%

Note: These interests were held by Beijing Redstone Industry Co., Ltd..

Save as disclosed above, to the best knowledge of the Directors, as at 31 December 2023, none of the Directors or chief executives of the Company had or was deemed to have any interests or short positions in the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) which are required pursuant to section 352 of the SFO to be recorded in the register referred to therein, or pursuant to the Model Code, to be notified to the Company and the Stock Exchange.

**INTERESTS AND SHORT POSITIONS OF THE SUBSTANTIAL SHAREHOLDERS IN THE SHARES AND UNDERLYING SHARES OF THE COMPANY**

As at 31 December 2023, the register of substantial shareholders maintained by the Company pursuant to section 336 of the SFO showed that, other than the interests disclosed above in respect of certain Directors or the chief executive of the Company, the following shareholders of the Company had notified the Company of their relevant interests in the issued share capital of the Company:

Name	Nature of interest	Number of ordinary shares	Approximate percentage of shareholding
Cititrust Private Trust (Cayman) Limited <i>(Note 2)</i>	Trustee	3,324,100,000 (L)	63.9309% (L)
Capevale Cayman <i>(Note 2)</i>	Interests of controlled corporation	3,324,100,000 (L)	63.9309% (L)
Boyce Limited <i>(Note 3)</i>	Interests of controlled corporation	1,662,050,000 (L)	31.9654% (L)
Capevale BVI <i>(Note 4)</i>	Interests of controlled corporation	1,662,050,000 (L)	31.9654% (L)

Notes:

- (1) (L) represents long position in shares or underlying shares.
- (2) Cititrust Private Trust (Cayman) Limited (in its capacity as trustee of the Trust) is the legal owner of 100% of the shares in the issued share capital of Capevale Cayman. Capevale Cayman wholly owns Boyce Limited and Capevale BVI, each of which was interested in 1,662,050,000 shares. Accordingly, Cititrust Private Trust (Cayman) Limited is deemed to be interested in the 3,324,100,000 shares held by Boyce Limited and Capevale BVI via its interest in Capevale Cayman under the Trust for the benefit of the beneficiaries, including Mrs. Pan Zhang Xin Marita.
- (3) Boyce Limited, incorporated in the British Virgin Islands, is a wholly-owned subsidiary of Capevale Cayman.
- (4) Capevale BVI, incorporated in the British Virgin Islands, is a wholly-owned subsidiary of Capevale Cayman.

Save as disclosed above, to the best knowledge of the Directors, as at 31 December 2023, there was no other person who had interest or short position in the shares or underlying shares of the Company which were required, pursuant to section 336 of the SFO, to be recorded into the register referred to therein.

In the opinion of the Directors, the Company had been in compliance with the code provisions of the Corporate Governance Code as set out in Appendix C1 to the Listing Rules during the Year.

### **COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS (“MODEL CODE”)**

The Company has adopted the Model Code as set out in Appendix C3 to the Listing Rules as the code of conduct for securities transactions carried out by the Directors. The Company had made specific enquiry to all Directors and all Directors confirmed that they had complied with the required standard as set out in the Model Code throughout the Year.

## CORPORATE GOVERNANCE REPORT

### BOARD OF DIRECTORS

The Board is responsible for the leadership and control of the Company and is collectively responsible for promoting the success of the Company by directing and supervising the Company's affairs. Under the leadership of the Chairman, the Board is also responsible for approving and overseeing the overall strategies and policies of the Company, approving the annual budget and business plans, assessing the Company's performance and supervising the work of the senior management.

The running of the day-to-day businesses of the Company is delegated by the Board to the management who is working under the leadership and supervision of the Board committees except that authority is reserved for the Board to approve interim and annual financial statements, dividend policy, annual budgets, business plan, and significant operational matters.

As at 31 December 2023, the Board comprised seven Directors, including four executive Directors, namely Mr. Pan Shiyi, Mrs. Pan Zhang Xin Marita, Ms. Xu Jin (Chairman and Co-CEO) and Mr. Qian Ting (Co-CEO); and three independent non-executive Directors, namely Mr. Huang Jingsheng, Mr. Xiong Ming Hua and Mr. Zhang Mingeng (details of their biographical information are set out in the section headed "Biographies of Directors and Members of Senior Management" of this annual report).

Regular Board meetings are held at least four times a year (at quarterly intervals) and any ad hoc meeting will be held when necessary. At least fourteen days' notice will be given to all the Directors prior to any regular Board meeting and any relevant materials to be presented to a Board meeting will be provided to Directors at least three days before such Board meeting. The Directors are appointed by shareholders of the Company through ordinary resolutions or appointed by the Board to fill any casual vacancy on the Board or for new addition to the Board. At each annual general meeting, one-third (or, if the number is not a multiple of three, the number nearest to but not less than one-third) of the Directors for the time being shall retire from office by rotation but are eligible for re-election and re-appointment.

Mr. Pan Shiyi, is the husband of Mrs. Pan Zhang Xin Marita who is an executive Director. Save as disclosed above, the Board members have no financial, business, family or other material/relevant relationships with each other.

The Board is established in accordance with the provisions of Rules 3.10 and 3.10A of the Listing Rules. Of the three independent non-executive Directors appointed, at least one or more are equipped with financial expertise and the number of independent non-executive Directors represented at least one-third of the Board.

The Board's composition demonstrates a balance of core competence with regard to the business of the Company, so as to provide effective leadership and the required expertise to the Company.

Liability insurance for Directors and senior management officers was maintained by the Company with coverage for any legal liabilities which may arise in the course of performing their duties.

### CHAIRMAN AND CO-CEO

The Chairman of the Board and the Co-CEO of the Company are currently two separate positions. The chairman of the Board is held by Ms. Xu Jin. The Co-CEOs of the Company are held by Ms. Xu Jin and Mr. Qian Ting. The chairman of the Board is responsible for the management and leadership of the Board to formulate overall strategies and business development directions for the Company, to ensure adequate, complete and reliable information is provided to all Directors in a timely manner, and to ensure that issues raised at the Board meetings are explained appropriately. The Co-CEO of the Company is responsible for the day-to-day management of the business of the Company, implementation of the policies, business objectives and plans set by the Board, and is accountable to the Board for the overall operation of the Company.

### INDEPENDENT NON-EXECUTIVE DIRECTORS

The independent non-executive Directors were appointed for a term of three years, subject to retirement by rotation at the AGM and being eligible, to offer themselves for re-election.

Pursuant to the guidelines provided in Rule 3.13 of the Listing Rules, the Company has received the confirmation of independence from each of the independent non-executive Directors, and thus the Board considers such Directors to be independent persons. The Board believes that the independent non-executive Directors are able to offer independent opinions on the Company's development strategy, risk management and management process, etc. so that the interests of the Company and all shareholders will be taken into consideration and duly safeguarded.

### MECHANISMS FOR ENSURING INDEPENDENT VIEWS AND INPUT

During the Year, the following mechanisms are in place and remain effective in ensuring independent views and input are available to the Board:

- A sufficient number of three independent non-executive Directors (representing more than one-third of the Board) having extensive experience and in-depth knowledge continuing to provide independent views and input to the Board on the business affairs of the Company.
- The Nomination Committee assesses the independence of each independent non-executive Directors on an annual basis and the reappointment of any independent non-executive Director is subject to the approval at the annual general meeting by way of ordinary resolution.
- Policy and procedures are in place to avoid any potential conflict of interests. Any Director who has a material interest in any transaction relating to the Company shall abstain from voting on any Board resolution approving the same matter.
- Each Director is required to ensure that he/she can give sufficient time and attention to the affairs of the Company and contribute to the development of the Company's strategy and policies through independent, constructive and informed comments.
- The Board and its committees are entitled to seek independent professional advice on issues relevant to the Company from external professional consultants and advisors as deemed necessary.

## CORPORATE GOVERNANCE REPORT

## CORPORATE GOVERNANCE REPORT

A complete record of the minutes of the Remuneration Committee meetings is kept by the Company Secretary. The Remuneration Committee had reviewed the Company's remuneration policies, the terms of the service contracts and the performance of all executive Directors and the senior management. In the opinion of the Remuneration Committee, the remuneration payable to all executive Directors and the senior management is in accordance with the terms of the service contracts, such remuneration is fair and reasonable, and does not create any additional burden for the Company.

Remuneration details of each Director for the year of 2023 are set out in the section headed "Directors' Remuneration" of the Directors' Report and Note 30 to the consolidated financial statements.

### **NOMINATION COMMITTEE**

The nomination committee of the Company (the "Nomination Committee") currently comprises one executive Director and two independent non-executive Directors, namely Mr. Pan Shiyi, Mr. Huang Jingsheng and Mr. Xiong Ming Hua. The committee is chaired by Mr. Huang Jingsheng. Details of the authorities and duties of the Nomination Committee are set out in its terms of reference which can be downloaded from the websites of the Company and the Stock Exchange. Its roles are highlighted as follows:

- (1) to review the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and make recommendations to the Board on any proposed changes to the Board to complement the Company's corporate strategy;
- (2) to identify individuals suitably qualified to become members of the Board and select or make recommendations to the Board on the selection of individuals nominated for directorships;
- (3) to assess the independence of the independent non-executive Directors;
- (4) to make recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors in particular the chairman and chief executive of the Company;
- (5) to conform to any requirement, direction and regulation that may from time to time be prescribed by the Board or contained in the constitution of the Company or imposed by the Listing Rules or applicable law;
- (6) to ensure the chairman of the Nomination Committee, or in the absence of the chairman, another member of the Nomination Committee or failing this his duly appointed delegate, to be available to answer questions at the AGM of the Company; and
- (7) to review the Board Diversity Policy at least annually to ensure its continued effectiveness from time to time.

- (b) Accomplishments of the candidate in his/her field.
- (c) Outstanding professional and personal reputation.
- (d) For an independent non-executive Director, the candidate's ability to meet the independence criteria under the Listing Rules.

## CORPORATE GOVERNANCE REPORT

### **BOARD DIVERSITY POLICY**

The Company adopted its board diversity policy (the “Board Diversity Policy”) on 20 August 2013. The Board Diversity Policy sets out the approach to achieve diversity on the Board, details of which are set out below.

#### **Policy Statement**

The Company is committed to equality of opportunity in all aspects of its business and does not discriminate on the grounds of race, gender, disability, nationality, religious or philosophical belief, age, sexual orientation, family status or any other factors.

The Company continuously seeks to enhance the effectiveness of its Board and to maintain the highest standards of corporate governance and recognizes and embraces the benefits of having a diverse Board. The Company believes that a diversity of perspectives can be achieved through taking into account a range of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The Company sees promoting diversity of perspectives at the Board level as an essential element in supporting the achievement of its business and strategic objectives and maintaining its sustainable development.

As at 31 December 2023, the Board has two female Directors out of the total seven Directors and the Board is committed to improve gender diversity as and when suitable candidates are identified.

In striving to maintain gender diversity, similar considerations are used when selecting and recruiting key management and other personnel. As at 31 December 2023, the Group maintained a 28%:72% ratio of female to male in the workplace (including senior management).

#### **Measurable Objectives**

The Nomination Committee has primary responsibility for identifying qualified candidates to become members of the Board and, in carrying out this responsibility, will give adequate consideration to this Board Diversity Policy. Board appointments will continue to be made on the basis of merit and candidates will be considered against objective criteria, with due regard for the benefits of diversity on the Board.

### **ENVIRONMENTAL, SOCIAL AND GOVERNANCE COMMITTEE (the “ESG COMMITTEE”)**

On 16 November 2021, the Company established the ESG Committee. The ESG Committee comprises three members, including two executive Directors, namely Mr. Pan Shiyi and Mrs. Pan Zhang Xin Marita, and one independent non-executive Director, namely Mr. Huang Jingsheng (Chairman).

The ESG Committee is mainly responsible for reporting to the Board matters relating to the Group’s environmental, social and governance (“ESG”) practices, as well as monitoring the formulation and implementation of the Company’s vision, strategies, goals and policies regarding ESG issues.

## CORPORATE GOVERNANCE REPORT

During the Year, one meeting was held by the ESG Committee and below is the attendance of each of the committee members:

Committee Members	Attendance/No. of Meeting
Huang Jingsheng ( <i>Chairman</i> )	1/1
Pan Shiyi	1/1
Pan Zhang Xin Marita	1/1

During the Year, the ESG Committee performed the following major tasks: further enhancing governance structure, exceeding annual carbon reduction targets, continuously improving customer services, promoting responsible supply, emphasizing employee care, and continuously fulfilling corporate social responsibilities, etc.

### DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

All Directors acknowledge their responsibility for preparing the consolidated financial statements of the Group for the year ended 31 December 2023 and of ensuring that the preparation of the consolidated financial statements of the Group is in accordance with the applicable standards and requirements.

### MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

PwC draws attention to Note 2 to the consolidated financial statements which indicates that as at 31 December 2023, the Group's current liabilities exceeded its current assets by RMB7,370 million. At the same date, the Group's total bank and other borrowings amounted to RMB15,885 million (including the current portion of RMB5,178 million). As at 31 December 2023, the Group had unrestricted cash and cash equivalents amounted to RMB769 million. As stated in Note 2, these conditions, along with other matters as set forth in Note 2, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. PwC's opinion is not modified in respect of this matter.

### RISK MANAGEMENT AND INTERNAL CONTROL

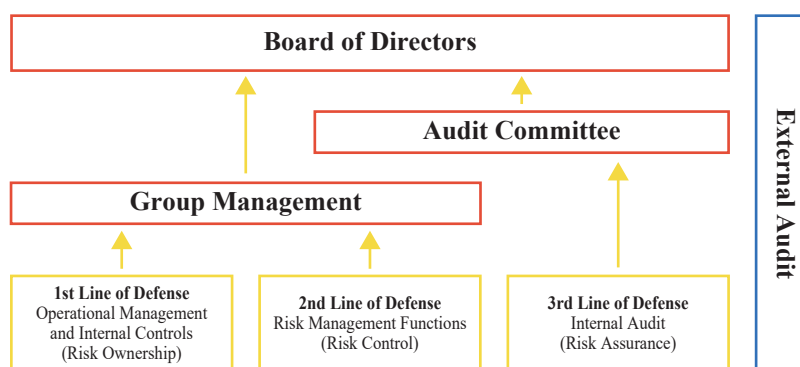

The Board acknowledges its responsibility for overseeing the risk management and internal control systems of the Group and reviewing their effectiveness at least annually through the Audit Committee. The Audit Committee assists the Board in fulfilling its oversight and corporate governance roles in the Group's financial, operational, compliance, risk management and internal controls, and the resourcing of the finance and internal audit functions.

The Group has established an organizational structure with defined levels of responsibility and reporting procedures. The Risk Management and Compliance department and the Group Internal Audit assist the Board and/or the Audit Committee in the review of the effectiveness of the Group's risk management and internal control systems on an ongoing basis. The Directors through the Audit Committee are kept regularly appraised of significant risks that may impact on the Group's performance.

## CORPORATE GOVERNANCE REPORT

Appropriate policies and controls have been designed and established to ensure that assets are safeguarded against improper use or disposal, relevant rules and regulations are adhered to and complied with, reliable financial and accounting records are maintained in accordance with the relevant accounting standards and regulatory reporting requirements, and key risks that may impact on the Group's performance are appropriately identified and managed. Nevertheless, the risk management and internal control systems can only provide reasonable and not absolute assurance against material misstatement or loss, as they are designed to manage, rather than to eliminate the risk of failure to achieve business objectives.

The Group's risk management framework is guided by the "Three Lines of Defense" model as shown below:

The Risk Management and Compliance department, which co-ordinates enterprise risk management activities and reviews significant aspects of risk management for the Group, reports to the Audit Committee at each regularly scheduled meeting including, amongst other things, significant risks of the Group and the appropriate mitigation and/or transfer of identified risks. The operating units of the Group, as risk owners, identify, evaluate, mitigate and monitor their own risks, and report such risk management activities to the Risk Management and Compliance department on a half-yearly basis.

The Group Internal Audit reports to the Audit Committee at each regularly scheduled meeting throughout the year the results of their activities during the preceding period pertaining to the adequacy and effectiveness of internal controls, including but not limited to, any indications of failings or material weaknesses in those controls.

The Group Internal Audit adopts a risk-and-control-based audit approach. The annual work plan of the Group Internal Audit covers major activities and processes of the Group's operations, businesses and service units. Special reviews are also performed at the management's request. The results of these audit activities are communicated to the Audit Committee. Audit issues are tracked, followed up for proper implementation, and their progresses are reported to the Audit Committee periodically.

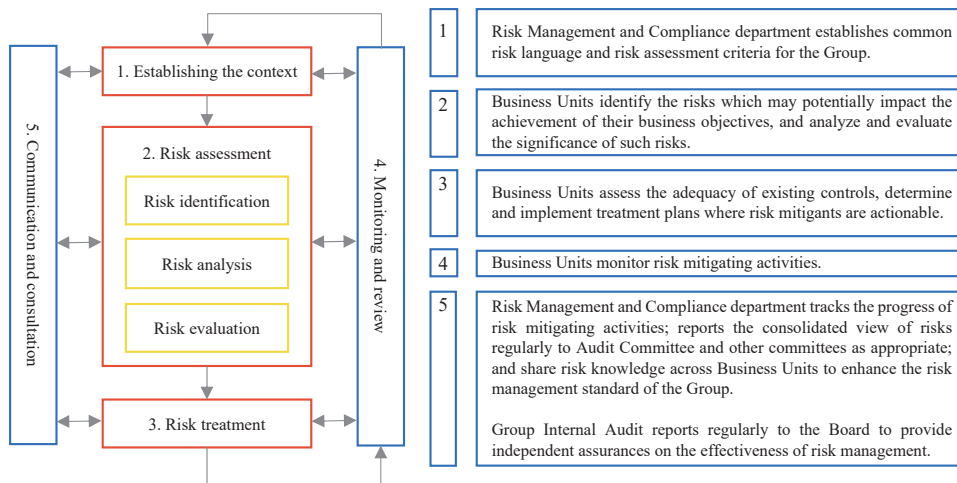

## CORPORATE GOVERNANCE REPORT

The Group Internal Audit provides independent assurance to the Board, the Audit Committee and the executive management of the Group on the adequacy and effectiveness of risk management and internal control systems for the Group. The Head of Group Internal Audit reports directly to the chairman of the Audit Committee, the chief executive officer and the chief financial officer of the Group.

The senior management of the Group, supported by the Risk Management and Compliance department and the Group Internal Audit, is responsible for the design, implementation and monitoring of the Group's risk management and internal control systems, and for providing regular reports to the Board and/or the Audit Committee on the effectiveness of these systems.

The Group adopts the principles of ISO 31000:2009 Risk Management – Principles and Guidelines as its approach to manage its business and operational risks. The following diagram illustrates the key processes used to identify, evaluate and manage the Group's significant risks:

The Group has adopted policies and procedures for assessing and, where prudent, improving the effectiveness of its risk management and internal control systems, including requiring the executive management of the Group to regularly assess and at least annually to personally certify that such matters are appropriate and functioning effectively in the belief that this will enhance the corporate governance of the Group and its business practices in the future.

## CORPORATE GOVERNANCE REPORT

The Group has embedded its risk management and internal control systems into the core operating practices of the business. On an ongoing basis, the respective operating units of the Company will review and assess the status of potential risks which may impact on their ability to achieve their business objectives and/or those of the Company. This review process includes assessment as to whether the existing risk management and internal control systems continue to remain relevant, adequately address potential risks, and/or should be supplemented. The results of these reviews are recorded in the operating units' risk registers for monitoring and incorporated into the Group's consolidated risk register for analysis of potential strategic implications and for regular reporting to the senior management and Directors of the Company.

The Audit Committee has established and oversees a whistleblower policy and a set of comprehensive procedures whereby employees, customers, suppliers and other concerned parties can report any actual or suspected occurrence of improper conduct involving the Company, and for such matters to be investigated and dealt with efficiently in an appropriate and transparent manner. The Chairman of the Audit Committee has designated the Head of Group Internal Audit to receive on his behalf any such reports, to oversee the conduct of subsequent investigations, and to provide information (including recommendations) arising from any investigations to them for consideration by the Audit Committee.

The Group regulates the handling and dissemination of inside information as set out in the Corporate Responsibility Policy and various subsidiary procedures to ensure inside information remains confidential until the disclosure of such information is appropriately approved, and the dissemination of such information is efficiently and consistently made.

During the Year, the Risk Management and Compliance department has worked closely with the operating units, senior management and the Directors to enhance the Group's risk management and internal control systems. Such activities included, amongst other matters, increasing the number of training sessions and risk workshops; further standardization of risk reporting language, classification, and quantification; more closely aligning the assessment of internal controls with their potential risks; and increasing the depth and frequency of interaction with the designated Directors on the Group's risk management and internal control systems' design, operation, and findings. The Risk Management and Compliance department has presented update reports to the Board and the Audit Committee on the monitoring of the risk management and assisted the Directors in the review of the effectiveness of the risk management and internal control systems of the Group during the Year.

## CORPORATE GOVERNANCE REPORT

During the Year, the Group Internal Audit conducted selective reviews of the effectiveness of the risk management and internal control systems of the Group over financial, operational and compliance controls with emphasis on information technology and security, data privacy and protection, business continuity management and procurement. Additionally, the heads of major business and corporate functions of the Group were required to undertake control and self-assessments of their key controls. These results were assessed by the Group Internal Audit and reported to the Audit Committee, which then reviewed and reported the same to the Board. The Audit Committee and the Board were not aware of any areas of concern that would have a material impact on the financial position or results or operations of the Group and considered the risk management and internal control systems to be generally effective and adequate including the adequacy of resources, staff qualifications and experience, training programs and budget of the accounting, internal audit and financial reporting functions.

In addition to the review of the risk management and internal control systems undertaken within the Group, the external auditors also assessed the adequacy and effectiveness of certain key risk management and internal controls as part of their statutory audits. Where appropriate, the external auditors' recommendations are adopted and enhancements to the risk management and internal controls will be made.

### AUDITORS' REMUNERATION

For the year ended 31 December 2023, remunerations paid and payable by the Group to its auditors for the provision of statutory audit services and non-auditing services amounted to RMB3.35 million including audit service fee of RMB2.0 million and non-audit service fee of RMB1.35 million. The non-auditing services mainly represented review of interim financial information.

### EFFECTIVE COMMUNICATION WITH THE INVESTMENT COMMUNITY

The Company attaches great importance to effective and close communications with investors. The investor relations team of the Company seeks to provide the most efficient and effective channel for our shareholders, holders of convertible bonds and the investment community to gain information about the Company. In addition to the regular interim and annual results announcements and reports and daily communications through emails and phone calls, the investor relations team also participates in global investment conferences.

### COMPANY SECRETARY

The Company engaged Ms. Ng Sau Mei, a director and head of the Listing Services Department of TMF Hong Kong Limited, as its Company Secretary during the Year. Her primary corporate contact person is Mr. Zhu Enlei. In compliance with Rule 3.29 of the Listing Rules, Ms. Ng, has undertaken no less than 15 hours of relevant professional training during the Year.

## CORPORATE GOVERNANCE REPORT

### SHAREHOLDERS' RIGHTS

#### Convening of extraordinary general meeting and putting forward proposals

Under the Articles of Association, any one or more shareholders holding at the date of deposit of the requisition not less than one-tenth (1/10) of the paid up capital of the Company which carries the right of voting at general meeting can require an extraordinary general meeting (an "EGM") to be called by the Board for the transaction of any business specified in such requisition. The procedures for shareholders to convene and put forward proposals at an EGM are stated as follows:

- (1) The requisitionist(s) should sign a written request stating the objects of the meeting to be convened, and deposit the same at the principal place of business of the Company in Hong Kong situated at 31/F, Tower Two, Times Square, 1 Matheson Street, Causeway Bay, Hong Kong for the attention of the Company Secretary.
- (2) Where, within 21 days from the date of deposit of the requisition, the Directors do not proceed to convene an EGM, the requisitionist(s) himself (themselves) may convene the general meeting in the same manner, as that in which meetings may be convened by the Board, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

#### Enquiries to the Board

Shareholders of the Company who intend to put forward their enquiries about the Company to the Board may email their enquiries to [ir@sohochina.com](mailto:ir@sohochina.com).

#### Amendments to the Company's memorandum and Articles of Association

The Company's second amended and restated Articles of Association was adopted on 24 May 2023 and took effect immediately. The said amended and restated Articles of Association is available on the Company's website and the Stock Exchange's website. Apart from that, there was no significant change in the Company's constitutional documents during the Year.

### TRAINING FOR DIRECTORS

The Company provides a comprehensive, formal and tailored induction to each newly appointed Director on his or her first appointment in order to enable him or her to have an understanding of the business and operations of the Company and be fully aware of his or her responsibilities and obligations under the Listing Rules and relevant regulatory requirements.

During the Year, all the Directors, namely Mr. Pan Shiyi, Mrs. Pan Zhang Xin Marita, Ms. Xu Jin, Mr. Qian Ting, Mr. Huang Jingsheng, Mr. Sun Qiang Chang, Mr. Xiong Ming Hua and Mr. Zhang Mingeng, were provided with regular updates on the Group's business, operations, and financial matters, as well as regulatory updates on applicable legal and regulatory requirements. In addition, all Directors also participated in other courses relating to the roles, functions and duties of a listed company director or further enhancements of their professional development by way of attending training courses or via on-line aids or reading relevant materials.

# Independent Auditor's Report

## To the Shareholders of SOHO China Limited

*(incorporated in the Cayman Islands with limited liability)*

### Opinion

#### What we have audited

The consolidated financial statements of SOHO China Limited (the “Company”) and its subsidiaries (the “Group”), which are set out on pages 55 to 132, comprise:

- the consolidated statement of financial position as at 31 December 2023;
- the consolidated income statement for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

#### Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

#### Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## INDEPENDENT AUDITOR'S REPORT

### Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

### Material Uncertainty Related to Going Concern

We draw attention to Note 2 to the consolidated financial statements which indicates that as at 31 December 2023, the Group's current liabilities exceeded its current assets by RMB7,370 million. At the same date, the Group's total bank and other borrowings amounted to RMB15,885 million (including the current portion of RMB5,178 million). As at 31 December 2023, the Group had unrestricted cash and cash equivalents amounted to RMB769 million. As stated in Note 2, these conditions, along with other matters as set forth in Note 2, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matter described below to be the key audit matter to be communicated in our report.

## INDEPENDENT AUDITOR'S REPORT

The key audit matter identified in our audit is related to the valuation of investment properties.

Key Audit Matter	How our audit addressed the Key Audit Matter
<p><b>Valuation of investment properties</b></p>	
<p>Refer to Notes 4 and 12 to the consolidated financial statements.</p>	<p>We performed the following procedures to address the key audit matter:</p>
<p>The Group's investment properties were measured at fair value and carried at approximately RMB63,421 million as at 31 December 2023 with a revaluation loss of RMB191 million for the year then ended. The fair value of investment properties was determined by the Group based on the valuations performed by an independent professional valuer (the "Valuer") engaged by the Group.</p>	<ul style="list-style-type: none"> <li>• We obtained an understanding of the management's internal controls and assessment process for determining the fair value of investment properties, and assessed the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as complexity, subjectivity, changes and susceptibility to management bias.</li> </ul>
<p>The Group's investment properties as at 31 December 2023 are all completed investment properties in Mainland China.</p>	<ul style="list-style-type: none"> <li>• We assessed the competence, capabilities and objectivity of the Valuer.</li> </ul>
<p>The valuation of investment properties was derived from the result of market approach and discounted cash flow method. For market approach, the relevant key assumptions was estimated price per square meter, with reference to recent transactions of comparable properties and adjusted for differences in key attributes such as but not limited to location and property size. For discounted cash flow method, the relevant key assumption included discount rates and rental per square meter.</p>	<ul style="list-style-type: none"> <li>• We obtained and read the valuation reports for all investment properties and held discussion with the Valuer to understand the valuation approach or method and key assumptions as adopted in the valuation.</li> </ul>
<p>We focus on this area due to the significant quantum of investment properties to the consolidated financial statements, and also the estimation of fair value of investment properties is subject to certain extent of estimation uncertainty, complexity and subjectivity. The inherent risk in relation to the valuation of investment properties is considered significant due to the significant judgments and estimates involved in applying relevant key assumptions in determining the fair value.</p>	<ul style="list-style-type: none"> <li>• We checked the property specific information such as location, building age, occupancy status and rental value used by the Valuer against the related operation records as maintained by the Group.</li> <li>• We involved our internal valuation experts to assist us on assessing, on a sample basis, the methodologies used by the Valuer and the reasonableness of relevant key assumptions used in valuation including discount rates, rental per square meter and estimated price per square meter of investment properties.</li> </ul>
	<p>In light of the above, we found the significant judgments and estimates made by management on relevant key assumptions were in the acceptable range.</p>

## INDEPENDENT AUDITOR'S REPORT

### Other Information

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## INDEPENDENT AUDITOR'S REPORT

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## INDEPENDENT AUDITOR'S REPORT

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Chong Heng Hon.

# Notes to the Consolidated Financial Statements

## 1 General information

SOHO China Limited (the “Company”) and its subsidiaries (together, the “Group”) are principally engaged in the provision of property leasing and related services, and real estate development in the People’s Republic of China (the “PRC” or “China”).

The Company is a limited liability company incorporated in the Cayman Islands. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands.

The Company has had its primary listing on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) since 8 October 2007.

The consolidated financial statements are presented in Renminbi (“RMB”), unless otherwise stated. The consolidated financial statements were approved for issue by the board (the “Board”) of directors (the “Director(s)”) on 28 March 2024.

## 2 Summary of accounting policies

The accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### 2.1 Summary of material accounting policies

(a) Basis of preparation

(i) *Compliance with Hong Kong Financial Reporting Standards (“HKFRSs”) and Hong Kong Companies Ordinance*

The consolidated financial statements of the Group have been prepared in accordance with HKFRSs as issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance Cap. 622.

HKFRSs comprise the following authoritative literature:

- Hong Kong Financial Reporting Standards
- Hong Kong Accounting Standards
- Interpretations developed by the Hong Kong Institute of Certified Public Accountants.

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

##### (a) Basis of preparation (continued)

##### (i) *Compliance with Hong Kong Financial Reporting Standards (“HKFRSs”) and Hong Kong Companies Ordinance (continued)*

As at 31 December 2023, the Group's current liabilities exceeded its current assets by RMB7,370,268,000. During the year ended 31 December 2023, the Group has entered into supplemental agreements with the major existing lenders to revise the repayment instalment amounts for borrowings with total principal amounts of RMB7,201,564,000, including the bank borrowing with principal amount of RMB59,682,000 which the Group was unable to repay in December 2022. As at 31 December 2023, the Group's total bank and other borrowings amounted to RMB15,884,968,000 (including the current portion of RMB5,177,875,000 as disclosed in Note 22). These borrowings were collateralized by the Group's investment properties recorded at a total carrying amount of RMB53,943,488,000. As at 31 December 2023, the Group had unrestricted cash and cash equivalents amounted to RMB769,461,000.

Beijing Wangjing SOHO Real Estate Co., Ltd. (“Beijing Wangjing”), a subsidiary of the Company, received a notice from a local tax authority in August 2022 demanding payment by 1 September 2022 of RMB1,733,334,000 for land appreciation tax (“LAT”) relating to Towers 1 and 2 of the Wangjing SOHO project developed by Beijing Wangjing. Surcharges would be imposed at 0.05 percent per day on the outstanding LAT should payment not be made by the due date. As at 31 December 2023, RMB126,600,000 of the LAT demanded had been paid and the remaining balance of the LAT, together with surcharges totalling RMB2,043,215,000, were outstanding.

The late payment of LAT triggered cross-defaults of certain bank borrowings of the Group amounting to RMB4,203,000,000 as at 31 December 2023 (the “Cross-Defaulted Borrowings”). The Cross-Defaulted Borrowings with a total principal amount of RMB4,203,000,000 and interest of RMB14,179,000, including those with original contractual repayment dates beyond 31 December 2024, were reclassified as current liabilities as at 31 December 2023 as they are due upon demand if requested by the respective lenders.

Furthermore, in accordance with the Law on the Administration of Tax Collection, the local tax authority might impose other enforcement measures, including but not limited to detention, seizure and sale of the related properties as well as imposing penalties, which would be charged between 50% and 5 times of the outstanding LAT, due to the late payment of LAT.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

(a) Basis of preparation (continued)

(i) *Compliance with Hong Kong Financial Reporting Standards (“HKFRSs”) and Hong Kong Companies Ordinance (continued)*

The above conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern. In view of such circumstances, management of the Company has given careful consideration to the future liquidity and performance of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern. Certain plans and measures have been or will be taken by management to mitigate the Group’s liquidity pressure and to improve its cashflows which include, but are not limited to, the following:

- (a) the Group has been in continuous communications with the local tax authority on the outstanding LAT and surcharges and agreed with them a detailed settlement plan. The Group continued to dispose of certain of its commercial properties to settle a portion of the unpaid LAT. With the support and coordination of relevant government bodies and tax authorities, from 1 September 2022 to the date of approval of the consolidated financial statements, the Group has completed the sale of certain commercial properties, and settled LAT amounting to RMB126,600,000 by 31 December 2023 as mentioned above with a further payment of RMB12,000,000 post 31 December 2023 to the date of approval of the consolidated financial statements.

The Group will continue to communicate with the local tax authority and take measures to dispose of further commercial properties in order to settle the outstanding LAT to mitigate any further potential negative impact due to late payment;

- (b) the Group has been in active discussion and will continue its negotiation with certain of its lenders, including those of the Cross-Defaulted bank borrowings, to revise the repayment instalment amounts of the Group’s existing borrowings. The Group will continue to communicate with the lenders of the Cross-Defaulted Borrowings not to take any actions against the Group that will require immediate payment of the principals and interest of these borrowings. Based on latest communications with the lenders of the Cross-Defaulted bank borrowings, there is no indication that these lenders have any current intention to take action against the Group to demand immediate payment; and
- (c) the Group will continue to take proactive measures to improve operating cash flow by controlling administrative costs and containing capital expenditure.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

##### (a) Basis of preparation (continued)

##### (i) *Compliance with Hong Kong Financial Reporting Standards (“HKFRSs”) and Hong Kong Companies Ordinance (continued)*

The Directors have reviewed the Group’s cash flow projections prepared by management (the “Cash Flow Projections”), which cover a period of not less than twelve months from 31 December 2023. The Directors are of the opinion that, considering the above-mentioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due within twelve months from 31 December 2023. Accordingly, the Directors are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Notwithstanding the above, material uncertainties exist as to whether management will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the following:

- (a) whether the local tax authority will demand immediate payment of the outstanding LAT and related surcharges before the Group is able to secure sufficient funding to do so; as well as it will take any further actions against the Group including detention, seizure and sale of the Group’s properties or imposing penalties;
- (b) whether the lenders of the bank and other borrowings, including those of the Cross-Defaulted bank borrowings, will call for repayment ahead of the stipulated repayment dates as a result of any developments of the LAT or other matters; and
- (c) the Group’s ability to generate operating cash flows to meet the Group’s ongoing funding needs as well as successfully controlling administrative costs and capital expenditure.

Should the Group be unable to achieve the above-mentioned plans and measures, it might not be able to continue to operate as a going concern, adjustments would have to be made to write down the carrying value of the Group’s assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in these consolidated financial statements.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

(a) Basis of preparation (continued)

(ii) *Historical cost convention*

The consolidated financial statements have been prepared on a historical cost basis except that the following assets are measured at their fair value as explained in the accounting policies set out below:

- Investment properties (see Note 2.1(e)),
- Office premises (see Note 2.1(d)),
- Structured bank deposits measured at fair value through profit or loss (see Note 2.1(g)), and
- Investment in other financial assets (see Note 2.1(g)).

(iii) *Amended standards adopted by the Group*

The Group has applied the following amended standards for its annual reporting period commencing 1 January 2023:

- HKFRS 17 Insurance Contracts;
- Disclosure of Accounting Policies – Amendments to Hong Kong Accounting Standard (“HKAS”) 1 and HKFRS Practice Statement 2;
- International Tax Reform – Pillar Two Model Rules – amendments to HKAS 12 ;
- Definition of Accounting Estimates – Amendments to HKAS 8; and
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to HKAS 12.

The amendments listed above did not have any impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

(a) Basis of preparation (continued)

(iv) *New and amended standards and interpretations not yet adopted by the Group*

Certain amendments to accounting standards and interpretation have been published that are not mandatory for 31 December 2023 reporting periods and have not been early adopted by the Group. These amendments are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

(b) Principles of consolidation and equity accounting

(i) *Subsidiaries*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

Inter-company transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of financial position respectively.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

(b) Principles of consolidation and equity accounting (continued)

(ii) *Changes in ownership interests*

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized in a separate reserve within equity attributable to owners of the Company.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs.

(c) Foreign currency translation

(i) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The functional currency of the Company is Hong Kong Dollars ("HKD"). The consolidated financial statements are presented in RMB, rounded to the nearest thousand, which is the functional currency of the subsidiaries carrying out the principal activities of the Group.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

(c) Foreign currency translation (continued)

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was determined.

The results of foreign operations are translated into RMB at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items are translated into RMB at the closing foreign exchange rates at the statement of financial position date. The resulting exchange differences are recognized in other comprehensive income and accumulated separately in equity in the exchange reserve.

On disposal of a foreign operation involving loss of control, the cumulative amount of the exchange differences relating to that foreign operation attributable to the owners of the Company are reclassified to profit or loss.

(d) Property and equipment

Office premises are stated at their revalued amount, being their fair value at the date of the revaluation less any subsequent accumulated depreciation.

Revaluations are performed every three years to ensure that the carrying amount of these assets does not differ materially from that which would be determined using fair value at the statement of financial position date.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

##### (d) Property and equipment (continued)

Changes arising on the revaluation of office premises are generally dealt with in other comprehensive income and are accumulated separately in equity in the other reserves. The only exceptions are as follows:

- when a deficit arises on revaluation, it will be charged to profit or loss to the extent that it exceeds the amount held in the reserve in respect of that same asset immediately prior to the revaluation; and
- when a surplus arises on revaluation, it will be credited to profit or loss to the extent that a deficit on revaluation in respect of that same asset had previously been charged to profit or loss.

All other property and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property and equipment.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

##### (d) Property and equipment (continued)

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as follows:

- Office premises	40 years
- Buildings and improvements	10-40 years
- Office equipments	5 years
- Motor vehicles	8 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.1(f)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss. When revalued assets are sold, it is the Group's policy to transfer any amounts included in other reserves in respect of those assets to retained earnings.

##### (e) Investment properties

Investment properties are buildings which are held for long-term rental yields or for capital appreciation or both, and that are not occupied by the Group. Investment property is initially measured at cost, including related transaction costs and where applicable borrowing costs.

After initial recognition, investment property is carried at fair value, assessed at least once every six months by an independent professional valuer. Fair value is based on active market prices, adjusted, if necessary, for any differences in the nature, location or condition of the specific asset. If such information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. Investment property that is being redeveloped for continuing use as investment property, or for which the market has become less active, continues to be measured at fair value.

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

(e) Investment properties (continued)

The fair value of investment property reflects, among other things, rental income from current leases and assumptions about rental income from future leases in light of current market condition.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in the consolidated income statement during the financial period in which they are incurred.

An entity shall transfer a property to, or from, investment property when, and only when, there is a change in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. In isolation, a change in management's intentions for the use of a property does not provide sufficient evidence of a change in use. Examples of evidence of a change in use include:

- (i) Inception of an operating lease to another party, for a transfer from completed properties held for sale to investment property;
- (ii) Commencement of development with a view to sale, for a transfer from investment property to completed properties held for sale;
- (iii) Commencement of owner-occupation, or of development with a view to owner-occupation, for a transfer from investment property to owner-occupied property; and
- (iv) End of owner-occupation, for a transfer from owner-occupied property to investment property.

When an entity decides to dispose of an investment property without development, it continues to treat the property as an investment property until it is derecognized (eliminated from the consolidated statement of financial position) and does not reclassify it as completed properties held for sale. Similarly, if an entity begins to redevelop an existing investment property for continued future use as investment property, the property remains an investment property and is not reclassified as owner-occupied property during the redevelopment.

If an investment property becomes owner-occupied, it is reclassified as property and equipment, and its fair value at the date of reclassification becomes its cost for accounting purposes.

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

##### (e) Investment properties (continued)

If an owner-occupied property becomes an investment property that will be carried at fair value:

- (i) Any resulting decrease in the carrying amount of the property is recognized in profit or loss. However, to the extent that an amount is included in revaluation surplus for that property, the decrease is recognized in other comprehensive income and reduces the revaluation surplus within equity.
- (ii) Any resulting increase in the carrying amount is treated as follows:
  - To the extent that the increase reverses a previous impairment loss for that property, the increase is recognized in profit or loss. The amount recognized in profit or loss does not exceed the amount needed to restore the carrying amount to the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognized.
  - Any remaining part of the increase is recognized in other comprehensive income and increases the revaluation surplus within equity. On the transfer of owner-occupied property to investment property, the revaluation surplus included in equity may be transferred to retained earnings. The transfer from revaluation surplus to retained earnings is not made through profit or loss.

##### (f) Impairment of non-financial assets

Intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(g) Investments and other financial assets

(i) *Classification*

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income (“OCI”), or through profit or loss), and
- those to be measured at amortized cost.

The classification depends on the entity’s business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (“FVOCI”).

The Group reclassifies financial assets when and only when its business model for managing those assets changes.

(ii) *Recognition and derecognition*

Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

##### (g) Investments and other financial assets (continued)

###### (iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ("FVPL"), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

###### Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains/(losses), together with foreign exchange gains and losses, impairment expenses are presented in other operating expenses.
- **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented in other operating expenses. As at 31 December 2023, no such debt instruments existed within the Group.
- **FVPL:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognized in profit or loss and presented net within other gains/(losses) in the period in which it arises.

#### 2.1 Summary of material accounting policies (continued)

(g) Investments and other financial assets (continued)

(iii) *Measurement (continued)*

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognized in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognized in other gains/ (losses) in the income statement as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iv) *Impairment*

The Group assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9 Financial Instruments ("HKFRS 9"), which requires expected lifetime losses to be recognized from initial recognition of the receivables, see Note 3.1 for further details.

(h) Completed properties held for sale

Completed properties held for sale in respect of property development activities are carried at the lower of cost and net realizable value.

In the case of completed properties developed by the Group, cost is determined by apportionment of the total development costs for that development project, attributable to the unsold properties. Net realizable value represents the estimated selling price less costs to be incurred in selling the property.

The cost of completed properties held for sale comprises all costs of purchase, costs of conversion and other costs incurred in bringing the properties to their present location and condition.

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

(i) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(j) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(k) Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

*Current income tax*

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

(k) Current and deferred income tax (continued)

*Deferred income tax*

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

The deferred tax liability in relation to investment property that is measured at fair value is determined assuming the property will be recovered entirely through sale.

Deferred tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax liabilities and assets are not recognized for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in OCI or directly in equity. In this case, the tax is also recognized in OCI or directly in equity, respectively.

#### 2.1 Summary of material accounting policies (continued)

(l) Employee benefits

(i) *Short-term obligations*

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of other benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) *Retirement benefits*

The Group only operates defined contribution pension plans. In accordance with the rules and regulations in the PRC, the PRC based employees of the Group participate in various defined contribution retirement benefit plans organized by the relevant municipal and provincial governments in the PRC under which the Group and the PRC based employees are required to make monthly contributions to these plans calculated as a percentage of the employees' salaries.

The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired PRC based employees' payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post-retirement benefits of its employees. The assets of these plans are held separately from those of the Group in independently administrated funds managed by the PRC government.

(m) Revenue recognition

Revenue is measured in an amount that reflects the consideration to which the Group expects to be entitled in exchange for transfer of properties or services in the ordinary course of the Group's activities. Revenue is shown, net of discounts and after eliminating sales with the Group companies.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.1 Summary of material accounting policies (continued)

##### (m) Revenue recognition (continued)

###### (i) *Sale of properties*

Revenues are recognized when or as the control of the asset is transferred to the customer. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may transfer over time or at a point in time. Control of the asset is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer; or
- creates and enhances an asset that the customer controls as the Group performs; or
- do not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognized over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognized at a point in time when the customer obtains control of the asset.

For property development and sales contracts for which the control of the property is transferred at a point in time, revenue is recognized when the customer obtains the physical possession or the legal title of the completed property and the Group has present right to payment and the collection of the consideration is probable.

In determining the transaction price, the Group adjusts the promised amount of consideration for the effect of a financing component if it is significant.

###### (ii) *Rendering of services*

Income from the provision of services including property management service and hotel operations is recognized in the accounting period in which the services are rendered.

(n) Leases

Determined rental income receivable under operating leases is recognized in profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognized in profit or loss as an integral part of the aggregate net lease payments receivable. Variable rental income is recognized as income in the accounting period in which they are earned.

#### 2.2 Summary of other accounting policies

(a) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors that makes strategic decisions.

(b) Intangible assets

*Computer software*

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized over their estimated useful lives, which do not exceed 10 years. Costs associated with maintaining computer software programmes are recognized as an expense as incurred.

(c) Trade receivables

Trade receivables are amounts due from customers for properties sold or services performed in the ordinary course of business. They are generally due for settlement within the normal operating cycle of the business and therefore all classified as current assets.

Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method. See Note 3.1 for further information about the Group's accounting for trade receivables and a description of the Group's impairment policies.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.2 Summary of other accounting policies (continued)

(d) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. They are initially recognized at fair value. Except for financial guarantees liabilities measured in accordance with Note 2.2(g), trade and other payables are subsequently stated at amortized cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(e) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(f) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2 Summary of accounting policies (continued)

#### 2.2 Summary of other accounting policies (continued)

(g) Financial guarantees contracts

Financial guarantees contracts are recognized as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of:

- the amount determined in accordance with the expected credit loss model under HKFRS 9, and
- the amount initially recognized less, where appropriate, the cumulative amount of income recognized in accordance with the principles of HKFRS 15 Revenue from Contracts with Customers.

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Where guarantees in relation to loans or other payables of subsidiaries are provided for no compensation, the fair values are accounted for as contributions and recognized as part of the cost of the investment in the financial statements of the Company.

(h) Dividend income

Dividend income from investments is recognized when the right to receive payment is established.

(i) Interest income

Interest income from financial assets at FVPL is included in the net fair value gains/ (losses) on these assets. Interest income on financial assets at amortized cost and financial assets at FVOCI calculated using the effective interest method is recognized in profit or loss as part of other income, unless it is earned from financial assets that are held for cash management purposes, which is presented as finance income.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

#### 2.2 Summary of other accounting policies (continued)

(j) Government grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to the purchase of property and equipment are included in non-current liabilities as deferred income and they are credited to profit or loss on a straight-line basis over the expected lives of the related assets.

(k) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(l) Earnings per share

(i) *Basic earnings per share*

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares, and
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(ii) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 3 Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance. Risk management is carried out by the senior management of the Group and approved by the executive directors.

#### 3.1 Financial risk factor

(a) Market risk

(i) *Foreign exchange risk*

All the revenue-generating operations of the Group are transacted in RMB. The Group is exposed to foreign exchange risk arising from recognized assets and liabilities which are not denominated in the relevant Group entity's functional currency. Depreciation or appreciation of RMB against HKD can affect the Group's results. Under the Linked Exchange Rate System in Hong Kong, HKD is pegged to USD, management considers that there is no significant foreign exchange risk with respect to USD. The Group currently does not have a foreign currency hedging policy. However, management of the Group monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arises.

Conversion of RMB into foreign currency is subject to the rules and regulations of the foreign exchange control, as promulgated by the PRC government.

The amounts denominated in the currency other than the functional currency of the individual entities to which they relate were as follows:

	As at 31 December 2023 RMB'000	As at 31 December 2022 RMB'000
- Cash and cash equivalents	21,831	47,713

As at 31 December 2023, if RMB had weakened/strengthened by 5% (2022: 5%) with all other variable held constant, pre-tax profit for the year of the Group would have been RMB1,092,000 higher/lower (2022: RMB2,386,000 higher/lower).

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 3 Financial risk management (continued)

#### 3.1 Financial risk factor (continued)

##### (a) Market risk (continued)

##### (ii) Cash flow and fair value interest rate risk

The Group's interest rate risk arises from long-term borrowings mainly including bank and other borrowings, which are disclosed in Note 22. Borrowings obtained at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and bank deposits held at variable rates. Borrowings obtained at fixed rates expose the Group to fair value interest rate risk.

As at 31 December 2023, if interest rates have increased/decreased by 100 basis points (2022: 100 basis points) with all other variables held constant, the Group's pre-tax profit would decrease/increase by approximately RMB102,165,000 (2022: decrease/increase by approximately RMB104,175,000).

	2023 RMB'000	% of total loans	2022 RMB'000	% of total loans
Variable rate borrowings	10,246,278	65%	10,434,191	64%
Fixed rate borrowings				
- repricing or maturity dates:				
Less than 1 year	307,382	2%	3,473,908	21%
1-3 years	5,331,308	33%	2,276,883	15%
	<b>15,884,968</b>	<b>100%</b>	<b>16,184,982</b>	<b>100%</b>

##### (b) Credit risk

The Group's credit risk is primarily attributable to cash and cash equivalent, restricted bank deposits, trade and other receivables and financial guarantees. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. The carrying amounts of cash and cash equivalent, restricted bank deposits, trade and other receivables and financial guarantees represent the Group's maximum exposure to credit risk in relation to its financial assets.

Credit evaluations are performed on all customers requiring credit over a certain amount. The Group would not deliver properties to tenants before it receives the rental deposits and would not release the property ownership certificates to the buyers before the buyers finally settle the selling consideration.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 3 Financial risk management (continued)

#### 3.1 Financial risk factor (continued)

##### (b) Credit risk (continued)

The Group has the following types of financial assets that are mainly subject to the expected credit loss model:

- trade receivables
- other receivables
- financial guarantees

The recoverability of trade and other receivables is assessed taking into account of the financial position of the counterparties, past experiences, current conditions and forecasts of future economic conditions. As at 31 December 2023, the management does not expect any significant losses after taking into consideration of expected credit loss.

While cash and cash equivalent and restricted bank deposits are also subject to the impairment requirements of HKFRS 9, the Group expects that there is no significant credit risk since they are substantially deposited with state-owned banks and other medium or large size listed banks. Management does not expect that there will be any significant losses from non-performance by these counterparties.

##### (i) Trade receivables

Trade receivables are lease receivables. For trade receivables, the Group applies the simplified approach to provide for expected credit losses prescribed by HKFRS 9, which requires the use of the lifetime expected loss provision for all trade receivables.

For trade receivables that do not share same risk characteristics with others, management assesses their expected credit losses on an individual basis. Remaining trade receivables have been grouped based on shared credit risk characteristics and the days past due to measure the expected credit losses. The expected credit loss also incorporates forward looking information.

#### 3.1 Financial risk factor (continued)

##### (b) Credit risk (continued)

##### (ii) Other receivables (continued)

The Group uses three categories for other receivables which reflect their credit risk and how the loss provision is determined for each of those categories. A summary of the assumptions underpinning the Group's expected credit loss model is as follows:

Category	Group definition of category	Basis for recognition of expected credit loss provision
Stage one	Receivables for which there is no significant increase in credit risk since initial recognition (including customers have a low risk of default and a strong capacity to meet contractual cash flows)	12 months expected losses. Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime
Stage two	Receivables for which there is a significant increase in credit risk since initial recognition	Lifetime expected losses
Stage three	Receivables for which there is credit impaired	Lifetime expected losses

The loss allowances for other receivables recognized during the year ended 31 December 2023 is as follows:

	2023 RMB'000
<b>Opening loss allowance at 1 January</b>	<b>109,453</b>
Increase in loss allowance during the year	917
<b>Closing loss allowance at 31 December</b>	<b>110,370</b>

Other receivables are written off when there is no reasonable expectation of recovery. The Group made no written off for other receivables during the year (2022: nil).

##### *(iii) Financial guarantees*

The Group has entered into agreements with certain banks with respect to mortgage loans provided to buyers of property units. The Group has given guarantees on mortgage loans provided to the buyers by these banks. For most mortgages, the guarantees will be released when the property title deeds are pledged to banks as security for the respective mortgage loans, which generally take place within one year after the property units are delivered to the buyers. If a buyer defaults on the payment of its mortgage loan during the guarantee period, the bank holding the guarantee may demand the Group to repay the outstanding principal of the loan and any interest accrued thereon. Under such circumstances, the Group is able to forfeit the buyer's deposit and resell the property to recover any amounts paid by the Group to the bank. In this regard, the Directors consider that the Group's credit risk associated with these financial guarantees are immaterial. The total amount of mortgages outstanding which are guaranteed by the Company's subsidiaries was RMB7,724,000 as at 31 December 2023 (2022: RMB11,018,000).

##### (c) Liquidity risk

Cash flow forecast is performed in the operating entities of the Group and aggregated by the Group finance team. The Group finance team monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs and the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecast process takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal statement of financial position ratio targets.

As described in Note 2.1(a), certain plans and measures have been or will be taken by management to mitigate the Group's liquidity pressure and to improve its cashflows which include, but are not limited to negotiate with certain financial institutions, including the existing major lenders, for options of restructuring of the Group's existing borrowings, continue its ongoing efforts to convince the lenders of the Cross-Defaulted Borrowings not to take any actions against the Group for immediate payment of the principals and interest of these borrowings, communicate with the local tax authority and take measures to dispose of its commercial properties to settle the outstanding LAT to mitigate any further potential negative impacts due to the late payment of LAT, and take proactive measures to improve operating cash flow by controlling administrative costs and containing capital expenditure.

#### 3.2 Capital management

Consistent with industry practice, the Group monitors its capital structure on the basis of the ratio of the total of bank and interest bearing borrowings to the total assets. The bank and interest bearing borrowings include bank and other borrowings of RMB15,884,968,000 (2022: RMB16,184,982,000) as disclosed in Note 22. As at 31 December 2023, the ratio was 23.15% (2022: 23.51%).

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

#### 3.3 Fair value estimation

##### (a) Fair value hierarchy

Other than investment properties, office premises included in property and equipment and financial assets at FVPL, the Group has no other assets that carried at fair value as at 31 December 2023 and 2022.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate is a market related rate for a similar instrument at the statement of financial position date. Where other pricing models are used, inputs are based on market related data at the statement of financial position date.

The table below analyzes financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- (i) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- (ii) Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- (iii) Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

### 3 Financial risk management (continued)

#### 3.3 Fair value estimation (continued)

(b) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments;
- discounted cash flow model and unobservable inputs mainly including assumptions of expected future cash flows and discount rate; and
- equity allocation model and price/booking multiple method with observable and unobservable inputs, including risk-free rate, expected volatility, discount rate for lack of marketability and etc..

There were no changes in valuation techniques during the year.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 3 Financial risk management (continued)

#### 3.3 Fair value estimation (continued)

(c) Fair value measurements using significant unobservable inputs (Level 3) (continued)

- (i) See Note 12(a) for more detailed disclosure of valuation process, valuation techniques and significant inputs of investment properties.
- (ii) Office premises were valued using the same valuation process, valuation techniques and significant inputs as those used for valuation of investment properties.
- (iii) The fair value of investment in other financial assets are based on the reported net asset value (“NAV”) in their financial statements. Management has obtained the most recent audited financial statements that are available from investees and considered various factors when assessing whether the reported NAV represents the fair value of the investment. These factors include the accounting policies adopted by the investees, the restrictions and barriers preventing the Group from disposing the investment, the Group’s ownership percentage over the investee and other relevant factors. Fair value will be adjusted when such factors suggest the reported NAV does not represent its fair value. In 2023, no reported NAV is adjusted. The Directors believed that the fair value resulting from the reported NAV, which is recorded in the consolidated statement of financial position, and the related change in fair value, which is recorded in consolidated income statement, are reasonable, and that it is the most appropriate value at the end of the reporting period.

(d) Group’s valuation processes

The finance department of the Group includes a team that performs the valuations of financial assets required for financial reporting purposes, including level 3 fair values. This team reports directly to the chief financial officer (the “CFO”) and the Audit Committee (the “AC”). Discussions of valuation processes and results are held among the CFO, the AC and the valuation team at least once every six months.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 4 Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### (a) Valuation of investment properties

As described in Note 2.1(e), investment properties are stated at fair value based on the valuation performed by an independent professional valuer. Details of the valuation approaches and key assumptions for investment properties are set out in Note 12(a). Where the expectation is different from the original estimate, such difference will impact the carrying value of investment properties and fair value changes on investment properties in the period in which such estimate has been changed.

#### (b) PRC corporate income taxes and deferred taxation

The Group is primarily subject to various taxes in the PRC, as it is principally engaged in the provision of property leasing and related services and real estate development in the PRC. Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

Deferred tax assets relating to certain temporary differences and tax losses are recognized when management considers probable that future taxable profit will be available against which the temporary differences or tax losses can be utilized. The outcome of their actual utilization may be different.

During the year ended 31 December 2023, the recognition and write back of deferred tax assets were based on the estimates on the utilization of the future taxable profit for temporary differences or tax losses.

#### (c) Impairment of trade and other receivables

The loss allowances for trade and other receivables are based on assumptions about risk of default and expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history existing market conditions as well as forward-looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in the tables in Note 3.

### 5 Segment information

The management of the Group has determined the operating segments based on the information reviewed by the chief operating decision-maker (“CODM”). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors of the Company.

The CODM reviews the operating results of the Group’s real estate development and property leasing businesses as an integrate part, and allocates resources on the same basis. As such, the Group has only one operating segment.

The major operating entities of the Group are domiciled in the PRC, all of the Group’s revenue were derived in the PRC during the year. As at 31 December 2023 and 2022, all of the Group’s non-current assets, other than financial instruments and deferred income tax assets, were located in the PRC.

The Group is principally engaged in real estate development, the provision of property leasing and related services in the PRC. Revenue represents revenue from rental income and sale of property units and is analyzed as follows:

	Note	2023 RMB'000	2022 RMB'000
Rental income		1,671,863	1,744,538
Sale of property units	(a)	6,683	30,552

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 16 Deferred income tax (continued)

Deferred tax assets are recognized for tax loss carry-forwards to the extent that the realization of the related benefit through the future profits is probable. These tax losses are going to expire within five years. The Group did not recognize deferred tax assets in certain subsidiaries of RMB193,974,000 (2022: RMB304,766,750) in respect of losses amounting to RMB775,896,000 (2022: RMB1,219,067,000) that can be carried forward against future taxable income. As at 31 December 2023, RMB238,948,000, RMB112,920,000, RMB341,500,000, RMB50,776,000 and RMB31,752,000, of these tax losses will expire in 2024, 2025, 2026, 2027 and 2028 respectively.

As at 31 December 2023, temporary differences relating to the undistributed profits of subsidiaries in the PRC amounted to RMB38,728,361,000 (2022: RMB38,232,526,000). Deferred tax liabilities of RMB3,872,836,100 (2022: RMB3,823,252,600) have not been recognized in respect of the tax that would be payable on the distribution of these retained profits as the Company controls the dividend policy of these subsidiaries and it has been determined that it is probable that profits will not be distributed in the foreseeable future.
