Dear Shareholders,

On behalf of the Board, I present the annual results of the Group for the year ended 31 December 2023.

Review of Annual Results for 2023

In 2023, the real estate market in the PRC experienced a series of policy regulation and market selfadjustment, and the overall real estate market showed strong resilience and a new development trend. Overall, the relationship between supply and demand in the market gradually became balanced, and the demand for investment housing was suppressed, while the demand for owner-occupied housing was steadily released. In 2023, government departments at all levels implemented a series of regulatory policies for the real estate market on purchase restriction, loan restriction, land supply, etc, to frequently optimize the property market policy and introduced various regulatory mechanisms to stabilize market expectations and prevent market risks. These policies had a great impact on the investment atmosphere and consumer psychology in the real estate market, resulting in return to rationality and gradual decrease in industry bubbles in the market. Under the dual effects of policy regulation and market mechanism, the growth rate of housing prices in the market slowed down significantly, especially in firsttier cities. Meanwhile, the growth rate of housing prices in second-tier and third-tier cities was relatively stable, and even showed a slight decline in certain cities. However, due to the change of consumers' willingness to buy housings, the lack of consumer confidence, and the reduction of consumption expectations, the total sales and sales area greatly reduced, and the sales market was in slow recovery.

In terms of the land market, the government intensified the regulation over land supply, the land supply structure was more reasonable, and the land premium rate gradually decreased. The land acquisition strategy of real estate enterprises also tended to be cautious and paid more attention to the efficiency of land use and project profitability. In respect of finance, with the strengthening of financial supervision and the standardized development of the real estate market, real estate financial risks were effectively controlled. The impact of the credit policy on the real estate market gradually emerged, the growth rate of real estate loans slowed down, and the pressure of operating funds over many real estate enterprises was gradually eased under the influence of the credit policy.

In 2023, the real estate industry made significant progress in technological innovation, business model, service upgrading, etc. Intelligent, green and personalized development became the new trend of industry development. Real estate enterprises increased investment in research and development, to promote product innovation and service upgrading so as to adapt to changes in market demand.

The Company was also affected by the overall real estate industry and market environment, and thus the sales performance for 2023 fell short of the set target. The sales market of the Company was mainly concentrated in the third-tier and fourth-tier cities, with less inventory backlog and new construction area throughout the year and a significant decrease in sales, while the risks were under control. Under the unremitting efforts of the Board and management of the Company, the Company adjusted its business strategy in a timely manner to grade and screen the Company's businesses. While proceeding with integration of business and sale of non-key projects to reduce the operating pressure and proactively resolve the emerging risks, the Company also proactively sought for excellent partners for common development, so as to ensure the stable operation of the Group.

During the Reporting Period, the Group's contracted sales amounted to approximately RMB499.1 million, representing a decrease of approximately 21.3% as compared with the same period last year; the Group's total contracted GFA amounted to approximately 63,923 sq.m., representing a decrease of approximately 21.2% as compared with the same period last year.

During the Reporting Period, the Group recorded a revenue of approximately RMB300.4 million, representing a decrease of approximately 74.9% as compared with the same period last year, among which, revenue from property development was approximately RMB298.2 million, representing a decrease of approximately 74.9% as compared with the same period last year. Net loss attributable to equity owners of the Company was approximately RMB151.8 million, representing a decrease of approximately 1,553.8% as compared with net profit attributable to equity owners of the Company for the same period last year, which was mainly attributable to the decrease in sales and provision for impairment of real estate projects.

As at the end of the Reporting Period, the Group's land bank was approximately 2,701,551 sq.m.

Final Dividend

The Board has resolved not to declare a final dividend for the year ended 31 December 2023.

Prospect for 2024

In 2024, with the continuous deepening of policy regulation, the real estate policy will continue to maintain the principle of steadiness and neutrality, with the goal of building a new model of real estate development. More precise policies and measures for optimization of the property market will be introduced to strengthen supervision over the real estate market to promote the stable and healthy development of the real estate market. The real estate supply and demand structure will become more balanced, with the focus on promoting affordable housing, public infrastructures "as normal public facilities in at ordinary times and as emergency facilities in emergencies", and urban village renovation projects and other projects, and the rigid demand of housing and consumer demand of housing for home upgrades will increase. At the same time, on the basis of risk prevention and control, financial institutions will provide a reasonable financing environment for real estate enterprises, to accelerate the industry integration, and the competition in the real estate industry will be more focused on the strength of real estate enterprises to meet the needs of market changes. In addition, with the deepening of technological innovation and industry changes, the real estate market will usher in a broader space for development.

With the improvement of the macro environment, it is expected that the real estate market will gradually recover. However, due to the strong wait-and-see sentiment in the market, lack of consumer confidence and reduced purchasing power, the market recovery process will be slow in the short term. At the same time, the market of housing for home upgrades will usher in a window period. With the saturation of the rigid demand market and the government's support for the release of reasonable demand for housing for home upgrades, it is expected that the demand for housing for home upgrades will see a breakthrough development in the future. According to the current situation of the real estate market in the PRC and the forecast of future development, in 2024, following the direction of industry adjustment, the Company will grasp the changes in market cycle and focus on destocking and shift to the market of housing for home upgrades. The Company will adjust its development strategy and seize market opportunities, to achieve steady development.

In 2024, in accordance with the local regulatory policies issued by the cities where the Company's projects are located, the Company will proactively make corresponding adjustments to its business strategy, adjust its marketing strategy in a timely manner, and seek market breakthroughs to accelerate sales collection, to improve the Company's operating status from the sales side. Besides, the Company will continue to integrate existing operating businesses, revitalize existing assets, and dispose of idle projects, to increase the Company's high-quality assets and reduce operating risks. The Company will understand policy changes in a timely manner, effectively leverage on financial credit policies, and search for financial support and partners through multiple channels, to prevent and resolve risks of the Company.

The company will pay more attention to the application of technological innovation, and proactively introduce new technologies, new materials and new processes to improve the quality of buildings. It will focus on intelligence and personalization, and introduce smart home, smart property and other products to improve customer living experience. With the enhancement of environmental awareness, green buildings will become the development trend. The Company will exert efforts on the development of green buildings, in-depth research on energy-saving, environment friendly building materials and processes, to meet consumer demand for green buildings and be more in line with the market and industry development requirements, in order to improve the market competitiveness of the Company's products.

The Company will continue to focus on the development of high-end housing for home upgrades, seize the opportunities in the market of housing for home upgrades and aim at meeting the consumer demands for housing for home upgrades, provision of high-end residential properties for home upgrades with higher quality and better services, to expand the market share of high-end housing for home upgrades. Meanwhile, the Company will explore diversified business development models through industry integration and corporate business integration, and proactively follow the development trend of the industry, to strengthen brand building and improve service quality and comprehensively enhance the industry competitiveness of the Company.

ACKNOWLEDGMENT

Finally, I on behalf of the Board, would like to express my sincerest gratitude to the management and all employees of the Company for their hard work. Meanwhile, I would also like to thank the investors, customers and partners for their unfailing support and trust in the Group.

Bai Xuankui Chairman

Jinzhong, Shanxi, the PRC 27 March 2024

FINANCIAL REVIEW

Revenue

During the Reporting Period, the Group's revenue amounted to approximately RMB300.4 million, representing a decrease of approximately 74.9% as compared with approximately RMB1,195.9 million in the same period last year. The decrease was mainly due to the decrease in total GFA of completed properties delivered during the Reporting Period.

During the Reporting Period, the Group's revenue from property development amounted to approximately RMB298.2 million, representing a decrease of approximately 74.9% as compared with the same period last year. The decrease was mainly due to the decrease in total GFA of completed properties delivered during the Reporting Period.

Sales and Services Cost

The Group's sales and services cost decreased by approximately 59.0% from approximately RMB836.1 million for the year ended 31 December 2022 to approximately RMB342.5 million for the Reporting Period, the decrease of which was mainly due to a corresponding decrease in cost of sales and services with the decrease in revenue and an increase in provision for impairment of real estate projects during the Reporting Period.

Gross Loss

During the Reporting Period, the Group's gross loss was approximately RMB42.1 million, representing a decrease of approximately 111.7% as compared with gross profit of approximately RMB359.8 million in the same period last year. During the Reporting Period, the Group's gross loss margin was approximately 14.0%, representing an decrease of 44.1 percentage points as compared with the gross profit margin of approximately 30.1% in the same period last year.

During the Reporting Period, the Group's gross loss from property development was approximately RMB44.3 million, representing a decrease of approximately 112.4% as compared with the gross profit from property development of approximately RMB358.2 million in the same period last year, which was mainly due to the substantial decrease in revenue during the Reporting Period.

During the Reporting Period, the Group's gross loss margin of property development was approximately 14.9%, representing an decrease of approximately 45.1 percentage points as compared with the gross profit margin of property development of approximately 30.2% in the same period last year.

Other Income and Gains

During the Reporting Period, the Group's other income and gains were approximately RMB17.8 million, representing an increase of approximately 39.0% as compared with approximately RMB12.8 million in the same period last year, which was mainly due to compensation from a vendor during the Reporting Period.

Net Loss Attributable to Owners of the Parent of the Company

During the Reporting Period, the net loss attributable to owners of the Parent of the Company was approximately RMB151.8 million, representing a decrease of approximately 1,553.8% from the net profit attributable to owners of the Parent of the Company of approximately RMB10.4 million in the same period last year. The decrease in the abovementioned net loss attributable to owners of the Company was mainly due to the decrease in sales revenue and the provision for impairment of real estate projects.

Change in Fair Value of Investment Properties

The fair value of the Group's investment properties decreased by approximately 14.9% from approximately RMB121.0 million for the year ended 31 December 2022 to approximately RMB103.0 million for the year ended 31 December 2023, and the decrease was primarily due to the decrease of fair value of Grand International Mall & Apartments, East Lake Mall and Office Building of West Yingbin Street.

Selling and Distribution Expenses

The Group's selling and distribution expenses decreased by approximately 72.4% from approximately RMB56.7 million for the year ended 31 December 2022 to approximately RMB15.6 million for the Reporting Period, and the decrease was primarily due to the decrease in revenue from property development during the Reporting Period resulting in a decrease in selling and distribution expenses incurred during the Reporting Period.

Administrative Expenses

The Group's administrative expenses decreased by approximately 6.5% from approximately RMB52.1 million for the year ended 31 December 2022 to approximately RMB48.7 million for the Reporting Period, and the decrease was primarily due to the decrease in depreciation and office expenses.

Finance Costs

The Group's financing expenses increased by approximately 28.7% from approximately RMB59.1 million for the year ended 31 December 2022 to approximately RMB76.0 million for the Reporting Period, and the increase was primarily due to the increase in interests on borrowings from related parties during the Reporting Period.

Income Tax Credit

The Group's income tax credit for the Reporting Period amounted to approximately RMB38.3 million, while the income tax expenses for the year ended 31 December 2022 amounted to approximately RMB59.7 million, representing a decrease of approximately 164.2%. The decrease in income tax expense was primarily due to a decrease in profit before tax for the Reporting Period, and the substantial decrease in deferred income tax as a result of the increase in advance housing payment from Longtian Project in Jinzhong and return of final settlement of the land value-added tax of Sichuan Chenxing Company to the current enterprise income tax during the Reporting Period.

Total Loss and Comprehensive Income for the Reporting Period

As a result of the foregoing, the Group's total loss and comprehensive income for the Reporting Period decreased by approximately 371.2% from the profit of approximately RMB48.9 million for the year ended 31 December 2022 to the loss of approximately RMB132.7 million for the Reporting Period.

Cash and cash equivalents

As at the end of the Reporting Period, the Group's cash and cash equivalents were approximately RMB203.7 million, representing a decrease of approximately 39.2% as compared to approximately RMB334.8 million as at 31 December 2022, and the decrease was primarily due to repayment of certain bank borrowings by the Company.

Net Operating Cash Flow

The Group recorded a positive operating cash flow of approximately RMB156.8 million as at the end of the Reporting Period, while the positive operating cash flow was approximately RMB22.0 million as at 31 December 2022.

Borrowings

The Group had outstanding bank and other borrowings and borrowings from related parties of approximately RMB2,857.8 million and RMB216.3 million, respectively, as at the end of the Reporting Period while the Group had outstanding bank and other borrowings and borrowings from related parties of approximately RMB3,192.1 million and RMB257.6 million as at 31 December 2022.

Pledged Assets

Certain of the Group's borrowings were secured by properties under development, completed properties held for sale and property, plant and equipment, or combinations of the above. As at the end of the Reporting Period, the assets pledged to secure certain borrowings granted to the Group amounted to approximately RMB2,260.2 million.

Financial Guarantees and Contingent Liabilities

In line with the market practice, the Group has entered into agreements of arrangements with various banks for the provision of mortgage financing to its customers. The Group does not conduct any independent credit checks on customers, but relies on the credit checks conducted by mortgagee banks. As with other PRC property developers, the banks usually require the Group to guarantee its customers' obligations to repay the mortgage loans on the properties. The guarantee period normally lasts until the bank receives the strata-title building ownership certificate (分戶產權證) from the customer as security of the mortgage loan granted. As at the end of the Reporting Period, the Group's outstanding guarantees in respect of the mortgages of its customers amounted to approximately RMB1,353.8 million.

During the Reporting Period, the Group had no material contingent liabilities.

Gearing Ratio

As at the end of the Reporting Period, based on the Group's total debt of approximately RMB2,857.8 million and total equity of approximately RMB1,630.2 million, the gearing ratio of the Group was approximately 175% (31 December 2022: approximately 181%). Gearing ratio is calculated by dividing total debt over total equity, and total debt includes interest-bearing bank and other borrowings. The decrease in gearing ratio was mainly due to a decrease in borrowings.

Foreign Currency Risk

The Group operates primarily in the PRC and most of its revenues and expenses are settled in RMB. The Group is exposed to foreign currency risks because its bank balances are denominated in HK dollar and the value of which will fluctuate with exchange rate fluctuations. The exchange rate between RMB and HK dollar may fluctuate as a result of various factors, such as changes in China's political and economic conditions. The Board expects that the fluctuation of the RMB exchange rate will not have a material adverse effect on the Group. The Group does not have a hedging policy in relation to the foreign currency risk.

Material Acquisitions or Disposal of Subsidiaries or Associates

On 29 December 2023, Chenxing Real Estate Development Co., Ltd. ("Chenxing Real Estate"), an indirect wholly-owned subsidiary of the Company, and Jinzhong Development Zone Development and Construction Group Co., Ltd. ("Jinzhong Development and Construction") entered into an equity transfer agreement. Pursuant to the terms and conditions of the equity transfer agreement, Chenxing Real Estate has conditionally agreed to sell, and Jinzhong Development and Construction has conditionally agreed to purchase, the equity interest in Jinzhong Development Zone Real Estate Development Co., Ltd. ("Jinzhong **Development**"), which in turn owns and controls approximately 67% of the equity interest in Jinzhong Xiya Real Estate Development Co., Ltd. ("Jinzhong Xiya") (the "Disposal"), at a total consideration of RMB100,600,000 (equivalent to approximately HK\$110,549,451). Upon completion of the Disposal, Jinzhong Development and Jinzhong Xiya will cease to be subsidiaries of the Company and their financial results will no longer be consolidated into the financial statements of the Group. The expected net proceeds (after deducting the relevant expenses incidental to the Disposal) of approximately RMB23.5 million (equivalent to approximately HK\$25.8 million) to be received by the Company from the Disposal will be used for repayment of bank loans and replenishment of general working capital of the Group. For details of the Disposal, please refer to the announcements of the Company dated 29 December 2023, 22 January 2024, 31 January 2024, 29 February 2024 and 1 March 2024.

White Dynasty Global Holdings Limited ("White Dynasty BVI") being the controlling Shareholder directly holding 346,944,000 Shares (representing approximately 57.82% of the total number of issued Shares as at the date of the Disposal), has given its written approval for the equity transfer agreement and the Disposal. To the best knowledge, information and belief of the Directors, as at the date of the Disposal, after having made all reasonable enquiries, no Shareholders or any of their respective associates have any material interest in the equity transfer agreement and the Disposal. As such, no Shareholder is required to abstain from voting on the resolution approving the equity transfer agreement and the Disposal if the Company is to convene a general meeting. Accordingly, such written approval is accepted in lieu of holding a general meeting pursuant to Rule 14.44 of the Listing Rules.

Save as disclosed herein, the Group did not have any material acquisition or disposal of subsidiaries or associates during the Reporting Period.

Material Investments Held

Save as disclosed herein, the Group did not hold any material investments during the Reporting Period.

Other Significant Events during the Reporting Period

On 24 May 2023, the shareholders of the Company approved the proposed amendments to the existing memorandum and articles of association of the Company and the adoption of the amended and restated memorandum and articles of association in substitution for, and to the exclusion of, the existing memorandum and articles of association of the Company by way of special resolution at the annual general meeting of the Company. For details of the amendments to the memorandum and articles of association, please refer to the announcements of the Company dated 24 March 2023 and 24 May 2023, and the circular dated 28 April 2023.

Second amended and restated memorandum of association and articles of association of the Company has become effective on 24 May 2023 and has been published on the websites of the Stock Exchange and the Company.

Significant Events after the Reporting Period

On 8 January 2024, the Company and Sichuan Changxing Industrial (Group) Company Limited ("Sichuan Changxing") entered into an equity transfer agreement. Pursuant to the terms of the equity transfer agreement, the Company has conditionally agreed to purchase and Sichuan Changxing has conditionally agreed to sell the 16.1074% equity interest in Sichuan Chenxing Real Estate Development Co., Limited ("Sichuan Chenxing") (the "Acquisition") at the consideration of RMB45,000,000. Upon completion of the Acquisition, the Company will hold the entire equity interest in Sichuan Chenxing and Sichuan Chenxing will become an indirect wholly-owned subsidiary of the Company.

On 8 January 2024, Sichuan Changxing and Sichuan Chenxing made capital injection of RMB136,000,000 and RMB154,000,000 into the registered capital of Mianyang Chenxing Yazhi Real Estate Development Co., Limited ("**Mianyang Chenxing**"), respectively (the "**Capital Injection**"). Pursuant to the equity transfer agreement and capital injection agreement, part of the capital injection made by Sichuan Changxing shall be set off by the consideration for the acquisition of RMB45,000,000. Upon completion of the Capital Injection, Sichuan Changxing and Sichuan Chenxing will hold 40% and 60% equity interest in Mianyang Chenxing, respectively, and Mianyang Chenxing will remain a subsidiary of the Company.

For details of the Acquisition and Capital Injection, please refer to the announcements of the Company dated 8 January 2024, 29 January 2024, 31 January 2024, 7 February 2024, 29 February 2024 and 1 March 2024.

White Dynasty BVI, being the controlling Shareholder directly holding 346,944,000 Shares (representing approximately 57.82% of the total number of issued Shares as at the date of the Acquisition and Capital Injection), has given its written approval for the Acquisition and Capital Injection. To the best knowledge, information and belief of the Directors, as at the date of the Acquisition and Capital Injection, after having made all reasonable enquiries, no Shareholders or any of their respective associates have any material interest in the Acquisition and Capital Injection. As such, no Shareholder is required to abstain from voting on the resolution approving the Acquisition and Capital Injection if the Company is to convene a general meeting. Accordingly, such written approval is accepted in lieu of holding a general meeting pursuant to Rule 14.44 of the Listing Rules.

Future Plans for Material Investments or Capital Assets

The Company will continue to invest in property development projects and acquire suitable land parcels in selected cities as appropriate. Internal resources and bank borrowings are expected to be sufficient to meet the necessary funding needs. Save as disclosed in the prospectus and above, the Group has no future plans of material investment as at the date of this annual report.

Employees and Remuneration Policies

As at the end of the Reporting Period, the Group had 207 employees. During the Reporting Period, the Group had incurred the employee costs of approximately RMB27.9 million. Employee compensations generally include salaries and quarterly performance bonuses. As required by applicable PRC laws and regulations, the Group participates in various employee benefit plans of the municipal and provincial governments, including housing provident funds, pension, medical, maternity, occupational injury and unemployment benefit plans.

The Company has adopted a share option scheme (the "**Share Option Scheme**") on 12 June 2015. During the Reporting Period, the Company has not granted any share options under the Share Option Scheme.

A summary of the key terms of the Share Option Scheme is set out below. The terms of the Share Option Scheme have complied with the requirements of Chapter 17 of the Listing Rules.

(a) Purpose

The Share Option Scheme is a share incentive scheme and is established to recognize and acknowledge the contributions Eligible Participants (as defined in paragraph (b) below) had or may have made to the Group. The Share Option Scheme will provide Eligible Participants an opportunity to have a personal stake in the Company with the view to achieving the following objectives: (i) motivate Eligible Participants to optimize their performance efficiency for the benefit of the Group; and (ii) attract and retain or otherwise maintain on-going business relationship with Eligible Participants whose contributions are or will be beneficial to the long-term growth of the Group.

(b) Eligible Participants

The Board may, at its discretion and subject to such conditions as it thinks fit, offer to grant share options to the following persons (collectively, the "**Eligible Participants**"):

- (i) any full-time or part-time employees, executives or officers of the Company or any of its subsidiaries;
- (ii) any Directors (including executive, non-executive Directors and independent non-executive Directors) of the Company or any of its subsidiaries;
- (iii) any advisers (professional or otherwise), consultants, suppliers, customers and agents to the Company or any of its subsidiaries; and
- (iv) related entities who, in the sole opinion of the Board, will contribute or have contributed to the Company or any of its subsidiaries.
- (c) Total number of shares that may be issued

The maximum number of shares that may be issued pursuant to the Share Option Scheme is 50,000,000 shares, equivalent to 10% of the issued shares of the Company after completion of the global offering and 8.33% of the issued shares of the Company as at the date of this annual report.

(d) Maximum number of options granted to any individual

The maximum number of shares issued and which may fall to be issued upon exercise of the options granted under the Share Option Scheme and any other share option schemes of the Company (including exercised, cancelled and outstanding options) to each Eligible Participant in any 12-month period shall not exceed 1% of the shares in issue of the Company.

Any further grant of options in excess of the above limit shall be subject to separate approval by the Shareholders in a general meeting (such Eligible Participants and their associates are required to abstain from voting), and shall comply with other requirements prescribed under the Listing Rules and/or other applicable statutory regulations or rules.

(e) Maximum number of options granted to connected persons

Any grant of options to a Director, chief executive or substantial Shareholder (as defined in the Listing Rules) of the Company or any of their respective associates (as defined in the Listing Rules) is required to be approved by the independent non-executive Directors (excluding any independent non-executive Director who is the grantee of the options).

If the Board determines to grant options to a substantial Shareholder or any independent non-executive Director or any of their respective associates, the maximum number of shares issued and to be issued upon exercise of the options granted under the Share Option Scheme and any other share option scheme of the Company (including exercised, cancelled and outstanding options) to each substantial Shareholder or any independent non-executive Director or any of their respective associates in any 12-month period shall not exceed 0.1% of the shares in issue of the Company or such other percentage as may be from time to time provided under the Listing Rules, and the aggregate value calculated based on the closing price of the shares of the Company as stated in the daily quotation sheets of the Stock Exchange as at each date of grant shall not exceed HK\$5,000,000 or such other amount as may be from time to time provided under the Listing Rules.

If any further grant will exceed the above limit on options, such further grant shall be subject to a separate approval by the Shareholders in a general meeting (such Eligible Participants and their associates shall abstain from voting), and shall comply with other requirements prescribed under the Listing Rules and/or other applicable statutory regulations or rules.

(f) When the options may be exercised

An option may be exercised in accordance with the terms of the Share Option Scheme at any time after the date upon which the option is deemed to be granted and accepted and prior to the expiry of 10 years from that date.

The period during which an option may be exercised will be determined by the Board in its absolute discretion, save that no option may be exercised more than 10 years after it has been granted.

(g) Required minimum holding period before the exercise of an option

There is no minimum holding period required before an option may be exercised.

(h) Acceptance of offer

Upon acceptance of an option, the grantee shall pay HK\$1.00 to the Company as consideration for the grant.

(i) Basis for the determination of the exercise price

The share subscription price in respect of any specific option granted under the Share Option Scheme shall be determined at the sole discretion of the Board on the relevant price, but such price shall not be less than the highest of the following:

- the official closing market price of the shares as stated in the daily quotation sheet of the Stock Exchange as at the date of grant, which must be a day when the Stock Exchange is open for securities trading business);
- the average official closing market price of the shares as stated in the daily quotation sheets of the Stock Exchange for five business days immediately before the date of grant; and
- (iii) par value of the shares.
- (j) Residual term of the Share Option Scheme

The Share Option Scheme shall remain valid until 11 June 2025. Unless its early termination is approved by the general meeting of Shareholders or by the Board of the Company, the Share Option Scheme shall remain valid and effective for a period of 10 years from the date when it was adopted.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

During the Reporting Period, neither the Company or any of its subsidiaries has purchased, sold or redeemed any listed securities of the Company.

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Articles of Association or the laws of Cayman Islands that will oblige the Company to offer new shares to the existing Shareholders on a pro-rata basis.

CORPORATE GOVERNANCE

The Company is dedicated to maintain a high standard in corporate governance practice. The Company has complied with the code provisions under the Corporate Governance Code contained in Appendix C1 to the Listing Rules during the Reporting Period. Information about the corporate governance practice adopted by the Company is set out in Corporate Governance Report on page 242 of this annual report.

SUFFICIENCY OF PUBLIC FLOAT

As at the latest practicable date before the publication of this annual report, according to the public information available to the Company and to the knowledge of the Directors, the Company has maintained sufficient public float as required by the Listing Rules during the Reporting Period and up to the date of this annual report.

AUDITOR

On 2 September 2022, Ernst & Young resigned as the auditor of the Company.

On 2 September 2022, the Company appointed BDO Limited ("**BDO**") as the auditor of the Company with effect from 2 September 2022 to fill the casual vacancy following the resignation of Ernst & Young and to hold office until the conclusion of the next annual general meeting of the Company.

The Group's consolidated financial statements for the year ended 31 December 2023 have been audited by BDO.

BDO will retire and, be eligible, will offer themselves for re-appointment at the forthcoming annual general meeting. A resolution for the re-appointment of BDO as the auditor of the Company will be proposed at the forthcoming annual general meeting.

Save as disclosed above, there were no other changes in the Company's auditors during the past three years (including the Reporting Period).

DONATION

The Group did not make any donation for the year ended 31 December 2023.

RECOMMENDATION TO CONSULT PROFESSIONAL TAX ADVICE

If Shareholders of the Company are not sure about the tax effect of the purchase, holding, sale, trading or exercise of any rights attached to the relevant shares of the Company, they are recommended to consult independent experts for advice.

By order of the Board Chen Xing Development Holdings Limited Bai Xuankui Chairman

Jinzhong, Shanxi, China 27 March 2024

The Board is pleased to present the corporate governance report of the Company for the year ended 31 December 2023.

CORPORATE GOVERNANCE PRACTICE

The Company is always committed to maintain high standard of corporate governance with a view to assuring the conduct of management of the Company and protecting the interests of the Shareholders. The Company is fully aware that transparency and accountability in corporate governance are crucially important to the Shareholders. The Board considers that sound corporate governance can maximize Shareholders' interests.

The Company has adopted the Corporate Governance Code (the "**CG Code**") as set out in Appendix C1 to the Rules (the "**Listing Rules**") Governing the Listing of Securities on the Stock Exchange as its own code of corporate governance. During the Reporting Period, the Company had always complied with the CG Code.

The Company shall review and strengthen its corporate governance practice from time to time, and strengthen internal control with the help of its PRC and Hong Kong legal advisors, so as to ensure compliance with the CG Code.

The Board consists of four executive Directors and three independent non-executive Directors. The Board is responsible for the operation and coordination of the development of the Company and monitoring the Company's business, strategic decisions and performance, and has full and timely access to all relevant information in relation to the Company's businesses and affairs, while the day-to-day management is delegated to the management of the Company. The independent non-executive Directors possess professional qualifications and related management experience in the areas of financial accounting, corporate governance, etc. and have contributed to the Board with their professional opinions.

Mr. Bai Xuankui ("**Chairman Bai**") is an executive Director and the chairman of the Board. He is responsible for the management of the Board and the overall strategic planning, business development and corporate governance functions. The Company believes that Chairman Bai's servicing as Director and Chairman since the establishment of the Company is conducive to the Company's formulating a correct development strategy. In terms of business operations, the Company's senior management, which comprises experienced and high caliber individuals from various sectors, will ensure decisions made by the Board be thoroughly implemented.

CORPORATE CULTURE

The Group has always adhered to the corporate mission of "Healthy Living Service Provider" and the corporate spirit of "Sincerity and Credibility". Based on the two bases of "sustainable development" and "compliance management", the Company aims to provide customers with "healthy life", "green life" and "harmonious life" through the improvement in five aspects, i.e. product quality, living environment, neighborhood groups, health and safety and property services, so as to achieve its corporate mission. The Company recognizes the importance of corporate culture and continues to strengthen corporate culture within the Group in order to enhance team cohesion, achieve mutual complementarity of advantages and sincere cooperation, and promote employees to achieve spiritual and material happiness, thus promoting the long-term sustainable development of the Company. Details of the Group's corporate culture, business strategy and business model are set out in the section headed "Chairman's Statement" in this annual report.

THE BOARD

Duties

The Board is responsible for the operation and planning of the Group's development. It oversees the business, strategic decision-making and performance of the Group and timely understands all relevant information of the Group's business. The Board has delegated the day-to-day management and operation powers and duties to the senior management. For overseeing particular areas of affairs of the Company, the Company has established three Board committees, namely the Audit Committee, the Remuneration Committee and the Nomination Committee (together, the "Board Committees"). The Board has delegated to the Board Committees duties as set out in their terms of reference. Some of the independent non-executive Directors have certain qualifications and relevant management experience on financial accounting and corporate governance aspects and provide professional opinions to the Board.

All the Board members should ensure that they shall exercise their duties with integrity and comply with applicable laws and regulations, which is all times in the interests of the Company and its Shareholders.

Composition of the Board

The Board comprises of four executive Directors (namely Mr. Bai Xuankui, Mr. Bai Wukui, Mr. Bai Guohua, and Mr. Dong Shiguang) and three independent non-executive Directors (namely Mr. Tian Hua, Mr. Qiu Yongqing and Ms. Gao Jianhua). The biographical details of each Director are set out in the "Biographical Details of Directors and Senior Management" section of this annual report.

Save as disclosed in this annual report, to the best knowledge of the Company, none of the Board members have any financial, business, family, or any other materials/relevant relationships.

During the Reporting Period, the Board has complied with the requirements under Rule 3.10(1) and Rule 3.10(2) of the Listing Rules that at least three independent non-executive Directors must be appointed and at least one of the independent non-executive Directors must have appropriate professional qualifications or accounting or related financial management expertise. In addition, the number of independent non-executive Directors accounts for one-third of the Board members, which complies with the requirement under Rule 3.10A of the Listing Rules.

The Company has received from each of its independent non-executive directors a written confirmation of their respective independence, and each of the independent non-executive Directors have confirmed their independence pursuant to the factors set out in Rule 3.13 of the Listing Rules. The Company considered all the independent non-executive Directors as independent.

All the Directors (including the independent non-executive Directors) have broad and valuable business experience, expertise and professional skills for the effective operation of the Board. The independent non-executive Directors are appointed as members of the Audit Committee, Remuneration Committee, and Nomination Committee.

The Company has established relevant mechanisms to ensure that the Board can obtain independent views and opinions, for example, pursuant to the code provisions C.5.6 and C.5.9 of the CG Code, the Board and its committees are provided with sufficient information and have separate and independent access to the Company's senior management to make informed decisions. In particular, all members of the Board are entitled to timely access to the information of the Group (including but not limited to management accounts, operating performance and statistical data, audit results, and other relevant industry and market information and forecasts), as well as the assistance and professional advice of the company secretary (if necessary), at the expenses of the Company. The Board promotes an enlightened culture and of the Board also holds at least one meeting with independent non-executive directors every year without the presence of other directors and senior management to facilitate independent non-executive directors to raise realistic independent views and opinions.

In order to ensure the high degree of independence of the Board, the Nomination Committee reviews the implementation and effectiveness of these mechanisms every year, and makes recommendations to the Board in due course.

Pursuant to code provision C.1.5 of the CG Code, each Director should disclose to the issuer at the time of his appointment, and in a timely manner for any change, the number and nature of offices held in public companies or organisations and other significant commitments. The identity of the public companies or organisations and an indication of the time involved should also be disclosed. All Directors have consented to disclose to the Company for the above provision on a timely basis.

Board Diversity Policy

The Board has adopted a board diversity policy [the "**Board Diversity Policy**"] and the Nomination Committee has been delegated to be responsible for the implementation, monitoring and annual review of this policy.

In line with the vision of realizing the sustainable and balanced development of the Company, in order to equip the members of the Board with diverse views and perspectives, the Company regards the diversity of the Board as a necessary condition for realizing its strategic goals. The appointment of directors is based on merit and is carried out on the basis of full consideration of a series of diversity objectives, including gender, age, cultural and educational background, length of service, professional experience, understanding of the Group's business, and a wide range of personal traits, interests and values.

In terms of gender diversity, the Board believes that gender diversity is representative of Board diversity as well as all other measurable goals. The Board is committed to maintaining an appropriate proportion of female members, and the proportion of female representatives on the Board is 14% as at the end of the Reporting Period. The Company's goal is to maintain at least the current level of female representatives on the Board, with the ultimate goal of achieving gender equality.

The Board believes that the current composition of members has provided the Company with a balance of skills, experience and a diversity of perspectives relevant to the Company's business needs. The Board will continue to review its composition on a regular basis and take into account the diversity of the Board in review to meet the business needs and interests of the Company.

The Nomination Committee reviews the implementation and effectiveness of the Board Diversity Policy at least once a year to ensure that the policy is still valid and appropriate for the Company and complies with regulatory requirements and good corporate governance practices.

To further strengthen gender diversity, the Board and the Nomination Committee are always on the lookout for potential successors to the Board. The Company regularly conducts recruitment and promotion to encourage and attract qualified employees to serve as senior management and positions on the Board.

The Company is also committed to maintaining a balanced ratio of male to female employees. As at the end of the Reporting Period, the ratio of male to female employees of the Company was approximately 61% to 39%. The Company's recruitment is merit-based and non-discriminatory. The Board is satisfied that the Company has achieved gender diversity in its workforce. For further details on the gender diversity of the Company's employees, please refer to the disclosures in the section headed "Environmental, Social and Governance Report" of this annual report.

Chairman and Chief Executive Officer

The chairman and chief executive officer of the Company are Mr. Bai Xuankui and Mr. Bai Wukui, both being executive Directors, respectively. The separation of roles of Chairman and chief executive officer enables balance of power and delegations, preventing the job responsibilities be concentrated on either one of them. The chairman is responsible for leadership work and the effective operation of the Board, whilst the chief executive officer is delegated for the effective management of business of the Group. The separation of responsibilities between the chairman and the chief executive officer is clearly defined and set out in written form.

Directors' Training and Continuous Professional Development

All the Board members understand the responsibilities as Directors and the operation and business activities of the Company. The Company is responsible for arranging induction programmes, continuous training and professional development for the Directors, and providing funding therefor. Accordingly, the Company shall arrange induction programmes for any newly appointed Director before formal appointment, ensuring that he/she have certain understanding on the business and operations of the Group and be fully aware of the responsibilities and obligations set out in the Listing Rules and relevant laws and regulations.

The Company arranges seminars regularly, providing the Directors with the development and amendment updates of the Listing Rules and other relevant laws and regulations. The Directors also regularly receive updates on the performance, conditions and outlook of the Company to enable the Board to work as a whole and the Directors to exercise each of their own duties. The Company updates and provides written training materials about Directors' roles, functions and duties from time to time, and encourages Directors to read such materials. Each Director has to submit a training record each year.

During the Reporting Period, all Directors (namely, Mr. Bai Xuankui, Mr. Bai Wukui, Mr. Bai Guohua, Mr. Dong Shiguang, Mr. Tian Hua, Mr. Qiu Yongqing and Ms. Gao Jianhua) attended formal and all-rounded trainings. The Company has received each Director's training record for the Reporting Period.

Appointment and Re-election of Directors

The Nomination Committee is responsible for reviewing Board composition and monitoring the appointment, re-election and succession planning of Directors. Procedures and process for the appointment, re-election and removal of Directors are set out in the Articles of Association.

Each executive Director entered into service contract with the Company for a term of three years. The service contract can be terminated according to its terms.

Each independent non-executive Director entered into a letter of appointment with the Company for a term of three years. The service contract can be terminated according to its terms.

None of the Directors has entered into a service contract with the Group which is not terminable within one year without compensation (other than statutory compensation).

Pursuant to Article 84(1) of the Articles of Association, at each annual general meeting, one-third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one-third) shall retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years.

Mr. Bai Wukui, Mr. Bai Guohua and Ms. Gao Jianhua will retire by rotation at the annual general meeting in accordance with Article 84(1) of the Articles of Association, and all of them are eligible and offer themselves for re-election.

Board Meetings

The Company has adopted the practice of holding at least four regular Board meetings each year (approximately once in a quarter). Notice of regular Board meetings shall be distributed to all the Directors at least 14 days before the meeting. Discussion matters shall be set out in the agenda of each meeting. Notices of other Board Committee meetings shall normally be delivered according to the requirements of the terms of reference. Meeting agenda and relevant meeting papers shall be sent to the Directors and Board Committee members at least 3 days before the meeting to ensure that they have adequate time for the review of the documents. If the Directors and the Board Committee members are unable to attend the meetings, they shall be notified of the discussion matters and provide their views to the chairman of meeting before the meeting. Minutes of Board meetings and Board Committee meetings shall be kept by the Company, a copy of which shall be circulated to the Directors and relevant Board Committee meetings.

Minutes of Board meetings and Board Committee meetings shall record the matters considered and the decisions reached in the meetings, including the questions raised by the Directors and the Board Committee members. Draft of the minutes of Board meetings and Board Committee meetings shall be provided to Directors and relevant Board Committee members in reasonable time for consideration and comments. The Directors are entitled to inspect the minutes of Board meetings and Board Committee meetings.

During the Reporting Period, the Company held four Board meetings and one general meeting. Attendance of Directors at such meetings is set out in the following table:

	Number of Board meetings attended/	Number of general meetings attended/
Directors	held	held
Mr. Bai Xuankui	4/4	1/1
Mr. Bai Wukui	4/4	1/1
Mr. Bai Guohua	4/4	1/1
Mr. Dong Shiguang	4/4	1/1
Mr. Tian Hua	4/4	1/1
Mr. Qiu Yongqing	4/4	1/1
Ms. Gao Jianhua	4/4	1/1

The chairman of the Board convened a meeting with the independent non-executive Directors without the presence of the executive Directors during the Reporting Period.

COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "**Model Code**") as set out in Appendix C3 to the Listing Rules as its own code of conduct for securities transactions by Directors. Having made specific enquiry to all Directors, all Directors confirmed that they have always complied with the Model Code during the Reporting Period.

DELEGATION OF THE BOARD

The Board retains the decision making rights for major matters of the Company, including approving and monitoring all policy affairs, overall strategy and budget, internal control and risk management systems, major transactions (especially those with possible conflict of interests), financial information, appointment of directors and other major financial and operational matters. The Directors may seek independent professional advice when exercising their duties, the cost of which is borne by the Company. The Directors are also encouraged to conduct independent consultation with the senior management of the Company.

The Group's day-to-day management, administration and operation are delegated to the senior management of the Company. The Board regularly reviews the functions and duties delegated to the senior management of the Company.

CORPORATE GOVERNANCE FUNCTIONS

The Board understands that corporate governance is a shared responsibility among all Directors. The Board has delegated the corporate governance functions to the Audit Committee, including:

- to develop and review the Company's policies and practices on corporate governance and make recommendations to the Board;
- to review and monitor the training and continuous professional development of Directors and senior management;
- (iii) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and Directors; and
- to review the Company's compliance with the CG Code and disclosure in the Corporate Governance Report.

During the Reporting Period, the Audit Committee has performed the aforementioned corporate governance functions, and has reported to the Board.

BOARD COMMITTEES

Nomination Committee

The Nomination Committee comprises of three members, including one executive Director, Mr. Bai Xuankui (chairman), and two independent non-executive Directors, Mr. Qiu Yongqing and Ms. Gao Jianhua. Therefore, the majority of members are independent non-executive Directors. The major duties of the Nomination Committee include:

- (i) review the structure, size and composition (including the skills, knowledge, experience and diversification) of the Board and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy;
- (ii) identify individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships;
- (iii) make recommendations to the Board on the appointment or reappointment of Directors and succession planning for Directors;
- (iv) assess the independence of independent non-executive Directors;
- (v) to make recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the chairman and the chief executive;
- (vi) to review the Board Diversity Policy and any measurable objectives for implementing such Board Diversity Policy as may be adopted by the Board from time to time and to review the progress on achieving the objectives; and to make disclosure of results of its review in the corporate governance report of the Company on a yearly basis;
- (vii) to review the policy for the nomination of Directors ("Director Nomination Policy"). The Nomination Policy shall set out, inter alia, the nomination procedures and process and criteria to select and recommend candidates for directorship; and
- (viii) to consider other topics, as defined by the Board.

Nomination Policy

The Company adopts a Director Nomination Policy, including nomination procedures and processes as well as criteria for screening and recommending director candidates, so that the Board has a sustainable and optimal combination of members to the greatest extent, ensuring that the Board members have the skills, experience and diversity requirements required by the Company's business.

When selecting director candidates, the Nomination Committee comprehensively considers the following factors:

- character and honesty;
- qualifications (including professional qualifications, skills, knowledge and experience relevant to the Company's business and corporate strategy);
- requirements for independent non-executive Directors under the Listing Rules and whether candidates are considered independent in terms of independence guidelines as set out in the Listing Rules;
- any measurable goals adopted for diversity and potential contributions to the Board in respect of the diversity of candidates;
- the willingness of candidates and whether they can devote enough time and have relevant interests to perform the duties; and
- other factors applicable to the Company's business and its successor plans.

For the appointment of new Directors, the Nomination Committee as authorized by the Board shall identify and evaluate candidates according to the above criteria to determine whether the candidates are eligible to serve as Directors. If the candidates are deemed qualified, the Nomination Committee will recommend them to the Board for consideration; and if the Board considers them appropriate, it will approve the appointment of the proposed candidates as new Directors.

For the re-election of Directors at the general meeting, the Nomination Committee as authorized by the Board shall review the contributions made by the retiring Directors and whether they can continue to perform their duties as required according to the above criteria. The Board shall then recommend Directors for re-election to the shareholders at the general meeting in accordance with the recommendation of the Nomination Committee.

For the nomination of any candidate (except retiring directors) by the Board or Shareholders for election as directors at the general meeting of the Company, the Nomination Committee shall, after receiving the nomination proposal and the candidate's resume, evaluate whether he/she is suitable according to the same criteria as stated above. The Board may or may not make recommendations to Shareholders on their voting for the proposed election in the relevant announcement and/or circular to Shareholders as recommended by the Nomination Committee.

The Nomination Committee will regularly review the Director Nomination Policy to ensure its effectiveness.

The terms of reference of the Nomination Committee is posted on the websites of the Stock Exchange and the Company.

In order to enhance the effectiveness of the Board and corporate governance standards, the Board shall maintain a balance of composition of executive and non-executive Directors (including independent non-executive Directors) to enable high level independence of the Board for effective demonstration of independent judgment. During the Reporting Period, the Nomination Committee held one meeting. Attendance of the Nomination Committee members at such meeting is set out in the following table:

Committee members	Number of meetings attended/held
Mr. Bai Xuankui	1/1
Mr. Qiu Yongqing	1/1
Ms. Gao Jianhua	1/1

During the Reporting Period, the Nomination Committee has reviewed the structure, size and composition of the Board, made recommendations to the Board on the re-appointment of Directors, and assessed independence of the independent non-executive Directors.

Remuneration Committee

The Remuneration Committee comprises of three members, including two independent non-executive Directors, Mr. Tian Hua (chairman) and Ms. Gao Jianhua, and one executive Director, Mr. Bai Xuankui. Therefore, the majority of members are independent non-executive Directors. The major duties of the Remuneration Committee include:

- to make recommendations to the Board on the Company's policy and structure for all Directors' and senior management remuneration and on the establishment of a formal and transparent procedure for developing remuneration policy;
- to make recommendations to the Board on the remuneration packages of individual executive Directors and senior management. This should include benefits in kind, pension rights and compensation payments, including any compensation payable for loss or termination of their office or appointment;
- (iii) to make recommendations to the Board on the remuneration of non-executive Directors;
- (iv) to review and approve the management's remuneration with reference to the Board's corporate goals and objectives;
- (v) to review and approve the compensation payable to executive directors and senior management members for any loss or termination of office or appointment to ensure that it is consistent with contractual terms and is otherwise fair, reasonable and not excessive;

- (vi) to review and approve compensation arrangements relating to dismissal or removal of directors for misconduct to ensure that they are consistent with contractual terms and are otherwise reasonable and appropriate;
- (vii) to ensure that no Director or any of his associates be involved in deciding his own remuneration;
- (viii) to consider salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group; and
- (ix) to review and/or approve the matters related to share scheme under Chapter 17 of the Listing Rules.

The terms of reference of the Remuneration Committee is posted on the websites of the Stock Exchange and the Company.

During the Reporting Period, the Remuneration Committee held one meeting. Attendance of the Remuneration Committee members at such meeting is set out in the following table:

Committee members	Number of meetings attended/held
Mr. Tian Hua	1/1
Ms. Gao Jianhua	1/1
Mr. Bai Xuankui	1/1

During the Reporting Period, the Remuneration Committee has reviewed the remuneration policy and structure for all Directors and senior management of the Company, assessed performance of executive Directors, approved the terms of executive Directors' service contracts, reviewed the remuneration of individual Directors and senior management and made recommendations to the Board, and reviewed the matters related to the Share Option Scheme/share scheme under Chapter17 of the Listing Rules. The Remuneration Committee has adopted the recommendation model described in E.1.2(c)(ii) of the CG Code.

Audit Committee

The Audit Committee comprises of three independent non-executive Directors, including Mr. Tian Hua (chairman), Mr. Qiu Yongqing and Ms. Gao Jianhua.

The major duties of the Audit Committee include:

1. Liaison with the Company's external auditors

- 1.1 to be primarily responsible for making recommendations to the Board on the appointment, reappointment and removal of the external auditor, and approval of the remuneration and terms of engagement of the external auditor, and any question of its resignation or dismissal;
- 1.2 to review and monitor the external auditor's independence and objectivity as well as the effectiveness of the audit process in accordance with applicable standard. The Audit Committee should discuss with the auditor the nature and scope of the audit and reporting obligations before the audit commences;
- 1.3 to develop and implement policy on the engagement of an external auditor to supply nonaudit services. For this purpose, "external auditor" includes any entity that is under common control, ownership or management with the audit firm or any entity that a reasonable and informed third party knowing all relevant information would reasonably conclude to be part of the audit firm nationally or internationally; and
- 1.4 to identify, report to and make recommendations on any matters to the Board where action or improvement is needed.

2. Review of the Company's financial information

- 2.1 to monitor integrity of the Company's financial statements and annual report and accounts, half-year report and, if prepared for publication, quarterly reports, and to review significant financial reporting judgments contained in them; and
- 2.2 regarding 2.1 above: (i) members of the Audit Committee should liaise with the Board and senior management and the Audit Committee must meet, at least twice a year, with the Company's auditors; (ii) the Audit Committee should consider any significant or unusual items that are, or may need to be, reflected in the report and accounts, it should give due consideration to any matters that have been raised by the Company's staff responsible for the accounting and financial reporting function, compliance officer and auditors.

3. Oversight of the Company's financial reporting system, risk management and internal control systems

- 3.1 to review the Company's financial control, and unless expressly addressed by a separate board risk committee, or by the board itself, to review the Company's risk management and internal control systems;
- 3.2 to discuss the risk management and internal control systems with management to ensure that management has performed its duty to have effective systems. The discussion should include the adequacy of resources, staff qualifications and experience, training programmes and budget of the Company's accounting and financial reporting functions;
- 3.3 to consider major investigation findings on risk management and internal control matters as delegated by the Board or on its own initiative and management's response to such findings;
- 3.4 to ensure co-ordination between the internal and external auditors, and to ensure that the internal audit function is adequately resourced and has appropriate standing within the Company, and to review and monitor its effectiveness;
- 3.5 to review the Group's financial and accounting policies and practices;
- 3.6 to review the external auditors' management letter, any material queries raised by the auditor to management about accounting records, financial accounts or systems of control and management's response;
- 3.7 to ensure that the Board will provide a timely response to the issues raised in the external auditor's management letter;
- 3.8 to act as the key representative body for overseeing the Company's relationship with the external auditor;
- 3.9 to review arrangements that employees of the Company can use, in confidence, to raise concerns about possible improprieties in financial reporting, internal control or other matters. The Audit Committee should ensure that proper arrangements are in place for fair and independent investigation of these matters and for appropriate follow-up action;

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements for the year ended 31 December 2023, which gives a true and fair view of the financial position of the Group.

The Board is supplied with sufficient explanation and information by the management to enable the Board to make an informed assessment of financial and other information put before it for approval.

The Board is not aware of any material uncertainties relating to events or factors that may cast significant doubt upon the Group's ability to operate as a going concern.

The statement by the Company's auditors about their reporting responsibilities on the consolidated financial statements is set out in Independent Auditor's Report on page 298 of this annual report.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges its responsibility for monitoring the risk management and internal control systems, and ensuring the proper maintenance and effectiveness of the risk management and internal control systems. The Board also oversees the management in the design, implementation and monitoring of the risk management and internal systems, and the management provides the Board with confirmation on the effectiveness of the relevant systems. The Board considers that such systems aim at managing, instead of eliminating, the risk of failure in performing business objectives, and merely giving reasonable but not absolute guarantee to the absence of unmaterial fact, statement or loss.

The Board is responsible for the risk management and internal control systems. It performs a review on the effectiveness of the risk management and internal control systems at least once a year. The Company has established an internal control department, which plays an important role in monitoring the risk management and internal control systems of the Group. Through the Audit Committee, the Board continuously reviews the effectiveness of the risk management and internal control systems, including monitoring procedures for finance, operations, compliance, risk identification and assessment, and implementation of risk response measures. The audit procedures include:

- (1) the internal control department of the Group assessing the relevant systems;
- (2) the management ensuring the maintenance of effective risk management and internal control systems; and
- (3) the external auditors discovering internal control problems when carrying out statutory audits.

The management and internal control department, supported by the Board, are responsible for the design, implementation and monitoring of the risk management and internal control systems, as well as reporting to the Board and the Audit Committee.

During the Reporting Period, the management and internal control department reported to the Board and the Audit Committee periodically in relation to the adequacy and effectiveness of internal controls, including but not limited to any indications of failings or material weaknesses in the control procedures.

The following key processes are used to identify, evaluate and manage the Group's significant risks:

- (1) the Board and the Audit Committee set up the targets for risk management;
- (2) internal control department identifies the risks, which may potentially impact the normal operation of the Company, and analyses the and evaluates the significance of such risks;
- the management, internal control and various departments assess the adequacy of existing controls, determine and adopt plans to mitigate the risks;
- (4) the management monitors the risk mitigation activities; and
- (5) reports regularly to the Board and the Audit Committee.

The Company has adopted policies and procedures for assessing the effectiveness of the risk management and internal control systems, and requiring the management to provide confirmation to the Board periodically on the effectiveness of the systems. The Board has also established a set of reporting procedures, whereby employees, customers, suppliers and other cooperative partners can report any actual or suspected occurrence of misconduct involving the Group, and for such matters to be investigated and dealt with efficiently in an appropriate and transparent manner.

The Company strictly regulates the handling and dissemination of inside information to ensure such information remains confidential until the disclosure of such information is appropriately approved, and the dissemination of such information is efficiently and consistently made.

During the Reporting Period, the management and internal control department have performed extensive assessments on special risks faced by the Group and conducted a review on the effectiveness of the risk management and internal control systems of the Group. The Board and the Audit Committee were not aware of any areas of concern that would have material impact on the Group's financial position or operating results, and considered the risk management and internal control systems to be generally effective and adequate, including the adequacy of resources, staff qualifications and experience, training programs and budget of the accounting and financial reporting functions.

NON-COMPETITION UNDERTAKING

Mr. Bai Xuankui, Mr. Bai Guohua, Ms. Cheng Guilian, White Dynasty Holdings Limited and White Empire (PTC) Limited, the controlling Shareholders of the Company, have confirmed in writing with the Company that they have complied with the undertakings under the deed of non-competition during the period from the date of signing the Deed of Non-competition until 31 December 2023.

The independent non-executive Directors have also reviewed the compliance with the undertakings under the Deed of Non-competition by the Controlling Shareholders during the Reporting Period and confirmed that there was no breach of undertakings under the Deed of Non-competition by any of the Controlling Shareholders.

AUDITOR'S REMUNERATION

During the year, the remuneration paid/payable to the Group's external auditors, and non-audit services, is set out as follows:

Services rendered for the Group:	
Audit services	RMB2,380,000
Non-audit services	HKD200,000

COMPANY SECRETARY

To maintain sound corporate governance and ensure the compliance with the Listing Rules and applicable Hong Kong laws, the Company engaged Ms. Lee Angel Pui Shan, a Corporate Secretarial Executive of SWCS (a company secretary service provider), to act as the company secretary of the Company, and her primary contact person at the Company is Mr. Bai Guohua, an executive Director.

According to the requirements of Rule 3.29 of the Listing Rules, Ms. Lee Angel Pui Shan took no less than 15 hours of relevant professional training during the Reporting Period.

SHAREHOLDERS' COMMUNICATIONS AND INVESTOR RELATIONS

The Company believes that effective communication with Shareholders is very important for strengthening investor relations and allowing investors to understand the Group's business, performance and strategy. The Company is also convinced of the importance of timely and non-selective disclosure of Company information for Shareholders and investors to make informed investment decisions.

The annual general meeting of the Company provides opportunities for Shareholders to communicate with the Directors directly. Chairman of the Board and chairmen of each Board Committee will attend the annual general meeting and answer questions raised by the Shareholders. The external auditor will also attend the annual general meeting and answer questions regarding audit work, preparation of auditor's report and its content, accounting policies and independence of auditor.

The chairman of the Board ensures that appropriate steps are taken to maintain effective communication with the Shareholders and that their views are communicated to the Board as a whole. The Company is committed to carefully listening and evaluating the impact of operations to its stakeholders, including the Shareholders, the employees, the investors and the community. This policy aims at ensuring the Shareholders are provided with ready, equal and timely access to information about the Company, in order to enable Shareholders to exercise their rights in an informed manner and to enhance communication between the Company and the Shareholders.

The Company strictly complies with disclosure requirements under the Listing Rules with respect to the disclosure of its financial statements and fosters two-way communication between the Company and the Shareholders and potential investors mainly through the following channels:

(i) Corporate communication

Annual and interim reports, results announcements, circulars and notices of general meetings and associated explanatory documents will be published in a timely manner on the websites of the Company and the Stock Exchange.

Corporate communication of the Company will be provided to the Shareholders in both English and Chinese versions to facilitate the Shareholders' understanding.

Shareholders can choose to receive corporate communications via electronic means, with the aim of reducing resource consumption relating to printing and distribution of hard copies.

(ii) Shareholders' enquiries and general meetings of the Company

Shareholders can raise any comments on the performance and future directions of the Group to the Directors at general meetings and are welcomed at all times to send their enquiries on the matters of the Company to the Board and/or Investor Relations Department by post to the Company's head office and principal place of business in the PRC (18 Anning Street, Yuci District, Jinzhong City, Shanxi Province, the PRC) or by email to the Company's mailbox (cxfz@chen-xing.cn).

(iii) Capital market communications

Periodic meetings with institutional investors will be held from time to time in order to facilitate communication between the Company and Shareholders and the investor community.

The Board reviews the Shareholders' communication policy on an annual basis, and makes any changes it considers necessary to ensure its effectiveness and that the legal interests of Shareholders and investors are substantially protected.

The Board has conducted a review of the implementation and effectiveness of the Shareholders' communication policy of the Company during the Reporting Period. Having considered the communication channels in place, the Board is satisfied that an effective Shareholders' communication policy has been properly implemented throughout the year ended 31 December 2023.

SHAREHOLDERS' RIGHTS

For the protection of Shareholders' benefits and rights, the Company shall propose separate resolutions for each question (including the election of each Director) at a general meeting.

All resolutions proposed at a general meeting shall be voted on by poll according to the Listing Rules, the results of which shall be posted on the websites of the Stock Exchange and the Company after the date of the general meeting in due course.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SUSTAINABLE DEVELOPMENT STRATEGY

Statement by the Board of Directors

The Group is committed to incorporating ESG concepts into its business operations. The Board is the highest ESG decision-making level of the Group, and is responsible for making decisions and overseeing the Company's ESG activities, including the overall ESG direction, objectives, performance, materiality assessment and management of ESG issues. To better understand stakeholders' ESG expectations, we use a variety of communication channels to listen to opinions of our stakeholders. The Board has reviewed the results of the materiality assessment and the progress of the environmental objectives as well as the sustainable performance of the Group during the operation period. We have clear environmental management objectives and practice green development concepts, which cover waste management, greenhouse gas emission management, energy efficiency management and water efficiency management to reduce adverse environmental impact. Effective communication with key stakeholders, such as employees, on progress towards goals is important to help them participate in the process and feel the changes the Company seeks to achieve.

Sustainability Governance

The Board assumes overall responsibility for the Group's ESG strategy and reporting. The Group has established an ESG governance framework to drive sustainable development efforts. To ensure effective ESG management, we have formed a three-in-one ESG management system consisting of the Board, ESG working group and ESG — related departments, and implemented a three-level working mechanism. We have established an ESG Working group, led by senior management, to assist the Board in monitoring the progress and performance of ESG work, so as to achieve the effectiveness of ESG governance.

Decision-making level: the Board of Directors

- Take full responsibility for ESG strategy and reporting
- Decide and approve the Group's ESG strategy, ESG material issues and ESG risk management
- Continuously track and review ESG-related performance and progress against targets to ensure that all ESG issues are properly managed and implemented

Organisational level: ESG Working Group

- Report regularly to the Board and senior management on ESG-related issues and progress
- Develop the Group's ESG strategy for the Board's approval and drive its implementation

Executive level: ESG-related Departments

- Collect and report on internal ESG policies, systems and ESG-related performance indicators
- Report regularly to the ESG Working Group

Stakeholder Engagement

To better understand the expectations and needs of stakeholders, identify key ESG issues and assess the effectiveness of our sustainability initiatives, we continue to liaise with different stakeholders. Stakeholders play an important role in our business development and strategy. We strive to understand their evolving expectations and needs to continuously review and improve our sustainability performance.

Materiality Assessment

Following the "materiality principle" in the Guide of the Stock Exchange, and with reference to the disclosure obligations covered by the Guide of the Stock Exchange, relevant industries of the Sustainability Accounting Standards Board (SASB) of the United States, etc., we made a comprehensive analysis based on the survey results of various stakeholders on issues of materiality as well as the business operations of the Group during the Year. The management and ESG working group of the Group have confirmed that the materiality assessment results are still applicable for the Year, because (i) there were no material changes in the Group's business and business environment during the Reporting Period; and (ii) the materiality assessment results can still reflect stakeholders' expectations of the Group. Based on stakeholders' analysis of the materiality assessment results, the Group's management identified 35 issues of materiality, of which 13 issues of high materiality, 20 issues of moderate materiality and 2 issues of general materiality. The following diagram shows the key ESG issues identified by us during the Year:

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ADHERENCE TO COMPLIANCE OPERATION

Chen Xin Development is committed to becoming a first-class health and lifestyle service provider in China, and operating our business with the core value of "Building a Brand Name with Good Faith and Improving Earnings through a Quality Brand". Through the establishment of a sound internal control system, we standardize the entire business operation process, in order to continuously enhance the brand influence and industry status. During the Reporting Period, there was no breach of relevant laws and regulations that had a material impact on the Group in respect of health and safety, advertising, labelling and privacy matters as well as remedies for the products and services provided.

Safe Production Management

Chen Xin Development upholds the principle of "Safety is First, Precaution is Crucial" and strictly abides by laws and regulations such as the Law of the People's Republic of China on Work Safety [《中華人民共和國 安全生產法》], and has formulated a series of supporting internal management standards such as project safety production management system, employee safety education and training system and occupational health and safety management objectives, to identify potential hazard sources and evaluate risks.

Compliant and safe production

In order to ensure the production safety of the Group, all aspects should be under strict control. In addition to obtaining the necessary construction permits and setting up hazard warning signs, we also implement safety management into the details of our daily work schedule: personnel in charge of safety are set up to conduct safety inspection and recording at the construction site, and urge related personnel of the project to fulfill their duties; construction teams are arranged to carry out pre-shift safety activities, check labor insurance supplies, and provide related support and guarantee. In addition, in order to respond to possible dangerous situations in a timely manner, we have formulated and implemented the "Emergency Plan for Project Site Safety"(《項目現場安全應急 預案》), which assigns the responsibility for production safety to ensure that all units can effectively respond to dangerous situations in the first time, and report and deal with them in a timely manner to minimize the scope of harm and prevent further deterioration of the situation.

• Elimination of potential fire hazards

Fire is merciless, and we should conduct fire prevention. The Group strictly abides by the relevant provisions of the Fire Protection Law of the People's Republic of China [《中華人民共和國消防法》], and eliminates potential fire hazards and conduct fire prevention publicity according to local conditions based on relevant policies of the project location and the characteristics of the construction site. We have established relevant organisations including a fire safety leadership team and a fire rescue team which take charge of the daily fire safety work and carry out the filing to local fire safety supervision authorities; we proactively popularize the concept of "fire safety working environment" to all employees, enhance employees' awareness of fire prevention in daily work to establish a crisis awareness of "being prepared for danger in times of safety and nipping hazards in the bud", and cooperate with the implementation of the "Project Site Fire Safety Plan", to further refine the open fire operation, flammable materials storage and fire equipment management.

Adherence to Quality

The Group is committed to providing customers with a high level of products and service experience. Throughout the project construction cycle, we focus on the planning and standard formulation of project development stage, engineering stage and acceptance engineering, to standardize the quality inspection and evaluation of engineering projects, improve the level of engineering management, and continuously monitor the supervision quality and strengthen the quality verification procedures.

During the construction period of projects, we continue to monitor the progress of projects. We have entered into "Construction Works Supervision Contracts" [《建設工程委託監理合同》] with the construction supervision and management unit, which requires the construction supervision and management unit to enter the construction sites on time during the construction stage in accordance with the contracts, so as to shorten the construction cycle as	inspection and acceptance requirements specified in the national standards, and have formulated the "Engineering Construction Quality Standards and Construction Acceptance Methods" (《工程施工質量 標準及施工驗收辦法》) to provide standards for relevant quality control, material inspection and equipment acceptance, and for monitoring the quality of engineering construction. In order to continuously improve the management level and construction quality, after the phased construction of a project is completed, we will timely summarise the construction quality and management of the phased construction, and prepare a summary report as a case reference for the next phase construction project, providing a base for the continuous improvement of management level and	property acceptance specifications for projects, and formulated acceptance procedures, policies and quality standards. After the completion of a project, the customer service department and engineering department of the Group, the supervision company, the construction contractor and the property management company will accompany the owner to the site for inspection. If there is a need for after-sales refurbishment, we will follow up on any problems identified during the acceptance process in accordance with the "Operation Instructions for Building Maintenance Management during Warranty Period" [《保修期 內房屋維修管理作業指導 書》]. One year after the project has been delivered for use, the customer service department will pay a return visit to the residents and conduct a questionnaire

The Group values customer feedback. We optimize the customer experience and attach great importance to after-sales service of projects, including daily management of properties and responding to residents' needs, etc. and continuously improve our services to ensure that the requirements and expectations of our customers are met. The Group has set up a complete after-sales service and customer opinion feedback channels, to regularly collect all opinions on product quality, services, etc.

We have formulated the "System for Receiving Incoming Complaints and Regular Return Visits by Property Services Centre" (《物業服務中心接待來訪投訴和定期回訪制度》) to collect customers' opinions through different channels and strengthen the relationship between the Property Services Centre and customers. In case of feedback from residents, we proactively deal with the needs of residents, and the reception staff of the Property Services Centre will investigate, verify and record the results in a timely manner and provide feedback to the responsible departments. For the follow-up handling of complaints, regular visits are conducted by our dedicated personnel to ensure that customer complaints are properly addressed and that our services are continuously improved.

During the Reporting Period, there were no projects of the Group rejected for safety reasons and no service complaints were received from our customers. The customer service approval rating has exceeded 91%.

Information Security

We attach great importance to the information security of the Company and customers. Chen Xing Development is committed to maintaining the confidentiality and security of the data of the Company and customers, and complies with the Regulations of the People's Republic of China on the Security Protection of Computer Information Systems [《計算機信息系統安全保護條例》], the Administrative Measures for the Security Protection of the International Network of Computer Information Networks [《計算機信息網絡國際聯網安全保護管理辦法》], the Regulations on Technical Measures for Internet Security Protection [《互聯網安全保護技術措施規定》], the Reguirements for Security Protection of Interactive Internet Services [《互聯網交互式服務安全保護要求》] and the Basic Procedures and Requirements for Security Assessment of Internet Services [《互聯網服務安全評估基本程序及要求》] and other laws and regulations, to ensure information security with all strength.

Information security system

For facilities, equipment and hardware information management, the Group has formulated and implemented the "Information Management System" [《信息化管理制度》] and the "Document Management System of the Marketing Department" [《營銷部檔案管理制度》], which clearly delineate and stipulate the management of computer rooms, computers, network security management, and the behaviors of computer operators; for the confidentiality of confidential information assets, strictly limit the scope of data use and personnel's responsibilities and access rights, and strictly control important aspects such as computer room management, computer and network equipment management, information management, network security management and computer operation; in addition, in order to further improve the level of information protection and timely update and upgrade the existing computer firewall of the Company, we have engaged a third-party company to conduct regular information security checks on the Group's firewall to improve the efficiency of prevention in a timely manner.

Information security awareness

The protection of business information is one of the important assets of the Group and is the duty-bound responsibility and obligation of every employee. To this end, we clearly set out in the Employee Handbook the obligations of the Group's employees to fulfill the duty of confidentiality for information assets such as the Group's trade secrets, customer information and employee information, etc. and require every employee to strengthen their awareness of prevention in daily life and work, improve their sensitivity to confidential information, and prevent any intentional or inadvertent information disclosure.

Responsible marketing

Business reputation is the foundation of an enterprise and the key to winning market trust and long-term customer support. The Group attaches great importance to safeguarding the legitimate rights and interests of its customers, strictly abides by the relevant advertising laws and regulations, including the Advertising Law of the People's Republic of China (《中華人民共 和國廣告法》), the Patent Law of the People's Republic of China (《中華人民共 和國廣告法》), the Patent Law of the People's Republic of China (《中華人民共 和國商標法》), the Implementation of the Patent Law of the People's Republic of China (《中華 人民共和國專利法實施細則》), the Trademark Law of the People's Republic of China (《中華 人民共和國著行權法》), Provisions on the Release of Real Estate Advertisement (《房地廣告發佈規定》) and has formulated the "Administration of the Release of Advertisement" (《廣告發佈管理辦法》) to standardize the information release process, deliver complete, true and accurate information, and put an end to the use of all false and misleading information to deceive customers.

In addition, the Group attaches great importance to the protection of intellectual property rights, maintains the patent rights, trademark rights and copyrights of the Group and its partners in accordance with the Intellectual Property Law of the People's Republic of China (《中華人民共和國知識產權法》), the Patent Law of the People's Republic of China (《中華人民共和國專利法》) and other laws and regulations, and holds employees or other individuals and organizations involved in violations and infringements accountable in accordance with laws, so as to protect the legitimate rights and interests of the Company from infringement.

Integrity Construction

The Group adheres to operation with integrity and upholds high ethical standards. We strictly comply with the laws and regulations relating to integrity operations, such as the Supervision Law of the People's Republic of China [《中華人民共和國監察法》], the Company Law of the People's Republic of China [《中華人民共和國刑法》] and the Anti-Money Laundering Law of the People's Republic of China [《中華人民共和國反洗錢法》].

Integrity convention and integrity agreement

We have prepared the Integrity Convention (《廉政公約》) and Integrity Agreement (《廉政協議書》), which specify the code of ethics and conduct to be observed by employees and third party companies in their business activities. These documents clearly prohibit bribery and illegal acceptance of gifts. During the procurement and tendering process, we also prohibit the introduction of relatives and friends to engage in economic activities related to the Group's business, such as equipment supply, subcontracting of works, etc. We strengthen our internal controls through a robust system of monitoring, whistle-blowing, auditing and anti-corruption training to prevent corruption in all forms.

Integrity training and education

During the Year, we provided our directors with online training on building a corporate integrity culture, anti-corruption legislation, risk assessment, internal controls, reporting mechanism, corruption prevention at source, etc. We regularly provide integrity supervision and professional ethics education to our directors and employees to enhance their understanding and awareness of clean conduct. The training includes strengthening of moral values, prevention of conflicting interests, and publicity of laws and regulations, etc. During the Year, we have comprehensively carried out anti-corruption work and strengthened internal control, and conducted anti-corruption supervision and anti-corruption training for directors and employees.

Whistle-blowing mechanism

We provide a secure and confidential whistle-blowing mechanism and channel to encourage employees to report suspected breaches of business ethics. Employees and people who have business dealings with the Group can report suspected corruption and fraud through channels such as email, telephone, and letter, and promptly detect and correct any misconduct. Any violations will be dealt with seriously. During the Reporting Period, there were no corruption-related litigation cases and no violations of relevant laws and regulations that have a significant impact on the Group's operations.

Through these measures, we are committed to establishing a transparent and clean work environment, and encourage every employee to proactively participate in and support the construction of our integrity culture, and jointly protect the Company's reputation and values.

Supply Chain Management

The Group strictly abides by laws and regulations including the Tendering and Bidding Law of the People's Republic of China (《中華人民共和國招標投標法》) and the Regulations on the Implementation of the Tendering and Bidding Law of the People's Republic of China (《中華人民共和國招標投標法實施條例》), and has established a standardised tendering process to select suppliers based on the principles of fairness, impartiality and transparency.

During the supplier selection process, in addition to understanding the nature of their business and basic operations, the Group will score suppliers based on whether they have obtained certifications such as ISO9001 Quality Management System, whether they have extensive experience in similar projects, and their ability to fulfill responsibilities as required by regulations, to confirm supplier's input and performance in product quality, environmental protection, occupational safety and health, etc. The Group conducts strict background review, data review and on-site review on suppliers to ensure their performance capabilities and service quality. For example, we will conduct quality testing or on-site testing on material suppliers, and evaluate the management level of the supervision company, the quality of supervision engineers, the work conditions, etc.

In addition, we will examine whether the suppliers comply with national requirements in terms of environmental protection, labour management, occupational safety and health, such as formulating effective measures to limit the discharge of pollutants and waste in the production process, preventing the employment of child labour, etc., and gain an in-depth understanding of the suppliers' construction methods and raw material usage. We require all suppliers to comply with local laws and regulations in order to reduce potential ESG risks in supply chain.

At the same time, we require suppliers to be committed to protecting the environment and reducing the impact of business operations on the environment, and encourage them to implement green procurement.

During the Year, we had 23 major suppliers located in Shanxi, providing products and services in the areas of building components, electromechanical supplies, and finishing.

CARE FOR EMPLOYEES

The Group respects talents, adheres to the concept of people-oriented and promoting the development of enterprises with the progress of talents, and proactively promotes the improvement of relevant policies. The Group protects the legitimate rights and interests of every employee from the aspects of employment management, talent development, occupational health, equality and diversity, salary and welfare, etc., creates a healthy and harmonious working environment for employees, and encourages employees to grow together with the Company.

Protection of Employee Rights

The Group strictly abides by the laws and regulations in relation to labour and employment including the Labour Law of the People's Republic of China (《中華人民共和國勞動合同法》), the Labour Contract Law of the People's Republic of China (《中華人民共和國勞動合同法》), the Provisions on the Prohibition of Using Child Labour (《禁止使用童工的規定》). Meritocracy is the best way to support our sustainable development. We have developed a sound and transparent recruitment process, and conduct necessary background checks and assessment procedures on candidates to ensure that candidates' education, work experience, skills and other indicators meet the job requirements. At the same time, we ensure that candidates' interview and employment opportunities will not be affected due to gender, age, race, religion and other factors. We respect every employee who has made contributions to the Company. For employees who wish to leave, the Group will terminate the employment relationship in strict accordance with the relevant provisions of the Labour Law of the People's Republic of China and the Labour Contract Law of the People's Republic of China, and sincerely understand the real reasons for their resignation and make relevant improvements in the future.

In strict accordance with the Provisions on the Prohibition of Using Child Labour and the Law of the People's Republic of China on the Protection of Minors and other laws and regulations, the Group strictly examines the age and other identity information of applicants in the recruitment process, and will not sign labour contracts with applicants who are under the age of work to avoid the recruitment of child labour; meanwhile, the Group implements a standard working hour system of no more than 8 hours per day and no more than 40 hours per week to prevent the occurrence of forced labour or exploitation. In case of any violation, we will deal with it seriously in accordance with the relevant regulations.

During the Reporting Period, there were no cases of non-compliance in relation to remuneration and dismissal, recruitment and promotion, working hours, equal opportunities on leave, diversity, anti-discrimination, other treatment and benefits, employment, employment of child labour or forced labour.

Rich Well-being of Employees

The Group respects and values the legitimate rights and interests of all employees. We strictly comply with the Labour Law of the People's Republic of China and relevant regulations in the places of other branches. While protecting the basic rights and interests of employees in accordance with the internal "Employee Welfare System" [《員工福利制度》], we provide employees with fair and competitive salaries and due welfare benefits, and share the achievements of enterprise development with employees.

The Group has formulated the "Chen Xing development Salary System Design Plan" [《辰興發展薪酬體 系設計方案》], pursuant to which the remuneration of our employees consists of basic wages, appraisal wages, performance wages and seniority wages. We pay employees seniority wages based on the time they have served the Group, and pay employees appraisal wages and performance wages based on the results of regular employee performance appraisals. In addition to statutory holidays, we provide annual leave, wedding leave, funeral leave, maternity leave, sick leave and work injury leave, etc., to promote employees to maintain a work-life balance.

In terms of benefits, the Group complies with the national policies of China and provides eligible employees with basic pension insurance, unemployment insurance, medical insurance, basic medical insurance, large amount medical insurance, work injury insurance, maternity insurance and housing provident fund. We also offer holiday allowances during traditional holidays such as Mid-Autumn Festival and Spring Festival. We also provide our employees with one-child allowance, allowances for working under high temperature, heating fees and other benefits and allowances to demonstrate the Group's care and support for its employees.

During the Year, we carried out outdoor hiking, company annual meeting and other activities to express thanks to employees for their hard work and enrich the life of employees. In 2023, the Group organized outdoor activities such as kayaking and climbing the Great Wall to encourage employees to embrace nature, relieve work pressure and enhance team cohesion; at the 2023 Spring Festival annual meeting, the Group mainly commended the teams and employees who made outstanding achievements in the past year, setting an example within the Company, to encourage all employees to work hard in the new year.

Employee Health and Safety

The occupational health and safety of employees is an important guarantee for the development of enterprises. The Group strictly abides by the laws and regulations such as the Law of the People's Republic of China on the Prevention and Control of Occupational Diseases [《中華人民共和國職業病防治法》], the Law of the People's Republic of China on Work Safety [《中華人民共和國安全生產法》], the Fire Law of the People's Republic of China (《中華人民共和國消防法》], the Regulations on Supervision and Administration of Occupational Health in Workplace [《工作場所職業衛生監督管理規定》], and the Regulation on Work Related Injury Insurances [《工傷保險條例》], and has formulated and implemented the "Requirements for Environmental Protection and Occupational Health and Safety Control in Construction Processes" [《施工過程環保和職業健康安全控制要求》]. The Group eliminates the risk of production accidents by regular inspection of the working environment, implementation of management responsibilities during the process, etc.

Meanwhile, enterprise safety production depends on the occupational safety awareness of employees. The Group has developed documents such as such as the "Construction Safety Inspection Standards" (《建築施 工安全檢查標準》) and "Safety Operation Procedures for Various Types of work" (《各工種安全操作規程》) to continuously improve all employees including all those involved in the construction, to instill the safety awareness of "safety first, precaution foremost and comprehensive governance"; through safety education meetings, centralized lectures, publicity posters, assessment tests, etc. on emergency rescue, special operations, electricity safety and other contents, we conduct complete and effective pre-job training for employees, to create a "safety first" cultural atmosphere in the whole company. In addition, the Group actively cares for the physical health of employees and organizes physical check-ups for employees in the headquarters office to help employees avoid health risks.

Case: outdoor activities

In order to create a healthy living atmosphere in the Company and further enhance the cohesion of staff in various departments, the Group organized employees of the headquarters, Yijun, commercial, door and window branches to carry out activities such as kayaking, Party building education, walking scenery, etc.

During the Reporting Period, the Group did not receive any complaint or involve in any litigation regarding the breach of health and safety related laws nor was there any case of work-related fatality in the past three years.

Empowering Employee Development

The long-term and stable development of the Group depends on the continuous development and progress of employees. The Group attaches great importance to employee training and career development. Through continuous improvement of the employee training system, the Group cultivates staff literacy, improves post professional level, and clarifies the career development path. It is committed to achieving personal growth of employees while helping the Group achieve new business achievements, to ultimately achieve a win-win situation for both sides.

In terms of employee promotion, the Group upholds the concept of justice and equity and merit-based selection of talents. We have established an employee assessment and promotion system according to the "Administration Measures of Employee Promotion Competition for Chen Xing Development" [《辰興發 展員工晉升競聘管理辦法》] and performance indicators, to conduct a scientific and objective evaluation of employees' work performance based on the business characteristics of different departments to give priority to them in internal promotion, and draw an evaluation conclusion based on the assessment results of various indicators as a basis for considering the adjustment of employees' salary and rank promotion.

Case: Political theory learning

During the Year, we organized political theory learning for our employees to help them understand international current affairs and national development plans, find a correct position in the great changes that have not been seen in a century, and forge ahead.

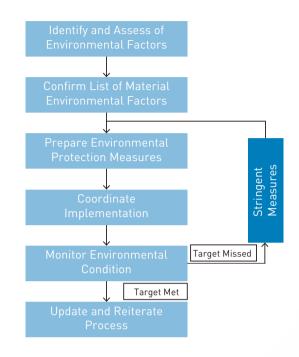

ENVIRONMENTAL PROTECTION

The Group attaches importance to maintaining good environmental management to practice the concept of green operations, and is committed to reducing carbon emissions and controlling its environmental impact. We strictly comply with laws and regulations including the Environmental Protection Law of the People's Republic of China (《中華人民共和國環境保護法》), the Energy Conservation Law of the People's Republic of China (《中華人民共和國節約能源法》), the Law of the People's Republic of China (《中華人民共和國節約能源法》), the Law of the People's Republic of China on Prevention and Control of Water Pollution (《中華人民共和國水污染防治法》), the Law of the People's Republic of China on Prevention and Control of Pollution from Environmental Noise (《中華人民共和國環境噪聲污染防治法》), the Solid Waste Pollution Prevention and Control Law of the People's Republic of China (《中華人民共和國 固體廢物污染環境防治法》) and the Regulations on Environmental Protection Management of Construction Projects (《建設項目環境保護管理條例》). During the Reporting Period, the Group did not violate any laws relating to environmental protection or cause any major incidents affecting the environmental protection.

The Group also proactively explores green building, improving the efficiency of resource use, and coping with climate change, and strives to promote the harmonious and sustainable development of business operations and the environment.

We have formulated and implemented the Environmental Protection Management System for Construction Projects [《建設項目環境保護管理制度》] and the Management Provisions on Code of Ethics at Project Sites [《工程現場文明標化管理規定》] and other files, to standardize the environmental assessment of development projects and the environmental protection acceptance of the project completion, and identify the environmental factors of the development and construction projects that have potential impact on the environment. In addition, we have set up an environmental protection management leading group, and established environmental protection, environmental sanitation management and inspection systems at the construction site, to ensure that the Group's environmental protection policy is implemented at the construction site and environmental protection policies and measures are implemented in daily operations.

Environmental Management Flow

Green Design

The Group continues to implement green building, green construction, green operation and other initiatives. We actively explore the low-carbon development of properties, and compiled the "Design Concept Brochure for Green Building Projects" [《綠色建築項目的設計概念小冊子》], covering use of natural light, lighting, energy saving, water conservation and site selection as a reference for green property design. We use highly efficient thermal insulation materials and equipment in our projects, and where possible, we adopt designs that integrate with the nature, such as the use of natural light, extensive use of vegetation, and the use of solar hot water systems to improve energy efficiency and manage greenhouse gas emissions. By improving the environmental pollution that may be caused during the construction process, the design incorporates multiple sustainable design concepts, in order to make contributions to the establishment of sustainable communities and cities.

Green Construction

The Group strictly abides by the "Integrated Wastewater Discharge Standard [《污水綜合排放標準》], "Methods for Measuring Noise at Construction Sites" [《建築施工場界噪聲測量方法》] and "Taiyuan City Emergency Plan for Weather of Heavy Pollution" [《太原市重污染天氣應急預案》] and other regulations relating to construction dust pollution, sewage discharge, noise management and construction waste. The Group has formulated relevant systems such as the Green Construction Guidelines [《綠色施工導則》] for daily operations, and adopts green construction operations in terms of energy, water use, materials and environmental protection. We strive to minimize energy consumption and environmental harm through strict environmental protection management. Our green construction initiatives are as follows:

Air Quality Manageme	nt
Construction Dust	 To reduce dust emission during construction: Adopt the new technology "Triple Protection-Heat, Flame and Dust-proofed Cloth" instead of the traditional green mesh covering construction materials Use new equipment for woodwork — "Integrated Woodworking Processing Machine" Carry out rust removal from steel structures in enclosed spaces
	 To prevent wind-borne dust: We require contractors to ensure that cement storages on site are kept closed, powered building materials are stored in bags or barrels with covers or separated with fences or stacked in work sheds
	 To control the spreading of dust: The contractor will clean up the construction site in a timely manner and will control the spreading of dust by having dedicated workers who regularly spray water on the surface of powdered materials on the construction site
Transportation Dust	 To reduce dust from transportation: We grow plants in the green area of the worksite, spray water on the roads regularly and require vehicles entering and leaving the site to be covered with tarpaulins We strengthen the maintenance of all vehicles to ensure performance and use efficient fuels to reduce exhaust emission

Construction Site Waste Water	
Sewage from toilet	• The sewage from the toilets is directed to the septic tank before being discharged into the on-site sewage network; the project environmental manager is responsible for liaising with the local sanitation department to clean the septic tank on a regular basis
Washout waste water	• The water from rinsing vehicles is collected and settled in sedimentation tanks, after which the water is sprinkled on the site for dust reduction, etc.

Noise and Vibration Control

- Contractors are required to take responsibility for noise management
- The working hours for noise-intensive works are strictly controlled in densely populated areas
- Low-noise and low-vibration machinery are used; noise and vibration isolation measures are adopted
- Real-time noise monitoring and control are carried out at the construction sites

Construction Waste Control	
Liquid wastes	 Store in containers and remove from site in a timely manner in accordance with local regulations
High-rise wastes	 Use mobile, sealed containers for storage, and no toxic or hazardous materials are allowed to use for backfilling

Green Operation

The Group aims to maintain or progressively reduce its relevant carbon emissions, energy use, water use and waste generation intensity at a similar level of operations compared to the base year in the future through the implementation of various measures. Specific measures are as follows:

Construction waste control	
Thinner waste	 Use bucket containers for storage, and clear out the waste in accordance with the relevant local regulations in a timely manner

Energy conservation and emission reduction

- Divide the office into several different lighting areas, and set up independently controllable lighting switches;
- Install dynamic sensor lights in places that are infrequently used and where there is sufficient sunlight;
- Use daylight lighting as much as possible and reduce dependence on electric lights;
- Adopt a water-cooled air-conditioning system with variable speed drives to regulate and control the air-conditioning temperature in the office areas according to the actual demand;
- Regularly clean the filters of the lighting fixtures and air-conditioning system to prevent unnecessary energy wastage.

Water Conservation Office

- Regularly conduct water pipe leakage and faucet drip tests to check whether there is any water leakage;
- Post water saving signs in toilets, reminding employee to turn off the taps;
- Make good use of sensor-activated taps and dual-flush toilets.

Waste Reduction Office

- Encourage employee to reduce the use of disposable or non-recyclable products;
- Reuse office stationery such as envelopes, folders and binders;
- Adopt an electronic office system to replace the paper-based office administration system;
- Keep a stock count of supplies and assess consumption from time to time to avoid overstocking and waste

Energy Saving and Emission Reduction

The Group's greenhouse gas emissions are mainly from office electricity consumption and company vehicle emissions. We conducted a greenhouse gas inventory for the Group's head office in Jinzhong City, Shanxi Province and its subsidiary project in Taiyuan City in accordance with the Greenhouse Gas Inventory Protocol (《溫室氣體盤查議定書》) developed by the World Resources Institute and the World Business Council for Sustainable Development and ISO 14064–1 developed by the International Organization for Standardization. In the year, the Group's total greenhouse gas emissions were 1,537.83 tons of carbon dioxide equivalent, and the greenhouse gas emission intensity was 0.16 ton of carbon dioxide equivalent per square meter. Targets for the year are well completed, with a decrease of approximately 50% as compared to the base year. In terms of electricity consumption, the Group's total electricity consumption was 2,528 MWh, and the electricity consumption intensity was 0.26 MWh per square meter. Targets for the Year are well completed to the base year.

Water Conservation Office

During the Year, the sewage source of the office building of the Group's headquarter in Jinzhong City, Shanxi Province and the subsidiary project in Taiyuan City was domestic sewage. There is no problem in sourcing water that is fit for purpose. The total water consumption was 33,525m³, while the water consumption intensity was 3.41m³ per square metre. Targets for the year are well completed with a decrease of approximately 44% as compared to the base year.

Waste Reduction Office

During the Year, waste disposal management was implemented at the office building of the Group's headquarter in Jinzhong City, Shanxi Province and the subsidiary project in Taiyuan City. The total amount of non-hazardous waste was 29 metric tonnes and the intensity of non-hazardous waste generated was 2.95 kilograms per square metre. Targets for the year are well completed, with a decrease of approximately 49% as compared to the base year. Our hazardous waste was mainly waste electronic equipment, including 116 pieces of used ink cartridges/used toner cartridges. We work with electronic companies to collect and recycle used computers and other electronic waste.

Comprehensive analytical tracking and analysis of past environmental performance data enables us to continuously monitor the Group's green operations and energy efficiency results. In the future, we will continue our efforts to monitor energy, water, waste and greenhouse gas emissions. Meanwhile, timely adjustments to our green operation initiatives have further mitigated the potential environmental impact of the Group's operations.

Environmental Aspect	Target	Performance in 2023
Greenhouse gas emissions	According to the Group's energy conservation initiatives, which is being actively pursued, the intensity of greenhouse gas emissions will be maintained or progressively reduced in the future compared to 2020 at a similar level of operation.	Decrease from base year
Energy efficiency	In accordance with the Group's energy conservation initiatives, which is being actively pursued, the intensity of electricity consumption will be maintained or progressively reduced in the future compared to 2019 at a similar level of operation.	Decrease from base year

Environmental Aspect	Target	Performance in 2023
Water use efficiency	In accordance with the Group's water conservation initiatives, which is being actively pursued, the intensity of water consumption will be maintained or progressively reduced in the future compared to 2019 at a similar level of operation.	Decrease from base year
Waste reduction	In accordance with the Group's material conservation initiatives, which is being actively pursued, the intensity of waste generation will be maintained or progressively reduced in the future compared to 2018 at a similar level of operation.	Decrease from base year

Responding to Climate Change

The Group understands that climate change is closely related to operation. The Group regularly reviews the impact of climate change on its day-to-day business operations. We will proactively evaluate and manage climate-related operational risks and enhance our resilience to climate changes.

In addition, the Group also proactively cooperates with the country's vision of striving to reach the peak carbon dioxide emissions by 2030 and carbon neutrality by 2060. We strictly abide by laws and regulations on climate change. During the Year, the Group identified climate-related risks and opportunities to which the Company may be affected with reference to the Task Force on Climate-Related Financial Disclosure (TCFD) initiative framework.

Risk type		Risk description	Countermeasures
Physical risk	Acute	 Increasingly severe extreme weather events such as floods and heat waves, etc. Extreme heat can lead to reduced employee productivity Damage or destruction to a building that increases the operating cost of repair or replacement 	• Implement flexible work arrangements in response to climate change, including: formulating the "Special Weather Safety Management" (《特殊天氣安全管理》) and developing seasonal safety construction measures according to the current climate conditions in Taiyuan

Risk type		Risk description	Countermeasures
	Chronic	 Climate change may alter community microclimates, affecting local livability Factors such as temperature need to be considered in the design of the project, and the use of more suitable building materials may lead to higher costs 	 Conduct pre-location assessments to prevent development in high-risk locations, to prevent extreme hot weather or extreme cold weather, as well as other extreme weather events, from affecting the comfort of our tenants
Transition risk	Policies and regulations	The introduction of climate-related policies will increase compliance costs	 Closely monitor changes in policies, regulations and building standards, and adopt best practices and update guidelines in the design of buildings to enhance our climate change resilience
	Technology	Greater demand for climate- resilient properties	 Incorporate sustainability into major renovations and new developments to support low carbon and, where possible, climate resilient building materials or energy efficient design to help mitigate climate warming
	Reputation	External stakeholders have increased expectations for enterprise to respond to climate changes and are unable to respond effectively, thus affecting the Company's reputation	 Publicly disclose the Company's greenhouse gas emissions data and efforts in low-carbon operations in the ESG report to proactively maintain the corporate image
Opportunity type		Financial impact	Countermeasures
Resource efficiency improvement		• Improve energy efficiency and reduce operating costs	 Reduce the daily use of energy sources such as water and electricity to improve resource efficiency
Products and services		 Engagement in the green building business can improve the market position and gain more investors' preferences 	 Promote the application of energy efficient design and construction technology in project development

CO-CONSTRUCTION OF HARMONIOUS SOCIETY

The Group consistently adheres to the development concept of "Honesty and Kindness, Social Commitment, Gratitude and Giving". In view of this, during the Year, the Group organized opportunities to discuss community activities such as "Revolutionary Theme Movie Watching", "Lantern Riddles" and "Warm Winter Family Dinner" to support community projects aligned with the Group's mission and values. Looking ahead, we will continue to strive to make contributions to the sustainable development of the social economy and to the society through synergies.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF CHEN XING DEVELOPMENT HOLDINGS LIMITED

(incorporated in Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Chen Xing Development Holdings Limited (the "**Company**") and its subsidiaries (the "**Group**") set out on pages 305 to 394, which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") and have been properly prepared in compliance with the disclosure requirements of the Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") issued by the HKICPA.

Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the HKICPA's "Code of Ethics for Professional Accountants" [the "**Code**"], and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MATERIAL UNCERTAINTIES RELATED TO GOING CONCERN

We draw attention to Note 2.1 to the consolidated financial statements, as at 31 December 2023, the Group has total bank and other borrowings amounted to RMB2,857,782,000, out of which RMB2,815,782,000 will be due for repayment on demand or within the next twelve months, while its cash and cash equivalents only amounted to RMB203,689,000 as at 31 December 2023. As stated in Note 2.1, these conditions, along with the other matters as set forth in Note 2.1 to the Consolidated Financial Statements indicate that material uncertainties exist that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the "Material Uncertainties Related to Going Concern" section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Assessment of the net realisable value ("NRV") of properties under development ("PUD") and completed properties held for sale ("PHS")

As at 31 December 2023, the Group's PUD and PHS amounted to RMB5,071,498,000 and RMB915,170,000, respectively, which represented in aggregate 45% of the total assets of the Group. The assessment of whether the carrying amounts of the properties were higher than their net realisable values, and consequently, whether a write-down of carrying amounts was required, was made by management through the application of judgement and the use of subjective assumptions such as the expected selling prices, the costs of completion of properties under development and the costs to be incurred in selling the properties based on prevailing market conditions.

The Group's disclosures about the PUD and PHS are included in notes 2.4, 3, 7, 15 and 21 to the consolidated financial statements, which also explain the accounting policies and management's accounting estimates.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS (continued)

Assessment of the net realisable value ("NRV") of properties under development ("PUD") and completed properties held for sale ("PHS") (continued)

Our response:

- Evaluating the basis for the provision assessment by understanding the assumptions used to determine the NRV of PUD and PHS;
- Evaluating the assumptions used by checking, on a sample basis, the selling prices of properties to latest sale transactions and the forecasted selling prices and reviewing the pre-sale status of other projects in the same location to evaluate the saleability;
- Assessing the costs to complete or sell the properties by reviewing budgets contractor agreements signed and comparing with historical expenses rate for other similar projects; and
- Performing gross profit margin analysis for projects.

Valuation of investment properties

As at 31 December 2023, the Group's investment properties amounted to RMB103,000,000 and were measured at fair value. It is the Group's policy to have investment property valuations performed by an independent professional valuer at least once a year, to assist management in the fair valuation process. The valuations of the investment properties were highly dependent on estimates such as current and future market rents and yields, which were subject to uncertainty and might materially differ from the actual results.

The Group's disclosures about the valuation of investment properties are included in notes 2.4, 3 and 14 to the consolidated financial statements, which also explain the accounting policies and management's accounting estimates.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS (continued)

Valuation of investment properties (continued)

Our response:

- Evaluating the objectivity of the valuation process and expertise of the independent professional valuer;
- Involving our internal valuation specialists to assist in evaluating the methods applied, the underlying assumptions and parameters adopted in the valuation of investment properties performed by management and the independent professional valuer;
- Assessing the property-related data used as inputs for the valuations by checking to existing rental agreements, the rates of rent quoted for similar properties and the occupancy rates of the properties; and
- Reviewing the related disclosures in the consolidated financial statements.

OTHER INFORMATION IN THE ANNUAL REPORT

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

For the year ended 31 December 2023

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("**HKASs**") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties and equity investments which have been measured at fair value. These financial statements are presented in Renminbi ("**RMB**") and all values are rounded to the nearest thousand except when otherwise indicated.

Going concern basis

As at 31 December 2023, bank loans interest payable of approximately RMB4,314,000 had not repaid according to their scheduled repayment date. As the Group failed to repay the loan interests in accordance with the repayment schedule for the year ended 31 December 2023, the related loans became immediately due in accordance with the terms of loan agreements. Hence, the entire principal of approximately RMB321,817,000 together with the interest payable and penalty interest of approximately RMB4,314,000 and approximately RMB180,000 respectively were classified as current liabilities as at 31 December 2023.

As stipulated in the relevant loan and financing agreements in respect of certain borrowings of the Group other than those mentioned above, the delay of repayment of the above borrowings resulted in trigger the rights to request for immediate repayment term of certain borrowings with principal amount of approximately RMB2,438,465,000. Hence, the entire amount of the borrowings became immediately payable and has been classified as current liabilities as at 31 December 2023.

In the preparation of the Group's working capital forecast, the Directors have given careful consideration to the Group's future liquidity and performance and its available sources of financing to continue as a going concern. The working capital forecast for the 18 months from the date of financial statements ("**Forecast Period**") have been prepared with the following major assumptions and events being taken into account of:

- i. the disposal of equity interests in Jinzhong Development Zone Development and Construction Group Co. Ltd will be completed in the first half of 2024 and the payment of the consideration will be settled in accordance with the equity transfer agreement;
- ii. the lenders in respect of the borrowings that have the rights to demand for immediate repayment will not exercise their rights to demand immediate repayment of the relevant loans or prior to their scheduled contractual repayment dates;
- iii. lenders of other loans with maturity dates due during the Forecast Period will extend their maturity dates and will not demand partial or full repayment of the loans; and
- iv. the core business operation, asset based of the Group and the market conditions in which the Group operates and/or invests in will not differ materiality from those of present.

For the year ended 31 December 2023

2.1 BASIS OF PREPARATION (continued)

Going concern basis (continued)

As a result of the borrowings that might be demanded for immediate repayment, the future operating cash inflow of the Group may not be sufficient to match the repayment schedule of borrowings and relevant interest payments.

The Board has continuously devoted effort to resolve the liquidity issue mentioned above. In view of these circumstances and to address the issue on working capital sufficiency, the Company has taken and propose to take the following measures:

- i. the Group verbally agreed with the Group's lenders not to enforce their rights of requesting for immediate repayment and to renew or extend the borrowings prior to their respective maturity dates. During the year ended 31 December 2023 and up to the date of this report, the Directors had not received any notices or requests from lenders for immediate repayment of the borrowings. The Director expected that the Group would be able to renew bank and other borrowings with an aggregate outstanding principal of RMB2,815,782,000 that are repayable within one year for another year prior to their respective maturity dates.
- ii. The Group is in active negotiations with the lenders in respect of the borrowings that have the rights to demand for immediate repayment for a debt restructuring so as to settle the borrowings by using the proceeds from new borrowing plans. Subsequent to 31 December 2023 and as of the date of this report, the Group obtained new borrowing facilities of RMB250 million.
- iii. the directors of the Group have prepared a business strategy plan mainly focuses on the acceleration of the pre-sales and sales of its properties under development and completed projects in order to generate additional operating cash inflows and putting extra efforts on the collection of trade debtors to improve the debtors' turnover days, and the implementation of cost control measures.
- iv. The Company will continue to seek suitable opportunities to dispose of its equity interests in certain project development companies in order to generate additional cash inflows.

Assuming the successful implementation of the above measures, the Directors are of the opinion that the Group would have had sufficient working capital to finance its operation and meet its financial obligations as and when they fall due within the next twelve months from 31 December 2023. Accordingly, the Directors are satisfied that it is appropriate to prepare the consolidation financial statements of the Group for the year ended 31 December 2023 on a going concern basis.

For the year ended 31 December 2023

2.1 BASIS OF PREPARATION (continued)

Going concern basis (continued)

Notwithstanding the above, material uncertainties exist that may cast significant doubt on the Group's ability to continue as going concern, which depends on (i) whether it can successfully negotiate with the lenders on the extension or deferral of the repayment of the Group's borrowings, renewal of existing borrowings upon maturity and the new borrowing plans and (ii) the successful implementation of measures described above in the normal course of businesses.

Should the Group be unable to operate as a going concern, adjustments may have to be made to write down the carrying values of the Group's assets to their recoverable amounts, to provide for further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in these consolidated financial statements.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "**Group**") for the year ended 31 December 2023. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

For the year ended 31 December 2023

2.1 BASIS OF PREPARATION (continued)

Basis of consolidation (continued)

The consolidated financial statements incorporate the results of business combinations using the acquisition method. In the statement of financial position, the acquiree's identifiable assets, liabilities and contingent liabilities are initially recognised at their fair values at the acquisition date. The results of acquired operations are included in the consolidated statement of comprehensive income from the date on which control is obtained. They are deconsolidated from the date on which control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

For the year ended 31 December 2023

2.1 BASIS OF PREPARATION (continued)

Changes in accounting policies

New guidance on accounting for the MPF-LSP offsetting mechanism in Hong Kong issued by HKICPA

In June 2022, Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 ("**the Amendment Ordinance**") was enacted. The Amendment Ordinance abolishes the use of the accrued benefits derived from employers' mandatory contributions under the mandatory provident fund ("**MPF**") scheme to offset severance payment ("**SP**") and long service payments ("**LSP**") ("**the Abolition**"). Subsequently, the Government of HKSAR announced that the Abolition will take effect on 1 May 2025 ("**the Transition Date**").

The following key changes will take effect since the Transition Date:

- Accrued benefits derived from employers' mandatory MPF contributions cannot be used to
 offset the LSP/SP in respect of the employment period after the Transition Date.
- The pre-transition LSP/SP is calculated using the last month's salary immediately preceding the Transition Date, instead of using the last month's salary of employment termination date.

Due to the complexities of the accounting for the offsetting of accrued benefits derived from an employer's mandatory MPF contributions and its LSP obligation and the accounting for the offsetting mechanism could become material in light of the Abolition, the HKICPA published "Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong" ("**the Guidance**") in July 2023 to provide guidance to account for the offsetting mechanism and the Abolition. The HKICPA concluded that there are two acceptable accounting approaches for the offsetting mechanism, being:

- Approach 1: Account for the amount expected to be offset as a deemed employee contribution towards that employee's LSP benefits in terms of HKAS 19.93(a)
- Approach 2: Account for the employer MPF contributions and the offsetting mechanism as a funding mechanism for the LSP obligation

For the years ended 31 December 2022 and 2023, the Group's LSP liability before the expected offsetting under the MPF-LSP offsetting mechanism is immaterial. Application of the Guidance had no material effect on the consolidated financial statements of the Group.

For the year ended 31 December 2023

2.2 ADOPTION OF NEW OR REVISED HONG KONG FINANCIAL **REPORTING STANDARDS ("HKFRSs") EFFECTIVE 1 JANUARY 2023**

In the current year, the Group has applied for the first time the following new or revised standards, amendments and interpretations (the "new or revised HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), which are relevant to and effective for the Group's consolidated financial statements for the annual period beginning on 1 January 2023:

HKFRS 17	Insurance Contracts
Amendments to HKAS 1 and	Disclosure of Accounting Policies
HKFRS Practice Statement 2	
Amendments to HKAS 8	Definition of Accounting Estimates
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities
	arising from a Single Transaction
Amendments to HKAS12	International Tax Reform — Pillar Two Model Rules

Except for the Amendments to HKAS 1 Presentation of Financial Statements and HKFRS Practice Statement 2 Making Materiality Judgements summarised below, the other new or amended HKFRSs has no material impact on the Group's results and financial position for the current or prior period and on accounting policies.

Amendments to HKAS 1 Presentation of Financial Statements and HKFRS Practice Statement 2 Making Materiality Judgements (Disclosure of Accounting Policies)

The HKICPA issued HKFRS Practice Statement 2 Making Materiality Judgements in March 2021 to provide entities with non-mandatory quidance on how to make materiality judgements when preparing their general purpose financial statements in accordance with HKFRS. In April 2021, the HKICPA issued amendments to HKAS 1 and HKFRS Practice Statement 2. The amendments aim to make accounting policy disclosures more informative by replacing the requirement to disclose "significant accounting polices" with "material accounting policy information". The amendments also provide guidance under what circumstance, the accounting policy information is likely to be considered material and therefore requiring disclosure.

These amendments have no effect on the measurement or presentation of any items in the consolidated financial statements of the Group but affect the disclosure of accounting policies of the Group. The Group has revisited the accounting policy information it has been disclosing and removed certain immaterial accounting policies.

For the year ended 31 December 2023

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that has been issued but are not yet effective, in these consolidated financial statements.

Amendments to HKAS 1	Classification of liabilities as Current or Non-current ¹
Amendments to HKAS 1	Non-current Liabilities with Covenants ¹
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor
	and its Associate or Joint Venture ³
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback ¹
Amendments to HKFRS 7	Supplier finance arrangements ¹
Amendments to HKFRS 21	Lack of exchangeability ²

Effective for annual periods beginning on or after 1 January 2024.

² Effective for annual periods beginning on or after 1 January 2025.

³ Effective for annual periods beginning on or after a date to be determined.

The Group is in the process of making an assessment of the impact of these new or revised HKFRSs upon initial application.

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION

Basis of consolidation

Where the Company has control over an investee, it is classified as a subsidiary. The Company controls an investee if all three of the following elements are present: power over the investee, exposure to variable returns from the investee, and the ability of the investor to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

Fair value measurement

The Group measures its investment properties and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability. Or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Fair value measurement (continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets (excluding inventories, investment properties and deferred tax assets)

Non-financial assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount (i.e. the higher of value in use and fair value less costs to sell), the asset is written down accordingly. Impairment charges are included in profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the smallest group of assets to which it belongs for which there are separately identifiable cash flows i.e. cash generating units ("**CGUs**").

An impairment loss recognised for goodwill is not reversed.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. When an item of property, plant and equipment is classified as held for sale or when it is part of a disposal group classified as held for sale, it is not depreciated and is accounted for in accordance with HKFRS 5. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	1.9%-19.00%
Motor vehicles	9.50%-19.40%
Machinery	9.50%-19.40%
Office equipment	9.50%-32.33%
Leasehold improvements	20.00%-33.33%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

Investment properties

Investment properties are interests in buildings (including the leasehold property held as a right-of-use asset which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of profit or loss in the year of the retirement or disposal.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Investment properties (continued)

If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" for owned property and/or accounts for such property in accordance with the policy stated under "Right-of-use assets" for property held as a right-of-use asset up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation in accordance with HKAS 16 Property, Plant and Equipment. For a transfer from completed properties held for sale to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognised in the statement of profit or loss.

The Group determines whether completed properties held for sale would be transferred to investment properties when, and only when, there is a change in use, evidenced by the following criteria: (a) the Group has prepared a business plan that reflects the future rental income generated by the property and this is supported with evidence that there is demand for rental space; (b) the Group can demonstrate that it has the resources, including the necessary financing or capital, to hold and manage an investment property; (c) the change in use is legally permissible; (d) if the property must be further developed for the change in use, and the development has commenced; and (e) change in use is approved by a board resolution.

Properties under development

Properties under development are intended to be held for sale after completion. On completion, the properties are transferred to completed properties held for sale. Properties under development are stated at the lower of cost and net realisable value and comprise land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period.

Properties under development are classified as current assets unless they are not realised in the normal operating cycle.

Completed properties held for sale

Completed properties held for sale are stated in the statement of financial position at the lower of cost and net realisable value. Cost is determined by an apportionment of the total costs of land and buildings attributable to the unsold properties. Net realisable value takes into account the price ultimately expected to be realised, less estimated costs to be incurred in selling the properties.

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Allocation of property development costs

Land costs are allocated to each unit according to their respective saleable gross floor areas ("**GFA**") to the total saleable GFA. Construction costs relating to units were identified and allocated specifically. Common construction costs have been allocated according to the saleable GFA similar to land costs.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of the Group's right-of-use assets principally includes initial direct costs incurred, and lease payments made at or before the commencement date. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold land 40 years

When the right-of-use assets relate to interests in leasehold land held as properties under development, they are subsequently measured at the lower of cost and net realisable value in accordance with the Group's policy for "Properties under development".

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Leases (continued)

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease. The Group's leases were principally operating leases.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("**SPPI**") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Investments and other financial assets (continued)

Initial recognition and measurement (continued)

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

Land development cost recoverable

Land development cost recoverable represents the Group's contractual right to receive cash (amounted to its previous payments and finance cost capitalised for a land development project) from a PRC local-government related entity (note 23). The directors of the Company had considered all available circumstances at the initial recognition of Land development cost recoverable and considered it represented solely payments of principal and interest.

Land development cost recoverable is recognised initially at fair value. The Group holds the Land development cost recoverable with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment assessment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Investments and other financial assets (continued)

Subsequent measurement (continued)

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under HKAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("**ECLs**") for all debt instruments not held at fair value through profit or loss. ECLs are based on the differences between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Impairment of financial assets (continued)

General approach (continued)

Land development cost recoverable

The Group presumes that government will take 9 months to arrange funding and evaluate the settlement plan for the land development cost recoverable. Therefore, the Group assumes that the credit risk of land development cost recoverable has increased significantly if it is more than 9 months past due.

The Group may also consider the land development cost recoverable to be in default when internal or external information indicates that the Group is likely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. The land development cost recoverable is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade and lease receivable which apply the simplified approach as detailed below.

- Stage 1 Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Financial liabilities

Initial recognition and measurement

The Group's financial liabilities include trade and other payables and interest-bearing bank and other borrowings.

Subsequent measurement

The subsequent measurement of loans and borrowings is as follows:

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is in accordance with the accounting policy for borrowing costs.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal. Further details are included in note 3 to the financial statements.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the country in which the Group operates.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Income tax (continued)

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognised for all deductible temporary differences, and the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised.

In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Revenue recognition (continued)

Revenue from contracts with customers (continued)

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

(a) Sale of properties

Revenue from the sale of properties is recognised at the point in time when control of the properties is transferred to the customer, generally on delivery of the properties.

(b) Sale of construction materials

Revenue from the sale of construction materials is recognised at the point in time when control of the assets is transferred to the customer, generally on delivery of the construction materials.

Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are incurred.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Revenue recognition (continued)

Other income (continued)

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Employee benefits

Short term employee benefits

Salaries, annual bonuses, paid annual leave, and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees.

Pension scheme

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

The Group participates in the national pension schemes as defined by the laws of the PRC since the Group only has operations in the PRC. Subsidiaries within the Group which are established and operate in Mainland China are required to provide certain staff pension benefits to their employees under existing regulations of the PRC (the "**PRC Pension Scheme**"). The Group's employer contributions to the PRC Pension Scheme vest fully with the employees upon the contributions are made and hence no forfeited contributions arise when the employees leave the scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale, and suspended when the projects are suspended during the extended periods in which the Group suspends active development of a qualifying asset. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

For the year ended 31 December 2023

2.4 SUMMARY OF MATERIAL ACCOUNTING INFORMATION *(continued)*

Non-current assets held for sale and disposal groups

Non-current assets and disposal groups are classified as held for sale when:

- They are available for immediate sale
- Management is committed to a plan to sell
- It is unlikely that significant changes to the plan will be made or that the plan will be withdrawn
- An active programme to locate a buyer has been initiated
- The asset or disposal group is being marketed at a reasonable price in relation to its fair value, and
- A sale is expected to complete within 12 months from the date of classification.

Non-current assets and disposal groups classified as held for sale are measured at the lower of:

- Their carrying amount immediately prior to being classified as held for sale in accordance with the group's accounting policy; and
- Fair value less costs of disposal.

Following their classification as held for sale, non-current assets (including those in a disposal group) are not depreciated.

The results of operations disposed during the year are included in the consolidated statement of comprehensive income up to the date of disposal.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

For the year ended 31 December 2023

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for expected credit losses on trade receivables and other receivables

The Group uses a provision matrix to calculate ECLs for trade receivables and other receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults in the property development sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables and other receivables is disclosed in note 22 and note 23 to the financial statements, respectively.

The loss allowances for land development cost recoverable are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on default rate of counterparties (i.e. relevant local government in the PRC), as well as other relevant credit risk adjustment and forward looking estimates at the end of each reporting period.

For the year ended 31 December 2023

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

Estimation of fair value of investment properties

Investment properties were revalued based on the appraised market value by independent professional valuers. Such valuations were based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In making the estimate, the Group considers information from current prices in an active market for similar properties and uses assumptions that are mainly based on market conditions existing at the end of the reporting period.

In the absence of current prices in an active market for similar properties, the Group considers information from discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

The principal assumptions for the Group's estimation of the fair value include those related to current market rents for similar properties in the same location and condition, appropriate discount rates and expected future market rents. The carrying amount of investment properties was RMB103,000,000 as at 31 December 2023 (2022: RMB121,000,000).

Net realisable value of properties under development and completed properties held for sale

The Group's properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Group's historical experience and the nature of the subject properties, the Group makes estimates of the net realisable value of the subject properties by estimating the selling prices, the costs to completion for properties under development, and the costs to be incurred in selling the properties based on prevailing market conditions and by reference to the latest selling prices of properties sold in the ordinary course of business by the Group or other developers in the same location or adjacent area.

For the year ended 31 December 2023

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

Net realisable value of properties under development and completed properties held for sale *(continued)*

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease, and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgements and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the period in which such estimate is changed will be adjusted accordingly. The carrying amounts of properties under development and completed properties held for sale as at 31 December 2023 were RMB5,071,498,000 (2022: RMB9,586,623,000) and RMB915,170,000 (2022: RMB1,143,239,000), respectively.

Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised. A significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying value of deferred tax assets relating to recognised tax losses as at 31 December 2023 was nil (2022: RMB4,252,000). The amount of unrecognised tax losses as at 31 December 2023 was RMB117,708,000 (2022: RMB86,597,000). Further details are included in note 29 in the financial statements.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group has organised its business units based on their products and services and only has one reportable operating segment. Management monitors the operating results of the Group as a whole for the purpose of making decisions about resource allocation and performance assessment.

No geographical segment information is presented as the Group's revenue from the external customers was derived solely from its operations in the PRC and no non-current assets of the Group were located outside the PRC.

No information about major customers is presented as no revenue from sales to a single customer individually accounted for 10% or more of the Group's total revenue for the reporting period (2022: same).

The five highest paid employees did not receive any emoluments from the Group as an inducement to join or upon joining the Group or as compensation for loss of office during the year (2022: nil).

10. INCOME TAX (CREDIT)/EXPENSE

The Group is subject to income tax on an entity basis on profits arising in or derived from the jurisdictions in which members of the Group are domiciled and operate. Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands, the Group's subsidiaries incorporated in the Cayman Islands and the British Virgin Islands are not subject to any income tax.

For the year ended 31 December 2023

10. INCOME TAX (CREDIT)/EXPENSE (continued)

Pursuant to the relevant tax law of the Hong Kong Special Administrative Region, Hong Kong profits tax is calculated based on a tax rate of 16.5% (2022: 16.5%) on the estimated assessable profits arising in Hong Kong during the year. No provision for Hong Kong profits tax has been made as the Group did not generate any assessable profits in Hong Kong during the year (2022: nil).

The provision for Mainland China current income tax is based on the statutory rate of 25% of the assessable profits of PRC subsidiaries of the Group as determined in accordance with the PRC Corporate Income Tax Law which was approved and became effective on 1 January 2008.

According to the requirements of the provisional regulations of the PRC on the land appreciation tax ("**LAT**") effective from 1 January 1994 onwards, and the detailed implementation rules on the provisional regulations of the PRC on LAT effective from 27 January 1995 onwards, all income from the sale or transfer of state-owned leasehold interests on land, buildings and their attached facilities in Mainland China is subject to LAT at progressive rates ranging from 30% to 60% of the appreciation value, with an exemption provided for property sales of ordinary residential properties if their appreciation values do not exceed 20% of the sum of the total deductible items.

The Group has estimated, made and included in tax provision for LAT according to the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon completion of the property development projects and the tax authorities might disagree with the basis on which the provision for LAT is calculated.

Major components of the Group's income tax (credit)/expense are as follows:

For the year ended 31 December 2023

10. INCOME TAX (CREDIT)/EXPENSE (continued)

A reconciliation of the income tax (credit)/expense applicable to (loss)/profit before tax using the statutory rate to the income tax (credit)/expense at the effective tax rate is as follows:

	2023 RMB'000	2022 RMB'000

For the year ended 31 December 2023

11. DIVIDENDS

The directors resolved not to declare an interim and a final dividend for the year ended 31 December 2023 (2022: nil).

12. (LOSSES)/EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic (losses)/earnings per share amount is based on the (loss)/profit for the year attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 600,000,000 (2022: 600,000,000) in issue during the year.

The calculation of basic (losses)/earnings per share is based on:

	2023 RMB'000	2022 RMB'000
(Losses)/earnings (Loss)/profit attributable to ordinary equity holders of the parent used in the basic (losses)/earnings per share

Carrying amount at 31 December	103,000	121,000

The Group's investment properties consist of three commercial properties in China. The directors of the Company have determined that the investment properties consist of two classes of assets, i.e., retail and office, based on the nature, characteristics and risks of each property. The Group's investment properties were revalued on 31 December 2023 based on valuations performed by DTZ Debenham Tie Leung Limited ("**DTZ**"), an independent recognised and relevant professional qualification professionally qualified valuer, at RMB103,000,000 (2022: RMB121,000,000).

The investment properties are leased to third parties under operating leases, further summary details of which are included in note 16 to the financial statements.

During the year, RMB2,193,000 (2022: RMB1,833,000) was recognised in the consolidated statement of comprehensive income in relation to rental income from the investment properties. No direct operating expenses arising from investment property that generated rental income (2022: nil).

14. INVESTMENT PROPERTIES (continued)

Fair value hierarchy (continued)

Set out below is a summary of the valuation techniques used and the key inputs to the valuation of investment properties:

Investment properties	Valuation techniques	Significant unobservable inputs	Range of unobs 2023	ervable inputs 2022
Retail properties	Income approach	Prevailing market rents per square meter	RMB24 to RMB91	RMB24 to RMB114
		Yield rate	7%	7%
Office properties	Income approach	Prevailing market rents per square meter	RMB75 to RMB115	RMB80 to RMB123
		Yield rate	7%	7%

Prevailing market rents are estimated based on recent letting transactions within the subject properties and other comparable properties. An increase (decrease) in the estimated rental value in isolation would result in an increase (decrease) in the fair value of the investment properties. An increase (decrease) in the yield rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties.

Carrying amount at 31 December	915,170	1,143,239

As at 31 December 2023, certain of the Group's completed properties held for sale with a carrying value of approximately RMB84,163,000 (2022: RMB66,531,000) were pledged to secure bank loans granted to the Group (note 28).

For the year ended 31 December 2023

22. TRADE RECEIVABLES

	2023 RMB'000	2022 RMB'000
Trade receivables Impairment	5,223 (3,059)	12,355 (3,776)
	2,164	8,579

The Group's trade receivables principally originated from its constructions materials business and its trading terms with its customers are mainly on credit. The credit period is generally one month to one year. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2023 RMB'000	2022 RMB'000
Within 3 months	_	6,296
3 to 6 months	_	_
Over 6 months	2,164	2,283
	2,164	8,579

The movements in the loss allowance for impairment of trade receivables are as follows:

	2023 RMB'000	2022 RMB'000
At beginning of year (Reversal of)/provision on impairment losses (note 7)	3,776 (717)	1,736 2,040
	3,059	3,776

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about current conditions and forecasts of future economic conditions.

· ·			
		3,200,329	844,947

Notes:

- (a) The amounts mainly represent the prepayments to sub-contractors for the property construction.
- (b) On 30 October 2020, a wholly owned indirect subsidiary of the Company disposed 49% equity interests in an associate, Xishuangbanna Yunchen Real Estate Co., Ltd. to Xishuangbanna Global Sunac Tourism Development Co., Ltd. ("Global Sunac") at a consideration of approximately RMB95.35 million. Global Sunac is a subsidiary of Sunac China Holdings Limited ("Sunac China"), which is listed in Main Board of the Hong Kong Stock Exchange Limited. Pursuant to the disposal agreement, the consideration is payable within 12 months from the date of the disposal agreement. As at 31 December 2022, amount of RMB89,697,000 (2021: RMB89,697,000) was still outstanding, management of the Company are in doubt of the ability and the incentives of Sunac China Group to repay the outstanding balances and considered the possibility of recovery was remote. Therefore, a lifetime ECL (Stage 3) of RMB89,697,000 was recognised during the year ended 31 December 2022, During the year ended 31 December 2022, the Group has taken legal action against Sunac China Group for the settlement of the outstanding receivables.

During the year ended 31 December 2023, there is no repayment of any debt from Sunac China and the legal case is still in progress. Hence, there is no reversal of impairment or written off during the year.

- (c) The amounts mainly represent deposits with suppliers and governments.
- [d] During the year ended 31 December 2019, the Group entered into a contractual arrangement with a local government in the PRC and its related parties for a land development project. Land development cost recoverable represented all costs paid by the Group under the aforesaid land-development contractual arrangement from 2019 to 2023 and finance costs of specific borrowing obtained for conducting the underlying land development project. Due to prolonged delay by the contracted parties, the Group has contractual right to exit from the project and to claim from a contracted party the land development cost recoverable. During the year ended 31 December 2023, the Group has exercised the aforementioned contractual right to claim the land development cost recoverable from a contracted party. The land development cost recoverable represents receivables from a local government-related party in the PRC. As at 31 December 2023, the loss allowance was assessed to be immaterial.
- (e) Cost to obtain contracts is initially recognised as an asset for revenue to be recognised upon transfer of completed properties held for sale. Included in cost to obtain contracts are sales commission and stamp duty. When the revenue from the related contract is recognised, the amount recognised as cost to obtain contracts is charged out to selling and distribution expenses and administrative expenses. As at 31 December 2023 and 2022, the loss allowance was assessed to be immaterial.

As at 31 December 2023 and 2022, the cost to obtain contracts is expected to be recovered or settled within two years.

(f) Due from related parties are unsecured, interest free and repayable on demand.

For the year ended 31 December 2023

23. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS (continued)

Notes: (continued)

(g) The movements in the loss allowance for impairment of other receivables are as follows:

	2023 RMB'000	2022 RMB'000
At beginning of year	94.091	16,648
Provision on impairment losses (note b)		89,697
Provision on/(reversal of) impairment losses	1,575	(12,254)
At end of year	95,666	94,091

Deposits and other receivables mainly represent deposits with suppliers and governments. Expected credit losses are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. The loss rate applied as at 31 December 2023 and 2022 was assessed to be immaterial.

The financial assets included in the above balances relate to receivables for which there was no recent history of default and past due amounts, except for the consideration receivables mentioned in above note (b). As at 31 December 2023 and 2022, the loss allowance was assessed to be immaterial.

Information about the impairment of other receivables and the Group's exposure to credit risk can be found in Note 40.

For the year ended 31 December 2023

24. CASH AND CASH EQUIVALENTS AND PLEDGED DEPOSITS *(continued)*

As at 31 December 2023, the cash and bank balances of the Group denominated in RMB amounted to RMB196,128,000 (2022: RMB500,423,000). The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default.

Pursuant to relevant regulations in the PRC, certain property development companies of the Group are required to place certain amounts of cash in designated bank accounts for specified use. Bank deposits of RMB42,919,000 (2022: RMB211,756,000) were pledged as security for purchasers' mortgage loans.

- the guarantees provided by the Company, the subsidiary of the Group, the director of the Company and the Company's controlling shareholder.

All of the banking facilities were subject to the fulfillment of covenants commonly found in lending arrangements with financial institutions. If the Group was to breach the covenants, the borrowings would become repayable on demand. The Group regularly monitors its compliance with these covenants.

(b) Pursuant to some of the Group's borrowings' agreements, any delay of the repayment in accordance of the repayment schedule will trigger the rights to request for immediate repayment, resulting in the relevant borrowings becoming repayable on demand. As at 31 December 2023, the Group failed to repay certain bank borrowings' interest payable of an aggregate amount of approximately RMB4,314,000 (2022: nil) which causing bank loans of an aggregate principal amount of approximately RMB2,438,465,000 (2022: nil) have become repayable on demand. Hence, the entire amount of the bank borrowings became immediately payable and has been classified as current liabilities as at 31 December 2023.

29. DEFERRED TAX (continued)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	2023 RMB'000	2022 RMB'000
Net deferred tax assets recognised in the consolidated statement of financial position	228,048	221,994
Net deferred tax liabilities recognised in the consolidated statement of financial position	22,838	27,338

Deferred tax assets have not been recognised as at 31 December in respect of the following item:

	2023 RMB'000	2022 RMB'000
Tax losses	117,708	86,597

The above tax losses are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose. Deferred tax assets have not been recognised in respect of the above items as it is not considered probable that taxable profits will be available against which the above items can be utilised.

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprise established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty/arrangement between Mainland China and the jurisdiction of the foreign investors and the foreign investors are the beneficial owners of the dividends. The Group is therefore liable to withholding taxes on dividends distributed by those foreign invested subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008. For the Group, the applicable rate is 10%.

For the year ended 31 December 2023

29. DEFERRED TAX (continued)

Deferred tax liabilities are recognised based on the estimated dividend to be distributed from the distributable earnings after 31 December 2007 from the subsidiaries established in Mainland China. In the opinion of the directors, except for an amount of RMB292,990,000 (2022: RMB288,530,000), it is not probable that these subsidiaries established in Mainland China will distribute the remaining earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised was approximately RMB585,432,000 as at 31 December 2023 (2022: RMB737,269,000).

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

31. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity on pages 309 to 310 of the financial statements.

Statutory surplus reserve

In accordance with the Company Law of the PRC, certain subsidiaries of the Group which are registered in the PRC as domestic enterprises are required to allocate 10% of their profit after tax, as determined in accordance with the relevant PRC accounting standards, to their respective statutory surplus reserves until the reserves reach 50% of their respective registered capital. Subject to certain restrictions set out in the Company Law of the PRC, part of the statutory surplus reserves may be converted to increase share capital, provided that the remaining balance after the capitalisation is not less than 25% of the registered capital.

Capital reserve

Capital reserve of the Group represents the aggregate amount of the paid-up capital of those companies comprising the Group prior to the incorporation of the Company.

On 12 September 2013, Sichuan Changxing (Holdings) Limited ("**Sichuan Changxing**") injected additional capital of RMB139,200,000 into Chen Xing Sichuan. Upon completion of the capital contribution, the shareholding of the Group in Chen Xing Sichuan decreased from 100% to 83.89%. The difference between the contributed amount of RMB139,200,000 net of tax of RMB1,375,000 and the share of net assets of Chen Xing Sichuan by Sichuan Changxing was recorded as the capital reserve.

On 24 December 2014 and as part of the reorganisation, the Group acquired Chen Xing from the shareholders of Chen Xing at a cash consideration of RMB203,809,000, which was fully paid in January 2015.

For the year ended 31 December 2023

32. PLEDGE OF ASSETS

Details of the Group's assets pledged for the Group's bank and other borrowings are included in note 28 to the financial statements.

36. GUARANTEES

	2023 HK\$'000	2022 HK\$'000
Guarantees given to banks in respect of mortgage facilities		
granted to the purchasers of the Group's properties	1,353,815	2,012,850

The Group provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Group's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Group is responsible for repaying the outstanding mortgage loans together with any accrued interest and penalty owed by the defaulted purchasers to those banks. The Group is then entitled to take over the legal titles of the related properties. The Group's guarantee period commences from the date of grant of the relevant mortgage loan and ends at the execution of individual purchaser's collateral agreement.

The Group did not incur any material losses during the reporting period in respect of the guarantees provided for mortgage facilities granted to the purchasers of the Group's completed properties held for sale. The directors considered that in case of default on payments, the net realisable value of the related properties would be sufficient to repay the outstanding mortgage loans together with any accrued interest and penalty, and therefore no provision has been made in connection with the guarantees.

For the year ended 31 December 2023

39. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, time deposits, restricted cash, trade receivables, financial assets included in prepayments, other receivables and other assets, trade and bills payables, financial liabilities included in other payables and accruals and the current portion of interest-bearing bank and other borrowings, approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's corporate finance team headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the board of directors. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the board of directors twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a recent transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of listed equity investments are based on quoted market prices. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in other comprehensive income, are reasonable, and that they were the most appropriate values at the end of the reporting period.

Management has assessed that the fair values of the non-current portion of interest-bearing bank and other borrowings approximate to their carrying amounts (including interest payable in other payables) largely due to the fact that such borrowings were made between the Group and an independent third party financial institution based on prevailing market interest rates.

For the year ended 31 December 2023

39. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

Fair value hierarchy

The following tables illustrate the fair value measurement hierarchy of the Group's financial instruments:

Assets measured at fair value:

As at 31 December 2023

	Quoted prices in active market (Level 1) RMB'000	Significant observable inputs (Level 2) RMB'000	Significant unobservable inputs (Level 3) RMB'000	Total RMB'000

The Group did not have any financial liabilities measured at fair value as at 31 December 2023 and 2022.

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 for both financial assets and financial liabilities (2022: Nil).

For the year ended 31 December 2023

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments mainly include cash and bank balances, pledged deposits, trade receivables and trade payables, which arise directly from its operations. The Group has other financial liabilities such as interest-bearing bank and other borrowings and other payables. The main purpose of these financial instruments is to raise finance for the Group's operations.

The main risks arising from the Group's financial instruments are interest rate risk, credit risk and liquidity risk. Generally, the Group introduces conservative strategies on its risk management. The Group has not used any derivatives and other instruments for hedging purposes to keep the Group's exposure to these risks to a minimum. The Group does not hold or issue derivative financial instruments for trading purposes. The chief financial officer reviews and agrees policies for managing each of these risks and they are summarised below:

Interest rate risk

The Group's exposure to risk for changes in market interest rates relates primarily to the Group's interest-bearing bank and other borrowings set out in note 28. The Group does not use derivative financial instruments to hedge interest rate risk. The Group manages its interest cost using variable rate bank borrowings.

The following table demonstrates the sensitivity to a reasonably possible change in the RMB interest rate, with all other variables held constant, of the Group's profit before tax (through the impact on floating rate borrowings and equity).

	Increase/ (decrease) in basis points	Increase/ (decrease) in profit before tax and equity RMB'000

RMB	0.5%	(622)
RMB	(0.5%)	622
2022

For the year ended 31 December 2023

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Foreign currency risk

Foreign currency risk is the risk of loss resulting from changes in foreign currency exchange rates. Fluctuations in exchange rates between the RMB and other currencies in which the Group conducts business may affect the Group's financial condition and results of operations. The Group seeks to limit its exposure to foreign currency risk by minimising its net foreign currency position.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the Hong Kong dollar exchange rate, with all other variables held constant, of the Group's (loss)/profit before tax (due to changes in the fair value of monetary assets and liabilities) and equity.

	Increase/ (decrease) in HK\$ rate %	Increase/ (decrease) in profit before tax and equity RMB'000
2023		
If the RMB weakens against the HK\$	5	3,036
If the RMB strengthens against the HK\$	(5)	(3,036)
2022		
If the RMB weakens against the HK\$	5	3,127
If the RMB strengthens against the HK\$	(5)	(3,127)

Credit risk

Credit risk is the risk of loss due to the inability or unwillingness of a counterparty to meet its contractual obligations.

At the end of the reporting period, the Group had certain concentrations of credit risk as 83% (2022: nil) of the Group's other receivables which were due from a local government-related entity in the PRC.

Land development cost recoverable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. The expected loss rate of land development cost recoverable is not material. No loss allowance provision was recognized during the year.

The Group did not record any significant bad debt losses during the reporting period, except for the impairment loss on other receivables disclosed in note 23.

For the year ended 31 December 2023

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Credit risk (continued)

The credit risk of the Group's other financial assets, which mainly comprise pledged deposits and other receivables, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

The Group does not hold any collateral over trade and other receivables as at 31 December 2023 (2022: nil).

Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of interest-bearing bank, lease liabilities and other borrowings. Cash flows are closely monitored on an ongoing basis.

The Group has a number of alternative plans to mitigate the potential impacts on anticipated cash flows should there be significant adverse changes in economic environment. These include implementing cost control measures, accelerating pre-sales and sales of properties, putting extra efforts on the collection of trade debtors to improve the debtors' turnover days, negotiating with lenders in respect of the Overdue Borrowings for a debt restructuring, and disposing of equity interests in certain project development companies with acceptable prices to the Group. The Group will, based on its assessment of the relevant costs and benefits, pursue such options as are appropriate. Further details are included in note 2.1.

For the year ended 31 December 2023

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Liquidity risk (continued)

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on contractual undiscounted payments, is as follows:

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Liquidity risk (continued)

The amounts included above for financial guarantee contracts are the maximum amounts that the Group could be required to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on expectations at the end of the reporting period, the directors do not consider it probable that a claim will be made against the Group under these guarantees.

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain a strong credit rating and healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure, which includes total equity, and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2023 and 31 December 2022.

The Group monitors capital using a gearing ratio, which is total debt divided by total equity. Total debt includes interest-bearing bank and other borrowings. The gearing ratios as at the end of the reporting periods were as follows:

	2023 RMB'000	2022 RMB'000
Interest-bearing bank and other borrowings	2,857,782	3,192,116
Total debt	2,857,782	3,192,116
Total equity	1,630,205	1,762,874
Gearing ratio	175.30%	181.07%

For the year ended 31 December 2023

41. EVENTS AFTER THE REPORTING PERIOD

On 8 January 2024, the Group entered into equity transfer agreement and capital injection agreement for (a) an acquisition of 16.1074% equity interest of Sichuan Chenxing by the Group and (b) capital injection of RMB136,000,000 and RMB154,000,000 into the registered capital of Mianyang Chenxing by the Sichuan Changxing Industrial (Group) Company Limited ("**Vendor**"), an indirect wholly-owned subsidiary of the Company, and the Group respectively (the "**Capital Injection**").

Upon completion of the Acquisition, Sichuan Chenxing and Mianyang Chenxing shall become indirect wholly-owned subsidiaries of the Company. Upon completion of the Capital injection, the Vendor and Sichuan Chenxing will hold 40% and 60% equity interest in Mianyang Chenxing respectively, and Mianyang Chenxing will remain a subsidiary of the Company.

Details of which are set out in the Company's announcements dated 8 January 2024.
