Where distributions are made out of capital or effectively out of capital, this may result in an immediate reduction in the Net Asset Value per Unit.
<b>ETF website:</b>	<a href="http://www.premia-partners.com">www.premia-partners.com</a> ***

\* *The ongoing charges figure is based on expenses for the year ended 31 December 2023. This figure may vary from year to year. As the Sub-Fund adopts a single management fee structure, the estimated ongoing charges of the Sub-Fund will be equal to the amount of the single management fee which is capped at a maximum of 0.50% of the average Net Asset Value of the Sub-Fund. Any ongoing expenses exceeding 0.50% of the average Net Asset Value of the Sub-Fund will be borne by the Manager and will not be charged to the Sub-Fund. Please refer to "Ongoing fees payable by the Sub-Fund" below and the Prospectus for details.*

\*\* *This is the actual annual tracking difference for the year ended 31 December 2023. Investors should refer to the Sub-Fund's website for information on the actual tracking difference.*

\*\*\* *This website has not been reviewed by the SFC.*

### What is this product?

Premia Dow Jones Emerging ASEAN Titans 100 ETF (the "Sub-Fund") is a sub-fund of Premia ETF Series, which is an umbrella unit trust established under Hong Kong law. The units of the Sub-

Fund (“**Units**”) are listed on The Stock Exchange of Hong Kong Limited (the “**SEHK**”). These Units are traded on the SEHK like listed stocks. The Sub-Fund is a passively managed index tracking exchange traded fund under Chapter 8.6 of the Code on Unit Trusts and Mutual Funds (the “**Code**”).

## Objective and investment strategy

### Objective

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of the Dow Jones Emerging ASEAN Titans 100 Index (the “**Index**”).

### Strategy

In seeking to achieve the Sub-Fund’s investment objective, the Manager will use an optimised representative sampling strategy by investing, directly or indirectly, in a representative sample of the securities in the Index that collectively reflects the investment characteristics of the Index. The Sub-Fund may or may not hold all of the securities that are included in the Index, and may hold Securities which are not included in the Index, provided that these collectively feature a high correlation with the Index.

The Sub-Fund may invest up to 100% of its Net Asset Value directly in equity securities listed on stock exchanges in Indonesia, Malaysia, the Philippines, Thailand, Vietnam and other Association of South East Asian Nations (ASEAN) member countries such as Singapore

The Sub-Fund may also invest in money market funds, cash deposits and other physical exchange traded funds (“**Other Physical ETFs**”) for cash management purposes and enhancing yields on cash positions although such investments are not anticipated to exceed 5% of the Net Asset Value of the Sub-Fund. The Manager may invest in Other Physical ETFs tracking short duration and/or floating-rate Government Bond indices for cash management purposes where it considers that investing in Other Physical ETFs is in the best interests of Unitholders taking into account the costs, risks and benefits of investing into Other Physical ETFs. Such Other Physical ETFs may include those which are managed by the Manager or its Connected Persons or other third parties. The Manager intends to treat such Other Physical ETFs as collective investment schemes for the purposes of and subject to the requirements in Chapters 7.11, 7.11A and 7.11B of the Code.

Currently, the Manager has no intention to invest the Sub-Fund in any physical commodities or financial derivative instruments (including structured products or instruments) for hedging or non-hedging (i.e. investment) purposes, and will not enter into securities lending transactions, repurchase or reverse repurchase transactions and other similar over-the-counter transactions. The Manager will seek the prior approval of the SFC (to the extent required under applicable regulatory requirements) and provide at least one month’s prior notice to Unitholders (or such shorter notice period as may be permitted under applicable regulatory requirements) before the Manager engages in any such investments.

The investment strategy of the Sub-Fund is subject to the investment and borrowing restrictions set out in the Prospectus.

### Index

The Index is a float adjusted market capitalisation weighted index which measures the performance of 100 of the largest stocks from five of the Association of South East Asian Nations (ASEAN) countries, namely Indonesia, Malaysia, Philippines, Thailand and Vietnam. The Index is compiled and published by S&P Dow Jones Indices (“**S&P**” or the “**Index Provider**”). The Manager (and each of its Connected Persons) is independent of the Index Provider.

The Index is a net total return index. A net total return index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any withholding taxes that may apply. The Index is denominated and quoted in USD.

As at 9 April 2024, it comprised 100 constituent stocks with float market capitalisation of approximately USD410.31 billion. The Index was launched on 29 May 2018 and had a base level of 100 on 19 March 2010.

You can obtain the most updated list of the constituents of the Index and additional information of the Index from the website of the Index Provider at [www.spindices.com](http://www.spindices.com).

### Vendor codes

Bloomberg: DJSEA1UN Index

### Use of derivatives

The fund will not use derivatives for any purposes.

### What are the key risks?

**Investment involves risks. Please refer to the Prospectus for details including the risk factors.**

#### 1. General investment risk

- The Sub-Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Sub-Fund may suffer losses. There is no guarantee of the repayment of principal.

#### 2. Equity market risk

- *General risks* – The Sub-Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.
- *Southeast Asian stock exchange risks* – Some Southeast Asian stock exchanges may have the right to suspend or limit trading in any security traded on the relevant exchange. The government or the regulators may also implement policies that may affect the financial markets. All these may have a negative impact on the Sub-Fund.

#### 3. Southeast Asian concentration and emerging market risk

- The Sub-Fund's investments are concentrated in the five Southeast Asian countries (Indonesia, Malaysia, the Philippines, Thailand and Vietnam). The value of the Sub-Fund may be more volatile than that of a fund having a more diverse portfolio of investments.
- The Sub-Fund invests in emerging markets which may involve increased risks and special considerations not typically associated with investment in more developed markets, such as liquidity risks, currency risks/control, political, policy and economic uncertainties, legal, regulatory and taxation risks, settlement risks, custody risk and the likelihood of a high degree of volatility, and the value of the Sub-Fund may be more susceptible to adverse events relating to these risks affecting these countries.
- Some Southeast Asian countries prohibit or restrict foreign investment, or the repatriation of income, capital or the proceeds from sale of Securities. The Sub-Fund may incur higher costs investing in these countries. These restrictions may limit the Sub-Fund's ability to invest in these countries, delay the investment or repatriation of capital of the Sub-Fund and impact the Sub-Fund's ability to track the performance of the Index.

#### 4. Foreign exchange risk

- Underlying investments of the Sub-Fund may be denominated in currencies other than the base currency of the Sub-Fund. The Net Asset Value of the Sub-Fund may be affected unfavourably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.

**5. Physical ETFs Related Risk**

- The Sub-Fund may invest in Other Physical ETFs. The fees and costs charged in respect of the Other Physical ETFs will be borne by the Sub-Fund. Although the Manager will only invest in Other Physical ETFs if it considers that doing so is in the best interest of the Sub-Fund and its Unitholders, there is no guarantee that these Other Physical ETFs will achieve their respective investment objectives and any tracking error of these Other Physical ETFs will also contribute to the tracking error of the Sub-Fund. The difference of the underlying constituents between the indices tracked by the relevant Other Physical ETFs and the Underlying Index may contribute to tracking error.

**6. Distributions out of or effectively out of capital risks**

- Payment of dividends out of capital or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction in the Net Asset Value per Unit of the Sub-Fund.

**7. Other currency distributions risk**

- Investors should note that all Units will receive distributions in the Base Currency (USD) only. In the event that the relevant Unitholder has no USD account, the Unitholder may have to bear the fees and charges associated with the conversion of such distribution from USD to HKD or any other currency. The Unitholder may also have to bear bank or financial institution fees and charges associated with the handling of the distribution payment. Unitholders are advised to check with their brokers regarding arrangements for distributions.

**8. Passive investments risk**

- The Sub-Fund is passively managed and the Manager will not have the discretion to adapt to market changes due to the inherent investment nature of the Sub-Fund. Falls in the Index are expected to result in corresponding falls in the value of the Sub-Fund.

**9. Tracking error risk**

- The Sub-Fund may be subject to tracking error risk, which is the risk that its performance may not track that of the Index exactly. This tracking error may result from the investment strategy used and/or fees and expenses. The Manager will monitor and seek to manage such risk and minimise tracking error. There can be no assurance of exact or identical replication at any time of the performance of the Index.

**10. Trading risks**

- The trading price of Units on the SEHK is driven by market factors such as the demand and supply of Units. Therefore, the Units may trade at a substantial premium or discount to the Sub-Fund's Net Asset Value.
- As investors will pay certain charges (e.g. trading fees and brokerage fees) to buy or sell Units on the SEHK, investors may pay more than the Net Asset Value per Unit when buying Units on the SEHK, and may receive less than the Net Asset Value per Unit when selling Units on the SEHK.

**11. Trading differences risks**

- As the stock exchanges on which the Index constituents are listed may be open when Units in the Sub-Fund are not priced, the value of the securities in the Sub-Fund's portfolio may change on days when investors will not be able to purchase or sell the Sub-Fund's Units.
- Differences in trading hours between the stock exchanges on which the Index constituents are listed and the SEHK may also increase the level of premium or discount of the Unit price to Sub-Fund's Net Asset Value.

**12. Dual counter risks**

- If there is a suspension of the inter-counter transfer of units between the counters and/or any limitation on the level of services by brokers and CCASS participants, unitholders will

only be able to trade their units in one counter only, which may inhibit or delay an investor dealing. The market price of units traded in each counter may deviate significantly. As such, investors may pay more or receive less when buying or selling Units traded in one counter than the equivalent amount in the currency of another counter if the trade of the relevant Units took place on that other counter.

**13. Termination risks**

- The Sub-Fund may be terminated early under certain circumstances, for example, where the Index is no longer available for benchmarking or if the size of the Sub-Fund falls below HKD100 million. Investors may not be able to recover their investments and suffer a loss when the Sub-Fund is terminated.

**14. Reliance on market maker and liquidity risks**

- Although the Manager will ensure that at least one Market Maker will maintain a market for the Units in each counter, and that at least one Market Maker in each counter gives not less than 3 months’ notice prior to terminating market making arrangement under the relevant market maker agreement, liquidity in the market for Units may be adversely affected if there is no or only one Market Maker for the Units. There is also no guarantee that any market making activity will be effective.

**15. Custodian Risk**

- The Sub-Fund’s investments may be registered in the name of a sub-custodian where, due to the nature of the laws or market practice of jurisdictions, it is common market practice or not feasible to do otherwise and may be exposed to risk in circumstances whereby the custodian will have no liability. Such investments may not be segregated from the sub-custodian’s own investments and in the event of default or fraud of such sub-custodian, the Sub-Fund’s assets may not be protected and may be irrecoverable by the Sub-Fund.

**How has the fund performed?**

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.

- These figures show by how much the Sub-Fund increased or decreased in value during the calendar year being shown. Performance data has been calculated in USD including ongoing charges and excluding your trading costs on SEHK.
- Fund launch date: 1 August 2018

### Is there any guarantee?

The Sub-Fund does not have any guarantees. You may not get back the amount of money you invest.

### What are the fees and charges?

Please refer to the section entitled “Fees and Expenses” of the Prospectus for details of other fees and expenses.

#### Charges incurred when trading the Sub-Fund on the SEHK

Fees	What you pay
Brokerage fee	Market rates
Transaction levy	0.0027% <sup>1</sup> of the trading price
Trading fee	0.00565% <sup>2</sup> of the trading price
Accounting and Financial Reporting Council transaction levy	0.00015% <sup>3</sup> of the trading price
Stamp duty	Nil
Inter-counter transfer fee	HKD5 per instruction <sup>4</sup>

<sup>1</sup> Transaction levy of 0.0027% of the trading price of the Units, payable by each of the buyer and the seller.

<sup>2</sup> Trading fee of 0.00565% of the trading price of the Units, payable by each of the buyer and the seller.

<sup>3</sup> Accounting and Financial Reporting Council transaction levy of 0.00015% of the trading price of the Units, payable by each of the buyer and the seller from 1 January 2022.

<sup>4</sup> HKSCC will charge each CCASS participant a fee of HKD5 per instruction for effecting an inter-counter transfer between one counter and another counter. Investors should check with their brokers regarding any additional fees.

#### Ongoing fees payable by the Sub-Fund

The following expenses will be paid out of the Sub-Fund. They affect you because they reduce the Net Asset Value of the Sub-Fund which may affect the trading price.

Fees	Annual rate (as a % of the Sub-Fund's value)
Management fee*	0.50%
Trustee fee	Included in the management fee
Performance fee	Nil
Administration and custody fees	Included in the management fee

\* The management fee is a single flat fee to cover all of the Sub-Fund's fees, costs and expenses (and its due proportion of any costs and expenses of the Trust allocated to it). The ongoing charges of the Sub-Fund is equal to the amount of the single management fee which is capped at a maximum of 0.50% of the average Net Asset Value of the Sub-Fund. Any increase or removal of the cap is subject to the prior approval of the SFC and one month's prior notice to Unitholders. Please refer to the Prospectus for details.

#### Other fees

You may have to pay other fees when dealing in the Units of the Sub-Fund.

### Additional information

You can find the following information relating to the Sub-Fund (in English and in Chinese) at the following website [www.premia-partners.com](http://www.premia-partners.com) (which has not been reviewed or approved by the SFC):

- The Prospectus including the Product Key Facts Statement (as revised from time to time)
- The latest annual audited accounts and interim half yearly unaudited report of the Sub-Fund (in English only)
- Any notices relating to material changes to the Sub-Fund which may have an impact on its investors such as material alterations or additions to the Prospectus including the Product Key Facts Statement or the constitutive documents of the Trust and/or the Sub-Fund
- Any public announcements made by the Manager in respect of the Sub-Fund, including information with regard to the Sub-Fund and the Index, the suspension of creations and redemptions of Units, the suspension of the calculation of its Net Asset Value, changes in its fees and the suspension and resumption of trading in its Units
- The near real time estimated Net Asset Value per Unit of the Sub-Fund (updated every 15 seconds throughout each dealing day) in USD and in HKD
- The last closing Net Asset Value of the Sub-Fund in USD only and the last closing Net Asset Value per Unit of the Sub-Fund in USD and in HKD
- The past performance information of the Sub-Fund
- The annual tracking difference and tracking error of the Sub-Fund
- The composition of the Sub-Fund (updated on a daily basis)
- The latest list of the Participating Dealers and Market Makers of the Sub-Fund
- The composition of distributions (i.e. the relative amounts paid out of (i) net distributable income, and (ii) capital), if any, for a 12-month rolling period

The near real time estimated Net Asset Value per Unit in HKD is indicative and for reference only and is updated every 15 seconds during SEHK trading hours and is calculated by Interactive Data (Hong Kong) Limited using the near real time estimated Net Asset Value per Unit in USD multiplied by a near real time USD:HKD foreign exchange rate quoted by Interactive Data (Hong Kong) Limited. Since the estimated Net Asset Value per Unit in USD will not be updated when the underlying share markets are closed, the change in the estimated Net Asset Value per Unit in HKD during such period is solely due to the change in the near real time foreign exchange rate.

The last closing Net Asset Value per Unit in HKD is indicative and for reference only and is calculated by the Trustee using the official last closing Net Asset Value per Unit in USD multiplied by an assumed foreign exchange rate (i.e. not a real time exchange rate) being the fixing exchange rate for USD:HKD provided by WM/Reuters at 4:00 p.m. (Tokyo time) as of the same dealing day. Similarly, the last closing Net Asset Value per Unit in USD and the last closing Net Asset Value per Unit in HKD will remain unchanged when the underlying share markets are closed for normal trading. Please refer to the Prospectus for details.
