The principal activities of the Group are to act as a building contractor focusing on providing renovation services as a main contractor for property projects in the private sector in Hong Kong and Macau ("Contracting"), strategic investments, property investments and provision of products and services with a focus on air quality, energy efficiency and modern sustainable building materials.

2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

(a) Adoption of new/revised HKFRSs — effective 1 April 2023

The Hong Kong Institute of Certified Public Accountants has issued a number of new or revised HKFRSs that are first effective for the current accounting period of the Group:

Amendments to HKAS 1 and Disclosure of Accounting Policies HKFRS Practice Statement 2

Amendments to HKAS 8 Definition of Accounting Estimates

Amendments to HKAS 12 Deferred Tax Related to Assets and Liabilities Arising from

a Single Transaction

Amendments to HKAS 12 International Tax Reform — Pillar Two Model Rules

HKFRS 17 and amendments to Insurance Contracts and related amendments

HKFRS 17

Except as detailed below, the adoption of these amended HKFRSs have no material impact on the Group's consolidated financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Amendment to HKAS 1 and HKFRS Practice Statement 2, Disclosure of Accounting Policies

The Group has applied the amendments for the first time in the current year. HKAS 1 Presentation of Financial Statements is amended to replace all instances of the term "significant accounting policies" with "material accounting policy information". Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those consolidated financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If an entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

HKFRS Practice Statement 2 Making Materiality Judgements (the "Practice Statement") is also amended to illustrate how an entity applies the "four-step materiality process" to accounting policy disclosures and to judge whether information about an accounting policy is material to its consolidated financial statements. Guidance and examples are added to the Practice Statement.

The application of the amendments has had no impact on the Group's financial positions and performance but has affected the disclosure of the Group's accounting policies set out to the consolidated financial statements.

(b) New Guidance on accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong issued by Hong Kong Institute of Certified Public Accountants (the "HKICPA")

In June 2022, Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the "Amendment Ordinance") was gazetted. The Amendment Ordinance abolishes the use of the accrued benefits derived from employers' mandatory contributions under the mandatory provident fund ("MPF") to offset severance payment ("SP") and long service payments ("LSP") (the "Abolition"). Subsequently, the Government of HKSAR announced that the Abolition will take effect on 1 May 2025 (the "Transition Date"). The following key changes will take effect since the Transition Date:

Accrued benefits derived from employers' mandatory MPF contributions cannot be used to offset the LSP/SP in respect of the employment period after the Transition Date.

The pre-transition LSP/SP is calculated using the last month's salary immediately preceding the Transition Date, instead of using the salary of employment termination date.

Due to the complexities of the accounting for the offsetting of employer's MPF contributions and its LSP obligation and hence the impact arising from the Abolition, in July 2023, the HKICPA published 'Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong' (the "Guidance") to provide guidance to account for the offsetting mechanism and the Abolition. The HKICPA concluded that there are two acceptable accounting approaches, being:

Approach 1: Account for the amount expected to be offset as a deemed employee contribution towards that employee's LSP benefits in terms of Hong Kong Accounting Standard 19.93(a)

Approach 2: Account for the employer's MPF contributions and the offsetting mechanism as a funding mechanism for the LSP obligation

To better reflect the substance of the abolition of the offsetting mechanism, the Group has changed its accounting policy in connection with its LSP liability and has applied the Approach 1 above retrospectively since the effective date of the Amendment Ordinance (i.e. June 2022). The application of the accounting policy does not have material impact on the Group's financial statements for the current and prior years.

(c) New/revised HKFRSs that have been issued but are not yet effective

The following new/revised HKFRSs, potentially relevant to the Group's consolidated financial statements, have been issued, but are not yet effective and have not been early adopted by the Group. The Group's current intention is to apply these changes on the date they become effective.

"2020 Amendments")1,4

Amendments to HKAS 1 Non-current Liabilities with Covenants (the "2022

Amendments")1,4

HKFRS 7

Amendments to HKAS 21 Lack of Exchangeability²

Amendments to HKFRS 10 and Sale or Contribution of Assets between an Investor and its

HKAS 28 Associate or Joint Venture³

Effective for annual periods beginning on or after 1 January 2024.

- ² Effective for annual periods beginning on or after 1 January 2025.
- The amendments shall be applied prospectively to the sale or contribution of assets occurring in annual periods beginning on or after a date to be determined.
- As consequence of the 2020 Amendments and 2022 Amendments, Hong Kong Interpretation 5 (Revised) Presentation of Financial Statements Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause was revised to align the corresponding wording with no change in conclusion.

The directors of the Company do not anticipate that the application of the amendments in the future will have material impact on the consolidated financial statements of the Group.

3. BASIS OF PREPARATION

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with all applicable HKFRSs, Hong Kong Accounting Standards ("HKASs") and Interpretations (hereinafter collectively referred to as the "HKFRS") and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

(b) Basis of measurement

The consolidated financial statements have been prepared under the historical cost basis except for certain financial instruments and investment property which are measured at fair value.

(c) Functional and presentation currency

The consolidated financial statements are presented in Hong Kong dollars ("HK\$"), which is the same as the functional currency of the Company and its subsidiaries other than IBI Macau Limited and IBI International Investments Limited, and all values are rounded to the nearest thousand except when otherwise stated.

For the years ended 31 March 2024 and 2023, Hong Kong Profits Tax is calculated in accordance with the Regime.

GROUP PROFILE

IBI Group Holdings Limited is a publicly listed holding company on the Main Board of the Stock Exchange. The Group focuses on investments in the built environment and the Group's subsidiaries include a building contractor, a high tech building solutions provider, a strategic investment division and a property investment division.

Contracting

Whilst acting predominantly as a main contractor, the Group secures and completes projects for clients across many industry sectors including but not limited to banking, legal, hospitality and property development.

The Group's competitive strengths have contributed to its success in contracting and distinguished it from our competitors. We believe our competitive strengths lie in three key specific areas of the business, namely,

- 1. an established reputation and proven track record;
- 2. implementation, management and execution expertise; and
- 3. commitment to the management of risk, cash flow and financial security.

Building Solutions

Building Solutions Limited ("BSL") provides products and services that enhance the performance and well-being of the built environment in order to provide modern, healthy and high performing spaces for the occupants. Whether improving the air quality of work spaces or reducing the energy consumption of an end user, BSL strives to identify and implement cutting edge technology to improve the built environment for both building owners and end users.

BUSINESS REVIEW

For the year ended 31 March 2024, the Group recorded profit attributable to the owners of the Company after tax of approximately HK\$0.4 million (2023: HK\$2.8 million) from revenue and other (losses)/gains totalling approximately HK\$527.2 million (2023: HK\$308.5 million).

1. Contracting

During the year ended 31 March 2024 the Group recorded profit from contracting of approximately HK\$15.2 million.

The Group benefitted from a significant increase in revenue during the period, a direct result of the improvement in the market generally and also, as a result of Hong Kong slowly making it's way out of the post COVID-19 slump.

During the period, the Group completed 17 projects and was awarded 16 projects, of which 15 are fitting-out projects and one is an A&A project.

The number of tendering opportunities available to the Group increased significantly within the period and despite continuing high levels of competition, the Group had considerable success in securing good quality projects with good quality clients.

With regards to Macau, which for some time now has not provided any serious opportunities, we continue to monitor the overall situation. Reports of a significant increase in gambling revenues are encouraging and we are hopeful that this will encourage the hotel and casino groups to kick start more capital projects.

2. Building Solutions

For the year ended 31 March 2024, BSL has registered a segment loss of approximately HK\$0.3 million.

This period marked a continuing and significant improvement in the performance of BSL. Revenue from sales increased 20.7% year on year. The company has now entered into profitable territory.

New products are constantly being sourced and with our current pipeline of projects, we believe BSL will continue to show growth. We look forward to reporting further success in the coming months.

3. Strategic Investments

For the year ended 31 March 2024, the strategic investments division of the Group has registered a segment loss of approximately HK\$3.2 million.

The segment loss is realised from an unrealised fair value loss of our investment in a large Real Estate Investment Trust, a Hong Kong listed company which owns and manages a diversified and high-quality portfolio including retail facilities, car parks, offices and logistics assets across Asia.

This investment continues to suffer from the overall negative pressure on real estate which with the combination of high interest rates and falling valuations set to continue into 2025. Whilst we do appear to be at the top of interest rate cycle, the recovery in the sector will take time. Ultimately however, as a result of the formulaic nature of the manner in which this asset is priced, we should see a significant turnaround in this investment as interest rates start to fall towards more historical norms.

With regards to the Group's assets in Japan, namely the two adjacent plots of land in Kutchan, Hokkaido, the Group continues to analyse an optimum strategy for the site. The Group continues to look at expanding this project as the analysis shows that a larger scale development could provide significant economies of scale and a far greater return on investment.

Moving forward, the Group will continue to look at potential investment opportunities and we look forward to announcing further successes in this regard.

4. Property Investments

For the year ended 31 March 2024, the property investment division of the Group has registered a segment loss of approximately HK\$8.1 million.

Despite a successful and profitable year from an operational point of view, the property has suffered from an unrealised loss stemming from a negative valuation report.

Excluding the change in fair value of HK\$10.1 million, the segment generated profit of approximately HK\$2.1 million. In addition, the property remained cash flow positive for the entire year as a result of maintaining minimal vacancy. The property is currently running at over 90% occupancy and is expected to move to 100% occupancy within the next one to two months.

Valuations across the board have suffered significantly throughout most of the developed world as a result of sustained high levels of interest rates, increased levels of vacancies and the knock on effects of COVID-19 which has challenged the whole concept of physical office space.

During the period, the Group has continued to add value to the property executing a number of projects including completing the upgrade to the elevator, installing new exterior lighting and installing a new intercom system. New work has been planned for this current period with a focus on improving the energy efficiency of the building through reduced air loss and improved heating equipment.

Lease negotiations with one of the building's key tenants has now been concluded and the tenant has relocated to a larger space within the same building. The weighted average unexpired lease term has been significantly increased with the conclusion of this new lease and this will be viewed favourably by lending institutions moving forward.

MOVING FORWARD

Re-building Hong Kong from the ravages of COVID-19 and the subsequent travel restrictions is taking time. We are however seeing significant increases in the levels of visitors entering Hong Kong and very clear signs of an improving economy. The punishment currently being endured by the real estate market worldwide is unprecedented and unless interest rates fall, any recovery in this sector will be muted. We do appear to be at the top of the current rate cycle and the recent lowering of the interest rates by one quarter percent by the European Central bank is encouraging. Unfortunately, until such time that the Federal Reserve follows suit, Hong Kong real estate will continue to struggle.

The Group continues to actively seek out new investment opportunities and to allocate its capital efficiently and effectively. We look forward to advising our shareholders of these opportunities as we move forward.
