NOTES:

1 GENERAL INFORMATION

The Company was incorporated in the Cayman Islands on 28 January 2014 as an exempted company with limited liability under the Companies Act, Cap 22 (Act 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of the Company's registered office is Windward 3, Regatta Office Park, PO Box 1350, Grand Cayman KY1- 1108, Cayman Islands.

The Company is an investment holding company. The Group is principally engaged in the designing, marketing and selling of intimate wear products, development of industrial projects and provision of logistic services in the People's Republic of China (the "**PRC**"). The Company's ordinary shares were listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") on 26 June 2014.

The logistic services in the Group's industrial properties have been one of the businesses of the Group for years. During the current period, the Board resolved that additional resources would continuously be deployed to such business as well as development of industrial projects. Accordingly, the industrial projects and logistic services are redesignated by the Board as one of the principal businesses of the Group. Other than this change, there were no significant changes in the nature of the Group's principal businesses.

Harmonious Composition Investment Holdings Limited, a company incorporated in the British Virgin Islands (the "**BVI**"), is the immediate holding company of the Company. In the opinion of the Company's directors, Yao Li Investment Holdings Limited, a company incorporated in the BVI with limited liability and controlled by Mr. Zheng Yaonan, is the ultimate holding company of the Company.

The interim condensed consolidated financial information for the six months ended 30 June 2024 (the "Interim Financial Information") is presented in Renminbi ("RMB"), unless otherwise stated. The Interim Financial Information is unaudited but has been reviewed by the Audit Committee and approved for issue by the Board on 27 August 2024.

2 BASIS OF PREPARATION

The Interim Financial Information has been prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting". The interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2023, which have been prepared in accordance with International Financial Reporting Standards ("IFRS").

Changes in accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2023, except for the adoption of the following revised IFRSs for the first time for the current period's financial information.

Lease Liability in a Sale and Leaseback
Classification of liabilities as Current or Non-current
(the "2020 Amendments")
Non-current Liabilities with Covenants
(the "2022 Amendments")
Supplier Finance Arrangements

The nature and impact of the new and revised IFRSs that are applicable to the Group are described below:

- (a) Amendments to IFRS 16 specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains. Since the Group has no sale and leaseback transactions with variable lease payments that do not depend on an index or a rate occurring from the date of initial application of IFRS 16, the amendments did not have any impact on the financial position or performance of the Group.
- (b) The 2020 Amendments clarify the requirements for classifying liabilities as current or non-current, including what is meant by a right to defer settlement and that a right to defer must exist at the end of the reporting period. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement. The amendments also clarify that a liability can be settled in its own equity instruments, and that only if a conversion option in a convertible liability is itself accounted for as an equity instrument would the terms of a liability not impact its classification. The 2022 Amendments further clarify that, among covenants of a liability arising from a loan arrangement, only those with which an entity must comply on or before the reporting date affect the classification of that liability as current or non-current. Additional disclosures are required for non-current liabilities that are subject to the entity complying with future covenants within 12 months after the reporting period.

The Group has reassessed the terms and conditions of its liabilities as at 1 January 2023 and 2024 and concluded that the classification of its liabilities as current or non-current remained unchanged upon initial application of the amendments. Accordingly, the amendments did not have any impact on the financial position or performance of the Group.

(c) Amendments to IAS 7 and IFRS 7 clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk. The disclosure of relevant information for supplier finance arrangements is not required for any interim reporting period during the first annual reporting period in which an entity applies the amendments. The amendments did not have any impact on the interim condensed consolidated financial information.

3 OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has two reportable operating segments as follows:

Intimate wear products segment	_	Designing, marketing and selling of intimate wear products
Industrial projects and logistic	_	Development of industrial projects, provision of logistic
segment		services

The logistic services in the Group's industrial properties have been one of the businesses of the Group for years. During the period, as mentioned in note 1, the Board has resolved that additional resources would continuously be deployed to the industrial projects and logistic services and accordingly, the industrial projects and logistic services are redesignated by the Board as one of the principal businesses of the Group. The results of the industrial projects and logistic services are also separately reviewed and evaluated for management reporting purposes. Accordingly, the presentation of segment information for the six months ended 30 June 2024 has been changed to reflect this change of segment composition. Comparative segment information has been restated to conform with the current period's presentation.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit or loss, which is a measure of adjusted profit or loss before tax. The adjusted profit or loss before tax is measured consistently with the Group's profit or loss before tax except that interest income, finance expenses as well as head office and corporate income and expenses are excluded from such measurement.

The Group's revenue from external customers was derived solely from its operations in the PRC.

None of the revenue derived from any single external customer amounted to 10% or more of the Group's revenue for the six months ended 30 June 2024 (2023: None).

Information regarding these reportable segments is presented below:

FINANCIAL REVIEW

Profit attributable to the owners of the Company and the segment results

Profit attributable to the owners of the Company for the six months ended 30 June 2024 (the "**Relevant Period**") was RMB82,398,000 (the first half of 2023: RMB26,129,000), which increased by approximately 215% as compared with that of the corresponding period in 2023. Besides, the results from the intimate wear products and industrial projects and logistic segments of the Group for the Relevant Period were RMB60,257,000 (the first half of 2023: RMB44,106,000) and RMB79,841,000 (the first half of 2023: RMB9,000,000), respectively, which increased by approximately 37% and 787% when compared with that of the corresponding period in 2023, respectively.

Such increases were mainly due to (i) the successful cooperation with the Group's partners to expand e-commerce business of the Group, thereby increasing the Group's market share, adding value to the Group's brands and improving the Group's operating results; (ii) the effective cost control and improved efficiency of the Group has also further reduced the Group's operating costs; and (iii) certain units of the industrial projects of the Group located in Fenggang, Dongguan, Guangdong Province, the PRC (the "**Yuquan Projects**"), which have been delivered and recognised as revenue during the Relevant Period.

Revenue

The Group's revenue is mainly derived from sales of intimate wear products to the franchisees and to consumers through self-managed/cooperative stores and online sales platforms, development of industrial projects and provision of logistic services in the PRC. The breakdown of the revenue is as follows:

	Six months ended 30 June			
	202	2024		23
	RMB'000	%	RMB'000	%
Intimate wear products:				
Retail sales				
- Self-managed/cooperative				
stores sales	643,711	42.5	622,579	45.5
Sales to franchisees	424,611	28.0	447,154	32.7
E-commerce	226,732	15.0	249,553	18.3
	1,295,054	85.5	1,319,286	96.5
Industrial projects and logistic:				
Logistic income	47,521	3.1	48,345	3.5
Industrial projects sales	171,875	11.4		
	219,396	14.5	48,345	3.5
	1,514,450	100.0	1,367,631	100.0

During the Relevant Period, the changes in revenue of the Group were mainly driven by the following factors:

- for the revenue from intimate wear products, the Group successfully cooperated with the Group's partner to expand its e-commerce business and increased the Group's market share, with the total merchandise transaction value ("GMV") of approximately RMB230 million transacted on the cooperative e-commerce platforms during the Relevant Period, from which the Group received the relevant service income. As a result, the Group reduced some of the inefficient self-operated e-commerce platforms, resulting in a decrease in revenue from e-commerce during the Relevant Period; and

the increase in revenue from industrial projects and logistic was mainly due to the completion of the delivery and sales recognition of certain units of the Yuquan Projects during the Relevant Period. Since 2022, the Group has transformed the former old warehouses in Yuquan, the PRC, into the modern industrial and intelligent logistic warehousing industrial projects, which has been completed and approved by the relevant authorities during the Relevant Period. The total gross floor area of the Yuquan Projects is approximately 145,000 square meters, of which approximately 56,000 square meters are used by the Group for logistic business and the remaining approximately 89,000 square meters are mainly used for sales. As at 30 June 2024, the gross floor area of the Yuquan Projects of approximately 61,000 square metres had been contracted, of which approximately 25,000 square metres were delivered and revenue was recognised during the Relevant Period. The remaining contracted units of the Yuquan Projects will be delivered progressively before 2025.

During the Relevant Period, the gross profit margin of the Group remained steady at approximately 47.5% as compared with that of the corresponding period in 2023 (the first half of 2023: 47.4%), in which the gross profit margin of intimate wear products also remained steady during the Relevant Period at approximately 49.1% as compared with that of the corresponding period in 2023 (the first half of 2023: 48.2%). The gross profit margin of industrial projects and logistic increased to approximately 37.7% (the first half of 2023: 23.7%) during the Relevant Period, which was mainly due to the newly increased sales from the industrial projects during the Relevant Period.

Selling and marketing expenses

Selling and marketing expenses primarily consist of employee benefit expenses, operating expenses in respect of stores under cooperative arrangements, marketing and promotion expenses, e-commerce platforms commission expenses, depreciation and amortisation and others.

The decrease in selling and marketing expenses by about 7.7% for the six months ended 30 June 2024 to approximately RMB514,693,000 (the first half of 2023: RMB557,613,000) was mainly driven by a reduction in e-commerce platforms commission and promotion expenses as a result of the change in business strategy in e-commerce business as mentioned above and the decrease in other selling and marketing expenses primarily owing to more effective and precise marketing activities held during the Relevant Period.

The decrease in finance expenses – net to approximately RMB8,713,000 (the first half of 2023: RMB9,284,000) was mainly due to the increase in interest income and drop in interest expenses on bank borrowings during the Relevant Period.

Income tax expense

As at 30 June 2024, the Group had fulfilled all its tax obligations and did not have any unresolved tax disputes.

The income tax expense during the Relevant Period increased to approximately RMB37,965,000 (the first half of 2023: RMB8,451,000) during the Relevant Period. Such increase was mainly due to the PRC land appreciation tax charges amounted to approximately RMB15,811,000 and the reversal of part of the deferred tax assets recognised in previous years in respect of tax losses as a result of the sales and profit from industrial projects during the Relevant Period.
