## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

In the first half of 2024, confronted with the continued downturn and intensified competition in the hazardous waste disposal industry, the Company under the leadership of the new management team deepened reforms and decisively focused on enhancing operational quality. Taking “three extremes (extreme cost reduction, extreme rate efficiency improvement and extreme pace transformation) and four strengthenings (“strengthening performance assessment, strengthening incentives, strengthening constraints and strengthening fault tolerance”) as our guidance and important means, the Company carried out further extreme cost reduction, aggressively pursued extreme rate efficiency improvement, and pro-actively planned for extreme pace transformation. Thanks to our perseverance, the Company’s operating conditions gradually stabilized, laying a solid foundation for the forthcoming transformation and upgrading.

During the Reporting Period, the Company achieved operating revenue of RMB1.553 billion, representing a year-on-year decrease of 22.58%. Net profits attributable to the parent company was RMB-257 million, representing a year-on-year increase of 29.38% in loss. However, the second quarter witnessed a quarter-on-quarter reduction of over 30% in loss as compared to the first quarter. In particular, the decline in the Company’s operating revenue was primarily attributable to structural adjustments in the precious and rare metal recycling business. Regarding profits, there was a negative effect of nearly RMB100 million on the Company’s overall profits for the first half of the year due to the declining collection and transportation prices of the harmless waste treatment and disposal business and the rising resource recycling business costs. Further, the substantial increase in the Company’s fixed costs was also due to additional depreciation and amortization and significant finance costs resulting from transfer of newly commissioned projects to fixed assets, namely Shaoguan Dongjiang, Jieyang Dongjiang, and Zhuhai Dongjiang. Despite facing multiple adverse factors, through actively implementing management reforms and extreme cost reduction measures, the Company’s operating cash flow for the first half of the year increased by approximately RMB154 million year-on-year, turning from negative to positive. The monthly loss amount also showed a downward trend.

During the Reporting Period, the Company's total hazardous waste collection and transportation volume increased by approximately 2% as compared to the corresponding period of last year. Regarding the harmless waste treatment business, the average collection and transportation prices for incineration waste, landfill waste and physicochemical waste continued to decline as compared to the corresponding period of last year. The average collection and transportation price for year-based customers also decreased. Regarding resource utilization business, discount rate for collection and transportation of copper-containing wastewater rose by approximately 3 percentage points as compared to the corresponding period of last year. Regarding rare and precious metals, although the upstream metal price increases had not yet fully translated into downstream product prices, the rare and precious metal business' gross profit margin increased by approximately 4.6 percentage points as compared to the corresponding period of last year due to business structure adjustments and improved delicacy management.

In order to enhance the Company's management efficiency and build our core competitiveness, the Company focused on several areas during the Reporting Period:

Regarding "extreme cost reduction". Firstly, the Company strengthened top-level design with special work plan in respect of annual cost reduction, which systematically implemented cost reduction under "one approach for one enterprise", and assigned specific cost reduction task to each enterprise. Secondly, the Company implemented delicate deployment by taking the three-in-one initiative, namely cost reduction accounting, cost reduction analysis, and cost reduction measures, together with regular assessment of cost reduction results and tightened quantitative assessment. Thirdly, the Company reinforced assessment and incentives. Special rewards were given for effective cost reduction measures, motivating all employees to reduce costs.

Regarding transformation and development. On the policy side, the Third Plenary Session of the 20th Central Committee of the Communist Party of China (CCCPC) proposed a series of goals to further deepen reform comprehensively, including “accelerating the overall green transformation of economic and social development”. The CCCPC and the State Council recently issued the Opinions on Accelerating the Comprehensive Green Transformation of Economic and Social Development. This is the first systematic deployment concerning the comprehensive green transformation at the national level, and provides a new and broad market space for Dongjiang Environment’s business transformation and development. The Company is studying and specifying a series of work and projects on energy conservation, emission reduction and green low carbon around relevant policy documents. On the existing business side, the Company accelerated transformation towards high-end products and “environmental service”. During the Reporting Period, the Company developed and produced our first batch for Fireworks – grade copper oxide products. Our projects for copper extraction using wet process and monomer conversion residuals resource utilization have entered the debugging stage. In addition, our project for nano-scale copper salt products was accelerated for production. Meanwhile, in order to become the “premier environmental service provider for governments at all levels and industrial parks,” the Company made comprehensive efforts in our core business segments such as environmental protection engineering, wastewater treatment, solid waste disposal and comprehensive environmental services. Further, we explored innovative business models and strategic partnerships to broaden our service scope and drive industry transformation. In the next phase, the Company will continue to align closely with national strategies, focusing on the target of “advanced and differentiated resource utilization and disposal of industrial hazardous waste”, “becoming a leading integrated ecological and environmental service provider”, and “addressing environmental bottlenecks in the nation’s industrial urbanization process”, and strive to swiftly identify new growth drivers to achieve transformation and upgrade.

Regarding deepening reforms. During the Reporting Period, in order to enhance management efficiency, core functions, and industrial competitiveness, the Company completed reforms of our organizational system, rank system, compensation system, assessment system, supervision system, and fault-tolerance mechanism. We also deepened and strengthened reforms of our three systems. To fully implement the talent mechanism of “survival of the fittest” and “people can move to upper or lower level, and gain or lose office”, various management roles were filled through competitions, effectively boosting morale and stimulating the work enthusiasm of all employees.

Regarding technological innovation. The Company further solidified our research of national strategies and policy, the pre-declaration of industry-university-research achievements, and the mechanism for commercializing industry-university-research achievements. We continued to make breakthrough research in core technologies, such as cuprous chloride and nanocopper powder preparation, microbial reduction technology, and waste leachate treatment technology. During the Reporting Period, the Company obtained 25 newly licensed patents, bringing the total number of licensed patents to 688. We led or participated in the development and publication of three national standards and seven industrial standards. As of June, the Company had 19 high-tech enterprises and 14 “Specialised and New (implying “specialization, refinement, differentiation and innovation)” small and medium-sized enterprises.

## FINANCIAL REVIEW

### *Total operating revenue*

For the six months ended 30 June 2024, the Group's total operating revenue amounted to RMB1,553,358,452.26, representing a decrease of 22.58% as compared to the corresponding period of 2023 (for the six months ended 30 June 2023: RMB2,006,484,253.31). The decrease in total operating revenue was mainly attributable to a year-on-year 52.98% decrease in revenue from rare and precious metals recovery and utilization business to RMB396,750,877.20 (for the six months ended 30 June 2023: RMB843,855,229.41), which resulted from business restructuring. Meanwhile, revenue from harmless treatment business decreased due to downturn of the market. Operating revenue from industrial waste treatment and disposal amounted to RMB401,533,859.48, representing a year-on-year decrease of 7.80% (for the six months ended 30 June 2023: RMB435,509,923.66). Benefiting from rising metal prices, operating revenue from sales of resource recycled products amounted to RMB564,376,350.26 (for the six months ended 30 June 2023: RMB515,553,048.07), representing a year-on-year increase of 9.47%.

### *Profit*

For the six months ended 30 June 2024, the Group's integrated gross profit margin was 5.00% (for the six months ended 30 June 2023: 5.76%). The integrated gross profit margin decreased by 0.76 percentage point as compared to the corresponding period of last year.

For the six months ended 30 June 2024, net profit attributable to shareholders of the parent Company was RMB-257,357,295.18 (for the six months ended 30 June 2023: RMB-198,920,849.73), representing a decrease of 29.38% as compared to the corresponding period of last year. Primary reasons are sever challenges confronting hazardous waste disposal enterprises in the absence of significant improvement in the competition pattern of the hazardous waste disposal market, a year-on-year decrease in the disposal price of the Company's harmless disposal business, a year-on-year decrease in the gross profit margin of recycled products resulting from higher discount rate for collection and transportation. In addition, new production capacity of these newly commissioned projects, namely Shaoguan Dongjiang Environmental Sustainable Resources Development Co., Ltd.\*, Jieyang Dongjiang Guoye Environmental Protection Technology Co., Ltd. and Zhuhai Dongjiang Environment Technology Co., Ltd. had not been released. The incremental depreciation, amortization and finance expenses as a result of transferring them to fixed assets had significant effect on the Company's profits.

### ***Selling expenses***

For the six months ended 30 June 2024, the Group's selling expenses were RMB38,307,401.98 (for the six months ended 30 June 2023: RMB32,892,273.85), accounting for 2.47% of the total operating revenue (for the six months ended 30 June 2023: 1.64%). The increase in selling expenses was mainly due to the growth of staff cost as a result of recruiting new sales persons for new projects which commenced operation during the Reporting Period.

### ***Administrative expenses***

For the six months ended 30 June 2024, the Group's administrative expenses were RMB187,314,630.91 (for the six months ended 30 June 2023: RMB190,970,887.48), accounting for 12.06% of the total operating revenue (for the six months ended 30 June 2023: 9.52%). The administrative expenses decreased due to effective control measures taken by the Company during the Reporting Period.

### ***Finance costs***

For the six months ended 30 June 2024, the Group's finance costs were RMB93,895,258.94 (for the six months ended 30 June 2023: RMB79,575,744.61), accounting for 6.04% of the total operating revenue (for the six months ended 30 June 2023: 3.97%). The increase in finance costs for the Reporting Period was mainly due to an increase in expensed interest expenditure as a result of a decrease in capitalized finance interest during the Reporting Period.

### ***Income tax expenses***

For the six months ended 30 June 2024, the Group's income tax expenses were RMB4,273,546.78 (for the six months ended 30 June 2023: RMB-2,942,873.14), accounting for -1.36% of the total profit (for the six months ended 30 June 2023: 1.14%). The increase in income tax expenses was mainly due to more income tax paid by sewage treatment companies during the Reporting Period.

### ***Financial position and Liquidity***

As of 30 June 2024, net current assets of the Group amounted to RMB680,422,160.70 (31 December 2023: RMB384,885,371.03), including total cash and cash equivalents of approximately RMB896,795,765.01 (31 December 2023: RMB1,237,810,786.72).

As of 30 June 2024, total liabilities of the Group amounted to RMB6,989,544,095.46 (31 December 2023: approximately RMB7,119,601,250.60). Based on the total liabilities and total assets of the Group, the gearing ratio of the Group was 59.67% (31 December 2023: 58.54%). The current liabilities of the Group amounted to RMB4,159,596,583.52 (31 December 2023: RMB3,276,071,946.74). As of 30 June 2024, bank loans of the Group amounted to RMB5,265,502,140.17 (31 December 2023: RMB5,351,626,699.36).

The Board believes that the Group has a sound financial position and strong liquidity to meet its operation and business development needs in the future.

### ***Significant Investments, Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures***

During the Reporting Period, the Group had no significant investments, acquisitions and disposals of subsidiaries, associates and joint ventures.

### ***Details of Future Plans for Material Investments or Capital Assets***

Save as disclosed in this report, the Group does not have other future plans for material investments or capital assets.

## INTEREST RATE AND FOREIGN EXCHANGE RISKS

### *Interest rate risk*

The Group is exposed to the fair value interest rate risks as a result of its fixed-rate bank loans. The Group currently has no interest rate hedging policy. However, the management closely monitors the interest rate risk, and will consider other necessary actions should a significant risk be foreseeable.

The Group is also exposed to cash flow interest rate risk as a result of its floating-rate bank loans. The Group's policy is to maintain the floating-rate bank loans to reduce the cash flow interest rate risk.

The Group's cash interest rate risk mainly concentrated on the Group's RMB borrowings resulting from fluctuations in the benchmark interest rate published by the People's Bank of China.

Financial liabilities at floating interest rate expose the Company to cash flow interest rate risk, while financial liabilities at fixed interest rate expose the Company to fair value interest rate risk. The Company determines the relative proportions of contracts between fixed and floating interest rates depending on the market conditions.

### *Foreign exchange risk*

The Group primarily operates in the Mainland China, and its business are primarily settled in Renminbi. However, the recognized foreign currency assets and liabilities and future foreign currency transactions (foreign currency assets and liabilities and foreign currency transactions are mainly denominated in Hong Kong dollars and US dollars) of the Company are still exposed to foreign exchange risks. The Company pays close attention to the impact of exchange rate changes on the Company. At present, the Company has not taken other measures to avoid foreign exchange risks. The Company will consider necessary hedging actions should a significant foreign exchange risk be foreseeable.

## Contingent liabilities

Due to the method of collection and treatment of industrial waste adopted by the Group, since its incorporation, the Group has not incurred any material expenditure due to environmental restoration. However, there is no guarantee that the PRC authorities will not implement stringent environmental protection policies and/or environmental restoration standards in the future which would cause the Group to take environmental protection measures. The financial position of the Group may be adversely affected due to any environmental protection obligation which may arise as a result of the promulgation of new environmental protection policies and/or standards.

Save as disclosed above, the Group had no other significant contingent liabilities for the half year ended 30 June 2024.

## Information on Employees and Remuneration Policies

As of 30 June 2024, the Group had 4,022 full-time employees, as compared to 4,271 employees as of 31 December 2023. The total staff cost for the six months ended 30 June 2024 was approximately RMB278,693,042.50, as compared to RMB303,126,000 for the corresponding period in 2023. The Group offers continuous training, remuneration package and additional benefits to its employees, including retirement benefits, housing allowance and medical insurance.

## Future Prospects

In the second half of 2024, the Company will continue to take the “three extremes and four strengthenings as our guidance, and vigorously develop high value-added products and explore overseas sales markets on the foundation of a stable main business. At the same time, around its strategic positioning and direction, the Company will further explore various possible cooperation opportunities, innovate cooperation mechanisms, intensify cooperation and exchanges, so as to pro-actively create new growth drivers. In addition, the Company will proceed with internal cost reduction and efficiency improvement, and strive to deepen reform in raw material procurement, production cost control, etc., continuously improving management efficiency, realize more flexible and efficient management by optimizing and adjusting organizational structure, market mechanism and talent selection, and make reform-based empowerment an inexhaustible driving force for the Company’s development.

## EVENTS DURING THE PERIOD

### FACILITY AGREEMENT WITH A CONNECTED PERSON

On 28 May 2024, Wosen Environmental (a wholly-owned subsidiary of the Company) entered into the Facility Agreement with Rising Finance, pursuant to which Rising Finance has agreed to provide a recurring facility in the principal amount of up to RMB30,000,000 in aggregate to Wosen Environmental. As Rising Finance is a subsidiary of Guangdong Rising Holdings Group (a substantial shareholder of the Company), and therefore is a connected person of the Company. The Facility Agreement and the transactions contemplated thereunder constitute a continuing connected transaction of the Company under Chapter 14A of the Listing Rules.

During the Reporting Period, none of the Directors, supervisors, chief executive or the substantial shareholders of the Company and their respective associates are considered to have interests in a business which competes or is likely to compete, either directly or indirectly, with the businesses of the Group, as defined in the Listing Rules.

## AUDIT AND RISK MANAGEMENT COMMITTEE AND REVIEW OF THE INTERIM RESULTS

The Company has established an Audit and Risk Management Committee in compliance with Rule 3.21 of the Listing Rules and Code Provision D.3 of the Corporate Governance Code (the “CG Code”) set out in Appendix C1 to the Listing Rules for the purpose of reviewing and supervising the Group’s financial reporting process, risk management and internal audit functions and control. The Audit and Risk Management Committee of the Company is comprised of three independent non-executive Directors, namely Mr. Li Jinhui, Mr. Siu Chi Hung and Ms. Guo Suyi. Mr. Siu Chi Hung, who holds the appropriate professional qualifications as required under Rule 3.10(2) and Rule 3.21 of the Listing Rules, serves as the chairman of the Audit and Risk Management Committee. The Audit and Risk Management Committee has reviewed the interim results and financial statements of the Group for the six months ended 30 June 2024, but the unaudited condensed consolidated financial statements of the Group for the six months ended 30 June 2024 have not been reviewed by the auditor of the Company.

## PURCHASE, SALE AND REDEMPTION OF LISTED SECURITIES

Neither the Company nor any of its subsidiaries repurchased, sold or redeemed any of the Company’s listed securities during the period from 1 January 2024 to the date of this report.

## INTERIM DIVIDEND

The Board does not recommend the payment of any interim dividend for the six months ended 30 June 2024 (for the six months ended 30 June 2023: Nil).

## CORPORATE GOVERNANCE

The Company has been firmly committed to achieving and maintaining high overall standards of corporate governance and has always recognised the importance of accountability and communication with shareholders through continuous effort in improving its corporate governance practices and processes. Through the establishment of a quality and effective Board, a comprehensive internal control system and a stable corporate structure, the Company strives to achieve complete and transparent information disclosure, enhance stable operation and consolidate and increase shareholders’ value and profit. The Company has complied with all the applicable Code Provisions in the CG Code throughout the Reporting Period, except for the deviation mentioned below:

## **Code Provision B.2.2**

Pursuant to Code Provision B.2.2, every director, including those appointed for a specific term, shall be subject to retirement by rotation at least once every three years. The three-year term of the seventh sessions of the Board of Directors and the Supervisory Committee of the Company expired on 21 December 2023. In view of the fact that candidate nomination for the new sessions of the Board of Directors and the Supervisory Committee have not yet been completed, the Board of Directors and the Supervisory Committee need to postpone their elections so as to maintain the continuity of their work. At the same time, the terms of the sub-committees and senior management of the seventh session of the Board of Directors have been extended accordingly. The Company will complete election of new members of the Board of Directors and the Supervisory Committee as soon as possible, and fulfill our corresponding information disclosure obligations in a timely manner. Before new members are elected, all members of the seventh sessions of the Board of Directors and the Supervisory Committee and senior management personnel of the Company will continue to perform their respective duties in accordance with relevant laws and regulations and the Articles of Association to ensure the normal operation of the Company. Based on above, the Company believes that the temporary deviation from the Code provisions of the CG Code has no material impact on the overall operation of the Company.

## **CHANGES IN INFORMATION OF DIRECTORS**

There is no information required to be disclosed pursuant to Rule 13.51B(1) of the Listing Rules.

## **SECURITIES TRANSACTIONS BY DIRECTORS AND SUPERVISORS**

The Company has adopted the Model Code as the code of conduct of securities transactions by the Directors and supervisors. Having made specific enquiries with all Directors and supervisors by the Company, they confirmed that they have complied with the requirements set out in the Model Code during the Reporting Period.

## EVENTS AFTER THE PERIOD

### Matters involving a litigation and Freezing of Part of The Funds in The Designated Fundraising Account

The Company has received a statement of civil claim, a notice of action and relevant documents served by the People's Court of Gongqingcheng City (the "Court"). Due to a contractual dispute, Jiangxi Environmental Protection Co., Ltd.\* (江西環保股份有限公司) ("Jiangxi Environmental Protection Company"), as plaintiff, has initiated legal proceedings at the Court against the Company, Gui Jianping\* (桂建平) and Zhou Yue\* (周玥) as defendants, requesting that the three defendants be ordered to jointly and severally bear all kinds of expenses, interest on funds tied up and litigation-related expenses in a tentative sum of RMB96,317,554.88. Based on the above litigation, Jiangxi Environmental Protection Company has simultaneously applied to the Court for pre-litigation preservation of property, and part of the funds in the Company's special account for raised proceeds amounting to RMB96,317,554.88 have been frozen. For details, please refer to the Company's announcement dated 20 August 2024.

As at the date of this report, the above litigation has been accepted by the court, but no hearing or ruling has been held or made in this regard. Therefore, we are not in a position to assess the impact on the Company's profit for the current period or subsequent periods. The Company will actively gather evidence and take countermeasures according to law to fully protect and safeguard the legitimate rights and interests of the Company.
