業務回顧

於本年度,本集團從事之四個業務分類有: (i)酒店款待業務;(ii)提供借貸服務;(iii)買 賣及分銷酒類產品;及(iv)上市證券投資。

於二零二四年六月三十日,本集團的業務錄得收益約31,300,000港元(二零二三年:約31,200,000港元)。截至二零二四年六月三十日止年度之虧損淨額約為70,700,000港元(二零二三年:約69,800,000港元),而本公司擁有人應佔本年內虧損約為70,700,000港元(二零二三年:約69,800,000港元)。每股基本虧損約為0.45港仙(二零二三年:約0.44港仙)。本年內虧損淨額主要由於按公平值計入損益之金融資產之公平值虧損約41,500,000港元。

酒店款待業務

於本年度,酒店款待業務錄得收益約 22,500,000港元(二零二三年:約25,600,000 港元)及分類虧損約1,800,000港元(二零 二三年:分類虧損約10,000,000港元)。

酒店款待業務是本集團核心業務,截至二零二四年六月三十日止年度,有關業務為本集團貢獻約72%的收益。酒店One Niseko Resort Towers (「Resort Towers」)位於日本北海道二世古之著名日本滑雪勝地。二世古是享譽日本的滑雪度假勝地之一,以其厚重的粉雪及壯觀的鄉郊景緻而聞名。Resort Towers提供110間高檔客房,並設有室內及室外溫泉。在冬季,該地區一直吸引眾多來自世界各地的遊客前來滑雪。

In the course of preparing the financial statements, the management had engaged an independent qualified valuer (the "Hotel Valuer") to determine the recoverable amount of the cash generating unit of the hotel hospitality business (the "Hotel Hospitality Business CGU"). For the sake of prudence, the management had further engaged another independent qualified valuer to conduct an independent review of the valuation report issued by the Hotel Valuer on the valuation methodology and key valuation parameters. Both valuers are members of Royal Institute of Chartered Surveyors and with extensive experience in valuation of properties. In assessing the recoverable amount of the cash generating unit of the hotel hospitality business as at 30 June 2024, the fair value less cost of disposal method was adopted, in which is higher than the result of value-in-use calculation and is based on direct comparison approach with reference to the recent sales of similar transactions in the market.

於編製財務報表時,管理層委聘一名獨立

Based on the assessment result, no impairment loss on property, plant and equipment was recognised for the year ended 30 June 2024.

根據評估結果,概無於截至二零二四年六月三十日止年度確認物業、廠房及設備減值虧損。

As at the end of each financial year, the Company was required to assess any indication that its assets and/or cash generating unit may be impaired (i.e. the carrying amount may be higher than the recoverable amount). Recoverable amount is the higher of the assets' or the cash generating unit's value-in-use and fair value less cost of disposal. The value-in-use is developed under the income approach while the fair value less cost of disposal is developed based on direct comparison approach with reference to the recent sales transaction evidences for similar premises in the proximity. Comparable transactions vary along the change in valuation date.

於各財政年度末,本公司須評估其資產及人或現金產生單位可能出現減值的任何跡象(即賬面值可能高於可收回金額)。可收回金額是資產或現金產生單位的使用價值與公平值減出售成本兩者之較高者之較高者以收入法計算得出,而公平值減出售成本則以直接比較法並參考附近類似物業的近期銷售交易憑證後計算得出。可資比較交易隨著估值日期變動而改變。

Direct comparison method under market approach is considered to be the most popular and common valuation approach in valuing the property. Moreover, income approach has been indirectly adopted from the business perspective in the calculation of the value-in-use of the Hotel Hospitality Business CGU. Thus, direct comparison method is adopted for valuing the fair value of property.

市場法下的直接比較法被視為物業估值的最普遍常用估值方法。此外,於計算酒店款待業務現金產生單位的使用價值時,本公司已從業務角度間接採用收入法。因此,對物業的公平值進行估值時已採用直接比較法。

The key assumption adopted in the fair value less cost of disposal approach for 30 June 2024 and 2023 was the cost of disposal which was 3.5% of the market value of the property. It included the average market rate of brokerage fee and other miscellaneous administrative and legal costs.

The Company has consistently applied the same methodology to determine the recoverable amount and the fair value less cost of disposal was adopted for impairment assessment as at 30 June 2024 and 2023.

The value-in-use calculation was the estimated future cash flows discounted to their present value using a pre-tax discount rate that reflected current market assessment of time value of money and the risk specific to the hotel hospitality business. The calculation used in cash flow projections was based on latest financial budgets covering a period of 5 years with compound average annual growth rate of revenue of approximately 2% (2023: 2%). The compound annual growth rate of revenue was determined with reference to historical revenue in the current year and the 5-year forecasted revenue taking into account of the expected number of tourists who would visit Niseko. Due to the Japanese Government implemented the planned gradual reopening to inbound tourists in the year, Japan inbound market has been active. As a result, there was a gradual increase in the number of visitors to Japan in the year under review. The revenue growth rate in 2024 was lower than that in 2023 by approximately 12%. The gross profit ratio of the forecasted period was expected to be approximately 94% (2023: 93%) with reference to the historical record. The pretax discount rate of 20% (2023: 17%) was determined with reference to the market conditions, such as company specific risk premium and cost of debt of the hotel hospitality business. The cash flow projections beyond the 5-year period are extrapolated using a perpetual growth rate of 2% (2023: 2%) which was referred to long-term growth rate of tourism in Niseko and the long-term inflation rate in Japan.

於二零二四年及二零二三年六月三十日, 以公平值減出售成本方法所採用的主要假 設是出售成本(為物業市值的3.5%),包括 經紀費用的平均市場費率以及其他雜項行 政及法律成本。

本公司一致應用相同的方法釐定可收回金額,並於二零二四年及二零二三年六月三十日採用公平值減出售成本進行減值評估。

使用價值計算是使用稅前貼現率將估計未 來現金流量貼現至其現值,該貼現率反映 了當前市場對貨幣時間價值的評估及酒店 款待業務的特定風險。現金流量預測中使 用的計算方法是基於涵蓋五年期的最新財 務預算,而收益的複合平均年增長率約為2% (二零二三年:2%)。收益的複合年增長率 乃參考本年度的過往收益及五年預測收益 釐定,當中已計及將訪問二世古的預期遊 客人數。由於日本政府在本年內實施向入 境遊客計劃逐步重開,日本入境旅遊市場 持續活躍。因此,於回顧年內日本遊客人 數逐步上升。二零二四年的收益增長率較 二零二三年低約12%。經參考過往記錄,預 測期間的毛利率預計將約為94%(二零二三 年:93%)。税前貼現率20%(二零二三年: 17%) 乃參考市況(例如酒店款待業務的公 司特定風險溢價及債務成本) 而釐定。超越 五年期的現金流量預測乃採用長期增長率2% (二零二三年:2%)推算,該增長率指二世 古旅遊業的長期增長率及日本的長期通脹率。

The Group's business plan to further develop the hotel hospitality business included the renovation of the Resort Towers (the "Renovation Project"). Due to unforeseen circumstances, the Renovation Project has been delayed and could not proceed as initially scheduled. The primary reasons for the delay in the Renovation Project is our dissatisfaction with the proposed design. We believe that the design plays a crucial role in enhancing the overall appeal and functionality of the hotel. After careful consideration and evaluation, we realized that the proposed design did not align with our vision for the hotel's future. As such, we deemed it necessary to revisit and revise the design to ensure that it meets our standards and reflects our brand identity effectively. Another significant challenge we encountered was the inability to secure a reliable construction team for the building and MEP (Mechanical, Electrical, and Plumbing) inspection and construction due to a shortage of qualified contractors and engineers in the region. The construction industry is currently facing unprecedented demands, leading to a scarcity of skilled professionals available to undertake projects of this scale. Despite our best efforts to engage suitable contractors, the shortage in the market has posed a considerable obstacle in assembling a competent team to execute the renovation project efficiently.

We are dedicated to delivering a renovated hotel that exceeds expectations and upholds the high standards that our guests have come to expect. Our team is working diligently to overcome these obstacles and proceed with the Renovation Project promptly.

本集團進一步發展酒店款待業務之業務計 劃包括翻新Resort Towers(「翻新項目」)。 由於未能預見之情況,翻新項目已被延遲, 未能按原定計劃進行。翻新項目延遲之主 要原因為我們對建議設計並不滿意。我們 相信,設計對於提升酒店之整體吸引力及 功能性有著至關重要之作用。經過慎重之 考慮及評估,我們意識到建議設計與我們 對酒店未來之願景並不一致。因此,我們 認為有必要重新檢視並修改設計,以確保 其符合我們之標準,並有效反映我們之品 牌形象。我們遇到之另一個重大挑戰是, 由於區內合資格之承包商及工程師短缺, 我們無法找到可靠之建築團隊進行樓宇及 MEP(機械、電力及管道)檢查及建設。建 築業目前面臨前所未有之需求, 導致可承 辦此規模項目之技術專業人員非常稀少。 儘管我們已盡最大努力委聘合嫡之承包商, 但市場上之短缺仍對組建一支能幹之團隊 以有效執行翻新項目構成相當大之障礙。

我們致力於打造一家超出預期之翻新酒店, 並維持賓客所期望之高標準。我們之團隊 正努力克服該等障礙,並迅速開展翻新項目。

Money lending services

As at 30 June 2024, the Group had loans receivable with gross principal amount of approximately HK\$146.9 million (2023: approximately HK\$161.9 million) with related gross interest receivables of approximately HK\$82.2 million for the year ended 30 June 2024 (2023: approximately HK\$68.8 million).

The loan portfolio comprises loans to Independent Third Party (as defined below) borrowers with term ranging from eight months to twenty-four months and interest rate ranged from 8% to 20% (2023: 5.5% to 20%) per annum.

The money lending business recorded a segment loss of approximately HK\$1.0 million (2023: approximately HK\$8.6 million).

In the course of preparing the financial statements, the management had engaged an independent qualified valuer (the "1st ECL Valuer") to determine the expected credit losses (the "ECL") of the Group's loans receivable. For the sake of prudence, the management had further engaged another independent qualified valuer ("2nd ECL Valuer") to conduct an independent review of the valuation report issued by the 1st ECL Valuer on the valuation methodology, the underlying assumptions, the parameters and inputs used in the valuation for accounting purpose. In assessing the ECL of the Group's loans receivable, a credit rating analysis of the underlying debtors was adopted by reviewing the historical accounting information to estimate the default risk. The Group applied different expected loss rates to different classes of receivables according to their respective risk characteristics. In determining the default risk, factors including but not limited to, the ageing analysis of the receivables, the Group's internal assessment of the debtors' credit worthiness. historical and forecast occurrence of event of default, existence and valuation of the collaterals, the relevant regulatory framework and government policies in Hong Kong and global economic outlook in general and the specific economic condition of Hong Kong and the People's Republic of China (the "PRC"), would be considered. The rate of ECL ranged to 100% (2023: 93.11% to 100%) depending on the nature, probability of default and loss given default of the loans receivable.

借貸服務

於二零二四年六月三十日,本集團有本金總額約146,900,000港元(二零二三年:約161,900,000港元)之應收貸款,而於截至二零二四年六月三十日止年度的相關應收利息總額約為82,200,000港元(二零二三年:約68,800,000港元)。

貸款組合包括向獨立第三方(定義見下文) 借貸人作出之貸款,為期八個月至二十四個月不等,年利率介乎8厘至20厘(二零二三年:5.5厘至20厘)。

借貸業務錄得分類虧損約1,000,000港元(二零二三年:約8,600,000港元)。

於編製財務報表的過程中,管理層委聘一 名獨立合資格估值師(「首名預期信貸虧損 估值師」) 釐定本集團應收貸款之預期信貸 虧損(「預期信貸虧損」)。為審慎起見,管 理層進一步委聘另一名獨立合資格估值師 (「第二名預期信貸虧損估值師」) 就首名預 期信貸虧損估值師發出之估值報告涉及之 估值方法、相關假設、就會計而言估值所 用參數及輸入數據進行獨立審查。評估本 集團應收貸款之預期信貸虧損時,通過審 閱過往會計資料以估計違約風險,對相關 債務人進行信貸評級分析。本集團於不同 類別之應收款項根據其各自之風險特性應 用不同預期虧損比率。釐定違約風險時考 慮之因素包括但不限於應收款項之賬齡分 析、本集團對債務人信用狀況之內部評估、 發生違約事件之歷史及預測、抵押品之存 在及估值、香港相關監管框架及政府政策、 全球的總體經濟前景以及香港及中華人民 共和國(「中國」)的具體經濟狀況。預期信 貸虧損比率為100%(二零二三年:93.11% 至100%),視乎應收貸款違約性質、違約 或然率及違約損失率而定。

The Group has adopted a credit policy to manage its money lending business which includes compliance with all applicable laws and regulations, credit assessment on potential borrower and his/its assets, the credibility of the potential borrower, the necessity in obtaining collaterals and determination of suitable interest rate to reflect the risk level of the provision of loan.

The Group has performed credit risk assessment before granting the loans by (a) reviewing the financial information of the potential borrower; and (b) performing an assessment on the financial condition of the potential borrower and its shareholder (for enterprises), such as the type and value of assets owned by the potential borrower.

The Group also assesses and decides the necessity and the value of security/collateral for granting of each loan, whether to an individual or enterprise, on a case by case basis considering factors, including but not limited to, the repayment history, results of public search towards the borrower, the value and location of the assets owned by the borrower and the financial condition of the borrower.

For loan collection/recovery, the Group issues overdue payment reminder to the borrower, instructs its legal advisers to issue demand letter for loans overdue for a longer period of time, negotiates with the borrower for the repayment or settlement of the loan and/or commences legal actions against the borrower.

本集團已採納信貸政策管理其借貸業務, 包括遵守所有適用法律及法規、對潛在借貸人以及其資產進行信貸評估、潛在借貸人的可信程度、獲取任何抵押品的必要性以及釐定合適利率以反映提供有關貸款的風險水平。

本集團於授出該等貸款前已進行信貸風險評估,方法是:(a)審閱潛在借貸人的財務資料;及(b)對潛在借貸人及其股東(就企業而言)的財務狀況進行評估,例如潛在借貸人擁有的資產類型及價值。

本集團在考慮(包括但不限於)還款記錄、 對借貸人進行公開調查的結果、借貸人所 擁有資產的價值及位置以及借貸人的財務 狀況等因素後,按個別基準評估及決定授 出各筆貸款(無論授予個人或企業)的必要 性及擔保/抵押品的價值。

就貸款收回/收款而言,本集團向借貸人 發出逾期付款通知書、指示其法律顧問就 較長時間逾期貸款發出還款通知書、與借 貸人就償還或償付貸款進行協商及/或對 借貸人開展法律行動。

Business Model of the Money Lending Service

The Group conducts its money lending business in Hong Kong through its wholly-owned subsidiary, DeTai Finance Limited ("DeTai Finance") which holds a money lender's licence under the Money Lenders Ordinance (Chapter 163 of the laws of Hong Kong). The money lending business is mainly financed by the internal resources of DeTai Finance.

DeTai Finance grants loans to both corporate and individual borrowers in Hong Kong whom are person(s) or company(ies) and their respective ultimate beneficial owner(s) that are third parties independent of and not connected with the Group and its connected persons in accordance with the Rules (the "Listing Rules") Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the "Independent Third Party(ies)"). DeTai Finance does not grant loans to the general consumer market. DeTai Finance has not solicited new clients nor granted new loans as the management of the Company, which were mainly in charge of the money lending business, has changed in the recent few years. It is the policy of DeTai Finance that no loan should be made to one borrower or all related parties of the said borrower where such loan and all loans aggregated with all related parties would exceed 50% of the entire loan portfolio of the Group.

A. ENVIRONMENTAL ASPECTS

A1. Emissions

The Group believes in the importance of sustainable development and environmental protection and integrates environmental protection into all aspects of our business activities while supporting local sustainability action plans. Our ESG Strategy and Policy provided a guiding framework for the Group to develop and implement relevant guidelines, operations procedures and measures based on our business nature, covering greenhouse gas emissions, air emissions, energy use, water use, and waste disposal.

Despite the fact that little environmental impact can be caused by office-based operations in Hong Kong, the Group is committed to operating its business in an environmental-friendly manner, fostering mindful resources consumption in daily operations and arousing its employees' environmental awareness. We constantly monitor our environmental performance and strive hard to reduce the negative impacts on the environment.

For the hotel hospitality business, the Group is committed to driving sustainability among the local community by regularly attending the monthly meetings with Niseko Town & Hotel Association to support the Niseko Eco-Model City Action Plan and to discuss environmental issues with the Niseko Environmental Division.

For the trading and distribution of liquor and wine business in the PRC, the operation is office-based and no manufacture activity is involved. As the electricity expenses and water consumption charges are included in office rental expense paid to the landlord of the PRC office, the PRC electricity usage data and water consumption data cannot be recorded and available this year.

A. 環境層面

A1. 排放物

儘管在香港營運的辦公室對環境 影響不大,但本集團致力以環保 的方式經營業務,在日常營運中 培養關注資源消耗行為,並提高 員工的環保意識。我們持續監控 環境績效,致力減少對環境的負 面影響。

就酒店款待業務而言,本集團致力於推動當地社區之可持續發展,透過定期出席與二世古城鎮及酒店組織(Niseko Town & Hotel Association)舉辦之每月會議,支持二世古生態模式城市發展計劃(Niseko Eco-Model City Action Plan)及與二世古環境部(Niseko Environmental Division)討論環境議題。

就中國酒類產品買賣及分銷業務 而言,業務以辦公室營運為主費 並不涉及生產活動。由於電費計入支付予中國辦公室業主 的辦公室租金中,故未能記錄及 提供本年度中國用電量數據及耗 水量數據。

During the Reporting Period, the Group strictly complied with all relevant environmental laws and regulations in Hong Kong and was not aware of any non-compliance of laws and regulations that could have significant impacts on the Group relating to air pollutants and greenhouse gas emissions, discharges into water and land, or generation of hazardous and non-hazardous wastes, including but not limited to the followings:

- Air Pollution Control Ordinance (Chapter 311 of the Laws of Hong Kong);
- Waste Disposal Ordinance (Chapter 354 of the Laws of Hong Kong);

The Group strictly complied with the Air Pollution Control Ordinance (Chapter 311 of the Laws of Hong Kong) and The Air Pollution Control Act of Japan during the year. For money lending and investment business, the operation is mainly office-based and it is not involved in the combustion of stationary sources. For the trading and distribution of liquor and wine business in the PRC, there is no air pollution as no vehicle use is involved in daily operation. For the hotel hospitality business, the air pollutants emitted are mainly generated from the diesel and gasoline consumed by business vehicles, such as tour buses and private cars, electricity purchased from the grid, as well as heavy oil and kerosene for the hot spring operation and bathroom water heating in hotel guest rooms. Despite of it, the Group encourages employees to adopt alternative communication means, such as telephone conferences and video conferences, in order to reduce air pollutants emission arising from additional traffic.

- 《廢物處置條例》(香港法例第354章);
- 日本之《環境基本法》 (一九九三年第91號法例);
- 日本之《大氣污染防治法》 (一九六八年第97號法案);
- 日本之《廢物管理及公共清潔法》(一九七零年第137號法例);及
- 日本之《水污染防治法》 (一九七零年第138號法案)

空氣污染物排放

空氣污染物排放控制對於減輕環 境的影響及保障僱員的健康至關 重要。本年內本集團嚴格遵守《空 氣污染管制條例》(香港法例第 311章)及日本之《大氣污染防治 法》。就借貸及投資業務而言, 業務以辦公室營運為主,並不涉 及固定源的燃燒。就中國酒類產 品買賣及分銷業務而言,由於日 常營運並無涉及汽車使用,故概 無空氣污染。就酒店款待業務而 言,所排放的空氣污染物主要產 生自酒店旅遊巴及私家車等商務 汽車所消耗柴油及汽油、從電網 所購買電力以及溫泉營運及酒店 客房浴室洗澡水加熱所用重油及 煤油。儘管如此,本集團鼓勵僱 員採用電話會議及視像會議等替 代通訊方式,以減少因額外交通 而產生的空氣污染物排放。

The increase in air pollutant emissions in 2024 was mainly attributable to the increased fuel usage in the hotel operation for the increase in the number of visitors to Japan and the increase in the number of hotel guest nights, as compared with 2023. Furthermore, the Group targets to reduce the emission of air pollutants by around 5% by 2032, using 2022 as the base year.

During the Reporting Period, the air pollutants emission was as follows:

二零二四年空氣污染物排放量增加乃主要由於與二零二三年相比,訪日旅客人數增加及酒店資客入住晚數增加,致使酒店營運的燃料用量上升。此外,本集團的目標為於二零三二年前將空氣污染物排放量減少約5%(以二零二二年作為基準年度)。

於報告期間,空氣污染物排放量如下:

Greenhouse Gas ("GHG") Emission

The Group recognises that climate change is gradually concerned by the community as it affects our daily life and poses a risk to its business. Hence, the Group is committed to mitigating the effects of climate change and protecting the health of employees. For money lending and investment business, electricity accounts for their GHG scope 2 indirect emission during the office operation. For hotel hospitality business, the diesel and gasoline consumed by business vehicles, such as tour buses and private cars, as well as heavy oil and kerosene for the hot spring operation and bathroom water heating in hotel guest rooms contribute to GHG scope 1 emission. The electricity purchased from the grid for hotel guest rooms accounts for the GHG scope 2 indirect emission in Japan. In an effort to minimise the carbon footprint, the Group is devoted to maintaining an efficient and effective use of resources by adopting energy-saving initiatives which will be further elaborated in the section "Use of Resources" of this Report. The increase in GHG emissions in 2024 was mainly attributable to the increased electricity and fuel usage in the hotel operation for the increase in the number of visitors to Japan and the increase in the number of hotel guest nights, as compared with 2023. Furthermore, the Group targets to reduce the GHG emission by around 5% by 2032, using 2022 as the base year.

溫室氣體(「溫室氣體|)排放

本集團認識到社區對氣候變化的 日益關注,因其影響我們的日常 生活並對業務構成風險。因此, 本集團致力於減輕氣候變化的影 響,並保護僱員的健康。就借貸 及投資業務而言,溫室氣體範圍 2的間接排放出至於辦公室營運 所使用的電力。就酒店款待業務 而言,溫室氣體範圍1的排放物 產生自酒店旅遊巴及私家車等商 務汽車所消耗柴油及汽油,以及 溫泉營運及酒店客房浴室洗澡水 加熱所用重油及煤油。溫室氣體 範圍2的間接排放物產生自就日 本酒店客房從電網所購買電力。 為盡量減少碳足印,本集團致力 採取節能措施,以維持高效及有 效使用資源,有關節能措施將於 本報告「資源使用」一節進一步闡 述。二零二四年溫室氣體排放量 增加乃主要出至於與二零二三年 相比, 訪日旅客人數增加及酒店 賓客入住晚數增加,致使酒店營 運的耗電量及燃料用量上升。此 外,本集團的目標為於二零三二 年前將溫室氣體排放量減少約5% (以二零二二年作為基準年度)。

Hazardous and Non-hazardous Wastes

Waste management is considered as one of the material topics in environmental protection. The Group recognises the importance of waste reduction. Waste management measures have been introduced and implemented to minimise the amount of waste generated and the impact on the environment. With our business nature, no hazardous waste is generated or discharged during office and hotel operations. The Group strictly complied with the Waste Disposal Ordinance (Chapter 354 of the Laws of Hong Kong) and Water Pollution Control Ordinance (Chapter 358 of the Laws of Hong Kong) and The Waste Management and Public Cleansing Act of Japan during the year.

For money lending and investment business, the major source of their non-hazardous waste is the general office waste consisting of paper and plastic waste, which is considered as insignificant to the Group's business. For the trading and distribution of liquor and wine business in the PRC, the office waste generated is considered immaterial to the Group. No waste was recorded during the year. The PRC office will try its best to develop a proper waste data recording system in the coming year. For hotel hospitality business, the non-hazardous waste includes paper and cardboard, plastics, metals, glass and disposable room amenities and linens. The Group endeavours to reduce the amount of waste and strengthen the environmental awareness of the employees. The Group ensures all the wastes generated are properly collected and handled by the property management company. The Group will plan to establish an effective non-hazardous waste data collection system to record the waste amount in the future.

有害及無害廢物

就借貸及投資業務而言,其無害 廢物的主要來源為一般辦公室廢 物(包括紙張及塑膠廢物),其被 視為對本集團業務並不重大。就 中國酒類產品買賣及分銷業務而 言,所產生的辦公室廢物被視為 對本集團並不重大。本年內並無 錄得任何廢物。來年,中國辦公 室將致力開發適當的廢物數據記 錄系統。就酒店款待業務而言, 無害廢物包括紙張及紙板、塑 膠、金屬、玻璃及即棄客房用品 及床單。本集團致力於減少廢物 量及提高僱員的環保意識。本集 團確保所有所產生廢物均由物業 管理公司妥善收集及處理。未 來,本集團將計劃建立有效的無 害廢物數據收集系統,以記錄廢 物量。

To reduce the amount of waste generated, we recommend our staff to use reusable cups and bowls in the workplace to reduce the use of disposable containers and minimise the waste and harm to the environment. We recycle every printer toner cartridge, rechargeable battery, and CD-ROM disc, as well as encourage proper sorting of recyclable materials including waste paper, metals, and plastic. Moreover, we encourage duplex printing for most of the printing jobs in our office to avoid paper overuse. We pre-set the fax machine to convert incoming messages to electronic files and transfer them directly to the server to avoid bulk printing of promotional copies. Single-sided paper, envelopes, and the backside of letter pads are also reused to the greatest extent.

Our hotel operation strictly complied with the Water Pollution Prevention Act of Japan during the year. Supporting the Niseko Eco-Model City Action Plan, the Group has installed a sludge circulation filtration system, which treats domestic wastewater generated by the hotel operations by sedimentation and filtration, before discharging into the municipal sewage network of Niseko Town. Sludge generated by the treatment system is collected annually by the authorised vendor for further treatment. During the Reporting Period. 36.1 m³ (2023: 42.0 m³)⁶ sludge was collected through the system.

為了減少產生的廢物量,我們建 議員工在工作場所使用可重複使 用的杯碗,以減少使用即棄容 器, 並盡量減少浪費及對環境的 危害。我們回收每個打印機碳粉 盒、可充電電池及CD-ROM光 盤, 並鼓勵對可回收材料進行適 當分類,包括廢紙、金屬及塑 膠。此外,我們鼓勵辦公室在大 多數情況採用雙面打印,以避免 使用過量紙張。我們將傳真機預 設為收到信息後轉換為電子文檔 並直接傳輸到伺務器,以避免大 批打印促銷文件。只用了單面的 紙張、信封及信箋的背面亦盡量 善用。

本年內,我們的酒店營運嚴格遵 守日本之《水污染防治法》。為配 合二世古生態模式城市發展計劃 (Niseko Eco-Model City Action Plan),本集團已安裝污泥循環淨 化系統,透過沉澱及過濾處理酒 店營運產生之生活污水,然後再 排入二世古鎮之市政污水管網。 該處理系統產生之污泥每年由經 授權供應商收集,以便進一步處 理。於報告期間,已透過該系統 收集污泥共36.1立方米(二零 二三年:42.0立方米)6。

The data of last year have been restated to facilitate the comparison of 6 為了一致性,去年之數據經已重列。

The increase in the amount of non-hazardous waste generated in 2024 was mainly due to the increased hotel operation for the increase in the number of visitors to Japan and the increase in the number of hotel guest nights, as compared with 2023. Furthermore, the Group targets to reduce the non-hazardous waste generation by around 5% in 2032, using 2022 as the base year. The nonhazardous wastes generated by the Group were as follows:

A2. Use of Resources

The Group strives to take all feasible measures to incorporate sustainability into its business operations and improve its environmental performance. Realising that resource conservation is crucial for maintaining environmental sustainability, we promote green office management and encourage our employees to be aware of the need for resource conservation in daily operations. We pledge to reduce resource consumption and carbon footprint in all our businesses and operations through the application of several actions and practices. Energy and water are our primary resources, and we strive to minimize their usage. Notably, we do not use any packaging materials during our operations.

Energy

The energy consumption of the Group mainly comes from purchased electricity for our hotel operation, the diesel, and gasoline consumed by business vehicles, such as tour buses and private cars, as well as heavy oil and kerosene for the hot spring operation and bathroom water heating in hotel guest rooms. The PRC electricity usage data cannot be recorded and available this year as the electricity expense is included in the office rental expense paid to the landlord of the PRC office. To reduce the energy consumption, the Group advocated various energy conservation strategies as follows:

- Installed hot water pipes for hotel guest room heating purpose
- Double-glazed windows that reduce the absorption of heat through the outer layers of the building while still keeping high levels of natural light

A2. 資源使用

能源

- 安裝熱水管為酒店客房供暖
- 安裝雙層玻璃窗以減少透過建築物外牆吸收之熱力, 同時保持有大量自然光

- Chiller system that contains automatic temperature management function to improve energy efficiency
- Gradually replacing light bulbs with lightemitting diode ("LED") bulbs
- Used daylight whenever possible to save electricity used for lighting
- Switched off all electronic appliances when they are not in use
- Used energy-saving light bulbs to reduce power consumption
- Given a choice whether to change the bed linen daily as a part of our environmental responsibilities for energy saving from washing machine uses

The increase in energy consumption in 2024 was mainly attributable to the increased electricity and fuel usage in the hotel operation for the increase in the number of visitors to Japan and the increase in the number of hotel guest nights, as compared with 2023. Furthermore, the Group targets to reduce total energy consumption by 5% in 2032, using 2022 as the base year.

- 安裝附有自動溫度管理功能之冷卻器系統,以提高能源效益
- 逐步以發光二極體(「LED」) 燈泡取代燈泡
- 盡量使用日光,以節省照明用電
- 關閉所有不使用的電器
- 使用節能燈泡以減少功耗
- 作為環保責任的一部分, 客戶可選擇是否每天更換 床單,以節省洗衣機使用 的能源

二零二四年耗電量增加乃主要出至於與二零二三年相比,訪日旅客人數增加及酒店資運的耗電量的,致使酒店營運的耗電量及燃料用量上升。此外,本集團的目標為於二零三二年前將能源消耗總量減少5%(以二零二二年作為基準年度)。

Water

Water is another critical resource utilized by the Group. The water supply for the Group's operations is provided by the Water Supplies Department. However, for the money lending and investment business, the office water supply is solely controlled by the building management company. In this case, it is not feasible to record the water consumption data specifically for the office operations, as there is no separate submeter installed.

To reduce water consumption, the Group has taken measures to strengthen water-saving awareness among employees. The Group sends out emails and posts signs to remind employees to conserve water. Additionally, in the Group's hotel operations, the Group offers guests the option to forgo daily bed linen changes as part of its environmental responsibility efforts, which helps reduce water consumption from laundry operations.

Unfortunately, the water consumption data for the Group's PRC offices cannot be recorded this year, as the water charges are included in the overall office rental expense paid to the landlord. Overall, the Group did not encounter any water supply issues during the Year, and we are committed to responsible water management. We continues to explore ways to optimize water consumption across its various business operations.

The Group has installed a spring water circulation system at its Niseko Moiwa-Mountain Natural Hot Springs facility. This system utilizes natural spring water to operate the spa center, reducing the reliance on freshwater supplied by the local water utility network. To maintain the water quality in accordance with the Niseko Hygiene Management Office Standards, the Group adds fresh water and chlorine to the spring water circulating through the system.

耗水

水是另一項本集團使用之重要資源。本集團營運之供水由水務無關營運之供水由水務無關營運之供水由資業務所言,辦公室用水供應由樓宇管理公司全權控制。在此情況無對時記錄辦公室營運之耗水量數據。

本集團已在二世古藻岩山天然溫泉 (Niseko Moiwa-Mountain Natural Hot Springs) 設施安裝一個泉水循環系統。該系統利用天然線水營運水療中心,以減少大類當地公用水務網絡供應之淡賴當地公用水務網絡供應之淡水。為了確保水質符合二世古透水上管理辦公室標準,本集團在透過該系統循環之泉水中添加淡水及氮。

The wastewater generated from the Group's various operations is primarily municipal wastewater. The effluent is promptly discharged into the local sewage pipeline network, where it undergoes further treatment by the local drainage services department. As a result, the Group's wastewater discharge has a minimal environmental impact.

本集團各業務產生之廢水主要是 城市污水。污水迅速排入當地之 污水管網,並由當地排水服務部 門進一步處理。因此,本集團之 廢水排放造成之環境影響極微。

By implementing the spring water circulation system and properly managing the wastewater discharge, the Group demonstrates its commitment to sustainable water resource management and minimizing the environmental footprint of its operations.

透過實施泉水循環系統及妥善管 理廢水排放,本集團展示了其對 可持續用水資源管理及盡量減少 營運對環境影響之承諾。

The increase in water consumption in 2024 was mainly due to the increased hotel operation for the increase in the number of visitors to Japan and the increase in the number of hotel guest nights, as compared with 2023. Strategy

Climate change risk forms part of our overall risk profile through its role in increasing the frequency and intensity of certain diseases, and the health and mortality impacts resulting from natural disasters. We assess the overall level of risk by taking into consideration a range of diverse risk factors across the many categories in our services range. This diversity of risk is combined with our business strategy and broad geographic footprint helps us mitigate risk and provide protection against the impacts of short-term climate change effects.

Our services continue to provide protection for people in our communities against weather and heat-related diseases. Besides, we plan to explore opportunities to engage our business partners and encourage them to develop climate resilience and reduce their operational carbon footprint by taking into consideration different climate-related scenarios, including a "2°C or lower scenario" through the following steps:

我們的服務持續為社區的大眾提供保障,對抗天氣及暑熱疾病。此外,我們計劃探索機會與我們的業務夥伴合作,並鼓勵彼等考慮各種氣候相關情境(包括「2℃或以下情境」),從而加強適應氣候的能力,並減少業務營運的碳分別,所涉及的步驟如下:

Step 1: Set Future Images Assuming Climate Change Effects

As climate change measures proceed, there is a possibility that the industry will be exposed to substantial changes, such as stricter policies including the introduction of and increases in carbon pricing, as well as advances in technology and changes in customer awareness.

In light of these climate change effects, based on the International Energy Agency ("IEA") scenarios and others, we developed multiple future images of 2025 as the external environment that will surround our Group. With regard to the IEA scenarios, we put focus on the 2°C scenario and pictured future images in case where climate change measures do not progress and where such measures progress further Beyond 2°C scenario.

Step 2: Consider the Impacts

We considered the impacts on our Group for each of the future images developed in Step 1. We believe that in such a society, it will be possible to expand carbon dioxide emission reduction effects.

With regard to the effects on our Group's procurement, office operation, and hotel operation, the introduction of an increase in carbon pricing is anticipated following the global advance of climate change measures, leading to the possibility of higher procurement, office operation, and hotel operation costs.

On the other hand, in the case where climate change measures are not adequate throughout society, business operation interruptions and supply chain disruptions are likely to increase as a result of higher frequency and intensification of natural disasters such as typhoon and flooding.

第一步:根據氣候變化影響的假 設組建未來景象

隨著氣候變化措施的推行,行業可能面臨重大變化,例如引入及 上調碳定價等更嚴格的政策,以 及技術進步及客戶觀念的變化。

第二步:考慮影響

我們已考慮第一步所組建的未來 景象各自對本集團造成的影響。 我們認為在這樣的社會中,有可 能擴大二氧化碳減排的效果。

就對本集團採購、辦公室營運及 酒店營運的影響而言,隨著全球 加強氣候變化措施,預計將引入 上調碳定價,繼而可能推高採 購、辦公室營運及酒店營運成本。

另一方面,當整個社會的氣候變化措施不足,自然災害(如颱風及洪水)發生的頻率上升且程度加劇將可能令業務營運停頓及供應鏈中斷的情況增加。

Step 3: Respond to the Strategies

Our Group will begin promoting the reduction of the use of non-renewable energy in our office operation and hotel operation. This strategy will allow for flexible and strategic responses to each demand for the regions where the emission factors of purchased electricity consumptions are high. By promoting real carbon emissions reductions throughout the world through comprehensive energy-saving policies and introduction of renewable energy, we are working to achieve zero carbon emission in our business.

With respect to renewable energy in particular, we have set a target; to achieve a 5% reduction rate for purchased electricity and fuel consumption by 2032, using 2022 as the base year. Concerning the ongoing confirmation of the suitability and progress of the Group's strategies, we believe that we will have opportunities for stable funding and sustainable increases in corporate value through appropriate information disclosure, and dialogue with institutional investors and other stakeholders.

第三步:戰略對策

Risk Management

Our Group identifies the climate change related risks or to test the existing risk management strategies under climate change with the aid of risk assessment. Hence, the areas where new strategies are needed could be identified.

The risk assessment takes a standard risk-based approach using national data, local information and expert knowledge, which can identify how climate change may compound existing risks or create new ones. The risk assessment is conducted through the following steps:

Step 1: Establish the context

- Objective/goal
- Scale
- Time frame
- Climate change scenario for most climate variables and sea level

Step 2: Identify existing risk (past and current)

- Identify the record of occurrence of climatic hazard in the past in the area
- Risk management strategies in place to tackle future occurrence of the hazard

Step 3: Identify future risk and opportunities

- Explore climate change projections for the selected time frame(s) and emission scenario(s)
- Identify potential hazards
- Investigate whether any existing risk from Step 2 may get worse under future projected changes
- Identify new risks that can emerge under future projected changes

Step 4: Analyse and evaluate risk

 Identify a set of decision areas or systems (i.e. geographical areas, business operation, assets, ecosystems, etc.) that has the potential to be at risk in future

風險管理

本集團識別氣候變化相關風險, 或借助風險評估測試氣候變化下 的現有風險管理策略。因此,我 們可識別有需要實施新策略的領 域。

風險評估採用風險為本的標準方針,利用國家數據、當地資料及專家知識,能夠識別氣候變化如何加劇現有風險或產生新風險。 有關風險評估按以下步驟進行:

第一步:建立背景

- 目標/願景
- 規模
- 時間表
- 大部分氣候可變因素及海 平面的氣候變化情境

第二步:識別現有風險(過去及現在)

- 識別相關地區過去出現氣 候危機的記錄
- 應對未來出現有關危機的 現有風險管理策略

第三步: 識別未來風險及機遇

- 探索選定時間範圍及排放 情境下的氣候變化預測
- 識別潛在危機
- 根據未來預測變化,探討 第二步的任何現有風險是 否可能加劇
- 識別未來預測變化中可能 出現的新風險

第四步:分析及評估風險

確定一組未來可能面臨風險的決策領域或系統(如地區、業務營運、資產、生態系統等)

As outlined in the "governance section of Section A4. Climate Change" above, the Group has robust risk management and business planning processes that are overseen by the board of directors in order to identify, assess and manage climate-related risks. The Group engages with government and other appropriate organizations in order to keep abreast of expected and potential regulatory and/or fiscal changes.

We continue to raise awareness of climate change in regard to monitoring of carbon and energy footprint in our daily operation. However, there remains gaps in understanding how such climate risks and opportunities may impact our operations, assets and profits. Our Group assesses how the business addresses climate change risks and opportunities and takes the initiative to monitor and reduce their environmental footprint.

Metrics and Targets

Our Group adopts the key metrics to assess and manage climate-related risks and opportunities. The energy consumption and greenhouse gas (GHG) emissions indicators are the key metrics used to assess and manage relevant climate-related risks where we consider such information is material and crucial for evaluating the impact of our operation on global climate change during the year. Our group consistently monitors our energy consumption and greenhouse gas (GHG) emissions indicators to evaluate the effectiveness of emission reduction initiatives and establish targets to minimize our impact on global warming.

The details of time frames over which the target applies and base year from which progress is measured are described in the Section A1: "Emissions" and Section A2: "Use of Resources" of this Report. Our Group adopts absolute target to manage climate-related risks, opportunities and performance.

指標及目標

有關目標適用的時限以及衡量各項進展的基準年詳情載述於本報告第A1章節:「排放物」及第A2章節:「資源使用」分節。本集團採納硬性目標以管理氣候相關風險、機遇及表現。

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment assessment for property, plant and equipment on hotel hospitality business

Refer to note 15 to the consolidated financial statements and notes 3.7 and 3.9 to the consolidated financial statements.

As at 30 June 2024, the Group had property, plant and equipment with the brought forward net carrying amount of HK\$240,104,000 (before the current year impairment loss) arising in hotel hospitality business.

For the purpose of assessing impairment, the directors of the Company assessed the recoverable amount of the non-current assets based on higher of its fair value less costs of disposal and value-in-use. The recoverable amount of the non-current assets in the hotel hospitality business cash generating units ("Hotel CGU") was determined by the directors based on fair value less costs of disposal, which is higher than its value-in-use.

The impairment assessment involves significant judgements and assumptions by the directors of the Company underlying the determination of the recoverable amount of the non-current assets in the Hotel CGU.

The directors of the Company has engaged an independent professional valuer to determine the fair value less costs of disposal of the non-current assets in the Hotel CGU. The determination of the fair value less costs of disposal is based on the recent sales of similar transactions in the market. Directors of the Company concluded that, based on the assessment result, no impairment loss on property, plant and equipment has been recognised for the year.

貴公司董事已委聘獨立專業估值師,以釐定酒店現金產生單位非流動資產之公平值減出售成本。釐定公平值減出售成本乃基於市場類似交易之近期銷售。 貴公司董事總結,基於評估結果,概無於本年度確認物業、廠房及設備減值虧損。

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

董事就綜合財務報表須承擔之責 任

董事須負責根據香港會計師公會頒佈之香港財務報告準則及香港公司條例之披露規定,編製真實而公平地反映情況的綜合財務報表,並推行董事認為必要的有關內部監控,以使綜合財務報表之編製不存在由於欺詐或錯誤而導致之重大錯誤陳述。

在編製綜合財務報表時,董事須負責評估 貴集團持續經營的能力,並披露與持續經營有關的事項(如適用)。除非董事擬將 貴集團清盤或停止營運,或除此之外並無其他實際可行的辦法,否則須採用以持續經營為基礎的會計法。

董事亦須負責監督 貴集團的財務報告流程。審核委員會協助董事履行此方面的職責。

我們的目標是合理確定綜合財務報表整體 是否不存在由於欺詐或錯誤而導致的重大 錯誤陳述,並出具包括我們意見的核數師 報告。根據百慕達一九八一年公司法第90 條,本報告僅向 閣下(作為整體)作出, 除此之外別無其他用途。我們概不就本報 告之內容向任何其他人士負責或承擔責任。

合理確定屬高層次的保證,惟根據香港審計準則進行之審計工作不能保證總能察覺所存在之重大錯誤陳述。錯誤陳述可因欺許或錯誤產生,倘個別或整體在合理預期情況下可影響使用者根據該等綜合財務報表作出之經濟決定時,則被視為重大錯誤陳述。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content
 of the consolidated financial statements, including the
 disclosures, and whether the consolidated financial
 statements represent the underlying transactions and
 events in a manner that achieves fair presentation.

 obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. CHANGES IN ACCOUNTING POLICIES

(Continued)

(a) New standards, interpretation and amendments adopted from 1 July 2023 (Continued)

Amendments to HKAS 1 and HKFRS Practice Statement 2

The amendments to HKAS 1 and HKFRS Practice Statement 2 provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant accounting policies' with a requirement to disclose their 'material accounting policy information' and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Group's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Group's financial statements.

(b) New guidance on accounting for the mandatory provident fund ("MPF") long service payments ("LSP") offsetting mechanism in Hong Kong issued by the HKICPA

In June 2022, Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the "Amendment Ordinance") was enacted. The Amendment Ordinance abolishes the use of the accrued benefits derived from employers' mandatory contributions under the MPF scheme to offset severance payment ("SP") and LSP (the "Abolition"). Subsequently, the Government of HKSAR announced that the Abolition will take effect on 1 May 2025 (the "Transition Date"). The following key changes will take effect since the Transition Date:

 Accrued benefits derived from employers' mandatory MPF contributions cannot be used to offset the LSP/SP in respect of the employment period after the Transition Date.

2. CHANGES IN ACCOUNTING POLICIES

(Continued)

(b) New guidance on accounting for the mandatory provident fund ("MPF") — long service payments ("LSP") offsetting mechanism in Hong Kong issued by the HKICPA (Continued)

 The pre-transition LSP/SP is calculated using the last month's salary immediately preceding the Transition Date, instead of using the last month's salary of employment termination date.

Due to the complexities of the accounting for the offsetting of accrued benefits derived from an employer's MPF contributions and its LSP obligation and the accounting for offsetting mechanism could become material in light of the Abolition, the HKICPA published 'Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong' ("the Guidance") in July 2023 to provide guidance to account for the offsetting mechanism and the Abolition. The HKICPA concluded that there are two acceptable accounting approaches for the offsetting mechanism, being:

Approach 1: Account for the amount expected to be offset as a deemed employee contribution towards that employee's LSP benefits in terms of HKAS 19.93(a)

Approach 2: Account for the employer MPF contributions and the offsetting mechanism as a funding mechanism for the LSP obligation

For the years ended 30 June 2023 and 2024, the Group's LSP liability before the expected offsetting under the MPF-LSP offsetting mechanism is immaterial. Application of the Guidance had no material effect on the consolidated financial statements of the Group.

2. 會計政策之變動(續)

- (b) 有關香港會計師公會頒佈的香港強制性公積金(「強積金」)—長期服務金(「長服金」)對沖機制之會計處理的新指引(續)
 - 轉制前的長服金/遣散費 使用緊接轉制日前最後一個月之薪金計算,而非使 用僱傭終止日期之上一個 月薪金。

方法1:就香港會計準則第 19.93(a)條而言,將僱員長服金 福利之預期抵銷金額入賬為視作 僱員供款

方法2:將僱主強積金供款及對 沖機制入賬為長服金義務之融資 機制

截至二零二三年及二零二四年六月三十日止年度,本集團在強積金 — 長服金對沖機制項下進行預期對沖之前的長服金義務並不重大。應用指引對本集團綜合財務報表並無重大影響。

3. BASIS OF PREPARATION AND ACCOUNTING POLICIES (Continued)

3.4 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

The results of subsidiaries disposed of during the year are included in the consolidated statement of comprehensive income up to the dates of disposal.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any noncontrolling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of.

3.5 Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: power over the investee, exposure, or rights, to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

Hotel income from room rental is recognised overtime as the customers simultaneously receives and consume the benefits of the Group's services. The Group allows an average credit period of not more than 90 days to travel agents and corporate customers. Investment properties are land and/or buildings which are owned or held under a leasehold interest to earn rental income and/or for capital appreciation.

When the Group holds a property interest to earn rental income and/or for capital appreciation, the interest is classified and accounted for as an investment property.

On initial recognition, investment property is measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment property is stated at fair value.

Gains or losses arising from either changes in the fair value or the sale of an investment property are included in profit or loss in the period in which they arise.

3. BASIS OF PREPARATION AND ACCOUNTING POLICIES (Continued)

3.9 Impairment of non-financial assets

Goodwill arising on acquisition of subsidiaries, property, plant and equipment, interests in subsidiaries and associates are subject to impairment testing.

Goodwill is tested for impairment at least annually, irrespective of whether there is any indication that they are impaired. All other assets are tested for impairment whenever there are indications that the asset's carrying amount may not be recoverable.

An impairment loss is recognised as an expense immediately for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of fair value, reflecting market conditions less costs of disposal, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of time value of money and the risk specific to the asset.

For the purposes of assessing impairment, where an asset does not generate cash inflows largely independent from those from other assets, the recoverable amount is determined for the smallest group of assets that generate cash inflows independently (i.e. a cash-generating unit). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill in particular is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which the goodwill is monitored for internal management purpose.

3.9 非金融資產減值

因收購附屬公司而產生之商譽、 物業、廠房及設備以及於附屬公 司及聯營公司之權益均須進行減 值測試。

商譽須至少每年進行減值測試一次,而不論有否跡象顯示出現減值。所有其他資產在有跡象顯示 未必能收回資產賬面值時進行減值測試。

3. BASIS OF PREPARATION AND ACCOUNTING POLICIES (Continued)

3.9 Impairment of non-financial assets

(Continued)

Impairment losses recognised for cash-generating units, to which goodwill has been allocated, are credited initially to the carrying amount of goodwill. Any remaining impairment loss is charged pro rata to the other assets in the cash generating unit, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal, if measurable, or value in use, if determinable.

An impairment loss on goodwill is not reversed in subsequent periods. In respect of other non-financial assets, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the asset's recoverable amount and only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.10 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average cost formula. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

3. 編製基準及會計政策(續)

3.9 非金融資產減值(續)

就已獲分配商譽之現金產生單位確認之減值虧損初步計入商譽之 賬面值。任何剩餘減值虧損於現金產生單位內按比例自其他資產 扣除,惟資產的賬面值將不會削減至低於其個別公平值減出售成本(如可以計量),或使用價值(如可以釐定)。

商譽減值虧損不會於其後期間撥回。就其他非金融資產而言,倘用於釐定資產可收回金額之估計出現有利變動,則撥回減值虧損,惟資產之賬面值不得超出在在並未確認減值虧損之情況下應。釐定之賬面值(扣除折舊或攤銷)。

3.10 存貨

存貨以成本與可變現淨值兩者之 較低者列賬。成本乃以加權平均 成本公式計算。可變現淨值指日 常業務過程中之估計售價減銷售 所需估計成本。

3.11 Income taxes

Income taxes for the year comprise of current tax and deferred tax. Income taxes are recognised in profit or loss except when they relate to items recognised in other comprehensive income in which case the taxes are also recognised in other comprehensive income.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the end of reporting period.

Deferred tax is recognised in respect of temporary differences. Except for goodwill and initial recognition of assets and liabilities in a transaction which is not a business combination and at the time of the transaction affect neither accounting nor taxable profits and does not give rise to equal taxable and deductible temporary differences. deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is measured at the tax rates appropriate to the expected manner in which the carrying amount of the asset or liability is realised or settled and that have been enacted or substantively enacted at the end of reporting period.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

3.12 Leasing

All leases are capitalised in the consolidated statement of financial position as right-of-use assets and lease liabilities, except for (i) leases which are short-term leases and/or (ii) leases for which the underlying asset is of low-value that the Group choose not to capitalise. The lease payments associated with those leases have been expensed on straight-line basis over the lease term.

Right-of-use assets

The right-of-use assets should be recognised at cost and would comprise: (i) the amount of the initial measurement of the lease liabilities (see below for the accounting policy to account for lease liabilities); (ii) any lease payments made at or before the commencement date, less any lease incentives received; (iii) any initial direct costs incurred by the lessee; and (iv) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The Group measures the right-of-use assets applying a cost model. Under the cost model, the Group measures the right-to-use at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities.

3.12 Leasing (Continued)

Lease liabilities

The lease liabilities are recognised at the present value of the lease payments that are not paid at the date of commencement of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the lessee's incremental borrowing rate.

Subsequent to the commencement date, the Group measures the lease liabilities by: (i) increasing the carrying amount to reflect interest on the lease liabilities; (ii) reducing the carrying amount to reflect the lease payments made; and iii) remeasuring the carrying amount to reflect any reassessment or lease modifications, e.g., a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the in-substance fixed lease payments or a change in assessment to purchase the underlying asset.

3.13 Foreign currencies

Transactions entered into by group entities in currencies other than functional currency are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the end of reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising from the settlement of monetary items, and on the translation of monetary items, are recognised as profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income, in which case, the exchange differences are also recognised in other comprehensive income.

On consolidation, income and expense items of foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the rates approximating to those ruling when the transactions took place are used. All assets and liabilities of foreign operations are translated at the rate ruling at the end of reporting period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity as exchange reserve. Exchange differences recognised in profit or loss of group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the foreign operation concerned are reclassified to other comprehensive income and accumulated in equity as exchange reserve.

3. BASIS OF PREPARATION AND ACCOUNTING POLICIES (Continued)

3.14 Financial instruments

Trade receivables are initially recognised when they are originated. All regular way purchases and sales of financial assets are recognised on the trade date. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

(a) Financial assets

A financial asset (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus, for an item not at fair value through profit or loss ("FVPL"), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets at amortised cost are subsequently measured using the effective interest method. Interest income on creditimpaired financial assets is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset. For non credit-impaired financial assets, interest income is calculated based on the gross carrying amount. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

All financial assets not classified as measured at amortised cost as described above are measured at fair value through profit or loss. These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income are recognised in profit or loss.

3.14 Financial instruments (Continued)

(b) Impairment loss on financial assets

The Group recognises loss allowances for expected credit loss ("ECL") on financial assets measured at amortised cost.

ECL is probability-weighted estimate of credit losses. Credit losses are measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets' original effective interest rate.

The Group has measure loss allowances for trade receivables using HKFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other debt financial assets at amortised cost, the ECL are based on the 12-months ECLs. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

3. BASIS OF PREPARATION AND ACCOUNTING POLICIES (Continued)

3.14 Financial instruments (Continued)

(b) Impairment loss on financial assets (Continued)

For loans receivable, ECL is determined by reference to the estimation of the exposure at default ("EAD"), probability of default ("PD") as well as a loss given default ("LGD"). The 12-months and lifetime PDs represent the probability of default occurring over the next 12 months and the remaining maturity of the instrument respectively. The EAD represents the expected balance at default, taking into account the repayment of principal and interest from the reporting date to the default event together with any expected drawdowns of committed facilities. The LGD represents expected losses on the EAD given the event of default, taking into account. among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be credit-impaired when: (1) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (2) the financial asset is more than 90 days past due.

(b) 金融資產之減值虧損(續)

就應收貸款而言,預期信 貸虧損乃參考違約風險承 擔(「違約風險承擔」)、違 約或然率(「違約或然率」) 以及違約損失率(「違約損 失率1) 之估計而釐定。12 個月及全期違約或然率分 別指未來12個月及工具剩 餘年期內發生違約之概率。 違約風險承擔指預期違約 結餘, 並經計及報告日期 至違約事件期間之本金及 利息還款及承諾融資的任 何預期提取額。違約損失 率指出現違約事件時違約 風險承擔之預期虧損,並 經計及(包括其他特性)預 期變現抵押品價值時之緩 和影響及貨幣時間價值。

(c) Financial liabilities

The Group classifies its financial liabilities at amortised costs. These liabilities are initially measured at fair value, net of directly attributable costs incurred.

Financial liabilities at amortised cost are subsequently measured at amortised cost, using the effective interest method. The related interest expense is recognised in profit or loss.

Gains or losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

(d) Derecognition

The Group generally derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expires.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

(e) Written-off policy

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

3.15 Employee benefits Short-term employee benefits

Short term employee benefits are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service. Short term employee benefits are recognised in the year when the employees render the related service.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Group makes judgements, estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale. These estimates are based on the current market condition and the historical experience of selling products of similar nature. It could change significantly as a result of competitors' actions in response to severe industry cycles. Management reassess the estimations at the end of each reporting period.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

Depreciation of property, plant and equipment

Property, plant and equipment is depreciated on a straight-line basis over their estimated useful lives, after taking into account the estimated residual values, if any. The Group reviews the estimated useful lives, depreciation method and the estimated residual values, of the assets at least at the end of each reporting period in order to determine the amount of depreciation expense to be recorded during any reporting period. The depreciation method, useful lives and residual values are based on the Group's historical experience with similar assets and taking into account anticipated physical wear and tear as well as obsolescence of the asset. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

Estimated impairment of trade receivables, loans receivable and other receivables

The Group's management determines the provision for impairment of receivables on a forward-looking basis. In making the judgement, management considers reasonable and supportable forward-looking information that is available such as actual or expected significant changes in the operating results of debtors, actual or expected significant adverse changes in business and financial position of the debtors. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed by the Group's management.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment and reversal for all non-financial assets at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable or impairment loss recognised in prior periods (other than goodwill) may no longer exist or have decreased. An impairment (a reversal) exists when the carrying amount of an asset or a cash-generating unit exceeds its recoverable amount (vice versa), which is the higher of its fair value less costs of disposal and its value-in-use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value-in-use calculations are undertaken, management must estimate the expected future cash flows from the asset or cashgenerating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

5. FINANCIAL RISK MANAGEMENT

(a) Financial risk management objectives and policies

The main risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Foreign currency risk

The Group mainly operates in Hong Kong, the PRC and Japan with most of the transactions denominated and settled in HK\$, Renminbi ("RMB") and Japanese Yen ("JPY"), which are the functional currencies of respective group companies. The Group's exposure to foreign currency risk primarily arise from certain financial instruments which are denominated in United States Dollar ("USD"). which are currencies other than the functional currency. In this respect, it is assumed that the pegged rate between the HK\$ and the USD would be materially unaffected by any changes in movement in value of the USD against HK\$. The following table summarises the Group's major financial assets denominated in JPY held by group companies whose functional currency is not JPY:

Credit risk

In order to minimise credit risk, the Group has policies in place for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debtor at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the credit risk is significantly reduced.

The credit risk of the Group is primarily attributable to trade receivables, other receivables and deposits, loans receivable, deposits in a financial institution, pledged bank balances and bank balance and cash.

(Continued)

(a) Financial risk management objectives and policies (Continued)

Credit risk (Continued)

The Group considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the assets as at the reporting date with the risk of default as at the date of initial recognition.

It considers reasonable and supportable forward looking information that is available. Especially the following indicators are incorporated:

- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations
- actual or expected significant changes in the operating results of the counterparty
- significant expected changes in the performance and behaviour of the counterparty, including changes in the payment status of counterparties in the group and changes in the operating results of the counterparty

A default on a financial asset is when the counterparty fails to make contractual payments when they fall due.

(Continued)

Credit risk (Continued)

Financial assets are written off when there is no reasonable expectation of recovery.

The assessment of credit risk and the estimation of ECL are unbiased and probability-weighted, and incorporate all available information that is relevant to the assessment including information about past events, current conditions and reasonable and supportable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL would take into account the time value of money.

The credit risk of deposits in a financial institution, pledged bank balances and bank balances is limited because the majority of the counterparties are institutions with good reputation. No impairment had been provided under 12-month expected credit loss assessment.

The Group presumes that the credit risk of loans receivable has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise. The Group considers that default has occurred when the instrument is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more backward default criterion is more appropriate.

Credit risk (Continued)

The credit risk of loans receivable is determined based on the combination of the internal and external credit rating, the average debt recovery, peer review information and comparison with public available data. The Group calculates ECL using three main components: a probability of default ('PD'), a loss given default ('LGD') and the exposure at default ('EAD'). The 12-month ECL is calculated by multiplying the 12-month PD, LGD and EAD. Lifetime ECL is calculated using the lifetime PD instead. The 12-month and lifetime PDs represent the probability of default occurring over the next 12 months and the remaining maturity of the instrument respectively. The EAD represents the expected balance at default, taking into account the repayment of principal and interest from the reporting date to the default event together with any expected drawdowns of committed facilities. The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money. The total impairment allowance on the loans receivable as at 30 June 2024 amounted to HK\$229.055.000 (2023: HK\$229.489.000) has been provided under expected credit loss assessment, of which reversal of expected credit losses of HK\$200,000 (2023: expected credit losses of HK\$8.693.000) was recognised in the consolidated statement of comprehensive income for the year ended 30 June 2024.

For the trade receivables, the Group carries out regular review on these balances and follow-up action on any overdue amounts to minimise exposures to credit risk. The Group measures the lifetime expected credit loss based on the outstanding balances and historical credit loss experience adjusted to reflect the Group's view of current and forecast economic conditions that may affect the ability of the debtors to settle receivables. As at 30 June 2024, the total impairment allowance amounted to HK\$117,000 (2023: HK\$116,000) had been provided under expected credit loss assessment by using simplified approach according to the ageing by due date. 5. FINANCIAL RISK MANAGEMENT

(Continued)

(a) Financial risk management objectives and policies (Continued)

Credit risk (Continued)

For the other debts instruments, given the short term nature of these assets, the ECL had been provided under 12-month expected credit loss assessment. The total impairment allowance amounted to HK\$235,000 (2023: HK\$393,000) has been provided under expected credit loss assessment.

The Group has concentration risk on trade receivables and loans receivable.

At the end of reporting period, the Group has concentration of credit risk on trade receivables as HK\$2,650,000 (2023: HK\$129,000) and HK\$3,141,000 (2023: HK\$378,000) of total trade receivables after considering the impairment loss due from the Group's largest trade debtor and the five largest trade debtors respectively.

As at 30 June 2023, the Group also has concentration of credit risk on loans receivable as HK\$1,200,000 and HK\$1,200,000 of total loans receivable after considering the impairment loss due from the Group's largest borrower and the five largest borrowers respectively.

Interest rate risk

The Group's interest rate risk arises primarily from deposits in a financial institution, bank balances and borrowings with a floating interest rate. Management closely monitors cash flow interest rate risk and will consider hedging significant interest rate exposure should the need arise.

(a) 財務風險管理目標及政策 (續)

信貸風險(續)

就其他債務工具而言,由於該等資產之短期性質,預期信貸虧損根據12個月預期信貸虧損評估計提撥備。減值撥備總額235,000港元(二零二三年:393,000港元)已根據預期信貸虧損評估計提撥備。

本集團之貿易應收賬項及應收貸 款有集中風險。

於報告期末,本集團之貿易應收 賬項有信貸集中風險,此乃由於 考慮減值虧損後,本集團最大貿 易債務人及五大貿易債務人分別 結欠貿易應收賬項總額2,650,000 港元(二零二三年:129,000港元) 及3,141,000港元(二零二三年: 378,000港元)。

於二零二三年六月三十日,本集團之應收貸款亦有信貸集中風險,此乃由於考慮減值虧損後,本集團最大借貸人及五大借貸人分別結欠應收貸款總額1,200,000港元及1,200,000港元。

利率風險

本集團之利率風險主要源自於金融機構之存款、銀行結餘及浮息借貸。管理層密切監察現金流量 利率風險,並將於有需要時考慮 對沖重大利率風險。

5. FINANCIAL RISK MANAGEMENT

(Continued)

(a) Financial risk management objectives and policies (Continued)

Interest rate risk (Continued)

As at 30 June 2024, it is estimated that a general increase/(decrease) of 100 basis points in interest rates, with all other variables held constant, would (decrease)/increase the Group's loss for the year and the accumulated losses by approximately HK\$946,000 (2023: HK\$942,000) respectively.

The sensitivity analysis above was determined assuming that the change in interest rates had occurred at the reporting date and had been applied to the exposure to interest rate risk for both derivative and non-derivative financial instruments in existence at that date. The 100 basis points increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the next annual reporting date. The analysis was performed on the same basis for 2023.

Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including raising of loans to cover expected cash demands, subject to approval by the Company's board when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

利率風險(續)

於二零二四年六月三十日,倘利率整體上升/(下跌)100個基點,而所有其他可變因素維持不變,估計本集團之本年內虧損及累計虧損將分別(減少)/增加約946,000港元(二零二三年:942,000港元)。

上述敏感度分析乃假設利率於報告日期發生變動,且已計入入土。 日存在之衍生及非衍生金融減入 100個基點為管理層對截至或下可 個年度報告日期止期間利率。有 個年度報告日期止期間利本。有關 分析乃按與二零二三年相同之基 準進行。

(b) Fair values

The fair value of listed securities is determined by reference to their quoted market prices at the reporting date.

HKFRS 7 requires disclosure for financial instruments that are measured at fair value by level of the following fair value hierarchy:

- Level 1 Quoted price (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted price included within Level 1 that are observable for the assets or liabilities, either directly or indirectly.
- Level 3 Inputs for the asset or liability that are not based on observable market data

Segment reporting

(a) Reportable segments

The Group determines its operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions. The chief operating decision-maker has been identified as the Company's executive directors.

The Group currently has four reportable segments. The segments are managed separately as each business offers different products and services and requires different business strategies as follows:

- (i) hotel hospitality business;
- (ii) money lending services;
- (iii) liquor and wine; and
- (iv) investments in listed securities

There were no inter-segment transactions between different operating segments for the year (2023: Nil). Central revenue and expenses are not allocated to the operating segments as they are not included in the measure of the segments' results that is used by the chief operating decision-maker for assessment of segment performance.

Segment reporting (Continued)

(a) Reportable segments (Continued)

- fair value change on investment properties
- share of result of associates
- finance costs
- corporate income and expenses which are not directly attributable to the business activities of any operating segment

are not included in arriving at the operating results of the operating segment.

Segment assets include all assets except interests in associates and investment properties. In addition, corporate assets, bank balances and cash and deposits in a financial institution which are not directly attributable to the business activities of any operating segment are not allocated to a segment, which primarily applies to the Group's headquarter.

Segment liabilities include all liabilities but current tax payable and deferred tax liabilities. In addition, corporate liabilities which are not directly attributable to the business activities of any operating segment and are not allocated to a segment.

The freehold land is situated in Japan.

Property, plant and equipment with the brought forward net carrying amount HK\$240,104,000 (2023: HK\$280,260,000) (before the current year impairment loss) is attributable to the cash-generating unit of hotel hospitality ("Hotel Hospitality Business CGU") with which the goodwill amount is recognised. As at 30 June 2024, the Directors reviewed the recoverable amounts of property, plant and equipment in Hotel Hospitality Business CGU as the business incurred losses. Hotel Hospitality Business CGU continuously faced the relatively low occupancy rate. This had adverse impact on the estimation of the recoverable amount. Based on the result of assessment, no further impairment loss (2023: impairment loss of HK\$9,801,000) has been recognised for the year ended 30 June 2024.

(Continued)

Right-of-use assets (Continued)

The recoverable amount of the Hotel Hospitality Business CGU is determined by the Directors of the Company with reference to a valuation report issued by an independent professional valuer. The recoverable amount of the Hotel Hospitality Business CGU has been determined from fair value less cost of disposal (which is higher than its value-in-use), in which fair value is primarily making reference to the recent sales of similar transactions in the market and cost of disposal is estimated at 3.5% (2023: 3.5%) of assessed fair value. It is Level 3 non-recurring fair value measurement. The key significant unobservable input to determine is the discount on age, location and condition. The higher discount on these factors would result in the lower in the fair value measurement of the fair value, and vice versa.

As at 30 June 2024, property, plant and equipment with the brought forward net carrying amount of HK\$350,000 (before the current year impairment loss) is attributable to money lending business. As at 30 June 2024, the Directors reviewed the recoverable amounts of property, plant and equipment in the business segment of money lending business as the business incurred losses. No interest income has been recognised for the year ended 30 June 2024 (2023: HK\$390,000) since there was no new loan for the year. As such, money lending business incurred losses for the years ended 30 June 2024 and 2023.

As at 30 June 2024, the recoverable amount of property, plant and equipment in the business segment of money lending business is based on value-in-use calculations. That calculations use cash flow projections based on financial budgets approved by the management of the Group covering a five-year period, followed by an extrapolation of expected cash flow at zero growth rate which do not exceed the long-term growth rate for the business in which the money lending business operates. Based on the result of the assessment, the management of the Group determined that no impairment loss has been recognised for the years ended 30 June 2024 and 2023.

The fair value of the Company's investment properties at the disposal date and 2023 has been assessed by an independent professional valuer using direct comparison method. Net deficit on revaluation of HK\$1,415,000 (2023: HK\$3,100,000) has been recognised in the consolidated statement of comprehensive income for the year ended 30 June 2024.

In December 2024, the Company has completed the disposal of investment properties through disposal of a subsidiary at a consideration of HK\$1,700,000. The details of the disposal are set out in note 14 to the consolidated financial statements. As at 30 June 2023, investment properties in Hong Kong with an aggregate carrying value of HK\$15,900,000 have been pledged to secure borrowing facilities granted to the Group (note 26).

Fair value hierarchy (Continued)

During the years ended 30 June 2024 and 2023, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Company's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

For the fair value measurement for investment properties under direct comparison method, it is assumed that each of the properties is capable of being sold in its existing state with the benefit of vacant possession and by making reference to comparable sales evidence as available in the relevant markets.

One of the key unobservable inputs used under direct comparison method in valuing the investment properties was the price per square feet, which takes into account the differences in time, location, condition, age and other individual factors between comparable transactions. The price per square feet used is HK\$6,404 (2023: HK\$7,029). An increase in the price per square feet would result in an increase in the fair value measurement of the investment properties by the same percentage increase, and vice versa.

The fair value measurement is based on the above properties' highest and best use, which does not differ from their actual use.
