MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

During the six months ended 30 September 2024 (the “**Review Period**”), the global market has faced significant challenges and opportunities in the wake of the after-effect of COVID-19 pandemic and ongoing geopolitical tensions. The Group, as an established air freight forwarding ground handling services provider and air cargo terminal operating services provider in Hong Kong, has continued to provide services to its customers including global logistics companies and major freight forwarding agents during the Review Period.

The global market showed signs of recovery. However, global uncertainties and instabilities still exist due to the intensification of global geopolitical conflicts. As economies began to recover, the demand for air freight services surged due to the growing need for rapid transportation. During the Review Period, the Group recorded a slight increase of approximately 0.3% in revenue and a decrease of approximately 27.0% in gross profit. The decrease in gross profit was primarily attributable to the increase in direct costs during the Review Period. The Board considered that it was mainly due to the new warehouse lease at Cainiao Smart Gateway located at Chek Lap Kok, Hong Kong (“**Cainiao Smart Gateway**”). The move, while strategically beneficial to the Group in the mid and long term, involved several one-time expenses such as relocation logistics, infrastructure setup, and transitional employee adjustments.

Amid the challenging and unstable economic environment, the Group remains cautiously optimistic towards the Group’s future business performance, especially in light of the increasing demand of air freight forwarding ground handling services, its constantly-optimizing service quality and stable customer base. The Group will also continue to adopt flexible approaches in its business operation and take effective cost control measures. In light of the increasing demand of the Group’s air freight forwarding ground handling services from its customers, the Group has set up a warehouse in Cainiao Smart Gateway to capture such new business opportunities. To this end, the Group consolidated its operation to new warehouses to reduce operational cost. The Group believes it will enhance its service capabilities and potential profitability in the long term. Meanwhile, the Group will actively expand its customer base to increase the Group’s revenue sources and is committed to strengthening its competitiveness in the logistics service industry to alleviate the impact of social and economic uncertainties.
