VOLUNTARY ANNOUNCEMENT
MEDICAL DEVICE REGULATION CERTIFICATIONS
AWARDED TO ALMA

This announcement is made by Sisram Medical Ltd (the “**Company**”) on a voluntary basis.

The Company is pleased to announce that Alma Lasers Ltd. (“**Alma**”), the principal operating subsidiary of the Company, has received certifications required under the European Union Medical Device Regulation (EU) 2017/745 (“**MDR**”) for its quality management system and two of its medical products for dermatological applications, namely Alma Harmony™ and Alma Hybrid™, during the second half of 2024. The MDR certifications were granted to Alma by GMED SAS (“**GMED**”), a notified body and accredited certification organization wholly-owned by The French National Metrology and Testing Laboratory (LNE).

Alma Harmony™ is a cutting-edge, multimodal platform tailored to address a myriad of skin conditions across diverse demographics, while Alma Hybrid™ is the most prestigious platform by Alma which is designed for top-notch practitioners in the field of medical aesthetics. As at the date of this announcement, Alma Harmony™ and Alma Hybrid™ are the first medical device products without medical purposes (as defined under Annex XVI of the MDR) to be granted MDR certification by GMED. The MDR specifies stringent requirements for the design, manufacture and marketing of medical devices in the European Union and aims to ensure the highest level of safety and performances of medical devices in the European Union market. In view of the above, the Company considers that the award of the MDR certifications for Alma Harmony™ and Alma Hybrid™ is a testament to Alma’s ability to overcome demanding regulatory challenges and to adapt to the dynamic landscape. This achievement will allow Alma to seize opportunities to launch certified products in Europe and other CE related countries such as Korea, the United Kingdom and Australia in the future.

The Company believes that the MDR certifications of its quality management systems, Alma Harmony™ and Alma Hybrid™ will further strengthen the Company’s product portfolio and product competitiveness and solidify the Company’s position as a leader in the global aesthetic market.

Shareholders and investors are advised to exercise caution when dealing in the securities of the Company.
