### 主席報告書

於充滿機遇與挑戰的2024年,我們錄得盈利穩步增長。較高的利率環境有助於我們提升淨息差和淨利息收入,惟貸款增長及信貸質素依然嚴峻。我們的團隊持續積極開拓並抓緊增長機遇。與此同時,為應對高息環境及在我們各個核心市場緩慢增長的情況,我們在成本控制及風險管理方面秉持審慎策略,以增強業務韌性。

財富管理業務按年表現強勁,受惠於銀行保險業務。我們與永明金融集團已完成首個年度在香港分銷永明金融產品的獨家協議,此新合作夥伴關係在2024年取得佳績,豐富了我們的財富管理產品,使我們能夠更好地滿足客戶需要。

我們的交易活動表現突出,資金掉期支出較前一年有 所下降,同時客戶的外匯相關業務亦穩步增長。

此外,保險及投資業務亦表現卓越,其投資策略執行得當,實現了理想的回報。雖然該等業務在計入收益賬的 淨溢利低於2023年,全面收益總額卻上升,反映了在其 他全面收益項下確認的投資收入增加。

市場貸款需求停滯,導致我們的貸款增長疲弱。香港及中國內地的物業相關貸款市場於年內持續面臨挑戰。我們針對中國內地物業發展商及香港商業房地產行業增加信貸減值撥備,並將繼續密切監察貸款組合的信貸質素。

年內,本集團持續提升香港、中國內地及澳門三大業務據點的營運網絡,並優化服務。此外,澳門商業銀行股份有限公司(「澳門商業銀行」)於2024年11月慶祝成立50周年,彰顯其自2005年成為大新銀行有限公司(「大新銀行」)附屬公司以來,對本集團具有恆久價值及重要性。

在挑戰重重的一年,本集團2024年股東應佔溢利增加5%至16億7千3百萬港元,主要受惠於淨利息及非利息收入增加,而信貸減值撥備增加則被聯營公司投資的減值虧損下降所抵銷。

受惠於較高利率環境,大新銀行的淨息差擴大16個基點至2.17%。淨利息收入上升9%,反映出利率上升及我們對資金成本管理的關注之成效。然而,由於在我們核心市場的貸款需求低迷,總貸款結餘較去年輕微下降3%。

在本集團與永明金融產品的獨家分銷協議的帶動下, 我們的銀行保險業務實現強勁增長,淨服務費及佣金 收入增加54%。受惠於個人銀行與企業銀行團隊加強 對客戶外匯相關服務的合作,淨交易收入增加約40%。

扣除減值虧損前之營運溢利上升26%,主要由於非利息收入增加39%以及經營成本相對穩定所致。保險業務亦對營運溢利上升有所貢獻,保險收入增加18%,而保險服務支出則與前一年相若。

在2024年,本集團應佔聯營公司重慶銀行的淨溢利錄得6億7千7百萬港元。就重慶銀行投資的減值虧損為1千6百萬港元,較2023年減少97%。須注意就重慶銀行作出的撥備乃非現金項目,並不影響本集團的資本充足比率。

### **CHAIRMAN'S STATEMENT**

In 2024, we reported an improvement in profitability despite a year marked by both opportunities and challenges. Higher interest rates were generally supportive of our net interest margin and net interest income, whilst loan growth and credit quality both remained challenging. Our teams continued to work diligently to explore and seize opportunities for growth. At the same time, we maintained a prudent approach to expense control and risk management for greater resilience while navigating through a high interest rate environment and relatively sluggish growth in our core markets.

Our wealth management segment delivered a robust performance year-on-year driven by our bancassurance business, with the exclusive agreement with Sun Life Group for the distribution of Sun Life products in Hong Kong completing its first full year. The new partnership achieved a strong result in 2024, which has enriched our wealth management offerings and allowed us to better address customer needs.

Our trading performance was strong, and our funding swap expenses were lower compared to last year, while our foreign exchange ("FX") related business for customers also grew steadily.

In addition, our insurance and investment operations also performed well, achieving positive returns through a well-executed investment strategy. While net profit in these operations was lower than in 2023, total comprehensive income rose, reflecting higher investment income recognised under other comprehensive income.

Loan growth was weak due to sluggish demand. The property-related loan market in both Hong Kong and Mainland China remained challenging during the year. We increased credit impairment provisions against Mainland China property developers and the Hong Kong Commercial Real Estate sector, and will stay vigilant in monitoring the credit quality of our loan portfolio.

During the year, we continued to upgrade operating networks and optimise our services in our three business locations including Hong Kong, Mainland China and Macau. Additionally, Banco Comercial de Macau, S.A. ("BCM") celebrated its 50th Anniversary in November 2024, underscoring its enduring value and importance to the Group since becoming a subsidiary of Dah Sing Bank ("DSB") in 2005.

In a challenging year, our Group's profit attributable to shareholders in 2024 increased by 5% to HK\$1,673 million, mainly driven by both higher net interest and non-interest income, whilst higher credit impairment charges were offset by a lower impairment loss on the investment in our associate.

DSB's net interest margin widened by 16 basis points to 2.17% benefiting from the higher interest rate environment. Net interest income rose by 9% reflecting the impact of elevated interest rates and our attention to funding cost management. However, overall loan balances declined slightly by 3% from the previous year due to subdued loan demand in our core markets.

Our bancassurance business, underpinned by our exclusive distribution agreement with Sun Life, achieved robust growth, and fee and net commission income increased by 54%. Net trading income rose by about 40%, supported by enhanced collaboration between our Personal Banking and Corporate Banking teams in connection with FX-related services for customers.

Operating profit before impairment losses grew by 26% mainly due to a 39% rise in non-interest income and a relatively stable operating cost. The insurance business also contributed to the rise in operating profit, with insurance revenue up by 18% while insurance service expense remained steady compared to the prior year.

Our share of the net profit of our associate, Bank of Chongqing ("BOCQ") was HK\$677 million for 2024. An impairment loss on the investment in BOCQ of HK\$16 million was recorded, a decrease of 97% from 2023. It should be noted that the provision made relating to BOCQ is non-cash and does not affect our capital adequacy.

### 前瞻

香港2024年的經濟增長溫和,此乃受制於利率高企導致貸款需求及消費信心疲弱。然而,較高利率及市場波動持續有利於我們的淨息差及外匯交易營運。縱使我們已經就信貸減值虧損作出適當撥備,我們仍然對信貸風險保持審慎。憑藉多年建立更多元化的業務收入為基礎,我們將更有能力主動和有效地應對瞬息萬變的市場動態。

儘管如此,香港作為本集團的核心市場,繼續保持穩定經濟基礎及競爭優勢,包括完善的基建、低稅率、強大機構及穩健的金融體系。香港的銀行已推出新措施,支持本地中小型企業融資需要及其他銀行服務。作為香港本地銀行,我們將繼續為中小企業社群提供強力支持。

此外,我們的大灣區策略透過「三地四平台」的布局產生協同效應,涵蓋範圍包括香港的大新銀行、內地的大新銀行(中國)有限公司、澳門的澳門商業銀行及大新銀行深圳分行。作為首間在內地擁有雙牌照可經營境外分行及國內註冊附屬銀行的外資銀行,使我們能夠把握跨境流動及經濟融合增加所帶來的機遇。

展望未來,我們預計銀行業在短期內將持續面臨挑戰,尤其是銀行及整個金融體系將繼續面對信貸風險高企及貸款增長疲弱。為保持穩健的資產質素,我們一貫以審慎態度管理貸款及資產組合的信貸風險。我們穩健的資本充足比率及流動資金狀況,不僅有助我們抵禦營商環境艱難的挑戰,亦有利抓住在條件改善時所帶來的增長機遇。香港的流動資金狀況及我們以本地多元化客戶存款為主的資金基礎保持穩健。香港的銀行在過去數十年歷盡多種挑戰,這個受妥善監管的銀行體系具備足夠韌性面對未來挑戰。

董事會宣派末期股息每股1.18港元,全年股息總額為2.10港元,較2023年的2.00港元增加5%。最後,本人衷心感謝諸位董事作出之寶貴貢獻,亦感謝本集團的管理團隊及各同事盡忠職守,克服各種挑戰和確保卓越營運。同時本人對各客戶及股東對本集團的堅定信任及支持表示誠擊謝意。本人相信同事們的恪守承諾及靈活變通,將有助本集團實現策略性目標及推進業務增長。

#### **FUTURE PROSPECTS**

Hong Kong's economic growth in 2024 was moderate, constrained by weak loan demand and consumer sentiment as higher interest rates persisted. However, higher rates and volatile market conditions continue to benefit our net interest margin and FX trading operations. We remain cautious on credit risk, although we have already taken action to make appropriate provisions for credit loss. As we have built up a more diversified revenue base in our business over the years, we will be better positioned to respond proactively and effectively to evolving market dynamics.

That said, Hong Kong as our core market continues to maintain its stable economic fundamentals and competitive advantages, including well-developed infrastructure, low taxation, strong institutions and a robust financial system. Banks in Hong Kong have also introduced new measures to support local small and medium sized enterprises for their necessary financing and other banking services. As a local bank in Hong Kong, we will continue to render our strong support to the SME community.

Furthermore, our Greater Bay Area strategy leverages synergies across our "three locations, four platforms" framework, spanning DSB in Hong Kong, Dah Sing Bank (China) Limited in the Mainland, and BCM in Macau, as well as our Shenzhen Branch. Being the first foreign bank in Mainland China with a dual operating licence to operate a local branch in addition to our locally incorporated subsidiary bank, enables us to capitalise on increasing cross-border flows and economic integration.

Looking ahead, we anticipate ongoing challenges for the banking industry in the near term. In particular, elevated credit risks and sluggish loan growth are expected to continue across banks and the financial system as a whole. In order to maintain a healthy asset quality, we have been consistently managing credit risk within our loan and asset portfolios in a prudent manner. Both our robust capital adequacy and liquidity positions enable us not only to meet the challenges of a difficult business environment, but also to seize growth opportunities when conditions improve. Hong Kong's liquidity conditions and our funding base primarily comprising diversified local customer deposits have stayed strong. Hong Kong banks have seen and learned from various challenges over the past decades, and the well-regulated banking system has the resilience to face future challenges.

On behalf of the Board, we have declared a final dividend of HK\$1.18 per share, representing a total dividend for the whole year of HK\$2.10, an increase of 5% compared to the HK\$2.00 in 2023. Last but not least, I extend my gratitude to my fellow directors for their invaluable contributions and to the management team and employees of the Group for their dedication in overcoming challenges and ensuring operational excellence. My appreciation also goes to our customers and shareholders for their unwavering trust and support. I am confident that the commitment and adaptability of our colleagues will drive the Group's success in achieving our strategic goals and enhancing business performance.

#### 財務回顧

香港經濟增長由2023年的3.2%放緩至2024年的2.5%,出口復甦勢頭受內需疲弱所拖累。

香港的貨品總出口於2024年錄得8.7%的升幅,扭轉2023年7.8%的跌勢。此回升趨勢部分由於出口商為避免美國對由中國內地進口的商品可能徵收新關稅措施,而提前增加付運量所致。

儘管2024年訪港旅客人次錄得30%的升幅,惟本地消費市場持續疲弱,2024年整體消費開支下跌0.6%。此跌勢部分由於港人北上消費常態化及經濟前景不明朗所致。

政府開支增長保持穩定,按年錄得1.0%的升幅,有助緩 解整體經濟壓力。

私人資本投資表現疲弱,部分由於息率高企及營商前 景不明朗所致。 根據差餉物業估價署的數據,2024年住宅物業價格的 跌幅略高於7%,現時較2021年高位已下調27%。縱使香 港最優惠利率於2024年9月至12月期間跟隨聯儲局減息 步伐累減62.5基點,惟按揭利率高企持續抑制置業需 求。

中國內地2024年的生產總值增長率為5%,儘管低於2023年5.3%的增速,仍能成功實現其「5%左右」的年度增長目標。強勁出口增長有助緩衝內需疲軟壓力,而房地產市場於政府自2024年9月下旬起連續推出多輪刺激措施後,至2024年年底方現築底回升跡象。

儘管2024年經濟復甦步伐較預期慢,加上營商環境仍然充滿挑戰,本集團於2024年的股東應佔溢利增加5.1%至16億7千3百萬港元,主要由於較高的營運收入及聯營公司投資的減值虧損下降,抵銷在銀行業務中,信貸減值撥備增加的影響。

相較2023年,年內保險及投資業務淨溢利減少,但全面收益總額增加,乃由於保險承保溢利增加及於其他全面收益項下確認的整體投資收益增加所致。

#### **FINANCIAL REVIEW**

Hong Kong's economic growth slowed to 2.5% in 2024 from 3.2% in 2023, as a recovery in exports was overshadowed by weaker domestic demand.

The total export of goods increased by 8.7% in 2024, recovering from a 7.8% drop in 2023. This improvement was partly due to exporters increasing shipments in advance to avoid potential new tariffs on US imports from Mainland China.

Despite a 30% rise in inbound visitors to Hong Kong in 2024, domestic consumption remained weak, with the overall consumer expenditure falling by 0.6% in 2024. This decline was due in part to northbound consumption by domestic residents and uncertain economic outlook.

Government expenditure growth remained stable, growing at 1.0% from a year ago, helping to alleviate overall economic pressure.

Private capital investment was weak, partly due to elevated interest rates and the uncertain business outlook.

Residential home prices dropped by slightly over 7% in 2024, and are now 27% below the peak in 2021, according to the Rating and Valuation Department, as higher mortgage rates continued to weigh on housing demand, despite Hong Kong's prime rate falling by 62.5bps from September to December 2024, following the Federal Reserve's rate cut actions.

Mainland China reported GDP growth of 5% in 2024, successfully achieving its growth target of "around 5%", albeit lower than 2023's 5.3%. Strong export growth helped buffer soft domestic demand as the property market only started bottoming out in late 2024 after the government announced multiple rounds of stimulus measures since late September 2024.

Although the pace of economic recovery was slower than expected in 2024 and the business environment remained challenging, our Group's profit attributable to shareholders in 2024 increased 5.1% to HK\$1,673 million mainly due to higher operating income and lower impairment loss on the investment in an associate, which offset the increase in credit impairment charges, in our banking business.

Our insurance and investment operations generated lower net profit but higher total comprehensive income in the year compared with 2023 as a result of higher insurance underwriting profit and higher overall investment income recognized under other comprehensive income.

在充滿挑戰的營商環境下,大新銀行集團有限公司(「大新銀行集團」)錄得之股東應佔溢利上升10.8%。營運收入較2023年增加17.2%,主要由於年內淨息差擴闊及資產收益率提高,帶動淨利息收入上升,以及部分因零售保險分銷業務重啟而產生的淨服務費及佣金收入增加。由於買賣收入增加及交易業績改善,年內淨交易收入有所增長,而資金掉期支出較去年減少。

營運支出上升5.4%,乃由於本集團為提升銀行服務及客戶體驗而持續投資人力資源及資訊科技相關基建而引致工資及電腦支出增加所致,部分支出上升被其

他營運支出減少所抵銷。信貸減值虧損按年大幅增加 145.0%,乃由於本集團對中國內地房地產發展商行業 及香港商業地產行業風險敞口的信貸虧損撥備上升。

於2024年12月31日,本集團於重慶銀行投資的市值高於 投資的賬面值,以致於下半年無需作出減值撥備。此 前,於2024年年中作出1千6百萬港元之減值撥備,低於 2023年5億3千6百萬港元。重慶銀行的營運表現仍然令 人滿意,本集團應佔其淨溢利為6億7千7百萬港元,略 低於去年。

Amidst the challenging business environment, Dah Sing Banking Group Limited ("DSBG") reported an increase in profit attributable to shareholders of 10.8%. Operating income was 17.2% higher than 2023, mainly driven by higher net interest income from a wider net interest margin and higher asset yields during the year, and stronger net fee and commission income, in part from the resumption of retail insurance distribution business. Net trading income rose in the year due to higher sales income and improved trading results, and a lower funding swap cost when compared with the prior year.

Operating expenses grew by 5.4% due to increases in wages and computer expenses as we continued to invest in our human resources and IT related infrastructure, improving our banking services and customer experience, while partly offset by lower other operating expenses.

Credit impairment charges increased significantly by 145.0% year-on-year, as a result of higher provisions for credit losses on our exposures to the Mainland China property developer sector and Hong Kong commercial real estate sector.

The market value of our investment in Bank of Chongqing ("BOCQ") was higher than the carrying value of the investment as at 31 December 2024, resulting in no further need for an impairment charge for the second half of the year. This followed an impairment charge of HK\$16 million made at mid-year 2024, which was HK\$536 million lower than 2023. The operating performance of BOCQ remained satisfactory, and our share of its net profit was HK\$677 million, slightly below the prior year.

本集團在澳門及中國內地業務的業績稍遜於去年,乃 由於信貸減值虧損大幅增加所致。在充滿挑戰的營商 環境下,儘管存貸款餘額有所減少,惟兩地業務之營運 收入總額仍能與去年相若。

大新銀行集團的股東資金回報率由2023年的6.0%上升至2024年的6.2%。成本對收入比率則由2023年的53.6%下降至2024年的48.2%。

於2024年12月31日,大新銀行有限公司(「大新銀行」)之 綜合普通股權一級資本充足率增加至16.9%,較2023年 底的16.2%增加0.7個百分點。計及大新銀行的二級後償 債務餘額,大新銀行於年底的綜合整體資本充足率為 21.0%,略低於前一年的21.2%。大新銀行的流動性維持 比率繼續維持遠高於25%的最低要求,年內平均水平為 64.2%。本集團相信其資本及流動資金比率水平處於在 香港銀行同業及國際銀行業界的市場範圍內。

### 業務表現概要

#### 個人銀行

本集團的個人銀行業務表現強勁,於2024年錄得淨溢 利增長逾70%,主要受淨利息收入增加且息差擴大、來 自財富管理業務及中小企業務之非利息收入增加以及 嚴格成本控制所帶動。

本集團於2024年繼續透過擴闊目標客戶群、深化與現有客戶的關係,以及推出多貨幣扣賬卡,專注於建立交易性活期及儲蓄賬戶結餘。因此,零售中小企業及優易理財客戶群按年分別增長15%及9%,其中透過數碼渠道獲取之新客戶佔比持續提升。

Our businesses in Macau and Mainland China delivered weaker results due to much higher credit impairment charges. Amidst the challenging business environment, both businesses were able to generate total operating income similar to last year, despite lower loans and deposits balances.

DSBG's return on shareholders' funds increased from 6.0% in 2023 to 6.2% in 2024. Cost to income ratio decreased from 53.6% in 2023 to 48.2% in 2024.

As at 31 December 2024, the consolidated Common Equity Tier 1 ratio of Dah Sing Bank, Limited ("DSB") increased to 16.9%, 0.7 percentage point higher than the level of 16.2% at the end of 2023. Taking into account DSB's outstanding Tier 2 subordinated debts, DSB's consolidated capital adequacy level at year end was 21.0%, slightly lower than the prior year of 21.2%. Our Bank continued to operate well above the minimum Liquidity Maintenance Ratio of 25%, reporting an average level of 64.2% during the year. We believe that our capital and liquidity ratios are maintained at levels within the market range for both peer banks in Hong Kong, and for banks internationally.

#### **HIGHLIGHT OF BUSINESS PERFORMANCE**

#### **Personal Banking**

Our Personal Banking business delivered a robust performance, achieving over 70% growth in net profit in 2024. This was driven by higher net interest income with widened margin, increased non-interest income from our Wealth Management business and Small and Medium-sized Enterprises ("SME") segments, and strong cost discipline.

In 2024, we continued to focus on building our transactional CASA balances by expanding our target customer bases, deepening relationships with existing customers and launching our multi-currency debit card. As a result, our Retail SME and YOU Banking customer bases grew year-on-year by 15% and 9% respectively, with increasing customers in-take through the digital channel.

To better serve the needs of SMEs, we enhanced our offerings and capabilities, and expanded our SME network from 16 to 18 SME Banking Centres this year. Additionally we introduced a new SME remote onboarding and digital PIN services to improve our SME account opening efficiency and enhance customer experience. These initiatives have strengthened our franchise and contributed to 44% year-on-year growth in our SME deposit balances.

We maintained our market share for unsecured personal loans and credit cards, through active promotions and collaborations with various social media platforms to enhance market awareness. To better manage year-on-year increase in credit impairment, we proactively adjusted origination criteria and portfolio management strategies. These measures ensure the overall resilience of our portfolio.

Wealth management services remained a key focus for Personal Banking, offering a diverse range of personalised investment and insurance solutions tailored to customers at different stages of life. In particular, our Bancassurance partnership with Sun Life Hong Kong has enriched our product range, allowing us to better meet customer needs, which in turn led to a strong business momentum. All this resulted in our wealth management fee income doubling compared to last year.

Moreover, by continuing our efforts in enhancing our product capabilities for our Private Banking customers and through our successful cross-selling initiatives to our Corporate Banking customers with an improved personalised service model and customised offerings, our Private Banking business also recorded a strong year-on-year growth.

We continued to accelerate our digital transformation efforts. This year, we further enhanced our award-winning "Next Best Action" AI solution for personalised product recommendation and was the first bank in the market to launch a streamlined identity verification service for SMEs through the "Interbank Account Data Sharing" pilot programme. These efforts have resulted in a surge in digital transactions by 42% year-on-year in 2024.

As part of our omni-channel strategy, we started a programme to gradually renovate and/or relocate our branches, to improve customer services and digital experience, and enhancing our brand image. We took this opportunity to improve operational efficiency by enabling a gradual transition to paperless operations at our branches. As at the end of December 2024, our retail presence in Hong Kong comprised 42 branches across Hong Kong, Kowloon and the New Territories, including 27 VIP Banking centres and 18 SME banking centres.

In November 2024, Dah Sing Bank sponsored the inaugural launch of the "Our Hong Kong Foundation – Dah Sing Bank Greater Bay Area Industry Development Index" which analyses the performance of the "9+2" GBA cities across six key industries. "We believe the Index's valuable insights and recommendations on the complementary advantages of the cities will help businesses and other audiences make informed investment and business decisions, in turn promoting further economic and financial market integration

within the region. Dah Sing Bank will continue to harness our unique strategy and presence through our four operating entities across GBA, capitalising on the financial resources of our combined platform to deliver exceptional banking services to our customers," said Mr. Harold Wong, Executive Director and Group General Manager of Dah Sing Financial Holdings Limited.

#### 企業銀行

銀行業營運環境於2024年持續充滿挑戰。儘管年底投資氣氛稍為改善,惟地緣政治局勢緊張及宏觀不明朗因素仍縈繞市場。全球通脹壓力初現緩和跡象,大新銀行主要市場的經濟復甦勢頭保持平穩,惟中國內地與香港房地產發展商仍處營運困境。

香港貸款市場於2024年整體表現低迷,惟第四季度略見輕微回升。根據香港金融管理局的統計數據,全年貸款總量按年下跌約3%。貸款需求主要來自再融資,新增擴張性或增長性資本需求仍顯乏力。受中國內地大規模貨幣寬鬆政策及美國大選後美元走強影響,中資企業逐漸將大量融資需求轉向在岸市場以獲取更為低廉的借貸成本。根據倫敦證券交易所集團貸款對接平台的統計數據,離岸人民幣貸款量於2024年按年增長近一倍,反映中資銀行市佔率持續擴張,對非中資同業構成經營壓力。

香港商業地產市場正經歷自亞洲金融風暴以來最嚴峻的衰退。根據標準普爾的統計數據,2024年上半年本港物業相關貸款佔借貸總量約16%,任何行業相關壓力將衝擊銀行資產質素,境內金融機構面對此趨勢無一倖免。

作為執行中期策略的一項舉措,本集團企業銀行業務 持續專注於現有及目標客戶群中實施客戶賬戶策略, 力求為客戶提供多元化的企業銀行產品及服務。

在經濟環境持續疲弱、高利率及市場競爭激烈的情況下,本集團企業銀行業務於2024年錄得貸款負增長,主要受累於貿易融資下降。

淨利息收入較去年減少,主要由於中小企業客戶融資需求下降。此外,2024年下半年市場利率下調亦導致按年跌幅擴大。面對貸款增長勢頭放緩,本集團已主動管理存款組合以降低高息存款佔比。

信用減值撥備按年大幅增加,乃由於對中國內地房地 產發展商以及香港商業地產行業情況轉差增加撥備 所致。我們將繼續密切監察貸款組合的信貸質素, 以確保其韌性,並減低可能出現的潛在風險。

大新銀行自2013年起持續獲得由香港中小型企業總商會頒發的「中小企業最佳拍檔獎」,去年並連續三年在該獎項中獲「金獎」榮譽,表揚其為香港中小企業提供優質服務及支持的努力。 DSB has been recognised in the "Best SME's Partner Award" of The Hong Kong General Chamber of Small and Medium Business since 2013. Last year, DSB was honoured in the Gold Award category of this industry recognition for the third consecutive year, celebrating its achievement in delivering quality services and support to SMEs in Hong Kong.

### **Corporate Banking**

The operating environment for the banking industry continued to be challenging in 2024. While investment sentiment somewhat improved towards the end of the year, concerns over geopolitical tensions and macro uncertainty remained. Global inflationary pressures began to subside, and economic recovery momentum held steady across DSB's major markets. However, conditions faced by property developers in both the Mainland China and Hong Kong remained difficult.

Loan market activity in Hong Kong has mostly been subdued during 2024, with some slight pick-up observed in fourth quarter of the year. Overall, the fullyear loan volume has dropped by approximately 3% year-on-year according to the statistics from Hong Kong Monetary Authority. Loan demand was primarily driven by refinancing, as the needs for new expansionary or growth capital remained limited. Given the extensive monetary easing in the Mainland China coupled with the strengthening U.S. dollar post-election, Chinese corporates have increasingly shifted their financing needs onshore to take advantage of significantly lower borrowing costs. Locally, the volume of CNH loans has nearly doubled year-on-year during 2024 according to the statistics from London Stock Exchange Group Loan Connector, indicating a growing market share for Chinese banks, adding headwinds for non-Chinese banks.

The Hong Kong commercial real estate ("CRE") sector is experiencing its worst downturn since the Asian financial crisis. As property-related loans in Hong Kong accounted for approximately 16% of total lending in the first half of 2024 according to statistics from Standard & Poor, any sector-related pressure would weigh on banks' asset quality, and no market player in the territory would be immune to this trend.

Our Corporate Banking business continued to focus on implementing customer account strategy across a range of existing and targeted customer segments as part of the execution of our medium term strategy, aiming to provide diverse corporate banking products and services to our customers.

Against the background of continued weakening economic environment, high interest rates and fierce competitive landscape in the market, our Corporate Banking business reported negative loan growth in 2024 mainly from decline in trade finance.

Net interest income declined compared to the previous year, primarily due to the decrease in financing demand from SME customers. Moreover, the reduction in market interest rates since the second half of 2024 also contributed to the year-on-year drop. With the slowdown in our loan growth momentum, we had proactively managed our deposit mix to reduce the higher-priced deposits.

Credit impairment provisions were significantly higher year-on-year, both due to additional provisions made against the Mainland China property developers and the deteriorating conditions in the Hong Kong CRE sector. We remain vigilant in monitoring the credit quality of our loan portfolio to ensure its resilience and to mitigate any potential risks that may arise.

通過提供在岸開立賬戶見證服務,我們的中國內地企業客戶毋需跨境即可開設香港銀行賬戶。這一便利措施提升了中國內地企業客戶的銀行服務體驗,也為建立有效的銀行客戶關係創造了機會。此外,大新銀行已成為第一間獲得雙牌照的境外銀行,在大新銀行(中國)附屬公司業務以外經營新深圳分行,促進了香港及中國內地企業銀行業務進一步發展。此舉是鼓勵跨平台轉介及開發跨境解決方案的主要焦點之一。

投資數碼解決方案和升級數碼銀行平台仍然是企業銀行部的首要任務,通過持續優化現金管理及數碼渠道的產品功能,我們已大幅提升客戶體驗。此外,通過進一步精簡內部流程,我們已改善效率及服務質素,此舉與追求為客戶提供一流服務的目標一致。

縱使營運環境充滿挑戰,企業銀行部繼續透過吸納優質客戶及堅守以客戶為中心,為建立更強大的企業銀行業務奠定基礎。

#### 財資及環球市場業務

於2024年,財資及環球市場業務錄得溢利增加,應佔溢利增加35.9%至10億1千3百萬港元。受惠於年內普遍較高的投資利率,淨息差由1.25%增加至1.59%。平均賺息資產增加3.0%至929億港元。隨著息差及交易量均有所上升,年內淨利息收入增加31.4%至14億7千8百萬港元。於2024年,資金掉期支出減少,連同整體交易業績,非利息收入於本年度錄得上升。

在其他業務部門的支持下,財資及環球市場部(「財資部」)客戶相關銷售及市場推廣業務穩步增長,主要受惠於外匯客戶流量相關業務及結構性存款。

年度營運支出增加29.9%,這主要是由於財資部須攤佔總部支出增加。年內錄得的減值支出為2千1百萬港元。基礎信貸質量保持良好,投資組合繼續以高級別債券為主,並在銀行、企業及政府債券之間保持良好的分散平衡。

年內,財資部審慎管理流動性,平均流動性維持比率保持於64.2%,與2023年的水平相若。本集團維持優質流動資產組合,並考慮到整體營運環境所面臨的挑戰及全年面對的波動市況,採取保守方式管理大新銀行的現金流。

大新銀行與香港經濟日報於2024年12月合辦「環球經濟新形勢:中小企跨境融資全攻略」線上講座,邀請專家剖析市場最新形勢,為有意於大灣區拓展業務的企業提供營商攻略。

In a webinar co-organised with Hong Kong Economic Times in December 2024 on "Global Economic Trends: A Comprehensive Guide to Cross-Border Financing for SMEs", DSB brought together specialists to share the latest economic dynamics and actionable business strategies for entrepreneurs looking to expand into the GBA.

By offering onshore account opening witness services, our Mainland Chinese corporate customers are able to open Hong Kong bank accounts without needing to travel across the border. This added convenience enhances our Mainland Chinese corporate customers banking experience and creates opportunities for establishing effective banking relationships. Furthermore, DSB was the first foreign bank to receive dual operating licenses to operate a new Shenzhen branch in addition to our DSB China subsidiary operations. This has fostered further growth of our corporate banking business in both Hong Kong and the Mainland China. This is one of our major focuses to encourage cross-platform referrals and to develop cross-border solutions.

Investing in digital solutions and enhancing our digital banking platform remained our key priorities. By continuously advancing our product capabilities in cash management and digital channels, we have significantly enhanced our customer experience. In addition, by further streamlining internal processes, we have achieved improved efficiency and service quality, in alignment with our goal of delivering best-in-class services to our customers.

Notwithstanding the challenging operating environment, we continue to lay the ground work for building a stronger corporate banking business by onboarding quality clients and upholding customer centricity.

### **Treasury and Global Markets**

Our Treasury and Global Markets business reported higher profit in 2024, with an increase in attributable profit of 35.9% to HK\$1,013 million. Benefitting from generally higher investment interest rates during the year, net interest margin increased from 1.25% to 1.59%. Average interest earning assets grew by 3.0% to HK\$92.9 billion. With both higher margin and higher asset volumes, net interest income grew by 31.4% to HK\$1,478 million for the year. Funding swap expenses decreased in 2024 and together with our overall trading performance, the non-interest income recorded an increase for the year.

With the support of other business units, our customer related sales and marketing performance grew steadily mainly attributable to FX customer-flow related business and structured deposits.

Operating expenses increased by 29.9% for the year. This was mainly driven by a higher allocation of central expenses to Treasury and Global Markets. A modest impairment charge of HK\$21 million was reported for the year. Underlying credit quality remained good, and the investment portfolio continued to comprise predominantly of high grade bonds, and was well diversified with a good balance between bank, corporate and government bonds.

Liquidity was prudently managed with the average Liquidity Maintenance Ratio for the year being maintained at 64.2%, similar to the level for 2023. We maintained our high quality liquid assets portfolio and managed the cash flow of DSB in a conservative manner given the overall challenging operating environment and volatile market conditions faced during the course of the year.

### 澳門商業銀行

於2024年,澳門的經濟復甦不均衡。博彩及旅遊業經歷了復甦,而其他行業的復甦步伐仍然較慢。當地房地產市場依然低迷,主要是由於高利率環境及整體經濟的不確定性。儘管有經濟逐步復甦的跡象,商業環境要完全恢復到疫情前的水平則指日可待。

無可避免地,澳門銀行業遭受不利影響。貸款需求疲弱和投資情緒低迷導致銀行在發放貸款時採取謹慎態度,優先考慮審慎的風險管理並大幅增加撥備。因此,該行業的貸款和盈利能力顯著下降,不良貸款率大幅上升。

儘管面臨各種挑戰,澳門商業銀行成功將貸款餘額按 年跌幅控制在僅3.0%,表現優於市場。與此同時,為配 合我們降低資金成本的策略,存款餘額與上一年相比 持平。

值得注意的是,已提升的客戶存款結構及平均賺息資產的增長使淨利息收入相比2023年增加2.5%,相比澳門銀行業則出現了雙位數的跌幅。非利息收入相比2023年減少11.1%,主要是由於2023年收到一筆一次性

特別股息。由於持續投資於資訊科技及基礎設施以及員工成本上升,營運支出按年輕微增長3.1%。因此,減值前營運溢利按年下降3.8%,而淨利潤因信用減值虧損增加,按年減少58.6%。澳門商業銀行能夠將不良貸款率維持在1.72%,遠低於市場平均水平(超過5%)。

年內,澳門商業銀行繼續優先發展其VIP銀行業務,同時專注於財富管理業務,並啟動了一個新項目,將高端理財融資業務擴展到高淨值客戶。這一舉措是澳門商業銀行在大灣區捕捉新機遇的重要里程碑,大灣區在VIP銀行業務和財富管理方面具有顯著潛力。

澳門商業銀行繼續推動以客戶為中心的文化及提高營 運效率。年內,澳門商業銀行實施了各種系統升級和流 程變革,以提高營運效率及客戶體驗。此舉令客戶表揚 數量大幅增加,提升員工參與度,並提高客戶滿意度。

2024年是澳門商業銀行成立50周年,全年組織了一系列慶祝活動以紀念這一重要里程碑。這些活動在提升我們在本地市場的企業形象、加強我們對環境、社會及管治原則的承諾,以及推動業務發展及擴展網絡方面取得了令人矚目的成果。

澳門商業銀行於2024年11月慶祝成立50周年,誌慶晚宴獲現任澳門特別行政區經濟財政司司長戴建業先生(中)撥冗出席,與大新金融集團有限公司執行董事及集團總經理王祖興先生(右)及澳門商業銀行行政總裁劉伯雄先生(左)共同參與活動。

BCM celebrated its 50th Anniversary at a gala dinner in November 2024 under the auspices of Mr. Tai Kin Ip, the current Secretary for Economy and Finance of Macau SAR (centre), alongside Mr. Harold Wong, Executive Director and Group General Manager of Dah Sing Financial Holdings Limited (right), and Mr. Pak-Hung Lau, Chief Executive of BCM (left).

#### Banco Comercial de Macau

In 2024, businesses recovery in Macau had been uneven. The gaming and tourism sectors experienced revitalization, whilst recovery of other industries continued to be at a slower pace. The local property market remained stagnant mainly because of the high interest rate environment and the overall economic uncertainties. Although there was indication of a gradual recovery in the economy, it would take time for the business environment to fully recover to pre-COVID level.

Inevitably, Macau's banking industry was being adversely impacted. The weak loan demand and weak investment sentiment caused banks to adopt a cautious approach in extending credit, prioritizing prudent risk management and significantly increasing provisions. As a result, the industry recorded a notable decline in lending and profitability, along with a much higher Non-Performing Loan ratio.

Despite facing various challenges, Banco Comercial de Macau ("BCM") managed to limit the year-on-year decline in loan balance to just 3.0% year-on-year, outperforming the market. Meanwhile, in line with our strategy to manage down the cost of funding, deposit balances remained flat compared to the previous year.

Notably, the enhanced customer deposit mix and growth in average interest earning assets contributed to a 2.5% rise in net interest income compared to 2023, in contrast to a double-digit percentage drop in the Macau banking industry. The decrease in non-interest income of 11.1% as compared to 2023 was mainly due to a one-off special dividend received in 2023. Operating expenses mildly

increased by 3.1% year-on-year owing to the continued investments in technology and infrastructure as well as higher staff cost. Consequently, operating profit before impairment decreased by 3.8% year-on-year, whilst net profit dropped by 58.6% year-on-year because of increased credit impairment charges. BCM was able to maintain its Non-Performing Loans ratio at 1.72%, well below the market average of over 5%.

During the year, BCM continued to prioritize the development of its VIP Banking portfolio, while focusing on the Wealth Management business. A new project was initiated to expand the Premium Financing business to high-net worth customers. This initiative marked a significant milestone for BCM in capturing new opportunities within the Greater Bay Area, which held significant potential for both VIP Banking and Wealth Management.

BCM continued to promote a culture of customer centricity and operational efficiency. Throughout the year, various system enhancements and procedural changes were implemented to improve operational efficiency and customer experience. This resulted in a significant increase in the number of customer compliments, enhancing staff engagement and greater customer satisfaction.

2024 marked the 50th Anniversary of BCM, and a series of celebratory activities were organized throughout the year to commemorate this significant milestone. These activities had yielded impressive results in enhancing our corporate image in the local market, reinforcing our commitment to ESG principles, and driving business development and network expansion.

作為澳門商業銀行50周年慶典活動之一,該行舉辦的BCM盃 - 2024兒童街舞大賽讓 173 名 3 至 14 歲的年輕舞者展示他們的才華和創造力。

BCM organised the BCM Cup – Kids Street Dance Competition 2024 as part of its 50th Anniversary celebration, empowering 173 young dancers aged 3-14 years old to demonstrate their talent and creativity.

#### 大新銀行(中國)

於2024年,中國內地經濟復甦充滿不確定性且進程不均衡。第一季度的生產總值增長符合預期,但第二和第三季度均低於中國內地政府最初的預測水平。在政府的各種貨幣和財政支持下,第四季度的生產總值增長高於市場預期。最終,中國內地於2024年全年生產總值增長率為5%。中國人民銀行決定實施擴張性貨幣政策而下調貸款市場報價利率乃支持生產總值增長的措施之一。儘管此政策對國家生產總值產生良好效果,整體上為貸款收益率帶來了更大壓力。房地產及相關市場的不確定性引發避險情緒及同業之間激烈競爭,亦為貸款收益率增加壓力。

全年整體貸款需求疲弱,大新銀行(中國)除了面臨激烈市場競爭外,客戶提前還款情況也顯著增多。因此,大新銀行(中國)的貸款餘額在年內有所下降。由於貸款市場報價利率下調和貸款餘額減少,大新銀行(中國)平均淨息差由1.44%下降至1.20%,淨利息收入按年下降21.7%。然而,通過積極推廣跨境貿易及外幣相關服務,非利息收入按年大幅增加41.5%,部分彌補淨利息收入不足。大新銀行(中國)憑藉有效的節約成本措施,在2024年信貸減值虧損前實現了營運平衡。然而,由於年內出現了與房地產相關的不良貸款,令部分現有不良貸款撇銷和出售而錄得額外信貸減值虧損,導致全年出現淨虧損。

大新銀行(中國)在中國內地6個主要城市營運,總部設於深圳,分行設於上海、南昌、鎮江、廣州,支行設於佛山及深圳南山,為中國內地客戶提供各類商業及零售銀行貸款、存款以及其他相關銀行服務。尤其是大灣區的客戶,大新銀行(中國)提供各種跨境銀行服務,以滿足彼等的需求。

#### 重慶銀行

重慶銀行於2024年的業務及財務表現均有改善,股東應佔溢利上升3.8%。貸款及存款分別增加12.1%及14.3%,其營運收入增加,主要由於利息收入增加和淨服務費及佣金收入增加。2024年年底的不良貸款比率及不良貸款覆蓋率分別為1.3%及245.1%,而2023年年底則分別為1.3%及234.2%。

本集團應佔重慶銀行淨溢利繼續按權益會計基準予以確認,於2024年為6億7千7百萬港元。截至2024年12月31日,由於我們於重慶銀行的投資的市場價值高於其賬面價值,因此無需進行使用價值評估,2024年合併財務業績中確認的總減值虧損為1千6百萬港元,而2023年為5億5千2百萬港元。

受惠減值虧損少於本集團年內錄得的應佔重慶銀行淨溢利,於2024年12月31日,本集團於重慶銀行的投資扣除減值撥備總額的賬面值增加至25億3千3百萬港元,而於2023年12月31日則為22億1千5百萬港元。這主要由於本集團應佔重慶銀行溢利及其他綜合收益,部分被年內人民幣兌港元貶值所抵銷。

## **Dah Sing Bank (China)**

Mainland China's economic recovery in 2024 had been marked by uncertainties and uneven progress. The GDP growth in the first quarter was on track but in the second and third quarters, it fell short of the level as initially projected by the Mainland Chinese government. With various monetary and fiscal supports from the government, the GDP growth in the fourth quarter was higher than market expectation. As a result, Mainland China reported a 5% annual GDP growth for 2024. One of the measures to support the GDP growth was the decision made by the People's Bank of China to implement an expansionary monetary policy by cutting the Loan Prime Rate. Although this policy had yielded a good result for the country's GDP, it caused greater pressure on lending yield in general. Uncertainties in the real estate and related markets also induced a flight to quality and intense peer competition, which also added pressure on the lending yield.

Overall loan demand during the year was weak, and Dah Sing Bank (China) ("DSB China") experienced higher level of early repayments from customers in addition to the intense market competition. Consequently, DSB China's loan balance reduced during the year. As a result of lowering the Loan Prime Rate and loan balances, DSB China's average net interest margin reduced from 1.44% to 1.20%, and net interest income declined by 21.7% year-on-year. However, the shortfall in net interest income was partially compensated by a strong 41.5% year-on-year growth on non-interest income which was achieved through active promotion of cross border trade and foreign currency related services. Together with effective cost saving initiatives, DSB China was able to report an operational equilibrium before credit impairment losses for 2024. However, with the emergence of non-performing property-related loans during the year, additional credit impairment losses were recorded due to write-off and disposal of some existing non-performing loans, which resulted in a net loss for the year.

DSB China operates in 6 major cities in Mainland China, with a network comprising Shenzhen Headquarters, branches in Shanghai, Nanchang, Zhenjiang, Guangzhou with sub-branches in Foshan and Shenzhen Nanshan, offering a wide range of commercial and retail bank lending, deposits and other related banking services to customers in Mainland China. Specifically for customers in the Greater Bay Area, DSB China offers various crossborder banking services to meet their needs.

## **Bank of Chongqing**

BOCQ delivered improvements in both business and financial performance in 2024, with its profit attributable to shareholders increasing by 3.8%. Loan and deposits grew by 12.1% and 14.3% respectively. It recorded higher operating income, which was mainly the result of higher interest income and higher net fee and commission income. Its non-performing loan ratio and non-performing loan coverage ratio at the end of 2024 were 1.3% and 245.1% respectively, compared to 1.3% and 234.2% at the end of 2023.

Our share of BOCQ net profit continued to be recognised on the equity accounting basis, which amounted to HK\$677 million in 2024. As at 31 December 2024, since the market value of our investment was higher than its carrying value, no Value in Use assessment was required and the total impairment charge recognised in our 2024 consolidated results was HK\$16 million, compared to HK\$552 million in 2023.

With the impairment charge being lower than our share of BOCQ net profit recorded in the year, the carrying value of our investment in BOCQ, net of the total impairment allowance, increased to HK\$2,533 million as at 31 December 2024 as compared with HK\$2,215 million as at 31 December 2023. This is mainly due to our share of the profit and other comprehensive income of BOCQ which was partly offset by the depreciation of RMB against HKD during the year.

於2024年,一般保險業務繼續展現出穩健的增長,積極參與大灣區相關舉措,並與本集團的中期策略保持一致。通過在關鍵業務線的韌性和合理定價的支持,大多數業務線按年錄得了令人鼓舞的增長。成功執行承保策略並專注於更有利可圖的業務領域,使保險收入增加19.3%至11億5千4百萬港元。此成功可歸功於2024年實施的各種新戰略方向及舉措,包括通過國際經紀拓展大型企業業務、加強與知名且具盈利的分銷商的合作關係、推出延長保修計劃,以及通過社交媒體營銷提升品牌形象。

整體保險服務業績增長81.0%至1億3千7百萬港元。此乃通過一般保險業務中的審慎風險篩選和成本控制得以實現。我們專注於在主要國際經紀、銀行保險和直接分銷渠道的增長,有助於降低整體總佣金率。我們在風險偏好範圍內保持審慎的風險篩選,帶來了理賠經驗的改善。這包括維持再保險合約的合理化策略,以降低海外自然災害風險敞口。

自2023年1月1日起實施香港財務報告準則第17號會計準則以來,淨保險財務業績受到期初期末收益曲線的變動以及保險索賠負債的按年貼現影響。這於2023年對淨保險財務業績產生正面影響,但於2024年產生負面影響。

保險業務繼續投資於數碼化,以提高運營效率、降低運營風險並更加以客戶為中心。於2024年,我們繼續投資於數碼轉型舉措,以期實現流程自動化、擴大為客戶提供的產品和服務範圍,並確保業務戰略的可持續性和競爭力。因此,我們一般保險業務的其他營運支出按年增加。

於2024年,保險及投資業務錄得的總投資收入為12億9千6百萬港元,其中包括營運溢利1億6千6百萬港元及其他全面收益11億3千萬港元。投資組合主要由流動性證券組成。回報主要來自權益投資的可觀回報。於2023年,保險及投資業務合計錄得的總投資收入為10億5千4百萬港元,其中包括營運溢利2億4千8百萬港元及其他全面收益8億零6百萬港元。

Our general insurance business continued to show respectable growth for year 2024, actively engaging in Greater Bay Area-related initiatives and aligning with our medium term strategy. Through our resilience across key lines of business and supported by adequate pricing, most lines of business recorded an encouraging year-on-year growth. The successful execution of our underwriting strategy and focus on more profitable segments have contributed to the increase in insurance revenue by 19.3% to HK\$1,154 million. This success can be attributed to various new strategic directions and initiatives executed in 2024 including expanding to large corporate portfolios through international brokers, enhancing relationship with well-branded profitable distributors, launching extended warranty program, and strengthening brand image through social media marketing.

The overall insurance service result increased by 81.0% to HK\$137 million. This was achieved through prudent risk selection and cost discipline in our general insurance business. Our focus on growth in key international brokers, bancassurance and direct distribution channels helped to reduce overall gross commission ratio. We remained disciplined in risk selection within our risk appetite, which led to an improvement in our claims experience. This included maintaining the inward treaty insurance rationalisation strategy to minimise overseas natural catastrophic exposures.

Since the implementation of the accounting standard HKFRS 17 starting 1 January 2023, net insurance financial result has been impacted by the movement of yield curve between beginning of period and end of period as well as the respective year-on-year discounting impact of insurance claims liabilities. This led to a positive impact on net insurance financial results in 2023 but a negative impact in 2024.

Our insurance business has continued to invest in digitisation to improve operational efficiency, mitigate against operational risks and be more customer centric. In 2024, we continued to invest in digital transformation initiatives, with a view to automating processes, expanding product offering and services to our customers, and ensuring a sustainable and competitive business strategy. As a result, other operating expenses of our general insurance business increased year-on-year.

In 2024, the insurance and investment operations recorded a total investment income of HK\$1,296 million which consisted of an operating profit of HK\$166 million and other comprehensive income of HK\$1,130 million. The investment portfolio consists mainly of liquid securities. The returns were principally due to favourable returns from equities holdings. In 2023, the combined insurance and investment operations recorded a total investment income of HK\$1,054 million which consisted of an operating profit of HK\$248 million and other comprehensive income of HK\$806 million.

以下是截至2024年和2023年年底本集團一般保險業務 (包括澳門退休基金管理業務) 及投資業務的主要績效指標概要:

百萬港元	2024年	2023年
總保險收入	1,246	1,061
資產淨值	6,163	5,079
大新保險之風險為本資本(「RBC」)比率/償付能力比率		
- 根據《保險業 (估值及資本) 規則》 (第41R章) 下,即香港RBC制度	286%	不適用
- 根據《保險業 (一般業務) (估值) 規則》 (第41G章)	不適用	738%
澳門保險之償付能力比率	919%	1,288%

通過成功的產品及渠道策略,本年度總保費收入按年增加17.4%。

保險及投資業務的資產淨值增加21.3%,主要是由於股市反彈導致金融資產價值增加以及保險業務的積極業績。

大新保險RBC比率以及大新保險(在實施RBC制度前)及澳門保險的償付能力比率在本年度繼續保持健康狀態,高於監管水平及我們內部目標資本比率。這為現有和潛在投保人提供更佳保障,同時從投資業務中獲得長期複合回報。香港風險為本資本(RBC)制度自2024年7月1日起生效。大新保險已更新所有風險偏好和相關

風險度量,以符合RBC制度的要求,其RBC償付能力比率達到了286%。至於澳門保險,儘管在本年度向本集團派發了2億零8百萬港元的股息(佔2023年底澳門保險股東權益的22.1%),但其2024年底的償付能力覆蓋率仍非常強勁,達到919%。

於2024年年底,大新保險及澳門保險可供投資的「浮存金」由2023年年底的7億2千萬港元合共增加至8億1千4百萬港元,而保險及投資業務整體管理資產總額由2023年年底的86億6千4百萬港元增加至101億4千9百萬港元,2024年的回報率為16.1%,而去年為15.4%。

The following provides a summary of the key performance indicators of our general insurance business, including the pension fund management business in Macau, and investment operations at the end of 2024 and 2023:

HK\$ Million	2024	2023
Gross premium written ("GPW")	1,246	1,061
Net asset value	6,163	5,079
Risk-based capital ("RBC") ratio/Solvency ratio of DSI		
– Under Cap 41R Insurance (Valuation and Capital) Rules, i.e. Hong Kong RBC regime	286%	N/A
– Under Cap. 41G Insurance (General Business) Valuation Rules	N/A	738%
Solvency ratio of MIC	919%	1,288%

Through our successful product and channel strategies, total gross premium written recorded a 17.4% year-on-year increase during the year.

The net asset value of our insurance and investment operations was increased by 21.3%, mainly due to increase of financial assets value from the rebound of the equity markets and the positive insurance result.

The RBC ratio of DSI and the solvency ratios of DSI (before the RBC regime was implemented) and MIC continued to be healthy in the year, above the regulatory level and our internal target capital ratio. This provides greater protection and assurance to our existing and potential policyholders, whilst generating compounded returns from our investment operations over the longer term. Hong Kong RBC regime was effective from 1 July 2024. DSI has updated all risk appetites and relevant risk

measures to align with the RBC regime and DSI's RBC solvency ratio achieved 286%. For MIC, notwithstanding the distribution of a dividend of HK\$208 million to the Group during the year (representing 22.1% of MIC's shareholders' equity at the end of 2023), MIC's solvency coverage at the end of 2024 remained very robust at 919%.

At the end of 2024, the "float" available for investment in DSI and MIC in aggregate grew to HK\$814 million from HK\$720 million at the end of 2023, and our total assets under management ("AUM") from our insurance and investment operations grew to HK\$10,149 million from HK\$8,664 million at the end of 2023 and generated a return of 16.1% in 2024 compared to 15.4% last year.

貝氏 (A.M. Best) 於2024年再度肯定大新保險的財務實力評級為「A-」(優等),長期發行人信貸評級為「A-」,評級展望穩定,代表大新保險的資產負債表實力「非常強大」,並擁有適當的風險管理框架以支持其風險組合。

在充滿挑戰的宏觀經濟及地緣政治環境中,大新保險於2024年憑藉韌性、適應能力和追求卓越的精神實現了業務的持續增長。卓越的努力和專業精神推動大新保險邁向新高度,實現總保費收入9億1千6百萬港元,2019年至2024年的複合年增長率超過10%,按年增長9%。為了加強大新保險的品牌形象和定位,其公司名稱於2024年4月8日起由「大新保險(1976)有限公司」更改為「大新保險有限公司」。

作為一家不斷進步、快速發展的本地一般保險公司,大新保險擁有雄厚的資本基礎、健全的風險管理、創新且以客戶為中心的解決方案。大新保險已確定了新的盈利合作夥伴,以擴大分銷渠道、塑造強大的品牌形象,並為承保業務成果作出貢獻。我們通過國際經紀獲得了新業務,並加強了與知名本地經紀的合作關係,以獲得新的企業客戶。我們具備卓越的技術和切實可行的策略來提升以客戶為中心的理念,成功與分銷商推出了「企業對企業對客戶」數碼模式,拓展了應用程式介面(API)領域以推進數碼化,為技術型合作夥伴提供快速便捷的解決方案,並實施了各種理賠數碼化措施,以縮短理賠結算時間並改善客戶體驗。

於2024年,隨著當地博彩和旅遊業的逐步復甦,澳門保險的總保費收入也按年取得了相當可觀的增長。通過與國際經紀的積極合作,澳門保險從博彩業務和大型賭場開發項目中獲得了更多業務,同時也從與房地產和基礎設施建設、音樂會及展覽相關的新業務中受惠。澳門保險積極參與大灣區相關舉措,為汽車保險業務帶來了保費增長和強勁的盈利能力。澳門保險通過嚴格的承保和積極的理賠管理,成功控制了理賠情況。

澳門保險亦繼續根據本集團中期策略實施數碼轉型舉措。針對壽險代理的「企業對企業」平台改進以及針對汽車經銷商的端到端銷售流程整合,加強了澳門保險與主要生產商集團的分銷聯繫。通過網上銷售個人產品和提供醫療及員工賠償索賠服務以及自動獲取汽車共同保險交易,澳門保險能夠更有效地重新調配資源及降低營運成本。

儘管新業務因本地經濟(尤其是零售和中小企業領域) 持續疲軟而受到抑制,澳門退休基金的退休基金管理 業務保持穩定。受惠退休金管理資產10.9%增長的推 動,退休金管理費收入增加,淨溢利按年增加13.8%。 澳門退休基金將繼續推進數碼舉措,提升網上功能及 內部基礎設施,以達致更高成本效益及提升客戶體驗。

大新保險榮獲「明報卓越財經大獎2024」的「卓越海外教育保障方案大獎」,此乃對其產品價值的高度評價。大新保險致力為客戶提供多元化產品及專業服務,以滿足尊貴客戶和業務夥伴的需求。

DSI earned product acclaim when it was honoured in the "Ming Pao Awards for Excellence in Finance 2024" for Best Overseas Study Protection. DSI is committed to delivering diversified solutions and professional services to meet the needs of its valued customers and business partners.

A.M. Best has reaffirmed DSI with a Financial Strength Rating of "A-" (Excellent) and a Long-Term Issuer Credit Rating of "A-" with a stable rating outlook in 2024, which represented the strength of the balance sheet as "very strong" and has appropriate risk management framework to support our risk portfolio.

DSI has achieved continuous business growth in 2024 with resilience, adaptability and commitment to excellence, amid a challenging macroeconomic and geopolitical environment. Outstanding efforts and professionalism have propelled us to reach a new height to achieve GPW of HK\$916 million, over 10% compound annual growth rate from 2019 to 2024 and 9% year-on-year growth. To strengthen DSI brand image and positioning, the name of DSI has been changed from "Dah Sing Insurance Company (1976) Limited" to "Dah Sing Insurance Company Limited" with effect from 8 April 2024.

As a progressive and fast growing local general insurance company with strong capital base, sound risk management, innovative and customer-centric solutions, DSI had identified new profitable partners to expand our distribution channels, develop a strong brand image, and contribute to the underwriting results. We had acquired new businesses through international brokers and had enhanced relationship with well-branded local brokers to acquire new corporate accounts. We had technical excellence and a solid strategy for boosting customer centricity and had successfully launched B2B2C digital model with our distributors, broadened our API landscape to promote digitisation to offer quick convenient solutions to our tech-oriented partners, and implemented various claims digitisation initiatives to reduce claims settlement time and improve customer experience.

In 2024, MIC also achieved a considerable year-on-year growth in GPW following gradual recovery of the local gaming and tourism sectors. Through proactive cooperation with international brokers, MIC was able to secure a higher volume of business from gaming operations and major casino development projects, while also benefiting from new producers related to property and infrastructure constructions, concerts and exhibitions. MIC actively engaged in Greater Bay Area-related initiatives which contributed premium growth and strong profitability for the Motor business line. MIC was able to keep claims under control through disciplined underwriting and proactive claims management.

MIC also continued with digital transformation initiatives in line with our medium term strategy. B2B platform enhancements for life agents and end-to-end sales process integration for Motor dealers have strengthened MIC's distribution ties with key producer groups. Through the sales of personal products and servicing of Medical and Employees' Compensation claims online as well as automated capturing of Motor coinsurance transactions, MIC was able to redeploy resources more productively and reduce operational costs.

MPFM's pension fund management business remained stable notwithstanding subdued new business as the local economy, particularly the retail and SME segments, continued to be soft. Net profit grew 13.8% year-on-year driven by higher pension fund management fee income on the back of a 10.9% growth in pension AUM. MPFM will continue its digitalisation initiatives, enhancing its online functionalities and internal infrastructures with an aim to achieve higher cost efficiency and deliver a better customer experience.

# 風險管理

本集團銀行、保險及投資業務已針對各主要固有風險 訂定風險偏好或可承受限額,包括可量化風險,如信貸 風險、再保險對手方風險、市場風險、流動資金風險、 利率風險及保險風險,以及不易量化的風險,包括營 運風險及聲譽風險。管理層定期監察該等限額及可承 受水平,並向董事會層面的風險管理及合規委員會報 告,以進行適當的風險管治及監督。

全球市場及經濟在2024年仍面臨嚴峻考驗。美元利率「長期高企」抑制了經濟增長,而地緣政治風險進一步加劇。俄烏戰爭升級,以巴衝突仍在持續。中美貿易衝突不斷升級。這些因素導致包括國際貿易在內的經濟活動減少。於國內,內地房地產開發商的償債能力繼續給本地銀行帶來壓力。另一方面,由於本地房地產市場走弱,加上利率維持在高位帶來的更高利息負擔,若干商業地產項目在履行還債義務方面遇到困難,給本地銀行業帶來了更多不確定性。為管理風險敞口,尤其是信貸及市場風險領域的敞口,本集團已進行多項檢討及採取必要行動,以管理該等風險對本集團造成的潛在財務影響。面對充滿挑戰的市場及疲弱信貸需求,本集團於整個年度採取審慎的信貸管理及投資管理措施。

為評估信貸組合所需的減值撥備金額,本集團採用了一套預期信貸虧損(ECL)模型和其他工具,在ECL計算過程中,須計及宏觀經濟因素、組合的風險特徵以及前瞻性因素。本集團定期進行檢討以評估宏觀經濟環境可能出現的發展形勢,以及信貸狀況已出現惡化或預期其信貸質素下降的借款人的最新情況,從而確保對未來信貸虧損具影響的主要問題能適當地被予以考量,適當考慮前瞻性評估,並維持合理的預期信貸虧損撥備。

本集團的保險業務面臨自然災害和其他危險帶來的風險,本集團的策略是制定適當的再保險安排,將保險風險控制在本集團的風險承受範圍內。年內,儘管香港和澳門受到一些強颱風和其他造成重大損失的事件影響,基於本集團審慎的承保理念和再保險安排,這些事件對本集團保險業務財務狀況的影響不大。

本集團繼續加強其內部控制,在主要部門設立專責控制人員職能。該等專責控制人員與本集團的控制職能部門緊密合作,以確保各部門的日常營運得到充分而有效的內部控制,從而遵守本集團的內部控制要求以及監管指引。本集團已進行端到端流程檢討,以界定內部控制強化及進一步提升範疇。本集團亦建立欺詐風險管理框架,並設有欺詐風險管理專責團隊,以協助在瞬息萬變的市場環境及更多元化的業務渠道中提高反詐意識、偵察及預防欺詐。

在綠色和可持續金融方面,本集團持續建立其氣候風險管理能力,以支持客戶的轉型之旅。本集團已建立了綠色和可持續金融框架,提供綠色和可持續的金融產品。本集團已完成對銀行業務的第二輪氣候風險壓力測試,結果顯示大新銀行的氣候風險狀況仍然較低。儘管如此,大新銀行仍加強了數據收集工作,為即將到來的披露要求做好準備,並已開始推出綠色評估機制,更好地了解客戶在氣候風險和轉型規劃方面的準備情況。

#### **RISK MANAGEMENT**

Risk appetite and tolerance limits are set for the major risks inherent in the Group's banking, insurance and investment operations, including both quantifiable risks such as credit risk, reinsurance counterparty risk, market risk, liquidity risk and interest rate risk, insurance risk as well as less-quantifiable risks, which include operational risk and reputation risk. These limits and tolerances are monitored regularly by management and reported to the Board level Risk Management and Compliance Committee to achieve proper risk governance and oversight.

Global markets and economies continued to face strong headwinds in 2024. The "higher for longer" US dollar interest rates had dampened economic growth, whilst geopolitical risks heightened further. The war between Russia and Ukraine deepened while the Israel-Palestine conflict continued. Trade conflicts between US and China continued to intensify. These factors have led to reduced economic activities, including international trade. Domestically, repayment ability of Mainland property developer segment continued to put pressure on local banks. On the other hand, as the local property market weakened coupled with the higher interest burden as interest rates stayed at a higher level, certain commercial real estate exposures showed difficulties in meeting their debt servicing obligations causing further uncertainties to the local banking sector. To manage the risk exposures, particularly those in the credit and market risk areas, the Group conducted various reviews and took necessary actions to manage the potential financial impact on the Group arising from such risks. Cautious credit management and investment management were adopted throughout the year, in response to the challenging market and weak credit demand.

To assess the amount of the impairment provisions required for the credit portfolios, the Group adopts a set of Expected Credit Loss ("ECL") models and other tools, which take into account macroeconomic factors, risk characteristics of portfolios, as well as forward-looking elements during the ECL calculation process. Regular reviews were conducted to assess the possible developments in the macroeconomic environment, with updated situations of borrowers that have experienced

deterioration in credit performance or may expect weaker credit quality. This ensured that major issues which could affect credit losses in the future are properly and fairly evaluated, with appropriate regard to the forward-looking assessment and reasonable provisions for ECL being maintained.

The Group's insurance operation is exposed to risks arising from natural catastrophes and other perils, it is the Group's strategy to have appropriate reinsurance arrangement to manage the insurance risk within the Group's appetite. During the year, although Hong Kong and Macau had been hit by some major typhoons and other events that caused material losses, the impact on the financial position of the Group's insurance operation was immaterial, on the strength of the Group's prudent underwriting philosophy as well as reinsurance arrangement.

The Group continued to strengthen its internal controls with the established dedicated control officer function in the major divisions. These dedicated control officers work closely with the control functions of the Group, to ensure that adequate and effective internal controls are in place for daily operations of respective divisions to comply with internal control requirements of the Group as well as regulatory guidance. End-to-end process reviews were conducted to identify areas for control enhancements and areas for further improvement. The Group also has a fraud risk management framework in place with a dedicated fraud risk management team to help improve fraud awareness, detection and prevention amidst the rapidly changing market environment and more diverse business channels.

On green and sustainable finance, the Group continued to develop its climate risk management capabilities with a view to supporting clients on their transition journey. A framework for green and sustainable finance has been set up for the offering of green and sustainable products. The Group has completed the second round of Climate Risk Stress Test on its banking operations, the result of which indicated that climate risk profile of DSB remained low. Nevertheless, DSB has strengthened its data collection to pave way for upcoming disclosure requirements and has started to roll out a greenness assessment mechanism for DSB to better understand the preparedness of clients on climate risk and transition planning.

除此之外,年內本集團還組織了4個不同主題的活動 週,分別針對員工福祉、文化與價值觀、僱員價值主張 (EVP)和客戶體驗,以提高員工對這些主題的認識和 了解。為強化本集團對僱員價值主張的承諾,作為慶祝 2024年僱員價值主張五周年的一部分,本集團重新設 計了一系列僱員價值主張視覺形象。此外,還推出了一 項新的「開放日」活動,幫助員工更深入地了解本集團 內不同部門的運作。 在僱員福祉方面,除了上述的年度「健康週」活動外,員工醫療保障再次升級,各種靈活的工作安排和休假選擇仍持續推行。

在員工溝通方面,本集團繼續致力於推廣「敢言」文化,於2024年10月進行全集團文化調查。自2021年首次開展全集團調查以來,參與率和整體正面感知得分均持續提高。於2024年6月推出了一項「與行政總裁歡聚時光」新活動,為行政總裁和僱員提供了相互交流和學習的機會。

鑑於近年市場充滿挑戰,在人才招聘過程中,本集團採取審慎策略,仔細權衡盈利崗位與中後台崗位的人員配置。令人欣慰的是,與2023年的員工流失率相比,2024年的員工流失率顯著改善。

#### **HUMAN RESOURCES**

"Customer Commitment" has been one of the core values since the introduction of the Group's Culture and Values. Significant effort has therefore been made to promote customer experience for both external and internal customers. From the perspective of human resources, we have also been committed to enhancing our employee experience through better engagement with staff and the implementation of different initiatives including on their development and wellness.

In terms of employee development, we offered a learning curriculum and training covering a wide range of topics such as leadership capabilities, digitalisation, customer experience, environmental, social and governance, green and sustainable finance, Greater Bay Area and cross-border businesses, which would better prepare our colleagues with different development needs for future prospects and opportunities. The Group's dedication has been fully demonstrated by the increased average training hours per employee in 2024 as compared with that in 2023.

On top of these, 4 different themed weeks with focus on staff wellness, Culture and Values, Employee Value Proposition (EVP) and customer experience were organised during the year to heighten staff's awareness and knowledge on these topics. Reinforcing our commitment to our EVP, we redesigned the set of EVP visuals as part of the celebration of the fifth anniversary of our EVP in 2024. A new "Open Day" event was launched to facilitate our staff to gain a deeper understanding of different units within the Group.

In the area of employee wellness, further to the annual "Wellness Week" that was mentioned above, staff medical coverage has again been enhanced, while the various flexible work arrangement and leave options continue.

Regarding employee communication, the Group carries on with its commitment to promote the speak-up culture by conducting a group-wide culture survey in October 2024. Cumulative increase in both the participation rate and the overall positive perception score has been observed since the group-wide survey launched in 2021 for the first time. A new initiative "Happy Hour with CE" kick-started in June 2024 offering opportunities for the Chief Executive and employees to communicate and learn from each other.

In view of the challenging markets in recent years, a prudent approach has been adopted during the talent acquisition process, with careful consideration on the mix of revenue generating and mid or back office positions. It is encouraging to note that staff turnover in 2024 improved significantly when compared with the 2023 turnover rate.

More detailed information on our human resources development is included under the section "Workplace" in the 2024 Environmental, Social and Governance Report.

#### **Board Composition**

As at 31 December 2024, the Board comprised 10 Directors and 1 Alternate Director, namely Mr. David Shou-Yeh Wong (Chairman), Mr. Hon-Hing Wong (Derek Wong) (Vice Chairman, Managing Director and Chief Executive), Mr. Harold Tsu-Hing Wong (Group General Manager) and Mr. Gary Pak-Ling Wang (Deputy Chief Executive) as Executive Directors ("EDs"), Mr. Hideomi Shinozaki (Mr. Yuichi Tashita as alternate) as Non-Executive Director ("NED"), and Mr. Robert Tsai-To Sze, Mr. Andrew Kwan-Yuen Leung, Mr. Paul Michael Kennedy, Mr. Paul Franz Winkelmann and Ms. Mariana Suk-Fun Ngan as Independent Non-Executive Directors ("INEDs").

Mr. Junji Mori resigned as a NED of the Company with effect from 31 May 2024 and Mr. Yuichi Tashita ceased to act as an Alternate Director to Mr. Mori with effect from 31 May 2024 following the stepping down of Mr. Junji Mori.

Mr. Harold Tsu-Hing Wong, Mr. Hideomi Shinozaki and Mr. Yuichi Tashita, who were appointed to the Board of the Company in January 2024, June 2024 and June 2024 respectively, had obtained the legal advice from a firm of solicitors as required under Rule 3.09D of the Listing Rules on 18 December 2023, 30 May 2024 and 30 May 2024 respectively. Each of them has confirmed his understanding of the obligations as a Director of the Company.

The Board possesses appropriate experience, competencies and qualities to discharge its responsibilities adequately and effectively. In addition, the Board collectively has adequate knowledge and expertise relevant to the business activities of the Company in order to ensure effective governance and oversight. Brief biographical particulars of the Directors are set out in the "Directors' and Senior Management's Profile" of this Annual Report. The Company has maintained on the respective websites of Dah Sing Bank and Hong Kong Exchanges and Clearing Limited ("HKEX") an updated list of its Directors including their roles and functions and whether they are INEDs. ## **Chairman and Chief Executive**

The Company acknowledges that there are two key aspects of its management – the management of the Board and the day-to-day management of its business, and that there should be a clear division of these responsibilities at the Board level to ensure a balance of power and authority, so that no single individual should have unfettered powers of decision.

The posts of the Chairman and the Chief Executive are held separately by Mr. David Shou-Yeh Wong and Mr. Hon-Hing Wong (Derek Wong) respectively. This segregation ensures a clear distinction between the Chairman's responsibility to manage the Board and the Chief Executive's responsibility to manage the Company's business and a balance of power and authority. The Chairman mainly provides leadership for the Board to ensure that the Board discharges its responsibilities effectively, and that all key and appropriate issues are discussed by the Board in a timely manner. The Chairman possesses the requisite experience, competencies and personal qualities to fulfill these responsibilities. The Chief Executive is responsible for the day-to-day management of the Company to provide business direction and operational leadership for the benefit of the Group's businesses, enhance shareholder value and ensure sound internal control.

They attend regular and special Board meetings, and are encouraged to attend the general or extraordinary general meeting of the shareholders of the Company. The NEDs make valuable contribution to the development of the Company's strategy and policies through independent, constructive and informed comments and suggestions.

The Company had 1 NED and 5 INEDs. Each of the INEDs has provided to the Company confirmation of his/her independence as required under Rule 3.13 of the Listing Rules. Following such assessment, the Board considers all the INEDs to be independent. Further, the Company has also received from each of the INEDs an annual confirmation of his/her independence.

The NEDs of the Company are not appointed for a specific term, but are subject to retirement by rotation and re-election at annual general meetings in accordance with the provisions of the Company's Articles of Association.

The Company issues appointment letters to each of the NEDs (including INEDs), setting out the terms and conditions of their appointment.

#### RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges its responsibility to evaluate and determine the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and ensuring that the Group establishes and maintains appropriate and effective risk management and internal control systems. Such risks include, amongst others, material risks relating to ESG and climate-related risks. The Board is also responsible for overseeing Management in the design, implementation and monitoring of the risk management and internal control systems. Management has to provide a confirmation to the Board on the effectiveness of these systems.

The Group's risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. Such systems comprise a well-established organisational structure and comprehensive policies and standards. Areas of responsibilities for each business and functional unit are clearly defined to ensure effective checks and balances.

Procedures have been designed for safeguarding assets against unauthorised use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information used within the business or for publication. The procedures provide reasonable but not absolute assurance against material errors, losses or fraud. Procedures have also been designed to ensure compliance with applicable laws, rules and regulations.

Systems and procedures are in place in the Group to identify, control and report on the major types of risks the Group encounters. Business and functional units are responsible for the assessment of individual types of risk arising under their areas of responsibilities, the management of the risks in accordance with risk management procedures and the reporting on risk management. The Group maintains an effective risk management framework through the setting up of specialised management committees for the oversight and monitoring of major risk areas and the establishment of risk management departments for relevant functions of the Group.

Risk management reports are submitted to the relevant committees and ultimately to the Board or its delegated Board committee for oversight and monitoring of various types of risk associated with the Group's businesses and operations. The Group's risk management policies and major control limits are approved by the Board or its delegated Board committee. Operating and risk performance are monitored and reviewed against relevant risk limits regularly according to established policies and procedures.

# **Internal Controls**

The Board has delegated to management the responsibility to develop and maintain a sound internal control system. The internal control system, operating through a framework of management and operational controls, and risk management systems, is intended to allow the Board to monitor the Group's business performance and financial positions, to control and adjust risk exposures, to adopt sound business practices, to obtain reasonable assurance on controls against fraud and errors, to ensure compliance with applicable laws and regulations, and to exercise oversight on and provide guidance to management in achieving the Company's objectives. # 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

### 2.1 Basis of preparation (Continued)

The preparation of consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in applying the Group's accounting policies. Changes in assumptions may have a significant impact on the consolidated financial statements in the period the assumptions change. Management believes that the underlying assumptions are appropriate and that the consolidated financial statements therefore present the financial position and results fairly. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

### (a) New and amended standards adopted by the Group

There are several amendments to HKFRS that became applicable with effect from 1 January 2024:

- HKAS 1 (Amendments) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants
- HKFRS 16 (Amendments) Lease Liability in a Sale and Leaseback
- HKAS 7 and HKFRS 7 (Amendments) Supplier Finance Arrangements
- HK Interpretation 5 (Revised) Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause

None of these has a significant effect on the consolidated financial statements of the Group.

### 2.1 編製基準(續)

### (乙) 未採納之新及經修訂準則及詮釋

若干已發布的會計準則與解釋的 修訂,於2024年12月31日報告期並非 為強制性採用,本集團亦無提前採 用:

> (i) 香港會計準則第21號的修訂 《 缺乏可兌換性》(於2025年 1月1日或之後開始的年度期 間生效)

> 香港會計師公會已修訂香港會計 準則第21號,以幫助機構確定一 種貨幣是否可兌換為另一種貨 幣,並在不可兌換時應使用的即 期匯率。

> 本集團預計這些修訂不會對其運營或財務報表產生重大影響。

(ii) 金融工具分類和計量的修訂 一 對香港財務報告準則第9 號及香港財務報告準則第7號 的修訂(於2026年1月1日或之 後開始的年度期間生效)

香港會計師公會已修訂香港財務報告準則第9號及香港財務報告準則第7號,以提供關於使用等子支付系統時若干金融負債何的指引,是次統時若干金融負債何的指引,是次為已價付的指引,是公流包含可更改合約現金融資的金額的合約條款的金融資產的分類作出進一步闡明。

本集團預計這些修訂不會對 其運營或財務報表產生重大影 響。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

### 2.1 Basis of preparation (Continued)

### (b) New and amended standards and interpretations not yet adopted

Certain amendments to accounting standards and interpretation have been published that are not mandatory for 31 December 2024 reporting periods and have not been early adopted by the Group:

 (i) Amendments to HKAS 21 – Lack of Exchangeability (effective for annual periods beginning on or after 1 January 2025)

The HKICPA amended HKAS 21 to help entities determine whether a currency is exchangeable into another currency, and which spot exchange to use when it is not.

The Group does not expect these amendments to have a material impact on its operations or financial statements.

 (ii) Amendments to the Classification and Measurement of Financial Instruments – Amendments to HKFRS 9 and HKFRS 7 (effective for annual periods beginning on or after 1 January 2026)

The HKICPA issued amendments to HKFRS 9 and HKFRS 7 to provide guidance as to when certain financial liabilities can be deemed settled when using an electronic payment system, the amendments also provide further clarifications regarding the classification of financial assets that contain contractual terms that change the timing and amount of contractual cash flows, including those arising from environmental, social and governance-related contingencies, and financial assets with certain non-recourse features.

The Group does not expect these amendments to have a material impact on its operations or financial statements.

### 2.1 編製基準(續)

- (乙) 未採納之新及經修訂準則及詮釋 續
  - (iii) 香港財務報告準則第18號《財務報表的呈列及披露》(於2027年1月1日或之後開始的年度期間生效)

香港財務報告準則第18號將取代香港會計準則第1號《財務報表的呈列》,引入新要求以增強同類機構財務業績的可比性,並為使用者提供更相關的資訊和透明度。其對呈列及披露的影響預計是廣泛的,尤其是在財務報表中與財務表現情況及管理層定義的績效指標相關的部分。

管理層目前正在評估該新準則對本 集團綜合財務報表的具體影響。

沒有其他自2024年1月1日起生效或仍未生效 之香港財務報告準則或詮釋會預期對本集團 有重大影響。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

- 2.1 Basis of preparation (Continued)
  - (b) New and amended standards and interpretations not yet adopted (Continued)
    - (iii) HKFRS 18 Presentation and Disclosure in Financial Statements (effective for annual periods beginning on or after 1 January 2027)

HKFRS 18 will replace HKAS 1 Presentation of financial statements, introducing new requirements that will help achieve comparability of the financial performance of similar entities and provide more relevant information and transparency to users. Its impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing, management-defined performance measures within the financial statements.

Management is currently assessing the detailed implications of applying the new standard in the Group's consolidated financial statements.

There are no other HKFRSs or interpretations that are effective from 1 January 2024 or not yet effective that would be expected to have a material impact on the Group.

### 2.2 綜合財務報表

綜合財務報表包括本公司及其所有附屬公司 截至12月31日止之財務報表。

### (甲) 附屬公司

附屬公司是本集團可控制之實體(包括結構性實體)。本集團可控制該實體是指當本集團透過參與該實體而面對或有權獲取可變的回報,且有能力藉着對該實體之權力影響該等回報。自控制權轉移予本集團當日起附屬公司作綜合計算,並由該控制權終止之日起不再綜合計算。

本集團以收購會計法為本集團之業務合併列賬。收購一間附屬公司所付出之代價為已轉移資產、承擔之負債及本集團發行之權益之公平值。所付出代價包括任何或然代價安排之資產或負債之公平值。收購相關之費用於產生時支銷。在業務合併過程中取得所收購可被認明明當日按其公平值作出初始計量。本集團根據逐項收購基準按公平值或按沒控制權股東應佔被收購者資產淨值之比例確認任何被收購者之沒控制權股東權益。

所付出之代價、任何沒控制權股東於被 收購者權益以及在收購日期於被收購 者權益之公平值超出本集團應佔所收購 可被認明淨資產之公平值,將列賬為商 譽。如轉讓代價、確認之非控股權益及 過往所持權益計算之總額在優惠價格收 購中低於所收購附屬公司淨資產的公平 值,其差額將直接在綜合全面收益賬內 確認。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

### 2.2 Consolidation

The consolidated financial statements include the financial statements of the Company and all its subsidiaries made up to 31 December.

### (a) Subsidiaries

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the consolidated statement of comprehensive income.

### 2.2 綜合財務報表續

### (甲) 附屬公司續

集團內公司間之交易、結餘及未變現 交易收益已予抵銷。除非交易提供轉移 資產減值之證明,未變現虧損亦予以抵 銷。附屬公司之會計政策已作必要之變 更以確保與本集團採納之政策一致。

如從附屬公司投資所收取的股息超過在 其股息宣派期間所佔的全面收益總額, 或在其獨立財務報表內之投資賬面值超 過在其綜合財務報表內受投資方之淨資 產(包括商譽)的賬面值時,則須為該等 投資作減值測試。

# (乙) 與沒控制權股東之交易

本集團把與沒控制權股東之交易視為與本公司股本持有人之交易。在向沒控制權股東權益作出之收購中,任何已付代價與收購附屬公司有關股權之淨資產賬面值之差額於權益賬確認。向沒控制權股東權益出售之收益或虧損亦於權益賬確認。

倘本集團對該實體失去控制權,任何保留權益將被重新計量至其公平值,賬面值之變動於損益賬確認。日後對該保留權益作聯營公司、共同控制實體或金融資產的會計處理時,上述之公平值視為初始賬面值。此外,任何就該實體曾確認為其他全面收益之數額當作本集團直接出售有關資產或負債處理,這代表曾確認為其他全面收益之數額將重新分類至損益賬。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

### 2.2 Consolidation (Continued)

#### (a) Subsidiaries (Continued)

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

### (b) Transactions with non-controlling interests

The Group treats transactions with non-controlling interests as transactions with equity holders of the Company. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

When the Group ceases to have control, any retained interest in the entity is remeasured to its fair value, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

### 2.2 綜合財務報表續

### (丙) 聯營公司

聯營公司是指本集團可對其發揮重大影響但不能控制的公司。聯營公司投資以權益會計法處理,最初按成本入賬。本集團之聯營公司投資包括收購時認明之商譽(扣除任何累計減值虧損)。

本集團應佔聯營公司收購後的溢利或 虧損在綜合收益賬中確認,本集團應佔 其在收購後儲備的變化在本集團的儲備 確認。投資的賬面值按累計收購後的變 化作調整。除非本集團有為聯營公司提 供責任承擔或支款,否則當本集團應佔 聯營公司的虧損達至或超過本集團在聯 營公司的權益(包括其他無抵押應收款) 時,本集團不再確認額外的虧損。

本集團會於各報告期確定聯營公司投資 已減值之客觀證據存在與否。倘情況屬 實,本集團按聯營公司可回收金額及其 賬面值之差額計算減值金額及緊接「應 佔聯營公司之業績」確認於綜合收益賬。

本集團與其聯營公司間交易之未變現收益按本集團應佔聯營公司權益的份額予以抵銷。除非該交易提供轉移資產減值之證明,未變現虧損亦予以抵銷。聯營公司之會計政策已作必要之修正以確保與本集團採納之政策一致。

在聯營公司之攤薄收益及虧損在綜合收 益賬內確認。

在本公司之財務狀況表內,聯營公司投資是按成本扣除減值撥備列賬。本公司對聯營公司業績的會計處理是按已收取 及應收之股息入賬。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

### (Continued)

### 2.2 Consolidation (Continued)

### (c) Associates

Associates are all entities over which the Group has significant influence but not control. Investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Group's investment in an associate includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group's share of its associates' post-acquisition profits or losses is recognised in the consolidated income statement, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associates.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to "share of results of an associate" in the consolidated income statement.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Dilution gains and losses in associate are recognised in the consolidated income statement.

In the Company's statement of financial position, the investments in associates are stated at cost less provision for impairment losses. The results of associates are accounted for by the Company on the basis of dividends received and receivable.

### 2.2 綜合財務報表續

### (丁) 共同控制實體

共同控制實體指本集團與其他人士以合約協議方式共同進行經濟活動,該活動 受合營各方共同控制,任何一方均沒有單一之控制權。

共同控制實體之業績、資產及負債按權益會計法入賬。綜合收益賬包括本集團應佔共同控制實體的年度業績,而綜合財務狀況表則包括本集團應佔共同控制實體之資產淨值。

### 2.3 利息收入及支出

所有按攤餘成本及以公平值計量且其變動計 入其他全面收益計量之債務工具的利息收入 及支出乃應用實際利率法確認於綜合收益賬 內。

實際利率法乃是一種用以計算金融資產或金融負債之攤餘成本及其於相關期內攤分利息收入或利息支出的方法。實際利率指可將金融工具在預計有效期間或較短期間(如適用)內之估計未來現金收支貼現為該金融資產或金融負債之賬面淨值之適用貼現率。在計算實際利率時,本集團按金融工具之所有合約條款(如提早清還之行使權)而估計其現金流量,但不考慮未發生之信貸損失。此計算包括所有合約內交易雙方所收取或支付能構成整體實際利息之費用及利率差價、交易成本及所有其他溢價或折讓。

若一項金融資產或一組金融資產的價值因減 值虧損被調低,其利息收入則按計算有關減 值虧損時所應用以貼現未來現金流量之利率 來計量確認。

### 2.2 Consolidation (Continued)

### (d) Jointly controlled entities

A joint venture is a contractual arrangement whereby the Group and other parties undertake an economic activity, which is subject to joint control and none of the participating parties has unilateral control over the economic activity.

The results and assets and liabilities of jointly controlled entities are accounted for using equity method of accounting. The consolidated income statement includes the Group's share of the results of jointly controlled entities for the year, and the consolidated statement of financial position includes the Group's share of the net assets of the jointly controlled entities.

### 2.3 Interest income and expense

Interest income and expense are recognised in the consolidated income statement for all debt instruments measured at amortised cost and fair value through other comprehensive income using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

### 2.4 服務費及佣金收入及支出

來自客戶合約之服務費及佣金收入按客戶合 約內列明之代價計量。本集團於客戶取得服 務之控制權時確認收入。

在較長期間內持續提供不間斷之賬戶管理、 託管服務等之服務費及其他服務費於服務期 間按系統化基準確認。

有關交易性之安排(例如兌換、經紀服務及入口或出口服務)之收入於交易發生時確認。

### 2.5 股息收入

股息於本集團收取付款之權利獲確立時於綜 合收益賬確認。

### 2.6 金融資產及負債

### 計量方法

### 攤餘成本及實際利率

攤餘成本乃金融資產及負債於初始確認時之計量金額,減去本金還款,加上或減去累計攤銷(就初始金額及到期金額間差額採用實際利率法)及就金融資產而言,調整任何虧損準備。

實際利率指可將金融資產或金融負債在其預計使用期內之估計未來現金收支貼現為該金融資產之賬面總值(即其扣除任何減值準備前之攤餘成本)或金融負債之攤餘成本之適用貼現率。該計算並無顧及預期信貸虧損及包含了能構成整體實際利息之交易成本、溢價或折讓及收取或支付之利率差價,例如發行費。對於購入或源生之信貸減值金融資產(為於初始確認時已是信貸減值之金融資產),本集團計算經信貸調整之實際利率,其按金融資產之攤餘成本而非賬面總值及計入預期信貸虧損對估計未來現金流之影響而計算。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

### 2.4 Fee and commission income and expense

Fee and commission income from contracts with customers is measured based on the consideration specified in a contract with a customer. The Group recognises revenue when it transfers control over a service to a customer.

Fees for ongoing account management, custody services and other servicing fees that are continuously provided over an extended period of time are recognised on systematic basis over the period the service is provided.

Revenue related to transaction-based arrangements such as interchange, broking services and import or export services is recognised at the point in time when the transaction takes place.

#### 2.5 Dividend income

Dividends are recognised in the consolidated income statement when the Group's right to receive payment is established.

### 2.6 Financial assets and liabilities

### Measurement methods

### Amortised cost and effective interest rate

The amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset (i.e. its amortised cost before any impairment allowance) or to the amortised cost of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees and points paid or received that are integral to the effective interest rate, such as origination fees. For purchased or originated credit-impaired financial assets (assets that are credit-impaired at initial recognition) the Group calculates the credit-adjusted effective interest rate, which is calculated based on the amortised cost of the financial asset instead of its gross carrying amount and incorporates the impact of expected credit losses in estimated future cash flows.

### 攤餘成本及實際利率 續

當本集團修訂未來現金流之估計數值時,金 融資產或金融負債之各自賬面值乃就採用原 實際利率貼現新估計數值而調整。任何變動 於收益賬內確認。

### 初始確認及計量

金融資產及金融負債於機構成為工具之合約條款中之一方時確認。慣常之金融資產買賣於交易日(本集團承諾買賣該資產之日期)確認。

於初始確認時,本集團計量金融資產或金融負債時按公平值加上或減去交易成本(就非以公平值計量且其變動計入損益的金融資產或金融負債而言),其為購入或發行該金融資產或金融負債時的新增或直接歸屬於該等交易之成本(例如服務費及佣金)。以公平值計量其變動計入損益之金融資產及金融負債之交易成本於收益賬內支銷。緊接初始確認後,就以攤餘成本計量之金融資產及以公平值計量且其變動計入其他全面收益之債務工具投資確認預期信貸虧損(「預期信貸虧損」)準備,其引致就新源生資產確認會計虧損於收益賬。

當金融資產及負債之公平值有別於於初始確認時之交易價格,本集團確認該差額如下:

- (甲) 當相同資產或負債之公平值可由於活躍 市場之報價(即第1級別數據)或只使用 可觀察市場之數據按估值方法中提供證 據,差額確認為收益或虧損。
- (乙) 於其他情況,差額將會遞延及按個別情況釐定其初始損益之遞延確認時間。差額於工具之可用年期內攤銷,或遞延直至工具之公平值可採用市場之可觀察數據釐定,或透過結算變現。

### 2.6 Financial assets and liabilities (Continued)

### **Measurement methods** (Continued)

### Amortised cost and effective interest rate (Continued)

When the Group revises the estimates of future cash flows, the carrying amount of the respective financial asset or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognised in profit or loss.

### Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset.

At initial recognition, the Group measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss. Immediately after initial recognition, an expected credit loss ("ECL") allowance is recognised for financial assets measured at amortised cost and investments in debt instruments measured at FVOCI which results in an accounting loss being recognised in profit or loss when an asset is newly originated.

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the Group recognises the difference as follows:

- (a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognised as a gain or loss.
- (b) In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortised over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realised through settlement.

### (i) 分類及其後之計量

本集團分類其金融資產至下列計量類 別:

- 以公平值計量且其變動計入損益 (包括持作交易用途);
- 以公平值計量且其變動計入其他全面收益;或
- 攤餘成本。

債務及權益性工具之分類規定載述 如下:

### 債務工具

債務工具為該等以發行人觀點而言符合 定義為金融負債之工具,如貸款、政府和 企業債券及於保理業務中購自客戶之貿 易應收賬。

債務工具之分類及其後之計量取決於:

- 本集團管理該資產之業務模式;及
- 該資產之現金流特性。

根據該等因素,本集團分類其債務工具 至下列三個計量類別其中之一:

• 攤餘成本:持作收取合約現金流(其 現金流代表純屬本金及利息之償付 (「純屬本金及利息之償付」)及並 未指定為以公平值計量且其變動 計入損益(「以公平值計量且其變動 計入損益」)之資產,乃按攤餘成本 計量。該等資產之賬面值已就於下 述部份(ii)所確認及計量之任何預期 信貸虧損準備作出調整。該等金融 資產之利息收入採用實際利率法計 算。

### (i) Classification and subsequent measurement

The Group classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (including held for trading);
- Fair value through other comprehensive income; or
- Amortised cost.

The classification requirements for debt and equity instruments are described below:

### Debt instruments

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective, such as loans, government and corporate bonds and trade receivables purchased from clients in factoring arrangements.

Classification and subsequent measurement of debt instruments depend on:

- the Group's business model for managing the asset; and
- the cash flow characteristics of the asset.

Based on these factors, the Group classifies its debt instruments into one of the following three measurement categories:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ("SPPI"), and that are not designated at fair value through profit or loss ("FVPL"), are measured at amortised cost. The carrying amount of these assets is adjusted by any ECL allowance recognised and measured as described in section (ii) below. Interest income from these financial assets is calculated using the effective interest rate method.

- FVOCI: Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent SPPI, and that are not designated at FVPL, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income ("OCI"), except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortised cost which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest income from these financial assets is calculated using the effective interest rate method.
- FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL and is not part of a hedging relationship is recognised in profit or loss and presented in the consolidated income statement in the period in which it arises.

Business model: the business model reflects how the Group manages the assets in order to generate cash flows. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of "other" business model and measured at FVPL. Factors considered by the Group in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. Securities held for trading are held principally for the purpose of selling in the near term or are part of a portfolio of financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. These securities are classified in the "other" business model and measured at FVPL.

SPPI: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the "SPPI test"). In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement (i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement). Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at EVPI.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are SPPI.

Debt instruments (Continued)

The Group reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

#### Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets. Examples of equity instruments include basic ordinary shares.

The Group subsequently measures all equity investments at fair value through profit or loss, except where the Group's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income. When this election is used, fair value gains and losses are recognised in OCI and are not subsequently reclassified to profit or loss, including on disposal. Dividends, when representing a return on such investments, continue to be recognised in profit or loss as other income when the Group's right to receive payment is established.

Gains and losses on equity investments at FVPL are included in the "Net trading income" in the consolidated income statement.

### (ii) Impairment

The Group assesses on a forward-looking basis the ECL associated with its debt instrument assets carried at amortised cost and FVOCI and with the exposures arising from loans to customers, loan commitments and financial guarantee contracts. The Group recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Impairment allowance of financial assets measured at amortised cost is presented as a deduction from the gross carrying amount of the assets. Impairment allowance of loan commitments and financial guarantee contracts is recognised as a provision as part of "Other accounts and accruals". The carrying amount of debt instruments measured at FVOCI is their fair value. Their impairment allowance is recognised as part of "Investment revaluation reserve".

Note 3.2.2 provides more details of how the ECL allowance is measured.

### (iii) 貸款修改

本集團有時重新協商或以其他方式修 改客戶貸款之合約現金流。倘若此發生 時,本集團會評估新條款是否與原條款 有重大差異。本集團就此會考慮下列因 素:

- 倘借款人陷於財務困境,修改是否 只是降低合約現金流至借款人預期 有能力償還的金額。
- 有否加入任何重大的新條款,例如 重大地影響貸款風險面貌的利潤分 享/以股權為基礎之回報。
- 當借款人未陷於財務困境時重大地 延長貸款期限。
- 利率之重大變更。
- 貸款的結算貨幣之變更。
- 加入之抵押品、其他擔保物或為增 強信貸所提供的保障重大地影響貸 款之相關信貸風險。

倘條款有重大差異,本集團則撤銷確認原有金融資產及以公平值確認「新」資產和重新計算該資產之新實際利率。故此重新協商日被視為初始確認日期以作計算減值用途,包括用以釐定信貸風險是否大幅增加。然而,本集團亦評估已確認之新金融資產是否於初始確認時被視作信貸減值資產,尤其是在債務人未能按原有協定支付款項而促使重新協商的情況下。賬面值之差額亦會於撤銷確認時在收益賬中確認為收益或虧損。

#### 2.6 Financial assets and liabilities (Continued)

## Financial assets (Continued)

### (iii) Modification of loans

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Group assesses whether or not the new terms are substantially different to the original terms. The Group does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms are introduced, such as a profit share/equity-based return that substantially affects the risk profile of the loan.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Group derecognises the original financial asset and recognises a "new" asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognised is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in profit or loss as a gain or loss on derecognition.

### (iii) 貸款修改(續)

倘條款未有重大差異,重新協商或修改不會引致撤銷確認,及本集團按金融資產經修訂之現金流重新計算賬面總值,並於收益賬確認修改之收益或虧損。新賬面總值乃按原有實際利率(或購入或源生的信貸減值金融資產經信貸調整之實際利率)貼現經修改之現金流作重新計算。

## (iv) 除修改外之撤銷確認

當從資產收取現金流量之合約權利已失效,或當其已被轉移及(i)本集團重大地轉讓擁有權之所有風險及回報或(ii)本集團未轉讓也不重大地保留擁有權之所有風險和回報及本集團並無保留控制權時,金融資產(或其部份)即被撤銷確認。

當本集團於若干交易中保留從資產收取 現金流的合約權利但承擔了支付該等現 金流予其他機構的合約責任及重大地轉 讓所有風險及回報,該等交易會按引致 撤銷確認之「通過」轉讓處理,倘若本集 團:

- 除非已從資產中收取相等金額,否則並無支付款項之責任;
- 被禁止出售或抵押資產;及
- 有責任在無重大拖延下匯出收取自 資產之任何現金。

#### 2.6 Financial assets and liabilities (Continued)

#### Financial assets (Continued)

#### (iii) Modification of loans (Continued)

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognises a modification gain or loss in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate (or creditadjusted effective interest rate for purchased or originated credit-impaired financial assets).

#### (iv) Derecognition other than on a modification

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the Group transfers substantially all the risks and rewards of ownership, or (ii) the Group neither transfers nor retains substantially all the risks and rewards of ownership and the Group has not retained control.

The Group enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as "pass through" transfers that result in derecognition if the Group:

- Has no obligation to make payments unless it collects equivalent amounts from the assets;
- Is prohibited from selling or pledging the assets; and
- Has an obligation to remit any cash it collects from the assets without material delay.

倘從資產收取現金流之合約權利已轉讓,和本集團未轉讓或保留大部份風險和回報,及本集團保留了轉讓資產之控制權,則本集團採用持續參與法。

按此方法,本集團在持續參與的範圍內繼續確認該轉讓之資產及確認相關負債,以反映本集團保留之權利及責任。轉讓之資產及相關負債之賬面淨值為:(甲)本集團保留之權利及責任的攤餘成本(倘轉讓之資產按攤餘成本計量);或(乙)相等於本集團保留之權利及責任按單獨基準下計量的公平值(倘轉讓之資產按公平值計量)。

## (iv) Derecognition other than on a modification (Continued)

Collateral (shares and bonds) furnished by the Group under standard repurchase agreements and securities lending and borrowing transactions are not derecognised because the Group retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met. This also applies to certain securitisation transactions in which the Group retains a subordinated residual interest.

When the contractual rights to receive the cash flows from the assets have been transferred, and the Group neither transfers nor retains substantially all the risks and rewards of ownership, and the Group has retained control of the transferred assets, the Group applies continuing involvement approach.

Under this approach, the Group continues to recognise the transferred asset to the extent of its continuing involvement and recognise the associated liability, to reflect the rights and obligations retained by the Group. The net carrying amount of the transferred asset and associated liability is: (a) the amortised cost of the rights and obligations retained by the Group, if the transferred asset is measured at amortised cost; or (b) equal to the fair value of the rights and obligations retained by the Group when measured on a stand-alone basis, if the transferred asset is measured at fair value.

## 2.6 金融資產及負債 續

#### 金融負債

## (i) 分類及其後之計量

於本期間及之前期間,金融負債被分類並其後按攤餘成本計量,除了:

- 以公平值計量日其變動計入損益 的金融負債:該分類應用於衍生工 具、持作交易用途的金融負債(例 如:交易賬內之短盤)及於初始確認 時以此指定之其他金融負債。指定 以公平值計量且其變動計入損益的 金融負債之收益及虧損,部份於其 他全面收益(歸因於該負債的信貸 風險變動引致之金融負債公平值變 動金額,按非歸因於引致市場風險 的市場狀況變動金額釐定) 及部份 於收益賬(負債之公平值變動的剩 餘金額)呈列。除非該呈列將會引起 或擴大會計錯配,歸因於負債的信 貸風險變動之收益及虧損則於收益 賬呈列;
- 不符合撤銷確認資格的金融資產轉 讓或應用持續參與法時所產生的金 融負債。當金融資產轉讓不符合撤 銷確認資格時,則就轉讓所收取之 代價確認金融負債。於往後期間, 本集團確認就金融負債產生之任何 支出;應用持續參與法時;及
- 財務擔保合約及貸款承擔。

## 2.6 Financial assets and liabilities (Continued)

#### Financial liabilities

### (i) Classification and subsequent measurement

In both the current and prior period, financial liabilities are classified and subsequently measured at amortised cost, except for:

- Financial liabilities at fair value through profit or loss: this classification is applied to derivatives, financial liabilities held for trading (e.g. short positions in the trading booking) and other financial liabilities designated as such at initial recognition. Gains or losses on financial liabilities designated at fair value through profit or loss are presented partially in other comprehensive income (the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability, which is determined as the amount that is not attributable to changes in market conditions that give rise to market risk) and partially profit or loss (the remaining amount of change in the fair value of the liability). This is unless such a presentation would create, or enlarge, an accounting mismatch, in which case the gains and losses attributable to changes in the credit risk of the liability are also presented in profit or loss;
- Financial liabilities arising from the transfer of financial assets which did not qualify for derecognition, or when the continuing involvement approach applies. When the transfer of financial asset did not qualify for derecognition, a financial liability is recognised for the consideration received for the transfer. In subsequent periods, the Group recognises any expense incurred on the financial liability; when continuing involvement approach applies; and
- Financial guarantee contracts and loan commitments.

#### 金融負債續

### (ii) 撤銷確認

金融負債於終止(即當合約內列明之責任已解除、取消或失效)時撤銷確認。

本集團與債務工具原出借人間之交換 (條款有重大差異,且現有金融負債條 款有重大修訂) 按終止原有金融負債及 確認新金融負債處理。倘若按新條款以 原有實際利率按現金流(包括扣除任何 已收取費用之任何已付費用) 貼現之現 值與原有金融負債之剩餘現金流之貼現 現值最少10%的差額,則條款為有重大差 異。此外,其他質化因素(例如:工具之 結算貨幣、利率類別的變更、工具附帶之 新兌換特徵及契約之變更) 亦一併考慮。 倘若債務工具之交換或條款之修訂按終 止方式處理,任何已產生之成本或費用 將確認為終止之部份收益及虧損。倘若 交換或修訂並非按終止方式處理,任何 已產生之成本或費用按調整負債之賬面 值確認,並於經修訂負債之剩餘年期內 攤銷。

#### 2.6 Financial assets and liabilities (Continued)

## Financial liabilities (Continued)

### (ii) Derecognition

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

The exchange between the Group and its original lenders of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of interest rate, new conversion features attached to the instrument and change in covenants are also taken into consideration. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred to adjust the carrying amount of the liability are amortised over the remaining term of the modified liability.

#### 2.7 財務擔保合約及貸款承擔

財務擔保合約是指發行人須就某指定債務人 未能根據債務合約的條款支付到期債務時須 向合約持有人支付指定款項以償付其損失之 合約。該等財務擔保乃代表客戶授予銀行、金 融機構及其他團體以擔保其貸款、透支及其 他銀行信貸。

財務擔保合約最初以公平值計量及其後按以下兩者之間之較高者計量:

- 虧損準備之金額;及
- 初始確認時收取之費用扣除按香港財務 報告準則第15號《客戶合同收入》原則下 確認之收入。

本集團提供之貸款承擔以虧損準備之金額計量。本集團並無作出任何承擔以提供低於市場利率之貸款,或可以現金或以交付或發行另一金融工具的方式淨額清償。

就貸款承擔及財務擔保合約而言,虧損準備 乃確認為撥備。然而,包含貸款及未提取承 擔之合約及本集團不能從該貸款組成部份中 分開識別未提取承擔組成部份之預期信貸虧 損,未提取承擔之預期信貸虧損乃連同貸款 之虧損準備一起確認。倘合併之預期信貸虧 損超過貸款之賬面淨值,預期信貸虧損乃確 認為撥備。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

### 2.7 Financial guarantee contracts and loan commitments

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The fee received on initial recognition less income recognised in accordance with the principles of HKFRS 15 "Revenue from Contracts with Customers".

Loan commitments provided by the Group are measured as the amount of the loss allowance. The Group has not provided any commitment to provide loans at a below-market interest rate, or that can be settled net in cash or by delivering or issuing another financial instrument.

For loan commitments and financial guarantee contracts, the loss allowance is recognised as a provision. However, for contracts that include both a loan and an undrawn commitment and the Group cannot separately identify the expected credit losses on the undrawn commitment component from those on the loan component, the expected credit losses on the undrawn commitment are recognised together with the loss allowance for the loan. To the extent that the combined expected credit losses exceed the gross carrying amount of the loan, the expected credit losses are recognised as a provision.

## 2.8 衍生工具及對沖活動

衍生工具最初於訂立衍生工具合約之日按公 平值確認,其後按公平值重新計量。當衍生工 具的公平值為正數時,均作為資產入賬;當公 平值為負數時,則作為負債入賬。

某些衍生工具嵌入混成合約(例如可換股債券內之兌換期權)。倘混成合約包含之主體為金融資產,則本集團按上述金融資產部份之闡述評估整體合約作分類及計量用途。否則,內嵌衍生工具作為個別衍生工具處理倘:

- 其經濟性質及風險與主合約並無密切關係;
- 具有相同條款之個別工具將符合衍生工 具之定義;及
- 混成合約並非按以公平值計量且其變動 計入損益計量。

除本集團選擇指定該混成合約為以公平值計 量且其變動計入損益外,此等內嵌衍生工具 乃按公平值分開入賬,其公平值的變動於綜 合收益賬內確認。

確認公平值收益或虧損的方法取決於該衍生工具是否被指定及符合資格為對沖工具,如屬者則須取決其對沖項目之性質。本集團指定若干衍生工具為已確認資產或負債或確定之承擔公平值的對沖工具(公平值對沖)。

本集團於訂立對沖時需記錄對沖項目與所對 沖工具的關係,並包括其風險管理目標及進 行若干對沖交易的策略。本集團亦於開始對 沖後持續就其用於對沖交易的衍生工具是否 對對銷公平值變動有顯著成效作出評估。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

## 2.8 Derivative and hedging activities

Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

Certain derivatives are embedded in hybrid contracts, such as the conversion option in a convertible bond. If the hybrid contract contains a host that is a financial asset, then the Group assesses the entire contract as described in the financial assets section above for classification and measurement purposes. Otherwise, the embedded derivatives are treated as separate derivatives when:

- Their economic characteristics and risks are not closely related to those of the host contract;
- A separate instrument with the same terms would meet the definition of a derivative; and
- The hybrid contract is not measured at fair value through profit or loss.

These embedded derivatives are separately accounted for at fair value, with changes in fair value recognised in the consolidated income statement unless the Group chooses to designate the hybrid contracts at fair value through profit or loss.

The method of recognising the resulting fair value gain or loss depends on whether the derivative is designated and qualifies as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as hedges of the fair value of recognised assets or liabilities or firm commitments (fair value hedges).

The Group documents, at the inception of the hedge, the relationship between hedged items and hedging instruments, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values of hedged items.

## 2.8 衍生工具及對沖活動 續

#### (甲) 公平值對沖

已指定並符合條件作公平值對沖的衍生工具的公平值變動,連同與對沖風險相關的對沖資產或負債的任何公平值變動,均於綜合收益賬內「淨交易收入一用公平值對沖的相關金融工具之淨收益/ (虧損)」項下入賬。

倘該對沖不再符合對沖會計處理的標準,則應用實際利率法釐定該被對沖項目賬面值的調整數,按到期前期間於收益賬內攤銷。對沖權益性證券賬面值被對沖項目為止。倘該對沖關係不再認以會不可以與一個人對沖項目的未攤銷賬目值調整(終生對沖項目時的賬目值兩者之差額)在剩份,對沖項目時的賬目值兩者之差額)在剩份,對沖項目時的賬目值兩者之差額,在剩份,與上對沖項目時的賬目值兩者之差額,在剩份,與上對沖項目時的賬目值兩者之差額,可以與此對沖項目時的賬目值兩者之差額,可以與此對沖項目,其未攤銷賬面值之調整立即在收益賬確認。

### (乙) 不符合作對沖會計處理的衍生工具

若干衍生工具並不符合作對沖會計處理。任何不符合作對沖會計處理的衍生工具的公平值變動即時於綜合收益賬內「淨交易收入一持作交易用途的衍生工具之淨收益/(虧損)」項下確認。就與指定金融資產或金融負債一同管理之衍生工具而言,因其公平值變動而產生之收益及虧損列入「淨交易收入一以公平值計量且其變動計入損益的金融工具之淨收益/(虧損)」項下。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.8 Derivative and hedging activities (Continued)

#### (a) Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the consolidated income statement under "Net trading income – Net gain/(loss) arising from financial instruments subject to fair value hedge", together with any changes in the fair value of the hedged asset that are attributable to the hedged risk.

If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to profit or loss over the period to maturity. If the hedge relationship no longer meets the criteria for hedge accounting or is terminated for reasons other than derecognition, e.g. due to repayment of the hedged item, the unamortised carrying value adjustment (the difference between the carrying value of the hedged item at the time of termination and the value at which it would have been carried had the hedge never existed) to the hedged item is amortised to the income statement over the remaining life of the hedged item by the effective interest method. If the hedged item is derecognised, the unamortised carrying value adjustment is recognised immediately in the income statement.

#### (b) Derivatives that do not qualify for hedge accounting

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in the consolidated income statement under "Net trading income – Net gain/(loss) from derivatives entered into for trading purpose". For derivatives that are managed in conjunction with designated financial assets or financial liabilities, the gains and losses arising from changes in their fair value are included under "Net trading income – Net gain/(loss) on financial instruments at fair value through profit or loss".

### 2.9 對銷金融工具

倘有可執行法律權利對銷某些已確認金額及 有意以淨額基準結算或變現資產以同時清償 負債時,金融資產及負債將互相對銷,有關之 淨款項於綜合財務狀況表內呈報。法定可強 制執行權利必須沒有附帶於未來事件,而在 一般業務過程中以及倘本公司或對手一旦出 現違約,無償債能力或破產時,仍可必須強制 執行。

#### 2.10 出售及回購協議

有關出售附有回購協議(「回購協議」)之證券所引致之對交易對手負債已適當地包含在對其他銀行之結欠、銀行存款或其他賬目及預提中之結餘。按再售協議(「反向回購協議」)而購入之證券已記錄在貸款及墊款予其他銀行或客戶貸款及墊款中。出售價與回購價之差額當作利息處理及應用實際利率法在該協議期限內計提。借予交易對手之證券則保留在綜合財務報表內。

借來之證券除已售予第三者且有關購入及出售記錄於賬內及收益或虧損包括在交易收入外,將不會在綜合財務報表內確認。借來證券之歸還責任則當作交易負債以公平值入賬。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.9 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

#### 2.10 Sale and repurchase agreements

The liability to counterparties in respect of securities sold subject to repurchase agreements ("repos") is included in amounts due to other banks, deposits from banks, or other accounts and accruals, as appropriate. Securities purchased under agreements to resell ("reverse repos") are recorded as loans and advances to other banks or customers, as appropriate. The difference between the sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest method. Securities lent to counterparties are also retained in the consolidated financial statements.

Securities borrowed are not recognised in the consolidated financial statements, unless these are sold to third parties, in which case the purchases and sales are recorded with the gain or loss included in trading income. The obligation to return them is recorded at fair value as a trading liability.

## 2.11 收回資產

已收回抵押品資產之貸款不會被撤銷,並在 綜合財務狀況表內連同已作出之合適減值準 備數額列賬。就拖欠償付貸款而言,本集團根 據司法安排或法院法令而行使以物抵債權及 回收其抵押品資產和取得資產法定擁有權, 相關之貸款已被終止確認。該行使以物抵債 權取得之資產持作再出售並呈報於「各項貸款 及其他賬目一其他資產」項下。

#### 2.12 分項報告

營運業務分項之呈報方式與向主要營運決策 人提供之內部報告方式一致。主要營運決策 人為向機構分配資源並評估機構之營運分項 表現之人仕或一組人仕。本集團已指定行政 總裁及執行委員會(「執行委員會」) 成員為其 主要營運決策人。

所有營業分項間之交易按公平基準進行,分項之間收益及成本於綜合賬內抵銷。在釐定營業分項之表現時,會計入直接與各分項有關之收入及支出。

根據香港財務報告準則第8號《營運業務分項》 之規定,本集團有以下分項:個人銀行、企業 銀行、財資及環球市場業務、中國內地及澳門 銀行、保險及投資業務及其他。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.11 Repossessed assets

Loans on which collateral assets have been repossessed are not derecognised and are carried in the consolidated statement of financial position with appropriate amounts of impairment allowances made. In the case of delinquent loans on which collateral assets have been foreclosed and repossessed by the Group pursuant to legal arrangements or court orders, and with the legal title of the assets having been passed to the Group, such loans are derecognised. The foreclosed assets held for resale are included in "Advances and other accounts – Other assets".

## 2.12 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the person or group of persons that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined the Chief Executive and members of the Executive Committee ("EC") as its chief operating decision maker.

All transactions between operating segments are conducted on an arm's length basis, with inter-segment revenues and costs being eliminated on consolidation. Income and expenses directly associated with each segment are included in determining operating segment performance.

Based on the requirements of HKFRS 8 "Operating Segments", the Group has the following segments: Personal Banking, Corporate Banking, Treasury and Global Markets, Mainland China and Macau Banking, Insurance and Investment Operations, and Others.

### 2.13 外幣換算

#### (甲) 功能及呈列貨幣

本集團旗下各機構之財務報表中所載項 目乃應用該機構營運之主要經濟環境所 使用之貨幣(「功能貨幣」)計量。綜合財 務報表乃以港幣呈列。港幣乃本集團之 呈列貨幣及本公司及本集團主要業務之 功能及呈列貨幣。

## (乙) 交易及結餘

外幣交易按交易日現行之匯率換算為有關機構的功能貨幣。該等交易結算及以外幣結算之貨幣性資產或負債按年結日之匯率換算所產生之匯兌收益及虧損, 乃於綜合收益賬內確認。

所有於綜合收益賬確認之外幣換算收益 及虧損按淨額於綜合收益賬之相應項目 下呈列。其他全面收益項目之外幣換算 收益及虧損於綜合全面收益賬之相應項 目下呈列。

倘以外幣結算並分類為以公平值計量 且其變動計入其他全面收益的金融資產 之貨幣性資產之公平值變動,會就資產 之攤餘成本變動及資產賬面值其他變動 產生之換算差額作出區分。與攤餘成本 變動有關之換算差額於綜合收益賬內確 認,而與賬面值變動(減值除外)有關之 換算差額於其他全面收益內確認。

非貨幣性項目,如持有以公平值計量且 其變動計入損益的股本工具投資,其換 算差額將作為公平值收益或虧損之一部 份呈報。若干非貨幣性項目,如歸類為以 公平值計量且其變動計入其他全面收益 的金融資產之權益證券,其換算差額則 列入其他全面收益內的投資重估儲備。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.13 Foreign currency translation

#### (a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in HK dollars, which is the Group's presentation currency and the functional and presentation currency of the Company and major part of the Group.

#### (b) Transactions and balances

Foreign currency transactions are translated into the functional currency of the relevant entity using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at yearend exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated income statement.

All foreign exchange gains and losses recognised in the consolidated income statement are presented net in the consolidated income statement within the corresponding item. Foreign exchange gains and losses on other comprehensive income items are presented in the consolidated statement of comprehensive income within the corresponding item.

In the case of changes in the fair value of foreign currency denominated monetary assets classified as FVOCI, a distinction is made between translation differences resulting from changes in amortised cost of the assets and other changes in the carrying amount of the assets. Translation differences related to changes in the amortised cost are recognised in the consolidated income statement, and those related to changes in the carrying amount, except for impairment, are recognised in other comprehensive income.

Translation differences on non-monetary items, such as investments in equity instruments held at fair value through profit or loss, are reported as part of the fair value gain or loss. Translation difference on certain other non-monetary items, such as equities classified as FVOCI, are included in the investment revaluation reserve in other comprehensive income.

## 2.13 外幣換算 (續)

#### (丙) 集團旗下公司

所有功能貨幣與呈列貨幣不同的集團實體(其均非超通脹經濟之貨幣)之業績及財務狀況按以下方式換算為呈列貨幣:

- (i) 各財務狀況表所呈列之資產及負債 按財務狀況表之報告日期之收市匯 率換算;
- (ii) 各收益賬之收入及支出按平均匯率 換算(倘此平均值並非該等交易日 期通行匯率的累積效果之合理約 數,收入及支出則按交易日匯率換 算);及
- (iii) 所有兌換差額將確認為權益賬內一個獨立項目。

上述過程產生之匯兌差異於股東權益賬「匯兌儲備」項下呈報。

於綜合賬目時,換算國外機構淨投資所產生之兌換差額,列入股東權益賬內。倘國外業務被出售,該等兌換差額將列作出售所得之部份收益或虧損在綜合收益賬內確認。

因收購國外實體產生之商譽及公平值調整,被當作該國外實體之資產及負債處理,並按於結算日之匯率換算。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.13 Foreign currency translation (Continued)

## (c) Group companies

The results and financial position of all the Group's entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- (ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (iii) all resulting exchange differences are recognised as a separate component of equity.

Exchange differences arising from the above processes are reported in shareholders' equity under "Exchange reserve".

On consolidation, exchange differences arising from the translation of the net investment in foreign entities are taken to shareholders' equity. When a foreign operation is sold, such exchange differences are recognised in the consolidated income statement as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

## 2.14 行產及其他固定資產

行產主要包括辦公室和商舖。被歸類為融資 租賃之租賃土地及其他固定資產按歷史成本 減除折舊載列。歷史成本包括直接歸屬於收 購該等項目之支出。

只有當一項資產可能給本集團帶來相關連之 未來經濟利益,以及該項目之成本可以可靠 地釐定時,該項資產之後期成本才會列於資 產之賬面值中或作為個別資產確認(視乎適合 而定)。資產被更換部份之賬面值會被撤銷確 認。所有其他維修開支均於產生之財政期間 於綜合收益賬內扣除。

一 行產 於剩餘的租賃期內

- 傢俬、裝置、設備 於估計使用年期 及汽車 (一般在3至10年之間 或未屆之租賃期, 以短者為準)

資產之剩餘價值及使用年期於每個報告期末 將被評估,並在合適之情況下作出調整。

倘資產之賬面值高於其估計可回收金額,則 該資產之賬面值將即時被減值至其可回收金額(附註2.17)。

出售之收益及虧損按比較所得款項與賬面值 釐定及確認於綜合收益賬內。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.14 Premises and other fixed assets

Premises comprise mainly offices and shops. Leasehold land and all other fixed assets are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are expensed in the consolidated income statement during the financial period in which they are incurred.

Premises
 Over the remaining period of lease

Furniture, fittings, equipment and motor vehicles
 Over the estimated useful lives generally between 3 and 10 years or the unexpired terms of the lease, whichever is shorter

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each end of the reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.17).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the consolidated income statement.

### 2.15 投資物業

持作收取長期租金收益或獲取資本增值或兩 者兼得且並非由集團旗下公司所佔用之物業 被歸類為投資物業。

投資物業最初以成本值(包括相關交易費用) 計量。

在初始確認後,投資物業按公平值列賬。公平 值乃以活躍市場之價格為基礎,於需要時就 特定之資產性質、地點或狀況之任何差異作 出調整。倘該等資料無法得到,本集團則應用 替代估值法,例如按次活躍市場最近之價格 或貼現現金流量預測進行估值。該等估值乃 依照國際估值準則委員會頒布之指引完成。 該等估值每年由外聘估值師進行。重建並持 續用作投資物業之投資物業,或其市場活躍 度下降之投資物業繼續按公平值計量。

投資物業之公平值反映(其中包括) 現時租賃 之租金收入及按現行市況預期之未來租金收 入。

只有當與該項目可能給本集團帶來關連之未來經濟利益及該項目之成本可被可靠地計量時,後期開支才會計入該資產之賬面值。所有其他維修支出於其產生之相關財政期間記入綜合收益賬內。

公平值變動於綜合收益賬內確認。

倘投資物業由本集團旗下公司所佔用,則重 新歸類為行產及其他固定資產,其於重新歸 類日期之公平值將成為其成本值。

倘某些行產及其他固定資產因其用途改變而轉為投資物業,根據香港會計準則第16號,該資產於轉讓日之賬面值與公平值間任何差額,將當作行產及其他固定資產之重估而確認於權益賬內。然而,倘該公平值增值抵銷過往之減值虧損,該增值則於綜合收益賬內確認。

### 2.15 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the companies in the consolidated Group, is classified as investment property.

Investment property is measured initially at its cost, including related transaction costs.

After initial recognition, investment property is carried at fair value. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. These valuations are performed in accordance with the guidance issued by the International Valuation Standards Committee. These valuations are reviewed annually by external valuers. Investment property that is being redeveloped for continuing use as investment property, or for which the market has become less active, continues to be measured at fair value.

The fair value of investment property reflects, among other things, rental income from current leases and assumptions about rental income from future leases in the light of current market conditions.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in the consolidated income statement during the financial period in which they are incurred.

Changes in fair values are recognised in the consolidated income statement.

If an investment property becomes owner-occupied, it is reclassified as premises and other fixed assets, and its fair value at the date of reclassification becomes its cost for accounting purposes.

If an item of premises and other fixed assets becomes an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognised in equity as a revaluation of premises and other fixed assets under HKAS 16. However, if a fair value gain reverses a previous impairment loss, the gain is recognised in the consolidated income statement.

## 2.16 商譽及無形資產

商譽指收購之成本超逾本集團應佔被收購者 於收購日期之可認明資產及負債公平值淨值 之金額。商譽按成本減所有累積虧損列示。商 譽將每年進行減值測試。商譽的減值虧損不 能回撥,出售實體之收益及虧損包含該出售 實體之商譽賬面值。

商譽須被分配至各現金產生單位以作為其減值測試。所分配之單位為預期可受惠於產生該商譽之業務合併之各現金產生單位或各組現金產生單位。

倘因收購而產生之無形資產可與商譽獨立確認,或倘因合約或其他法律權利而產生之無 形資產,及其價值可以可靠地估計,則無形資 產與商譽分開確認。無形資產包括商標及核 心存款、合約以及客戶關係的無形資產。無形 資產根據預計使用年期按成本減攤銷及/或 累積減值虧損列示。攤銷按其介乎5至12年之 預計使用年期以餘額遞減法計算。

## 2.17 商譽、無形資產及非金融資產之減值

具無使用期限或未能使用之資產將不會被攤銷,但每年須作減值測試。倘出現某些事件或環境變化顯示其賬面值可能不可收回時,該等資產將作減值檢查。資產賬面值超逾可收回金額之數額被確認為減值虧損。可收回金額乃扣除出售費用後之資產公平值及使用價值之較高者。該等資產按最原始類別分類(現金產生單位)從而分別認明其現金流,藉以用作減值評估用途。除商譽外,非金融資產於各報告期就其減值之回撥可能性作出審閱。

在本公司的財務報表,如從附屬公司或聯營公司收取的股息超過其在該宣派年度的所佔全面收益總額,或其在本公司之財務狀況表內的賬面值超過在其綜合財務狀況表內包括商譽的所佔淨資產值時,亦須為該等投資作減值測試。

## 2.16 Goodwill and intangible assets

Goodwill represents the excess of the cost of an acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of the acquiree as at the date of acquisition. Goodwill is carried at cost less any accumulated impairment losses. Goodwill is tested annually for impairment. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination on which the goodwill arose.

Intangible assets arising from an acquisition are recognised separately from goodwill when they are separable or arise from contractual or other legal rights, and their value can be measured reliably. They include trade names and intangible assets of core deposits, contracts and customer relationships. Intangible assets are stated at cost less amortisation, and/or accumulated impairment losses. Amortisation is calculated based on estimated useful life ranging from 5 to 12 years using a diminishing balance method.

## 2.17 Impairment of goodwill, intangible assets and non-financial assets

Assets that have an indefinite useful life or are not yet available for use are not subject to amortisation, but are tested annually for impairment. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels (cash-generating units) for which there are separately identifiable cash flows. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

In the Company's financial statements, impairment testing of the investment in a subsidiary or an associate is also required upon receiving dividend from that entity if the dividend exceeds the Company's share of the total comprehensive income of that entity concerned in the period the dividend is declared or if the carrying amount of that entity in the Company's statement of financial position exceeds the Company's share of the carrying amount of that entity's net assets including goodwill in its consolidated statement of financial position.

## 2.18 即期及遞延稅項

本期稅項支出包括即期及遞延稅項。除於其 他全面收益或直接於權益確認之項目,其相 關稅項在其他全面收益或直接於權益之相應 項目內確認外,稅項在綜合收益賬內確認。

即期稅項支出按照本公司之附屬公司、聯營公司及合營公司其獲得應課稅收入之地區於報告期末已頒布或實質上已頒布之稅法作為基準計算。管理層定期就適用稅例內須作詮釋之情況評估報稅表內之申報狀況,並在適當時按預計須繳付予稅務機關之金額作為撥備基準。

遞延稅項乃根據資產及負債的稅基值及其於 綜合財務報表內賬面值之暫時差異按負債法 確認。遞延稅項應用於報告期末已經或基本 已經實施及預計於相關遞延稅項資產變現或 遞延稅項負債清償時將適用之稅率釐定。

倘暫時差異可用以對銷日後有可能出現之應 課稅溢利時,應列作遞延所得稅資產入賬。 結轉稅項虧損的稅務影響於該等虧損可用於 抵銷未來可能產生之應課稅利潤時確認為資 產。

除非暫時差異之撥回由本集團控制及該暫時 差異很可能不會在可見未來撥回,本集團已 就投資於附屬公司、聯營公司及共同控制實 體而產生之暫時差異作出撥備。

有關投資物業之遞延稅項乃根據假設該等投資物業是通過出售來回收其賬面值之稅務效 應而計量。

與重新計量以公平值計量且其變動計入其他 全面收益的債務證券之公平值相關之遞延稅 項,亦直接在其他全面收益扣除或計入其他 全面收益,其後於有關投資變現時於綜合收 益賬內確認。

## 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

(Continued)

#### 2.18 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the consolidated income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In such case, the tax is recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantially enacted at the end of the reporting period in the countries where the Company's subsidiaries, associates and joint ventures generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the end of the reporting period and that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. The tax effects of income tax losses available for carry forward are recognised as an asset when it is probable that future taxable profits will be available against which these losses can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associates and jointly controlled entities, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax related to investment properties is measured according to the tax consequence on the presumption that they are recovered entirely through sale.

Deferred income tax related to fair value re-measurement of debt securities at FVOCI, which is charged or credited directly to other comprehensive income, is also credited or charged directly to other comprehensive income and is subsequently recognised in the consolidated income statement upon the realisation of relevant investments.

### 2.19 僱員福利

#### (甲) 退休金責任

集團提供一項強制性公積金及多項界定供款退休計劃,計劃之資產一般由獨立管理之基金持有。退休金計劃由集團相關公司與員工供款。

集團向強制性公積金計劃及界定供款退休計劃支付之供款在已付時當作費用支銷。除向強制性公積金供款外,集團可將員工在未全數取得既得之利益前退出計劃而被沒收之僱主供款用作扣減供款。

## (乙) 以股份為基礎報酬

## (i) 認股權計劃

在以股份作為基礎支付之報酬計劃中, 本集團可選擇於行使日向承授人支付認 股權的內在價值或發行新股份。於歸屬 期間列作支出之總額乃參考根據支付方 式之公平值釐定。

以現金支付以股份作為基礎之報酬,支 出總額為所授出之認股權之公平值。該 公平值將於每個報告期內重新計量,而 任何成本變動於綜合收益賬內確認及相 應調整和列於「負債」。

以股權支付以股份為基礎之報酬,支出總額為所授出之認股權於授出日之公平值,及相應金額於股東資金「以股份為基礎報酬之儲備」項下確認。於授出日所釐定的支出總額將根據認股權期內生效條款於綜合收益賬內確認。在認股權被行使時,本公司將會發行新股份以支付其承擔,及於「以股份為基礎報酬之儲備」轉撥相關金額至「股本」項下。

## 2.19 Employee benefits

## (a) Pension obligations

The Group offers a mandatory provident fund scheme and a number of defined contribution plans, the assets of which are generally held in separate trustee-administered funds. These pension plans are funded by payments from employees and by the relevant Group companies.

The Group's contributions to the mandatory provident fund schemes and defined contribution retirement schemes are expensed as incurred. Other than mandatory provident fund contribution, the Group's contributions may be reduced by contributions forfeited by those employees who leave prior to vesting fully in the contributions.

#### (b) Share-based compensation

#### (i) Share option schemes

The Group has the choice to pay the intrinsic value of the share option or to issue new shares to a grantee at the date of exercise under the share-based compensation plans. The total amount to be expensed over the vesting period is determined by reference to the fair value according to settlement type.

For cash-settled share-based compensation, the total cost is the fair value of the options granted, with re-measurement at each reporting period with any change in the cost recognised in the consolidated income statement, with a corresponding credit or adjustment to the "Liabilities".

For equity-settled share-based compensation, the total cost is measured and recognised based on the fair value of the equity options at the grant date, with a corresponding credit to the "Shared-based compensation reserve" in the shareholders' funds. The total cost, which is fixed based on the fair value at the grant date, is charged to consolidated income statement in accordance with the terms of the vesting of the options over time. When the options are exercised, the Company will issue new shares to settle its obligation, and transfer applicable amount from the "Share-based compensation reserve" to the "Share capital" account.

## 2.19 僱員福利 續

#### (乙) 以股份為基礎報酬(續)

### (ii) 股份獎勵計劃

對於股份獎勵計劃授出之股份,其以股份為基礎之報酬的支出金額,乃考慮到於授出日所有非歸屬條件相關的授出利益,授予股票的公允價值計算。總費用在相關歸屬期內攤銷確認,倘授出日立即歸屬確認,並相應計入股東資金內的「以股份為基礎報酬之儲備」。

對於於歸屬期間攤銷之授出股份,本集團於各報告期末根據歸屬條件審視預期最終歸屬獎勵股份數目之估計。對確認至往年累計金額之任何調整,均會計及至當年度的以股份為基礎之報酬的支出金額,並相應地調整至「以股份為基礎報酬之儲備」。

於股份獎勵計劃下,從股票市場購入用作授出股份或購入股份用作以股代息之總成本(包含所有有關成本),均呈列於「持作股份獎勵計劃之股份」項下及從總權益中扣除。

於股份獎勵計劃之歸屬期間,於股票市場購入用作授出股份、以現金股息購入股份用作再投資,及茲收以股代息(「茲收紅股」),其有關成本均回撥至「持作股份獎勵計劃之股份」,其中倘購入股份則相應減少「以股份為基礎報酬之儲備」,其中倘茲收以股代息(「茲收紅股」)則相應減少保留盈利。

## 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.19 Employee benefits (Continued)

#### (b) Share-based compensation (Continued)

#### (ii) Share award schemes

For award shares under the Share Award Scheme, the amount to be expensed as share-based compensation expenses is determined by reference to the fair value of the award shares granted, taking into account all non-vesting conditions associated with the grants on grant date. The total expenses is recognised over the relevant vesting periods or on the grant date if the shares vest immediately, with a corresponding credit to the "Shared-based compensation reserve" in the shareholders' funds.

For those awarded shares which are amortised over the vesting periods, the Group reviews its estimates of the number of award shares that are expected ultimately vest based on the vesting conditions at the end of each reporting period. Any resulting adjustment to the cumulative amount recognised in prior years is charged or credited to share-based compensation expenses in the current year, with a corresponding adjustment to "Share-based compensation reserve".

Where award shares are acquired under the Share Award Scheme from the market or by electing for scrip in lieu of cash dividends, the total consideration of the shares acquired from the market (including any directly attributable costs) or the value of shares received under the scrip dividend scheme is presented as "Shares held for share award scheme" and deducted from total equity.

Upon vesting, the related costs of the vested award shares purchased from the market and shares acquired from reinvesting cash dividends or received under the scrip dividend scheme (dividend shares) are credited to "Shares held for share award scheme", with a corresponding decrease in "Share-based compensation reserve" for the purchased shares, and decrease in retained earnings for the dividend shares.

### 2.19 僱員福利(續)

#### (丙) 僱員應享假期

僱員應享年假和長期服務休假福利已在 僱員提供服務時確認。於截至報告期末 已就僱員提供服務而應享之年假及長期 服務休假之估計負債作出撥備。

### (丁) 獎金計劃

當本集團因為僱員提供服務而產生之即 時或推定應付獎金責任,而有關金額須 在報告期末後12個月內償付並能可靠地 估計時,則該獎金計劃之負債將被確認。

#### 2.20 撥備

倘本集團因過往事件而產生即時法律或推定 責任;可能須就解除責任而導致經濟資源流 失之可能性高於不會導致資源流失之可能 性;及可就承擔之款額作出可靠估計時,則需 確認重組成本及法律索償之撥備。重組撥備 包括終止租賃罰金及終止聘約付款。未來經 營虧損則不會確認為撥備。

倘有多項同類責任時,解除該等責任導致損失之可能性按責任之類別作整體釐定。即使在同一類別責任內任何一項目導致損失之可 能性可能會很小,亦需就此確認撥備。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.19 Employee benefits (Continued)

#### (c) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. An accrual is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

#### (d) Bonus plans

Liabilities for bonus plans due wholly within twelve months after the end of the reporting period are recognised when the Group has a present or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

#### 2.20 Provisions

Provisions are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

### 2.21 租賃

租賃於本集團可使用其租賃資產之日期被確認為一項使用權資產及一項相應負債。

合約可能包含租賃及非租賃組成部分。本集 團按其相對之單獨價格分配合約代價至租賃 及非租賃組成部分。然而,就本集團為承租人 之物業租賃,本集團選擇不分開租賃及非租 賃組成部分及反而當其為單一租賃組成部分 處理。

源自租賃之資產及負債按現值基準作初始計量。租賃負債包含下列租賃付款之淨現值:

- 固定付款(包括實質上固定付款),扣除 任何應收租賃優惠,
- 按一個指數或一個比率為基礎之變動付款,其於生效日期之初始計量使用該指數或比率(如有),
- 本集團按擔保剩餘價值預計應付之金額 (如有),
- 買入選擇權之行使價如本集團可合理地確定行使該選擇權,及
- 終止租賃之罰金付款,倘若租賃期反映本集團行使該選擇權。

按可合理確定之延長選擇權而將支付之租賃付款亦包括在負債之計量。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.21 Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable,
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date, if any
- amounts expected to be payable by the Group under residual value guarantees, if any
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

### 2.21 租賃(續)

租賃付款使用隱含於租賃之利率貼現。倘若不能隨時釐定該利率(其為本集團內租賃之一般情況),則使用個別承租人之新增借貸利率,即承租人將會需要支付之利率以獲得借貸所需資金從而取得在同類經濟環境、同類條款,擔保及條件下與使用權資產同類價值相近之資產。

#### 就釐定新增借貸利率,本集團:

- 於可行情況,使用個別承租人近期取得 之第三方融資為起點,再就取得第三方 融資後之融資狀況變動作出調整,
- 使用由下而上方法,以無風險利率為起點,再就本集團持有之租賃(其並無取得 近期之第三方融資)之信貸風險作出調整,及
- 就租賃作出特定調整,例如條款、國家、 貨幣及擔保物。

租賃支出分配在本金及財務成本之間。財務成本於租賃期間在收益賬中支銷以就於各個期間內之負債的剩餘結餘製定一個持續之定期的利率。

## 使用權資產以成本計量,並包括下列項目:

- 租賃負債之初始計量金額,
- 任何於生效日期或之前的租賃付款(扣 除任何收取之租賃優惠),
- 任何初始直接開支,及
- 修復開支。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.21 Leases (Continued)

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received,
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability,
- any lease payments made at or before the commencement date less any lease incentives received,
- · any initial direct costs, and
- restoration costs.

### 2.21 租賃(續)

使用權資產一般在該資產之可使用年期及租 賃期中以較短者配以直線法折舊。

有關短期租賃及所有低價值資產租賃之付款 按直線法在收益賬中確認為開支。短期租賃 乃租賃期為12個月或以下之租賃。

集團作為出租人時,從經營租賃收取的租賃收入按租賃年期以直線法確認為收入。

#### 2.22 受託業務

本集團一般以託管人及其他信託方式行事, 代表個人、信託及其他機構持有或存置資產。 由於該等資產及其所產生的收入並非本集團 之資產,故不會於本集團之綜合財務報表中 列賬。

### 2.23 股本

普通股股份被分類為權益,發行新股份應佔 之新增支出,於除稅後從實收款項中扣除,並 呈列於權益賬內。

普通股股份之股息在綜合財務報表內獲股東 批准之期間確認為負債。

## 2.24 現金及等同現金項目

於現金流量結算表,現金及等同現金項目包括由購入日起計3個月內到期的結餘,包括現金、銀行及其他金融機構結餘、國庫票據、價值變化無重大風險且可隨時轉換至確定現金數額之其他認可票據及存款證及證券投資。

## 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.21 Leases (Continued)

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short-term leases and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term.

#### 2.22 Fiduciary activities

The Group commonly acts as trustees and in other fiduciary capacities that result in the holding or placing of assets on behalf of individuals, trusts and other institutions. These assets are excluded from the consolidated financial statements, as they are not assets of the Group.

### 2.23 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Dividends on ordinary shares are recognised as a liability in the consolidated financial statements in the period in which they are approved by shareholders.

## 2.24 Cash and cash equivalents

In the statement of cash flows, cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition, including: cash, balances with banks and other financial institutions, treasury bills, other eligible bills and certificates of deposit and investment securities which are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

#### 2.25 或然負債及或然資產

或然負債指因為過往事件而可能引起之承 擔,而其存在只能就集團控制範圍以外之一 宗或多宗不確定未來事件之出現而被確認。 或然負債亦可能是因為過往事件引致之現有 承擔,但由於可能不需要有經濟資源流失,或 承擔金額未能可靠衡量而未有記賬。

或然負債不會被確認,但會在綜合財務報表 附註中披露。假若資源流失之可能性改變而 導致資源可能流失,則被確認為撥備。

或然資產指因為過往事件而可能產生之資產,而其存在只能就集團控制範圍以外之一宗或多宗不確定事件之出現而被確認。

或然資產不會被確認,但會於經濟收益有可 能獲得時在綜合財務報表附註中披露。若實 質確定有收益獲得時,則被確認為資產。

## 2.26 保險合約

本集團發行包含保險風險或同時包含保險風險和金融風險的保險合約。保險合約是指轉移重大保險風險的合約,此等合約也可能轉移財務風險。作為一般指引,本集團界定重大保險風險為有可能須於發生受保事件時所須支付的利益較在受保事件沒有發生下所須支付的利益多於至少10%。

## 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

### 2.25 Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that an outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the consolidated financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain events not wholly within the control of the Group.

A contingent asset is not recognised but is disclosed in the notes to the consolidated financial statements when an inflow of economic benefits is probable. When such inflow is virtually certain, an asset is recognised.

### 2.26 Insurance contracts

The Group issues contracts that contain insurance risk or both insurance and financial risks. Insurance contracts are those contracts that transfer significant insurance risk. Such contract may also transfer financial risk. As a general guideline, the Group defines as significant insurance risk the possibility of having to pay benefits on the occurrence of an insured event that are at least 10% or more than the benefits payable if the insured event did not occur.

## 2.26 保險合約(續)

保險合約按下述會計方法入賬:

#### (甲) 保險收益

保險收入反映了本集團在報告期內提供的保險合約服務。此等收入乃根據在報告期內剩餘保障負債(「剩餘保障負債」)的減少,並按保費及損失部分所須要內別數整及扣除投資部分(即在受保事件沒有發生下仍須支付給投保人的金額)後所釐定。對於採用保費分攤法計量的的金額(或時間流逝倘若兩者之間對無重大差異),及扣除任何投資部份。對應剩餘保障負債因應提供服務的實量及取得保單現金流分配的轉撥。實上,與提供保險合約相關的金額包括:

- 預期索償,包括取得保單現金流以外的支出,但不包括構成履行保險合約以外的支出(即不可歸屬支出);
- 非金融風險的風險調整轉撥;
- 合約服務邊際於報告期間內的分配。

取得保單現金流的分配乃對應於在每個報告期間按時間流逝以規律化模式收回現金流的保費份額,同樣的金額亦會確認為保險服務費用。此機制使對應取得保單現金流覆蓋的保費部分補回在保險收益內。這代表取得保單現金流是在合約服務邊際轉撥時而不是在取得保單現金流發生時在損益表中確認。

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.26 Insurance contracts (Continued)

Insurance contracts are accounted for as follows:

### (a) Insurance revenue

The insurance revenue reflects the insurance contract services provided by the Group over the period, which is derived from the reduction in liability for remaining coverage ("LRC") during the reporting period, subject to corrections (adjustment of premiums, loss components) and excluding investment components (i.e. amounts to be paid to a policyholder even if an insured event does not occur). For the contracts measured under Premium Allocation Approach, the insurance revenue corresponds to the amount of expected insurance coverage during the period (or passage of time if not significantly different), excluding any investment components. For the contracts measured under the general measurement model, the insurance revenue corresponds to the release of the LRC, depending on the quantity of provided services, and an allocation of insurance acquisition cash flows. In substance, the amounts related to the provision of insurance contract services include:

- the expected claims, including expenses other than insurance acquisition cash flows, but excluding those not contributing to the fulfilment of insurance contracts (i.e. non-attributable expenses);
- the release of the risk adjustment for non-financial risk;
- the allocation of CSM to the period.

The allocation of insurance acquisition cash flows represents the portion of premiums that corresponds to the recovering of those cash flows to each reporting period in a systematic way based on the passage of time, the same amount being recognized as insurance service expenses. This mechanism enables to add back the part of the premium corresponding to the coverage of insurance acquisition cash flows. This means that insurance acquisition cash flows are not recognized in the statement of profit or loss when the acquisition cash flows occur but when the CSM is released.

### 2.26 保險合約(續)

#### (乙) 保險服務支出

由本集團發行的合約群組所產生的保險服務費用,扣除分配至退還保費的金額,在發生時於損益表中確認。與投資部份相關的支付不包括在保險服務費用內。所有保險服務費用對應預測及計算未來現金流的現值時在合約範圍內所認明的實際現金支出。

## (丙) 持有之再保合約淨支出

在損益表中,持有的再保合約的淨費用 (在某些情況下為淨收入)與保險服務 費用分別呈列,並包括在一個總計內,對 應從再保當中回收的再保服務費用金額 之間的淨額。

## (丁) 持有之保險或再保合約之淨融資收 入或支出

#### 2.26 Insurance contracts (Continued)

## (b) Insurance service expenses

Insurance service expenses arising from groups of contracts issued by the Group are recognized in the statement of profit or loss as they are incurred, excluding amounts allocated to refunds of premiums. The payments relating to investment components are excluded from insurance service expenses. All insurance service expenses correspond to actual cash outflows within the boundary of contracts identified when projecting and calculating the present value of future cash flows.

## (c) Net expenses from reinsurance contracts held

In the statement of profit or loss, net expenses from reinsurance contracts held (net income in some cases) are presented separately from the insurance service expenses and included in a single aggregate, corresponding to the net between reinsurance service expenses and amounts recovered from the reinsurers.

# (d) Net finance income or expenses from insurance and reinsurance contracts held

The net finance income or expenses from insurance and reinsurance contracts is presented in the Group statement of profit or loss with a split between insurance contracts issued and reinsurance contracts held. This aggregate comprises the changes in the carrying amount of the groups of contracts that relate to financial risk arising from both (i) the effect of the time value of money and changes in the time value of money, (ii) the effect of financial risk and changes in financial risk (i.e. effect of changes in discount rates).

#### (戊) 持有之再保合約

本集團與再保人簽訂的合約,根據這些 合約,本集團將獲得對於由本集團發行 的一個或多個合約所造成的損失的補 償,並且符合保險合約的分類要求,歸類 為持有再保合約。

根據本集團持有之再保合約獲得的利益 確認為再保合約資產。該等資產包括應 收短期餘額(來自再保人)以及長期應收 款項,這些款項取決於相關保險合約預 期的履行現金流,而該等保險合約受到 適用的再保合約的保障。持有之再保合 約認列和計量與發行的保險合約類似, 並且按照與持有之再保合約涵蓋的保險 合約相關的金額以及每個再保合約的條 款一致進行計量。再保負債主要是應支 付的再保合約保費,在期內確認為費用 入賬。

## 3. 財務風險管理

本集團之風險管理政策旨在認明及分析此等 風險,設定合適之風險額度和控制,監控風險 及使用可靠和先進之資訊系統以嚴守額度。 本集團定期審視其風險管理政策及系統以反 映市場、產品及最佳慣例之變化。

## 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (Continued)

#### 2.26 Insurance contracts (Continued)

#### (e) Reinsurance contracts held

Contracts entered into by the Group with reinsurers under which the Group is compensated for losses on one or more contracts issued by the Group and that meet the classification requirement for insurance contracts are classified as reinsurance contracts held.

The benefits to which the Group is entitled under its reinsurance contracts held are recognised as reinsurance contract assets. These assets consist of short-term balances due from reinsurers, as well as longer term receivables that are dependent on the expected fulfilment cashflow arising under the related insurance contracts which are covered by applicable reinsurance contracts. The recognition and measurement of reinsurance contracts held is similar to insurance contracts issued and are measured consistently with the amounts associated with the insurance contracts covered by reinsurance contract held and in accordance with the terms of each reinsurance contract. Reinsurance liabilities are primarily premiums payable for reinsurance contracts and are recognised as an expense when due.

## 3. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the financial business, and operational risks are an inevitable consequence of being in business. The Group's aim is therefore to achieve an appropriate balance between risk and return and minimise potential adverse effects on the Group's financial performance.

The Group's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Group regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practice.

風險管理乃遵循董事會批准之整體策略和政策而執行。董事會授權風險管理及合規委員會 (「風險管理及合規委員會」) 監督及指導不同 風險之管理,並由集團風險部(「集團風險部」) 及不同之功能委員會專責管理和處理。此外, 內部審核處負責獨立審查風險管理及控制狀況。

董事會已審定通過包含本集團風險偏好框架 之風險策略框架以進一步提升風險管治及風 險管理水平。經考慮整體業務策略及方針後, 該風險策略制定了本集團之核心價值及其高 層次之風險管理方針,據此設定穩健之風險 偏好框架以指導策略規劃程序及增強風險回 報管理。基本上,風險偏好框架列出本集團 為達成業務計劃所願意承擔之風險類別及金 額。本集團之風險偏好指標包括計量資本、風 險、回報及流動性之主要指標及加上組成本 集團主要風險限額之一系列風險容忍度。為 確保業務在設定之風險偏好內進行,對風險 偏好限額及風險容忍度之監控按季度進行。 就此而言,本集團已制定了涵蓋本集團風險 及回報的五個主要範疇之風險偏好闡明,名 為股東回報率的目標、盈利波幅、償付能力、 流動性及其他主要風險措施。集團風險部負 責持續監控、恪守風險偏好闡明及定期向風 險管理及合規委員會及董事會報告。此外,風 險管理及合規委員會及董事會每年審閱風險 偏好框架及主要風險偏好限額。

最主要之風險類別為信貸風險、流動性風險、 市場風險、操作風險和保險風險。市場風險包 括外匯風險、利率風險及其他定價風險。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

Risk management is carried out pursuant to the overall strategy and policies approved by the Board of Directors. The Risk Management and Compliance Committee ("RMCC") under the authority delegated by the Board oversees and guides the management of different risks which are more particularly managed and dealt with by the Group Risk Division ("GRD") and different functional committees. In addition, Internal Audit is responsible for the independent review of risk management and the control environment.

To further enhance the risk governance and risk management standards, the Board has approved a Risk Strategy framework that also covers the Group's Risk Appetite framework. The Risk Strategy sets out the core values and high level risk management direction of the Group, taking into account the overall business strategy and direction, under which a robust Risk Appetite framework is established to guide the strategic planning process and strengthen the risk-return management. Fundamentally, the Risk Appetite framework sets out the types and amount of risk that the Group is willing to take in order to achieve its business plan. The Group's risk appetite metrics are composed of key indicators for measuring capital, risks, return and liquidity and this is supplemented by a set of risk tolerances made up of major risk limits of the Group. In order to ensure that business is conducted within our established risk appetite, monitoring on the compliance with the risk appetite limits and risk tolerance is undertaken on a quarterly basis. In this connection, the Group has set out its Risk Appetite Statement that covers five key dimensions of the risks and returns of the Group, namely, the target returns to shareholders, earnings volatility, solvency, liquidity and other key risk measures. The GRD is responsible for the ongoing monitoring of the compliance with the Risk Appetite Statement and the regular reporting of the status to the RMCC and the Board. Moreover, the Risk Appetite framework and major risk appetite limits are subject to review by the RMCC and the Board on an annual basis.

The most important types of risk are credit risk, liquidity risk, market risk, operational risk and insurance risk. Market risk includes currency risk, interest rate risk and other price risks.

## 3.1 應用金融工具策略

本集團接受定息或浮息及不同年期之客戶存款,並以此取得之資金投資於各種類別的資產以賺取息差收入。本集團尋求透過整合短期資金及按較高利率借出較長期之款項以增加此等息差收入,同時並保持足夠之流動資金以應付可能須付之所有到期債務。

本集團亦按信貸風險及市場情況,透過向商業及零售借款人貸款賺取息差,以及向客戶收取合理費用及佣金。此等活動風險不單涉及資產負債表內之貸款及墊款,亦涉及本集團提供擔保及其他承擔,例如信用證、履約保證及其他保證。

本集團亦通過交易所及場外交易(「場外交易」)買賣包括衍生工具之金融工具,藉著證券、債券、貨幣及利率之短期波動賺取利潤。董事會制定交易限額以控制不同程度之市場持倉風險。除指定對沖安排外,有關外匯及利率之風險一般以訂立對銷持倉(包括與客戶及市場對手之交易)或利用衍生工具作對沖,藉此控制有關市場持倉套現之現金淨值。

本集團亦應用利率掉期及其他利率衍生工具以減輕因利率變動令定息資產公平值下降或定息負債公平值上升之利率風險。若干金融工具被用作公平值對沖,對沖項目之細節,包括被對沖項目、金額、利率、對沖期及目的,皆於各公平值對沖項目開始時被確定和記錄,亦於開始對沖時按預期基礎評估及不時根據實際經驗及估價重新評估對沖有效性。倘公平值對沖關係不符合對沖會計的有效性測試標準,則對沖會計方法將於此公平值對沖失效日起停止。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

## 3.1 Strategy in using financial instruments

The Group accepts deposits from customers at both fixed and floating rates, and for various periods, and seeks to earn positive interest margins by investing and lending these funds in a wide range of assets. The Group seeks to increase these margins by consolidating short-term funds and lending for longer periods at higher rates, while maintaining sufficient liquidity to meet all claims that might fall due.

The Group also seeks to apply its interest margins through its lending to commercial and retail borrowers and to charge customers appropriate fees and commission, taking into consideration credit risk and market conditions. Such exposures involve not just on-balance sheet loans and advances, as the Group also enters into guarantees and other commitments such as letters of credit, performance bonds and other bonds.

The Group also trades in financial instruments where it takes positions in exchange-traded and over-the-counter ("OTC") instruments, including derivatives, to take advantage of short-term market movements in equities and bonds and in currencies and interest rates. The Board places trading limits on the level of exposures that can be taken in relation to market positions. Apart from specific hedging arrangements, foreign exchange and interest rate exposures are normally offset by entering into counterbalancing positions (including transactions with customers or market counterparties), or by the use of derivatives, thereby controlling the variability in the net cash amounts required to liquidate market positions.

The Group also uses interest rate swap and other interest rate derivatives to mitigate interest rate risk arising from changes in interest rates that will result in decrease in the fair value of fixed rate assets or increase in the fair value of fixed rate liabilities. Part of these financial instruments are designated as fair value hedges, and the terms of hedge including hedged item, amount, interest rates, hedge period and purpose are determined and documented at the inception of each fair value hedge. Hedge effectiveness is assessed at inception on a prospective basis and is reassessed, on an ongoing basis, based on actual experience and valuation. Fair value hedge relationships that do not meet the effectiveness test requirement of hedge accounting are discontinued with effect from the date of ineffectiveness of the fair value hedge.

## 利率風險之公平值對沖

本集團採用利率掉期以對沖指標利率對發行之定息負債及持有之定息債務證券所產生之公平值變動風險。其支付浮息/收取定息之利率掉期與特定的定息負債配對,或支付定息/收取浮息之利率掉期與持有之定息債務證券配對(其條款與對沖項目之關鍵條款緊密一致)。

本集團僅對沖利率風險部分及管理但非對沖 其他風險(例如信貸風險)。本集團應用對沖 會計處理之利率風險源自發行之定息負債及 持有之定息債務證券,其公平值因指標利率 變動而波動。由於指標利率之變動重大地影 響發行之負債或債務證券之公平值變動,本 集團僅就指標利率對沖利率風險。當經濟對 沖關係符合對沖會計處理之準則時則應用對 沖會計處理。

本集團應用公平值對沖會計處理前,按對沖項目之質化特性及量化分析支持對沖風險之評估釐定對沖項目與對沖工具間是否存在經濟關係。本集團在評估經濟關係是否存在時會考慮對沖項目及對沖工具之關鍵條款是否緊密一致。本集團評估對沖項目及對沖工具之公平值是否就同類型風險有同樣反應。

## 3.1 Strategy in using financial instruments (Continued)

# 3.1.1 Derivatives held for risk management and hedge accounting

## Fair value hedges of interest rate risk

The Group uses interest rate swaps to hedge its exposure to changes in the fair values of fixed-rate issued liabilities and fixed-rate debt securities held in respect of a benchmark interest rate. Pay-floating/receive-fixed interest rate swaps are matched to specific issuances of fixed-rate liabilities or pay-fixed/receive-floating interest rate swaps are matched to fixed-rate debt securities held with terms that closely align with the critical terms of the hedged item.

Only the interest rate risk element is hedged and therefore other risks, such as credit risk, are managed but not hedged by the Group. Interest rate risk to which the Group applies hedge accounting arises from fixed-rate issued liabilities and fixed-rate debt securities held, whose fair value fluctuates when benchmark interest rates change. The Group hedges interest rate risk only to the extent of benchmark interest rates because the changes in fair value of an issued liability or a debt security are significantly influenced by changes in the benchmark interest rate. Hedge accounting is applied where economic hedge relationships meet the hedge accounting criteria.

Before fair value hedge accounting is applied by the Group, the Group determines whether an economic relationship between the hedged item and the hedging instrument exists based on an evaluation of the qualitative characteristics of these items and the hedged risk that is supported by quantitative analysis. The Group considers whether the critical terms of the hedged item and hedging instrument closely align when assessing the presence of an economic relationship. The Group evaluates whether the fair value of the hedged item and the hedging instrument respond similarly to similar risks.

本集團透過促使定息債務證券或發行之負債 之票面價及指定為對沖工具之利率掉期之名 義金額一致而設定對沖比率。可能之對沖失 效原因如下:

- (i) 市場流動性及債務證券買賣價差之變 動;
- (ii) 就下一定息日前之指標利率及利率掉期 之指標利率的固定息差之公平值變動;
- (iii) 不同公平值水平之利率敏感度變動;
- (iv) 交易對手及本集團本身之信貸風險對利率掉期公平值之影響,並未反映在受利率變動影響之對沖項目公平值;及

The Group establishes a hedge ratio by aligning the par amount of the fixed-rate debt security or issued liabilities and the notional amount of the interest rate swap designated as a hedging instrument. Possible sources of ineffectiveness are as follows:

- changes in market liquidity and bid-ask spread of the debt securities;
- (ii) the fair value changes related to the benchmark rate before next fixing date and on the fixed spread over the benchmark rate of the interest rate swap;
- (iii) changes in interest rate sensitivity at different fair value level;
- (iv) the effect of the counterparty and the Group's own credit risk on the fair value of the interest rate swap, which is not reflected in the fair value of the hedged item attributable to the change in interest rate; and
- (v) differences in maturities of the interest rate swap and the debt securities held or the certificates of deposit issued.

#### 3.2 Credit risk

The Group's main credit risk is that borrowers or counterparties may default on their payment obligations due to the Group. These obligations arise from the Group's lending and investment activities, and trading of financial instruments (including derivatives).

The Group has a Group Credit Committee ("GCC") for approving major credit exposures. The Credit Management Committee ("CMC") and the Treasury & Investment Risk Committee ("TIRC") are the committees responsible for credit policy formulation and portfolio monitoring of the loan and treasury businesses respectively. These committees have been chaired by the Chief Executive or Group Chief Risk Officer with certain Executive Directors and senior business and credit officers as members. Credit risk measurement, underwriting, approval and monitoring requirements are detailed in credit policies.

The Group manages all types of credit risk on a prudent basis. Credits are extended within the parameters set out in the credit policies and are approved by different levels of management based upon established guidelines and delegated authorities. Credit exposures, limits and asset quality are regularly monitored and controlled by management, credit committees and GRD. The Group's internal auditors also conduct regular reviews and audits to ensure compliance with credit policies and procedures, and regulatory guidelines.

The Group has established policies and processes for the approval and review of new products and activities, and credit policies with details of the loan grading, or credit scoring, processes and impairment policies.

#### 信貸風險評級

本集團採用內部信貸風險評級以反映借款人之信貸質素。本集團採用切合不同交易對手類別之內部信貸風險評級記分機制。信貸風險評級記分機制顧及申請時收集之借款人及特定貸款資料(例如可支配收入;及零售風險承擔之抵押品級別;和企業風險承擔而言,財標及質化指標)。就零售風險承擔而言,再輔以有關個別借款人之內部數據(例如違約狀況)及外部數據(例如信貸局之評級資料)。此外,記分機制可促使信貸風險人員以專業判斷釐定各項風險承擔之最終內部信貸評級,包括考慮其他不能計入記分機制內作參數之因素。

下列為有關本集團持有各組合類別之額外考慮:

#### 零售

初始確認後,就零售業務之個人無抵押借貸 而言,以行為評分按定期基準監察可能出現 之違約。此評分與違約或然率(「違約或然率」) 配對。

## 企業

就企業業務而言,信貸評級按借款人層面釐 定。客戶經理會按持續基礎收納任何已更新 或新資料/信貸評估予信貸評級記分機制 內。此外,客戶經理並會每年從各渠道(例如 借款人之財務報表)更新有關借款人之信譽度 資料。此將會決定最新之內部信貸評級。

採用內部觀察之違約率輔以外部違約數據, 及應用統計法,違約或然率主要等級用以標 定各信貸評級之違約或然率。

#### 3.2 Credit risk (Continued)

#### 3.2.1 Credit risk measurement

#### **Credit risk grading**

The Group uses internal credit risk grading that reflects the credit quality of the borrowers. The Group uses internal credit grading scorecards tailored to the various categories of counterparty. The credit grading scorecards take into consideration borrower and loan specific information collected at the time of application (such as disposable income, and level of collateral for retail exposures; and financial indicators and qualitative indicators for corporate exposures). For retail exposures, this is supplemented with internal data such as delinquency status and external data such as credit bureau scoring information on individual borrowers. In addition, the scorecards enable expert judgement from the credit risk officer to determine the final internal credit grade for each exposure. This allows for considerations which may not be captured as part of the other inputs into the scorecards.

The following are additional considerations for each type of portfolio held by the Group:

#### Retail

After the date of initial recognition, for personal unsecured lending of retail business, the likelihood of default is monitored on a periodic basis by behavioural score. This score is mapped to a Probability of Default ("PD").

#### Corporate

For corporate business, the credit grade is determined at the borrower level. A relationship manager will incorporate any updated or new information/credit assessments into the credit grading scorecard on an ongoing basis. In addition, the relationship manager will also update information about the creditworthiness of the borrower every year from sources such as borrower's financial statements. This will determine the updated internal credit grading.

Using the internal observed default rate supplemented with external default data, and by applying statistical methods, PD master scales are calibrated to arrive at the PD for each credit grade.

#### 3.2.2 預期信貸虧損計量

香港財務報告準則第9號略述自初始確認後因 信貸質素變動而引致減值之「3階段」模型,其 概述如下:

- 於初始確認時為非信貸減值的金融工具 分類為「階段1」及其信貸風險由本集團 持續監察。
- 倘金融工具被識別為信貸風險自初始確認後大幅增加(「信貸風險大幅增加」), 即會轉移至「階段2」,但仍未被視作信貸減值。
- 倘金融工具已被界定為信貸減值,則金融工具即被轉移至「階段3」。
- 階段1金融工具之預期信貸虧損按相當 於在未來12個月內可能發生之違約事件 引致之全期預期信貸虧損部份的金額計 量。階段2或階段3之工具則根據全期基 準計量其預期信貸虧損。
- 根據香港財務報告準則第9號計量預期 信貸虧損的一個普遍概念就是必須考慮 前瞻性資料。
- 購入或源生之信貸減值金融資產為該 等於初始確認時已是信貸減值之金融資 產。其預期信貸虧損一直按全期基準計 量。

#### Treasury

For debt securities and interbank exposures under the Treasury and Global Markets portfolio, external rating agency credit grades are used. These published grades are continuously monitored and updated. The PDs associated with each grade are determined based on default rates published by the rating agencies.

#### 3.2.2 Expected credit loss measurement

HKFRS 9 outlines a "three-stage" model for impairment based on changes in credit quality since initial recognition as summarised below:

- A financial instrument that is not credit-impaired on initial recognition is classified in "Stage 1" and has its credit risk continuously monitored by the Group.
- If a significant increase in credit risk ("SICR") since initial recognition is identified, the financial instrument is moved to "Stage 2" but is not yet deemed to be credit-impaired.
- If the financial instrument is credit-impaired, the financial instrument is then moved to "Stage 3".
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on expected credit losses on a lifetime basis.
- A pervasive concept in measuring ECL in accordance with HKFRS 9 is that it should consider forward-looking information.
- Purchased or originated credit-impaired financial assets are those financial assets that are credit impaired on initial recognition. Their ECL is always measured on a lifetime basis.

12-month expected credit losses	Lifetime expected credit losses	Lifetime expected credit losses

本集團就準則規定採納之主要判斷和假設論 述如下:

#### 3.2.2.1 信貸風險大幅增加

當符合以下一項或多項準則時本集團認為金融工具已陷於信貸風險大幅增加:

- 就債券組合而言,當外部信貸評級出現 重大不利轉變,由投資級別轉移至非投 資級別,或購買時原本為非投資級別之 債券下降一級
- 就企業組合而言,當內部信貸評級出現轉變,根據其初始信貸評級,於一級至五級之間
- 當逾期日數(「逾期日數」)超過30天
- 就企業組合而言,當借款人已呈報為「預早警示」
- 當借款人已按香港金管局之貸款分類呈 報為特別關注。分類該貸款之決定乃按 借款人之償還能力及個別交易對手之違 約可能性。

The key judgements and assumptions adopted by the Group in addressing the requirements of the standard are discussed below:

#### 3.2.2.1 Significant increase in credit risk

The Group considers a financial instrument to have experienced a SICR when one or more of the following criteria have been met:

- when there is significant adverse external credit rating transition for the bond portfolio, migrating from investment grade to non-investment grade, or one notch downgrade for bond with original non-investment grade at purchase
- when there is internal credit rating transition, ranging from one notch to five notches depending on its initial credit rating, for corporate portfolio
- when the day past due ("DPD") exceeds 30 days
- when the borrower is reported as "Early Warning" for corporate portfolio
- when the borrower is reported as Special Mention according to the loan classification of the HKMA. The decision to classify the loans is based on the borrower's repayment ability and likelihood of individual counterparties defaulting.

本集團就持有之所有零售金融工具按組合層面每月進行信貸風險大幅增加之評估。就企業金融工具而言,乃採用預早警示清單監控信貸風險,及按交易對手層面每月進行評估。組合之各自信貸部門在合適時修訂識別信貸風險大幅增加之準則。

本集團於截至2024年及2023年12月31日止年度 並無就任何金融工具使用低信貸風險豁免安 排。

#### 3.2.2.2 違約及信貸減值資產之定義

當一件或多件不利於金融資產於估計未來現金流之事項發生時,本集團定義該金融資產為違約,其與信貸減值之定義一致(即「階段3金融資產」)。

金融資產已變作信貸減值之證據包括下列可 見數據:

- 借款人或發行人陷於重大財務困境;
- 違反合約(例如違約或逾期事件);
- 本集團重組貸款或墊款,其條款本集團 在其他情況下不會考慮;
- 借款人已破產;
- 其已按香港金管局之貸款分類呈報為次級、呆滯或虧損。分類該貸款之決定乃按借款人之償還能力及個別交易對手之違約可能性;及
- 抵押品之活躍市場因財務困境而消失。

因借款人狀況惡化而重訂條款之貸款一般視為信貸減值,除非有證據證明不能收取合約現金流之風險已重大地減低及並無其他減值指標。此外,逾期90日或超過90日之零售貸款乃視為信貸減值。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

#### 3.2 Credit risk (Continued)

#### 3.2.2 Expected credit loss measurement (Continued)

#### 3.2.2.1 Significant increase in credit risk (Continued)

The assessment of SICR is performed on a monthly basis at a portfolio level for all retail financial instruments held by the Group. In relation to corporate financial instruments, where an Early Warning list is used to monitor credit risk, this assessment is performed at the counterparty level and on a monthly basis. The criteria used to identify SICR are revised as when appropriate by the respective credit departments of the portfolios.

The Group has not used the low credit risk exemption for any financial instruments in the year ended 31 December 2024 and 2023.

#### 3.2.2.2 Definition of default and credit-impaired assets

The Group defines a financial instrument as in default, which is aligned with the definition of credit impaired (referred to as "Stage 3 financial assets"), when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- the borrower is bankrupt;
- it is reported as substandard, doubtful or loss according to the loan classification of the HKMA. The decision to classify the loans is based on the borrower's repayment ability and likelihood of individual counterparties defaulting; and
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail loan that is overdue for 90 days or more is considered credit-impaired.

## 3.2 信貸風險(續)

#### 3.2.2 預期信貸虧損計量 續

# 3.2.23 計量預期信貸虧損-參數、假設及估算 方法之說明

預期信貸虧損乃根據信貸風險大幅增加是否發生或是否認為資產會減值而按12個月期間 (「12個月期間」)或全期基準計量。預期信貸虧損乃違約或然率、違約風險承擔(「違約風險承擔」)及違約損失率(「違約損失率」)之經貼現後之結果,其定義如下:

- 違約或然率代表借款人在其財務責任上於下一個12個月期間(「12個月期間違約或然率」)或於責任之全期剩餘期間(「全期違約或然率」)違約之可能性(按照上述「違約及信貸減值資產之定義」)。
- 違約風險承擔乃根據本集團預計違約時 於下一個12個月期間或於全期剩餘期間 欠付之金額。例如,就循環承擔而言,本 集團包括即期已提取金額加上任何預期 當違約發生時,按現時合約額度,亦會被 提取之額外金額。
- 違約損失率代表本集團預計在違約風險 承擔之損失程度。違約損失率按交易對 手類別、索賠類別和排序及抵押品或其 他信貸支援之有效性而異。違約損失率 按違約時付予每個風險承擔單位之損失 百分比標示。

預期信貸虧損乃就各個未來月份及各個別風險承擔延伸估算違約或然率、違約損失率及違約風險承擔而釐定。此三個組成部分相乘後配以殘活可能性作出調整(即該風險承擔於早前月分並未提早還款或違約)。其有效計算未來各月份之預期信貸虧損,然後再貼現至呈報日及匯總。用於計算預期信貸虧損之貼現率乃原有之實際利率或其約數。

全期違約或然率乃應用到期日分布至即期12個月期間而得。到期日分布檢視組合自初始確認起至貸款期內如何形成違約。到期日分布根據過往可見數據及假定組合及信貨級別段內之所有資產皆相同。其受到過往分析所支持。

### 3. FINANCIAL RISK MANAGEMENT (Continued)

#### 3.2 Credit risk (Continued)

#### 3.2.2 Expected credit loss measurement (Continued)

# 3.2.2.3 Measuring ECL – Explanation of inputs, assumptions and estimation techniques

The ECL is measured on either a 12-month ("12M") or Lifetime basis depending on whether a SICR has occurred since initial recognition or whether an asset is considered to be creditimpaired. Expected credit losses are the discounted product of the PD, exposures at default ("EAD"), and loss given default ("LGD"), defined as follows:

- The PD represents the likelihood of a borrower defaulting on its financial obligation (as per "Definition of default and credit-impaired" above), either over the next 12 months ("12M PD"), or over the remaining lifetime ("Lifetime PD") of the obligation.
- EAD is based on the amounts the Group expects to be owed at the time of default, over the next 12 months or over the remaining lifetime. For example, for a revolving commitment, the Group includes the current drawn balance plus any further amount that is expected to be drawn up to the current contractual limit by the time of default, should it occur.
- LGD represents the Group's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default.

The ECL is determined by projecting the PD, LGD and EAD for each future month and for each individual exposure. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month). This effectively calculates an ECL for each future month, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The Lifetime PD is developed by applying a maturity profile to the current 12M PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the lifetime of the loans. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band. This is supported by historical analysis.

- 就攤餘產品及分段式還款貸款而言,其 按借款人於12個月期間及全期基準欠付 之合約還款。並會就預計全期貸款作出 調整。提早還款/再融資之假定亦納入 計算中。

- 就循環產品而言,違約風險承擔乃採用 資產負債表內風險承擔及按使用率估計 於違約時之已使用金額間之最大金額估 算。

違約損失率乃按違約後影響收回金額之參數 釐定。其包括抵押品類別及延伸估算之抵押 品價值、因強制出售之市場/賬面價值之過 往折讓、收回所需時間及可見之收回成本。

#### 3.2 Credit risk (Continued)

#### 3.2.2 Expected credit loss measurement (Continued)

# 3.2.2.3 Measuring ECL – Explanation of inputs, assumptions and estimation techniques (Continued)

The EADs are determined based on the expected payment profile, which varies by product type.

- For amortising products and bullet repayment loans, this is based on the contractual repayments owed by the borrower over a 12-month or lifetime basis. This will also be adjusted by expected lifetimes of loans. Early repayment/refinance assumptions are also incorporated into the calculation.
- For non-revolving products, the exposure at default is predicted by taking current drawn balance and adding a "credit conversion factor" on the undrawn limit which allows for the expected drawdown of the remaining limit by the time of default.
- For revolving products, the EAD is estimated by taking the maximum between the on-balance sheet exposure and the estimated utilised amount at default based on utilisation rate.

The LGDs are determined based on the factors which impact the recoveries made post default. These include collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed.

Forward-looking economic information is also included in determining the PD, EAD and LGD. Refer to Note 3.2.2.4 for an explanation of forward-looking information and its inclusion in ECL calculations.

The assumptions underlying the ECL calculation, such as how the maturity profile of the PDs and how collateral values change etc., are regularly monitored and reviewed.

# 3.2.2.4 Forward-looking information incorporated in the ECL models (Continued)

These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Expert judgement has also been applied in this process. Forecasts of these economic variables (the "base economic scenario") are provided by some economic research institutions and the in-house economic research team on a regular basis and provide the best estimate view of the economy over the next five years. For the economic variables out of the forecasting periods (i.e. after the next five years), the point-in-time default risk level at the last forecasting period is referenced to estimate the lifetime default risk level of each instrument. The impact of these economic variables on the PD and LGD has been determined by performing statistical regression analysis to understand the impact changes in these variables have had historically on default rates and loss rates.

The assessment of SICR is performed by considering either the change in credit quality, expert credit judgement and backstop indicator. This determines whether the whole financial instrument is in Stage 1 or Stage 2 and hence whether 12-month or lifetime ECL should be recorded. Following this assessment, the Group measures ECL as either a probability weighted 12-month ECL (Stage 1), or a probability weighted lifetime ECL (Stage 2). These probability-weighted ECLs are determined by running each scenario through the relevant ECL model and multiplying it by the appropriate scenario weighting.

Although the US interest rates started to drop in 2024, the impact on the local economy is yet to be observed as the pace and the magnitude of the rate cut is still uncertain, especially under the administration of the new US president. Meanwhile, in light of the lingering shadow cast by the credit quality issue of Mainland property developers, the Group has proactively managed related problem loans over the past few years. Looking ahead, the Group will continue to adopt appropriate assessment and risk management procedures in the measurement of ECL. This includes reviewing credit portfolios, considering different macroeconomic forecast scenarios, assessing the reasonableness of ECL models outputs, and evaluating the adequacy of ECL allowances.

In light of the rapidly changing retail banking landscape, the Group has proactively reviewed its ECL models throughout the past year, which led to a phased enhancement of specific model parameters, allowing for a more effective representation of the asset quality trends within the retail banking portfolio. Such enhancement will facilitate a more resilient measurement of ECL provisions.

## Economic variable assumptions

The Group relies on a broad range of forward-looking economic indicators as model inputs, such as the forecasts of macroeconomic factors ("MEFs") such as property price indices, GDP growth rates, unemployment rates, and interest rates. The selection of MEFs had gone through stringent statistical data tests commonly adopted by the industry as well as expert judgements to ensure that MEFs used in the ECL models are relevant to and reflective of the risk profile of the Group's credit portfolios while satisfying required quantitative standards.

The scenarios "base", "good" and "bad" were determined based on the underlying assumptions described in the below table. In particular, the "base" scenario makes reference to a set of macroeconomic forecasts obtained from different economic research institutions and the Group's economist. "Good" and "bad" scenarios were developed by referencing the MEFs in the "base" scenario, with appropriate adjustment to the upside and the downside potential variations taking into account the uncertainties in the forward-looking economic environments. The magnitude of adjustment were quantified based on historical movements of the MEFs observed through a long span of observed data covering peaks and troughs of past economic cycles.

### Scenario Underlying assumptions of the scenario

Base Forward-looking macroeconomic factors are a key component of the macroeconomic outlook. The base scenario is based on a set of macroeconomic forecasts which formulate a "base case" view of the most probable future direction of relevant economic variables.

This scenario is determined by making reference to the "base" scenario and reflects positive uncertainties by incorporating upside variations to the "base" scenario macroeconomic forecasts.

Bad This scenario is determined by making reference to the "base" scenario and reflects negative uncertainties by incorporating downside variations to the "base" scenario macroeconomic forecasts.

Members of the CMC as well as department heads of credit risk units put forth their most holistic view on the likelihood of occurrence, enabling the Group to generate an overall market outlook to determine the probability weightings assignment for the different scenarios. These probability weights in turn drove the forward-looking PD and LGD. To have further professional review and reasonableness checking, the Group's economist provided his overall view on whether the collective forecasted outcome is generally in line with his expectation. As a stringent measure, the summarized outcomes will be submitted to the CMC for final approval. These forward-looking PD and LGD are then used as input parameters in the expected credit loss model.

## 敏感度分析

影響預期信貸虧損準備的最主要假設如下:

- (i) 失業率,鑑於其對有抵押及無抵押借款 人履行合約還款能力的影響;
- (ii) 生產總值增長率,鑑於其對公司業績及 抵押品估值的重大影響;及
- (iii) 物業價格指數,鑑於其對按揭貸款抵押 品估值的重大影響。

Other forward-looking considerations not otherwise incorporated within the above scenarios, such as the impact of any regulatory, legislative or political changes, have also been considered, but are not deemed to have a material impact and therefore no adjustment has been made to the ECL for such factors. This is reviewed and monitored for appropriateness on a quarterly basis.

#### Sensitivity analysis

The most significant assumptions affecting the ECL allowance are as follows:

- (i) Unemployment rates, given its impact on secured and unsecured borrowers' ability to meet their contractual repayments;
- (ii) GDP growth rates, given the significant impact on companies' performance and collateral valuations; and
- (iii) Property price indexes, given the significant impact it has on mortgage collateral valuations.

#### 3.2.3 減輕風險及控制額度之政策

本集團已就個別借款人或交易對手集團、行業或國家設定框架管理及控制過度集中之風險。根據借款人或交易對手集團、行業或國家之既定風險額度,監察其風險狀況和向信貸委員會定期匯報。

借款人或交易對手集團之最高風險額度是以 資本額釐定,而行業之額度則與整體信貸組 合規模相對應並受監管限額的約束。國家之 額度乃參考國際評級機構對主權國之信貸評 級而設定。所有設定的額度旨在達至更為平 衡的組合。

就可無條件取消而不須預先通知之借貸承擔,當借款人的信貸素質轉差,本集團將會評估撤銷信貸額的需要性。據此,此等承擔並不對本集團構成重大信貸風險。

所有信貸決定,無論有否收取抵押品,皆取決 於客戶或交易對手的信貸資料、現金流量情 況及其還款能力。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

#### 3.2 Credit risk (Continued)

#### 3.2.3 Risk limit control and mitigation policies

The Group has an established framework to manage and control concentration risk with respect to individual borrower or counterparty group, industry or country. Exposure limits by borrower or counterparty group, industry or country are in place and their exposures are monitored and reported to credit committees regularly.

The large exposure limits to borrower or counterparty groups are capital based while the limits for industry are relative to the size of the overall credit portfolio and bounded by regulatory limit. Country limits are also set up with reference to the sovereign credit rating from international credit rating agencies. All these limits aim to achieve a more balanced portfolio.

To mitigate credit risk and where appropriate, the Group will obtain collateral to support the credit facility granted. To control credit risk exposure to counterparty arising from derivative positions, the Group limits its derivative dealings with approved financial institutions, and uses established market practices on credit support and collateral settlement to reduce credit risk exposure to derivative counterparties. Overall credit risk limit for individual financial institution counterparty, including valuation limit for derivatives, is approved by the GCC with reference to the financial strength and credit rating of individual counterparty. The acceptable types of collateral and their characteristics are established within the credit policies, as are the respective margins of finance. Enforceable legal documentation establishes the Group's direct, irrevocable and unconditional recourse to any collateral, security or other credit enhancements provided.

In relation to lending commitments that are unconditionally cancellable without prior notice, the Group would assess the necessity to withdraw the credit line in cases where the credit quality of a borrower deteriorates. Accordingly, these commitments do not expose the Group to significant credit risk.

Irrespective of whether collateral is taken, all credit decisions are based upon the customer's or counterparty's credit profile, cashflow position and ability to repay.

### (a) Loans and advances

The Group has guidelines on the acceptability of specific classes of collateral for securing loans and advances. The principal collateral types are:

- Mortgages over properties;
- Charges over business assets such as premises and accounts receivable;
- Charges over financial instruments such as debt securities and equities;
- Charges over deposits; and
- Charges over shares.

In addition, in order to minimise credit loss, the Group will, where possible, seek additional collateral from the borrower as soon as impairment indicators are noticed on relevant individual loans and advances.

## (b) Debt securities

Debt securities and treasury bills are generally unsecured, with the exception of asset-backed securities and similar instruments, which are secured by portfolios of financial instruments or underlying assets.

### (c) Derivatives

All counterparty credit risk for derivatives trading are managed as part of the credit risk control and monitoring process in respect of the counterparty including credit controls such as setting individual limit for valuation risk, daily settlement limits and performing periodic credit assessment. Moreover, the Group requires derivative contract counterparties to enter into International Swaps and Derivatives Association Agreement or analogous master agreement in order to follow the standardised market practice of close-out netting arrangement in the event of default or early termination and in accordance with the regulatory requirements.

Collateral arrangements with selected counterparties are also in place to limit our unsecured derivative exposures to these counterparties.

## 3.2.4 Write off policy

The Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include (i) ceasing enforcement activity and (ii) where the Group's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Group may write-off financial assets that are still subject to enforcement activity. The outstanding contractual amounts of such assets written off during the year ended 31 December 2024 was HK\$1,036 million (2023: HK\$1,160 million).

## 3.3 市場風險

市場風險乃指由市場上利率及價格不利變化而引致對資產、負債及資產負債表外持倉之虧損風險。

各類交易之市場風險均由董事會、風險管理 及合規委員會及財資及投資風險委員會按 董事會授予之權力所核准之各項風險限額及 指引內處理。風險限額按組合層面以及各產 品及不同風險類別設定。該等限額綜合包含 了名義金額、止蝕限額、敏感度及運用風險值 (「風險值」) 之監控。所有涉及市場風險的交 易持倉需要每日按市值入賬。集團風險部之 風險管理及監控部(「風險管理及監控部」)乃 一個獨立之風險管理及控制部門,負責比較 風險和已審批限額,以識別、計量、監控及管 理該等風險及提議具體行動去確保持倉被限 制在可接受水平內。任何不符合限額情況均 須依據有關政策及程序經合適管理層-財資 及投資風險委員會,風險管理及合規委員會 或董事會審查及批准。

大新銀行之附屬公司澳門商業銀行股份有限公司(「澳門商業銀行」)及大新銀行(中國)有限公司(「大新銀行(中國)」)根據其一套自定限額和政策及在大新銀行設定之市場風險管理框架內執行其本行之財資活動。大新銀行之風險管理及監控部監察源自澳門商業銀行及大新銀行(中國)財資營運之市場風險,確保已實施的風險控制與相關的業務同步並與集團的標準一致。

本集團源自其交易賬及銀行賬之市場風險應 用不同之風險管理政策及程序。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

#### 3.3 Market risk

Market risk is the risk of losses in assets, liabilities and off-balance sheet positions arising from adverse movements in market rates and prices.

Market risk exposure for different types of transactions is managed within various risk limits and guidelines approved by the Board, the RMCC and the TIRC under the authority delegated from the Board. Risk limits are set at the portfolio level as well as by products and by different types of risks. The risk limits comprise a combination of notional, stop-loss, sensitivity and value-at-risk ("VaR") controls. All trading positions are subject to daily mark-to-market valuation. The Risk Management and Control Department ("RMCD") within the GRD, as an independent risk management and control unit, identifies, measures, monitors and controls the risk exposures against approved limits and initiates specific actions to ensure positions are managed within an acceptable level. Any exceptions have to be reviewed and sanctioned by the appropriate level of management of TIRC, RMCC or the Board as stipulated in the relevant policies and procedures.

Banco Comercial de Macau, S.A. ("BCM") and Dah Sing Bank (China) Limited ("DSB China"), which are subsidiaries of DSB, run their treasury functions locally under their own set of limits and policies and within the market risk management framework set by DSB. The RMCD of DSB oversees the market risk arising from the treasury operations of BCM and DSB China to ensure that the risk controls put in place are commensurate with their businesses and consistent with the Group standards.

The Group applies different risk management policies and procedures in respect of the market risk arising from its trading and banking books.

## 3.3.1 源自交易賬之市場風險

本集團之交易賬內,在外匯、債務證券、權益 性證券及衍生工具之交易持倉中存在市場風 險。

## (甲) 市場風險計量方法

作為市場風險管理,本集團使用各種業界普遍採用之方法計量市場風險及控制市場風險於設定之風險額度範圍內。主要用於計量及監控市場風險之計量方法概述如下。

## (i) 風險值

本集團應用市場風險數值法,其乃一種以統計為基準就持作交易用途組合因市場不利變化預計潛在損失。其表明本集團於某個置信水平可能損失之最大數額,就一日持倉期之基準作推算,本集團之置信水平為99%。因此存在明確的統計概率,實際損失可能比市場風險數值之估計數為大。因此採納該方法並不能避免當市場狀況發生重大變化時超逾此等額度之損失。

市場風險數值模型假設某個持倉期 (就本集團而言為一天)直至結束 持倉。市場風險數值亦依據持倉之 現時市值、市場風險因素過往在一 個曆年週期之相互關係及波幅,使 用一種歷史模擬方法計算。

#### 3.3 Market risk (Continued)

## 3.3.1 Market risk arising from the trading book

In the Group's trading book, market risk is associated with trading positions in foreign exchange, debt securities, equity securities and derivatives.

## (a) Market risk measurement technique

In the management of market risk, the Group measures market risks using various techniques commonly used by the industry and control market risk exposures within established risk limits. The major measurement techniques used to measure and control market risk are outlined below.

#### (i) Value-at-risk

The Group applies a VaR methodology, which is a statistically based estimate, to measure the potential loss of its trading portfolio from adverse market movements. It expresses as the maximum amount the Group might lose given a certain level of confidence, which for the Group is 99% for a one day holding period. There is therefore a specified statistical probability that actual loss could be greater than the VaR estimate. Hence, the use of VaR does not prevent losses outside the VaR limits in the event of extreme market movements.

The VaR model assumes a certain "holding period" (one day in the case of the Group) until positions can be closed. It is calculated based on the current mark-to-market value of the positions, the historical correlation and volatilities of the market risk factors over an observation period of one calendar year using a method known as historical simulation approach.

#### (i) 風險值(續)

本集團藉著回顧測試交易賬之市場 風險數值結果,持續確認市場風險 數值模型之有效性。所有回顧測試 的偏差予以調查及向高層管理人員 匯報。

因市場風險數值為本集團之市場風險管理範疇內一重要環節,董事會及其授權之委員會就所有交易持倉設定不同市場風險數值額度及分配至各業務部門,並至少每年審閱。風險管理及監控部每天審視包括市場風險數值之實際風險與額度對比進行監控。本集團就年內全部交易活動之市場風險數值日均值為1,862,000港元(2023年:3,022,000港元)。

## (ii) 壓力測試

壓力測試之結果由董事會及其授權 之委員會定期審閱。

#### 3.3 Market risk (Continued)

## 3.3.1 Market risk arising from the trading book (Continued)

## (a) Market risk measurement technique (Continued)

### (i) Value-at-risk (Continued)

The VaR model is continuously validated by back-testing the VaR results for trading positions. All back-testing exceptions are investigated and back-testing results are reported to senior management.

As VaR constitutes an integral part of the Group's market risk control regime, VaR limits are established and reviewed by the Board and its delegated committees at least annually for all trading positions and allocated to business units. Actual exposures, including VaR, are monitored against limits on a daily basis by RMCD. Average daily VaR for the Group for all trading activities during the year was HK\$1,862,000 (2023: HK\$3,022,000).

## (ii) Stress tests

Stress tests provide an indication of the potential size of losses that could arise in extreme conditions. The stress tests carried out by RMCD include: risk factor stress testing, where stress movements are applied to each risk category; and scenario stress testing, which includes applying possible stress events to specific positions or portfolios. Besides, the expected shortfall of the trading portfolio is measured to evaluate the expected size of extreme trading loss beyond a specified confidence level and over a longer holding period. In addition, reversestress tests are performed as a useful tool to evaluate the maximum size of market stress that the Group can endure before hitting the prescribed tolerable levels.

The results of the stress tests are reviewed by the Board and its delegated committees regularly.

#### 3.3.2 Market risk arising from the banking book

In the Group's banking book, market risk is predominantly associated with positions in debt and equity securities.

## (a) Market risk measurement technique

Within the risk management framework and policies established by the Board and its delegated committees, various limits, guidelines and management action triggers are established to control the exposures of the Group's banking book activities to foreign exchange risk, interest rate risk, and price risk. In particular, position and sensitivity limits and price triggers are in place to control the price risk of the investment securities. In addition, sensitivity analysis and stress testing (including reverse-stress testing) covering shocks and shifts in interest rates on the Group's on-and offbalance sheet positions and credit spreads on the Group's investment securities are regularly performed to gauge the market risk inherent in the Group's banking book portfolios and manage it against the established control measures.

VaR methodology is not used to measure and control the market risk of the banking book.

## (乙) 非持作交易用途組合之敏感度分析

### (i) 外匯風險

除美元、澳門幣及人民幣外,本集團承擔的淨外匯風險十分有限,因為由客戶交易引致的外匯持倉及外匯結存,通常會與其他的客戶交易配對抵銷。非持作交易配對抵銷。非持作交易用途組合之澳門幣及人民幣匯兌風險主要來自中國內地及澳門之話與險主要來自中國內地及澳門之話,作交易用途及非持作交易用途之制度的分類,無論是個別貨幣或總體而言,每日皆由本集團財資及環球市場部控制在已制定的外匯限額內。

若用長期外幣資金融資港元資產, 反之亦然,通常會透過與遠期外匯 合約配對抵銷以減低外匯風險。

於2024年12月31日,倘所有其他變數 保持不變而港元對人民幣貶值100 個基點,本年度之除稅後溢利及權 益將增加31,000,000港元(2023年:增 加34,000,000港元),主要受惠於換算 人民幣資產時之外匯收益大於換算 人民幣負債時之外匯虧損。

相反地,倘所有其他變數保持不變而港元對人民幣升值100個基點,本年度之除稅後溢利及權益將減少31,000,000港元(2023年:減少34,000,000港元)。

## 3. FINANCIAL RISK MANAGEMENT (Continued)

#### 3.3 Market risk (Continued)

## 3.3.2 Market risk arising from the banking book (Continued)

### (b) Sensitivity analysis of non-trading portfolio

## (i) Foreign exchange risk

The Group has limited net foreign exchange exposure (except for USD, Macau Pataca ("MOP") and Renminbi ("RMB")) as foreign exchange positions and foreign currency balances arising from customer transactions are normally matched against other customer transactions or transactions with the market. Foreign exchange exposure of the non-trading portfolio in respect of MOP and RMB arise mainly from the operation of subsidiaries in Mainland China and Macau. The net exposure positions including the trading and non-trading portfolios, both by individual currency and in aggregate, are managed by the Treasury and Global Markets Division of the Group on a daily basis within established foreign exchange limits.

Long-term foreign currency funding, to the extent that this is used to fund Hong Kong dollar assets, or vice versa, is normally matched using foreign exchange forward contracts to reduce exposure to foreign exchange risk.

At 31 December 2024, if HK\$ had weakened by 100 basis points against RMB with all other variables held constant, the profit after tax for the year and equity would have been HK\$31 million higher (2023: HK\$34 million higher), mainly as a result that the foreign exchange gain on translation of RMB denominated financial assets outweighed the foreign exchange losses on translation of RMB denominated financial liabilities.

Conversely, if HK\$ had strengthened by 100 basis points against RMB with all other variables held constant, the profit after tax for the year and equity would have been HK\$31 million lower (2023: HK\$34 million lower).

## (乙) 非持作交易用途組合之敏感度分析 (續)

### (ii) 利率風險

本集團採納用以計量源自銀行賬持 倉的利率風險額之框架與載於香港 金管局之《監管政策手冊》(「《監管 政策手冊》」)內有關銀行賬內的利 率風險(「銀行賬內的利率風險」)之 指引一致。就盈利觀點而言,利率 風險乃由於市場利率變化而導致金 融工具源自未來現金流之淨收入波 動之風險。就經濟價值觀點而言, 利率風險則為由於市場利率變化而 導致金融工具之經濟價值受到不 利的影響。本集團就銀行賬承擔以 上兩方面之利率風險。就此而論, 息差或淨利息收入及資本之經濟價 值可能由於此等變化或突如其來之 變化而上升或下跌。董事會及資產 及負債管理委員會(「資產及負債管 理委員會」) 就可能承擔之重訂利率 錯配水平設定額度及透過情境分析 及壓力測試定期監控利率變化之影 響。

#### 3.3 Market risk (Continued)

## 3.3.2 Market risk arising from the banking book (Continued)

## (b) Sensitivity analysis of non-trading portfolio (Continued)

### (ii) Interest rate risk

The framework adopted by the Group to measure interest rate risk exposures arising from its banking book positions is consistent with the guidelines set out by the HKMA in its Supervisory Policy Manual ("SPM") on Interest Rate Risk in the Banking Book ("IRRBB"). From an earnings perspective, interest rate risk is the risk that the net income arising from future cash flows of a financial instrument will fluctuate because of changes in market interest rates. From an economic value perspective, interest rate risk is the risk that the economic value of a financial instrument will undergo adverse impact because of changes in market interest rates. The Group takes on interest rate risk from both perspectives in the banking book. As such, the interest margins or net interest income and the economic value of the capital may increase or decrease as a result of such changes or in the event that unexpected movements arise. The Board and the Asset and Liability Management Committee ("ALCO") set limits on the level of mismatch of interest rate repricing that may be undertaken and monitor the interest rate impacts through scenario analysis and stress testing regularly.

#### 3.3.2 源自銀行賬之市場風險(續)

## (乙) 非持作交易用途組合之敏感度分析 (續)

### (ii) 利率風險(續)

於2024年12月31日,倘所有其他變數保持不變而港元及美元之市場利率於香港金管局要求的標準平行向上的情景下平行震盪向上200個基點,對未來12個月之盈利及股權之經濟價值之影響將分別為增加105,000,000港元及減少981,000,000港元(2023年:分別為增加201,000,000港元及減少775,000,000港元)。

上述於2024年及2023年應用在外匯風險 及利率風險之敏感度分析方法及假設基 準皆大致相同。

除了外匯風險及利率風險,本集團之債務 證券及權益性證券投資亦面對因其他因 素所產生的風險。故此,因應不同的因素 包括流動性風險、市場狀況及其他可能影 響個別或組合投資風險敞口之事件,此等 投資的價值可以出現重大的變化。

## 3.3.2 Market risk arising from the banking book (Continued)

### (b) Sensitivity analysis of non-trading portfolio (Continued)

#### (ii) Interest rate risk (Continued)

At 31 December 2024, if HK\$ and US\$ market interest rates had experienced a 200 basis points parallel up shock under the HKMA's standard parallel up scenario, with other variables held constant, the impact on earnings over the next 12 months and the impact on economic value of equity would have been HK\$105 million higher and HK\$981 million lower respectively (2023: HK\$201 million higher and HK\$775 million lower respectively).

The method and assumptions used in the above sensitivity analysis on foreign exchange risk and interest rate risk are broadly on the same basis for both 2024 and 2023.

In addition to foreign exchange risk and interest rate risk, the Group's investments in debt securities and equity securities are also exposed to risks arising from other factors. Consequently, the value of such investments could change significantly depending on a variety of factors including liquidity risk, market sentiment and other events that might affect individual or portfolios of exposures.

## 3.4 流動性風險

流動性風險乃指本集團未能在不衍生不可接 受之損失的情況下為新增的資產融資或就到 期之金融負債履行付款責任。

#### 3.4.1 流動性風險管理程序

本集團按審慎原則管理資金流動性,旨在符合法定準則及確保有充足之流動性及融資能力,以應付日常的業務營運及能承受嚴重資金壓力。本集團已採納香港金管局指定之流動資產維持比率(「流動資產維持比率」)及核心資金比率(「核心資金比率」)為呈報本集團流動資金狀況之監管準則。本集團於期內保持流動資產維持比率及核心資金比率遠高於法定最低要求的分別為25%及75%。

此外,本集團已根據香港金管局《監管政策手冊》LM-1「流動性風險監管制度」及《監管政策手冊》LM-2「穩健的流動性風險管理制度及管控措施」之規定維護健全的流動性風險管理框架。《監管政策手冊》LM-1旨在提供香港金管局採納用以監管及評估銀行流動性風險之方法,而《監管政策手冊》LM-2乃為實施巴塞爾銀行監管委員會(「巴塞爾委員會」)所確立之健全流動性原則而制定,旨在強化銀行的流動性風險管理標準。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

### 3.4 Liquidity risk

Liquidity risk is the risk that the Group is unable to fund increases in assets or meet its payment obligations associated with its financial liabilities when they fall due without incurring unacceptable loss.

#### 3.4.1 Liquidity risk management process

The Group manages its liquidity on a prudent basis with the objective to comply with the statutory standards and to ensure that there is an adequate liquidity and funding capacity to meet normal business operations and to withstand severe liquidity stresses. The Group has adopted the Liquidity Maintenance Ratio ("LMR") and the Core Funding Ratio ("CFR") as the regulatory standards specified by the HKMA for reporting on the Group's liquidity position. During the period, the Group had maintained sufficiently high LMR and CFR well above the statutory minimum of 25% and 75% respectively.

Moreover, the Group has maintained a sound liquidity risk management framework in accordance with the HKMA's requirements set forth in the SPM LM-1 on "Regulatory Framework for Supervision of Liquidity Risk" and the SPM LM-2 on "Sound Systems and Controls for Liquidity Risk Management". The SPM LM-1 is to provide the approach adopted by the HKMA for supervising and assessing the liquidity risk of banks while the SPM LM-2 is developed to implement the liquidity sound principles formulated by the Basel Committee on Banking Supervision ("Basel Committee") to strengthen the liquidity risk management standards of banks.

## 3.4 流動性風險(續)

#### 3.4.1 流動性風險管理程序(續)

流動性風險管理乃遵照經董事會批准之政策 及框架管理,據此授權本集團的資產及負債 管理委員會監控流動性風險管理。本集團的 資產及負債管理委員會定期檢討本集團之貸 款及存款的組合及變化、融資需求及預測,以 及對一系列包括流動性維持比率、核心資金 比率及到期錯配狀況之流動性風險度量作持 續監控。此外,資產及負債管理委員會審閱流 動性風險指標的重大變化以及任何相應的建 議緩解措施。本集團對此等風險度量訂定適 當的限額及觸發額,並持有充足的流動資產 以確保能保持足夠水平的穩定資金以支持其 資產增長。財資及環球市場部負責資金及流 動性狀況之日常管理,而集團風險部負責每 日及每月計量及監控流動性的風險敞口,亦 進行流動性分析及壓力測試。財務監理處則 處理有關流動性風險之監管報告,並組織編 製貸款與存款以及流動性維持比率、核心資 金比率的定期預測、預算和與流動性及資金 管理有關之分析。

本集團高度重視建立多樣化及穩定的資金來源。除了客戶存款為本集團的資金之基本部份,本集團亦適時發行存款證及中期票據藉以延長資金的融資年期及優化資產及負債之年期。在有限制的基礎下,亦會吸納短期銀行同業存款以維持在市場上的佔有率為目標。本集團乃銀行同業市場的淨放款人。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

#### 3.4 Liquidity risk (Continued)

## 3.4.1 Liquidity risk management process (Continued)

Liquidity risk management is governed by the policy and framework approved by the Board, which delegates to the Group's ALCO to oversee liquidity risk management. The ALCO regularly reviews the Group's loan and deposit mix and changes, funding requirements and projections, and monitors a set of liquidity risk metrics, including the LMR, CFR and maturity mismatch on an ongoing basis. In addition, material changes in the liquidity risk metrics together with any corresponding proposed mitigation actions will be reviewed by ALCO. Appropriate limits or triggers on these risk metrics are set and sufficient liquid assets are held to ensure that the Group can maintain a sufficient level of stable funding to support its asset growth. The Treasury and Global Markets Division is responsible for the day-to-day management of funding and liquidity position while the GRD is responsible for the measurement and monitoring of liquidity risk exposures on a daily and monthly basis, and also conducting liquidity analysis and stress testing. The Financial Control Division handles regulatory reporting in relation to liquidity risk, and coordinates the regular forecast of loans and deposits, and LMR, CFR, budget and analysis relating to liquidity and funding management.

The Group places considerable importance to establish a diversified and stable funding. While customer deposits form the primary portion of the Group's funding, certificates of deposit and medium term notes are issued at opportune times in order to lengthen the funding maturity and optimise asset and liability maturities. Short-term interbank deposits are taken on a limited basis with the aim of maintaining the presence in the market and the Group is a net lender to the interbank market.

## 3.4 Liquidity risk (Continued)

## 3.4.1 Liquidity risk management process (Continued)

The monitoring and reporting take the forms of cash flow measurements and projections for different time horizons, including the next day, week and month, which are key periods for liquidity management. The starting point for those projections is an analysis of the contractual maturity of the financial assets and liabilities as well as the expected maturity of these assets and liabilities based on historical observations. The cash flow projections also take into account the historical behaviour of offbalance sheet items, including undrawn lending commitments and contingent liabilities such as standby letters of credit and guarantees. The Group always maintains an adequate liquidity cushion, which is composed of high quality marketable securities with sufficient market depth to meet its liquidity needs at all times, even under adverse market conditions. Eligible securities in the cushion mainly have low risk and simple structure and can be readily sold or used as collateral to obtain funds within a short period of time. Debt securities held are marked to the market on daily basis to ensure their market liquidity.

## 3.4.1 Liquidity risk management process (Continued)

The Group performs stress testing regularly, which includes an institution-specific crisis scenario, a general market crisis scenario and a combination of these crisis scenarios in order to assess the potential impact on its liquidity position under stressed market conditions. The Group maintains a set of early warning indicators, including qualitative and quantitative factors and involving both internal and market indicators that help identify any emerging risk at an early stage. The Group maintains a contingency plan that sets out its strategies for dealing with liquidity stresses and the procedures for making up cash flow deficits (e.g. conducting repo transactions or liquidation of assets held for liquidity risk management purpose) in emergency situations. An annual drill test is conducted and the contingency plan is reviewed at least annually to ensure it remains sound and effective. Intragroup transactions are conducted on arm's length basis and are treated the same way as other third party transactions for the purpose of cash flow projection under normal scenario. Subsidiaries of the Group are required to manage their liquidity positions to meet their needs under both normal and stressed conditions. Most of the Group's derivative transactions are exchange rate contracts and interest rate contracts. Under the terms of our collateral arrangements with derivative counterparties, collateral movements are not linked with the credit ratings of the Group.

資產與負債期限及利率的相配和受控的錯配 對集團管理層十分重要。由於進行的業務交 易經常有不確定的期限及不同類別,對銀行 而言,完全相配的情況並不普遍。不相配的持 倉既可能提高盈利能力,但也會增加虧損風 險。

資產與負債的到期日及以合理的成本替代到 期之附息負債的能力,是評估集團流動資金 及其因利率及匯率變動所承擔風險的重要因 素。

因集團一般不預期第三方會根據有關協議全數動用資金,應付擔保和備用信用證項下所需款項的流動資金需求遠少於承擔的金額。由於很多信貸承擔於到期或終止日毋須動用資金,因此用於提供信貸之信貸承擔的未償付合約總金額未必等同日後的現金需求。

The matching and controlled mismatching of the maturities and interest rates of assets and liabilities are fundamental to the management of the Group. It is unusual for banks to be completely matched, as businesses transacted are often of uncertain term and of different types. An unmatched position potentially enhances profitability, but also increases the risk of losses.

The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest-bearing liabilities as they mature are important factors in assessing the liquidity of the Group and its exposure to changes in interest rates and exchange rates.

Liquidity requirements to support calls under guarantees and standby letters of credit are considerably less than the amount of the commitment because the Group does not generally expect the third parties to fully draw funds under the agreement. The total outstanding contractual amount of commitments to extend credit does not necessarily represent future cash requirements, as many of these commitments will expire or terminate without being funded.

### 3.5 金融資產及負債之公平值

## (甲) 公平值之釐定

公平值受限於須由董事會負責確保本集團有適當的估值管治及控制程序之控制框架。董事會授權財資及投資風險委員會監管金融工具之估值程序。估值由風險管理及監控部和獨立專業合資格估值師及精算師(如適用)獨立地進行,而估值結果乃定期驗證,確保公平值計量過程之完整性。

金融工具之公平值乃在目前市場情況下市場參與者於計量日進行之有序交易中出售資產所收取或轉移負債所支付之價格,不論該價格為直接可觀察或使用估值方法估計。

#### Note:

The balances of loan commitments and guarantees and standby letters of credit by maturities reported for the position of 31 December 2023 have been revised to conform with current year's presentation.

### 3.5 Fair values of financial assets and liabilities

## (a) Determination of fair value

Fair values are subject to a control framework that the Board is held responsible for ensuring proper valuation governance and control processes of the Group. It delegates the responsibility for overseeing the valuation process for financial instruments to the TIRC. Valuation is performed independently by RMCD and where appropriate, by independent and professionally qualified valuers and actuaries and the valuation results are periodically verified to ensure the integrity of the fair value measurement process.

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using a valuation technique.

## 3.5 金融資產及負債之公平值(續)

#### (甲) 公平值之釐定(續)

凡金融工具之報價隨時且定期由交易所、交易商、經紀人、行業組織、定價服務及監管機構發布,則被視作為活躍市場報價之金融工具。於活躍市場之報價為公平值提供最可靠之證據,並須於可獲得時使用。倘金融資產或金融負債有買入價及賣出價,本集團將採用買賣差價中在該等情況下最能代表公平值之價格。

倘金融工具之可觀察市場報價未能直接獲得,本集團利用合適及獲廣泛認可之估值方法估計該等金融工具之公平值,包括現值方法及標準期權定價模型。於應用該等金融工具之估值方法時,本應用該等金融工具之估值方法時,本條團盡最大限度使用相關可觀察依據。例如:利率、匯率、波動性、信貸息差),而盡最少限度使用不可觀察依據。例如盡最少限度使用不可觀察依據。例如表達期合約之公平值按估計的未來現值一般根據現行遠期匯率計算,而期權合約之公平值則按合適之定價模型計算,如Black-Scholes模型。

本集團使用外間報價及其本身信貸息差,以釐定其金融負債及已選擇以公平值計量之其他負債之現值。倘本集團之信貸息差擴闊,負債之價值下降,本集團會確認該等負債之收益。倘本集團之信貸息差收窄,負債之價值上升,本集團會確認相對該等負債之虧損。

如有需要,用於計量程序之價格數據及 參數會被仔細覆核及調整才應用,其中 尤其需要考慮當前的市場發展情況。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

#### 3.5 Fair values of financial assets and liabilities (Continued)

### (a) Determination of fair value (Continued)

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency. A quoted price in an active market provides the most reliable evidence of fair value and shall be used whenever available. If a financial asset or a financial liability has a bid price and an ask price, the price within the bid-ask spread that is most representative of fair value in the circumstances is used by the Group.

Where observable market quotation of financial instruments is not directly available, the Group estimates the fair value of such financial instruments by using appropriate valuation techniques that are widely recognised including present value techniques and standard option pricing models. In applying valuation techniques for these financial instruments, the Group maximises the use of relevant observable inputs (for examples, interest rates, foreign exchange rates, volatilities, credit spreads) and minimises the use of unobservable inputs. For example, the fair value of interest rate swaps is calculated as the present value of the estimated future cash flows, the fair value of foreign exchange forward contracts is generally based on current forward rates and the fair value of option contracts is derived using appropriate pricing models, such as Black-Scholes model.

The Group uses external price quotes and its own credit spreads in determining the current value of its financial liabilities and other liabilities for which it has elected the fair value option. When the Group's credit spreads widen, the Group recognises a gain on these liabilities because the value of the liabilities has decreased. When the Group's credit spreads narrow, the Group recognises a loss on these liabilities because the value of the liabilities has increased.

Price data and parameters used in the measurement process are reviewed carefully and adjusted, if necessary, to take consideration of the current market developments.

#### (乙) 公平值等級

本集團使用下列反映在釐定公平值中可 觀察及不可觀察參數重要性之體系計量 公平值:

## 級別 內容

- 1 相同資產或負債於活躍市場中 之報價(未經調整)。本級別包 括於交易所上市之權益性證券 及衍生工具。
- 2 除第1級別所包括之報價外,其 他資產或負債能直接(即價格) 或間接(即從價格導出)地可觀 察之數據,該級別包括大多數 場外交易衍生工具合約。該級 別之金融工具可通過具活躍市 場近似金融工具報價、非活躍 市場的同等或類近的金融工具 報價,及通過具可觀察重要參 數的模型釐定金融產品的公平 值。
- 3 資產或負債數據並非根據可觀察之市場數據(不可觀察之數據)。本級別包括具有大部份不可觀察部件之權益性及債務證券。

## 3.5 Fair values of financial assets and liabilities (Continued)

## (b) Fair value hierarchy

The Group measures fair values using the following hierarchy that reflects the significance of the observable and unobservable inputs used in the fair value measurement:

## **Level Descriptions**

- 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities. This level includes equity securities and derivatives that are listed on exchanges.
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). This level includes the majority of the OTC derivative contracts. These are financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs). This level includes equity and debt securities with significant unobservable components.

## (b) Fair value hierarchy (Continued)

Assets and liabilities measured at fair value: (Continued)

#### Recurring fair value measurements (Continued)

Financial assets classified as Level 3 assets represent investments in equities securities and investment funds issued by unlisted entities. The investments in equities securities were acquired some years ago when the Group applied to join the platforms or cooperative arrangements operated by the relevant entities in areas such as international financial messaging, cross-border payments, credit cards issuance, etc. which are essential to the provision of banking services by the Group. The investment funds represented the Group's interest in a venture capital.

The unlisted equity investments are measured using valuation techniques of market comparable companies or recent transaction. The significant unobservable inputs and their range applied in the fair values measurement of the Group's of unlisted equity investments includes price-to-earnings ratio ("PE ratio") of the comparables of 20.41x to 44.85x. As at 31 December 2024, if all of the significant unobservable inputs favourably changed and unfavourably changed by 5%, the Group's other comprehensive income would have increased by HK\$78 million (2023: HK\$87 million) and decreased by HK\$78 million (2023: HK\$87 million) respectively. The unlisted investment funds are measured at net assets value.

For the year ended 31 December 2024 and 31 December 2023, there were no transfers of financial assets and liabilities into or out of the Level 1, Level 2 and Level 3 fair value hierarchy. The changes in carrying value represent the revaluation gains/losses during the year. There was no addition or disposal during the year.

## (c) Financial instruments not measured at fair value

The following methods and significant assumptions have been applied in determining the fair values of financial instruments presented below:

#### (i) Cash and balances and placements with banks

The fair value of floating rate placements and overnight deposits is their carrying amount. The estimated fair value of fixed interest bearing deposits is based on discounted cash flows using prevailing money-market interest rates for debts with similar credit risk and remaining maturity.

## (ii) Loans and advances to customers, and trade bills

The estimated fair value of loans and advances and trade bills represents the discounted amount of estimated future cash flows expected to be received. Expected cash flows are discounted at current market rates to determine fair value.

## (iii) 以攤餘成本列賬的金融資產

證券投資包含包括在攤餘成本類別 之附息資產。攤餘成本資產之公平 值乃依據市場價格或經紀/交易商 報價。倘未有此等資料,公平值之 計量乃採用附有相同信貸、到期日 及收益等特性的證券市場之報價。

## (iv) 銀行存款、客戶存款及已發行 的存款證

無註明到期日之存款,包括不附息存款,其公平值為即時付還之數額。未有活躍市場報價之固定利息存款及其他借款,其公平值之計量乃根據採用附有相同剩餘到期日之新債務息率計算之貼現現金流。

## (v) 後償債務

就未有市場報價之證券而言,則採 用適合到期日剩餘時間之當前收益 曲線及/或信貸息差以現值方法來 估計公平值。

# (c) Financial instruments not measured at fair value (Continued)

#### (iii) Financial assets at amortised cost

Investment securities include interest-bearing assets included in the amortised cost category. Fair value of amortised cost assets is based on market prices or broker/dealer price quotations. Where this information is not available, fair value is estimated using quoted market prices for securities with similar credit, maturity and yield characteristics.

# (iv) Deposits from banks, deposits from customers and certificates of deposit issued

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand. The estimated fair value of fixed interest-bearing deposits and other borrowings not quoted in an active market is based on discounted cash flows using interest rates for new debts with similar remaining maturity.

## (v) Subordinated notes

For those notes where quoted market prices are not available, the present value technique is used based on current yield curve and/or credit spread appropriate for the remaining term to maturity to estimate fair value.

## 3.6 Capital management

The Group's objectives when managing capital are:

- To comply with the capital requirements set by the banking and insurance regulators in the markets where the entities within the Group operate;
- To safeguard the Group's ability to continue its business as a going concern;
- To maximise returns to shareholders and optimise the benefits to other stakeholders; and
- To maintain a strong capital base to support the development of its business.

#### 3.6.1 Banking business

Capital adequacy of and the use of regulatory capital by the Group's Hong Kong banking subsidiary is monitored regularly by the Group's management, employing techniques based on the guidelines developed by the Basel Committee, as implemented by the HKMA, for supervisory purposes. The required information is filed with the HKMA on a quarterly basis.

Under the regulatory framework in Hong Kong, DSB is required to meet three capital ratios, namely, the Common Equity Tier 1 capital, Tier 1 capital and Total capital respectively against risk-weighted assets. The internationally agreed minimum of these three ratios are set at 4.5%, 6.0% and 8.0% respectively and are adopted by the HKMA. In order to comply with HKMA's requirements as stated in the SPM CA-G-5 on "Supervisory Review Process", DSB is required to set further buffers, to reflect material risks not included in the minimum regulatory capital calculation, arising from regulator's requirements, internal assessment of risks and the results of stress tests under the Pillar II capital requirement. In addition, DSB is required to fulfil the capital conservation buffer and counter-cyclical capital buffer requirements set by the HKMA. Likewise, the Leverage Ratio forms part of Basel III implementation and the required information is submitted to the HKMA on quarterly basis. In line with the international standards, the minimum Leverage Ratio is set at 3% by the HKMA.

澳門商業銀行及大新銀行(中國)分別向澳門金管局及國家金融監督管理總局按季度呈報所需資料。澳門金管局規定澳門商業銀行以及國家金融監督管理總局規定大新銀行(中國)各須維持其自有資本或資本基礎對風險加權總額之比率(即資本充足比率)不低於法定要求之最低水平8%。

本集團若干非銀行附屬公司亦須遵循其他監管機構(例如:證券及期貨事務監察委員會) 之法定資本規定。

#### 3. FINANCIAL RISK MANAGEMENT (Continued)

## 3.6 Capital management (Continued)

### 3.6.1 Banking business (Continued)

Risk-weighted amount is the aggregate of the risk-weighted amounts for credit risk, market risk and operational risk, and covers both on-balance sheet and off-balance sheet exposures. On-balance sheet exposures are classified according to the obligor or the nature of each exposure and risk-weighted based on the credit assessment rating assigned by an external credit assessment institution recognised by the HKMA or other rules as set out in the Banking (Capital) Rules, taking into account the capital effects of credit risk mitigation. Off-balance sheet exposures are converted into credit-equivalent amounts by applying relevant credit conversion factors to each exposure, before being classified and risk-weighted as if they were on-balance sheet exposures.

The principal forms of capital included in the balances on the consolidated statement of financial position are share capital, retained profits, other equity instruments and other reserves. Capital also includes collective provisions and regulatory reserve for general banking risks as allowed under the Banking (Capital) Rules.

Capital adequacy of and the use of regulatory capital by the Group's Macau banking subsidiary, BCM, and banking subsidiary in Mainland China, DSB China, are monitored regularly by the Group's management, employing techniques based on the guidelines provided by the Autoridade Monetária de Macau ("AMCM") and the National Financial Regulatory Administration ("NFRA") respectively for supervisory purposes.

The required information is filed by BCM with the AMCM and by DSB China with the NFRA on a quarterly basis. The AMCM requires BCM and the NFRA requires DSB China to maintain a ratio of own funds or capital base to total risk-weighted exposures (i.e. the capital adequacy ratio) not lower than the required statutory minimum of 8%.

Certain non-banking subsidiaries of the Group are also subject to statutory capital requirements from other regulatory authorities, such as the Securities and Futures Commission.

#### 3.6 資本管理(續)

#### 3.6.2 保險業務

於本集團之附屬保險公司經營的各個市場內,當地保險監管機構規定除計算保險負債外,各附屬公司必須保持資本之最低金額及類型,並須於全年任何時間維持該最低資本要求。本集團之附屬公司須受其發出保險及投資合約之市場之保險償付能力法規監管,且已遵守當地之償付能力法規。本集團已於其資產負債管理架構內設立合適之測試,以在保險公司之償付能力要求須遵照當地規定,而各司法管轄區之規定可能相異。

## 3.7 受託業務

本集團提供託管人、受託人、財富管理及諮詢服務予第三者,當中涉及本集團就不同之金融工具作出分配及交易決定。此等以受信身份持有之資產,並不列入本集團之綜合財務報表。此等服務可引致本集團被追索錯誤管理之風險。

#### 3.8 保險風險

本集團已建立風險偏好框架,並設定風險承受限額以控制其營運中承擔的風險類型及數值。本集團透過其承保策略、風險管理系統及再保安排管理保險風險。

本集團承受出現天災或意外的集中風險。本 集團尋求多元化承保策略及按過往年度類同 風險制定產品組合,以確保擁有均衡之組合, 故本集團認為此能減低風險後果的可變性。 保費乃以與承保有關風險之相應合適水平來 釐定。本集團設有企業水平之自留額度,並 以臨時再保險及合約再保險安排再保超額風 險。

在承保過程中,本集團可能會受某一特定或 連串事件影響,令賠付責任的風險過分集中。 此情況可能因單一或少量相關之保險合約所 產生,而導致賠付責任大增。

## 3. FINANCIAL RISK MANAGEMENT (Continued)

#### 3.6 Capital management (Continued)

#### 3.6.2 Insurance business

In each market in which the Group's insurance subsidiaries operate, the local insurance regulator specifies the minimum amount and type of capital that must be held by each of the subsidiaries in addition to their insurance liabilities. The minimum required capital must be maintained at all times throughout the year. The Group's subsidiaries are subject to insurance solvency regulations in the markets in which they issue insurance and investment contracts, and where they have to comply with the local solvency regulations. The Group has embedded in its asset and liability management framework the necessary tests to ensure continuous and full compliance with such regulations. The solvency requirement of each insurance company in each market is subject to local requirements, which may differ from jurisdiction to jurisdiction.

#### 3.7 Fiduciary activities

The Group provides custody, trustee, wealth management and advisory services to third parties, which involve the Group making allocation and purchase and sale decisions in relation to a variety of financial instruments. Those assets that are held in a fiduciary capacity are not included in the consolidated financial statements. These services could give rise to the risk that the Group could be accused of mal-administration.

#### 3.8 Insurance risk

The Group has established a risk appetite framework with risk tolerance limits set to control the types and amount of risk to take in its operations. It manages insurance risk through its underwriting strategy, risk monitoring and management system and reinsurance arrangements.

The Group is subject to concentration risk arising from natural disasters accidents. The Group's underwriting strategy seeks diversity to ensure a balanced portfolio and is based on a portfolio of similar risks over a number of years and, as such, it is believed that this reduces the variability of the outcome. Premium pricing is set at an appropriate level that corresponds with the underlying exposure of the risks underwritten. The Group has a companywide retention limit on risks and reinsures the excess of risks under facultative and treaty reinsurance arrangement.

Within the insurance process, concentrations of risk may arise where a particular event or series of events could impact heavily upon the Group's liabilities. Such concentrations may arise from a single insurance contract or through a small number of related contracts, and relate to circumstances where significant liabilities could arise.

本集團作出之估計及假設將會影響下一財政年度內列報資產及負債之金額。本集團會根據過往經驗及其他因素,包括在某些情況下,對未來事項作出認為是合理的預期,並持續地評估所作出之估計及判斷。估計及假設之財內業績之之變可能對本集團於作出改變之期內業績之一,可能影響本集團將來之溢,可能影響本集團將來之溢到及假設之變對本集團呈報之資產和計及假設之改變對本集團呈報之資產及負債之敏感度影響後,深信所採納之估計及假設乃屬合適和合理,及呈列在本集團之綜合財務報表內之財務業績和狀況在所有重要性方面是公平及合理。

#### (甲) 預期信貸虧損準備的計量

按攤餘成本計量及以公平值計量且其變動計入其他全面收益之金融資產的預期信貸虧損準備的計量乃是需要應用複雜模型及有關未來經濟狀況和信貸行為(例如客戶違約之可能性及引致之損失)的重大假設之範疇。用以解釋計量預期信貸虧損的參數、假設及估計方法在附註3.2.2中進一步詳細說明,其中還列出了預期信貸虧損對這些要素變化的主要敏感度。

應用會計規定以計量預期信貸虧損需要若干重大判斷,例如:

- 釐定信貸風險大幅增加之準則;
- 選擇合適之模式及假設以用作計量預期 信貸虧損;
- 就各類產品/市場建立前瞻性情境數目 及相對加權值相關的預期信貸虧損;及
- 建立相近類別金融資產的組別作計量預期信貸虧損用途。

有關本集團於上述範疇作出的判斷及估計的 詳細資料載於附註3.2.2。

## 4. CRITICAL ACCOUNTING ESTIMATES, AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Changes in estimates and assumptions may have a significant impact on the results of the Group in the periods when changes are made. The application and selection of different estimates and assumptions, and their subsequent changes, could affect the Group's profit and net asset value in the future. The Group, based on its high-level assessment of the sensitivity impacts on the reported assets and liabilities of the Group arising from the changes in critical accounting estimates and assumptions, believes that the estimates and assumptions adopted are appropriate and reasonable, and the financial results and positions presented in the consolidated financial statements are fair and reasonable in all material respects.

#### (a) Measurement of the ECL allowance

The measurement of the ECL allowance for financial assets measured at amortised cost and FVOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 3.2.2, which also sets out key sensitivities of the ECL to changes in these elements.

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forwardlooking scenarios for each type of product/market and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

Detailed information about the judgements and estimates made by the Group in the above areas is set out in Note 3.2.2.

# **4.** 應用會計政策時之重要會計估計及判 斷(續)

#### (乙) 金融工具之公平值

本集團按公平值列賬之債務證券投資大部份 是依據公開之市場報價計量。本集團在採納 經判斷為最恰當報價作估值價時,根據其參 考對一系列可觀察到之報價、近期之交易價、 報價來源之可信性和素質、及相同類別證券 價格之評估。對於非上市權益性投資,需要管 理層之判斷和估計以選擇合適的估值參數、 假設及模型方法。

於呈報日之金融工具之公平值的賬面值載於 附註20、21及23。

#### (丙) 商譽及無形資產之減值

於業務合併中,繼初始確認商譽及無形資產 後,任何有關用於無形資產未來可產生收益 之假設之重大變動,包括被收購之企業之未 來收益現金流量,或因市場環境及前景的重 大改變而影響貼現率,將對此資產之賬面價 值作出調整。倘在某些情況下,無形資產及商 譽預期可收回之金額較其賬面價值為低,則 須確認該資產的減值。

於呈報日之商譽及無形資產的賬面值載於附 註28。

# 4. CRITICAL ACCOUNTING ESTIMATES, AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES (Continued)

#### (b) Fair value of financial instruments

A majority of the Group's investments in debt securities carried at fair value are valued based on observable market quotations. The Group applies judgement in selecting the most appropriate quotation for valuation purposes based on its assessment of the range of observable quotations, recent observable transactions, the reliability and quality of the pricing source, and the value of securities of a similar nature. For unlisted equity investments, management judgement and estimates are required for the selection of appropriate valuation parameters, assumptions and modelling techniques.

The carrying amounts of the financial instruments measured at fair value at reporting date are shown in Note 20, 21 and 23.

#### (c) Impairment of goodwill and intangible asset

For business combinations, subsequent to initial recognition of goodwill and intangible assets, any major change in the assumptions in relation to future benefits to be generated from the intangible assets, including future cash flow of benefits to be generated from the acquired entities, or discount rates which could be caused by major changes in market conditions and outlook, could result in adjustments to the carrying values of such assets. In the event that the expected recoverable amounts of goodwill and intangible assets are significantly lower than their carrying values, impairment of such assets would have to be recognised.

The carrying amounts of goodwill and intangible asset at reporting date are shown in Note 28.

# **4.** 應用會計政策時之重要會計估計及判 斷(續)

# (丁) 投資於聯營公司,重慶銀行(「重慶銀行」) 之減值評估

本集團根據香港會計準則第36號《資產減值》 對於重慶銀行之投資進行減值評估。

該評估就投資之賬面值比較管理層估量之使 用價值與扣除出售費用後之公平值比較之高 者。使用價值乃管理層根據管理層及可觀察 之數據導出之某些假設的貼現現金流量估 算。該估量涉及應用管理層之判斷並敏感於 貼現率之假設和源自持有該投資及其最終出 售之現金流量。

於2024年6月30日,其公平值低於賬面值。經減值評估後,本集團對重慶銀行之投資的賬面值調減16,000,000港元至扣除出售費用後之公平值。於2024年12月31日,該投資的公平值高於賬面價值。由於投資的服務潛力未發生變動,故未進行減值或回撥評估。因此,截至2024年12月31日止年度,本集團對重慶銀行投資因減值評估累計調減金額仍為16,000,000港元(2023年:552,000,000港元)。

#### (戊) 租賃期之釐定

釐定租賃期時,管理層須考慮所有可引起經濟誘因以行使延長選擇權,或不行使終止選擇權之事實及情況。延長選擇權(或終止選擇權後之期間)只有在該租賃可合理地被確定會延長(或不終止)下方包括在租賃期內。

# 4. CRITICAL ACCOUNTING ESTIMATES, AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES (Continued)

# (d) Impairment assessment of the investment in an associate, Bank of Chongqing ("BOCQ")

The Group carries out impairment assessments on its investment in BOCQ in accordance with HKAS 36 "Impairment of assets".

This assessment compares the carrying value of the investment against the higher of management's estimate of value in use and fair value less costs of disposal. Management's estimate of the value in use is based on a discounted cash flow projection which contains certain assumptions derived from management and observable market information. This estimate is subject to application of management judgement and is sensitive to assumptions on the discount rate and the cash flows arising from the holding of this investment and from its ultimate disposal.

At 30 June 2024, the fair value was below the carrying value. An impairment assessment was performed and the carrying value of the Group's investment in BOCQ was written down by HK\$16 million to the fair value less cost of disposal. At 31 December 2024, the fair value of the investment was higher than the carrying value. As there was no change in service potential of the investment, there was no assessment of impairment or its reversal. The total amount by which the Group's investment in BOCQ was written down due to impairment assessment for the year ended 31 December 2024 therefore remained at HK\$16 million (2023: HK\$552 million).

#### (e) Determination of the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

### 4. 應用會計政策時之重要會計估計及判 斷(續)

#### (戊) 租賃期之釐定(續)

就物業租賃而言,下列因素一般至為相關:

- 倘若終止(或不延長)有重大罰金,本集 團一般會合理地確定延長(或不終止)。
- 倘若任何裝修預計會有重大剩餘價值, 本集團一般會合理地確定延長(或不終 IF)。
- 否則,本集團會考慮其他因素包括過往 之租賃時間及更換租賃資產所需之開支 和對業務之擾亂。

由於本集團可以無需重大開支或擾亂業務下 更換租賃資產,物業租賃中之延長選擇權大 多沒有包括在租賃負債。

倘若選擇權真的被行使(或不行使)或本集團轉為不得不行使(或不行使)該選擇權,則會重新評估租賃期。只有發生一宗影響評估的重大事件或環境重大變更,且在承租人可控制之範圍內,方會修訂可合理地確定之評估。本財政年度內,本集團並無行使任何延長或終止選擇權。

於呈報日之使用權資產及租賃負債的賬面值 載於附註29。

# (己) 關於未攤銷之預付款項及遞延支付款項 確認為收入的稅務狀況

本集團於2017年6月19日宣布簽訂香港人壽保險分銷協議(「香港分銷協議」)時,香港分銷協議之意向為大新銀行及泰禾人壽有限公司之間的獨家及長期的銀保合作關係,該協議已於2022年7月8日終止。自2023年下半年開始與香港永明金融有限公司訂立新銀保安排。管理層經評核香港分銷協議有關之大新銀行已收及應收預付款項及遞延支付款項後,有關款項最終可以在稅務上以資本性質處理。管理層在編製財務報表時已考慮這一點。

# 4. CRITICAL ACCOUNTING ESTIMATES, AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES (Continued)

#### (e) Determination of the lease term (Continued)

For leases of properties, the following factors are normally the most relevant:

- If there are significant penalties to terminate (or not extend), the Group is typically reasonably certain to extend (or not terminate).
- If any leasehold improvements are expected to have a significant remaining value, the Group is typically reasonably certain to extend (or not terminate).
- Otherwise, the Group considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

Most extension options in property leases have not been included in the lease liability, because the Group could replace the assets without significant cost or business disruption.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee. During the current financial year, the Group has not exercised any extension or termination options.

The carrying amounts of right-of-use assets and lease liabilities at reporting date are shown in Note 29.

# (f) Tax position relating to the unamortised upfront payment and deferred payments recognised as income

As announced by the Group when the Hong Kong Distribution Agreement ("HKDA") was entered into on 19 June 2017, the HKDA was intended to be an exclusive, long-term bancassurance cooperation between DSB and Tahoe Life Insurance Company Limited, which was terminated on 8 July 2022. A new bancassurance arrangement entered into with Sun Life Hong Kong Limited which has commenced in the second half of 2023. Management assessed that the upfront fee and deferred payments received and receivable by DSB under the HKDA and the new bancassurance arrangement can be treated substantially as capital in nature for tax purpose. Management has taken this consideration into account in the preparation of the financial statements.

#### 16. 稅項

香港利得稅乃按照年內估計應課稅溢利以稅率16.5%(2023年:16.5%)提撥準備。中國內地及澳門稅款乃按年內估計應課稅溢利依本集團經營業務地區之現行稅率計算。

遞延稅項是採用負債法就暫時差異,按預期 該等稅項負債需清付時或資產可予扣減時所 適用之稅率作全數確認。

本集團屬經濟合作暨發展組織支柱二模型規則的範圍內。香港政府已發布包含合資格本地最低補足稅之支柱二立法草案,並將於2025年1月1日起生效。由於支柱二法例於報告期末尚未正式頒布或生效,本集團目前無重大稅務風險。根據2023年7月修訂之香港會計準則第12號,本集團已就支柱二相關遞延稅項資產及負債應用豁免確認及訊息披露之規定。

本集團正評估支柱二法例生效後之潛在影響。該草案下,若某司法管轄區按支柱二規則計算之實際稅率低於15%最低稅率,本集團需繳納補足稅。

#### 16. TAXATION

Hong Kong profits tax has been provided at the rate of 16.5% (2023: 16.5%) on the estimated assessable profit for the year. Taxation on profits in Mainland China and Macau has been calculated on the estimated assessable profit for the year at the rates of taxation prevailing in the countries in which the Group operates.

Deferred taxation is calculated in full on temporary differences under the liability method at the tax rates that are expected to apply in the year when the liability is settled or the asset is realised.

The Group is within the scope of the Organisation for Economic Cooperation and Development Pillar Two model rules. The Hong Kong government has issued the draft Pillar Two legislations including a Qualified Domestic Minimum top-up tax, which will come into effect from 1 January 2025. Since the Pillar two legislation was not enacted or substantially enacted in Hong Kong at the reporting date, the Group has no material current tax exposure. The Group applies the exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes, as provided in the amendments to HKAS 12 issued in July 2023.

The Group is in the process of assessing its exposure to the Pillar Two legislation for when it comes into effect. Under the draft legislation, the Group is liable to pay a top-up tax if the effective tax rate of a particular jurisdiction, calculated based on the Pillar two legislation is below the 15% minimum rate.

#### (乙) 投資之減值測試及於2024年確認之減值

於2024年6月30日,其公平值低於賬面值。經減值評估後,賬面值調減至扣除出售費用後之公平值,並錄得減值虧損16,000,000港元。於2024年6月30日之公平值乃參考重慶銀行H股當日收市價,以公平值等級的第1級別而計量。於2024年12月31日,該投資之公平值高於賬面值。由於投資之服務潛力未發生變動,故未進行減值或回撥評估。

計算大新銀行之資本充足比率並無包括該投資之保留盈利,惟大新銀行收取重慶銀行之現金股息除外。倘若該投資維持等於或高於初始投資成本之1,213,000,000港元,該投資之減值將不影響大新銀行之資本充足比率。

於2023年12月31日,本集團在重慶銀行之投資之公平值低於賬面值,減值測試比對以計算使用價值(「使用價值」)而釐定之重慶銀行可收回金額和該投資之賬面值。使用價值乃按照管理層估量之重慶銀行盈利和未來將派股息,及經考慮重慶銀行中期和長期之增長及資產淨值後之預期未來的可能脫手價值,應用貼現現金流量預測計算。應用於使用價值計算之貼現率乃參考可於公開市場獲取之重慶銀行股本成本而估算。

#### 25. INVESTMENT IN AN ASSOCIATE (Continued)

# (b) Impairment testing on the investment and impairment recognised in 2024

At 30 June 2024, the fair value was below the carrying value. An impairment assessment was performed and the carrying value was written down to the fair value less costs of disposal and recorded an impairment charge of HK\$16 million. The fair value of the investment as at 30 June 2024 was calculated with reference to the closing market price of BOCQ's H-shares as at 30 June 2024, which was measured at the Level 1 inputs of the fair value hierarchy. At 31 December 2024, the fair value of investment was higher than the carrying value. As there was no change in service potential of the investment, there was no assessment of impairment or its reversal.

The calculation of DSB's capital adequacy does not include the retained earnings from the investment, except for BOCQ cash dividend received by DSB. Provided that the investment continues to be held at or above the original cost of the investment of HK\$1,213 million, impairment made on the investment does not affect DSB's capital adequacy.

For the position as at 31 December 2023, the fair value of the Group's investment in BOCQ was below the carrying amount, the impairment test was performed by comparing the recoverable amount of BOCQ, determined by a value in use ("VIU") calculation, with the carrying amount of the investment. The VIU calculation used discounted cash flow projections based on management's estimates of BOCQ's earnings and dividends to be paid in future, and the estimated probable exit value in future after considering the growth of BOCQ and its net asset value for the medium and longer term. The discount rate applied to the VIU calculation was estimated with reference to BOCQ's cost of equity, which was publicly available in the market.

# (乙) 投資之減值測試及於2024年確認之減值

進行使用價值計算以得出該投資之可收回金額時,本集團考慮所有相關因素包括市場觀點及質化因素以確保計算使用價值之參數合適。調整亦須作出以反映影響重慶銀行之最新情況及對預測重慶銀行未來表現有關之中期及長期市場展望。在估算重慶銀行之未來現金流當中需要管理層作重要判斷。

於計算出2023年12月31日本集團於重慶銀行投資的減值評估當中所採用之重大參數如下:

年度溢利增長率

股息派發比率 貼現率(註)

用以估計於不同持倉期之未來潛在收回價值的市帳率

註: 稅後貼現率用於稅後現金流以計算使用價值。 稅後貼現率隨後總計至稅前貼現率。2023年之 稅前貼現率為15%。稅後及稅前所計算的使用 價值是相同。

# (b) Impairment testing on the investment and impairment recognised in 2024 (Continued)

In performing the VIU calculation to arrive at the recoverable amount of the investment, the Group considered all relevant factors including market views and qualitative factors to ensure that the inputs to the VIU calculation are appropriate. Adjustments needed to be made to reflect the latest situation affecting BOCQ and also market outlook for the medium and longer term that were relevant in projecting BOCQ's future performance. Significant management judgement was required in estimating the future cash flows of BOCQ.

The key inputs underlying our impairment assessment on the Group's investment in BOCQ as at 31 December 2023 were as follows:

Annual profit growth rate 介乎2%至4%

Ranging from 2% – 4%
Dividend payout ratio
28.2%
Discount rate (Note)
12.0%
Price-to-Book ("PB") ratio for estimation of potential future recovery value under different holding periods

Note: Post-tax discount rate is used to calculate the VIU using the post-tax cash flows. The post-tax discount rate is subsequently grossed up to pre-tax discount rate. The pre-tax discount rate for 2023 was 15%. The calculated VIU using post-tax and pre-tax is the same.

# (b) Impairment testing on the investment and impairment recognised in 2024 (Continued)

The following table illustrates the impact on VIU of changes to key inputs which Management considers as reasonable and possible. It reflects the sensitivity of the VIU in response to the change of each key input. It is possible that more than one favourable and/or unfavourable change may occur at the same time.

		7	有利的轉變			不利的轉變	
		Favo	ourable chang	ge	Unfavourable change		nge
			使用價值的			使用價值的	
			上升			下跌	
2023年	2023		Increase in	使用價值		Decrease	使用價值
百萬港元	In HK\$ million		VIU	VIU		in VIU	VIU
年度溢利增長率	Annual profit growth rate	+1%	40	2,255	-1%	(40)	2,175
股息派發比率	Dividend payout ratio	+5%	124	2,339	-5%	(124)	2,091
貼現率	Discount rate	-25點	25	2,240	+25點	(25)	2,190
		-25 bps			+25 bps		
市帳率	PB ratio	+1點	52	2,267	-1點	(52)	2,163
		+1 bp			−1 bp		

根據截至2023年12月31日之狀況並已考慮上述重大參數的敏感度和參數之間可能的互動反應而進行之評估,經計算後之使用價值及經考慮所有相關因素(已包括截至2022年12月31日已確認之累計減值計提)和估值參數後而釐定之可收回金額仍然低於賬面值。本集團就2023年12月31日之狀況進行最新減值測試,認為經計算使用價值後之可回收金額評估為低於扣除截至2022年12月31日之累計減值計提4,675,000,000港元後之賬面值,及有關減值金額為552,000,000港元。因此,於2023年年度確認新增減值撥備552,000,000港元以調低該投資於2023年12月31日之價值至2,215,000,000港元。

Based on the assessment conducted for the position up to 31 December 2023, which took into account the sensitivity of the key inputs shown above and the effects of possible interaction of these inputs, the recoverable amount, as determined by the VIU calculation and after considering all relevant factors (including the cumulative impairment charge having been recognised as of 31 December 2022) and valuation inputs, remained below the carrying amount. The impairment test performed by the Group for the position as at 31 December 2023 concluded that the recoverable amount, based on the VIU calculation, was assessed as lower than the carrying amount, after deducting the cumulative impairment allowance made up to 31 December 2022 of HK\$4,675 million, by HK\$552 million. As a result, an additional impairment charge of HK\$552 million was recognised in the year of 2023 to reduce the value of the investment to HK\$2,215 million at 31 December 2023.

## (甲) 商譽及無形資產之減值測試

商譽須每年作減值測試,對比根據計算之使用價值而釐定之現金產生單位可回收金額。該計算應用由高層管理人員所編製,以5年計劃之預測現金流,經考慮預測淨利息收入平均增長率為9.8%(2023年:9.6%)且以固定年增長率維持於2.2%至5%(2023年:2.0%至5%)推測第5年以後至永遠。該5年計劃由高層管理人員基於其對有關現金產生單位之業務及該業務於預測時期內的運作情況之評估所編製。所應用之貼現率乃基於本集團及其銀行業務集團之資本成本加權平均數11.68%(2023年:11.23%)及保險業務現金產生單位貼現率為11.04%(2023年:10.58%)。減值評估並非以獨立專業估值師之估值為基礎。

#### 關鍵假設變動之影響

截至2024年12月31日,本集團澳門銀行業務現金產生單位之可收回金額估計超出其賬面值(即「盈餘」)48,000,000港元(2023年:387,000,000港元)。

若以下關鍵假設發生變動,該現金產生單位可收回金額將等於賬面值(即無盈餘):

#### 28. GOODWILL AND INTANGIBLE ASSETS (Continued)

## (a) Impairment testing on goodwill and intangible assets

Impairment testing in respect of goodwill is performed annually by comparing the recoverable amount of CGU determined based on value in use calculation. The calculations use discounted cash flow projections prepared by the Senior Management based on the latest 5-year business plan, taking into account projected average net interest income growth rate of 9.8% (2023: 9.6%), and projected annual growth rate of net profit, in perpetuity with constant growth rates ranging from 2.2% to 5% (2023: 2.0% to 5%) after the fifth year. The 5-year business plan was developed by the Senior Management based on their evaluation of the businesses and associated projected discounted cash flow of net profit of the relevant CGU and the conditions in which such businesses will operate over the projection period. The discount rate used is based on the Group's and its Banking Group's weighted average cost of capital depending on type of businesses carried out by CGU, which are 11.68% (2023: 11.23%) for CGU under banking business and 11.04% (2023: 10.58%) for CGU under insurance business. The impairment assessment was not based on valuation by independent professional valuer.

#### Impact of possible changes in key assumptions

The recoverable amount of the CGU of the Group's Macau banking business is estimated to exceed the carrying amount of the CGU ("Surplus") as at 31 December 2024 by HK\$48 million (2023: HK\$387 million).

The recoverable amount of this CGU would equal to its carrying amount (i.e. no Surplus) if the key assumptions were to change as follows:

		2024		2023	
		由 From	至 To	由 From	至 To
淨利息收入平均增長率	Average net interest income				
	growth rate	9.8%	9.6%	8.9%	6.5%
長期增長率	Long-term growth rate	2.2%	2.0%	2.0%	0.0%
貼現率	Discount rate	11.68%	11.83%	11.23%	12.52%

## (甲) 商譽及無形資產之減值測試 續

#### 關鍵假設變動之影響(續)

高層管理人員已合理考量其他關鍵假設之潛在變動,並未發現任何可能導致澳門銀行業 務現金產生單位賬面值超出可收回金額之情 況。

商號每年進行之減值測試乃應用參照同類市場業務交易之稅前專利權費(銀行業務為3%,保險業務為2%)及以中期計劃之預測收入,且推測第5年以後至永遠。所應用之貼現率乃建基於本集團及其銀行集團之資本成本加權平均數,該貼現率按進行之業務類別而介乎11.04%至11.68%(2023年:10.58%至11.23%)之間。

會籍債券的減值測試會於每年通過以比較每 筆會籍債券的賬目值及其扣除出售成本後之 公平值進行,當其市場價值低於賬面值時將 確認為減值損失。

本年度並無確認商譽、商號及會籍債券的減值虧損(2023年:無)。

## (a) Impairment testing on goodwill and intangible assets (Continued)

#### Impact of possible changes in key assumptions (Continued)

Senior Management have considered and assessed reasonably possible changes in other key assumptions, and they have not identified any instances that could cause the carrying amount of Macau's banking business CGU to exceed its recoverable amount.

For trade name, impairment testing is performed annually using pre-tax royalty rate of 3% for banking business and 2% for insurance business with reference to similar market transactions, projected revenue in the medium-term plan, and in perpetuity after the fifth year. The discount rate in the range of 11.04% to 11.68% (2023: 10.58% to 11.23%) used is based on the Group's and its Banking Group's weighted average cost of capital depending on type of businesses carried out.

Impairment testing in respect of club debentures is performed annually by comparing the book value of each club debenture with its fair value less cost of disposal. Impairment loss is recognised when the market value is below the book value.

No impairment losses on goodwill, trade name and club debentures were identified in the year. (2023: Nil).

## (iii) 本集團之租賃活動及其如何入賬

本集團租賃各項物業。於2023年及2024年,租賃合同一般為1年至9年之固定期限但可能附帶如下列(iv)載述之延長選擇權。

租賃期按個別情況商議及包含多方面之不同條款及條件。除出租人持有租賃之資產之擔保權益外,租賃合同並不強加任何契約。租賃之資產也許不能於借貸用途上用作擔保物。

#### (iv) 延長及終止選擇權

延長及終止選擇權包括在本集團簽訂之若干物業租賃內。就本集團管理於營運中使用之資產而言,使用該等條款可達致最佳營運靈活性。大多數持有之延長及終止選擇權只可由本集團而非各出租人行使。

The total cash outflow for leases in 2024 was HK\$154,331,000 (2023: HK\$158,076,000).

## (iii) The Group's leasing activities and how these are accounted for

The Group leases various properties. Rental contracts are typically made for fixed periods of 1 year to 9 years for 2023 and 2024, but may have extension options as described in (iv) below.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

## (iv) Extension and termination options

Extension and termination options are included in a number of property leases across the Group. These are used to maximise operational flexibility in terms of managing the assets used in the Group's operations. The majority of extension and termination options held are exercisable only by the Group and not by the respective lessor.

## 計量投資物業之公平值

本集團於2024年及2023年12月31日為投資物業的價值進行了重估。此評估由獨立專業特許測量師第一太平戴維斯(估值及專業顧問)有限公司為位於香港及中國國內之投資物業及第一太平戴維斯(澳門)有限公司為位於澳門之投資物業按直接比較方法或收入現值資產化方法以可參考之相似物業其近期成交紀錄來進行。在評定投資物業的價值時,其中一項主要依據為經考慮時間、地點及個別因素如樓宇的大小及樓層所確定的銷售單位價格。銷售單位價格的下降會導致投資物業之公平值計量有相應百分比的減少,反之亦然。

Included in the investment properties, the right of disposal of properties owned by a subsidiary amounting to HK\$120,777,000 (31 December 2023: HK\$128,505,000) was restricted to satisfy the solvency requirement imposed on the Macau insurance business by regulator.

## Fair value measurement of investment properties

The Group's investment properties were last revalued at 31 December 2024 and 2023 by adopting the direct comparison approach or the income capitalisation approach. Under direct comparison approach, valuation is referenced to recent transactions for similar premises as far as practicable by independent, professionally qualified valuer Savills (Valuation and Professional Services) Limited for investment properties in Hong Kong and Mainland China, and by Savills (Macau) Limited for investment properties in Macau. The key inputs was the unit sale rate taking into account of time, location, and individual factors such as size and levels of buildings. A decrease in unit sale rate would result in decrease in fair value measurement of the investment properties by the same percentage and vice versa.

投資物業以大部份不可觀察之數據運用估值 方法計量公平值,其被分類至被界定為香港 財務報告準則第13號《公平值計量》中公平值 等級的第3級別。

以收入現值資產化方法釐定公平值之投資物業,有關之評估按淨收入現值資產化及經考慮該等物業之支出與其可復歸收入之潛力進行。公平值計量與市場租金成正相關關係,與市場收益率成負相關關係。

## Fair value measurement of investment properties (Continued)

The basis of the valuation of property was market value which is consistent with the definition of fair value under HKFRS 13 "Fair Value Measurement" and takes into account the highest and best use of the property from the perspective of market participants.

Investment properties are measured at fair value using valuation techniques with significant unobservable inputs which are classified as Level 3 under the fair value hierarchy as defined in HKFRS 13, "Fair Value Measurement".

Under income capitalisation approach, investment properties of which the fair value is determined on the basis of capitalisation of net incomes with due allowance for outgoings and reversionary income potential. The fair value measurement is positively correlated to the market rental and inversely correlated to the market yields.

## 35. SUBORDINATED NOTES (Continued)

Note: (Continued)

This represents US\$250,000,000 Basel III compliant 10-year Subordinated Fixed Rate Notes qualifying as Tier 2 capital of DSB (subject to the provisions of the Banking (Capital) Rules of Hong Kong) issued on 15 November 2023 (the "Notes"), which are listed on the SEHK. The Notes will mature on 15 November 2033 with an optional redemption date falling on 15 November 2028. Interest at 7.375% p.a. is payable semi-annually from the issue date to the optional redemption date. Thereafter, if the Notes are not redeemed, the interest rate will be reset and the Notes will bear interest at the then prevailing 5-year U.S. Treasury Rate plus 295 basis points. DSB may, subject to receiving the prior approval of the HKMA, redeem the Notes in whole but not in part, at par. An interest rate swap contract to swap the fixed rate payment liability of the Notes to floating interest rate based on SOFR has been entered into with an international bank

The amount that the Group would be contractually required to pay at maturity to the holders of these subordinated notes is HK\$124 million higher (2023: HK\$137 million higher) than the above carrying amount.

DSB as a locally incorporated bank in Hong Kong is required to maintain minimum impairment provisions in excess of those required under HKFRS in the form of regulatory reserve. The regulatory reserve, which also covers BCM and DSB China, is maintained to satisfy the provisions of the Hong Kong Banking Ordinance and local regulatory requirements for prudential supervision purposes. The regulatory reserve restricts the amount of reserves which can be distributed to shareholders. Movements in the regulatory reserve are made directly through equity reserve and in consultation with the HKMA.

As at 31 December 2024, DSB has earmarked a regulatory reserve of HK\$544,500,000 (2023: HK\$616,530,000) first against its consolidated general reserve; and for any excess amount, the balance is earmarked against its consolidated retained earnings.

The incentive options were granted in accordance with the terms and conditions of the Old DSFH Incentive Option Scheme and Old DSBG Incentive Option Scheme. The exercise prices per incentive option were concluded by the NRC on behalf of the respective Boards of DSFH and DSBG on the basis no less exacting than the requirement set out in Rule 17.03E of the Rules Governing the Listing of Securities on the SEHK and were determined as no less than the higher of (i) the closing price of DSFH's/DSBG's shares traded on the SEHK on the date of grant; and (ii) the average closing price of DSFH's/DSBG's shares traded on the SEHK for the five business days immediately preceding the date of grant.

The rights granted under the Old DSFH Incentive Option Scheme and Old DSBG Incentive Option Scheme shall be exercisable upon vesting in 5 equal tranches commencing from the first anniversary of the date of grant. Subject to the fulfilment of the vesting conditions set out in the option award letter, the grantees may exercise their vested options. # (a) Financial assets and liabilities subject to netting agreement and offset on the consolidated statement of financial position

The Group maintains an account with the Hong Kong Securities Clearing Company Limited ("HKSCC") through which it conducts securities trading transactions for its customers.

In presenting the amounts due from and to HKSCC, the Group has offset the gross amount of the accounts receivable from and the gross amount of the accounts payable to HKSCC. ### 總體淨額結算安排

# I. INFORMATION ON CAPITAL POSITION AND KEY FINANCIAL RATIOS OF THE INSURANCE BUSINESS OF THE GROUP (Continued)

### 1. Capital position (Continued)

Note:

(a) The Risk-Based Capital ("RBC") regime for the insurance industry has been implemented in Hong Kong with effect from 1 July 2024. It adopts a threepillar framework and an assessment approach which is sensitive to an insurer's asset and liability matching, risk appetite and mix of products. Before RBC was implemented, the relevant measure of capital strength of an insurance company was solvency ratio which has been replaced by prescribed capital ratio under the RBC regime.

DSI's prescribed capital ratio is the ratio of eligible capital to prescribed capital amount computed in accordance with the Hong Kong Insurance (Valuation and Capital) Rules (Cap. 41R). DSI's solvency ratio computed prior to 1 July 2024 is the ratio of adjusted net assets to required solvency margin computed in accordance with the Hong Kong Insurance (General Business) Valuation Rules (Cap. 41G).

- (b) Solvency ratio of a general insurer in Hong Kong is calculated from adjusted net assets over required solvency margin.
- (c) The eligible capital is determined based on an economic balance sheet valued in accordance with the Hong Kong Insurance (Valuation and Capital) Rules.
- (d) The prescribed capital amount encompassed the risk capital amount required for each risk module.
- (e) Solvency margin is the excess of assets valued in accordance with the Hong Kong Insurance (General Business) (Valuation) Rules over liabilities.
- f) Required solvency margin (also known as "relevant amount" under the Hong Kong Insurance Ordinance ("HKIO")) is determined based on the greater of premium income in its last preceding financial year or outstanding claims as at the end of its last preceding financial year in accordance with Section 10 of the HKIO.

### 4. International claims

The information of international claims discloses exposures to foreign counterparties on which the ultimate risk lies, and is derived according to the location of the counterparties after taking into account any transfer of risk. In general, transfer of risk from one country to another is recognised if the claims against a counterparty are guaranteed by another party in a different country or if the claims are on an overseas branch of a bank whose head office is located in a different country. Only regions constituting 10% or more of the aggregate international claims after taking into account any recognised risk transfer are disclosed.

### **Key Audit Matter**

How our audit addressed the Key Audit Matter

### Impairment allowances ("ECL") on advances to customers

Refer to notes 4(a) and 22 to the consolidated financial statements.

As at 31 December 2024, the Group recorded impairment allowances of HK\$1,532,345 thousand in respect of its advances to customers.

The determination of the impairment allowances involves complex methodologies and significant management judgement. During the year, the uncertainties in economic environments in Hong Kong and Mainland China, including but not limited to the dynamic situation in the real estate sector, have continued to impact the inherent risk and estimation uncertainty involved in • estimating impairment allowances.

Key judgements and estimates in respect of the measurement of ECL include:

- Segmentation of portfolios based on credit risk characteristics, selection of appropriate model methodologies and determination of key measurement parameters and assumptions;
- Criteria for determining whether or not there was a significant increase in credit risk ("SICR"), or a default;
- Determination of macro-economic forecasts, and the application of economic scenarios and weightings; and
- The estimated future cash flows for loans and advances to customers in Stage 3.

Impairment allowances on advances to • customers is an audit focus due to the high inherent risk given the uncertainty of estimates, adoption of complex models, involvement of significant management judgements and assumptions.

We understood and evaluated management's internal controls for the measurement of impairment allowances on advances to customers.

We assessed the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as the complexity of estimation models used, the subjectivity of significant management judgements and assumptions, and susceptibility to management bias.

We have performed the following procedures:

- We tested the key controls over selection of ECL model methodologies and segmentation of portfolios, determination and approval of key measurement parameters and assumptions such as internal credit rating, staging, macro-economic forecasts and their related probability weightings;
- We involved our credit risk experts in evaluating the model methodologies for ECL measurement including segmentation of portfolios, key measurement parameters and assumptions;
- We tested the key controls over timely identification, assessment and reporting of credit-impaired advances to customers;
- We tested the key controls over estimated future cash flows and calculation of present values with respect to advances to customers in Stage 3;
- On a sampling basis, we assessed the appropriateness of the internal credit ratings, management's judgements used in determining significant increases in credit risk and identification of credit-impaired advances to customers based on the borrowers' financial and non-financial information and other evidence provided by management;

How our audit addressed the Key Audit Matter

Impairment allowances ("ECL") on advances to customers (Continued)

- We evaluated management's selection of macro-economic forecasts, economic scenarios and weightings assigned. We independently assessed the reasonableness of the macro-economic forecasts by comparing them to available public information, and other current macro-economic conditions;
- For selected samples of advances to customers in Stage 3, we assessed the reasonableness of key management judgements and estimates used in the ECL calculation such as estimated future cash flow from borrowers, collateral valuations, range of scenarios and scenarios weightings; and
- We checked and evaluated the financial statements disclosures in relation to the measurement of impairment allowances on advances to customers.

Based on the procedures performed, we considered that the models, significant judgements and assumptions, as well as key parameters used by management in measuring impairment allowances on advances to customers were supported by available evidence.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

- 評價董事所採用會計政策的恰當性及作 出會計估計和相關披露的合理性。

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the
  consolidated financial statements, whether due to fraud or
  error, design and perform audit procedures responsive to
  those risks, and obtain audit evidence that is sufficient and
  appropriate to provide a basis for our opinion. The risk of
  not detecting a material misstatement resulting from fraud is
  higher than for one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misrepresentations,
  or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- 評價綜合財務報表的整體列報方式、結構和內容,包括披露,以及綜合財務報表是否中肯反映交易和事項。
- 計劃和執行集團審計,以獲取關於 貴 集團內實體或業務單位財務信息的充 足和適當的審計憑證,以對綜合財務報 表形成審計意見提供基礎。我們負責指 導、監督和覆核為集團審計而執行的審 計工作。我們為審計意見承擔總體責任。

除其他事項外,我們與審計委員會溝通了計劃的審計範圍、時間安排、重大審計發現等,包括我們在審計中識別出內部控制的任何重 大缺陷。

我們還向審計委員會提交聲明,說明我們已 符合有關獨立性的相關專業道德要求,並與 他們溝通有可能合理地被認為會影響我們獨 立性的所有關係和其他事項,以及在適用的 情況下,用以消除對獨立性產生威脅的行動 或採取的防範措施。

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lam Hung.
