CHAIRMAN'S STATEMENT

Dear Shareholders and Investors,

In 2024, the real estate market continued to face challenges. The Political Bureau Meeting of the CPC Central Committee proposed to promote the “stabilization and recovery” of the real estate market and the relevant government departments launched a series of initiatives intensively, leading to gradual recovery in sentiment and confidence within the real estate markets of core cities. The Group continued to make every effort to implement various tasks such as guaranteed home delivery, revitalizing assets and resolving debt risks, and has made proactive progress.

The Group has always made guaranteed home delivery as its primary operational objective, actively responding to the government's requirements for guaranteed home delivery, actively implementing its primary responsibilities, and actively utilising its financing resources such as special loans for guaranteed home delivery, ancillary financing and application for “whitelist” to support the development and construction of property projects and the smooth completion and delivery of property projects. In 2024, the Group completed the delivery of approximately 170,000 houses in 84 cities by unremitting efforts, ranking among the industry leaders. Over the past three years, the Group has cumulatively delivered approximately 668,000 houses. In 2025, we will continue to spare no effort to deliver 60,000 houses, substantially completing all guaranteed home delivery tasks.

In 2024, the Group continued to proactively address debt risks with marked progress. Given the market recovery fell significantly short of expectations, the Group developed a comprehensive market-driven restructuring plan for onshore public market debts tailored to its specific circumstances and supported by multiple parties. As of now, the onshore public market debts restructuring plans have all been considered and approved at the relevant meetings of bondholders, and the Group will use best efforts to implement and execute the same in 2025. While prudently addressing onshore public market debt risks, the Group has engaged financial and legal advisors to further explore more holistic offshore debt solutions for its offshore debts, striving to achieve complete risk mitigation of offshore debts in the next phase.

Regarding project-level financing, the Group has maintained proactive engagement with financial institutions to negotiate extension arrangements for loans facing repayment difficulties due to market contraction. Concurrently, the Group is advancing collaborations with asset management companies and other financial institutions to formulate a more complete and comprehensive project revitalization and debt restructuring plan. Since 2024 to date, the Group has successfully secured additional funding for its projects including Chongqing Bay* (重慶灣), One Sunac Opus Project in Beijing* (北京融創壹號院), Meijiang One Sino Park Phase II in Tianjin* (天津梅江壹號院二期) and Original Courtyards of Orient in Wuhan* (武漢桃花源), mitigating existing debt risks while simultaneously revitalizing high-quality assets. In 2024, the Group's One Central Park Project in Shanghai* (上海壹號院項目) sold out upon launch and One Sino Park Project in Shanghai* (上海外灘壹號院項目) recorded three consecutive sell-outs after each launch, exemplifying the Group's collaboration with asset management companies in revitalizing high-quality projects and reflecting the market-leading product competitiveness and strong market reputation of the Group. In 2025, we will continue to intensify our collaboration with asset management companies and other financial institutions that can provide incremental funds to further resolve project debt exposures and revitalize high-quality projects, thereby supporting the gradual recovery of the Group's operation.

In 2024, the Group's revenue was approximately RMB74.02 billion, representing a decrease of approximately 52.0% as compared to last year, while its gross profit was approximately RMB2.89 billion as compared to a gross loss of approximately RMB2.50 billion last year. The loss attributable to owners of the Company was approximately RMB25.70 billion. The total equity of the Group at the end of 2024 was approximately RMB55.15 billion, of which the equity attributable to owners of the Company was approximately RMB40.52 billion, indicating that the asset base was stable.

CHAIRMAN'S STATEMENT

At the end of 2024, the Group, together with its joint ventures and associates, had a total land bank of approximately 127.76 million square meters (attributable land bank was approximately 87.565 million square meters), of which the unsold land bank was approximately 93.42 million square meters (attributable land bank was approximately 63.01 million square meters). Adequate land bank is a solid foundation to support the Group's gradual resumption of normal operations.

In 2024, the Group's property management sector, Sunac Services Holdings Limited ("Sunac Services", stock code: 01516.HK), achieved solid development with continuous optimization in business structure. Sunac Services achieved the revenue of approximately RMB6.970 billion, in which, the revenue from third-party was approximately RMB6.802 billion, representing a year-on-year increase of approximately 5.6% and accounting for approximately 98% of the total revenue. The management scale of Sunac Services grew steadily, with gross floor area under management of approximately 290 million square meters, representing a year-on-year increase of approximately 7%.

In 2024, the Group's cultural tourism sector (theme park, commercial, hotel and ice and snow) achieved the revenue of approximately RMB5.21 billion, demonstrating solid operational performance, while the Group actively pursued new breakthroughs and growth opportunities. The theme park sector continued its transformation from equipment-based theme park to an ecosystem platform based on content co-creation and experience-driven, with newly-created entertainment content receiving positive market feedback; the commercial sector maintained its long-term strategy of sustained sales growth, achieving year-on-year increases in both visitor traffic and sales in 2024; the ice and snow sector further solidified its industry leadership, with the successful opening of the ninth indoor ski resort managed by it (Wuhan Urban Construction Project). Preparations for the Suzhou, Zhengding and Shenzhen projects have officially commenced, with operations scheduled to launch officially in 2025.

Looking forward, with the Government's continuous introduction of supportive policies for the overall economy and the real estate sector, the Group anticipates that core cities and premium locations will gradually stabilize. However, the overall recovery of the real estate market may take a longer time and process. The Group will remain steadfast in its long-term confidence and make all-out efforts to complete delivery tasks and resolve onshore public market debt risks with the support of all parties in 2025, while striving to achieve substantive and critical progress in addressing offshore debt risks. Concurrently, taking the enhancement of net equity assets of each project as the basic purpose of daily management, the Group will steadily advance project debt risk mitigation and asset revitalization initiatives, thereby paving the way for its gradual return to sound development in the future.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

1 REVENUE

For the year ended 31 December 2024, most of the Group's revenue came from sales of residential and commercial properties business, and the other revenue came from cultural and tourism city construction and operation, property management and other businesses.

As at 31 December 2024, the Group's real estate development business is mainly located in core cities in the Yangtze River Delta, Bohai Rim, South China, Central regions and Western regions, which are divided into 10 regional groups or companies for management, namely the Beijing region (including Beijing, Qingdao and Ji'nan, etc.), North China region (including Tianjin, Harbin and Dalian, etc.), Shanghai region (including Shanghai, Nanjing and Suzhou, etc.), Southeastern China region (including Hangzhou, Fuzhou and Hefei, etc.), Central China region (including Wuhan, Changsha and Nanchang, etc.), South China region (including Guangzhou and Sanya, etc.), Northwestern China region (including Xi'an and Taiyuan, etc.), Chengdu-Chongqing region (including Chongqing and Chengdu, etc.), Yun Gui region (including Kunming, Guiyang and Xishuangbanna, etc.) and Henan companies (including Zhengzhou and Luoyang, etc.).

Total revenue of the Group for the year ended 31 December 2024 amounted to approximately RMB74.02 billion, representing a decrease of approximately RMB80.21 billion (approximately 52.0%) compared with the total revenue of approximately RMB154.23 billion for the year ended 31 December 2023. For the year ended 31 December 2024, the total revenue of the Group and its joint ventures and associates was approximately RMB177.06 billion, representing a decrease of approximately RMB152.32 billion (approximately 46.2%) as compared with the total revenue of approximately RMB329.38 billion for the year ended 31 December 2023, of which approximately RMB103.36 billion was attributable to owners of the Company, representing a decrease of approximately RMB103.25 billion (approximately 50.0%) as compared to approximately RMB206.61 billion for the year ended 31 December 2023.

The decrease in revenue was mainly due to the decline in revenue from sales of properties. In recent years, the real estate industry has witnessed a continuous downturn, with the sales market experiencing a significant overall contraction. The debt issues emerging in several real estate companies have led to the lack of confidence of homebuyers for property under construction, further intensifying the difficulties in new houses sales. The Group is currently in the stage of concentrating resources to resolve guaranteed home delivery work and debt issues. The liquidity pressure from the contraction in new sales scale and the narrowing of external financing channels has temporarily restricted the delivery progress of sold properties and the development and delivery progress of new projects. The delivery area in 2024 decreased compared with the previous year, resulting in a significant decrease in the sales revenue of the Group compared with the previous year.

Amid multiple challenges from the external market and internal issues in recent years, the Group has proactively adopted various response initiatives, continuously prioritizing completion and delivery of property projects to fulfill its primary responsibility in guaranteed home delivery, proactively executing debt risk mitigation and asset revitalization efforts, optimizing the management and control system and reducing the administrative expenses. Meanwhile, the Group concentrated on policy dynamics to strengthen product competitiveness aligned with current sales market, ensuring stable operations and long-term sustainability of the Group.

- (1) The Group actively advances financial support through special loans for guaranteed home delivery, ancillary financing and "whitelist" applications, ensuring the development and construction of property projects and the smooth completion and delivery of property projects.
- (2) The Group has been proactive in debt risk mitigation, among which, the Group has explored comprehensive restructuring plans such as debt-to-equity swaps for onshore and offshore public debts, substantially reducing debt pressure and optimizing capital structure of the Group. For certain project-level debts, the Group has been actively engaging with financial institutions on a case-by-case basis to explore solutions, including extending repayment periods, reducing principal and interest and lowering interest rates on existing loans, as well as leveraging project resources to mitigate project-level debt risks.

MANAGEMENT DISCUSSION AND ANALYSIS

- (3) For the Group's core projects, the Group proactively introduced funds from financial institutions including asset management companies to restructure project-level debt, optimize the debt structure, and revitalize projects.
- (4) The Group has implemented a series of measures to control management costs and expenses, including optimizing control system, adjusting organizational structure, simplifying management levels and reducing daily administrative expenses, thereby improving management efficiency.
- (5) The Group continuously monitors products policy changes. By elevating the importance of design, marketing, construction and delivery of major product, the Group has improved product quality and captured scarce demand in the existing market.

The following table sets forth certain details of the revenue:

	For the year ended 31 December			
	2024		2023	
	RMB billion	%	RMB billion	%
Revenue from sales of properties	61.23	82.8%	140.80	91.3%
Cultural and tourism city construction and operation income	5.21	7.0%	5.91	3.8%
Property management income	6.88	9.3%	6.60	4.3%
Revenue from other business	0.70	0.9%	0.92	0.6%
Total	74.02	100.0%	154.23	100.0%
Total gross floor area delivered during the year <i>(in million sq.m.)</i>	4.624		12.782	

The majority of the Group's revenue came from revenue of sales of properties, accounting for approximately 82.8% of total revenue. For the year ended 31 December 2024, revenue from sales of properties decreased by approximately RMB79.57 billion (approximately 56.5%) as compared with that for the year ended 31 December 2023. Total area of delivered properties decreased by 8.158 million square meters ("sq.m.") (approximately 63.8%) as compared with that for the year ended 31 December 2023, the decrease in revenue from sales of properties was basically consistent with the decrease in the delivered area. As mentioned above, due to the continued downturn in the real estate market, the contraction in new sales and the liquidity pressure faced by the Group, property delivery area of the Group for this year decreased compared to the previous year with a corresponding reduction in property sales revenue.

2 COST OF SALES

Cost of sales mainly includes the costs incurred directly in the course of property development for the Group's properties sold.

For the year ended 31 December 2024, the Group's cost of sales was approximately RMB71.13 billion, representing a decrease of approximately RMB85.60 billion (approximately 54.6%) as compared to the cost of sales of approximately RMB156.73 billion for the year ended 31 December 2023, mainly due to the decrease in the delivery area of the properties.

3 GROSS PROFIT/(LOSS)

For the year ended 31 December 2024, the Group's gross profit was approximately RMB2.89 billion, representing an increase of approximately RMB5.39 billion as compared with the gross loss of approximately RMB2.50 billion for the year ended 31 December 2023. The increase in gross profit was mainly due to the impact of the high proportion of high margin projects carried forward from the Group's property sales revenue this year compared to the previous year and the reduction in the provision for impairment of properties recognised by the Group during the year compared to the previous year.

For the year ended 31 December 2024, the Group's gross profit margin was approximately 3.9%, representing an increase as compared to approximately minus 1.6% for the year ended 31 December 2023.

For the year ended 31 December 2024, the adjustments of revaluation surplus related to gains from business combination for the properties acquired led to the reduction of the Group's gross profit in the amount of approximately RMB1.49 billion. The Group's gross profit would have been approximately RMB5.81 billion and gross profit margin would have been approximately 7.8% for the year ended 31 December 2024 without taking into account such impact of fair value adjustments and provision for impairment of properties on gross profit.

4 SELLING AND MARKETING COSTS AND ADMINISTRATIVE EXPENSES

The Group's selling and marketing costs decreased by approximately 55.9% from approximately RMB4.87 billion for the year ended 31 December 2023 to approximately RMB2.15 billion for the year ended 31 December 2024. The decrease in selling and marketing costs was in line with the decreased trend in the Group's contracted sales for the year ended 31 December 2024.

The Group's administrative expenses decreased by approximately RMB1.84 billion from approximately RMB5.49 billion for the year ended 31 December 2023 to approximately RMB3.65 billion for the year ended 31 December 2024. The reduction in administrative expenses was primarily attributable to the Group's proactive measures to consistently control management costs and expenditures under the current market conditions. Taking into account the entity's operational status and debt pressure, the Group actively optimized organizational structure, reduced headcount and reduced routine administrative expenses, thereby enhancing management efficiency.

5 OTHER INCOME AND GAINS

For the year ended 31 December 2024, the Group recognised other income and gains of approximately RMB16.43 billion, which mainly comprised gains from debt restructuring of approximately RMB9.89 billion, gains from the disposal of subsidiaries, joint ventures and associates of approximately RMB4.17 billion, and interest income received from joint ventures and associates, etc. of approximately RMB1.27 billion. The Group recorded a decrease in other income and gains of approximately RMB22.10 billion as compared with that of approximately RMB38.53 billion for the year ended 31 December 2023, mainly due to the higher restructuring income from offshore debt recognised in the previous year.

MANAGEMENT DISCUSSION AND ANALYSIS

6 OTHER EXPENSES AND LOSSES

For the year ended 31 December 2024, other expenses and losses recognised by the Group amounted to approximately RMB21.13 billion, mainly including the provision for impairment of long-term assets of approximately RMB6.33 billion, the provision for litigations and other contingent liabilities of approximately RMB4.74 billion, the losses of approximately RMB2.68 billion from the disposal of subsidiaries, joint ventures and associates, losses from disposal of various assets of approximately RMB2.27 billion, net fair value losses on derivative financial instruments of approximately RMB1.68 billion, losses from fair value changes of investment properties of approximately RMB1.57 billion, the losses on project demolition of approximately RMB0.79 billion and net fair value losses from financial assets at fair value through profit or loss ("FVPL") of approximately RMB0.50 billion.

For the year ended 31 December 2023, other expenses and losses recognised by the Group amounted to approximately RMB25.07 billion, mainly including the provision for impairment of long-term assets of approximately RMB12.38 billion, net fair value losses of investment properties of approximately RMB3.95 billion, the losses of approximately RMB3.28 billion from the disposal of subsidiaries, joint ventures and associates, the provision for litigations and other contingent liabilities of approximately RMB2.31 billion, net fair value losses from financial assets at FVPL of approximately RMB1.43 billion and the loss of approximately RMB0.93 billion from the disposal of various assets.

7 NET IMPAIRMENT LOSSES UNDER EXPECTED CREDIT LOSS MODEL

For the year ended 31 December 2024, the Group made provisions for expected credit losses of approximately RMB3.33 billion on amounts due from related companies, amounts due from non-controlling interests and their related parties and other receivables, representing an increase of approximately RMB0.81 billion as compared with that of approximately RMB2.52 billion for the year ended 31 December 2023.

8 OPERATING LOSS

Concluding from the above analysis, the Group's operating loss increased by approximately RMB9.01 billion from approximately RMB1.93 billion for the year ended 31 December 2023 to the operating loss of approximately RMB10.94 billion for the year ended 31 December 2024, mainly due to the combined effect of the following reasons:

- (i) gross profit increased by approximately RMB5.39 billion;
- (ii) selling and marketing costs and administrative expenses decreased by approximately RMB4.56 billion;
- (iii) net impairment losses under expected credit loss model increased by approximately RMB0.81 billion; and
- (iv) other income and gains decreased by approximately RMB22.10 billion and other expenses and losses decreased by approximately RMB3.94 billion.

9 FINANCE INCOME AND EXPENSES

The Group's finance expenses increased by approximately RMB5.53 billion from approximately RMB6.30 billion for the year ended 31 December 2023 to approximately RMB11.83 billion for the year ended 31 December 2024, and finance income decreased by approximately RMB0.09 billion from approximately RMB0.24 billion for the year ended 31 December 2023 to approximately RMB0.15 billion for the year ended 31 December 2024 at the same time, mainly due to the following reasons: (i) a decrease in proportion of capitalised interests in total interest expenses in line with the develop process of the Group's property development projects as compared to that of the year ended 31 December 2023, which led to an increase of approximately RMB6.36 billion in expensed interest from approximately RMB4.95 billion for the year ended 31 December 2023 to approximately RMB11.31 billion for the year ended 31 December 2024; and (ii) due to the change in trend of foreign exchange rates fluctuations, the exchange gain or loss of the Group decreased by approximately RMB0.82 billion from a net exchange loss of approximately RMB1.35 billion for the year ended 31 December 2023 to a net exchange loss of approximately RMB0.53 billion for the year ended 31 December 2024.

10 SHARE OF POST-TAX (LOSSES)/PROFITS OF INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD, NET

The Group's recognised share of post-tax losses of investments accounted for using the equity method, net decreased by approximately RMB4.49 billion from recognised share of post-tax profits of approximately RMB2.86 billion for the year ended 31 December 2023 to recognised share of post-tax losses of approximately RMB1.63 billion for the year ended 31 December 2024, mainly due to the decrease in revenue and operating profit of the Group's joint ventures and associates and increasing provision of impairment for investment accounted for using the equity method recognised by the Group during the year compared to the previous year.

11 LOSS

Loss of the Group attributable to owners of the Company increased by approximately RMB17.73 billion from approximately RMB7.97 billion for the year ended 31 December 2023 to loss of approximately RMB25.70 billion for the year ended 31 December 2024.

The table below sets out loss attributable to owners of the Company and non-controlling interests for the stated years:

	For the year ended 31 December	
	2024 RMB billion	2023 RMB billion
Loss during the year	27.40	10.41
Attributable to:		
Owners of the Company	25.70	7.97
Non-controlling interests	1.70	2.44
	27.40	10.41

MANAGEMENT DISCUSSION AND ANALYSIS

12 CASH STATUS

The Group operates in a capital-intensive industry and the Group's liquidity requirements relate to meeting its working capital requirements, funding the development of its new property projects and servicing its debt. The funding sources of the Group mainly include proceeds from the pre-sale and sale of properties, and to a lesser extent, capital contributions from shareholders, share issuances and loans.

The Group's cash balances (including restricted cash) decreased to approximately RMB19.75 billion as at 31 December 2024 from approximately RMB24.62 billion as at 31 December 2023, of which non-restricted cash increased to approximately RMB7.73 billion as at 31 December 2024 from approximately RMB7.06 billion as at 31 December 2023.

Currently, the Group remains focused on the completion and delivery of its property projects and the improvement of sales performance, while taking the actively advancing risk mitigation efforts to ensure business stability and sustainable operations of the Group. In 2024, the Group continued to apply to local governments for special loans for guaranteed home delivery to support projects facing delivery challenges. Simultaneously, it has actively pursued ancillary bank financing and "whitelist project" financing to secure the necessary capital for project development and construction. As of the date of this report, the Group and its joint ventures and associates have obtained special loans for guaranteed home delivery approved by local governments with an aggregate amount of approximately RMB21.8 billion, ancillary bank financing approvals of approximately RMB10.4 billion, and received "whitelist project" financing approvals of approximately RMB2.3 billion. Additionally, the Group secured funding approvals with an aggregate amount of approximately RMB6.1 billion through the implementation of collaborative development projects with asset management companies in 2024. Furthermore, the Group raised approximately HKD1.192 billion in net proceeds through placing shares in the overseas capital markets in 2024. The funds raised were mainly used to support the implementation of long-term solutions for onshore corporate bonds and for general working capital purposes. Moving forward, the Group will continue to secure operational funding through methods such as property sales proceeds, applications for special loans for guaranteed home delivery, ancillary bank financing, "whitelist project" financing and collaborations with financial institutions.

13 BORROWINGS AND SECURITIES

As at 31 December 2024, the total borrowings of the Group were approximately RMB259.67 billion, representing a decrease of approximately RMB18.16 billion as compared to approximately RMB277.83 billion as at 31 December 2023. Approximately RMB256.32 billion (as at 31 December 2023: approximately RMB273.54 billion) of the Group's total borrowings were secured or jointly secured by the Group's properties under development, completed properties held for sale, etc. (total amount was approximately RMB373.85 billion (as at 31 December 2023: approximately RMB414.03 billion)) and equities or assets disposal gains of certain of the Group's subsidiaries.

The Group will continue to secure additional financing through methods such as applications for special loans for guaranteed home delivery, ancillary bank financing, "whitelist project" financing and collaborations with financial institutions.

14 GEARING RATIO

The gearing ratio is calculated by dividing the net debt by total capital. Net debt is calculated as total borrowings (including current and non-current borrowings) and lease liabilities less cash balances (including restricted cash). Total capital is calculated by adding total equity and net debt. As at 31 December 2024, the Group's gearing ratio was approximately 81.3%, representing an increase as compared to approximately 75.2% as at 31 December 2023.

The Group's gearing ratio experienced fluctuations, mainly due to the significant reduction in the recognised revenue as a result of the market downturn, provision for impairment of assets and the provision for contingent liabilities at the same time.

15 INTEREST RATE RISK

As the Group has no material interest-bearing assets, the Group's income and operating cash flows are substantially independent of changes in market interest rates.

The Group's interest rate risk arises from long-term borrowings. Long-term borrowings include borrowings issued at variable rates and borrowings issued at fixed rates, of which borrowings issued at variable rates expose the Group to cash flow interest-rate risk which is partially offset by cash held at variable rates while borrowings issued at fixed rates expose the Group to fair value interest-rate risk. Interest rate fluctuations may result in higher interest rates on the Group's floating-rate borrowings, thereby exposing the Group to the risk of increased financing costs.

The table below sets out the Group's exposure to interest rate risks. Included in the table are the liabilities stated at carrying amounts, categorised by maturity dates.

	As at 31 December 2024 RMB billion	As at 31 December 2023 RMB billion
Floating interests		
Less than 12 months	48.10	46.27
1-5 years	5.41	12.35
Over 5 years	0.36	2.61
Subtotal	53.87	61.23
Fixed interests		
Less than 12 months	137.99	134.93
1-5 years	56.91	70.75
Over 5 years	10.90	10.92
Subtotal	205.80	216.60
Total	259.67	277.83

The Group's interest rate risk management measures include optimizing the debt structure, reducing the interest rates, decreasing the debt size and using financial instruments related to interest rate. By constantly paying attention to interest rate risk and aligning closely with policy directions and maintaining proactive communication with financial institutions and other creditors, the Group leverages opportunities to negotiate interest rate reductions and exemptions on borrowings, thereby minimizing the impact of interest rate risks on its operations.

MANAGEMENT DISCUSSION AND ANALYSIS

16 FOREIGN EXCHANGE RISKS

As most of the Group's operating entities are located in China, the Group operates its business mainly in RMB. Given that some of the Group's bank deposits, financial assets at FVPL, derivative financial instruments, senior notes, convertible bonds and other borrowings are denominated in US dollars or Hong Kong dollars, the Group is exposed to foreign exchange risks. The potential impacts of foreign exchange risks on the Group may include the following:

- (1) Increased direct repayment costs: The Group needs to purchase foreign exchange using RMB to repay foreign currency principal and interest. If foreign currencies appreciate against the RMB, the Group will incur higher RMB expenditures, leading to increased financial costs;
- (2) Cash flow pressure: Sharp exchange rate fluctuations may require the Group to raise additional RMB funds within a short period, resulting in liquidity strain; and
- (3) Translation risk: At the end of an accounting period, foreign currency liabilities must be converted into RMB at the spot exchange rate. If foreign currencies appreciate, the book value of liabilities will rise, potentially increasing the asset-liability ratio and reducing net assets, among other effects.

For the year ended 31 December 2024, the Group recorded an exchange loss in the amount of approximately RMB0.53 billion due to fluctuations in foreign exchange rates. However, the Group's operating cash flow and liquidity were not significantly affected by fluctuations in foreign exchange rates.

The Group's measures to manage foreign exchange risks include monitoring exchange rate fluctuations, adjusting foreign currency deposits in a timely manner, using financial instruments for hedging and working with lenders to convert foreign currency debt into local currency debt, etc. The Group will prudently monitor foreign exchange risks, and control foreign exchange risks in line with its current operational realities according to the aforementioned measures in a timely manner to minimise their impact on the Group.

17 FINANCIAL GUARANTEES AND LITIGATION

(a) Financial guarantees

The Group provides guarantees to banks for the mortgage loans of certain property purchasers to ensure that the purchasers perform their obligations of mortgage loan repayment. The amount of such guarantees was approximately RMB61.08 billion as at 31 December 2024 as compared with approximately RMB79.98 billion as at 31 December 2023. Such guarantees will terminate upon the earlier of (i) the transfer of the real estate ownership certificate to the purchasers which will generally occur within an average period of six months after the properties' delivery dates; or (ii) the satisfaction of mortgage loans by the purchasers of the properties. The period of guarantee provided by the Group starts from the date when the mortgage is granted.

(b) Litigation

Up to the date of approval of these consolidated financial statements, various parties have filed litigation against the Group for the settlement of unpaid borrowings, outstanding construction and daily operation payables, delayed delivery of projects and other matters. Among them, there were about 414 cases with individual amounts exceeding RMB50 million, and the aggregated amounts of these cases amounted to approximately RMB165.08 billion, which mainly includes unpaid borrowings and outstanding construction payables. The Group has assessed the impact of the above litigation matters and accrued provision for litigations and interest payables on the consolidated financial statements for the year ended 31 December 2024. The Group is also actively communicating with relevant creditors and seeking various ways to resolve these litigations.

- (v) reviewed and monitored the effectiveness of the internal audit of the Group;
- (vi) reviewed the adoption of the relevant accounting principles generally accepted and made recommendations to the Board on the adoption of accounting policies;
- (vii) met with external auditors in the absence of executive Directors and senior management to discuss matters in relation to the audit; and
- (viii) performed the corporate governance functions as stipulated in Code Provision A.2.1 of the Corporate Governance Code.

NOMINATION COMMITTEE

The primary duties of the Nomination Committee are to review the structure, size and composition of the Board, to evaluate the independence of the independent non-executive Directors, to make recommendations to the Board on the appointment or re-appointment of Directors, to identify and to nominate suitable candidates for Directors and to develop and review the policy concerning diversity of the Board and the policy for nomination of Directors.

On 28 March 2025, the Board amended the terms of reference of the Nomination Committee, which will be responsible for (1) assisting the Board in maintaining a board skills matrix, (2) supporting the Company's regular evaluation of the Board's performance, and (3) annually reviewing the time commitment and contribution of each Director to the Board, as well as the Director's ability to discharge his/her responsibility effectively. The terms of reference of the Nomination Committee are available on the websites of the Stock Exchange (www.hkexnews.hk) and the Company (www.sunac.com.cn).

The Nomination Committee currently comprises two executive Directors, namely Mr. Sun Hongbin and Ms. Ma Zhixia (appointed on 28 March 2025), and three independent non-executive Directors, namely Mr. Poon Chiu Kwok, Mr. Ma Lishan and Mr. Yuan Zhigang. Mr. Sun Hongbin acts as the chairman of the Nomination Committee.

The Nomination Committee convened two meetings during the year ended 31 December 2024, and the individual attendance of each member during the year is set out as follows:

Name of Member	Attendance/ Number of meetings required to be attended
Mr. Sun Hongbin (<i>Chairman</i>)	2/2
Mr. Poon Chiu Kwok	2/2
Mr. Ma Lishan	2/2
Mr. Yuan Zhigang	2/2

CORPORATE GOVERNANCE REPORT

The work performed by the Nomination Committee during 2024 mainly included the following:

- (i) reviewed the structure, size and composition of the Board;
- (ii) assessed the independence of the independent non-executive Directors;
- (iii) reviewed the nomination policy of the Company and made recommendations to the Board on the appointment and re-appointment of Directors; and
- (iv) reviewed and assessed the implementation of the Board Diversity Policy during 2024.

NOMINATION POLICY

The Nomination Committee has reviewed the nomination policy of the Company ("Nomination Policy") for nomination, appointment of new Directors and re-appointment of existing Directors.

Selection Criteria

When making recommendations regarding the appointment of any proposed candidate to the Board or re-appointment of any existing member(s) of the Board, the Nomination Committee shall consider a variety of factors including without limitation the following in assessing the suitability of the proposed candidate:

- (i) reputation for integrity;
- (ii) accomplishment, experience and reputation in the real estate industry, property management service industry, cultural tourism industry and culture industry and other related industries;
- (iii) commitment in respect of sufficient time and attention to the Company's business;
- (iv) diversity in all aspects, including but not limited to gender, age, cultural and educational background, professional qualifications, technology, knowledge and industrial and regional experience;
- (v) the ability to assist and support management and make significant contributions to the Company;
- (vi) compliance with the criteria of independence as prescribed under Rule 3.13 of the Listing Rules for the appointment of an independent non-executive Director; and
- (vii) any other relevant factors as may be determined by the Nomination Committee or the Board from time to time.

The appointment of any proposed candidate to the Board or re-appointment of any existing member(s) of the Board shall be made in accordance with the Company's articles of association and other applicable rules and regulations.

Nomination Procedure

The secretary of the Nomination Committee shall organize a meeting, and invite candidates nominated by the Board members (if any) to attend the meeting and propose them to the Nomination Committee for consideration. The Nomination Committee may also nominate candidates for its consideration.

In the context of appointment of any proposed candidate to the Board, the Nomination Committee shall undertake adequate due diligence in respect of such individual and make recommendations for the Board's consideration and approval.

In the context of re-appointment of any existing member(s) of the Board, the Nomination Committee shall make recommendations to the Board for its consideration and recommendation, for the proposed candidates to stand for re-election at a general meeting.

The Board shall have the final decision on all matters relating to its recommendation of candidates to stand for election at a general meeting.

BOARD DIVERSITY POLICY

The Nomination Committee reviewed and recommended to the Board the adoption of a modified policy concerning diversity of the Board ("Board Diversity Policy") and the Board, on the Board meeting held on 28 March 2025, adopted such policy to assess the Board composition. In reviewing the composition of the Board, the Nomination Committee would take into account various aspects set out in the Board Diversity Policy, including but not limited to gender, age, cultural and educational background, professional qualifications, skills, knowledge and industry and regional experience. The Nomination Committee would discuss and agree on measurable objectives for achieving diversity on the Board, where necessary, and recommend them to the Board for adoption. In identifying and selecting suitable candidates for directorships, the Nomination Committee would consider the candidate's character, qualifications, experience, independence and other relevant criteria necessary to complement the corporate strategy and achieve Board diversity.

Currently, the Board consists of ten male Directors and one female Director. Based on the Nomination Committee's review for the year ended 31 December 2024, the Nomination Committee considered that these measurable objectives have been satisfactorily implemented and that there was sufficient diversity in the Board for the Company's corporate governance and business development needs.

The Board will review the implementation and effectiveness of the Board Diversity Policy on an annual basis in accordance with the code provision B.1.3 of the Corporate Governance Code.

CORPORATE GOVERNANCE REPORT

DIVERSITY OF EMPLOYEES

The Nomination Committee reviewed and recommended to the Board the adoption of a modified policy concerning diversity of the employees ("Employee Diversity Policy") and the Board, on the Board meeting held on 28 March 2025, adopted such policy to assess the employee composition. The Group is committed to the principle of fair and equal employment opportunities regardless of citizenship, nationality, race, gender, religious beliefs and cultural background, and does not impose any restrictive requirements on gender, ethnicity, nationality or region.

As at 31 December 2024, the proportion of employees, including senior management, of the Group in terms of gender is set out below:

Gender	Number of employees	Percentage of total employees
Male	21,583	59.4%
Female	14,781	40.6%
Total	36,364	100%

The Group encourages gender diversity in its workplace. To achieve diversity at the staff level, the Group has adopted appropriate recruitment and selection measures to consider a diverse pool of candidates. The Group has also established talent management and training programmes, and provided career development guidance and promotion opportunities, to develop a broad and diverse and experienced workforce.

REMUNERATION COMMITTEE

The primary duties of the Remuneration Committee are to make recommendations to the Board on the remuneration policy and structure of the Directors and senior management, and to review and/or approve matters relating to share schemes under Chapter 17 of the Listing Rules. The terms of reference of the Remuneration Committee are available on the websites of the Stock Exchange (www.hkexnews.hk) and the Company (www.sunac.com.cn).

The Remuneration Committee currently comprises one executive Director, namely Mr. Sun Hongbin, and four independent non-executive Directors, namely Mr. Zhu Jia, Mr. Poon Chiu Kwok, Mr. Ma Lishan and Mr. Yuan Zhigang. Mr. Zhu Jia acts as the chairman of the Remuneration Committee.

The Remuneration Committee held two meetings during the year ended 31 December 2024, and the individual attendance of each member during the year is set out as follows:

Mr. Zhu Jia (<i>Chairman</i>)	2/2
Mr. Sun Hongbin	2/2
Mr. Poon Chiu Kwok	2/2
Mr. Ma Lishan	2/2
Mr. Yuan Zhigang	2/2

The Remuneration Committee has adopted the model that it will review the proposals made by the management on the remuneration of individual Directors and senior management, and make recommendations to the Board. The Board will have final authority to approve the recommendations made by the Remuneration Committee.

The major work performed by the Remuneration Committee in 2024 mainly included (among others) reviewing and making recommendation to the Board regarding the remuneration package and structure for the Directors and senior management for the year ended 31 December 2024, the remuneration policy in 2025, and the terms of service contracts for the Directors and the senior management. As the Company has not granted any share awards under the share award scheme (details of which are set out in the Report of the Directors) during the year ended 31 December 2024, the Remuneration Committee has not reviewed and/or approved any matter relating to share schemes under Chapter 17 of the Listing Rules during the year ended 31 December 2024.

DIRECTORS' REMUNERATION POLICY

The Company has established a Directors' Remuneration Policy to determine the remuneration packages of Directors to ensure an appropriate remuneration level to attract and retain experienced and high calibre personnel to oversee the business and development of the Group.

Directors' remuneration is reviewed at least once a year and is determined with reference to the skills and knowledge of the Directors, their job responsibilities and involvement in the Group's affairs, the performance of the Company, their performance and prevailing market conditions. Remuneration includes directors' fees, salaries, discretionary bonuses, share option expenses, share award expenses, employer's contribution to retirement benefit scheme and other benefits.

ESG COMMITTEE

The primary duties of the ESG Committee are to support and assist the Board in the management of environmental, social and governance matters. The terms of reference of the ESG Committee were adopted by the Board on 28 December 2020. Mr. Yuan Zhigang	1/1

CORPORATE GOVERNANCE REPORT

ANNUAL REMUNERATION PAYABLE TO THE MEMBERS OF SENIOR MANAGEMENT

The annual remuneration¹ of the members of the senior management by band for the year ended 31 December 2024 is as follows:

Remuneration Bands (RMB)	Number of Individuals
500,000–1,000,000	1
1,000,001–1,500,000	7
1,500,001–1,700,000	2

Note 1: The annual remuneration referred to in this section includes salary, discretionary bonuses, employer's contribution to retirement benefit scheme and other benefits.

AUDITOR'S REMUNERATION

During the year ended 31 December 2024, the remunerations paid or payable to the auditor of the Group, BDO Limited, in respect of its audit services and non-audit services, including interim review service and agreed-upon procedures service, were RMB17.84 million and RMB0.16 million respectively.

ACCOUNTABILITY AND AUDIT

The Directors acknowledge their responsibilities for preparing all information and representations contained in the consolidated financial statements of the Group for the year ended 31 December 2024 which give a true and fair view of the state of affairs of the Group and of the operating results and cash flow for the year. The Directors consider that the financial statements have been prepared in conformity with all applicable accounting standards and requirements and reflect amounts that are based on the best estimates, reasonable information and prudent judgment of the Board and the management, and the Directors have prepared the consolidated financial statements of the Group on a going concern basis.

The statements of the auditor of the Group about its reporting responsibility on the consolidated financial statements of the Group are set out in the section headed "Independent Auditor's Report" on pages 75 to 77 of this annual report.

GOING CONCERN AND MITIGATION MEASURES

As a result of the matters described in the section headed "Basis for disclaimer of opinion – Multiple Uncertainties Relating to Going Concern" in the "Independent Auditor's Report" on pages 75 to 77 of this annual report, the Company's independent auditor, BDO Limited (the "Auditor"), did not express an opinion on the consolidated financial statements of the Group for the year ended 31 December 2024.

The management of the Company have carefully considered the Group's expected cash flow projections for the next 18 months from 31 December 2024 and have given due consideration to the matters that give rise to material doubt as to its ability to continue as a going concern, and currently, the Group has formulated and is promoting a number of plans and measures to address the current debt problem and potential debt pressure in order to alleviate the liquidity pressure, including the launch of a relatively thorough market-oriented onshore public debt restructuring plan in 2024 with the support of all parties based on the Company's actual situation, and the plan has been approved at the relevant creditors' meetings in January 2025, and in order to resolve the Company's current offshore debt risks and cope with the impact of the winding-up petition, the Company has commenced its offshore debt restructuring and is seeking a more comprehensive offshore debt solution with the assistance of advisers (the "Proposed Offshore Restructuring Plan"). Details are set out in note 2.1(iii) to the consolidated financial statements as contained in this annual report.

The Board (including the Audit Committee) believes that the plans and measures currently adopted by the Group are effective in solving the audit issue. The Group's previous onshore and offshore debt restructuring plans were formulated based on the market conditions at the time. However, due to the continued downturn in the real estate market, the current market conditions are significantly short of expectations set when the previous onshore and offshore debt restructuring plans were formulated, resulting in the Group being unable to implement repayment arrangements according to the previous restructuring plans. Therefore, since 2024, the Group has considered the current market conditions taking into account its actual situation, and with the assistance of advisers, has once again carried out a more comprehensive restructuring plan for onshore and offshore debts to completely resolve debt risks.

As set out in the announcement of the Company dated 17 April 2025, the Company achieved a significant milestone in its offshore debt restructuring, and launched a restructuring support agreement (the "RSA"). The contemplated restructuring plan aims to provide a fair and equitable solution that maximizes recovery for creditors, while preserving the Group's ability to operate as a going concern and creating a win-win outcome for all stakeholders. Specifically, the restructuring plan will (a) provide participating creditors with the opportunity to convert their debt into equity, allowing them to benefit from near-term liquidity and potential equity upside; (b) completely address the Group's offshore debt risks and establish a sustainable capital structure. The implementation of the Shareholding Structure Stability Arrangement and the Employee Stock Ownership Plan (details of which are set out in the announcement of the Company dated 17 April 2025) is expected to further reinforce stakeholder confidence, thereby supporting future project delivery, debt risk resolution, assets revitalization, and long-term business recovery. The implementation of the Proposed Offshore Restructuring Plan and the transactions thereunder are subject to the approval of the scheme creditors, the Company's shareholders and the relevant court. The Company expects to commence the process for implementing the Proposed Offshore Restructuring Plan on terms set forth in the RSA as soon as possible. Broad-based support from creditors is required to facilitate a successful offshore restructuring, and the Company sincerely asks all existing creditors who have not signed the RSA to accede to the RSA as soon as possible.

Although the real estate industry still faces great pressures and challenges in the short term, it is believed that under the macro environment where policies in support of the overall economy and the real estate market are gradually launched by the government, core cities and core regions will gradually be stabilised. The Group will continue to maintain long-term confidence. In 2025, the Group will make every effort to complete the delivery tasks and resolve the onshore public debt risks with the support of all parties, strive to make substantial and key progress in resolving offshore debt risks, and steadily advance the resolution of project debt risks and the revitalization of assets, laying the foundation for the Group to gradually return to the track of healthy development in the future.

In the Directors' opinion, in view of the successful experience of the Company in the previous offshore debt restructuring and the orderly progress of the current restructuring work, the amicable communications with the relevant key creditors, and the orderly implementation of other relevant plans and measures, the Group will be able to adequately fund its operations and meet its financial obligations as and when they fall due within the next 18 months from 31 December 2024. Accordingly, the Directors (including the Audit Committee) consider that the preparation of the consolidated financial statements as at 31 December 2024 on a going concern basis is appropriate.

CORPORATE GOVERNANCE REPORT

The Board has discussed the going concern issue with the Group's management and is sincerely satisfied that with the orderly implementation of the plans and measures regarding debt resolution, it is appropriate to prepare the consolidated financial statements on a going concern basis.

The Audit Committee has discussed with the Board and the Group's management regarding the going concern issue, taking into consideration the successful experience in the previous offshore debt restructuring and with the orderly implementation of the plans and measures regarding debt resolution, agreed with the position taken by the Group's management and the Board regarding the accounting treatment adopted by the Company.

The Audit Committee also discussed and understood the concerns of the Auditor that uncertainties exist as to whether the Group's management will be able to achieve its plans and measures. There is no disagreement by the Board, the Group's management nor the Audit Committee with the position taken by the Auditor regarding the going concern issue.

Further details on the material uncertainties relating to the Group's going concern and their mitigation measures are set out in note 2.1(iii) to the consolidated financial statements of the Group.

RISK MANAGEMENT AND INTERNAL CONTROL

The Company continues to carry out efficient and independent internal control and adopts an approach of combining the best practices with industry standards to optimize the governance environment, increase the monitoring level, draw on senior management's experience in the industry, highlight the business expertise and establish a standardized internal control and supervision system in order to facilitate the Company's operations and management, ensure asset quality and safeguard the interests of shareholders in corporate governance and risk management.

RISK MANAGEMENT AND INTERNAL CONTROL RESPONSIBILITY

The Board, as the main body responsible for risk management and internal control of the Company, has always been committed to maintaining the development and upgrading of risk management and internal control systems to meet the Company's overall strategic objectives. The Board should oversee management in the design, implementation and monitoring of the risk management and internal control systems, and the management should provide a confirmation to the Board on the effectiveness of these systems. The Company has established internal control measures led by the Board whereby the management is responsible for assisting the Board in completing the identification and evaluation of risk factors of the business systems, implementing the Company's policies and procedures and participating in the design and operation of such measures that meet the Company's management requirements, which provides reliable assurance for the Company to carry out its business to prevent the occurrence of significant operational risks and losses. However, the risk management and internal control systems can only provide reasonable and not absolute assurance against material misstatement or loss, which is designed to manage rather than eliminate the risk of failure to achieve business objectives.

RISK MANAGEMENT STRUCTURE OF THE COMPANY

The Company has established an internal audit and control system with well-defined power and responsibility and comprehensive functions. The internal audit and supervision department is appointed by the Board and the Audit Committee to complete various audit tasks for the whole year and make suggestions for improving the effectiveness of the Company's risk management and internal control system. It makes special reports to the Board and Audit Committee on a regular basis each semi-year.

The risk management structure of the Company is as follows:

RISK MANAGEMENT PROCEDURE

The Company adopts “Group Internal Audit System” to identify, evaluate and handle major business risks. The internal audit and supervision department formulates risk evaluation standards for the Company, evaluates major risks that may affect the achievement of business objectives, and determines the scope and content of internal audits based on the importance level of such risks. Meanwhile, business units evaluate the existing control measures and management methods and develop solutions for potential risks existing in operations and management.

The internal audit and supervision department conducts audit supervision on major business aspects in operations and management based on the carrying out of the business of the Company through routine audit, special audit, report and investigation audit and other ways, and requests business units to conduct rectifications in respect of risks found in audits. Besides, it keeps track of the status of rectification and measures, ensures all risks are effectively controlled, regularly organizes business units of the Company for training and shares internal control experience and risk information to increase the Company's risk management standard.

CORPORATE GOVERNANCE REPORT

RISK MANAGEMENT AND INTERNAL CONTROL REVIEW

The Board reviews each year the effectiveness of the Group's risk management and internal control systems for the previous financial year, and made evaluations and suggestions on the Group's risk management and internal control systems and process through internal and external professionals and institutions.

The annual review in respect of the year ended 31 December 2024 has considered, among others (i) whether the resources, staff qualifications and experience, training programmes and budget of the Company's accounting, internal audit and financial reporting functions were adequate; (ii) the scope and quality of the management's ongoing monitoring of risks, the internal control systems and the work of its internal audit function; (iii) whether the risk management and internal control systems, including the extent and frequency of monitoring results to the Board of Directors or the Audit Committee (as the case may be) were sound and effective; and (iv) whether the Group's rules and major business processes could meet the requirements on the guaranteed home delivery, debt risk mitigation, assets revitalization and long-term business recovery by the Company at this stage. The Board also conducted a comprehensive evaluation on the timeliness, effectiveness and normativity of the procedures for handling and releasing inside information of the Company, as well as the effectiveness of the Company's processes for financial reporting and Listing Rule compliance. The results of the annual review were basically satisfactory.

During the reporting period, the Group's audit and supervision department conducted internal control inspections on key business points in the operation and management. Identified issues were categorized as either internal control deficiencies or internal control implementation issues, and classified into five risk levels based on their impact. For identified internal control deficiencies, the Group promptly implemented corrective measures to continuously improve its management policies. For identified internal control implementation issues, the Group held relevant departments or personnel accountable according to the severity of each issue. Through these measures, the Group is committed to achieving the management goal of optimizing the risk management and internal control process.

The Board confirms that the management achieved effective implementation and orderly operation in various risk management tasks and the internal control system of the Company by summarizing and evaluating the results of various internal control tasks of the Company. The Board considers that the risk management and internal control systems of the Company are effective and adequate.

The Company will continue to improve the risk management and internal control measures, constantly optimize the operation and management environment, guarantee the efficient and compliant operation of the Company, so as to ensure the safety and reliability of the Company's funds and assets, strengthen the construction of the compliance and risk control systems and promote the realization of the Company's goals such as guaranteed home delivery, debt risk mitigation, assets revitalization and long-term business recovery.

INFORMATION DISCLOSURE

The Company discloses information in compliance with the Listing Rules and other applicable laws, and publishes periodic reports and announcements to the public in accordance with relevant laws and regulations. Our primary focus is to ensure that information disclosure is timely, fair and accurate, thereby enabling our shareholders, the investors, stakeholders as well as the public to make rational and informed decisions.

COMMUNICATION WITH SHAREHOLDERS

The Company is committed to pursuing active dialogue with shareholders as well as providing timely disclosure of information concerning the Company's material developments to its shareholders, investors and other stakeholders. REPORT OF THE DIRECTORS

The Company's legal adviser as to PRC laws, Jincheng Tongda & Neal Law Firm (北京金誠同達律師事務所) (the "PRC Legal Adviser"), is of the opinion that except certain terms of the Contractual Arrangements as set out in the paragraph headed "Risks Relating to the Investments – Certain terms of the Contractual Arrangements may not be enforceable under PRC laws" below, the Contractual Arrangements entered into by Sunac Real Estate are legally binding on and enforceable against each party of each of the agreements in accordance with the terms and provisions under PRC laws and regulations. The Directors therefore believe that save as disclosed, the Contractual Arrangements are enforceable under the relevant laws and regulations in the PRC, and that the Contractual Arrangements provide a mechanism that protects Sunac Real Estate in its acquisition of the economic benefits over the relevant Target Shares.

The following simplified diagram illustrates the flow of economic benefits in the Target Shares to Sunac Real Estate under the Contractual Arrangements as at the latest practicable date:

(i) Exclusive Technology Consulting and Services Agreement

Sunac Real Estate and Tianjin Yingrui entered into the Exclusive Technology Consulting and Services Agreement, pursuant to which Tianjin Yingrui agrees to engage Sunac Real Estate as its exclusive consulting and service provider. Accordingly, Sunac Real Estate shall provide advice and recommendations to Tianjin Yingrui in respect of, among others, (1) consulting services on the management and operations of Tianjin Yingrui; (2) consulting services on market research and marketing strategies; (3) technical consulting services on processor maintenance and internet platform operating strategies; (4) services on research and development of software products and system maintenance; (5) leasing of computers and other operating equipment to Tianjin Yingrui; (6) services on brand promotion and management; (7) authorising Tianjin Yingrui to use all of Sunac Real Estate's intellectual property on a non-exclusive basis during the course of its business; and (8) provision of human resources support and relevant technical personnel.

Pursuant to the Exclusive Technology Consulting and Services Agreement, Tianjin Yingrui shall pay to Sunac Real Estate a service fee. Subject to the provisions of PRC laws and regulations, the amount is equal to the income of Tianjin Yingrui (including bonus, dividend distribution or any other proceeds or benefits received by Tianjin Yingrui from its investees), after making up for the losses for the previous year (if necessary) and deducting the necessary costs, expenses and taxes required for the business operation, and Sunac Real Estate shall have the right to adjust the level of the service fee based on the actual service scope and with reference to the operating conditions and expansion needs of Tianjin Yingrui. Tianjin Yingrui shall agree to pay the service fee quarterly.

The Exclusive Technology Consulting and Services Agreement is for an initial term of ten years commencing from the date of the agreement, upon the expiry of which the term of the agreement will be extended automatically for another ten years, unless Sunac Real Estate informs Tianjin Yingrui 90 days prior to the expiry date that it will not extend the term. Furthermore, the agreement may be terminated (1) by Sunac Real Estate by giving a 30 days' prior notice of termination; or (2) upon the acquisition of the entire equity interests in, and/or all assets of, Tianjin Yingrui by Sunac Real Estate pursuant to the Exclusive Option Agreements. Tianjin Yingrui is not contractually entitled to terminate the Exclusive Technology Consulting and Services Agreement.

(ii) Entrustment Agreements

Sunac Real Estate, Tianjin Yingrui and the Registered Shareholders entered into the Entrustment Agreements, pursuant to which the Registered Shareholders agree to enter into powers of attorney to irrevocably authorise the Chinese citizens designated by Sunac Real Estate (who shall be the directors and their successors of the direct or indirect shareholders of Sunac Real Estate (except the Registered Shareholders themselves) and who shall not be associates (as defined in the Listing Rules) of the Registered Shareholders) (the "Designated Persons") to exercise all of their rights and powers as shareholders of Tianjin Yingrui. The Designated Persons will act on the Registered Shareholders' behalf on all matters pertaining to Tianjin Yingrui and, to the extent permissible under applicable PRC laws, exercise all of their respective rights as a shareholder thereof, including (1) rights to attend shareholders' meeting; (2) rights to exercise voting rights in a shareholders' meeting on shareholder matters including but not limited to appointment or removal of directors, supervisors and senior management of Tianjin Yingrui and winding up of Tianjin Yingrui; (3) rights to sign minutes or resolutions of shareholders' meetings or other legal documents; (4) rights to instruct directors or the legal representative of Tianjin Yingrui to act in accordance with all their instructions; (5) rights to file documents with relevant governmental authorities or regulatory bodies; (6) rights to decide any transfer or otherwise disposal of the equity interest of the Registered Shareholders in Tianjin Yingrui; and (7) such other shareholders' rights as stipulated under applicable PRC laws, rules and regulations and the articles of association of Tianjin Yingrui.

REPORT OF THE DIRECTORS

The Entrustment Agreements are for an indefinite term commencing from the date of the agreements until they are terminated (1) by Sunac Real Estate by giving a 30 days' prior notice of termination; or (2) upon the acquisition of the entire equity interests in, and/or all assets of, Tianjin Yingrui by Sunac Real Estate pursuant to the Exclusive Option Agreements. The Registered Shareholders and Tianjin Yingrui are not contractually entitled to terminate the Entrustment Agreements.

(iii) Exclusive Option Agreements

Sunac Real Estate, Tianjin Yingrui and the Registered Shareholders entered into the Exclusive Option Agreements, pursuant to which the Registered Shareholders and/or Tianjin Yingrui irrevocably grant to Sunac Real Estate or the person as designated by Sunac Real Estate exclusive options to purchase, to the extent permitted by PRC laws and regulations, their equity interests in Tianjin Yingrui, entirely or partially, at the minimum purchase price permitted by PRC laws and regulations. In addition, pursuant to the Exclusive Option Agreements, the Registered Shareholders and Tianjin Yingrui irrevocably grant to Sunac Real Estate or the person as designated by Sunac Real Estate, exclusive options to acquire, to the extent permitted by PRC laws and regulations, all or part of the assets of Tianjin Yingrui (including but not limited to the entire equity interests in the Target Holding Companies) at the net book value for each option or the minimum purchase price permitted under PRC laws and regulations (whichever is lower). Sunac Real Estate may exercise such options at any time until it or the person designated by it has acquired all equity interests or assets of Tianjin Yingrui or unilaterally terminated the Exclusive Option Agreements by giving 30 days' prior notice, subject to the applicable PRC laws and regulations.

The Exclusive Option Agreements are for an indefinite term commencing from the date of the agreements, until they are terminated (1) by Sunac Real Estate by giving a 30 days' prior notice of termination; or (2) upon the acquisition of the entire equity interests or all assets of, Tianjin Yingrui by Sunac Real Estate or the person designated by it pursuant to the Exclusive Option Agreements. Tianjin Yingrui and the Registered Shareholders are not contractually entitled to terminate the Exclusive Option Agreements.

(iv) Loan Agreements

Sunac Real Estate entered into the Loan Agreements with each of the Registered Shareholders respectively, pursuant to which Sunac Real Estate shall provide a non-interest-bearing loan of RMB5,000,000 to each of the Registered Shareholders for the purposes of capital injection into Tianjin Yingrui. Subject to the terms of the Loan Agreements, the loan shall be for a term of five years commencing from the date of the agreement, upon the expiry of which the term of the agreement will be extended automatically for another five years. During the term of the Loan Agreements, Sunac Real Estate may demand immediate repayment upon the occurrence of certain events set out in the Loan Agreements including the resignation or removal of the Registered Shareholders from office in Sunac Real Estate or its affiliates, the death of the Registered Shareholders, the commission of criminal offences by the Registered Shareholders and the exercise of Sunac Real Estate's right under the Exclusive Option Agreements. When the loan is due, the Registered Shareholders may only repay the loan either by (1) transferring its interest in Tianjin Yingrui to Sunac Real Estate or the person as designated by Sunac Real Estate in accordance with Sunac Real Estate's requirements and to the extent permitted by PRC laws and regulations, or (2) upon the exercise of Sunac Real Estate's right under the Exclusive Option Agreements to acquire the assets of Tianjin Yingrui, using the dividends or other distributions obtained by the Registered Shareholders from Tianjin Yingrui.

The obligations of the Registered Shareholders under the Loan Agreements are secured by the pledge over all the equity interest held by the Registered Shareholders in Tianjin Yingrui in favour of Sunac Real Estate under the relevant Equity Pledge Agreements.

(v) Equity Pledge Agreements

Sunac Real Estate and the Registered Shareholders entered into the Equity Pledge Agreements, pursuant to which the Registered Shareholders shall pledge all of their respective equity interests in Tianjin Yingrui to Sunac Real Estate to secure the performance of all their obligations and the obligations of Tianjin Yingrui and the Target Holding Companies under the Contractual Arrangements. Under the agreement, if any of the Registered Shareholders and/or Tianjin Yingrui and/or the Target Holding Companies breaches any obligation under the Contractual Arrangements, Sunac Real Estate, as the pledgee, is entitled to request the Registered Shareholders to transfer the pledged equity interests, entirely or partially to Sunac Real Estate and/or any entity or person as designated by Sunac Real Estate. In addition, pursuant to the Equity Pledge Agreements, each of the Registered Shareholders undertakes to Sunac Real Estate, among other things, not to transfer the interest in his respective equity interests in Tianjin Yingrui and not to create any pledge thereon without Sunac Real Estate's prior written consent.

The Equity Pledge Agreements are for an indefinite term commencing on the date of the agreement until (1) all the relevant obligations under the Contractual Arrangements have been fulfilled; (2) all the relevant debts under the Contractual Arrangements have been settled; or (3) they are terminated by Sunac Real Estate by giving a 30 days' prior notice of termination. The Registered Shareholders and Tianjin Yingrui (as the case may be) are not contractually entitled to terminate the Equity Pledge Agreements.

(vi) Confirmation letters from the spouse of each Registered Shareholder

The spouse of each Registered Shareholder unconditionally and irrevocably agreed to and confirmed the transaction documents under the Contractual Arrangements signed by the relevant Registered Shareholder, and agreed to dispose of the equity interest in Tianjin Yingrui held by the relevant Registered Shareholder according to the requirements of such documents. The spouse of each Registered Shareholder also unconditionally and irrevocably agreed that such equity interest and all interests related thereto were not matrimonial properties jointly owned by him/her with the relevant Registered Shareholder, such equity interest and all interests related thereto were personal properties of the relevant Registered Shareholder, and might be pledged, sold or otherwise disposed of according to the requirements of the relevant transaction documents, and consent from the relevant spouse was not necessary. The spouse of each Registered Shareholder undertook that he/she will not assert any right or interest, or claim any damages or right, on such equity interest and all interests related thereto under any circumstances.

During the year ended 31 December 2024, there was no material change in the Contractual Arrangements and/or the circumstances under which they were adopted.

MANNER OF SETTLEMENT OF DISPUTES WHICH MAY ARISE FROM THE CONTRACTUAL ARRANGEMENTS

Pursuant to the Contractual Arrangements, any dispute arising from the interpretation and implementation of the Contractual Arrangements between the parties should first be resolved through negotiation, failing which any party may submit the said dispute to the China International Economic and Trade Arbitration Commission ("CIETAC") with a view to resolving the dispute through arbitration in accordance with the arbitration rules of the CIETAC. The results of the arbitration shall be final and binding on all relevant parties.

The Company's PRC Legal Adviser confirmed that the abovementioned proposed dispute resolution provisions set forth in the Contractual Arrangements are in compliance with the PRC laws, legally valid and binding on the relevant signatories. However, the Company's PRC Legal Adviser is also of the opinion that the provisions in the agreements underlying the Contractual Arrangements setting forth that courts in Hong Kong and the Cayman Islands are empowered to grant interim remedies in support of the arbitration pending the formation of an arbitral tribunal may not be enforceable under the PRC laws, see the paragraph headed "Risks Relating to the Investments – Certain terms of the Contractual Arrangements may not be enforceable under PRC laws" below.

REPORT OF THE DIRECTORS

BUSINESS ACTIVITIES OF TIANJIN YINGRUI AND THE TARGET HOLDING COMPANIES AND THEIR SIGNIFICANCE TO THE GROUP

Tianjin Yingrui and the Target Holding Companies are the contracting entities (the “Contracting Entities”) established in the PRC for the purpose of the Contractual Arrangements and are owned as to 50% by Mr. Wang and 50% by Mr. Zheng. As at 31 December 2024 and up to the latest practicable date prior to the printing of this report, the Contracting Entities were principally engaged in holding equity interests in the Target Companies. Except that Le Vision Pictures, Dream Castle, Shanghai Beishi, Zhenshi Future, Beijing Infinite Units and Sunac Pictures are indirect subsidiaries of the Company, the investment in Shanghai Mengyang and Shanghai Douchuang are accounted for using the equity method and the results of operation and assets and liabilities of Shanghai Mengyang and Shanghai Douchuang are not consolidated into the consolidated financial statements of the Group. Meanwhile, the Contracting Entities are accounted for as subsidiaries of the Company and their results of operation and assets and liabilities are consolidated in the consolidated financial statements of the Group.

The table below sets out the revenue and loss for the year of the Contracting Entities for the year ended 31 December 2024 and the total assets and total liabilities of the Contracting Entities as at 31 December 2024:

	For the year ended 31 December 2024 RMB million	Approximate percentage of contribution to the Group %
Revenue	159	0.2%
Loss for the year	514	1.9%

	As at 31 December 2024 RMB million	Approximate percentage of contribution to the Group %
Total assets	1,708	0.2%
Total liabilities	4,343	0.5%

RISKS RELATING TO THE INVESTMENTS AND MITIGATION ACTIONS TAKEN BY THE COMPANY

If the PRC Government finds that the structure of the Company's investments in the Target Companies (the "Investments") does not comply with the applicable PRC laws and regulations, or if these regulations or their interpretations change in the future, the Investments could be subject to severe consequences, including the nullification of the Contractual Arrangements and the relinquishment of Sunac Real Estate's interest in the Target Shares.

Some of the businesses in the existing businesses and future intended businesses of the Target Companies have entry barriers for foreign investors, the specific details are as follows:

In respect of Le Vision Pictures, Dream Castle, Shanghai Beishi, Shanghai Mengyang, Shanghai Douchuang, Sunac Pictures, Zhenshi Future and Beijing Infinite Units, among the current principal businesses operated by them, the film distribution, television broadcast program production and operation business, film production, and engagement in internet culture activities belong to prohibited categories of the industries for foreign investments in the "Foreign Investment Guidance Catalogue" (《外商投資指導目錄》).

According to the requirements of Article 4 under the "Rules on Merger and Acquisition of Domestic Enterprises by Foreign Investors" (《關於外國投資者併購境內企業的規定》), for industries prohibited to be operated by foreign investors under the "Foreign Investment Guidance Catalogue" (《外商投資指導目錄》), foreign investors are not allowed to merge with or acquire enterprises engaging in such industries. According to the requirements of Article 3 under the "Provisional Rules on Domestic Investments made by Foreign-invested Enterprises" (《關於外商投資企業境內投資的暫行規定》), domestic investments made by foreign-invested enterprises shall be implemented in line with the requirements of the "Provisional Rules on Guidance for Foreign Investment Direction" (《指導外商投資方向暫行規定》) and "Foreign Investment Guidance Catalogue" (《外商投資指導目錄》), foreign-invested enterprises are prohibited to invest in sectors where foreign investment is forbidden.

To summarize the aforesaid, some of the businesses in the existing businesses and future intended businesses of the Target Companies involved in the transactions have entry barriers for foreign investors, and foreign investors or foreign-invested enterprises established by them within the PRC shall not invest in sectors which belong to prohibited areas for foreign investments under the "Foreign Investment Guidance Catalogue" (《外商投資指導目錄》). Therefore, the Group will invest in such businesses through the Contractual Arrangements. Although the Group does not have any equity interest in the Target Holding Companies, the Group can obtain substantially all economic benefits of the relevant Target Shares through the Contractual Arrangements with Tianjin Yingrui and/or the Target Holding Companies and/or the Registered Shareholders through Sunac Real Estate.

REPORT OF THE DIRECTORS

The Company's PRC Legal Adviser is of the opinion that (i) the above arrangements will not violate the existing PRC laws and regulations; (ii) the agreements under the Contractual Arrangements have been duly executed and delivered, which are legally binding on the signing parties, and the execution and performance of the agreements under the Contractual Arrangements do not violate the existing PRC laws and regulations and the articles of association of the signing parties. Save for the equity pledge under the Equity Pledge Agreements, the execution and effectiveness of the agreements under the Contractual Arrangements do not require the approvals, consent or other legal procedures of the PRC government authorities. When the registration of the equity pledge is duly completed, the equity pledge under the Equity Pledge Agreements will have legal effect; (iii) except for certain terms of the Contractual Arrangements regarding the power of courts in Hong Kong and the Cayman Islands to grant interim remedies in support of the arbitration pending the formation of an arbitral tribunal (see the sub-paragraph headed "Certain terms of the Contractual Arrangements may not be enforceable under PRC laws" below), the Contractual Arrangements entered into by Tianjin Yingrui are valid and legally binding and will not result in any violation of the existing PRC laws and regulations; and (iv) there exists no situation under which the Contractual Arrangements entered into by Tianjin Yingrui becomes invalid under Section 52 of the PRC Contract Law (including, without limitation, "concealing illegal intentions with a lawful form"). Under the existing effective laws and regulations, the contracts entered into thereunder will not be regarded as invalid. However, the Company cannot guarantee that the views of the PRC government authorities will be consistent with or similar to those of the Company's PRC legal advisers. Furthermore, the PRC government authorities may adopt new laws and regulations in the future, which may invalidate the Contractual Arrangements.

If the PRC Government or judicial authorities determines that any of the relevant Target Companies, Tianjin Yingrui and the Target Holding Companies or the Contractual Arrangements does not comply with applicable laws and regulations, it could have broad discretion in dealing with such incompliance, including:

- (i) requiring the nullification of the Contractual Arrangements;
- (ii) levying fines and/or confiscating the proceeds generated from the operations under the Contractual Arrangements;
- (iii) revoking the business licenses or operating licenses of the Target Holding Companies, Tianjin Yingrui, the Target Companies and/or Sunac Real Estate;
- (iv) discontinuing or placing restrictions or onerous conditions on the business operations of the Target Companies, Tianjin Yingrui and/or the Target Holding Companies and/or Sunac Real Estate;
- (v) imposing conditions or requirements which the relevant Target Companies and/or Tianjin Yingrui and/or the Target Holding Companies may not be able to comply with or satisfy;
- (vi) requiring the relevant Target Companies and/or Tianjin Yingrui and/or the Target Holding Companies to undergo a costly and disruptive restructuring; and
- (vii) taking other regulatory or enforcement actions that could be harmful to or even shut down the business.

The imposition of any of the above-mentioned consequences could result in a material and adverse effect on the relevant Target Company's or Tianjin Yingrui's or the Target Holding Companies' ability to conduct its business. In addition, if the imposition of any of these consequences causes Sunac Real Estate to lose its rights to receive its economic benefits arising from the relevant Target Shares, the financial results of the relevant Target Companies as well as the Group's Investments in the relevant Target Companies may be adversely affected.

Sunac Real Estate relies on the Contractual Arrangements to obtain the economic benefits of the relevant Target Shares which may not be as effective in obtaining the economic benefits as direct ownership.

Due to the PRC's legal restrictions on foreign investment in the business conducted by the Target Companies as mentioned above, the Group, through Sunac Real Estate, obtains the economic benefits of the relevant Target Shares through the Contractual Arrangements rather than equity ownership.

However, the Contractual Arrangements may not be as effective in obtaining the economic benefits of the relevant Target Shares as equity ownership. For example, Tianjin Yingrui and/or the Target Holding Companies and/or the Registered Shareholders could breach or fail to perform their obligations under the Contractual Arrangements. If Sunac Real Estate had direct ownership of Tianjin Yingrui and/or the Target Holding Companies and/or the Target Companies, Sunac Real Estate would be able to exercise its rights as a shareholder to effect changes in its board of directors, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management and operational level. Under the Contractual Arrangements, Sunac Real Estate would need to rely on its rights under the Contractual Arrangements to effect such changes, or designate new shareholders of Tianjin Yingrui and/or the Target Holding Companies under the Contractual Arrangements.

If Tianjin Yingrui and/or the Target Holding Companies and/or the Registered Shareholders breach their obligations under the Contractual Arrangements or if Sunac Real Estate loses the economic benefits over the relevant Target Shares for any reason, Sunac Real Estate would need to bring a claim against them under the terms of the Contractual Arrangements. The Contractual Arrangements are governed by the PRC law and provide that any dispute arising from these arrangements will be submitted to the CIETAC for arbitration, the ruling of which will be final and binding. Furthermore, personal liabilities of the shareholders of Tianjin Yingrui and/or the Target Holding Companies may also subject the equity interest they hold in Tianjin Yingrui and/or the Target Holding Companies to court preservation actions or enforcement. The legal framework and system in the PRC, particularly those relating to arbitration proceedings, is not as developed as other jurisdictions such as Hong Kong or the United States of America. As a result, significant uncertainties relating to the enforcement of legal rights through arbitration, litigation and other legal proceedings remain in the PRC, which could limit Sunac Real Estate's ability to enforce the Contractual Arrangements and obtain economic benefits of the relevant Target Shares. If Tianjin Yingrui and/or the Target Holding Companies and/or the Registered Shareholders fails to perform its respective obligations under the Contractual Arrangements, and Sunac Real Estate is unable to enforce the Contractual Arrangements, or suffer significant delay or other obstacles in the process of enforcing the Contractual Arrangements, the Group's Investments in the relevant Target Companies could also be materially and adversely affected.

Certain terms of the Contractual Arrangements may not be enforceable under PRC laws.

The Contractual Arrangements provide for dispute resolution by way of arbitration in accordance with the arbitration rules of the CIETAC in the PRC. The Contractual Arrangements contain provisions to the effect that the arbitral body may award remedies over the shares and/or assets of Tianjin Yingrui and/or the Target Holding Companies, injunctive relief and/or winding up of Tianjin Yingrui and/or the Target Holding Companies. In addition, the Contractual Arrangements contain provisions to the effect that courts in Hong Kong and the Cayman Islands are empowered to grant interim remedies in support of the arbitration pending the formation of an arbitral tribunal.

REPORT OF THE DIRECTORS

However, the Company's PRC Legal Adviser has advised that the abovementioned provisions contained in the Contractual Arrangements may not be enforceable. Under PRC laws, an arbitral body does not have the power to grant any injunctive relief or provisional or final liquidation order to preserve the assets of or any equity interest in Tianjin Yingrui and/or the Target Holding Companies in case of disputes. Therefore, such remedies may not be available to Sunac Real Estate, notwithstanding the relevant contractual provisions contained in the Contractual Arrangements. PRC laws allow an arbitral body to award the transfer of assets of or an equity interest in Tianjin Yingrui and/or the Target Holding Companies in favour of an aggrieved party. In the event of non-compliance with such award, enforcement measures may be sought from the court. However, the court may or may not support the award of an arbitral body when deciding whether to take enforcement measures. Under PRC laws, courts of judicial authorities in the PRC generally would not grant injunctive relief or the winding-up order against Tianjin Yingrui and/or the Target Holding Companies as interim remedies to preserve the assets or shares in favour of any aggrieved party. The Company's PRC Legal Adviser is also of the view that, even though the Contractual Arrangements provide that courts in Hong Kong and the Cayman Islands may grant and/or enforce interim remedies or may be in support of arbitration, such interim remedies (even if so granted by courts in Hong Kong or the Cayman Islands in favour of an aggrieved party) may not be recognized or enforced by PRC courts. As a result, in the event that Tianjin Yingrui and/or the Target Holding Companies and/or the Registered Shareholders breaches any of the Contractual Arrangements, Sunac Real Estate may not be able to obtain sufficient remedies in a timely manner, and its economic benefits in the relevant Target Shares could be materially and adversely affected.

The Contractual Arrangements may lead to an increase in the overall future tax burden of the Group due to factors such as consolidation adjustment or a change in the structure of the Contractual Arrangements. The Group will continue to pay close attention to this.

MITIGATION ACTIONS TAKEN BY THE COMPANY

In light of the risks set out above, the Company would work closely with its external legal advisers and consultants as well as the Registered Shareholders to monitor the regulatory environment and developments in PRC laws and regulations to mitigate the risks associated with the Contractual Arrangements.

In addition, it is the intention of the Company to unwind or partially unwind the Contractual Arrangements when the foreign ownership restriction in respect of the businesses of the Target Companies is lifted or relaxed, to the extent reasonably practicable or advisable for the Company to do so under the then applicable laws and the Group's prevailing circumstances. However, as at the latest practicable date prior to the publication of this report, such foreign ownership restriction remains subsisted in the PRC and therefore the Contractual Arrangements are still subsisting as at the latest practicable date prior to the publication of this report.

PROPERTY, PLANT AND EQUIPMENT

BORROWINGS

Details of borrowings of the Group during the year ended 31 December 2024 are set out in note 24 to the consolidated financial statements.

RESERVES

Details of movements in the reserves of the Group during the year ended 31 December 2024 are set out in note 22 to the consolidated financial statements.

FINANCIAL SUMMARY

A financial summary of the Group for the year ended 31 December 2024 is set out on page 4 of this annual report.

DIVIDEND POLICY AND FINAL DIVIDEND

DIVIDEND POLICY

The main objective of the Company's dividend policy (the "Dividend Policy") is to provide stable and consistent dividends for shareholders when supported by the Group's earnings while ensuring that sufficient financial resources can be maintained to fund the Group's business growth. According to relevant laws, regulations and the Articles of Association, the Company in general meeting may declare dividends in any currency to be paid to the shareholders of the Company but no dividend shall be declared in excess of the amount recommended by the Board. In deciding whether to propose a dividend payment to shareholders, the Board shall take into account the following factors:

- (i) industry environment and internal and external factors that may affect the business and finance of the Company;
- (ii) financial position, operating results and future development prospect and plan of the Company;
- (iii) statutory, regulatory and contractual restrictions;
- (iv) interests of the shareholders; and
- (v) any other factors the Board deem applicable and relevant.

The Board will continually review, revise and update the Dividend Policy from time to time. The Dividend Policy shall in no way constitute a legally binding commitment by the Company that dividends will be paid in any particular amount and shall in no way obligate the Company to declare a dividend at any time or from time to time.

FINAL DIVIDEND

The Board did not recommend the payment of any final dividend for the year ended 31 December 2024 (2023: Nil).

There is no arrangement that any shareholder of the Company has waived or agreed to waive any dividend.

REPORT OF THE DIRECTORS

MAJOR CUSTOMERS AND SUPPLIERS

For the year ended 31 December 2024, revenue attributable to the largest customer of the Group amounted to approximately 0.5% of the total revenue in the year and the five largest customers of the Group accounted for 1.2% of the Group's total revenue in the year.

For the year ended 31 December 2024, purchases attributable to the largest supplier of the Group amounted to approximately 4.8% of the total purchases in the year and the five largest suppliers of the Group accounted for 13.8% of the Group's total purchases in the year.

So far as the Board is aware, neither the Directors, their respective close associates nor any shareholder (which to the knowledge of the Directors owns more than 5% of the Company's issued share capital) had any interest in these major customers and suppliers.

EQUITY LINKED AGREEMENTS

Save for the convertible bonds issued in connection with the offshore debt restructuring of the Company as set out in note 24(A) and note 25 to the consolidated financial statements of the Group, for the year ended 31 December 2024, the Company did not enter into any equity linked agreements.

PLACING OF EXISTING SHARES AND SUBSCRIPTION OF NEW SHARES DURING THE YEAR

On 17 October 2024, the Company, Sunac International Investment Holdings Ltd (the "Vendor") and China International Capital Corporation Hong Kong Securities Limited (the "Placing Agent") entered into a placing and subscription agreement, pursuant to which the Placing Agent agreed to place on a best efforts basis, up to 489,000,000 existing Shares at a price of HK\$2.465 per Share on behalf of the Vendor, and the Vendor conditionally agreed to subscribe for up to 489,000,000 new Shares at the placing price of HK\$2.465 per Share (the "Subscription"). The Subscription was completed on 31 October 2024 and 489,000,000 new Shares were allotted and issued to the Vendor, with a nominal value of HK\$48.9 million based on the par value of HK\$0.1 per Share and a market value of approximately HK\$1.506 billion based on the closing price of HK\$3.08 per Share as quoted on the Stock Exchange on 16 October 2024. The gross proceeds from the Subscription were HK\$1.205 billion and the net proceeds therefrom were HK\$1.192 billion. According, the net price of the Subscription is approximately HK\$2.438 per Share. The net proceeds from the Subscription would be used by the Company in accordance with its plan of supporting the long-term solutions for its onshore corporate bonds, as well as for general working capital purposes. As at 31 December 2024, all of the net proceeds remained unutilised and is expected to be utilised by 2025 in accordance with the uses disclosed above. Details of the placing of existing Shares and the subscription for new Shares are set out in the announcement of the Company dated 17 October 2024.

ISSUE OF NEW SHARES UPON CONVERSION OF CONVERTIBLE NOTES

On 20 November 2023, the Company issued convertible bonds (“CB”), mandatory convertible bonds (“MCB”) and shareholder mandatory convertible bond (“Shareholder MCB”) as consideration for the restructuring of offshore debts. During the year ended 31 December 2024, due to the conversion of CB, MCB and Shareholder MCB into shares of the Company (“Shares”), the Company issued a total of 421,239,203 new Shares. Among them, (1) US\$581,963,349 in principal amount of the CB has been converted into 226,965,500 Shares, (2) US\$128,426,127 in principal amount of the MCB has been converted into 166,953,942 Shares, and (3) US\$21,015,201 in principal amount of the Shareholder MCB has been converted into 27,319,761 Shares.

DILUTIVE IMPACT OF THE CONVERSION OF THE MCB AND THE SHAREHOLDER MCB

The conversion period of the CB expired on 20 November 2024.

Assuming there is full conversion of (i) the MCB in outstanding principal amount of US\$717,637,751 at the minimum conversion price of HK\$4.00 per Share, and (ii) the Shareholder MCB in outstanding principal amount of US\$117,431,726 at the minimum conversion price of HK\$4.00 per Share, in each case based on the agreed exchange rate of US\$1 = HK\$7.8, (x) such MCB can be converted into 1,399,393,614 Shares, and (y) such Shareholder MCB can be converted into 228,991,865 Shares. Such conversion shares in a total number of 1,628,385,479 represent approximately 17.50% of the total number of Shares in issue as at 31 December 2024 and approximately 14.89% of the total number of Shares in issue as enlarged by the allotment and issue of such conversion shares (assuming no other change in the issued share capital of the Company).

Set out below is the dilution effect on the equity interest of the substantial shareholders (within the meaning of the Listing Rules) of the Company if there had been full conversion of the outstanding MCB and Shareholder MCB as at 31 December 2024:

	As at 31 December 2024		Upon full conversion of the outstanding MCB and Shareholder MCB as at 31 December 2024	
	Number of Shares held	Approximate percentage of shareholding	Number of Shares held	Approximate percentage of shareholding
Sunac International ¹	2,474,962,639	26.59%	2,703,954,504	24.73%
South Dakota Trust Company LLC ¹	2,523,668,639	27.12%	2,752,660,504	25.17%

Note 1:

Sunac International Investment Holdings Ltd (“Sunac International”) is the holder of the Shareholder MCB. Upon full conversion of the Shareholder MCB, based on the minimum conversion price of HK\$4.00 per Share and based on the agreed exchange rate of US\$1 = HK\$7.8, such 228,991,865 Shares will be allotted and issued to Sunac International. 70% of the issued shares of Sunac International were held by Sunac Holdings LLC. All issued shares of Sunac Holdings LLC were held by the HBS family trust (“Family Trust”). South Dakota Trust Company LLC was the trustee of the Family Trust. The Family Trust was established by Mr. Sun Hongbin and Mr. Sun Hongbin and some of his family members are the beneficiaries.

REPORT OF THE DIRECTORS

As calculation based on loss attributable to owners of the Company of approximately RMB25.70 billion for the year ended 31 December 2024, basic loss per Share amounted to RMB3.00 and diluted loss per Share amounted to RMB3.00.

The MCB and Shareholder MCB are mandatorily convertible into Shares upon maturity and will not be redeemed by cash.

It would be equally financially advantageous for the holders of the MCB and Shareholder MCB to convert or redeem the MCB and Shareholder MCB thereunder based on the implied internal rate of return thereof, when the Company's share price approximates to the conversion price in the future.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

Save as disclosed in the section headed "Share Award Scheme" of this Report of the Directors and the aforesaid, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities (including sale of treasury shares) during the year ended 31 December 2024. Details of movements during the year ended 31 December 2024 in the share capital of the Company are set out in note 20 to the consolidated financial statements of the Group.

As at 31 December 2024, the Company did not hold any treasury shares.

On 23 January 2025, the Group and Great Wall (Tianjin) Equity Investment Fund Management Co., Ltd.* (長城(天津)股權投資基金管理有限責任公司, "Great Wall Investment Fund"), Wuhu Great Wall Real Estate Risky Assets Revitalization Investment Center (Limited Partnership)* (蕪湖長城房地產風險資產盤活投資中心(有限合夥), "Great Wall Risky Assets Revitalization Investment Center"), CITIC Trust Co., Ltd.* (中信信託有限責任公司, "CITIC Trust"), China CITIC Financial Asset Management Co., Ltd.* (中國中信金融資產管理股份有限公司, "China CITIC Financial Asset") and Sunshine 100 Real Estate Group Co., Ltd.* (陽光壹佰置業集團有限公司, "Sunshine 100 Real Estate") entered into relevant agreements including a limited partnership agreement, pursuant to which (1) Great Wall Risky Assets Revitalization Investment Center as the senior limited partner proposed to make capital contribution to Wuhu Changzhen Investment Center (Limited Partnership)* (蕪湖長真投資中心(有限合夥)) of not exceeding RMB2.476 billion in cash, of which, in principle, ① not more than RMB1.326 billion would be mainly used for the development and construction of the Chongqing Bay Project (a project located in Chongqing, the PRC for the development of residential and commercial properties for sale) and other funding requirements that may affect the development of the Chongqing Bay Project, and ② not less than RMB1.15 billion (subject to the actual amount eventually purchased by Great Wall Risky Assets Revitalization Investment Center) will be used to purchase the intermediate limited partnership interest held by CITIC Trust; (2) CITIC Trust shall subscribe for the intermediate limited partnership interest with the debts owing by Chongqing Sunshine 100 Real Estate Development Co., Ltd.* (重慶陽光壹佰房地產開發有限公司) (the "Project Company") to the trust scheme managed by CITIC Trust of approximately RMB5.0 billion for a consideration of approximately RMB3.174 billion; (3) China CITIC Financial Asset shall subscribe for the junior limited partnership interest with the debts owing by the Project Company to it; (4) Sunshine 100 Real Estate shall subscribe for the junior limited partnership interest with the debts owing by the Project Company to it or in cash; and (5) the Group shall subscribe for the junior limited partnership interest with the debts owing by the Project Company to it and its certain equity interests in the Project Company. Upon completion of the transaction, the Project Company would no longer be a subsidiary of the Company. Please refer to the announcement of the Company dated 23 January 2025 for details.

2. THE WINDING-UP PETITION AND ITS LATEST PROGRESS

On 10 January 2025, the Company received a winding-up petition (the “Petition”) filed by China Cinda (HK) Asset Management Co., Limited (the “Petitioner”) at the High Court of the Hong Kong Special Administrative Region (the “High Court”) in relation to the non-repayment of the loan to the Petitioner as lender by Shining Delight Investment Limited (an indirect wholly owned subsidiary of the Company) as borrower and the Company as guarantor, in the aggregate principal amount of US\$30,000,000 and accrued interests. At the hearing of the High Court on 24 March 2025, the High Court ordered the hearing of the Petition to be adjourned to 28 April 2025. Since the receipt of the Petition, the Company has been actively pursuing legal measures to resolutely oppose the Petition, and taking all necessary actions to protect its legal rights.

3. THE PROGRESS OF ONSHORE DEBT RESTRUCTURING

Sunac Real Estate Group Co., Ltd.* (融創房地產集團有限公司) (“Sunac Real Estate”, a wholly-owned subsidiary of the Company) has restructured a total of ten onshore corporate bonds and supply chain asset-backed special plans (collectively, the “Onshore Bonds”) issued by it (the “Onshore Debt Restructuring”). The restructuring plans of the ten Onshore Bonds have all been considered and approved at the relevant meetings of bondholders, whereby the repayment arrangements in regard to the principal and interest of the ten Onshore Bonds will be adjusted by Sunac Real Estate, and restructuring plan options including bond repurchase (i.e. cash tender offer), payment via equity and/or equity economic income right and debt settlement with assets have been provided by Sunac Real Estate. As of the date of this report, Sunac Real Estate is arranging bondholders for the selection and distribution regarding the restructuring plan options with respect to the amount of Onshore Bonds held by them, in accordance with the relevant provisions of the bondholder meeting resolutions. Further information on the Onshore Debt Restructuring is available on the websites of the Shanghai Stock Exchange (<http://www.sse.com.cn>) and the Shenzhen Stock Exchange (<https://www.szse.cn>).

4. OFFSHORE DEBT RESTRUCTURING

Given the impact of the Petition on the Company, and considering that the current market conditions are significantly below the expectations when the prior offshore debt restructuring plan was formulated, the Company will seek a more comprehensive holistic offshore debt solution based on the actual situation. The Company is committed to equitable treatment of all creditors by respecting their existing legal standing and inter-creditor payment priorities. The Company has commenced the offshore debt restructuring work and has appointed Houlihan Lokey (China) Limited and Sidley Austin as its financial and legal advisors in offshore debt restructuring, respectively, to assist the Company in formulating a comprehensive holistic offshore debt plan to address its current offshore debt risks.

REPORT OF THE DIRECTORS

SHARE AWARD SCHEME

The Board has resolved to adopt a share award scheme (the “Share Award Scheme”) on 8 May 2018 (the “Adoption Date”), in order to:

- (i) provide incentives for the employees of the Group to continuously make greater contributions for the Company's long-term growth in the future; and
- (ii) attract and retain talented employees who may be beneficial to the growth and development of the Group.

The Board may, from time to time, select employees to join the Share Award Scheme and determine the number of awards to be granted in accordance with the rules of the Share Award Scheme.

According to the Share Award Scheme, the Company will entrust the trustee to purchase the Company's Shares in the open market based on the overall remuneration incentive plan. The trustee will hold such Shares on behalf of the relevant selected employees on trust, until such Shares are vested with the relevant selected employees in accordance with the rules of the Share Award Scheme.

Unless early terminated by the Board, the Share Award Scheme shall be effective for ten years from the Adoption Date. As at the date of this report of the remaining term of the Share Award Scheme was approximately three years.

The aggregated maximum number of Shares that the trustee may purchase must not exceed 5% of the total Shares in issue of the Company on the Adoption Date, which is 220,113,960 Shares.

During the period from the Adoption Date to 30 June 2019, the trustee of the Share Award Scheme purchased on the open market a total of 94,653,000 Shares at the total consideration of approximately HKD2.57 billion pursuant to the rules of the Share Award Scheme and the terms of the trust deed. Since 30 June 2019 and for the year ended 31 December 2024, the trustee of the Share Award Scheme did not purchase any Shares.

Therefore, as at 31 December 2024, the trustee might further purchase 125,460,960 Shares on the open market for the purpose of the Share Award Scheme, representing approximately 1.19% of the Shares in issue as at the date of this report.

There is no provision on the minimum vesting period in the Share Award Scheme. Subject to the fulfilment of all the vesting conditions as designated by the Board at the time of grant by a selected employee who is, therefore, entitled to the awarded Shares, the trustee shall transfer the vested Shares to the selected employee at nil consideration.

From the Adoption Date to 31 December 2024, there have been a total of 57,505,000 share awards initially granted to selected employees (the number of share awards actually granted amounts to 50,700,000 Shares in total excluding the number of share awards granted but lapsed due to reasons such as the resignation of certain selected employees) under the Share Award Scheme on a cumulative basis, and there was no granted share award in 2024 (2023: Nil).

The number of awards available for grant under the Share Award Scheme at the beginning and the end of the year ended 31 December 2024 were 165,013,460 and 169,413,960 respectively, representing approximately 1.56% and 1.60% respectively of the Shares in issue as at the date of this report.

Details of the awards granted under the Share Award Scheme for the year ended 31 December 2024 were as follows.

Notes:

1. All granted share awards would be vested in three years, with 30%, 30% and 40% to be vested on the day before the first, the second and the third anniversary of the granting date of the Company's share awards respectively. Taking into account the current market conditions and the company's business situation, the Board has resolved to suspend the vesting of incentive shares granted to directors and employees from 2019 to 2021.
2. Mr. Jing Hong retired on the annual general meeting convened on 20 May 2024.
3. The five highest paid individuals in 2024 were all from Sunac Services.

Pursuant to the terms of the Share Award Scheme of the Company, the Company will not issue any new Shares in respect of the awards granted under the Share Award Scheme. Therefore, the number of new Shares that may be issued in respect of awards granted under all share award schemes of the Company during the year ended 31 December 2024 divided by the weighted average number of Shares in issue for this year is not applicable.

ENVIRONMENTAL PROTECTION

The Company has long considered environmental protection as one of its key priorities. The Company has carried out its business in strict compliance with national and local environmental laws and regulations, used its resources prudently, employed reusable and eco-friendly materials and tried its best to reduce the generation of wastes to fulfil the commitment to protect the environment. With reference to the Stock Exchange's Environmental, Social and Governance Reporting Guide as well as the GRI Guidelines (the international standard formulated by the Global Reporting Initiative), the Group has also updated its internal control system and developed a series of management systems and policies such as the Environmental Policies of Sunac to strengthen the management and control of the Group over environmental protection.

The Group will review its environmental protection activities from time to time and consider the further implementation of measures and practices on environmental protection in the Group's business operations, thereby enhancing environmental sustainability.

COMPLIANCE WITH LAWS AND REGULATIONS

Compliance procedures are in place to ensure adherence to applicable laws, rules and regulations in particular, those have significant impact on the Group. The Audit Committee is delegated by the Board to monitor the Group's policies and practices on compliance with legal and regulatory requirements and such policies are regularly reviewed. Any changes in the applicable laws, rules and regulations are brought to the attention of relevant employees and relevant operation units from time to time.

As far as the Company is aware, the Group has complied with relevant rules and regulations promulgated by the relevant regulatory bodies to which the Group operates its business in and holds relevant required licences for the conducting of its business. The Group's management will endeavor to ensure that the conduct of business is in conformity with the applicable laws and regulations.

RELATIONSHIP WITH STAKEHOLDERS

The Group recognizes that employees, customers and business partners are keys to its sustainable development. The Group is committed to establishing a close and caring relationship with its employees, providing quality services to its customers and enhancing cooperation with its business partners.

The Company provides a fair and safe workplace, promotes diversity to our staff, and provides competitive remuneration and benefits and career development opportunities based on their merits and performance. The Group also puts ongoing efforts to provide adequate trainings and development resources to the employees so that they can keep abreast of the latest development of the market and the industry and, at the same time, improve their performance and self-fulfillment in their positions.

The Group understands that it is important to maintain good relationship with customers and provide the products in a way that satisfy needs and requirements of the customers. The Group enhances the relationship by continuous interaction with customers to gain insight on the changing market demand for the products so that the Group can respond proactively. The Group has also established procedures in place for handling customers' complaints to ensure customers' complaints are dealt with in a prompt and timely manner.

The Group is also dedicated to developing good relationship with suppliers and contractors as long-term business partners to ensure stability of the Group's business. The Company reinforces business partnerships with suppliers and contractors by ongoing communication in a proactive and effective manner so as to ensure quality and timely delivery.

Disclaimer of Opinion

We were engaged to audit the consolidated financial statements of Sunac China Holdings Limited (the “Company”) and its subsidiaries (together the “Group”) set out on pages 78 to 202, which comprise the consolidated balance sheet as at 31 December 2024, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

We do not express an opinion on the consolidated financial statements of the Group due to the potential interaction of the multiple uncertainties relating to going concern and their possible cumulated effects on the consolidated financial statements as described in the “Basis for Disclaimer of Opinion” section of our report. In all other respects, in our opinion, the consolidated financial statements have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Disclaimer of Opinion

MULTIPLE UNCERTAINTIES RELATING TO GOING CONCERN

As disclosed in note 2.1(iii) to the consolidated financial statements, the Group incurred a net loss of approximately RMB27.40 billion for the year ended 31 December 2024 and, as at 31 December 2024, the Group had net current liabilities of approximately RMB53.52 billion. The Group's current and non-current borrowings amounted to approximately RMB186.09 billion and RMB73.58 billion as at 31 December 2024 respectively, while the Group had total cash (including cash and cash equivalents and restricted cash) amounting to approximately RMB19.75 billion. As at 31 December 2024, the Group had not repaid borrowings in principal amount of approximately RMB105.80 billion in aggregate according to their scheduled repayment dates, and as a result, borrowings in principal amount totalling of approximately RMB64.57 billion might be demanded for early repayment. Up to the date of this report, the Group had not repaid borrowings in principal amount of approximately RMB109.35 billion in aggregate according to their scheduled repayment dates and as a result, borrowings in principal amount totalling of approximately RMB56.44 billion might be demanded for early repayment. In addition, the Group was involved in various litigation and arbitration cases for various reasons as disclosed in note 36(B) to the consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

Nevertheless, the consolidated financial statements have been prepared on a going concern basis. The Company has been undertaking a number of plans and measures to improve the Group's liquidity and financial position, and have developed debt solutions which are set out in note 2.1(iii) to the consolidated financial statements. The validity of going concern assumption on which the consolidated financial statements have been prepared depends upon the successful implementation of these plans and measures, which are subject to multiple uncertainties, including (i) whether the Proposed Offshore Restructuring Plan (as defined in note 2.1(iii) to the consolidated financial statements) can be formulated and completed; (ii) whether it can successfully negotiate with the remaining lenders on the extension or deferral of the repayment of the Group's certain borrowings; (iii) whether new and additional financing resources will be available as and when required; (iv) whether deal with the litigations to reach an amicable settlement which have not yet come to a definitive conclusion and have a significant impact on operations; and (v) whether asset value is realisable, sales targets are achievable and sales business will be more stable in the future.

The above conditions indicate the existence of material uncertainties that may cast significant doubt on the Group's ability to the continue as a going concern. As a result of these multiple uncertainties, the potential interaction of these uncertainties, and the possible cumulative effect thereof, we were unable to form an opinion as to whether the going concern basis of preparation is appropriate.

Should the Group fail to achieve the intended effects resulting from the plans and measures as mentioned in note 2.1(iii) to the consolidated financial statements, it might not be able to operate as a going concern, and adjustments would have to be made to write down the carrying amounts of the Group's assets to their net realisable amounts, to provide for any further liabilities that may arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities respectively. The effects of these adjustments have not been reflected in the consolidated financial statements.

We disclaimed our opinion on the consolidated financial statements for the year ended 31 December 2023 relating to the going concern basis of preparing the consolidated financial statements. The balances as at 31 December 2023 and the amounts for the year then ended are presented as corresponding figures in the consolidated financial statements for the year ended 31 December 2024.

Directors' Responsibilities for the Consolidated Financial Statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so. The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our responsibility is to conduct an audit of the Group's consolidated financial statements in accordance with Hong Kong Standards on Auditing issued by the HKICPA and to issue an auditor's report. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

However, due to the potential interaction of the multiple uncertainties relating to going concern and their possible cumulative effect on the consolidated financial statements as described in the "Basis for Disclaimer of Opinion" section of our report, we were unable to form an audit opinion on these consolidated financial statements.

We are independent of the Group in accordance with the HKICPA's "Code of Ethics for Professional Accountants" (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

2.1 BASIS OF PREPARATION *(Continued)*

(iii) Going concern basis *(Continued)*

On 10 January 2025, the Company received a winding-up petition (the “Petition”) filed by China Cinda (HK) Asset Management Co., Limited (the “Petitioner”) at the High Court of the Hong Kong Special Administrative Region (the “High Court”) in relation to the non-repayment of the loan to the Petitioner as lender by Shining Delight Investment Limited (an indirect wholly owned subsidiary of the Company) as borrower and the Company as guarantor, in the aggregate principal amount of USD30,000,000 and accrued interests. The Petition may prompt other creditors of the Group to demand acceleration of payments or to pursue enforcement action of the relevant indebtedness, including senior notes, convertible bonds, mandatory convertible bonds and long-term borrowings with principal amounts of totalling approximately RMB50.69 billion, owed to them. At the hearing of the High Court on 24 March 2025, the High Court ordered the hearing of the Petition to be adjourned to 28 April 2025.

In light of the above, the directors of the Company (the “Directors”) have carefully considered the Group’s expected cash flow projections for the next 18 months from 31 December 2024 and have given due consideration to the matters that give rise to material doubt as to its ability to continue as a going concern, and accordingly, have proactively come up with debt solutions to alleviate the liquidity pressure. The Group has continued to implement the following plans and measures:

- During the period from December 2024 to January 2025, the restructuring plans in relation to the onshore corporate bonds and supply chain asset-backed plans (collectively, the “Onshore Bonds”) issued by Sunac Real Estate Group Co., Ltd. (“Sunac Real Estate”), a wholly-owned subsidiary of the Group, have been considered and approved at the relevant meetings of bondholders, whereby the repayment arrangements in regard to the principal and interest of the Onshore Bonds will be adjusted, the repayment period has been extended 5 to 9.5 years with the interest rates for both historical accrued and unpaid interest and future interest reduced to 1% per annum, and restructuring plan options including bond repurchase (i.e. cash tender offer), payment via equity and/or equity economic income right and debt settlement with assets will be provided (“Onshore Debt Restructuring Plan”). As a next step, Sunac Real Estate will coordinate with the bondholders to select and allocate options under the restructuring plan based on the amount of the Onshore Bonds they hold, in accordance with the relevant provisions of the bondholder meeting resolutions;
- Considering the impact of the Petition on the Company, and recognising that the current market conditions are significantly short of expectations set when the prior offshore debt restructuring plan was formulated, the Company will seek a more comprehensive and holistic offshore debt solution. As of the date of approval of these consolidated financial statements, the Company has commenced the offshore debt restructuring work and has appointed Houlihan Lokey (China) Limited and Sidley Austin as its financial and legal advisers in the offshore debt restructuring, respectively, to assist the Company in formulating a comprehensive and holistic offshore debt restructuring plan (the “Proposed Offshore Restructuring Plan”). The Company, together with its financial adviser, has always maintained active communication with the offshore creditors and endeavored to reach agreements with the relevant creditors on the Proposed Offshore Restructuring Plan as soon as possible. The Directors and the management of the Company are confident in obtaining the support from the relevant creditors and completing the Proposed Offshore Restructuring Plan;

2.1 BASIS OF PREPARATION *(Continued)*

(iii) Going concern basis *(Continued)*

- The Group has been actively negotiating with other lenders on the extension of borrowings, and up to the date of approval of these consolidated financial statements, extension of loans of approximately RMB41.12 billion has been agreed. Due to the diverse lender base and changing market environment, it takes time to finalise the extension plans case-by-case. Having considered the market environment, the successful extension of certain loans, the Group's credit history and longstanding relationships with the relevant lenders, the Group is confident that it will have the extension agreements for relevant outstanding loans gradually signed or have the relevant issues gradually resolved in other comprehensive ways;
- The Group is actively seeking new financing or additional capital inflows through various channels, including but not limited to new financing from asset management companies or financial institutions, special loan for guaranteed home delivery and ancillary borrowings, business cooperation with partners, asset disposal, etc., and up to the date of approval of these consolidated financial statements, the Group has endeavoured to achieve certain business cooperation and has obtained additional financing or additional capital inflows for a number of projects in the above areas. On 24 September 2024, the People's Bank of China and the National Financial Regulatory Administration issued the Notice on Extending the Duration of Certain Real Estate Financial Policies (《關於延長部分房地產金融政策期限的通知》). The notice extends the applicable period of policies supporting reasonable extensions for existing financing – including development loans and trust loans – until 31 December 2026. Concurrently, it prolongs the validity of related policies outlined in the Notice of the General Office of the People's Bank of China and the General Office of the National Financial Regulatory Administration on Strengthening the Management of Commercial Property Loans (《中國人民銀行辦公廳國家金融監督管理總局辦公廳關於做好經營性物業貸款管理的通知》) to the same deadline. These measures aim to meet the reasonable financing needs of the real estate sector and promote stable and healthy market development. The Group will also endeavour to seize such opportunities to further seek new facilities or additional funds;
- The Group has been actively communicating with creditors to resolve the pending onshore lawsuits. Up to the date of approval of these consolidated financial statements, the Group has completed the settlement arrangements with certain creditors. The Group will continue to pursue diligently to reach an amicable settlement as soon as possible, taking account of the availability of financial resources to the Group, so as to deal with the litigations which have not yet come to a definitive conclusion at this stage;
- The Group has adjusted its organizational structure to be more flat to reduce the management levels, reduce the headcount, enhance management efficiency and effectively control costs and expenses;

2.1 BASIS OF PREPARATION (Continued)

(iii) Going concern basis (Continued)

- The Group will take measures to accelerate the pre-sale and sale of properties under development and completed properties. In addition, the Group will continue to implement initiatives to expedite the collection of sales proceeds and recovery of other receivables. The Group believes that with the intensifying policy support from the central government, coupled with the stabilization and recovery of the overall economy and the restoration of market confidence, the long-term supply and demand dynamics in the real estate market will rebalance, leading to a gradual stabilization of the market. Therefore, the Group will proactively adjust its sales and pre-sale strategies to respond to market changes and seize emerging demand opportunities; and
- The Group will always actively assume the primary responsibility, respond to the government's call for guaranteed home delivery, and continue to strive to complete the guaranteed home delivery. The government has been constantly adjusting and optimising its real estate regulation and control policies and introducing supportive policies, with a view to stabilising market expectations and facilitating the gradual recovery of the market. The Group will proactively keep up with the current policy window and make full use of the industry support policies, resolutely complete the task of guaranteed home delivery, and proactively resolve debt risks in an orderly manner.

In the Directors' opinion, in view of the above plans and measures, the Group will be able to adequately fund its ordinary operations and meet its financial obligations as and when they fall due within the next 18 months from 31 December 2024. Accordingly, the Directors consider that the preparation of the consolidated financial statements as at 31 December 2024 on a going concern basis is appropriate.

The management has formulated a number of plans and taken a number of measures, but the Group's ability to continue as a going concern still depends on:

- whether the Proposed Offshore Restructuring Plan can be formulated and completed;
- whether it can successfully negotiate with the remaining lenders on the extension or deferral of the repayment of the Group's borrowings;
- whether new and additional financing resources will be available as and when required;
- whether deal with the litigations to reach an amicable settlement which have not yet come to a definitive conclusion and have a significant impact on operations; and
- whether asset value is realisable, sales targets are achievable and sales business will be more stable in the future.

The above conditions indicate the existence of material uncertainties which may cast significant doubt on the Group's ability to continue as a going concern.

2 Summary of accounting policies (Continued)

2.1 BASIS OF PREPARATION (Continued)

(iii) Going concern basis (Continued)

Since 2022, the real estate market in Mainland China has gone through adjustment with duration and depth beyond previous expectations. There is uncertainty as to the stabilization and recovery of the Group's sales and the continued support from banks and the Group's lenders, hence, there is significant uncertainty as to the Group's ability to implement the above plans and measures.

If the Group is unable to achieve the above plans and measures and unable to continue as a going concern, adjustments must be made to reduce the carrying amount of the Group's assets to recoverable amounts, to provide for any future liabilities that may arise, and to reclassify non-current assets and non-current liabilities to current assets and current liabilities, respectively. The effect of these adjustments has not been reflected in the consolidated financial statements.

(iv) New standards, amendments and interpretation adopted by the Group

The Group has applied the following new standards, amendments and interpretation for the first time for its annual reporting period commencing 1 January 2024:

- *Classification of Liabilities as Current or Non-current* – Amendments to HKAS 1;
- *Non-current Liabilities with Covenants* – Amendments to HKAS 1;
- *Lease liability in a Sale and Leaseback* – Amendments to HKFRS 16;
- *Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause* – Amendments to Hong Kong Interpretation 5 (Revised); and
- *Supplier Finance Arrangements* – Amendments to HKAS 7 and HKFRS 7

The new standards, amendments and interpretation listed above did not have any material impact on the amounts recognised in prior and current periods.

(v) New standards, amendments and interpretations not yet adopted

Certain new accounting standards, amendments to accounting standards and interpretations have been published that are not mandatory as of 31 December 2024 reporting periods and have not been early adopted by the Group.

	Effective for the financial year beginning on or after
<i>Lack of Exchangeability</i> – Amendments to HKAS 21 and HKFRS 1	1 January 2025
<i>Contracts Referencing Nature – Dependent Electricity</i> – Amendments to HKFRS 9 and HKFRS 7	1 January 2026
<i>Amendments to the Classification and Measurement of Financial Instruments</i> – Amendments to HKFRS 9 and HKFRS 7	1 January 2026
<i>Annual Improvements to HKFRS – Volume 11</i>	1 January 2026
<i>Presentation and Disclosure in Financial Statements</i> – HKFRS 18	1 January 2027
<i>Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause</i> – Amendments to Hong Kong Interpretation 5	1 January 2027
<i>Subsidiaries without Public Accountability: Disclosures</i> – HKFRS 19	1 January 2027
<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures</i> – Amendments to HKFRS 10 and HKAS 28	To be determined

Except for the new HKFRS mentioned below, the Directors anticipate that the application of all new and amendments to HKFRS and interpretations will have no material impact on the consolidated financial statements in the foreseeable future.

HKFRS 18 *Presentation and Disclosure in Financial Statements*

HKFRS 18 *Presentation and Disclosure in Financial Statements*, which was issued by the HKICPA in July 2024 supersedes HKAS 1 and will result in major consequential amendments to HKFRS including HKAS 8 *Basis of Preparation of Financial Statements* (renamed from *Accounting Policies, Changes in Accounting Estimates and Errors*). Even though HKFRS 18 will not have any effect on the recognition and measurement of items in the consolidated financial statements, it is expected to have a significant effect on the presentation and disclosure of certain items. These changes include categorisation and sub-totals in the statement of profit or loss, aggregation/disaggregation and labelling of information, and disclosure of management-defined performance measures.

2 Summary of accounting policies (*Continued*)

2.2 PRINCIPLES OF CONSOLIDATION AND EQUITY ACCOUNTING

(i) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of comprehensive income, statement of changes in equity and consolidated balance sheet respectively.

(ii) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iv) below), after initially being recognised at cost.

(iii) Joint arrangements

The Group has applied HKFRS 11 *Joint Arrangements* to all joint arrangements. Under HKFRS 11, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Interests in joint ventures are accounted for using the equity method (see (iv) below), after initially being recognised at cost in the consolidated balance sheet.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

2 Summary of accounting policies *(Continued)*

2.2 PRINCIPLES OF CONSOLIDATION AND EQUITY ACCOUNTING *(Continued)*

(iv) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in consolidated profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. The Group's investments in associates and joint ventures include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an equity-accounted investment, any difference between the cost of the equity-accounted investment and the Group's share of the net fair value of the equity-accounted investment's identifiable assets and liabilities is accounted for as goodwill. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The carrying amount of equity-accounted investments is tested for impairment in accordance with the policy described in note 2.7.

(v) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of the Company.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in consolidated profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset.

2 Summary of accounting policies *(Continued)*

2.3 FOREIGN CURRENCY TRANSLATION

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the functional currency. The consolidated financial statements are presented in RMB, which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in consolidated profit or loss.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the statement of consolidated profit or loss, within 'finance expenses – net'. All other foreign exchange gains and losses are presented in the consolidated statement of profit or loss on a net basis within other gains or other losses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in consolidated profit or loss as part of the fair value gain or loss.

(iii) Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet,
- income and expenses for each statement of profit or loss and statement of comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- all resulting exchange differences are recognised in other comprehensive income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

2 Summary of accounting policies (Continued)

2.3 FOREIGN CURRENCY TRANSLATION (Continued)

On consolidation, exchange differences arising from the translation of any net investment in foreign entities are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to consolidated profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

2.4 PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment ("PP&E") is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to consolidated profit or loss during the reporting period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values over their estimated useful lives or, in the case of leasehold improvements, the shorter lease term as follows:

Buildings and equipment	5–40 years
Vehicles	3–10 years
Furniture and office equipment	3–5 years
Leasehold improvements	Shorter of 5 years or the lease periods

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in consolidated profit or loss.

2 Summary of accounting policies *(Continued)*

2.5 INVESTMENT PROPERTIES

Investment properties, principally freehold office buildings, shopping malls and commercial properties are held for long-term rental yields or for capital appreciation or both, and that are not occupied by the Group. Land held under operating leases are classified and accounted for as investment properties when the rest of the definition of investment properties are met. Investment properties are initially measured at cost including related transaction costs and where applicable borrowing cost.

After initial recognition, investment properties are carried at fair value. Fair value is based on active market prices, adjusted, if necessary, for any differences in the nature, location or condition of the specific asset. If such information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections.

The fair value of investment properties reflects, among other things, rental income from current leases and assumptions about rental income from future leases in light of current market condition.

Changes in fair values are presented in consolidated profit or loss as part of other income or other expense.

2.6 INTANGIBLE ASSETS

(i) Goodwill

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units ("CGUs") for the purpose of impairment testing. The allocation is made to those CGUs or groups of CGUs that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, being the operating segments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

2 Summary of accounting policies (Continued)

2.6 INTANGIBLE ASSETS (Continued)

(ii) Trademark and brand

Trademark is carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method over the shorter of budgeted useful lives and contractually useful lives.

Brand acquired in a business combination is recognised at fair value at the acquisition date. Brand has a finite useful life and is subsequently carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method over the expected useful lives of 5 to 15 years.

(iii) Software

Acquired computer software programmes are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over the estimated useful lives of 3 to 10 years on a straight-line basis.

(iv) Customer relationships

Separately acquired customer relationships are shown at historical cost. Customer relationships acquired in a business combination are initially recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method over the expected useful lives, which is 5 to 8 years.

(v) Concession right

A subsidiary of the Group is engaged in the development, financing, operating and maintenance of facilities for public service (the "Concession Project") in accordance with the concession agreements signed with the institution affiliated to the government (the "Concession Agreement") over a specified period (the "Concession Service Period"). The Group is reimbursed for the operation of the Concession Project on behalf of the government in accordance with the term of the Concession Agreement and hand over the facilities to the government or its authorised institution at the end of the Concession Services Period. When the assets under the Concession Agreement reach their intended usable state, the Group recognises the cost of relevant concession project assets plus the developer's profit as intangible assets. Amortisation is calculated using the straight-line basis over the Concession Services Period.

2 Summary of accounting policies *(Continued)*

2.7 IMPAIRMENT OF NON-FINANCIAL ASSETS

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (CGUs). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.8 INVESTMENTS AND OTHER FINANCIAL ASSETS

(i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("OCI") or through consolidated profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in consolidated profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the investments in equity instruments at fair value through other comprehensive income ("FVOCI").

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

2 Summary of accounting policies (Continued)

2.8 INVESTMENTS AND OTHER FINANCIAL ASSETS (Continued)

(iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in consolidated profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Group classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest method. Any gain or loss arising on derecognition is recognised directly in consolidated profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated statement of profit or loss.
- **FVPL:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in consolidated profit or loss and presented net within other gains/(losses) in the period in which it arises.

Equity instruments

The Group subsequently measures all equity investments at fair value. Dividends from such investments are recognised in consolidated profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other gains/(losses) in the consolidated statement of profit or loss as applicable.

2 Summary of accounting policies (Continued)

2.8 INVESTMENTS AND OTHER FINANCIAL ASSETS (Continued)

(iv) Impairment

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

2.9 FINANCIAL GUARANTEE CONTRACTS

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of:

- the amount determined in accordance with the expected credit loss model under HKFRS 9 *Financial Instruments*, and
- the amount initially recognised less, where appropriate, the cumulative amount of income recognised in accordance with the principles of HKFRS 15 *Revenue from Contracts with Customers*.

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Where guarantees in relation to loans or other payables of joint venture or associates are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment.

2.10 DERIVATIVES AND HEDGING ACTIVITIES

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group enters into certain derivative instruments which do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in consolidated profit or loss and are included in other income or other expenses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

2 Summary of accounting policies (Continued)

2.11 PROPERTIES UNDER DEVELOPMENT ("PUDs")

Properties under development are stated at the lower of cost and net realisable value. Net realisable value takes into account the price ultimately expected to be realised, less applicable variable selling expenses and anticipated cost to completion.

Development cost of property comprises construction costs, land use rights cost, capitalised borrowing costs and professional fees incurred during the development period. On completion, the properties are transferred to completed properties held for sale.

2.12 COMPLETED PROPERTIES HELD FOR SALE ("CPHFS")

Completed properties remaining unsold as at the consolidated balance sheet dates are stated at the lower of cost and net realisable value.

Cost comprises development costs attributable to the unsold properties.

Net realisable value is determined by reference to the sale proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses, or by management estimates based on prevailing marketing conditions.

2.13 INVENTORIES

Inventories are stated at the lower of cost and net realisable value. Cost, being cost of purchase, is determined on a weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2.14 TRADE RECEIVABLES

Trade receivables are amounts due from customers for properties sold or services performed in the ordinary course of business. If collection of trade receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. See note 16 for further information about the Group's accounting for trade receivables and note 2.8 for a description of the Group's impairment policies.

2 Summary of accounting policies (Continued)

2.15 CASH AND CASH EQUIVALENTS

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.16 SHARE CAPITAL AND SHARES HELD FOR EMPLOYEE SHARE SCHEME

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any group company purchases the Company's equity instruments, for example as the result of a share buy-back or a share-based payment plan, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the owners of the Company as treasury shares until the shares are cancelled or reissued. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the owners of the Company.

2.17 TRADE AND OTHER PAYABLES

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.18 CONVERTIBLE BONDS CONTAINING DEBT AND DERIVATIVE COMPONENTS

A conversion option that will be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Group's own equity instruments is a conversion option derivative. At initial recognition, the derivative component is measured at fair value and presented as part of derivative financial instruments (note 25). Any excess of fair value of the convertible bond over the amount initially recognised as the derivative component is recognised as the host liability component. Any directly attributable transaction costs are allocated to the host liability and derivative components in proportion to their initial carrying amounts. The portion of the transaction costs relating to the host liability component is recognised initially as part of the liability. The portion relating to the derivative component is recognised immediately in profit or loss. The derivative component is subsequently remeasured in accordance with note 25. The host liability component is subsequently carried at amortised cost using effective interest method. Where the original terms of the bond permit the holder to convert at any time before maturity, and the bond is subsequently converted early at the holder's option, the carrying amount of the host liability (at the date of conversion) together with carrying amount of the derivative liability, which is remeasured to fair value immediately before conversion, is transferred to equity such that no gain or loss is recognised on settlement. If the bonds are redeemed, any difference between the amount paid and the carrying amounts of both components is recognised in profit or loss.

2.19 DERECOGNITION OR MODIFICATION OF FINANCIAL LIABILITIES

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liabilities derecognised and the consideration paid and payable is recognised in profit or loss. Except for changes in the basis for determining the contractual cash flows as a result of interest rate benchmark reform in which the Group applies the practical expedient, when the contractual terms of a financial liability are modified, the Group assesses whether the revised terms result in a substantial modification from original terms taking into account all relevant facts and circumstances including qualitative factors. If qualitative assessment is not conclusive, the Group considers that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received, and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liabilities. Accordingly, such modification of terms is accounted for as an extinguishment, and any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. The exchange or modification is considered as non-substantial modification when such difference is less than 10 per cent. For non-substantial modifications of financial liabilities that do not result in derecognition, the carrying amount of the relevant financial liabilities will be calculated at the present value of the modified contractual cash flows discounted at the financial liabilities' original effective interest rate. Transaction costs or fees incurred are adjusted to the carrying amount of the modified financial liabilities and are amortised over the remaining term. Any adjustment to the carrying amount of the financial liabilities is recognised in profit or loss at the date of modification.

2.20 BORROWINGS

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in consolidated profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2 Summary of accounting policies *(Continued)*

2.21 BORROWING COSTS

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the period in which they are incurred.

Borrowing costs include interest expense and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. The exchange gains and losses that are an adjustment to interest costs include the interest rate differential between borrowing costs that would be incurred if the entity had borrowed funds in its functional currency, and the borrowing costs actually incurred on foreign currency borrowings. Such amounts are estimated based on interest rates on similar borrowings in the entity's functional currency.

When the construction of the qualifying assets takes more than one accounting period, the amount of foreign exchange differences eligible for capitalisation is determined for each annual period and are limited to the difference between the hypothetical interest amount for the functional currency borrowings and the actual interest incurred for foreign currency borrowings.

Foreign exchange differences that did not meet the criteria for capitalisation in previous years should not be capitalised in subsequent years.

2.22 CURRENT AND DEFERRED INCOME TAX

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

2.22 CURRENT AND DEFERRED INCOME TAX (Continued)

Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The deferred tax liability in relation to investment property that is measured at fair value is determined assuming the property will be recovered entirely through sale.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in consolidated profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.23 EMPLOYEE BENEFITS

(i) Short-term obligations

Liabilities for wages and salaries that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated balance sheet.

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the consolidated balance sheet date. Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) Retirement benefits

The Group only operate defined contribution pension plans. In accordance with the rules and regulations in Mainland China, the Mainland China based employees of the Group participate in various defined contribution retirement benefit plans organised by the relevant municipal and provincial governments in Mainland China under which the Group and the Mainland China based employees are required to make monthly contributions to these plans calculated as a percentage of the employees' salaries.

The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired Mainland China based employees' payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post-retirement benefits of its employees. The assets of these plans are held separately from those of the Group in independently administrated funds managed by the Mainland China government. The Group's contributions to the defined contribution plans are expensed as incurred and not reduced by contributions forfeited by those employees who leave the plans prior to vesting fully in the contributions.

2.24 SHARE-BASED PAYMENTS

Share-based compensation benefits are provided to employees via the Company's share option schemes and an employee share award scheme. Information relating to these schemes is set out in note 21.

(i) Employee options

The fair value of options granted under the Company's employee option schemes is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g. the entity's share price),
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in consolidated profit or loss, with a corresponding adjustment to equity.

In addition, in some circumstances employees may provide services in advance of the grant date and therefore the grant date fair value is estimated for the purposes of recognising the expense during the period between service commencement period and grant date.

When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital (and share premium).

2 Summary of accounting policies *(Continued)*

2.24 SHARE-BASED PAYMENTS *(Continued)*

(ii) Employee share award scheme

Under the employee share award scheme, the Company entrusts the trustee to purchase existing ordinary shares in the open market based on the overall remuneration incentive plan. The trustee will hold such shares on behalf of the relevant selected employees on trust, until such shares are vested with the relevant selected employees in accordance with the scheme rules (see note 2.16).

The fair value of the shares granted to selected employees for nil consideration under the employee share award scheme is recognised as an expense over the relevant service period and the vesting period of the shares. The fair value is measured at the grant date of the shares and is recognised in equity in the share-based payment reserve. The number of shares expected to vest is estimated based on the non-market vesting conditions. The estimates are revised at the end of each reporting period and adjustments are recognised in consolidated profit or loss and the share-based payment reserve.

Where shares are forfeited due to a failure by the employee to satisfy the service conditions, any expenses previously recognised in relation to such shares are reversed effective the date of the forfeiture.

2.25 PROVISIONS

Provisions for legal claims, onerous contract and make good obligations are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

2.26 REVENUE RECOGNITION

(i) Sales of properties

The Group develops and sells residential and commercial properties. Revenues are recognised when or as the control of the property is transferred to the customer. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may be transferred over time or at a point in time. Control of the asset is transferred over time if the Group's performance do not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the asset.

The progress towards complete satisfaction of the performance obligation is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation, by reference to the contract costs incurred up to the end of reporting period as a percentage of total estimated costs for each contract.

For property development and sales contracts for which the control of the property is transferred at a point in time, revenue is recognised when the customer obtains the physical possession or the legal title of the completed property and the Group has present right to payment.

The revenue is measured at the transaction price received or receivable under the contract.

The excess of cumulative billings to purchasers of properties over the cumulative revenue recognised in consolidated profit or loss is recognised as contract liabilities. Contract liability is recognised as revenue when the Group satisfies its performance obligations. For contract where the period between the payment by the customer and the transfer of the promised property exceeds one year, the promised amount of consideration is adjusted for the effects of a significant financing component.

Sales commissions and other costs directly attributable to obtaining a contract, if recoverable, are capitalised as contract costs.

(ii) Property management service income

Property management service income is recognised in the accounting period in which the services are rendered. For property management services, the Group bills a fixed amount for services provided and recognises as revenue in the amount to which the Group has a right to bill and that corresponds directly with the value of performance completed on a monthly basis. The property management services are normally billable immediate upon the delivery of the services.

2 Summary of accounting policies *(Continued)*

2.26 REVENUE RECOGNITION *(Continued)*

(iii) Rental income

Rental income from investment properties is recognised in the consolidated statement of profit or loss on a straight-line basis over the term of the lease.

(iv) Hotel operations

Hotel revenue from room rentals, food and beverage sales and other ancillary services are recognised when the services are rendered.

(v) Theme parks operations

Revenues from advance theme park ticket sales are recognised when the tickets are used. Revenues from annual or monthly pass sales are recognised ratably over the period for which the pass is available for use.

(vi) Fitting and decoration services

Revenues from fitting and decoration services are recognised in the accounting period in which the services are rendered.

(vii) Film and TV series production and distribution

Income from the distribution of own produced films are recognised when the production is completed, the films have been released and distributed to the cinema circuit and TV broadcast networks and the amounts can be measured reliably, which are generally when the cinema circuit and TV broadcast networks confirm to the entities its share of box office receipts and profit entitlement.

(viii) Film special effects services

Revenue from Film special effects services contracts is recognised over time, using an input method to measure progress towards complete satisfaction of the service.

The progress towards complete satisfaction of the performance obligation is measured based on the Company's efforts or inputs to the satisfaction of the performance obligation, by reference to the contract costs incurred up to the end of the reporting period as a percentage of total estimated costs for each contract.

2.27 DIVIDEND INCOME

Dividends are received from financial assets measured at FVPL and at FVOCI. Dividends are recognised as other income in consolidated profit or loss when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits, unless the dividend clearly represents a recovery of part of the cost of an investment. In this case, the dividend is recognised in OCI if it relates to an investment measured at FVOCI. However, the investment may need to be tested for impairment as a consequence.

2.28 LEASES

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Assets and liabilities arising from a lease are initially measured on a present value basis.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received,
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Group entities use that rate as a starting point to determine the incremental borrowing rate.

2 Summary of accounting policies (Continued)

2.28 LEASES (Continued)

Lease payments are allocated between principal and finance cost. The finance cost is charged to consolidated profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability,
- any lease payments made at or before the commencement date less any lease incentives received,
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Land use rights were reclassified as right-of-use assets since the initial adoption of HKFRS 16 on 1 January 2019. All land in Mainland China is state-owned and no individual land ownership right exists. The Group acquired the rights to use certain land and the premiums paid for such rights are recorded as land use rights. Land use rights which are held for development for sale are inventories and measured at lower of cost and net realisable value. Land use rights which are held for self-use are stated at cost and amortised over the use terms using straight-line method with fixed period of 40 years.

Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in consolidated profit or loss. Short-term leases are leases with a lease term of 12 months or less without a purchase option. Low-value assets comprise IT equipment and small items of office furniture.

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term (note 8). Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

2 Summary of accounting policies (*Continued*)

2.29 INTEREST INCOME

Interest income from financial assets at FVPL is included in the net fair value gains/(losses) on these assets.

Interest income on financial assets at amortised cost and financial assets at FVOCI calculated using the effective interest method is recognised in the consolidated statement of profit or loss as part of other income.

Interest income is presented as finance income where it is earned from financial assets that are held for cash management purposes. Any other interest income is included in other income.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

3 Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures.

The Group's risk management is predominantly controlled by a central treasury department (Group treasury) under policies approved by the board of directors of the Company (the "Board of Directors"). Group treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The Board of Directors provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

3.1 FINANCIAL RISK FACTORS

(A) Market risk

(i) *Foreign exchange risk*

The Group's normal operating activities are principally conducted in RMB since all of the operating entities are based in Mainland China. The foreign currency balances as at 31 December 2024 were primarily related to bank deposits, financial assets at FVPL, derivative financial instruments and borrowings denominated in United States dollar ("USD") and Hong Kong dollar ("HKD").

3 Financial risk management (Continued)

3.1 FINANCIAL RISK FACTORS (Continued)

(A) Market risk (Continued)

(i) Foreign exchange risk (Continued)

The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities are as follows:

	31 December 2024 RMB'000	31 December 2023 RMB'000
Assets		
USD	474,714	331,465
HKD	1,139,498	221,812
	1,614,212	553,277
Liabilities		
USD	42,419,057	39,806,618
HKD	1,792,048	1,678,310
	44,211,105	41,484,928

The aggregate net foreign exchange losses recognised in consolidated profit or loss were:

	2024 RMB'000	2023 RMB'000
Exchange losses on foreign currency borrowing included in finance expenses	525,061	1,352,039
Total net foreign exchange losses recognised in loss before income tax for the year	525,061	1,352,039

As at 31 December 2024, if RMB had strengthened/weakened by 5% against the HKD with all other variables held constant, the post-tax loss for the year would have been lower/higher by RMB31.07 million (2023: RMB69.36 million).

As at 31 December 2024, if RMB had strengthened/weakened by 5% against the USD with all other variables held constant, the post-tax loss for the year would have been lower/higher by RMB2.00 billion (2023: RMB1.88 billion).

3.1 FINANCIAL RISK FACTORS (Continued)

(A) Market risk (Continued)

(ii) Cash flow and fair value interest rate risk

The Group's main interest rate risk arises from long-term borrowings, lease liabilities and interest-bearing amounts due from related companies. Borrowings issued at variable rates expose the Group to cash flow interest-rate risk which is partially offset by cash held at variable rates. Borrowings and amounts due from related companies with fixed rates expose the Group to fair value interest-rate risk. In 2024, the Group's borrowings were denominated in RMB, USD and HKD (2023: RMB, USD and HKD).

The table below sets out the Group's exposure to interest rate risks. Included in the table are the assets and liabilities at carrying amounts, categorised by maturity dates.

RMB' million	Floating rates				Fixed rates				Total
	Less than 1 year	1 to 5 years	over 5 years	Sub-total	Less than 1 year	1 to 5 years	over 5 years	Sub-total	
At 31 December 2024									
Amount due from related companies	-	-	-	-	8,386	-	-	8,386	8,386
Borrowings	48,100	5,408	359	53,867	137,986	56,905	10,910	205,801	259,668
Lease liabilities	-	-	-	-	100	201	144	445	445
At 31 December 2023									
Amount due from related companies	-	-	-	-	10,905	-	-	10,905	10,905
Borrowings	46,270	12,351	2,607	61,228	134,930	70,755	10,921	216,606	277,834
Lease liabilities	-	-	-	-	141	265	166	572	572

As at 31 December 2024, if the interest rates on borrowings had been 100 basis points higher/lower with all other variables held constant, the post-tax loss for the year would have been higher/lower by RMB132.39 million (2023: RMB86.33 million) and the capitalised interest for the year would have been higher/lower by RMB394.01 million (2023: RMB560.10 million) respectively.

The Group's management team centrally authorises all loans entered into by operating entities and sets a benchmark interest rate within which the entity management teams can negotiate loans with their local lenders prior to obtaining central approval from the Group management. The interest rate benchmark is reassessed annually by the Group management team.

The Group also analyses its interest rate exposure monthly by considering refinancing, renewal of existing positions and alternative financing.

3 Financial risk management *(Continued)*

3.1 FINANCIAL RISK FACTORS *(Continued)*

(A) Market risk *(Continued)*

(iii) Price risk

The Group's exposure to equity securities price risk arises from investments held by the Group and classified in the consolidated balance sheet as financial assets at FVPL (note 13). The Group monitors the pricing change of these equity securities during each reporting period to manage the price risk.

Certain equity investments of the Group are related to equity securities traded in the Stock Exchange. As at 31 December 2024, if the price of securities has increased/decreased by 5% with all other variables held constant, the post-tax loss for the year would have been RMB0.15 million lower/higher (2023: RMB0.36 million).

(B) Credit risk

(i) Risk management

The Group has no significant concentrations of credit risk, with exposure spread over a large number of counterparties and buyers. The maximum extent of the Group's credit exposure in relation to financial assets is represented by the aggregate balance of cash and cash equivalents, restricted cash, trade and other receivable, amounts due from related companies and financial assets at FVPL included in the consolidated balance sheets, financial guarantees provided to related companies and third parties and guarantees on mortgage facilities.

Cash transactions are limited to high-credit-quality banks. The Group has policies in place to ensure that sales of properties are made to customers with an appropriate financial strength and appropriate percentage of down payment. Credit is granted to customers with sufficient financial strength. It also has continuous monitoring procedures to ensure the collection of the receivables as scheduled and follow up action is taken to recover overdue debts, if any.

Certain customers of the Group have arranged bank financing for their purchases of the properties. The Group typically provides guarantees to secure obligations of such customers for repayments, normally up to the time when the customers obtain the legal certificates of the property ownership. Detailed disclosure of these guarantees is made in note 36(A).

For the year ended 31 December 2024

3 Financial risk management *(Continued)*

3.1 FINANCIAL RISK FACTORS *(Continued)*

(B) Credit risk *(Continued)*

(ii) Impairment of financial assets

The Group mainly had three types of financial assets that are subject to the expected credit loss model:

- trade receivables for sales of properties or rendering of services in the ordinary course of business
- other receivables (excluding loans to third parties)
- loans to related and third parties

While cash and cash equivalents and restricted cash are also subject to the impairment requirements of HKFRS 9, the identified impairment loss was immaterial.

Trade receivables

The Group applies the HKFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for trade receivables.

The expected loss rates are based on the payment profiles of sales over a period of 5 years before 31 December 2024 or 2023 respectively and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

(B) Credit risk (Continued)

(ii) Impairment of financial assets (Continued)

Trade receivables (Continued)

On that basis, the loss allowance as at 31 December 2024 and 31 December 2023 was determined as follows for trade receivables:

31 December 2024	Current RMB'000	More than 90 days RMB'000	More than 180 days RMB'000	More than 1 years RMB'000	Total RMB'000
Expected loss rate	7.34%	9.93%	10.67%	37.88%	22.31%
Gross carrying amount	1,065,304	525,135	922,553	2,132,889	4,645,881
Loss allowance	78,171	52,124	98,471	807,880	1,036,646

31 December 2023	Current RMB'000	More than 90 days RMB'000	More than 180 days RMB'000	More than 1 years RMB'000	Total RMB'000
Expected loss rate	8.50%	8.24%	8.18%	32.98%	18.92%
Gross carrying amount	989,181	411,680	982,214	1,796,543	4,179,618
Loss allowance	84,078	33,909	80,390	592,579	790,956

Other receivables (excluding loans to third parties)

Other receivables (excluding loans to third parties) such as guarantee and deposit are considered to have low credit risk and the loss allowance recognised during the period was therefore limited to 12 months expected losses. Management consider 'low credit risk' for financial instruments when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term. In calculating the expected credit loss rates, the Group considers historical loss rates for other receivables (excluding loans to third parties), and adjusts for forward looking macroeconomic data. On that basis, the loss allowance for other receivables (excluding loans to third parties) was RMB268.37 million (2023: RMB347.15 million) as at 31 December 2024.

3.1 FINANCIAL RISK FACTORS (Continued)

(B) Credit risk (Continued)

(ii) Impairment of financial assets (Continued)

Loans to related and third parties

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportable forwarding-looking information. Especially the following indicators are incorporated:

- internal credit rating
- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations
- actual or expected significant changes in the operating results of the borrower
- significant increases in credit risk on other financial instruments of the same borrower
- significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements
- significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers in the group and changes in the operating results of the borrower.

Macroeconomic information (such as market interest rates or growth rates) is incorporated as part of the internal rating model.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment.

A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in consolidated profit or loss.

3.1 FINANCIAL RISK FACTORS (Continued)

(B) Credit risk (Continued)

(ii) Impairment of financial assets (Continued)

Loans to related and third parties (Continued)

The Group uses four categories for loans which reflect their credit risk and how the loan loss provision is determined for each of those categories.

A summary of the assumptions underpinning the Group's expected credit loss model is as follows:

Category	Group definition of category	Basis for recognition of expected credit loss provision
Performing	Customers have a low risk of default and a strong capacity to meet contractual cash flows	12 months expected losses. Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime
Under performing	Loans for which there is a significant increase in credit risk; as significant increase in credit risk is presumed if interest and/or principal repayments are 30 days past due	Lifetime expected losses
Non-performing	Interest and/or principal repayments are 90 days past due	Lifetime expected losses
Write-off	There is no reasonable expectation of recovery	Asset is written off

(B) Credit risk (Continued)

(ii) Impairment of financial assets (Continued)

Loans to related and third parties (Continued)

Over the terms of the loans, the Group accounts for its credit risk by appropriately providing for expected credit losses on a timely basis. In calculating the expected credit loss rates, the Group considers historical loss rates for each category of loan, and adjusts for forward looking macroeconomic data. As at 31 December 2024, the Group provides for credit losses against loans to related parties and third parties as follows:

Company internal credit rating	Expected credit loss rate	Basis for recognition of expected credit loss provision	Estimated gross carrying amount at default RMB'000	Carrying amount (net of impairment provision) RMB'000	Basis for calculation of interest revenue
Performing	18.23%	12 month expected losses	54,499,341	44,564,195	Gross carrying amount
Non-performing	81.09%	Lifetime expected losses	4,321,486	816,977	Amortised cost carrying amount (net of credit allowance)

The loss allowance for trade and other receivables and amounts due from related companies as at 31 December reconciles to the opening loss allowance as follows:

	Trade and other receivables		Amounts due from related companies	
	2024 RMB'000	2023 RMB'000	2024 RMB'000	2023 RMB'000
Opening loss allowance as at 1 January	5,633,140	4,963,460	6,177,600	4,841,777
Increase in loss allowance recognised in consolidated profit or loss during the year	2,720,400	1,206,251	213,535	1,335,823
Reversal of previous written off Receivables written off during the year as uncollectible	122,767	–	–	–
Unused amount reversed	–	(536,571)	–	–
	(122,767)	–	–	–
Closing loss allowance at 31 December	8,353,540	5,633,140	6,391,135	6,177,600

3.1 FINANCIAL RISK FACTORS (Continued)

(B) Credit risk (Continued)

(ii) Impairment of financial assets (Continued)

Loans to related and third parties (Continued)

Trade and other receivables and amounts due from related companies are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group. Where loans or receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in consolidated profit or loss.

Impairment losses on trade and other receivables and amounts due from related companies are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

During the year, the following impairment losses or reversal were recognised in consolidated profit or loss:

	2024 RMB'000	2023 RMB'000
Impairment losses		
Movement in loss allowance for trade and other receivables and amounts due from related companies	2,811,168	2,542,074
Provision/(reversal of provision) on expected credit losses on financial guarantee	516,115	(17,102)
Net impairment losses under expected credit loss model	3,327,283	2,524,972

Of the above impairment losses, RMB245.69 million (2023: RMB464.31 million) relate to receivables arising from contracts with customers.

Financial assets at fair value through profit or loss

The Group is also exposed to credit risk in relation to debt investments that are measured at fair value through profit or loss. The maximum exposure at the end of the reporting period is the carrying amount of these investments (2024: RMB0.71 billion; 2023: RMB1.46 billion).

Financial guarantees

The loss allowance for financial guarantee provided for certain related and third parties was determined based on the same policy as loans to related and third parties. For guarantees in respect of mortgage facilities for certain purchasers of the Group's property units, if a buyer defaults, the Group is able to retain the buyer's deposits and sell the property to recover any amounts paid by the Group to the bank. Unless the selling price would drop by more than the buyer's outstanding mortgage loan balances, the Group may not be in a loss position in selling those properties out. In this regard, the Directors consider that the Group's credit risk is largely mitigated.

On that basis, the loss allowance for financial guarantees increased from RMB92.03 million as at 31 December 2023 to RMB608.14 million as at 31 December 2024.

(C) Liquidity risk

Management of the Group aims to maintain sufficient cash and cash equivalents including proceeds from pre-sale of properties, short-term and long-term borrowings and other measures to meet its construction, investment and other commitments.

The Group has a number of alternative plans to mitigate the potential impacts on anticipated cash flows should there be significant adverse changes in economic environment. Refer to note 2.1(iii) to the consolidated financial statements for details.

The table below analyse the remaining contractual maturities at the reporting date of the Group's non-derivative financial liabilities and derivative financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates) and the earliest date the Group can be required to pay.

3.2 CAPITAL MANAGEMENT

The Group's objectives when managing capital are to

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to equity holders, return capital to equity holders, issue new shares or sell assets to reduce debts.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including current and non-current borrowings as shown in the consolidated balance sheet) and lease liabilities less cash and cash equivalents (including restricted cash). Total capital is calculated by adding total equity and net debt.

The gearing ratios of the Group as at 31 December 2024 and 2023 were as follows:

	31 December 2024 RMB'000	31 December 2023 RMB'000
Total borrowings (note 24)	259,667,684	277,833,573
Lease liabilities (note 9)	445,054	571,619

Cash and cash equivalents (note 19)	(7,730,669)	(7,056,374)
Net debt	240,367,507	253,782,070
Total capital	295,513,875	337,567,935
Gearing ratio	81.34%	75.18%

(i) Loan covenants

Certain of the Group's facilities are subject to the fulfilment of covenants. If the Group was to breach the covenants, related loans would become payable on demand. The covenants for those loans classified as non-current which total carrying amount was RMB0.92 billion at the end of the reporting period is set out below:

- the total borrowing to total assets ratio of the Group shall be less than 50%;
- the total assets of the Group shall be more than RMB500 billion.

Above covenants are tested at the end of each annual reporting period and there are no indications that the Group would have difficulties complying with above covenants when they will be next tested.

4 Fair value estimation

(A) FINANCIAL ASSETS AND LIABILITIES

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows underneath the table.

4 Fair value estimation *(Continued)*

(A) FINANCIAL ASSETS AND LIABILITIES *(Continued)*

(i) Fair value hierarchy *(Continued)*

During the year ended 31 December 2024, there were no transfers between levels 1, 2 and 3 for recurring fair value measurements during this period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, debentures and derivative financial instruments.

(ii) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments;
- discounted cash flow method and unobservable inputs mainly including assumptions of expected future cash flows and discount rate;
- market approach, equity allocation model, option pricing method and discounted cash flow model with observable and unobservable inputs, including risk-free rate, expected volatility, discount rate for lack of marketability, discount rate, market multiples rate, etc; and
- for option embedded in the convertible bonds, mandatory convertible bonds and shareholder mandatory convertible bond (the "Convertible Bonds") contracts – option pricing method or Monte-Carlo Simulation method with prominent factors that will materially affect value of the options, including terms and conditions of the option of the Convertible Bonds, expected volatility, discount rate, etc.

As at 31 December 2024 and 2023, the Group's level 3 instruments included equity investments measured at FVPL, debt instruments, option embedded in the Convertible Bonds and derivative component of the Onshore Bonds. For the investment in unlisted equity securities and debt instruments, as these instruments are not traded in an active market, their fair values were determined by using various applicable valuation techniques, including market approach etc.

(iii) Fair value measurements using significant unobservable inputs (level 3) and valuation inputs and relationships to fair value (Continued)

The following table summarises the quantitative information about the significant unobservable inputs used in recurring level 3 fair value measurements. See (ii) above for the valuation techniques adopted.

Description	Fair value at		Valuation method	Significant unobservable inputs	Range of significant unobservable inputs	
	31 December 2024 RMB'000	31 December 2023 RMB'000			2024	2023
Unlisted equity instruments	9,996,346	10,552,646	Market approach, equity allocation model, option pricing method and discounted cash flow model	Discount rate for lack of marketability	9.7%-27.0%	20.0%-23.0%
				Expected volatility rate	39.1%-86.9%	38.6%-69.4%
				Discount rate	27.0%	40.4%
Other financial instruments	711,185	1,464,320	Discounted cash flow model and net assets value	Discount rate	3.1%	3.5%-4.2%
Derivative financial instruments	(3,430,262)	(2,108,145)	Monte-Carlo Simulation method and discounted cash flow model	Expected volatility rate	87.1%	63.4%
				Discount rate	3.7%-14.4%	3.9%

Relationships of unobservable inputs to fair value are as follows:

- The higher rate of discount rate, the lower fair value;
- The higher rate of discount rate for lack of marketability, the lower fair value;
- The higher rate of expected volatility, the lower fair value.

The management performs the valuation of financial instruments for financial reporting purposes. Unobservable inputs including discount rate for lack of marketability, expected volatility rate and discount rate are assessed by the independent valuers based on current market assessments of the time value of money and the risk specific to the asset being valued.

4 Fair value estimation (Continued)

(A) FINANCIAL ASSETS AND LIABILITIES (Continued)

(iv) Fair values of other financial instruments (unrecognised)

The Group also has a number of financial instruments which are not measured at fair value in the consolidated balance sheet. For the majority of these instruments, the fair values are not materially different to their carrying amounts, since the interest receivable/payable is either close to current market rates or the instruments are short-term in nature. Significant differences were identified for the following instruments at 31 December 2024:

	Carrying amount RMB'000	Fair value RMB'000
Non-current borrowings:		
– Senior notes (note 24)	29,894,385	5,153,795
– Corporate bonds (note 24)	4,807,288	3,014,987
– Private domestic corporate bonds (note 24)	3,055,432	1,242,205
– Convertible bonds (note 24)	500,812	195,055

(B) NON-FINANCIAL ASSETS AND LIABILITIES

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the non-financial assets that are recognised and measured at fair value in the consolidated financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its non-financial assets and liabilities into the three levels prescribed under the accounting standards. An explanation of each level is provided in note 4(A).

At 31 December 2024		Level 1 RMB'000	Level 2 RMB'000	Level 3 RMB'000	Total RMB'000
Investment properties	(note 8)	–	–	19,237,181	19,237,181

Investment properties	(note 8)	–	–	22,098,863	22,098,863

The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

During the year ended 31 December 2024, no transfers between different levels for non-financial assets and liabilities under recurring fair value measurements.

(B) NON-FINANCIAL ASSETS AND LIABILITIES *(Continued)*

(ii) Valuation techniques used to determine level 3 fair values

At the end of each reporting period, the management of the Group update their assessment of the fair value of the investment properties, taking into account the most recent independent valuations. The management determine a property's value within a range of reasonable fair value estimates.

The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available the management determine the fair value based on below valuation techniques:

- Income capitalisation method – capitalised income derived from the existing tenancies and the reversionary potential with unobservable inputs mainly including capitalisation rates and market rental prices;
- Residual method – used in valuing investment properties under development by establishing the market value on the premise that the properties will be developed and completed in accordance with its latest development plan. The residual valuation of valued properties can be expressed as the market value deducts the estimated costs to complete and developers' profit to reflect the total value of the partially completed development.

(iii) Fair value measurements using significant unobservable inputs (level 3) and valuation inputs and relationships to fair value

(iii) Fair value measurements using significant unobservable inputs (level 3) and valuation inputs and relationships to fair value *(Continued)*

Relationships of unobservable inputs to fair value are as follows:

- The higher market rental price, the higher fair value;
- The higher rate of capitalisation rate, the lower fair value;
- The higher developer's profit rate, the lower fair value.

(iv) Valuation processes

As at 31 December 2024, management obtains independent valuations for its investment properties including office buildings, shopping malls and commercial properties. DTZ Cushman & Wakefield Limited performed the independent valuation of these buildings.

The major level 3 inputs used by the Group are derived and evaluated as follows:

Office buildings, shopping malls and commercial properties – market rental prices and capitalisation rates are estimated by independent valuer or management based on comparable transactions and industry data;

Construction in progress – developer's profit rate is estimated based on market conditions as at 31 December 2024. The estimated costs to completion are consistent with the budgets developed internally by the Group based on management's experience and knowledge of market conditions.

5 Critical accounting estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

(A) MAINLAND CHINA CORPORATE INCOME TAXES AND DEFERRED TAXATION

The Group's subsidiaries that operate in Mainland China are subject to income tax in Mainland China. Significant judgement is required in determining the provision for income tax and withholding tax on undistributed earnings of Mainland China subsidiaries. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters (including the effect of change in the dividend policies of Mainland China subsidiaries) is different from the amounts that were initially recorded, such differences will impact the current and deferred tax assets and liabilities in the period in which such determination is made.

Deferred tax assets relating to certain temporary differences and tax losses are recognised when management considers probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

(B) MAINLAND CHINA LAND APPRECIATION TAX ("LAT")

The implementation and settlement of LAT varies among various tax jurisdictions in cities of Mainland China, significant judgement is required in determining the amount of the land appreciation and its related taxes. The Group recognised these land appreciation taxes based on management's best estimates according to its understanding of the interpretation of tax rules by various tax authorities. The final tax outcome could be different from the amounts that were initially recorded, and these differences will affect the income taxes and deferred income tax provisions in the years in which such taxes have been finalised with local tax authorities.

(C) ESTIMATED NET REALISABLE VALUE OF PROPERTIES UNDER DEVELOPMENT AND COMPLETED PROPERTIES HELD FOR SALE

The Group assesses the carrying amounts of properties under development and completed properties held for sale based on the net realisable value of these properties, taking into account variable selling expenses and costs to completion based on past experience and estimated selling price based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realised. The assessment requires the use of judgement and estimates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

5 Critical accounting estimates and judgements *(Continued)*

(D) FAIR VALUE OF INVESTMENT PROPERTIES

The Group assesses the fair value of its investment properties based on valuations determined by independent and professional qualified valuer. Significant judgement and assumptions are required in assessing the fair value of the investment properties. Details of the judgement and assumptions have been disclosed in note 4(B).

(E) IMPAIRMENT OF INVESTMENT

The Group tests assets for impairment whenever investments suffer any impairment in accordance to the accounting policies. Investments are reviewed for impairment, whenever events or changes in circumstances that may cause the carrying amounts to the investments to exceed their recoverable amounts. The recoverable amount of an investment is determined as the higher of cash generating unit (CGU)'s fair value less cost to sell and its value-in-use which require the use of assumptions. The estimation of fair value less cost of disposal was made mainly from public market information. The estimated future cash flows used in the value in use assessments are based on assumptions, such as selling price, sales volume, gross margin and discount rates. The assessment requires the use of judgement and estimates.

(F) EXPECTED CREDIT LOSS OF FINANCIAL ASSETS AND FINANCIAL GUARANTEE CONTRACTS

The expected credit loss for financial assets and financial guarantee contracts are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in note 3.1(B).

(G) REVENUE RECOGNITION

The Group has recognised revenue from the sale of properties held for sale as disclosed in note 2.26. Revenue is recognised at a point in time when the buyer obtains control of the completed property. The properties have generally no alternative use for the Group due to contractual restrictions. However, whether there is an enforceable right to payment and hence the related contract revenue is recognised over time, depends on the terms of each contract and the relevant laws that apply to that contract. To assess the enforceability of right to payment, the Group has reviewed the terms of its contracts, the relevant local laws, the local regulators' views and obtained legal advice, when necessary, and a significant judgement is required.

5 Critical accounting estimates and judgements *(Continued)*

(G) REVENUE RECOGNITION *(Continued)*

As disclosed in note 36(A), the Group provides guarantees in respect of mortgage facilities granted by certain banks relating to the mortgage loans arranged for certain purchasers of the Group's properties. These guarantees will expire when relevant property ownership certificates are mortgaged to banks by the purchasers. In order to obtain mortgage loans, the purchasers need to settle certain percentage of the total contract amount in accordance with related Mainland China regulations upon delivery of the properties. The Directors are of the opinion that such settlements provide sufficient evidence of the purchasers' commitment to honour contractual obligation of the bank loans. In addition, based on past experiences, there were no significant defaults of mortgage facilities by the purchasers resulting in the calling of the bank guarantees provided. Accordingly, the Directors believe that control of the properties have been transferred to the purchasers.

(H) ESTIMATION OF GOODWILL IMPAIRMENT

The Group tests whether goodwill has suffered any impairment on an annual basis. The recoverable amount of a cash generating unit (CGU) was determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial estimate of management covering a reasonably forecast period.

Cash flows beyond the forecasting period are extrapolated using the estimated growth rates stated in note 10. These growth rates are consistent with management's expectations of market development specific to the industry in which each CGU operates.

Details of impairment charge, key assumptions and impact of possible changes in key assumptions are disclosed in note 10.

(I) ESTIMATION OF THE FAIR VALUE OF CERTAIN FINANCIAL ASSETS AT FVPL, DERIVATIVE FINANCIAL INSTRUMENTS AND FINANCIAL INSTRUMENTS RECOGNISED AS AT THE DATE OF DEBT RESTRUCTURING

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions see note 4(A) and note 24(B).

(J) ESTIMATED NET RECOVERABLE VALUE OF PP&E AND LAND USE RIGHTS

At the end of each reporting period, the Group assesses the impairment indicator of its PP&E and land use rights and estimates the recoverable amounts of the assets when any such indication exists. The recoverable amount of an asset is determined as the higher of fair value less cost to sell and its value-in-use which require the use of assumptions. The estimation of fair value less cost of disposal is made mainly from public market information. The estimated future cash flows used in the value-in-use assessments are based on assumptions, such as selling price, sales volume, gross margin and discount rates. The assessment requires the use of judgement and estimates. Details of impairment charge and key assumptions are disclosed in note 7.

6 Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors of the Company that makes strategic decisions.

The executive directors of the Company review the Group's internal reporting in order to assess performance and allocate resources of the Group. The executive directors of the Company have determined the operating segments based on these reports.

The executive directors of the Company assess the performance of the Group organised as follows:

- Property development
- Cultural and tourism city construction and operation
- Property management
- All other segments

In 2024, the Group combined the fitting and decoration services into the property development segment to better reflect the Group's updated business strategies and the development phases of various businesses. The segment information of 2023 was restated correspondingly.

Other segments mainly include film and culture investment, office building rentals and other business. The results of these operations are included in the "all other segments" column.

The performance of above reportable segments is assessed based on a measure of profit before depreciation and amortisation, finance expenses and income tax expenses, which is defined as segment results. The segment results exclude onshore and offshore debt restructuring gains, the fair value gains or losses on financial assets at FVPL and derivative financial instruments and disposal gains or losses on financial assets at FVPL, which are managed on a central basis.

Segment assets primarily consist of all assets excluding deferred tax assets, prepaid income tax and financial assets at FVPL, which are managed on a central basis. Segment liabilities primarily consist of all liabilities excluding derivative financial instruments, deferred tax liabilities and current income tax liabilities.

The Group's revenue is mainly attributable to the market in the PRC and over 90% of the Group's non-current assets are located in the PRC. No geographical information is therefore presented.

The Group has a large number of customers, none of whom contributed 10% or more of the Group's revenue.

6 Segment information (Continued)

ASSETS AND LIABILITIES RELATED TO CONTRACTS WITH CUSTOMERS (Continued)

The Group had no material contract assets as at 31 December 2024 and 2023.

(i) Significant changes in contract liabilities

As at 31 December 2024, the contract liabilities mainly included the payments received from sales of properties which were usually received in advance of the performance under the contracts. The decrease in contract liabilities was mainly due to revenue from sales of properties recognised in profit or loss when the properties were delivered to customers and disposal of subsidiaries during the year.

(ii) Revenue recognised in relation to contract liabilities

Revenue totalled approximately RMB54.65 billion was recognised in current reporting period that was included in the contract liabilities balance at the beginning of the year.

(iii) Unsatisfied sales contracts

As of 31 December 2024, management expected that the contract amounts allocated to unsatisfied performance obligations of RMB110.80 billion would be recognised as revenue during the reporting period of 2025 and the contract amounts of RMB62.93 billion would be recognised as revenue after the reporting period of 2025.

(iv) Assets recognised from costs to obtain a contract

	31 December 2024 RMB'000	31 December 2023 RMB'000
Contract costs	4,026,070	4,812,288

In addition to the contract balances disclosed above, the Group has also recognised the sales commissions directly attributable to obtaining a contract as contract costs in the consolidated balance sheet. These assets will be amortised as selling expenses in line with relevant revenue recognition. Sales commissions totalled RMB50.57 million was recognised as contract costs during the year and RMB835.60 million has been amortised in current reporting period. Management expects that RMB3.12 billion of the contract costs will be recognised as selling expenses during the reporting period of 2025 and RMB0.91 billion would be recognised after the reporting period of 2025.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

7 Property, plant and equipment (Continued)

Depreciation expense of RMB2,022.15 million, RMB306.20 million and RMB42.29 million (2023: RMB2,403.33 million, RMB451.59 million and RMB48.18 million) has been charged to “cost of sales”, “administrative expenses” and “selling and marketing costs” respectively.

(I) NON-CURRENT ASSETS PLEDGED AS SECURITY

Refer to note 37 for information on non-current assets pledged as security by the Group.

(II) CONTRACTUAL OBLIGATIONS

Refer to note 35 for disclosure of contractual obligations to purchase, construct or develop buildings.

(III) IMPAIRMENT OF PP&E AND LAND USE RIGHTS

As at 31 December 2024, the management of the Group identified impairment indicators of CGUs in the cultural and tourism city construction and operation segment as a result of deterioration in economic conditions and carried out an impairment review on the CGUs' non-current assets, mainly PP&E and land use rights (note 9). The recoverable amounts of those CGUs, to which these assets were belonged, were determined as the higher of fair value less cost to sell and its value-in-use.

The valuation models used to estimate the fair values of relevant assets were with reference to recent prices of similar assets of similar conditions when such prices could be reliably obtained, where applicable. The fair values upon which recoverable amounts of these assets were based were within level 3 of fair value hierarchy. Key assumptions mainly include land price per square meter (ranging from RMB1,620 per square meter to RMB3,274 per square meter). In addition, the value-in-use calculation used cash flow projections in respect of certain CGUs based on financial forecasts approved by management covering ten years.

The key assumptions used in value-in-use calculation during the ten-year forecast period are as follows:

Assumption	CGUs in cultural and tourism city construction and operation segment
2024	
Revenue growth rate	3.0%-16.4%
Profit margin before interest, taxes, depreciation and amortisation	16.6%-56.0%
Pre-tax discount rate	10.0%-10.7%
2023	
Revenue growth rate	5.7%-33.1%
Profit margin before interest, taxes, depreciation and amortisation	21.0%-58.2%
Pre-tax discount rate	10.9%-11.7%

7 Property, plant and equipment *(Continued)*

(III) IMPAIRMENT OF PP&E AND LAND USE RIGHTS *(Continued)*

The management determined the budgeted revenue growth rate and profit rate based on past performance and its expectation for market development. The discount rate used is pre-tax and reflects specific risks relating to the relevant CGUs. Cash flows beyond the forecast period are extrapolated using growth rate of 2.0% (2023: 2.0%), which does not exceed the long-term average growth rate for the business in which the CGU operates.

As at 31 December 2024, the recoverable amounts of the impaired CGUs were totalled RMB17.45 billion, accordingly, impairment losses of RMB5.86 billion were recognised in “Other expenses and losses” for the year ended 31 December 2024.

Refer to note 37 for information on non-current assets pledged as security by the Group.

(III) CONTRACTUAL OBLIGATIONS

Refer to note 35 for disclosure of contractual obligations to purchase, construct or develop investment properties.

(IV) LEASING ARRANGEMENTS

The investment properties are leased to tenants under operating leases with rentals payable monthly. There are no significant variable lease payments that depend on an index or rate.

Although the Group is exposed to changes in the residual value at the end of the current leases, the Group typically enters into new operating leases and therefore will not immediately realise any reduction in residual value at the end of these leases. Expectations about the future residual values are reflected in the fair value of the properties.

Minimum lease payments receivable on leases of investment properties are as follows:

	2024 RMB'000	2023 RMB'000
Within 1 year	624,121	681,811
Later than 1 year but no later than 5 years	1,030,303	1,478,349

The total cash outflow for leases in 2024 amounted to RMB0.21 billion (2023: RMB0.24 billion).

(III) THE GROUP'S LEASING ACTIVITIES AND HOW THESE ARE ACCOUNTED FOR

The Group obtained land use rights from the Mainland China government with fixed period of 40 years. Beside this, the Group leases various offices and vehicles. Rental contracts are typically made for fixed periods of 1 to 15 years.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

(A) IMPAIRMENT TESTS FOR GOODWILL

Goodwill was generated from business combination and allocated to each project or a group of projects, which is expected to benefit from the synergies of the combination. Each project is identified as a CGU and the recoverable amount of a CGU or group of CGUs is determined based on value-in-use method.

A segment-level summary of the goodwill allocation is presented below.

	31 December 2024 RMB'000	31 December 2023 RMB'000
Property management (i)	1,173,752	1,248,456
Property development (ii)	396,857	396,857
All other segments (iii)	108,417	505,310
	1,679,026	2,150,623

- (i) The goodwill of property management mainly included the goodwill generated from acquisition of Zhejiang New Century Property Management Co., Ltd. (the "NCPM") and its subsidiaries (collectively, the "NCPM Group") and Zhangtai Services Group Co., Ltd. (the "Zhangtai Services"). Management regards NCPM Group and Zhangtai Services as two separate groups of CGUs and reviews the business performance and monitors the goodwill on individual CGU basis.
- (ii) The goodwill allocated in property development segment generated from business combination of certain property development projects. Each property development project is identified as a CGU. Management reviews the business performance and monitors the goodwill on individual CGU basis.
- (iii) The goodwill of all other segments mainly included the goodwill generated from acquisition of Le Vision Pictures (Beijing) Co. Ltd. (the "Le Vision Pictures"), Base Media Technology Group Ltd., and Shanghai Base Culture Media Co., Ltd. (collectively, the "Base Culture") and Beijing Dream Castle Culture Co., Ltd. Management reviews the business performance and monitors the goodwill on individual CGU basis.
- (iv) The following table sets out the key assumptions for those CGUs that have significant goodwill allocated to them:

Assumption	NCPM Group	Zhangtai Services
2024		
Annual revenue growth rate	(4.0%)-3.5%	0.1%-3.0%
Profit margin	6.9%-10.3%	12.8%-14.5%
Terminal growth rate	2.0%	2.0%
Pre-tax discount rate	18.6%	17.2%
2023		
Annual revenue growth rate	(9.4%)-3.4%	2.3%-15.4%
Profit margin	6.9%-8.7%	13.2%-13.7%
Terminal growth rate	2.0%	2.0%
Pre-tax discount rate	20.0%	18.2%

10 Intangible assets (Continued)

(A) IMPAIRMENT TESTS FOR GOODWILL (Continued)

Management has determined the values assigned to each of the above key assumptions as follows:

Annual revenue growth rate	Average annual growth rate over the five-year forecast period was based on past performance and management's expectations of market development.
Profit margin	Profit margin was based on past performance and management's expectations for the future.
Terminal growth rate	This is the weighted average growth rate used to extrapolate cash flows beyond the budget period. The rates are long-term average growth rate for the related industry in which the CGU operates.
Pre-tax discount rates	Reflect specific risks relating to the relevant industry and the region in which they operate.

Except for the goodwill allocated to NCPM Group and Zhangtai Services, there is no individual CGU for which the carrying amount of goodwill is significant in comparison with the total carrying amount of goodwill. The key assumptions used to determine the recoverable amount of each of the remaining CGU include the future unit selling price, revenue growth rate, profit rate, terminal growth rate, estimated future costs to complete the project development and pre-tax discount rate. The range of pre-tax discount rate used for the analysis of each CGU in the operating entities is 15.0%-31.2% as at 31 December 2024.

As at 31 December 2024, according to the managements estimation of the recoverable amount of the Le Vision Pictures, the recoverable amounted which were lower than the carrying amounts of the CGU (including goodwill) and leading to fully impairment charge of RMB0.40 billion on goodwill for the year ended 31 December 2024. The impairment provision arose in the Le Vision Pictures as a result of deterioration in expected profitability in the changing market environment during the year ended 31 December 2024.

During the year ended 31 December 2024, as the speed of project expansion and profit margin were less than expected and management also expected that new property management services of Zhangtai Services would not be increased than expected before and the continuous increase in service costs, leading to a decrease of value-in-use of Zhangtai Services. As at 31 December 2024, according to the management's estimation of the recoverable amount of Zhangtai Services with the assistance of an independent valuer, which was calculated based on its value-in-use, impairment of goodwill attributable to the Group of approximately RMB74.70 million, was recognised for Zhangtai Services, resulting in a reduction in the carrying amount of the goodwill of Zhangtai Services to approximately RMB519.91 million.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

(A) IMPAIRMENT TESTS FOR GOODWILL (Continued)

As at 31 December 2024, the recoverable amount of NCPM Group of approximately RMB724.50 million, which was calculated based on value-in-use calculation, exceeded the carrying amount of the tested group of CGUs (including goodwill) by approximately RMB44.52 million. If the annual revenue growth rate used in value-in-use calculation had been 5% lower than management estimates as of 31 December 2024, the recoverable amount would be higher than the carrying amount by approximately RMB38.73 million. If the expected pre-tax discount rate had been 5% higher than management estimates as of 31 December 2024, the recoverable amount calculated would be higher than the carrying amount by approximately RMB3.05 million. If the profit margin used in value-in-use calculation had been 5% lower than management estimates as of 31 December 2024, the recoverable amount would be higher than the carrying amount by approximately RMB8.95 million.

The Directors and management have considered and assessed reasonably possible changes for other key assumptions and have not identified any instances that would have resulted in a significant impairment against the goodwill of the Group.

As at 31 December 2024 and 31 December 2023, the carrying amounts of the Group's trade and other receivables were all denominated in RMB and the carrying amounts of trade and other receivables approximated their fair values.

Notes:

- (i) Trade receivables mainly arise from sales of properties and rendering of property management services. The consideration in respect of sales of properties is paid by customers in accordance with the credit terms agreed in the property sale contracts. Property management services income is received in accordance with the term of the relevant property service agreements and is due for payment upon rendering of service. The ageing analysis of trade receivables based on dates of delivery of goods and dates of rendering of services is as follows:

	31 December 2024 RMB'000	31 December 2023 RMB'000
Within 90 days	1,065,304	989,181

- (ii) The amounts due from non-controlling interests and their related parties were unsecured, interest free and had no fixed repayment terms.
- (iii) Other receivables mainly included the receivables from disposal of equity interests, receivables from project demolition, the cash advance for land use rights acquisition, payments on behalf of customers, interest receivables and amounts due from equity investment partners.

16 Trade and other receivables (Continued)

Notes: (Continued)

(iv) Fair values of trade and other receivables

Due to the short-term nature of the current receivables, their carrying amounts approximated to their fair values. For the non-current receivables, the variance between the fair values and their carrying amounts were immaterial.

(v) Impairment and risk exposure

Trade receivables

The Group applies the HKFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables. As at 31 December 2024, a provision of RMB1.04 billion (2023: RMB0.79 billion) was made against the gross amounts of trade receivables (note 3.1(B)).

Other receivables

Other receivables (excluding loans to third parties) are all considered to have low credit risk and the loss allowance recognised during the period was therefore limited to 12 months expected losses. note 3.1(B) provides for details about the calculation of the allowance.

Information about the Group's exposure to credit risk, foreign currency risk and interest rate risk is set out in note 3.1.

Note:

- (i) On 17 October 2024, the Company, Sunac International Investment Holdings Ltd (the “Vendor”) and China International Capital Corporation Hong Kong Securities Limited (the “Placing Agent”) entered into a placing and subscription agreement, pursuant to which the Placing Agent agreed to place up to 489,000,000 existing shares of the Company at a price of HKD2.465 per share on behalf of the Vendor, and the Vendor conditionally agreed to subscribe for up to 489,000,000 new shares of the Company at the placing price of HKD2.465 per share (the “Subscription”). The net proceeds from the Subscription after deducting related fees were approximately HKD1.19 billion (equivalent to approximately RMB1.09 billion).
- (ii) During the year ended 31 December 2024, 58.2% and 4.7% holders of the convertible bonds and the mandatory convertible bonds respectively have exercised the options attached to the bonds to convert the respective bonds into 393,919,442 ordinary shares of the Company. In addition, the respective portion of shareholder mandatory convertible bond were converted into 27,319,761 ordinary shares of the Company. The share capital and other reserves of the Group increased by RMB38.46 million and RMB1,421.66 million, respectively, which is calculated based on the carrying amounts of the debt component of the convertible bond and the fair value of the option embed in the Convertible Bonds at conversion date, and the same amounts of financial liabilities of the Convertible Bonds were derecognised.

As at the conversion dates and at end of the reporting period, the Company remeasured the derivative components of the Convertible Bonds at their fair values. As a result, the Group recognised changes in fair value on derivative financial instruments of RMB1.68 billion in “other expenses and losses” during the year ended 31 December 2024 (note 30). Refer to note 4 for the valuation techniques and significant inputs used in the fair value measurement of these derivative instruments.

(A) SHARE AWARD SCHEME

A share award scheme under which shares may be granted to eligible employees for no cash consideration was approved by the Board of Directors on 8 May 2018 (the "Share Award Scheme"). Pursuant to the rules relating to the Share Award Scheme, the Company entrusted a trustee to purchase existing ordinary shares in the open market based on this Share Award Scheme. The trustee will hold such shares on behalf of the relevant selected employees on trust, until such shares are vested with the relevant selected employees in accordance with the scheme rules.

The following table presents the movement in shares that held by the trustee for the purpose of issuing shares under Share Award Scheme. Shares issued to employees are recognised on a first-in-first-out basis.

Details	Number of shares (thousand)	HKD'000	Equivalent to RMB'000
Balance at 1 January 2023, 31 December 2023 and 2024	76,325	1,984,646	1,742,047

The fair value of the rights at grant date was estimated by taking the market price of the Company's shares on that date less the present value of expected dividends that will not be received by the eligible employees on their rights during the Waiting Period.

The following table shows the shares granted and outstanding at the beginning and end of the reporting period:

	Number of awarded shares (thousand)

(I) STATUTORY RESERVES

In accordance with the relevant government regulations in Mainland China and the provisions of the articles of association of the Mainland China companies now comprising the Group, 10% of its net profit as shown in the accounts prepared under Mainland China accounting regulations is required to be appropriated to statutory reserve, until the reserve reaches 50% of the registered capital. Appropriation of statutory reserve must be made before distribution of dividends to equity holders. This reserve shall only be used to make up losses; to expand the entities' production operation; or to increase the capital of the entities. Upon approval by a resolution of equity holders, the entities may convert this reserve into share capital, provided that the unconverted remaining amount of reserve is not less than 25% of the registered capital.

The Mainland China entities of the Group directly owned by the Group's entities outside Mainland China are required, in accordance with relevant rules and regulations concerning foreign investment enterprise established in Mainland China and the Articles of Association of these companies, to make appropriations from net profit to the reserve fund and staff and workers' bonus and welfare fund, after offsetting accumulated losses from prior years, and before profit distributions are made to investors. The percentage of profits to be appropriated to the above funds is solely determined by the board of directors of the Mainland China entities now comprising the Group. For those which are wholly foreign owned enterprises in Mainland China, no less than 10% of the profit of each year to the reserve fund is mandatory. The appropriation of the statutory reserve ceases when the accumulated statutory reserve balance reaches 50% of their registered capital.

(B) ONSHORE DEBT RESTRUCTURING (Continued)

The onshore debt restructuring was regarded as a substantial modification under the relevant accounting standard. As the approval of the Onshore Debt Restructuring Plan for seven of the Onshore Bonds are obtained at the relevant meetings of bondholders in December 2024, the carrying amounts of certain Corporate Bonds, Private Bonds and ABS Plan of approximately RMB7.70 billion, RMB1.64 billion and RMB0.15 billion respectively together with the accrued interests of RMB1.25 billion were fully de-recognised. The following new financial liabilities were recognised at their fair values at the effective date of the onshore debts restructuring:

- (1) Corporate Bonds with fair value of debt component, derivative component and equity component amounted to RMB1,982.79 million, RMB11.37 million and RMB75.14 million respectively;
- (2) Private Bonds with fair value of debt component, derivative component and equity component amounted to RMB610.82 million, RMB3.41 million and RMB22.56 million respectively; and
- (3) ABS Plan with fair value of debt component, derivative component and equity component amounted to RMB64.28 million, RMB0.37 million and RMB2.42 million respectively.

The fair values of these instruments recognised were within level 3 of fair value hierarchy.

The following table summarises the valuation method adopted and the quantitative information about the significant unobservable inputs used in fair value measurements of the financial instruments recognised in the onshore debts restructuring as at the date of the onshore debts restructuring.

Description	Fair value at date of modification RMB'000	Valuation method	Significant Unobservable input	Range of significant unobservable input
Corporate Bonds, Private Bonds and ABS Plans Including:				
Debt component	2,657,895	Discounted cash flow model	Discount rate Risk free rates	19.5% 4.5% to 4.8%
Equity component	100,120	Market approach	N/A	N/A
Derivative component	15,146	Discounted cash flow model	Discount rates	3.7% to 14.4%

(B) ONSHORE DEBT RESTRUCTURING (Continued)

Relationships of unobservable inputs to fair value are as follows:

- The higher rate of discount rate, the lower fair value.

As a result of the above mentioned, gain on onshore debt restructuring of RMB7.97 billion was recognised and included in “other income and gains” of the consolidated statement of comprehensive income and equity component of RMB0.10 billion was recognised in “other reserves” in the consolidated statement of changes in equity for the year ended 31 December 2024.

Subsequent to the initial recognition, the carrying amounts of the debt component of the Corporate Bonds, Private Bonds and ABS Plan are measured at amortised cost and the carrying amounts of the derivative component are measured at fair value at the end of each of the reporting periods.

(C) SHORT-TERM BORROWINGS

As at 31 December 2024, the Group had not repaid borrowings of approximately RMB105.80 billion in aggregate according to their scheduled repayment dates, and as a result, non-current borrowings of RMB37.70 billion in aggregate might be demanded for early repayment. These borrowings have been reclassified as current liabilities as at 31 December 2024 accordingly. In addition, current portion of long-term borrowings classified as current borrowings of approximately RMB26.87 billion might be demanded for early repayment.

(D) LONG-TERM BORROWINGS

- (i) The Group's long-term borrowings as at 31 December 2024 were repayable as follows:

	31 December 2024 RMB'000	31 December 2023 RMB'000
Between 1 and 2 years	18,281,398	37,846,781
Between 2 and 5 years	44,031,882	45,259,040
Over 5 years	11,268,557	13,528,041
	73,581,837	96,633,862

The weighted-average interest rate for the year ended 31 December 2024 was 7.9% per annum.

- (ii) Fair value of financial liabilities is not measured at fair value on a recurring basis. The required fair value disclosure are detailed as follows.

The carrying amounts of bank and other institution borrowings approximated their fair values. As at 31 December 2024, the fair values of Senior Notes, Corporate Bonds, Private Bonds and convertible bonds amounted to RMB5.15 billion, RMB3.01 billion, RMB1.24 billion and RMB0.20 billion respectively. The fair value of the Senior Notes and the convertible bonds were calculated based on the market price of the traded senior notes and bonds at the consolidated balance sheet date, which were within level 1 of the fair value hierarchy. The fair values of Corporate Bonds and Private Bonds were within level 3 of fair value hierarchy and the valuation techniques and significant inputs used in the fair value measurement has been described in note 24(B).

- (iii) The exposure of the Group's borrowings with variable interest rates to interest-rate changes and the contractual re-pricing dates are as follows:

	31 December 2024 RMB'000	31 December 2023 RMB'000
6 months or less	9,636,225	13,887,987
7–12 months	30,034,659	27,038,975

32 Income tax expense (Continued)

(A) CIT

The tax on the Group's loss before tax differs from the theoretical amount that would arise using the weighted-average tax rate applicable to losses of the consolidated entities as follows:

	2024 RMB'000	2023 RMB'000
Loss before income tax	(24,248,878)	(5,133,920)

Dividends tax for distributable profits of Mainland China subsidiaries	(579,881)	(640,113)
	(1,753,763)	582,362

Hong Kong profits tax has been provided at the rate of 16.5% (2023: 16.5%) on the estimated assessable profit for the year. Taxation on overseas profits has been calculated on the estimated assessable profit for the year at the rates of taxation prevailing in the countries or regions in which the Group operates.

Pursuant to the applicable rules and regulations of Cayman Islands and British Virgin Islands ("BVI"), the Company and the BVI subsidiaries of the Group are not subject to any income tax in those jurisdictions.

32 Income tax expense (Continued)

(A) CIT (Continued)

Income tax expenses were recognised based on management's estimate of the weighted-average annual income tax rate expected for the full financial year. The estimated average annual tax rate used for the year ended 31 December 2024 was 25% (2023: 25%).

In accordance with the Mainland China Corporate Income Tax Law, a 10% withholding income tax is levied on dividends declared to foreign investors from the enterprises with foreign investments established in Mainland China. The Group is therefore liable to withholding taxes on dividends distributable by those subsidiaries established in Mainland China in respect of their earnings generated from 1 January 2008.

(B) TAX LOSSES

	31 December 2024 RMB'000	31 December 2023 RMB'000
Unused tax losses for which no deferred tax asset has been recognised	15,351,179	11,855,239
Potential tax benefit	3,837,795	2,963,810

DTA are recognised for tax losses carry-forward to the extent that the realisation of the related benefit through the taxable profits for the deduction periods according to the Mainland China tax laws and regulations is probable. Therefore, the Group did not recognise DTA of RMB3.84 billion (2023: RMB2.96 billion) in respect of accumulated losses amounting to RMB15.35 billion (2023: RMB11.86 billion) as the Group estimates that the related subsidiaries will not have sufficient tax income to utilise the tax deduction benefits in the future deduction period. Within these accumulated losses, amounts of RMB93.40 million, RMB2,041.30 million, RMB2,902.51 million, RMB6,188.78 million and RMB4,125.19 million, as at 31 December 2024 will expire respectively in 2025, 2026, 2027, 2028 and 2029.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

32 Income tax expense (Continued)

(C) UNRECOGNISED TEMPORARY DIFFERENCES

	31 December 2024 RMB'000	31 December 2023 RMB'000
Temporary differences for which DTA have not been recognised	48,272,545	47,987,341
Unrecognised DTA	12,068,136	11,996,835

As of 31 December 2024, the Group had deductible temporary differences of RMB48.27 billion (2023: RMB47.99 billion) in respect of which no DTA have been recognised as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

(D) LAT

LAT is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including lease charges for land use rights and all property development expenditures. LAT is included in the consolidated income statement as income tax expense.

33 Loss per share

(A) BASIC

Basic loss per share is calculated by dividing the loss attributable to owners of the Company by the weighted-average number of ordinary shares in issue during the year, excluding shares purchased for the share award scheme.

	2024	2023
Loss attributable to owners of the Company (RMB'000)	25,695,200	7,968,963
Weighted-average number of ordinary shares in issue (thousand)	8,640,287	5,651,547
Adjusted for shares repurchased for share award scheme (thousand)	(76,325)	(76,325)
Weighted-average number of ordinary shares for basic loss per share (thousand)	8,563,962	5,575,222

(B) DILUTED

For the years ended 31 December 2024 and 2023, diluted loss per share was the same as the basic loss per share as potential ordinary shares arising from awarded shares were not treated as dilutive as the conversion to ordinary shares would not increase the loss per share.

36 Financial guarantees and litigation

(A) FINANCIAL GUARANTEE

Guarantee on mortgage facilities

The Group had the following contingent liabilities in respect of financial guarantees on mortgage facilities:

	31 December 2024 RMB'000	31 December 2023 RMB'000
Guarantees in respect of mortgage facilities for certain purchasers of the Group's property units	61,083,696	79,981,823

The Group has arranged bank financing for certain purchasers of the Group's property units and provided guarantees to secure obligations of such purchasers for repayments. Such guarantees terminate upon the earlier of (i) the transfer of the real estate ownership certificate to the purchaser which will generally occur within an average period of six months of the properties delivery dates; or (ii) the satisfaction of mortgage loans by the purchasers of the properties.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

36 Financial guarantees and litigation (Continued)

(A) FINANCIAL GUARANTEE (Continued)

Pursuant to the terms of the guarantees, upon default of mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principal together with accrued interest and penalties owed by the defaulting purchasers to the banks and the Group is entitled to take over the legal title and possession of the related properties. The Group's guarantee period starts from the date of grant of the mortgage. The directors consider that the likelihood of default of payments by purchasers is minimal.

As at 31 December 2024, the Group had provided guarantees for certain joint ventures and associates for their borrowings amounted to RMB37.31 billion together with the equity investment partners on pro rata basis. In addition, the Group previously provided guarantees for borrowings of certain companies which were disposed by the Group to third parties. Certain guarantees amounting to RMB9.33 billion provided by the Group have not been ceased as of 31 December 2024 and the corresponding borrowings are collateralised by the assets of the borrowing companies.

(B) LITIGATION

Up to the date of approval of these consolidated financial statements, various parties have filed litigation against the Group for the settlement of unpaid borrowings, outstanding construction and daily operation payables, delayed delivery of projects and other matters. Among them, there were about 414 cases with individual amounts exceeding RMB50 million, and the aggregated amounts of these cases amounted to approximately RMB165.08 billion, which mainly includes unpaid borrowings and outstanding construction payables. The Group has assessed the impact of the above litigation matters and accrued provision for litigations and interest payables on the consolidated financial statements for the year ended 31 December 2024. The Group is also actively communicating with relevant creditors and seeking various ways to resolve these litigations.

39 Transactions with non-controlling interests

During the year ended 31 December 2024, the Group has acquired additional equity interests of its non-wholly owned subsidiaries and disposed of certain equity interests to its non-controlling shareholders through certain transactions with non-controlling interests which resulted in the net decrease in non-controlling interests of RMB269.38 million and net increase in net assets attributable to the owners of the Company of RMB1.28 million. The net consideration was totalled RMB268.09 million.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2024

40 Asset acquisition

During the year ended 31 December 2024, the Group completed a transaction with an existing equity investment counterparty to acquire additional equity interests of an existing joint venture principally engaged in property development at a consideration of approximately RMB1.28 billion. The Directors were of the opinion that the acquisition did not constitute business combinations as defined in HKFRS 3, therefore, the acquisition had been accounted for as asset acquisition. Upon completion of this transaction, the entity became a subsidiary of the Group. A joint venture of approximately RMB1.17 billion was derecognised and a net asset of RMB2.45 billion (mainly consisted of PUDs and CPHFS of approximately RMB3.32 billion in total and contract liabilities of approximately RMB1.86 billion) were recognised as at the date of acquisition. This transaction has been disclosed in the announcement of the Company dated 15 September 2023.

Except the above transaction, the Group acquired equity interests of several property development companies from third parties, at a total consideration of RMB0.20 billion during the year ended 31 December 2024. Substantially all consideration was settled by offsetting amounts due to relevant counterparties. Upon completion of these transactions, these entities became subsidiaries of the Group. The Group elected to apply the concentration test to assess the above acquisition transactions individually. As substantially all of the fair value of the gross assets acquired is concentrated in properties under development and completed properties held for sale, the concentration tests were met and these acquisition transactions have been accounted for as asset acquisition.

41 Disposal of subsidiaries (Continued)

(C) The cash impact arising from the disposals in above transactions are summarised as follows:

	Total RMB'000
Cash considerations received as of 31 December 2024	228,100
Cash of the subsidiaries disposed	(1,088,691)
Net cash impact	(860,591)

(D) The Group disposed of 70% equity interest in a subsidiary principally engaged in property development at a consideration of approximately RMB3.13 billion. The disposal resulted in loss of control over the entity and net assets of RMB1.57 billion (mainly consisted of PUDs of approximately RMB7.24 billion, borrowings of approximately RMB3.73 billion and deferred tax liabilities of approximately RMB1.42 billion) and non-controlling interests of RMB0.34 billion were derecognised as at the date of disposal. The gain on disposal of the entity amounted to RMB1.90 billion for the year ended 31 December 2024. This transaction has been disclosed in the announcement of the Company dated 9 February 2024.

The Group entered into a supplemental agreement (the "Supplemental Agreement") with a third party, which is non-controlling interest of existing subsidiaries of the Group (the "Counterparty"), to the formal agreement on the restructuring arrangement of the 52 property development projects (the "Restructuring Target Projects"). Pursuant to the Supplemental Agreement, a subsidiary of the Group disposed of 80% equity interest in 40 Restructuring Target Projects and acquired 20% equity interest in 12 Restructuring Target Projects and the shareholder debt interest owned by the counterparties. After completion of this transaction, the Group cease to own any interest in the 40 Restructuring Target Projects and loss of control over the 12 Restructuring Target Projects. Net assets of RMB1.00 billion (mainly consisted of PUDs and CPHFS of approximately RMB15.09 billion, investments in joint ventures of approximately RMB2.12 billion, trade and other payables of approximately RMB15.57 billion and contract liabilities of approximately RMB4.00 billion) and non-controlling interests of RMB1.54 billion were derecognised upon completion of the transaction. The gain on this transaction amounted to RMB0.98 billion for the year ended 31 December 2024. In addition, the Group provided an option to the Counterparty to acquired 20% equity interests of the Restructuring Target Projects pursuant to the cooperation agreement signed between the Counterparty and the Group to jointly develop the Restructuring Target Projects. This put option was terminated pursuant to the Supplemental Agreement. As a result, the payables arising from non-controlling shareholders' put option was derecognised and other reserve of the Group increased by approximately RMB1.12 billion. This transaction has been disclosed in the announcement of the Company dated 1 November 2024.

Except the above transactions, the Group disposal equity interests of certain subsidiaries and loss control on these subsidiaries at a consideration of approximately RMB0.58 billion in aggregate. Majority of these subsidiaries principally engaged in property development. Net assets of RMB4.13 billion (mainly consisted of PUDs and CPHFS of approximately RMB19.50 billion, borrowings of approximately RMB4.94 billion, trade and other payables of approximately RMB10.68 billion and contract liabilities of approximately RMB2.76 billion) and non-controlling interests of RMB1.73 billion were derecognised as at the date of disposal. The losses on these disposals amounted to RMB0.89 billion for the year ended 31 December 2024.

46 Benefits and interests of directors (Continued)

For the years ended 31 December 2024 and 2023, no housing allowance, compensation for loss of office as director, estimated money value of other benefits, remunerations paid or receivable in respect of accepting office as director, emoluments paid or receivable in respect of director's other services in connection with the management of the affairs of the company or its subsidiary undertaking were provided by the Group to directors or chief executive.

No significant transactions, arrangements and contracts in relation to the Group's business to which the Company was a party and in which a director of the Company had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

47 Subsidiaries

The Group's principal subsidiaries at 31 December 2024 are set out below. Unless otherwise stated, they have share capital consisting solely of ordinary shares that are held directly by the Group, and the proportion of ownership interests held equals the voting rights held by the group. The country of incorporation or registration is also their principal place of business. The Directors are of the opinion that a complete list of the particulars of all subsidiaries will be of excessive length and therefore the following list contains only the particulars of subsidiaries as at 31 December 2024 which principally affect the results or assets of the Group.
