主席報告 Chairman's Statement

各位股東:

本人謹代表本公司董事會提呈本集團於報 告期的年度報告。

年度業績

本集團於2024年的收入總額約人民幣 1,313.61百萬元,較截至2023年12月31 日止年度約人民幣1,491.15百萬元減少約 11.26%。2024年的毛利約人民幣315.25 百萬元,較截至2023年12月31日止年度減 少約4.17%,主要由於2024年鋼鐵市場持 續低迷,液化工業氣體市場競爭激烈,包 括貧氪氙液氧在市場的價格一直處於低位 運行狀態,且管道氣用量也沒有達到預期 所致。2024年本公司擁有人應佔年內溢利 約人民幣130.05百萬元(2023年本公司擁有 人應佔年內溢利約人民幣128.08百萬元), 溢利較截至2023年12月31日止年度增加約 1.54%。

回顧

2024年本集團唐鋼氣體新區廠房(原中氣 投(唐山)廠房)一套60,000Nm³/hr、兩套 40,000Nm³/hr空氣分離裝置正平穩運行, 而第二套60,000Nm³/hr制氧裝置也處於收 尾階段。本集團產能規模及技術裝備水平 得到大幅提升。

唐鋼氣體新區廠房可充分發揮裝備、技術 和人才優勢,通過自動變負荷、液氧自增 壓、蒸汽加熱等技術革新,順利實現達產 達效目標,將成為本集團重要的利潤增長 驅動力。稀有氣體產品(貧氪氙)的成功投 入市場,填補本集團在航天、高端電子產 品領域的市場空白,使本集團市場核心競 爭力不斷增強。 Dear Shareholders,

On behalf of the Board of the Company, I am pleased to present the annual report of the Group for the Reporting Period.

ANNUAL RESULTS

The total revenue of the Group in 2024 was approximately RMB1,313.61 million representing a decrease of approximately 11.26% as compared to approximately RMB1,491.15 million in the year ended 31 December 2023. Gross profit which amounted to approximately RMB315.25 million in 2024 decreased by approximately 4.17% as compared to the year ended 31 December 2023, which was mainly due to the continued downturn in the steel market in 2024 and fierce competition in the liquefied industrial gas market, including the fact that the price of lean krypton xenon liquid oxygen in the market has been hovering at low levels, and the consumption of pipeline gas has not met expectations. The profit for the year attributable to owners of the Company in 2024 was approximately RMB130.05 million (profit for the year attributable to owners of the Company in 2023), representing an increase of approximately RMB128.08 million in 2023), representing an increase of approximately 1.54% as compared to the year ended 31 December 2023.

REVIEW

In 2024, one set of 60,000Nm³/hr and two sets of 40,000Nm³/hr ASUs of the Group's TTG New District Plant (formerly Zhongqi Investment (Tangshan) Plant) were in smooth operation while the second set of 60,000Nm³/hr oxygen generating plant was in the final stage of construction. The Group's production capacity and technical capability of its equipment have been substantially enhanced.

The TTG New District Plant was able to capitalised on its competitive advantages in terms of equipment, technology and talents, successfully achieving its production output and operational efficiency targets through technological innovations such as automatic variable load, liquid oxygen self-pressurisation and steam heating. These will become an important driver of profit growth for the Group. The successful market launch of rare gas products (lean krypton xenon) has filled the market gaps in the aerospace and high-end electronic products sectors previously faced by the Group. This has continuously enhanced the Group's market core competitiveness.

業務回顧

本集團主要於中國從事生產及供應工業氣 體。

本集團的主要產品工業氣體主要用於鋼鐵 的生產,其收入主要來自鋼鐵生產公司。

根據中國國家統計局(「**國家統計局**」)2025 年1月17日發佈初步核算數據,2024年中國 國內生產總值約人民幣1,349,084億元,按 不變價格計算,比上年增長約5.0%。2024 年,中國粗鋼產量約10.05億噸,較2023年 下降1.7%;生鐵產量約8.51億噸,較2023 年下降2.3%;生產鋼材約13.99億噸,較 2023年增長1.1%。

受益於本集團主要客戶河鋼集團有限公司 沿海生產基地的產能逐步釋放,本集團管 道工業氣體業務較去年有所增長。然而, 因液化工業氣體市場競爭激烈產品貧氪氙 液氧在市場的價格對比上一年嚴重下跌, 本集團截至2024年12月31日止年度的收 入由截至2023年12月31日止年度的約人民 幣1,491.15百萬元減少11.91%至約人民幣 1,313.61百萬元。

BUSINESS REVIEW

The Group is principally engaged in the production and supply of industrial gases in the PRC.

The Group's key products, industrial gases, are mainly used in the production of iron and steel. The Group's revenue is derived mainly from iron and steel production companies.

According to the preliminary accounting data released by National Bureau of Statistics of China (the "**Statistic Bureau**") on 17 January 2025, GDP of China in 2024 was approximately RMB134,908.4 billion, representing an increase of approximately 5.0% over the last year at a constant prices. In 2024, China's crude steel output was approximately 1,005 million tons in 2024, representing a 1.7% decrease compared to 2023, and the pig iron output was approximately 851 million tons, representing 2.3% decrease compared to 2023; the production of steel was approximately 1,399 million tons, representing an 1.1% increase compared to 2023.

Benefiting from the gradual release of production capacity in the coastal production bases of the Group's main customer, being HBIS Group Co., Ltd. (河鋼集團有限公司), the Group's pipeline industrial gas business increased as compared to last year. However, due to keen competition in the liquefied industrial gas market, the price of the product lean krypton xenon liquid oxygen in the market has dropped severely as compared to that of the previous year. Consequently, the Group's revenue for the year ended 31 December 2024 decreased to approximately RMB1,313.61 million, representing a 11.91% decrease from approximately RMB1,491.15 million for the year ended 31 December 2023.

供應管道工業氣體

本集團生產的管道工業氣體通過管道輸送 給本集團的客戶。本集團的生產設施均位 於或鄰近本集團管道工業氣體客戶的生產 設施,以便為彼等提供工業氣體產品。截 至2024年12月31日止年度,本集團擁有2個 營運中的管道工業氣體生產廠房,即唐鋼 氣體樂亭分公司廠房及唐鋼氣體新區廠房 (前稱中氣投(唐山)廠房)。

供應液化工業氣體

提供技術支援及管理服務

本集團提供技術支援及管理服務。該服務 包括管理有關工業氣體產品生產及供應的 組織及規劃、設備檢查、設備維護、日常 維護、安全、勞工及人員等。

Supply of Pipeline Industrial Gas

The Group's pipeline industrial gas is produced and transmitted to its customers via pipelines. The Group's production facilities are all located on, or in close proximity to, the production facilities of its pipeline industrial gas customers for the convenience of those customers being provided with industrial gas products. During the year ended 31 December 2024, the Group had two pipeline industrial gas production plants in operation, namely the TTG Laoting Branch (唐鋼氣體樂亭分公司) plant and the TTG new district plant (formerly known as the Zhongqi Investment (Tangshan) plant).

Supply of Liquefied Industrial Gas

To maximise the utilisation of its designed production capacity and increase its revenue, the Group also engages in the supply of liquefied industrial gas. The Group's liquefied industrial gas products include oxygen, nitrogen, argon and carbon dioxide. Among the oxygen and nitrogen in gas form and liquefied oxygen, nitrogen and argon generated in its air separations unit(s) ("**ASUs**"), liquefied oxygen, nitrogen and argon can be sold directly as liquid products, whereas oxygen and nitrogen in gas form generated by the ASUs can be further processed through the liquefier to obtain liquefied oxygen and nitrogen. After meeting all the demand for oxygen and nitrogen in gas form in the pipeline, the Group utilises the spare design capacity to produce and sell liquefied nitrogen, thereby maximising the use of the ASUs. Carbon dioxide is produced in a separate production line independent from the production of oxygen, nitrogen and argon.

Provision of Technical Support and Management Services

The Group provides technical support and management services. Such services include management of organisation and planning, equipment inspections, equipment maintenance, routine maintenance, safety, labour and personnel etc. in respect of the production and supply of the industrial gas products.

供應液化天然氣及提供氣體輸送服 務

本集團的液化天然氣相關業務包括液化天 然氣供應及提供氣體傳輸服務。供應液化 天然氣指本集團生產及銷售液化天然氣產 品。提供氣體傳輸服務指集團的焦爐煤氣 增壓及輸送服務,而該服務乃透過獨立於 供應管道工業氣體的管道提供。本集團的 灤縣廠房生產液化天然氣。亦提供氣體傳 輸服務,有本集團液化天然氣供應業務所 用的設備及機器。

截至2024年12月31日(「**報告期**」)及2023年 12月31日止年度各業務分類的收益及毛利 載列如下:

Supply of LNG and the Provision of Gas Transmission Services

The Group's LNG-related business includes the supply of LNG and the provision of gas transmission services. The supply of LNG refers to the production and sales of LNG products by the Group. The provision of gas transmission services refers to the Group's coke oven gas pressurisation and transmission services provided via pipelines which are independent from the pipelines used for its supply of pipeline industrial gas. The Group's Luanxian plant produces LNG and also provides gas transmission services, and has relevant equipment and machinery used for the Group's LNG supply business.

展望 外部因素之影響

中國2024年的全年國內生產總值增長目標 為約5%左右,2024年全年實現約5.0%的 增長。2024年對鋼鐵行業是極具挑戰的一 年,鋼鐵行業受原燃料價格處於高位及鋼 材價格下跌影響,鋼鐵行業盈利水平下滑 明顯。

OUTLOOK Impact of external factors

While setting its GDP growth target at around 5% for 2024, China's GDP had achieved an annual growth of approximately 5.0% in 2024. The year 2024 was a challenging year for the steel industry, which was affected by the high raw fuel prices and the falling steel prices, resulting a significant decline in profitability.

其次,中美貿易戰的持續升溫加劇了全球貿 易環境的不穩定性。隨著雙邊貿易關係的 緊張,鋼鐵廠可能會面臨市場需求減少、 貿易壁壘提高等挑戰。這些因素不僅影響 鋼鐵廠的生產運營,也可能導致其在氣體 供應方面的需求變化。鋼鐵廠在應對貿易 戰時,可能會考慮尋找其他供應來源,這 進一步降低了我們的市場佔有率。為應對 這些風險,我們需要制定靈活的業務策略, 增強市場分析能力和風險預測能力。建立 多元化的客户基礎及供應鏈,以降低對單 一市場的依賴,並加強與鋼鐵廠的溝通與 合作,以更好地理解他們的需求變化。此 外,我們還應該考慮拓展其他市場,尋找 新的商機,從而在不確定的貿易環境中保 持競爭力,確保業務的穩定發展。

In the current global economic environment, gas supply companies face multiple risks, particularly in their business of supplying gas to iron and steel plants in China. The two main risk factors are changes in the US trade policy towards other countries and the impact of the US-China trade war. Firstly, the increase in tariffs by the US will have profound impact on global trade, which will not only affect the imported raw materials of iron and steel plants, but may also trigger adjustments to the entire supply chain. As our major customers, iron and steel plants may change their production plans and market demand due to the impact of trade policies, which may expose our gas demand to fluctuations, affecting sales forecast and inventory management. In summary, as policy uncertainty in the U.S. market increases, our market position will be challenged.

Secondly, the continued escalation of the US-China trade war has exacerbated the instability of the global trade environment. As bilateral trade relations become tense, iron and steel plants may face challenges such as reduced market demand and higher trade barriers, which not only affect their production operations, but may also lead to changes in their demand for gas supply. Iron and steel plants may consider alternative sources of supply in response to the trade war, which could further reduce our market share. To address such risks, we need to formulate flexible business strategies, enhance our market analysis capabilities and risk forecasting capabilities, build a diversified customer base and supply chain to reduce our reliance on a single market, and strengthen our communication and co-operation with iron and steel plants to better understand the changes in their demand. In addition, we should also consider expanding into other markets and identifying new business opportunities, so as to maintain our competitiveness in an uncertain trading environment and ensure stable business development.

2025年工業氣體整體需求量仍存支撐。鋼 鐵行業受行業利潤變化及產品鏈利潤調配 的影響,市場供應壓力突顯,鋼企生產積 極性或降低,鋼坯產量或被動下滑,對工 業氣體需求有所拖累。但不銹鋼作為高端 型鋼材,未來其傳統應用領域仍保持增長 態勢。化工行業、傳統石油化工行業仍面 臨一定挑戰,但隨着產業轉型升級,將為 工業氣體行業發展帶來新的機遇。

行業發展前景帶來發展機遇

中國工業氣體行業在國家政策推動,外資 引入,高新技術發展等因素的影響下發展 迅速。隨著工業快速發展、以電子特種氣 體為代表的新興用氣需求不斷爆發,中國 工業氣體市場將繼續保持增長。

本集團作為華北地區工業氣體領先企業, 在大宗工業氣體市場優勢明顯,同時本集 團緊跟行業發展趨勢,積極開發特種氣體 產品,拓展電子特種氣體產品市場份額, 以增強其未來發展前景。

供氣模式發展帶來的機遇

工業氣體供氣模式分為自建設備供氣和外 包供氣。對比自建設備制氣模式,外包供 氣模式運營成本低、供氣穩定性高、資源 利用效率高、一次性財務成本低。外包供氣 市場份額佔比穩步增長,預計未來外包的 供氣模式將逐步替代自建設備供氣模式。

本集團將充分利用自身外包氣體供應商的 成功經驗及技術優勢,緊跟供氣模式轉變 的市場趨勢,尋求對外發展機遇。 Overall demand for industrial gases in 2025 will remain supported. Affected by changes in industry profits and the profit allocation in the product chain, the market supply pressure is prominent in steel industry, steel enterprises may be less active in production, and steel billets output may passively decline, which will drag down demand for industrial gases. However, as a high-end steel material, stainless steel will continue to grow in its traditional application in the future. The chemical industry and traditional petrochemical industry is still facing certain challenges, but with the transformation and upgrading of the industry, it will bring new opportunities for development of the industrial gas industry.

Opportunities brought by industry development prospect

China's industrial gas industry has developed rapidly under the influence of national policies, foreign investment, the development of high tech and so on. With the rapid development of the industry and the explosive surge in demand for emerging gas represented by electronic special gases, the industrial gas market in China is expected to continue growing.

As a leading industrial gas enterprise in Northern China, the Group has a clear advantage in the bulk industrial gas market. Meanwhile, the Group also keeps abreast of the industry development trends, actively develops special gas products, and expands the market share of electronic special gas products, so as to enhance its prospect for future development.

Opportunities brought by gas supply model development

The industrial gas supply model can be categorised into self-established equipment gas supply and outsourced gas supply. As compared to the self-established equipment gas supply model, the outsourced gas supply model has low operating cost and one-off financial cost with high gas supply stability and efficient resources utilisation. Therefore, the market share of outsourced gas supply has been growing steadily. It is expected that the outsourced gas supply model will gradually replace the selfestablished equipment gas supply model in the future.

The Group will leverage on its successful experience and technical advantages as an outsourced gas supplier to keep pace with the market trends of changes in gas supply models and explore external development opportunities.

集團業務發展

Group's business development

本集團擁有實力雄厚的客戶支撐業務發展,隨著客戶產能擴充,對工業氣體產品 的需求增加,本集團期望未來的業務穩定 增長。

工業氣體產品需求增量,主要體現在以下 幾個方面:

 河鋼股份有限公司唐山分公司沿海基 地4#高爐建設

> 4#高爐目前正處於施工階段,唐鋼氣 體為其配套建設的60,000Nm³/hr制氧 裝置正處於收尾階段。

河鋼股份唐山分公司沿海基地冷軋生
產線建設

唐鋼氣體為兩個區域冷軋生產線配 套建設的制氫裝置正在施工中。 The Group's business development is supported by customers with strong backgrounds. Based on the increasing demand for industrial gas products resulting from the expansion of customers' production capacity, the Group expects stable growth in its business in the future.

The increase in demand for industrial gas products will mainly be reflected by the following aspects:

 The construction of the fourth blast furnace in the coastal base of HBIS Company Limited Tangshan Branch (河鋼股份有限公司唐山 分公司)

The fourth blast furnace is currently under construction, and the $60,000 \text{Nm}^3/\text{hr}$ oxygen generating plant by TTG is in the final stage of construction.

2. The construction of cold-rolled production line in the coastal base of HBIS Company Tangshan Branch

Hydrogen production units are being constructed by TTG to support the two cold-rolled production lines.

股息

董事會不建議派付報告期的末期股息(截 至2023年12月31日止年度:無)。

了解到集團的股息政策,董事會考慮了以 下事實:

- 於2024年12月31日,本集團的資本承 擔總額約為人民幣55.68百萬元,主 要與購買物業、廠房及設備的合約承 擔有關。隨著河鋼唐山分公司高爐建 設在即,本集團計劃投入更多資金以 滿足河鋼集團對工業氣體的額外需 求。
- 持續減低銀行貸款,以減少財務費用 的開支。

經權衡上述因素後,達致上述決定採取審 慎態度不建議派付報告期的末期股息。 The Group recorded total current assets of approximately RMB839.31 million as at 31 December 2024, representing a decrease of approximately 1.59% as compared to approximately RMB852.86 million as at 31 December 2023; and total current liabilities of approximately RMB546.68 million as at 31 December 2024, representing a decrease of approximately 18.19% as compared to approximately RMB668.24 million as at 31 December 2023.

DIVIDEND

The Board does not recommend the payment of a final dividend for the Reporting Period (for the year ended 31 December 2023: Nil).

Cognisant of the Group's dividend policy, the Board has considered the fact that:

- As at 31 December 2024, the Group had total capital commitments of approximately RMB55.68 million, mainly related to contracted commitments in respect of purchase of property, plant and equipment. With the imminent construction of the furnace of HBIS Tangshan Branch, the Group plans on committing more capital investments so as to meet the additional industrial gas demand from HBIS.
- The Group has continued to reduce its bank borrowings in order to minimise the expenditure on finance costs.

Having weighed the above, the above decision has been arrived with a prudent approach in not recommending the payment of a final dividend for the Reporting Period.

As at 31 December 2024, approximately 89% of the trade receivables of the Group were payable by the HBIS (31 December 2023: approximately 97%). In view of the sound history of receivables, the management of the Group believes that the fixed credit risk of the Group's unsettled trade receivables balance is insignificant, however, an impairment provision has been made for trade receivables in accordance with the principle of prudence. The Group aims to maintain its current assets at an appropriate level and is committed to a capital limit. This ensures that the Group can satisfy its short term and long term liquidity needs. The Group had been following its liquidity policy during the Reporting Period, which has been effective in managing liquidity risk. Hence, the payment and amount of any future dividends will also depend on the availability of dividends received from the subsidiaries. The PRC law requires that dividends be paid only on the basis of profit for the year calculated in accordance with the PRC accounting standards, which differs in many respects from accounting standards generally accepted in other jurisdictions, including International Financial Reporting Standards. The PRC law also requires foreign-invested enterprises to set aside at least 10% of their after-tax profits, if any, as their statutory reserves, which may not be distributed as cash dividends. Distributions by the Company and its subsidiaries may also be subject to any restrictive covenants relating to banking facilities, convertible bond instruments or other agreements that may be entered into by the Company or its subsidiaries in the future.

The amount of any dividend actually distributed to the Shareholders will depend on the earnings and financial position of the Company, its operating requirements, capital requirements and any other conditions deemed relevant by the Directors, subject to the approval of the Shareholders. The Board shall have the absolute discretion to recommend any dividend.

Having due regard to the long-term interests of the Shareholders and the Company, the Board does not recommend the payment of a final dividend for the Reporting Period. As at the date of this annual report, no arrangement has been entered into to enable the Shareholders to waive or agree to waive any dividends (including future dividends).

 - our business operations and financial performance may be adversely affected if there is any change to the operation and/or business development plans of members of the HBIS Group who are our customers.
 - we are subject to risk due to our expansion and relocation of equipment associated with the development of the Zhongqi Investment (Tangshan) plant, which was our only production plant under development as at the date of this report.

與供應商,客戶及其他持份 者之關係

與供應商及客戶關係

本集團工業氣體產品生產過程中使用的原 材料主要是以零成本獲得的空氣。於本報 告期,公用事業的耗用是本集團收益成本 的最大組成部分。於報告期,本集團主要 根據若干公用事業購買合約向本集團的管 道工業氣體客戶,包括河鋼唐山分公司、 唐山不銹鋼及唐山中厚板購買電力、水、供 暖及蒸汽。本集團與彼等訂立合約期限為 15或30年的長期公用事業採購合約。本集 團亦與中氣投(唐山)新客戶河鋼樂亭訂立 公用事業採購合約。現場客戶向其管道工 業氣體供應商提供公用事業屬行業慣例。

- we expect to incur substantial depreciation expenses relating to the construction of the Zhongqi Investment (Tangshan) plant, which may materially and adversely affect our results of operations and financial condition.
- our business and results of operations may be subject to the changes in the market conditions of the iron and steel industry.

For detailed disclosure about the principal risks and uncertainties identified by the Group, please refer to the "Risk Factors" section in the Prospectus.

The list above is not exhaustive and there may be other risks and uncertainties in addition to those shown above which are not known to the Group or which may not be material now but could turn out to be material in the future.

RELATIONSHIP WITH SUPPLIERS, CUSTOMERS AND OTHER STAKEHOLDERS Relationship with Suppliers and Customers

The raw material used in the production process of the Group's industrial gas products is primarily air which we obtain at zero cost. During the Reporting Period, consumption of utilities is the largest component of the Group's cost of revenue. During the Reporting Period, the Group procured electricity, together with primarily water, heating and steam, mainly from the Group's pipeline industrial gas customers HBIS Tangshan Branch (河鋼 唐山分公司), Tangshan Stainless Steel and Tangshan Plate based on certain utility purchase contracts. The Group entered into long-term utility purchase contracts with a term of 15 or 30 years with them. The Group also entered into a utilities purchase contract with HBIS Laosteel which is a new customer of Zhongqi Investment (Tangshan). It is an industry norm for the on-site customers to provide utilities to their pipeline industrial gas supplier.

客戶及供應商集中

截至本年報日期,本集團有客戶及供應商 集中的情況,主要原因為本集團與河鋼成 員集團的成員公司的關係及本集團的業務 模式。考慮到(i)有關集中情況在主要從事 管道工業氣體供應的中國工業氣體供應商 中屬普遍:(ii)本集團與河鋼成員集團的成 員公司的關係:及(iii)本集團成立的歷史背 景加上過去16年的穩定性,董事認為本集 團的客戶及供應商集中不會影響本集團的 營運。

供應商與客戶重疊

本集團的管道工業氣體客戶亦為本集團的 公用事業供應商。與本集團的現場客戶共 用公用事業配送網絡可節省本集團興建獨 立的水管及電纜網絡的成本。在本集團 戶所在地附近建立生產廠房亦可為客戶 省運輸成本,原因為就大量穩定氣體供應 而言,管道交付遠較道路儲缸交付便宜。 雖然本集團的管道工業氣體客戶於報告期 內貢獻本集團的管道工業氣體客戶有動力 「本集團提供穩定可靠的公用事業供應。

有關本集團的主要客戶及供應商之詳情, 請參閱本董事會報告內「主要客戶及供應商」 一節。

Concentration of Customers and Suppliers

As at the date of this annual report, the Group experienced concentration of our customers and suppliers, primarily due to the Group's relationship with members of the HBIS Group and our business model. Considering that (i) such concentration is common for industrial gas suppliers in the PRC which primarily engage in supply of pipeline industrial gas; (ii) the Group's relationship with members of the HBIS Group; and (iii) the historical background of our establishment as well as the Group's stability for the past 16 years, the Directors are of the view that the Group's concentration of customers and suppliers would not impact on the operation of the Group.

Overlapping Suppliers and Customers

The Group's pipeline industrial gas customers are also our suppliers of utilities. The sharing of utility distribution networks with the Group's on-site customers can save us the cost of establishing separate water pipeline and power cable networks. Setting up production plants in close proximity to the sites of the Group's customers can also save delivery costs for customers as pipeline delivery is much cheaper than road tanker delivery in terms of large volume of constant gas supply. While the Group's pipeline industrial gas customers contributed significantly to the revenue during the Reporting Period, the Group's industrial gas products were essential as key raw materials for their iron and steel production and the Group's pipeline industrial gas customers were incentivised to provide the Group with stable and reliable utility supply.

The Directors are of the view that the longterm industrial gas supply arrangement is necessary for the efficient and continuing operation of the Company and that the long-term industrial gas supply arrangement is an established feature of the Company's business model for the on-site industrial gas supply operation and is consistent with the industry norm. Pricing guidelines

The unit price for each type of industrial gas products and the fees for related services are set out in the relevant Operational Gas Products and Related Services Agreement subject to adjustment by parties entering into a supplemental agreement. The unit price for each type of the pipeline industrial gas products is determined on cost plus basis after arm's length negotiations between the relevant parties, taking into account major costs, including electricity expenses (with reference to the government-prescribed price), depreciation of our equipment and the administrative and finance cost. The unit price of each type of liquefied industrial gas and fees for storage tanks rental services will be determined with reference to the relevant market price charged by independent third party providers for the same or similar type of liquefied industrial gas and rental services and actual cost which includes the transportation cost, where applicable. The fees for gas transmission are based on actual costs and expenses incurred in providing such service. Monthly settlement is made on the basis of the actual supply volume by each of the relevant member of the HBIS Group under the relevant Operational Gas Products and Related Services Agreement where applicable.

As the Group's business is electricity intensive, where relevant, the existing Operational Gas Products and Related Services Agreements provide for a price adjustment mechanism with a pre-determined formula to factor in the fluctuation in electricity price and supplemental agreements between the Group and relevant member of the HBIS Group have been or will be made to reflect the price adjustment under such mechanism.

 將會而並未就本集團的其他已佔用 土地取得土地使用權證,以及與本 集團於擁有土地使用權證的土地及 其他將取得土地使用權證的已佔用 土地上建立的建築物及築構物有關 的業權欠妥

> 唐鋼氣體玉田分公司尚未就玉田廠房 部分持有土地使用權證,且未能就該 等物業之上建設的建築物及築構物 取得其後所需的建設許可或提交所 需竣工及驗收備案材料

> 玉田縣政府沒有用地佔補指標,故暫 時無法辦理土地證,進而無法辦理 用地規劃許可證、建築工程規劃許可 證等許可文件。

 有關本集團的租賃土地及本集團在 該租賃土地上建立的建築物及築構 物的業權欠妥

> 由於退出及搬遷協議導致唐鋼氣體原 總部廠房及唐鋼氣體原煉鐵分公司終 IL營運,後將不再用作生產用途,上 述租賃二幅土地有關土地租賃登記及 在其上建設若干建築物及築構物所 需建設許可證及程序已經無需辦理。 由於唐鋼氣體原不銹鋼分公司計劃搬 遷,目前處於停產狀態,該廠房租用 土地有關租賃登記及在其上建設若 干建築物及築構物所需建設許可證 及程序已經暫停辦理。由於本集團並 非土地擁有人,本集團無法取得/完 成唐鋼氣體樂亭分公司以及壓縮天 然氣及液化天然氣加氣站在租賃土 地上建設若干建築物及築構物所需 建設許可證及程序。此外,出租人未 能就該等租賃土地取得建設用地規 劃許可證。本集團亦未能完成唐鋼氣 體樂亭分公司以及壓縮天然氣及液 化天然氣加氣站租賃土地的有關登 記並取得完成該登記後發出的土地他 項權利證明書。然而,唐鋼氣體樂亭 分公司廠房及壓縮天然氣及液化天 然氣加氣站的租賃土地出租人同意, 如本集團無法繼續使用該等租賃土 地,彼等將賠償我們有關損失。

1. Absence of the land use right certificate to be obtained for other occupied land of the Group as well as title defects relating to the buildings and structures constructed by the Group on its land with land use right certificates and its other occupied land with the land use right certificates to be obtained

TTG Yutian Branch did not hold the land use right certificates for part of Yutian plant, and failed to obtain the subsequent necessary construction permits or to submit the requisite completion and acceptance filing materials for the buildings and structures constructed on such properties

As Yutian county government did not have any land use quota, land certificate cannot be executed temporarily, and thus land use planning permit, construction project planning permit and other permits were unable to be executed.

2. Title defects relating to the Group's leased land and the buildings and structures constructed by the Group on such leased land

Due to the cessation of the operation of the TTG former headquarters plant and the TTG former Ironmaking Branch as a result of the exit and relocation agreement, which will no longer be used for production purposes, the land lease registration relating to the two leased land as mentioned above as well as the construction permits and procedures required for the construction of certain buildings and structures on such lands are no longer required. Due to the planned relocation of the TTG former Stainless Steel Branch, which is currently in a state of suspension of production, the lease registration relating to the land leased for the plant and the construction permits and procedures required for the construction of certain buildings and structures on it have been suspended. As the Group was not the owner of the land, the Group failed to obtain/complete the construction permits and procedures required for the construction of certain buildings and structures on the leased land at TTG Laoting Branch and CNG and LNG gas station. In addition, the lessors failed to obtain the construction land use planning permits (建設用地規 劃許可證) for such leased land. The Group also failed to complete the registrations of the leased land of TTG Laoting Branch and CNG and LNG gas station and obtain certificates of other rights over land (土地他項權利證明書) to be issued after completion of such registrations. However, the lessors of the parcels of leased land at TTG Laoting Branch plant and CNG and LNG is gas station agreed to indemnify for the losses incurred if the Group is unable to continue to use the leased land.

除由於退出及搬遷協議導致終止營運 後將不再用作生產用途的唐鋼氣體 原總部廠房、唐鋼氣體原煉鐵分公司 廠房及計劃搬遷並停產的唐鋼氣體 原不銹鋼分公司的生產設施外,政 府對於補辦唐鋼氣體樂亭分公司及 天然氣加氣站所租賃土地的建設規 劃等證明審批進度較慢。本公司與土 地出租方正密切協調,加快申報材料 調整。盡力促使出租人盡快完成建 設用地規劃等審批。

有關本集團的租賃建築物及築構物 的業權欠妥

由於河鋼股份與唐山市人民政府於 2020年8月19日訂立退出搬遷協議的 實施,唐鋼氣體總部廠房及唐鋼氣體 煉鐵分公司租賃的建築物及構築物 不再用於生產目的,租賃登記已無需 辦理;由於唐鋼氣體原不銹鋼分公司 計劃搬遷,目前處於停產狀態,租賃 的建築物及構築物租賃登記已暫停辦 理,等待搬遷。

直至本年報日期,本集團概不知悉任 何政府機關或第三方就上述事宜而 針對本集團的任何實際或預期行動、 申索或調查。本集團將繼續監察情 況,狀態更新將持續於本公司的年報 中披露,直至本集團完全整改此類業 權欠妥為止。 Save for the production facilities at the TTG former headquarters plant, the TTG former Ironmaking Branch plant which was no longer in use for production purposes following the cessation of the operation due to the exit and relocation agreement, and the TTG former Stainless Steel Branch plant which was planned to be relocated and discontinued, the government has been slow in approving the construction planning permit and other permits of the leased land of the TTG Laoting Branch and the natural gas filling station. The Company has conducted close coordination with the land lessor to speed up adjustment for application documents, and endeavoured to procure the lessor's completion of approval for the construction land planning permit as soon as possible.

3. Title defects relating to the leased buildings and structures of the Group

Due to the implementation of the exit and relocation agreement entered into between HBIS Company and the People's Government of Tangshan on 19 August 2020, the leased buildings and structures of the TTG headquarters plant and the TTG Ironmaking Branch were no longer in use for production purposes, and the leasing registration was no longer required. Due to the planned relocation of the TTG former Stainless Steel Branch, which is currently in a state of suspension of production, the lease registration of leased buildings and structures has been suspended, pending relocation.

As of the date of this annual report, the Group is not aware of any actual or anticipated action, claim or investigation by any government agency or third party against the Group in relation to the above matters. The Group will continue to monitor the situation, and the situation update will be disclosed in the annual reports of the Company until the Group's complete rectification of such title defects has been fully disclosed therein.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants (the "**Code**") issued by HKICPA, and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment assessment of property, plant and equipment

Refer to summary of material accounting policies in Note 4(d), critical accounting estimates and judgements in Note 5(c) and disclosure of property, plant and equipment in Note 17 to the consolidated financial statements.

The carrying amount of the Group's property, plant and equipment as at 31 December 2024 amounted to RMB1,510,162,921 (2023: RMB1,527,518,212). The Group recognised a written off for the property, plant and equipment was RMB37,891,436 during the year ended 31 December 2024 (2023: RMB19,309,391).

We identified impairment assessment of property, plant and equipment as a key audit matter due to its significance to the Group's consolidated financial position and the involvement of subjective judgement and management estimates in evaluating the value in use based on future cash flow of each asset group and the discount rate of the Group's property, plant and equipment at the end of the year.

我們對物業、廠房及設備的減值評估實施 的程序包括:

- 了解及評估與物業、廠房及設備減值 評估有關的主要內部控制的設計、執 行情況及運作成效。
- 了解管理層就物業、廠房及設備減值 評估有關的依據及評估。
- 評估管理層對物業、廠房及設備減值 評估有關的假設及判斷的合理性。

我們對合併財務報表之意見並不涵蓋其他 資料,我們亦不對其他資料發表任何形式 之鑒證結論。 Management performed an impairment assessment when indicators of impairment were identified. Management determined the recoverable amounts of the Group's property, plant and equipment based on the higher of fair value less costs of disposal and value in use. When performing an impairment assessment, management makes assumptions and estimates on future operating profit, growth rate and discount rate to calculate expected value in use and compared the carrying values of property, plant and equipment, to determine the impairment loss which should be recognised for the year, if any.

Our procedures on the impairment assessment of property, plant and equipment included:

- Obtaining an understanding of and assessing the design, implementation and operating effectiveness of key internal controls relating to the impairment assessment of property, plant and equipment.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

就我們對合併財務報表的審計,我們的責 任乃細閱其他資料,在此過程中,考慮其 他資料與合併財務報表或我們在審計過程 中所知悉的情況是否存在重大抵觸或似乎 存在重大錯誤陳述。

基於我們已執行的工作,如果我們確定其 他資訊存在重大錯報,我們應當報告該事 實。我們在這方面並無任何事項需要報 告。 In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

董事就合併財務報表須承擔 之責任

董事須負責根據國際財務報告準則會計準 則及香港公司條例之披露規定編製並公允 呈列之合併財務報表,以及落實董事認為 必要之內部控制,以確保編製合併財務報 表時不存在由於欺詐或錯誤而導致之重大 錯誤陳述。

於編製合併財務報表時,董事負責評估 貴 集團持續經營之能力,並在適用情況下披 露與持續經營有關之事項,以及使用持續 經營會計基礎,除非董事有意將 貴集團清 盤或停業,或別無其他現實之替代方案。

董事亦負責監督 貴集團財務報告過程, 並在審核委員會協助下履行彼等之責任。

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation and fair presentation of these consolidated financial statements in accordance with IFRS Accounting Standards and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

核數師就審計合併財務報表 承擔之責任

我們之目標為就合併財務報表整體是否不 存在由於欺詐或錯誤而導致之重大錯誤陳 述取得合理保證,並發出包括我們意見之 核數師報告。我們僅根據委聘條款向全體 股東作出報告,除此之外,本報告並無其 他用途。我們不會就本報告之內容向任何 其他人士負責或承擔任何責任。

合理保證屬高度保證,但並非關於根據香 港審計準則進行之審計總能發現某一存在 之重大錯誤陳述之擔保。錯誤陳述可由欺 詐或錯誤引起,倘個別或整體合理預期情 況下可影響使用者根據該等合併財務報表 作出之經濟決定,則有關錯誤陳述可被視 作重大。

作為根據香港審計準則進行之審計工作之 一部分,我們於整個審計過程中行使專業 判斷並抱持專業懷疑態度。我們亦:

- 識別及評估合併財務報表由於欺詐 或錯誤而導致之重大錯誤陳述風險, 設計及執行審計程序以應對該等風 險,以及獲取充分及適當審計憑證為 我們之意見提供基礎。由於欺詐可 能涉及串謀、偽造、蓄意遺漏、虛假 陳述或僭越內部控制,故因未能發現 欺詐而導致之重大錯誤陳述風險高 於因未能發現錯誤而導致之重大錯 誤陳述風險。
- 了解有關審計之內部控制,以設計在 各類情況下適當之審計程序,但並非 旨在對 貴集團內部控制之成效發表 意見。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- 評估董事所用會計政策之恰當性及作 出會計估計及相關披露之合理性。
- 總結董事採用持續經營會計基礎是 否恰當,並根據已獲得之審計憑證, 總結是否存在重大不明朗因素涉及可 能令 貴集團之持續經營能力嚴重成 疑之事件或情況。倘我們得出結論認 為存在重大不明朗因素,我們須於核 數師報告中提請使用者注意合併財務 報表內之相關披露,或倘相關披露不 足,則修訂我們之意見。我們之結論 以截至核數師報告日期所獲得之審計 憑證為基礎。然而,未來事件或情況 可能導致 貴集團不再持續經營。
- 評估合併財務報表(包括披露)之整體 列報、架構及內容,以及合併財務報 表是否已中肯反映相關交易及事件。
- 計劃及執行集團審計以就 貴集團 內實體或業務單位之財務資料獲得充 足及適當之審計憑證,作為對集團財 務報表形成意見的基礎。我們負責 指導、監督及執行集團審計。我們為 我們之審計意見承擔全部責任。

我們與審核委員會溝通(其中包括)審計工 作之計劃範圍、時間及重大審計發現,該 等發現包括我們於審計期間識別出內部控 制之任何重大缺陷。

我們亦向審核委員會提交聲明,説明我們 已遵守有關獨立性之相關道德要求,並與 彼等溝通可能被合理認為會影響我們獨立 性之所有關係及其他事宜,以及(倘適用) 為消除威脅而採取的行動或適用的防範措 施。

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

從與董事溝通之事項中,我們決定該等事 項對本期合併財務報表之審計最為重要, 因而構成關鍵審計事項。我們在核數師報 告中描述該等事項,除非法律或法規不允 許公開披露該事項,或於極端罕見情況下, 倘合理預期在報告中溝通某事項造成之負 面後果超過其產生之公眾利益,則我們決 定不應在報告中溝通該事項。 From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognised in "Other (losses)/gains, net" in the consolidated statements of comprehensive income.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

(d) Property, plant and equipment (Continued)

Construction in progress represents leasehold improvements, production line and manufacturing plants under construction. Construction in progress is stated at cost less accumulated impairment losses, if any. Cost includes the costs of construction and acquisition, and capitalized costs attributable to the construction during the period of construction. No provision for depreciation is made on construction in progress until such time as the relevant assets are completed and ready for intended use. When the assets concerned are available for use, the costs are transferred to property, plant and equipment and depreciated in accordance with the policy as stated in above.

(e) Impairment of non-financial assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units which are largely independent of the cash inflows from other assets or group of assets). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(f) Financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through other comprehensive income,
- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will be recorded either in profit or loss or other comprehensive income ("**OCI**"). For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

計量

於初步確認時,就並非按公允 價值計入損益的金融資產而言, 本集團按其公允價值加收購金 融資產直接產生的交易成本計 量該金融資產。按公允價值計 入損益列賬的金融資產的交易 成本記錄於損益中。

債務工具

債務工具之後續計量取決於本 集團管理資產之業務模式及該 資產之現金流量特徵而定。本 集團將其債務工具分類為兩類 計量類別:

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

(f) Financial assets (Continued) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are recorded in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Group classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest method.

(f) Financial assets (Continued) Measurement (Continued) Debt instruments (Continued)

> Fair value through other comprehensive income ("FVOCI"): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in "Other (losses)/gains, net". Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in "Other (losses)/gains, net" and impairment expenses are presented as separate line item in the consolidated statements of comprehensive income.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

本集團以前瞻性基礎評估其以 攤銷成本列賬的資產及按公允 價值計入損益的金融資產的預 期信貸虧損。採用的減值方法 取決於信貸風險是否顯著增加 而定。

就貿易應收款項而言,本集團 採用國際財務報告準則第9號所 允許的簡化方法,規定預期年 期虧損須於應收款項初始確認 時予以確認。

其他應收款項減值按12個月預 期信貸虧損或全期預期信貸虧 損計量,視乎自初始確認以來 信貸風險是否顯著增加而定。 倘自初始確認以來應收款項的 信貸風險顯著增加,則減值按 全期預期信貸虧損計量。

倘一項金融資產已逾期超過30 天,則本集團假定其信貸風險 已大幅增加。

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

(f) Financial assets (Continued) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and financial assets at fair value through profit or loss. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Impairment on other receivables is measured as either 12-month expected credit losses or lifetime expected credit loss, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime expected credit losses.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

Trade receivables are amounts due from customers for products sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade and other receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method.

(h) Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business, if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at, amortised cost using the effective interest method.

(i) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

(I) Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the statement of financial position date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the consolidated statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

(I) Current and deferred income tax (Continued) Deferred income tax (Continued)

Deferred income tax assets are recognised only if it is probable that future taxable profit will be available to utilise those temporary differences and losses.

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred income tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(m) Employee benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits, annual leave and sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated statement of financial position.

Pension obligations

Full-time employees in the PRC are covered by various government-sponsored defined contribution pension plans under which the employees are entitled to a monthly pension based on certain formulas. The relevant government agencies are responsible for the pension liability to these retired employees. The Group contributes on a monthly basis to these pension plans. Under these plans, the Group has no further payment obligation for post-retirement benefits beyond the contributions made. Contributions to these plans are expensed as incurred and contributions paid to the defined-contribution pension plans for an employee are not available to reduce the Group's future obligations to such defined contribution pension plans even if the employee leaves.

(o) Revenue recognition (Continued)

Revenue is recognised when or as the control of the goods or services is transferred to a customer. Depending on the terms of the contract and the laws that apply to the contract, control of the goods and services may be transferred over time or at a point of time. The following is a description of the accounting policy for our principal revenue streams:

Supply of industrial gas

Sales and distribution of natural gas are recognised at a point in time when control is transferred to customers, which generally coincides with the time when gas is transmitted and used by the customers, and is based on the gas consumption data derived from meter readings. Payment of the transaction price is due immediately at the point the customer consume the gas.

Supply of liquefied industrial gas and liquefied natural gas

For supply of liquefied industrial gas and LNG for which the control of products is transferred to customer on delivery, revenue is recognised at a point in time when the customer obtains the physical possession of products and the Group has present right to payment and the collection of the consideration is probable.

Gas transmission service

For gas transmission service for which the obligation of service is satisfied on transmission of gas, revenue is recognised for each reporting period based on the volume of gas transmitted and the unit service fee as agreed in the service contract.

The Group provides technical support and management services in respect of the production and supply of industrial gas products. Revenue recognition is based on satisfying the performance obligation related to the actual volume of gas transmitted and the unit price as agreed upon in the service contract.

Others

Others consist of income from sales of compressed natural gas and LNG for vehicles at natural gas station and other special gas, which are recognised when the relevant items are delivered to the buyers.

(p) Leases

The Group leases land, office and buildings as lessee. Rental contracts are typically made for fixed periods of 1 to 20 years and may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is amortised over the shorter of the asset's useful life and the lease term on a straight-line basis.

- amounts expected to be payable by the lessee under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received any initial direct costs, and
- restoration costs.

The lease payments are discounted using the interest rate implicit in the lease, if that rate can be determined, or the Group's incremental borrowing rate.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Deferred taxation

The Group's operating subsidiaries in the PRC are subject to Enterprise Income Tax. Significant judgement is required in determining the deferred tax relating to certain temporary differences and tax losses in various jurisdictions. There are many transactions and calculations for which the ultimate tax determination is uncertain. The Group recognises assets or liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the deferred income tax assets and liabilities in the period in which such determination is made.

(b) Useful lives and residual value of property, plant and equipment

The Group's management determines the estimated useful lives, residual values and related depreciation charges for its property, plant and equipment. The estimates are based on the historical experience of the actual useful lives and residual values of similar nature and functions. Management will increase the depreciation charges where useful lives are less than previously estimated lives or residual values are less than previously estimated values. Actual economic lives and residual values may differ from estimated useful lives and residual values. Periodic review could result in a change in depreciable lives and residual values, which therefore affect the depreciation charges in future periods.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

(c) Impairment of property, plant and equipment

The Group evaluates the impairment risks of property, equipment and leasehold improvements in accordance with the accounting policies stated in note 4(e). Recoverable amounts of property, plant and equipment is the value in use, which is higher than the asset's fair value less costs of disposal. When calculating the value in use, the Group is required to estimate and evaluate the future cash flow of each assets group and the discount rate to determine the current value. As at 31 December 2024, the net carrying amount of property, plant and equipment are RMB1,510,162,921 (2023: RMB1,527,518,212).

本集團於截至2023年12月31日止年度 發生減值的資產包括專門用於為本 集團某個現金產生單位內的本公司控 股股東及本集團主要客戶河鋼股份有 限公司河鋼唐山分公司提供服務的建 築物。客戶搬遷後,相關資產不再具 有其他用途,亦無法轉移至不同的現 金產生單位。因此,本集團管理層參 考其公允價值減出售成本評估其可收 回金額,作為採用市場法進行的第3 層級計量。鑒於相關資產並無可用市 場,管理層釐定公允價值為人民幣零 元。

由於繼續實施搬遷計劃,管理層評 估本集團的生產計劃,並就總部廠房 及本公司全資附屬公司唐山唐鋼氣體 有限公司下屬煉鐵分廠的若干機器及 設備識別減值跡象。專門用於服務 特定客戶的若干物業、廠房及設備已 無其他代替用途,且無法轉移至不同 的現金產生單位。此外,本集團的汽 車液化天然氣加氣站遭受經營虧損。 本集團管理層已發現減值跡象,並已 將該等資產撇減至其可收回金額人 民幣28.402.509元,該金額按其估計 公允價值減出售成本計量。管理層採 用成本法估算該等資產的公允價值。 估值模型考慮了收購或建造具有可比 效用的替代資產的成本。其後對過時 作出調整,其中包括實際損耗以及功 能及經濟性過時。該等資產的可收回 金額所依據的公允價值被歸類為公 允價值層級項下的第3層級計量。所 使用的主要不可觀察輸入數據包括 重置成本、過時及實際損耗。

(Continued)

The assets that were impaired by the Group during the year ended 31 December 2023 included buildings used specifically to serve the HBIS Tangshan branch of HBIS Co., Ltd., the controlling shareholder of the Company and a major customer of the Group, within one of the Group's CGU. Following the customer's relocation, the relevant assets had no further alternative use and could not be transferred to a different CGU. Accordingly, management of the Group assessed their recoverable amount with reference to their fair value less cost of disposal as level 3 measurement using the market approach. Given there was no available market for the relevant assets, management determined the fair value to be RMBNil.

Owing to the continued implementation of the relocation plan, the management evaluated the Group's production plan and identified the impairment indicators for certain machinery and equipment at the headquarter plant and the iron-making branch plant under Tangshan Tangsteel Gases Co. Ltd., a wholly-owned subsidiary of the Company. Certain property, plant and equipment used specifically to serve a particular customer had no further alternative use and could not be transferred to a different cash generated unit. In addition, the Group's automobile LNG filling station suffered an operation loss. Impairment indicators were identified by the management of the Group and these assets were written down to their recoverable amounts of RMB28.402.509, which were measured based on their estimated fair value less cost of disposal. Cost approach was adopted by the management to estimate the fair values of these assets. The valuation model considers the cost to acquire or construct a substitute asset of comparable utility. Adjustment is then made for obsolescence, which encompasses physical deterioration as well as functional and economic obsolescence. The fair values upon which the recoverable amounts of these assets were based are categorised as a Level 3 measurement under fair value hierarchy. Key unobservable inputs used included replacement cost, obsolescence, and physical deterioration.

(d) 本集團應用國際財務報告準則第9號的 簡化方法計量預期信貸虧損,該方法 規定預期全期虧損於初始確認起確認。 預期虧損率乃以相關客戶的付款組合及 相應的過往信貸虧損為基準。過往虧 損率已予以調整,以反映影響客戶結算 應收款項能力的目前及前瞻性宏觀經濟 因素資料。於2024年12月31日及2023 年12月31日,虧損撥備準備釐定如下: The Group applies the IFRS 9 simplified approach to measuring expected credit losses, which requires expected lifetime losses to be recognised from initial recognition. The expected loss rates are based on the payment profiles of related customers and the corresponding historical credit losses. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The loss allowance provision as at 31 December 2024 and 31 December 2023 is determined as follows:

TTG recorded this amount as right of use assets in its statement of financial position, and amortized them on a straight-line basis over the 30year period, and correspondingly credited "other reserves" under equity since the use rights were considered as HBIS Company's capital contribution to TTG.

(d) *(Continued)*

With respect to the Company, the Company made cash contribution and entered into an interest free long-term loan arrangement with TTG in 2007, with a total principal amount of RMB72,068,600. The term of the loan was 30 years and shall be automatically converted into TTG's paid-in capital upon the transfer of HBIS Company's plants and buildings to TTG as described above. In the Group's corporate restructuring in 2015, the Company transferred its right on the loan to CGI at Nil consideration. Based on the contractual terms and the commitment made by CGI, management concluded that the loan did not meet the definition of financial liability and recorded the amount in "other reserves" in equity in the consolidated statement of financial position as at 31 December 2015.

In December 2018, the Group entered into agreement with CGI to early terminate the above loan agreement and both parties agreed that the loan would be fully settled with a cash repayment of USD 9.65 million (equivalent to RMB66,667,025) by TTG to CGI. The repayment was recorded as a reduction in the balance of other reserves.

Concurrent with the early termination of the loan agreement between CGI and TTG, TTG and HBIS Company entered into an agreement to early terminate the above Building Use Agreement and entered into a new Assets Use Agreement whereby TTG will pay rental fees to HBIS Company for the use of the plants and buildings going forward. Accordingly, TTG wrote off the unamortised balance of the right of use assets with the amount of RMB44,041,922 at the time of the termination, with the same amount being reduced from the balance of other reserves.

36. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks which result from the use of financial instruments in its ordinary course of operations. The financial risks include market risks (mainly foreign currency risk and interest rate risk), credit risk and liquidity risk. Details of these financial instruments are disclosed in the notes below. The Group's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The directors meet regularly to identify and evaluate risks and to formulate strategies to manage financial risks on timely and effective manner. The risks associated with these financial instruments and the policies applied by the Group to mitigate these risks are set out below.

(a) Credit risk

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instrument and cause a financial loss to the Group.

The Group's credit risk is primarily attributable to its trade receivables, other receivables and cash and cash equivalents. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

The Group does not obtain collateral from the counterparties. At the end of reporting period, the Group has a certain concentration of credit risk as 89% (2023: 97%) and 90% (2023: 98%) of the total trade receivables was due from the Group's largest customer and the five largest customers respectively.

於2024年12月31日計提貿易應收款項減值撥備人民幣 26,577,192元(2023年:人民幣 23,498,770元)。

本集團管理層亦評估了所有可 用的前瞻性資料,包括但不限 於行業的預期增長率和預期的 後續結算,並得出結論認為信 貸風險並無大幅增加。

36. FINANCIAL RISK MANAGEMENT (Continued)

(a) Credit risk (Continued) Trade receivables

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. To measure the ECLs, the trade receivables have been grouped based on shared credit risk characteristics and the days past due. The ECLs on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor, current market condition in relation to each debtor's exposure. The ECLs also incorporated forward-looking information with reference to general macroeconomic conditions that may affect

the ability of the debtors to settle receivables.

An impairment provision of RMB26,577,192 (2023: RMB23,498,770) for trade receivables was made at 31 December 2024.

The management of the Group has also assessed all available forward-looking information, including but not limited to expect growth rate of the industry and expected subsequent settlement, and concluded that there no significant increase in credit risk.

36. 財務風險管理(續)

(a) 信貸風險(續) 貿易應收款項(續)

於2024年12月31日,本集團貿 易應收款項約89%(2023年: 97%)來自河鋼集團有限公司及 其附屬公司、合營企業及其各 自的聯繫人(統稱「河鋼成員集 **圆**」)。鑒於與河鋼成員集團的 業務關係穩固及其良好聲譽, 管理層預計不會因河鋼成員集 團 不 履 約 而 诰 成 仟 何 重 大 損 失。通常授予本集團客戶(包括 河鋼成員集團)的信貸期不超過 180天, 並且會根據客戶的財務 狀況、過往經驗和其他因素評 估此等客戶的信貸質量。鑒於 應收款項的收款往績良好,管 理層認為,本集團未結算貿易 應收款項餘額不涉重大信貸風 險。此外,於2024年及2023年 12月31日, 並無發現任何重大 不利的現狀及預測未來經濟狀 況。

其他應收款項

其他應收款項的預期信貸虧損 模型概述如下:

初始確認時並無出現信貸減值 的其他應收款項分類為「第一階 段」,而本集團持續監控其信貸 風險。有關預期信貸虧損乃按 12個月基準計量。

36. FINANCIAL RISK MANAGEMENT (Continued)

(a) Credit risk (Continued) Trade receivables (Continued)

As at 31 December 2024, approximately 89% (2023: 97%) of the Group's trade receivables were due from HBIS Group Co., Ltd. and its subsidiaries, joint venture and their respective associates (collectively the "HBIS Group"). Given the strong business relationship with the HBIS Group and its good reputation, management does not expect that there will be any significant losses from non-performance by HBIS Group. The credit period granted to the Group's customers, including the HBIS Group, is usually no more than 180 days and the credit quality of these customers is assessed, which takes into account their financial position, past experience and other factors. In view of the sound collection history of receivables due from them, management believes that the credit risk inherent in the Group's outstanding trade receivables balances due from them is not significant. In addition, there was no significant unfavourable current conditions and forecast future economic conditions identified as at 31 December 2024 and 2023.

Other receivables

ECLs model for other receivables are summarised below:

Other receivables that are not credit-impaired on initial recognition are classified in "Stage 1" and have their credit risk continuously monitored by the Group. The ECLs are measured on a 12-month basis.

36. 財務風險管理(續)

- (a) 信貸風險(續) 其他應收款項(續)
 - 倘發現自初始確認以來信 貸風險(定義見下文)出現 大幅增加,則該金融工具 被撥往「第二階段」,惟尚 未被視為出現信貸減值。 有關預期信貸虧損按全期 基準計量。
 - 倘金融工具出現信貸減
 值,則該金融工具將撥往
 「第三階段」。有關預期信
 貸虧損按全期基準計量。
 - 倘於第一階段及第二階段,利息收入乃按賬面總值(未扣除虧損撥備)計算。倘金融工具其後出現信貸減值(第三階段),本集團則須於其後報告期就金融資產的攤銷成本(賬面總值扣除虧損撥備)而並非賬面總值使用實際利率法計算利息收入。

於2024年及2023年12月31日, 其他應收款項總額未計提撥 備,因為根據以往的信貸記錄 和其他應收款項的性質,本集 團認為其他應收款項減值的影 響並不重大。

36. FINANCIAL RISK MANAGEMENT (Continued)

(a) Credit risk (Continued) Other receivables (Continued)

- If a significant increase in credit risk (as define below) since initial recognition is identified, the financial instrument is moved to "Stage 2" but it not yet deemed to be credit-impaired. The ECLs are measured on lifetime basis.
- If the financial instrument is credit-impaired, the financial instrument is then moved to "Stage 3". The ECLs are measured on lifetime basis.
- At Stages 1 and 2, interest income is calculated on the gross carrying amount (without deducting the loss allowance). If a financial instrument subsequently becomes credit-impaired (Stage 3), the Group is required to calculate the interest income by applying the effective interest method in subsequent reporting periods to the amortised cost of the financial asset (the gross carrying amount net of loss allowance) rather than the gross carrying amount.

As at 31 December 2024 and 2023, no provision was made against the gross amount of other receivables because the Group considered the impact of the impairment of other receivables to be insignificant based on past credit history and the nature of other receivables.

(c) 利率風險

利率風險與由於市場利率變動 而導致金融工具的公允價值或 現金流量發生波動的風險有關。 本集團的利率風險主要來自現 金及現金等價物。以浮動利率 計息的借款使本集團面臨現金 計息的借款使本集團面臨公允 價值利率風險。

倘現金及現金等價物的利率 上調50個基點,則截至2024 年及2023年12月31日止年度的 除所得税前溢利應分別增加 約人民幣919,424元及人民幣 1,013,088元。

36. FINANCIAL RISK MANAGEMENT (Continued)

(c) Interest rate risk

Interest rate risk relates to the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk primarily arose from cash and cash equivalents. Those carried at floating rates expose the Group to cash flow interest rate risk whereas those carried at fixed rates expose the Group to fair value interest rate risk.

If the interest rate of cash and cash equivalents had been 50 basis points higher, the profit before income tax for the years ended 31 December 2024 and 2023 would have been approximately RMB919,424 and RMB1,013,088 higher, respectively.

(d) 外匯風險

外匯風險是指金融工具的公允 價值或未來現金流量因匯率變 動而波動的風險。本集團主要 通過中國境外業務產生其他應 付款項以及現金及現金等價物 (以與其相關業務的功能貨幣 以外的貨幣計值),承受外匯風 險。

導致有關風險的貨幣主要為美 元及港元。本集團並無使用衍 生金融工具對沖其外匯風險。 本集團定期檢討其外匯風險, 且認為並無面臨重大外匯風 險。

36. FINANCIAL RISK MANAGEMENT (Continued)

(d) Foreign currency risk

Foreign currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group is exposed to foreign currency risk primarily through operation outside PRC which give rise to other payables and cash and cash equivalents that are denominated in a currency other than the functional currency of the operations to which they relate.

The currencies giving rise to this risk are primarily USD and HKD. The Group does not use derivative financial instruments to hedge its foreign currency risk. The Group reviews its foreign currency exposures regularly and considers no significant exposure on its foreign exchange risk.

The following table indicates the approximate change in the Group's profit before income tax in response to reasonably possible changes in the foreign exchange rates to which the Group has significant exposure at the end of reporting period. The sensitivity analysis includes balances between Group companies where the denomination of the balances is in a currency other than the functional currencies of the lender or the borrower. A positive number below indicates an increase in profit and other equity where the USD strengthens against the relevant currency, there would be an equal and opposite impact on the profit and other equity, and the balances below would be negative.

(d) Foreign currency risk (Continued)

The stated changes represent management's assessment of reasonably possible changes in foreign exchange rates over the period until the next annual reporting date. Results of the analysis as presented in the above table represent an aggregation of the effects on each of the group entities' profit for the year and equity measured in the respective functional currencies, translated into RMB at the exchange rate ruling at the end of reporting period for presentation purposes. The analysis excludes differences that would result from the translation of the financial statements of foreign operations into the Group's presentation currency.

(e) Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividends payment to shareholders, return capital to shareholders or obtain new bank borrowings. No changes were made in the objectives, policies or processes for managing capital during the year.

As part of this review, the directors of the Group consider the cost of capital and the risk associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through issuance of new shares as well as the addition of new borrowings.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as total debt divided by total capital. Total debt consists of total borrowings, as well as lease liabilities (including "**current and non-current**" items as shown in the consolidated statement of financial position).
