The substantial YoY increase in the sales volume of camera module products for other fields was mainly attributable to the substantial YoY increase in the sales volume of camera modules used in the Internet of Things (IoT) and smart vehicles, as well as the Group's market share gains in such fields.
2. The MoM decrease in the total sales volume of fingerprint recognition module products was mainly attributable to the customers' project cycle, while the significant YoY increase was mainly attributable to the market share gain in the fingerprint recognition module business of the Group.
