VOLUNTARY ANNOUNCEMENT
UPDATE ON BUSINESS DEVELOPMENT

This announcement is made by iMotion Automotive Technology (Suzhou) Co., Ltd. (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis to keep the shareholders (the "**Shareholders**") and potential investors of the Company informed of the latest business development of the Group.

The board (the "**Board**") of directors (the "**Directors**", and each a "**Director**") of the Company is pleased to announce that, the Group has recently entered into a preliminary cooperation agreement with Shenzhen D-Robotics Co., Ltd. ("**D-Robotics**"), a subsidiary of Horizon Robotics, to jointly develop the iMotion iRC100 robotic controller (the "**iRC100**") based on D-Robotics' RDK S100P Robot Development Kit. This initiative aims to provide customers with mature and reliable integrated hardware and software solutions for intelligent robotics. Specifically, the iRC100 will deliver a full-stack solution encompassing: hardware design and manufacturing; basic software systems; middleware frameworks; and AI model deployment capabilities. The solution supports customizable configurations for both comprehensive functional deployments and foundational hardware/software environments, tailored to specific customer requirements.

This collaboration deepens the Group's long-term strategic partnership with Horizon Robotics and marks the Group's expansion into the field of embodied intelligence master controllers. It accelerates the establishment of a dual-track product strategy covering core components and application solutions for embodied intelligence. The initiative will be executed by iMotion Robotics (Suzhou) Co., Ltd. (艾摩星機器人(蘇州)有限公司), the Group's wholly-owned subsidiary dedicated to robotic research and development and commercialization.

The Group will actively promote the above-mentioned research and development projects. Due to the risks and uncertainties in the research and development process of iRC100, the Company will actively work on product research and development. Meanwhile, the Group will strengthen risk management and control to minimise the risks that may arise from market fluctuations.

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the securities of the Company.

By order of the Board
iMotion Automotive Technology (Suzhou) Co., Ltd.
SONG Yang
Chairman of the Board and Executive Director

Hong Kong, July 21, 2025
